## BANQUET DRAFTED MEN

At First Presbyterian Church  
Howell, Thursday, Sept. 20,  
At 6 p. m.

A banquet and evening entertainment is to be given at the First Presbyterian Church of Howell, Mich., Sept. 20, at 6 p. m., for all Livingston County boys who have been drafted for war service. The Livingston County boys who have been drafted for war service. The Livingston County Red Cross and the Howell Boomers have charge of the banquet and entertainment and invitations have been mailed to all of those drafted so far. From the response thus far received, a large attendance is indicated.

An invitation is extended to all friends of those drafted and all residents of the county who are interested to attend this banquet. Tickets may be obtained at all Howell drug stores or reservations can be made by phoning Den W. VanWinkle, Secretary of the Howell Boomers.

Hon. A. E. Cole of Fowlerville, and Geo. L. Lusk of Lansing, Deputy Secretary of State will deliver the addresses of the evening. Music of various kinds has been provided, and the Red Cross will distribute certain gifts to the drafted men.

The basement of the church will be brilliant with patriotic decorations and all should combine to do honor to the men of Livingston County.

## Real Estate Business Prosperes Under Utah's Dry Law

Utah's prohibitory law has been in effect since August 1. The Salt Lake City Tribune reports that the first three weeks of the month recorded an active time in the real estate market. The Associated Investment Company says a review of the month's business shows increased trading in small modern homes located in some of the better residence districts. V. H. Ritchey, general manager of the Wellbilt Company, expresses the opinion that the prohibition measure will ultimately have a marked effect in increasing all branches of the realty business in Salt Lake City. M. E. S.

## BOY PREDICTS WAR'S END

Alabama Child Dies Three Days After  
Telling Prophecy to His  
Parents.

Marshfield, Wis.—In a letter received by Miss Anna Urbanus from her sister in Reform, Ala., she tells of a queer case of a child, age seven, which has a bearing on the present war. Up to July the child never spoke a word until one day when the mother broke a dish the child exclaimed: "You broke one dish."

Then he was again mute. The father then broke a dish to see if the child would speak again, and this time he said: "Two dishes are broke."

A doctor decided to break a dish also. The child exclaimed: "Three dishes are broken and I am going to die in three days and the war will end in three months."

The boy died on the third day, and, according to the letter, the citizens of Reform are eagerly awaiting for the three months to elapse.

## Disquieting News

Horrible news comes from Arkansas that a boy climbed a corn stalk to see how the corn was getting along, and now the stalk is growing up faster than the boy can climb down. The boy is now plumb out of sight. Three men have undertaken to cut down the corn stalk with axes and save the boy from starvation. It grows so fast they can't hack twice in the same place. The poor boy is living on nothing but raw corn and already has thrown down four bushels of cobs. This deplorable thing happened in Arkansas where veracity is never questioned.

## NORMAN WILTSEY

Dies at Sanitarium Here  
Saturday Morning, Sept. 15

Norman Wiltsey of Marion Centre, who underwent an operation last week for abscesses, died at the Sanitarium here Saturday morning at 11:30. He was 52 years of age and leaves a widow and seven children to mourn his loss. Funeral services were held at the home Sunday, Rev. A. T. Camburn officiating, and was taken to Saginaw for burial. Mr. Wiltsey had been in poor health for some time, and the result of the post mortem showed numerous abscesses, any one of which would have been fatal.

## People You Know

G. W. Teeple spent the first of the week in Detroit.

Mr. and Mrs. Dave Smith spent Saturday in Stockbridge.

T. F. Stackable of Jackson is visiting relatives here this week.

W. B. McQuillan and family of Chilson called on relatives here Sunday.

Born Sunday to Mr. and Mrs. Frank Kennedy, a 10 pound daughter.

P. A. Gouthier of Lansing spent the week end at the home of R. R. Darwin.

H. H. Swarthout and son Harold were Ann Arbor visitors one day last week.

Mrs. Villa Richards returned Tuesday from a visit with relatives near Howell.

Dr. H. Sigler is having his residence painted. C. P. Sykes is doing the work.

The Misses Alice, Kathleen and Madeline Roche were Stockbridge callers Saturday.

Rev. Jones, wife and daughter of Winn are guests at the home of Rev. T. H. Jones.

Harry Rose and family of Ann Arbor were Sunday visitors at the home of E. G. Carpenter.

Mrs. Wm. Kennedy Jr. and Miss Emma Kraft were Howell visitors one day last week.

Mrs. Wm. Thompson, Wirt Barton and son of Durand were Pinckney callers Tuesday.

Claude Roundville and wife of Fowlerville spent Tuesday with Mr. and Mrs. F. G. Jackson.

As we go to press, word was received here that the hotel at Webberville burned this morning.

Mr. and Mrs. R. R. Darwin and Mr. and Mrs. Seth Darwin spent Friday and Saturday in Lansing.

Fred Arzt and family, Eugene and Helen Reason of Detroit spent Sunday at M. J. Reason's.

Everybody has a good time at the Fowlerville Fair, Oct. 2-3-4-5, 1917. Adv.

W. G. Reeves of Stockbridge has taken the Ford agency for this vicinity. He was in town on business Wednesday.

Mr. and Mrs. Claude Hamilton and son Romine of Fowlerville were Sunday guests of Mr. and Mrs. F. G. Jackson.

Cassimer Clinton and Geo. Fisk leave tomorrow for the Battle Creek cantonment. Henry Harris and Louis Eisele took the physical examination at Howell Saturday. Louis Eisele failed to pass.

## M. E. CONFERENCE

Rev. A. T. Camburn Will  
Remain at Pinckney

Rev. A. T. Camburn attended the Detroit Conference at Flint the past week and was returned to Pinckney for another year. He went with everything paid in full and a much larger amount for church benevolences than usual. The church exterior is being painted and things are moving along in fine shape.

The following appointments which may be of interest to Pinckney people were made:

Bancroft, S. H. Berry; Byron, U. G. Ostrander; Clio, E. C. Benson; Commerce, H. A. Cole; Corunna, F. M. Purdy; Danville, W. J. Passmore; Durand, J. H. Haller; Fenton, J. T. M. Stephens; Fowlerville, E. C. Watters; Grand Blanc, Geo. Hoffman; Hartland, G. W. Gordon; Holly, G. F. Hathaway; Howell, Joseph Dutton; Laingsburg, G. W. Wright; Linden, F. J. Grant; Milford, J. W. Campbell; Morrice, Robt. Davies; Munith, Jas. Kerr; Oak Grove, S. A. Carey; Pinckney, A. T. Camburn; Salem, Lorne Carter; South Lyons, S. J. Pollock; Stockbridge, Geo. Hill; Unadilla, C. M. Woodmansee; Webberville, T. W. H. Marshall; Whitmore Lake, J. A. Rowe; Williamson, Levi Bird.

## School Notes

Edward Bennett was enrolled in the eighth grade Monday.

A Literary Society meeting was held Tuesday night, and the following officers were elected: Helen Camburn, Pres., Zita Harris, Vice Pres., Dorothy Sheehan, Treas., Roy Campbell, Sec.

Roy Campbell was absent from school Tuesday morning.

A large number of high school students enrolled for the commercial course this year, most of them taking book-keeping and all of them giving short-hand a wide berth.

There will be no high school football team, on account of the scarcity of material.

Harold and Edna Darrow were absent from school Tuesday afternoon.

## J. Church, Optometrist

Will be at the Pinckney hotel Saturday, Sept. 29. Examination Free. Eyes properly fitted. Satisfaction guaranteed. J. J. CHURCH.

## Attention!

Order your Dairy Feed now. We have ordered a car of Union Grains for immediate shipment. Give us your orders now and save money.

# EAT SKINNER'S THE BEST MACARONI

W. N. U., DETROIT, NO. 38-1917.

### Not Such a Fool!

There is an amusing little story about Sir Eric Geddes as a boy which shows the new first lord of the admiralty possessed of resourcefulness at an early age.

He was somewhere about ten when, on being given \$2.50 by his father as pocket money, he forthwith went and spent it all on a second or third hand bone-shaker. This earned him a severe reprimand from his parent for reckless extravagance, but the culprit rose to the occasion. Going out the next day he returned, having sold the bone-shaker for \$10.

## IT NEVER FAILS TO END MISERY OF PILES

"Hundreds of people in this vicinity," says Peterson, "know of the mighty healing power of PETERSON'S OINTMENT in eczema, salt rheum, old sores, itching skin and ulcers. They know it cures these ailments—that it is guaranteed to cure them."

Now I want to say to every sufferer from piles, either blind, bleeding or itching, that I will guarantee that a 2-cent box of PETERSON'S OINTMENT will rid you of piles or your druggist will return your money.

"For years I suffered terribly with itching and bleeding piles. I tried everything and despaired of ever getting rid of them. It gives me great pleasure to state that Peterson's Ointment entirely cured me, and I sincerely recommend it to all sufferers."—Yours truly, David A. Seymour, Supt. of Parks, Buffalo, N. Y. Adv.

### For Safety's Sake.

Two brothers who live in an East Lancashire manufacturing town were noted for being exceptionally well-served with nasal organs.

One of the ring spinners at the mill where they worked invited them to a wedding, and promised to send a cab for them, says London 'Tit-Bits.

The cab duly arrived, and the two brothers entered and planted themselves down, one at each window.

In order to create an impression during the drive to the wedding, the two brothers were looking out of the cab, one on either side, so that the people could see them.

All went well until the cab came to a rather narrow railway arch, which our travelers had to pass through. The cabiner looked back to take his bearings, and seeing the two brothers' noses sticking out of the windows on either side, shouted:

"Put them elbows in, please!"

### Swiftly Changing.

"Can you give the boundaries of the principal countries in Europe?" asked the teacher.

"No, miss," answered the observing young student. "I knew them yesterday, but today's paper hasn't come yet."

It is sometimes safer to throw kisses at a girl than to hand them to her.

No woman who carries a watch is sure that it is correct.

"There's a Reason"

# The HOME BEAUTIFUL

Tulips Make Attractive Flowers for Home Decoration.

## THE TULIP IN POTS.

Some varieties of tulips are well adapted to the flower pot. The Clusiana vent grows to a height of 20 inches, with a slender stem. The leaves are very long and narrow and the flower sometimes measures two inches across. This variety is of the funnel form, with bright lemon-yellow flowers, with light shading of green or white, sometimes streaked with pink. It is very fragrant, and when properly cultivated is one of the most beautiful of all the tulip family. The tulip is easy to cultivate, as it thrives well in either heavy or light soil. It does better, however, in rather light soil, well-drained and fairly rich. Those grown in heavy, black soil produce smaller flowers, and the colors are not nearly so bright. In some of the uplands of Virginia the ideal tulip soil is found for the growing of bulbs, and it is said to be almost identical with that of Holland, where this flower is so successfully grown.

## THE CARE OF YOUR PLANTS

By L. M. BENNINGTON.

Some persons labor under the delusion that water must be applied daily to their plants in the window garden. More plants are killed every year through this process than by any other means. Plants watered every day are literally drowned out, unless they happen to have the best of drainage.

Others go on the "little-and-often" plan—that is, they apply water in small quantities whenever they happen to think of it.

The result is the surface of the soil is kept moist, and from this the owner takes it for granted that the soil beneath must be properly damp.

Nine times out of ten examination will show that an inch or two below the surface the soil is dry. Of course the roots of the plant cannot do their work under such conditions. The plant soon sickens and eventually dies and the owner wonders what caused the trouble.

Now, in watering plants several things have to be considered. First the nature of the plant. Some like a great deal of water, others only a moderate amount.

Second, the soil. A close, loamy soil dries out slowly, therefore it will not require as frequent or as large applications as a light porous soil from which moisture evaporates rapidly.

Third, location and exposures must be taken into consideration. Plants in the sun or a very warm place, will need a good deal more water than those in full or partial shade or a low temperature.

Fourth, the size of the pot must be

reckoned with. The soil in a large pot will not dry out for two or three days, but the soil in a small pot will become quite dry every day. Little moisture needed.

Fifth, a dormant plant requires but little water. It is not in a condition to make use of much water, and an over-supply of it will surely result in harm. When the plant begins to grow then increase the quantity and proportion this to the development made.

All these things must receive due consideration by the amateur who would know how to care for his or her plants intelligently.

Study them. Experiment with them. In this way you soon become familiar with the individuality of each one and you will be able to give to each the care it needs.

We are often asked for some rules for watering plants. It is impossible to make any rule that can be followed strictly.

The only rule I have ever been able to give is this: "When the surface of the soil looks dry, water. Use enough to thoroughly saturate all the soil in the pot.

You can tell about this by the escape of some at the bottom of the pot. Then wait until the dry look appears on the surface again and apply water as before.

But, as I have said, one will have to modify this rule to fit the conditions. It is a general rule, subject to such change as may appear necessary to the intelligent plant grower who does not believe in treating all her plants exactly alike.

Give fertilizers to growing plants only. A plant standing still needs none, and will be injured by the applications of the food it is not in a condition to make use of.

### PLANT JAPANESE LILY IN FALL

While almost all lilies do better if planted in the fall, there are some varieties, notably the Japanese, which do not reach this country until the ground is frozen. However, they can be planted even in December if you prepare the bed as follows:

Dig the bed deep (two feet) and manure heavily, using well rotted manure, and mix thoroughly. When the bed is ready, cover it with a foot or two of fresh manure. This will keep the ground from freezing. Lily bulbs deteriorate when kept out of the soil.

Unless the chrysanthemum have been shaded during the hot months they will not come up to expectations this fall.

Never allow roses to remain on the bush until the petals begin to fall.

## HIS OLD DREAM CAME TRUE

Miner Was Killed in the Manner That Was Foretold in Vision Twenty Years Before.

In a lecture at Blackwood Rev. M. Griffin of Cross Oak, a minister who, after forty years' preaching, is as vigorous as ever, referred to subconsciousness, the mysterious power that controls us even when asleep, says a Cardiff Mail writer. Outside the chapel one of his hearers narrated a curious incident which happened to a Blackwood man. He lived near the present railway station, and dreamed one night that while working on his stall as a miner a stone fell on him and killed him.

The dream was so vivid that he gave up his work at once and emigrated to America. Twenty years later he returned to Blackwood and sought work in his old colliery. He was told that no one had been working in his old stall since he had left, and work was found for him in the adjoining stall. While engaged there his pick accidentally struck through the coal which divided him from his old stall, there came a fall and the twenty-year-old dream was fulfilled.

### His Best One, Too.

There was a gathering of farmers in a little market town when in stalked one in a state of high dudgeon.

"Whatever's the matter, John?" inquired one of the others.

"Why, that bill collector has just been to my house and abused me."

"What did he say?"

"Oh, I remonstrated with him."

"How did that affect him?"

"I don't know—but I broke my best pitchfork handle."

**A PHYSICAL WRECK**  
Laid Up in Bed, Barely Holding  
Onto Life. Doan's Effected  
Marvelous Recovery.

"Without warning I was dragged to the brink of the grave by malignant kidney trouble," says Robert Wengatz, 114 Cypress Ave., Bronx, N. Y. "My kidneys seemed to stop acting and the pains in my back were terrible. Big, bloaty puffs came under my eyes and attacks of dizziness often blinded me. My limbs swelled twice normal size and I could press big dents in to the flesh."  
"I was confined to bed and had convulsions several times a day. Despite the best of treatment, I grew worse and was taken to the hospital. I didn't improve, however, and was brought home again, barely holding onto life."  
"Toward the last of 1913, a friend persuaded me to try Doan's Kidney Pills and I cannot put into words what they did for me. The first box helped more than all the other medicines and treatments I had taken. I continued and from an emaciated wreck of a man I have taken on good, solid flesh until I now weigh 225 pounds and am in the best of health. Doan's alone deserve the credit."

**CHIEF ENGINEER IS  
ON THE JOB HE SAYS**

Had Reached the Place Where He Feared He'd Have to Quit Work.

**GAINED FORTY POUNDS**

"It's Been Twenty-Five Years Since I've Felt as Well as I Do, Since Taking Tanlac," He Says.

"It's been twenty-five years since I felt as well and strong as I do now after taking this Tanlac," said O. H. Mahaffey, chief engineer of the Life & Casualty Building, Nashville, Tenn., in an interesting interview a short time ago.

"After I had suffered for two whole years with a serious stomach trouble and was told that only an operation would relieve me," he continued, "I grew so despondent over my hopeless suffering that I was just about to give up my job. I had gotten to the place where I couldn't eat a thing but oatmeal and sweet milk and even then the pains in my stomach and through the small of my back kept me in misery nearly all the time. I couldn't sleep at night and grew weaker and weaker until I didn't think I'd ever get any better."

"It's no wonder that I praise Tanlac now and am telling all my friends about it. After taking it a day or two I found that I could eat most anything I ever could, and from that time on I have improved. Those pains in my back and stomach left me shortly and I began to pick up. I have actually gained forty pounds in weight since I started taking Tanlac and I feel better than I have in twenty-five years. I can sleep all night like a healthy child and get up in the morning full of life and energy. I am glad to tell anybody who wants to know just what Tanlac did for me."

There is a Tanlac dealer in your town.—Adv.

**ALL DRAFT MEN TO  
BE EXAMINED NOW**

BOARDS TO CONTINUE PHYSICAL TESTS SO ALL REGISTERED WILL KNOW STATUS.

**WILL RELIEVE UNCERTAINTY**

Many Will Welcome Tests So That Uncertainty of Physical Fitness Will Be Ended.

Lansing—Judging from the official telegrams and regulations which are now coming from the office of Provost Marshal General Crowder, the government is going to continue the physical examination of all men who registered June 5. To this end the present system of local boards will no doubt be continued indefinitely.

With the selection of this week's quota and that for Oct. 3, the work of the local boards for the first call will have been completed. The government estimates that this work will exhaust practically 3,000,000 names of registrants. This will leave 7,000,000 to be handled if there is need of a second call from the president. That a second call will come is certain, but the indications are that it will be several months before it does.

In the meantime, it is now the intention of the government to have the local boards leisurely examine the remaining men, with a view to having their eligibility lists ready for a second call when it comes. In many respects, too, it will relieve the minds of thousands of men, who, without completion of the list of registrants, would not know "where they are at."

They cannot enter any business with a reasonable security from draft, but if they should be examined and found physically unfit, they can be assured of no trouble hereafter.

The government, too, as indicated in word received here, is not unmindful of the hard work that has already been done by the local boards. Many of the members of these boards have neglected their business for weeks, and a continuation of such force employment by the government might work a great hardship.

In the examination, however, beyond the quota limit as needed now, the boards will be told to take their time, either devoting only a couple of hours a day to the work, or else one or two days a week. In this way the work could be expeditiously done and at the same time neither the boards nor the registrants subjected to any great inconvenience.

**14,400 GO TO CAMP THIS WEEK**

Shipments Divided Over 5 Days and Can Be More Easily Handled.

Battle Creek—Approximately 14,400 young men of Michigan and Wisconsin started going "over the top" Wednesday into Camp Custer.

A war department suggestion has been sent out that selected men come to Camp Custer with a bundle containing toilet accessories, a suit of underclothing, etc., but no baggage. Those who've been through the mill don't agree to the wisdom of this program. They say to bring an old suitcase with as much comforts as can be conveniently carried, but with the understanding, of course that when uniforms are issued the extra clothing can be sent home in the suitcase.

Fortunately not all the 14,400 men will report in one day, as had been planned originally. Wednesday brought 4,195, Thursday 1,851, Friday 3,260, Saturday 2,037 and Sunday 766. The Sunday delegation is an exclusive Detroit shipment.

For several weeks Camp Custer will hold little of frivolity for the selecta and mothers at home need not sing "Where is My Wandering Boy Tonight?" with any morbid notion that he's hanging around a den of iniquity. The only wandering he will do will be toward his bunk, when tattoo sounds at 9 o'clock, and when the bugle blows at 9:15 chances are he will be asleep.

**SENATE PASSES BIG BOND BILL**

O. K.'s Biggest Money Bill in History of American Congress.

Washington—Without a roll call or a dissenting voice, the senate Saturday afternoon passed the \$11,538,000,000 war bond and certificate bill, the biggest money bill in the history of the American congress. It already has passed the house.

Just before the vote, the senate agreed to several of Senator LaFollette's minor amendments. One of them fixes the rate of interest on the \$2,900,000,000 war savings certificates at 4 per cent. Another authorizes the secretary of the treasury to prescribe rules and regulations for increasing or decreasing the allotments of bonds to individuals.

**Too Sick  
To Work**

**Many Women in this Condition Re-gain Health by Taking Lydia E. Pinkham's Vegetable Compound.**

**Convincing Proof of This Fact.**

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old."  
— Mrs. O. M. RHINES, Ridgway, Penn.

**Mrs. Lindsey Now Keeps House For Seven.**

Tennille, Ga.—"I want to tell you how much I have benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited".—Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

**Feed the Fighters! Win the War!!**  
Harvest the Crops — Save the Yields

On the battle fields of France and Flanders, the United States boys and the Canadian boys are fighting side by side to win for the World the freedom that Prussianism would destroy. While doing this they must be fed and every ounce of muscle that can be requisitioned must go into use to save this year's crop. A short harvest period requires the combined forces of the two countries in team work, such as the soldier boys in France and Flanders are demonstrating.

**The Combined Fighters in France and Flanders and the Combined Harvesters in America WILL Bring the Allied Victory Nearer.**

A reciprocal arrangement for the use of farm workers has been perfected between the Department of the Interior of Canada and the Department of Labor and Agriculture of the United States, under which it is proposed to permit the harvesters that are now engaged in the wheat fields of Oklahoma, Kansas, Iowa, North Dakota, South Dakota, Nebraska, Minnesota and Wisconsin to move over into Canada, with the privilege of later returning to the United States, when the crops in the United States have been harvested, and help to save the enormous crops in Canada which by that time will be ready for harvesting.

**HELP YOUR CANADIAN NEIGHBORS WHEN YOUR OWN CROP IS HARVESTED !!!**  
Canada Wants 40 000 Harvest Hands to Take Care of its 13,000,000 ACRE WHEAT FIELD.

Can cost a mile railway fare from the International Boundary line to destination and the same rate returning to the International Boundary.

**High Wages, Good Board, Comfortable Lodgings.**

An Identification Card issued at the boundary by a Canadian Immigration Officer will guarantee no trouble in returning to the United States.

AS SOON AS YOUR OWN HARVEST IS SAVED, move northward and guide your Canadian neighbors in harvesting in the way you do your bit in helping "Win the War". For particulars as to routes, identification cards and places where employment may be had, apply to Superintendent of Immigration, Ottawa, Canada, or to

Service in Coats a Wooltex Motto

Grand Opening Week in Smart Wooltex Models for Fall and Winter

Now is the time for you to think about your fall suit. You will be looking for something smart, of course, finely tailored and as serviceable as it is smart.

Women are more than ever careful about value, too, since war conditions have raised prices and made qualities uncertain.

In spite of these conditions, our connection with the celebrated Wooltex house has stood us and you in good stead.

Here is a most notable showing of Wool-tex Coats for fall—the new style ideas of the metropolitan fashion centers, with all wool fabrics and the Wooltex standard of tailoring and finish.

You will be pleased with these Wooltex styles and Wooltex values—exclusive with this store. You will not find their equal anywhere in town.

## The Reason Why We Sell G & B PEARL

WE want business. Consequently we must make satisfied customers who come back again and again. The best way we know to make satisfied trade is to sell satisfactory merchandise. That's why we handle G & B PEARL Wire Cloth for screening doors, windows and porches.

G & B PEARL Wire Cloth outwears painted and galvanized cloth by years, simply because it is more rust proof by far than any similar cloth. And you know rust, not wear ruins screens. From every standpoint—wear—economy—looks or cleanliness—G & B PEARL Wire Cloth is the one best buy for screening.

We sell the genuine article with the G & B Round Tag on the roll and 2 Copper Wires in the Seams.

### Gregory

John Marlatt and wife left last week for Lansing where they will make their future home.

Miss Dorothy Budd went to Jackson Sunday of last week, where she will attend high school the coming year.

Mrs. W. B. Collins, who has been at the University Hospital at Ann Arbor for treatment, is once more able to be up and hopes to get home this week.

The Misses Vancie and Hazel Arnold and Esther Kellog, John and George Bowman and Archie Arnold were Jackson visitors Wednesday of last week.

Mr. and Mrs. Gifford of Lansing and Mr. and Mrs. Frank Eddy of Williamston were guests of Ed. Brotherton Sunday of last week.

Miss Grace Avery of Cleveland, Ohio, was a caller at the T. H. Howlett home last Wednesday.

Miss Bernice Harris of Hamburg was a week end visitor with the home folks here.

Mrs. Anna Moore was visiting from Tuesday until Friday of last week with friends at Chelsea and Lima.

Mrs. E. Hill and Mrs. C. M. Titus and son visited at Dick Clark's near Chelsea Saturday.

Quite a number from here attended the Jackson County Fair last week and pronounced it very good.

Miss Daisy Howlett visited at the home of her uncle, J. B. Crouse, near Stockbridge two days last week.

Dr. L. A. Woodlock, who was visiting his family here part of last week, left for Grayling Friday.

The Misses Carrie and Maude Glover of Grand Rapids were guests at the home of their cousin, H. E. Marshall, Friday night and Saturday.

The Woman's Literary and Civic Club met at Mrs. L. A. Woodlock's for their annual business meeting on Monday of last week and the following officers were elected for the coming year: Pres. Mrs. Gertrude Crozman, Vice Pres. Mrs. Bessie Marshall, Sec'y. Mrs. Junia Rae Gallup, Treas. Mrs. Belle Leach.

Mrs. Montague had as week end guests Mrs. Armstrong of Concord and Mrs. Armstrong's sister from Mt. Clemons.

Mr. and Mrs. O. B. Arnold, Mr. and Mrs. C. A. Mapes and Mrs. Laura Blakely motored to Jackson one day last week.

Mr. and Mrs. Norman Whitehead visited in Detroit the latter part of last week.

Mrs. Charlotte Howlett and little grand-son, Donald Marshall, were visitors at the home of her daughter, Mrs. G. A. Reid, Friday.

Mrs. E. Hill returned from her Rochester visit Friday. She was accompanied by her sister, Mrs. C. M. Titus and son.

Mrs. R. G. Chipman and daughters Adeline and Gertrude spent a few days last week with her brother, M. Watson of Jackson.

Mrs. Eliza Placeway and daughter Frankie have moved into their new home on South Main street.

Miss Lillian Buhl was an Ann Arbor visitor Friday.

W. B. Collins visited his wife Sunday at the Ann Arbor University Hospital.

Mr. and Mrs. W. H. Marsh were in Fowlerville Sunday afternoon taking Mrs. Lillie Burden to her sister's there. From Fowlerville Mrs. Burden goes to Lansing.

Miss Mary Howlett started Sunday morning for Nashville, Tenn. Miss Tubbs of Howell joined her at Lakeland. The girls will attend the Ward-Bellmont school for young ladies. While Miss Mary will be greatly missed here she is to be congratulated upon her choice of a school.

Miss Frances Farnham returned from Stonboro, Penn., the first of last week and has been visiting her sister, Mrs. C. I. Williams, and friends here the past week. She left for her school in Petosky Monday.

Miss Emma Moore, who has been visiting Mrs. Anna Moore, left for Chelsea last week Tuesday for an extended visit with relatives there.

Miss Dorothy Budd was home from Jackson over Sunday.

Mr. and Mrs. Geo. Arnold visited in Jackson Friday, going from there to Lansing on Saturday for a few days visit.

Mr. and Mrs. A. J. Jackson of Stockbridge were callers at the F. A. Howlett home Saturday evening, coming to see Miss Mary before she left for the South.

Miss Edna Sallowe of Goderich, Can., arrived in Gregory last Wednesday for a few days visit with her aunt, Mrs. Robert Moore. She left Monday for Detroit.

Miss Vivena McGee was home from Pinckney for the week end.

Mrs. L. A. Woodlock, son Wallace and daughter Norine left Gregory for Pentwater Saturday morning, where they will spend the winter with Mrs. W's mother, Mrs. Dumont.

Usual services at the Baptist church next Sunday. Come and worship with us. There is a welcome for you.

### Red Tape.

The expression "red tape," meaning official formality, owes its origin to the use of red tape by lawyers and government officials for tying up papers. An advertisement in the Public Intelligencer, Dec. 6, 1858, offers a reward for the restoration of "a little bundle of papers tied with red tape, which were lost on Friday last at seven night, between Worcester House and Lincoln's Inn." The term seems to have been satirically applied to official routine by Sidney Smith.

## CUSTER FORMALLY OPENED OCTOBER 23

RELATIVES OF DRAFTED MEN TO BE ENTERTAINED AT CANTONMENT.

### GOVERNOR AND STAFF INVITED

Expected That Michigan Delegation in Congress and Wisconsin Governor Will Be Present.

#### Lansing.

Camp Custer will be thrown open formally to the relatives of the national army men at the cantonment and to the officials of Michigan and Wisconsin October 23.

The Battle Creek Chamber of Commerce, working in conjunction with Major-General J. T. Dickman, commandant of the camp, will prepare to entertain relatives of the men at camp. Governor Sleeper and his staff, the Michigan delegation in congress and the governor of Wisconsin and his staff and the Wisconsin congressmen have been invited.

#### Small Per Centage Rejected.

Less than 4 per cent of the men from Michigan and Wisconsin sent to Camp Custer on the first draft are in danger of being rejected.

The result of the rigid examinations has delighted the division surgeons, who had expected to lose 10 per cent of the men in the final culling.

Michigan sent 1,600 men to Camp Custer in the first increment, and only 52 men have been rejected. Bad teeth seems to have knocked out most of the half hundred—teeth so bad that dental work could not bring them up to the regular army requirement of at least two teeth on upper and lower jaws that come in contact to permit the grinding of food. Ear trouble is next in eliminating men. Colonel C. K. Bartlett is positive the men's ears went wrong before they left home or while they were on the way to Battle Creek.

Ordinary defects were generally discovered by the draft boards in time to save the government unnecessary expense—and yet a man was sent to Camp Custer from Detroit minus every finger on his right hand. He could scarcely carry a gun, let alone fire one, and Lieutenant-Colonel Duncan K. Major of the 33rd Infantry, was astounded.

"I begged and begged the draft board to send me to Battle Creek," the man explained. "I'm healthy and strong and can use what's left of my right hand. I figured if they let me into camp they would find me something I could do for my country. Surely there is some department that can use me."

But the fingerless Detroitier was turned down, while another part of the camp they were considering what should be done with a drafted man who shot off his index finger to avoid service.

#### Winter at Camp Is Prospect.

When the whole situation is analyzed one is sure to come to the conclusion that the boys now at Camp Custer will not be sent abroad as early as first reports indicated.

For example: You ask a brigadier how soon he could take his brigade to France. Being a soldier, he limits his answer to the question you ask. He says he could move his brigade to France as soon as it is organized, which would be about four months.

If you jump to the conclusion that he has announced that he would have his troops ready to enter the trenches in four months, you have jumped wrongly. He has only said that he would have his organization complete and ready to move as an organization in four months.

If it were desirable to send his brigade abroad for training in France it could be done. But you have to emphasize the "could" in that sentence. It "could" be done, just as Camp Custer "could" be torn down again and piled up as lumber. But what would be the use? Why take an American army across the sea merely to train and impose that vast and needless burden on the allies' overseas' food supply.

They can't go until they learn to shoot and no one knows how long it will take to teach them. A company of men could be trained to the rifle in two or three weeks. But when you have 40,000 to train it is another matter. You don't have 1,000 ranges and you can't have 10,000 targets. The men might learn fast enough, but the work of teaching them all and giving each man the individual instruction he needs may be somewhat slow.

#### Coldwater Man On Education Board.

Governor Sleeper has appointed Thomas H. Johnson, of Coldwater, member of the state board of education to succeed Dr. T. W. Nadai, of Grand Rapids.

#### Soldiers to Come Home Healthy.

America will attempt to bring back her soldiers as healthy and wholesome as when they left their homes.

Frederick H. Holt of Detroit told the Camp Custer boys this at the first general meeting held at the camp under auspices of the war recreation commission.

Mr. Holt spoke from a wide experience and a familiarity with the subject gained by first hand associations with conditions in Europe.

Mr. Holt told briefly of the dangers of soldier life, declaring that one-third of the losses of the countries now at war were caused by social diseases contracted by the soldiers while in training camps. And he told of the effort this country is making now to avoid this evil.

"Wherever you go, don't forget that besides being soldiers you are also citizens in the great republic and so conduct yourself that you will come back to your mothers and sisters with as fine a manhood as when you entered the army."

#### Road Construction Lags.

Camp officials are urging the construction of the concrete highway between Battle Creek and the camp be rushed.

While this work is now going on, the camp authorities complain that at the present rate of building the work cannot be finished before spring. They point with pride to the progress inside the camp where three miles of similar highway is open to traffic after three weeks' work.

The Battle Creek highway to the reservation is to be used for practically all of the heavy traffic and meanwhile other roads are being cut up so badly that ordinary motor cars make the trip with difficulty.

#### Lots of Good Seed Grain in State.

A review by the Michigan Agricultural college of the pedigreed grain situation in the state has disclosed a fine condition of preparedness among farmers for the food campaign in 1918. No less than 400,000 bushels of rye, it has been found, are available for fall planting and will in all probability be used for seed. The danger has arisen, however, that Michigan may get but a small part of this rye, for outsiders are reported to be taking it up quickly.

#### U. S. Wants 900 Telegraphers.

Gov. Sleeper has been asked to obtain 900 telegraphers for service in the United States signal corps. Classes have been organized in many towns and villages throughout the state. Several public schools will teach telegraphy.

### CAMP CUSTER NOTES

Double floors, with oil paper between the layers, will be laid in all barracks.

Eight 10-inch wells will be used to fill four tanks, each with a capacity of 200,000 gallons. The water now used in camp is being furnished from one of these tanks.

Every regiment in the division will have its own past exchange, where delicacies and soft drinks may be purchased. The profits go to the mess fund of the regiment.

Workmen at the camp say they are better fed at Custer than in any cantonment they have worked on, and many of them have been employed on several of the new camps.

Bookstores in Battle Creek will do a lively business in books relating to military life. Officers have numberless requests from men for information concerning books which will help them to master their work and prepare.

In the first of the Y. M. C. A. buildings to be finished is an immense fireplace, into which huge logs are fed. Aside from their heating qualities that corner of the room is proving a magnet because of its crackling cheer.

Magazines to contain the ammunition will be constructed in an isolated section of the camp and will be built of lath and cement. The architecture is so arranged that in case of an explosion the roof will blow off easily and leave the walls standing.

A Chicago firm has made a successful bid for camp garbage. It pays a stated sum per month for each man in camp and will treat the stuff in a gigantic incinerator now being constructed, after which it will be taken to a farm several miles away and fed to hogs. It is expected there will be 25 tons of refuse daily.

Because of the army regulation which forbids a soldier from having in his possession or wearing civilian clothes, there will be millions of suits to be disposed of. Probably realizing a sentiment which would preclude many men from sending them home, a New York firm has asked the privilege of sending representatives to the different cantonments to buy them. So far as Camp Custer is concerned their request was turned down.

### Leaning-Tottering-Falling

## ITALIANS SEIZE MOUNTAIN CREST

CAPTURE POSITIONS ON MONTE SAN GABRIELE AFTER THREE WEEKS' BITTER FIGHT.

THROWN BACK SEVERAL TIMES

Austrians Resist Desperately and Still Cling to Several Positions on Mountain Top.

Washington—The crest of Monte San Gabriele, commanding the plain of Gorizia to the south and southeast and the Frigido valley to the east, has been captured by the Italians after three weeks of the most bitter fighting, the Italian embassy at Washington announces.

This news of the victory, probably the greatest feat of the Italian arms thus far in the war, precedes the latest official report from Rome.

The Italian effort to capture San Gabriele began after the taking of Monte Santo, directly north, by General Cadorna's troops August 25. Several times the Italians had reached the summit of the great mountain, so important to their further progress east of Gorizia as well as on the Carso, only to be beaten back again.

On the slopes of the rugged rock in the last few weeks has occurred some of the heaviest and most sanguinary fighting of the war, with the Italians hurling themselves forward in desperate attacks and the Austrians holding to the crest as desperately.

San Gabriele's top was occupied by the Italians, the embassy reports, after the fortified hill or saddle of Dol and the Garagaro basin, the main bulk of San Gabriele, had been taken. The Austrians, however, still cling to some positions on the mountain. In the forest of Tarnovo, east of Monte San Gabriele, the Italians captured positions from the Austrians, after suffering heavy losses.

### THIRTY-SECOND IN TEXAS CAMP

Long Step to France Taken By 1,800 Michigan Boys.

Grayling—Taking a long step toward France and the trenches, 1,800 Michigan boys in the Thirty-second infantry regiment and field hospital No. 1, left Grayling Sunday for Camp McArthur Waco, Tex. "And we won't come back till it's over—over there," the band kept insisting.

The boys are carrying south a different spirit than they carried last year, when they went down to curb the unruly Mexicans. The sentiment of the band, "We won't come back till it's over—over there," seemed to be written on every face.

A magnificent tri-color of France was presented Sunday to the Thirty-first by Dr. Victory M. Seymour. He instructed the boys from Detroit to present the colors to France when they arrived there.

### 43 DIE ON TORPEDOED LINER

Big Atlantic Transport Minnehaha Sunk By Submarine.

New York—Confirmation of the destruction by a German submarine of the big Atlantic transport liner Minnehaha, with a loss of life, has been received by the line from its offices in England.

The cable said 43 of the crew perished and 110 were saved. Chief Officer Albany, C. A. Willis, purser, Dr. J. E. Barrett, surgeon, three other officers and three engineers, were among those who were lost. Captain Frank Claret, the Minnehaha's commander, and First Officer Pierce were saved.

### ROBBERS MAKE \$9,000 HAUL

Bandits Blow Safe at Climax Bank Making Rich Strike.

Battle Creek—Six automobile bandits drove into the little town of Climax, 12 miles south of Battle Creek, in Kalamazoo county, early Saturday morning, cut all wires, held up the villagers and blowing open the safe at the Climax State bank, escaped with \$9,000.

The crime is one of the boldest ever perpetrated in this district. It took four charges of explosives and an hour's time to accomplish the work. It is believed the men escaped by way of Athens.

The robbery was carefully planned. The gang came in two automobiles, and about a mile out of town camped out and had a late supper. Just after midnight they entered the town, cut both the Bell and Independent telephone lines, and all the Grand Trunk telegraph wires. The operator, hearing them at work, put out his lights, and later flagged all trains. Several passenger and freight trains were soon tied up there.

Ten years ago the bank was entered by the same window that they thieves used this time. At that time they secured nothing.

Of the money taken, \$2,500 was in gold, and the rest in paper. A pile of silver dollars was left on the floor of the safe and paper money was scattered about the floor of the bank.

### U. S. TO SEIZE COAL SUPPLY

Will Requisition Enough to Supply Domestic Consumer.

Washington—The United State fuel administration will requisition enough bituminous coal to supply the domestic consumer. Dr. Harry A. Garfield, fuel administrator, said it probably would be necessary to take over 25 per cent of the output of the mines to supply the spot demand for domestic consumption.

In many cases it will be necessary for the coal operators to abrogate contracts when the government requisitioning orders go into effect this will be done by government order for the benefit of the domestic consumer at a sacrifice to the larger consumer.

Dr. Garfield added that retail prices for coal would be fixed by October 11. Each state fuel administrator will submit an estimate of the amount of coal needed in his territory to keep factories going and homes warm. The coal will then be requisitioned and apportioned accordingly.

After the domestic consumer has been provided for, transportation systems, manufacturing industries and public utilities will then be considered.

### HOLD EDITORS FOR TREASON

Publishers of German Newspaper Indicted By Grand Jury.

Philadelphia—The five men arrested in connection with the raid by the government on the Tageblatt, a German language daily newspaper published in this city, have been indicted by the federal grand jury. They are Peter Schaefer, president, Louis Werner, editor-in-chief; Dr. Martin Darrow, managing editor; Herman Lemke, business manager, and Paul Vogel, treasurer. They will be tried for conspiring to print false reports in violation of the espionage law.

There were nine additional counts in an indictment of Werner and Darrow on the charge of treason.

It is stated that the government will vigorously push the cases against them and that they will be brought to trial in a short time. They are all at liberty on \$10,000 bail each.

Michigan Man Missing in France. Pontiac—W. H. Gregory, of this city, is reported missing in the Canadian casualty list.

## 22,000 U. S. PLANES IN WAR BY SPRING

GOVERNMENT PLANS TO HAVE MAMMOTH AIR FLEET READY EARLY.

### PERFECT NEW LIBERTY MOTOR

Bids Fair to Revolutionize Aeronautics On Account Lightness and Power—210 Miles Speed Attained.

Washington—With the perfection of the Liberty motor for airplanes, official announcement of which is made by Secretary Baker, the work of carrying out the mammoth air program of this government is being pushed with the idea of having 22,000 planes ready for use before spring.

This airfleet which is expected to "put out the eyes of Germany" and turn the tide of the war for the allies, is in course of construction, and it is learned that the present board of the council of the national defense, can see no obstacle to its successful consummation by spring.

From unofficial but reliable sources, it is learned that the Liberty motor bids fair to revolutionize aeronautics and that the statement concerning it issued by Secretary Baker was most conservative. With the motor standardization manufacture in large quantities can proceed with speed. Power and minimum weight are the qualities which are expected to make it superior to any foreign motor.

The engineers have reduced the weight to one and three-quarters pounds per horsepower, which means that a 250-horsepower motor will weigh less than 500 pounds.

Details are held back, but it is learned that already American planes, equipped with the Liberty motor have reached a maximum speed of 210 miles an hour. By multiplying the motors used this speed can be increased indefinitely and the carrying power of the plane can be increased accordingly. Two, three and even more motors may be used in the big battle planes.

### KAISER FAVORS POPE'S PEACE

Dispatch Says Teuton Reply Accords With Vatican's Proposal.

Amsterdam—The reply of the Central powers to the peace note of Pope Benedict, says a Vienna dispatch to the Tjld, begins by declaring that they regard the Papal proposals as a suitable basis for peace negotiations.

Regarding the exchange of occupied territory, arbitration, disarmament and similar proposals, declarations are made, the dispatch adds, which testify to the idealism of the Central powers and their sincere desire for a peace that will insure happiness to all nations.

Conciliatory declarations also are made respecting the settlement of the Balkan question, Poland and the restoration of Belgium, but emphasis is laid on the condition that the Allied powers must also give serious evidence of a desire for peace by a joint and benevolent discussion of the questions which now separate the nations.

The reply, it is said, will be published as soon as the consent of the papal nuncio at Vienna is obtained.

### "SUFS" GET 30 DAY SENTENCE

Sent to Work House for Flaunting Banners at White House.

Washington—Thirty days in the work house was the sentence meted out by Judge Mullowny to six militant suffragists who have been flaunting banners at the gates of the White House.

The women had been warned of a six months' sentence. The sentence was made short, Judge Mullowny said, because of the innocent nature of their banners.

### U. S. SUBMARINE SUNK IN PORT

Cause Not Determined—No Lives Reported Lost.

Washington—A United States submarine sank at her dock at an Atlantic port Saturday morning, the navy department announced. There was no loss of life.

The announcement said it was expected that the submerible would be raised within a few days when a full report of the accident would be made to the department. For military reasons the name of the submarine and the port were withheld.

# OFFICERS AT TOP MUST MAKE GOOD

### Men Recently Appointed to High Rank Will Be on Trial in Camp.

### NONE BUT BEST WILL LEAD

### Work in Training Camps Will Decide Who Are to Command Troops on Fighting Line in France.

By EDWARD B. CLARK.

Washington.—When the training camps for the men of the new National army are pitched and the young Americans march in to begin their military studies, every one of them can know that the officers who are in command, particularly those of the highest ranks, also are just entering school to learn lessons.

It may not be that the officers of the service who are to rule over the new camps either as major generals or brigadier generals have full realization that such is the case, but the fact is that in a large sense these officers themselves are entering into camps where, like the young civilians who joined the officers' reserve camps, they must either make good or get out.

There are many general officers appointed to high rank recently who must center their bodily and mental efforts on the work ahead. With the officers of regulars who have been appointed there are the brigadier generals of the National Guard and the two major generals of the same organization who also must make good or step down and out before the times comes to go to France.

The reasons for this ought to be apparent. The United States has entered upon a war which is to be carried on after new military methods. Few of the men, if any, who now hold major general rank ever have had an opportunity so much as to see a division of troops in the field, let alone opportunity to command a division.

#### Must Make Good.

The work which these major generals and brigadier generals of regulars and of National Guardsmen do in the training camps will decide whether or not they are to be allowed to continue their work in command of large bodies of troops on the fighting line in France.

It takes only a reading of the list of the names of the officers recently given general rank in the army to prove that the United States finally has an army in the field none of whose commanding officers received promotion because of political influence. In 1898 when the Spanish war began, men with political pull in some instances were given high commands. The results in a number of cases were disastrous. The general staff of the army, aided by civilian officials of the war department, succeeded in preventing political influence from taking effect in the recent promotions to high army rank.

There are yet to be appointed a good many men to field work service in the new National army, that is to the ranks of colonel and lieutenant colonel and major. It is not believed that political influence will avail to affect these promotions any more than it availed in the naming of major generals and brigadier generals. The war department has realized, and has said so, that it may have to go outside of the army and the National Guard to secure the services of some officers for comparatively high rank. There will not be enough material in the service to supply all the field officers needed. It must be remembered that thousands upon thousands of the regular and National Guard officers are very young men, and the majority of them have not had enough experience to justify, from the army point of view, their appointment as first and second in command of regiments.

The war department officials today have in their possession a list of names of only 71 men outside the present service who may be considered for field officer's rank. It is said that there are some few political pets on this list, that is, men who have received the indorsement of senators or representatives or governors, or someone else high in the service of one political party or another, but it is pretty well known that even those men who received the indorsement of politicians have had previous military experience and have been put on the list, not because of their political indorsements, but in spite of them.

#### Commissions for Some.

It is said that it does not follow at all because there are 71 civilians listed as available for army appointments that all of them are to be given commissions. It is probable that not more than eight or ten of them will be given places at the outset, but the chances

are that later when we must raise bigger armies more of these men will be appointed and that to the list already in existence other names will be added.

An amusing story is being told here of a United States senator who, finding that his influence was not to avail in securing appointments for political friends, cast about him for means of getting some credit for himself out of the appointments that were made without any reference to him. This senator, it is said, wrote to the men from his state who had received commissions and called their attention to the fact that he had not tried to prevent their appointment. The chances are he did not even know that they were going to be appointed, but he did his best to secure the good will, by the only means possible, of the men who had been given preferment without any reference to their friendliness with the political powers of their home states.

### SHE IS DOING HER BIT

Mrs. James Lees Laidlaw, first vice chairman of the New York State Woman Suffrage party, in a paper she read at the annual convention of the Fourth Assembly district suffrage organization at the Westchester county courthouse, appealed to her fellow suffragists to improve every possible opportunity to "do their bit" toward helping win the war. She has outlined a long list of methods and means—practical suggestions for the patriotic woman who is wondering just how she can help.

Mrs. Laidlaw, this picture shows, is following the advice she gave her fellow suffragists and is doing her bit in her own kitchen. She is a splendid housekeeper and has put into effect in her home the recommendations of Mr. Hoover to secure war economy. She is running her kitchen on a war time economy basis, using no white flour and observing all the other tenets of the Hoover program most rigorously. Mrs. Laidlaw is one of the most enthusiastic workers in the "get behind Hoover" movement.

#### Flies That Kill Spiders.

Flies are the natural prey of spiders, yet, strange to say, there are in Brazil some flies which prey on spiders. These daring little insects do not differ much from ordinary flies. They are hymenoptera, and *Pepsis ornata* is a typical insect of this kind. They usually come upon the spiders when the latter are unprepared and sting them to death. A spider after being stung once has generally sufficient strength to hide in a tuft of grass, but his shelter proves only of temporary service, for the pitiless fly soon returns and completes its work by stinging the helpless victim twice in the lower part of the thorax.—Exchange.

#### A SIMPLY GOOD LIFE.

In the effort to appreciate various forms of greatness let us not underestimate the value of a simply good life. Just to be good, to keep life pure from degrading elements, to make it constantly helpful in little ways to those who are touched by it, to keep one's spirit always sweet and avoid all manner of petty anger and irritability—that is an ideal as noble as it is difficult.—Edward Howard Griggs.

#### THE SALAD BOWL.

**CABBAGE SALADS.**—Cabbage Salad No. 1: Select a small, firm, white cabbage. Shred very fine, salt, add a few wafer thin slices Bermuda onions and a shredded green pepper that has been seeded and soaked in cold salt water for an hour. Serve well chilled on crisp lettuce leaves with liberal amount of French dressing.

Cabbage Salad No. 2: Shred fine a small purple cabbage. Chill in cold salted water for an hour. Rub a clove of garlic over a salad bowl. Drain cabbage, toss lightly with two forks to keep as separate as possible while adding following dressing: One-quarter teaspoonful salt, one-quarter teaspoonful mustard, one-eighth teaspoonful paprika, one-half teaspoonful sugar well blended with four tablespoonfuls cider vinegar. Beat thoroughly before pouring over cabbage.

**Fruit Salad.**—Pare two oranges and remove the pulp without any of the skin. Shred two slices of fresh pineapple. Slice two bananas. Mix all together. Serve cold on lettuce leaves, with French dressing or mayonnaise.

**Kumquat Salad.**—Split kumquats lengthways in half and mix with equal quantities of red canned cherries. Put a little lemon jelly in cups, fill nearly full with fruit and cover with jelly just before it begins to harden. Set on ice overnight. Turn out on lettuce leaves and dress with mayonnaise mixed with ground white pecan meats.

**Fruit Salad.**—With a sharp knife slit one side of large dates, take out the seed and fill with blanched pecan meats. For each plate put two leaves of romaine side by side pinched together and a row of dates in each leaf, resembling peas in a pod. Put a half teaspoonful of green mayonnaise on the ends of each leaf. This green mayonnaise, by the way, is made by soaking strips of sweet green peppers in slightly salted ice water for two hours; then drain, chop fine with a sharp knife and fold into mayonnaise.

*Anna Thompson.*

#### HUN BOMBS CARRY DISEASE

Skin Infection Spread by Touching Pieces of Those Dropped on London.

London.—Serious skin infection, caused by the ashes of high explosive bomb powder, will probably deter Londoners from picking up bomb fragments after future air raids.

Three weeks after the big raid that killed over 100 people, 25 persons were reported to be suffering from a strange ailment—their hands were swollen and the skin was suffering from a new kind of irritation.

Hospital authorities identified the trouble as that which frequently attacks munition workers who handle T. N. T. The trouble starts within a few hours after the hands touch the bomb fragments and the disease is progressive unless checked by medical attention.

#### FIND BODY AFTER 8 MONTHS

Miner's Remains Discovered in Remnant of Snowslide in Montana Mountains.

Livingston, Mont.—The body of Nick Carr, a miner, who was caught in a snowslide in the mountains near Cooke City, December 7, 1916, has been found.

Carr was in the mountains near Cooke City one day last December and was caught in a snowslide. A search was made for his body, but the remains were not found.

A few days ago, Henry Hughson of Livingston was coming into the mining camp, and saw a foot sticking out from a snow bank. He investigated and soon dug out Carr's body.

#### RECRUIT'S HEART IS MISSING

Army Examining Physicians Unable to Locate Organ by Its Beating.

Bellaire, Ohio.—Harry Lewis was rejected at the local army recruiting station when he applied for enlistment because the recruiting officers could not discover where his heart is. Officers in charge put Lewis through severe tests. He was compelled to run upstairs, jump, box and wrestle to increase the heart action, but at the end of a half-hour this failed to locate the heart.

Lewis declared after the tests that he did not feel the least tired. In every other way he was found to be perfect physically.

Picric acid as a high explosive was first heard of in a general way during the Boer war and in connection with the lyddite shells used by the British.

#### BATTLES WITH MAD COUGAR

With Bare Hands as Only Weapon Oregon Man Chokes Beast to Death.

Portland, Ore.—In a desperate fight with a mad cougar, with his bare hands as his only weapon, J. Donovan of Bend, Ore., was the victor, according to his story as he was undergoing the pasteur treatment at a doctor's office here.

Donovan says as he was working in a stony field on his ranch the beast sprang upon him from behind a rock where it had lurked.

With its 100 pounds weight it bore Donovan to the ground. He managed to get a firm grip on the animal's throat, and although scratched and bitten, he slowly choked the breath from the beast.

#### DENVER BUDS HARVEST FRUIT

Social Girls Doing Their Bit to Help Hoover Conserve Food Supply.

Glenwood Springs, Colo.—Many Denver society girls who took courses at the First National service school are planning to do their "bit" for Uncle Sam. They have announced their intention of assisting Food Director Hoover to conserve the food supply by picking fruit for farmers on the western slope.

When Miss Anne Evans made an appeal for workers for the apple and peach orchards the society girls declared they would go to the orchards, not for the \$3 a day they will receive, but to help meet the labor problem. The fruit crop is the largest the western slope has ever produced.

#### WIVES MARKET THE FOOD

Attend to the Business Details While Husbands Continue Labors in Field.

Canton, O.—Farmers' wives are bringing their produce to the Canton war market and allowing their husbands to continue their labors in the field. This bit of conservation is the idea of the local woman's committee of the council of national defense and was brought successfully into operation only after weeks of untiring campaigning in the rural districts. If there is an extra rush at the curb market the members of the committee aid the farmer women in selling their wares.

#### WRECKS OWN ILLICIT STILL

Pioneer Moonshiner in the Ozarks Is Converted to Prohibition and Destroys Plant.

Gulon, Ark.—Moonshine whisky is disappearing from the Ozarks. A man regarded as the pioneer moonshiner of this section has voluntarily destroyed his 50-gallon copper still, which has run, according to his estimate, 10,000 gallons of liquor since he put it in use soon after the Civil war. Through all the years the still was not found by the "revenuers." Having been converted to prohibition, the moonshiner called his friends and told them he was through. Then he hacked up the still and sold the copper as junk. His name is being withheld so that he will not be prosecuted by the government.

#### The Wash Boiler.

A faucet on the wash boiler is said to be an excellent thing. Instead of lifting out the clothes after boiling them open the faucet and let the boiling suds drain into a tub or pail. The clothes may be more easily removed to the rinsing tub after the boiling water has been drawn off. A plumber will be able to fit a faucet to a boiler at small expense.

#### Legal Notices

STATE OF MICHIGAN, The Probate Court for the County of Livingston, At a session of said Court, held at the Probate Office in the City of Howell in said County on the 29th day of August, A. D. 1917. Present: Hon. Eugene A. Stowe, Judge of Probate. In the matter of the estate of

THURSEY JARSDORFER, Incompetent

M. E. Kuhn having filed in said court his final account as Guardian of said estate, and his petition praying for the allowance thereof, his ward being now deceased.

It is ordered that the 29th day of September A. D. 1917, at 10 o'clock in the forenoon, at said Probate Office, be and is hereby appointed for examining and allowing said account.

It is Further Ordered, That the 1st day of Nov., 1917, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for the examination and adjustment of all claims and demands against said deceased.

EUGENE A. STOWE, Judge of Probate.

#### MORTGAGE SALE!

Whereas default has been made in the payment of the money secured by a mortgage dated the ninth day of March in the year one thousand eight hundred ninety-eight, executed by Allen T. Bigelow and Calista A. Bigelow his wife of the township of Conway, Livingston County, Michigan, to Georgia G. Foster of Burns, Shiawassee County, Michigan, which said mortgage was recorded in the office of the Register of Deeds of the County of Livingston in Liber 87 of Mortgages on Page 302 on the eighteenth day of May in the year 1898 at 9:00 o'clock a. m.; which said mortgage was assigned from George G. Foster by Emma Foster, executrix, to Mabel Fuller by an assignment which is recorded in the Register of Deeds office of the County of Livingston in Liber 97 of Mortgages on Page 6; which said mortgage was again assigned from Mabel Fuller to Calista A. Bigelow by an assignment bearing date the fourth day of June, 1913 and recorded in the Register of Deeds office of the County of Livingston in Liber 97 of Mortgages on page 556.

And whereas the amount claimed to be due on said mortgage at the date of this notice is the sum of Seven Hundred Sixty Three and 25/100 (\$763.25) Dollars, principal and interest and the further sum of Twenty (\$20.00) Dollars, as an attorney fee stipulated for in said mortgage and which is the whole amount claimed to be unpaid on said mortgage and no suit or proceedings having been instituted at law to cover the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore, notice is hereby given that by virtue of the said power of sale and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction to the highest bidder at the west front door of the Court House in the City of Howell in said county of Livingston on the sixteenth day of November next, at 11:00 o'clock in the forenoon of that day; which said premises are described in said mortgage as follows, to wit:—

The following described land and premises situated in the Township of Conway, County of Livingston, State of Michigan, viz: Twenty-six (26) acres off South side of North one-half (1/2) of North West Quarter (1/4) of Section Number Twenty-three (23); also Thirteen (13) acres off South side of North-west Quarter (1/4) of North-east Quarter (1/4) of Section Number Twenty-three (23). Township Number Four (4) North of Range Number Three (3) East. Dated this eighteenth day of August, A. D., 1917.

CALISTA A. BIGELOW, Assignee of Mortgagee.  
A. E. COLE, Attorney for Assignee of Mortgagee.

#### Make Your Kiddies Laugh

Children smile when they take Foley's Honey and Tar 1st, It tastes good. 2nd, It makes them feel good. It will turn a feverish, fretful, coughing child into a happily smiling one. Because—It puts a healing, soothing coating on a feverish, inflamed, tickling throat. It helps soothe and stuffy, wheezy breathing. It stops coughs quickly, and it wards off croup. It contains no opiates, does not upset a delicate stomach, and the last drop in the bottle is just as good as the first. Try it.

For Sale at Ingersoll's Drug Store

#### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars reward for any case it fails to cure. Send for list of testimonials.
