No. 22

## Howell Man Dies Suddenly at Ball Game

C. E. VanKeuren, landlord of the Hotel Livingston, of Howell, dropped dead of apoplexy at this place last Wednesday afternoon. He had brought the Howell high school team over here to play ball and as he was leaving the grounds something went wrong with his auto. He got out to remedy the trouble. As he was leaning over for this purpose he suddenly straightened up and remarked that his heart was troubling him. A moment later his form stiffened and those who were near could see that it was something serious which was the matter. He was helped to a seat on a bank of earth near by and those present did what they could in the way of chafing his arms, etc. As he grew worse Sheriff Wimbles who was in the crowd, took vigorous measures to restore him and it was at first thought he would succeed as Mr. VanKeuren gasped several times. Dr. Sigler who had been summoned, responded very quickly but the patient was gone before he arrived.

The remains were taken at once to the local undertaking rooms, after which the news of his death was telephoned to Howell. Undertaker Schnackenburg of that place came at once and took home the remains. A. H. Flintoft drove home the car with the party who came over with Mr. VanKeuren.

Mr. VanKeuren was one of the most popular residents of Howell and is well known among travelers all over the state. He was 56 years old, and is survived by his widow and one son.

## Good Roads are Desired

A good country road is always to be desired and is a source of comfort and convenience to every traveler. Good roads attract population, as well as good schools and churches. Good roads improve the value of the property, so that it is said a farm lying five miles from market, connected by a bad road is of less value than an equally good farm lying ten miles away from market connected by a good road. A larger load can be drawn by one horse over a good road than by two over a bad one. Good roads encourage the greater exchange of commodities between one section and another.

## J. Church

Graduate Optometrist, of Howell, Mich., will be in Pinckney, Thursday, June 5th, at the Hotel Steadman. Mr. Church guarantees a perfect fit. All headache caused by eye strain absolutely corrected. Consultation and examination free of charge.

## Notice

During the months of June, July and August, the Unadilla Mills will grind feed only on Tuesday, Thursday and Saturday of each week. A. J. Gorton.

## For Sale or Rent

Good store building on Main street.

W. E. Murphy, Pinckney

Kodaks and supplies at Meyer's drug store.

## An Easy Victory

Another good ball game was played here last Wednesday afternoon when the P. H. S. ball team defeated the strong Howell High by a score of 9 to 3.

The Howell Republican in last week's issue, says that Howell has undoubtedly one of the fastest high school teams in the state this year, but the writer evidently has not had the pleasure of witnessing our boys in action or he might have changed the reading of that item.

A good bunch of Howell rooters were in attendance and rooted bravely under the direction of Mr. Emil Bode and his cow-boy Stetson. The two home runs by Harold Swarouth, seemed to dampen their enthusiasm, and the Stetson and its owner retired to a less conspicuous position than the coaching lines. Query:—Who was the Hoodoo, Bode or the hat?

## Real Estate Transfers

Sarah Jane McGlynn to James E. Dennison, land in Hamburg for \$3600.

James A. Green and wife to Charles E. Skinner and wife, land in Howell for 1850.

Daniel Ratz to Isaac S. Lewis land in Marion for \$3000.

Frod A. Howlett and wife to Donald McCorney and wife, lot in Gregory for \$700.

George A. Abbot and wife to Jennie G. Hall, land in Marion for \$3000.

Amanda D. Inslee to A. B. Greer and wife land in Hamburg for \$600.

Elmer McGee and wife to E. M. McDanjels and wife, land in Unadilla for \$100.

Albert M. Roche and wife to Moses T. Lyon and wife, lot in Pinckney for \$700.

Nettie M. Vaughn to Wm. and Anna Kennedy, lots in Pinckney for \$40.

Mrs. Anna Griffith visited several days with friends in Unadilla the past week.

The Putnam and Hamburg Farmers Club will meet Saturday, May 31, at the home of Mr. and Mrs. B. Hooker. Topic for meeting, Improvements in Country Life, discussed by Mrs. Geo. VanHorn and Mrs. Clyde Dunning.

# ROYAL BAKING POWDER

**Absolutely Pure**

The only Baking Powder made from Royal Grape Cream of Tartar

NO ALUM, NO LIME PHOSPHATE

## Local News

Dr. H. F. Sigler was in Ann Arbor last Friday.

Frances Harris of Detroit was home over Sunday.

Miss Leona Heine was a Brighton visitor last Saturday.

Miss Virgiline Teeple is spending a few days with Mr. and Mrs. R. Kisby of Hamburg.

Mr. and Mrs. Chas. Buxton of Ypsilanti were Friday guests at the home of Arthur Vedder.

One wonders what railroad presidents will do with the stockholder's money now that they can no longer contribute fortunes to campaign funds.

The St. Mary's church here was bequeathed \$5,000 approximately, by the late Mrs. M. Farley. At this writing there is considerable talk that the church will build a Catholic school, although nothing definite has as yet been decided upon.

We call the attention of our R. F. D. readers to the extraordinary Combination Offer made in another column. The Dispatch has been successful in making arrangements with the publishers of The Detroit Journal for yearly subscription rates so that we might present a positive subscription bargain for your consideration. Both old and new subscribers may avail themselves of this offer. Look over the advertisement carefully and send in your order.

## School Notes

Thomas Moran, William Jeffries and Walter Cook visited school Tuesday.

Gregory McCluskey spent part of last week in Detroit.

R. H. Potterton was a Jackson visitor Tuesday and Wednesday of this week.

Mary Fitzsimmons and Eva Docking visited school Thursday.

Mary and Irene Antoine are in school again after several weeks absence.

## Board of Review

The Board of Review of the Township of Putnam, will meet at the Town Hall in the Village of Pinckney, on Tuesday and Wednesday, June 3-4, and also on Monday and Tuesday, June 9-10, from 9:00 a. m. until 4 p. m., to review and adjust the assessment of said township.

Dated, May 27, 1913.

Jas. M. Harris, Sup'r.

Read Meyer's adv. this week.

Mr. and Mrs. Crawford, Mrs. Birkenstock and Miss Lois Birkenstock of Brighton were Pinckney callers the first of the week.

The ladies of the Cong'l. church will serve home-made ice cream at their hall, Saturday afternoon and evening, May 31. Baked goods for sale at the same time and place.

## WANT COLUMN

Rents, Real Estate, Found Lost, Wanted, Etc.

## A WOMAN'S WORK In The VEGETABLE GARDEN By EVA RYMAN-GAILLARD

Fresh Vegetables, Fragrant Flowers, the Glories of the Garden.

Nine really profitable vegetable gardens out of ten are made under the supervision of a woman, if she does not do the actual work, and the best gardens the writer ever has seen were both made and cared for, from start to finish, by women, and for that reason the hints to follow are given with a woman's garden in mind.

It would be impossible to urge the small garden and a close succession of crops too strongly, and it is being urged from a full knowledge of what has been done, and not from a mere theory. Make the soil rich enough, and the rows of vegetables may be so close together that using wheel cultivators and similar tools will not be possible; the tops will quickly cover the soil, and by shading it and preventing evaporation, keep it cool and moist; the useful plants will crowd out weeds, or smother them, and the rich soil not only provides for quick, tender growths as a first crop, but insures the same plentiful supply of plant food for the later plantings.

Because a plain description of work done is the best way of giving help, no apology is made for telling how a near neighbor gets more, and finer, vegetables from a garden not larger than twenty-five by fifty feet than most gardeners get from three times that space. Her first work is the preparation of the soil.

Using a spading fork, she digs a deep trench the length of the garden and fills in old, thoroughly rotted manure (bringing from the barnyard in wheelbarrow or cart) to a depth of several inches. This done, she digs another trench and throws the soil over from other rows, and what is thrown from the first one is used wherever needed around the place.

Should a list of vegetables grown in this little garden be given, it would surely be called an exaggeration, if nothing worse, by those who have never tested close-cropping, on soil well supplied with the elements needed for quick production, and made available by the underfed method. Such soil-preparation must be supplemented by a good selection of whatever vegetables are to be grown, and a suggestion or two may help in choosing them.

For example: Let the first planting of peas include both early and late sorts, and as soon as the early ones are done producing freely, plant more of the same sort, and they will be ready for use by the time the later variety is gone. The succession is more helpful to the cook, who is probably the gardener as well, than more than she knows what to do with at one period and none later in the season.

Lettuce may be sown every month from early spring until August, and the product of different sowings will supply young and tender leaves all the season. Sowing less at a time and oftener is the best plan for the home garden.

Radishes, too, are good repeaters, but rarely do well during midsummer. Early and late crops are more enjoyed, because of the intervening time when they do not appear on the table. A few hills of cucumbers will furnish the table with early ones, and the main crop for pickles can be sown later.

In my own garden, I make the hills among the early potatoes, and plant the seed before the potatoes are dug, which gives them time to get started and be ready to vine as soon as the space is cleared for them. Turnips may follow an earlier crop, and the list might be continued indefinitely, but the one general rule that quick-growing, early maturing varieties may be made to furnish a succession, will help each to select for double cropping the vegetables best liked by the family.

Some kinds of seed must be started in a hot-bed, or in the house, and be transplanted once or twice to get sturdy plants ready for the open garden, and among these we have cabbage, cauliflower, tomato, pepper and many others. If, however, early crops

are not aimed at, these may be sown in the open as soon as the season of frosts is over, or a little before, if care is taken to protect them on suspiciously cool nights.

The time when outside sowing, or transplanting, may be done with safety cannot be given here, for leaving the difference in season out of the question, the southernmost gardeners might be able to sow and plant weeks earlier than those farther north, but there is one thing that all, regardless of location, should do, and that is to take every precaution to secure good seeds.

If really interested in having a good garden, do not fail to get at least one good catalogue each year; for knowing what's what in the way of improved varieties or new productions means plain dollars and cents to the gardener, as well as added interest in the work.

When making out your order, remember that while certain varieties of the different vegetables were the best possible to grow a few years ago, they have been improved in many ways, and search the catalogue for the last word concerning such improved varieties. As an illustration: A few years ago little was heard of chicory (often called succory), except as the roots were used as a substitute for coffee; a little later an improved type appeared, which was valued for the fine leaves, to be used as a salad plant, under the name of endive, and now we have it with leaves beautifully marked with pink, and called "rose-striped chicory," or "orchid salad plant." Again, the green kale has been improved to the point where we can have it with the leaves marked with white, pink and crimson, for use as a garnish.

Another thing the catalogue does for the gardener is to call attention to absolutely new things. The department of agriculture experimented with the Japanese Udo for a long time, but the general public knew nothing of it until it was listed in the catalogue, with both cultural directions and recipes for serving.

Improvements are not in unusual varieties alone, but are constantly being made in the commonest sorts. The peppers of a generation ago were few in varieties, while today they range from the tiny hot ones to those of giant size that are so meaty they may be sliced and fried, and so sweet they are delicious when eaten raw, or more delicious in a pepper sandwich. The solid, meaty, few-seeded tomatoes of today are little like the watery ones of a few years ago, and so the improvements might be followed through every class of vegetables, and show either better quality, earlier or later bearings or some other improved feature to influence the gardener's selection.

Few women take time and trouble to prepare a hotbed, though it will serve a double purpose by being later on, usable as a cold frame. It is well worth while to make one, even though small and of the crudest description, but if none is provided for, be sure that a good supply of the shallow boxes, known as "flats," are ready for use in the house during the seed-starting season. The boxes may be of any length and width convenient to handle, or suited to the space that can be given them, but a number of small ones are easier to manage than a few large ones.

Some seeds are slower to germinate than others, and need different conditions of light and warmth, and if but one or two similar varieties are in a flat, they can be moved to stronger light and a cooler place, when the change would ruin the advanced ones. To move these where it was too warm and not light enough, would be to make them so spindling that no after care could overcome the defect.

The flats need not be over two inches, or they may be three or four. In the first case, half an inch of drainage material under an inch of very fine soil gives a fine seed bed. The deeper boxes, with an inch of

drainage under three inches of soil, make fine beds for the tiny seedlings when first transplanted. These deeper ones also make good trays in which to set thumb pots, if these are used, as the soil, sand, or whatever is used around them may be kept moist, and so keep the soil in the pots from drying out by evaporation.

Fill the flat; dampen the soil; press it down firm and smooth, and set aside until the next day before sowing the seed. Warmth (preferably bottom heat) and a slightly moist bed are the only essentials for seed germination, but as soon as the little plantlets are developed, they need plenty of light, though not a wilting-hot sunlight, until they get stronger. If the plantlets come up badly crowded, pull up a few, as crowding, next to overwatering, is the most common cause of "damping off." Transplant as often as is necessary to keep the plants strong and stocky, until they can be planted out. Usually, a couple of times is sufficient, but if the seeds were sown very early, or the season proves cold and backward, a third shift may be needed; but, my word for it, the final results will pay well for the trouble.

When the time comes to put the plants in the beds, be sure that the soil is well raked, free of lumps and stones; make the holes or trenches; fill water into them, and then set the plants with as little disturbance of the roots as possible. Bring the wet earth around the ball of roots, and then draw a mulch of dry soil over it. The dry soil holds the moisture under it, and when treated in this way, the plants rarely need shading, especially if the transplanting can be done towards evening.

By the time it is safe to set the plants out the first crop of bugs will be found ready and waiting for them. The experienced gardener is expecting them, and has put in a supply of ammunition, and has the guns loaded ready for the fight, realizing that the ounce of prevention is worth pounds of cure. Order a supply of insecticides with the seeds, for there is absolutely no chance of their not being needed.

If striped beetles attack the cucumber and other vines, and no other remedy is at hand, sprinkle the plants and the soil all around with pepper mixed with flour or fine dust. It is a wiser plan to use the remedy before the enemy appears. When plants wilt down without apparent cause, examine the roots of a few and see if blue or black aphid can be found. If so, make a strong tobacco tea and pour around the plants until the soil is soaking wet to the depth of the longest root. After a day or two make another examination, and if found necessary, give another dose of the tea.

Cut-worms are quickly located by the work they do, and are easily found by digging around the stalk of the injured plants. The big, greasy things are about the color of the soil, but one looking for them will not miss them. If hunting and killing is too tedious, then soak the ground with kerosene emulsion. Early morning is the best time to hunt them, as they go deeper into the soil during the day.

When weeds have been fought all summer, it is poor policy to stop and let them run riot to fill the soil with seeds to be fought the next year. When the last table crop has matured and been used, rake the soil level and sow cow peas, turnips, rye or anything that can be turned under in the spring and be a help to the soil—anything to crowd out weeds.

Moisture is another consideration with the gardener, but the soil that is well underlaid with fertilizer will withstand a "dry spell" that would ruin a poor, dry one; for plants growing in it strike their roots deeply, and so draw their supply from deeper down. When the hot, dry days of midsummer come, stirring the surface soil frequently prevents evaporation, and saves the moisture in the soil for the plants.

Grass clipping or similar stuff spread as a mulch will serve the same purpose, but if the time comes when the applying of water is positively necessary, don't, as you value the garden, do any shallow watering. Give each row a soaking, or let it alone, for the surface watering that calls the roots near to the top of the soil is worse than none at all.

Have plenty of tools and keep them all together. If regulation tools are not easy to work with, think out something that will be more so.

(Copyright, 1912, Shultz Syndicate Press.)  
**Important News.**  
From well authenticated sources, says a writer in Lippincott's, we learn that the Sultan of Turkey does not care for the tune, "Onward, Christian Soldiers."

## SPECIAL TO WOMEN

Do you realize the fact that thousands of women are now using

# Paxtine

A Soluble Antiseptic Powder

as a remedy for mucous membrane affections, such as sore throat, nasal or pelvic catarrh, inflammation or ulceration, caused by female illa? Women who have been cured say "It is worth its weight in gold." Dissolve in water and apply locally. For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women.

For all hygienic and toilet uses it has no equal. Only 50c a large box at Drugists or sent postpaid on receipt of price. The Paxton Toilet Co., Boston, Mass.

### Reasons Therefor.

"Mrs. Prim's dear little house looks good enough to eat."

"That is because she keeps it in apple pie order."

### But She Hadn't.

"What's the matter, old chap? You look as if you hadn't had a wink of sleep all night."

"I haven't. You see, my wife threatened never to speak to me again if I didn't come home last night before ten o'clock, and I didn't."

"I see; you're finding out the loneliness of solitude because she kept her word, eh?"

"Not by a jugful. I wish she had."

### "At Home" Days.

Edith and Jack were at a loss for a game.

"Let's play at being 'at home' and have a day," said Edith.

"A day?" asked Jack. "What does that mean?"

"Why, don't you know?" said Edith wisely. "All fashionable people have 'days.' God's day is Sunday and mother's is Tuesday."

### Mr. Winkle's House to Go.

Two buildings in Birmingham associated with Dickens have been demolished, and a third, Mr. Winkle's house, is being pulled down.

When Mr. Pickwick asked the waiter at the Old Royal where Mr. Winkle lived he replied: "Close by, sir; not above 500 yards, sir. Mr. Winkle is a wharfinger, sir, at the canal, sir." And Mr. Pickwick found in "a quiet, substantial looking street stood an old red brick house with three steps before it, bearing in fat Roman capitals, the words, 'Mr. Winkle.'"—Pall Mall Gazette.

# WOMAN COULD NOT WALK

She Was So Ill—Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Pentwater, Mich.—"A year ago I was very weak and the doctor said I had a serious displacement. I had backache and bearing down pains so bad that I could not sit in a chair or walk across the floor and I was in severe pain all the time. I felt discouraged as I had taken everything I could think of and was no better. I began taking Lydia E. Pinkham's Vegetable Compound and now I am strong and healthy."—Mrs. ALICE DARLING, R. F. D. No. 2, Box 77, Pentwater, Mich.

Read What Another Woman says: Peoria, Ill.—"I had such backaches that I could hardly stand on my feet. I would feel like crying out lots of times, and had such a heavy feeling in my right side. I had such terrible dull headaches every day and they would make me feel so drowsy and sleepy all the time, yet I could not sleep at night.

"After I had taken Lydia E. Pinkham's Vegetable Compound a week I began to improve. My backache was less and that heavy feeling in my side went away. I continued to take the Compound and am cured.

"You may publish this if you wish."—Miss CLARA L. GAUWITZ, R. R. No. 4, Box 62, Peoria, Ill.

Such letters prove the value of Lydia E. Pinkham's Vegetable Compound for woman's ills. Why don't you try it?

## Get a Canadian Home In Western Canada's Free Homestead Area

**160 ACRES**  
**FARMS IN WESTERN CANADA**  
**FREE**

**THE PROVINCE OF Manitoba**

has several New Homestead Districts that afford rare opportunity to secure 160 acres of excellent agricultural land FREE.

**For Grain Growing and Cattle Raising**

this province has no superior and in profitable agriculture shows an unbroken record of over a quarter of a Century.

Perfect climate; good markets; rail ways convenient; soil the very best, and social conditions most desirable.

Vacant lands adjacent to Free Homesteads may be purchased and also in the older districts lands can be bought at reasonable prices.

## Practical Fashions

MISSIE'S STREET COSTUME.

This nifty one piece dress can be worn by small women as well as by young girls, for whom it is especially designed. It has a very pretty blouse with drop shoulders and plain sleeves, intended to be either full length or elbow sleeves, and a handsome sailor collar to finish the neck. The blouse is also arranged to be worn with a high neck and standing collar, and in this case it has a side front closing.

The pattern (6191) is cut in sizes 14, 16 and 18 years. Medium size requires 3 1/2 yards of 44 inch material, with 3/4 yards of insertion to trim, as shown in our illustration.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

FOR A LITTLE MAID.

This dainty little frock will be just the thing for a warm weather garment for a little maid of six or less. It has a novel feature in a bodice which has sleeves and shoulder all in one without any dividing seam. Fullness is provided by clusters of tiny tucks, which outline the neck opening and run down only an inch or two. The lower edge of the very short bodice is gathered and finished with a belt to which the gathered skirt is also attached. The lower edge of the skirt is finished with a ruffle. White is, of course, the daintiest material for the dresses of little people, but it entails a great deal of laundering, and the pale tinted ginghams, of soft flannel, and the cotton crepe fabrics and the like will all be found very pretty.

The frock pattern, (6175) is cut in sizes 2, 4 and 6 years. Medium size requires 2 yards of 36 inch material with 4/5 yards of insertion and 4/5 yards of edging to trim as shown.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

## FOR THE WARM DAYS

NOW IS A GOOD TIME TO FIX UP PORCH FURNITURE.

Demands a Little Time and Trouble But Effect Is Well Worth While—Best Method of Staining New Articles.

It is time to get out the porch furniture. This sounds like a task easily accomplished, but in reality it entails a good deal of work. The furniture cannot be just lugged down from the attic or up from the cellar and deposited as it is on the veranda. It must be cleaned and freshened up. Some of it needs a new coat of stain or enamel, some of it needs new cushions. Perhaps it must be replenished, and that means careful shopping.

To begin with the cleaning, this can best be done out of doors, with a garden hose and plenty of hot water. For each chair have a pailful of hot suds, softened with borax. Apply this to the seat of the chair with a stiff whisk broom, and scrub it about vigorously. Then scrub the back, sides and under part of the chair in the same manner. Dash whatever suds remain over the chair, and then rinse it with plenty of fresh, clean water from the hose. Clean tables and all other pieces of furniture in the same way, and let them dry out of doors in the sunshine, or else near a fire.

The cleaning process described may brighten the furniture sufficiently so that no additional stain or paint is needed. If the furniture does need a fresh dressing apply the finish decided on without scraping off the old paint. The result will not, of course be perfect, but it will be sufficiently good to make the time saved seem worth while. Most porch furniture is hardly valuable enough to spend hours over with sandpaper and paint removers.

New furniture should be carefully stained or enameled. It can be bought, of course, already colored, but as the price of most articles is a dollar less when they are uncolored, and the work is easy to do and pleasant any cheap, it can advantageously be done at home. Enough varnish, enamel or stain for a chair or moderately large table costs from 15 to 25 cents.

Many decorators now give willow furniture a dull instead of shiny finish. To accomplish this apply a flat finish oil stain. Put it on evenly and allow the first coat to dry before putting on a second.

If the stain is not dark enough when it has dried a second coat can be put on without danger of cloudiness, stickiness or thickness.

Another way to get a dull finish is to put on a varnish stain and rub it in as you put it on with a cotton cloth. This method makes the stain dry dull.

### Salad Francois.

Chop fine a bunch of parsley, two shallots and half a dozen anchovies. Lay them in a bowl and mix with then salt and mustard to taste, two table spoonfuls of salad oil, and a gill of vinegar. Stir all well together and then add, two or three at a time, some very thin slices of cold roasted or broiled meat, not more than three or four inches long. Shake the slices well as they are put in the dressing. Cover the bowl closely and let it stand for three hours before serving. Served garnished with parsley and some slices of the meat, with a little fat on them.

### Cheese Cake.

Take two quarts sour milk, pour into a cheesecloth bag and let drip 2 hours, after which time turn it into a dish and season with salt, adding one cup thick cream. Then add one cup sugar, four eggs, one tablespoon melted butter, one-half cup cream or milk and currants. Mix ingredients well and bake in a deep pie plate lined with rice puff paste.

### Lemon Toast.

Take the yolks of three eggs, beat them well and add one and one-half cup sweet milk; take bakers' bread (not too stale), and cut into slices; dip them into the milk and eggs and lay the slices in a spider with sufficient melted butter, hot, to fry a nice delicate brown; take the whites of the three eggs and beat them to a froth, adding a half cup of white sugar; add the juice of one lemon, beating well, and serve over the toast as a sauce and you will find it a very delicious dish.

### Lyonnais Potatoes.

Melt one tablespoonful of butter in a spider, add one tablespoonful each of minced onion, vinegar and water; fry until the onion is tender; now add one pint of diced cold boiled potatoes and stir until somewhat browned; add one level teaspoonful of parsley and serve.

### New Weapon.

Blaks had an idea. Taking the phonograph horn he attached it to the vacuum cleaner. "Now," said he, "let your size come on!"

Tramp Defrauded Lawyers. Four Ananimitors (Carmarthenshire) solicitors were alleged to have been duped by George Sullivan, otherwise Murphy Finnegan, a laborer on tramp, who was recently committed by the magistrates for trial on charges of obtaining money by false pretenses. Representing that he had been knocked down by a motor car, he asked, it was stated, each of the solicitors to act for him in a compensation claim, and they all gave him money when he told them he was penniless.—London Mail.

### Wives Like Unto Job!

At a dinner party in New York not long ago the talk turned on the virtue of patience as personified in the patience of Job.

At this a French woman at the table exclaimed with comic pathos: "Talk about the patience of the late Monsieur Job! Any woman is entitled to a like immortal reputation who has ever had a husband at home with a cold in his head!"

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue. Adv.

### During the Family Grouch.

Mr. Snapperly (reading)—Man commits suicide by jumping off ferry-boat.

Mrs. Snapperly—Just like a man! Why didn't he jump off a dock and save 2 cents?—Puck.

Genuine must bear Signature

*W. D. Wood*

W. N. U., DETROIT, NO. 22-1913.

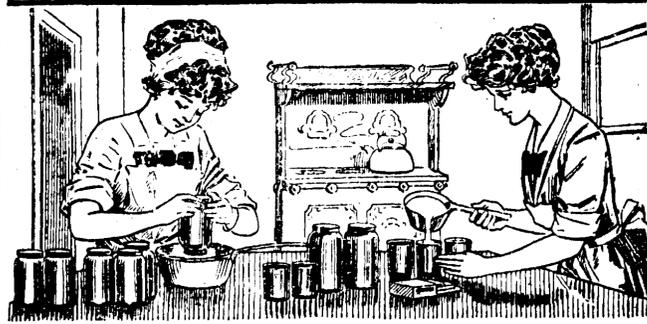

## The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only if it is unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## Preserving, a Pleasure —with Parowax

Dip tops of jars and catsup bottles in melted Parowax. Or pour this pure paraffin directly on top of contents of each jelly glass. Result—a perfect, air-tight, mould-proof seal that keeps canned vegetables, catsup, chow-chow, preserves and jellies indefinitely.

### No Tins or Tops Needed

It is even simpler than it sounds. It is as cheap as it is easy. No bother with tops that will not fit. Not even paper covers need be used. The direct contact of Parowax with the jelly cannot affect its taste or goodness. Parowax is tasteless and odorless. It is so thoroughly harmless

that it can be chewed like food or gum.

### Indispensable in the Laundry

Parowax cleans and whitens clothes in the wash. It imparts a beautiful finish to them in the ironing. And Parowax has a hundred other household uses. No home should be without it. Your druggist and grocer both keep Parowax. Order it today.

# LOCAL NOTES

R. A. Vandercook of Lansing spent Sunday here.

Ross Read transacted business in Ann Arbor last Friday.

Dr. Bernard Glenn of Fowlerville was in town Sunday.

Mrs. F. G. Jackson visited her parents in Stockbridge last week.

Helen Reason spent a few days the past week at Whitmore Lake.

Monks Bros. are shipping two car load of potatoes to Southern points.

Charles Kennedy and Albert Dinkel spent last Friday in South Lyon.

Elizabeth Harris of Howell spent the first of the week with Anna Lennon.

Miss Norma Vaughn visited her sister, Mrs. R. Kiskby of Hamburg, over Sunday.

James, Harry, Clara and Mae Morgan of Detroit spent Sunday with Mrs. A. Harris.

Dr. Harry Haze and wife of Lansing visited at the home of Dr. C. L. Sigler Sunday.

Mrs. Emma Moran and Mrs. Amanda LaRue were over Sunday guests at the home of Fred Teeple.

R. E. Kearney of Elkton, S. Dakota, has been visiting his mother, Mrs. Margaret Kearney who has been quick poorly the past few weeks.

E. A. Bowman, proprietor of Howell's Busy Store, has sold his stock of goods to W. D. Adams of Ann Arbor who took possession last Tuesday morning.

Mrs. G. W. Teeple has returned home from Washington, D. C., where she attended the graduation exercises of her daughter Mae from the Martha Washington Seminary.

A meeting of the State Board of Health, called for the purpose of conducting an embalmers' examination, will be held in the University Medical Building, Ann Arbor, July 9, 10 and 11, 1913. The examination will commence at 9 o'clock, Wednesday morning, July 9.

The doors of the L. H. Westphal & Sons' hardware store were closed Monday night. Too much credit business is given as the cause of the failure. It is said the liabilities are heavy and the assets comparatively small, so that when the bankruptcy proceedings are finished the creditors will get but a small per cent.—Brighton Argus.

A tramp came into the office the other day and asked us to save all the street car transfers we got hold of for him and to mail them to him at the next place he expected to be in. Being somewhat curious to know what good old transfers would be to him we asked him what he wanted them for and this is what we got: He said he wanted to eat the dates and drink the punch.—South Lyon Herald.

The commencement exercises of the Pinckney high school will be held at the opera house, Thursday evening, June 19th. The class consists of 13 members and are as follows: Margaret G. Brogan, L. Agnes McCluskey, Ward W. Swarthout, Earl A. Tupper, Lottie M. Bland, Gregory E. McCluskey, Myron W. Dunning, Harold G. Swarthout, Carmen J. Leland, Ella C. Pich, Josephine M. Culham, J. Ruth Potterton, Ruth W. Clark.

Fr. Coyle was a Monroe caller last Thursday.

Mrs. Aubrey Gilchrist and son were Gregory visitors last week.

Mrs. Bowman spent a few days the past week with relatives in Detroit.

James Tiplady Jr. of Detroit was a week end guest of Pinckney relatives.

Mr. and Mrs. E. G. Carpenter were in Pontiac a portion of last week.

Meadames Chas. Teeple and M. Lavey were Howell visitors last Thursday.

Dr. A. B. Green and family of Jackson spent Saturday with his parents here.

Mrs. Wm. Kennedy Sr. and son Claude were week end guests of relatives in Detroit.

Mrs. H. Palmer and son of Jackson spent last week at the home of A. B. Green.

The Misses Helen Monks and Josephine Culhane were Howell callers last Thursday.

J. R. Martin is in Lansing this week attending the F. A. A. M. Grand Lodge convention.

John VanHorn, son Edward and Harold Swarthout, were Stockbridge visitors last Saturday.

When a man is down he can generally find out what the world really thinks of him—if it thinks at all.

Miss L. M. Coe wishes to thank all friends who so kindly made her birthday, May 19th, so enjoyable.

Mrs. E. T. Kearney who has been spending some time here returned to her home in Sioux City, Iowa, last Friday.

The Misses Mary Courtney and Lela Luckalew of Dexter were guests at the home of Mrs. L. G. Devereaux the latter part of last week.

Memorial Day is Friday, May 30, and it will be celebrated with appropriate ceremonies at Howell. It is expected that many from here will attend.

Miss Lulu Benham of Chilson visited friends here the latter part of last week. While here she was engaged as preceptress of the Pinckney schools for the coming year.

The extra expense of the Michigan Condensed Milk Company in shipping Howell milk to Lansing amounts to about \$6,174 per month or at the rate of about \$75,000 per year. The farmers are receiving the same price for their milk that they would if delivered at the factory.

Arrangements are already beginning to be made by the various Fourth of July committees for the glorious celebration to be held here this year. Pinckney, as far as we know now, is the only town in Livingston county that will recognize Independence Day. A big time is expected so everybody should plan to attend. More particulars including full program will be published in these columns later.

A parcel post story is going the rounds of the press and reads like this: A man wanted to send a shipment of eggs capable of producing a number of prize winning chickens, to a friend in Alaska. To make sure that the eggs would be delivered all right and keep in first class condition in the northern clime, he sent them in a patent carrier by parcel post and placed inside an asbestos warmer such as ladies use in carrying in their muffs. When the man received the parcel post package in Alaska he opened it and out jumped as fine a lot of chickens as you ever saw.

## This Cures Rheumatism

There's been a lot of scientific "guessing" about Rheumatism, but it's pretty well proved that Uric Acid in the blood is what makes the trouble.

Kidney weakness—failure to filter the blood, to rid the system of waste matter, results in the accumulation of uric acid.

The passages become clogged with deposits—this sets up an irritation which affects the kidneys and bladder and the final result is an inflammation.

When the inflammation sets in you are in serious trouble—don't allow it to go that far—get ahead of it—avoid dangerous complications—start early and use NYAL'S STONE ROOT COMPOUND.

This preparation will restore the kidneys to their normal condition, cleanse the blood of poisonous waste matter, start rich red blood coursing through your veins and keep you in excellent health.

We are not recommending a patent medicine—this is a prescription medicine composed of drugs of known virtue—we know what they are and that is why we are so sure of our ground.

Certain relief from kidney troubles—in 50c and \$1.00 bottles.

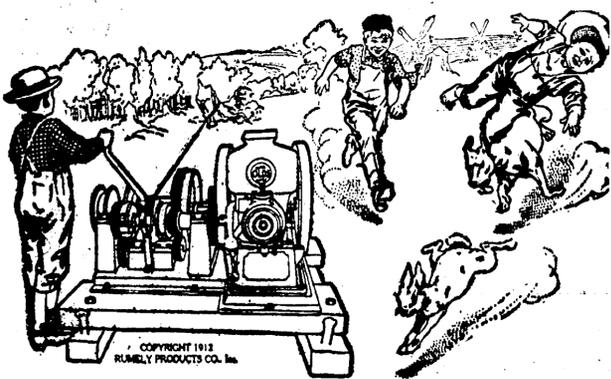

Whatever a good drug store ought to have—and many things that other drug stores don't keep—you'll find here. Come to us first and you'll get what you want.

## GREGORY.

A birthday party was given in honor of Roscoe Arnold's 10th birthday. It was a complete surprise. About 20 little people were present and all enjoyed a good time.

Rev. McTaggart has been attending the Northern Baptist Convention at Detroit.

Rev. Monks spent Sunday with the people of Gregory. He will be remembered as having preached here about 17 years ago. Everyone was glad to see him back. He is now residing in New York.

Rev. McTaggart preached the Baccalaureate Sermon, Sunday, May 25. It was very good.

Will Bronner and wife have returned to Grand Rapids.

Joe Bowen and family and Mrs. Bowen's mother, Mrs. Sharp went to Jackson via auto Sunday.

Henry Dewey, wife and children called at L. Gallups Sunday.

Carpenters are at work remodeling Joe Bowens horse barn.

Orlie Gallup and George Marshall and family were out testing their new automobiles Sunday.

Mandus Fernier and family and Frank Bates and family visited at G. W. Bates Sunday.

## \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known in the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney and Company, Toledo Ohio. Sold by all druggists, 75 cents. Take Sall's family pills for constipation.

## SOUTH IOSCO.

Wm. Harrington of Detroit and Miss Clara Harrington of Webberville spent Sunday at the home of Joe Roberts.

Mrs. Bert Roberts and daughter called at T. Wainwright's Sunday.

Miss Kathryn Lamborne returned home Saturday after spending the past week with relatives in Pinckney.

Nick Burley and family visited at Wm. Caskey's Sunday.

Martin Anderson and wife spent Sunday evening at the home of L. T. Lamborne.

Pauline and Margaret Burley are visiting their grandparents here at present.

## For the Weak and Nervous

Tired-out, weak, nervous men and women would feel ambitious, energetic, full of life and always have a good appetite, if they would do the sensible thing for health—take Electric Bitters. Nothing better for the stomach, liver or kidneys. Thousands say they owe their lives to this wonderful home remedy. Mrs. O. Rhine-vault, of Vestal Center, N. Y., says, "I regard Electric Bitters as one of the greatest of gifts. I can never forget what it has done for me." Get a bottle yourself and see what a difference it will make in your health. Only 50c and \$1.00. Recommended by C. G. Meyers.

## WEST MARION.

Earl Ward is taking treatment at the Sanitarium at Pinckney for rheumatism.

Miss Elsie Miller was a guest at the home of H. W. Plummer Sunday.

Mrs. P. H. Smith is visiting her sister in Iosco.

H. Plummer lost one of his work horses last week.

## Wonderful Skin Salve

Bucklen's Arnica Salve is known everywhere as the best remedy made for all diseases of the skin, and also for burns, bruises and boils. Reduces inflammation and is soothing and healing. J. T. Spessman, publisher of News, of Cornelius N. C., writes that one box helped his serious skin ailment after other remedies failed. Only 25c. Recommended by C. G. Meyers the druggist.

## PINCKNEY DISPATCH

ROY W. CAVERLY, Publisher.  
PINCKNEY, MICHIGAN

The per capita circulation of straw berries is increasing.

Speaking of cubists, where does our genial iceman come in?

What's the score today? makes beggar and billiouaire brothers.

Soon will be time for the crop of "rock the boat fools" to ripen.

One way to avoid cold storage eggs and chicken is to own a farm.

Own a farm so that you can snap your fingers at cold storage chicken.

One hundred years ago the silk hat was introduced. A style that never is new.

It is almost time for the sacrificial fly to be led in, garlanded with rue and swatted.

"The man with the hoe" is abroad in the land in large quantities, and overalls.

Swatting flies is about as effective as the effort to catch elephants with flypaper.

The lobster crop may be short but there's just as many persons eating crow as ever.

Meaning nothing in particular, what frequently seems to be simplified spelling is simply pled.

However, baseball was an interesting game even before percentage col umns were invented.

A St. Louis man dropped dead while starting the kitchen fire. This should be a warning to all wives.

The fact that duty on castor oil has been reduced, will be hailed with particular delight by every kid.

Hereafter, gents, always manage to have a love letter about your person. Besides producing a feeling akin to rare enjoyment, it is practically a sure means of identification in case of suicide.

An Australian city is kicking because it has been named "Canberra," which really means "laughing jackass." In kicking, the town is only exercising its natural prerogative.

Any fair minded man who will study the matter carefully and dispassionately will concede that all persons dealing in soda water by the glass should be required to keep the glasses clean.

If fashion's rule that man must wear tight clothes is carried out to the letter, let us assure you that some of us will not be seen outside the house except between midnight and dawn.

That baby show to be judged by doctors on other points than curls and cuteness, will at least give the fond mothers a chance to inquire, what do the doctors know about babies, anyway?

A Chinese assassin who killed the wrong man politely apologized to the police for his mistake. But there are times when even politeness fails to be a palliative, and this seems to have been one of them.

Fashion says woman's skirts will be worn tighter than ever this season. And then the next step in the evolution of skirts will be that which clings tightly and occasionally are seen on a chorus lady.

A Pennsylvania judge says that many upright men get drunk. But not many drunken men get upright.

Now they say that Washington not only swore, but wrote poetry once in a while. In a sort of cursory way, mayhap.

Why, women want to know, should they be required to wear protectors on the points of their hats when it would be so much easier for men to wear protective goggles, which would really improve their looks?

In Berlin they are showing pictures of how the stomach works when in active service. This is, no doubt, very interesting, but the majority are more interested in feeling how the stomach works in active service.

One young plumber was annoyed when in a New York civil service examination he was asked to define "right ascension." And yet it is easy. A right ascension is a home run hit to the fence when the bases are full.

## FERRIS HANDS OUT APPOINTMENTS

BLOOMFIELD, SHIELDS, BLACK, NAMED ON NEW COMMISSION.

WILL COMPIL AND REPRINT GENERAL LAWS.

Members of Commission to Revise and Consolidate Laws Relating to Civil Practice and Historical Also Announced.

In accordance with the provisions of an act passed at the last session of the legislature, creating a commission to compile and reprint the general laws of the state, Gov. Ferris announced the appointment of Archibald Bloomfield, of Big Rapids, Edmund C. Shields, of Howell, and C. P. Black, of Lansing, as members of the commission. Each commissioner will receive \$5,000. Bloomfield is a republican and was a member of the constitutional convention. Black is a democrat, and Shields is chairman of the democratic state central committee.

The governor also appointed Alva Cummins, of Lansing, J. Clyde Watt, of Saranac, and Mark Stevens, of Flint, as members of the commission to revise and consolidate the general laws of the state relating to civil practice. Watt is the only republican member of this board. The compensation of this board is fixed by the board of state senators.

Gov. Ferris named the following as members of the Michigan pioneer and historical commission: E. O. Wood; Flint; C. H. Vantyne, Ann Arbor; C. M. Burton, Detroit; Lawton T. Hemans, Mason; Frank O'Brien, Kalamazoo, and W. L. Jenks, Port Huron.

### Georgia Banker Is Dead.

After bravely facing for a week the inevitable result of his mistake in taking a tablet of bichloride of mercury, B. Sanders Walker, a young Macon, Ga., banker is dead. Members of the family had gathered at his bedside several days ago, when the doctors announced that was no hope for him. When the end neared, Walker gave no sign of flinching, but went to his death with a resignation that has rendered the case more than usually interesting throughout the country.

### Child Is Burned in House.

The residence of Mr. and Mrs. Joe McGee, about eight miles northeast of Lake City, was burned to the ground and their 4-year-old daughter, Margaret burned in bed before she could be rescued. A baby was thrown from a window by its mother and saved, but a 3-year-old daughter was badly burned by the flames.

Mr. McGee was absent from home at the time. The explosion of a lamp which had been left burning is believed to have been the cause of the accident.

### Church Convention at Saginaw.

Two hundred delegates are expected for the state convention of the Christian church which convenes in Saginaw the first week in June. I. N. McNaab, secretary of the American Christian Missionary society; W. R. Warren, secretary of the Ministerial Relief association of the United States; R. H. Hopkins, national Bible school superintendent, and other leading national lights of the church in this country will be here.

### Brotherhood Meeting at Cadillac.

The Congregational Brotherhood meeting at Cadillac in conjunction with the Michigan Congregational conference, elected the following officers: President, S. E. Clark, Detroit; vice president, W. T. Warren, Alpena; secretary-treasurer, H. B. Clement, Detroit. The president's report showed 47 brotherhoods at the beginning of the fiscal year, with 64 at the present time, and a gain of 789 members.

### Followed Ten Years and Killed.

After a pursuit of ten years around the world, agents of the Camorra of Italy found and killed Angelo Dejno, said to have turned traitor to the organization in Palermo a decade ago. Five previous attempts had been made to kill him. Bullets fired by three strangers, who entered a Brooklyn dance hall, where Dejno was sitting at a table chatting with friends, killed him instantly. The murderers escaped.

The thirty-ninth annual reunion of the Loomis Battery association was held at Coldwater, with 19 soldiers present. While in service this battery saw 18 battles. Murray Tilton was elected president. O. R. Root secretary and treasurer.

## PRINCESS VICTORIA LOUISE

Only daughter of the Kaiser of Germany, who was married Saturday to Prince Ernest of Cumberland, was honored by the presence at her wedding of three of the world's greatest monarchs, Czar Nicholas of Russia, King George of England and her father.

## CHAMPION KILLED IN FIGHT

Luther McCarty Dies in Ring from Weak Heart After Receiving Light Blow From Arthur Pelkey

Dramatic in the extreme was the finish that attended the boxing championship bout at the Manchester arena at Calgary, Alberta, when Luther McCarty, recognized white heavyweight champion, went down before Arthur Pelkey, was slowly counted out by Referee Smith, and then, while doctors worked desperately over him, expired outside the arena just 32 minutes later.

It was a weak heart which was largely responsible for the death of McCarty's heart had been greatly affected by the excitement and the rather light right hook which Pelkey landed two inches below the heart caused death.

The men had been boxing but one minute and 45 seconds when Luther went to the canvas.

Pelkey was heartbroken over the affair and declared that he would never enter the ring again. He was taken in custody and charged with manslaughter and later released on bail.

## PAROLE REPORT IS GOOD.

State Board of Pardons Gives Out Interesting Figures for the Past Year.

The state board of pardons in session at Lansing has made public the report of the first three months of the present year, compiled under the supervision of E. Clark Austin, new secretary of the board.

The report shows that there have been ten meetings of the board at the various prisons during the first three months of the present year, at which the cases of 418 prisoners were considered. Of this number 178 were given paroles with average lengths of 10.8 months each. During the same period there were 227 prisoners received at the various prisons under the indeterminate sentence law, or 49 more received than paroled, showing the prison population as not having increased materially during the quarter.

There are on an average 604 prisoners on parole and but 30 violated their paroles during the three months. Five per cent of parole violations is considered a low number as compared with some other states.

The elegant farm home of Rep. Jas. N. McBride, of Burton, who was the Bull Moose floor leader in the recent legislature, was burned to the ground. The loss is several thousand dollars. The fire originated from a defective chimney.

Prof. Walter H. French, of Lansing, head of the department of agricultural education at the M. A. C., has rejected an offer to become president of the New Mexico Agricultural college, and will remain at the East Lansing institution for at least another year.

John Tomko, 14-year-old son of a miner living five miles west of St. Charles, was killed by an exploding 22-calibre rifle cartridge. He was trying to put a cartridge in the gun when it exploded, the bullet entering his mouth and coming out at the left ear. Spiritualists of Battle Creek have taken an option on a site at the corner of Frelinghuysen avenue and Adams street for a new church. About \$10,000 will be spent on the building.

## PIER GIVES WAY; MANY ARE KILLED

THIRTY-THREE MEET DEATH IN ACCIDENT AT LONG BEACH CALIFORNIA

MORE THAN FIFTY OTHERS ARE SERIOUSLY INJURED

Great Throng Gathered for Celebration of Victoria Day Proves Too Much For Structure which Collapses

Too weak to uphold the burden of nearly 10,000 human beings assembled for the festivities of British empire day, the land end of the big double-decked municipal pier in front of the city auditorium at Long Beach, Cal., collapsed. Hundreds of persons on the top deck were plunged down on the heads of others, hundreds crowded on the second deck. The lower deck then gave way and all were dropped down a chute of shattered woodwork to the tide-washed sands 25 feet below.

Thirty-three persons—mostly women—were killed by the shivered timbers, or crushed to death by the falling bodies of companions and friends. Fifty more were seriously injured while hysteria and fright caused the disabling of scores of others.

A section of the auditorium which went down in the crash and the debris from it was added to the wreckage that fell on top of the injured and the dead.

### Many Die When Ship Sinks

The steamer Nevada, with 200 passengers on board, struck three mines in succession in the gulf of Smyrna, and sank.

The mines were strew in the coast waters by the Turks to prevent attack by the Greek fleet during the Balkan war.

Of the 200 passengers on the steamer 80 were rescued by boats, which put off from the French cruiser Bruix, which, was anchored in the harbor.

The Nevada, though owned by a Turkish company, was flying the American flag. She belonged to a fleet of eight steamers, of which seven were renamed in 1910, and were transferred to the American flag.

### To Make Chicago Silent

Chicago's great orchestra of discordant sounds, arising from rattling elevated trains, locomotive whistles, river boat sirens, automobile squawkers, and the cries of peddlers, was placed on trial and found guilty of being a nuisance.

The sentence was immediate suppression and all the city ordinances, regulating whistles and other noises, have been ordered revived. Many of these anti-noise laws have been regarded as "dead letters."

"We shall try to make Chicago one of the quietest big cities in the country," said Mayor Harrison.

### Anhut Sent to Sing Sing

John N. Anhut was sentenced to not less than two years and not more than four in Sing Sing prison.

Anhut, who was formerly a Detroit lawyer and state senator, recently located an office in New York city. He was convicted of offering a \$20,000 bribe to Dr. Russell, superintendent of Matteawan insane asylum, to free Harry K. Thaw, the millionaire slayer of Stanford White.

The usual motions for a new trial and arrest of judgment were denied by the court. No notice of appeal was filed.

### Law Seniors Leave Fund

Instead of leaving to the university an oil painting of some faculty member, as has been the custom, the senior law class of the W. of M. has decided to leave a loan fund of \$200 as its memorial. The board of regents will be the trustees of this fund, and it will be loaned to law students, especially seniors, on recommendation of the law faculty. The students who receive aid from the fund will repay it at convenient intervals with interest. Thus the fund will continue to increase.

The labor unions of Kalamazoo will not celebrate Labor day. The local unionists will wait two weeks during the Michigan Federation of Labor meeting in that city.

Following months of hopeless fighting against the inevitable, during which time he visited the health resorts of Arizona and Colorado, and was treated by Dr. Friedmann in New York city, Dr. J. S. Atkinson, holder of a Carnegie medal and several other valuable trophies for saving lives in runaways, is dead in Marinette of tuberculosis.

## TENDERFEET WIN WORLD CHAMPIONSHIP

HILL AND SONS, THE OAT CHAMPIONS, ARE COCKNEYS BORN AND BRED.

City-bred in the world's greatest metropolis and untrained as to things agricultural, were J. C. Hill and his three boys when they settled on home steads at Lloydminster, in the Province of Saskatchewan (western Canada), eight years ago. Today they are the recognized champion oat growers of the North American continent, having won twice in succession the silver challenge cup, valued at \$1,500, at the Fifth National Corn exposition, Columbia, S. C. The Plate, officially known as the Colorado Oat trophy, is emblematic of the grand championship prize for the best bushel of oats exhibited by individual farmers or experimental farms at these expositions.

The Hill entry won this year in the face of the keenest competition, hundreds of exhibits being sent by experienced farmers from all parts of the United States and Canada. The oats were grown on land which was wild prairie less than four years ago.

When Mr. Hill and his three sons, who probably never saw a wider acreage than the hills of Hampstead Heath, or the parks of London, came to Saskatchewan eight years ago, they had little more capital than was required for homestead entry fees. They filed on four homesteads, in the Lloydminster district, which straddles the boundary of Alberta and Saskatchewan. They went to work with a will, ripping the rich brown sod with breaking plows and put in a crop, which yielded fair returns.

They labored early and late and denied themselves paltry pleasures, glad to stand the gaff for a while in rising to their possibilities. They talked with successful farmers and studied crops and conditions and profited by both. The new life on the farm was strange but they never lost heart, handicapped as they were by lack of experience and capital.

The farm house, modern in every respect, compares favorably with any residence in the city. The Hills have substantial bank accounts and their credit is gilt-edge from Edmonton to Winnipeg and beyond.

"There is nothing secret about our methods nor is our plan copyrighted. We first made a thorough study of climatic conditions, soil and seed," said Mr. Hill. "We tended our crops carefully and gradually added live stock, realizing from the beginning that mixed farming would pay larger and more certain returns than straight grain growing. We have demonstrated that fact to our satisfaction and the result is that many of the farmers in the district are following our example."

The land that the Hills work is of the same class as may be found anywhere in Manitoba, Saskatchewan or Alberta.—Advertisement.

### Profiting by Superstition.

After having sat on many juries the observant man is of the opinion that the whole human race is still strongly tarred with the brush of superstition.

"I am confirmed in that belief by the amount of damages invariably voted to plaintiffs, whose injuries smack of superstitious origin," he said. "If a load of bricks should fall from a fifth story window on to the head of a man who happened to be walking under a ladder he would get twice as much damages as if the ladder were not there. The element of bad luck that attaches to a ladder would insensibly influence every juror, and the sum awarded would reflect their prejudices and sympathies."

## HANDS BURNING, ITCHING

905 Lowell Place, Chicago, Ill.—"The trouble began by my hands burning and itching and I rubbed and scratched them till one day I saw little red sores coming out. My hands were disfigured and swollen, and troubled me so that I could not sleep. They were cracked and when the small sores broke a white matter would come out. I could not do any hard work; if I did the sores would come out worse. For two years nobody could cure my eczema, until one day I thought I would try the Cuticura Soap and Ointment. I used warm water with the Cuticura Soap and after that I put the Cuticura Ointment on my hands twice a day for about five or six months when I was cured." (Signed) Sam Marcus, Nov. 28, 1911. Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Hope for Us All, Then. "Even Dobbitts has his good points." "A remark that is enough to make the average man an optimist."

No Use Looking Within. "Is Dobbitts introspective?" "Of course not. There is nothing to see in a vacuum."

# VETERANS TO MEET ON BATTLEFIELD

Reunion of Blue and Gray Armies  
to Be Held at Gettysburg,  
July 1, 2, 3.

40,000 EXPECTED TO ATTEND

State of Pennsylvania Extends Invitation to All Soldiers Who Fought in  
Conflict Fifty Years Ago—  
Good Time Assured All.

Harrisburg, Pa.—Veterans of the Civil War, both Blue and Gray, will again meet, after fifty years, on the battlefield at Gettysburg, Pa., on July 1. This time it will be a reunion and past differences will be but a memory.

The state of Pennsylvania on May 13, 1909, created a commission to consider and arrange for a proper and fitting recognition and observance, at Gettysburg, of the fiftieth anniversary of the battle of Gettysburg; to invite the co-operation of the congress of the United States, and of other states and commonwealths, defined the commission's duties and prerogatives and made an appropriation for preliminary expenses.

**Text of Invitation to Veterans.**

The invitation is as follows: "Pennsylvania, by its commission formally invites the congress of the United States and her Sister States and Commonwealths to accept this invitation from the commonwealth upon whose soil the battle of Gettysburg was fought, to share in this important anniversary and to help make it an event worthy of its historical significance, and an occasion creditable and impressive to our great and re-united nation," and likewise invites the co-operation and participation of the Grand Army of the Republic and of the United Confederate Veterans.

**State Will Act as Host.**

Pennsylvania—she providing all entertainment at Gettysburg during July 1, 2, 3 and 4, 1913, for forty thousand (40,000) "honorably discharged veterans of the Civil war," and she and the national government together, as provided by the act of congress of August 26, 1912, by each paying \$150,000.00 for the war department with the \$300,000.00 total, to create and maintain a great camp around the battlefield.

**Camp Accommodations.**

The camp comprises some two hundred and eighty contiguous acres, starting about two hundred yards from the high water mark monument on the battlefield, and lying to the southwest of the town and partly upon the scene of the first day's fight, consists of 5,000 tents, regularly holding twelve men each, but now to hold but eight veterans, each veteran being supplied with a separate cot. The Pennsylvania commission having charge of the order of exercises during the celebration; the physical control of the camp and grounds and the movements of troops and marching bodies therein to be in charge of the secretary of war, under such officers as he may detail for that purpose.

**Free Transportation To and From Gettysburg.**

With each commonwealth, state and territory rests absolutely the determination, as each deems best, to what veterans of the Civil war it will issue free transportation, Pennsylvania's invitation being that to such "honorably discharged veterans of the Civil war" as come to Gettysburg for the above celebration, either upon free transportation or at their own expense, and present proper credentials proving them to be such veterans, she will provide, food, shelter and entertainment during that period, but she furnishes free transportation to no one, save only to her own veterans or veterans now resident within her borders, and to them only under legislative direction, which is now pending in her general assembly, the national government furnishing no free transportation at all.

The Trunk Line Passenger association in whose territory Gettysburg is, has granted a one and three-fifths round-trip excursion rate, good going June 25 and returning to original starting point by July 15, a twenty-day ticket, good only on same route going and coming and costing two cents per mile, but each state must make its own arrangements with the similar associations covering the territory from that state to Pennsylvania. The railroads at Gettysburg refuse, because of lack of room, to park or accommodate there any cars on side tracks.

**Program for Four Days.**

The program for the four days' exercises and entertainment is not yet perfected in detail, but the tentative suggestions are:

July 1—Veterans' Day: Appropriate exercises under the joint direc-

tion of the Pennsylvania commission, and the commander-in-chief of the Grand Army of the Republic and the United Confederate Veterans.

July 2—Military Day: Under the direction of the chief of staff of the United States army. Special detachments of each arm of the regular service to participate as directed.

July 3—Civic Day: Under the direction of the governor of the commonwealth of Pennsylvania, presiding, and participated in by the governors of the several states. Orations, sermon and music.

July 4—National Day: The chief justice of the United States presiding. Forenoon, oration by the president of the United States. High noon, he to lay the cornerstone of a great peace memorial. Evening, fireworks.

**To Hold Reunion in Great Tent.**

A great tent, seating between ten thousand (10,000) and fifteen thousand (15,000) veterans, will be erected immediately adjoining the camp, and therein will occur the above exercises, excepting the military parade and fireworks, and therein, save for the hours set apart for the above exercises, the veterans may hold all reunions they may desire, the tent being arranged to be subdivided into numerous separate enclosures. All veterans of the Civil war, north and south, are urged to wear their army, corps, division, brigade and society badges, as a means of identification to their comrades in like commands, in the expectation that it will assist in imparting information as to when and where their different organizations meet, and in bringing together comrades who would otherwise, by reason of lapse of time, fail to recognize each other.

**40,000 Veterans Expected.**

It is expected that 40,000 veterans of the war, not all of them, however, survivors of the Gettysburg battle, will be found encamped upon the field when reveille sounds on the morning of July 1. It will be a different reveille than that which the file and drum corps of the two great armies sounded fifty years ago. The call to awakening will be a call to a peaceful celebration while the call to the awakening in July, 1863, was a call of armies to conflict and, to thousands of men, a call to death.

For years the veterans have been looking forward to this reunion. It is probable that there will be present many thousands of survivors of the battle.

Many of the states of the Union, north as well as south, have made appropriation to send their veterans to the Gettysburg reunion, and to pay all other expenses. The battle of Gettysburg is recognized as the turning point of the war between the states. It has been called time and again one of the decisive battles of the world. Generally it is recognized that Gettysburg decided the great conflict, helped in the decision probably by the fall of Vicksburg on the Mississippi, which took place virtually at the moment that the conflict on the Pennsylvania field was decided in favor of the northern arms.

**Large Sum for Entertainment.**

The Battle of Gettysburg commission of the state of Pennsylvania has a large sum of money at its disposal for the entertainment of the visiting veterans, and the thousands of persons who will accompany them. Hospitality is to mark the days. Fifty years ago Pennsylvania aided in the work of repelling the visitors from the south. In early July next the same state will have its arms wide open in welcome to the men wearing the gray. Entertainments of various kinds will be offered the visiting veterans, but it is pretty well understood that their deep interest in revisiting the scenes where they fought, Little Round Top, Oak Ridge, Cemetery Hill, Culp's Hill, Rock Creek, the Stone Wall and other places will hold them largely to the pleasures and to the sadnesses of personal reminiscences. Arm in arm with the Union soldiers the Confederate soldiers will retrace the battleground. They will look over the field of Pickett's desperate charge. They will retrace the marching steps of Longstreet's corps. They will go to the place where Meade had his headquarters and to the place from which Lee directed his southern forces in battle.

It is said that this contemplated reunion has induced more interest among the old soldiers of the north and the south than any event which has happened since the day that the war closed. There is today at Gettysburg a great national park, in which is included a cemetery where thousands of soldier dead are buried. The United States government and the legislature of Pennsylvania worked together to make a park of the battlefield and to mark accurately every point in it which has historic interest.

It is expected that much good will come from the reunion of the Blue and the Gray on the battlefield of Gettysburg. Time has healed many wounds. The old soldiers have forgotten their animosities more readily than have the civilians. It is thought that this great coming together in peace of two once conflicting hosts will mark the passing of the last trace of the bitterness of the war between the states of this great Union.

# BEST BEANS TO GROW

Some Like Bush and Lima Varieties Because Easy to Grow.

Others Prefer Pole Limas on Account of Quality, Quantity and Season of Profitable Bearing—Also Large.

A writer says that both bush and lima beans are more satisfactory and easier to grow than the pole limas. Now, every one for his choice, but we prefer the pole limas every time for quality, quantity and long season of profitable bearing, says a writer in an exchange. It is true that setting poles for plants to vine on requires more work than when no poles are used, but the results more than pay for all the work. The trouble with most of us in our gardening and farming is that we try to grow things in the easiest way, but the easiest way is seldom the best way. We should never be satisfied with anything short of the best.

Pole lima beans are the largest and best beans grown. Make the soil as loose and rich and fine as possible. Harrow, disk and harrow till the surface is a smooth, fine and mellow as an ash heap. Lay off rows, both ways, about four feet apart and plant three seeds to the hill at the crossing of the rows.

Cultivate young lima beans as for other garden plants, keeping the surface clean, fine and level. Allow no weeds to grow close to the cultivated plants, as limas will not thrive in the presence of strange company. Some people to reduce labor plant corn or sunflower in the same hill with pole lima beans for the vines to climb. This is a grave mistake, for two good plants cannot grow in a place where there is room enough for only one. A poor bean crop always results from this method, as one good, old gardener puts it, "It is the lazy man's way of gardening."

We pole our beans with round poles about eight feet long and the thickness of one's wrist. They are set one

Hamper of Pole Lima Beans.

pole to each hill and the four poles form a square brought together and tied with common binder twine, about nine feet from the ground. This gives a wigwam frame with firm, broad base and so substantial that no ordinary storm will blow it over.

Almost all other members of the bean family are quick maturing plants and the life of the crop covers only a part of the growing season. Not so with pole lima beans; they are rather slow growing. It requires nearly ninety days for the vines to

# POULTRY NOTES

Straw and hay make good nesting material.

Keep your breeders healthy and doing well.

On the farm you should keep utility uppermost.

Shade for the chickens is very important in hot weather.

No one can forestall the sex of the chicks while still in the egg.

Keep the egg pan in the coolest place you can find about the farm.

May-hatched chicks, properly grown, make profitable fowls the coming winter.

Sickness and lice are scarce articles where poultry quarters are kept dry and clean.

Begin early to work up a trade in broilers. The market never will be overstocked.

The working hours of the poultryman extend from early till late; there are no holidays.

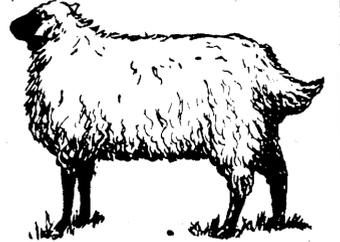

As a rule hens that lay steadily

fully mature and come into heavy bearing. But after the vines begin to bear they continue to produce blossoms and fruit all through the remainder of the growing season, so long as the green beans are regularly picked and more allowed to ripen, providing there is sufficient moisture in the soil to sustain growth. Keeping out all weeds and grass and keeping the surface raked loose and fine will help to conserve soil moisture at dry times. A light covering of straw on the surface will also help to conserve soil moisture during August and September, when rains are often infrequent and evaporation great.

# BEGINNING WITH THE SHEEP

No Profit Can Reasonably Be Expected Until One Has Learned All the Little Details.

"The love of money is the root of all evil." It lures men into things that prove disastrous. The greater the profits, the more certain that a large number will fall in the undertaking. Why? Because when profits are large men are sure to rush in on a big scale, says a writer in an exchange. Two hundred per cent profit on one sheep is big. Then why not get 500 or 1,000

Yearling Full-Blood Karakul Ewe.

sheep and get rich quickly? That's the argument that traps everybody who has a get-rich-quick bee in his hat.

Remember this, that no man can succeed with sheep who has not first learned how. Big profits do not come to greenhorns. There may be no profit at all for a year or so. Sheep are the most helpless of all domestic animals. They "don't know enough to come in out of the rain." They don't know much of anything. They have been cared for so attentively for centuries that they quit making any effort to care for themselves. The man who is not willing to give them this care is unfit to be a sheep man. It requires gentleness, for they are meek and helpless.

Our advice is to go slow with sheep. By all means, raise sheep. They should be on every farm. But start with a few, one or two dozen at most, and learn how to care for them. They will multiply as fast as your skill in sheep raising will warrant. If you can't save the lambs, then you are unfit for a larger number. If you can save them you soon have the large number. A dozen sheep will show you all the holes in the fences as completely as 500 will.

Prices are alluring, but keep a level head. There is no telling anyway, because they benefit the farm whether prices are up or down.

**Money in Orchards.**

Young men or men in middle life can have good money coming in in ten years by having a good orchard coming on. Let many men set out orchards, and those who make it a study and will do the work from year to year will have a fine income in a few years, and will find it most interesting business. There is no danger of overproduction, for not half of the men who set out orchards will attend to them. The markets will soon know who the men are who have the good apples and the good keepers and will want their apples at the best prices.

**Building Dairy Herd.**

Get a purebred dairy sire and raise your own cows.

during cold weather are indifferent to hot weather layers.

Little chicks need a feeding coop where they can eat in peace away from the older fowls.

Hardiness does not go by color of plumage. Hardiness depends upon the care given to fowls.

All eggs should be tested by the seventh day, which often makes it possible to reset some of the hens.

A quiet, gentle hen with the mother instinct strongly developed, is worth money in the chicken business.

If your flock is properly managed and cared for there will be little or no use of medicines and tonics.

So many set too many eggs under a hen. Few hens can cover more than 15, and then only in warm weather.

A fancy fowl is about on a par with a "polished gentleman"—either may be capable of doing good work, but there is no guarantee.

**Dairy Utensils.**

Never wipe dairy utensils with a cloth after washing them. Have the water hot enough so that they will dry of their own accord.

The love we miss for a while we value all the more when its sweetness is returned.—Royston.

Liquid blue is a weak solution. Avoid it. Buy Red Cross Ball Blue, the blue that's all blue. Ask your grocer. Adv.

Some men are insignificant by nature, and some are made so by marriage.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Paradoxical Agility.

"How did he work his wonderful feat?" "With both hands."

Their Location. "I have been looking over your master's wardrobe. Where are his spats?" "Mostly with the missus, sir."

Tack Hammer for Surgeons.

Scientific hammering of the spinal column, technically known as spondylotherapy, is one of the latest treatments to be adopted by members of the Philadelphia medical profession.

It consists of tapping certain portions of the spine for patients suffering with heart, lung, stomach, and liver trouble.

The "tack-hammer treatment" was discovered by Dr. Albert Abrams, a nerve specialist of San Francisco.—Philadelphia Dispatch to the New York American.

Last Civil War Veteran.

I was informed by the United States pension office that the last soldier of the Civil War will die in 1955. That is the estimate made by those who make a study of vital statistics. If the last veteran survives until that date he will have lived 90 years after the surrender of Lee.

Kronk, who died a couple of years ago in New York state, was the last soldier of the War of 1812, and he lived considerably more than 90 years after peace had been signed. Bakeman, the last soldier of the Revolution, lived for 86 years after the peace of 1783.

Here is hoping that some man who wore the blue or gray may fool the pension office and round out a full century after Appomattox!—Philadelphia Ledger.

"LIKE MAGIC"

New Food Makes Wonderful Changes.

When a man has suffered from dyspepsia so many years that he can't remember when he had a natural appetite, and then hits on a way out of trouble he may be excused for saying "it acts like magic."

When it is a simple, wholesome food instead of any one of a large number of so called remedies in the form of drugs, he is more than ever likely to feel as though a sort of miracle has been performed.

A Chicago man, in the delight of restored digestion, puts it in this way:

"Like magic, fittingly describes the manner in which Grape-Nuts relieved me of poor digestion, coated tongue and loss of appetite, of many years standing.

"I tried about every medicine that was recommended to me, without relief. Then I tried Grape-Nuts on the suggestion of a friend. By the time I had finished the fourth package, my stomach was all right, and for the past two months I have been eating with a relish anything set before me. That is something I had been unable to do previously for years.

"I am stronger than ever and I consider the effects of Grape-Nuts on a weak stomach as something really wonderful. It builds up the entire body as well as the brain and nerves." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is explained in the little book "The Road to Wellville," in pkg.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Fr. Coyle of Pinckney was a caller here Thursday.

Mrs. Placeway and daughter Frankie returned home Saturday.

Mrs. James Hoff and daughter Elva visited at the home of Will Caskey Wednesday.

### Best Medicine For Colds

When a druggist recommends a remedy for colds, throat and lung troubles, you feel sure that he knows what he is talking about. U. Lower, Druggist, of Marion, Ohio, writes of Dr. King's New Discovery: "I know Dr. King's New Discovery is the best throat and lung medicine I sell. It cured my wife of a severe bronchial cold after all other remedies failed." It will do the same for you if you are suffering with a cold or any bronchial, throat or lung cough. Keep a bottle on hand all the time for everyone in the family to use. It is a home doctor. Price 50c and \$1.00. Guaranteed by U. G. Meyer's the druggist.

### NORTH HAMBURG.

All members are requested to be present as there is business of importance to be transacted. All men of Pinckney are eligible to join and those who are not already members are invited to join this association and help us boost Pinckney. C. L. Sigler, Secy.

### Local News

Kodaks and supplies at Meyer's drug store.

Go to Monks Bros. for all kinds of house plants.

Fr. Coyle was in Northfield the first of the week.

E. E. Frost and family were in Howell Monday.

Born to Mr. and Mrs. Kenneth Darrow, of Jackson, an 8½ lb. boy, Thursday May 22.

Samuel Grimes and Mrs. Frank Grimes of Shawnee, Ohio, are spending a few weeks here.

The ladies of the M. E. church will meet with Mrs. J. Parker, Friday, May 30, at 2:30. Every lady requested to be present; important business to be transacted.

Will those persons knowing themselves to be indebted to me, kindly call and settle. I have big bills to meet and need the money. Mrs. C. W. Krause.

The graduating exercises of the Gregory High School will be held at that place Friday evening, May 30, at the Maccabee hall. A nice program has been arranged and everything free.

Keep alive to the interests of your home community by subscribing for and continuing the Dispatch. Send in such news items as you may—send them promptly, criticize us frankly whenever you think we need it and boost the Dispatch whenever you can. This newspaper in return is putting forth every effort to give you all the news of this locality in entertaining form, its advertising columns continually afford you money saving opportunities and the open and avowed principles of the Dispatch are to back anything that will bring more happiness and prosperity to you and yours.

### UNADILLA

Mrs. D. E. Watts of Mason visited Mrs. Jao. Webb last Thursday.

Stephen Hadley has purchased a new automobile.

Mrs. Wm. Pyper entertained the sewing circle last Saturday.

Harrison Hadley had the misfortune to break his arm recently.

Aaron Snyder and family of Waterloo spent Saturday at R. B. Gorton's.

Mrs. O. Webb spent Saturday in Stockbridge.

Ada Gorton spent over Sunday with her parents.

### COST OF BUILDING CREAMERY

One Must First Figure on Expense and Then on Equipment—Pays to Build Well.

(By G. A. GILBERT, Colorado Agricultural College.)

Creamery builders must figure the cost, first, of the building, second, of the equipment. A suitable and convenient building will contain a main work room, store room, refrigerator, engine and boiler room, coal room and an office. Such a medium sized creamery would measure 28x48 feet. In some sections labor and material are much cheaper than in others and the cost varies accordingly. However, we can place the limit of cost of such a construction between one thousand and fifteen hundred dollars.

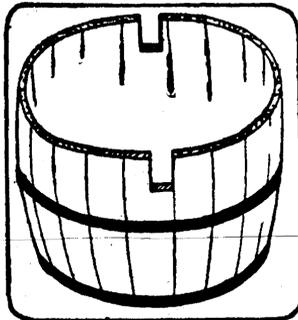

Where only gathered cream is received the equipment required is less than where whole milk is received. In the first instance, of the gathered cream plant, the following would be necessary: 15 H. P. boiler; 10 H. P. engine; a well and pump; weigh can and scales; Babcock testing equipment complete; combiner churn, capacity 600 lbs. butter; buttermilk vat; cream ripener; starter can; wash sink. Besides this there will be shafting, pulleys, piping, belting, etc. By making two churrings a day in the rush season, 1,200 pounds of butter could be manufactured per day in a plant of this size. The cost of equipment would approximately be \$1,200.

The total cost of a creamery without artificial refrigeration will vary from \$2,200 to \$3,000. In the long run it pays to build well and to use first class equipment in a creamery, and this is the basis of the foregoing figures. In many cases on record creameries started by promoters of representatives of construction companies have cost exorbitant prices and out of all proportion to the business they are able to do.

### NECESSARY FOR TOOL SHOP

One Essential is Water and in Receptacle Large Enough for All Needs—Tub is Best.

Wherever the farmer has his own blacksmith shop, it is almost necessary to have water handy, and have it in a vessel large enough for the needs of the shop. The half barrel makes a very good vessel for this purpose. The half of a common coal oil barrel will make a very good tub. The notches, shown in the illustration, form good supports for the wagon

Water Tub for Shop.

wheels when cooling the set tires. The notches will also be found handy for other purposes about the tub, such as keeping tongs, lays, etc., from slipping to the bottom of the tub when set upright to cool.

### When Soils Cease to Produce.

The trouble with soils when they cease to produce as they did when new is not that the elements of plant food are actually exhausted from the soil, but the necessary forces for the liberation are exhausted. One of these forces is bacteria. It is estimated that in the common soil there are 150,000,000 bacteria to the ounce.

These bacteria must have for their food, humus, then they will liberate food for the growth of plants. To be a good farmer one needs to grow legumes and other cover crop plants to turn under for humus, and to encourage these beneficial bacteria to perform their functions in the soil.

### Fattening Market Fowls.

To fatten poultry for market, remove them from the yards and place, without overcrowding, in a coop which should be provided with a canvas cover to draw down and keep the inmates in darkness. Do not feed for about six hours after placing in the coop, and then feed all they will eat. Feed three times a day, and keep fresh water and a basin of grain always before them.

### Constipation Cured

Dr. King's New Life Pills will relieve constipation promptly and get youa bowels in healthy condition again. John Supsic, of Sanbury, Pa., says: "They are the best pills I ever used, and I advise everyone to use them for constipation, indigestion and liver complaint." Will help you. Price 25c. Recommended by C. G. Meyers.

## COMING BACK TO PINCKNEY

United Doctors Specialist Will Again Be At The

Hotel Steadman

Monday, June 2nd, 1913

One Day Only

Hours 9 a. m. to 4 p. m.

Remarkable Success of These Talented Physicians in the Treatment of Chronic Diseases

Offer Their Services Free of Charge

The United Doctors, licensed by the State of Michigan for the treatment of deformities and all nervous and chronic diseases of men, woman and children, offer to all who call on this trip, consultation, examination, advice free, making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at least treatments have been discovered that are reasonably sure and certain in their effect.

These doctors are among America's leading stomach and nerve specialists and are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, kidneys, or bladder, rheumatism, sciatica, diabetes, bed-wetting, tape worm, leg ulcers, weak lungs and those afflicted with long-standing, deep seated, chronic diseases, that have baffled the skill of the family physicians, should not fail to call. Deafness often has been cured in sixty days.

According to their system no more operations for appendicitis, gall stones, tumors, goiter, piles, etc., as these diseases are treated without operation or hypodermic injection.

They were among the first in America to earn the name of "Bloodless Surgeons," by doing away with the knife with blood and with all pain in the successful treatment of these dangerous diseases.

If you have kidney or bladder troubles bring a two ounce bottle of your urine for chemical analysis and microscopic examination.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out and run-down men or women, no matter what your ailment, consult them. It costs you nothing.

Remember, this last free offer is for this visit only.

Married ladies come with their husbands and minors with their parents.

(adv.)
