Did you est your share of the turkey to-day?

Bro. Adams takes us somewhat to task bécause we stated that there were not in the county manufacturing establishments of any considerable magnitude. We must confess to have been ignorant of the extent of Fowlerville's manufacturing interests and gladly correct our error. From the Review's statement we readily see that Fowlerville has the lion's share of manufacturing interests, and that accounts for its being the liveliest town in the county. But for all this our statement was in the main correct as its purpose was to call attention to the meagerness of manufacturing industries in the county, which is so apparent as to demand inquiry as to its sause. We did not ignore the fact that there were many small manufacturing establishments, mills, etc., all over the county, facturing interests are so inconsiderable as those of Livingston?

-Mr. Blaine gets from the publishers of his new book \$75,000 cash down and a royalty of 15 cents a volume. There are advance orders for 100,000 copies, and it is expected that fully 300,000 will be sold. This would yield the author \$120,000 in all.—N. Y. Trib-

-Miss Emily Thompson, a reigning belle of Roanoke County, Va., was married the other day to Napoleon B. Ainsworth, he being a full-blooded Choctaw Indian, a college graduate and a succes-ful lawyer. The strangely-mated pair Christmas is the all-absorbing topic have gone to Indian Territory to live.—

> -Mr. John Wanamaker, the great dry-goods merchant of Philadelphia, has resigned the Presidency of the Young Men's Christian Association of that city, which he has held for thirteen years. During that time he has

Philadelphia Press. -Miss Bertha Crowley, a sixteenyear-old girl of Deposit, N. Y., always until the other day she learned that her father, General J. J. Byrne, had, when her mother d'ed, placed her in the Crowin Texas, and left her a \$56,000 estate. -N. Y. Sun.

-Dr. Phillip Livingstone Jones, Brooklyn physician, was reported to be worth about \$1,000,000. According to his will, offered for probate recently, he is Henry Ewen, who recently returned worth only about \$1,000, but it is thought he had forgotton that he was suburban property, being very absentminded about everything except matters relating to his profession.—Brooklyn (N. Y.) Eagle.

-It is said of Charles Hazewell, late one of the editors of the Boston Traveller, that he knew the 5,000 books in his library as a mother knows her child. He could repeat the "Scarlet Letter" word for word, from lid to lid. But his greatest feat of memory was to repeat the sovereigns of England from the old Danish days to Victoria, giving the number of children each had, the dates of their birth and death, and the entire collateral connections.

-The death is announced in Paris of the wife of John Russell Young, Minister to China. Mrs. Young was a niece of the late Governor Marshall Jewell, of Connecticut. She was married about two years ago, and journeyed to China with her husband. She was taken ill, and was on the continent for her health. She was alone in Paris, having no one with her but a babe a few weeks old, brilliant conversationalist, and was greatly admired for her talents and beauty.—N. Y. Times.

-George Bancroft, the venerable historian, is a man of fixed and steady habits. Tthough now past his eighty-third year, he still rises at six o'clock every morning, works until two o'clock in the afternoon, and then rides generally horseback, the remainder of the day.

-The London Times accredits America with a more genuine love for literature than England possesses. "The Americans," says this critic, "as a Nation, are more active-minded than we, though they fall short of us in solidity and stamina. They are genuinely fond of literature, and literary men are, peraps, more highly valued than here. Nothing literary is really popular in England, except fiction, gossip and ser-

—She laid her head upon his shoulder as he held her close to his bosom. Her eyes beamed love, etc., into his. "Do you love me, Alphonso?" "Yes, sweetest." "Then why delay naming the day?" "I will not delay, love. It will be some pretty day in the next springtime when the flowers are budding forth in beauty and delightful fragrance." "Oh, pshaw! Why, Will Jones said he'd marry me next week. But if you can beat that time, decreet, I am yours, for Thore you so much." Alphenso took his hat and retired from the race. - N. Y. Graphic.

Entered at the Postoffice as 2d class matter.

TOPICS OF THE TIMES.

MICHIGAN is coming well up to the front with her sister states as a tramping-ground for murderers. Scarcely a week passes in which in some quiet, rural community a family, more or less numerous, is killed for booty, revenge or lust. This does not include the cities and large towns where murder is one of the average crimes of the day. The period of simplicity and order, characterizing the State in its childhood, is passing away.

WILLIAM A. PORUGEE, a baker of circumstances which left the attending physicians much in doubt as to the cause of death. A post-mortem examination was made which resulted in the discovery of a grape-seed in one of the intestines. It had become lodged there, a sac had been formed about. Dand subsexuently an abcess. This had finally broken and inflammation of the adjacent parts ensued, which resulted in

A MAN living at Cape Vincent, Jefferson County, N. Y., who recently had the misfortune to lose his wife, determined that the doctors whom her mysterious disease had puzzled should not make any post-mortem examination, "in the interest of science." Apparently he hadn't much confidence, in their honor, for on the day of her burial he erected over her grave a tent in which he has slept every night since and proposes to continue sleeping until the body has returned to dust.

THE old British lion groweled not a little the other day when he found that the Irish informers from the mother country-have a home upon their shores. And now comes a louder growl over the unfilial conduct of Canada, who refused to receive destitute Irish Immigrants, but told them point blank, that and England is about the only source from which objections may be expected.

Signal Service has been in full opera-Lakes has been rare. The commanders of the propellers are skilful and cautions men, and they take few risks, Captain McKay, of the Manistee, was especially brave and careful, and yet and the loss of eighty-eight lives by the weck's news.

To collect \$137,622.842 of internal revenue last year, the total cost was \$4,092,708—a little less than 3 cents on the dollar. The elaborate tables show. ing the cost in the different States are of no value, because the very heavy payments made in a few of the States or districts do not involve a corresponding addition to the official or clerical labor. In Mississippi and Alabama the cost is 25 cents on the dollar, but if the system States it would not be possible to collect \$70 for every dollar of expense in Illinois, or \$55 in New York, or \$49 in Ohio. The cost will be materially reduced, moreover, by the consolidation of districts recently effected by the of taxes on tobacco, he judges, will re-

great English Reformer, Wyelif, h/s never received the recognition to which Professor Loberth, of Germany, has just published a book showing Wyclif's greatness, and demonstrating that Huss owed nearly all his theological ideas to the Englishman, whose works he copied, often almost literally. There is a "Wyclif Society" in England, but it is so poor that it cannot find the funds necessary for the publication of even a small part of the reformer's works, and so it is that while English-speaking people are lavishing erudition and oule-

gium upon Luther, a great English pioneer in Protestantism remains in the obscurity which he has now occupied for five hundred years. Since England cannot summon the energy to do honor to Wyclif, perhaps America may, as she has previously in more than one instance done, step in to atone for the ungrateful neglect of the mother country.

The Chautauqua College of Latin proposes to help those energetic students who, after receiving preparation for college have been unable to complete she college Latin course. The two years Latin course will be extended by the Chautauqua, plan to four years, from half an hour to an hour per day being considered sufficient to complete the college course. The method provides for written translations both from Latin iuto English and vice versa with answers in Latin to Latin questions and in English to Eng-Kingston, N. Y., died recently under lish question on etymology, syntax, synonymes, history, etc. The teacher in correspondence with the pupil directs and advises and corrects his work. The rearly fee is \$10. Papers are to be sent out every two weeks, each new paper being accompanied by the preceding one corrected. Monthly papers and returns may be substituted if the fortnightly system should prove too wearing. On completion of the course the students may receive a certificate signed by the Director, Prof. S. Shumway, of Potsdam, N. Y. There will be entrance and yearly examinations, certificates of graduation from schools of high standing being accepted as equivalent to entrance examination. In conpection with this course a college course of Latin-in-English will be pursued, embracing Roman antiquities, history, etc., together with standard translations of the masterpieces of Latin literature.

How We Acquired Oregon and Washington Territory

It is a fact not generally known that

but for the knowledge and patriotism of one man the valuable lands embraced the Australian colonies refused to let in Oregon and Washington Territory would now be the property of Great Britain instead of the United States. The Hudson Bay Company, forty-five years ago, were very anxious to obtain possession of these lands, and industri-ously circulated the report that they could never be settled, as it was impossible for immigrants to cross the mounthey could go back to the country from tains in wagons. At a public dinner city. whence they came. Canada did right, given in 1842, at which several officers of the Hudson Bay Company were present, news was received that a band of British immigrants had crossed the year. mountains. Toasts were arunk in honor Or late years, especially since the of the event, and one enthusiastic Englishman exclaimed: "Now the tion, a great disaster on the Upper Americans may whistle, the country ours." There happened = to present at the dinner an American missionary, Dr. Marcus Whitman, who, when he heard the boast of the Englishman, resolved that if it were in his, power to prevent it the country should not become the properthe sad news has come that his vessel, ty of the English. The next day he with passengers and crew; has gone started for Washington on horseback, down in Lake Superior. This calanity and making the journey in winter with frozen limbs presented himself, immediately upon his arrival at the Capitol. sinking of the French brig Rocaberg in to Daniel Webster, then secretary of ocean are the saddest features of the state. After he had stated his case, Webster bluffily told him the country was worthless, and that wagons could not cross the mountains. "Sir George Simpson, who is here, affirms that, said he, "and I am about trading that worthless region for some valuable concessions in relation to the Newfoundland fisheries." Dr. Whitman was in distress, for he found that the treaty had already been approved by the senate, and was awaiting formal ratification and the signature of President Tyler. He decided as a last hope to call upon the president himself. After hearing him through, President Tyler said: "Doctor Whitman, were not faithfully maintained in such your frozen limbs and leather breezhes attest your sincerity. Can you take emigrants across the mountains in wagons?" "Give me six months and I will take a thousand emigrants across," was the reply. "Well," said the President, "if you take them across the treaty shall not be ratified." With much effort the band of emigrants was President—the Commissioner estimates raised, and, though they were met by at least \$125,000 yearly. But the re- adeputation from the Hudson Bay Compeal of many taxes and the reduction pany who declared that it was impossible to cross the mountains and were almost persuaded to abandon their wag- Hanselman's store in Manistee. These worthduce the receipts to \$120,000,000 for ons, before the time expired succeeded he was a once arrested, but alterward released in their undertaking. The patrio ic missionary was vindicated, the treaty superintendent of Pablic Instruction H. B. One of the pieces struck Mr. Wood, who was working near by, fufficting a fearful wound on the left side of its face, cutting a gash from his nose to the left ear, and cospwards to the chin. Dr. Cochran, of West Branch, happened to be in the mill at

Michigan Horticultural Society.

The fourteenth annual meeting of the Michigan state hortfcultural society will be held in Eaton Rapids, Dec. 3, 4, and 5, opening with a session on Monday evening and closing with the Wednesday evening session. The meeting will be held at this point in acceptance of an invitation extended by the Eaton horticultural society. A fine hall will be furnished, free entertainment to all members of the state and branch societies, and reduced rates will be given by the hotels to those who prefer to go there. Eaton Rapids is situated very conveniently at the crossing of the Lansing branch of the Lake Shore and the Grand Rapids Mich. branch of the Michigan Central railroads. Each branch horticultural society is entitled to as many delegates as it will send, and it is desirable that there be as large a representa-

tion as possible. Parties intending to be in attendance should notify the secretary at Grand Rapids at once that provision may be made for them and re duced rates obtained over the railroads if possible. It is desirable that there be as large an exhibit of horticultural products as can be made to turnish illustrations during the discussions. Gentleman engaged in the manufacture and sale of agricultural implements and contrivances, are especially invited to be present with samples of such things as are useful to the horticulturists. An ple space will be given them, and the discussion of the comparative ments of the new labor-saving inventions will be made a leading feature of the convention, Any one attending will please bring contrivances found useful in their own expertice. Appropriate awards will be made

The following list of topics will be discussed in such order as may be determined hereufter; 1. The nurseryman's duty to his patrons.

2. Horricultural contrivences. 3. What shall be done with the old orchards 4 History of Eason county norticulture. 5. Methods In marketing 6. What can an experiment station do for

P "Old fellow, 1'd make explanation; I'm tired of thes ione bach for life, And readly don't find repuration A full substitute for a wife. Now, gentle affection is one thing-A sensation I often enjoy-But an im e-cribable something Is lacking in that, my dear boy

"There's Nell, whom I take to the opera--Fine figure, blue eyes and light hairthe's equally nice for a hop, or a Tote- tite on the front stair; There's Hattie, so very artistic, Gentle Jane, and the gay E canor, Learned Prudence, who's quite atheistic-And all the rest of a score -

"Ail charming—and really I loved them; Would wed any one-for a time; Yet, if married life did not improve them, Would long for a happier clime. Each is fine for the mood or occasion; But for ever?—the risk is too great, I repel matrinion:at invasion

And remain in my bachelor estate. "What of Belle-bright country born maid-

The aweetheart of old college days! Even now boy fancy is laden With dreams of her loveable ways; All the rest are but toys of the dance, sir; Dear Belle, a companion for life; Your hand—now I'll whisper my answer— She has promised to be my true wife."

THE HAUNTED POOL.

BY DAVID KER.

The Continent. The sun was setting over the Ganges one bright summer evening in 18/1. The day had been a hot one, even for a slight stress upon the last word: India, and it was an unspeakable relief to every one when the scorehing sun began to decline at last, and the lengthening shadows of the tall palms along the river bank told that night was at

neighboring village, who had been ly-that did it pro ing motionless all the afternoon under the snade of their re-thatefied roofs, or fixedly at Ismail's immovable face of the vast overarching banyan trees around them, came trooping down to rejoined he. .. If it wasn't a crocodile ty in adjusting the time in the last mile the water in a body.

Instantly the whole bank of the great the long, Lurning day-became, all being synice in his eating as to devour sporting judges, who happened to be at alive with noise and bustle. Children none but women, and only such women the time in another part of the city paddled in the broad, still pools, or as had plenty of silver bangles on?" chased each other in and out or the fall, feathery bamboo clump that grew and the sparkle of his eye showed that along the bank. Women filled their he was beginning to guess the riddle, began to scour their brass lotalis (drink! the pleasure of telling the whole story ing vessels), or to kindle fires for the himself, cooking of their evening meals; while a little farther down the stream, a group of young girls, wading out into the shullow water, fell to splashing each other with might and main, amid shouts of merry laughter,

To any one unaccustomed to the ways rope. of India, it would have seemed strange enough to see, upon the wrists and ankles of nearly all the girls, and many of their mothers likewise, heavy bangles of solid silver, which any Western lady might have been proud to wear. But any woman worth robling went into the the Hindu peasants, to whom savings water, the noose tangled her feet, and banks are utterly unknown, have no the robber midden among the bushes way of keeping their money safe except on the opposite bank, dragged her down by carrying it about with them in this fashion—a somewhat nazardous plan, it must be owned, in a country swarming with the most expert and daring thieves in the world.

Suddenly one of the girls, who had ventured a little farther out into the stream than the rest, disappeared under | case." the water with a piercing shrick, as if drawn down by some overpowering force. A few bubbles that rose sullenly to the surface were the only token of her fate, while her terrified companions turned and rushed back to the shore as fast as possible, screaming:

"A crocodile! a crocodile!" Several days passed before any of the village women dared to approach the scene of this terrible mischance, At length one; bolder than the rest, ventured in again, and the others, seeing that no harm came of her daring, began to follow her example. More than a week passed without any accident, and everything was beginning to go on as usual, when, one evening, a second girldisappeared in precisely the same manner as the first.

The terror was now universal, and all the best hunters of the viliage set themselvs with one accord to get rid of this destroying crocodiles. Baits were laid, traps set, men posted along the reasons for what he did. Then placbank with loaded guns to keep watch they might, nothing was to be seen of

Several days fater the wife of one of tho villagers was washing her white wraper on the bank of the river, when it slipped from her hands and floated slowly out into the wide, still pool formed by the band of the stream. The just succeeded in clutching it, when she broken ends to the light of the rising ing in the father, 526 years. Mr. Danewas seen by those on the bank to give a sudden start, throw her arms convulsively into the air and disappear under the water just as the other two had done before.

About three days after this last catastrophe, Mr. Henry Sparks, the British Commissioner for the District of Jungley wallah, was at work in his office amid a perfect mound of papers, halting every now and then to wipe his streaming Lace (which, despite the enormous punkah, or swinging fan, tiger and the antelope through their na worked by his native servant outside live jungles ever since he was ten years bonus for a wife

A Temperance Man's Endurance

Mr. Keeble, the noted temperance advocate, has become quite a lion among the temperance and church people. He recently completed in London, Eng. one of the greatest feats of physical endurance on record. Its accomplishment was undertaken for the purpose of proving to the world that the physia shadow, he made a low salaam, and cal system of a sound man, who never uses alcohol, is capable of sustaining "May the humblest of his servants greater and more protracted fatigue beak to the Sahib?" (m'aster,) than is the system of an equally sound There was nothing particularly hum- man accustomed to its use, even in moderation. Mr. Keeble had, in most ers of endurance the virtues of temperance, by a feat of endurance in walking, choosing that because he had no experience, either as a professional or amateur pedestrian, and regarding walking as the completest form of physical exermiles within 445 hours, and to average during the entire period two and one? quarter miles per hour. No person but but he said he would, because he meant to in the interest of religion and humanity. He finished his thousandth mile in the allotted time, and ended apparently fresh, and certainly in excellent spirits and health A dispute arose at the completion of the next to the last mile, growing out of the decimal difficulto the total distance to be covered, and "Did the Commissioner, Sahib," in- Mr. Keeble continued walking until the and before the decision, which was in favor of the pedestrian, was delivered, Keeble had walked 456 hours and covered a total of 1,025 miles, finishing in

miles in each and every hour.

good condition. An admirer of Mr.

Our esteemed contempory, the Sun, takes exception to the idea that a man is necessarily old at the age of 70; and the exception is well taken. Three score and ten is merely a ripe manhood for one who unites a cheerful spirit with vigor of body and mind. There are many septuagenarians better entitled to be called young men than some at 45 or 50. Old age, properly so called all the faculties have been preserved by Dudley Field in his seventy-ninth year serve. retains the vigor and freshness of middle life. Charles O'Connor at about so much a matter of years as of temperament and feeling-of mental and bodily condition.

A Remarkable Family.

Mortimer Daucher, aged 121 'years, used at the residence of his son in Derrynane, Lesueur County, Minn. a short time ago. Mr. Daneherswas the last surviving brother of a remarkable family, which for downright longevity surpass es anything in the records of modern times. Not only this, but in another county Mr. Daneher's mother died in for the monster; but look for him as the sharp side uppermost, and the rope the 101st year, his eldest brother at the age of 108 years, his second at the age of 117 years, 7 months and twenty days and himself soon after at the age of 1211

> The father was the shortest-lived of the family, having died at the age of three brothers reached \$46 years; in-The man started, and held up the cluding the mother, 446 years, and takher has been a remarkably healthy and ictive man, never having been really ill in his life. Lately, however, he has, through sheer old age, been confined more or less to his bed, but was never ill-even got up and dressed himself a few days before his death. The gentleman came from the County Clare, Ireland, and could speak nothing outside the Celtin tongue of his ancestors Mr. Daneher possessed the full use of all his faculties till the very last

FARM AND HOUSEHOLD.

Low Ground for Orchards. It is claimed that 'experience has shown pretty conclusivery that the healthiest and best bearing orchards are those on low ground, where the blue clay comes in wet times, but comparatively low produced. land that needs drainage.

Turkeys for Thanksgiving Dinners .-Before killing the turkeys, and, intact, any kind of poultry for the market, they should be kept away from filth and shut up in an englosure for some time. The food should be rich and clean, with pure water or sweet milk. This is especially needed before Thanks. giving day, when there is so great demand for turkeys. It is known that the flesh of fowls is flavored by whatever it eats, and care should be taken that the food should be the sweetest possible.

Transplanting in November,

According to the Germantown, Telegraph, trees of any kind can be transplanted in November or December with perfect safety when there is no frost in the ground, care being taken to hill up the earth from six to ten inches around the stem. It further says: "Large trees can be transplanted from one place to another with more certainty of growing, late in the fall, when the frost will aumit of it, than at any other time. In all cases of transplanting-it may not be out of place to mention here—be sure to retain, in digging up trees, whether large or small, the rootlets, and when se ting again spread them and all the others out as carefully as possible. which will be following their natural position, and shovel among them the linest soil, and then mingle it among the roots with the hands, and then firmly press down with the boot when the hole is filled up."

Domestic Recipes.

Indian Suet Pudding. — One-half pound suet, chopped fine; one cup molasses, one pint milk, one egg, meal to make a very thin batter, teaspoonful ground cloves, teaspoonful ground ein namon, one teaspoonful salt, a little nutmeg, a few currents or chopped raisens. Boil or steam three hours. Serve with sauce.

Sago.—Sago, prepared like custard and then baked with apples or other fresh or canned fruit is a nice dish for a convalescent.

Dutch Sauce. Thicken a little drawn with the yelks of two eggs, take care the yelks do not curale. Add a little lemon-juice the last thing, some grated nutmeg, and a little pepper and salt. About a teaspoonful of lemonany other pedestrian in the world in an | juice to two yelks of eggs,

attempt to walk 2,500 miles in 1,000 Cake Fritters.—Cut any kind of plain cake in next slices, drop each slice in hours, and make two and a quarter very hot lard, and fry until they are a delicate brown. Place on a platter with a teaspoonful of sour jelly on each slice. Serve hot for dessert.

> Turkey Soup -Boil all the bones of roasted turkey, with the remnants of the dressing and gravy. When cold, remove the fat, add a teaspoonful of grated onion, one teaspoonful of grated carrot, one teaspoonful of cold boiled turnip, two tablespeonfuls of Italian pasie, salt and pepper as you please.

Useful Hints.

Fire in chimneys may be checked, if not arrested, by throwing salt on the fire below. Stopping the chimney at the top with a broad board, or wet hay, arrests the current of ar and helps to extinguish it.

Rats and Mice.—If a mouse or rat makes entrance into any part of the dwelling, saturate a rag with cayenne pepper in solution, and stuff it into the hole, which can then be repaired with wood or mortar. Neither rat nor mouse will eat this rag, which should be large enough to fill the hole completely.

To prevent the fading of calico during washing, use no soap, but instead, eighty. The combined ages of the jon a clear day; hang out as quickly as possible, and allow them to be in the sun only to dry. Few calicos are worth of the misfortunes of others, the owner and lawns.

A strengthening drink, for a very feeble invalid is made as follows: Beat their thousand pulpit power, than in the the yelk of one egg with a heaping teaspounful of sugar, and add a dessertspoonful of brandy. Beat the white to a stiff froth and stir it into the yelk. Pour the whole into a tumbler and fill up with fresh milk.

one-half gill of turpentine, and sufficient gape vines laid down in sections, and pipe clay and bullocks' gall to the makes its appearance.

marble with a soft brush, and after day or two, when quite dry, rub it off with a soft rag. A simple and quicker method is to take two parts of soda, one of pumice stone and one of finely powdered chalk. Rub this well over the marole, and the stains will be renear the surface. By low lands it is moved, then wash it with soap and wanot meant that on which water stands | ter and a beautiful bright polish will be

The rubber rings used to assist in keeping the air from fruit cans sometimes become so dry and brittle as to be almost useless. They can be restored to a normal condition, usually, by letting them lie in water in which you have put a little ammonia. Mix in this proportion: One part ammonia and two parts water. Sometimes they do not need to lie in this more than five minutes, but frequently a half-hour is needed to restore their elasticity.

Inexpensive but pleasing lavender water is made by mixing the following ingredients togother: Three ounces of the essence of bergamoot, six drachms of the tincture of musk, one drachm of the oil of cloves, four drachms of the English oil of lavender, twelve ounces of rose water and seven and one-half pints of alcohol. A smaller quantity can be made, but these proportions must bo preserved.

A Popular Novelist.

Literary World.

The story of how E. P. Roe found his right place in the world, as a writer of religious novels, would make an interesting illustration for one of Samuel-Smiles's pleasant books. He was an army chaplain during the war, and afterward became paster of the little church at Highland Falls, near West Point. A new church was needed, and to build it the pastor himself went pluckily to work to raise the money. The summer visitors at the Point did their share, but there remained a gap, to fill which Mr. Roe began to lecture about the country on the facts of his army life, but without any notion that he was a writer of fiction. Meanwhile the Chicago fire occurred, and under a strong spell of a desire to visit the scene, though without special purpose in view, he made a "forceu march" by railroad, and reached there while the ruins were still smoking. In his study there are some curious relics of the fire in the shape of china, which he found in the ruins, on which the intense heat had burned in a smoky iridescence. Out of this journey there gradually developed "Barriers Burned Away," his first work of liction. It was published in 1872, and at once had an enormous sale. Up to this fall he had published nine novels-missing only two years, when he issued, instead of a novel, his "Success with Small Fruits"—and their sales aggregated 346 000 copies. The tenth novel, "His Sombre Rivals," utilizes his experiences of the way; and the season's sale of this and the previous books promises to bring the total up to 400,000 copies—an extraordinary result for little over ten years of literary work At the usual return of 10 per cent., this would come to \$60,000, but this, which represents very nearly the high-water mark of successful authorship is, after all, little in comparison with the returns of successful business men. Mr. Roe's method of work has been peculiar He writes his MS. in a huge Potato Sandwiches.—These may be ledger or hand-book, and usually finlishes a novel under tremendous pressure, sometimes shutting himself up in a room in a New York hotel, and drivcoffee, allowing himself only the recreation of an evening of good music, till his book is finished. This method occasionally results in a visible carelessness of construction, which his readers however, easily forgive. Besides writing novels, Mr. Roe has been very successful as a grower of small fruits, and does one of the largest businesses of the country in strawberry-plants. His present residence and fruit-farm is at Cornwall, on the side of old Storm King. He is now finishing a story of a novel kind; the plan of which was suggested to him by the editor of Harper's Magazine, and which will begin in the periodical, and run, in company with William Black's 'Judith Shakespeare,' for a year. The title is "Nature's Serial Story.' and the life (and love-making) of a country home is followed mouth by month through the year, with careful study of the out-door phases of nature, of plant and animal life. Mr. W. H. Gibson is associated with Mr. Roe in this work, and has been making studies for lavish illustration in the neighborhood of Storm King, where the scene of the story is realistically placed. His pictures will be supplemented by figure illustrations from Mr. Frederick D.elman, who drew "A Girl I Know" in the mammoth Harper's Christmas of last year. Mr. Roe's books have also had considerable sales in England, sometimes with, oftener very thick starch tied a cloth. Wash without, profit to him; but his American returns alone would have made him, had it not been for his having some cellent method with delicate cambrie a considerable fortune. But his own eatisfaction seems to be rather in the good the stories have been to others, in returns they have brought to himself.

Farmers should make calculation to devote a few days before winter sets in to prepare shrubs to resist the cold. Sur-The best way to clean marble is to face water should be drained away, take one-quarter pint of soap lees, most small fruits should be mulched.

"AND DON'T YOU FORGET

E. A. MANN, East Main St., Pinckney.

I've had another dog. That makes they were better acquainted with dogs

you ever saw.

The first night we had him we bushel of broken crockery.

Father said the house was the proper place for the dog at night; so the next night we left him in the front hall. He didn't bark any all night, but he got tired of staying in the front hall, and wandered all over the house. I suppose he felt lonesome, for he came into my room, and got on to the bed, and nearly suffocated me. I woke up dreaming that I was in a melon patch, and had to est three hundred green water-melons comfort when I woke up and found it was only the dog. He knocked the water pitcher over with his tail in the morning, and then thought he saw a cat under my bed, and made such an awful noise that father came up and told me I ought to be ashamed to disturb the whole family so early in the morning. After that the dog was locked up in the kitchen at night, and father had to come down early and let him out, be-cause the cook didn't dare to go into the kitchen.

We let him run loose in the yard in the day-time, until he had an accident with Mr. Martin. We'd all been out to take tea and spend the evening with the Wilkinsons, and when we got home about nine o'clock there was Mr. Martin standing on the piazza, with the dog holding on to his cork leg. Mr. Martin had come to the house to dog caught him by the leg without saying a word. Every once in awhile the dog would let go just long enough to spit out a few pieces of cork and - ke-a fresh hold, but Mr. Martin didn't dare to stir for fear he would take hold of the other leg, which of course would have hurt more than the cork one. Mr. Martin was a good deal tired and discouraged, and couldn't be made to unshould all try to do.

The way I came to lose the dog was this: Aunt Eliza came to see us last week, and brought her little boy Harry with her. Harry is six years old, and he isn't so bad as he might be, considering his age. The second day after McGinais' yard, when Tom said he knew where there was a woodchuck down in the pasture, and sup ose we go and hunt him. So I fold Harry to go home and get the dog, and bring him down to the pasture where Tom said the woodchuck lived. I told him to untie the dog—for we had kept him tied up since his accident with Mr. Martin and to keep tight hold of the rope, so that the deg couldn't get away from him. Harry said he'd tie the rope around his waist, and then the dog couldn't possibly pull it away from him, and Tom and I both said it was a good work to be known as "The Encycloplan.

Well, we waited for that boy and the dog till six o'clock, and they never came. When I got home everybody wanted to know what had become of Harry. He was gone and the dog was cone, and nobody knew where they were, and Aunt Eliza was crying, and said she knew that horrid dog had eaten her boy up. Father and I and Mr. Travers had to go and hunt for Harry. We hunted all over the town, and at last a man told us that he had "seen a boy and a dog going on a run across Deacon Smith's corn-field. So we went through the corn-field and found their track, for they had broken down the corn just as if a wagon had driven they have risen from poor boys to great through it. When we came to the fence on the other side of the field we found [Here occurs another pause to allow Harry on one side of the fence and the the victim to tickle himself. at on the other. Harry had tied the rope round his waist, and couldn't wouldn't come back again. So they lowed by the gentleman who writes the were both caught in a trap. How that biographies. Have you a photograph?" dog did pull! Harry was almost cut in "Well-ah-I think so." two, for the dog kept pulling at the rope all the time with all his might.

How Telescopes Are Made.

Prof. J. K. Rees, of Columbia Colthree dogs that I've had, and I haven't lege, lectured last night in the hall of been allowed to keep any of them. the Packer Collegiate Institute, Brook-Grown-up folks don't seem to care how lyn, to an audience of about six hundred much a boy wants society. Perhaps if people. The subject of the lecture was "The Great Telescopes of the World." they'd understand boys better than they | and it was illustrated with dissolving views. The professor read from manu-About a month ago there were lots of script in an easy and clear voice, and dressed his thoughts in simple and appropriate language, using but very few technical terms. He began with a dehim. and the next day he brought the scription of the manufacture of the dif-most beautiful Siberian blood-hound ferent parts of the modern telescope, describing minutely the process of grinding the lenses. In America this is chained him up in the yard, and the done by means of an iron polister, made neighbors threw things at him all to fit the convex of the lens as near as night. Nobody in our house got a wink possible. The inside of this polishing of sleep, for the dog never stopped iron is coated with pitch, and the glass, barking except just long enough to yell having been first roughly ground, is something hit him. There was placed inside, and the workman walks scuttleful of big lumps of coal in around the polisher pressing on the pard in the morning, besides seven lens. In Europe the polishing is done boots, two chunks of wood, and a by machinery, the lens being held against the revolving polisher. This, it is claimed, insures a more uniform surface, but experience has demonstrated that no lenses as yet made have given such general satisfaction as those ground by Alvin Clark, of Cambridge, Mass., and all glasses from him are ground by hand. It seems singular, thinking of the fame that this man now enjoys, that it was in another country helfirst gained a reputation for fine work. Alvin Clark, was a portrait-painter, and took up the or be sent to jail, and it was a great study of opties as a diversion. For ten years he turned out glasses without attracting any notice, but at last the merit of his lenses was published by English astronomers. Just before the outbreak of the war, Prof. Bernard. now President of Columbia College and then the head of the University of Mississippi, gave Alvin Clark an order for a lens fifteen inches in diameter. The rebellion prevented the sending of the glass to Mississippi, and finally it was bought for the Dearborn Observatory, of Chicago, where it now is. It is a singular fact that New York City, occupying the commercial supremacy which it does, can not boast of anything in the line of astronomical research; but it is hoped that in the near future some one will endow an observatory which will be a monument more enduring to the donor's memory than the commonplace successes of life. The views with which the lecture was illustrated embraced as soon as he stepped on the piazza the photographs of the primitive appliances of the Chaldean shepherds for determining the equinoxes, the telescopes of Galileo and Herschel, and Tyco Brahe's observatory on the Island of Huen. Among the famous modern instruments were shown the mammoth refractors in the Naval Observatory at Princeton College and the reflectors at Paris and Melbourne. In conclusion the speaker, after mentioning the divided opinions derstand that the dog thought he was a regarding the merits of refractors and burglar, and tried to do his duty, as we reflectors, said: "The future opticianwho may discover the means of avoiding the secondary observation and change of color, the present drawbacks in refractors, will demonstrate the paramount utility of the refractor, or the one who finds the way to provide against all atmospheric changes in the reflector they came Harry and I were in Tom but up to the present time all practical tests have shown the superiority of the refrector for astronomical work." Prof. Rees was loudly applauded. - N. Y.

GRANGERS IN COUNCIL. The annual convention of the netional grange opened in washingt or on the 21st of November. Twenty-seven states were represented by masters of state granges William Saumiers, of the a ricultural department, first master of the national grange, delivered an address. Worthy Master J. J. Woodman of Mie agan, del vered the unruid address, reviewing the purposes of the order. If asserted that the grange organization was in a more prosperous condition now than for many years, and is ranks were rapidly filling up.

TARDONED. The President has finally pardoned Sergeaut Mason, who attempted to shoot Guiteau.

NEWS NOTES

CHARLIE M'COMAS' DEATH. A Mexican named Ruy Lopez, who has a brother among the Apache Indians, furnishes what purports to be an account of the death of Charlie McComas. Lopez says his brother told him that Charile is dead, and gave the account of his death as the Indians who captured and kil'ed him gave it to him. He said that after Judge and Mrs. McComas were killed the Indians took Charite and started for Old Mexico, and that Charlie cried and continued to cry, until finally, as the Indians expressed it, "the brat made to much fues I smashed his head with a stone." This account Lopez obtained from the very Indian who committed the crime, and he believes it to be true in every particular.

AN EX-MOLLIE MAGUIRE.

The Rochester, N. Y. Post Express publishes a letter from a man who says he knew O'Donnell, soon to be tried in London for the killing of Carey. He says O'Donnell was one of the chiefs of the Moilie Maguires, of Pennsylvania, and that in conjunction with Dan Kelly, Jim Carroll and "Red shirt," was in several "jobs." Three of his confederates were hanged.
O'Donnell, who formerly called himself Thomas Moran, is the only one left.

NOT ENOUGH WATER IN HER BOLLEG. The other afternoon a loud report like the discharge of a 20 pounder was heard in Kincardine, and while the citizens were conjecturing the cause, word was received that the tug Erie Belle, owned by Odette & Wherry of Windsor, which had arrived in port to take off | neighbors found the father in the barn covered the beach the schooler Carter, had blown up, with shucks and partly eaten by rate A Gerand that all hands were lost. On going to the scene of the disaster it was found that the boiler had exploded and the vessel herself was lost, but fortunately the lives of eight of the crew of twelve had been saved. What caused the sceident will never be known. It is suppos ed that the pump which supplied the botter had become chosed in some manner, and that the trouble was not noticed by the chief engineer who was in charge. The water got low, and when the pumps did fores some into the boiler It had the same effect as sparks on gunpowder: The names of the crew on the tug when the explosion has pened were as follows: Captain, Jona Tobia; mate, Wan. Tobia; first engineer, Wm. Osgood; see and engineer, Frank Eikenhurst; firemen, Wm. Johnson and Wm. Sayles; watchman Daniel Fin ayson; deck hands, man on the top floor of the building. Between Henry Peocock, Frank Conroy, Isaac Dren the two was another workman. Without any shaw, Lewis Smith, and ac ook, name unknown, known cause Scullin drew a revolver and fired following lost their lives: Wm. Osgood of mark, and Scullin recocked the weapon and club, breaking his neck. Lorain, Ohio; Frank Eickenhurst of St. Louis, thred at Plunkert, who fell dead. Scullin was Mo.; Eugineer Win. Sayles of Detroit; one arrested, and when taken to prison said he fireman and the cook. The Kincafdine life bought a revolver to shoot himself, and a sud-

struggling in the wa er, were picked up. THE VERDICT

of the coroner's jury in the Wisconsin capitol disaster holds the contractor guilty of gross negligence is causing a certain pier to be improperly repaired and the supervising architect and consulting arcuitect in contributing by their neglect to the falling of the building.

A BREAK FOR LIBERTY. The quiet little burg of Sandwich, Ont., was startled the other evening by the report that there had been an escape of prisoners from the county jail. Investigation confirmed the report, and revealed the fact that Greenwood. one of the con lemned murderers of Maher, of Detroit, Luke Phipps, the man who murdered his wife on a ferry boat a few months ago, and another prisoner had escaped. They sawed the bars in the ward, and scaled a 14 foot wall, and made their way to the river where they secured a boat and rowed directly to Springwells, where they were seen in a saloon and recognized. They shortly after went to Detroit, which was the last seen of them. Their escape was well planned, but not executed with out outside assistance, and to discover who aid cheer ed them, and to return the obvicts to prison, land. Sheriff McEwan and his assistants will devote their time unceasingly. A large reward is of fered by the Canadian authorities. The esped prisoners were supplied with revolvers and knives with which they threatened the lives of

their fe'low prisoners if they raised an a gem. COSTLY NEGLIGENCE.

In the suit of Mary O'Connor against Samu' el J. K-ely, a manufacturer of Manayunk, near Philadelphia, to recover damages for personal injuries, plaintill got a verdict of \$10,000. The girl was employed in defendant's mill, and during a fire a year ago, in the absence of a tire escape, jumped from the window to save her life. She now uses crutches. It was shown that the Board of Fire Escapes notified the owner of the building to erect an escape.

A DEAD DEFAULTER.

A. B. Johnson, of Utica, N. Y. who suicided a few weeks ago was a defaulter to the extent of \$300,000 to the McDonnel estate of Rochester, N.Y. The knowledge of his guilt and its ! conquences compelled him to take his own life.

ILLEGALLY IMPRISONED .- PARDONED. In 1878, Berland Boland, aged 15, of Boston, attempted to tap a till, in a store, but was discovered by one of the employes, whom Boiand stabbed in the arm, cutting an artery, that no person under 16 shall be sent to state

THE LAST OF A BAD LOT.

Andy Taylor, the last of the three notorious Taylor brothers, was hanged at Loudon, Tenn, the other day. He was the last survivor of the Taylor brothers who murdered two sheriffs and captured a railroad train with 100 passengers on board, compelling the engineer to run the train 20 miles at a dangerous rate of speed. The crimes of these men are the most daring recorded in the annals of crime. He went to the scaffold cursing God and died like a brute.

AGGIE'S AGONT.

THEIR HEST DESERTS.

The trial in Hoverd county, Arkansas, of the colored rioters, and c ed for murdering Wyott several month, ago, ended in sentencing three men to be hanged and twenty-nace to terms of -17th, and a fierce battle was fought. The imprisonment ranging from hve to eighteen

A REPUTATION WORTH \$150,000. Rev. John Wilder, colored, of Pattsburgh, Pa., has prepared papers in a suit for couspiracy and defamation of character as alnet Rev. Drs. Milligan, B van and Wilson, ministers of the Reformed Preebyterian church, askin \$160,000 damages, and alleging that dafen

ants, by compiring to declare him a monoma-WEEK. nise injured his reputation so he could not his profession and gain a living.

. ORLAK. THE MURDERER'S FATE.

Jacob Nelling, the murder rof Ada Atkinson, was taken from the jail at Fowler, Ind., the other night, placed in a carriage, and driven to a spot about a quarter of a mile from the scene of his horrable crime. After being rem wed from the vehicle he was told that he must die. He was given five minutes in which to make a confession, but stellinly refused to do so, saying that as he had a ready beknowledged committing the marder, it was unnecessary to repeat the former story. A rope was quickly thrown over a limb of a large oak tree, and the doomed man escorted beneath it. Another attempt to make him fectte the story of the murder was rewarded by a succe from the defiant man. Two men then stepped forward and placed the moose around the old man's neck. In doing this the collar which he wore was torn off. Fitty hardy farmers then grasped the rope and the body of Jacob Nelling swayed in the night air.

LINCHING TOO GOOD FOR HIM. Davis Johnson, living at Pekin, Ind., was arrested at Louisville, Ky., the other morning charged with an attempted outrage on Saille Nadle, aged 9 years. Johnson had sold a cow to the parties with whom the child lived, and being left alone in the house with her last evening while the change in payment for the cow was being sought, made a criminal assault. When arrested he was leaving for home. He deuled the crime, though the proof was strong

against him. The child is seriously injured.

BANK CASHIER SHOT. At Rushville, Ind., Edward Payne, cashier of the Rushville national bank, was awakened by a noise in the kitchen and started down stairs and met a hurglar coming up, who ordered him back, threatening to shoot. Payne hurled a vessel at him whereupon the burglar fired a shot which took effect in Payne's right lung. He now lies in a critical condition. The bur

glar is at large and unknown. AN AGED COUPLE BUTCHERED.

A special from Hickman, Ky., gives an account of a horrible double murder, the victims being Hillsman King and wife, an old and respected couple. Their son Arthur visited the house and found his mother dead in a pool of clotted blood. He gave an alarm, and the man peddler is suspected. The house was robbed of \$2,000.

ROBBED BY COWBOYS.

Information from Denver is to the effect that a mail and express train on the Southern Pacific was rubbed by cowboys at Cage station, near Commings, A. T., near New Mexico due Tue train was wricked by spreading the raits. The ergineer was killed, and several of the passengers injured, none seriously. The robbers recared about \$700.

HE HAD A "SUDDEN FIT." Owen F. Plunkett, a cigarm ker employed in a factory at-22 Bowery, New York, was shot dead by a dissolute fellow named John Scullin. Sculin worked at a Leuch near the murdered formerly employed on the tug Hatchett. The lat the other workman. The ball missed its boat was manned and the crew, who were den lit came on him to shoot somebody, when he shot Plunkett.

FOREIGN AFFAIRS. WHOLESALE MASSACRE

Report has been received of the frightful massacre at Toka of Monerieff and his force The Egyptians lost eleven officers and 142 men. besides six Turks and several Greeks. They also lost one gun and 3.0 rifl s. About 340 regrined their ship. The Egyptians during the fight formed a hollow square, when a small gether and rushed through the Egyptian line. An inchediate panic among the Egyptians re sulted. It is doubtful if the black troops canbe spared from Massowan, which is in the were attacked by trichinosis, the other day. same erf ical position as Suakim. The British gunboat Ranger has been ordered from Aden to Suakim.

POOLE'S PUNISHMENT. Joseph Poole was convicted of the murder of John Kenny, and sentence I to death. In his address to the court, the doomed man admitted that he was a Fenjan, called for three-cheers for the Irish Republic, and cursed Eng-

Sheep should have airy, well-lighted sheds, with plenty of sunshine, and protected from snow. One great advantage of keeping sheep is to convert straw into manure. Hence much litter is usually strewn in sheep, unless they have hard places to lie upon, because platforms, like old doors, which can be hifted about every few days by turning over, will be greatly enjoyed, and will premote both health and comfort.

Push fattening hogs forward as rapid-y as possible. Keep them [warm and cleanly. Charcoal broken fine and mixed with cooked feed, is an excellent regulator and tonic, aiding digestion and promoting fattening to such an extent that it is hard to believe it does not serve as food.

AROUND THE FIRESIDE. GRANDMOTHER'S WAITING

EBEN E. REXFORD.

Grandmother's face is wrinkled. And her eyes have grown so dim That she cannot read her Bible, Nor follow through the hymn. And her hands see o'ten idie, For kel ting tires them see But her brain is always bu-v With thoughts of Heaven, I know. Grandmother's waiting, waiting, To hear God's summous given, And dreaming of her dear ones

Gond o'er the hills to Heaven. It always thril's me strangely To think of her waiting there, [At the gates of God's white city. With its sun on her silver hair, To meet her husband's kisses. And to hear him soffly say: "I have writed a long time, darling For this hap; y, happy day!" Grandmother's waiting, waiting, To hear God's summons given, And dreaming of her dear ones. Gone o'er the bills to Heaven.

I think, cometimes, as I watch her, That she sees them, for a smile Breaks over her fare, as she whispers "Yes, dear, in a little while." Only a little more waiting This side of Paradise, And grandmother will be young again With her dear ones in the skies. Graudmother's waiting, waiting, To hear Go i's summons given, And dreaming of her dear ones

Gone o'er the hills to Heaven.

Intelligence and energy and conscientiousness, all united, can never evolve true justice, if sympathy be absent from the heart. This is not merely abstract and unpractical idea. It lies at the root of moral education and self-culture for it declares that just conduct depends upon right feelings, and cannot be developed without them.

Make a Beginning.—Remember in all things that if you do not begin you will never come to an end. The first weed pulled up in the garden, the first seed in the ground, the first dollar put in the sayings-bank, and the first mile traveled on a journey are all-important things; they make a beginning, and hold out a hope, a promise, a pledge, an assurance that you are in earnest in what you have undertaken. How many a poor, idle hesitating outcast is now creeping and crawling on his way through the world who might have held up his head and prospered it, instead of putting off his resolution of industry the past year as follows: Steam, 58 308; capal and amendment, he had only made a

> As our intellectual food makes our minds what they are, coarse or refined. barbaricor cultured, disciplined or wild and flotous, so our spiritual companion-Ship makes our spirits what they are.

> Nothing teaches patience like a garden. All have to wait for the fruits of the earth. You/may go round and watch the opening bud from day to day; but it takes its own time and you cannot urge it on faster. If forced, it is only torn to pieces. All the best results of a garden, like those of life, are slowly, but regularly, progressive. Each year does a work that nothing but ayear lean do. "Learn to labor and to wait" is one of the best lessons of a garden. All that is good takes time, and comes only by growth.

Save the Pennies! Cor. in Country Gentleman.

How many of all the little boys and girls, who are plauning for a Merry Christmas and Happy New-Year, have all the money they wish to spend for presents? And how many of them are there who do not think with regret of the pennies, and the "nickles," and the dimes, they have disposed of in various unnecessary ways? To be sure, many of daily services of the San Gabriel parish; your kind parents have given you pretty and there are in its neighborhood a few little banks, hoping you would save crumbling adobe hovels left, the only your money; but the coins are so easily shaken out of the tin ones, and the lent mission. In one of these lives a iron ones are so readily unscrewed and taken apart, that the banks give after who for more than half a century has all not much real help in economy. Now

Take a small pasteboard box(a collar box will do nicely), and with paste fasten the cover on. To do this, put a continued from the 31 to the 5th instant and the scene of indescribable cruelty. Rumors of white skin, blue eyes faded to nearly good quantity of the paste on the inside of the Egyptian troops. It is stored that white; white cotton clothes, ragged and edge, and placing it on the box, let it not over clean, yet not a trace of color stand until perfectly dry, Then write in them; a white linen handkerchief your name and "Christmas" on the bottom, and with a sharp-pointed ways tied loosely around her throat, knife, cut a slit an inch long beside it. She sits on a low box, leaning against | Whenever you have a small coin that the wall, with three white pillows at you have no special use for, force it in her back, her feet on a cushion on the to the box through this opening. The ground; in front of her, another low reason that this is better than your box, on this a lace-maker's pillow, with pretty little banks, is that you can knotted fringe on it; at her left hand a take money from them and spend is battered copper caldron holding hot when quite unnecessary; but when per coals to warm her fingers and to light nies and dimes are once inside this her eigarettes. A match she will never they cannot be taken out unless the box is destroyed; and it ought to be an un gent case indeed that would cause you destroy the box and spend the coins you

were saving for presents. Now, although I wish you to practice economy, I do not want you to be so very quick in slipping pennies into this box that you will have none left for the collection at church and Sabbath school. Do not beg money of papa for this on Sunday morning, but give of your own. You do not know how much more manly and womanly you will feel, nor how much more right it is to give of your own instead of your father s.

This plan of savings is a good one for families who think they cannot afford certain books and magazines they would like. Let them agree together to deny. themselves certain candies and cigara and ribbons, and put the price in their box instead; and when the year is gone. they will be surprised at the quantity of mind food they can procure with the contents.

St. Nicholas for December.

"It's cries-cross high, and it's cries cross flat; Then four straight lines for the pussy cat;. Then criss cross under; ah, now there'll be A nice deep cradle, dear Grandpal Sec!

again, and it's flit once moreow! But where's the door! proce more, and holding it so, very good door, you know.

with new under, now pull it tight; See-saw, Grandpa!—exactly right!"
So prattled the little one, Grandfather's pet, As defuly she wrought. "See, now it's a net!

'But where did you learn cat's cradle so well? She anddenly asked and he could not tell. He could not tell, for his heart was sore, As he gravely said, "I have played it before."

the weary brain of the world-worn thow of the thoughts that ran But she knew when she kissed him, dear

Grandpa smiled, And that was enough for the happy child.

CHIMNEYS: THEIR HISTORY. Harper's Young Peop'e

Chimneys seem so natural to us that wo forget that there was a time when they were unknown. They were invented about the same time with clocks and watches. No house in anesent Rome or Athens had them. The Greeks and Romans heated their-rooms with hot coals in a dish, or by flues underneath the floor. The smoke passed out by the doors and windows. You could always tell when a Roman was about to give a dinner party by the clouds of smoke that came out of the kitchen windows. It must have been very unpleasant for the cook, who had to do their work in the midst of it. -

The tall chimners that rise over the tops of the houses in New York and Brooklyn, pouring out their clouds of smoke, would have seemed miracles to our ancestors a few centuries ago. Even the pipe of a steamer or the chimney of & kerosene lamp they would have memcine. It is doing wouders for some ladies thought won leriut. In England, in the here, one in particular, who a year ago was contime of the Conqueror (1066), the fire was built on a ciny floor or in a hole or I kn wishe had diseases you medicine was recpit in the largest room in the house. The for smoke passed through an opening in the | In a few weeks there was a decided change; in roof. At night a cover was placed over a few more she let her hired help go, and has A pure strengthening tonic, free from whit the couls Everyhold was by law done her housework ever since, and walks every key and alcohol, cures 1 y pepsia and simil the coals. Everybody was by law obliged to cover up his fire when the yours,bell range at a certain hour. In France this was convrefeu, and hence the word "curfew bell.

Chimneys began to be used generally in England in the beginning of the reign of Elizabeth. No one knows who invented them, or when they first came into use. We find them first in Italy. In -Venice they seem to have been not uncommon as early as 1347. In 1368 they had long been in use at Padua, They were at first built very wide and large. so they could be easily eleaned. The wide chimney-pieces of some of our older houses are very curious.

But as time passed on chimneys were made taller, narrow, and often crook ed. When they had to be cleaned it was customary to send boys up into them to remove the soot and ashes. was then that the saddest stories were told of the little sweeps who were foreed to climb up the narrow flues, and come down torn, bleeding, and covered with soot. These poor creatures, who taxes. were often not more than seven or eight years old, were sometimes suffocuted in the foul chimneys they attempted to dean. When they reach the top they were expected to look outsid give a loud shout No boy would ever become a chimney sweep from choice, and they were often driven to climb the chimneys by the fear of a whipping. The cruelty of the STONES IN THE KIDNEYS master-sweeps was fearful.

The little chimney-sweeper has passed away. His place is taken by a patent broom and colored operator. Chimseys are built two and three feet high. In Birmingham, England, one fell down contry on a large factory, killing and thirty or forty workmen and The tallest chimney in New that of the Steam-heating Andrews was thankful:

The chimney is one of the most useful inventions. We can not well understand how the Greeks and Romans did without it. But with us it is everywhere. Our lamps will never burn without a chimney; our steamboats and untold prin. Having heard of "Kennedy's Favorite engines would be helpless without it; Remedy," I tried it in my case, and after using our factories are moved by it: | warms about one and one half bottles, I volded a stone our houses, and gives employment to thousands of people.

vs before chimneys were inlived in clouds of smoke. of the finest palaces in anwere soon covered with soot and filth. It was impossible to keep them clean. The mossics and the paintings on the walls soon became discolored. In the castles of England and France it was sull worse. Here the smoke covered the roof with black drapery, and the savage knights and squires were forced either to endure the cold, or to live and breathe in an air that was dangerous to sight, health, 119 CAN MILL and life itself.

Every man desires to live long; but no man would be old.—Swift.

A Lucky Fisherman.

In the vast amount of business transacted at the Baltimore, Md., Postoffice, Mr. M. V. Bailey, Superintendent of the Mails, is kept exceedingly busy, but somehow he finds a spare hour or day to go fishing, and from his experience he gives his testimony, that St. Jacobs Oil is the best remedy in the world for rheumatism, sprains, sore feet and joints, bruises, etc. It is the remedy for fishermen and gunners, who should always keep a bottle on hand.

A party of tourists recently descended about two hundred feet into the crater of Mt. Adams, W. T., but found the place so hot that they do not wish to repeat the experiment.

A gentleman afflicted with the chronic rheumatism says: "No description of my case can convey the vast amoun' of benefit I have received from the use of Johnson's Anodyne Liniment. 1 believe it is the best article in the world for rheumatism.

The following is extracted from a smart boy's composition on "Bables:" "The moth er's heart gives 4th joy at the baby's 1st 2th.'

The Peculiar Old Mystery!

It was one of the peculiarities of the old-fashioned Doctors that they never would tell patients what they were prescribing for them. They said it would do the patients no good to know, and that it would only be gratifying a foolish curiosity. In order to keep patients from knowing, they would write the prescriptions in dog-Latin, so that most patients could not read them. All that sort of thing is now over. The patient wants to know what he takes. He is weak, and wants to be strong, or he is dyspeptic, and wants to digest well. Or he has a troublesome liver which he wants to put to rights. So he takes Brown's Iron Bitters about which there is no mystery at all. This is the best preparation of iron in the world, in combination with gentle yet efficient tonics. It gives strength. It builds up enfeebled systems. It enriches impoverished blood. It removes feminine meaknesses. It casts out debility. It is what you want, and your druggist

ample evidence to substantiate them. ing them. Our motive is not to disparage any person or town, but it is do our part toward exposing and suppressing a gross evil which is being harbored, as we stated, within the walls of the county buildings. The Republican says we are guiity of a base insinuation against the character and integrity of the Register of Deeds -Mr. Dudley. This is the first time we have mentioned Mr. Dudley's name. and for aught we know he is the "soul of honor," but it is a fact as we stated that Bullock has not only been allowed to use the Register's office for his private business, but holds the office of deputy Register of Deeds, when the character of his business operations must be well known to Mr. Dudley. Has Mr. Bullock been asked to vacate the premises or resign his position of brends; low prices because of except of business deputy since the evidence in the puls- Correspondence solicited lic square case so clearly showed him guilty of fraud and deception? If so the Republican has forgotten to xemind us of the fact. Did Judge Newton defame Mr. Dudley when he warn-= ed him that he was elected to "protect the interests of the public and not to assist the designs of land sharks.

The fact is that the public square case has brought to light a system of "land shark" operations as disgraceful as was the "tax title" frauds in Detroit a few years ago, and which prospered finely until the city press took the matter up and made it so hot for the frauds that they were obliged to drop the business to a great extent and disgorge a portion of their ill gotten

gains.

The Republican knows well the existence of the evil we have called at tention to, and by attempting to screen it, does make itself in a measure responsible for the evil. The public square case is one which retarded the growth and unsettled the business interests of our village for months, at a critical period. The Republican expressed no regret even for this feature of the case, but its editor did personally express sympathy for the man who. aimed this "blow in the dark" at our town, and now supplements this course by screening the party from public age, and that he has been afflicted awfully severe, view and attempting to charge all the blame upon a one who was used as a Lightning Remedy for Rheumatism, the pain tool by the land sharks, and whom they it had not been afflicted. Now I am relieved enblame upon a one who was used as a have left thus far to bear the burdenfinancially—for their misdeeds.

This public square case is rem an insolated one. There are people all over the county who have felt the mercilese grip of the land sharks. What honest parpose could Mr. Bullock have in procuring quitclaim deeds to the profits of Mar-House of Mar-ly popular school of its kind.
