PINCKNEY PUBLIC SCHOOLS

Opened Tuesday with Flattering Prospects.

The school year opened here Tuesday with the promise of a very successful year. For various reasons the board had been in no hurry to engage teachers to fill the vacancies but are satisfied that the ones engaged are fully competent to keep the standard up to its best and elevate it if possible. The following is the corps of teachers which with the exception of Miss Green of the Primary department, are all new teachers in our village, while all come well recommended and have had experience:

SUPERINTENDANT.

N. J. Robinson of Lake Side, Berrien Co., is a graduate of the State Normal at Ypsilanti and has had eight years experience in the schools of the state.

PRINCIPAL.

Miss H. Esther Crawford, of Port Huron is a graduate of Mt. Holyoke Seminary of Mass., which, by the way, is the 3rd oldest institution of the kind in the United States. Miss Crawford is able to teach four languages as well as any of the other branches and comes well recommended.

GRAMMAR.

Miss Jessie Dean, of Fowlerville, is one of the successful teachers of this county, having taught several years near Fowlerville.

INTERMEDIATE.

Miss Joe Devereaux of this place is a graduate of our own school, has taught several years successfully in this vicinity and personally needs no introduction to our people as her life has been spent near here.

PRIMARY.

Miss Jessie Green, who has taught in this same department for many years needs no introduction. She is one of the progressive teachers and not only has she taught here but during the first few years teaching she took up the extra work and graduated with one of the classes from the school where she was teaching.

With the above corps of excellent talent, we speak for a very successful year in our school and it only remains for the patrons to give the teachers their full support and it may be the best year the school has ever seen. We believe the teachers will do their part—will you do yours?

There were 100 enrolled in all divisions as follows:

High School,	29
Grammar,	22
Intermediate,	20
Primary,	29

From Ex-President Keaney.

Jackson, Nebr., Sept. 1st, 1908

Friend Andrews:—

Been so busy since reaching home, that had no chance to thank everybody for the good times of Old Home Week. Personally speaking, my visit goes down as the best and happiest in Pinckney. I believe that each visitor enjoyed the reunion, and while the attendance could have been larger (especially so had the 'near-bys' come) the enthusiasm and pleasure was all one could ask.

I feel confident that the 1911 meeting will greatly exceed all others, in interest and attendance. The Old Home Week sentiment, is steadily growing throughout the land, and should be fostered. It simply means keeping the good old town on the map of our affections, and with it, the friends of "Auld Lang Zyne"

Let me make a suggestion, that will relieve the Pinckney ladies from a part of the stewing and brewing and cooking for the crowd of relatives and visitors that swarm down upon them. Have the three churches unite in having one or more large dining halls, run not for profit but for common good, where three meals can be served throughout the reunion at about cost—say 10c per meal. In this manner, most of the food could be bought, the labor be divided and made easy for everybody and all, residents and visitors, eat at the dining halls, spend less time in cooking and more in visiting. I sincerely hope that something of this kind will be evolved before 1911, to lessen the work for the home ladies.

Again, my sincere thanks to all who helped make the last reunion a success and my visit, a most pleasant one.

Very truly yours,
Ex-President.

Paint it Now

If your house needs painting, paint it now—this fall—with THE SHERWIN-WILLIAMS PAINT. Here are some of the reasons why you should do so.

1. The weather is settled and you don't have to contend with the spring rains.
2. You will protect it against the winter's snows and storms.
3. You will avoid the annoyance of gnats, flies, and other insects sticking to the surface.
4. There is likely to be less moisture in it now than any other time; moisture is what often causes blistering, cracking, and
5. like troubles.
6. S. W. P. costs less by the job than any other paint because it wears longest, covers most, looks best, and is most economical.
7. S. W. P. is best because it's made from best materials—pure lead, pure zinc, and pure linseed oil. It always satisfies; never goes wrong if rightly used.
