 Do not fail to read the business pointers each week.
 Lee Hoff of Flint is visiting his father and sisters here.
 Dr. and Mrs. E. L. Moore spent Sunday with his people in Ann Arbor.
 Mrs. Harry Ayers of Detroit, was the guest of her mother, Mrs. M. Nash, the past week.
 Harold Brown and Mike Ruen of the U. of M. were the guests of friends here over Sunday.
 John Hassencamp and brother Will have been moving to the Sigler farm, south of town the past week and will work it together. The auction sale announced in last week's paper has been declared off as they will need the stock and tools.
 Do not forget the auction sale of farm stock, tools and household goods on the E. W. Kennedy farm east and north of this village on Wednesday next, March 13. Mr. Kennedy has rented his farm and will move here as soon as possible. Ladies especially invited.
 Saturday morning Frank Eisele's team became frightened while hitched in front of Jackson and Cadwell's store and started on the run. The first thing they brought up against was a telephone pole by the hotel and broke a piece out lowering the pole a few feet. Here one of the horses got loose from the wagon and started down the south road. The other one with the wagon brought up against the corner of the porch of U. V. Van Winkle's house where he also broke away from the wagon. There was but little damage done only to the harness and Van Winkle's porch.

No one needs to be told that it is March—the weather proves that.
 WCTU will meet Saturday P. M. at the home of Mrs. H. F. Sigler. Mrs. Arnold, County President, will be present and a full attendance is desired.
 Mr. and Mrs. Henry Harris entertained at a progressive pedro party last Tuesday evening. About thirty guests were present and all reported a good time.
 The Ladies Aid of the M. E. church will serve dinner at the home of Mrs. W. H. Clark, March 14. Everybody invited. Note the change of day from Wednesday to Thursday on account of E. W. Kennedy's auction.

Former Pinckneyite and Pioneer Dead.

James M. Eaman died at his home in Benton Harbor, Saturday, March 2, 1907, at the advanced age of 87 years.
 Mr. Eaman was one of the early settlers in this vicinity, having, with his father, lived on the Wood farm west of here, before the village of Pinckney was laid out. He came to

J. M. EAMAN

Pinckney to live in 1843, and was identified with the business interests of this place, at one time owning the mill and then running a general store. He was brother-in-law of Mrs. H. M. Colby and well known and much thought of here. The funeral was held from the home Monday, March 4.

Village Election.

Caucuses have been held and two tickets have been placed in the field. There are plenty of good men in the village and they have been placed in nomination. It now remains for the voter to choose which he prefers to fill the offices for the coming year. We shall not try to tell you how to vote but here are the nominations, make your own choice. According to law the Un on ticket will appear first on the ballot, the Citizens' second.

Rev. D. C. Littlejohn attended the Sunday school convention at Stockbridge Wednesday where he delivered the main address in the evening.

March came in all right with a fairly good day although it wound up in a rain and then caught cold about midnight. How long will we remember the kind of weather for the day?

E. L. Thompson's health has been very poor for several weeks. He is suffering with lung and stomach trouble and has been confined to the house part of the time. His many friends hope for a speedy recovery.

If you are not already a voter in this village see that your name is registered Saturday of this week, March 9.

The Mutual telephone line from Brighton to Chilton has just been completed and there are fully as many subscribers as the line will carry. The people in that vicinity recognize a good thing.

We are in receipt of the February number of St. Mary's Messenger, a magazine published by the Seniors of St. Mary's Academy at Monroe. We see among the assistant editors the name of Miss Mildred Kuhn of Gregory. The magazine is well edited and contains much good reading.

Hasten Slowly.

It is not well to be too eager to acquire wealth, especially when it entails long hours of work and constant anxiety. The other day a rich merchant of Illinois, traveling in England, wrote home to his son, who is carrying on the business: "I am a middle-aged man," he said, "and I am just learning that it is wisest to hasten slowly." In the anxiety to grow rich, he had made too much haste, and had suffered seriously in health and in the reasonable enjoyment of life. He had worked all day and all night when occasion appeared to demand it; he had taken no count of days of rest, or any other time. It was work and scheme, scheme and work, all the time. He had at last awakened in his old age to the fact that he has made a great mistake. No one deprecates work, steady and persevering; for the young man that is, in many instances, essential to any kind of success; but to make oneself a slave to the anxiety to become rich is another matter. That is just what many a husband and father is now doing. It is the wife's duty, says New York Weekly, to check this; she should take care that he does not become so consumed by the notion that he must constantly improve his condition by unceasing labor, day after day, and thus let his life slip away and his health go with it. The anxiety to get wealth does not always end in constant work; it often entails a growing carelessness for the difference between right and wrong and the welfare of others. Very frequently a woman forces her husband along this dangerous path instead of keeping him in check. She sees money coming in, and she spends it, not troubling about how he works to get it or in which way he obtains the coveted wealth.

A collateral descendant of William Shakespeare has died in London in the person of George Shakespeare Hart. He was an engineer and was 64 years old. A pedigree in possession of the family shows his descent from the poet's family. Shakespeare's sister, Joan, married William Hart, a hatter, of Stratford-on-Avon, and it was from him that George Shakespeare Hart descended.

A vast increase in the importations of briarwood pipes is noted, which is complimentary to the taste of old smokers. There may be solace in a good cigar, but there's likewise comfort and joy in a sweet pipe, declares the Boston Herald. It is much affected nowadays out of doors and on the busy street, but that is a violation of good taste. The den is the place for the pipe.

The extraordinary resuscitating power of light recently received a curious illustration in the silver mines at Laurium, Greece. A mine had been abandoned 2,000 years, when some poppy seed was found beneath the slag. The slag being removed, in a short time the entire space was covered with the most gorgeous show of poppies.

Speaking of talking machines, India is a great country for this instrument, and thousands of them are in use. The native who can command the price wants a talking machine, and the records he delights in are those which reproduce the native songs. The American machine takes the lead, and there is room for more.

A full-fledged liar dwells in Wilmington, Del. He solemnly declares that he placed a brooding hen on a "setting" of cold-storage eggs. The result was that she hatched 17 chickens which had fur instead of feathers, and he attributes this phenomenal result to the fact that nature adapts all animals to their environment.

A peculiarity of the eyeball of the mole is that it can be projected forward several times its own diameter beyond the orbit and retracted in like manner. Dr. Lindsay Johnson notes that this is necessary for vision, as the animal's dense fur so covers the eye that the making of an opening is the only way to see.

The Siamese government, which floated a loan of \$5,000,000 in 1905, is reported to have placed another bond issue of \$15,000,000 at four and one-half per cent., which was taken up by London, Paris and Berlin bankers on January 21. A large part of the new issue is for railways.

MICHIGAN EVENTS NOTED

A FORMER BENTON HARBORITE CONFESSES MURDER OF WIFE AND CHILD.

A HORRIBLE CONFESSION

Poisoned Mother And Child And Watched Them Die From The Poison He Gave. Doctor Says Degenerate. Benjamin C. Wright, formerly of Benton Harbor, Mich., but now of Denver, Col., who confessed the murder of his wife, Mrs. Cora Hull Wright, and his daughter, Genevieve, Sunday night, on Tuesday morning reiterated his confession. But during the evening on the advice of an attorney, he attempted to repudiate the confession he made and signed before Chief of Police Delaney and four members of the department.

Estella Good, Wright's sweetheart, was arrested at Colorado Springs and brought to Denver. She was held for investigation. The police have decided that she did not plot or conspire with Wright to murder his family. In jail she expressed scorn for a man who would commit cold-blooded murder. Surgeons performed an autopsy upon the bodies of Mrs. Wright and the little girl. The exact nature of the poison was not determined, and must wait upon a chemical analysis. In the course of his confession Wright said that the poison acted first upon the little girl. "The girl," said Wright, "became sick at the stomach, and her mother led her to the sink and was holding her head."

"I watched them from an adjoining room. Suddenly the mother reeled and fell one way and the child the other. Three minutes later they were dead."

Wright shows little feeling. Shown a picture of Estella Good, he exclaimed, "Ain't she a peach," and his eyes glittered while his cheeks flushed with color.

It is the opinion of the police and medical men who have seen Wright that he is a degenerate. His defense in all probability will be insanity. He seems too shrewd and alert to give a detailed statement of his actions on Sunday night.

It seems certain that his illness was feigned. A physician who examined Wright expressed the opinion that he has ex-ophthalmic gotte, which often causes protruding eyes and rapid pulse, which at first seemed symptoms of poisoning.

Hawkins Convicted.

Dexter Hawkins, who shot and killed Charles Ward in a lumber camp at Tower, during a drunken quarrel over religion, was found guilty of murder in the second degree. The prisoner will be sentenced by Judge Shepherd later. Hawkins and Ward met at the deserted lumber camp by accident last October while they were out hunting. Each had a quantity of whiskey and they proceeded to have a spree before they turned in for the night. Hawkins was a Catholic and Ward an Orangeman and when the subject of religion came up they had a wordy war. Finally they got into the bunks still quarreling, but Hawkins says he was just going to sleep when he heard Ward moving about and he saw him reaching for his rifle. Believing that he was about to be murdered, Hawkins says he jumped up, wrested the weapon from Ward and shot him twice, once after he had fallen. Hawkins gave himself up and was the first to report the crime.

Heroic Girl.

Braving flames that threatened every instant to envelop her, and though her hair was burning, her hands and face blistering, the 11-year-old daughter of George Blohm made a heroic attempt to drag invalid Mrs. Lillie Post from the burning house of Henry Bender in Hart. She failed and later the charred body of Mrs. Post was found in the ruins.

In the absence of Mr. and Mrs. Bender, the girl had called at their home to be with Mrs. Post. Clothing had been left near the stove to dry and it caught fire. The girl was playing in the yard. Hearing Mrs. Post cry out she rushed in to find her in flames.

The efforts of the child proved futile, and she was forced to abandon the woman to her fate.

Railroad Wrecks.

The report of the railroad commission, which says that during the last three months there has been a collision every 64 minutes, and one derailment every 74 minutes on railroads in the United States, has set Railroad Commissioner Glasgow to thinking hard. He says it is high time to regulate the speed of trains, particularly in rounding curves. He has this thought in conclusion with the recent fatal wreck on the Michigan Central at Ypsilanti, at Shanghai pit.

Attorney Henry Russell and Commissioner Glasgow have been in conference to arrange for a further hearing before the commissioner regarding the wreck.

Trained dogs belonging to the Wexon Bros. Carnival Co., wintering in Bancroft, got to fighting and before they could be separated a coffee mortar

LIQUOR MONEY.

Auditor-General Bradley's Figures Are Interesting.

The liquor interests must get an average of considerably over one dollar from every man, woman and child in the state to pay for the privilege of carrying on business. In 1905, according to figures given by Auditor-General Bradley, the total paid in licenses was \$3,331,206.10. The population of the state at the last census was 2,530,016.

The above amount has nothing to do with the taxes assessed for regular purposes on the property of the brewers and saloonists.

There are four classes of licenses, the largest being that signified by the red card hanging up in the retail thirst parlor. The license for engaging in either the retail or wholesale business is \$500 a year. The number issued in this class was 5,723, and the total so received, \$2,789,176.10. For both the wholesale and retail business the fee is \$300 and 30 such licenses totalled \$24,000. Eighty-three manufacturers of malt brewed or fermented liquors paid \$5,330, and 54 warehouse agencies paid \$2,700.

Alcous issued the smallest number of licenses, collecting \$1,416.66. Wayne issued the largest number, 1,724, and collected \$838,235.09.

STATE CONVENTION.

Nominees of Democrat Party for Spring Election.

Whatever the cause, the Democratic state convention held in Flint attracted the most representative gathering that the Democracy has had in years. In addition there was an unaccountable spirit of unanimity that brought joy to the hearts of the old-timers and aroused in them the fire of hope. Under the spell of congenial surroundings things went with a snap and vim and the temper of the delegates was expressed in the inclusive resolutions that were drafted by T. E. Tarney, of Detroit. The ticket nominated follows: Justices of the Supreme Court, George P. Stone, of Ithaca; John R. Carr, of Cassopolis.

Regents of U. of M.—Woodbridge N. Ferris, of Big Rapids; Henry A. Harmon, of Detroit.

Member of State Board of Education—Stanley E. Parkhill, of Owosso.

Mrs. Courter is Free.

Mrs. Cora Courter, of Sheridan, is a free woman, after a year's captivity in the death of her husband, Albert Courter, finding that his death was not caused by poison.

The finding of the coroner's jury was the result of the report of Chemist W. K. Bennett, of Grand Rapids, that he had made four tests of the stomach contents of the dead man and failed to find a trace of poison.

Mrs. Courter was informed of the report of the chemist and Sheriff Gaffield told her she could go home. Her only comment was:

"I knew that would be the result. I had no fears. I knew I was in no danger."

Mrs. Courter showed little more emotion when she was discharged than at any time since the gossip of Sheridan village stirred up the scandalous stories.

Mrs. Cora Courter, is held in high esteem with the Detroit wholesale millinery firms with which she has done business. She is given an excellent reputation as to character and business ability.

Dined the Governor.

Warden Armstrong entertained 300 invited guests at the prison Friday evening. Gov. Warner and the legislative prison committee were present, and as it was the first anniversary of Mr. Armstrong's wardenship he decided to give an unique "lunch and smoker."

For more than four hours the governor, legislators, lawyers, judges and others sat upon stools in the dining room. The supper was served in prison style, by convict waiters, on the tables used by the prisoners. In every regard the service was the same as that given the prisoners. The bill of fare, printed in German, consisted wholly of German dishes such as Blamarck herring, sauer kraut and frankfurters, pea soup with crotons, liverwurst, potato salad, pickled pig's feet, Switzer cheese, but coffee instead of the amber German national beverage. At the end of the supper corn-cob pipes and tobacco were supplied and the guests tilted back on their stools to listen to the addresses.

The Sons of a Hero.

Engelbert Riedlinger, aged 25, a Michigan Central employe, in 1888 was drowned while trying to save Samuel Phillips, a lad who fell into the river. Riedlinger was an expert swimmer, but the boy clasped him about the neck and dragged him to the bottom. Riedlinger left a widow and two children, and in recognition of his heroism a fund of \$1,200 was raised. Half was paid to the widow and the balance deposited in a savings bank for the benefit of the children. The oldest, William, has just reached his majority and was paid \$558, double the sum deposited for him. Engelbert, a younger son, will draw a still larger sum in 1909.

Blew Up the Boiler.

Lawrence Bloom, aged 26, an engineer in charge of drilling operations north of Alpena, by mistake threw gasoline into the furnace under the boiler to start a fire in place of kerosene. An explosion wrecked the boiler. Bloom was badly burned, especially his face and hands, and saved his life by jumping into a tank of water used for filling the boiler.

Where It Hurt Most.

"Young gentlemen," said the college president, notwithstanding the fact that he was addressing the students, "young gentlemen, having must be stopped and stopped at once. It has injured the college more than any of you ever could guess. Only last week a gentleman declined to give me \$1,000,000 because there was so much having. Having is a bad thing financially."

"How about morality?" asked the student.

"Aw, really, there may be something in that, but—sw—the point has never come up, and I—aw—am not prepared to answer. But the point is worth considering."—Chicago Journal.

PREPARE THIS YOURSELF.

Tells How to Make the Best Blood Tonic at Home.

For those who have any form of blood disorders; who want new, rich blood and plenty of it, try this:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take in teaspoonful doses after each meal and at bedtime. Any good pharmacy can supply the ingredients at small cost.

This is the prescription which, when made up, is called "The Vegetable Treatment;" by others, the "Cyclone Blood Purifier." It acts gently and certainly does wonders for some people who are sickly, weak and out of sorts, and is known to relieve serious, long-standing cases of rheumatism and chronic backache quickly. Make some up, and try it.

PENMANSHIP A FINE ART.

Typewriting Has Not Driven Hand Work from the Field.

There is a renaissance in penmanship, despite the speedy comforts of the typewriters. Ten years ago it probably would not have occurred to anyone to show a page of manuscript at any exhibition; to-day pages or books of script form a feature of every show which takes to itself the name of arts and crafts. Some of the work is in Roman capitals, but the form of letter usually adopted is the cursive or half-uncial. Apparently all the writers have founded themselves in these models. Within these last few years not only has the art attracted a good deal of attention, but it has become quite the rage, so that in some circles it creates no less surprise how to learn that an amateur in taking lessons in script that it would have done some years back to be told that he or she had taken to paper work. From one viewpoint it is difficult to say where writing ends and illustration begins, but though in the recent revival the two arts naturally have their hand in hand, the scribe and the illuminator are not necessarily one and the same person. Some of the illuminations show most elaborate and minute figure decoration, so delicate in coloring and so refined in treatment that it challenges comparison with the best of old work.

CHILDREN TORTURED.

Girl Had Running Sores from Eczema—Boy Tortured by Poison Oak—Both Cured by Cuticura.

"Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointing them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up. So we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we twelve miles from a doctor. Mrs. Vincent Thomas, Fairmont, W. Va. See's Ridge, Tenn. See's.

TWICE-TOLD TRUTHS.

Young Women Who Suffer From Backache, Jaundice, Urinary Disorders and Other Kidney Ills, Will Find Comfort in the Use of Mrs. J. B. Doan's Kidney Pills. 500 Ocean Ave., Jersey City, N. J., who says: "I reiterate all I have said, praise of Doan's Kidney Pills. I had been having heavy backaches, and my general health was affected when I began using them. My feet were swollen, my eyes puffed, and dizzy spells were frequent. My kidney action was irregular and the secretions highly colored. WEAK, PALE, THIN

Dr. Williams' Pink Pills Restored Mrs. Robbins To Health and Also Cured Her Daughter of Anemia.

Mrs. Jorie Robbins, of 1121 Clair St., Decatur, Ill., says: "I was weak, thin and troubled with headaches. My appetite failed so that I did not relish my food. I was unable to do my work because my limbs pained me so and my feet were swollen. I got numb and dizzy, my tongue seemed at times to be paralyzed so that I couldn't speak distinctly. My extremities, when in this numb state, felt as if some one was sticking needles into me all over their surface. Through my shoulders at times I had such pain that I couldn't sleep. Many times I awoke with a smothering sensation. "When the physician's remedies failed to benefit me I began to look for something that would. My sister, Mrs. McDaniel, of Decatur, recommended Dr. Williams' Pink Pills to me and I at once purchased some. I was greatly encouraged when I saw how they acted on my nervous condition and continued using them until cured. I am now able to attend to my duties and have not consulted a physician since.

"I also gave them to my daughter who had always been weak and who at this time seemed to lack vitality. Her cheeks were colorless and she was thin and spiritless. She had anemia and we feared consumption, because every time she went out doors if it was at all cold or damp she would take cold and cough. But Dr. Williams' Pink Pills brought color back to her cheeks and strength to her body."

Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure—and has been for 20 years. The National Law now requires that if any poisons enter into a cough mixture, it must be printed on the label or package. For this reason mothers and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. We understand that a bill has recently been passed by congress increasing the pay of rural mail carriers. The increase will be \$120 per year anyway and there is a chance of its being larger.

Nearly every one who partook of a dish of pressed meat prepared by the ladies of a society in Fowlerville last week, were taken sick and a few had to call a doctor although none were dangerously ill. Hereafter the ladies will not mix chicken with beef for pressing.

Died at his home in Genoa Feb. 25, 1907, Isaac Sopp, aged 72 yrs. and 6 mos. He was born in England and came to America in 1861. He lived most of his life in Genoa and survived by two daughters and one son. The funeral services were conducted by Rev. G. W. Mylne, Thursday and buried in the Hamburg Cemetery.

After forming a bill and recommending it that would practically put every local newspaper out of business as well as most of the magazines, Third assistant Postmaster General, Madden has tendered his resignation. Plans were on foot, if they had already reached the authorities, to have him removed as incompetent. This may have hastened his resignation.

It Works.

In commenting on the R. Clinton plan of a bean association, Bro. Adams, of the Fowlerville Review says: "The plan seems to be patterned largely after the coal trust of the present day and each reader can imagine about how it would work." If Bro. Adams has ever had to purchase coal in different months he has found out that it works all right.

Pay Railroads Less.

Rep. Sam Smith has for years been making speeches before congress and otherwise agitating the matter of lowering the rate paid railroads for carrying the mails. This year Rep. Overstreet chairman on postoffices took up the matter with the result that the roads will be paid \$5,000,000 less than formerly. This will go a long way towards making up the postal deficit.

EARLY RISERS The famous little pills.

The Major's Lesson

(Copyright, 1906, by McClure Newspaper Syndicate.)

Major Thornton, U. S. A., retired, was at Margate, England. Going one day to his room, he found in the hall of the hotel a diamond sunburst. His first thought was to go down to the office and turn in the lost jewel; his second was to wait and give the loser a glad surprise.

They were discussing the matter in the lunch room when he went down. While he was out on the promenade there had been an arrest in the hotel. The wife of a prominent manufacturer stopping at the house had made an outcry that the jewel had been taken from her room during a momentary absence. Suspicion was directed to a waiter named Saunders, who had come up to the next room with an order, and when suddenly accused of the theft he became confused and embarrassed and had been put under arrest and taken away. None of those who saw him and heard his lame explanations could make the least excuse for him. A search had failed to find the jewel on his person, but it was, of course, argued that he had passed it to a confederate.

The major heard all this and much more, and he had started in to defend the waiter and talk about the unreliability of circumstantial evidence and cite instances when the lady assured her hearers for the tenth time that she had the jewel in her hand and was looking at the hinge of the pin not a moment before she left the room. She was most positive that she left it behind her on the dresser. She would swear to that in all the courts of the land. The aggressiveness and the positiveness of the lady rather startled the major. If she could not be made to believe that she had dropped the thing in the hall where he had found it, what sort of a position would it put him in?

The major kept the sunburst in his pocket. Saunders had been put through the third degree at the police station and given his liberty. He had come down from London fairly recommended, and up to that moment no fault had been found with him. He returned to the hotel and talked about a suit for damages and faintly frightened the woman into giving him a hundred dollars in cash and making a humble apology.

When the waiter had been freed the major's quandary was worse than ever. If he restored the jewel, he would be asked why he delayed. It was very doubtful also if his story of finding it in the hall would be believed. The loser was too positive for that. The man Saunders went away at once. If the jewel could in some way be returned to the lady, would anybody believe that the waiter had become conscience stricken? On the contrary, wouldn't everybody declare that the real thief had become frightened and was still a guest at the hotel?

How we argue to ourselves and how other people argue about us are two different things. As a matter of fact, the major was the last one to be suspected, and yet he had the feeling that all looked upon him with suspicion. Whether at table, in the smoking room or on the sands, the subject was constantly turning up, and he sometimes wondered why he was not arrested as the criminal. He stood this sort of thing for two weeks and then decided to go elsewhere. He would go up to London and from thence mail the jewel to the lady and go on to Paris at once. From the time he left the hotel until the train started he was in a cold sweat. The sight of a policeman gave him feet as cold as ice. When he reached London he suddenly remembered that a valuable parcel like that must be receipted for and the name of the sender given. He might give a false name, but if the parcel was traced back wouldn't his personality be remembered? The major sat on a bench in St. James' park trying to figure it out when a voice said:

"Major Thornton, sir, if you will permit the liberty, sir!"

It was Saunders, the waiter. He was well dressed and looking pretty chipper. The major made room for him on the bench, and the waiter sat down to continue:

"Major, that was a bad deal they gave me at Margate."

"Y-es," was the reply.

"It may be the means of ruining an honest man's reputation. Such things get out, you know, and once a man in this profession is spotted as 'crooked' no hotel wants him thereafter. If I hadn't lost my head I should have made the lady pay five times the price she did."

"I was not one of those who thought you took the sunburst?"

"Thank you, sir—thank you from the bottom of my heart. You have given me hope."

"What I think," continued the major, "is that the lady dropped the jewel in the hall and some one found and kept it."

"Just my idea all the time, sir. It must have been dropped in the hall and picked up by somebody else."

There was further talk.

quarter of an hour Saunders arose, uttered his heartfelt thanks once more and took himself off. He had been gone ten minutes when the major felt in his pocket for the sunburst and its box. They were gone; also his wallet and his watch. Saunders had cleaned him out as they sat talking. It was a beautiful case of pocket picking and thanks rendering in one, and, though it put the major in a hole financially, he heaved a sigh of relief as he realized that he was rid of the sunburst at last. Saunders had taken it from the room and dropped it in his hurry to get away. M. QUAD.

Saved Her Son's Life.

The happiest mother in the little town of Ava, Mo., is Mrs. S. Ruppee. She writes: "One year ago my son was down with such serious lung trouble that our physician was unable to help him; when, by our druggist's advice I began giving him Dr. King's New Discovery, and I soon noticed improvement. I kept this treatment up for a few weeks when he was perfectly well. He has worked steadily since at carpenter work. Dr. King's New Discovery saved his life." Guaranteed best cough and cold cure by F. A. Sigler, Druggist. 50c and \$1.00. Trial bottle free.

Little Economies.

"I once made up my mind," said a London man, "that I would become the possessor of a good gold watch. I saved up the money for it in this way: When I felt like eating a shilling luncheon, as I often did, I kept it down to temperance. I put the twopence saved toward my watch fund. You will hardly believe me, but with little economies like this I had in less than six months saved enough to buy my gold watch." "But," said a listener, "where is your gold watch? You are wearing a poor little gun metal thing." "Well," was the reply, "when I found how easily I could get along without shilling luncheons I concluded I could get along with a ten shilling watch instead of a ten pound one. So that the watch fund grew until it purchased for me my own house."—London Mail.

This paint is the old original roof and iron paint placed on the market by us many years ago. It is the pioneer of roof paints, and we are the parents of the roofing paint industry in this country. Through all these years this paint has sold in greater quantities each season, despite the fact that hundreds of imitations, represented to be "just as good" have flooded the country with advertising similar to ours in an attempt to divert our trade.

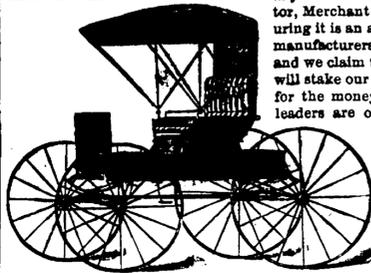

For use on Roofs, Iron or Metal Buildings, or any surface where a thoroughly good paint is required, Hascall's Carbon Paint is unequalled, as time and experience and thousands of imitations prove.

Which Was Shot?

There was a Jere Clemens who was a United States senator and in his day enjoyed the usual senatorial fame—a fame which perishes whether it springs from four years' service or forty. After Jere Clemens' fame as a senator passed away he was still remembered for many years on account of another service which he performed. He shot old John Brown's Governor Wise in the hind leg in a duel. However, I am not very clear about this. It may be that Governor Wise shot him in the hind leg. However, I don't think it is important. I think that the only thing that is really important is that one of them got shot in the hind leg. It would have been better and nobler and more historical and satisfactory if both of them had got shot in the hind leg. But it is of no use for me to try to recollect history. I never had a historical mind. Let it go. Whichever way it happened, I am glad of it, and that is as much enthusiasm as I can get up for a person bearing my name. But I am forgetting the first Clemens, the one that stands farthest back toward the really original first Clemens, which was Adam.—From Mark Twain's Autobiography in North American Review.

"In 1897 I had a stomach disease. Some physicians said Dyspepsia, some Consumption. One said I would not live until spring. For four years I existed on boiled milk, soda biscuits, and doctors' prescriptions. I could not digest anything I ate; then I picked up one of your Almanacs and it happened to be my life saver. I bought a fifty cent bottle of KODOL and the benefit I received from that bottle all the gold in Georgia could not buy. In two months I went back to my work, as a machinist, and in three months I was well and hearty. May you live long and prosper."—C. N. Cornell, Roding, Ga., 1906. The above is only a sample of the great good that is daily done everywhere by Kodol for Dyspepsia. It is here.

The Great Composers.

At what age did the great composers write their masterpieces? This question is answered in the London Musical Times. The following table gives the composer's name, his recognized masterpiece, the age at which it was composed and the composer's age at death.

Bach.....	Mass in H moll.....	48-55
Handel.....	Messiah.....	55-74
Haydn.....	Creation.....	55-77
Mozart.....	Don Giovanni.....	35-35
Beethoven.....	Cello Symphony.....	35-35
Weber.....	Frischhut.....	30-33
Schubert.....	C-dur Symphony.....	31-31
Mendelssohn.....	Elias.....	37-38
Schumann.....	Piano concert.....	31-35
Wagner.....	Meistersinger.....	49-54
Brahms.....	D Requiem.....	32-35

This goes to show that composers between thirty and forty created the greatest masterpieces. Yet the composers above forty should not despair, seeing that Bach composed his mass in H moll at the age of forty-eight, Wagner his "Meistersinger" when fifty, Handel his "Messiah" when fifty-six and Haydn his "Creation" when sixty-five years of age.

The Capture of Jefferson Davis

How Mrs. Davis prevented her husband from escaping in his flight after the fall of the Confederacy is told in Mrs. Avery's book, "Dixie After the War." After leaving Washington, Ga., Mr. Davis had heard that marauders were in pursuit of his wife's cortege, and, turning out of his course, he rode hard across country, found his family, conveyed them beyond the present danger, as he thought, and was about to renew his journey south. The party camped, when he was roused at dawn by his negro servant, who said troops were coming. Mrs. Davis begged her husband to leave. His horses and weapons were near the road down which the cavalry was coming. In the darkness of the tent he caught up what he took to be his raglan, a sleeveless waterproof garment. It was here. She then threw a shawl over his head. He went out of the tent, keeping near "Hank" cried a trooper, leveling a carbine at him. Mr. Davis dropped his wraps and hurried forward. Mrs. Davis saw the carbine, cast her arms about her husband and lost him his one chance of escape, for he might have slipped away in the dark.

Choice of Cow's Milk.

A writer states that where commercial value is the only point at issue a milk must have a high percentage of solids in order to be "good." This is not true, however, where weak digestion is to be dealt with. Skim milk contains nearly all the protein of the whole milk, but after the fat in the cream has been removed the milk loses half its fuel value. What is left, however, has a value equal to that of the whole milk for the building and repair of tissue, for the making of blood and muscle and bone, while it has half the value of the whole milk for supplying heat and muscular power. Buttermilk is practically sour skim milk. Other things being equal, the milk of a cow which gives a large quantity is preferable to that of a cow giving a small quantity. The former is sure to have a rugged constitution, good digestive power, depth of respiration and good physiological traits. A phlegmatic temperament in the animal is desirable.—Medical Record.

A Wesley Anecdote.

It is said that Charles Wesley was sometimes easily annoyed, and on one occasion at a conference he became so irritated at the prolix remarks of a speaker that he said to his brother: "Stop that man's speaking. Let us attend to business." But the offender was relating his religious experience, and, though it was at so great a length, John Wesley evidently thought that no one had a right to interfere with it. He was therefore allowed to continue, but the moment came when Charles could contain himself no longer. "Unless he stops," he whispered to John, "I'll leave the conference." By this time John was enjoying the man's simple story, and he only turned and whispered to some one sitting near: "Reach Charles his hat."

IF CONVICTS ARE NOT KEPT AT WORK WHAT WILL THEY DO?

WARDEN FULLER'S VIEWS

Says the Anti-Prison Labor Clause Will Turn Twenty-Five Hundred Prisoners to Complete Idlers.

Increase Expenses Heavily. Warden Otis Fuller, of the Ionia prison, told the legislative committee that unless the people are allowed to vote out of the constitution this spring the provision relative to prison labor, 2,500 convicts will become idlers. "They cannot even bake their own bread, make their own clothes, or wait on the table at meal times," he said.

Mr. Fuller talked at a joint meeting of the house and senate committees on constitutional revision. The hearing was on the senate resolution submitting to the people the proposition to take out of the constitution that section which prohibits teaching a trade in prisons.

"Under that section, and its construction by the courts," said Fuller, "the only thing we can do with the convicts is to turn our prison yard into an athletic field and develop sprinters, baseball and football players. The great point is that it would increase by a large sum the expense of conquering the prison, and we could not instill habits of industry in the convicts for the purpose of reformation."

Rep. J. J. McCarthy, S. H. Kelley and J. F. Monroe, of the house committee, argued that the matter might better be left to the constitutional convention. That argument is in line with the announced intention not to allow any constitutional amendments to go to the people this spring. Other members of the community, however, have changed their minds, believing that, in this case at least, an emergency exists requiring immediate action. An attempt will be made to push the resolution through within a day or two.

Lumber Camp Burned. William Stauden's lumber camp, 25 miles north of Alpena, and far from a railroad, burned Wednesday night. Seventeen men of the crew nearly lost their lives. All were burned to some extent, and Ted French probably fatally.

Richard Hulk, Albert Stauden, Fred Parr and Francis Hamilton were seriously burned.

The men slept in the second story of a boarding house. The smoke and flames awoke them. They rushed for the windows and jumped. The only woman in camp, Mrs. Albert Stauden, the cook, was pulled from the window, her nightgown on fire. The nearest house is about half a mile away. Without clothing and only two or three wraps, she walked to this house wrapped in blankets. The badly burned were carried by the others.

Fred Parr and Albert Stauden walked to Posen, the nearest town, for a doctor, and then came to Alpena. Nearly all the crew live in Alpena.

Wong Nam. U. S. Immigration Commissioner Chapin has under consideration the case of Quong On Chung, alias Wong Nam, alias Lem Wing, laundryman at Battle Creek, who has been arrested on a charge of unlawful residence in this country. He presents Chinese merchant papers in the name of Wong Nam, but has testified that he did business in Chicago as Quong On Chung. In Battle Creek his laundry sign read "Lem Wing." He claims the privilege of staying here under the Wong Nam papers, but Lee Poy, of Detroit, testified he wasn't Wong Nam. It is a real Chinese puzzle for the commissioner.

Express Killed Him. Charles Dulgan, aged 17, a farmer boy, was struck by a Grand Trunk train while he was walking on the tracks. He stepped from one track to avoid a train coming toward him and evidently did not hear the train on the other track coming behind him. His skull was fractured in two places and his recovery is scarcely possible. The boy had just secured a position in a Port Huron business house and was to leave the farm. The same express train struck a team of horses a few minutes before arriving here, killing them.

Cole Goes Free. Fred Cole, aged 21, who was sent to the Detroit house of correction for 90 days, is now free. Cole is one of the young men who fired four shots at a G. T. R. brakeman when he was put off a train. He pleaded guilty to carrying concealed weapons. When the prisoner reached Detroit in charge of Sheriff Conley, that officer was informed that a prisoner could not be confined in the house of correction for carrying concealed weapons unless sent from Wayne county. Upon returning to Lapeer Cole was liberated.

The loss of her aged husband caused Mrs. Mary Thayer to grieve to death. Two sons, Clifford, of Battle Creek; Glen, of Homer; and one daughter, Mrs. Chapman, of Morenci, survive.

NOT EXPECTED TO LIVE.

In 1878 Mr. C. W. Brown, of Petersburg, N. Y., was cured of Kidney Disease by Dr. David Kennedy's Favorite Remedy. He had suffered agonizingly, was in despair and not expected to live. Mr. Brown is still living in Petersburg in good health, twenty-eight years after he was permanently cured by Favorite Remedy. Dr. David Kennedy's Favorite Remedy has cured thousands in every walk of life. Wonderfully successful for 31 years. Makes permanent cures. Thousands of grateful people sing its praises. Not a "patent" medicine. FREE SAMPLE BOTTLES.

By a special and particular arrangement, free trial bottles of this great medicine for the Kidneys and Liver; dyspepsia and constipation, will be sent absolutely free to all persons sending their full name and post office address to Dr. David Kennedy's Sons, Rondout, N. Y. Mention this paper. Large Bottles \$1.00, at all druggists.

SOME WIVES ARE DIFFERENT.

Quiet Cynicism, or Good Honest Row—Which is the Better?

"Most men," said the man of experience, "think it must be awfully nice to have a wife who takes things as coolly as Dave Potter's wife takes them; but others, more discriminating, prefer a good honest row to her style of quiet cynicism. The way she behaved the other day when she found a letter in Dave's pocket from a girl is an example of her method."

"I don't see," wrote this girl, "how on earth I can ever live without you." Dave's wife read that gush, and a lot more just like it, without ever turning a hair.

"Well," she said, quietly, "that girl is a fool. If she knew you as well as I do she would be wondering how on earth she could ever live with you." "And that, in the opinion of the discriminating few, cuts a whole lot deeper than a common, everyday rum-pus."

Max Nordau's Latest Think. Writing on the decadence of Judaism in France, Dr. Max Nordau has this to say: "How many French Jews still hold religious beliefs? I will not make any guesses as to the number, but it is certainly small. If Judaism is only a religion, then religious indifference will soon put an end to Judaism."

MORE BOXES OF GOLD And Many Greenbacks.

325 boxes of Gold and Greenbacks will be sent to persons who write the most interesting and truthful letters of experience on the following topics:

1. How have you been affected by coffee drinking and by changing from coffee to Postum.
2. Give name and account of one or more coffee drinkers who have been hurt by it and have been induced to quit and use Postum.
3. Do you know any one who has been driven away from Postum because it came to the table weak and characterless at the first trial?
4. Did you set such a person right regarding the easy way to make it clear, black, and with a snappy, rich taste?
5. Have you ever found a better way to make it than to use four heaping teaspoonfuls to the pint of water, let stand on stove until real boiling begins, and beginning at that time when actual boiling starts, boil full 15 minutes more to extract the flavor and food value. (A piece of butter the size of a pea will prevent boiling over.) This contest is confined to those who have used Postum prior to the date of this advertisement.

Be honest and truthful, don't write poetry or fanciful letters, just plain, truthful statements.

Contest will close June 1st, 1907, and no letters received after that date will be admitted. Examinations of letters will be made by three judges, not members of the Postum Cereal Co., Ltd. Their decisions will be fair and final, and a neat little box containing a \$10 gold piece sent to each of the five writers of the most interesting letters, a box containing a \$5 gold piece to each of the 20 next best, a \$2 greenback to each of the 100 next best, and a \$1 greenback to each of the 200 next best, making cash prizes distributed to 325 persons.

Every friend of Postum is urged to write and each letter will be held in high esteem by the company, as an evidence of such friendship, while the little boxes of gold and envelopes of money will reach many modest writers whose plain and sensible letters contain the facts desired, although the sender may have but small faith in winning at the time of writing.

Talk this subject over with your friends and see how many among you can win prizes. It is a good, honest competition and in the best kind of a cause, and costs the competitors absolutely nothing.

Address your letter to the Postum Cereal Co., Ltd., Battle Creek, Mich., writing your own name and address clearly.

"Warfare" in Africa. In the neighborhood of Lake Tchad, Africa, the other day, six negro troopers, commanded by a corporal, armed with carbines only, successfully defended a little mud fort against 500 warlike Taurags, and when the Taurags gave up the attempt and retired, the troopers sallied out and "punished" them.

Proof of Merit. The proof of the merits of a plaster is the cures it effects, and the voluntary testimonials of those who have used Alcock's Plasters during the past sixty years is unimpeachable evidence of their superiority and should convince the most skeptical. Self-praise is no recommendation, but certificates from those who have used them are.

Alcock's are the original and genuine porous plasters and have never been equaled by those who have sought to trade upon their reputation by making plasters with holes in them. Avoid substitutes as you would counterfeit money.

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent family laxative, and as its pure laxative principles, obtained from Senna, known to physicians and the Well-Informed of the world to be the best laxatives, we have adopted the more elaborate name of Syrup of Figs, Senna, as more fully descriptive of the remedy, but doubtless it is called for by the shorter name of Syrup of Figs; and to get its full name, always note, when purchasing, the full name of the Company—California Fig Syrup Company, plainly printed on the front of every package, whether you buy of Figs, or buy the full name, Syrup of Figs and Elixir of Senna, and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name of Syrup of Figs, and has given satisfaction to millions. The genuine is for sale throughout the United States in original packages of one ounce, of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Secretary of Agriculture, at Washington, D. C., and is branded within the meaning of the Food and Drug Act.

NEWS OF THE

SENATOR SMOOT GETS FIFTEEN THOUSAND DOLLARS TO COVER EXPENSES

FAST TRAINS MAY STOP

Increase of Donations to Agricultural Colleges—The Chicago Sub-Treasury Robbery.

Smoot's Expenses Paid.

The senate passed the general deficiency appropriation bill. The bill carries slightly less than \$10,000,000. It was amended by the inclusion of several provisions, aggregating \$200,000, among which was an amendment to reimburse Senator Reed Smoot for expenses incurred by him in defending his right to his seat in the senate \$15,000. The amendment was the only one in the bill which occasioned discussion. Senator McLaurin offered an amendment which provided that the protestants against Senator Smoot should receive an equal amount. When this was laid on the table he proposed that half the amount should go to the protestants.

It was explained that Senator Smoot had paid his attorneys \$20,000 and the amount in the bill would only reimburse him partially for this expenditure.

It was also stated in opposition to the amendment of Mr. McLaurin, that the government had paid the expenses of attending witnesses, making a total of more than \$26,000. Mr. Dubois said the women who protested against Senator Smoot had raised the funds for their attorneys through collections. He had no doubt that if reimbursement the organizations represented would use the funds for good purposes. The second McLaurin amendment was also defeated.

Less Money, Slower Time.

"Because of the adoption of laws compelling the railroads to carry passengers for two cents a mile in the states of Ohio and Indiana, the 18-hour trains operated by the Pennsylvania and New York Central railroad companies between New York and Chicago may be withdrawn. There is a bill before the Illinois legislature fixing the same mileage rate, and if this becomes a law the highest fare possible for the railroads to charge will be \$18.24 for a single trip between New York and Chicago. Under an operating agreement, the two companies charge the same fare on their fastest trains. It is now fixed at \$30 and in addition the traveler is compelled to purchase a Pullman ticket, for which \$5 is charged.

More School Money.

President Snyder, of the Michigan Agricultural college, and sundry other presidents of agricultural schools about the country, were in Washington a few days ago to get an increase to the annual sum donated by the federal government for the support of colleges of that kind, and today they scored a victory. The house committee on agriculture, the chairman of which is Mr. Wadsworth, of New York, had declined to agree to the raise, but Senator Nelson, of Minnesota, put it in as an amendment, and when the bill came back to the house that body overthrew Wadsworth and adopted it. The colleges now receive \$30,000 a year and this new law will give them an increase of \$5,000 each year until the annual sum reaches \$50,000.

But the minister preached too long, and my enthusiasm began to drop about \$25 a drop till there was nothing left for the poor heathen, and by the time he was through and the collection was taken up I stole ten cents off the plate."—Southwestern's book.

WHAT WESTERN CANADA DOES

Satisfactory Yields of Wheat and Good Prices

By W. H. Hoosier, Canadian Government Agent, Indianapolis, Ind.

When you were at our place in July I promised to write you what my wheat harvest was like. You will remember it was all sown to wheat. When I finished threshing yesterday and received from it an average of 48 1/2 bushels per acre—testing 64 1/2 pounds per struck bushel. The wheat is the best sample I have ever raised—so uniform and even in size. You may know it was a good sample when I tell you that I have already sold 2,000 bushels of it for seed to my neighbors. This year has been my best effort in farming during my life. My wheat totaled 5,280 bushels and my oats nearly 5,000.

If you remember I pointed out to you a half section lying just west of our house and joining my upper quarter on the south, which I said I should have in order to make one of the best farms in western Canada. I am very glad to be able to tell you that I now own that half section. My ambition now is to be able to market 20,000 bushels of wheat next year. If some of those good, honest Hoosiers could have been with me during the last two weeks and could have seen the golden grain rushing down the spout into my wagon and then could have seen it in great piles in my granaries, I feel sure they would have been forced to acknowledge there is no better farming country in the world than this. I may just say that I have done all my farming with eight head of horses and one hired man except during harvest and threshing. This year I proved to my neighbor that the Hoosiers, when once "woken up," can raise grain equal to the best Minnesota farmers. His best yield was 42 1/2 bushels per acre, so you see "old Indiana" is holding its ribbon this year.

Yours very truly,
N. E. BAUMANN

How to Sleep in a Blanket.

There are a great many blankets and patent treatments telling you how to build your fire, pitch your tent, and all the rest of it. I have never seen described the woodman's method of using a blanket, however. Lie flat on your back. Spread the blanket over you. Now raise your legs right from the hips, the blanket, of course, slipping over them. In two swift motions, tuck first one edge under your legs from right to left, then the second edge, under from left to right, and over the first edge. Lower your legs, wrap up your shoulders and go to sleep. If you roll over one edge will unwind but the other will tighten. Stewart Edward White is "Outing."

Admiral Stettin's Status.

A German journalist visiting in Washington, himself a man of stately proportions, was rather inclined to look with something like contempt on the many under-sized statesmen he saw in the national legislature. But when Secretary Taft bore down upon him he gasped in wonder. They were introduced and after a short chat the secretary departed. Just as he disappeared from the German's admiring gaze the towering form of Congressman Sulloway bore into view. The German looked at the New Hampshire man long and earnestly. "He is bigger than any man in his imperial majesty's Uhlan guards," said the foreigner in a tone of chagrin, "and I shall write one whole letter about him."

The Real Ruler.

The duchess of Roxburgh, who was Miss May Golet of New York, has taken up the prevalent craze to collect animals and she is building a miniature zoo at Floors castle. In fact, the duchess, a masterful little lady, has everything she wants. One of the duke's tenants, wishing some concession, went to the castle and told his errand to an old retainer, adding that he would like to see the master in person. "Eh, man," retorted the aged servant, who is not entirely reconciled to the new order of affairs, "there is only one master in this house these times and that's no' the duke. Ye should see the duchess."

TIRED AND SICK YET MUST WORK

"Man may work from sun to sun but woman's work is never done."

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo and often suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these women that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, comes as a blessing. When the spirits are depressed, the head and back aches, there are dragging-down pains, nervousness, sleeplessness, and reluctance to go anywhere, these are only symptoms which unless heeded, are soon followed by the worst forms of Female Complaints.

Lydia E. Pinkham's Vegetable Compound

keeps the feminine organism in a strong and healthy condition. It cures Inflammation, Ulceration, displacements, and organic troubles. In preparing for child-birth and to carry women safely through the Change of Life it is most efficient.

Mrs. Augustus Lyon, of East Earl, Pa., writes:—Dear Mrs. Pinkham:—"For a long time I suffered from female troubles and had all kinds of aches and pains in the lower part of back and sides, I could not sleep and had no appetite. Since taking Lydia E. Pinkham's Vegetable Compound and following the advice which you gave me I feel like a new woman and I cannot praise your medicine too highly."

Mrs. Pinkham's Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case. Her advice is free and always helpful.

Al Fresco

The weather did not prevent a good attendance at the poverty party held by the Al Fresco club at Will Dunbars last Friday evening, March 1. Everyone was dressed as they thought would best represent a person in poverty and it is needless to mention that there were some good representations. The meeting was called to order by the president; after the reading of the secretary's report, those who indulged in extravagance of dress were brought before the judge and compelled to pay a small fine according to the degree of the offence. A short program was rendered, which consisted of a recitation by the president, Glen Gardner, which was appreciated; a vocal solo by Miss Mae Kennedy was encored; a recitation "Widow C's Beau," by Miss Mary Kirkland was heartily applauded. Will Dunbar then favored the club with several selections on his phone before refreshments were served. Each gentleman was given an opportunity to try his ability at the millinery work. Albert Dinkle was awarded first prize.

A new game entitled "Programme Conversation" was played and proved to be very interesting. The next meeting will be held at the home of Mrs. Wm. Dunbar.

Resolutions

WHEREAS, our Heavenly Father has in his infinite wisdom removed from us one of our esteemed Companions, Mrs. Annie Bladen, therefore be it

RESOLVED, that the removal of such a life leaves a vacancy and shadow that will be deeply felt by all, and will prove a serious loss to her family.

RESOLVED, that with our deep sympathy for the family of the deceased, we express our hope that even so great a loss may be over-ruled for good by Him who doeth all things well. Therefore be it

RESOLVED, that our charter be draped in mourning for a period of thirty days, a copy of these resolutions be placed on the records of this organization, a copy printed in the Pinckney DISPATCH and a copy be forwarded to the bereaved family.
