

**Money and Business.**

There has been a great financial flurry for a week or two. The Barings, the great European financiers have gone to the wall, and our own money centers have been quivering like leaves in a gale. But what of it? Does it make much difference if the whole bottom falls out of Wall street and all the people and all the stocks and all the enterprise in that financial cesspool go where McGinty is popularly supposed to be? So far as Wall street itself is concerned, the world would lose very little if the whole thing was blotted out. But while the people want nothing of Wall street, Wall street impudently connects itself so intimately with the public welfare that any mishap there, is felt everywhere. The business of this black hole is to gamble and to traffic in people's money. For thirty years the people in Wall street have been engaged in lassoing the government and when they caught it, compelled it to mark out a financial policy that would benefit Wall street; and when it had succeeded in getting the government's nose down upon its financial grindstone it went on placidly trafficking in the circulating medium of the country; and whenever it gets a good proportion of our money in "stock" or is compelled to send away large sums of it to pay its gambling debts, it leaves the country short of money and there is serious trouble.

No country has suffered a greater outrage and curse than this country has suffered from Wall street and its shameless methods. It is negligence on the part of any government, to call it by no worse name, to permit a horde of gamblers to interfere with our money. Money is the stream in which the business of the people is floated, and is in no proper sense an article of traffic as Wall street makes it.—Western Rural.

**A Good Story of "Max O'Rell."**  
At lecture halls where the pious practice prevails of opening proceedings with prayer the extempore petitions of the minister of religion are not always complimentary to the lecturer. "Max O'Rell," in his latest lecturing tour, has been telling how in a prayer preceding his discourse to an Ohio gathering the Lord was asked to allow the audience to understand his jokes. The tale was told in Scotland, where it was delicate of M. Blouet to apply it to Ohio, for it sounds amazingly like a Scotch story. One joke at the expense of one of his northern hearers, a Bauffshire fisherman, the lecturer did allow himself. He told how, after he had apologized to his audience for murdering the queen's English, the fisherman came to comfort him with an assurance that no apology was needed, for, said he: "You speak English about as weel's coarsels?"

**How to Look When Asleep.**  
An authority warns young women that the pretty way of going to sleep with one hand tucked under the cheek is not wise. It makes a fold in the soft skin that by and by helps the wrinkles. The same oracle insists that at the moment when sleep is descending the face should be composed into peaceful lines, the mouth gently closed, to breathe only through the nose and the lids slowly lowered over the drowsy eyes. If this method is cultivated in early life the aw-dropping tendency of old age will be much longer prevented. As we spend a third of every twenty-four hours in sleep, which makes in the aggregate a large proportion of one's life, it would seem reasonable that one's facial condition during the time should be of importance.

**An Unpopular Coin.**  
The silver half dollar is so unpopular a coin that \$17,000,000 worth of them remain piled up in the Treasury vaults and cannot be got into circulation. The director of the mint suggests that they be recoined into dimes and quarters, and asks for an appropriation for that purpose.

**Rheumatism,**

BEING due to the presence of uric acid in the blood, is most effectually cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and no other, and take it till the poisonous acid is thoroughly expelled from the system. We challenge attention to this testimony:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 110 West 125th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced using Ayer's Sarsaparilla and began to improve at once, gaining strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."—Mrs. A. Stark, Nashua, N. H.

**Ayer's Sarsaparilla,**

PREPARED BY  
Dr. J. C. Ayer & Co., Lowell, Mass.  
Price \$1. six bottles, \$5. Worth \$5 a bottle.

**A Valuable Discovery.**

Dr. Brown Sequard's elixer of youth may be an important discovery, but every one knows that Dr. Franklin Miles' New Heart cure certainly is. It has given thousands afflicted with heart disease a new lease of life. Druggists who can observe its effects on many customers everywhere speak very highly of it. Mr. John Weaver, of Knightstown, Ind., says: "I have sold much of Dr. Miles' New Cure and have received many good reports." O. Monroe, of Dunkirk, N. Y., reports large sales. "And the best part of it is every bottle of it has given satisfaction." Sold and guaranteed by F. A. Sigler.

**Great Discoverers.**

What Bell and Edison are to the telephone and electricity, says the Pittsburg News, Dr. Franklin Miles, the well known specialist in nervous diseases, is to the nerve system and nerve fluid. Among the numerous discoveries the Restorative Nervine is undoubtedly one of the greatest. It is unsurpassed in nervousness, dyspepsia, headache, epilepsy, neuralgia, backache, melancholly, sleeplessness, change of life, etc. Free trial bottle of it may be had of F. A. Sigler, druggist. All should read his "New and Startling Facts for the Afflicted," a very able, interesting, and finely illustrated book. Free to all.

**Electric Bitters.**

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove pimples, boils, salt Rheum and other affections caused by impure blood.—Will drive malaria from the system and prevent as well as cure all Malarial fevers.—For cure of headache, constipation and indigestion try Electric Bitters.—Entire satisfaction guaranteed, or money refunded. Price 50c. and \$1.00 per bottle at F. A. Sigler's drug store.

**A Wonder Worker.**

Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be consumption and incurable. He was persuaded to try Dr. King's New Discovery for consumption, coughs and colds and at that time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is to-day enjoying good health. If you have any throat, lung or chest trouble try it. We guarantee satisfaction. Trial bottle free, at F. A. Sigler's drugstore.

A spring medicine is needed by everyone. Winter food largely consisting of salt meat and animal fats, causes the liver to become disordered and the blood impure, hence the necessity of a cleansing medicine. The best is Ayer's Sarsaparilla.

**Mitchell's Belladonna Plasters.**

PETTEYSVILLE.

Dave VanHorn is having a severe tussle with the measles.

Mrs. Jas. Nash was the guest of her parents, at Weberville, over Sunday.

Miss Retta Bennett, of Perry, was the guest of Isaac Burroughs and family the past week.

Lonnie Flintoff, of Hartland, spent the latter part of the week with his parents near this place.

The debate at the P. of I. meeting Saturday night was deferred until a week from Saturday night.

G. S. Schuller, the enterprising ice dealer at Hamburg Junction, will soon commence the erection of three tenant houses.

Fowlerville parties are making arrangements to put up a first-class club house at Hamburg Junction in the spring.

Bennett and Ashley, of the T. & A. A. R. R. commenced operations Monday for a large ice establishment on the Northard place at Hamburg Junction. They will put up a temporary building for this winter that will hold fifty thousand tons, besides they will ship about forty or fifty car loads a day.

GREGORY.

Ed. Clack has moved into the house just vacated by Mr. Jacobs.

The hotel is again in running order. Mr. Jacobs took possession last week.

Mrs. H. A. Fick was taken very sick on Friday of last week. She is some better at this writing.

We hear the report has gone out that we have scarlet fever at Gregory. It is not true. We know of no case nearer than North Lake.

Etta Farrington returned to Mr. Gregory's on Monday, her father and brother having so far recovered as not to need her care any longer.

Mrs. N. E. Moore has been very sick since Thursday of last week. Under the care of Dr. Reeves she is slowly improving, though not yet able to leave the bed.

Those who missed hearing Dr. Mathers' talk last Sunday morning missed a treat. His discussion was very forcible and striking especially striking, as it struck some of the pocket-books.

Elmer Dickenson's little boy, Malon, while out at play last Thursday, fell in some manner unknown and broke his arm below the elbow. The fracture was reduced by Dr. Dubois, and seems to be doing well.

Myran Wassan who sold his farm and moved to South Lyon about a year ago, has bought a portion of the Isham farm, near his home, and we understand he will return in the spring, build a house and settle here.

The first accident at the saw-mill occurred one day last week when Mr. Montague's dog got his tail in the way of the saw. The saw did not stop and consequently part of the tail come off. The dog made a bee line for home, and it is not expected that he will superintend the sawing of any more staves for some time.

THE CAROLINA REDBONES.

A Singular Class of People Who Resemble in Appearance the Gypsies.

"There is a singular race of people in South Carolina called the Redbones," said Senator Wade Hampton the other day. "Their origin is unknown. They resemble in appearance the gypsy, but in complexion they are red. They have accumulated considerable property and are industrious and peaceable.

"They live in small settlements at the foot of the mountains and associate with none but their own race. They are proud and high-spirited people. Caste is very strong among them. They enjoy life, visit the watering places and mountain resorts, but they eat and sleep by themselves.

"When the war broke out several of them enlisted in the Hampton legion, and when the legion reached Virginia there was a great outcry among the Virginians and the troops from other States because we had enlisted negroes. They did not resemble the African in the least, except in cases where Africans had amalgamated with the Indians. Their intermixture, which is common in the Carolinas, produces marvelous results.

"It takes the kink out of the hair of the African, straightens his features and improves him in every way except in temper. These Afro-Indo people are devils when aroused, and as slaves they were hard to manage. But to return. We soon convinced the kickers against the Redbones that they were all right, and in the first Bull Run battle they proved how well they could fight. All prejudice against them disappeared."

WHAT A MAN IS MADE OF.

A Pinch of This, a Pinch of That, and a Yeasty Sort of Soul.

Huxley's table of the weights of the different parts of the average human body, often referred to as a most interesting compilation, has now been largely superseded by a table prepared by a French chemist, which gives the pounds, ounces and grains of the different elements in a human body of the average of 154 pounds. It is as follows:

Table with 4 columns: Elements, Lbs., Oz., Gr. Lists elements like Oxygen, Hydrogen, Carbon, Nitrogen, Phosphorus, Calcium, Sulphur, Chlorine, Sodium, Iron, Potassium, Magnesium, Silica, and their weights.

How to Darken Eyebrows.

The way to darken eyebrows and lashes is by the application of alcohol. In its use one must be careful not to get a particle in the eyes, as it will sting and tingle, smart and burn, if it do no worse. It is a pity to shade the features, for nature has provided an exquisite harmony of colors twixt eyebrows and hair that is destroyed by meddling with their tints.
