The Senatorial Election.

Tuesplar, Feb, 13.—Upon the re-assembling of the joint convention the hall of the House was crowded to its utmost capacity. The real work of the convention was at once commenced. One ballot was taken and resulted as follows: Whole number of votes cast 116: h whole number of votes cast 110; necessary to choice, 59; Thomas W. Ferry, 44; Byron G. Stont, 23; Henry Chamberlain, 14; Edwin Willita, 9; Julius C. Burrows, 8; Thos. W. Palmer, 4; Byron M. Cutcheon, 9; John S. Newberry, 3; Edward S. Lacey, 2; Perry Hannah, 1; Wm. P. Wells, 2; Geo. V. N. Lothrop, 1; Chas. S. May, 1: Byron J. Hoyt, 1.

WEDNESDAY, Feb. 14.—The sessions of the joint convention to day were more largely attended than at any time since the senatorial contest began. Seven ballots were taken, in the hopes that this question might be decided. But the hopes were in vain. An effort was made to withdraw Ferry's name, but when the proposition was voted apon, it was defeated. In the evening a large and enthusiastic caucus was held, and at the hour of adjournment all seemed confident that to-morrow's battoting would settle this much-meeted question. The results of the ballots cast to day are:

A Move Forward.

In his address at the annual meeting

on the Illinois State Bar Association last month Mr. Charles C. Bonney, presi-dent of the association, made this em-

phatic and manly declaration. "The

greatest obstacles in the way of the

prosperity of the legal profession; the

most serious hindrances to their useful-

ness; the sources of greatest jury to their

clients; the causes of deepest dissatisfac-

tion and prejudice, are the delays, un-

certainties and expenses of legal pro-

ceedings. The losses and the anxieties

ly allowed to take out of the scales of

justice. A client who has followed, a

ust cause from court to court and

through trial after trial, seeing verdicts

is very likely to conclude that any settle-

yers and clients demand, is that litiga-

eral measures of reform and among

them these: 'Let the law declare that

no one shall be heard in a court of jus-tice except upon the condition of sub-

mitting both to do and to receive sub-

RATHER COOL. Gen. Hazen met a decided rebuff to his request for a Scuate investigating committee. Secretary Lincoln gave him to understand that the war department could manage its own affairs without investigation by congress.

WANTS TOGGET RID OF THE LOUBTISTS. In the executive session of the Senate on the 15th, Mr. Edmunds called attention to, alleged abuse of privileges of the floor of the Senate by lobbyists and others, who through Induigences and favors had been in the habit of obtaining cards of admission, ostensibly as secretaries. With a view to correcting this evil Mr. Ed-I intertwent the following resolution: Ordered, That no person shall be admitted to the floor as a private secretary by a senator until the senator appointing him shall certify in writing to the sergeaut-at-arms that he is actually employed for the performance of the duties of such secretary and is engaged in the performance of the same. No action was taken,

THE HOOKMAKERS HAVE A WORD TO SAY. Sepator Morrill of Vermont presented a remonstrance in the Senate a few days ago, sign-ed by Oliver Wendell Holmes, John G. Whittier and T. B. Aldrich, against any reduction of the tariff upon books below 25 per cent. These writers claim: 1. That the prosperity of authors is closely connected with the prosperity publishers, who are their agents in manufacto occupy the American market with bloks written and made abroad at a lower rate than those which serve professional uses, such as reports of courts and school books. 5. Thus higher literature will be discouraged and the great-

by foreign authors instead of by men and worn-en of their own nation. ROBERT'S IDEA. In speaking of Berdell's willingness to turn informer in the star route trial, Col. Ingersoll, says he has no fear that anything Berdell may

say will have any effect whatever. VARIOUS CIVIL EXPENSES.

carried to an extent which has in some instances resulted in patenting to speculating parties as high as 40,000 acres of land. In one instalice in Dakota one man alone has taken up 17,000 acres. The amounts recommended in the bill for continuing and completing work on public buildings under the Treasury Department are in part as follows:

Topeka Council Bluffe | Council Bluis | 370,500 |
Dallas	25,000
Denver	40,900

Jenkins, a rival practitioner but old friend. He found Jenkins, accused him of sending it. and without waiting reply shot him fatally.

WHAT MORE COPUD HAVE BEEN EXPECTED.

A reporter of a New York paper while about his duties on the night of the 15th inst., brushed against an inchriated couple, and in a passing glance at the face of the woman, who was richly attired in silks and velvets, he recognized her as Blauche Douglass, who less than a year ago stood at the bar of a New Haven court charged jointly with the two Malley boys with the murder of the unfortunate denute Cramer. Blanche's face showed the marks of prolonged dissipation. Since her acquittal sheet made, it is hoped the list will not be increased. has been leading her old fast life, though it is prescouraging. claimed Walter Malley has done all he could to reclaim her. She is seen nightly in company with the most abandoned of both sexes.

For accepting a present of \$4,000 from an

insurance company Jalius L. Clarke, insurance commissioner of Massachusetts, has been compelled to resign and N. A. Plympton, treasurer of the democratic state committee, has been appointed in his place.

Another Horror.

Reports have been received of an appalling mine disaster at Braidwood, a little town 20 miles south of dollet, Ill. A land slide occurred, closing one of the shafts and buried all who were is it: about 68 men and six boys. About 2,000 men ralled to the rescue, and began excavating and pulliving as fast as the nature of the shaft would permit. The cause of the disaster was curious and perhaps unprecedented Water to the depth of three of four feet had accumulated on the surface of the land over the mine and its enormous weight caused a land slide or cave in of nearly 90 feet square. It is known that all the different windings of the prine are filled full, of water, as it now stands within five feet of the top of the main shorts borty five of the lost miners leave families. Nothing whatever can be done to pump the mine out as water from all the surrounding country drains, into this. The manager of the Wilmington coal company is on the ground with the necessary pumping apparatus, but nothing can, be done until a dain is built to stop the further influx of the water. All agree that the accident was unavoidable. The mine was timbered in the proper way, and during its entire history there has never been any attempt at economy in anything that would irod to insure the safety of the workmen.

STORY OF AN PAR WITNESS Joan Huber, an eye witness of the whole af-fair, tells the following story: I was working in one of the west rections of the main corrifor and had just got my car ready for transfer A mong the items in the new river of publishers, who are their agents in manufacturing, advertising and selling the books which significantly and hard a voice which sounded fail the siled was full of horses and at the time of the accident only one ream was huched there. The building fell in such a manner that the horses were imprisoned, but were taken thereof.

All kinds of manufacturing establishments have saut down.

A RELIEF FUND.

The legislature has authorized a relief fund The legislature has authorized a relief fund of \$100,000, so the city will be provided for sawell as it can be under this great cloud of adversity. School houses in the flooded districts have been closed, and the rooms thrown open to sufferers. Relief committees are looking after the needy and placing them in confictable quarters. Relief contributions are arriving from various elities. arriving from various cities.

THE WAL NOT LET

The gleam of hope that brightened the city of Cincinnation the 18th (nst., has been again o'ercast by a cloud of greater intensity. On the morning of the 14th the rain began falling again, and the river continued to rise rapidly. Business chas been entirely suspended, and every effort is being made to relieve the suffering formed on every hand.

Many cases of extreme destitution ass reported by the relief boats, and in some cases the franticeries of starving children for food are heart-rending. Bakeries not inundated are present to the fullest expectly to keep a supply of bread.

PRANS OF A MEAT PAMINE. There have been fears of a meat touche account of the difficulty of receiving livesto but several thousand rescued distillery can be utilized in case of necessity.

TWELVE LIVES LOST.

An authentic secount concerning the loss of life at the Claciment southern depot has been made. It is now known that 12 lives were lost, and no other ri ports of missing having been

The river is now nearly 67 feet high and rising steadily. Railroads are idles business of every nature at a stand still. Not a steamer running, there being no place for them to laud The works of reliet have gone on vigorously, and many fouching scenes were witnessed. before extending help, but have taken stell to prevent suffering. The gratitude of the recipients cannot be told. The relief committee, composed of leading citizens, attend personally to the work, remaining all day at the office or going out with relief beats. The work is done most thoroughly and promptly.

INCIDENTS OF THE PROOF. Among the medients of the flood was the finding of a baby asleep in its crib in a house floating at Fern Banks, below the city. The little wait was rescued and taken care of by the Catholic orphan society.

At Cleveland, Ohio, another flood is feared. Every precaution is being taken. Men auchored their lumber fast. The ice and drift-wood which obstructed the river at various points, was blown up with dynamite, thus al-

fording free passage for the water. AT JEFPERSONVILLE, IND., the suffering is terrible. A dispatch of the 14th says: The city is Booled with water from two to twenty feet deep. Five thousand peothey had on earth. A large number of cottage they had on earth. A large number of cottage houses in the lower part of the city are swept away. Hundreds of people are quartered in second stories of public buildings and business houses: Food is sent to them in skills. The fifth from hundreds of privies is floating upon the raging waters. The scenes of suf-fering are appalling. It is still raining and the river is rising. The loss will reach over

VAT LOUISVILLE, KY The river is stationary, and rain atal falling. The city is in darkness, the gas works being out of order. No further casualties have been reported, nor additional loss to property. Conthibutions to the relief fund continue to come in, and there is no danger of suffering for want

of food or clothing. The river is still rising. The loss here will reach \$1,000,000. Over 8,000 people are homeless, 1,200 houses are entirely submerged, and more than 100 houses are entirely swept sway. Congress, legislature and the people have been appealed to for ald.

ATLAPAYETTE, IND., the Wabsah is higher than ever known before. Bridges are torn sway, and the amount of suffering and damage it is, impossible to estimate.

THE VERBICT.

There was silence in the court room, Like the silence of the grave, Ere the foreman gave the verilet. Would it ruin! Would it save!

Many an anxious heart was beating Doubtful whether it would thrill With compassion or with gladners; And the prisoner's heart stood still.

In his hands his face was hidden, Waiting for the fateful word That proclaims all hope forbidder, Or the treedom of a bird.

And he thought-of what avails it-What the value of good name t does not aid to save me From a life henceforth of shame?

Twas to him a day of judgment, ____.

Like to that which waits us all, When the trumpet of the angel From their graves the dead shall call.

and we stand—twelve solemn jurors— We the only self-possessed; Ready to reveal the secret Frembling yet within our breast.

Then the foreman spake: "Not guilty!" And the young man ra sed his head; And he looked a child of beauty Rising, weeping, from the dead.

Bilence reigns again-a moment; Shence of a gladsome awe; Of relief from all who saw.

Said the judge: "Discharge the prisoner!" Scarce-concealing his own joy, And the walting, weeping lather Clasped again his rescued boy.

And the boy went forth acquitted," Feeling that the sage of bid Well declared a good name better.
Than all coffers filled with gold.

CONSCIENTIOUS MA. WOOD

N. Y. Ledger.

Eliab Woodrows conscience troubled him. It was always troubling somebody. He had been two months a stepfather without having once applied the rod of correction to his little step-son, all Georgie's life and love of form, the watchful step-paternal eye-had' so far failed to find a decent pretext for whip-

One morning he went out, leaving, as it happened, a five dollar note on the library table. Little Georgie was in the room busy with the lessons set him to be learned by Mr. Woodrow's return. This happened sooner, at least George thought so than usual; and feeling that he could finish his studies better elsewhere than under Mr. Woodrow's disconcerted eye, he guthered up his books and started out.

"Come back!" called Mr. Woodrow. in a sterner tone than he had ever used

"Who was in this room in my ab-"I was, sir," Georgie answered timid

"Any one else?"

"N-no-let me see-yes-I think Uncle Jeffrey was, but I didn't take much notice.

"theorge." Mr. Woodrow spoke slowly, with his eyes fixed intently on the boy's - "I left a bank-note on that table. It is missing; do you know what

There was that in the questioner's manner which, more than his words, made the hot blood fly to Georgie's face. He felt instinctively that he was the object of a foul suspicion. Steadying his lips, he said, in a voice as firm and distinct as Mr. Woodrow's own:

I will hear your lessons now," said Mr. Woodrow, with ominous calmness. He reached out his hand for Georgie books, and from the very first he opened dropped the missing note!

Georgie's face turned white. His knees shook, and, for a moment it seemed as if he would sink through the floor. Then, in a pitiful wail, came the words: "Indeed!-indeed!-I do not know

Mr. Woodrow smiled incredulously, but his voice sounded almost affectionate as he said:

how it got there!"

"We'll postpone the lessons for to-day Georgie. My first duty is to punish

"But I am no thief! - I did not steal Ido not know how it got in my book!" pleaded Georgie, wildly and

"Oh! mamma! mamma!" he cried, running to his mother as she entered; he says I stole his money. He is going to beat me!-save me!-tell him it is not true!"

.... Would gladly have spared you thin painful scene, Mary, said Mr. Woodrow, in a tone tenderly pathetic; "but when you have heard me. I am sure will approve what I propose do-

facts. When he had finished, the case bar led by a dog attached to a string looked astonishingly clear almost as and anxious to excite the laughter of

acknowledged his guilt. But while he man, opening his eyes, collared the great worth has been shown not brazens it out, your own judgment was by the neck and thrashed him must tell fou there is but one course to soundly with his stick. He then quicktake to save the boy from ruin."

" Ch! Georgie! Georgie!" appealed his mother, "confess your fault! Your father will then the boy indignantly

broke in-"my father would never have believed I was a thief! Oh! mother, sure-'ly you do not!"

For an instant his mother's hear will their walls with more of the riches wavered. Georgia had always neen a of our own rivers, lakes, vales and truthful boy; and in the face of all the mountains

facts, there was something in the eves. turned beseechingly to bers, that she could hardly believe was not the look of innovence. But a glance from herhusband changed the current of her thoughts, and again she urged Georgia

Not another word of pleading or of protest passed his lips. He stood in sulleh silence.

"Go, Mary, and leave him to me," said Mr. Woodrow with mildesuavity: you know I shall perform my duty conscientiously.1

The mother turned away reluctantly and Mr. Woodrow and his step-son were

We have no wish to dwell on what followed. Seizing Georgie by the arm, the strong man dealt brutal, blow after brutal blow with his heavy riding-whip. The boy's flesh writhed and quivered unnot one cry was uttered.

""I shall repeat this every day till you confess," said Mr. Woodrow, sinking into a chair exhausted. ... "Go now."

This treatment improves the color premiership, and is hard at work forming a his own horsewhip.

Weary months and then years passed, but brought no tidings of the ship on which Georgie sailed. She was finally given up for lost with all on

Mr. Ross, Georgie's father, had died leaving a handsome property to which Georgie was heir, subject to his mothinterest; and not long after, being in declining health, she made a will leaving all to her "beloved husband, Eliab

Three years after her second marriage. Mrs. Woodrow died leaving an infant daughter and her said beloved husband, with a fine estate to console the latter's

More years passed, and Florence Woodrow grew into a tall and comely muiden. Her father planned for her what he called a suitable marriage with looked several years older. Florence for herself. Eliab Woodrow's con! science was much too tender to overlook so flagrant an act of filial disobedience He called in his lawyer and made a will, disinheriting his child in favor of some miscalled charity, so trammeled with impossible conditions that nobody could ever possibly be the better for it. And when misfortune pressed sorely on his daughter, and her husband died leaving her and a young babe destitute, and she appealed to her father's charity, he spurned both child and grandchild from his door, and closed it in their faces.

His conscience was in the height of its approval of this crowning act of justice, when his meditations were disturbed by the appearance of a stranger.

Eliab Woodrow needed no second glance to recognize the stern, determined man who stood before him to be George Ross, in right and law the master of the house in which they were, and of all the wealth he had esteemed his

"I have learned vour treatment of my sister." said George, "and it would but just to drive you hence as you did her. Nor shall it be due to me that you meet a milder fate. I purpose dividing my fortune with my sister, and it is to her bounty you must look to shield you from beggary.

George Ross kept his word, and Eliab Woodrow, on a moderate pension allow ed him by his daughter, now lives re-

tired with his conscience. The above quotation from the New York Tribune is causing considerable from a subject that has become of National importance. The alarming increase of kidney diseases; their insidious beginnings and frightful endings and the acknowledged inability of physicians to auccessfully cope with them may well awaken the greatest dread of every one who has the slightest symptoms. It is fortunate, however, that the surest-relief is often found where, possibly, least expected, and that there is a specific for the evils above described we have come to fully believe. Within the past two years we have frequently seen statements of parties claiming to have been cured of serious kidney troubles even after hope had been abandoned; but in common with most people we have discredited them. Quite recently, however, a number of prominent and well-known men have come out voluntarily and stated over their signatures that they were completely cured by the use of Warner's Safe Kidney and Liver Cure. Most people have been aware that this medicing has an unusual standing and one entitling it to be classed in checking the ravages of kidney disonly by the cures it has effected but also because a number of base imitations have appeared in the market. fraudulently claiming the valuable qualities of the original Safe Cure. If it were not valuable, it would not be imi-

The above may seem like an ultra en. dorsement of a popular remedy but it is not one whit stronger than the facts admit. Whatever assists the world to-

ward health and consequent happiness, should receive the hearty; endorsement of the press and all friends of humanity. It is on precisely this principle that the foregoing statement is made and it merits the careful consideration of every thinking reader.

THE HOUSEHOLD.

Make Home Pleasant.

Have your houses warm and comfortfeel in the morning as though only a far better than none. Have books, have papers and read them. You have more feisure hours than the dwellers, in the city. Beautify your grounds with plants and flowers and vines. Have good garple bosom is thrilled with the amorous kisses of the sun, tends to put a blossom. Every flower about the house certifies to the refinement of somebody. Every Iv meant to assure her of his safety: than one-third the actual deaths from vine, climbing and blossoming, tells of non-conductor of heat.

Facts About Flour.

American Miller.

Flour is peculiarly sensitive to atmospheric influences; hence it should never be stored in a room with sour-liquids. nor where onions or fish are kept, nor are liable to heat. Flour should be sifting. This treatment improves the color. and baking properties of the dough. new French ministry. The sponge should be prepared for the oven as soon as the yeast has performed its mission otherwise fermentation sets in and acidity results.

A NICE TOMATO DISH.—One of the nicest and simplest ways of dressing tomatoes is to cut them in halves, lay them in a baking-dish, cover each piece with some bread crumbs, a little pepper and salt, and some finely-chopped parsley, pour a little oil over, and bake in a good

The impressions of religion are so cream occasionally until cold then serious thoughts about it.

Theodore Parker on Marriage.

Men and women, says Theodore Parker, and especially young people, do not know that it takes years to marry completely two hearts, even of the most loving and well-sorted. But nature allows no sudden change. We slope very gradually from the cradle to the summit of life. Marriage is gradual, a fraction of us at a time....

A happy wedlock is a long failing in love. I know young persons think love belongs only to brown hair and plump, round, crimson cheeks. So it does for its beginning, just as Mount Washington begins at Boston Bay. But the golden marriage is a part of love which the bridal-day knows nothing of.

. Youth is the tassel and silken flower of love, age is the full corn, ripe and solid in the ear. Beautiful is the morning of love with its prophetic crimson, violet, purple, and gold, with its hopes of days that are to come. Beautiful also is the evening of love, with its glad. remembrances, and its rainbow side turned toward heaven as well as earth.

Young people marry their opposites in temper and general character, and such a marriage is generally a good one. They do it instinctively. The young man does not say: "My black eyes require to be wed to blue, and my overvehemence requires to be a little modified with somewhat of lullness and reserve." When these opposites come together to be wed they do not know it, but each thinks the other just like him-

Old people never marry their oppo sites; they marry their similars and from calculation. Each of these two arrangements is very proper. In their long journeys these opposites will fall out of the way a great many times, and both will charm the other back again, and by-and-by they will be agreed as to the place they will go to and the road they will go by, and become reconciled. The man will be nobler and larger for being associated with so much humanity unlike himself, and she will be a nobler woman for having manhood beside her that seeks to correct her deficiencies. and supply her with what she lacks, if

The old bridegroom, having a madely shorter journey to make, must associate himself with one like himself. A verfect and co. lete marriage is, perhaps, as perfect personal beauty. Men and women are married fractionallynow a small fraction, then a large frac-

Very few are married totally, and they only, I think, after some forty or Ifty years of gradual approach and excitement. Such a large and sweet fruit is a complete marriage that it needs a winter to mellow and season. But a real happy marriage of love and judgment between a man and woman is one of the things so very handsome that if the sun were, as the Greek poets fabled; a god he might stop the world in order to feast his eyes with such a spectacle.

The Degradation of Labor in England.

In the Black Country, within seven miles of the city of Birmingham, 24,000 people are engaged in making nails and rivets. About 16,000 of these opertives are females. A writer in the London Standard, who visited this center of English industry not long ago, draws a vivid picture of the poverty and distress there witnessed. He says:

"In the middle of a shed which adjoins a squalid-looking house there is a whole family at work in the production of the pairs; father, mother, sons and daughters—daughters, too, very young in years, but with that sad look of premature age which is always to be noticed in the faces of child-workers. The gayety of youth, its freshness and its gentleness, seem to be crushed out of them. In the center of the shed, with its raftered ceiling—a bleak and wretched building through the walls of which the wind readily finds its way—there is "hearth," fed by "gledes" or breezes. Probably there is a girl or woman blowing at the bellows, while the strips of iron from which the nails are made become molten.

The homes of these unfortunate la borers are said to be dismal beyond description. In many instances "they are more like hovels than human dwell ng places." They are devoid of all ordinary conveniences. They shelter. and that is all, the toilers who for a few short hours, rest within their rickety walls. In nine cases out of ten there is only one room below and two above in ninety-nine cases out of a hundred they are inhabited by large families. How they manage to exist at all in some of the houses is a problem which may well exercise the ingentity of some social philosopher to solve."

As to the wages these people get the same writer says: +

The res. neration they receive is incredibly small. It is no unusual thing-on the centrary, it is rather the usual eustom—for a family of three or four persons, after working something like fourteen hours a day, to earn £1 (85) in a week. But out of this money there has to be deducted 1s 3d for carriage to convey the nails to the 'gaf-fers,' as they are termed in the district; then there is allowance to be made for fuel and the repairing, of the machinery, which reduces the £1 to about 16s 9.1 (\$1 18) for three people—for three monle who have commenced to work every morning at half past 7 or 8,

old and young, men and women and children, are ragged, miserable and Topeka Commonwealth. hopelessly wretched. They seldom or never taste meat from one week's end to another. One workwoman said to the Standard writer: "When bread comes hot from the bake-house oven on Saturday we eat it like Tavenous wolves.' It would be hard to believe that a large class of English working people were in such a condition as here described if the eridence did not come from high English authority.

Probable Reappearance of the "Star of Bethlehem."

Detroit Free Press.

What is known as the "Star of Bethlehem" is the one supposed to have caused the Magi to bend their steps toward Jerusalem, at the birth of jour

In the year 1604 a new star, surpassing Jupiter in brightness, suddenly appeared in the heavens. Mr. Dick describes it as a sparkling star, changing momentarily from one color of the rainbow to another. At the latter part of the previous year there occurred a conjunction of the two largest superior planets, Lupiter and Saturn, in the zodiacal sign of the fishes. In the spring of 1604 they were joined in the tiery trigon by the planet Mars, and in the following September there appeared this morning after the fire: "In a heap in which, after flashing with a bright lighfor a whole year, gradually disappear-

"These remarkable phenomena," says Canon Farrar, Vattracted the attention of the great Kepler, who, from his acquaintance with astrology, knew the immense importance which such a conjunction would have had in the eyes place about the period of our Lord's birth. That any strange sidereal phenomena should be interpreted as the signal of a coming king was in strict ac cordance with their age "So, by calculating backwards, Kepler discovered Atchison the files now contained in the the diversity be not too great, and there that a similar conjunction of Jupiter rooms of the State Historical Society at and Saturn in the sign of the tishes, joined by Mars, happened at a time which must have been about the period of our Lord's birth. That such a combination of planets, joined with a brilliant star, occurred at this period, has been verified by a number of independent investigators: "Such a phenomenon." we are told, "would at once have been interpreted by the Chaldean observers as indicating the approach of some remarkable event, and since it occurred in the constellation Pisces, which was supposed by astrologers to be connected with publishers of the Kansas newspapers esthe fortunes of Judea, it would natura.

> ly turn their thoughts in that direction." We have also the statements of Tacitus, Suctonius and Josephus that there time a concurrent opinion that a monarch was about to arise in Judea and gain dominion over the world. The Magi once arrived at Jerusalem, it is supposed, were finally led to Bethlehem by the appearance of an evanescent star which went before them.

> heavens is expected by one learned professor to appear in Cassiopeia in the autumn of 1887. Prof. Proctor, howtime now blaze out in the region between Cassiopeia and Cepheus.

The New York Code.

Albany Law Journal. ing the provisions of the new Penal Code as to the observance of Sunday; as new and over-strict, apparently forgetful or ignorant of the fact that they are as old as the state. They were enenacted in the Revised Statutes of 1830. Mr. Field has a hard time, blamed on the one hand for enacting the new, and on the other for preserving the old. These provisions have long been a dead racing, cock-fighting, profane swearing etc. We are glad that the large portion of the community who want a quiet and orderly Sunday are determined to make others respect it. There may be some honest difference of opinion about the policy of keeping open livery stables, publishing and selling newspapers, and on Sunday; for it may seem to some, that one ought to be able to get a horse and wagon in case of necessity, and to take a quiet ride or sail for rest andhealth on Sunday, or even to read the news on that day. But there can be no reasonable difference of opinion about v man can spare a few minutes on Saturday to get shaved, or buy his cigars, or he can go to church bearded like the Apostles, or like them without smoking for one day. Of rum shops we have spoken sufficiently: So far as the

The Panther and the Turkey.

Mr. J. G. Watkins, of Henderson, Rusk county, Texas, relates the follow ing story: Among my uncles was only very fond of hunting, and he told-me that, one day, whilst riding along a ker. He had heard all his life that yellow, hue of age, every essential fact small animals, and he supposed that he streets, the building of railroads; fires | gan them to examine the trees for the sunlight, as it moved to and fro from the nearly horizontal trunk of a leaning tree. He had now found, as he supposed, the charmer—a monstrous snake. Changing his position, so as to get a better view of the reptile, he was surprised to discover that the moving object was the tail—not of a shake, but of a huge panther, whose body was flattened out and lying prone upon the trunk of the tree!

It was curiodity, and not the fascina-tion of a basilist that was drawing the turkey to its death... My uncle was not prepared, or not in the mood to encounter the beast, and so he went on, leaving the turkey to its fate. Neither beast nor bird had paid the least attention to him; or had not perhaps, observed him. After some more conversation on the subject, we reached the conclusion that curiosity is the chamber that often leads beasts and birds—and men too—into the jaws of death.

A Reminiscence of the Senate.

Courier Journal Early in the year 1835 an amusing colloquy took place in the Senate between Henry Clay and James Buchanan The latter, when a young man, belonged to the Federal party. He was defending himself against the charge of company of votunteers at the time the British attacked Baltimore, or at the Buchanan-"Yes." Mr. Clay-"Armed and equipped?" Mr. Buchananinform us whether the British retreated in consequence of his valiantly marching to the relief of Baltimore, or whether he marched to the relief of Baltimore in consequence of the British having already retreated." This colloquy, with its unlooked-for ending, was greatly en-

Ingersolion Lincoln.

The following is Col. Robert G. Ingersolt's introduction to a lecture, delivered in Washington by Mr. Kidd, who was once crier of a court in which Abraham Lincoln often practiced laws

···We are to hear this evening a lecture about Abraham Lincoln. Not about Lincoln the president, the preserver of a nation; for about Lincoln the statesman or the liberator, but about Lincoln the lawyer-something about him as he really was before he fell heir to agony and fame -something about his posi-liarities, his habits, his thoughts and common words - that is to say, his daily

"Nearly all the character of history are impossible monsters." We know nothing about their peculiarities, or nothing but their peculiarities. Washingtonis only asteel engraving. About the roots of these oaks there clings none of the earth of humanity. Lincoln had the advantage of living in a new country, of social equality, of seeing in the horizon of his future the perpetual star of hope. He saw and mingled with men of all kinds; and, after all, men are books. He became acquainted with nature-with things; he lived and appreciated the poem of the year.

"It is no advantage to live in secity. The fields are better than paved streets, That the great forests than walls of brick. Oaks and elms are more poetic than the stacks and chimneys of factories. In the country is the idea of home. There you see the rising and setting sun; you become acquainted with the stars and clouds: you hear the rain upon the roof, and listen to the sighing of the wind. Every field is a picture, a landscape; every landscape is a poem, and every

forest is a fairy land. -'You have no idea of how many men are spoiled by what is called 'education.' For the most part colleges are places where bricks are polished and diamonds spoiled. If Shakespeare had graduated at Oxford he might have become a quibbling attorney or a hypocritical parson.

"Lincoln was a many-sided man. He was acquainted with smiles, as well as tears. He was never afraid to ask. He was not too dignified to admit that he did not know. He was not solemn. Solemnity, as a rule, is a mask, hiding the features of ignorance, and whenever a man is too dignified to ask the ceases to learn. Lincoln was a combination of wisdom and shrewdness. He was a logician. Logic is the necessary product of intelligence and honesty. It cannot be learned; it cannot be taught. It is the good child of a good head and a good heart. He had intellect without arrogance, genius without pride, and religion without cant—that is to say, time of the battle of North Point, and humanity without hypocrisy: He was tablished the society, and have always marched to Baltimore. "True," he an orator—that is to say, he was natconstituted almost its entire member- said, the was not in any engagement, ural. He never pretended. He did not say what he thought others thought,

but what he thought. . .. "If you wish to be sublime, you must keep close to the grass. You must sit by the fireside of human experience, of human emotion. Above the clouds it is too "Yes." Mr. Clay—"Will the Senator emotion. Above the clouds it is. too from Pennsylvania be good enough to cold. Too much polish suggests insincerity. If you wish to know the difference between an orator and a speaker, between what is felt and what is said, read Lincoln's 'immortal words at Gettysburg, and then read the speech of Edward Everett. The one gathered flowers from his heart, the other words from his brain. The words of Lincoln will never, be forgottén. The speech of Everett will never be read. The elecutionists believe in the virtue of voice, the sublimity of syntax, the majesty of long sentences and the genius of gesture. Great ideas should be expressed in the shortest words. The greatest statues should have the least

"Nothing discloses real character like the use of power. It is easy for the weak to be gentle. Most people can bear adversity; but if you wish to know what a man really is, give him power. This is the supreme test. It is the glory sought his advice were purely imaginary. of Lincoln that, having almost absolute He found it not only against his own in- power, he never abused it except on the: side of mercy. He would never turn a man out of even the smallest office, and leave a stain upon his name, without having given him full and ample hearsee the tears of joy upon the cheeks of a wife whose husband he had rescued from death.

"He will be known through all the ears as Lincoln the Great, Lincoln tha Gentle, Lincoln the Just."

Entrance at Sunrise: Exit at Sunset

As an example of the extent of the fenced acres in the Territory, your correspondent being this fall with a party of gentlemen in the Indian Territory on a hunting expedition: The party entered the eastern gates of a pasture field at 8 o'clock in the morning, and traveling westward during the day passed. through one of the western gates at 6 o'clock in the evening, and yet this is only one of several large pasture fields in the Indian Territory. It is said that Major Drum alone has sixty miles of fence. The fences are built of cedar posts and three strand of barbed wire. The cattle business of the Indian Territory has grown to immense proportions, there being at present no less than 200-000 head of cattle on the range.

Cool-Headedness.

It would be well if theater goers generally possessed the cool head of General Conrobert. A play was once being acted in a temporary theater, constructed of wood in the camp at Chalons. The house was crammed to suffocation, when a cry of fire made itself heard. Instantly every one rose, and a stampede more dangerous than fire would have commenced when Conrobert, who was in one of the boxes with his wife, cried out in a ringing voice: "Let every one stay ment to crisp them. If the parsley is in his place." The soldiers immediate- put into the fat with any moisture on it resumed: 'Let every one go out quiet- will be great danger of burning the hand ly and in order, the young soldiers first, seriously; but if it is earefully dried the then the older, after them the non-com- operation can be performed with perfect heavy. Generally speaking, the farm missioned officers, then the officers, the wagon that the bear up under a ton highest to go last." In a few minutes, though it was no false alarm of fire, the theater was empty without a single man's toe being trodden upon. The general

A Strange Race.

In her book on Japan Miss Bird described the curious people called Ainos, who live in the province of Soudai and are supposed to be the aboriginal race of the country. They are thickly covered with silky brown hair, and Miss Bird asserts that she saw "two boys dog caused no rables in the former. whose backs were covered with fur as fine and soft as that of a cat." A creature similar in most respects to the sing link" at the Royal Aquarium. London. According to the published accounts she was caught with her parents 200 grains of Chartreuse without exin the forest near Laos by a Norwegian periencing the least symptoms of intoxinamed Bock. When the little one attempted to wander the parents called her back with a plaintive cry, "Kra-o," and that is the name which has since been given to her. The father died a Laos, and the King of Siam retained the mother at Bangkok, but allowed the child to proceed to England. Her eyes are large, dark and lustrous; the nose is flattened, the nostrils scarcely showing: the cheeks are fat and pouchlike, the lower lip only rather thicker than is usual in Europeans; but the chief peculiarity is the strong and abundant hair. On the head it is black a thick and straight, and grows over the forehead down to the heavy evebrows, and is continued in whisker-like locks down the cheeks. The rest of the face is covered with a fine, dark, downy hair, and the shoulders and arms have a covering of hairs from an inch to an inch and a half long. There is, it is said a slight lengthening of the lower vertebræ; suggestive of a caudal protuberance; and there are points in the muscular conformation and otherwise that will provoke discussion. Krao has already picked up a few words of English. She is said to be of a frank, affectionate disposition, and shows truly feminine delight in her elothes, jewelry and ribbons.

"How do you feel, my little man?" asked a youth of his sweetheart's little brother. The young fiend looked up at him sideways, and with a grin responded: 'I feel just as if I'd like to have a dime." He got it, but his prospective brother-in-law now avoids the health auestion./

TOPICS OF THE TIMES.

M. DE BRAZZA has started for the Congo, where Mr. Stanley is said to be waiting "to give him's warm reception." The London Globe announces that the author of "How I Found Livingston" will soon publish a striking narrative entitled: "How I Met De Brazza: in Three Rounds: and the Shocking Sight He Presented When I had Done With

THE Ohio State Meteorological Bureau has under consideration a novel plan for displaying weather signals for the benefit of the farmers between Columbus and Cleveland. Large signal. of different shapes and colors will be placed on each side of the baggage car of the passenger trains of one of the railways leading to Cleveland so that, when the farmers understand the code, they can foretell the probable state of the weather for twenty-four or thirty-

ONLY two months remain before the annual state election in Rhode Island occurs, and yet no state conventions have been held, no canvass is under way, and no candidates are suddenly discovering how black a record they have unknowingly made. Somehow Rhode Island takes its politics much more mildly than the rest of the country. The state gets "all torn up" only about once in a generation. The people seem fully as happy and prosperous, nevertheless.

THE sum of £500 has been offered as a premium by Mr. Ellis Lever of England, to anyone either in or out of the United Kingdom who shall during the present year invest a portable electric or other lamp "which working miners can conveniently carry from place to place in the mine, and which will not, under any circumstances whatever, cause an explosion of gas." Further particulars can be obtained by addressing Mr. Thomas Burt, M. P., president of the Miners' National Union, Newcastle-on Tyne.

THE methods of a disgusting business which has been openly prosecuted in Liverpool for a considerable time, were recently exposed in court. It seems that rival-undertakers have been employing runners to obtain custom, by watching every registrar's office, sometimes from a hired room opposite, sometimes from the sidewalk, and pouncing upon whomsoever visited it to register a death. These brutal importunities might have gone on unchecked if the ranners had been a little more prudent. But they became so numerous and so persistent as finally to obstruct the streets and get themselves indicted as a public nuisance.

Sour recent events have given hope to the friends of certain aspirants for the Presidency that their favorites are growing in popular estimation. The defeat of one or two candidates for the Senate and the course of legislation in Congress are looked upon as significant, and several booms are believed to be in motion. All such speculations are worse than useless. There never was a time, perhaps, when the people gave so little thought to President making as now. If any statesman imagines that all eyes are being turned toward him as the coming man, the quicker he undeceives himself the better. The people propose to wait until the latest moment before making up their minds, so as to take as few chances as possible in the Presidenthal lottery.—N. Y. Tribune.

An epidemic of vandalism is said to be playing the mischief in and about the National Capitol this winter. The colossal statue of Washbotton is reported to be minus a big toe; Roger Williams has lost a little finger, and the Indian woman in the Celumbus group all five fingers of her right hand

Tirk late Professor Pond was once demolishing Darwin and his theories a task which he frequently engaged in when he triumphantly wound up-with the question: "If we are monkeys where are our tails?" The Professor. who had been speaking for two hours at a stretch before asking this poser, was l startled to hear a tired auditor answer audibly: - We have sat on them so long that they are worn off."

Eiver peach grop last summer 's net reflecting, sagagious men.

likely, in the opinion of peach growers, to be repeated the coming season. An examination of the buts shows that they are in excellent condition, and if onethird of the sound ones come to maturity, the crop will be enormous. This satisfactory prospect is largely due to the fact that the orchards have been snugly blanketed in snow all winter.

MR. LANGTRY, the husband of the lady who is now in this country, owns some land in Ireland which an agent manages. This agent recently wrote to him, saying that the tenants, demanded lower reuts and had threatened to resort to shot-gun "policy to obtain compliance with their demand. Mr. Langtry at once wrote back as follows: Dear Sir: You may say to my tenants that any threats to shoot you will never intimidate me.!

Professor Hooks, of the Red House Observatory, Phelps, N. Y., reports that telescopic observation of the sen on the morning of the 12th, revealed an unusual outbreak of spots, covering nearly the entire equatorial region of the sun. In addition to the numerous large sin gle spots, with well defined penumbra, a large, irregular group had just come into view that morning on the eastern limb. With the pumerous faculte in its vicinity and the torn and ragged form of the group, indications are manifest of a considerable solar disturbance, and its passage across the sun should be attentively observed.

M. DUCLERC, lately Premier of France, is an enthusiastic on fruit and flower culture. His rose-garden at Biarritz is one of the great sights of the place. He thinks that but for this hobby he would long ago have become a confirmed misanthrope. When worried with business or state affairs it has been his habit to go for a walk in a garden, or park, or turns home in capital spirits. When he was a young and poor man he cultivated a garden in a small way on the roof of a six-story house, and was so successful there as to win a medal at a flower-

Rules are a very good thing generally, but sometimes a little humanity is vastly better. The inquest on a poor woman's child in London a few days this animated style: "If you are a ago illustrates this. The woman was Christian, I prefer to be a heathenhomeless and for two weeks had beensleeping with her child on door-steps those with whose views upon the great and in alley ways. But at last, notic- problems of human destiny you do not ing that the child was ill, she applied agree. I prefer to be an infidel. But I for admission to the St. Giles's Workhouse. The sapient Bumbles of that institution curtly told her that she must infinite love, but I am quite sure that if show a note from the house where she had been sleeping the right before. The poor woman explained how thingsstood, but was sent off to get a reference from a lodging where she had the Rev. Dr. Patton. He starts out winter quarters, by attacking and badly ness of her heert she gave him a piece been a fortnight before. She could find with the gentle Christian remark that injuring Mr. Martin, the keeper. The of cake, at the same time handing him no one there, and came back to the workhouse again only, however, to be characteristic of all unbelievers," but the mother of three cubs, and Juno, again repulsed until the relieving officer had "made inquirles." The story turned out to be perfectly true, and she was ultimately admitted, just in time for the child to die in the house "from cold and exposure.

Great Opening Prosperity.

Mr. Russell Sage, one of the most noted, as well as one of the most shrewd of American financiers predicts a period of great prosperity. He says the West this ingenious reference to the and oubtwill advance in the next ten years far ed existence of a hell: "In return for beyond the expectations of even those who have expected large growth. This to eternal punishment, permit me to that Mr. Martin approached her cage opinion of the great New York financier express the hope that you may attain to quiet her, but stumbled and fell is based on the vast flow of immigration repentance unto life, and, putting away into the yet sparsely inhabited west, all malice, evil speaking, bribery and his right arm above the elbow. Martin, Maine. The St Louis Republican, one of the corrupt practices, finally be welcomed most conservative of papers, says: "While all reasonable allowance may be hereafter." The Rev. Dr. Patton, it made for the interest he may have in will be observed, is not so blunt a perrailroad stocks, there appears to be abundant reason for the Javorable pro- dulge in a "cruel wish" that he may go phecy. The population of the New to that uncomfortable place. He England states is not increasing at all. or scarcely at all. Much even of the natural increase of population in that section comes west. Besides accretions nounce "malice, evil-speaking, bribery from the older states immigration is and corrupt practices," before he can pouring into the Untied States at the rate of 800,000 souls annually. At least | nicek and lowly Christians who never such has been the experience of the past permit themselves, even by indirection, two years, and there is little sign of to indulge either in 'malice' or evil abatement. The southern states get but speaking the merest fraction of this vast influx of people. They come to the west. The which we wish to emphasize about it is fact imports great growth and large in. the agreement of the two disputants, crease of production. Increase in com- one an alleged heathen and infidel, and merce, increase in the population of the other a zealous, professing Chriscities, continued high prices of live tian that there is a hell, and that it is a stock and provisions, advance in real desirable and necessary institution. We estate values, accumulation of business are not sure but that this agreement for railroads, construction of new will settle the question permanently, thoroughfares—these effects it would and if it does a prolific source of disseem must follow the causes noted. Mr.

Sage's prediction does not therefore appear unreasonable or extravagant.

Nothing but partial or total failure of the principal crops could well reverse joy to many others who look upon a the order in which things are flowing hell as an eminently commendable place of eternal abode for their enemonation of the States lying west of the Ohio and the lakes in the current.

Why Bob Swore Off. the Ohio and the lakes in the current why Bob Swore Off.
decade, and the consequence of this "It may be naws to you since you THE discretion failure of the Madien growth is matter to expand the views a have insited me to smile," said Mr.

A GREAT POINT SETTLED.

An "Infidel" Politician and a Plucky Preacher Agree There is a Hell. From the N. Y. Tribune.

A remarkable theological discussion

has just been closed. It has been the peculiarity of all theological discussions for the past eighteen hundred years or so that instead of leading to argument we get nowadays, and therefore have Martin managed to release himself from they have invariably ended in widening the alvergence between the disputants But the discussion we are about to consider furnishes a striking exception to the rule; for it has ended in an enthusiastic, we can hardly say cordial, agreement. This would be a cause for rejoicing were it not that the decision reached concerns the eternal happiness. or unhappiness of a large proportion of the human race. The question under discussion was the somewhat familiar one, is there a heller It did not start in that form, but by unanimous consent. assumed that form and was decide the affirmative. The parties to the discussion were Senator Ingalls and the Rev. Dr. Patton., The case is an interesting one, and is likely to be so farreaching in its influence, that we will state its-rise, progress and triumphant conclusion tersely, but with all the accuracy which its exceptional merit de-

Schator Ingalls began the trouble by some remarks in the Senate during the memorial exercises there in honor of the late Senator Hill, of Georgia. As near as we can make out from the version now given, he expressed some doubts Thom the certainty of a future life, but admitted that if there were such a state he knew of no one whose life was so rich in the prophedy of a future existence as that of Senator Hill. The Rev. Dr. Parton did not like the speech, and quoted some sentences from it in his religious newspaper under the heading of "Heathen Talk in Congress." He also appended some comments; calling Mr. Ingalls an infidel, and saying that the utterance of his views in "connectservices of a Christian Senator was a piece of pure impertinence." That there might be no doubt about his own views upon impertinence or any other branch of the subject under discussion, flower-market, after which he always re- the Rev. Dr. Patton marked a copy of his paper and sent it to Mr. Ingalls. flash Conductor Trodden of the passen-The case was not well opened. Mr. ger train signaled the engineer, who had sent it to the newspapers as well as to the Doeter. He observed that in his speci on Mr. Hill he had merely presented those reflections which rise in all thoughtful minds when meditating up-=n the impenetrable mystery which veils the future state of man from all except" the Rev. Dr. Patton, and after a slight further explanation closed in that is, if your religion prempts or per am neither the one nor the other. have had some doubts hitherto whether eternal punishment was consistent with there is no hell for such bigoted slanderers and malignant liars as you there Philadelphia Bulletin. ought to be: It will be seen that Mr. A large lioness c clares that "heathenish!" is the only cubs that when any one approached fitting term to characterize his senti-them she would become furious with

The lioness held his right found that to egoh man is allotted one arm with one paw and struck through barrel of whiskey; and by close calculation the bars at his head with the other. Indian I discovered that I had drunk a lad named Donahue, sided by an iron barrel and a half. In other words, I bar, tried to make Juno trep Martin, had drunk my own and half of some but his efforts were in vain, and he left other man's barrel. I am too honest to to procure assistance. Before he could quit drinking whiskey entirely,"

A MARVELOUS ESCAPE.

How a Car-Load of Passengers Were Saved.

Winniper Sun.

When the regular train which left But Fortage was nearing the bridge over the Winnipeg river, the driver noticed a man walking on the structure. The train approached the bridge by a curve, so that the man could not see his danger. The bridge is too narrow to. permit of a person standing on one side till a train should pass, and it was im- Martin's injuries, though painful, are possible for him to reach the opposite side before the train would overtake him. To jump from the bridge was certain death; the only course open was to clutch the outer board, and, suspended between life and death, await the result. This the man did, and the train, which could not be stopped, came thundering on. The conductor, recollecting that the steps of the Pullman car were very low, and would probably strike the man's head rushed to the rear of the train, and uncoupled the car, which, by

the prompt application of brakes, was stopped in time. The man pulled himself up and reached the other end of the

A this instant a freight train was observed backing around the curve, and there stood the Pullman car in the middle of the bridge, filled with the terrified. passengers, for the front part of the train had gone off. The engine of the freight train was attached to the rear end, so that it was impossible for the enion with the solemn commemorative gincer to see the Pullman car. To leave the Pullman car was certain death, as and notwithstanding the shouts of the train officials, the freignt train came thundering on. It was a forlorn hope, but it was the only one, and quick as a gone off with the front part of the train, to back up. He saw the danger, but, true to his calling, reversed his engine and sped back over the bridge on his mission of mercy. He reached the car," the coupling was made, the lever thrown and messengers were dispatched to find backward, and not an instant too soon the man who could open the front door the Puliman car and its precious load were drawn from the threshold of death. Silently and with awed faces the passengers, rode to to the city, each one quietly waiting for the door turn on realizing how close had been their call. The caboose attached to to the freight with a triumphant twinkle in his eye, he train was also filled with passengers, but, passed down the State House steps. when they saw their danger many of them jumped from the car into the

Instantly she seized ting acts have passed the legislature.

rob anybody, especially of the whiskey return, however, with the disired help, the grasp of the animal, when she, by a desperate effort, forced her way through the bars of her cage.

By this time quite a number of men who had been summened by the Donahue, reached the door of the apoliment, but when it was made known tothem that the animal was at large in the room they refused to enter on account of the darkness. Mr. Martin very pluckily held his ground, and by a judicious use of a heavy bar of iron soon cowed the lioness and drove her into her cage, which was immediately fastened and doubly secured by fitting in new bars and adding new braces. not serious, and his physician says he will not lose the use of his arm. After Juno was caged it was noticed that one of the blanw boks, which was stalled in the same apartment, was trembling with fear and that tears were trickling down its face. Tens minutes later it.

Governor Butler's Dignity.

Governor Butler is perhaps the most dignified gentleman who has in many years tilled the Gubernatorial chair. The doors of the State House are locked at 5 o'clock every afternoon, except the Mount Vernon-st. door, which is left open in charge of the watchman, and through this pass all persons having business within the building.

One evening last week the Governor. having important work to finish, remained after his clerks had gone. About 60'clock he descended to the front door. It was locked. "You will find the Mount Vernon-st. door open, sir; this is always locked at 5 "o'clock," the passengers had no means of escape; said Mr. Boynton, who by mere chance was in the corridor.

"Then you can unlock it," said Governor Butler. 🔑

Excuse me, sir, but the doorkeeper

The Governor folded his arms, struck a position and looked at the young man. He can look very wicked.

"Have you any chiecory?" said he to the man of the house.

"Yes, sir." "Bring me some."

The proprietor returned with a small can of chiccory.

"Is that all you have?" asked M.

"We have a little more." "Bring me the rest."

When he came again with another can of chiccory, M. Grevy said, "You buve no more?"

"Very well; now go and make a cup of coffee.

Johnny McCree, an eccentric, goodhumored Scotchman, once applied to Garrick to introduce a production of his on the stage. Johnny hadren acts of a tragedy ready, but was dissuaded by Garriek from finishing it, the comedian telling him that his talent did not lie in that way. So Johnny abandoned his tragedy, and set about writing a comedy. When this was finished he showed it to Garrick, who found it if possible, even more exceptionable than his first attempt, and of course could not be persuaded to bring it forward on the stage. This surprised poor Johnny. who feelingly remonstrated, "Nae, now, Pavid, didna you tell me that my talents didna lie in tragedy?

"Yes," replied Garrick; "but I did st tell you that they lay in comedy. "Then," exclaimed Johnny, justly puzzled, "gin they dinna lie there, then where the deil doo they lie, mon?"

Hogarth was one of the most absentminded nien. Soon after he had set up his carriage he paid a visit to the Lord Mayor (Mr. Beckford), and having protracted his visit for a considerable time, Il a heavy shower came on, he was let out by a different door from that by which he entered. Unmindful of for a hackney-coach, but could not pro-cure one; he there are set off through the rain; and got home dripping wet. Mrs. Hogarth, very naturally asked him where he had left the carriage 'Why, really," replied he, "I had entirely forgot it."

PINCKNEY DISPATCH

THURSDAY, FEBRUARY 22, 1883

ANN ARBOR.

From the Courier.

Eugene B. Hall and wife at present are enjoying the fragrance of orange blossoms in the Sunny South.

Mr. Danenhower, while in the city, was entertained by Prof. Mortimer Cooley. They were old shipmates in the U.S. Navy.

At the March term of court, George Bull will be tried for a recent attempt to kill his wife. He pleads guilty to assault and battery, but discreetly re-frains from adding "with intent, to kill." He is now in the "boarding house."

Last Sunday forenoon, while Prof. Nichols and family were quietly seated in church a sad tragedy was being enacted at home, which resulted in the death of his only son, William Nichols. Upon leaving home for church he was left in good spirits. Soon after he took a pistol and started for the barn to shoot some rats. A report was heard, but nothing was thought of it, until about noon, when the colored boy went out and found him dead. The coroner's jury decided that he was killed accidently: He was a momber of the sophomore class of the literary department, and was twenty years old:

SOUTH LYON.

Wish to make known to their old and new custom era that they are now prepared to do better work of all kinds in their line of business than ever before.

Their mills having been thoroughly relitted inside. repaired and improved outside, making it convenrepaired and improved outside, making it convenient for their customers. Good sheds for teams inconnection with the Mills. They have now on hand over 5,000 bushels of dry, spund red and white when from which they make their best grade of floor. They grind no grown or musty whost except for customers—and then it is ground on separate stone and bolted through separate bolts. Those buying flour of them will get no grown or musty flour. Those bringing grists of good dry, sound wheat get good flour, and those bringing grown or musty wheat must expect flour. from the same. They also have separate bolts for backwheat. Corn shelled with one of Hutchinson's new improved Dustless Iron Corn Shellers, pay the same.
