## Miss Ellen A. Darwin

Another Pioneer of Putman Township Passes Away Nov. 5

Miss Ellen Amanda Darwin was born August 11th, 1840, in Marion township, Livingston Co., Mich., and died at her own home in Putman township, Friday, Nov. 5th 1915.

Coming from Marion with her father and mother, Mr. and Mrs. A. Darwin, when she was two years old, she made her home here for over 73 years. Her early school education was obtained in a log school house, latter she attended school in Detroit and a school in New York. She

was loved by all who knew her well and was of a sunny and humorous disposition, always looking on the bright side of life. Through her four months of illness, the part of which time was spent in bed, never a complaint of her paralyzed condition was heard.

She is "gone but not forgotten" by those who knew her best. She joined the Cong'l church many years ago. She leaves one nephew, R. R. Darwin.

The funeral services were held at the late home on Sunday morning at 10 o'clock Rev. A. T. Camburn officiated by Rev. T. H. Jones. The remains were laid to rest in the Pinckney burial ground.

## Card of Thanks

We wish to express our sincere gratitude to all those who extended sympathy by words or deed in our recent bereavement.

The words spoken by Rev. A. T. Camburn, the beautiful flowers and the music and singing were greatly appreciated by,

Mr. and Mrs. R. R. Darwin  
Mr. and Mrs. S. E. Darwin

## West Marion

Miss Hazel Bruff of Cohoctah visited at the home of Phil. Smith Sunday.

The Stars enjoyed a very pleasant afternoon with Lemuel Wright Saturday.

Mrs. Effie Baker and Mrs. Ada Cain visited Mrs. Phil. Smith last Wednesday.

There was a good attendance at the Ladies Aid which met with Mrs. Archie Gorton Thursday.

Miss Nellie Vines and two nieces of Howell spent the latter part of last week at the home of W. M. Vines.

Quarterly meeting services were held at this place Saturday and Sunday. Also preaching Sunday morning.

## Clean Dairy House

Unclean milk carries disease. Clean milk is one of the best and safest articles of food. We have received from the U. S. department of agriculture a communication describing an inexpensive and sanitary dairy house. It should be of special interest to our farmers and subscribers. The article will be found on the inside pages of the Dispatch.

## Pinckney Loses One

The Pinckney H. S. foot-ball team played their first game at Stockbridge last Saturday and although they were defeated by a score of 18 to 0, they made a splendid showing, considering the fact that the Stockbridge team was much heavier and had considerable experience, while this was the first game for Pinckney.

Stockbridge will return the game Wed. Nov. 17, when the boys will endeavor to even things up. Stockbridge's points were all made during the first half. During the last half Pinckney held them down and also carried the ball nearer their line.

## Play Draws Full House

The M. E. church were very much pleased with the outcome of their play "Willowdale" put on at the Pinckney Opera House last Friday evening, about \$52 being taken in at the door. The young people took their parts well and did much credit to their trainer, Rev. Camburn. The M. E. church wish to thank all those who took part in the play, the choir, Harry Isham and son and every one who helped to make the play a success.

## South Marion

Miss Beulah Burgess of Pinckney spent Sunday with her parents Mr. and Mrs. F. M. Burgess.

Mr. and Mrs. Orville Nash and daughter Ethel and Mr. Edwin Nash took an auto trip to Toledo and back last week.

## Notice

No Hunting or Trespassing allowed on any premises.

## NEIGHBORHOOD NEWS

### Items of Interest from Neighboring Towns

Hunting is proving an expensive luxury, especially to those who fail to meet legal requirements. L. Bibb of Whitefield was recently fined \$13.95 for killing a fox squirrel and Herman Deitrich and John Seal of Summerfield township, Monroe county, each paid a fine of \$16.45 for killing rabbits without securing a license.—Blissfield Advance.

Elmer Reason of Stockbridge has brought of Thomas Birkett land east of the Dexter House having 36 1/2 feet frontage upon which he will erect a fine garage for Reason Bros. The building occupied by John Becker's barbor shop has moved to the east to give the necessary frontage. The garage will be built of ether tile or cement blocks and will have a frontage of 36 feet, depth 80 feet and width of the rear of 50 feet.—Dexter Leader.

The state livestock sanitary commission has released from quarantine the Allen and Fields herd of fancy Guernsey cattle at Grass Lake, which for a year have been locked up with foot and mouth disease. The herd is valued at \$25,000. In Oct. 1914, eighteen head of the cattle were shipped to Chicago to the national dairy show and while there all contracted the disease. The release of the cattle enables the owners to complete several sales made at the Chicago show.—Chelsea Standard

Probating the will of Wm. Mercer of Hamburg was started in the probate court at Howell last Thursday by Will Mercer of Hamburg. Before any great advance had been made in the matter, George, Edwin and Charles Mercer, sons of the deceased, filed objections thru their attorneys, Messrs R. D. Roche and L. E. Howlett and the matter was set for next Wednesday for further hearing in the matter. W. P. VanWinkle and sons are the attorneys for the sustentation of the will.—Livingston Tidings.

## West Putnam

### EVERY HOME NEEDS A FAITHFUL COUGH AND COLD REMEDY

When seasons change and colds appear—when you first detect a cold after sitting next to one who has sneezed, then it is that a tried and tested remedy should be faithfully used. "I never wrote a testimonial before, but, I know positively that for myself and family, Dr. King's New Discovery is the best cough remedy we ever used and we have tried them all." 50c and \$1.00.

### How Editors Get Rich

A great many persons have wondered how editors get rich so quickly with such small effort. One of them who has grown rich has at last told the secret of it. He outlines it as follows:

Nursery firm will send us a 25c rosebud for only \$5 worth of advertising.

For running a six-inch advertisement for one year, we can get a gross of pills.

About one dozen firms are wanting to give up shares of gold mines for advertising.

For \$40.00 worth of advertising and \$25 cash we can own a bicycle. The wheel sells at just \$12.

A fellow out west wants us to run a lot of advertising for him for nothing, and if it brings results he may become a customer.

For running \$12.00 worth of locals we can get two tickets admitting us to a circus in the city and pay our own fare on the railroad.

Gun firm wants us to run \$19 worth of advertising and then send \$10 in exchange for a shotgun, which would retail at about \$6.

### A QUEEN AND A STYLE.

Handkerchiefs Are Made Square Because of a Royal Whim.

It is not necessary to insist on the utility of the handkerchief, for no one will contest it, but why should it be eternally woven in the stereotyped form of a square? The square may be large, the square may be small, but why square instead of oval or oblong? The unfortunate young Queen Marie Antoinette is responsible for the shape of the handkerchief.

On Jan. 2, 1783, a royal command was issued that henceforth the regulated form of the handkerchief should be in the form that we are so accustomed to see. Before this we are led to believe that divers forms were used—triangles, heart shaped, points of a star, etc.

These individual conceptions did not please her majesty. She carried her complaints to the pliable Louis XVI. It was her belief that the handkerchief in the form of a square was more elegant.

At the above date Louis had the following decree issued: "The length of all handkerchiefs manufactured in the kingdom shall be equal to their breadth."

During all the changes of government in France, from the revolution to the third republic, the law passed under Louis XVI. is the only one that has been immovable, as far as things to be worn are concerned. It has defied every change, and the rest of the Christian world has in this respect faithfully followed the wishes of Queen Marie Antoinette.—New York American.

### Neighbor Told Her Cure for Lumbago

Rheumatism and lumbago are awful things and cause great pain and misery, but Foley Kidney Pills can root them out.  
 Mrs. G. H. Eveland, Duncan Mills, Ill., writes the following letter: "I was stricken down with lumbago and was unable to turn myself in bed. A neighbor brought me a half bottle of Foley Kidney Pills, and said she had been similarly afflicted and that they had helped her. So I tried them and was completely relieved by the use of two or three bottles. I have had splendid success with them and have never known them to fail. I most heartily recommend Foley Kidney Pills."

Foley Kidney Pills tone up weak, inactive, sluggish kidneys, rid the body of poisons, give appetite, energy and refreshing sleep after pain. Don't neglect kidney trouble. Remove the cause with Foley Kidney Pills.

The nature of its qualities penetrate immediately to the sore spot. Don't keep on suffering. Get a bottle of Sloan's Liniment. Use it. It means instant relief. Price 25c and 50c. \$1.00 bottle holds six times as much as the 25c size.

## We're Opposed to Mail Order Concerns Because--

They have never contributed a cent to furthering the interests of our town--

Every cent received by them from this community is a direct loss to our merchants--

In almost every case their prices can be met right here, without delay in receiving goods and the possibility of mistakes in filling orders.

### But--

The natural human trait is to buy where goods are cheapest. Local prices are usually secondary in the game of life as played today.

### Therefore

Mr. Merchant and Business Man, meet your competition with their own weapons--advertising.

### Advertise!

The local field is yours. All you need do is to send your bill of the advertising agent. An advertisement in this paper will carry your message far beyond the limits of your own community. It is the most certain of lifting your goods to the people. A man who doesn't advertise is a man who is lost on a desert island.

# HOME BEAUTIFUL

Flowers and Shrubbery  
Their Care and Cultivation

Showing the Beauty of Massing Hydrangeas.

## PERENNIALS AND HERBACEOUS PLANTS

By E. VAN BENTHUYSEN.

There is no class of flowering plants more desirable than the hardy perennials and herbaceous plants like the hydrangeas, the peonies, the hollyhocks, golden glow, spreas and iris.

These plants require but little attention, and for those who have not much time to devote to the garden, there is no class more desirable.

Most of them will do well in ordinary soils and flourish under conditions unfavorable to the satisfactory development of annuals.

The annuals should be left to those who are here this season and away next. For the permanent residents it is well to consider the merits of this class of plants.

The cultivation of a collection of hardy plant is urged in preference to annuals because the latter class will not prove satisfactory unless a good deal of time and labor are expended on them.

One of the prime arguments in favor of the perennials is—that once established your plants are good for an indefinite period. Your garden does not have to be made every season.

About all this class of plants will ask of you is that in the spring the plants will need to be worked about and freed from the grass which will encroach upon their territory, if allowed to do so, the soil will require fertilizing, and once in three or four years the old plants will be bettered by a division of their roots.

A great many of these can be attended to in a day, and the work is much easier than that of making beds and pulling weeds.

One of the best perennials is the hydrangea. The coloring is beautiful, and it lends itself to massing and is lovely in all its stages from the first tender green, through the pink and

rose stage on to its russet coloring in the fall.

The hollyhock is another favorite. It comes in a wide range of colors—white, rose, crimson, maroon, and soft yellow—it is a profuse bloomer and does well in almost any kind of soil.

Double hollyhocks are mostly in favor these days, but the single ones are well worth the cultivation. Cut off the old flower-stalks, as soon as the buds on them have developed, and quite frequently new stalks will be sent up late in the season.

In this way one may have hollyhocks until late in the season. Seeds planted in May, June or July will give one dozen of plants from which flowers may be expected the following season.

Great clumps of golden glow or rudbeckia make an exceedingly rich show of color. For weeks it is a solid mass of golden blooms, and for cutting we have few better flowers.

The spreas should be more extensively grown. It would be difficult to find a more exquisitely lovely flower, with its great plumelike panicles of airy, pink bloom.

The iris should always be given a place in the amateur gardener's collection. It must have a somewhat moist location. The Japanese and German varieties have remarkable colorings.

Perennial phlox should be in the collection and ought to include a dozen of the most distinct varieties. This is the geranium of the outdoor garden. It grows easily and is a profuse bloomer.

Hardy pinks are good, readily obtainable and easily grown. Unless you desire immediate effects all the kinds here mentioned will bloom the second season from seedling plants.

Now is the time to think of your garden for next year and if you have been restoring to annual planting try making permanent beauty spots.

A Wonderful Planting of Palms in a California Garden.

## HOME GROUNDS BEAUTIFUL

While in the North, East and middle West it is impossible to achieve the beautiful effects possible in the South, there is much that can be done to improve the appearance of the grounds around our homes.

The huge palms that grow so wonderfully in southern California and lend beauty and charm to the southern home are not for us in their exotic personality of growth. But, a lesson can be learned from the planting of these huge palms. The accompanying photograph of the grounds around a home in Los Angeles gives one a clear idea of the beauty of planting, be it trees or palms. Plenty of space and a chance for the tree to shine in the picture. It is a mistake to plant trees too closely together. Some of our heads look as if they were planted together instead of for shade and the

beauty given by proper arrangement.

Ornamental shrubbery can be effectively used and the successful cultivation of this shrubbery depends upon the simple principles of ordinary gardening: First, proper preparation of the ground—which is merely digging or plowing a foot or two deep and seeing that there is a supply of fertile soil, properly drained.

A good dressing of well-rotted stable manure spread over the surface of the bed and dug in will achieve wonders.

The second point of importance to consider in planting is whether you want to have done with the work once and for all or whether you will carefully tend the plantation for the next few years. The ideal way is to plant a little thickly—that is, to plant a few more than can later on be satisfactorily accommodated upon the space, and to thin out in succeeding years as the various plants attain greater size.

## HUERTA PLOTS TO INVADE MEXICO

JOSE OROZCO MAKES CONFESSION TO U. S. DISTRICT ATTORNEY.

### ARREST SPOILS ALL PLANS

Story Told of Former Dictator's Scheme to Seize Juarez and Establish Temporary Capitol of Mexico.

San Antonio, Tex.—Jose Orozco, former chief lieutenant of his cousin, General Pascual Orozco, and who is a prisoner at El Paso, has made a confession of an alleged plot to restore Victoriano Huerta to power in Mexico, according to information given out Friday night at the office of United States District Attorney J. L. Camp, in San Antonio.

Orozco, it is alleged, detailed the story of alleged plans for an uprising with ramifications in half a dozen states and for which agents in New York, New Orleans, Galveston and San Antonio were working. Huerta was in New York while plans for the invasion of Mexico from the United States were being arranged, but left for the west when everything was ready for launching the scheme to seize Juarez and make it the provisional capital of Mexico.

Then came the arrest of the former dictator in El Paso. According to the statement, this did not prevent Pascual Orozco from attempting to carry out the original plans. Orozco crossed into Mexico, forfeiting his bond given in the United States, and joined Jose Orozco in an attempt to get men and arms across the border into Mexico at a point east of Juarez. Jose was arrested in Texas while trying to take these arms across and Pascual was killed several weeks later in west Texas, while he was endeavoring to recross into Mexico, to head a large body of troops collected and awaiting a commander.

According to the district attorney's office, Orozco decided to make a clean breast of his knowledge of the alleged plot when certain friends in whom he trusted and gave money to have his bond furnished, proved false. The sworn statement was said to have been made to Assistant United States District Attorney R. E. Crawford.

### TELLS OF KILLING BROTHER

John and Oscar Johnson Give Themselves Up to Officers.

Ishpeming—Two brothers, John M. and Oscar Johnson, are in jail here, Oscar the slayer, by his own confession and that of John, of their brother Adolph.

The shooting was the result of a quarrel between the three brothers at their little farm ten miles west of Ishpeming. It happened Tuesday evening, and all that night and all day Wednesday the two living brothers stayed in their little cabin with the dead brother. The two started out in different directions, unable to endure the thoughts of another night like the one before. John came to Ishpeming and gave himself up at the jail, telling the officers that his brother was dead. Oscar went to Marquette, to the county jail, telling the whole story.

### President to Give Suffrage Party.

New York—President Wilson is to give a woman suffrage afternoon party December 8, and the guests of honor will be two leaders in the Congressional union, Miss Frances Jolliffe and Mrs. Sara Bardfield, western woman who will take to Washington the signatures of 500,000 women voters who want their sisters to be enfranchised by federal amendment. Mr. Wilson's secretary has requested Miss Alice Paul, head of the Congressional union, to furnish him with the names of 300 prominent suffragists whom he could invite to meet Miss Jolliffe and Mrs. Bardfield.

### Passengers Saved From Wreck.

San Diego, Cal.—Radio advices late Friday from the United States cruiser San Diego said that the coasting steamer Fort Bragg, wrecked at San Jose del Cabo, at the tip of Lower California, had shot a line ashore at Palmilla point and that the 24 passengers and 22 members of the crew aboard had been landed by means of a breeches-buoy.

## CHURCH MEMBERS RAISE \$5,000 TO HELP MINISTER

REV. DR. N. D. HILLIS.

New York—Rev. Dr. Newell Dwight Hillis has been informed by officials of the Plymouth church in Brooklyn, of which he is pastor, that 200 members of that church have subscribed \$5,000 to finance Dr. Hillis' legal contest with Frank L. Ferguson, formerly president of the board of trustees of Plymouth church and attorney for the pastor.

The Rev. Dr. Hillis has instituted an inquiry through the courts concerning Mr. Ferguson's conduct of his affairs while acting under the power of attorney.

## PLANS FOR LARGER ARMY

Garrison Announces Outline of Policy That is Expected to Increase Trained Force to Half Million.

Washington—An outline of the army's part in the national defense program to be submitted to congress in December by the administration was made public Friday night by Secretary Garrison, disclosing officially for the first time details of the plan to raise a great continental or citizen army to supplement the regular establishment.

In brief, it is proposed to increase the regular army from 108,000 to 141,843 officers and men (changing the term of enlistment from four years with the colors and three years on furlough to two years with the colors and four years on furlough); to organize a federal citizen army of 400,000 (to be enlisted 133,000 a year for three years); to strengthen the state militia by increased appropriations and closer co-operation; and to spend \$20,000,000 a year for four years on coast defenses and \$26,000,000 a year for four years in the accumulation of reserve material for use by a force of 500,000 men.

### Fancy Herd is Released.

LaSalle—The state livestock sanitary commission has released from quarantine the Allen and Fields herd of fancy Guernsey cattle at Grass Lake, which for a year has been locked up with foot and mouth disease. The herd is valued at \$25,000.

In October, 1914, 18 of the cattle were shipped to Chicago to the national dairy show and while there contracted the disease.

The release of the cattle enables the owners to complete several sales made at the Chicago show.

### STATE NEWS IN BRIEF.

City frames at Grand Rapids are to be given one day off in seven, with two-weeks furlough annually, in place of one-day off in four with 26 days furlough, as the new statute provides.

Attorney-General Fellows has given an opinion to the effect that prisoners may be worked on the roads in any county, whether the county road system is in force there or not. He also says that the county's half of the fees received under the new sale tax law shall be spent under the direction of the county road commissioners, where the county road system obtains, and by the supervisors where it does not.

## Seen and Heard in Michigan

Ann Arbor.—Sixteen senior engineers in the University of Michigan have been elected to Tau Beta Pi, the highest honor that can be paid an engineer at Michigan.

Battle Creek.—Peter E. Neilson, aged fifty-seven, arrested here by United States Immigration Officer P. H. Stretton of Chicago on a charge of embezzlement from a government society at Copenhagen, Denmark, given an examination.

Flint.—While on his way home from the Stevenson school Robert Laughlin, five-year-old son of Lloyd McLaughlin, was struck by an automobile driven by Dr. E. D. Rice, and so badly injured he died a few minutes later in a hospital.

Hesperia.—A human skeleton in a sitting posture, buried under about four feet of earth, was the find of Emory Violet and Andrew Knowles on the latter's farm north of this village, where they were working. Physicians say it is that of a white man buried but a few years ago.

Corunna.—Shiawassee county "dry" are seeking legal means of preventing the sheriff from carrying out an order of Circuit Judge Blair to the effect that liquor confiscated from local option law violators be given to the county poor farm. The attorney says the law prohibiting liquor confiscated by the sheriff be destroyed.

St. Ignace.—Farmers on Bois Blanc island, in the straits of Mackinac, have been suffering the loss of their hogs for the last two months. One farmer, a Mr. Todd, has lost 17. The officers have finally located the thieves, half-breeds living in a settlement two miles from Mackinaw City. Five arrests have been made.

Bay City.—Four young women employed as teachers in the public school of Flint have been occupying two cottages on the Kawkawlin river over the week-ends. One of the cottages burned to the ground while the two occupants were visiting near by. The second cottage caught fire and the crackling of the flames awakened the sleeping teachers, who fled in their night clothing.

St. Johns.—Roscoe Sloat, eighteen, of Ovid, and Frank Price, twenty, of Owosso, who were arrested by Sheriff Cramer, charged with taking an automobile from the garage of Edward Hause of Elsie and driving it without authority, when arraigned before Justice Flynn pleaded guilty and were sentenced to serve 60 days in jail. Price served 70 days in the Detroit house of correction some time ago for larceny of a bicycle.

Battle Creek.—When Elmer Laplant, a farmer residing at Verona, applied at County Clerk Cady's office for a marriage license, he forgot the name of his bride-to-be. Nevertheless, he got a temporary license and was married, after which he returned and had the papers corrected. The confusion relative to names was then explained. Mrs. Laplant had been married once before and her own maiden name was different from that of her mother's, as her mother had married a second time.

Ann Arbor.—The board of regents of the University of Michigan has commissioned W. B. Stratton, Detroit architect, to make a study of a general floor plan, as well as a general layout of the grounds for possible development of the university hospital, and has made Felix Pawlowski, assistant professor of mechanical engineering, announcement is made of a gift of \$500 by Mrs. Josephine McGowan, widow of the late Regent McGowan, to establish a loan fund for needy students in the literary college.

Marshall.—F. Bennett, aged forty, traveling salesman and Grand Rapids, was instantly killed and Harold King, of Homer, aged twenty, son of Deputy Sheriff Ernest King of that village, was fatally injured when an automobile which young King was driving was struck by a Lake Shore train on the south of Homer. King did not see the train coming and the car was squarely on the track as the engine struck it. A third man in the car escaped uninjured. King was driving the two salesmen from Litchfield to Homer when the accident occurred.

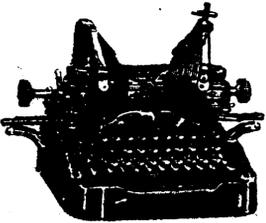

Marquette.—George E. Hamilton personally delivered plea to Michigan supreme court after being sentenced to Marquette prison attempting to kill Sheriff August Bond of Houghton with an infernal machine, has failed. After being sentenced to prison, Hamilton secured a writ of habeas corpus for himself, and went to the circuit court and the supreme court in an attempt to win a new trial, after studying law in prison. A dispatch from Lansing says Hamilton was remanded to the custody of the sheriff, which probably means that he has lost his fight. He may, and must serve out his full term of sentence, which had little to do with the case.

# A New Model Typewriter!

## No. 9 OLIVER

The Standard Visible Writer

### BUY IT NOW!

Yes the crowning typewriter triumph IS HERE!

It is just out—and comes years before expert expected it. For makers have striven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of touch so light that the tread of a kitten will run the keys.

## CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift. It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus operators of all other machines can immediately run the Oliver No. "9" with more speed and greater ease.

**17c a Day!** Remember this brand-new Oliver "9" is the greatest value ever given in a typewriter. It has all our previous special inventions—visible writing, automatic spacer, 64-ounce touch—plus the Optional Duplex Shift, Sensitive Color Attachments and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every writer can easily afford to have the world's crack visible writer with the famous PRINTYPE, that writes like print included FREE if desired.

**To-Day write for full Details.** and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it. Seeing is believing—Drop in at the DISPATCH OFFICE and see for yourself this New Model Oliver "9".

**SILAGE IN SUMMER.**

Don't worry! The extra supply of silage left over from the winter's feeding will not spoil during the summer in the average well built, well filled silo. In case of doubt cover what silage remains with straw, hay or barn sweepings, tramp down hard and dampen thoroughly. At corn harvest remove the covering and fill as usual. You'll never know the difference. But, better than all this, supplement your pastures with silage during the dry spell this summer. — Kansas Farmer.

**Enjoy Your Work and Your Play**

"I have given Foley Cathartic Tablets a thorough trial, and from the results obtained, I can honestly recommend them as a mild but sure laxative. They work without griping."

Wm. O. E. Helke, Hancock, Mich.

Sometimes you feel so heavy and stuffed up, so uncomfortable and bilious-like, with a mean headache, a nervous upset and thick furry tongue. Your system is clogged, your bowels are not eliminating freely, your vital resistance is lowered and your system becomes more susceptible to the invasion of disease.

Foley Cathartic Tablets relieve this condition over night, with no unpleasantness and no odorous after-effects. They are the least sensitive and those who depend upon them for results are the healthy, happy, care-free people who have no headaches, no biliousness and who can enjoy both the work and the pleasure of their lives.

## The KITCHEN CUPBOARD

**APRICOT MARMALADE.**

NOT only alphabetically first, but first in favor among the "concoctions" of the French, stand all the forms of apricot preserve, of which apricot marmalade is the chief. This sticky, velvety, smooth sweet of not very positive flavor, but most delicate when made of fine fruit, is used in dozens of the different little cakes of the fine French pastry shop, sometimes to give the shiny top to the little filled tartlets, sometimes between the cooked creams, and a foundation of puff or other paste, and is an altogether serviceable and attractive addition, although not dietetically good with pastry. The French pastry maker often recooks it with a very heavy sirup to make it more shiny.

The Italians also use a great deal of such things as apricot marmalade with their "pasta frolla" (puff paste), sometimes covering a layer of paste with it, which thus becomes a background for figures cut from pastry like a rose branch with leaves, buds and roses.

The marmalade is made by reducing the raw apricot to a pulp by putting it through a sieve—a stout tin one with re-enforced bottom is one of the invaluable kitchen utensils—and then it may be cooked with the sugar or cooked separately to dry out the water and united with a thick sirup. The first method is probably the best for the inexperienced, and the following recipe adapted from the French describes it.

**Apricot Marmalade Recipe.**

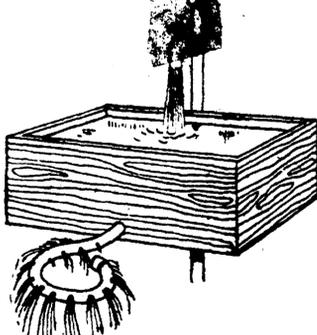

Pour boiling water on the apricots, fine ripe ones, and let stand three or four minutes. Pour off, peel and take out stones, then press all through sieve. Add three-fourths as much sugar as fruit and cook from half to three-fourths of an hour. If over the fire directly, stir all the time. It is safer to cook it on an asbestos plate and stir frequently. A test for its being done is that it should stick the fingers together. Put in sterilized glasses; when cold cover as you would a jelly.

**A CLOGGED SYSTEM NEEDS ATTENTION**

Are you bilious, dizzy and listless? Dr. King's New Life Pills taken at once seizes upon constipation and starts the bowels moving naturally and easily. Moreover it acts without griping. Neglect of a clogged system often leads to most serious complications. If you wish to wake up tomorrow morning happy in mind and entirely satisfied, start your treatment to-night. 25c a bottle.

**Shower Bath in the Barn.**

About the greatest comfort in the busy season is a convenient place to bathe. For those who are not fortunate enough to have a porcelain lined bathtub, an excellent substitute may be made in the corner of the barn, provided water pipes are installed by the aid of windmill or engine power. Have the faucet placed overhead, and

above a zinc lined box. From the bottom of the box a ring shaped perforated pipe should protrude, under which the bather stands. With a platform of slats to stand on the water can easily be made to drain off properly. Water stored in high tanks is of the right temperature to bathe in during the hot summer.—Farm Progress.

The Readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. K. ## What Do You Know?

When the editor approaches the average citizen in the quest of news he is invariably told that the citizen "doesn't know a thing" and that is about as near the truth as the nations of Europe are to effecting a prompt settlement of their differences. Everybody knows something and most people know a lot of somethings that are worth telling and would make breezy and newsworthy stories but they just bottle it up in the walls of their dome and forget that it was there. Sometimes the editor is able to pry it loose word by word until he gets the story, when it would be the easiest thing in the world to let it all out in a rush. Pull the cork, brother, and let out the contents of your intellectual bottle and we will pass it on to others who are thirsty for news. You know a plenty if you only knew that you know it.—Ex.
