## A Gold Medal

A gold medal to the boy or girl between the ages of 10 and 15 years who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Waller Page, Office of Public Roads, U. S. Department of Agriculture, Washington, D. C. All compositions must be submitted to Mr. Page before May 15th, 1913, and the medal will be awarded as soon thereafter as the composition can be graded. The composition may be based on knowledge gained from books or other sources; but no quotations should be made. Only one side of the paper must be written upon and each page should be numbered; the name, age and address of the writer, and the name and location of the school which she or he is attending must be plainly written at the top of the first page.

After many years experience in dealing with the public road situation of the country, it is Mr. Page's belief that ignorance on the subject of repair and maintenance of roads is as much the cause of their bad condition as any one factor. It is expected that the competition will bring about a better understanding of the subject of repair and maintenance in the rural districts.

Many children living in the rural districts have experienced the disadvantage of roads made impassible thru a lack of maintenance and it's expected that their interest in the competition will stimulate greater interest among the parents. Bad roads have prevented many children from obtaining a proper education and have even prevented doctors from reaching the side of rural patients in time to save their lives.

## For Cheaper Fuel

We respectfully commend for consideration by the Democratic party the problem of cheaper fuel for gasoline engines. The price of gasoline has reached a point where other fuel will have to be considered.

It has been demonstrated that denatured alcohol can be manufactured at a profit to sell at about 10 cents, but the government restrictions placed upon it makes it impossible as a competitor of gasoline until they are removed.

The gas engine is becoming of almost universal use on the farm as well as in the city and some effort should be made to reduce the fuel proposition and the problem should be considered along with the tariff reduction.—Fowler Review.

## New Meat Market

A. E. Steadman desires to announce that he has opened a meat market in the basement of the hotel and is now prepared to furnish all kinds of fresh meats at reasonable prices.

## Will Visit Pinckney

I will again return to Pinckney next Monday, April 28. I do not use the old fashioned method of hanging a chart on the wall and placing lens before your eyes which is practically compelling you to select your own glasses and fit yourself. I use the new modern methods such as are used by the best oculists in the cities. I have optical instruments which enable me to take an accurate test. At hotel parlors next Monday, April 28.

Dr. LeRoy Lewis, Expert Ann Arbor Optician. Graduate of 3 schools. 30 years experience.

# AGAINST THE SATURDAY HOLIDAY

GOV. FERRIS THINKS SCHOOLS SHOULD BE OPEN SIX DAYS IN WEEK.

MASTER PRINTERS LISTEN TO STATE OFFICIALS.

Commissioner Powers Holds State is Unjust to Tax Property to Educate Professions and Not Trades.

Gov. Ferris, speaking at Kalamazoo before the Michigan Printers' cost congress, made a strong plea for education of all classes and all ages, for the father, mother, son and daughter. He averred that public schools should be kept open six days in the week, that education is too much needed to warrant the closing of schools for any day except Sunday, and added that open schools on Sunday are far better than other breakers of the Sabbath often allowed.

The printers were told by Labor Commissioner Perry F. Powers in an address that the state was unjust when it taxed property to educate lawyers, doctors and dentists, but not plumbers, printers and other tradesmen. Powers in his remarks dealt to a very great extent on labor conditions in the state.

## Engineer Pinned Under Engine.

Pinned under the locomotive when passenger train No. 8 on the Duluth South Shore & Atlantic railway ran into a washout and was wrecked near Saxon, Wis., Engineer Thomas McNulty, of Marquette, drowned in the water of the ditch into which his engine plunged.

The train was bound from Duluth to the Soo. All the cars were derailed and the locomotive was injured and McNulty was the only victim among the trainmen.

## Co-Eds Put Out a Fire

Fire of unknown origin broke out in South hall of Adrain college, the ladies' dormitory, and for a time threatened the whole building. Credit for extinguishing the flames is due the matron, Mrs. Tague, who ordered the girls to bring pails from their rooms and form a "bucket brigade." The fire was under control when the men, from the North hall and the city fire department arrived.

## To Stock Waters With Fish

As soon as the weather permits Supt. Harry Marks of the state fish hatchery will plant 30,000,000 trout and whitefish in Lakes Superior, Huron and Michigan and the inland streams and lakes of the upper peninsula. This is the largest planting since the spring of 1909, when 34,000,000 fish were planted.

## Insane Woman Kills Husband.

Illius Kuusisto, aged 54, was killed at Calumet by his wife with an ax. It is believed the woman was insane. This was her second attempt. Last fall the woman beat her husband on the head with an ax, inflicting what was believed then fatal wounds, including a fracture at the base of the skull, but he recovered.

## To Dedicate Butt Monument

A monument to Major Archibald W. Butt, military aide to President Roosevelt and Taft, and who was lost when the Titanic sank almost a year ago, will be dedicated May 30 in Arlington National cemetery.

Eugene C. Dana, 69, fraternal correspondent of the Grand Lodge, Knights of Pythias of Michigan, is dead. He was formerly in the newspaper business at Niles.

Frank Mierzewski, a teamster, is the second man to have been crushed to death under the wheels of a truck within 24 hours, at Grand Rapids. The first was Delmer J. Everett.

Dr. W. Dudley Powers, for 10 years, rector of St. Paul's Episcopal church, at Flint, has tendered his resignation, to take effect Sept. 1. Dr. Powers is ill in New York at present.

Prosecuting Attorney Bishop established a precedent when he succeeded in persuading the supervisors of Genesee to appropriate money with which to add to his law library.

To fulfill the terms of its franchise, the Commonwealth Power Co. will build its next Au Sable river dam near Mts. beginning sometime this summer. Two dams, Cooke's and Five Channels, are in operation, and one at Blue Jee will be finished in June.

# MICHIGAN NEWS IN BRIEF

Two hundred and forty-one pupils will be graduated from the Grand Rapids schools in June.

The 3-year-old child of Mrs. George Bennett, a widow, of Evart, was fatally burned while playing near a bonfire.

A new hypochlorate system has been installed in the east side water works plant, of Bay City, to prevent typhoid fever.

Eugene R. Cole, editor and publisher of Dogdom, a monthly magazine of nation-wide circulation, died at Battle Creek from pulmonary troubles.

The creamery at Parma, was destroyed by a fire of unknown origin, with a loss of \$10,000. There was \$5,000 insurance on the property.

Congressman-at-large Kelley has nominated Ray Lewis, of Houghton, a candidate for the entrance examination to West Point Military academy.

Ex-Mayor DeKruiter, of Petoskey, 68, is dead. He was born in Holland, coming to the United States when 4 years old. He was mayor of the city in 1908, previous to that time alderman.

R. F. Frary, 65 years old, was instantly killed at McCumbers' Crossing, about one mile east of Lansing, by a westbound Grand Trunk passenger train.

Mrs. Noah Bryant, 77, of Kalamazoo, is dead. Her husband started the paper industry in Michigan and was for years head of the Bryant Paper company.

The Wolverton house, in Bay City, built in 1852, oldest hotel in Michigan outside of Detroit, is being demolished to make way for a modern office building.

State progressive headquarters will be removed from Owosso to Detroit soon, and Secretary Charles F. Hoffman, whose home is in Owosso, will move to Detroit.

Work will begin shortly on the Genesee county roads, according to the plan voted last year. Gravel has been hauled from Linden for 10 miles north toward Flint.

The three-year-old son of Mrs. Joseph Wallace, of Calumet, died from burns received when his clothing caught fire as it sat in a high chair near the kitchen range.

The Alma Game and Fish club has been organized for the promotion of better hunting and fishing in Gratiot county. The state game department has agreed to assist the club.

The charter amendments committee of the Saginaw council has decided to submit at a special election the matter of bonding to bring Saclaw bay water to that city, a distance of about 20 miles.

The Dort plan charter for Flint was submitted to Gov. Ferris. The charter will be subjected to a referendum vote at a special election. It embodies a modified form of commission government.

George Goheen, 8 years old, was almost instantly killed when he climbed into the pig pen on his father's farm near Butman and tried to pull a shotgun after him. The charge pierced his neck.

The sale of \$100,000 more bonds has been requested of the board of supervisors of Genesee county by the road commissioners, who have laid out plans for improving 100 miles of road this year.

Farmers of Genesee county are crying for help and as a result Ward H. Farker, the agricultural expert recently hired to teach scientific farming, has opened an employment bureau in his office here.

Mayor Cotton, of Grand Haven, in his annual message to the new city council urged the election of a charter commission to draft a new city charter, the present one being considered inadequate.

The supervisors passed a resolution declaring unjust the system pursued by the state tax commissioners in arriving at the equalization of property in Genesee county and asking for a review before May 10.

Passenger train No. 4, southbound, on the Grand Rapids & Indiana was derailed half a mile north of Tustin. One mail clerk was injured to the extent of several broken ribs, and a baggageman less seriously hurt.

Owosso lodge of Eagles decided to erect a new \$20,000 home. This lodge was the first in the state to own its own home. The residence now occupied by the lodge is too small to accommodate the 600 members. The new home will be a two-story brick.

The past winter's cut of timber in Ontonagon county, the center of the logging operations in the upper peninsula, is estimated at 150,000,000 feet. This cut is believed the largest ever recorded in any one season in the district, and is evidence that lumbering is still an important industry in Michigan's north county.

# POPULAR ALICE BLUE

ONE OF THE MOST ATTRACTIVE OF SEASON'S PARTY GOWNS.

Original and Distinctive, the Costume Adds to the Natural Grace and Beauty of the Wearer—Follows New Ideas in Lines.

All at once everyone wants Alice blue in gowns and millinery. It is no wonder when one sees how well it looks developed in party gown in visiting costumes and in afternoon toilettes. Here is an example of Alice blue silk muslin made according to a late model. It is admirable because it will do duty for a party gown or for dress occasions at home.

Except for the arrangement of the draping the design follows closely the new-waistless and hipless models. They are very new and if rather straight up and down they suggest the youthful figure.

It seems the waist line is vanishing. Coats for summer wear, look as if they aspired to be like the outer garments of the Chinese. Dresses have made sash-like draperies

wrapped about the figure and extending to the thigh. Considering their extremes the little gown shown here is conservative, following the new lines tentatively.

Lace and gayly colored embroidery are introduced in the bodies, with small rhinestone buttons holding the drapery down the front. An embroidery medallion holds the skirt drapery at the front. Altogether the gown contrives to be graceful, at the same time embodying the new ideas in lines.

JULIA BOTTOMLEY.

## SHORT, BRIGHT, LITTLE COATS

Russian Blouse Reaching Almost to the Hem of the Skirt, is the Latest Idea.

The long, classic jacket for tailored costumes has this spring become shorter. The fronts are rounded or cut square, and the general effect is very smart. The Russian blouse is suggested, but the lower portion is plaited and made to fall very long. This is not so effective in woolen goods as in soft stuffs such as crepe.

## BOTH DAINTY AND ORIGINAL

Costume Appropriate in All Its Details That Was Central Figure at a Recent Wedding.

A dainty straw toque, worn at a recent wedding, was of prune color, with plaitings of maline in the same color encircling the crown. There were two plaitings below and two above a narrow band of prune-colored velvet ribbon, and at the front a knot of the velvet seemed to hold the base of a tall fan of the plaited malines which rose some inches above the hat. This hat accompanied a wonderfully draped gown of prune-colored satin brocade and lansdowne in the same shade; the silk and worsted lansdowne forming an underdrapery beneath the brocade which was lifted toward the front at the knee, revealing the swathed lansdowne skirt slashed at the center front—or rather draped in such manner that the daintily booted foot showed at intervals. Patent leather boots with buttoned tops of prune-colored cloth matched the prune gown and hat and the only strongly contrasting color note was in a deep, red velvet rose at the girdle.

## High and Tight Stocks.

A good many high tight stocks of lace and net and silk and satin are worn, and there is a trimness and smartness about them which the flat collars do not possess. They bid fair to find great popularity so long as the days are comfortably cool, but in mid-summer they will probably be superseded by flat open collars.

supple silk or mousseline. One of Poiret's best examples of this cut is a blouse that becomes a kind of redingote, plaited from the waist and falling almost to the hem of the oyster satin skirt. The redingote is in buff mousseline, with bid red and green roses.

When any of the rich, dark-colored tailor suits have to be brightened this is done by introducing "flies" or three-cornered ornaments, embroidered in silk. These are put in the corners or seams or in darts. The color is generally red, yellow or violet. Some of Poiret's tailor costumes are trimmed with white bone buttons sewed on with the same shade of silk as makes the flies. A very dainty cream white eponge is treated in this way with cerise. In the same manner Poiret sometimes combines green and red, green and blue, red and blue etc.

## New Dressing Jacket Dainty.

An entirely transformed garment is the dressing jacket. It used to be a very utilitarian and generally homely jacket, made with a deep frill of lace at the neck and the same trimming on the elbow sleeves. But the modern dressing jacket is a daintily beautiful article, and serviceable as well, for it is invariably made of some pretty, washing material. A charming dressing jacket is the "Dresden china" model. It is made of white wash silk patterned with delicate wreaths of pale pink roses, and is trimmed with blue satin ribbon. The jacket is edged with a deep frill of the net, and is draped just before the frill with the satin ribbon. A long draped and pointed collar of pale blue silk is edged with a shorter frill of cream net, and the elbow sleeves are finished with net frills tied up with satin ribbon.

## Toilet Table Silver.

Quadruple-plated silver articles for the toilet table are more than ever attractive, and if a "witch" cloth is kept conveniently at hand, the metal may easily be made bright. Just a rub over its surface and, presto! the dust is removed. Three-piece sets—hand glass, brush and comb—in plain or striped design are considered ultra smart and to go with them, although sold separately, are pin trays and graceful vase-shaped hatpin holders. Because talcum and face powder, cold cream and rouge are the better for being kept in glass, there are jars of the four correct sizes in crystal provided with either flat hinge-tops or with detached covers of plated silver matching the other toilet articles.

## Dresser Cover.

For a pretty dresser cover, take three embroidered handkerchiefs, sew a row of insertion together, and sew a narrow lace all around each one, then join them together, and sew a narrow lace around all; line with any preferred color of cambric, tacking at each corner so it can easily be removed for laundering. Place at each corner a bow of ribbon the color of the lining.

## Baste in Colors.

I have discovered that the use of colored cotton instead of white for basting white material makes it much easier to follow the seams accurately on the machine, writes a contributor to Good Housekeeping. Also the bastings can be more easily and quickly removed and are less apt to be overlooked.

## SMART SPRING GOWN

Gown of mustard colored ponge trimmed with bands of Bulgarian embroidery. The drapery of the skirt is caught with large cloth-covered buttons.

# The Wretchedness of Constipation

Can quickly be overcome by CARTER'S LITTLE LIVER PILLS.

Purely vegetable—act surely and gently on the liver. Cure Bilioussness, Head-ache, Dizziness, and Indigestion. They do their duty. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature

W. D. Wood

Valued Patron.

"Confound it," said the uptown druggist, "that woman took all the change I had in the drawer."

"Why didn't you tell her you couldn't break her \$10 bill?"

"No, no; she's one of our most regular patrons. Why, I've known that woman to buy as high as 11 one-cent postage stamps in a week."

## Alarmed for His Mother.

Little Harry, hanging about the kitchen, saw a stuffed fowl sewed up before roasting. He was much impressed by the sight. A few nights later his mother, hastily dressing to go out, found that a new frock had been sent home without the proper allowance of hooks and eyes. Summoning aid, her sister basted the frock together up the back.

"Grandma," said Harry, seeking the source of perennial sympathy and comprehension, "come and see what auntie's doing to mamma. I think she's going to roast her, for she's sewing her all up."

## Uncle Josh's Joke.

"Gee!" said old Uncle Josh, as the wall from the parlor waxed louder and more piercing. "I wish that there female summer boarder'd stop that infernal practicin' on her singin' fer a leetle. She hez a voice like a fish."

"Like a fish?" demanded Mrs. Josh, scornfully.

"Ya-as," said Uncle Josh. "Mostly scales an' flatter'n hokey."—Harper's Weekly.

## Keeper of Secrets of Kings.

Lord Knollys, who is retiring, after having been private secretary to King George and the late King Edward, has received many tempting offers to write his autobiography, but, needless to say, has steadfastly resisted them all. An enterprising publisher, from the United States, once ran him down during his vacation, and placed a blank check before him, inviting him to fill it in for any sum he liked to name in return for a book of no fewer than 50,000 words.

"My terms would be five million dollars," Lord Knollys remarked, quietly. The publisher gasped. "Good gracious, sir, are you serious?" he asked.

"Quite," Lord Knollys rejoined, and then, with one of his merry twinkles of his eyes, he said:

"Would it not be worth a good deal more to you if I had to say frankly all I know?"

The publisher realized the force of the argument, and was bound to admit that it would be a hopeless task to induce an indiscretion on the part of the veteran courtier.

Nourishing, economical, delicious, "more-ish."

# SENDS MESSAGE TO CALIFORNIA

PRESIDENT WOULD MAINTAIN FRIENDLY RELATIONS WITH JAPAN.

FOLLOWS THE SAME COURSE AS ROOSEVELT AND TAFT.

It is Expected the Anti-American Demonstration Will Be Abated When Attitude of Government is Made Known.

Alarmed by the earnestness of the Japanese in manifesting their objections to the anti-Japanese legislation pending in the state of California, President Wilson abandoned his policy of "hands off" and put the international phase of the situation squarely before Gov. Hiram Johnson, of California.

Secretary Bryan in a message inspired by the president informs the governor that while the right of the state of California to enact such legislation as she may see fit on the subject of land tenure, they are urged to recognize the international character of such legislation and strike out the words "ineligible to citizenship."

Thus President Wilson has adopted essentially the same course in handling the anti-Japanese tendencies of the Pacific coast as was taken by former President Roosevelt in 1907 and more recently by President Taft.

Temporary relief from the strained relations now existing is expected promptly when the president's message is published in Japan. A large part of the Japanese resentment is said to be due to the fact that the Japanese people as a whole have believed the federal government was entirely willing that California adopt even the most drastic measures. It is expected that when the president's efforts to smooth out the situation becomes known that there will be at least a suspension of the anti-American demonstrations and the talk of making war on the United States.

## MRS. STORY WINS FIGHT

D. A. R. Adjourn in Peace After a Stormy Session in Washington.

After a long and bitterly fought battle Mrs. William C. Story was elected president of the Daughters of the American Revolution at their annual continental congress at Washington. Mrs. Story represents the conservatives or anti-administration forces and her election is the result of a fight lasting for five years.

The closing sessions were peaceful. Resolutions indorsing the restoration of the army canteen and the Sunday opening of Mt. Vernon were adopted.

### Demonstration by Suffragettes.

Militant suffragettes took possession of the famous Billingsgate monument in the fish market district of London, just south of London bridge, and for several hours rained suffrage literature and missiles on the crowds beneath, stopping all tram, vehicle and foot traffic in the streets. The women alternated their strenuous of pamphlets with screams of "Votes for women," and "Victory or death," while the fish vendors in the streets below, enraged at the tie-up of business, replied in that kind of language which has made Billingsgate famous the world over.

### Morgan Inheritance Tax.

New York state will receive between \$3,000,000 and \$4,000,000 in inheritance tax from the estate of the late J. P. Morgan, according to preliminary estimates made by attaches of the state controller's office. The estimate is based on a report that the total estate will be about \$100,000,000.

**Seven Million Packages Handled**  
Seven million parcel packages were handled in the Chicago postoffice during March. That was the greatest business done in the country. The least was done at Emmons, W. Va., where only one package was mailed.

### Karl Hagenback is Dead.

Karl Hagenbeck, circus owner and collector of wild animals, died in Hamburg, Germany at the age of 69. He was considered to be the greatest living trainer of animals.

Charles English, a farmer near Alpena, shot and killed a big bear just as the animal was about to enter the sheep shed.

## "THE CLIMATE OF WESTERN CANADA."

AN IMPORTANT FACTOR IN CANADA'S IMMIGRATION.

A letter dated February 2, 1913, published in a "People's Voice" column in a Swedish paper, while dealing with other conditions in Canada, such as grain yield, social conditions, etc., says: "We have had fine weather until New Year's, when some snow fell and was cold for a few days, but during the past few days we have lovely weather again." The writer, who lives near Davidson, Sask., says they got from 30 to 35 bushels of wheat per acre, 60 bushels of oats and about 20 bushels of flax. All homesteads are taken in the vicinity, but wild land can be bought at reasonable figures. Word from Alberta gives the information that up to the 22nd of February there were eighty-four and a quarter hours of bright sunshine, but that did not come up to the corresponding month of 1912, when the meteorological department registered 120 hours for the 29 days.

February was exceptionally fine all through, but 1912 went one better, and was a glorious month. However, taking the weather generally throughout the northern hemisphere, February has been marked by serious and severe disturbances resulting in heavy storms, bad weather and low temperatures in many other parts.

The coldest temperature this week occurred on Tuesday morning, when the thermometer registered 23.5 below, and the coldest Wednesday was 11 below. During the last fortnight of February 9 and 8.7 hours of bright sunshine spread its glorious rays over Edmonton, and this out of a possible total of about ten hours is something to talk about.—Advertisement.

Temptation may come to the woman who sits down and waits, but a man usually meets it half way.

## HANDS ITCHED AND BURNED

Abbotsford, Wis.—"My son had eczema on his hands for about one year. The eczema started with a rash. His hands were sore so he could not close them, and when he wet his hands they hurt him so he could hardly wash. His hands itched and burned just terrible and if he would scratch them, they would break out into sores. He could not get any rest or sleep, and his hands looked quite bad.

"We had medicine and salve and it kept getting worse all the time. I got some Cuticura Soap and Ointment, and after washing his hands with the Cuticura Soap and putting some of the Cuticura Ointment on two times a day and tying cloths on them for about six months they got well and have not broken out since. Cuticura Soap and Ointment cured him entirely." (Signed) Mrs. Lawrence Kiehl, Feb. 13, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

# Women of Middle Age

## From 40 to 50 Woman's Critical Period.

Such warning symptoms as sense of suffocation, hot flashes, severe headaches, melancholia, dread of impending evil, palpitation of the heart, irregularity, constipation and dizziness are promptly treated by intelligent women who are approaching the period of life.

This is the most critical period of woman's life and she who neglects the care of her health at this time invites incurable disease and pain. Why not be guided by the experience of others and take Lydia E. Pinkham's Vegetable Compound? It is an indisputable fact that this grand old remedy has helped thousands of women to pass through this trying period with comfort and safety. Thousands of genuine and honest testimonials support this fact.

### From Mrs. HENRY HEAVILIN, Cadiz, Ohio.

Fort Worth, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound and derived great benefit from its use. It carried me safely through the Change of Life when I was in bad health. I had that all gone feeling most of the time, and headache constantly, I was very nervous and the hot flashes were very bad. I had tried other remedies and doctors, but did not improve until I began taking Lydia E. Pinkham's Vegetable Compound. It has now been sometime since I took the Compound and I have had no return of my old complaints. I always praise your remedies to weak women."—Mrs. HENRY HEAVILIN, R. F. D. No. 5, Cadiz, Ohio.

### From Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do.

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong, well woman. I am very thankful that I followed my friend's advice, and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

### From Mrs. F. P. MULLENDORE, Munford, Ala.

Munford, Ala.—"I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand to have a gate slam.

"I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend it to all women afflicted as I was."—Mrs. F. P. MULLENDORE, Munford, Ala.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

**Your Opportunity is NOW**  
In the Province of Saskatchewan, Western Canada  
Do you desire to get a Free Homestead of 160 ACRES of that well known "Wheat Land" The area is becoming more limited but no less valuable.  
NEW DISTRICTS have recently been opened up for settlement, and into these railroads are now being built. Today the day will soon come when there will be no more homesteading land left.  
A Swift Current, Saskatchewan, farmer writes: "I came on my homestead, March 1908, with about \$100 worth of horses and machinery, and just \$25 in cash. Today I have 400 acres of wheat, 300 acres of oats, and 50 acres of hay." Not bad for six years, but only an instance of what may be done in Western Canada in Manitoba, Saskatchewan or Alberta.

## DOWN LOW

THE LITCHFIELD DOWN-LOW Spreader gives a Low Top Rail—about waist high, which makes it extremely easy to load. A man in handling the ordinary pitchfork, raises the load on the fork waist high in order that he may throw it from him. This means that it would be necessary to make a lower top rail than what we build, as there would be no advantage in loading.

OUR MACHINE LOADS easily from any direction—the seat turns over out of the way in front and is just as easy to load onto this machine as it is to throw it in another pile on the ground.

DON'T FORGET. The Self-Cleaning apron, No-Choke box, Bull Dog cylinder and Oil Packed main bearings are exclusive Litchfield Features. You will look for them in vain on any other spreader.

### High Under Clearance

A PECULIAR FACT. The Litchfield Down-Low has substantially the same Under Clearance that our High Standard machines have. We use the same size wheels—the axles are the same distance from the ground. This gives us from sixteen to eighteen inches of general clearance under the machine, and same clearance under the front axle that we have always had in the high machines. Just compare this with the eight or ten inches clearance found under other low down spreaders.

DON'T MAKE THE MISTAKE of buying a Sled when you pay your money for a manure spreader. Any machine soon becomes a sled in muddy and rough ground if it does not have sufficient under clearance. Like everything else, the tendency toward low down manure spreaders has gone in most cases a little too far and this is a serious objection—Too Close To The Ground.

### Short Wheel Base

WE MOUNT OUR SPREADERS on the rear wheels so that these traction wheels take a sufficient proportion of the load and have sufficient traction to properly operate the unloading machinery. We get away from the heavy draft that is a part of all long coupled wagons and spreaders. We turn in a shorter circle and in a smaller place and our machine has much more activity and is much stronger and more substantial than a machine that is hung between the front and the rear wheels instead of being mounted on the rear axle. This means light draft, strength, durability and convenience.

We have samples of the Litchfield and New Idea Manure Spreaders for inspection and will take pleasure in showing and will make better terms than you can get elsewhere.

## "CHOCOLATE, PLEASE"

We hear this often at our Soda Fountain that we know we have succeeded. Our success is really gratifying because we have tried hard to make a chocolate soda a little better in flavor and with more satisfaction in it than anything of the kind heretofore made either by us or anybody else. It took a great deal of experimenting to choose the right chocolate and get the right proportion for a delicious beverage, but we finally "struck it" just right.

### Pains in the Stomach

If you continually complain of pains in the stomach, your liver or your kidneys are out of order. Neglect may lead to dropsy, kidney trouble, diabetes or Bright's disease. Thousands recommend Electric Bitters as the very best stomach and kidney medicine made. H. T. Alston of Raleigh N.C., who suffered with a pain in the stomach and back writes: "My kidneys were deranged and my liver did not work right. I suffered much, but Electric Bitters was recommended and I improved from the first dose. I now feel like a new man." It will improve you, too. Only 50c and \$1.00. Recommended by W. G. Meyer.

### WEST MARION.

Byron White of Pingree is spending a few weeks with friends at Flint.

Mrs. Dell Sawdy of Howell is sewing for Mrs. Jas. Smith.

P. H. Smith and wife spent Thursday in Howell.

Henry Smith and wife who have been spending the winter with their daughter at Cohoctah have returned to their home here.

Will Jacobs of Howell has moved on one of Harvey Whites farms south of Pingree.

A few of the friends and scholars gave Miss Marion Smith a pleasant surprise Saturday afternoon in honor of her eighth birthday. She received a number of presents and post cards.

### Coughs and Consumption

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown of Mascadine, Ala., writes: "My wife was down in bed with an obstinate cough and I honestly believe had it not been for Dr. King's New Discovery she would not be living today." Known for forty three years as the best remedy for coughs and colds. Price 50c and \$1.00. Recommended by C. G. Meyer, the druggist.

### NORTH HAMBURG.

## MARRIAGE AND DIVORCE.

The question of divorce could be solved if the more important question of marriage were properly settled first. There would be as few divorces in the United States as there are in Europe if the same safeguards which protect marriage in the older countries were thrown around marriage in this country. A uniform marriage law is more needed in the United States than a uniform divorce law. It is the essential preliminary to any effective handling of the divorce problem. Divorces in this country would be reduced in number by two-thirds if, as is the law in England, no marriage could take place until the banns had been published for three weeks—if no girl could marry without her parents' consent until she was twenty-one years old. The causes allowed for the granting of divorce in Illinois are all reasonable, says the Chicago Tribune. Incurable insanity should be a cause for divorce. Certain diseases should be sufficient cause, as well as incurable diseases concealed before marriage. The English divorce commission has recommended the recognition of these three causes. If the Illinois commission on uniform divorce and marriage laws will take the Divorce Beast by the horns and not by the tail there will be a much better chance of mitigating the divorce evil.

It is natural that a people as scrupulously regardful of their attire as the Parisians should be the first to set themselves seriously to the solution of the problem of preventing the bespattering of pedestrians by automobiles. Flying mud mixed with motor oil makes a stain that never comes off. A series of experiments has been held at Versailles to determine the comparative value of different devices intended to act as mudguards for the protection of people walking in the streets as well as of the occupants of the automobiles to which they are attached. The world at large is concerned in the result of these experiments, for undoubtedly when the most effective mudguard is discovered and demonstrated it will come into use throughout the world at large.

A New York hotel, one of the prominent ones of that city, has a scheme which it has just put in operation by which it hopes to solve the tipping question. The management has decided to make a reduction of 10 per cent. on all checks of more than 50 cents, a reduction supposedly equivalent to the average tip. This act will relieve guests of the necessity of paying twice for service. This probably is the best scheme yet presented as a solution to the tipping evil. It is sane, and while assuming that a majority of guests would resent a request not to tip waiters and recognizing that it would be an impossibility to enforce an order to prevent waiters from accepting tips, the management has taken the dignified way out of the difficulty.

The building of "biggest" steamships having passed the size where the docks at New York are too small for them has now reached the dimensions where the Clyde is too small to launch them. The Cunard Aquitania has been held on the stocks until they could deepen the river enough to float her. Which indicates that we are approaching the limit.

A judge in New York told a man arraigned before him for sentence for abduction that he was unfit to live and immediately sentenced him to a maximum term of seven and a half years in prison. In matching what is with what ought to be the law sometimes makes itself something of a farce.

Ladybugs are being gathered in California to save the cantaloupe crop by devouring the insects which prey upon the latter. At least, this is one instance where masculine ingenuity has turned to advantage the feminine instinct for destructiveness.

A woman authority on the question says there cannot be an ideal husband without an ideal wife. This dictum will probably go far toward settling the vexed question, as it makes the argument too personal to be pleasant.

Blissless people never are insane, says a scientist. On the basis that whatever happens, they don't mind.

# WILL OF MORGAN IS IN PROBATE

## TWENTY MILLION LEFT TO RELATIVES AND VARIOUS CHARITIES.

### ENTIRE RESIDUE IS LEFT TO HIS SON.

Instrument Was Executed as Late as January 4 and Opens With Striking Utterance of Religious Belief.

The last will and testament of J. Pierpont Morgan has been offered for probate in New York. It begins with a striking utterance of the late financier's belief in the salvation of his soul through the merits of the blood of Jesus Christ.

The exact amount of the estate cannot be determined until the appraisal for inheritance tax has been made, but it is estimated that it will approximate one hundred million dollars.

The will was executed on Jan. 4, last, and a codicil attached on the 6th. Less than twenty millions are left in bequests and the entire residue of the estate goes to his son, J. P. Morgan, Jr. It is estimated that it will amount to the largest sum ever inherited by an individual in America.

Relatives, servants, employees and various charities are remembered. The widow is to receive \$100,000 a year and the proceeds of a trust fund together with country and city residences during life. The two sons-in-law receive one million dollars each. One hundred thousand dollars a year is to go to the New York laying-in hospital which was one of Mr. Morgan's favorite charities.

## NOTED CHICAGO LAWYER TAKES HIS OWN LIFE DURING NERVOUS BREAKDOWN.

John E. W. Wayman, former state's attorney of Cook county, died from bullet wounds inflicted by himself. He had suffered for several days under the delusion that he was afflicted with appendicitis, according to Dr. W. O. Krohn, the family physician.

Certain that Mr. Wayman was coming to a nervous breakdown, the appendicitis scare was used as a subterfuge to induce the patient to go to Excelsior Springs, Mo., for a few days of rest.

Mr. Wayman used an automatic pistol given into his keeping by Charles Lund, whom he was to defend on a charge of killing Edward Paul, a labor leader.

Wayman was conscious most of the time after the shooting and expressed regret for his act.

"I must have had sand in my gear box when I did this," he told his friends, who were permitted to see him for a few minutes.

During his term Wayman waged a relentless and vigorous fight against the police official, and in doing so became estranged from many of his old friends.

One of the last acts of his administration last November was to close up the south side levee district. He caused all of the houses to be raided and scores of arrests followed.

## Squaw Man is Saved

## Appointments by the President

In a batch of nominations which President Wilson sent to the senate were the following:

Dudley Field Malone, of New York, to be third assistant secretary of state.  
John Bassett More, of New York, to be counsellor of the department of state.

The state board of health has elected officers for the ensuing year. Dr. Victor Vaughan, of Ann Arbor, has been elected president, and Dr. T. M. Koon, of Grand Rapids, vice-president. May 9, 10 and 11 there will be a state embalmers' examination held at Ann Arbor.

Port Huron suffered a deficit of \$10,000 in its schools this year and the city commissioners believe that it will be necessary to assess the maximum per capita to raise an amount sufficient for the coming year.

## Chose Detroit for Next Meeting.

The forty-ninth session of the Michigan conference of the Evangelical association was held in the fourth ward church at Flint. Bishop S. P. Spreng, D. D., of Naperville, Ill., presided.

In the annual missionary service \$2,250 was raised for home missions. This amount will be raised to over \$10,000 by an every-member canvass for the mission work of the church. Next April the fiftieth session of the conference will be held in Detroit, entertained by the five churches of that city.

## Alpena Gets Next Meeting.

The spring meeting of the Saginaw Presbytery, including Presbyterian churches of all northeastern Michigan, was brought to a close at Saginaw. Rev. C. M. Boyce, Harrisville, was elected moderator; Rev. C. H. Marvin, Bay City, was given the commission to the general assembly at Atlanta, Ga., in May. Rev. J. H. Nisbit, Marple Ridge, was elected lay commissioner, with Wm. Henderson, Saginaw, and Rev. John Q. Durfee, Ithaca, as alternates. Alpena was selected for the next meeting, in September.

## Settles Big Damage Suit.

Chester C. Utterbacke, of Ann Arbor, who was the most seriously injured of all the victims of the collision at Chelsea a year ago of two limited cars on the Ypsilanti-Ann Arbor line, has settled his suit against the Detroit, Jackson & Chicago railway company out of court for a sum slightly in excess of \$11,000.

Utterbacke has been gradually becoming blind, deaf and dumb since the accident and his mind is affected. He sued for \$50,000.

## Five Millions are Due

The state treasury was enriched to the amount of \$240,000, which was paid by the Chicago & Northwestern railroad for 1913 taxes. About \$5,000,000 in taxes from corporations assessed under the ad valorem tax system is due the state this month. The taxes not paid before May 1 are subject to a penalty of one per cent a month.

## Temptation.

Representative Solomon Francis Prouty of the Seventh district of Illinois is the only man in the house of representatives who chews gum, and he chews it with a remarkable avidity. He took the gum habit after a conference of Iowa physicians had warned him that he must either stop smoking or fill a grave. They suggested chewing gum as a substitute for his Lady Nicotine.

The only time he has smoked in ten years was on a hot day last summer while out campaigning. He stopped to talk with an old farmer who was puffing at a corncob pipe. The smoke got into Representative Prouty's nose, and as soon as he reached town he rushed into his office, grabbed his secretary by the arm, and almost shouted:

"For goodness sake dig out that pipe of yours and give me a puff! Lock the doors and keep every man out who looks like a doctor. I've got to smoke or bust!"—Washington Star.

## CULTURE OF POTATOES

### Opinions Differ on Proper Depth to Plant Tubers.

Some Growers Advocate Shallow Planting, While Others Are Just as Strong in Favor of Deep Method—One Good Test.

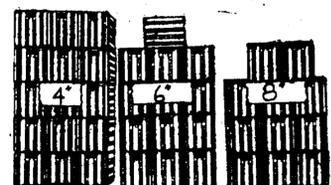

(By E. SANDSTEN.)

The depth at which potatoes should be planted is a matter of considerable importance, and one upon which much difference of opinion exists. Some growers advocate shallow planting, and others just as strongly favor deep planting. That there must be a depth at which the highest yield may be obtained seems reasonable. This depth will undoubtedly vary with difference in weather conditions, consequently any investigation along this line should be carried on for several years in order to obtain reliable data. An experiment was made at Iron River, Wis., on sandy soil of rather open texture, to get some information on this point.

The ground was plowed in the fall and given a dressing of manure at the rate of ten loads per acre in the spring. This was disked into the ground thoroughly before planting. The land was nicely leveled before planting by means of a drag. Twenty-one rows, running north and south, were planted, each row three feet apart. The potatoes were planted with a planter in order, as follows:

- At 4 inches deep, 4 rows.
- At 6 inches deep, 4 rows.
- At 8 inches deep, 4 rows.
- At 4 inches deep, 3 rows.
- At 6 inches deep, 3 rows.
- At 8 inches deep, 3 rows.

In this way any possible lack of uniformity of soil was to a great extent neutralized. The same general slope obtained for all the field, making the conditions similar for all the

Yields of plots of potatoes planted at different depths. The yields were 140 bushels per acre when planted at a depth of four inches, 124 bushels when planted six inches deep, and 102 bushels when planted eight inches deep. The shallower planting allowed the potatoes to come up and mature more quickly, thus escaping the effects of dry weather.

rows. The potatoes planted at four inches came up first, those at six inches second, while the rows planted at eight inches came up last. There was a difference of about two days between each set. The set planted at four inches grew fastest and produced somewhat stockier vines. The deepest planting was not quite as good a stand, although the difference was not very great.

Exactly the same treatment as to cultivating, spraying, etc., was given to all the rows. No weeds were allowed to grow, and the beetles were killed before they did any material damage. The crop was dug the latter part of September, with the following results: The potatoes planted four inches deep yielded at the rate of 140 bushels per acre; the six-inch depth yielded at the rate of 124 bushels per acre, and the eight-inch depth, 102 bushels per acre.

From this it would seem that six inches would be the maximum depth at which to plant potatoes.

### Alfalfa as Pork Maker.

At the Kansas experiment station 800 pounds of pork were made from one-ton of alfalfa hay, and 770 pounds from an acre of alfalfa pasture. At the Nebraska station hog rations consisting of one-fourth alfalfa hay showed the alfalfa hay worth its weight in corn meal and superior to the same weight of bran. The Iowa station made pig pork at \$3.34 per 100 pounds and realized 71.1 cents per bushel for corn; with alfalfa and corn, pork cost \$2.88 per 100 pounds, and corn returned 86.6 cents per bushel—a difference of 33.13 per cent in favor of alfalfa.

### Cheap Seeds.

The lowest priced seeds are often the most expensive in the long run. Don't buy seed because it is cheap. Pay a good fair price for it and test before planting in all cases. Vegetable seed ought to test 90 per cent at least.

### Plowing Plans.

If plowing the ground it is a good plan to finish each day's work by harrowing what has been plowed.

## CARE FOR THE HOUSE PLANT

Should Have Plenty of Water by Soaking in Tub or Plunge in Bath Tub to Refresh Them.

(By FRANCIS L. RISLEY, Rockville, Conn.)

Plants that have been in the house all winter in a dry atmosphere will dry out quickly. Give plenty of water by soaking in a tub or a plunge in the bath tub and spray the leaves often. This will refresh them, and also destroy the red aphid which multiply continually. If there are any scales on

Colyx Closed; Too Late to Spray for Codling-Moth.

your ferns use a small tooth brush and mild soap suds. Use some soot on your plant soil. A handful to two gallons is enough. Let in fresh air two or three times a day, moderately, so as to accustom them to it. Use only rain water on calla-lilies. Blow some tobacco smoke on the plants almost every day.

## IMPORTS OF FARM PRODUCTS

Immense Amount of Money Paid to Foreigners That Should Have Gone to American Farmers.

The tremendous acreage planted to corn last year developed the ever-present pessimist who talked about over-production and a consequent lowering of prices to the injury of the farmer's market. These people do not know that last year the United States imported \$6,800,000 worth of oats, more than \$2,000,000 worth of potatoes, \$1,000,000 worth of peas, over \$2,000,000 worth of beans, \$8,000,000 worth of sugar, \$3,500,000 worth of tobacco. This is money paid to foreigners which should have gone into the pockets of the American farmers if they had raised enough of these several products. As long as our population increases as rapidly as it does now, there is little danger of over production of farm products.

### Swine Manure.

An important consideration that is too often overlooked is the economical utilization of manure produced by swine. Dry-lot feeding in summer is often associated with a heavy waste of manure on account of the large part of the manure that is leached or blow away when deposited in bare lots. Feeding on pastures or in cultivated fields will do much to obviate this loss, since a large proportion of the droppings and urine will then be deposited in the field where the fertilizing constituents may be utilized.

## HORTICULTURAL NOTES

Do not allow anything to grow over the roots of fruit trees.

Fruit trees, as a general rule, do not appreciate light, sandy soils.

Make sure that the site for the new orchard can be easily drained.

Calliopsis is a desirable quick growing annual for the cut-flower garden.

Many failures from spraying result from working when the temperature is below 40 degrees.

Sow a few asters, pansies, cobaea, and hardy carnations in the house the last of the month for earliest flowers outside.

When setting any of the bush fruits the top should be pruned to correspond to the root pruning the plant gets in transplanting.

Keep on the constant lookout to destroy insect eggs and cocoons frequently seen near rubbish heaps and on the bark of trees.

The sweet cherry is the only tree fruit that can be universally set out in the fall successfully and be better than for spring setting.

Some fruit growers say that it is not a good plan to plow an orchard when the trees are in blossom—better do it before or after.

Do not plant many varieties of trees in the new apple orchard. The apple buyers like to find as many of one variety as they can together.

Any kind of fruit tree will die when planted in ground that is all the time saturated with water. The tile ditch is a necessity in some places.

The Senator Duval strawberry, Beta grape, King raspberry and Wealthy apple are good fruits for the garden. Plant liberally of each.

In pruning the apple trees, plan to form shapely heads that will permit the sunlight to get into the center of the tree. It will give better fruit.

## Lessons in Housekeeping.

A young girl of fourteen whom I know plans and cooks the dinner at home one evening of each week, and her mother stays away from the kitchen entirely on this afternoon. The girl's father gives her a small amount of money in the morning before he leaves home, and she does the marketing with this sum. The event is anticipated with great pleasure by all the members of the family as well as by the little cook, and the nourishing and appetizing dinner she serves is certainly surprisingly good.—Woman's Home Companion.

Women who spend most of their time trying to improve their complexions never think of the old fashioned method of steaming it over a washtub.

## "Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets. After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says:

"Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures. Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money. MILES MEDICAL CO., Elkhart, Ind.
