Prohibition

Edited by M. E. S.
Ann Arbor, Mich. March 24—Adoption of the proposed wine and beer bill by Michigan voters on April 7, in the face of the recently accepted federal amendment for national prohibition, would be a disloyal act in the opinion of many Michiganians.

ulated Prof. Goddard attacks the measure from a legal angle and brands it as "appeal to treason."

"Originally," declared Prof. Goddard "the question was simply whether we preferred a Michigan with wine and beer, or a Michigan home dry. The adoption of the federal prohibition amendment, however, has altered all this. It has changed the question, in fact, from one of Michigan wet or Michigan dry to Michigan loyal or Michigan traitorous."

"The point involved is this: The federal amendment decrees national prohibition, but in the face of this fact, the voters of Michigan are being asked now to make a part of the state constitution forever a measure that would make Michigan wet in direct contravention of what the federal constitution now prescribes. The framers of the wine and beer amendment probably did not anticipate this situation, and are perhaps not to blame, but the fact remains and voters should make no mistake about it.

The issue now is that of old state's sovereignty. It would be a violation of this principle, the principle that the central government of the United States is supreme that the civil war was fought.

"Some may not be concerned about the question of whether or not wine, beer and other liquors are placed on tap again in Michigan, but we are concerned for our patriotism and loyalty. We can preserve this only by voting 'NO' when the proposed wine and beer amendment comes up on April 7.

Rev. John Gapske, rector of St. Mary's Catholic church, Alpena, has taken up the cudgels against the beer and wine amendment. In a letter to the Alpena News Father Gapske says of the claim that prohibition deprives the church of its sacramental wine:

"I certainly do not take any such interpretation from the laws and I have never expressed myself as fearing that the Catholic Church would be deprived of wine for sacramental purposes. I have lived in states where the prohibition laws were more drastic than in Michigan and there never has been any trouble in procuring wine for church purposes. I am not in favor of the wine and beer amendment."

Father Gapske's statement was the result of claims that if the saloon amendment were not adopted next Monday Catholic, Lutheran and Episcopal churches could not get wine for their sacraments.

IT'S NOT YOUR HEART; IT'S YOUR KIDNEYS

Kidney disease is no respecter of persons. A majority of the ills afflicting people today can be traced back to the kidney trouble. The kidneys are the most important organs of your body. They are the filters of your blood. If the poisons which are swept from the tissues by the blood are not eliminated through the kidneys, disease of one form or another will claim you as a victim. Kidney disease is usually indicated by weariness, sleeplessness, nervousness, despondency, backache, stomach trouble, pain in loins and lower abdomen, gall stones, gravel, rheumatism, sciatica and lumbago. All these derangements are nature's

signals that the kidneys need help. You should use GOLD MEDAL Haarlem Oil Capsules immediately. The soothing, healing oil stimulates the kidneys, relieves inflammation and destroys the germs which have caused it. Go to your druggist today and get a box of GOLD MEDAL Haarlem Oil Capsules. In twenty-four hours you should feel health and vigor returning. After you feel somewhat improved continue to take one or two capsules each day, so as to keep the first-class condition and ward off the danger of other attacks. Ask for the original imported GOLD MEDAL brand. Three sizes. Money refunded if they do not help you.

This Is Orange Blossom Time in Florida

And it's a good time to leave the Frozen North for a short Winter vacation. Come on down to Lake Alfred and see one of the most beautiful sights imaginable—thousands of acres of Orange and Grapefruit Trees in full bloom, scenting the air for miles around. We have a few planted small groves, but fine, not yet taken, but you cannot buy an acre until you have first seen the property. You had better hurry, for these are choice and will be sold soon. After carefully investigating what others have done in our vicinity, under exactly similar conditions, and you have satisfied yourself that our claim that a Six or Seven-Year-Old Grove, on a conservative estimate, will produce from \$200 to \$250 per acre Net, you can buy with perfect safety. If you buy, your trip costs you nothing, as we refund traveling expense to purchasers. Our groves at Lake Alfred are right on the Main Line of the Atlantic Coast Railroad, in the heart of the Highland-Lake Section, the highest, safest citrus section of Florida, with Ninety Lakes within a Five-Mile radius. Good asphalt and brick roads, schools, etc. Prices fair, values big, reasonable terms. Send for our illustrated booklet, read it carefully, and then visit Lake Alfred personally. S. K. THORPE, Northern Sales Manager, Florida Fruitlands Company, 45 East 42nd Street, New York City.

ANARCHISTS ASK GERMANY TO JOIN

GERMANY REFUSES TO PERMIT GEN. HALLER AND HIS POLISH ARMY TO LAND AT DANZIG.

HUNGARIANS AND SERBS BATTLE

Communist Troops Invaded German West Hungary, But Were Repulsed After Several Battles.

London.—The latest German unofficial report is that bolshevist regime of Russia and the Hungarian soviet government have asked Germany to join them in an alliance against the Entente.

Whether this be true, or not, it has a direct bearing on Germany's refusal to permit General Haller and his Polish army to land at Danzig. There is a show of resistance by the Germans, with General Ludendorff and Foreign Minister Von Brockdorff-Rantzau leading a "no submission" campaign.

Hungary Offers An Alliance.

Copenhagen.—The Vienna Volkszeitung's Budapest correspondent says the Hungarian government has offered to ally itself with the German government against the Entente, according to a dispatch received here.

A telegram of the Wolff bureau says, however, that nothing is known in official quarters in Berlin concerning such an offer.

Herr Stoessel, a member of the German majority socialist party, addressing the council of soldiers and workmen at Bromberg, Prussia, according to the Berlin Tageblatt, threatened that if the Entente powers enforced an oppressive peace the workers of Germany would cease work and let the Allies come and

"We in the executive committee," Herr Stoessel is quoted as saying, "are resolved that in given circumstances we may follow the example of Hungary. We also can ally ourselves with Russia."

Communist troops invaded German west Hungary, but were repulsed after several conflicts with the inhabitants, according to a dispatch from Berlin quoting the Vossische Zeitung.

A deputation from West Hungary arrived in Vienna to report to Secretary of State Bauer concerning the invasion. Many houses were plundered and burned.

Hungarians and Serbs Battle.

Paris.—Actual fighting has occurred between Hungarian and Serbian troops, according to a report in circulation here.

No confirmation was obtainable, previous dispatches having mentioned only the closing of the Hungarian-Serbian frontier by the soviet government of Budapest and the imposition of strong regulations on river craft moving from Belgrade toward Budapest.

Korea Calls Itself a State

Honolulu.—Korea has formed a provisional government in Manchuria, according to cabled advices from Koreans in Shanghai received by a local organization of Koreans. Troops of the new government crossed the Tumankank river from Manchuria into Korea, the message said. During demonstrations which occurred in Seoul, March 25 and 26 both sides suffered casualties, the advices said.

Mobs Fire Public Buildings At Samga; Many Were Killed.

Seoul.—Serious disorders have occurred at Samga, a village in South-eastern Korea, according to dispatches received here. It is said that Koreans numbering 100,000, gathered at Samga, cut telegraph wires and set fire to the town hall. Armed with scythes, members of the mob are reported to have attacked the postoffice and police stations.

Took him right over to the point to show him to the boys, and we decided we'd hold a little banquet the next night and eat the old cuss up. Well, when we sat down to table and I started to carve up that fish, do you know what? Anywhere I cut I struck right into a fish hook. He'd been hooked by everybody, and had swallowed the hook. That fish was just plumb full of tackle. I whittled and haggled away for a time, but finally gave it up as a bad job."

THE "BEST BERRY" DISHES.

The strawberry will soon be plentiful, yet while it is still a luxury we may use them in small amounts for a garnish or accessory.

Devonshire Pie.—Line a pie plate with rich pastry and bake it. Also bake a two-inch ring; this may be made by cutting around a large pie plate to make a large circle and then cutting around a smaller plate placed in the center of this. Use care to handle the ring without breaking it. Fill the pastry shell with Devonshire cream. This is prepared by scalding the milk the day before then skimming the cream and whipping it. Add a cupful or more of sweetened, very ripe berries and cover with the ring. Heap cream in the center and serve. A most attractive dish and one that is not hard to prepare.

Strawberry Ice.—Wash and hull one quart of strawberries, sprinkle with one cupful of sugar and let stand two hours. Mash and squeeze through a double cheesecloth. To the juice add one cupful of water and lemon juice to taste. Freeze, using three parts of ice to one of coarse salt.

Strawberry Baskets.—Beat the yolks of four eggs until thick, add one cup of sugar and beat two minutes; add three tablespoonfuls of water. Put one and one-half tablespoonfuls of cornstarch in a measuring cup, and fill up

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.—Adv.

Bolshevism in Practice.

"I thought you had an umbrella when you left home."

SUGGESTIVE DISHES.

For those who wish to eliminate meat from the diet the following two dishes will offer a variety.

Pea Roast.—Mix three-fourths of a cup of dry bread crumbs, one-half cupful of pea-pulp, that has been prepared by putting the cooked peas through a sieve, one tablespoonful of sugar, one-fourth cup of English walnut meats, finely chopped, one egg slightly beaten, three-fourths of a teaspoonful of salt, one-eighth of a teaspoonful of pepper, one-fourth of a cup of oil, and three-fourths of a cupful of milk. Turn into a hot pan, add salt, pepper and bake in a slow oven 40 minutes.

Pecan Nut Loaf.—To five sliced potatoes add three tablespoonfuls of butter, one teaspoonful of salt, a dash of pepper and one-third of a cup of hot milk. Beat with a fork until creamy and pack into a shallow pan. Set the pan in hot water and bake until well heated in a moderate oven. Turn on a hot platter, sprinkle with one-third of a cupful of finely chopped meats, pour around a cup of well seasoned white sauce and garnish with parsley.

Hot Finnan Haddie Canapes.—Fry one-half tablespoonful of chopped onion and two chopped mushroom caps in three tablespoonfuls of butter five minutes. Add two tablespoonfuls of flour and two-thirds cupful of thin cream. At the boiling point add two tablespoonfuls of cheese, the yolks of two eggs, well beaten, and one cupful of flaked finnan haddie. Season with salt and cayenne. Pile on pieces of toast, sprinkle with cheese and buttered bread crumbs and bake until brown.

Maryland Fried Chicken.—Clean, singe and cut in pieces for serving, two young chickens. Plunge into cold water, shake off and dip at once into flour to get as much to adhere as possible. Try out one pound of fat salt pork, cut in pieces and cook the chicken in the fat until well browned on all sides. Serve with a gravy made with the fat in the pan with thin cream and flour for thickening.

Instruction Ballot

For the Township of Putnam 1919

Instructions.—In all cases make a cross (X) in the square under the name of your party at the head of the ballot. If you desire to vote a straight ticket, nothing further need be done. Where only one candidate is to be elected to any office and you desire to vote for a candidate not on your party ticket, make a cross (X) in the square [] before the name of the candidate for whom you desire to vote on the other ticket. When two or more candidates are to be elected to the same office, and you desire to vote for candidates on different tickets for such office, make a cross (X) in the square [] before the names of the candidates for whom you desire to vote on the other ticket; also erase an equal number of names of candidates on your party ticket for the same office for whom you desire to vote. If you wish to vote for a candidate not on any ticket, write or place the name of such candidate on your ticket opposite the name of the office. Before leaving the booth, fold the ballot so that the initials of the inspector may be seen on the outside.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—“For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial.”

—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

LAND VALUE FIXED

Depends Altogether on Power of Giving Wealth.

That is Why the Fertile Acres, of Western Canada, With Adjacent Markets, Are So Attractive to Settlers.

Throughout every portion of the Western Empire lands that are capable of producing are in great demand. We find that in the States of proved agricultural wealth, land prices have increased within the past three or four years to a degree that ten years ago would not have been thought to be possible. Land that sought buyers at \$100 an acre five years ago is changing hands at \$200 an acre. The secret of this does not lie altogether in the higher prices of farm products, for the expense of production has increased proportionately. The better methods of farming have had a good deal to do with it, and the knowledge that demands for farm products will be sufficiently great for a good many years to come to insure a continuation of the high prices that prevail at present. Then, again, improved machinery, the tractor and other means of economic power will tend to lessen the cost.

Governing land values, too, are climates, soil, moisture, settlement, railroads, markets. Without markets, no matter how much the other factors enter into it, the land is merely of speculative value. It is not more than a third of a century since ninety per cent of the land in Western Canada, now occupied and tilled, and producing enough in one year to give a profit of from twenty-five to thirty dollars per acre, was unoccupied or used as grazing land, and worth very little. These lands today are valuable, and are being sought by settlers who realize their present and future value. There is no portion of the world that is attracting the same attention. The soil was here improved in the past

Grand Rapids—Stockholders of the Citizens' Telephone company have approved the re-election of present officers, including R. D. Graham, president. Directors were re-elected also. Mason—The girl who was shot near Ann Arbor by Robert Warner, of Jackson, is Irma Perkins. She had lived in the family of Clarence Caslor, of North Aurillus, for the last 10 years, the family having looked after her

and a daughter. Her father, Elmer Perkins and sister, Miss Roy Corbin, live in Eaton Rapids. She taught school last year in Plymouth.

Albion—M. L. Zetterson, former masseur at the Battle Creek sanitarium, who escaped from officers at Battle Creek while being taken to the asylum at Kalamazoo was captured at the farm house of Charles Minder. He had walked here from Battle Creek, spending two nights in the woods and going without food for 48 hours. He was returned to Kalamazoo by sanitarium officers.

Flint—Major General Grots Hutcheson, commandant at Camp Custer, spoke at the Board of Commerce rally, the climax of the membership drive here. “Potentiality of power backed by the united effort of the people of America,” he said, “played a great part in breaking down the morale of Germany.” He made a plea for equal recognition of returned soldiers and sailors regardless of whether their service was performed overseas or at home. “Men taken into service,” he said, “had no choice as to where they would have to served.

changed, and the moisture may be considered the same. These are three of the essentials of good land. What they lacked a third of a century ago was markets—a fourth essential. These they have now. Thus provided, it is not to be wondered at that these millions of acres with their great wealth, which have so long been awaiting the awakening touch of mankind, are now to be found adding to the available wealth of the world. With the advent of railroads, throwing their great trunks of steel across the continent and over the surface of these boundless plains, spreading out their tentacles to remoter parts, the world at large has begun to realize that here was a country possessing all the natural advantages claimed by older communities; that land here just as good or better, acre for acre, as their own could be had for almost the asking.

With the realization of the foregoing facts came the people, who found that a railway had preceded them and markets already existed for anything that they might care to raise. These markets have greatly expanded and are capable of still greater expansion, and assure to the agriculturist the prevailing prices of the world. An assured market means added value to every acre of land in

the West, and it is the very heart of the matter that the price of land in Eastern Canada and the United States.

Beat These if You Can.

Saco, Me., is acquiring fame for long-lived animals. A short time ago a party discovered a cat in a bag of grain bought the week previous, the cat still having its nine lives, so far as could be judged.

Now comes the story of Tax Collector Charles H. Innes, who lost a turkey, his prize bird, some eight weeks ago—eight weeks. He says that the other day, when pitching off some hay from a high mow, he discovered the bird, which had become wedged between planks. The gobbler was alive, thin as a turkey ghost, but able to dispose of a hot mash.

Turkeys are said to be hard to raise, at least in this part of the country, but Mr. Innes claims an indestructible breed. His friends urge him to go into the business and propagate such enduring species.

On a Chilly Morning.

It was on a chilly morning at Camp Grant that one soldier arose to find his outer garments missing.

“Have anyone seen my blanket?” he asked in a shivery tone.

He was informed they had not.

“Anyone seen my t-t-t-trousers?” No one had.

“Well, anyway, I got a n-n-nice warm pair of s-s-suspenders,” he said.

Not Quite.

“How would you like to be an aviator?” “I can't say it would suit me down to the ground.”

doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine for a few cents at any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Adv.

A snapshot taken by a noncom. A company marching by files on each side of the road not far from the Marne. WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merits and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

THE LIGHT IN THE CLEARING A TALE OF THE NORTH COUNTRY IN THE TIME OF SILAS WRIGHT By IRVING BACHELLER

AUTHOR OF "GREEN HOLDEN, DEER AND I, DARREL OF THE BLESSED ISLES, KEEPING UP WITH LIZZIE, ETC., ETC."

CHAPTER XIV—Continued.

So saying he handed me this letter: "Canterbury, Vt., June 1. "Dear Sir,—I am interested in the boy Barton Baynes. Good words about him have been flying around like pigeons. When school is out I would like to hear from you, what is the record? What do you think of the soul in him? What kind of work is best for it? If you will let me maybe I can help the plans of God a little. That is my business and yours. Thanking you for reading this, I am, as ever, "God's humble servant. "KATE FULLERTON."

that evening I told them what Sally had told me of the evil report which had traveled through the two towns. "Damn, little souled, narrer contracted—" Uncle Peabody, speaking in a low, sad tone, but with deep feeling, cut off this highly promising opinion before it was half expressed, and rose and went to the water pail and drank. "As long as we're honest we don't care what they say," he remarked as he returned to his chair. "If they won't believe us, we ought to show 'em the papers—ayes," said Aunt Deel. "Thunder an' Jehu! I wouldn't go 'round the town tryin' to prove that I ain't a thief," said Uncle Peabody. "It wouldn't make no difference. They've got to have somethin' to play with. If they want to use my name for a bean bag let 'em as long as they do it when I ain't lookin'. I wouldn't wonder if they got sore hands by an' by."

morrow, if you will. So you will please add another day." I amended the statement and he paid me the handsome sum of seven dollars. I remember that after I went to my room that night I stitched up the opening in my jacket pocket, which contained my wealth, with the needle and thread which Aunt Deel had put in my bundle, and slept with the jacket under my mattress.

CHAPTER XV.

I Use My Own Compass at a Fork in the Road. Swiftly now I move across the border into manhood—a serious, eager, restless manhood. It was the fashion of the young those days. Mr. Wright came up for a day's fishing in July. My uncle and I took him up the river. While we ate our luncheon he described Jackson and spoke of the famous cheese which he had kept on a table in the vestibule of the White House for his callers. He described his fellow senators—Webster, Clay, Rives, Calhoun and Benton. I remember that Webster was, in his view, the least of them, although at his best the greatest orator. We had a delightful day, and when I drove back to the village with him that night he told me that I could go into the office of Wright & Baldwin after harvesting. "It will do for a start," he said. "A little later I shall try to find a better place for you." My life went on with little in it worth recording until the letter came. I speak of it as "the letter," because of its effect upon my career. It was from Sally, and it said: "Dear Bart, It's all over for a long time, perhaps forever—that will depend on you. I shall be true to you, if you really love me, even if I have to wait many, many years. Mother and father saw and read your letter. They say we are too young to be thinking about love and that we have got to stop it. How can I stop it? I guess I would have to stop living. But we shall have to depend upon our memories now. I hope that yours is as good as mine. Father says no more letters without his permission, and he stamped his foot so hard that I think

half-hearted fashion to maintain itself in the midst of a democracy. It was the manorial life of the patroons—a relic of ancient feudalism which had its beginning in 1629, when the West Indies company issued its charter of privileges and exemptions. That charter offered to any member of the company who should, within four years, bring fifty adults to the New Netherlands and establish them along the Hudson, a liberal grant of land, to be called a manor, of which the owner or patroon should be full proprietor and chief magistrate. The settlers were to be exempt from taxation for ten years, but under bond to stay in one place and develop it. In the beginning the patroon built houses and barns and furnished cattle, seed and tools. The tenants for themselves and their heirs agreed to pay him a fixed rent forever in stock and produce and, further, to grind at the owner's mill and neither to hunt nor fish. Judge Westbrook, in whose office I worked, was counsel and collector for the patroons, notably for the manors of Livingston and Van Rensselaer—two little kingdoms in the heart of the great republic. Mr. Louis Latour of Jefferson county whom I had met in the company of Mr. Dunkelberg, came during my last year there to study law in the office of the judge, a privilege for which he was indebted to the influence of Senator Wright, I understood. He was a gay Lothario, always boasting of his love affairs, and I had little to do with him. One day in May near the end of my two years in Cobleskill Judge Westbrook gave me two writs to serve or settlers in the neighborhood of Baldwin Heights for nonpayment of rent. He told me what I knew, that there was bitter feeling against the patroons in that vicinity and that I might encounter opposition to the service of the writs. If so I was not to press the matter, but bring them back and he would give them to the sheriff. "I do not insist on your taking this task upon you," he added. "I want a man of tact to go and talk with these people and get their point of view. If you don't care to undertake it I'll send another man."

Taken from Nature—The wild roots and barks that go into the composition of one of the oldest and best known blood-tonics are gathered mostly on our reservations—brought or shipped to Dr. Pierce's Laboratory in Buffalo, N. Y.

Dr. Pierce discovered 50 years ago, that Nature has provided freely for the needs of her children and that in her laboratory were the remedies. Extracts of Queen's root, Stone root, Black Cherry-bark and Bloodroot, as prepared, combined and preserved without alcohol, in Dr. Pierce's Golden Medical Discovery, constitute the most effective and certain tonic, alterative and tissue-rebuilding remedy ever offered to the public. This tonic soon became known all over the world. It is purely vegetable and free from alcohol or narcotics. It will search out impure and poisonous matter and drive it from the system. Buy it now in tablets or liquid. All druggists, or send Dr. Pierce, Buffalo, N. Y., 10c for trial package. It will clear the skin; eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away.

Whoopee! "Heigh-ho!" cried the spirited nag, as he found his bridle on the barn floor and proceeded to smash the snaffle to smithereens. "I should say I've done for him."

Having come to the first flight of the uplands, he left me with many a kind word—how much they mean to a boy who is choosing his way with a growing sense of loneliness! I reached the warm welcome of our little home just in time for dinner. They were expecting me and it was a regular company dinner—chicken pie and strawberry shortcake. How well I remember that hour with the doors open and the sun shining brightly on the blossoming fields and the joy of man and bird and beast in the return of summer and the talk about the late visit of Alma Jones and Mr. and Mrs. Lincoln! While we were eating I told them about the letter of old Kate. "Fullerton!" Aunt Deel exclaimed. "Are ye sure that was the name, Bart?" "Yes." "Goodness gracious sakes alive!" She and Uncle Peabody gave each other looks of surprised inquiry. "Do you know anybody by that name?" I asked. "We used to," said Aunt Deel as she resumed her eating. "Can't be she's one o' the Sam Fullertons, can it?" "Oh, prob'ly not," said Uncle Peabody. "Back East they's more Fullertons than ye could shake a stick at." A week later we had our raising...

ciener, I remember that my task was mending the wheelbarrow. "I don't know what Silas would do if he were to get home and find his wheelbarrow broken," said she. "It is almost an inseparable companion of his." The schoolmaster and his family were fishing and camping upon the river, and so I lived at the senator's house with Mrs. Wright and her mother until he arrived. What a wonderful house it was, in my view! I was awed by its size and splendor, its soft carpets and shiny brass and mahogany. Yet it was very simple. I hoed the garden and cleaned its paths and mowed the dooryard and did some painting in the house. The senator returned to Canton that evening on the Watertown stage. He greeted me with a fatherly warmth. Again I felt that strong appeal to my eye in his broadcloth and fine line and beaver hat and in the splendid dignity and courtesy of his manners. "I've had good reports of you, Bart, and I'm very glad to see you," he said. "I believe your own marks have been excellent in the last year," I ventured. "Poorer than I could wish. The teacher has been very kind to me," he laughed. "What have you been studying?" "Latin. It always interested me, but I never got beyond the first book."

wait—that it would make father a great deal of trouble if it were known that I allowed you to write. I guess the soul of old Grimshaw is still following you. Well, we must stretch out that lovely day as far as we can. On the third of June, 1844, we shall both be twenty-one—and I suppose that we can do as we please then. The day is a long way off, but I will agree to meet you that day at eleven in the morning under the old pine on the river where I met you that day and you told me that you loved me. If either or both should die our souls will know where to find each other. If you will solemnly promise, write these words and only these to my mother—Amour omnia vincit, but do not sign your name. "SALLY." What a serious matter it seemed to me then! I remember that it gave time a rather slow foot. I wrote the words very neatly and plainly on a sheet of paper and mailed it to Mrs. Dunkelberg. I wondered if Sally would stand firm, and longed to know the secrets of the future. More than ever I was resolved to be the principal witness in some great matter, as my friend in Ashery lane had put it. I was eight months with Wright & Baldwin when I was offered a clerkship at Cobleskill, in Schoharie county, at two hundred a year, and my heart was not then just how the offer had come, but knew that the senator must have recommended me. I know now that he wanted a reliable witness of the rent troubles which were growing acute in Schoharie, Delaware and Columbia counties. It was a trial to go so far from home, as Aunt Deel put it, but my aunt and uncle agreed that it was "for the best." How it wrung my heart, when Mr. Purvis and I got into the stage at Canton, to see my aunt and uncle standing by the front wheel looking up at me. How old and lonely and forlorn they looked! Aunt Deel had her purse in her hand. I remember how she took a dollar out of it—I suppose it was the only dollar she had—and looked at it a moment and then handed it up to me. "You better take it," she said. "I'm 'fraid you won't have enough." How her hand and lips trembled! I have always kept that dollar. I couldn't see them as we drove away. The judge received me kindly and gave Purvis a job in his garden. I was able to take his dictation in shorthand and spent most of my time in taking down contracts and correspondence and drafting them into proper form, which I had the knack of doing rather neatly. I was impressed by the immensity of certain towns in the neighborhood, and there were some temptations in my way. Many people, and especially the prominent men, indulged in ardent spirits. We had near us there a little section of the old world which was trying, in a

as those back-country folk are a little lawless it will be just as well to have a witness with you. They tell me that Purvis is a man of nerve and vigor." I had drafted my letters for the day and was about to close my desk and start on my journey when Louis Latour came in and announced that he had brought the writs from the judge and was going with me. "I wouldn't miss it for a thousand dollars," he remarked. "By Jove! I think we'll have a bully time." "I don't object to your going but you must remember that I am in command," I said, a little taken back, for I had no good opinion either of his prudence or his company. "The judge told me that I could go but that I should be under your orders," he answered. "I'm not going to be a fool. I'm trying to establish a reputation for good sense myself." We got our dinners and set out soon after one o'clock. I had read the deeds of the men we were to visit. They were brothers and lived on adjoining farms with leases which covered three hundred and fifty acres of land. Their great-grandfather had agreed to pay a yearly rent forever of sixty-two bushels of good, sweet, merchantable, winter wheat, eight yearling cattle and four sheep in good flesh and...

HIGHWAY COMMISSIONER ROGERS

Lansing, April 2.—Highway committees of the House and Senate, together with State Highway Commissioner Frank F. Rogers, are busy working out a new bill for introduction immediately following the ratification of the Good Roads amendment at the election April 7, which will serve to arrange for the distribution of the money to be raised from time to time on the Highway bonds.

Rep. Frank E. Aldrich's bill establishing a sliding scale of state reward for road building, which most people supposed was designed as the machinery for the administration of the Highway bond proceeds, will serve only as a part of the legislative machinery, Commissioner Rogers has gauged public sentiment and is convinced the people now so understand the proposed Highway amendment and so thoroughly approve of a system of permanent roads built under a deferred payment plan and with Uncle Sam matching the state's investment on a dollar-for-dollar basis, that he is proceeding under the assumption that the proposal will get an overwhelmingly favorable vote at the

for caring for bridge construction in such a way that it will not be a burden on the local community and there must be machinery to assure the local communities their full quota of state reward. All these points will be incorporated in a new bill which probably will be one of the last pieces of legislation, pushed through the house and senate.

Mr. Rogers also announced that Michigan will receive some 4 per cent of vast quantities of war equipment and supplies that could be converted to highway building. This will be distributed in the same ratio as the Federal aid and he already has assurance of a large number of trucks, automobiles, stone-crushers, road rollers, surveyors' instruments, tractors, locomotives, cars, narrow gauge track, steam shovels, concrete mixers, etc. And this is but a small portion of what Uncle Sam will send into Michigan to help the state spend its own and the government money in the most economical, efficient manner in the construction of a comprehensive system of main market roads leading into every community.
