she expressed.

WASHINGTON CELESTIAL SWEETNESS.

R. M. Daggett, United States Minister restdent at Honolula, has made a full report to the State Department with regard to the alleged reshipment from there to the United States of Chinese augurs with a view to securing the advantages of the reciprocity treaty between the Sandwich Islands and this country. He says that during the year 1992 only four vessels arrived at Honolulu from Chinese ports, and none of them brought or discharged Chinese sugar. But even granting that sugars could be imported and shipped in this way, the necessary ex penses incidental to this work, viz.: litherage to the shore, landing and transporting sugars thland from one to five miles, mixing and working in with Hawaiian sugars, resacking, reloading, and retransporting to shore and lighterage to vessel, would be in excess of the evaded duties. Under all the circumstances, therefore, Mr. Daggett is firmly of the belief that Chinese sugars have not been in the past, nor are they now brought to the Hawaiian Islands and reshipped to the United States as products of

Hawaijan plantations.

It is likely the coronation of the Czar will be postponed until June 10. The latest proclama-tion of the Nihilists merely refers to the Czar in a scornful way, saying he is beneath critielsm. Well informed persons in Russia express the opinion that no danger need be feared to the Czar at the coronation, with the ex-ception, perhaps, of the act of an insolated fanatic, and even that is unlikely.

A BILL OF PARTICULARS.

The charges against Hill, supervising architeet of the treasury department have been made public, and may be briefly summed up as follows: 1. A general charge of fraud, corruption and extravagance, against a ring in the architect's office; 2. Corrupt administration of the patronage of the office against the interests of the government: 3. The favoring of contractors known to be guilty of fraud; 4. The employing of persons known to be unskilled and incompetent; 5 The letting of contracts, in violation of law, to persons not the lowest bidders, that vouchers have been paid for labor and material never furnished, and that bids and contracts have been unlawfully altered to the advantage and benefit of

OF INTEREST TO MILLERS.

Argument was begun in the United States Supreme Court a few days ago in a case which may prove to be one of much interest and importance to all millers who make what is known as "patent process" flour. The case is that of Robert L. Downton, appellant, against the Yeager Milling Company, which comes here upon appeal from the Circuit Court of the United States for the Eastern District of Missouri. It is a suit brought for infringement of patent granted April 20, 1875, upon an inproved process of manufacturing middlings flour by crushing grain between rollers. Among the defenses set up by the Yeager Milling Company is that Downton's patent is void for want of novelty in the invention. If the decision of the riot. President anonymous letter with assassination. the court should turn upon this point rather. involved, and thus settle the question of the validity of the patent, the case would be one of much importance, since most of the large mills in the country have substituted rollers for stones and are now manufacturing patent pro-

PHYLLOXERA.

The Entomologists of the Smithsonian Institute has reported that no sign of phylloxera is discoverable upon the vine cuttings from officers, and adds that it is extremely doubtful whether phylloxera could be discovered upon the chances of the introduction of the pest by these cuttings is so slight as not to be worth

ON THE WAR PATH. About 700 recruits have been ordered to Ari-

zona and New Mexico to strengthen the troops stationed there, with a view to the possib necessities of the Indian campaign. A QUESTION OF AUTHORITY.

A question of authority having arisen between a Texas district attorney and the collecfor of customs at Brownsville in certain smuggling cases, the solicitor of the treasury holds that officers have the same right to arrest offenders that they have to seize smuggled goods. THE CAUSE OF IT.

The Indian agent in Washington Territory has informed the commissioner of Indian aithe whites and Indians. Some horses belonging to the "noble red man" were poisoned by eating grass that grew around the meat. MUST CEASE.

The work of redeeming the worn and muth ated United States notes now in circulation, carry it on, the appropriations being completely

<u>News</u> notes. DR. BANNISTER'S DEATH.

Rev. Dr. Bannister, for 27 years a professor at Evanston, Ill., is dead. Rev. Dr. Henry odists as a theologian and educator. . He was the Wesleyan university at Middletown, Comp., in 1830; subsequently was a student at Auburn | court some months ago, has just bu versity at Evanston in 1856, which he held until his death, and part of the time was president of the institution by reason of being senior professor. He was member of the book committee of the Methodist church during the book.

A CROP REPORT.

S. W. Talmage of the Chamber of Commerce at Milwaukee has collected reports concerning the condition and prospects of the growing crops of winter wheat in fifteen of the principal States in the Union, and the summary places the flamages at about twenty per cent., or 100,-000,000 bushels short of last year's crop.

BUTLER'S BILL. sale a bill against Gen. Butler of about \$2,800, claiming to be due one Leet, of Southboro, who, n reply to the offer of a reward by Gen. Butler during the last campaign for a person to father document entitled "Nute for Butler to Crack," claiming that he wrote it and demanded the

reward, which has not been paid. IN MEMORIAM!

Memorial services on the eighteenth annivervary of the death of Abraham Lincoln were held at the Catacomb National Lincoln Monument yestersay, at Springfield, Ill., under the suspices of the Lincoln Guard of Honor. The programme embraced religious exercises, music. reading of President Lincoln's Sunday order to the army and navy, an oration by Gen. Thomas J. Henderson, of Princeton, It, and reading of an original poem by John H. Bryant, brother of William Cullen Bryant. At the conclusion of the stated exercises the catacomb was opened and a large concourse passed in and placed flowers and evergreens on the arcophagus.

THE "INSPIRED" ONE._

Freedman, of Boston, "Inspired" two years ago to offer his little daughter as a sacrifice at at Pocasset, is perfectly same, and will be arraigned for murder. He says the "inspiration" came from the devil.

OUR LATE ACQUISITIONS.

Most of the 650 passengers which arrived in Boston on the steamer Nestorian, recently, are impoverished Irish people sent over at English government's expense. They are principally families, with an average of five persons to each, and the majority are from Galway, while others are from Mayo, Derry, and Donegal. The most from Galway were evicted, and during the past winter lived as best they could, finding shelter in teuts. Indian meal porridge was their principal article of food. The agent of the government furnished money to those who desired to go to places beyond Boston, the amount depending upon the size of the family, some receiving a few shillings, others £2, £3, £5 or £6. A great many of the men are farmers, but seem undecided what they shall do here. Some are going to New York, others to Pitts-burg, Portland, Chicago, Canada, while some remain in Boston and vicinity. Several paid their own passage, but brought little with them in the way of money or househould goods. They will be sent to their various destinations by the steamship company. The day following the arrival of the Nesteria, the steamer Parthia reached Boston with another installment of the same class of immigrants. At Philadelphia, a number of ejected farmers arrived in one day, accompanied by a priest, who comes to raise money for the relief of his flock.

BAD BRICKLAYERS. The Chicago bricklayers' strike continues, both sides determined. The men claim that 40 jobs are now being carried on by union hand sat \$4 a day, and that 70 men who came to the city to work since the strike began have joined the union. There is much distress among the laborers who tend the masons when at work and who are per force idle owing to the strike. The employers say they will take no new work, and architects are shelving plans for buildings that would have been well under way but for the strike. Architects and master masons seem to have joined hands to break up the bricklayers

union if possible. WHAT IT COSTS TO THROW BOMBS. Casper Youngheim of Philadelphia, who threw a bomb into the room where August Goeckel, his son-in-law, was working, has been fined \$500 and sentenced to imprisonment for

SCHELLER'S VICTORY. The trial of George Scheller, accused of set ting fire to the Newhall House in Milwauker has closed, resulting in Scheller's acquittal Five ballots were taken, and the one juror who was for conviction gave in because they had

existed, the prisoner must have the benefit of the doubt. The jury were our two hours, and the cheers that greeted the announcement were almost deafening.

The Board of Supervisors of Springfield, Ill have offered a reward of \$500 for the arrest and conviction of the persons who murdered Thos Walden during the rolling mill riot severa nights ago. Affairs at the rolling mill continue quiet. Threats are made by the evil dis posed, but there have been no evil acts since the riot. President Ridgeway received an anonymous letter recently threatening him

The Scott bill has become a law, taxing each liquor dealer in the State \$200 per year; those selling only beer and wine \$100

The Mississippi supreme court dismisses Chalmers' petition for mandamus in his election case, and says Manning having been declared elected and received his certificate the matter can now only be dealt with by congress. ANGRY SALOON-KEEPERS.

Saloon-Keepers' _Association determined able the operation of what is known as the Scott law, which imposes a tax of \$200 a year where only beer and wine are sold. It is understood the brewers and whisky dealers' will join in opposition to the law. The plan will probably be to get a test case before the courts new trial has been ordered as soon as possible to try the constitutionality

American Express agents of Milwaukee dis covered a package of dynamite weighing 25 , by the Adams Express and turned over to the American Company at Chicago. It bore no mark to indicate its deadly contents, but was directed to the Milwaukee Cement Con pany. When delivered by the American Express driver, the officers the the Cement Com Infra that poisoned meat scattered near an In- pany's employ said it was dynamite and the dian camp was the cause of the trouble between package was returned to the American office and lay on the sidewalk for several hours. The Cement Company claim it is only a lot of fuses. An expert says the amount was sufficient to blow an express train to atoms or demolish a whole block. The package is eighteen inches long, twelve inches wide and eight deep

HOW A PEMALE LAWYER ARGUES. Kate Kane, Milwaukeds only female lawyer threw a glass of water in the face of Judge Mallory, of the criminal court the other morn ing and was fined \$50. She claims the Judge insulted her by word and action, but will not say in what particular respect. She refuses to pay her fine, and will go to jail unless friends

DECISION SUSTAINED.

The decision of the supreme court of Iowa as born in Conway, Mass.; in 1812, graduated at to the legality of the prohibitory amendment. theological seminary; president of Fairfield | The opinions are voluminous, the majority covand Lowell academies; professor of classics in ering eighty four pages of legal cap, and the Cazenovia seminary. He accepted the chair of minority consisting of Judge Beck alone coverng 113 pages. The majority opinion is in har mony with that rendered at the first hearing, declaring the amendment null and void. The opinion of the court was delivered by Chief Justice Day. On the only new question raised in the argument for a rehearing, that of jurisdiction, the court is positive that the courts are instituted for the purpose of adjudicating the acts of the legislature.

FOREIGN AFFAIRS.

The effect of the letter received by the foreman of the jury which tried Joe Brady, which threatened that he would be killed unless a verdict of not guilty was found, was shown by the fact of a special jury panel called in the The Massachusetts Republican State Central | case of Curley. Fifty persons failed to appear, Committee have issued a circular, offering for notwithstanding the warning that a fine of £100 would be imposed on each absentee.

> A Bombay, India dispatch says: afts upset in the Great Tank at Secunderabad while crowded with natives in a religious ceremony Sixty-two were drowned.

Daniel Curley, the second prisoner tried for the assassination of Lord Cavendish, has been MORE DYNAMITE.

A box of explosives, with fuse attached, was found near the celebrated Salisbury cathedral; and the same day a package of dynamite exploded under the military barracks at Dover. The destruction of property at Dover was very great. Salisbury is situated near the south coast of England about midway between its eastern and western extremities. It is famous chiefly for its esthedral, one of the finest is England. It was built between the years 1220 and 1258 and is of the purest early English style. It is noted, too, for its beautiful stone spire, 400 feet in hight. The wanton destruction of so heautiful a monument as this church. would be simply devillsh, and no words can express the indignation that would naturally be felt by all classes, both in this country and

outrage. Dover is the point on the southern \$13,500. coast of England nearest to the French coast. It is a place of about 22,000 deliabitants, a fashionable watering place and the most popular point of embarkation for the continent. The castle, part of which dates from the Romanperiod, occupies a hill overlooking the town and harbor and covers not less than 35 acres of ground. Formerly it was regarded as one of the most important fortresses in the kingdom. the locality being in some measure the key to the island. It contains barracks for 2,000, besides which there are other barracks outside the

ANOTHER INFORMER.

The eight men arrested the other day on a charge of countction with the dynamite conpiracy, have been examined and remanded for trial. Lyuch, alias-Norman, turned informer, and in his restimony said he was formerly from New York, and was a member of a society in that city, the policy of which was to free Ireland by force. O'DONOVAN'S SHARE.

satisfactorily proved, and it can be shown that O'Donovan Rossa furnished the large sum of Rossa cannot by some sort of international procedure be made amenable to the laws of the empire. Irish conspirators, the Times says, must be considered criminals and not belliger-

NUMBER THREE.

Timothy Kelley, another of the Phoenix Park murderers, is on trial. It is not expected that this case will be disposed of as quickly as the cases of the other-two who have been convicted, as one of the jurymen selected is a Parnell ite, and a disagreement is looked for.

The story that an attempt was made to destroy the cathedral at Salisbury and the barracks at Dover, turn out to be a hoax. Probably the invention of some detective who wanted-work. 🚣

DOOMED DELHI. A fearful fire broke out in Delhi, India, or the 20th inst., and raged for several days with unabated fury. Over 3,000 houses were des troyed, and the end is not yet. Delhi is a celebrated city of Hindostan, situated on the Jumbeen instructed by the judge that if any doubt | na, 790 miles northwest of Calcutta. It was formerly the largest city of Hindostan, with a population of 2,000,000. An extensive tract

when they returned and announced the verdict, covered with the ruins of palaces, pavilions, the cheers that greeted the announcement baths and mausoleums marks the dimensions of the ancient metropolis of the Mogul empire. The modern city was founded in 1631, with a circumference of seven miles, surrounded by walls of red sandstone 30 feet high, with seven colossal arched gates defended by round bulwarks. The streets are mostly narrow, though one of the main avenues is 120 feet wide. It contains the most magnificent palace in India, built by Shah Jehan, founder of the modern city. Delhi has about 40 mosques, including the Jamma, a splendid structure in the Byzan-tine style, built of white marble and red sand stone; also Delui college, built in 1792, with a for each of the Arabi Persian, Sancrit and English languages. The city has been the frequent scene of armed dis- Mr. Porter in opening the case for the tion since that time, though in May, 1857, it was occupied by the mutinous Sepoys, who to it, and in September, 1857, recaptured it by assault, after a severe fight of seven days. The

In June of that year the British army laid siege only a generalization based upon James population of Delhi in 1870, the last census figures at hand, was 154,417, and the news of this fire is the most exciting the city has furnished to the world sidee the times of the terrible sepoy rebellion of over a quarter of a century ago. JURY DISAGREE.

British and American Law.

British justice acts with startling ra-

pidity when it is once set in motion. After a trial of barely three days the chief assassin of Phenix-Park has been was the miscreant who on that tragic spell. evening in May a year ago abashed even The Times says if Lynch's evidence can be his companions in crime by his swagger | man of literary talent himself, is emmoney found on Dr. Gallagher, it will be a grass the murderous knife red with the City Engineer. question for consideration whether O'Donovan mingled blood of a Cavendish and a Franklin Diagram of the City Engineer. mingled blood of a Cavendish and a Burke. Accused by his own accomplices, he has been condemned without hesitation by one of those Irish juries which, before his dastardly crime was planned and executed, lacked both the courage and the conscience requisite for punishing evil doers. The responsibility for the cowardly murder of the two secretaries was shared by the entire group of assassins of whom Brady was the central ligure. It is disheartening to reflect that the necessities of the prosecution have enabled so many of them to turn State's evidence. The most despicable of the informers, James | people. Carey, has already blurted out the fact that he has been promised a pardon. Such leniency as this seems almost incredible, after the conspirators' scramble to betray one another and to make. each for himself, the hest bargain he work, and he declines all invitations. could with the authorities. It will be a shocking miscarriage of justice if the main-informer not only escapes Brady's as an etcher. Keppler, the chief artist doom, but is suffered to go wholly un- of Puck, is a soldierly looking man and punished. The subsequent proceedings has been an actor. Groete is not long will be watched in England with a ner from Germany, and Gillan is an Engyous dread lest through prolonged dal- lishman. liance with the informers the Crown officials have contrived to protect those who least deserved protection.

The evidence given at the trials, so far as the telegraphic summary has revealed, has not served to implicate any Irishman now known to be in America. pute, and was taken by Lord Lake for the Brit- | Crown referred, it is true, to Sheridan's share in the crime in undertaking to provide arms when there should, be a call for them. This seems to have been Carey's previous disclosure, and to have been unsupported by any new evidence. An informer's statement bearing so remotely upon the actual crime would be a slender warrant for demanding Sheridan's extradition under the present treaty. The evidence, against Tynan, who seems to have been identified as the mysterious "Number One," is more for extradition practice that he has probably had the forethought to select a safer refuge than the United States.

Americans are more deeply concerned with the examination of the dynamite conspirators in London than in the triats of the Dublin assassins. The prosecution has opened the proceedings with the declaration that a conspiracy for the and that agents were sent out and sup- make good. plied with money for the accomplishinent of diabolical purposes, The agents can be tried and punished under the English statutes without regard to their nativity or citizenship. But are their principles in the United Stated, if such there be, to be left at liberty to resume their nefarious plotting—to send out additional agents, to supply them with American gold and letters of credit, and to prosecute a dynamite campaign in England? If their identity can be established and their complicity proved, are not the United States authorities under obligation to prosecute- and punish the principals, who have hired the agents and sent them to England for criminal purposes?

This is not a matter to be lightly considered. Dr. Woolsey, speaking of the rights of political refugees, says "They may not, consistently with the obligations of friendship between States be allowed to plot against the person of the sovereign, or the institutions o their native country. Such acts are laws of the land ought to provide, but do not require that the accused be remanded for trial to his native country." Those words were written before dynamite was invented. They have even a of the land ought to provide."

Some St. Louis paper gets off the following on poor uncle David Davis, who Sanskrit and living Asiatic languages recently passed through that city with at Cornell University, is a grand-nephew his bride: And what, in the name of of George Frederick Handel, the comgoodness, is this?" asked Mrs. David poser, and is himself a good musician. as the Senator lugged something into About 1850 Professor Roehrig, returnthe room and dropped it at her feet. "This is my shirt, darling, and I will be greatly obliged if you will sew on a button for me. David Davis, said the lady, sternly, when you bring me your shirt L will sew on a button for you, with pleasure, as becomes a fond But the Probate Court held that, as and dutiful wife; but just now, sir, L

Neglected Ingenuity,

The Patent Office at Washington 18 one of the most attractive places in the country for a thoughtful student of human progress. Its records and showwhich cannot be paralleled elsewhere. They present, also, a vast number of attractions for the curious in models of inventions which have never been seen or heard of outside the Patent Office, touching and pathetic evidences, some of them, of misapplied talent and ingenuity, and some of them of sheer, hopeless insanity.

Vast as this collection is, there is one class of inventions which has no place in it. It is a pretty large class, too, and embraces some exceedingly ingenious appliances. These appliances are in daily use throughout the country, some by the inventors, and sometimes by others; but with a generosity which is very rare, the former give them to the public without a thought of remunerstion of self-protection.

The class of inventions referred to is made up of instrument for the punishing and torturing prisoners in reformatories and penitentiaries. It is a very large and constantly increasing class. Many of the inventions comprised in it betoken an extraordinary amount of inventive skill, a wonderful, not to say demoniacal, acuteness in the adaptation of means to the end. Yet, strangely enough, the more ingenious the invention, the less anxious the inventor or user to be credited with invention or use; and the last thing either of them would think of is the procuring of a

Every investigation into prison or reform-school discloses some instructive novelty in this class of inventions. Years ago, when the State prison at Jackson was under investigation, it was found that some bold genius had invented a sharp-backed wooden horse for the prisoners to ride, and by means of which the most acute anguish possible could be assured in a phenomenully short time. But so modest was the inventor that not only had he taken out no patent, but his name was not disclosed to the committee and remains unknown to this day. In Maine a committee which conducted an investigation of the State reform school discovered a surprising number of new devices ers who had disobeyed orders or incurred the hospitality of keepers. One was a "tower" just large enough for a boy to stand in, with no seat, no bed, no ventilation and only two auger holes for light. Another, which was more novel in application than conception, was an anklet of iron weighing eleven pounds, warranted to cure the worst infraction of discipline if worn day and night for three months, as the committee found it had been on several occasions. The ingenuity of the establishment found vent, also, in punishments which required no particular mechanical appliance. For certain infractions of the rules the boys, sent there, in the words of the statute, as "to a refuge from danger rather than a prison for · punishment," were compelled to stand

hour with the fingers touching the toes. It seem unfortunate that when we. have a place to display the inventive genius of the great American people, all these striking manifestations of it should be kept from the public eye, except when forcibly dragged to light. There ought to be an alcove or two in the Patent Office specially devoted to instruments or devices for torturingprisoners and the inmates of reformatory institutions. Then could the patriotic citizen put new force into his in temper and general character, and boast about the genius of his countrymen, while the students of history could learn how much civilization has improved upon the methods of the barbarians, who knew little beyond those crude implements of torture, the rack, fied with somewhat of luliness and rethe thumbscrew, and the scavenger's daughter.—Detroit Free Press.

all night in the dormitory, the ingen-

lous official losing his own rest to en-

force the decree. For other forms of

disobedience the cure was to stand an

Deficiencies in a Cheese Show,

Now, if cheese could dance a doubledog dance and get off conundrums and laugh at them, it would be different. If a lot of cheeses could be arranged in a semi-circle, with "end cheeses," and each cheese could sing a song or tell an old story, like the back numbers of a nigger show, and some of the cheeses could dress up as females and then turn back somersaults, we might turn out and patronize the show and buy seats several days in advance. Or if a firkin of butter could play "Hamlet," and another firkin could play "Ophelia," which we are sure butter could do as well as some of those human beings do, who attempt it, it would be a novelty that would draw and fill the exposition. To see a firkin of butter come on to the stage in black fights and have an interview with another firkin as the a society play, or sing in the opera, and sily—no the lieifer was properly advertised as fraction. having flirted with an imported steer the heifer would draw well, no doubt. Peck's Sun.

Brooklyn has sixty-six public schools, 200,000 scholars and 1,843 teachers. There are beside about 25,000 pupils in private schools.

A DUBLIN man boasts that he has written 950 anonymous letters to officers of the law in the last two years.

Popular Life in Italy.

A most inferesting left tro of modern the semblance of a sleep, from which it of chelicate sympathy. may rise anew, for aught we can see to lan's Magazine.

Down in the Dark.

Down in the lower levels of our mines, hundreds of feet below the surface of the earth, in the dominions of Erebus, where darkness ever holds its reign unbroken by the light of day, are

found some curious growths. In the lower levels of the Comstock mines-particularly those long abandoned or mused-are seen many wonderful growths of different kinds of fungi. Some of these are of great size, almost filling up drifts, and, seen by the dim light of a candle, look like sheeted ghosts. Down below in the dark these growths seem to strive to surface. In one of our mines was once found an imitation of a fancifully-carved meerschaum pipe, stem and all, so perfect that it would easily be mistakenfor the germine, article if not taken in for giving pain and anguish to prison the hand and closely exemined. Some of the fungi resembly the horns of unimals, and are from two fact to a yard in length, while others might pass for a petrified devil-fish. - Virginia (New.)

Marriage.

Men and women; says Theodore Parker, and especially young people, do not know that it takes years to marry must not touch a female; while, even completely two hearts, even of the most | where a child was in similar peril they loving and well-sorted. But nature allows no sudden change. We slope very lending a hand to the rescue. A rabbi gradually from the cradle to the summit of life. Marriage is gradual, a fraction of us at a time.

A happy wedlock is a long falling in love. I know young persons think love death as an accused murderer by disbelongs only to brown hair and plump, round, crimson cheeks. So it does for its beginning, just as Mount Washington begins at Boston Bay. But the golden marriage is a part of love which the bridal day knows knothing of,

Youth is the tassel and silken flower of love, age is the full corn, ripe and solid in the ear. Beautiful is the morning of love with its prophetic crimson, violet, purple and gold, with its hopes of days that are to come. Beautiful also is the evening of love, with its glad remembrances, and its rainbow side turned toward heaven as well as

Young people marry their opposites such a marriage is generally a good one. They do it instinctively. The young man does not say, "My black eyes require to be wed to blue, and my overvehemence requires to be a little modiserve." When these opposites come together to be wed, they do not know it, but each thinks the other just like

Old people never marry their oppose sites, they marry their similars, and from calculation. Each of these two arrangements is very proper. In their long journey these opposites will fall out of the way a great many times, and both will charm the other back again, and by and by they will be agreed as to the place they will go to, and the road they will go by, and become reconciled. The man will be nobler and larger for being associated with so much humanity unlike himself, and she will be a nobler woman for having manhood beside her. that seeks to correct her deficiencies and supply her with what she lacks, if the diversity be not too great, and therebe real piety and love in their hearts to begin with.

The old bridegroom, having a much shorter journey to make, must associate, when you cannot help him. A hanter, "gliost," would take the cake, but they himself with one like himself. A perdo not attempt such amusement. They lect and complete mairiage is, perhaps, are only plain unvarnished butter. If the most perfect personal beauty. the Jersey heifer on exhibition could play Men and women are married fraction-My-now a small fraction, then a large

Very few are married totally, and they only, I thruk, after some forty or fifty years of gradual approach and exeitement. Such a large and sweet fruit is a complete marriage that it needs a winter to mellow and season. But a rent happy marriage of love and judgment between a man and woman is one of the things so very handsome that if the sun-were, as the Greek poets tabled, a God, he might stop the world in order to feast his eyes with such a spectacle.

The Ancient Sabbath.

In Jerusalem, the Sabbath, was ush-Italian life is the persistent survival of ered in by six blasts of the silver trumold manners and customs among the pets so freely employed in the temple peasantry. French influence has modi- ritual; three to interdict the people fied the whole life of the upper classes; from work, and three to set apart the nuity and growth of the inventive art painters are for the most part content day as one of holy rest; in other towns, to follow the methods in vogue at the from the roof of the synagogue. There Salon; and the dearth of high-class were two additional offerings in honor music forms the stock complaint of this day, and more if it should chance Englishmen and Germans who sojourn to be a new moon or any festival. The in Italy. But in spite of pailways, making and baking of the shew-bread, telegraphs, and half-penny newspapers, though involving in its composition the peasant remains much as he has three offenses against the law, was done been from time immemorial; his pots on the Sabbath day-a fact of which and pans are still fashioned in Etruscan | the Pharisees were reminded by "One shapes; his great white oxen are yoked greater than the temple:" "Have ye not in the simplest conceivable manner to read in the law, how that on the Sabcarts of primeval pattern; and only a bath days the priests in the temple proyear or two ago some friends of mine fane the Sabbath and are blameless?" heards bevy of Tuscan girls bantering (Matt., xii. 5.) At home it was in early each other in improvised rhymes such times a family festival of innocent joy, as Theocritus might have put into the and rest from the daily toil of the week. mouths of Sicilian shepherd lasses. While the father was in the temple or Popular life in Tusgany has lost little synagogue on Sabbath eve, the mother of its brightness or of its individuality, and her maidens were busy decorating and the peasant's humor is still racy as the best rooms, spreading the table of old; and this survival of the past into with the choicest fare they could afford, the present gives a lively interest to the and lighting the Sabbath lamp, to investigation of such customs as have greet him on his return, as at the threshdropped out of use, clothing the dry old he bestowed upon each child the bones of antiquarianism with the sinews. blessing of Israel. Friendly intercourse and flesh of every-day life. Though among neighbors and kinsfolk was the the past be dead, there is no need to order of the day, while the poor and Dury it out of sight; for its death wears afflicted were comforted with some act - All this sweet spirit of keeping holy

prevent it, at any moment -- Macmil- | the seventh day was turned, atta later epoch, into the cruel burden of the law, of which St. Paul said well, "The letter killeth," and against which, both by precept and practice, the "Lord of the Sabbath Day" so uncompromisingly protested. The Scribes and Pharisees had so completely lost sight of the fundamental truth that "the Sabbath was made for man," that a man of their day might well have bewailed the fact that he was "made for the Sabbath." Except that we are taught by all record and experience that there are no limitations to the excesses of a perverted conscientiousness, we could not credit the absurdities which finally came to be considered essential to the pious observance of this holy seventh day. Let us look at a few of the rabimitate the forms of things seen on the binical rules on this subject: "To preserve life on the Sabbath is to violate it, and to kill a flea is as bad as to kill a camel. A woman must not go out with her ribbons about her, unless they are part of her dress; a false tooth must not be worn; no one was to write two letters of the alphabet; the sick must not send for a physician; a tailor must not carry a needle out on Friday night, lest he should forget it, and so break the Subbath, by carrying it about him on that day." A sect of extremists on this question-carried their scruples so far as to refuse to save a drowning woman on the Sabbath, because they

> must put off the phylaeteries before of this sect of "pietists" refused to rebuild his demolished house, because he had thought about it on the Sabbath; another saved himself from a violent closing the name of the criminal; but he wrote that name on a Sabbath Day, and he passed the remainder of his life in severe penance.—Mrs. Palmer.

The Lion & Coward. /

"There is an idea among people, generally," remarked Mr. Thompson of the Zoo, as he stood before the cage of the handsome beast, "that the lion is a brave anunal. Nothing is further from the truth. For his size and strength he is the biggest coward in the animal kingdom. When I was in South Africa I never saw but two of them in the open plain. They skulk in the forests, and will take fright and run at ordinary danger. But he is bad medicine in close quarters, and one blow from his massed was in the right place will to kingdom come as quick king of leasts, and the tiger can whip him every time." - Cincinnati En-

Liszt as a Confirmed Kisser.

Liszt is always surrounded by women, writes a correspondent of the Philadelphia Bulletin, who cling to him in a manner that suggests the love-sick maidens. He has the manners of a very young man toward these devoted women, though in one respect he enjoys the privilege of old age. He kisses both hands, and cheeks whenever he takes the fancy. Nearly every woman who greets him bends low over his hand and kisses it. There is a deal more kissing done here than one sees in an American drawing-room, nearly all the German ladies kissing the hands of Wagner and Liszt at greeting.

"Hain't Seen No Such Cretur." Nothing can be more provoking than to hinder a questioner for explanations in a furious hunt after game, called out

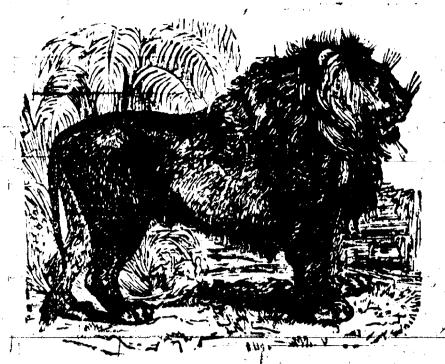

to a gawky youngster. "Hallo, boy, did you see a rabbit cross the road here just now?",

"A rabbit?" "Yes, be quick, a rabbit."

"Was it a kinder gray varmint?" "Yes! yes!" A longish cream with a short tail?"

"Yes; be quick, or he'll gain his burrow." "Had it long legs behind, with big

"Yes! yes!" "And sorter jumps when it runs?" "Yes. I tell you, jumps when it runs." "Well, I hain't seen ag such cretar

A Celebrated Book.

We have received a copy of that cel-A meeting was called by citizens desiring an enforcement of the License Law, in the Court House last Wednesday evening. We shall try to give an account of the proceedings next week.

We have received a copy of that cell-brated book, "The Farmer's Complete Encyclopedia," published by the Eddy Printing and Publishing House, Flint, Mich. Probably no book published within the last quarter of a century Work on the telephone line is pro- has received the endorsement that this book has. It is endorsed by the entire State government of Michigan as the standard work of its kind, and has the probably the finest book of reference published for the use of farmers and stock fanciers. The book is a volume of 688 pages, printed on fine paper, illustrated with the necessary cuts and diagrams, and handsomely bound in cloth. It is divided into nine divisions: THE FARM, HORSE, CATTLE, SHEEP, SWINE, POULTRY, MEDICINAL, HOUSEHOLD, USE-FUL TABLES, every one of which is worth the price of the whole book. The especial feature of the book is the remarkably thorough way in which it treats of all the diseases, and remedies for the diseases of live stock, and also of man himself. Governor Begole, of Michigan, says of the book:

"I have carefully examined the copy of "The Farmer's Complete Encyclopedia" submitted to me, and find it, as represented, a complete book of reference on all farm topics. It is the only book that ever came under my observation that covers entirely every subject the practical farmer or breeder is interested in. The portions devoted to the diseases of horses, cattle, sheep, The directors of the Athletic Asso- swine, poultry, etc., alone, make the the University team and one from De- ergencies, appreciate the medicinal department, and the poisons and their an-

ing for the Association, has secured the er's wife. No housewife should be

J. W. Begolé, Governor of the State of Michigan. Hon. Edwin B. Winans, member of congress from 6th cong. dist:

"The Farmer's Complete Encyclopedia" is a most valuable handbook, one that every farmer would find a useful companion in his labors. It fills a long felt want. Epwin B. Winans.

EVENINGS ON THE FARM.—There is than the winter evening entertainments and instruction on the farm with parents surrounded by noble sons and course of readings from the most inmust be taken that they are not too protracted, nor of such a character as to be uninteresting to any member of the family. The parents should take the leading part in these exercises and make instruction amusing and cheerful, so that home to the children, as well as purents, will be the most pleasant place on earth. Children raised by such surroundings and under such influences never cause their parents to mourn over their conduct, but will grow up honorable and useful members of the community. And this easts nothing, nor detracts in the least from the home comforts and pleasures. But a house which is dark and gloomy, one head of the family dozing away the evening or absent, no one knows where, and the other head uneasy, peevish and

MICHIGAN NEWS.

The large barn of Hugh Keyes, living in Keeler township, Van Buren county, was burned, together with 3,000 bushels of wheat. Six horses were rescued. Loss \$4,500, insured for \$1,900 in the Continental of New York. The fire is supposed to have been the work of a tramp whom Mr. Keyes had turned away. Officers have a clue to his whereabouts and will probably secure his arrest.

Mrs, Ann Hill, for the past 12 years post-mistress at Milburgh, Berrien county and a resident of that county for 45 years, died recent-

Some Decatur emigrants to Dakota report they were blockaded at Dodge City two days with 1,350 cars containing emigrants and their plunder ahead of them; were two weeks on the

The total number of immigrants inspected at Port Huron during March was 3,747. Of this number 670 were found protected by previous vaccination, 141 by previous small-pox, and 84 by recent vaccination on board the steamers during passage. The whole number found unprotected and vaccinated during the month was 1,201. Of these 80 were adults and 55 under five years of age. They came almost entirely from lower Canada and the maritime

is the only case of the kind ever tried in Katon county, if not in the courts of Michigan, and has attracted peculiar interest.

There is not a distillery in Michigan.

McCullen, the tramp who was recently arrest ed at Newport, Mouroe county, for breaking into township clerk Crooks' house, pleaded not guilty to the justice on examination, but changed his plea to guilty when brought before Judge Joslin, of the circuit court, and was sentenced to Ionia for three years.

It is said that the largest fleece ever recorded in the United States at a public shearing was taken at Lansing, at the meeting of the Michigan merino sheep breeders' association. was from a two years-old ram. "Diamond," owned by A. T. Short, Coldwater, was grown in 363 days and weighed 41 pounds and three

Bishop Gillespie writes about the boys in the reform school at Lansing: What is to become of them when they leave the reform school? They should not, as a general rule, be kept there until they reach eighteen years. There are many disadvantages in institutional life. There is not much discipline of character, certainly not much testing of reform. The superintendent to-day holds a large number of boys whom he would not he situte to dismiss if he could see the safe place for them. To demand. as is sometimes heard even in the legislature that the boys shall be sent out, is to make the more certain an increased number of reform school boys ultimately in Jackson or Ionia, or some more distant prison. Less disposition to put into the school would be more helpful than the clamor to send out.

Last March Henry M. O'Dell, a youth of Detroit, ran away from home and enlisted in the regular army. He was sent to Jefferson Barracks, Mo. Not finding army life so agree-able as he supposed it would be, he retired voluntarily and returned to Detroit. He was then arrested on a charge of desertion and a court-martial has been ordered for his trial at Ft. Wayne. His mother, who is the widow of a Union soldier, has been distressed by her son's troubles. Young O'Dell enlisted under the name of Chas 'H. Sheldon. He is only 19 years old and is not supposed to be entirely sound in mind. The facts in the case were laid before the Secretary of War, by a Michigan senator, and the secretary has ordered the boy

The main factory building of the Grand Rapids furniture company was burned the other evening. Loss \$40,000, insured for \$26,-

The copper product of the Lake Superior 5,070 tons 1,880 pounds of the former amount, which is about 17914 tons less than its product for the first quarter of 1882.

The work of recovering the bodies in the Keel Ridge mine at Iron Mountain has been abandoned, worknen refusing to endanger

There is still unsettled among the causits the question whether House bill 130, amending the general village incorporation act by permitting the village authorities to license or prothe option of deciding the matter, is a law. affixed, and now will be argued a question of great importance—whether the executive's signature or the scal affixed by the secretary of state makes a bill a law.

Legislative Record. SENATE, April 17.—Little business was done

in the Senate. The resolution providing for the final adjournment of the legislature on May 16th was adopted. Several petitions were presented and discussed against the passage of the Bolger bill to prevent the reception of United States prisoners at the Detroit hous of correction ... The bill appropriating \$131,-150 for new buildings, etc., for the Michigan school for the blind, was passed.

House.—The petitions presented were the usual ones.... The following bills were passed: Amending section 3134, 3136 and 3138, C. L., relative to incorporation of schools of learning; amending act 200 of 1881 relative to booming by the great fire of 1881; asking congress to build lighthouses on Lake Michigan; in reference to school inspectors of Crystal Falls, Marquette county; to prevent fishing near fish shutes or ladders; to prevent destruction of fish in Eagle and Pleasant lakes, Cass county; amending act for incorporation of Holland Christian Reformed churches; to provide for a release of rest estate from liens created by state levies of write of attachment or execution.... The following bills were referred back to the committee, of the whole or to committees as noted, pending their final passage: Amending act 164 of 1881 relative to contracts with teachers; for an appropriation of lands to improve the Clio and Chesaning state road in Genesee relative to teachers' institutes. Education; repealing section 207 C. L. relative to progation of whitefish; relative to payment of salaries to auditors of Wayne county...The followre lost on final passage: Making a grant of lands to construct a state road in Missaukee and Crawford; appropriating \$1,500 to maintain the fire and police departments of Lansing; both bills were reconsidered and laid on the table. The bill relating to the sale of liquors was laid on the table, pending its final passage. SENATE, April 13. The following are the bills passed by the Senate to-day: Incorporating Emmet, St. Clair county; amending section 7 of act regulating incorporation of villages; fixing the per diem of members of the legislature from the upper peninsula; for the incorassociations; amending sec. 9, art. 2 of the

House.—A good many bills were passed by the House, the following being the most important: To amend act incorporating Plainwell in Allegan county; to provide for incor-Timothy Hall, a pioneer of Spring Lake, is porary n of associations to sustain churches. religious societies and Sabbath schools; to charge name of First Congregational society

of) silanti to First Presbyterian society; to app. priate \$1,225 for support of insané soldiers. at Michigan asylum in 1881; to allow mutual life insurance companies of other states to do husiness in Michigan to amend sec. 503 C. L. relative to election of Wayne county auditors; to provide for taking property and opening streets and alleys in East Saginaw; to provide for taking property and opening streets and alleys in Detroit; pending its passage, was referred back to the committee of the whole for further amendment; for transfer of certain articles from care of state librarian to quartermaster general; for the encouragement of ritie practice among state troops; for protection of railroad employes and other persons from danger on account of switches and railroad crossings; to change name of Spring Harbor, Charlevoix county, to Bay Springs; to amend sec. 9 of chap. 4 of act 62 of 1872, relative to the powers and duties of incorporated villages; to incorporate Michigan department of the G. A. R. and subordinate posts; to adjust rights and liabilities on division of territory of cities and townships; to authorize formation of water course and water power companies in the upper peninsula...The governor, by message, announced his approval of bills to amend section 1 of chapter 10 pf act 164 of 1881, relative to public instruction: to amend section 10 of act 243 of 1879, relative to removals from office; to amend section 1 of chapter 189 of compiled laws, relative to making actions of trespass and trespass on the vase transitory in certain instances; to authorize Owosso to raise money for public improvements; to amend the charter of Blissfield in the county of Lenawee; to authorize maintenance of fire department in Norway township in the county of Menominee; to reorganize township of Republic in Marquette county; to amend act to incorporate the city of Manistee.... The Senate concurrent resolution for final adjournment of the legislature on the 16th day of May was laid upon the table.

SENATE, April 19.—Bills were passed as follows: To transfer to the general fund the unexpended balance of \$71,100 in the fire sufferers' fund; to provide for the maintenance and construction of stone or macadamized roads in Bay county; for the construction of sidewalks along highways in townships and villages; to appropriate the remainder of the state improvement lands due from the United States to Michigan, for improvement of a certain state road in Leclanaw county; to authorize state treasurer personal obligations secured by mortgage in place of securities now required; to amend act to incorporate Caro village in Tuscola county; to provide penalty for obtaining money, mailroad tickets or transportation by false pretenses... The Governor unnounced by message his approval of the bills to amend act reincorporating Saline; to amend act rela-tive to Wesleyan Seminary at Albion; to amend bill to give Wayne Circuit Court Commission-

fire and marine insurance companies. This is the "Blacker" bill to permit mutual insurance companies of other states to take risks in Michithis state, but doing business in it, shall tran-'Fletcher Non-Board bill;' to secure to the power of electing a representative membership most of the papers read at the conven-'Barnard bill;" for relief of Grand Traverse ounty Agricultural Society. The Governor the law for the incorporation of saving associations; act reincorporating Portland; appropriating money for the School for the Blind; punishing the offense of getting on railroad trains while in motion.

SENATE, April 20.-The following passed on third reading, unless otherwise noted. "Proposing an amendment to section 15, article 4 of the Constitution, relative to compensation of members of the Legislature and to probibit the use of passes or free tickets on railroads. Lost, yeas 19, nays 12-not two-thirds. Reconsidered and tabled; extending the time of the completion of the Marquette, Houghton & Ontonagon Railroad. Pending its passage it was reserred back to the Committees on Railroads and Judiciary jointly; authorizing the Mutual Covenant Benefit Associations of Michigan and Illinois to consolidate. Passed; requiring in the public schools; amending act 194 of 1877 relative to insane asylums; fixing the salary of the Auditor-General at \$2,000; amending th act incorporating Holland Christian Churches making an appropriation for overdrafts from corporating Hesperia; to prevent the destruc tion of fish in Barron Lake; to prevent fishing near fish-ladders; reincorporating Corungs

....The bill to provide for making partition among tenants in common; and House bill No. 206, to define the duties of Justices of th Peace, were adversely reported upon and the two bills were laid upon the table.

House.—To legalize sewer tax levy in Alm. Edward Blanchard, of Jackson, authorizing the examination of a claim for \$100; to provide for opening streets and alleys by the City of Detroit; to authorize cities and villages to take section 13 of the act authorizing the formation of corporations for improving the navigation of rivers approved April 5, 1869....The bill rela-tive to the powers and duties of incorporated illages was returned, and tabled for further

The State Board of Health Report.

The annual report of the Michigan state board of health for 1882 just is sued is a timely book. As this depart. ment extends its work and year by-year comes in contact with more people in every part of the state, the results of its labor assume a more tangible form, and admit of more definite report. The success of its work depends very largely co-operation is more readily secured. where sanitary conventions have been held, and in those where outbreaks of contagions diseases have been put down instructions from the state board of health; though the more prompt and successful the suppression of the disease ompanies not organized under the laws of the less do the people know often of the danger to which they were exposed and from which they have been saved. The report contains with many others

> Under the title, What can the law do for the health of the people?" Judge Cooley, of the supreme court vindicates the right and shows the necessity, that the state should enforce regulations to protect the public health, even though they encroach on individual liberty. He also points out dangers of an abuse of powers granted to the health authorities, and shows how that abuse may be, prevented by appeal to the courts and to an enlightened public sentiment. Judge Cooley thinks, however, that there is not so great danger that local boards of health will abuse their powers as that

tions at Ann Arbor and Greenville.

There is not room to name them all.

they will fail to use them. Dr. W. F. Breakey discusses "Unsancircular of inquiry on that subject, by different capacities, temperaments, tastes, and physical strength; in favor work, more clastic cources of study. and less climbing of stairs.

Food Adulteration.

In a paper on "Food-Adulteration," Prof. A. B. Prescott brushés away a current sophism that as many adulterations of food are harmless tricks of trade, health officers need not meddle with them. He shows that the English law against adulterations has been much more effective since it ceased to excuse adulterations on the ground of harm-Tessness, and urges that to permit even of the great safeguards of health. "The wrong may be done in the spirit of gain, garden. From eight to nine he rerather than that of murder, but none the less it becomes a robbery of the very means of life."

The subject of ventilation is not overlooked. Prof. J W. Langley presents the Prince of Naples seated between

and explosives, showing danger of lead noisoning by certain nursing bottles, and containing important rules for management of steam boilers.

Nothing perhaps shows the various ways in which contagious diseases are introduced into communities, and the present condition of the public health service of Michigan, its capacity for hand-to-hand work in the prevention and suppression of diseases, better than the special reports by local health officers of outbreaks of diptheria, scarlet fever, small-pox, and other contagious diseases, and the very concise summaries of these reports given in connection therewith. These reports together with the reports of the immigrant inspection service at Port Huron and Defroit, show how great is the work which local boards of health have in hand, and how necessary it is that they be aided by all intelligent citizens.

The End of Creation.

It is related that the Emperor William, of Germany, was once detained at a small village, while making a journey, and visited the public school. Being asked by the teacher to examine the children, the Emperor took a gold coin from his pocket, and holding it up said, "To what kingdom of nature does this belong?" "To the mineral kingdom," was the prompt reply. Holding up a flower, "to what kingdom does this belong?" he continued. "To the vegetable kingdom," was answered by all-"Now, to what kingdom do I belong? said the Emperor. All hesitated, when a little girl not wishing to say that her Emperor belonged to the animal kingdom, replied—'to God's kingdom, sir.' The Emperor was visibly moved and said, "God grant that I may be found worthy of His kingdom."

The answer of the little girl was more

profound than she knew. Man has many things in his nature in common with the members of the animal kingdom. But still he is not an animal, and it is a false classification to say that man belongs to the animal kingdom, or that he is the head of the animal kingdom. In addition to the three kingdoms of nature, mineral, vegetable and animal, there is a kingdom that is spiritual and eternal, the kingdom of God. To this kingdom man belongs. This is the kingdom God had in view in the creation of the universe. As God is eternal, He act establishing Detroit Board of Public Works; on the co-operation of the people, and to appropriate money for books for State Lister to amend act relative to duties and co-operation is more resultive secured. State Lister to duties and co-operation is more resultive secured. This is especially true in communities invisible, natural and spiritual. This n creating all things, both visible and end or design, we see fulfilled in man, who lives forever, and who has been made capable of unending growth in by the local health officers acting under knowledge, intelligence, happiness and usefulness: For man is capable of loving God, believing in God, and obeying God, and thereby becoming internally, or in affection and thought, conjoined to God, and to be conjoined to God is to live forever. A kingdom of intelligent and happy human beings to continue forever, and to be constantly enlarged and perfected by additional members, and by the continual improvement of those already members, is a view of creation in its final purpose, worthy of the Divine love, wisdom and power. God's kingdom in this world is called the church, and His kingdom in the spiritual world is called heaven. Hence, a heaven from the human race, may be said to be the end of creation. Man is born in the natural world, where he lives a few short years, and then, by the process of death, passes into the spiritual world, the eternal home of all, and where the good will enjoy everlast ing happiness.

BY HOLLIS FREEMAN.

CHAPTER II.

'Shall we have turn on the parade?' Captain Herbert said at length, getting rather tired of solitude and stone throwing, "I only came last night, so I have seen no one yet. Are you staying with

"No, they are only friends I have met here. I am staying at Gladdaeth Crescent with a cousin of mine," said Effie, in reply to the last question, and gladly rising up in answer to the first.

How proud and happy she felt as she walked side by side with her new-found friend up and down the gayly-thronged parade. How triumphantly now she passed the well-dressed, stylish girls. Was there another man here to-night to compare for one moment with this, perhaps the gathering shades of evening hid the shabbiness and old-fashionedness of her poor worn-out old dress. Anyhow, it was delightful, charming; a faint color sprang to the pale cheeks, the gray eyes were sparkling and gleaming with gratitude and excitement and wondrous happiness. Conor Marston took off his hat as he passed them, and nodded kindly, well pleased to see "that poor little thing" enjoying herself so. Jessie gave an envious look at the tall, well-made figure at her side.

Captain Herbert himself was a little amused at the upturned face, full of such wonderful gratitude and admira-

She is a nice little thing," he said to himself, and has been awfully snubbed, I see; she looks painfully grateful for a few kind words." She had overcome her shyness by this, and was talk-• ing gayly! Let me show you the belle of Llandudno-there, we are just going to pass her, that dark, handsome, haughty-looking girl, with the velvet hat and plume; I call her The Lady Clara Vere de Vere, Isn't she a

Effic looked up with some anxiety in-A nameless feeling of jealousy rushed moody and silent, she let it pass unno- sombre scene suited well with the to her heart as his eyes slowly sought ticed, unobserved; if he was gay to What if he should become at once enthralled, captivated by her loveliness, and forsake, desert, overlook, the poor, plain, friendless little being at his side! Her heart beat wildly as if her new-found treasure was going to be snatched from her grasp. She kept her large gray eyes on his face. They were walking slowly, and both passers-by looked full and boldly at each other as they passed. Effic thought the Queen of Beauty looked defiant, hor hero contemptuous.

You know her? she gasped.

Ellie saw that his face had changed. "But you did not speak to her." They walked on some distance withlout speaking; then Effic felt as if some-

thing compelled her to say, 'Do you not think her beautiful?" He roused himself as if out of a rev-

"Miss Lacy? Oh yes, in her way I suppose she is. I don't know much about her—that is, we met before, but as she didn't care to speak to me to-night, I shan't trouble about her, but shall let the acquaintance drop. Shall we turn now? the people don't seem summer world a paradise for Eille to come to this end of the parade."

They turned, and the next time they passed Miss Lacy and her party. Captain Herbert was laughing and talking so gayly to Effic, that he never appeared

even to see her. Effic now had time to study the lady's face, and was in her turn astonished to swered, smiling. find that she was herself the chief object , "Phew," said Captain Herbert, "do judge, that he stood quite still, without and it seldom or ever differed one. A lady residing in this village, the of notice. How slowfully and scornfully the dark brilliant eyes looked up and Lea?". down the plain, quiet, insignificant He spoke foully. Effic felt sure, as girl. With what a scarcely concealed she blushed hotly, that Miss Lacy could sneer of contempt she finished her scrutiny!

"I don't think Miss Lacy is at all 'nice,' said Effie, "I should not care to reckless way he sometimes laughed as know her. But her companion gave her no answer to this.

rides, or walks, or excursions, planned by the young people. Perhaps she did not know how often her young cousin fell exclusively to the care of Captain Herbert. She knew they were a party

of any one person. kindly pleasure in promoting the enjoy-

young people of the party,

Jessie and Amy and their gay young
friends struck a harsh chord in his memory, to which now his heart could neither respond nor vibrate.

This gentle girl, with her quaint fancies and poetic ideas -- with her warm. childish heart and true inner depth of character-never struck a harsh note, or made one jingling discord. If he was silent, or unhappy, or petulant, she did not tease him by word, or look, or questioning, but bore it all with gentle quietness. If he chose to lie with his handsome-face staring up at the brilliant blue sky for hours together, she would sit by him quite still with her work or book, and there was something soothing in the very quietude of her pres-

bring back a smile in its place.

to compare for one moment with this, loving, impulsive girl, perfectly free let me show you someone cares for me, with you and thought it unutterable from any taint of rudeness or valgarity. It was mean, despicable, contemptible, or even see, the shabby, battered old hat. Perhaps men did not care so much about these things; or—and this for enjoying herself so much here, for much about these things; or—and this being, as she called it, so babyish. She turned to hate, the sweetness to gall have snoken again, perfectly free let me show you someone cares for me, with you and thought it unutterable in for you; I can win other love easily bliss; but when you say it to-day—"
"Well?"

"Well?"

"I listen with derision, contempt.

The girl's proud; wounded spirit rose, and fought and struggled against softer me show you someone cares for me, with you and thought it unutterable in the sweetness for me, with you and thought it unutterable in the show you. I can win other love easily bliss; but when you say it to-day—"

ADVANTAGES OF CRYING -Won't the boys and girls, who find the tears come It was growing dark; the blue sky of easily in pain or disappointment, be her simple science to make herself look morning, and purple tints of evening; glad to know that crying is a good thing, and so declared by eminent physicians. A French physician is out in a dissertation on the advantages of groaning and crying in general, and especially during surgical operations. He contends that groaning and crying are two grand operations by which nature allays anguish: that those patients who give way to their natural feelings more speedil recover from accidents and operations than those who suppose it as unworthy a man to betray such symptoms of cowardice as either to groan or to cry. He tells of a man who reduced his pulse from 126 to 60 in the course of two hours, by giving full vent to his emotions. If people are at all unhappy about anything, let them go into their rooms and comfort themselves with a loud boohoo, and they will feel a hundred per cent better afterward. In accordance with the above, the crying of children should not be too greatly discouraged. If it is systematically repressed, the result may be St. Vitus' dance, epileptic fits, or some other dis- the supply of beds was not equal to the ease of the nervous system: What is demand. The Bishop, after being innatural is always useful; and nothing can be more natural than crying. - Good

An Invention Wanted.

The passenger in crossing the cont.

ment, or in traveling a few hundred

miles, finds himself covered with dust. He emerges with his face covered with grime, and soiled clothes, and in a state Grocories. of positive discomfort. If he travels across the continent, he is covered at one time with alkali dust, at another with white or yellow powdered clay.

It pervades the cars and takes possession of the passengers. Whoever has noticed the effect of driving snow-storms in the Atlantic States knows how snow will be sifted into the most weatherly houses. It is driven under doors, under window casements and under eaves of dwellings. Now dust is driven in the same way. No device has ever yet been applied which will effectually keep dust out and let fresh air in. The first step in the way of perfecting an invention is to make every window immovable. These should never be subjected to the caprice of the passenger. The window should be for the admission of light and nothing clsea. It should, therefore, be a fixture, fastened into the solid wood and made air-tight.

Doors, also, should close without noise, but should be air-tight as to all the margins. Shutting the dust out in this way, means shutting out the air. The next

step will be to get the air in entirely

tree from dust.

THE FAMILY CARCLE.

A HOME HEALTH RESORT .--- Usually the healthy members of the household are the domestics. Yet these girls grow up ignorant of sanitary laws, ofter ill-chd and underfed, breathing bad air and exposed to disease. What saves them, knits their frames into sturdiness their muscles into strength, their flesh into firmaess, is vigorous exercise called hard work, which, in the gymnasium of babyhood. LEGAL NOTICES.

the Problete the Country of Livingston holden at the Problete Office in the village of Howell, on Friday, the thirteenth day of April, in the year one thousand eight hundred and eighty-three. Present, George W. Crorogy, Judge of Probate. In the matter of the estate of CHARLES C. YOUNG, deceased.

On reading and filing the petition, duly verified, of Sarah P. Young, praying that administration of said-estate may be granted to herself or some other suitable person.

Therefugo, it is ordered that Thursday, the

Thereupon, it is ordered that Thursday, the 17th Day of May next, at Ho cleek in the fires noon, be assigned for the hearing of said petition, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office, in the village of Howell, and show cause, if any there be, why the prayer of the petitioner should not be granted. And it is further ordered that said petitioner give notice to the persons interested in said estate, of the pendague of said entition and the hashing these other persons interested in said estate, are requirdency of said petition, and the hearing thereof, causing a copy of this order to be published in the PINCKNEY DISPATCH, a newspaper printed and circulating in said county of Livingston, for three

successive weeks previous to said day of hearing:
GEORGE W. OROFOOT,
(A true copy.)
Judge of Probate.

A N ORDINANCE FOR THE ABATEMENT THE VILLAGE OF NUTSANCES. The Common Council of the Village of Pinckney ordain: Sec. 1. That any person or persons who shall keep, erect or maintain any nuisance within the corporate limits of the fillage of Pinckney shall Torteit and pay, on conviction thereof, the sum of not less than three nor more than fifty dollars for

each and every such offensor. Sec. 2. Whenever complaint shall be made to the common council by five or mure chizens of said village that any nuisance, source of fifth or cause of sickness is kept, erected or maintained within the corporate limits of said village by any person or persons, the common council shall cause a notice of the time and place of hearing Sec. 37 At the time and place appointed in said notice the Council shall proceed to hear the evidence in support of said complaint, and the persons notified, or other persons interested, shall be heard in their defense of any defense is made—and said hearing may be adjourned from time to time as the

said council shall believe that the complaint has been sufficiently proved, and that the nuisance, source of tilthor cause of sickness should be abated they chail so declare by resolution or other-wise in the records of their proceedings, they shall thereupon issue a notice to the partpense to remove the same within twenty four hours or such other time as the council may direct, and if the owner or person keeping, erecting or maintaining the same shall refuse or neglect so to do he shall forfeit a sam not exceeding one hundred dol-

Sec. 5. If the persons so notified shall not comply with the provisions of said notice of the council to remove and abute such nuisance, source of

A N ORDINANUE RELATING TO TRAMPS The Common Council of the Village of Pluck

ne, ordain:
Sec. 1. That the common council may cause the arrest, conviction and sending to the Detroit house of correction, in Detroit, as vagrants, all tramps

Sec. 2 That the Murshal may as vagrants all tramps who shall be found in this rillage, and arraign them before a Justice of the Peace for trial, and notify the Village Attorney of the same. The Marshal shall also cause suitable notices to be posted in three conspicuous places in the village, that the tramps will be arrested as

NORDINANCE RROHIBITING ANIMALS RUNNING AT LARGE. The Common council of the Village of Phickney ordain:

Sec. 1. That it shall not be lawful for any sheep, awine, there a mules, asses or cattle to run at large in any of the streets, commons, lanes or al-

loys of the village of Pinckney.
Sec. 2. All begists found running at large in the village of Pinckney, contrary to the provisions of this by law, shall be impounded in the village pound, by the marshal of said village, and the beast or beasts so impounded shall be furnished with sultable food and water by said marshal so long as they are detained in his custody. Sec. 3. The marshal shall receive for his fees the

sum of tifty cents a head for all horses, males, ass wine, and ten cents a head for all sheep lawfully distrained and impounded by him.

Sec. 4. The marshal shall not deliver to the owner any beast so impounded, until such owner shall pay him his fees and the expense of keeping

such beasts.
Sec. 5. It shall be the duty of the Marshal with in twenty-four hours after impounding any beast impeter no a formation to wive motion thornof to the

owner, or to the person having the care or control of them, which notice shall be delivered to the party, or left at his place of abode, and shall contain a description of the beast or beasts, and a statement of the time, place and cause of impound-

ed in said village.
Sec. 7. If no person shall appear to claim the

beasts, within ave days after the day of Impounding, the Marshal shall cause them to be sold at

ing, the Marshal shall cause them to be sold at action in said village, irst advertising the sale by posting up notices in at least three of the most public places in said Village, at least three days before said sale, or by publishing said notice in some newspaper published in said village, at least three days before the sale.

Sec. 8. The proceeds of said sale after paying all costs, fees and expenses, with the charges for advertising and selling the beasts, shall be do posited in the treasury of said village for the unit of the owner-of said beasts, in case he shall sale stantiate his claim thereto within six menths.

Sec. 9. If any person shall rescue any beast of beasts distrained or impounded by the Marshal, under and by virtue of this By Law, he shall be liable to the Marshal for all fees and charges which shall have been incurred before the rescue and shall also forfeit a sum not less than five dollars, nor more than twenty dollars. dollars, nor more than twenty dollars.
Sec. 10. The defendant in any action brought for rescuing boasts distrained or impounded; shall

not be allowed to allege or give in evidence any fact or circumstance to show that the impounding was illegal, but if there is any ground for objections, the proceeding of which he is entitled to avail himself, he may have the advantage thereof in an action of replevin.
