ANDERSON
 J. Stackable and wife of Gregory were Sunday guests at the home of Gene McClell. Sydney Sprout was home over Sunday. Ralph Plummer of Parkers Corners spent last week with relatives here. Mary Graiser and Clara Ledwidge were callers at the Schrotsberger home Sunday. George Crane and Bob Edward attended the dance at Unadilla Friday night. Mrs. Gene McClell and children of Ypellanti are spending the Easter vacation at their home here. Percy Hinckley of Perry spent part of last week with his brother here. M. J. Roche is testing three of his cows, assisted by Mrs. Daggarhorn of Peaton. Clara Ledwidge spent a portion of last week in Kalamazoo. Katie Connors of the State Sanitarium in Howell visited at the home of Fred Wylie the first of the week.

Men's suits at \$18.50 at Danco's, Stockbridge. They are special values. adv.
 As the Pinckney opera house Friday evening Mon. Fred W. Corbett will talk on woman suffrage.
 The ladies spring coats at Danco's, Stockbridge, are beautiful and wonderful values too. \$6. to \$25. adv.
 Green separate ballots are to be voted Monday. They are the state tickets. The township tickets, the equal suffrage amendment, initiative on constitutional amendments, initiative on county government, and the Green's platform.

Business Men's Asso.

The second meeting of the Pinckney Business Men's Asso. was held in the Masonic Hall Tuesday evening, April 1. A sumptuous repast was served by the Ladies of the Cong'l. church. The meeting was called to order by the Pres., G. W. Teeple. The by-laws and regulations of the asso. were read and discussed and a committee appointed to revise same in time for the next meeting. The meetings will now be held the first Wednesday of every month. The sec'y was instructed to write the officials of the Grand Trunk Railroad requesting them to see if electric lights cannot be installed in the Pinckney depot. Committee were then appointed to arrange for a Fourth of July celebration as follows:
 Com. on Arrangements: R. W. Caverly, R. Clinton, Thos. Rose
 Com. on Sports: Ross Read, Paul Miller, H. D. McDougal
 Finance Com.: E. E. Hoyt, Will Dunbar, Leo Monks
 After the business was transacted the Cong'l Ladies were given a vote of thanks for the fine supper.

To The Subscribers of The Liv. Mutual Tel. Co.

The new directories which will be mailed to subscribers before April 8 will contain the names of all subscribers in Livingston county, both "Home and Bell." Mutual subscribers will be able to get connections with "Home" subscribers throughout the county. Subscribers will please note that the Company has adopted a ringing code, numbers for calling in place of long and short rings and it has been necessary to change some of the rings on party lines in order to use this code. All subscribers will please look up their numbers that they may familiarize themselves with the rings by which they will be called, before the change takes place. Give the number to the operator in the order printed, thus: Five-six, Ring Three-Two, which will be translated by the operator as line 56, Ring 3 long 2 short, the first figure representing the long ring and the second the short. All subscribers must call by number as the operator will not be allowed to put up any connection without. No directory will be in the hands of the operator. No line must be held longer than (5) five minutes. F. H. Lare, Mgr.

School Notes

Jacob, Viola and Albert Mack entered school last week. Ambrose Murphy spelled the grammar school down in a spelling contest Friday afternoon. Roy Bullis entered the primary room and Lucile Bullis the intermediate room this week. Donald Poole of Leslie is visiting his sister Georgia Pool. Bernadine Lynch visited school Wednesday afternoon. Lucile McQuillan visited school Thursday. April Fool jokes were the fashion Tuesday. Edna and Dorothy Darrow are absent on account of sickness. The Senior class received their announcement parts Friday.

SOUTH MARION.

Will Docking is quite sick at this writing. O. Farley and Emmet Fitzsimmons visited at the home of Mrs. Thos. Fitzsimmons last Sunday. Guy Blair and wife were Gregory visitors last Monday. Madeline Moran of Pinckney visited Luella Brogan last Sunday. Percy Daley was a Pinckney visitor last Sunday. Mr. Giffney of Lake City, who bought the Wirt Smith farm at Chubb's Corners about a year ago, is nicely located there now.

J. CHURCH

J. Church, graduate optometrist will be in Pinckney Friday April 4.
 For fire insurance, see Monks Bros. boys suits, \$8. to \$22., at Danco's, Stockbridge.
 Soda Fountain now open. Full line of soft drinks. Meyer's Drug Store.
 Filistoft & Reed have disposed of Ford automobiles to Messrs. E. E. Frost and H. Hotel.
 The Juniors of the Pinckney High School will give a dance at the opera house Friday evening, April 4.
 The Ladies Aid of the M. E. church will serve dinner and supper in their rooms under the opera house, Monday, April 7th.
 A complete line of Northrup, King & Co. and D. M. Ferry & Co. pkg. seeds, also Inshell Bulk Seeds at Monks Bros.
 The ladies of the Cong'l. church will serve dinner and supper, election day, Monday, April 7th, at their hall in the Cadwell block.
 Special communication of Livingston Lodge No. 76, F. A. A. M., Tuesday evening, April 8th. Work in the F. C. degree. J. E. Martin, W. M.
 Lewis Colby died at the home of Jacob Bowers Friday morning, March 29. Funeral services were held Sunday at 2 p. m. at Cong'l. church, Rev. Ripon, officiating. Interment in Pinckney cemetery.

WOMEN SEEK DEATH

INDIANA LIFE SAVER TELLS A GRAPHIC STORY OF THE FLOOD AT PERU.

HE FERRIED MANY TO SAFETY

Thrown into Water Several Times by Despairing and Frenzied Passengers—Paddled Three Miles Through the Tree Tops.

Plymouth, Ind.—Graphic description of the horrors of the flood at Peru, Ind., was given by Gilbert Kessler, one of the heroes of the calamity. Weary, tired eyed and almost unnerved from the loss of sleep and the sights he had witnessed, young Kessler, a muscular product of a northern Indiana farm, staggered from a relief train from the stricken city at Plymouth. Here he recounted the terrors of the inky nights when the Wabash river drowned the piercing cries of the frantic and the groans of the perishing. To board the relief train Kessler had paddled three miles in a boat through the protruding tree-tops and debris that momentarily threatened to wreck him.

Crazed Woman Leaps to Death.
Kessler's most vivid picture was the suicide of several fear crazed women, who leaped from the rescue boats. The roaring current and the terrible sights, he declared, had maddened them.

"It was too awful ever to forget," said Kessler with a shudder. "It was cold and damp and misty, and the sight of that black water rushing on pitilessly just seemed to take the heart out of most of us, especially the women.

"Night and day you could hear the shrieks of the women. And the conduct of some of them! I was piloting one of the rescue boats to our landing, the court house, and the boat was pretty well filled. One of our passengers was a woman.

"We were moving rather shakily through one of the main streets when all of a sudden I saw this woman rise from her seat and begin to wail: 'Oh, what is the use! We'll all be drowned anyway,' and she plunged from her seat into the torrent.

Tossed Overboard; Regains Boat.
"The next moment I found myself in the water. I saw a little arm stick up for a moment. I made a grab for it, but it went down. There was no chance to swim in that Niagara. I struck the stern of our rowboat and seized it with one hand. Then I gradually drew myself aboard.

"I picked up one of our oarsmen a little later. He was still alive. "But the circumstances considered, you could scarcely blame the woman. A great many of them, though, suffered with a stoicism that had to be admired.

"Then again, I had a similar occurrence. We were bringing another boatload to the court house when a woman lunged out despairingly and all of us went over. Again it was a fight and I managed to save myself. Four times, altogether, I was thrown out into that muddy stream and I am still wondering how I managed to escape.

"The current swept around street corners with tremendous force and only the most experienced oarsmen could propel those craft with any degree of safety. One of the life savers from Michigan City took too wide a turn and they all landed in the tree-tops."

"Were as many lives lost in the capsizing of boats as in the flood itself?" he was asked.

"Yes, but the boats were not to blame, because it required great experience to handle a boat in that current," he answered. "We had 200 boats, but there was so much loss of life that finally the women refused absolutely to enter the boats. They preferred to stick to roofs and second floors."

Bursting of Dam Described.
Kessler then gave a description of the flood on the first night.

"It was 7:30 p. m. when the water burst upon the city," he said. "A temporary dam had been constructed by the lighting company and because of the threatened condition of the Wabash plans were made to break a hole in the dam and let the water out gradually. Instead the dam gave out and the water came with a roar.

"Families had just finished supper when the fire whistle sounded. Simultaneously all lights went out. People ran out to see what had happened and soon cries of anguish were heard. In the rain and darkness you could not see the water until it was almost upon you. I felt it swishing about my ankles and ran for my girl cousin. When I got to her house I was waist deep in water. Cries, shrieks and the reports of revolvers rent the air. Swifter, swifter ran the water. My cousin and I were almost swept off our feet. Above the din I could hear: 'To the courthouse! To the courthouse!' Half swimming, half floundering, we reached there.

"We found thousands of men, women and children. Families were separated. Women were crying for their children, men for their wives and wives for their husbands.

Roar of Circus Beasts Terrible.
"Then came the roaring of lions and the neighing of horses. We realized in a moment that the Wallace circus, which has winter quarters at Peru, had been engulfed.

"The lions and other animals were in cages and died in the trap, roaring until the water swallowed them.

"But not so the elephants. These huge beasts tore and lashed their stakes until some of them got away. Several boats saw them trudging and swimming, roaring and lashing their trumpets in the stream. That was the last we saw of them.

"While the work of rescue was going on a great glare lit the sky. We saw that the Miami County Lumber company was ablaze. The reflection in the sky and on the water gave new terror to the refugees in the courthouse, but it aided the relief parties in their work.

"The next day I saw bodies in the water. One sight wrung my heart. I saw a couple go floating by—a husband and his wife—locked in each other's arms. For fear they might be separated they had bound themselves together with cord.

Babe Torn From Mother.
"Another time a woman in our boat was carrying her baby when the boat was brushed through the tree tops and the branches tore the baby from her arms. It disappeared in the water.

"A towerman on one of the railroads that overlooked the Wabash river said he had counted more than 200 bodies as they were swept into the river and toward the south. If that is true, the death list will be larger because nobody has heard from the lowest or south side of the city, where 1,000 people lived."

Plight of Youngstown.
Chicago.—J. M. Goodnight, a resident of Youngstown, O., arrived in Chicago over the Lake Shore.

"Youngstown is under eight feet of water," he declared. "The Mahoning river has risen ten feet higher than it ever attained. Its two wagon bridges have been washed away and the railroad bridges are abandoned. The last train over them threatened to collapse the structure. The water-works and electric lighting plants have given out. Youngstown supplies natural gas to the surrounding territory. This plant was feeble when I left and probably has cut off light from the territory by this time.

"Most of the inhabitants succeeded in reaching high ground out of the reach of the water. Youngstown is built on a series of ridges. Between these dozens of people swam to safety. Others were lost in the swift current. Near Ashtabula, looking out of the car window, I saw a family attempting to get into a boat from the attic window of their home. The boat overturned as the train rolled away."

Die in Last Embrace.
When the residence of W. D. Axline at Tiffin, O., was picked up by the flood and started careening down the river, watchers saw Axline and his wife standing in the window of the second story. Her head was pillowed on his shoulder. The cries of the wife could be heard above the rushing water.

Axline patted his wife on the back and kissed her. A moment later the house crashed into the Baltimore & Ohio bridge. It was splintered like a bundle of sticks. With their arms about each other, husband and wife disappeared beneath the raging waters.

When the home of Jacob Kenecht was swept away Mrs. Kenecht and her five children were in the dwelling. Kenecht was outside. When he was picked up by the current he grabbed the limb of a tree. He held on for fifteen minutes. Rescuers attempted to throw him a line. Each time the wildly running water held the rope within a few inches of his outstretched arms.

Finally, exhausted and numbed by the cold, Kenecht gave up the fight against death. "Thanks, good-by, boys, I'm—" his last words were swallowed by the water that engulfed him.

"Sailor Jack" is a Hero.
Until Monday morning, "Sailor Jack" Willis was an inconspicuous character in Columbus. Today he is the city's hero. He took charge of the rescue work. The life-saving baskets and cables were made and operated under his orders. By stretching cables to a water-surrounded house, the occupants, one by one, were brought to places of safety. "Sailor Jack" personally saved ten people. And after sixty hours of work, with no rest, he dropped exhausted. A movement has already been started to obtain for him a Carnegie medal.

Four women, two of whom were Mrs. A. W. Knott and daughter, were rescued from the roof of a barn on Water street by telephone linemen, who clung to the tops of the poles and swung lines to the women. The four were hauled to safety, hand over hand.

Practical Fashions

CHILDREN'S CREEPING APRON.

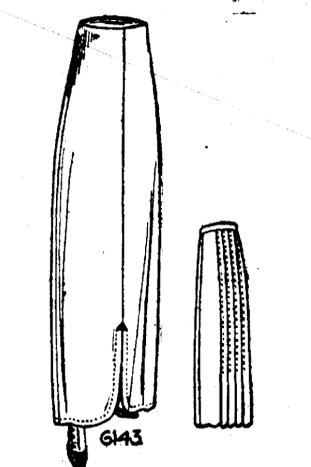

This pattern provides for a creeping apron for a baby and also for a plain sack apron for the older tot. The creeping apron is gathered at the knees. The sack apron has belt at back and turn down collar.

The pattern (6137) is cut in sizes 1/2 to 3 years and requires for creeping apron 3 1/2 yards of 27 inch goods and for sack apron 1 1/2 yards of 27 inch material.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

Mountain Fever.
Miss Dora Keene was talking at a tea at the Acorn club in Philadelphia, about mountaineers' enthusiasm.

"The frenzy to get higher, higher, higher," she said, "is quite incredible to those who have done no mountaineering.

"There's a story, doubtless true, about a girl who climbed the Schreckhorn, a difficult rock-scramble. When the summit was reached the head guide, wiping his brow, panted: 'Well, here we are, men, up on the top at last.'

"But the girl said, fretfully: 'Oh, guide, can't we go any higher?'"

"Not unless you climb this alpenstock, miss," the guide answered, thrusting it into the frozen snow."

Simple Remedy for Burns.
Common whitening, mixed with water to the consistency of a thick cream spread on linen, forms an excellent local application to burns and scalds. The whole burnt surface should be covered, thus excluding the action of the air. The ease it affords is instantaneous, and it only requires to be kept moist by occasional sprinkling of cold water.

ALL SAVE LABOR IN KITCHEN

Little Helps That Will Leave the Housewife Less Tired When Day's Work is Ended.

A shelf back of the kitchen table on which to place cups, spoons and small vessels that are used frequently, the wash basin, within reach of the roller towel, a drinking cup near the water pail, all save needless exertion and time that may be utilized for something else or rest.

The very best stove holder can be made of an old stocking by cutting off the foot at the ankle and folding it into the leg, fastening it well as it is folded over and over until it is the square shape of the common ironing holder. A brass ring in one corner is a great convenience for hanging and such a holder can be laundered.

In the sewing room, patterns should have their place of quick and easy access and if each one is marked it will often prove a blessing. A bag fastened on the lower part of the sewing machine for scraps will likewise be a comfort, and sharp scissors and a work table are absolute necessities.

OLD BREAKFAST TABLE DISH

Spanish Omelet, When Properly Made, Deserves All the Popularity it Has Attained.

Cut four ounces of bacon in very thin slices and then into one-half inch squares. Fry gently until crisp, then add one small onion, a medium sized tomato and five mushrooms, all chopped rather fine. Rub a freshly cut clove of garlic upon the spoon for stirring while cooking 15 minutes. Meanwhile break six eggs into a bowl, season with a saltspoonful of salt, one-fourth saltspoonful of white pepper. Give them a dozen good strokes and turn into a perfectly smooth frying pan, in which a teaspoonful of butter has been melted, and well spread. Do not stir, but shake constantly until the omelet is nearly set. Spread the bacon and vegetables quickly over the omelet, fold over and set it in the oven for about one minute. Then slip it upon a hot platter and serve at once.

Our Cook Says

That in filling a cake pan it is well to remember that the center of the cake is the part which will be the highest. If the batter is spread as much to the sides as possible, leaving a depression in the center, then the cake when baked will be level.

That a cheap and durable toaster for a gas stove is a piece of sheet iron. Over this is a five-cent fire toaster can be used without danger of burning or blackening the bread.

That when baking or scalloping potatoes, chops can be baked in a pan in the oven, steak broiled underneath or pudding or pie cooked at the same time. It saves gas.

Warm Slaw.

Select a nice solid head of winter cabbage and cut it up very fine. Put into a hot frying pan a piece of butter, the size of a walnut, and when melted put in the cabbage with a very little water; let it simmer till well done. Then beat up one egg very light and stir in slowly; lastly, add one-half cup of sour cream; salt and pepper to suit the taste. Another method for "hot slaw" is to simply make a boiled dressing of two egg yolks, two tablespoons of sugar, two tablespoons of sour cream, one cup of vinegar, and a rounded teaspoonful of butter, and pour this over the finely-cut cabbage.

Rice Pudding With Fig Sauce.

Press hot boiled rice into buttered cups; then slip out on a hot dish and pour the sauce over. Look carefully over the figs to be used; place them in a pan and cover with cold water; cook until tender; chop very fine and press through a coarse sieve. To this pulp add the juice of one-half lemon and sugar if not sufficiently sweet.

To Restore a Faded Carpet.

To revive the colors in faded carpet which is still good for further wear. Take half a pail of warm water and add to it either a handful of salt or a half cup of turpentine, or half a cup of vinegar, or a good-sized lump of alum, or on dark colors, four table-spoonfuls of ammonia, any of which helps to brighten the colors. Wring out a flannel cloth and wipe off the whole surface of the carpet without really wetting it through, and let it dry thoroughly before using.

To Clean Satin Shoe.

Take a piece of flannel and dip it into spirits of wine, rub the satin the way of the nap; turn the flannel as it gets soiled. Any light color may be cleaned this way. White satin shoes should always be kept in blue paper, or the satin gets discolored.

When to Buy Shoes.

To get comfortable fitting shoes, buy them late in the afternoon, when the exercise of the day has spread the muscles of the feet to their largest extent.

CONSTIPATION

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not grip; they do not weaken; but they start all the secretions of the liver and stomach in a way that puts these organs in a healthy condition and corrects constipation.

Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

Appreciation Coming.

"You'll never realize your husband's true value until he has gone," counseled Mrs. Goodman. "I know it," replied Mrs. Nagg. "His life is insured."—Cincinnati Enquirer.

Good for Small Towns.

A few big shoe manufacturers are fighting us because we have always refused to give them better terms than we give to the small manufacturer.

The little fellows stand with us because we treat all manufacturers alike, no matter how many machines they use. Hence, competition in the shoe business and prosperous factories in small towns!

Write us and we will tell you all about it.

The United Shoe Machinery Co., Boston, Mass.—Adv.

The Result.

English Friend—That gown you have on is ripping!
American Duchess—Then I am undone!

Mrs. Winslow's Soothing Syrup for Children's teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Natural Supply.

"What's the use of all the sand on the seashore?"
"That's what they scour the seas with."

It Depends.

"Do you favor the open door policy?"
"Not if I am on the warm side."

Now Is The Time

THE DEAREST BABY

Mrs. Wilkes' Fondest Hopes Realized—Health, Happiness and Baby.

Plattsburg, Miss.—"Lydia E. Pinkham's Vegetable Compound has proved very beneficial to me, for now I am well and have a sweet, healthy baby, and our home is happy."

"I was an invalid from nervous prostration, indigestion and female troubles."

"I think I suffered every pain a woman could before I began taking Lydia E. Pinkham's Vegetable Compound, and I think it saved this baby's life, as I lost my first one."

"My health has been very good ever since, and I praise your medicine to all my friends."—Mrs. VERA WILKES, R. F. D. No. 1, Plattsburg, Miss.

The darkest days of husband and wife are when they come to look forward to a childless and lonely old age.

Many a wife has found herself incapable of motherhood owing to some derangement of the feminine system, often curable by the proper remedies.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Between Women's Health or Suffering

The main reason why so many women suffer greatly at times is because of a run-down condition. Debility, poor circulation show in headaches, languor, nervousness and worry.

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World) are the safest, surest, most convenient and most economical remedy. They clear the system of poisons, purify the blood, relieve suffering and ensure such good health and strength that all the bodily organs work naturally and properly. In actions, feelings and looks, thousands of women have proved that Beecham's Pills

Make All The Difference
Sold everywhere. In boxes, 10c, 25c.
Women will find the directions with every box very valuable.

RESINOL STOPS SKIN TROUBLES

If you have eczema, ringworm, or other itching, burning, unsightly skin or scalp eruption, try Resinol Ointment and Resinol Soap, and see how quickly the itching stops and the trouble disappears, even in severe and stubborn cases. Pimples, blackheads and red, sore, blotchy faces and hands speedily yield to Resinol.

Resinol Ointment and Resinol Soap heal skin humors, sores, boils, burns, scalds, cold-sores, chafings and piles. Prescribed by physicians for eighteen years. All druggists sell Resinol Soap (25c) and Resinol Ointment (50c and \$1). Sent by parcel post on receipt of price. For sample of each write to Dept. 6-K, Resinol Chem. Co., Baltimore, Md.

A Square Deal Assured.

DOWN LOW

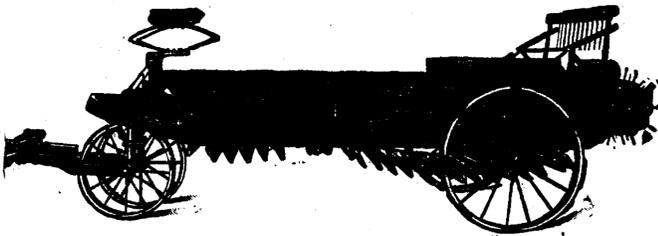

THE LITCHFIELD DOWN-LOW Spreader gives a Low Top Rail—about waist high, which makes it extremely easy to load. A man in handling the ordinary pitchfork, raises the load on the fork waist high in order that he may throw it from him. This means that it would be useless to make a lower top rail than what we build, as there would be no advantage in loading.

OUR MACHINE LOADS easily from any direction—the seat turns over out of the way in front and is just as easy to load onto this machine as it is to throw it in another pile on the ground.

DON'T FORGET. The Self-Cleaning apron, No-Choke box, Bull Dog cylinder and Oil Packed main bearings are exclusive Litchfield Features. You will look for them in vain on any other spreader.

High Under Clearance

A PECULIAR FACT. The Litchfield Down-Low has substantially the same Under Clearance that our High Standard machines have. We use the same size wheels—the axles are the same distance from the ground. This gives us from sixteen to eighteen inches of general clearance under the machine, and same clearance under the front axle that we have always had in the high machines. Just compare this with the eight or ten inches clearance found under other low down spreaders.

DON'T MAKE THE MISTAKE of buying a Sled when you pay your money for a manure spreader. Any machine soon becomes a sled in muddy and rough ground if it does not have sufficient under clearance. Like everything else, the tendency toward low down manure spreaders has gone in most cases a little to far and this is a serious objection—Too Close To The Ground.

Short Wheel Base

WE MOUNT OUR SPREADERS on the rear wheels so that these traction wheels take a sufficient proportion of the load and have sufficient traction to properly operate the unloading machinery. We get away from the heavy draft that is a part of all long coupled wagons and spreaders. We turn in a shorter circle and in a smaller place and our machine has much more activity and is much stronger and more substantial than a machine that is hung between the front and the rear wheels instead of being mounted on the rear axle. This means light draft, strength, durability and convenience.

We have samples of the Litchfield and New Idea Manure Spreaders for inspection and will take pleasure in showing and will make better terms than you can get elsewhere.

SOUTH IOSCO.

Wm. Caskey and wife of Anderson visited relatives here over Sunday. Mrs. Geo. Harford returned home Saturday morning after visiting relatives in Detroit. Nick Burley and family spent Sunday at the home of W. S. Caskey. The Misses Lamborne spent Saturday and Sunday with Mr. and Mrs. Joe Roberts and family. Millie VanKeuren is assisting Mrs. Arthur Mitchell with her housework at present. Wednesday, March 26, at 11 o'clock at the home of the brides parents, Mr. and Mrs. W. S. Caskey, occurred the marriage of their youngest daughter, Miss Elva, to Martin Anderson. The ceremony was performed by Rev. McCallum of Webberville, in the presence of a few relatives and friends. The bride was beautifully attired in a white messaline gown and the groom wore a suit of navy blue serge. After congratulations were offered, all partook of a bountiful wedding dinner. The bridal party left on the three o'clock train for Gowen. Mr. and Mrs. Anderson will be at home to their many friends on the farm of the brides parents after April 4, 1913.

Green Oak township will vote to bond at the April election in the sum of \$5,000 to be used in the building of bridges over the Haron river.

SOUTH GREGORY.

Mr. Ferren and family of Detroit have moved into Tom Stones house. L. R. Williams and wife visited at Parkers Corner, Friday and Saturday. Desbie Whitehead and son, Chas., were in Stockbridge Saturday. C. I. Williams and sister visited Olin Marshall and family last Thursday. Harrison Bate's children with the exception of Lester were home Sunday. Ray Cobb and wife of Stockbridge were home Monday. The Williamsville school is out for a week. Harry Bowen visited the Whitehead boys Saturday.

Coughs and Consumption

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough and I honestly believe had it not been for Dr. King's New Discovery she would not be living today." Known for forty three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by C. G. Meyer, the druggist.

NORTH HAMBURG.

The Ladies Aid will meet at the home of Jes. Nash Tuesday, April 4 for dinner. Mrs. M. A. Davis is gaining. The North Hamburg Sunday School will have election of officers next Sunday. Lee VanHorn was home from school last week with the measles. Miss Lulu Benham who has been in Howell returned home Tuesday. Mrs. S. VanHoe was in Howell last week caring for her son who had the measles.

Pains in the Stomach

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston of Raleigh N.C., who suffered with a pain in the stomach and back writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man." It will improve you, too. Only 50c and \$1.00. Recommended by W. G. Meyer.

WEST MARION.

The Farmer's Club meeting held at H. Norton's Thursday was well attended. A lady from Kentucky spoke on woman suffrage. There was a good attendance. Born to Mr. and Mrs. Byron Wellman, Friday, March 24, a ten pound boy. Clarence Smith has the measles. Bettie Collins is having trouble with her neck and ear caused by measles. Byron White was quite sick last week but is on the gain now. Walter Collins has hired out to John Gardner.

For Burns, Bruises and Sprains

The quickest and surest cure for burns, bruises, boils, sores, inflammation and all skin diseases is Bucklen's Arnica Salve. In four days it cured L. H. Hafin of Fredin, Texas, of a sore on his ankle which pained him so he could hardly walk. Should be in every house. Only 25c Recommended by W G Meyer

How Michigan Farmers Are Successfully Fighting Live Stock Diseases

If you are not doing something to rid your farm animals of the deadly stomach and intestinal worms you are simply *Letting Down the Bars* to hog cholera and all the other fatal diseases which have cost the farmers of this country over fifty millions of dollars the past year. YOU can't afford to run this risk. YOU can't afford not to take preventive measures. The best way of preventing these deadly plagues from getting a foothold among your stock is to keep every animal *worm free* and in the best possible condition.

Worms are the cause of 90 per cent of live stock losses. Thousands of Michigan farmers have learned this fact and by effectually striking at the cause have successfully won their fight. They have found "an ounce of prevention is better than a pound of cure." Read how they have stopped the loss and improved the value of their live stock.

"I have fed SAL-VET to all my sheep, hogs and pigs, and also to some of my work horses that was not in condition. The horses have rounded out splendidly; my sheep never looked so well at this time of the year and my hogs and spring pigs are in the best of health. I have always been slow to feed any of the stock foods or medicines, believing that good feeding and ordinary conditions ought to keep stock in good health, but I am well satisfied with the results obtained from SAL-VET. It has certainly improved to a marked degree, the condition of my stock." — W. H. BOHANTZ, Supt. Sheep Dept. Michigan Agricultural Society, Hastings, Mich.

"We keep SAL-VET accessible to our sheep all the time and have found it very effective in keeping out worms, and the sheep in a generally healthy condition. We have also found it an excellent conditioner and worm cleaner for horses. Our experience is that of many of the best farmers in this locality." — A. A. WOOD & SONS, Per Hovee & Wood, Saline, Mich.

"Our horses are free from worms, and look stock when getting them SAL-VET. I feed it just as I do salt—just keep it before them constantly." — FRED MANKER, R. 2, White Cloud, Michigan.

"Having thoroughly tried your 'SAL-VET,' I have found it to be exactly as you say it is. I feed it to hogs and colts and never had better results in my life. Many hogs in the neighborhood died of cholera. I have had no trouble here." — JOHN H. LEVENDECKER, R. 65, Byron Center, Mich.

"My SAL-VET is all gone, and as common salt does not begin to take its place, I want you to send me another keg at once. I am sure that \$5.00 worth of SAL-VET saves me \$10.00 worth of feed. All my sheep, cows and horses are doing remarkably well. My experience has been that SAL-VET and worms cannot dwell together." — L. A. BONTAGER, Fairview, Mich.

The Great Worm Destroyer and Live Stock Conditioner

Look Out for These Danger Signs

Coughing, rough coats, laggard steps, poor appetites and dull eyes. These are the common symptoms of worm infection and should disease break out in your neighborhood the chances are a hundred to one against you, and your entire herds may be swept away with a suddenness that will appall you. You can greatly lessen this danger from disease if not altogether avoid these heavy losses simply by letting your stock run to "Sal-Vet"—the cheapest and greatest worm destroyer as well as the best preventive of live stock diseases.

"Sal-Vet" is a medicated salt which works a wonderful change in all live stock. It first destroys and expels the deadly worms and gives nature a chance to put every animal you own in a healthy, vigorous condition. It is the best stock insurance you can get because it costs so little and does so much. For one-twelfth of a cent a day any hog or sheep can run to it freely and will doctor themselves. It costs only a trifle more for larger animals and requires no mixing, no dosing, no drenching, no starving—no bother at all. I prove all this or no pay.

Here is My Money-Back Trial Offer

Simply call at my "Sal-Vet" dealer's store and get enough "Sal-Vet" to last all your stock 60 days. Take it home with you and place it where all your farm animals can run to it freely. Then watch results. If "Sal-Vet" does not do what I claim—if it don't rid your stock of the deadly stomach and intestinal worms and prove entirely satisfactory TO YOU, simply notify the dealer and he will refund your money in full. You won't be out a single penny. I take all the risk. Remember, you get ALL your money back if you are not pleased. You certainly can't afford to risk the loss of a single animal when such a fair, square, liberal offer like this is made to you. You know your dealer—he accepts your word as to the results. You take no risk whatever.

SIDNEY R. FEIL, Pres., The S. R. Feil Co., Cleveland, Ohio

To Our Patrons: Get rid of the worms in your stock and watch your profits grow. "Sal-Vet" is giving wonderful satisfaction to our customers. We carry it in stock and will gladly arrange to let any farmer in this vicinity try it 60 days on Mr. Feil's liberal money-back offer. Come in and get a supply the next time you come to town. We guarantee "Sal-Vet" and back up every statement in this advertisement. You take no risk. You'll find it the cheapest stock conditioner you ever used.

SCENE ON THE MIAMI AT DAYTON

This is a scene on the raging Miami river at Dayton, O., where hundreds of lives have been lost in the floods.

WATERS RECEDING IN FLOOD AND PESTILENCE IS NOW FOUGHT

WARMER WEATHER HELPS TO CHEER THE CHILLED AND HOMELESS SURVIVORS IN OHIO AND INDIANA.

RELIEF TRAINS COMING IN FROM EVERYWHERE WITH FOOD AND SUPPLIES.

Martial Law Is Maintained—Ohio River On Rampage, Drives Thousands From Homes in Valley But Loss of Life Is Small Owing to Ample Warning.

Latest investigations tend to confirm the estimates of fewer than 500 deaths in the floods that swept over a score of cities in Ohio and Indiana last week.

As the waters receded from Dayton, Columbus and other places, leaving a thick coating of mud, alarm was caused by a rapid rise of the Ohio and the Mississippi rivers, inundating parts of cities along their banks.

There is not much danger of loss of life in these places, however, as the inhabitants have hills to flee to and are used to floods.

Revised reports indicate that the number drowned in Dayton may not exceed 150. The death list at Piqua, Ohio, fell from the estimate of 50 to 13 known dead.

Sanitary experts from the United States public health service are ordered to Dayton by Secretary of War Garrison to protect city from pestilence. The water has receded in Dayton and rescuers in some sections use canoes and flat bottomed boats, while in other sections relief squads wade.

People throughout country are urged by Dayton relief committee not to send messages of inquiry, as they cannot be delivered because the wire capacity is taxed to the utmost by official and public business.

Brookville, Indiana, is practically under martial law and 20 men have been driven out of the city after looting damaged homes and buildings. Two hundred and fifty children rescued from the flood have only night clothes and wagon trains carried food and clothing from Connorsville to the stricken people.

The work of rehabilitation began at Dayton and other flooded cities as the work of rescue approached its end. The all important weather showed improvement as viewed by refugees, for it was warmer and pleasant to frost and water-chilled bones. Sanitary experts accepted the rise in temperature with mixed feelings, for the cold had retarded decomposition of animal matter and refuse.

Members of the citizens' relief committee at Dayton, are apprehensive of a water famine. It is believed there is little chance that the present supply can be made to last until the water mains are in use again. R. H. Grant, head of the relief supplies committee, issued an appeal to all cities in the country, asking that as much bottled water as possible be shipped to Dayton immediately. It is especially desired that this water be strictly pure, as it is practically impossible to

boil the water for drinking purposes.

Medical supplies were reported woefully short. Drug stocks were largely destroyed, and the chests of the militia, as well as supplies sent by other cities, have in many instances been delayed by washouts and other mishaps of the flood.

Access to Dayton is now comparatively easy and relief trains are arriving nearly every hour with food, clothing, medical supplies, physicians, and Red Cross nurses.

No city even in war times was ever under stricter martial law. The provost guard sounds the curfew at 8 o'clock. With it all passes are revoked automatically and none permitted on the street. The sleep of the exhausted stricken was interrupted continually by the boom of guns. Despite the drastic military measures many attempted to pass the lines and looters were busy. The militia had orders to shoot to kill after one warning and the continual crash of the muskets was evidence that the warnings would not stop the marauders.

With nearly 15,000 persons in the towns along the Kentucky side of the Ohio river driven from their homes by the rising yellow tide sweeping down the Ohio valley, and with more than 3,500 homes altogether or partly submerged, the flood situation in that vicinity is assuming graver proportions at Cincinnati, the water front buildings are all partly under water and much damage has been done.

One life has been lost as a direct result of the high water here. Miss Anna Smith, the first victim drowned, lost her life in an attempt to reach Newport in a skiff that capsized in mid-stream. Her three men companions were rescued.

Newport and Covington, virtually are surrounded by water. Conditions there are worse than elsewhere and nearly 10,000 persons have been driven from their homes.

Relief measures, however, are adequate. In these two cities the only fear is that health conditions would be seriously affected because of the clogging of the sewage system and the stagnation of backwater. As yet the water works have continued in operation. The electric light plants already have had to cease, but gas plants are not interrupted.

In the Kentucky towns of Dayton, Ludlow, Bellevue and Bromley, identical conditions exist, but in their cases all communication with Cincinnati, Newport, and Covington has been suspended.

MICHIGAN BREVITIES

Ann Arbor.—Wednesday, June 25, alumni day of commencement week, is the day selected for the dedication of the Hill Memorial building at the University of Michigan. Senator Charles Townsend will deliver the principal address. This building will be accepted on behalf of the state. It is said to be the finest building of its kind on any American university campus. The auditorium will seat 5,100. The building was made possible through a bequest to the university of \$200,000 by the late regent, Arthur Hill of Saginaw. President Hutchins has also selected a commencement day orator, President Vincent, of the University of Minnesota.

Ann Arbor.—Dr. H. H. Cummings, assistant to Dr. Reuben Peterson, was appointed university physician by the board of regents and Dr. Elsie S. Pratt of Denver, Colo., was appointed physician to the women. Four "master" degrees were granted, three masters of art, as follows: Robert Clark of Ann Arbor, Helen Parry, Ann Arbor; Robert Smith, Durand and master of civil engineering, Ralph Goodrich, Ann Arbor.

Monroe.—Unable to pass over the Waterloo dam, the River Raisin took to the old bed of Minnow brook. Willow and Vine streets for a distance of five blocks are inundated to a depth of half a foot and residents are purchasing rubber boots. The river, however, is believed to have reached its highest stage, and no great danger appears to be imminent.

Jackson.—John Sierminski, charged with killing his fourteen month-old baby by beating it, through an interpreter, pleaded guilty when arraigned in circuit court. After he had pleaded guilty the court held an interview with the prisoner, but owing to his conflicting statements, another interview will be held before sentence is pronounced.

Escanaba.—While attempting to board a moving train Andrew Johnson, lumberman, fell beneath the wheels and both legs were amputated above the ankles. He lies in a critical condition in a local hospital.

Flint.—A. M. Lyons, seventy is dead as a result of injuries sustained in a D. U. R. wreck at Ortonville three years ago. He was a retired music teacher.

Petoskey.—Two boys brought here from Alanson, believed to be the Cone brothers, slayers of John Thrush at Buckley, were released.

Grand Rapids.—Divorce from the bride with whom he eloped to Detroit several years ago, is given by relatives as the reason for the suicide here of Thomas G. O'Donnell, Jr., thirty, former deputy city clerk. He swallowed carbolic acid. O'Donnell, while attending a local business university, fell in love with Miss Kathleen Boland. They eloped to Detroit and were married in the Griswold hotel. She recently divorced him. He formerly was a clerk in the state land office at Lansing. He was the son of Thomas G. O'Donnell, formerly heavyweight pugilist of Michigan and also a nephew of Sheriff Edward O'Donnell.

Hastings.—State Railroad Commissioner C. L. Glasgow of Nashville, and former State Senator W. W. Potter of Hastings, were speakers at the annual banquet of the Knights of Pythias here. Glasgow lauding the purposes of the order and Potter relating its history. The banquet was followed by dancing.

Bay City.—George Strevel, twenty years old, son of Dr. George Strevel, a veterinary surgeon of Beaver township, is suffering from serious burns and his father's home and the barn and an automobile were destroyed as a result of an explosion of gasoline. The Strevels were preparing to go to church. George, after putting on a heavy fur coat, went to the barn to start the automobile. He was forced to "prime" the carburetor. The next time he attempted to crank the machine the explosion occurred.

Hastings.—Following drunkenness among boys in Nashville Mrs. Martha Kaiser, a middle-aged woman whose husband operates a cider mill in Nashville, is accused of illegally selling hard cider and maintaining a place of sale. She gave bonds for her appearance for examination.

Pontiac.—The home of Representative A. G. Griggs, in Bloomfield Highlands, was visited by burglars during the absence of the family and robbed of money and jewelry.

OH! MY BACK!

A stubborn backache that hangs on, week after week, is cause to suspect kidney trouble, for when the kidneys are inflamed and swollen, bending the back brings a sharp twinge that almost takes the breath away.

It's hard to work and just as hard to rest or sleep. Doan's Kidney Pills revive sluggish kidneys—relieve congested, aching kidneys. The proof is an amazing collection of backache testimonials.

AN INDIANA CASE

H. B. Beckwith, 633 S. Meridian St., Portland, Ind., says: "My back ached terribly, my hands and feet were badly swollen, I had terrible headaches and morning sickness. I was so bad I had to get out of bed on my hands and knees. Doctors without success until I began taking Doan's Kidney Pills. I improved steadily and before long was entirely cured."

Get Doan's at Any Store, 50c a Box
DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., Buffalo, New York

SAD PREDICAMENT.

"I have come to ask your daughter's wing."

"Alas! Mr. Drake, I'm afraid you will have to wait until some new ones grow in. The farmer clipped our wings this morning."

Profound Criticism.

Kin Hubbard, the Indiana humorist—one of them, that is to say—once was assigned to cover a performance of "Uncle Tom's Cabin." Hubbard had his brain-child, old "Abe Martin," report the play. This was the critique: "Uncle Tom's Cabin" played down t' Melodeon hall las' night. Th' dogs was good, but they had poor support."—Everybody's Magazine.

Lamentable Ignorance.

Mrs. Kaller—Cooks are such ignorant things, nowadays. Mrs. Justwed—Aren't they? They can't do the simplest things. I asked mine to make some sweetbreads the other day and she said she couldn't.—McCall's Magazine.

For Curling Feathers.

To curl a feather that has become damaged with rain or dew sprinkle it thickly with common salt and shake before a bright fire until dry, when you will find it as good as new.

But it isn't every high flyer who reaches the top.

FLY TO PIECES.

The Effect of Coffee on Highly Organized People.

"I have been a coffee user for years, and about two years ago got into a very serious condition of dyspepsia and indigestion. It seemed to me I would fly to pieces. I was so nervous that at the least noise I was distressed, and many times could not straighten myself up because of the pain."

Tea is just as injurious, because it contains caffeine, the same drug found in coffee.

"My physician told me I must not eat any heavy or strong food, and ordered a diet, giving me some medicine. I followed directions carefully, but kept on using coffee and did not get any better."

"Last winter my husband, who was away on business, had Postum served to him in the family where he boarded. He liked it so well that when he came home he brought some with him. We began using it and I found it most excellent."

"While I drank it my stomach never bothered me in the least, and I got over my nervous troubles. When the Postum was gone we returned to coffee, then my stomach began to hurt me as before, and the nervous conditions came on again."

"That showed me exactly what was the cause of the whole trouble, so I quit drinking coffee altogether and kept on using Postum. The old troubles left again and have never returned."

"There's a reason," and it is explained in the little book, "The Road to Wellville, in pills."

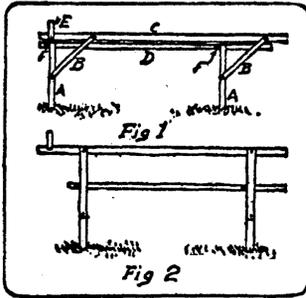

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

USEFUL RACK LIFTERS

Automatic Unloader That Any One Can Easily Work.

Illustrations and Description of Contrivance That Will Be Found Advantageous on Any Farm—Racks Will Not Slip.

I have an automatic unloader for heavy hay racks and other wagon bodies that any one can operate who knows how to drive a team, writes F. Hathaway of Fort Smith, Ark., in the Farmers Mail and Breeze. Fig. 1 shows one section of the frame as it appears before unloading while Fig. 2 shows the position of the frame with the rack on it. The posts A are 4 by 4's set firmly into the ground. These posts should be set about 6 1/2 feet apart crosswise. The length and height of the frames depend on the racks used. BB are the lifting braces which must be well made and secure-

How Lifter Does its Work.

ly bolted to the posts, yet not so tight as to hinder them from moving freely in loading or unloading a rack. The pieces C are 2 by 6's bolted to the lifting braces. At their forward ends two short pieces of 2 by 4's (E) are bolted that strike against the rack as it is being driven between the frames, thus bringing up the lifting frames and raising the rack off the wagon. Two crosspieces of 2 by 4's (D) are bolted lengthwise to the posts to give the frames rigidity. Two blocks (F) are bolted at the forward ends of D to stop the forward movement of the lifting frame. These are placed a little past the center so as to lock the frame while up. Two pawls notched at one end are bolted underneath the rack frame with the notched ends against the rear bolster of the wagon. This prevents the rack slipping back as it rises from the wagon.

STAPLE FOOD FOR CHICKENS

Hens Cannot Give Best Results When Fed Grain Alone—Fowls Demand Variety of Feed.

Grain is the staple food for poultry, and will be used for that purpose as long as fowls are kept on farms, but hens cannot give good results on grain alone. It is beneficial to them and will be at all times relished, but the demands of the hens are such as to call for a variety. In the shells of eggs as well as their composition are several forms of mineral matter and nitrogen, which can only be partially obtained from grain.

Even grains vary in composition, and when fowls are fed on one kind for a long time they will begin to refuse it, as they may be oversupplied with the elements of the food partaken and lack the elements that are best supplied from some other source. For this reason they will accept a change of food, which is of itself an evidence that the best results from hens can only be obtained by a variety of food. Corn and wheat may be used as food with advantage, but must be given as a portion of the ration and not made exclusive articles of diet.

Fighting Ringworm.

Ringworm is a contagious disease due to a fungus. Man, horses and cattle are commonly affected, and it is easily transmitted from one animal to another. The affection first asserts itself as a ringlike patch, with the hair broken off. The usual location is on the skin around the eyebrows, or muzzle, scattering from there over different parts of the body. Treatment is sometimes easy, more often difficult to completely eradicate. All brushes and utensils in contact with infected animals should be sterilized. Wash the patch with soap and water, and apply tincture of iodine or lard and salicylic acid, six part to one of salicylic acid.

Good Combs and Brushes.

Are your curry combs and brushes in good condition? You just can't afford to use poor ones. New ones cost but little.

Swine for Breeding.

When the pure-bred swine are kept for breeding purposes they should be given every opportunity for bone and muscle development rather than production of fat.

HOW TO PREVENT OAT SMUT

Grain Should Be Treated With Formalin Solution in Morning and Drilled in Same Day.

To prevent oat smut, the grain should be treated with formalin. It takes about one ounce of formalin for every five bushels of grain to be treated.

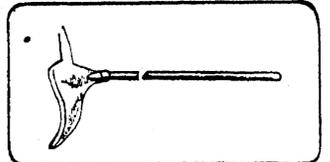

Clean a space on the barn floor and thoroughly sprinkle it with the formalin solution before spreading the seed grain. The oats should be run through the fanning mill twice to remove all light grain, as only heavy clean seed should be sown. Spread down the seed grain, then sprinkle the grain with the formalin solution made as follows: Formalin, one ounce; water, two and one-half gallons; mix thoroughly. The solution can be applied with a fine rose watering pot; shovel the grain over so that every seed is coated with the solution. When all the grain is coated, shovel the grain into a round pile and cover with sacks for not more than two or three hours, then spread out, and as soon as the oats will not stick together it is fit to sow or drill. The grain should be treated in the morning and drilled in the same day. The drill should be set to drill two and one-fourth to two and one-half bushels to the acre, as the oats, having absorbed considerable water are larger than dry oats. Have the ground thoroughly mellowed; drill the oats in with 250 pounds to the acre of some good bone fertilizer. Even if the ground is in good order, it will pay to use the fertilizer. The fertilizer will ripen the grain early, the straw will stand up stiff and cannot be blown down by summer storms and the yield will be increased fully 10 to 12 bushels per acre.

FOR CUTTING PRICKLY PEAR

Implement Invented by Texas Man for Quickly Clearing Land for the Purpose of Cultivation.

In describing an implement intended for cutting and handling prickly pear, invented by R. H. Brown of San Antonio, Tex., the Scientific American says:

This invention pertains to implements for clearing the ground for purposes of cultivation, the object being to provide an implement which may be easily and quickly handled for the

Prickly Pear Implement.

purpose of cutting and handling prickly pear. Broadly, the improvement consists in the provision of an implement which embodies a handle and a transversely elongated head at one end of the handle, having an outer cutting edge and an engaging prong or tine extending from one side thereof.

Most Serious Problem.

Infectious abortion among cattle has become one of the most serious problems for cattle owners so far as infectious diseases are concerned. It is well entitled to rank in importance with tuberculosis, hog cholera, and Texas fever. Two new medical treatments have recently appeared, either one of which may possibly prove to be of very great importance. One, abortin, is used like tuberculin, as a diagnostic; and the other is a vaccine, which it is hoped will immunize heifers against the infection. There is not sufficient reliable information available as yet, upon which to justify any definite statement. Breeders should keep these things in mind and watch for future developments.

Value of Education.

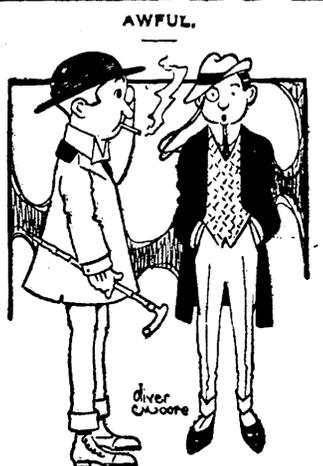

The question is often asked, "Of how much value is school training to farmers from a business standpoint?" A recent agricultural survey of several townships of Tompkins county, New York, made by the College of Agriculture of Cornell University has revealed many interesting and suggestive facts bearing upon rural sociology. To quote from the summary: "The survey shows that a high school education is worth as much to a farmer as \$6,000 worth of 5 per cent. bonds. A college education is worth nearly twice as much."

Good Milk Records.

It is worthy of notice that within 12 months the Ayrshire Breeders' Association had three cows qualify for advanced registry with records of over 20,000 pounds of milk each, and this, too, under widely different conditions, two from the favorable locality of the state of Washington and one from the hills of Vermont.

Cost of Production.

Cut the cost of production by using machinery wherever you can.

AWFUL.
"I don't remember what I ate, but I had an awful dream."
"What was it, old chap?"
"I dreamed my valet went away without lacing my shoes."

No Little Girl for Him.
The six-year-old son of a well-known Indianapolis family attends a dancing school. He is a chubby little fellow who has not begun to stretch out yet, and he keenly feels his "shortage." He demands that he be recognized as a little "grownup." Several days ago the teacher planned to instruct her pupils in dancing "the Butterfly." A five-year-old girl who is small for her age, and just a trifle stouter than our hero, but an adept at dancing, was assigned as his partner. He gazed at her in silence. Then he took hold of her hand and, with his mouth set firmly, walked straight over the teacher.
"Don't you think you'd better give me a bigger girl?" he asked.—Indianapolis News.

Stringent Austrian Building Laws.
Austrian laws require that dwellings and business houses be built of solid materials from interior to exterior. Building regulations in Austria are very strict and are rigidly enforced. Interior walls there are chiefly of plaster and concrete, but bricks and laths are much used.

After Material.
Editor—"Why do you persist in coming here? I tell you I don't buy fiction." Author—"Oh, I don't wish to sell any of my stories. I am writing a short serial, entitled 'The Ugliest Man on Earth,' and came in merely to obtain local color."

Olds Engine Husking Corn

WE'LL help you get the kind of an engine you ought to have, if you'll let us. That's what we're here for—not merely to sell you goods for the sake of the sale, but to sell you something that is going to satisfy you whether it's an engine or anything else.

The engine you'll be best satisfied with in the long run—the one that will do your work as you want it done for a long time is the Olds Engine—that's the kind we have here—but you don't have to take our word for it; we'll show you that it's the best engine for you.

If you can't find time to come in and see us, ask us to come and see you or send you a free catalog of Olds engines.

Maybe we can please you with a husker, too.

We're here to serve you; give us the chance.

A. H. FLINTOFT,

LOLEYS HONEY-TAR Compound

For Sale by **W. E. Brown**

Attention, Voters

Pinckney, March 31
Editor of Dispatch,
Pinckney, Mich.

Dear Sir:—
Through the columns of your paper I wish to explain to each and every voter of Putnam township, the present existing condition of the roads throughout this township.

First—The township money during the past two years has all been expending on a mile or two of highway, making it the most perfect road in the township. To further this point.—If a farmer living on the southwest line of the boundaries of Putnam wishes to haul a load of wood or wheat to town he cannot do it with the best team in the county. Take a look at the roads in the central and north part. There are a number of bridges within the radius of Putnam which are now and have been in a dangerous condition for years.

It is up to you Mr. Voter to look out for your own interests and to see to it that a Board is elected that will so plan the outlay of the money that two or three roads will not receive all the benefits and more than that, the township is now in debt on the state roads built last year. From said roads the minority and not the majority are receiving the benefit.

There will be another big tax this year, but I would not fault whatever if every taxpayer would share their just proportion of the taxes, but such is not the case. Too much local money in the form of bonds and commercial stock escapes taxation, which causes the largest proportion of the taxes to fall on the small farmer who has only 40 or a 100 acres to his credit. He pays from \$25.00 to \$118.00 every year for taxes. As a result, a farmer told me the other day that it took everything he could sell except \$2.00 to pay his taxes this year. I wish to ask you Mr. Voter, is this justice?

The Postmaster General has issued orders to postmasters to discontinue all mail routes where the roads are in an impassible condition.

Now Mr. Voter and Mr. Taxpayer don't you think that right now is the time to begin that improvement? Let us band together and elect a Township Board with Commissioner that will go forth and repair ALL the roads in the Spring as the law justly requires.
Very truly yours,
H. B. GARDNER.

A large stock of latest patterns in Wall Paper, just received. Prices from 10c to 40c. Meyer's Drug Store.

Signs of Spring

Convey a warning that certain ailments—general debility, dyspepsia, skin diseases, rheumatism, liver complaints, etc., need attention. There isn't anything better for a blood purifier than our

Richfield's Blood Purifier

Nothing secret or mysterious about it—simply Sarsaparilla, Iodide of Potassium, Dandelion, Stillingia, etc.—drugs you perhaps know something about, and which are recommended by all medical works and physicians. Then it is honestly and carefully made of the best drugs—like everything else that we make—and we give you a bigger bottle than you usually get, and charge but \$1.00 for it.

'THE CENTRAL'

Have you seen the finest line of millinery goods ever brought to Pinckney? If not, call at The Central and ask to see them. We have hats from \$1. up, so if you want a cheap street hat, no fear but we can furnish it for you. Of course, we have to hire a trimmer, but then we have one that can be depended on and coming right from the city she is on to all the latest kinks of fashion and you will find that no two hats in our shop are trimmed the same; in that way you need have no fear of someone else coming out in a hat exactly like yours unless some other shop duplicates us. No hats are factory trimmed.

Our dry goods line is as complete as it is possible to keep it; we may owing to illness, not be able to keep our stock up as well as formerly, but we are doing the best we can and hope to soon be able to fill in all vacant lines. You will find our goods fresh and new, and as cheap as anyone else can sell the same kind of goods.

Don't forget that we carry a full line of groceries. We want your butter and eggs and will pay you as much or more than anyone else, and we promise you a fair deal always.

Yours for trade,

MRS. C. W. KRAUS

Now and here—not then and there—lies your opportunity. The Ford product has been multiplied by two-and-a-half—but the demand has been multiplied by four. If you want one for Spring service you must get it now. Don't delay.

There are more than 220,000 Fords on the world's highway—the best possible testimony to their unexcelled worth. Prices—runabout \$525—touring car \$600—town car \$800 f. o. b. Detroit with complete equipment. Catalogue from
