

# PINCKNEY DISPATCH

Vol. XXXV

Pinckney, Livingston County, Michigan, Wednesday May 29 1918

22

## OFF FOR CAMP CUSTER

### Livingston Boys Left Tuesday

The following young men from Pinckney and vicinity left for Camp Custer Tuesday morning, May 28:

Pinckney  
William P. Daley  
Lucien M. McCluskey  
Leo C. Lavey  
Harry A. Frost  
Wilbur F. Eisle

Gregory  
Bangs Richmond  
Clare E. Chipman

Lakeland  
Lawrence C. Imos

Hamburg  
Floyd W. Ledyard

With one exception last Friday the largest crowd ever contained in Howell gathered Tuesday morning to speed the new soldier boys on their way to Camp Custer. The music for this occasion was furnished by two brass bands and two life and drum corps. It is estimated that over two hundred people from Pinckney were there.

Claude Kennedy of Pinckney and Paul Kuhn of Gregory also reported, expecting to leave with the boys but were ordered home and be ready for the next draft.

## PIPP-DALEY

A pretty wedding took place at St. Joseph's church last Saturday morning at 9:00 o'clock when Miss Genevieve Laurette Pipp, youngest daughter of Howell was united in marriage to William P. Daley of Putnam. Rev. Fr. McDace officiated in a nuptial high mass. The bridal couple were attended by Mr. and Mrs. Gerald Henry of Detroit. Following the wedding ceremony a wedding breakfast was served at the home of the bride. The bride is a graduate of the Howell High School of the class of 1917. Livingston Democrat.

Mr. Daley left Tuesday for Camp Custer.

## Registration Notice

By order of President Wilson notice is given that all male persons coming of the age of 21 years since the registration of June 5, 1917, are required to appear before their local board for the registration of June 5, 1918.

The local board will be at their office in the Court House at Howell on above date between the hours of 7 a. m. to 9 p. m.

Signed and dated May 21, 1918.

F. H. LARE,  
Secretary.

Local Board for Livingston County,  
Howell, Mich.

## Township Board of Review

Notice is hereby given: the board of review of the township of Putnam will meet at the Town Hall in Pinckney on June 4th and 8th for the purpose of reviewing the assessment roll. Notice is further given that the board will meet on June 10th and 11th to hear and adjust all grievances.

M. J. REASON,  
Supervisor

## Village Board of Review

A meeting of the Board of Review for the village of Pinckney will be held at the Township Hall in the village of Pinckney June 10th and 11th for the purpose of examining and approving the assessment rolls of the village and all persons interested about appear before the Board during that time.

ROSS T. READ,  
Assessor.

## SCHOOL NOTES

Under the state law it is impossible to collect tuition from foreign pupils unless the standing of the school is approved by educational authorities.

As the income from these students is very large, it would not be a good policy to lower the standing of the school. The following letter to the secretary of the school board explains itself.

Mr. F. G. Jackson,  
Sec'y Board of Education,  
Pinckney, Mich.

My dear Sir:

The law requires that your school must be approved by the Superintendent of Public Instruction in order that other school districts in the state may pay the tuition of eighth grade graduates to your high school.

We wish to inform you that the Superintendent of Public Instruction has issued a certificate of approval to your high school and same has been mailed to your superintendent of schools.

Very respectfully,  
John M. Munsos.

Deputy State Superintendent.

In the field events at Howell last Friday (Patriotic Day) Pinckney showed up well considering the short time it took. The relay team, Leroy Z. Murphy, Edwin Brown, Roche Shehan, and Bert McClean, won first place in a close race; Roche Shehan took second place in the hundred yard dash; and Edwin Brown and Roy Campbell third and fourth in the two hundred and twenty yard dash. The base-ball team was defeated 6-0. On account of rain the tennis match was abandoned. This was a great disappointment to the Pinckney entries as they had trained thoroughly for this event.

The Pinckney school Art exhibit at Howell was by far better than any other to be seen there, not only in size but in excellence of work. The exhibit was of original posters, landscapes, decorative designs, and still lifes, which were done in water colors, paste, and in black and white.

Decorations Day the base ball team goes to Fowlerville.

## HEART DAY

The local school girls will sell hearts here Saturday, June 1, for the benefit of the Michigan Hospital School.

This organization which is the result of the former Child Welfare League and the Van Leuven Browne Hospital school, now occupies a splendidly equipped new hospital building seven-tan miles northwest of Detroit on Grand River Ave.

Physically defective children from the poor families throughout the state are given surgical treatment and hospital care without charge. The school's medical staff is unexcelled in the state and renders its services gratis.

The sale of hearts will be in charge of Miss Josephine Harris with headquarters at Ingersoll's Drug Store. The Pinckney Exchange bank will handle the funds collected.

## RED CROSS

The annual meeting of the local Red Cross society will be held Friday night May 31st after the entertainment at the opera house. Every member is expected to be present.

## LAKELAND FIRE

Last Friday, while nearly everyone at the county seat participated in the Red Cross festival a fire—origin unknown—started at Lakeland. Two large gasoline tanks exploded and spread the fire across the tracks. The buildings occupied by C. A. Mayworm is a total loss and Floyd Waters sustained considerable loss. Nearly fifteen motor boats were destroyed. The fire started about noon.

Friday night May 31st the opening dance will be held at Water's Pavilion. Goucher's orchestra from Brighton will furnish the music and a good time is assured. Everybody welcome.

Wants, For Sale Etc.

## WANTED

Men and women to learn the electrical and machine business. Safe, sanitary conditions on light clean factory. High while earning. Pleasant work for all and steady employment.

## Government Work

See us or drop a postal today for interviews. Experience given preference.

Yours very truly

Howell Electric Motors Co

LOCAL AND GENERAL

Come and hear the Spinsters at the Opera house Friday evening, and have a good laugh.

Mrs. John Bryant of Haverhill, Mass. is spending several weeks with her parents, Mr. and Mrs. G. W. Teeple.

Miss Lucile McQuillan of near Howell was a recent visitor at the home of L. G. Devereaux.

Mrs. Eva Weard of near Howell was a guest at the Hayes home last week Wednesday.

Miss Madeline Bowman spent the week end with Mrs. Earl Jennings near Gregory.

Mr. and Mrs. Fred Bowman and son, J. C. and Mr. and Mrs. P. H. Dearthout and son, Fred spent Friday at Howell.

Remember that the church service at the M. E. Church next Sunday is a special one. The pastor will be Mr. J. W. L. Jones.

Mrs. James Dunning took a train near Hartsville Tuesday.

Mrs. A. H. Gorman and Mrs. H. B. Flintoft were in Howell Tuesday.

Jesse Richardson was home from Pontiac over Sunday.

Mr. and Mrs. J. Bullard and Mrs. F. Burbank of St. John were callers at J. Parker's Friday.

G. W. Dinkel and family attended a reception in Howell Monday evening in honor of Mrs. Dinkel's nephew Clarence E. Dinkel who went to Camp Custer Tuesday morning.

Mr. and Mrs. Fred Wyman and daughter Grace were Pinckney callers Sunday.

Miss Jessie Green spent the week end with relatives in Jackson.

Mrs. Dwyer returned to Detroit after spending several weeks with her nephew, Father Crowe.

Ross Read was in Dexter Saturday.

CULTIVATOR WITH SPRING SEAT
The 1918 Little Willie Cultivator is equipped with spring seat and many other 1918 improvements.

Mrs. James Roche and daughters spent Sunday at Fowlerville relatives.

Dr. and Mrs. C. L. Sigler, Mr. and Mrs. C. M. Lagersoll were in Whitmore Lake Sunday.

Paul Curlett of Detroit visited his parents here last week before going to Camp Wheeler, Georgia.

Miss Kathleen Roche was home from Detroit over Sunday.

HERSCHEL LAWN MOWERS
The Herschel Lawn Mower is nineteen years old. I have sold them for seven years. They are strong, high-grade, easy running, and you can always obtain repair parts.

Always buy a mower with the maker's name and address cast on the wheel.

R. E. Barron, Howell, Mich.

Father J. A. Crowe was in Howell one day last week.

G. W. Teeple was in Howell Monday.

W. E. Murphy and son, Lewis, Claude Kennedy, Mr. and Mrs. Ross Read were in Howell Tuesday.

Claude Mackinier spent Monday at Jackson.

Wm. Tipler and family spent Sunday at Jackson.

Wm. Westphal and family spent Sunday at Jackson.

Mr. and Mrs. H. B. Flintoft were in Howell Tuesday.

Mr. and Mrs. H. B. Flintoft were in Howell Tuesday.

Mr. and Mrs. H. B. Flintoft were in Howell Tuesday.

Mr. and Mrs. H. B. Flintoft were in Howell Tuesday.

Mr. and Mrs. H. B. Flintoft were in Howell Tuesday.

## NAVAL RESERVES DOING SPLENDID WORK FOR U. S.

THOUSANDS AT THANKLESS  
TASKS THE WORLD OVER  
DESERVE CHEERS, NOT  
SNEERS.

"The young men who serve in the Naval Reserve Force are performing a duty just as patriotic, just as essential to the final victory of our arms in this war as that performed by the men of any other branch of the nation's forces."

That is Lieut. Commander Truman H. Newberry's answer in the New York Evening Mail to the few scoffers and critics of the men in the Naval Reserve.

### "ONLY NAVAL RESERVES."

Why does that branch of the service attract so many men? Are they draft dodgers? Do they fear service at the front in France? Do they seek to enter a branch which will keep them near home?

These are the questions which the military editor of The Evening Mail put to Commander Newberry, commandant of the Naval Reserve Force in the third district.

Only a few days ago two blue jackets sat in conversation in a Broadway subway train. At forty-second street two soldiers entered. After a whispered conversation and frequent glances at the sailormen, one of the soldiers bent down to read the gilt lettering on the jackets' hats.

"Only Naval Reserve guys," he sneered.

It wasn't the first time the military editor had seen that sneer. Among civilians, as well as among men in uniform, the same attitude toward the reservists has been noticed. So he sought out Commander Newberry and asked for comment.

"You say there seems to be a tendency to belittle service in the reserve force? There is no reason for it," declared Commander Newberry. "Among soldiers and sailors there is always a friendly bantering. Sometimes it is not friendly. But it is never serious."

### THOUSANDS "OVER THERE."

"As for civilians, their attitude may be attributed to lack of information. It is true that originally the reserve

recruited men for coast patrol duty. Do they know that the larger part of the force is now serving at sea, in foreign waters, side by side with the men of the regular navy, or training at the great naval stations for active service?

"More do they know that men are being accepted for general service, which means they may be assigned anywhere, on any ship of the navy, at the discretion of the navy department?"

"Surely these lads are entitled to as much credit as the men of other branches. And they have reason to be as proud of their uniforms as the men in olive drab or forest green are of theirs."

### ALL SERVING NATION.

"Every man who wears an American uniform is serving the nation—in whatever capacity he is enlisted. And those who volunteered for the Naval Reserve Force, because service on the sea appealed to them, are serving just where they belong."

"In April last year, when the United States entered the war, the only ship

**Deeple Hardware Co.**

open for non-seagoing men was class four. Since July 1, 1917, however, all men in this class have volunteered for general service, and no men will be accepted now unless they volunteer for general service.

"Another thing in common with some other nations America has never realized the important role of its navy in warfare. But you may be sure that when this war has been finally won, the United States Navy will have played an essential part in the great victory. That will be a task for the historians, and they will not begin their work until peace comes. So we'll have to wait. But the navy's page in that history will be a brilliant one!"

And there you have the commander's answer.  
Incidentally, Commander Newberry is head of a family which has registered a long record of service in this war. He was one of the first to answer the Michigan call to answer the president's call. Mrs. Newberry is president of the Needle Work Guild of America, which is devoting its entire strength to Red Cross work. Their twin boys, Barnes and Phelps, are on active service. Barnes is an ensign in the navy, on duty somewhere on the Atlantic, and Phelps is a major in the aviation section of the army.

### NEWBERRY KNOWS THE NAVY.

The commander's record includes active participation in two wars. He was Secretary of the Navy in President Roosevelt's cabinet. He holds the only commander's commission given to any man in the country promoted directly from civil life during the present war.

Friday night the Spinster's Return  
Don't carry a sad face any longer,  
but come out and enjoy the fun.

"The Proper Tonic When Coughs Are Chronic."

## FOLEY'S HONEY AND TAR COMPOUND

**HAWKING** and spitting, with or without a hacking cough, notably disturbs and disgusts bystanders, but weakens and wears down the system of the sufferer so that the way is made easy for more serious sickness.

It isn't "smart" to neglect a cold. On the contrary, it is downright foolish. It may sound quite bold and strong to say, "I don't believe in medicine or doctors," or "I never bother with a cold"—but just watch carefully the result of such practices. You hear the boasting and bragging man, "The cold went away," but you don't always hear the regret and sorrow when the cold stays and does its worst.

Let common sense, intelligence and experience be your guide. Act promptly to check any cold, no matter how slight. Stop any cough as soon as you can. It's better to be sore than sorry. It's an old and true saying: "Foley's Honey and Tar Compound loosens the phlegm and mucus, clears the passages, coats the inflamed and irritated membrane with a healing and soothing medicine, cures the hoarseness, stops tickling in the throat and enables you to enjoy refreshing, restful sleep. It contains no opiates and is pleasant to take. Good for children as well as 'grown-ups'." Has relieved thousands of cases of spasmodic croup and whooping cough. In 25c, 50c and \$1.25 sizes.

**Sold Everywhere**

## REPLANTING OF CORN IN STATE

Because of Poor Seed More Than Usual Number of Fields Fail to Come Up.

### GOVERNMENT OFFERS TO AID

Establishes Seed Corn Reserve for Supplying Late Needs of Farmers—Supply Can Be Had on Quick Notice.

By PROF. J. F. COX, Department of Farm Crops, Michigan Agricultural College.

East Lansing, Mich.—As seasons go the present has probably been fraught with as many difficulties for the Michigan farmer as any he has ever been called upon to prepare for—and of these, seed corn troubles have been by no means the least. The one consoling feature about it all is that matters might have been worse, for as a result of the zealous efforts by state and national agencies, seed supplies have been unearthed and brought in from neighboring states. Otherwise, Michigan growers would many of them have had to go without. But while this foreign corn has been immensely better than no corn at all, some of it has not been of high quality, and the number of fields in Michigan which because of this occasional germinability have failed to come up this spring is unusually high.

Very wisely, however, the federal department of agriculture, with which the college and the state seed committees have been co-operating, has anticipated this situation and established a corn reserve, where farmers who may need seed for replanting can secure it in a hurry with reasonable assurance that what they obtain will be something that will be fairly dependable.

This reserve supply of seed corn is located at Toledo. Of course this city is somewhat distant from many points in Michigan, but the enterprise has been so well organized that corn can be supplied by express to individuals in almost any part of the state in two or three days at the most.

A farmer, for instance, who concludes after ten or twelve days that his corn is not coming up and decides to replant needs only to get in touch with his county agricultural agent and leave with him an order (and the cash) for the amount of seed needed. Or if the farmer resides in a county where there is no agent, he can write direct to the corn reserve headquarters (A. J. Pieters, care R. T. Miles, 2009 Second National bank, Toledo). Where this is done, the checks should be made out to "Disbursing Clerk, United States Department of Agriculture." The corn itself must be ordered in two-bushel bag lots. An order can be sent in that is for two bushels, four bushels, six bushels, or so on, but not for three bushels or five bushels. This is because the bags hold two bushels. As a governmental enterprise, the corn is being sold at cost (\$5.10 a bushel). Express charges on this should not run over 40, 50 or 60 cents a bushel to any of the corn districts in Michigan.

In some of the southern counties, replanting is already under way, but in many it will continue until the middle of June, and in some even into the third week.

Of course climatic and soil conditions vary appreciably in the different parts of the state—but this factor has also been anticipated and a number of different corn varieties provided. These varieties have been classified as A, B, C, D and E. "A" and "D" are types that will make good silage, in southern counties, and might be good for grain, while "B" and "C" are types especially adapted to Michigan. The varieties included under "E" are mixed early and medium yellow dents.

In detail, these differences are as follows:

**A. Medium Yellow Dent.**—This corn was grown in Delaware on light land and matures there in 100-110 days. As grown in Delaware the ears are about 7-9 inches long, having rather small cobs and shallow kernels. Stalks are of medium size and about 8-9 feet high. This corn is not of a pure type but runs fairly even for common yellow corn. This corn is thought by experts of the Ohio experiment station to be suitable for the production of ear corn in Ohio. Indications are that on well-drained land and under favorable conditions it may mature in the southern tiers of counties in Michigan. For ensilage purposes in southern Michigan this corn is probably superior to any other corn available this year from outside that state.

**B. Early Yellow Dent.**—This corn was grown on very sandy land in Delaware and matures there in 90-100 days. As grown in Delaware the ears are 6-8 inches long, having small cobs and shallow kernels but it is not a true flint corn. Stalks are slender,

about 7 feet high. This corn is not a pure type but is variable as to color, size and flintiness. It is however, the earliest yellow dent corn available now in quantity. The fact that larger and later corn grows on the same soil as this early yellow dent indicates that this corn is an early type.

**C. Early White Dent.**—This is a flinty dent growing on sandy soil in Delaware and of about the same size and earliness as B, but the corn is white and uniform in color.

**D. Medium White Dent.**—This is larger and somewhat later than C, and of about the size and earliness of A. It is uniform as to color but not as uniform as to type as is C, some ears having kernels that are quite flinty while on other ears they are not at all flinty.

**E. Mixed Early and Medium Yellow Dent.**—A number of cribs in Delaware contain mixtures of medium and early yellow dents. In most cases the prevailing type is the medium dent with 10-50 per cent of early and flinty dent ears mixed with the larger corn. In some cases this mixture is mechanical after husking, but in many cases the two types grow (mixed) in the same field. A considerable part of this corn should make ear corn in southern Michigan and in northern Ohio in a favorable season, but it probably is especially suitable for ensilage corn.

### CALL HOUSEWIVES TOGETHER

M. A. C. Plans Special Four-Day Training Schools in Food Conservation.

East Lansing, Mich.—A special training school for the coaching of women in the arts of food conservation will be conducted here from June 24 to June 28 and from July 1 to July 4—but while food conservation has become the usual thing in every patriotic home in the land, more than common interest attaches to plans for the "drilling" of the fair sex at M. A. C. Special schools and camps without number have been established to fit men for their wartime duties, but thus far the coming courses are the only ones that have been provided for women.

The "war schools" for the women will be conducted in two sections. The first of these, which will be opened at M. A. C. on June 24 and will continue until June 28, will be for women who have had at least two years of college training in domestic science, and for the women who are acting as county and district home economics leaders. The second school, which will be started on July 1, and will be in session until the morning of July 4, will be for every woman in the state who cares to enroll.

Most of the four days' sessions will be devoted by the instructors, who will be members of the home economics faculty of the college, to demonstrations of canning and to discussion of phases of the food problem which have become of most common concern since the strictest economy in dining has become necessary.

The short courses for housewives, housekeepers and other interested women will, however, be but one of the features of the summer term on the campus. Country clergymen and laymen will convene July 6 to 16 for their annual conference and study of rural problems; boys' and girls' club leaders will come together for five days, July 9 to 13; 500 specially selected army men will be coached in gas engine work, and in addition there will be the customary summer courses offered by the scientific, agricultural, domestic science, veterinary, engineering and other departments.

### Bees Are Hit Hard.

Heavy casualties were suffered by Michigan bees as a result of the severity of the past winter, according to a report given out by B. F. Kindig of M. A. C., state inspector of apiaries. At least 80,000 of Michigan's 200,000 colonies were either frozen or starved to death, Mr. Kindig estimates. Old and experienced beekeepers, however, were not among the heavy losers. Estimating roughly, the loss of 80,000 colonies means that something like 2,500,000,000 bees have succumbed in Michigan since last fall. An energetic campaign for the organization of beekeepers into associations for the promotion of the honey-producing industry is in progress, under the direction of the state inspector.

### Many Cities Engaged in Gardening.

Some conception of the way in which the cities of the state have taken to the gardening ideas can be gained from the report of the boys' and girls' club department of M. A. C. on developments in this field. At the present time, the report brings out, there are 80 Michigan cities, towns and villages in which organized garden work is in progress, while the number of boys and girls who are assisting is now close to the 50,000 mark. The report refers only to the work in communities co-operating with the college and the United States department of agriculture and does not take into account a considerable number which are going ahead with gardening on their own hook.

## A Word of Precaution.

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

## Children Cry For

*Fletcher's*  
**CASTORIA**

### Letters from Prominent Druggists addressed to Chas. H. Fletcher.

S. J. Briggs & Co., of Providence, R. I., say: "We have sold Fletcher's Castoria in our three stores for the past twenty years and consider it one of the best preparations on the market."

Mansur Drug Co., of St. Paul, Minn., says: "We are not in the habit of recommending proprietary medicines, but we never hesitate to say a good word for Castoria. It is a medical success."

Hegeman & Co., of New York City, N. Y., say: "We can say for your Castoria that it is one of the best selling preparations in our stores. That is conclusive evidence that it is satisfactory to the users."

W. H. Chapman, of Montreal, Que., says: "I have sold Fletcher's Castoria for many years and have yet to hear of one word other than praise of its virtues. I look upon your preparation as one of the few so called patent medicines having merit and unhesitatingly recommend it as a safe household remedy."

### GENUINE CASTORIA ALWAYS BEARS

THE CENTAUR COMPANY, NEW YORK CITY

### Servants Come into Their Own.

The job of being a domestic servant used to be an hereditary occupation in England. No one was more proud of his profession than a butler. The yokes about the difficulty of getting servants are now appearing in the American fashion. Here is a notice that appeared in the "Servants Wanted" column of an English paper recently:

"General Wanted: good home, high wages on munition scale, and hardly any work; use of piano, bicycle, and drawing room to entertain friends; mistress will teach maid two modern languages, and master will instruct her in conic sections and differential calculus."

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots. Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain beautiful clear complexion. Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

### Deadly Parallel.

Soldier (describing Hun attack)—They were like bees out of a hive, and our fire simply withered them up." David (in Psalm 118)—"They compassed me about like bees; they are quenched as the fire of thorns."—Boston Evening Transcript.

### Have a Clear Skin.

Make Cuticura Soap your every-day toilet soap and assist it now and then by touches of Cuticura Ointment to soften, soothe and heal. For free samples address "Cuticura, Dept. X, Boston." At druggists and by mail, Soap 25, Ointment 25 and 50.—Adv.

### Nothing of the Kind.

"My poor nian, aren't you something of an invertebrate?" "No, ma'am; I never tech a drop."

Make a companion of vice and you will surely become its slave.

### HORSE SALE DISTEMPER

You know that when you sell or buy through the sales you have about one chance in fifty to escape SALE STABLE DISTEMPER. "SPOHN'S" is your true protection, your only safeguard, for as sure as you treat all your horses with it, you will soon be rid of the disease. It acts as a sure preventive, no matter how they are "exposed." 50 cents and \$1 a bottle; \$5 and \$10 dozen bottles, at all good druggists, horse goods houses, or delivered by the manufacturers. SPOHN MEDICAL CO., Manufacturers, Goshen, Ind., U.S.A.

**How Ex-Senator Banished Stomach Trouble**

A Wonderful Testimonial Endorsing EATONIC

Gentlemen! I have used EATONIC tablets in my family and find it a most excellent remedy for Dyspepsia and all forms of indigestion. Yours respectfully,  
W. V. SULLIVAN.

**EATONIC**  
(FOR YOUR STOMACH'S SAKE)

At All Druggists

Quickly Removes All Stomach Misery—Indigestion, Dyspepsia, Flatulence, Heartburn, Sour, Acid and Gassy Stomach

Here's the secret: EATONIC Drives the Gas out of the body—and the Bloat goes with it. Guaranteed to bring relief or money back. Get a box today. Costs only a cent or two a day to use it.

Send for the "Red" Book, Address: Empire Building, 215-217 St. William Avenue, Chicago, Ill.

# Helping the Meat and Milk Supply

(Special Information Service, United States Department of Agriculture.)  
**KEEP MILK BELOW FIFTY DEGREES.**

Surface Cooler Over Which Milk Should Be Poured When Drawn, and the Tank for Keeping Cans Cold.

## CONSERVE FOOD VALUE OF MILK

Constantly Clean and Cold Is  
Formula for Making Best of  
This Product.

### SPOILED MILK VERY COSTLY

Put Bottles in Refrigerator Minute  
After Milkman Leaves It at Door  
—Every Dairymen Should  
Be Thoroughly Cleaned.

One quart of spoiled milk costs more than 25 pounds of ice.

That for persons who have to do with milk in small quantities—consumers. This for persons who have to do with milk in large quantities—producers:

One ten-gallon can of spoiled milk costs more than a thousand pounds of ice.

Besides, this fact for both classes: Milk is mighty good human food and ice isn't food at all.

There is no possible argument in favor of wasting ice, as there is no possible argument in favor of wasting anything. The creation of ice consumes coal and ammonia and other things needed toward winning the war. But there is the best possible argument in favor of making the best possible use of whatever ice is used and, since milk is probably the most important human food, taking into consideration all classes of people from infant to the aged, there is every argument, not necessarily for using more ice in connection with it, but for using a good deal more care in seeing that the milk never gets very far from the ice from the moment it is drawn from the cow to the moment it enters the human gullet. Spare the ice, but do not spare it at the expense of the milk.

#### Much Milk Lost

Every summer multiplied thousands of gallons of milk are lost—poured into sink and sewer and run with the rivers to the sea—because people are not careful enough about bringing the bottle in to the refrigerator immediately after the milkman leaves it at the door. Milk should be kept always at a lower temperature than 50 degrees Fahrenheit. Assuming that the man who milked the cow, the man who bottled the milk, and the man who made the delivery all did their part, all their effort is likely to be thrown away if the bottle is left on a hot doorstep for an hour, or even half an hour.

Get the milk on the ice the minute after the milkman leaves it at the door.

And some rather keen eyes are open to see it that the dairymen does his part toward keeping the milk cool as it should be from the time it is milked until it is delivered. With this article is a picture of a milk cooler that the United States department of agriculture recommends—and urges upon—the dairymen. The coldest water obtainable—iced water, preferably, but, in the absence of that, water direct from a cold spring or well—is to be used in it and the milk, immediately after it is drawn from the cow, is to be poured over the cooler. From ten to fifteen gallons of cold water is

passed through the cooler for every gallon of milk cooled. The milk flows slowly over the cooler and is brought to within three degrees of the temperature of the water.

#### Iced Water for Milk

After that the milk should go into a cooling tank. The tank recommended by the department of agriculture is made with a two-inch layer of cork between two shells of four-inch concrete. Three gallons of iced water should be used for every gallon of milk that goes into the tank. All milk should remain in the tank until it is ready to ship, and it should be protected from heat during hauling with blankets or felt jackets.

Every vessel that milk touches in any way—cooler, cans, pails and bottles—should be sterilized and kept clean.

Constantly clean and constantly cold. That is the formula for getting the full benefit of the milk supply. Even brief lapses from cleanliness and cold cause the bacterial count to multiply and the milk to deteriorate.

### PORK PRODUCTION HINTS.

A large, raw-boned sow, having plenty of capacity and size, but lacking in femininity and quality, is one of the poorest investments a breeder can make, for her pigs will be slow to develop, hard to fatten, and lacking both in number and in uniformity.

The modern hog is a highly specialized and efficient machine for the conversion of grain and roughage into edible meat, but to obtain the greatest efficiency, to make the most pork from a given amount of feed, to make the best pork, and to make that pork most economically, the machine must be kept running to capacity from birth to the time of marketing. Nothing is more important than this factor.

Slightly more rapid and economical gains in fattening hogs are made by using a self-feeder than can be obtained by the best of hand feeding.

Cleanliness and rational methods of management are relied upon by thousands of hog raisers to keep their herds in health and vigor. They are the marks of the good farmer and successful hog breeder.

#### Sheep on Every Farm.

That peaceful flock of sheep which ought to be on every farm is a powerful war machine. Wool for the soldiers. Meat to feed us. Are your weeds just a nuisance. Or are you and some sheep turning them into uniforms? A flock on every farm.—United States Department of Agriculture.

The value of a good clover pasture for young pigs should not be overlooked by hog raisers.

Farm animals must be comfortable in order that they do as well as possible.

After the sow has farrowed, it is best for her to be in the open air.

Green pasture is very important where one has sows to farrow.

## TROOPS IN WEST BOILING UP FOR GREAT BATTLE

PERSHING'S UNITS ARE SQUARELY FACE TO FACE WITH THE GERMANS NEAR AMIENS.

### POLISH TROOPS DRIVE 15,000 GERMANS BACK

Field Marshal Von Hindenburg, Chief of the German General Staff Reported in Hospital With Fever.

London.—The outstanding piece of news in Sunday's official reports, all of which show the armies in the west as "boiling up" for the big battle, is the claim, contained in Berlin's communique, that Americans were captured "west of Montdidier."

It shows Pershing's units, which for sometime have been known to be on the Picardy front, are squarely face to face with the spearhead of the German wedge, threatening Amiens, and that when the next blow is struck by Hindenburg toward that great Allied base, American troops will be in the thick of Armageddon's third—perhaps final—round.

### Polish Troops Drive Germans Back.

Moscow.—Attempts by the Germans to disarm the Polish troops in the Ukraine and Minsk governments are meeting with fierce resistance.

The second Polish corps under General Makovitzky, stationed near Kaff, in the government of Kiev, defied the German ultimatum to disarm within 24 hours, whereupon the Germans apologized, saying that the order was a misunderstanding. At midnight however, Germans attacked the corps, capturing one village.

The Poles entrenched and battled against 15,000 Germans, causing considerable losses among the enemy, but themselves suffering heavily.

The fight continued for several days, when the Germans were driven back, losing a few pieces of artillery.

### Russian Prisoners Wrecks.

Moscow.—One million of 3,100,000 Russian war prisoners held in Germany and Austria-Hungary are total invalids. In Germany there are 1,900,000 and in Austria 1,200,000. Half of the invalids are tubercular, most of them in the last stages of that plague. Many of the remainder are suffering from other serious contagious diseases.

Their return to Russia under present conditions is a great problem on account of the lack of food, proper accommodations and medical assistance. The exchange of invalids has been going on for some time.

### Hindenburg Ill With Fever.

Geneva, Switzerland.—Field Marshal von Hindenburg, chief of the German general staff, is in a hospital at Strassburg, suffering from typhoid fever, according to reports from that city.

These advices state that the report of Von Hindenburg's death is incorrect, but that his condition is critical. Typhoid fever is said to be spreading rapidly in the German army.

Of late there have been various reports of the death of Field Marshal von Hindenburg. Some of these reports were given on authority of German prisoners on the western front.

### Will Eliminate Red Tape.

Washington.—Elimination of red tape methods is the purpose of a survey of war department activities undertaken by Colonel Ira L. Reeves, of the inspector general's office, under supervision of Assistant Secretary Crowell. A department statement today explaining the investigation said no sweeping changes are contemplated.

### Cutting Away Piers at Zeebrugge.

London.—Having failed in attempts to blow the two concrete laden ships sunk in the entrance to the Bruges canal, at Zeebrugge, the Germans now are engaged in cutting away the piers in an attempt to outflank the obstruction.

Photographs taken three days ago by British naval aviators show this and they also show how completely the canal entrance has been blocked. So the Germans have adopted the expedient of removing the piers on the west side of the canal, to make a large enough canal for torpedo craft and other vessels larger than submarines to pass out to sea.

# Libby's Vienna Sausage

A Favorite Dish Everywhere

Prepared from dainty bits of choice, selected meat, skillfully seasoned and cooked by Libby's own expert chefs—these sausages have that delicacy of flavor, yet spicy zest that makes them favorites everywhere.

Order Libby's Vienna Sausage today. You, too, will find it a savory, satisfying dish and so easy to prepare!

Libby, McNeill & Libby, Chicago

### FORTUNE TELLER WAS RIGHT

Had Foretold Future Correctly, Though It Was Not Exactly Flattering to Elderly Suitor.

"When I look into your eyes," he said, "I am filled with joy that I never knew before. When I hear your voice I am thrilled—exalted. I have traveled far and seen much, but never until I met you did I understand how glorious a woman could be."

She looked at him for a moment and drew a little sigh. Then she spoke.

"I had my fortune told last week, and it has come true. I could not believe it then, but I realize now that the fortune teller must have had second sight."

"What did she tell you? That you were soon to meet the man for whom you were created? The man whose soul was attuned to yours? The man to whom you were to be an inspiration? The man whose life without you could not be completed?"

"No, she told me that I was soon to meet an old simpleton who was going to try by flattering me to make me as silly as himself. Good night."—Dayton News.

### WHY WOMEN DREAD OLD AGE

Don't worry about old age. Don't worry about being in other people's way when you are getting on in years. Keep your body in good condition and you can be as hale and hearty in your old days as you were when a kid, and every one will be glad to see you.

The kidneys and bladder are the causes of senile afflictions. Keep them clean and in proper working condition. Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Haarlem Oil Capsules periodically and you will find that the system will always be in perfect working order. Your spirits will be enlivened, your muscles made strong and your face have once more the look of youth and health.

New life, fresh strength and health will come as you continue this treatment. When your first vigor has been restored continue for awhile taking a capsule or two each day. They will keep you in condition and prevent a return of your troubles. There is only one guaranteed brand of Haarlem Oil Capsules, GOLD MEDAL. There are many fakes on the market. Be sure you get the Original GOLD MEDAL Imported Haarlem Oil Capsules. They are the only reliable. For sale by all first-class druggists.—Adv.

#### Cobbler's Great Idea.

When Mr. Dobbs reached the shop where he had left his shoes to be mended he found the place closed and apparently deserted. He banged on the front door lustily, and at length Threadwax thrust his head through an upper window.

"What d'ye want?" he asked. "My shoes," said Mr. Dobbs. "You said you'd have them for me today." "But haven't you heard?" said the cobbler. "I've failed—gone bankrupt!" "I don't care! I want my shoes!" said Dobbs angrily.

Threadwax disappeared, and an instant later one shoe clattered down at Dobbs' feet.

"But where's the other?" he cried. "That's all you get," said Threadwax. "I'm only paying 50 per cent."

Chief Object of Matrimony. Bessie—You going to get married when you grow up?

Jessie (resignedly)—Oh, I s'pose so. You can't get your alimony 'less you do.

# Just a Little Technique In Non-technical Language about Rugs and Carpets

Do you know the difference between Wilton, Brussels and other kinds of carpets? There are five different kinds. You know, as follows, in their generally accepted order of importance: Wilton, Brussels, Axminster, Velvet and Tapestry. A Wilton carpet has a straight, unstranded pile, the pile being looped the yarn over a series of any wires and the loops are on each side. Withdrawn a short distance, the loops are brought through the middle of the loops, leaving the pile on the side of the yarn standing up thick and smooth to take the wear. A Brussels carpet is made in the same way, but the loops are not cut. Examine the surface of a Brussels carpet and the innumerable loops that form its surface.

A standard Wilton carpet is a cut pile fabric dyed in the yarn. Full five frames, usually 27 inches wide, the face being of pure worsted.

A standard Brussels carpet is an all worsted carpet, also yarn dyed, with loop face, full five frame, and generally 27 inches wide. The main difference between a Wilton and a Brussels is that the worsted surface of the Wilton is considerably higher than the Brussels and the loops are cut to give the pile effect.

There is one thing more that we must remember about the Brussels or Wilton carpets, namely, that for each loop that you see in the surface of a Brussels carpet for each tuft in a Wilton, there are four strands of yarn buried in the carpet. It is from this the former carpet derives its name of Body Brussels, and both much of their wearing qualities.

Next is the Axminster. This also is yarn dyed. While it is also a pile fabric, it differs from the Wilton in construction and in being of a nature to adapt itself to a wide range of color than the Wilton or the Brussels. Its surface is made of woolen yarn.

Tapestry carpet is a printed, loop-faced fabric. The surface of the carpet is worsted the design being obtained by printing the various colors on the yarn to represent the design in the woven fabric. It is similar in appearance to Body Brussels but the colors do not go through to the back.

Velvet carpet is similar in appearance to Wilton, but has its wool only on the surface. We are in a position to furnish you these qualities in Rugs at prices that are astonishing considering the present market values. Some Rugs are very hard to procure at the present time and we were very fortunate in securing a large stock. It will pay you to visit our store before buying your rugs or carpets. Come where competent salespeople are ready to wait on you. May we expect you?

Car fare paid on \$15 purchases

**W. J. DANCER & CO.**

## GREGORY

The Red Cross week in Unadilla township was a great success. The quota for the township was about \$600 over-subscribed. The Red Cross play last Thursday cleared \$16.25. The Red Cross Bazaar Saturday night cleared \$50 thus making a good fund in this township for working purposes.

Mrs. A. M. Bellus of Fresno, California is visiting her uncle, E. Hill.

Mrs. O. W. Hammond returned to her home at Kingston last Friday.

Rob Howlett of Pontiac spent the week end with relatives here.

Patriotic Day at Howell last Friday was well attended from this township, about 15 automobiles going.

Olive Heminger visited her grand parents here.

Mrs. Fier and Mrs. Pearson of Pinckney visited at Mrs. F. Montague's last Saturday.

Dan Denton of Chicago is spending a few days this week with his parents here.

Miss Verna M. Lee's school near Pinckney was closed and she is at home.

Mrs. Myra Bowen of Detroit came last Thursday night for a few days visit in Gregory.

About twenty members of the Young Peoples Bible Class met at the home of Mrs. Bettie Marshall Wednesday night of last week in a farewell gathering for Prof. Alex. LaFerte before his leaving for Camp Custer. They presented him with a fountain pen.

Miss Bernice Harris' school at Hamburg has closed and she is at home with her parents.

Mrs. J. J. Schuler was quite sick the last week.

Wallace and Archie Tuttle of Williamston and lady friends spent Sunday at the homes of Geo. and Otto Arnold.

Earl Adams of Howell visited at the home of Fred Howlett last week.

Mrs. M. V. Howlett and sons of Pontiac visited relatives in Gregory last Sunday.

Services at the Baptist church next Sunday as usual. Thomas Howlett will lead the Young Peoples meeting in the evening. You and your friends are welcome.

## Pettysville

Harry Minkley and wife and Mrs. Robt. Jacks called on Mrs. Frank Breningstall last Tuesday.

Mrs. Ed. Sles was an Ann Arbor visitor last Tuesday.

Mr. Charles Travis and his sister Miss Vina Travis of Chicago are back to their summer home Camp Travis. Ed. Breningstall and wife and Grace Breningstall of Pinckney spent Sunday with F. C. Breningstall.

S. E. Van Horn and wife and Ms. and Mrs. Appleton motored to St. Johns the latter part of the week.

Elmer Coral came home from Camp Custer Saturday. He was taken sick while on the way home and will not be able to return to Camp for some time.

Word has been received that Edwin Blades of Camp Custer is recovering from his illness.

## AUTO RACES

Under the auspices of the Jackson Trotting Association, the first professional automobile races will be held in Jackson over the county fairgrounds track since the fatal accident in 1913 which resulted in the death of Harry Endicott, brother of the famous Wild Bill Endicott who is still following the dangerous profession.

The date for the revival of motor racing in Jackson has been set for June 1st, the Saturday following the Decoration Day races scheduled at Detroit on that day. The Detroit races make it possible to bring the greatest field of starters ever sent away in one dirt track meet outside of the big motor racing centers.

Jackson will hang up \$2000 in purses and bonuses for the one day's racing and have a representative now in Columbus, O. to sign up drivers who will start there next Sunday and who will ship to Detroit to try for a share of the \$10,000 purse hung up by the Michigan metropolis promoters.

Among the field of starters at Detroit from which the Jackson entries will be signed are Chevrolet, the great track and speedway driver; Fred Horey the world's dirt track champion; Geo. Clark, holder of several world's records and one of America's veteran drivers; Wild Bill Endicott of Indianapolis fame

# We Want Everyone In Pinckney and Vicinity

To become acquainted with our rich cream and sodas.

We use only Distilled Water in our fountain.

We use only the Best Thick Heavy Syrups.

# NEWBERRY for United States Senator

Truman H. Newberry is a candidate for United States Senator. He is an American in real earnest. His service in the Spanish American War, his record as Secretary of the Navy under President Roosevelt, and his present work as a commander in the Third Naval District, which includes the port of New York and the Brooklyn navy yard, mark him as a FIGHTER and DOER, capable and courageous.

Truman H. Newberry

Michigan born, November 5, 1864, Michigan reared and devoted to all of Michigan's interests, with his record of service, and his active, positive loyalty to state and country, it is especially fitting that Truman Newberry be chosen to represent Michigan in the Senate of the United States.

When twelve years old, he was color-bearer in a Michigan Cadet organization which won fame at Philadelphia. He helped organize the Michigan Naval Brigade in 1895, enlisting as a private and serving as an able seaman on the training ship "Yantic." He was an ensign in the Spanish-American War on the "Yosemite." As a commander in the Third Naval District he will

continue to serve his country, standing for and by the government for the full prosecution of the war and leaving his campaign for Senator entirely in the hands of his friends. His two sons are enlisted in their country's service, too, one as a major in the army, the other as an ensign in the navy.

Truman Newberry is a worker. After he left college, he took hard knocks working with a construction gang on the old Detroit, Bay City & Alpena Railroad. He also sailed the Lakes and earned for himself a license as first class pilot. HE IS A MAN'S MAN.

As Secretary of the Navy under President Roosevelt, he is credited with putting the navy in a state of preparedness, which has had much to do with its present efficiency.

"Fighting Bob" Evans said of him: "Truman H. Newberry is the greatest Secretary of the Navy the nation has ever had."

His ability and experience make him an ideal candidate for United States Senator.
