HUNGARIANS JOIN RUSS ANARCHISTS

DISPATCH SAYS CZECHO-SLOVAK GOVERNMENT IS TO ISSUE MOBILIZATION ORDER.

RAISE ARMY OF 70,000 SECRETLY

New Hungarian Soviet Government Intends to Effect An Alliance With Russian Reds.

London—The Budapest government is reported to be signing a proclamation acknowledging a state of war between Hungary and the Entente, says a dispatch to the Exchange Telegraph from Vienna. The dispatch adds that the Czecho-Slovak government is preparing to issue a mobilization order.

Copenhagen—The new Hungarian government has proclaimed solidarity with the Russian soviet government and an armed alliance with the proletariat of Russia, according to a dispatch from Budapest.

A dispatch from Budapest gives the proclamation of the new Hungarian government.

How Proclamation Reads.

It reads as follows: "The proletariat of Hungary has taken all power in its own hands. By the decision of the Paris conference to occupy Hungary, the provisioning of revolutionary Hungary becomes utterly impossible. Under these circumstances the sole means open for the Hungarian government is a dictatorship of the proletariat.

"Legislative, executive and judicial authority will be exercised by a dictatorship of the workers, peasants and soldiers' councils. The revolutionary government council will begin forthwith work for the realization of communist socialism.

declares complete solidarity with the Russian soviet government and offers to contract an armed alliance with the proletariat of Russia."

Red Army on Way.

The new Hungarian soviet government intends to effect an alliance with the Russian bolsheviks, according to a telegram the Berlin correspondent of the Budapest Pesti Naplo says he has received from that city.

According to this telegram, three Russian envoys already in Budapest declare that a Russian red army is now on a line from Brody to Stanslau and is advancing on Lemberg, approximately 75 miles distant. This army, the telegram continues, is expected to arrive in Budapest shortly.

In publishing the foregoing reports, the Tageblatt expresses the greatest skepticism, comparing them to similar reports frequently spread throughout Germany.

Army of 70,000 Is Formed.

The Berlin Lokal Anzeiger's Budapest correspondent says an army of 70,000 men has been formed secretly under the command of Major Georgey. The correspondent adds that the communists and the rural population

DETROIT RANKS 2ND IN EXPORTS

New York First With \$1,500,000,000
Detroit Next \$249,746,639 New Orleans \$246,544,806.

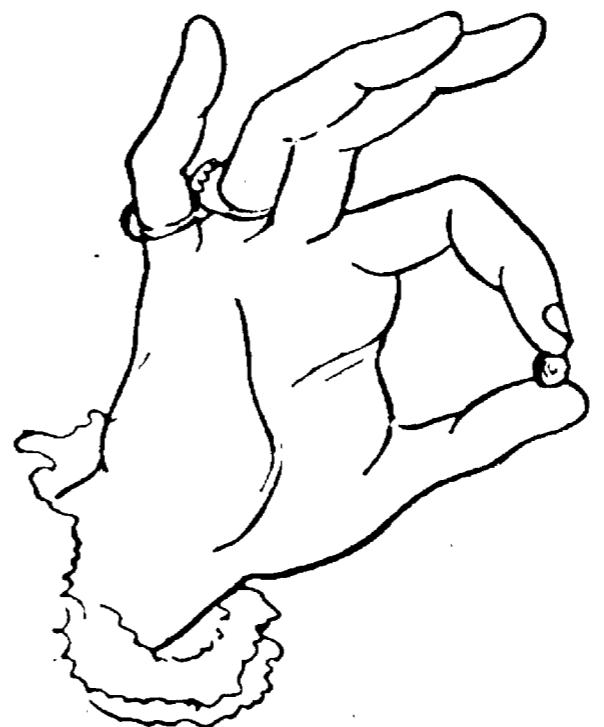

Washington—Detroit was the second exporting port in the United States during the seven months ending with January last. This striking fact was brought out by the appearance of the Department of Commerce's monthly summary of trade, which has just been published with the data down to January.

Detroit's exports for the seven months ending January, 1919, were valued at \$249,746,639. The single port with a larger total was New York which showed values above \$1,500,000,000, but Philadelphia had only \$243,544,806 and was fourth, New Orleans with \$246,544,806 being third.

Not only did Detroit rank next to the top in the total exports but its increase over the corresponding period of the previous year was even more remarkable. In total exports for the seven months ending January, 1918, were \$129,166,392, and they increased almost 100 per cent, for the year. No other large city had anything approaching the ratio of increase. In fact, both New York and Philadelphia registered a decline and the advance for New Orleans was less than \$80,000,000.

WITH FINGERS! CORNS LIFT OUT

Freezone is magic! Corns and calluses lift right off—Doesn't hurt a bit

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or a callus. Instantly that troublesome corn or callus stops hurting, then shortly you lift it out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses on bottom of feet. So easy! So simple. Why wait? No humbug!

Hard Lines.

Bobby was good about saving his pennies and buying Thrift stamps all during the war, but with the first 50 cents he accumulated after the war was over he bought candy, for which mother scolded him. Crying, he said: "Oh, gee, a feller can't even be patriotic and have a little peace celebration without being called down."

Warning as to Our Waning Vitality

(By LEE HERBERT SMITH, M. D.)
Every man should take stock of his physical condition just as frequently as he takes stock of his financial condition, thereby learning his weak spots and taking measures to repair them before it is too late.

In the winter or spring is the best time to take stock of one's condition. If the blood is thin and watery, face pale or pimply, generally weak, tired and listless, one should take a tonic. One that will do the spring "house-cleaning," an old-fashioned herbal remedy that was used by everybody nearly 50 years ago is still safe and sane because it contains no alcohol or narcotic. This blood tonic, extracted from wild roots and barks, was first put out by Dr. Pierce in ready-to-use form and since then has been sold by the million bottles as Dr. Pierce's Golden Medical Discovery. It's always efficacious in the winter or spring when the blood is run down and you need a wholesome tonic. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package of tablets.

Then to keep the liver and bowels regular and to carry away the poisons within, it is best to take castor oil or a vegetable pill, made up of May-apple, aloes, jalap, and sugar-coated, to be had at most drug stores, known as Dr. Pierce's Pleasant Pellets.

Prohibition
Edited by M. E. S.
of Michigan become fully awake to the danger of this proposed amendment and work as they have never worked before, April 5 will be one of the saddest days in the history of this state. This is not the cry of an alarmist, but a statement of sober fact. Too many on the side of sobriety are indifferent. They say it will only mean a few months of drunkenness at the worst. War prohibition goes into effect in July and the Federal Eighteenth Amendment in January, 1920. Let us not be thus deceived. Know this:
1. There is danger that the War Prohibition be postponed.
2. There are half a dozen lines of attack on National Prohibition open to the booze barons. They will contest the constitutionality on three different counts. And what is still more dangerous and sinister, if they lose in the courts, there will be a fight started in Congress and in every state legislature to prevent laws providing penalties for violation from being enacted. We have just assured that this desperate, lawfully won, money trail could be the beginning of a war that would lead to a security disaster, and that would be a disaster of our own making.
3. The what is the proposed amendment and all more vital than if the wine and beer amendment passes it will be flashed across the country on April 5 that Michigan has repudiated prohibition.

This will bring cheer to the forces of health. This will bring discouragement to the forces of decay. This will be regarded as a sentiment against strict enforcement and the law will become a by-word, so that if war prohibition does go into effect and if the Federal amendment does stand the court test, enforcement will be greatly crippled.

Coughing Tires the Old
Elderly people, tired out and weakened with coughing, will find great relief and comfort in
FOLEY'S HONEY & TAR
It relieves those chronic coughs, usually bronchial in character, and puts a soothing healing coating on a dry and tickling throat. It raises phlegm easily.
George Perry Randall, Dayton, Nevada, in his 84th year writes: "I take Foley's Honey and Tar for coughing and racking in the throat. Sometimes the spell of coughing would last for two or three minutes. I am very glad to tell you that Foley's Honey and Tar has stopped all that and also the tickling."

THAT "LAST STRAW" AGAIN SPEECH APPEALED TO HIM

This Time It Meant Real Tragedy in the Lives of Two Young and Loving Mortals.

"It's the last straw," she exclaimed bitterly.

More or Less Good Reason Why Listener Considered It Great Oratorical Effort.

They are telling a good joke on Will Upshaw. He was up the other day,

"The last straw," she repeated. He shuffled his feet in embarrassment.

Angrily she shrugged herself to her feet.

"I'm going!" she cried. "I would not stay here another second, even for a moment."

And she swept out, and there was nothing left for him to do but follow.

"I didn't know it was the last straw, or I wouldn't have taken it," he apologized miserably.

And she, who had never slipped a lemonade without a straw in her life, and never intended to, sniffed scornfully, without replying, and refrained from inviting him in when they reached her house.

Billy's Slogan.

It was a week before Billy was five years old. One day he pinned a sign on his door, reading: "Birthday is coming. Give till it hurts."

But for adversity some men would never know how little they can borrow.

While talking in the lobby to one of these groups of forthcoming associates, Congressman Garrett of Houston, Tex., passed, after salutations.

"Did you ever hear Garrett speak?" asked Upshaw of the members of his group.

"Yes," they all chimed in. "The most masterly address, the most beautiful, soul-stirring address I ever heard in all my life of association with great orators, fell from the lips of that great Texan and statesman one night at Dallas," said Upshaw.

"He was introducing me," replied Upshaw solemnly.—Atlanta Constitution.

Practical Estimate.

"Did you say Bluejays is a good loser?" "Yes." "Why even when his luck is worst he never loses more than two or three dollars?" "That's what I call a good loser."

A man isn't necessarily honest just because he's poor.

THE KITCHEN CABINET

Think of the importance of friendship in the education of man. It will make a man honest; it will make him a hero; it will make him a saint. It is the state of the just dealing with the magnanimous, the sincere with the sincere, man with man.—Thoreau.

GOOD THINGS FOR THE HOME TABLE.

The value of wholesome food well prepared and well seasoned, cannot be overestimated.

Veronique Soup.—Add one cupful of stewed and strained tomatoes, to which is added one-eighth teaspoonful of soda, to three cupfuls of veal broth. Thicken with one and one-half tablespoonfuls each of butter and flour cooked together; then add one and one-half teaspoonfuls of salt, a dash of cayenne, one-half cupful of cooked rice, one and one-half plumettes cut in strips, and one-fourth cupful of heavy cream.

Rhubarb Tapioca Pudding.—Soak two-thirds cupful of pearl tapioca over night in cold water to cover. Drain, put in a double boiler, add one and one-fourth cupfuls of boiling water and two-thirds teaspoonful of salt; cook until the tapioca has absorbed the water. Peel rhubarb and cut in one-fourth inch pieces—there should be three cupfuls; then sprinkle with one-third cupful of sugar. Add to the tapioca and cook until the tapioca is transparent and rhubarb soft. Turn into a serving dish and accompany with sugar and thin cream.

Meat Loaf.—Chop one pound of veal and two pounds of beef. Mix and add one cupful of bread crumbs, one cupful of milk, one teaspoonful of salt, one-eighth teaspoonful of pepper and three eggs slightly beaten. Shape in loaf, put in pan and lay across the top six slices of fat salt pork. Roast one and one-half hours, basting every ten minutes at first with one-half cupful of hot water and the fat in the

Stuffed Figs.—Mash cream cheese, moisten with heavy cream and season highly with salt and cayenne; make into balls three-fourths inch in diameter. Wash and dry figs, make an incision in each and stuff with the cheese balls. Arrange in piles on a plate covered with a face paper dolly.

And the finest fellow of all would be the one who could be glad to have lived because the world was chiefly miserable, and his life had come to help some one who needed it.—George Eliot.

MORE STRAWBERRY DISHES

A pint of nice berries will furnish plenty of dessert for a family of five or six, if the berries are used wisely. A most dainty dessert is either angel food or sponge cake cut in rounds, hopped with crushed berries mixed with whipped cream or the berries may be covered with the cream.

Cottage Pudding Strawberry Sauce.—Bake a cottage pudding in an angel cake pan, or a

used. Remove from the pan to a serving dish, fill the center with

and pour around it a sauce using some crushed berries to make juice, sugar and a few sliced or quartered berries. Keep warm until serving time.

Strawberry Ice Cream.—Wash, hull and mash one quart of berries. Sprinkle with a cup of sugar and let stand for three hours, then mash and squeeze through a double thickness of cheese cloth. Mix one and one-half cupfuls of heavy cream, one and one-half cupfuls of milk, the whites of four eggs beaten stiff and a little salt. Freeze to a mush, then add the strawberry juice and continue freezing. More sugar may be added if the fruit is quite acid.

Steamed Rice-Strawberry Sauce.—Cook one cupful of rice in milk until well done but whole. For the sauce take three tablespoonfuls of softened butter, add one cupful of powdered sugar, mixing it until creamy, then stir in a half cupful of whipped cream and a pint of sliced strawberries, which have been slightly sweetened. Serve at once.

Lenox Strawberries.—Fill sherbet glasses with sliced strawberries that have been well chilled. Pour over the following mixture: Mix the juice of half an orange, four tablespoonfuls of sugar and a tablespoonful of charged water. Garnish with a ring of piped whipped cream around the edge. Allow this quantity for each portion.

Stock Raising in Western Canada is as profitable as Grain Growing

In Western Canada Grain Growing is a profit maker. Raising Cattle, Sheep and Hogs brings certain success. It's easy to prosper where you can raise 20 to 45 bu. of wheat to the acre and buy on easy terms.

Land at \$15 to \$30 Per Acre — Good Grazing Land at Much Less.

Railway and Land Companies offer unusual inducements to homeseekers to settle in Western Canada and enjoy her prosperity. Loans made for the purchase of stock or other farming requirements can be had at low interest.

The Governments of the Dominion and Provinces of Manitoba, Saskatchewan and Alberta extend every encouragement to the farmer and ranchman.

You can obtain excellent land at low prices on easy terms, and get high prices for your grain, cattle, sheep and hogs—low taxes (none on agricultural property), and the best of everything.

DID SMILE ON OCCASIONS

Indian Could Relax, but Only When He Felt He had Earned the Right, as It Were.

Here is a story told at a dinner party by a Red Cross official who has just

returned from India, was an interesting convalescent in Base Hospital No. 40. He had enlisted in the early days of the war, had gone over the top and worked havoc among the Germans before he was wounded.

Nurses and doctors caring for him tried in vain to get more than a grunt out of him in response to questions, while the other men in the ward called him "Gloomy Gus," because he never cracked a smile.

The Red Cross representative in the hospital becoming interested, tried his hand at "cheering up" the Indian. Gifts of cigarettes and chocolate were received, but without a change of expression.

"Don't you ever smile?" he demanded of the Indian one day, and for the first time Sitting Bull's grandson grinned. "Sure," he replied. "When I kill a Boche!"

Life may be a grand, sweet song to some, but it's just plain "jazz" to a lot of us.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

Different Points of View.

There was a rush of wind, a cloud of dust, and the car rushed on, leaving the old gentleman sprawling in the roadway. He picked himself up and dashed up to a policeman, yelling excitedly:

"That motorcar knocked me down!" The policeman took out a business-like notebook and said:

"Did you notice the number, sir?"

"Yes," said the injured one. "It was number 66."

Just then another policeman, who had seen the accident, came hurrying up, and said:

"No, no! The number's 60. This gentleman was standing on his head when he noticed it!"—Pittsburgh Chronicle-Telegraph.

CLEANING UP SWAMP LANDS

Undesirable Growth Should Be Burned When Ground Is Wet to Preserve Plant Food.

(From the United States Department of Agriculture.) Growth which is to be cleaned up on swamp land or any soil containing a large amount of organic matter should be burned when the ground is wet, to prevent the destruction of valuable plant food. When soils do not contain a large amount of organic matter and it is the intention to seed in the ashes immediately after the burning, too much emphasis cannot be placed upon the importance of getting a clean burn.

TO ARRANGE FARROWING PEN

It Should Be Dry, Well Ventilated and Free From Drafts—Guard Rail Saves Pigs.

The farrowing pen should be dry, well ventilated and free from drafts. It is a good plan to provide the pen with a guard-rail made of two by eight inch planks, fastened with their edges against the sides of the pen a

little above the bed. These prevent the sow from laying against the partition and lessen the danger of injury to the little pigs, which often find the space under the guard a very convenient refuge.

METHODS FOR FEEDING CORN

Hens Get Considerable Exercise When Fed on Cob—Supply in Dry Litter Satisfactory.

Hens can be fed corn on cob and will secure considerable exercise in picking it off, but the cobs should be picked out frequently. Feeding shelled corn in a deep, dry litter is also a satisfactory way.

Their War Aims.

The Boche was a typical wide foreheaded Boche, with big horn-rimmed spectacles and a larger rotundity. It was possibly that rotundity which had prevented him getting away with the others when the British troops scared off the German party that was trying to cut their wire. He was a valuable prisoner, too, for he spoke English like a native. He had been, he told them, a professor of German in England for many years.—Capt. R. F. W. Rees.

Let Them Call It What They May It's Right Name Is—Saloon

COUNTLESS ATTEMPTS have been made in this and in other states to find the people a better name for the saloon, but all will bring back the saloon with all its attendant evils and dangers.

THE USUAL PROCEDURE is to give such legislation a name which is not only a fancy name, but one which will give it an appearance of respectability and dignity, so that which appears in the law.

ANOTHER VICIOUS name is rather than the name of the saloon, and it is not to be compared with the name of the saloon.

MAKE THE BRAIN SODDEN—under it, by constant soaking in beer, only half active, and you have a being more akin to a brute than a man. Tractable? Yes—but never dependable.

NO—WE NO LONGER hold a beer soaked people up as examples of anything.

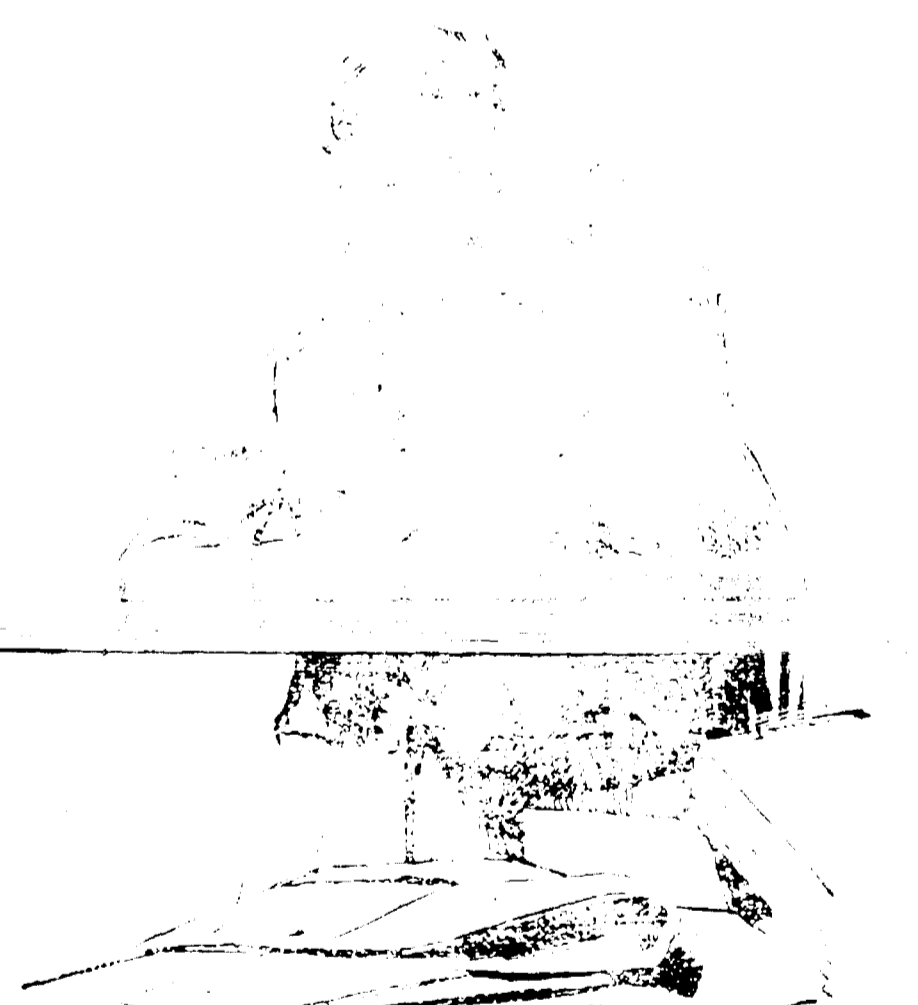

AMERICAN GENERALS found that men, who went over the top sober were better able to do their part and take care of their boys—especially if wounded—than men who had been drinking. They had been drinking, they had been drinking, they had been drinking.
