LOCAL NEWS.

Beautiful weather for November. Next Thursday will be Thanksgiving day. Let all give thanks.

Pandelions are in evidence in this vicinity or have been the past week.

Jas. Fitzmons of Stockbridge was town Friday evening between rains.

Frank Moran has been nursing a very sore hand the past week—a carbuncle.

Walter Huick and wife of Mt. Calm Co. visited her father, Abram Boyer, and wife the past week.

Mrs. L. W. Richards of Bay City has been the guest of her mother, Mrs. E. W. Martin, the past week or two.

Thirty-nine licenses to hunt deer were issued in this county this year. There was none from this township and but one from Howell.

The Baptist society of Marshallville are celebrating the fiftieth anniversary of the dedication of their church today Nov. 23, with an all day service.

Miss Jennie Thorn and Albert Myers were married last week at the parsonage in Dexter. They are well known here and have the best wishes of all.

The ladies of the Lakin Aid society will serve Thanksgiving chicken-pie dinner at the home of Mr. and Mrs. W. H. Chambers. A cordial invitation is extended to all.

A letter from Miss Franc Burch from Colorado Springs says they are having beautiful weather there. Miss Burch is giving some of her excellent entertainments in that section.

Frank Tiplady informs us that he is fattening thirty-five hogs this season, besides a large flock of sheep. This must take considerable work and a lot of corn. But then think of the "mon."

Mrs. F. L. Andrews and daughter Florence were in Howell Saturday.

Mrs. D. F. Ewen has been entertaining her brother from Pulaski the past week.

Ann Arbor is to have a hospital for contagious diseases, \$8,000 having been added to the taxes for that purpose.

The teachers of the Pinckney High school, with the exception of Miss Kennedy who was ill, attended the Teacher's association at Howell Saturday.

Those from here who saw the Michigan-Wisconsin foot ball game at Ann Arbor Saturday, claim it was a very clean game and of course all Michigan people were happy as Michigan won—score, 12 to 0.

Now that the cold weather is approaching, the patrons of the rural routes will confer a favor upon their carrier by not placing money in the mail boxes and compelling the carrier to pull of his mittens and rake the box over to find the pennies.

While witnessing the foot ball game at Ann Arbor Saturday most of the Pinckney delegation were on the bleachers that went down but none of them were injured in the least. The bleachers went down so easily that no one was seriously hurt and but few injured at all.

The entertainment given at the Cong'l church last Friday evening under the auspices of the Young Men's Club was well attended and all enjoyed it. The musical numbers were excellent, Mr. Morris showing considerable ability as a composer. The musical novelties were new, mostly to Pinckney audiences and were good. The organ chimes were exceptionally fine and musical. The impersonations by Mr. Abbott were well rendered and pleasing. His costume characters being exceptionally good.

M. E. Church Notes.

There are two ways of building up the church; one is God's way and the other is man's way. The first is by having people born into the church by the Holy Spirit's power in answer to prevailing prayer; the second is by proselyting or persuasion. The first makes a man a christian; the second makes a man an adherent a sectarian, a Pharisee. The first saves a man for time and eternity, if he continues faithful to the faith already given him; the second damns a man by substitution and false hope unless he is afterward awakened.

Prayer meeting in the upper room this week. Let us make it a pentecostal season. Trustee meeting at close. We hope to see a majority of the official brothers.

Our class meeting is growing in attendance and interest. Be sure and get in at 10:00 sharp. Bro. Mowers will lead.

Let us get in line of revival. Other places are enjoying "showers of blessing" so will we here when "we bring all the tithes into the store house."

Young People's meeting at 6:15 sharp. Please let us be on hand to help make each meeting successful.

Young Men's Club

The right and the wrong of all amusements depends entirely upon the story, the play, the game, how and what it is and how it is done. Many of us make virtue stupid and give the devil the spice of life. Amusements, pleasures and recreation are lawful and necessary; they are not wrongs in and of themselves unless they are abused by those who have depraved tastes.

There is no harm in the billiard table. It is just as right to roll an ivory ball over a green cloth with a cue as it is to roll a wooden ball over green grass with a mallet. Evil is not in a thing it is in a person. God made everything good. Men's minds put evil or good into them according as the minds are inclined. Pres.

Congregational Church.

The union service held last Sunday evening was largely attended, the church being filled to its utmost capacity.

The pastor urges the christian people to assemble for prayer this Thursday evening at 7 o'clock. If the wave of blessing is to come our way there must be united prayer. Choir meets at 8 all members urged to be present. Sunday morning service at 10:30.

N. H. Caverly moved his harness and shoe repairing business to Dexter, Tuesday and will open a shop there. He is a good workman and Pinckney is sorry to lose him.

H. M. Williston & Co. have a space on page 8.

Dr. R. W. Coleman of Cadillac is the guest of his sister, Mrs. Chas. Love.

The weather of the past week has been good for the work on the post office building but owing to a lack of material the work has been held up.

The photo gallery is to be opened again. R. A. Williams having rented it for three weeks commencing Tuesday next, Nov. 28. See adv. on page 8.

We learn that Miss Ella Winegar of Howell has gone to Mt. Clemens for treatment for a typewriter's rheumatism. Her many friends hope for her immediate recovery.

Friday last Miss Bell Kennedy went home from her school work at noon, ill. The disease took the form of pneumonia and for a few days she was quite ill. A nurse was sent for and everything possible done and we are glad to state that she is on the way to speedy recovery. Her school work in the Grammar department is being looked after by Supr. Gaull while Miss Morehead takes the High school.

The Michigan Central is now double tracked all the way between Detroit and Chicago and trains are running over both tracks.

Wm. Kennedy has rented the Dolan buildings in the western part of town and will make hoops. We understand that he has material enough to keep his gang busy all winter.

Kalamazoo is losing its big celery fields. The growth of the city will soon build up the celery land. The growers are seeking other lands and the crop is rapidly lessening.

Someone who is fond of figures, has figured it out that the venison shipped into Washtenaw county this year by the deer hunters will cost at least \$1 a pound.—Chelsea Herald. If it does not cost a life or two you get off easy.

C. P. Sykes & Son returned Thursday last from Chelsea where they have been putting in three systems of steam heat. They also have more work there as well as a job or two here. We wonder why people always wait until winter to put in their steam or other heating plants.

Nos. 14 and 16 Art Laurel

In heating capacity and economy of fuel, as well as in appearance, these base burners surpass all others. Attention is called to the illustrations showing the Laurel special construction of back flues. When the damper is closed the hot air from the fire pot travels down the hanging back flue and is circulated completely around the base of the stove, coming in direct contact with both the outside and inside walls of the base and then travels upward through the return flue to the smoke pipe.

The cold air from the floor is drawn up through the opening shown on illustration, comes in direct contact with entire fire pot wall, entire circumference of the hanging or downward flue and one entire side of the return flue, finally passing into the room through

the double heater outlet at the top of the stove or can be carried to upper rooms by means of an extra pipe. It will be observed that the rear part of the return or up flue forms the outside or back plate of the stove. In this manner what remains of the heat, after circulating around the base of the stove is radiated into the room.

This is the only construction where the cold air is brought in contact with such great heating surface and consequently this stove furnishes at least 1,000 square inches more radiating surface than any other base burner made. A close examination of the illustration will give a more correct idea of the heating and fuel saving advantages of this improved base burner. The fire pot and feeder can be quickly and easily removed through front doors.

COUNTY SEAT WAR IN ANTRIM COUNTY IS OVER.

THE OLD NORTHERN MILEAGE BOOK TO BE RESTORED TO TRAVELING MEN.

SCHOOL TEACHER DIES AFTER EATING SALAD AT A CHURCH SOCIAL.

Accepts New Court House.

The new \$30,000 brick courthouse at Bellaire has been accepted by the committee of the board of supervisors, and the building is now accepted by the county officers. This, it is hoped, is the end of the county seat fight, which, in its various phases, has lasted over a quarter of a century. The fight began when the county seat was removed from Elk Rapids to Bellaire, in 1879. Bellaire was then without a building or clearing of any kind, and without a passable highway, but it was centrally located and had a good water power, and was not the rival of any other place. A hot campaign for votes, and a stubborn fight in the supreme court ended the fight so far as Elk Rapids was concerned, but as soon as Bellaire acquired a few buildings and a population a rivalry sprung up between it and Central Lake, and the people of Central Lake set their hearts on getting the county seat. For twenty-five years it was impossible to get the question of raising money for a courthouse submitted to the people, and when it was finally submitted another hot campaign for votes was on. The final act of accepting the courthouse ends these matters, and all Antrim county is now proud of its elegant and substantial new county building.

Old Mileage Book Restored.

Gov. Warner and the commercial travelers of Michigan have won their fight for the restoration of the northern mileage book on Michigan railroads except the Michigan Central and Grand Rapids & Indiana. At the meeting of the Central Passenger Association in Chicago notice of withdrawal from the central book was given by the Pere Marquette, Grand Trunk, Ann Arbor, Detroit & Mackinac, Pere Marquette steamship lines, Detroit & Buffalo Steamship Co., Detroit & Cleveland Navigation Co., Crosby Navigation Co.

The northern book will be in use again from November 30 and the northern mileage bureau, which remained in existence to close up old business, will resume the issue of new books. The principal difference between the northern and central books is the requirement that the latter book be presented at station offices for exchange for a passage ticket, while the northern book may be presented to the conductor on trains direct.

Fatal Church Salad.

Miss Caroline Clifford, a school teacher, attended a church social at Menominee, and ate of a salad, among other things. She was taken with convulsions on her way home and was found unconscious on the street and was carried into a doctor's office. She died after 24 hours of agony from ptomaine poisoning.

Judge Roberts Dies Suddenly.

Judge Lorin Roberts, one of the most prominent men of Traverse City, died very suddenly last night of apoplexy. He was at the Waukegon club, of which he is president, when attacked, and lived only four hours.

He was born in Johnson, O., in 1845 and enlisted in the cavalry when only 16 years of age, serving with honor throughout the entire war. He graduated afterward at Oberlin college and served as the head of Benzonia college in Michigan one year.

Governor Kills Deer and a Wolf.

The governor killed a wolf, the hide of which he will have made into a rug for his office at Lansing. He also got a fine buck.

Saturday the governor spoke in the smallest schoolhouse in Michigan, in the woods near Wellsburg near where his deer hunting camp is located. The building is 10x14 and has ten scholars enrolled.

New Bridge Opened.

The new cement bridge over the Maple river at Muir, just opened to the public is the only bridge of this kind in Ionia county. It was built by the Slater Construction Co. of Pontiac. It consists of three arches of 34 feet each, with a 16-foot roadway and cost \$12,500.

Robbed of \$1,200 in Cash.

That banks are safer than bureau drawers as depositories for cash has just been learned by Rev. John Baker, who is 80 years of age. Burglars entered his home and secured \$1,200 in cash. Patent post-holes are to be a reality. Ernest G. Eddy, assistant city engineer of Lansing, has patented a machine which digs a hole and sets a post or pole in six minutes, equaling the speed of 15 men. Telegraph and telephone companies will profit by it.

"The hoboes retreat" on the shores of Boardman Lake, near Traverse City, was raised by Sheriff Garbrion, of Antrim county, who recovered a quantity of knives, shoes, clothing and jewelry. The cache was discovered by means of a map secured from a hobo who had pawned a quantity of loot.

Arthur T. Ross, of Mio, was divorced by his wife a few days ago, but he decided that it was not good to live alone. He went to the county clerk's office to get a license to wed again, and found his former wife was the deputy to whom he had to make application for a license. He got it, however.

NEWS OF THE NATION

BOARD DECIDES TO BUILD CANAL ON THE SEA LEVEL.

OPPOSED THE LOCK CANAL PROJECT BY A VOTE OF EIGHT TO FIVE.

THE COMMISSION, THE PRESIDENT AND CONGRESS MUST PASS ON THE PLAN.

A Washington dispatch says: The board of consulting engineers of the Isthmian canal commission declared itself by a large majority in favor of a sea level canal.

The conclusion was reached after a long and careful study of the project. Since the beginning of September the board had held meetings and in special sub-committees had studied the plans for a sea level and a lock canal with the greatest care. A trip to the isthmus was made to enable the members to form a better idea of the physical difficulties which had to be considered.

The members of the board are men of the greatest reputation in their line of work. France, Germany and Holland had sent their most eminent specialists at the request of the American government.

From the beginning it was evident that a majority of the members was in favor of the sea level canal. Their point of view was that, even if it cost more than a lock canal and would take longer in the building, it would ultimately be of greater use, as it will enable ships to make a much shorter trip than if they were obliged to go through three or four locks.

Prince Louis Loses 1,056 Men.

One thousand and fifty-six British sailors were missing today from the squadron of Prince Louis of Battenberg, which has been anchored in New York harbor for a little more than a week.

These sailors are recorded as deserters on the books of the six ships composing the fleet, but their officers hope that most of them have merely overstayed their shore leave.

Petty officers from all the ships of the British squadron, their revolvers and sabres strapped by their sides, tramped the Bowery from one end to the other trying to find some of their enthusiastic crew. They found only a few of them, and these they took back to ship to do penance.

Serious for United States.

Jacob H. Schiff, at the annual meeting of the Educational alliance at New York, referred to the conditions in Russia and also spoke of the Jewish race. He said:

"The turmoil in Russia must have some serious consequences to the United States. It will mean an immense immigration and this country must keep its doors wide open to allow those who flee from that country to enter. "There are many races of the Jew—five or six at least. The races cross in this country and they will unite in making the greatest Jew that ever existed, the American Jew."

Labor Lost \$2,000,000.

The report of Secretary Frank Morrison, of the American Federation of Labor, at the second day of the convention at Pittsburgh, showed there were 1,157 labor strikes during the year ending October 1, 1905. These strikes involved 107,268 men, of whom 63,350 were benefited and 52,028 lost. The strikes cost the unions in wages \$2,517,291.

The secretary's report admits that the figures are not complete. They do not include the Chicago teamsters' strike, nor the strikes of the iron and steel workers, miners, painters and textile workers. The strike of the textile workers alone involved 20,000 persons and cost \$200,000.

Town is Hen Crazy.

Tekonsha is hen crazy. Pleasure and profit are the two reasons. It is claimed more poultry is shipped out of that village than from any other town in the state. Nearly every resident keeps chickens, not only as a domestic necessity, but for the profit there is in it.

New Town on the Boom.

Not a church, saloon, school or place of amusement has Birch, but it can boast of a park and a population of 300, which is growing and is expected to reach 400 in the spring. Birch was unheard of five months ago.

A postoffice will be opened on December 1, when the Marquette & Southeastern railroad begins its regular service.

Goes to Altar the Fifth Time.

Mrs. Lucy Nelson, aged 54, widow of a lineman who was electrocuted in Lansing two years ago, will try matrimony for a fifth time. Isaac T. Halliwell, of South Bend, Ind., aged 52, is the bridegroom. He has been married twice before.

Whitehead is Dead.

Robert Whitehead, inventor of the torpedo which bears his name, died at Strivenham, Berkshire, Tuesday.

Isle of Pines Declares Independence.

Residents of the Isle of Pines have issued a declaration of their independence from Cuba and organized a new government. A delegate to congress will be sent to Washington in order to have the question affecting the future of the island discussed before the house of representatives, ignoring Cuban authority.

Mass meetings were held under the name of territorial conventions and officials were appointed to fill all positions except those that must be named under the constitution of the United States.

The convention divided the island into five districts and ordered elections to be held Tuesday to select members of the legislature, which is to convene next week, tax assessors and collectors. One ticket was named in each district, the only political question being to keep the island under the stars and stripes.

Worse Than a Muley Cow.

Jumping the track seems to be the particular stunt of Pere Marquette yard engine No. 419, for in less than one year it has been derailed 50 times. The engine was brought to Port Huron about a year ago from Saginaw. Although no one has been seriously injured, several men have met with minor accidents.

John D. Rockefeller, Jr., it is said, will give up his Bible class in the Fifth Avenue Baptist church. He is tired of notoriety.

FOREIGN EVENTS

THE CZAR AND PRIESTS PRAY FOR PEACE IN RUSSIA.

IMPRESSIVE CEREMONY AT TSAR- SKOE-SELO—CZAR ASKS DIVINE AID.

NEW ENEMY OF RUSSIAN RADICALS— DANGER OF AN- ARCHY.

The emperor received at Tsarsko-Selo a deputation of clergy of the holy synod and joined with them in prayers for the restoration of the peace and tranquility of Russia, the appeasement of class hatreds and the establishment of mutual relations of love and confidence between all the citizens of the empire.

The ceremony was impressive. The archbishops, bishops and priests in the gorgeous cloth-of-gold vestments of the Russian church, headed by the Metropolitan Antonius, went in procession to the reception hall of the Alexander palace chanting prayers for the welfare of the emperor and the safety of the imperial house.

The metropolitan thanked his majesty in behalf of the clergy for the imperial reform manifesto.

The metropolitan formally blessed the emperor with a sacred ikon which his majesty devoutly kissed and expressed his gratitude for the blessing. He said:

"Together with you and the whole Russian nation I constantly pray the Lord to pacify the Russian people and send them plenty and firm faith."

New Enemy of Russian Radicals.

The sudden awakening of the conservative and liberal elements to the imperative necessity for resisting to the utmost the attempt of the radicals and socialists who are conducting the present strike to obtain the upper hand has galvanized the leaders into action and has started a healthy movement in favor of entirely cutting loose from the radical wing.

M. M. Dmitri Shipoff and Guchkoff and other leaders of various groups including the constitutional democrats have gone to Moscow to urge the zemstvo congress assembling there to unite all the forces which desire to prevent anarchy in condemning the political strike and to join in supporting the government in its efforts to restore tranquility and introduce the new regime.

Korea Submits to Japs.

The Korean cabinet has agreed to adopt the proposition for a Japanese protectorate over Korea, made by Marquis Ito. It was considered the ministerial majority was sufficient to carry the measure, and after nine hours' debate all except the prime minister submitted to the pressure brought to bear on them by the Japanese minister, Hayashi, and by Gen. Hasegawa, commander of the Japanese troops in Korea.

The Japanese prime minister has already instructed the consuls of Japan and Korea to take the most stringent measures to prevent any abuses taking place which might bring criticism upon the Japanese government and it is believed that the Korean people will be much better governed in the future.

Prince Charles Elected King.

The Norwegian parliament has unanimously elected Prince Charles of Denmark to be king of Norway. There were 116 members present. The fortress fired a royal salute of forty-two guns in honor of the new king.

A majority of the members of the storting wore evening dress at the session. The voting was viva voce and after the result was announced the chaplain of the chamber invoked blessings upon the monarch, the storting and the country. With the firing of the royal salute the citizens in every quarter of the city began demonstrations of jubilation and kept them up until a late hour. The president of the storting was directed to communicate the result of the vote to Prince Charles of Denmark.

Germany Will Not Mix.

Emperor William says he has had no communication with the czar relative to rendering assistance to Russia, if it became necessary to suppress a movement for Polish autonomy.

The Polish question so far as Germany is concerned does not exist outside of Germany. If, however, the Russian Poles rise up and the movement for Polish autonomy spreads to the Polish provinces of Prussia the latter will firmly suppress it in the Prussian Polish provinces. But Russia must manage her own difficulties, as it is the fixed policy of Germany not to interfere in the internal affairs of her neighbors.

NEWS IN BRIEF.

The Duluth, South Shore & Atlantic road has adopted a new trademark. The title, "The Marquette Route," has been discarded, and in its place will be used the words, "The South Shore."

David Gillwater, a 13-year-old boy of Chillicothe, O., admitted that he burned his brother to death to spite his mother.

BRIGANDAGE UNDER THE TURK

Circassians the Greatest Obstacle to Asia Minor.

Regarding the brigands of Asia Minor, the London Times says: "The great majority of the brigands are Circassian immigrants from the Caucasus, and travelers are generally safe from attack if they are under the protection of a member of the brotherhood. The original Turkish, as well as the Christian, population of Anatolia is remarkably peaceable on the whole, and the lawless element is almost entirely composed of mullahs, or Mussulman refugees, from lands which were once part of the Ottoman empire, but have now fallen under Christian rule. The Circassians are the greatest sinners and seem to make their living mainly by brigandage and robbery. Some of them are engaged as village guards or escorts to travelers, and a few even enter the gendarmerie, but only, it would appear, when they are tired of a more adventurous life. As gendarmes they are said to be very efficient, although they are, of course, a little inclined to look the other way when any of their old friends are out on business."

Convincing Evidence.

Winthrop, Cal., Nov. 20th (Special)—A plain and straightforward story is always the most convincing. And that is what has impressed us most in reading the testimonials in regard to Dodd's Kidney Pills. The experience told by Davis Lewis of this place bears the ring and stamp of truth upon it. He says:—

"I was troubled for six months with dull heavy pains in the small of my back, sometimes it passed into my stomach, at other times up between my shoulders. When it was in my stomach I was doubled up, and hardly knew what to do for the pain. I was advised to take all kinds of remedies, and did so but without getting any relief. Then some one told me to try Dodd's Kidney Pills. I got a box and began taking them. The first few doses gave me relief, by the time I had finished them all the pain was gone and I have been well ever since."

Humor a Prime Requisite.

He who lacks humor, be his powers what they may, has only half a mind.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Hold by all Druggists, etc. Take Hall's Family Pills for constipation.

Sunday School Collection.

After the annual Sunday school sermon had been preached at St. Ann's Nottingham, a collection was made in aid of the sick and poor. The gifts included thirty-five orange, 213 eggs, forty-six pots of jam, 102 bananas, fifty-six tomatoes, sweets, tea, dolls and toys.

One of the machines exhibited at the dairy show recently held in London was a neat contrivance by which butter could be made out of fresh milk in sixty seconds at the tea table.

DISTRESS AFTER MEALS

Sure Sign That Dr. Williams' Pink Pills Are Needed to Tone Up the Digestive Organs.

Loss of appetite, distress after eating, shortness of breath, a feeling of utter weakness—these are symptoms that are familiar to most sufferers from stomach trouble. Too often the ordinary doctor's treatment serves but to weaken the diseased organs.

The new tonic method of treating disorders of this kind does not aim to do the work of the stomach, does not demand that the food be pre-digested, but builds up the weakened organs, so that they can do the work that nature intended.

Mrs. L. O. Law, of No. 324 North street, Horton, Kansas, says: "In 1897, while we were living on a farm in this neighborhood, I became generally debilitated as the result of overwork. I had serious indigestion, lost my appetite, suffered from a sense of suffocation and from obstruction of the circulation, so that artificial means had to be used to restore it. After suffering for months without finding any relief, I tried a box of Dr. Williams' Pink Pills of which I had read in a newspaper. The first few boxes made me lots better, and after using the third box I felt entirely well."

"I am now in excellent health and am able not only to take care of my house but also to assist my husband in a store which he has lately taken. Dr. Williams' Pink Pills cured me and I can recommend them. They are so simple, so easily taken and so prompt in their action."

Remember Dr. Williams' Pink Pills do not act on the bowels. They make new blood and restore shattered nerves. In this way they carry health and vigor to every organ and fiber of the body. They are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y.

ALIMONY AT PISTOL POINT

"Was I ever held up by a highway man during my western trips?" asked the drummer in the smoking car in response to a question. "Well, I didn't escape the distinction, only in my case the stage robber happened to be a woman. We didn't size up her sex at first because she was dressed up like a desperado and wore a mask and carried a belt full of guns, but she let us know who she was before she got through with the outfit."

"I was seated with the driver of the stage on my way from Circle City to a town named Goldrock, and we were not expecting a hold-up, because such a thing as a stage robber had not been heard of in that neighborhood for some years. We were therefore a little nervous when at a turn of the road a masked figure appeared and a shot was fired over our heads while the driver was called on to hold in his horses."

"The bandit seemed rather nervous and new at the business, I thought, but held a business-looking gun in one hand, and that was quite enough to keep us quiet."

"Well, he, or rather she, ordered us all out in a rough voice and lined us up along the roadside with our hands stretched heavenward. I only

had a few dollars with me, so I was waiting for a reprieve, so regarded the adventure as rather interesting than otherwise. The masked robber looked up over some time—it seemed to me hours—then advanced and motioned for a big, dressy looking man to step out of the line. He was the biggest fellow in the bunch and the biggest coward, too, for he was shaking all over like a bag of jelly."

"The bandit said nothing, but helped himself—I mean herself—to the contents of his pockets. There was a roll of greenbacks that would choke a crow, which she counted over and finally stowed away in her blue flannel shirt."

"You can sail ahead now, gents, when you please," she said, tossing off her mask and revealing the face of a handsome, black-eyed woman. "This measly hound here, pointing to the stout chap whose roll she had appropriated, was once my husband. I got a divorce from him, and for a year I never could get a cent out of him for alimony; not even the courts would help me; so here I've took the law in my own hands as a high spirited woman should. Good day to you, and turning around on her heels she swung her hat by way of farewell and disappeared in the bushes."

WHEN MEN FOUGHT DUELS

The Earl of Kimberley's much discussed challenge to Col. Sapwell is a reminder that though the days of dueling are considered to have passed in England the fighting spirit will still break out on occasions.

Not so very long ago Mr. Winston Churchill was challenged to an encounter a l'outrance by an irate constituent at Oldham. One hesitates to think what would have happened had Mr. Churchill had leisure enough to resume his martial role.

Lord Beaconsfield once challenged O'Connell to a duel, but the famous statesman found himself bound over to keep the peace in a police court instead of departing across the channel to blow out the brains of his political opponent.

O'Connell himself fought a duel with a member of the Irish House of Commons named D'Esterre and killed his opponent.

Another fatal duel was that in which Lord Camelford, one of the most confirmed duellists of his day and a man who had the death of more than one fellow creature on his hands, was killed by Mr. Best. Both were excellent shots, and one of the two pistols used was supposed to be

slightly more perfect than the other. A piece of money was tossed up to decide the choice. Best won, and in the result Lord Camelford fell mortally wounded.

The last duel fought in Ireland was between a Mayer of Sligo and a member of the legal profession, but honors were declared easy, for nothing happened.

Mr. Tierney charged Pitt with "obstructing the defenses of the country," and that oratorical observation sounded so terrible in the ears of the eminent statesman that he sent his seconds to Mr. Tierney.

The two met at 3 o'clock one Sunday morning at Putney Heath, not far from the Kingston road, fired two shots at each other and then returned home quite well for breakfast.

Charles James Fox, Pitt's brilliant rival, took occasion to make some scathing observations on the powder supplied by the War Office and promptly received a challenge from Mr. Adams. Fox accepted, the duel was fought, and the statesman was wounded. "Adams," he is reported to have said on that lamentable occasion, "I do believe you'd have killed me if you hadn't used government powder."

We call the English language our mother tongue, making it feminine, probably because it is so full of in-

HOUSEHOLD AFFAIRS

TO POLISH FENDERS.

If the kitchen fender gets very rusty with the saucepans boiling over, clean it with very fine emery cloth and then rub it over well with a greased cloth to prevent the rust from eating into the steel.

PROTECTION AGAINST ANTS.

Too many recipes can scarcely be tried for this purpose, as many of those already in use are failures. It has been affirmed that recently hosts of these pests have been put to flight by placing in their haunts strips of paper dipped in peppermint oil.—Chemiker Zeitung.

DON'T FORGET ONIONS.

Don't forget onions in your daily diet. Eat them raw as a spice for your food. You will find they become a necessity like other foods when the taste is cultivated for their use. They leave no unpleasant effect except in the breath, and Canadian snake root will disinfect the odor at once.

SUBSTITUTE FOR ZINC.

The housekeeper who cannot have a zinc-covered kitchen table will find several squares of hardwood an inch in thickness and about five inches across a great convenience for setting hot dishes on. The wood should be sand-papered and each block have a screw-eye, with which it is hung under the ledge of the table.

STALE BREAD.

The best of the left-over pieces should be toasted for breakfast, luncheon, or supper; they may be used dry, or made into milk toast. The broken pieces should be dried, rolled and put aside for frying or scalloping purposes. Or they may be soaked in milk, a little sugar added, two eggs allowed to each pint of milk, and a pint of stale bread crumbs, the whole baked in the oven and served as a pudding. Or they may be rolled, sifted and put into a mould and covered with eggs and milk, allowing to each pint of crumbs two eggs and a pint of milk, steamed for an hour, and served with a liquid pudding sauce. For a family of two, half a pint of bread crumbs, one egg and half pint of milk will be quite sufficient.

F. L. ANDREWS & CO. PROPRIETORS.
THURSDAY, NOV. 23, 1905.

Mr. Lawson had to strike pretty far down in the financial scale before he found a victim with a stomach for the libel courts.

The bituminous coal miners of Pennsylvania will demand a twelve per cent increase in wages in January.—We have our supply of coal for this year.

Tom Lawson is to be brought into the lime light and asked to prove some of his assertions in regard to the United States senate. The proving of his charges would result in his success.

It may be that the Russian workers and peasants, having found themselves in possession of the tremendous power they now wield, will go so far and become so unreasonable that they plunge their country into anarchy, civil war.

It is easy to organize men, and to command them to fight for themselves, but to organize them so that they will make such sacrifices as are implied by the strike on behalf of the Polish people, requires splendid leadership and high enthusiasm and unselfishness among those who are led.

Perhaps the disclosures of Tom Lawson have been the means of some good. Certain it is that there never has been a time before when there was such a wave of investigation as at present and it is extending even to surrounding counties, Shiwassee county being in the depths of an investigation of her county affairs and finances.

"The pardon board is responsible to nobody. Its acts and decrees are not subject to review by any court." * * * The convict makes use of it under the indeterminate sentence statute as a court of last resort, not for the purpose of securing a new trial, but for the purpose of escaping the punishment justly imposed."—Attorney A. J. Sawyer, of Ann Arbor.

According to a notice in the Vossische Zeitung, Marcillac contemplates taking a trip to the North Pole by balloon, similar to that of the unfortunate Andree. As a safeguard against such accidents as befell the latter, Marcillac intends to carry with him a wireless telegraph apparatus by means of which the balloon will be kept in permanent connection with the starting station.

Congressman Landis argues that the national government can save at least a million dollars a year in its printing bills by pointing to the tons of useless documents piled in the basement of the Capitol, carloads in the government printing office, tons in the committee rooms in the departments and in the garrets and woodsheds of senators and representatives throughout the country. They are worse than an extravagance. They are a nuisance.

A CARD.

I, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. I also guarantee a 25-cent bottle to prove satisfactory or money refunded.

Rural mail carriers have received orders from headquarters to refuse to take unstamped mail from the boxes. Heretofore patrons have dropped unstamped mail into the boxes; also deposited pennies for the postage. Hereafter such methods will not be permitted, and stamps must be procured from the carrier or elsewhere and be properly affixed by the patron to insure the service desired.

"I Thank The Lord!"

cried Hannah Plant, of Little Rock, Ark., "for the relief he got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at F. A. Sigler's drug store; 25 cents

This office has just received from the State Agricultural College, an announcement of their winter course in Horticulture. It is a short, practical and inexpensive course, which ought to be of service to any one who desires a training for successful fruit growing gardening, or greenhouse work. It begins January 3d and continues to February 23d. There are no entrance examinations; any one having a common school education can take this course with profit. Any man or woman over 16 years is admitted. The necessary expenses, except railroad fare, are about \$45. Any of our readers who are interested should write at once for an announcement, to DIRECTOR C. D. SMITH, Agricultural College, Mich.

A Disastrous Calamity

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. The build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed at F. A. Sigler's drug store; 25 cents.

The South is rounding up about 11,000,000 bales of cotton, worth about 11 cents a pound, a happy condition which is in a way equaled by Iowa with 240,000,000 bushels of corn worth 40 cents a bushel. The ben comes in for her share in promoting property of this country to the tune of \$220,000,000 worth of eggs.

A liquid cold cure and the only cough syrup which moves the bowels—works all cold out of the system—is Kennedy's Lavative Honey and Tar. Clears the head and throat and makes weak lungs strong. Best for croup, whooping cough, etc. Children love it. Sold by F. A. Sigler, Druggist.

According to the crop report report issued November 1, the potatoe crop for 1905 will be the poorest in years, not only in quantity but in quality. The wet weather did much damage to the potatoes early in the season and lessened the acreage. The blight later in some localities, shortened the yield. The estimated yield for the state is about 60 bushels per acre.

Do not be deceived by counterfeits when you buy Witch Hazel Salve. The name of E. C. DeWitt & Co. is on every box of the genuine. Ohio has a population of more than 800,000 persons living in no-license districts. Out of 1,371 townships of the state, 975 are now "dry" of the 763 municipalities of the state, 460 are now "under prohibition."

Sir Frederick Treves states that in the march of the 30,000 British soldiers who went to the relief of Ladysmith during the Boer war, "those soldiers who were the first to fall out were not the fat or the thin the young or the old, the short or the tall, but those who drank."

The international Tuberculosis Congress in Paris has declared the most important predisposing causes to consumption are alcoholism, overwork and overcrowding in tenements. The first is father, mother, grandfather, grandmother and the whole ancestral line of the last two.—The Westminster.

A cough syrup which drives a cold out of the system by acting as a cathartic on the bowels is offered in Kennedy's Lavative Honey and Tar. Clears the throat, strengthens the lungs and bronchial tubes. The mother's friend and the children's favorite. Best for croup whooping cough, etc. Sold by F. A. Sigler, Druggist.

When Ruskin Was Snobbish.

Leveson-Gower in his memoirs tells of an occasion on which Ruskin was snobbish. He says: "Ruskin on one occasion gave a large supper, to which he invited some of the leading undergraduates, whom he did not know. His speech on this occasion did not make a favorable impression. He said he could hardly express how much he felt honored that so many young men who were superior to him socially should have condescended to accept his invitation. This disinclined us to keep up the acquaintance, although we were the losers thereby."

Chimney Stacks Left Standing.

Some curious beliefs still linger in country parts. For instance, in Hertfordshire when ancient houses are destroyed the chimney stacks are left intact, the popular theory being that the houses are still in existence while these remain standing. This may be a survival of some ancient but now almost forgotten legal right.—London Chronicle.

The Other Way.

Man's Unreasonableness
is often as great as woman's. But Thos. A. Austin, M. R. of the "Republican," of Leavenworth, Ind. was unreasonable when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by F. A. Sigler druggist, price 50cents.

Cooked Under Water.
In 1706 one James Austin had a wager of \$500 that he would cook a plum pudding ten feet beneath the surface of the Thames near Rochester. The bet was readily accepted, and many people flocked to the appointed locale to watch this strange exhibition of the culinary art. Inclosed in a tin pan in the center of a sack of lime the pudding was lowered beneath the water, where for two hours and a half it remained. It was then taken up and partaken of by a committee, who declared that Austin had won his wager, the pudding being, if anything, overdone.

Failure
to cure indigestion is largely due to the old theory that when the stomach becomes inactive it needs something to mechanically digest its contents, and cathartics, purgatives, etc., are used, which give only temporary relief.
Doctors now recognize the fact that it is the nerves that furnish motive power to digest the contents of the stomach. When they become weakened they lack energy, and indigestion, dyspepsia, sour stomach result.
Dr. Miles' Restorative Nerve
will relieve obstinate cases of indigestion, dyspepsia and stomach trouble by strengthening the nerves.
"My daughter had stomach trouble, doctors said she could not live. We gave her Dr. Miles' Nerve. She got better from the first, and four bottles cured her."

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skillful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I am earning \$21 and never lose a day. I wish all sufferers knew of your valuable treatment."

RESULTS
The word results means a whole lot to the farmer of to-day and it is especially attractive to the homeseeker or those seeking new locations. If we tell you of a country where you are sure of success, will you believe us? It is only necessary for you to farm the land and the best results will follow—a State which the government reports will show leads in the production of wheat. It also ranks among the first in the raising of corn, alfalfa, timothy and other products, together with stock raising. We speak of

KANSAS
The great State of the West, where lands can be purchased from \$5 to \$30 per acre which equals the returns of the \$50 to \$150 per acre lands of other States. EASTERN COLORADO is identical in most respects and the same opportunities are offered there. Buy quick while the lands are cheap and secure the benefit of an excellent investment. THE MISSOURI PACIFIC RAILWAY touches the heart of this rich agricultural region and extremely low rates are offered, allowing stop-over at pleasure in certain territory for inspection of lands, etc. Write us and we will send you free descriptive literature and full information.

Learn a Trade
This country would be much better if everyone, especially the men, were obliged to learn a trade of some kind before they were twenty-five years old. The young man who has a trade, if he has any hustle in him at all, asks no odds of anyone. He is not only sure of a living but can do better.
The average young man without a trade is without a job, and the idle man is the curse of any nation. Figures show that the men in our prisons are mostly those without a trade. There is always mischief for idle hands to do.
Every Jew is taught a trade at an early age and we seldom if ever knew of a Jew who was not self supporting. If they fail in business they are always ready to take up their trade. The Jew is a dispersed race but he has his good traits just the same and learning their young men a trade is one of them.
The young man with a trade has nothing to be afraid of but is independent and as a rule is looked up to by all. If he wants a job in any other business he stands a better chance.

U. OF M. BEATS WISCONSIN

Great Game of Football at Ann Arbor. If yelling had anything to do with winning a football game, there were fully 20,000 players on Ferry field at Ann Arbor, Saturday afternoon.

Such a mighty throng has never before surrounded Ferry field, and such yelling has never been heard before.

Football history, happily minus the somber page of its coincident chapter, repeated itself Saturday, when Michigan triumphed over Wisconsin by a 12 to 0 score that, were it necessary, might have been converted into figures more one-sided: The coincidence came not in the play itself, but in an incident that for a time threatened to change the day from Michigan's most joyous athletic event into the saddest afternoon of the university's history.

With the score 8 to 0, in Michigan's favor, of course, and the second half just started, the temporary stand, at the west end of the field, a sloping platform on which probably 2,000 persons, men and women, were standing, slowly sank beneath the weight of its burden. The supports of the structure, fortunately, gave way gradually, and this, with the fact that there was a very short distance for the drop at most, enabled all save a very few persons on the platform to escape injury. In no case was any person seriously hurt.

Citizens of Fenton are "making a noise" because the council, without any warning, gave Flint men a gas franchise, exempting the company from taxes for 10 years, giving them free water for that time and permitting a charge of \$1.25 per 1,000 cubic feet for gas. Chicago people wanted to pay \$2,000 for the franchise and pay taxes and water rates.

C. W. Post, of Battle Creek, addressing the National Citizens' Industrial association, of which he is president, said in St. Louis: "There is not, as many believe, an organization to tear down labor organizations or fight labor. We are not partisans of the employer. Our position is rather that of an intermediary between capital and labor. We want to strengthen both and build them up. We are just as much opposed to industrial combinations as we are to a labor trust or any institution that seeks to corner the labor market."

\$3.50 & \$3.00 SHOES

W. L. Douglas \$4.00 Gilt Edge Line cannot be equalled at any price.

W. L. DOUGLAS MAKES AND SELLS MORE MEN'S \$3.50 SHOES THAN ANY OTHER MANUFACTURER.

\$10,000 REWARD to anyone who can improve this statement.

W. L. Douglas \$3.50 shoes have by their excellent style, easy fitting, and superior workmanship, achieved the largest sale of any \$3.50 shoe in the world. They are just as good as those that cost you \$5.00 to \$7.00—the only difference is the price. If I could take you into my factory at Brockton, Mass., the largest in the world under one roof making men's fine shoes, and show you the care with which every pair of Douglas shoes is made, you would realize why W. L. Douglas \$3.50 shoes are the best shoes produced in the world.

If I could show you the difference between the shoes made in my factory and those of other makers, you would understand why Douglas \$3.50 shoes cost more to make, why they hold their shape, fit better, wear longer, and are of greater intrinsic value than any other \$3.50 shoes on the market to-day.

W. L. Douglas Street Made Shoes for Men, \$3.50, \$3.00, \$2.50, \$2.00, \$1.75, \$1.50

CAUTION.—Insist upon having W. L. Douglas shoes. Take no substitutes. None genuine without his name and price stamped on bottom.

WANTED. A shoe dealer in every town where W. L. Douglas Shoes are not sold. Full line of samples sent free for inspection upon request. Fast Color Eyelets used; they will not wear through. Write for Illustrated Catalog of Fall Styles.

Broadening the Shoulders.

A good exercise for broadening the shoulders requires the person to place his hands straight before him against a door or wall, which he must face. Straighten out the arms and let the palms of both hands be spread out upon the surface of the door. Then slowly press the chest forward toward the door. This will cause the arms to bend at the elbows, but at the same time will throw back the shoulders. Rowing will broaden the shoulders very perceptibly. Exercises with dumbbells are also good.
