Vol. XXXI

Pinckney, Livingston County, Michigan, Thursday, May 15, 1913

No. 20

Amended Game Laws

The legislature just closed made following changes in the general game laws of the state:

Permits non resident deer hunters to ship their deer out of the state. Provides that rabbits may be lawfully killed and sold. Shortens the deer hunting open season so it will be from November 10 to November 30. Extends the closed period for squirrels to 1915, and for pheasant, quail, black fowl, grouse and wild turkey to 1917.

To permit the shooting of bear every month in the year.

A hunters' gun license act, which provides hunters of all game, deer and fur bearing animals excepted, shall take out an animal license costing \$1.00. Non residents and aliens must pay a \$10. license. Persons who hunt only in the county where they live will not need a license.

To impose a fishing license fee of \$3. for non resident males over 18 years for all kinds of fish, a license for a man to include his family; licenses for taking fish other than brook trouts to be \$1. Non residents make take one day's catch out of the state. Residents of Michigan need no license.

Increasing the cost of a deer hunter's license for an alien to \$25, the same as non residents of the state. The license for Michigan citizens remain at \$1.50.

To limit the number of speckled trout, landlocked salmon, grayling and California trout that can be taken in one day to 25, and the number that a person can have in his possession at one time to 50; also extended the closed season to September 15.

Provided that wild fowl, including ducks, may be shot half an hour before sunrise and half an hour after sunset.

Permitting the catching of rainbow and steelhead trout not under 15 inches by spears and dip nets during March and April.

Providing a closed season for frogs from November 1 to May 1.

To allow taking seines from inland waters, dogfish, carp, garfish, sheephead and other obnoxious fish, and to sell them to pay expenses of such removal. Such seining to be done under a permit granted by the state game warden; and to get a permit not less than 15 citizens of the township or other political subdivision wherein the inland waters are located, must petition.

Mrs. C. G. Smith

Blanche M. Cope was born at Adrian, Mich., March 25, 1850. She was married to Charles G. Smith May 15, 1872. From this union there were two children, Olive A. and Guy A. Her husband and children survive her.

Blanche M. Smith was a perfect wife and mother and a true friend. She believed that God gave her a brain to be used for and by herself, in interpreting the evidences placed before her from day to day, with the result that she came to believe that she would please Him best, and in some slight measure, make return to Him, for His goodness to her, by so shapping her conduct as to meet the approval of her conscience instead of shapping her conscience to fit her conduct. By following this course throughout her life she commanded the respect of her neighbors, and went to sleep to this world on May 8, 1913, leaving behind a host of friends and not a single enemy.

Funeral services were held Saturday afternoon at her late home at Lakeland, Rev. A. G. Gates, of Rochester, officiating. Interment in Whitcomb cemetery. **

Wins One; Loses One

The P. H. S. ball team journeyed to Ann Arbor last Wednesday afternoon to cross bats with the Ann Arbor high and won an easy victory from them by a score of 15 to 7. At the end of 5 innings our boys forced them to change pitchers by batting the ball all over the lot and securing 12 runs after which they grabbed 3 more in the remaining 3 innings. The battery for Pinckney was Swarthout and Swarthout and Vaugh, VanArman and Schumaker for Ann Arbor.

Saturday afternoon with Paul Clark out of the game and Ward Swarthout's arm on the sick list, the team was badly crippled but nevertheless they played the strong Stockbridge high. It was a loose game from start to finish. Ed. Van Horn pitching for Pinckney did fairly good work for six innings but he received poor support and the visitors secured 14 runs, after which Swarthout took the mound and held them to 1 run during the remainder of the game. At the end of the sixth inning the score stood 14 to 6 when our boys thought it about time to get busy which they did by securing 6 more runs and if they would have been more careful would have won out. The final score was 15 to 12 in favor of Stockbridge.

The next home game will be played here Saturday with Jackson high.

LONG OR SHORT COAT

BOTH HAVE SANCTION OF FASHION THIS SEASON.

In Chiffon or Lace They Are Particularly Becoming—Rich Brocades, Elaborately Embroidered, Are Also High in Favor.

There is no end to the short coats and wraps and each is more chic than the last, though you need time to accustom yourself to their abbreviation. Whether they are so generally becoming as the longer coats and cloaks is a question of taste. Certainly they comport better with the short skirt of the trotting frock.

Long coats and cloaks for carriage and evening wear are lovelier than ever before, and the triumph of the season is the filmy coat of chiffon or lace usually without lining other than another tone of chiffon.

One of the loveliest cloaks is of embroidered chiffon. The long lines of drapery are exceedingly artistic and the fullness at the top of the coat at the back is held in place by a square shaped tab of exquisite embroidery.

Another cloak is of brocaded crepe de chine. At the neck there is a high turndown frill of mousseline de soie. The cloak is shirred on a cord at the shoulders and the sleeves and bottom of the coat are also shirred on a cord of the material.

Equally good in its way is the shaped coat of gray charmeuse trimmed with small rose colored silk buttons and cord loops. It is finished with a narrow turndown collar of the rose colored silk finished with a narrow frill of rose colored chiffon.

One exceedingly attractive model seen recently was of lace, chiffon and silk. At the front the upper part was draped in rever shape with a chiffon scarf, which was knotted in a large knot and ends which fell to the bottom of the cloak. The fronts were of lace over which soft silk was draped, falling in folds from the shoulders to the bottom of the garment.

In soft satin and crepe, there are to be had numberless beautiful cloaks. Some of the rich supple brocades are

CHIC STREET DRESS

Street dress of red wool voile and creme satin with collar of Bulgarian embroidery.

Under wraps in chiffon, lace and satin are being exploited by French designers, but many of them are en suite with frocks.

One smart New York shop exhibited a model of black Chantilly lace to be worn with a costly lingerie frock. The front of the coat was ornamented with a large cluster of pink roses.

Practical Fashions

SIMPLE AND YOUTHFUL.

6186

The effect of youthfulness is sought above all others at present, and the growing girl has at last awakened to the advantages of being at the beginning of things. Her wardrobe also shows the same tendency. For this effect there is no daintier model than the one shown herewith. The simple blouse has a low cut neck, which is outlined by a large, effective collar, while the elbow sleeves are finished with a cuff. The skirt is a three gore design, and fastens in front on a line with the closing of the bodice.

The dress pattern (6186) is cut in sizes 14, 16 and 18 years. Medium size requires 4 1/2 yards of 36 inch material.

To procure this pattern send 10 cents to "Pattern Department" of this paper. Write name and address plainly, and be sure to give size and number of pattern.

GIRL'S DRESS.

6199

This smart little dress offers several novelties in its construction. It is virtually of saquee cut, although it has a little skirt of three pieces. These are so flat and continue so well the outline of the upper part of the dress that they are hardly noticeable, the more so as their junction with the waist is concealed beneath a belt. The straps which extend over the belt offer an ornamental touch and the fancy tabs at the closing are also decorative. The sleeves are set in smoothly at the armhole, and are gathered into a cuff at the wrist. They may be cut off at the elbow and a flat cuff attached as shown.

The dress pattern (6199) is cut in sizes 6, 8, 10 and 12 years. Medium size requires 2 1/2 yards of 36 inch material.

To procure this pattern send 10 cents to "Pattern Department" of this paper. Write name and address plainly, and be sure to give size and number of pattern.

KANSAS WOMAN WHO SUFFERED

From Headache, Backache, Dizziness and Nervousness, Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lawrence, Kans.—"A year ago I was suffering from a number of ailments. I always had pain and was irregular. During the delay I suffered a great deal with headache, backache, dizziness, feverish spells, nervousness and bloating. I had been married nearly three years. I took Lydia E. Pinkham's Vegetable Compound and now I feel better than I have for years. I recommend Lydia E. Pinkham's Vegetable Compound to all who suffer as I did."—Mrs. M. ZEUNER, 1045 New Jersey Street, Lawrence, Kansas.

Montana Woman's Case.

Burns, Mont.—"Lydia E. Pinkham's Vegetable Compound cured me of awful backache which I had suffered with for months. I was so weak I could hardly do my work and my head and eyes ached all the time. Your Compound helped me in many ways and is a great strengthener. I always recommend it to my friends and tell them what a grand medicine it is for women. You may use my name for the good of others."—Mrs. JOHN FRANCIS, Burns, Montana.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

ABSORBINE

ABSORBINE, JR., the antiseptic liniment for mankind. Reduces Strained, Torn Ligaments, Enlarged Glands, Veins or Muscles. Heals Cuts, Sores, Ulcers. Allays pain. Price \$1.00 a bottle at dealers or delivered. Book "Evidences" free. W. F. YOUNG, P. O. F. 310 Temple Street, Springfield, Mass.

Don't Persecute Your Bowels

Cut out cathartics and purgatives. They are brutal, harsh, unnecessary. Try CARTER'S LITTLE LIVER PILLS.

Purely vegetable. Act gently on the liver, eliminate bile, and soothe the delicate membrane of the bowel. Cure Constipation, Biliousness, Sick Headache and indigestion, as millions know. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature.

Kill Flies. Kill flies and kill them early. Kill flies and save babies.

A year ago, flies were known as filthy, foul-feeding nuisances, which carried germs of typhoid fever, and of intestinal diseases which destroy thousands of infants every summer. Now, the black indictment is increased. Since "fly-time" began last spring, the world has learned that the dreaded infantile paralysis is spread by these buzzing pests.

The fly is one of the few inexpressible things on earth. Kill him.

Abner's Preparation. Abner, who worked for the summer residents, told Mr. Burns one morning that he was soon to be married. "Well, really, Abner," said Mr. Burns, "I'm glad to hear it! I suppose you've made all the preparations and got your wedding finery ready?"

Abner did not balk at the question, but he grinned sheepishly.

"Yep," he replied, "maw, she bound my Sunday coat and put a new collar on't, and I've had my shoes tapped."—Judge.

Would Consider It. "Would you marry a monkey-faced shrimp just because he had inherited a fortune?" "That depends. How much did you inherit?"

All His Own. "Does your lad find his sums hard?" "Oh, no; the sums are easy enough, but his results are too original to suit the teacher."—Flegende Blatter.

FOLEY KIDNEY PILLS

RICH IN CURATIVE QUALITIES FOR BACKACHE, RHEUMATISM, KIDNEYS AND BLADDER

Embroidered Black Crepe.

used for superb cloaks and there are plain satins and crepes marvelously embroidered. Other models depend upon lines rather than ornamentation, and these, when successful, are veritable works of art.

One peculiarly lovely model was in supple satin finished with a staff which was probably a crepe of some kind. It was in a soft cyclamen tone and was lined with a deep toned smoky gray chiffon over whose surface, was scattered a design of primroses in several cyclamen tints. The fronts fell back in soft draped revers to show the shoulders.

COOLER CLOTHES FOR BABY

One of the Problems That the Warmer Weather Puts Forward to the Young Mother.

When the warm summer months confront us the young mother begins to think about cool clothes for baby, and not the least important of the articles required for the wardrobe is the loose coat to be worn over the long dress, for baby dare not be exposed to draughts at any time.

The needlework shops are showing an attractive variety of long coats made of crepe de chine or albatross. These can be copied with little difficulty. Purchase a kimono pattern for a baby in long clothes and stamp the border with scallops. Down the fronts and across the sleeves stamp a dainty flower design; either forget-me-nots, rose buds or violets are suitable. White silk of a fine quality should be used to embroider the flowers.

First pad the petals, using white darning cotton for the purpose. Make the padding stitches the length of the petals and cover them with silk, making the stitches at right angles with the padding. Buttonhole the scallops with heavier twisted silk, padding them first with the darning cotton.

Tie the fronts together with white ribbon an inch in width.

If desired, these dainty coats can be lined with a light quantity of china silk, but they are more frequently unlined for summer use.

If you haven't a little one of your own, make a dainty coat for a tiny friend or relative. It is fascinating work, as the soft materials are easy to work with.

Green and Bright Colors. Not only in millinery are the brightest of colors to be seen, but also for gowns for home and street wear. These are being shown at the moment, but it will be popular with well dressed women. The brightest shades of emerald and grass greens are the most modish, and tomato red and very bright flame colors are among the favorites. Then tangerine is particularly popular for millinery and for collar trimmings and for giving touches of color to tailor-made and house gowns.

Shoe Horns With Handles. Shoe horns with yard long handles are a novelty which all women will welcome, as by their aid footwear may be adjusted without having to bend the back almost double, thus taking the risk of breaking the corset steels. The round handles of slender walking stick circumference come in polished mahogany or golden oak and the horns in silver or gold plate or in nickel. They may be packed crosswise into a trunk of ordinary size.

TAX LEVY MORE THAN LAST YEAR

AUDITOR FULLER POINTS OUT CAUSES OF THE INCREASE.

MORE MONEY REQUIRED BY THE INSTITUTIONS.

Six Thousand Dollars Will Be Spent During Summer in Establishing Fire Lines in State Forest Reserve.

The tax levy for 1913 and 1914 will exceed the figures of the past two years by \$1,846,000, according to statistics compiled by Auditor General Fuller.

The state tax for this year will be \$8,369,387.02 and for 1914 it will be \$5,715,609.59, making a total of \$14,084,996.61.

However, Auditor Fuller points out that there are several causes. In the first place, ex-Governor Osborn lopped several hundred thousand off the appropriations of two years ago and as a result the state institutions demanded more this year.

Then, too, three new institutions were added. The Bay City house of correction cost \$100,000, the epileptic colony farm \$100,000 and the Midland county sanitarium \$30,000.

To Establish Fire Lines.

During the coming summer the public domain commission will spend \$6,000 to establish fire lines around the state forestry reserve near Higgins Lake. Lookout towers will be erected and telephone connections with the various points will be erected at once. It was decided at a meeting of the commission to set aside 18,000 acres of state lands in Kalkaska and Grand Traverse counties as forestry reserves. The commission is considering a plan to include 40,000 acres of state land in Luce county as a part of the state reserve.

STATE BRIEFS.

The Baptist association of the Jackson district will hold its annual meeting at Bellevue Tuesday and Wednesday, June 10 and 11.

The announcement for the Ypsilanti Normal college summer school is out. The session will be from June 30 to Aug. 8, inclusive.

The presidency of the New Mexico College of Agriculture and Mechanical Arts, has been tendered to Prof. Walter H. French, of M. A. C.

Rev. David C. Huntington, pastor of St. Paul's Episcopal church at Niles, has been selected by Rt. Rev. J. McCormick as archdeacon, with headquarters at Grand Rapids.

On petition of many lumber companies in the Saginaw valley, the state railroad commission has given a decision compelling the Grand Trunk railroad to reduce its rates on logs, butts and bolts from one-half to one cent per hundred pounds below the rate now charged.

The Michigan & Chicago Electric Railroad Co., which has purchased the Allegan division of the Michigan Central, has bought a private right of way from the present terminal of the line, a mile from the business section of Allegan, and will run cars into the heart of the city.

This summer \$60,000 will be spent in the erection of new buildings and the repair of old structures at the state school for the blind at Lansing. The school was given \$80,000 for building purposes by the last legislature. This money will be expended chiefly on a new dormitory for girls.

Arthur J. Murphy, of Alma, has received notification from the office of State Game and Forest Warden Oates of his appointment as state deputy. Mr. Murphy for several years has been a deputy sheriff of Gratiot county, which position he has resigned in order to take up the game warden apprenticeship.

Capt. Harry Gibb, 62, for the last 14 years in the service of the government as captain of a life saving crew and caretaker of lights at Mackinaw Island, and Crist Point, Lake Superior, died suddenly as he was preparing to leave to take up his work at Crist Point. He has been at the latter place for the last two years.

Despite the fact that the legislature failed to pass an anti-cigarette bill, State Dairy and Food Commissioner Helms is going to make a further investigation. He said that he proposed to set his chemists at work dissecting the paper pipes, and where he finds ingredients other than tobacco, the public, and especially the youngsters, will be apprised.

TO LEARN OF ALFALFA

Farmers of Barry County Will Seek Instruction From Expert and His Assistants.

Convinced by experience that thousands of acres of alfalfa would be grown in Barry county if the farmers were properly educated in methods of growing, members of the Hastings Grange have started a movement to secure the services of Prof. P. G. Holden and his assistants who have been making the "alfalfa campaign" in the western part of the state.

For a number of years many acres of alfalfa have been grown in small patches in Barry county. At first the farmers scoffed at the experiments, but the fact that the alfalfa growers gathered in the dollars for several crops annually has induced many to start experimental fields. Much of the soil in this county is adapted for alfalfa growing, and all that is necessary to develop it is knowledge of methods and enterprise.

To Seek New Treaty.

Renewal of the arbitration treaty between the United States and Great Britain which expires by limitation on June 4, will be sought by the United States. The treaty in question is of the highest importance, inasmuch as the British government has already asked for the arbitration of the Panama canal tolls controversy, unless the United States sees fit to withdraw the legislation favoring American ships using the canal.

Mexican Rebels Take Town.

Parral, rich mining center of southern Chihuahua state, is in the hands of constitutionalists, the federal garrison of 1,500 having evacuated. B. E. Leonard, master mechanic of a mine at Parral, brought the news to El Paso of the capture of the town by the insurgents. On a motorcycle he rode from Chihuahua City, meeting half a dozen insurrecto bands, including that of Villa. All were mobilizing to cut off the federal retreat.

Two New Cables to U. S.

The chamber of deputies of Portugal authorized government and the European and Azores Telegraph Co. for two cables between the Azores and the United States and one between the Azores and England. The Portuguese government is negotiating with the republic of Panama touching at the island of Porto Santo, 26 miles northwest of Madeira.

Little Town Wiped Out.

When the magazine of the Sunshine Coal & Coke company's mine No. 1, three miles from Masontown, Pa., exploded, the little mining town was wiped out practically. Three persons were killed and forty men, women and children were injured, 22 of them seriously.

President of Hayti Is Dead.

President of the Republic of Hayti, Gen. Tancrede Auguste, died at Port au Prince after a brief illness. The national assembly was convoked to elect a successor as chief executive. Four candidates were prepared to present their claims to the office—Judge Luxembourg Cauvin, former minister of the interior; Michel Oreiste, a prominent senator; Gen. Beaufasse Laroche, minister of ward, and Gen. Behard.

Favors Direct Vote for President.

The resolution passed by general assembly memorializing congress to propose an amendment to the constitution to provide for election of the president and vice president of the United States by direct vote of the people having been signed by Gov. Baldwin, of Connecticut, and sealed by the secretary of state, it was forwarded to Vice President Marshall.

Great Britain Recognizes Mexico.

President Huerta was formally notified of the recognition of his government by Great Britain. The British minister, Francis W. Stronge, with due ceremony, presented the king's autograph letter, replying to that of President Huerta. The minister expressed in the name of his government good wishes for the welfare of the Mexican government.

Seven employes and officers of the Olds Motor Co., Lansing, were injured at Howell, when the test car which they were to drive from Lansing to Detroit turned turtle. George M. Scott, superintendent, was internally injured; Robert Hoff received cuts on the head; J. W. Steele, engineer, suffered a broken collarbone and other minor injuries, and Geo. Grant had a leg broken. William F. Burton, Bert Golden and H. E. Paton received slight injuries. All were taken back to Lansing. They will recover.

What is Castoria.

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. Albert W. Kahl, of Buffalo, N. Y., says: "I have used Castoria in my practice for the past 26 years. I regard it as an excellent medicine for children."

Dr. Gustave A. Eisenbrauer, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

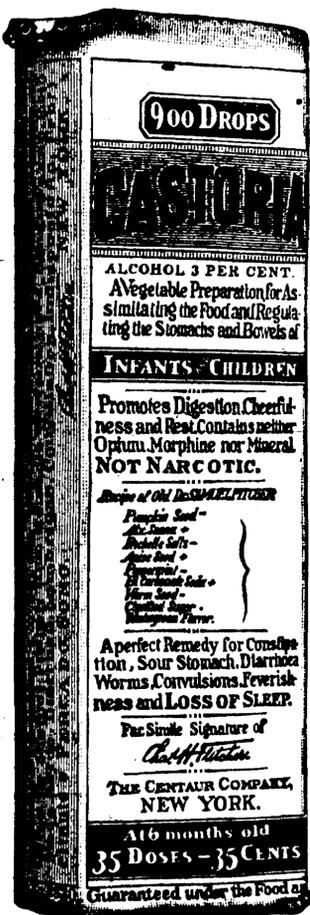

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

At the special election last Thursday to vote on the granting of a franchise to the Eastern Michigan Edison Company, there were 110 votes cast, 109 yes and 1 no.—Brighton Argus.

Prof. H. D. McDougall and family were Brighton visitors last Saturday. We understand that Mr. McDougall will have charge of the schools at that place the coming year.

Milford has purchased 6,000 gallons of oil and will try oiling the streets there this summer. Judging from the dust that we get every day Pinckney could well do the same.

Miss Alice Barton who has been spending the winter in California returned home last week and was married to Will Kling of Jackson, Wednesday, May 7. They will make their home in that city. The bride has many friends here who extend congratulations.

The more you spend at home the more becoming your town will be to the coming generation, and the more pleasant to yourself in your old age. If you have friends here is where they are. When you make a cover of your money you make a rover of your children and of yourself. You make your town a poor place to live instead of a better one.

The Michigan Experiment Station has just issued a bulletin on small fruit culture. This bulletin gives, in a brief form, complete and practical information of the culture of strawberries, raspberries, blackberries, dewberries, currants and gooseberries. Specific directions are given concerning planting, fertilizing, cultivation, pruning, control of insect pests, selection of varieties, etc. This special Bulletin No. 59 may be secured by writing to director E. S. Shaw, East Lansing, Michigan.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known in the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney and Company, Toledo Ohio. Sold by all druggists, 75 cents. Take Sall's family pills for constipation.

KEEPING ONE'S CHARACTER.

Into every life there may come examples of the old adage about happening of the unexpected. There is an increasing tendency to spring all manner of surprises, until one is sorely puzzled how to forecast what a day may bring forth. Not seldom great expectations dwindle into iridescent dreams, and the reputed tree laden with golden fruit is bearing only leaves. Then again many a Wilkins Micawber has been reproduced in real life since Dickens made so famous the original for his rapid alterations of despondency and hopefulness, relieved by the reiterated conviction "something will turn up." On the contrary, Bunyan's pilgrim is described as finding himself in a certain section of road so mfy it could not be mended; and it was therefore called "Slough of Despond." Fortunately the pilgrim, Christian by name, was by a divine helper drawn out of the mire and sent on his way rejoicing heavenward. Later on, his wife Christiana, with her two boys, had less trouble with the slough, and happily joined their loved ones gone before in a blast beyond the river. Sometimes one is said to make a fool of himself. Now here is a chance personally to unmake that folly. Or one gets individually so vexed as to slip into some sequestered nook and kick himself. Rather take to searching the scriptures till you find this good practical advice in two similar verses of the forty-second Psalm: "Why are thou cast down, O my soul, and why disquieted within me? Hope thou in God!"

The decrease in the meat supply is indicated by the February export figures just compiled by the statistical division of the bureau of foreign and domestic commerce. They show the number of cattle exported in the eight months ended with February, 1913, but 12,656 head, against 270,219 head in the corresponding months of 1907, and the quantity of fresh beef exported, but 4,789,047 pounds, against 175,806,649 pounds in the corresponding months of 1907. That this shortage in the exports is due in part at least to an actual reduction in the number of cattle in the United States is evidenced by the fact that the total number of cattle on farms, according to figures of the department of agriculture, was on January 1, 1913, 56,527,000, against 72,534,000 on January 1, 1907.

A Cleveland man who makes a practice of choosing his words with care, a practice which he has endeavored to instill into the family circle, made a memorandum of the misused words uttered by his son and daughter during a recent breakfast. Here is the result: Elegant, 19 times; awful, 11 times; dandy, 6 times; fierce, 4 times; great, 2 times. When the meal was over the head of the household called the family around him in the library and gravely read the totals to them. "Gee, that's fierce!" said the son. "Isn't it awful!" said the daughter.

The cost of the nickel is an index of the government's profit on the coinage of minor coins. Out of one pound of a compound of nickel and copper, costing about 23 cents, the government gets \$4.55 worth of 5 cent pieces. The seigniorage on subsidiary silver coins during the year was \$4,568,000, while on pennies and nickles was \$1,849,000.

If the findings of these marriage and divorce commissions do not suit you, organize one of your own and have it bring in just what you prefer. They are most of them self-appointed, and, this being a free country, there is no reason why every one should not have such a recommendation as pleases him. But as to the laws that are passed, you will have to look to the legislatures for them, anyhow.

The man who gave the first contribution of a cent toward the old-age pension fund evidently was an advocate of the anti-Osterian theory that people who get old in these days of continual youth won't deserve to be helped.

An editor in the south issued a special edition of his paper in which were published all the original poetry which had been accumulating for years. This procedure may have been kind to the poets, but it was certainly hard on the public.

SPIRITUALISTS IN STATE MEETING

DETROIT CHOSEN FOR THE NEXT CONVENTION AND OFFICERS ELECTED.

ROAD BUILDING BEE FOR THE SHORE COUNTIES.

Other Important Michigan News of Statewide Interest Condensed for the Busy Reader.

The Michigan State Spiritualists' association, in its twentieth annual convention at Grand Rapids, voted to hold their convention next year in Detroit. The following officers were elected:

President, Samuel T. Penna, Detroit; vice president, Rey. Amanda Coffman Flower, Grand Rapids; secretary, John J. Sheaffer, Detroit; treasurer, Major Fred J. Berns, Detroit; trustees, Mrs. Emma Snow Hoyt, Battle Creek; Dr. O. O'Dell, Paw Paw; and Dr. Julia Walton, Jackson.

Great Road Building Bee.

The greatest "bee" Michigan has ever known will be held June 9, when hundreds of residents of the shore counties from Bay City to Mackinaw City will turn out and do road work for a day, their object being to complete a continuous good road from one end of the district to the other.

Over 4,000 days' work of men and teams have already been pledged by the farmers living along the route of the road. The township of Posen, in Presque Isle county, has taken the lead in this work, over 1,500 days having been pledged by its residents.

Inspection Dates Are Changed.

Orders have been received by the state militia department requiring the completion of the inspection of the Michigan national guard by the army inspectors by June 1. It has been necessary to change the dates of inspection for the upper peninsula companies, and some of those in the lower peninsula, as the original inspection schedule carried the dates into June. An additional officer has been detailed to assist in the inspection and the companies affected are being notified.

New School for Traverse City.

Plans were put under way for the establishment of an educational institute in Traverse City, which will involve the expenditure of \$50,000, and within a few hours \$20,000 was subscribed by business men. Business, horticulture and agriculture will be the lines taught at first and other branches will be added. Plans for the building call for a capacity of 600 students, while an experiment farm will be provided near the city limits. A local business college will be merged with the new institution.

Only Resident Ministers May Marry.

Attorney General Grant Fellows has ruled that marriages must be performed by ministers and others competent to act, who are legal residents of the state and that persons imported for the purpose must acquire residence before officiating. Fellows jokingly declared that he believes in a high protective tariff and declares that the law might be amended so that "foreign" preachers could officiate in case the "cognumer" is willing to pay a good-sized import tax.

State Officer Is Accused.

Frank C. Jordan, secretary of state of California, is charged with malfeasance in office by the joint legislative committee which recently investigated charges in his department. In its report to the legislature the committee recommended that the case be turned over to the attorney general. The collection of \$7,700, all of which he kept, it is said, for copies of automobile registrations furnished to insurance companies and others during the time Jordan has been head of the department, is the basis of the finding against him.

Bronze Statue of Prof. Bitter.

Friends of Dr. Phillip H. Tappan, the first president of the University of Michigan, have given a bronze statue of the pioneer Michigan educator which has just been completed by the sculptor, Prof. Karl Bitter, of New York, and will be erected in Memorial hall, Ann Arbor, and dedicated on June 25, during commencement week. According to those who remember Dr. Tappan, the bronze figure is marvelously true to life.

MICHIGAN NEWS IN BRIEF

Stephen H. Dowling, tailor, of Grand Rapids, received word that he had fallen heir to a fortune estimated at \$50,000, left him by a relative.

Dr. Floyd W. Hicks, of Allegan, has been chosen Michigan delegate to the imperial council of the Good Samaritans, which will be held June 3 at Duluth, Minn.

After suffering a week from burns sustained while playing around a campfire, Bobbie, the 6-year-old son of Cornelius Wager, of Harbor Springs, is dead.

The state board of agriculture will offer two scholarships at the M. A. C., one to the Michigan Agricultural society and the other to the Michigan horticultural society.

The senate confirmed the nomination of John C. Hoopringarner to be postmaster at Berrien Springs and that of Leonard J. Patterson to be postmaster at Tawas City.

J. H. Nisbet, of Maple Ridge, has been appointed lay commissioner from northern Michigan to the general assembly of the Presbyterian church, this month at Atlanta, Ga.

The 1913 Flint directory contains 19,000 names, indicating a population of approximately 45,000, and an increase of 7,000 inhabitants since the last federal census, three years ago.

Mrs. William J. Melchoir, aged 61, died suddenly. She had lived in Alpena 40 years and was the mother of Thomas J. Ferguson, one of the owners of the Daily News of that city.

President George E. Ranney, of Lansing, and Secretary W. M. Beckman, of Charlotte, have arranged for the annual reunion of the Second Michigan cavalry in Lansing, June 17 to 18.

The annual Silliman oratorical contest for Albion college sophomores was won by Jacob J. Powells, of Grand Rapids, who received a \$25 prize. Oris J. McVenna won the second prize.

In an effort to awaken interest in cleaning up of the city's streets and alleys, the Albion Civic league has arranged for an exhibition in two of the local theaters of pictures of the spots in the city that need cleaning.

Word was received at Ann Arbor that two U. of M. men had been awarded Harrison fellowships in history in the University of Pennsylvania. They are: Gilbert Barnes, Omaha, Neb., and Vernor W. Crane, Tecumseh.

Ninety lodges of the I. O. O. F. of southern Michigan will hold their annual celebration at the Odd Fellows home grounds in Jackson, Aug. 6. It is expected the outing will be attended by 3,000 members of the order and their families.

Charles R. Johnson, who will receive his A. B. degree at the University of Michigan next month, has been chosen superintendent of the city schools of Comma, for next year, taking the place of E. C. Walsworth, who goes to Mt. Pleasant.

Veda Bean, 3-year-old daughter of John Bean, was burned to death and her sister, Emma, 6 years old, was fatally burned when their father's tent, in which he and his children were camping near Metropolitan, burned. Their mother died two months ago.

A resident of Muskegon for 52 years and actively connected with the lumbering industry of the city during all that time, George Woodman is dead. Mr. Woodman built the old Walworth-Reid mill, at that time one of the largest plants of its kind in the middle west.

Claiming that he has permanently lost the use of his right eye as the result of it being gouged out by a piece of flying iron, Rolan Mitchell, of Muskegon, a fireman on the Dixon & Campbell digging machine, last summer, has begun a suit for \$35,000 against the firm.

Work will commence at once on rebuilding the upper dam, at Big Rapids, wrecked March 8 by ice and high water. The dam will be constructed of concrete and have an eight-foot head. It will cost \$40,000. The property is owned principally by the Big Rapids Water Power Co.

Lansing may have Sunday band concerts on the capitol grounds and in the city parks during the summer. The pastors of the city have endorsed the idea and the Artillery band has asked an appropriation from the council to cover the expense of a series of concerts.

After June 1, Michigan will have an official inspector of bees. The legislature made an appropriation of \$1,500 for such an official, and F. McMillan, a graduate of Guelph, Ont., agricultural college, has been appointed to the place. He will work under the supervision of the M. A. C.

CONGRESSMAN YOUNG RESIGNS

MICHIGAN STATESMAN FEELS HE IS NOT ENTITLED TO SEAT.

SAYS MACDONALD RECEIVED MORE VOTES.

Although State Canvassing Board and Supreme Court Had Decided in His Favor He Is Unwilling to Remain.

With his eyes streaming with tears and choked with emotion almost beyond utterance, Representative H. Olin Young, republican of the Twelfth Michigan district, tendered his resignation from the house of representatives.

Discussing the contest instituted by William J. MacDonald, a progressive, Mr. Young declared 458 votes intended for MacDonald had not been counted for him, and he did not feel jus-

tified in holding his seat, although the Michigan canvassing board and later the supreme court had denied Mr. MacDonald's protest.

The announcement came at the close of one of the most remarkable speeches that has ever been delivered in the house.

Not until the close was there an expression of either approval or disapproval of Mr. Young's utterances. Then the house broke into a prolonged applause, which was joined in by all the members.

Mr. Young's resignation will not in the least affect the legal status of the contest for his seat in congress. The house will proceed to try the case as if Mr. Young had not resigned. This has been the uniform practice of the house since its organization.

Rabbit Serum is Effective.

A marked improvement has been noted in the condition of 50 cancer victims at the Massachusetts Homeopathic hospital, who have been inoculated with the rabbit serum recently discovered by Dr. Howard W. Nowell, of Boston university. That is the substance of an announcement made by a committee of five physicians connected with the Evans memorial department of clinical research at the hospital. Within 48 to 96 hours after the first inoculation, says the report, all the patients were made so comfortable that opiates have been dispensed with.

"Woody Tiger" in White House.

The "Woody Tiger" made its official debut as the official toy of the Wilson administration. As this new monarch of childhood entered the front door of the White House, escorted by Mrs. Wade Hampton, the originator of the novel idea, Teddy Bear and Billy Possum, mascots of previous times, looked on with brimming eyes.

The new toy is rather fierce looking and somewhat resembles a Princeton tiger in miniature.

Burns to Get Reward.

The \$10,000 reward offered by the state of California two years ago for apprehension of the persons responsible for the dynamiting of the Times building in Los Angeles is about to be paid. A bill appropriating that amount to satisfy the claim of Wm. J. Burns was passed in the assembly by a vote of 42 to 14 and sent to the senate. San Francisco members all voted against the bill.

Rev. William Burman, formerly chaplain of the Michigan G. A. R. and the Michigan commandery of the Loyal Legion, died at the Baptist Preachers' home at Fenton, where he had lived for several years. He was 90 years old.

NOT YET A HOUSEHOLD WORD

Rising Young Journalist Found There Were Places Where His Fame Had Not Been Heralded.

Louis Brownlow was born in what may be described as the backwoods down south. In the course of time he straightened his plumage, flapped his wings, and sailed out into the cold and dreary world to collect for himself finance and fame. He landed on a newspaper in a southern city, and made so good on his job that his articles were plastered under his signature across the front page of his journal every day. After several months he went back home. So far as he was able to determine he was a sunburst on the horizon of journalism, and fame had hung about his form all the lights and illuminations possible. "Louis," asked one of the old men at the grocery store, speaking with a pronounced drawl and caressing his long, thin whiskers, "what be your line of endeavor?" "The newspaper business," replied Brownlow, distinctly proud. "Well, Louis," pursued the patriarch, "be you a-sellin' of the papers or a-settin' of the type?"

THE RIGHT SOAP FOR BABY'S SKIN

In the care of baby's skin and hair, Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance, but its gentle emollient properties are usually sufficient to allay minor irritations, remove redness, roughness and chafing, soothe sensitive conditions, and promote skin and hair health generally. Assisted by Cuticura Ointment, it is most valuable in the treatment of eczemas, rashes and other itching, burning infantile eruptions. Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

When Bobbie Lost Faith.

The illness of the feminine head of the household left Bobbie to the tender mercies of the nurse, who presently reported that the youngster refused to say his prayers. Papa started an investigation.

"Why don't you want to say your prayers, sonnie?"

"Aw," squirming and wriggling, "prayers ain't no good."

"Why, Bob! Your mother would be shocked to hear you. What makes you think that?"

A long moment of silence before Bobbie, half angry, half crying, blurted out:

"Why, 'cause I've been prayin' for a dog for a long time, an' here I don't get no dog, but mamma gets a red baby that just kicks an' squalls!"

All Coming His Way.

Joseph Harrison, a rancher, who was awakened by the doctor at 4 o'clock in the morning to rock his new-born twin boys to sleep, went out to the barn to do his early chores, where he stumbled over a new-born calf, and just after sunrise his blooded brood sow gave birth to a litter of six pigs.

Not to be outdone a setting hen hatched out eleven little chicks, and a pigeon hatched out two squabs.

What Got Him.

"Strange, ain't it, the new kinds of ailments folks has?" remarked Farmer Smith, after reading his newspaper. "Now I've been a-reading an advertisement in here of a new medicine, and it says it's dreadful good for a sluggish liver."

"Liver troubles ain't no new disease, pa," responded Mrs. Smith. "I remember grandfather having liver trouble when I wasn't more'n ten years old."

"I was a-saying that this medicine was good for a sluggish liver, Martha Ann; and what beats me is how them slugs gets inside the liver, anyway."

Absolutely No Admittance.

The New York Evening Post reminds us of a good story told of the late Lord Wolseley, or Sir Garnet Wolseley as he then was, during the military occupation of Egypt. Deeming it advisable, for obvious reasons, to place a guard around the harem of a local potentate, a brother officer, strolling into an adjacent garden, was hailed by a sentinel. "Hi, sir; you mustn't go there, sir!" "Don't you see who I am?" protested the officer. "I am Colonel Blank of the——" "Yes, sir, I know," interrupted the trooper, respectfully; "but they's leddies livin' in that 'ouse, an' the' horders f'm Sir Garnet is that 'e's not to be let to go in there 'issel—no matter 'ow bad he wants to."

CLEARED AWAY

Proper Food Put the Troubles Away.

Our own troubles always seem more severe than any others. But when a man is unable to eat even a light breakfast, for years, without severe distress, he has trouble enough.

It is small wonder he likes to tell of food which cleared away the troubles.

"I am glad of the opportunity to tell of the good Grape-Nuts has done for me," writes a N. H. man. "For many years I was unable to eat even a light breakfast without great suffering."

"After eating I would suddenly be seized with an attack of colic and vomiting. This would be followed by headache and misery that would sometimes last a week or more, leaving me so weak I could hardly sit up or walk."

"Since I began to eat Grape-Nuts I have been free from the old troubles. I usually eat Grape-Nuts one or more times a day, taking it at the beginning of the meal. Now I can eat almost anything I want without trouble."

"When I began to use Grape-Nuts I was way under my usual weight, now I weigh 30 pounds more than I ever weighed in my life, and I am glad to speak of the food that has worked the change." Name given by Postum Co., Battle Creek, Mich. Read the little booklet, "The Road to Wellville," in pgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

SATISFIES ALL TASTES

IDEAL MENU FOR TWO PERSONS IS GIVEN HERE.

Suggestion for Solution of Problem Which is One of the Hardest With Which Housewife Has to Contend.

One of the difficulties of a family of two, man and wife, is to prepare a bill of fare from week to week and not have to eat the same kind of meal several days in succession. If the man is not one who works at manual labor he is quite likely to have a small appetite. The woman does her own housework, perhaps, and she, too, is not a large eater. Now a ten-pound roast would last two people of this kind much more than a week. To buy less prevents them securing the best cut of beef, although when they buy lamb it is quite possible to get a good roast much smaller. An excellent idea is to lay out a course in advance. Say something like this: Roast beef one week, lamb the next week, turkey or chicken or roast pork the third week, then miscellaneous dishes the fourth week, like salads from chicken, lobster, if not too high shrimp, a boiled dinner once. This would give a change sufficient to satisfy most tastes.

Let the roast be, say, seven or eight pound sirloin. Have it boned and one slice of steak cut off of it. The steak will do for the Sunday dinner, the bones will make a splendid vegetable soup for Monday dinner, and by Tuesday the beef will be ready to roast. It will surely last the ordinary family of two Tuesday, Wednesday and Thursday, and, perhaps, there will be enough left for a stew on Saturday. Fish may be served Friday one week oysters another Friday in their season. The second week an eight-pound leg of lamb will give chops for Sunday. Cut the bones and take them off both ends of the roast, and a vegetable stew may be had again Monday, and the rest the next three days. So on, with the other meats provided for the different weeks. It is possible and advantageous to use fish twice during the week. Scalloped fish makes an excellent fish occasionally.

Of course, the menu that is prescribed above is meant for dinner only, whether served at noon or at night. It is for the man with a limited income, say from \$18 to \$30 per week, where the wife does her own work. For those of smaller incomes perhaps roast sirloin is too expensive and also roast lamb. Then rib or rump roast and mutton may be substituted. A slice of cold roast beef or lamb will be acceptable in the morning often with the egg.

Cold corn beef for an excellent dish to keep in the pantry in case of unexpected demand. It makes a good relish at night with supper if that meal is served instead of dinner.

Mocha Gems.

Cream two teaspoons of butter and one of sugar, add one egg well beaten. Mix one cup of coffee and half a cup of milk, add it alternately with one and one-half cups of flour mixed and sifted with one and one-half teaspoons of baking powder and one-half teaspoon of salt. Then beat in one cup of rolled oats. Pour into hot buttered gem pans and bake twenty minutes in a hot oven.

Cocoanut Pudding.

In one quart of boiling milk gradually stir three-fourths cup farina. Let this boil 15 minutes, then add one cup cocoanut and three well-beaten eggs stirring briskly to prevent egg curdling. Butter a melon mold and line with fine bread crumbs, pour the mixture into it and place in a pan of hot water and bake in a moderate oven three-fourths of an hour. Serve hot with wine sauce.

Use a Mop Wringer.

An invaluable household assistant especially at house-cleaning time, is the mop wringer. It makes the difference between work and drudgery. Fitted on the side of the pail, it wrings just by drawing back a handle, saving strain on wrist and back, and aiding in keeping the hands in good condition.

Waldorf Salad.

Cut equal parts of celery and apples in one-half inch pieces and dress with mayonnaise sauce or French dressing.

To Clean a Lace Yoke.

Lace yokes can be cleaned without removing them from the dresses in the following manner:

Moisten raw starch with cold water until it forms a thick paste, and apply this to the lace. When it has dried, brush the starch from the yoke and the lace will appear like new.

Braised Celery, Milan Fashion.

Arrange celery on a dish, sprinkle with grated Parmesan cheese, pour over melted butter, and bake in a brisk oven to a light golden hue.

Stung.
"How soon do you start on your trip to Europe?" asked a man of a friend he chanced to meet one morning.
"I had to give it up," replied the other.
"Why so?" inquired the first.
"Well, you see," said the man, "my wife went and ordered her clothes for the trip, and when the bills were paid there was absolutely no money left to go with."

Undesirable Neighbors.
"There's a foreign couple living in the flat next to us, and they are simply torment to my wife."
"Why so?"
"They quarrel incessantly, and she can't understand a word of it."—Louisville Courier-Journal.

IT'S HARD TO WORK
It's torture to work with a lame, aching back. Get rid of it. Attack the cause. Probably it's weak kidneys. Heavy or conking work is hard on the kidneys, anyway, and once the kidneys become inflamed and congested, the trouble keeps getting worse. The danger of running into gravel, dropsy or Bright's disease is serious. Use Doan's Kidney Pills, a fine remedy for backache or bad kidneys.

TREATMENT OF FLESH WOUND

Method of Value to Every Owner of Stock Is Given by Prof. G. H. Glover of Massachusetts.

The following treatment of flesh wounds by Prof. G. H. Glover of Massachusetts is of value to every owner of stock, as he is a recognized authority. The ordinary wound will heal if not interfered with. This interference may be from germs, parasites meddling with the wound, on the part of man or the animal itself. The first thing to do, of course, would be to stop the hemorrhage. This can be accomplished by a tight bandage of clean, white muslin applied either over the wound or above it. A thread may be run under the artery by using a needle and tied. Do not use flour, dirt, cobwebs or anything of that sort on the wound; they are unnecessary and may produce dangerous infection. Having checked the bleeding remove the clots of blood and cut off the ragged edges of tissue with clean shears. A pan of antiseptic solution should be provided, and one of the best antiseptics on the farm is creolin. Add a teaspoonful of this to a pint of water that has been boiled and use it on the wound two or three times a day. Place the knife, shears, etc., in this solution and wash the hands before beginning to dress the wound.

See that there is good drainage from the wound and do not tie the wound up with covering of any kind. In about one week it may be well to change to dry dressing. In the meantime it will be well to get in communication with some skilled veterinarian who will advise you in the case from time to time. I do not mention sewing up the wound for the reason that in ragged cuts it is better not to do so. Remember that the principal thing is to get the wound healthy at the start and then it will heal with very little interference.

**DAIRY EXHIBITS
GREATEST EVER**

Michigan State Fair Will Have Mammoth Exhibition.

HAS EDUCATIONAL FEATURES

Supt. Marston Arranges for Interesting Demonstrations and Lectures by Experts—How to Stop Leaks Through Advanced Management

"City folks, and even some farmers, little realize how prominent the cow is in producing farm wealth," said T. F. Marston, superintendent of the Dairy Department of the Michigan State Fair.

"Statistics compiled by Sec. Wilson of the United States Department of Agriculture show that in 1912, dairy yield was almost staggering in its hugeness," continued Mr. Marston.

"For instance the dairy yield was just twice as valuable as the oat crop, equal to the hay crop, while the entire wheat for 1912 was only worth three-quarters as much as was the dairy wealth. Sec. Wilson estimated the country's wealth in this respect in 1912 was \$330,000,000.

"We are already sure of filling the space allotted to our department at the Fair and I have been attempting to get General Manager Dickinson to apportion of some additional room for the dairy exhibit. Manager Dickinson fully appreciates the significance attached to this department and will do everything possible to secure more comprehensive quarters.

Will Demonstrate.
"We propose to go into the demonstration work this year as extensively as possible. It isn't theory the farmer wants, but actual demonstration of the results of research and investigation. We will endeavor to show the dairyman the results of feeding, breeding and caring in the composition of the milk. How pasteurized cream will conserve butter and make it more healthful to the consumer. By this, and other methods, we hope to educate the consumer to a keener appreciation of advanced dairying and be willing to pay the additional cost when he sees the results.

"We will have some investigations and exhibitions of European cheese making. How the foreigners get such fine results. For years Americans have been under the impression that the best European produced cheeses cannot be made in America successfully. This is merely an opinion and not a fact. We will have exhibitions of all sorts of choice cheeses at the Michigan State Fair this year that will compare with anything of their kind in the world.

"Experts in the employ of the United States Agricultural stations throughout the country estimate that no less than \$8,000,000 was tossed away last year as the direct result of mismanagement of creameries. Improved methods and systems of management will be shown at the Fair. This will tend to improve quality as well as the quantity of the output.

"In conclusion I might say that while past dairy exhibits at the Michigan State Fair have been far from ordinary, the 1913 exhibition will be a classic in every detail."

SPECIAL FAIR DAYS ANNOUNCED

While the special days at the 1913 Michigan State Fair remain practically the same as to order and name still General Manager Dickinson intends to make each date more distinctive of its name than ever before. For instance on Grange Day and Gleaner's Day he proposes having the guests of the occasion addressed on topics which interest them by experts in their line.

Old Soldiers will be invited to attend the Fair as guests of the management any day during Fair week.

The following is the order of the feature days:
Sept. 15, Children's Day; Sept. 16, Gleaner's Day; Sept. 17, Grange Day; Sept. 18, Canadian Day; Sept. 19, Detroit Day; Sept. 20, Automobile Day.

YOUR LUNGS AND THROAT.

What Mrs. White says about Wilson's Preparation of Hypophosphites and Bledgett For ALL LUNG and THROAT TROUBLES.
Dimondale, Mich., Sept. 9, 1912.

Dear Mr. ABBOTT:
It is now 47 or 48 years ago that I first used Mr. Wilson's Remedy for the Cure of Consumption, which disease was fast fastening its fangs upon me. I was sick about nine months before I heard of the medicine, and I was so anxious to try it. It was the first medicine that helped me. The Doctor's medicine did me no good. In a few days I could breathe easily, and I got better right along, and used but two packages. About eight years ago I was running down fast. I got some more of the medicine, and used it for a tonic, and it was a wonderful medicine to build up on. I cannot praise it enough. THERE WOULD BE NO USE OF SO MANY PEOPLE DYING WITH CONSUMPTION, IF THEY COULD BE PERSUADED TO TRY THE WILSON REMEDY.
I wish you success. You can use my name and testimony if you like. Yours most truly,
MALINDA A. WHITE,
Route 3, Dimondale, Mich.
