Vol. XXXVI

Pinckney, Livingston County, Michigan, Thursday September 11, 1919

No. 36

## THE COST OF LIVING

So much has been said in newspapers and periodicals about the high cost of living that it would seem superfluous to take up the question for discussion in these columns.

The labor element claims it must have higher wages in order to buy necessities and employers say labor must work for less in order to reduce the cost of commodities. The administration sets forth the statement that the middleman is partially to blame for existing high prices by adding enormous profits to the cost price.

In Pinckney at this time we are enjoying a reduction in the price of the great staple—bread. This reduction, at a time when the tendency to elevate prices is almost universal, is worthy of mention.

The price of the standard sized loaf of bread in neighboring towns and cities is from 15 to 16 cents a loaf. Up to about three months ago the former price prevailed in Pinckney. For some time past the price in Pinckney has been 14 cents a loaf and the Pinckney

## SCHOOL DAYS

The Pinckney school opened last week with the following teachers: Professor and Mrs. Doyle Misses Norma Curlett Josephine Harris, Alice Roche and Jessie Green. The only change in teachers this year is Miss Roche taking charge of Miss Byer's room.

So many outside students have enrolled this year that notwithstanding the loss of Class 1919—the largest ever graduated—the school has as large a number of students as ever.

The athletics are organizing the football team this week and expect to have a strong eleven this fall.

## TEACHERS IN PUTNAM

The teachers engaged for the coming year and now teaching in the Putnam schools are as follows:

the start of the.

Mr. Norton, the proprietor of the Pinckney bakery, by the hardest kind of work and the closest application to business has increased the sales of bread wonderfully in this vicinity, and he says he is satisfied with the smaller percentage of profit coming from the large sales of 14-cent bread. His business has increased to such an extent that he expects to install another and larger oven in his plant to supply the increasing demand for bakery goods.

Last Saturday, the coming Saturday and possibly other future Saturdays the price of Pinckney bread will be two loaves for 25 cents and while you are eating Pinckney bread at this price, bear in mind the fact that almost universally in Michigan—outside of this immediate vicinity—the price of a loaf of bread of equal weight

Pinckney bread—one merchant in town says his bread sales have increased nearly 100 per cent since he has handled Pinckney bread exclusively. This is evidence enough about quality.

This article is not published with the intention of advertising this bread, but this paper will always have a good word for any Pinckney concern which is a positive benefit to the community.

Last week for one day groceries were advertised at prices that brought many people to trade here who have bought their groceries in other nearby towns. This shows that consumers are on the lookout and alert to take advantage of any reduction in the prices of living commodities. The increased volume of business coming from these sales is so gratifying to the dealers that they intend to continue giving lower prices, thereby making more and larger sales and taking profits more from increased volume of business even if at a lower percentage of profit.

The lesson to come to Pinckney for Saturday trading will soon be accepted by even still larger numbers of customers and Pinckney people may be congratulated that the high cost of living is not so high as elsewhere.

Sept. 20. Sale begins at 1 o'clock. This is the first of the fall auctions. Norman Reason will be the auctioneer. Full particulars on hand bills.

## THE MEN IN CLASS 'A'

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A. Take GOLD MEDAL Haarlem Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work. Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules. They are made of the pure, original, imported Haarlem Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL Brand. In three sizes, sealed packages.—Adv.

### A SUMMER COLD

A cold in the summer time, as everybody knows, is the hardest kind of a cold to get rid of. The best and quickest way is to go to bed and stay there if you can, with a bottle of "Boschee's Syrup" handy to insure a good night's rest, free from coughing, with easy expectoration in the morning. But if you can't stay in bed you must keep out of draughts, avoid sudden changes, eat sparingly of simple food and take occasional doses of Boschee's Syrup, which you can buy at any store where medicine is sold, a safe and efficient remedy, made in America for more than fifty years. Keep it handy.—Adv.

## WHEAT GROWERS SHOULD WORK TO AVOID LOSSES TO 1920 CROP BY HESSIAN FLY

Development of Hessian Fly From Egg to Adult.

(Prepared by the United States Department of Agriculture.)  
Losses to the winter wheat crop from Hessian fly have been rather wide spread. Losses are reported in the Shenandoah and Cumberland valleys. Straw-fallen wheat due to this cause was commonly observed in these regions where the percentage of infestation by the Hessian fly has very materially increased this year. Reports received from the western half of the Mississippi basin also indicate a heavy infestation of the pest.

Do not sow wheat on stubble if possible to avoid doing so. Plow under all infested stubble and ruined wheat where practicable soon after harvest, especially where this does not interfere with the growing of clover and forage grasses. Destroy all volunteer wheat by harrowing, disking, plowing, or otherwise. Plow Early and Deep. Plow all land to be sown to winter wheat as early and deeply as existing conditions permit and prepare a thoroughly pulverized and compacted seed bed.

into practice at once measures advocated by the United States department of agriculture to avoid losses to the 1920 crop by the Hessian fly. There is no remedy for the pest when once it takes possession of a crop of wheat. Injury can be prevented solely by keeping the fly out of the wheat. The department experts say the following methods are effective:

Use the best seed procurable. Keep the soil in good tilth and, most important of all, sow winter wheat during the fly-free period as advised by local farm advisers or state experiment stations. Community action in these measures is absolutely essential to complete success.

## STORAGE HOUSES IN DIFFERENT SECTIONS

Insulated Potato House is Best Adapted to South.

Aroostook Type is Distinctively a Product of Maine and Confined Largely to That State—West Uses Storage Cellars.

(Prepared by the United States Department of Agriculture.)  
The insulated potato house is not used extensively, and as a rule is better adapted to southern than to north-

vantage may be taken of a ground level entrance. The basements are usually from 8 to 12 feet deep, and most of them have a capacity of several thousand barrels. Generally the only provision for ventilation is by trapdoors in the floor through which the filling of the bins is completed. Occasionally a ventilator is found in the roof.

These houses, although practical in Maine, will never supersede the dug-out pit or storage cellar now used in the middle and far western states. Each of these types of storage has distinctive features which peculiarly adapt it to its own environment, but do not necessarily preclude use in other localities.

### Protein in Millet.

When millet is cut at the proper stage—when the seed is soft—it contains about as much protein as timothy hay or good corn fodder.

## NECESSARY FOOD FOR TREES

Fruit Grower Must Furnish Barnyard Manure or Fertilizer—Legume Crop is Good.

Since all trees get their food from the soil, it is up to the grower to furnish barnyard manure or a good commercial fertilizer. Perhaps the most economical and dependable agency is the legume crop, and it not only gathers nitrogen, but also furnishes humus, thereby replenishing the soil.

## FOR MAKING SPRAY SOLUTION

Most Satisfactory Method of Cooking Lime-Sulphur is With Steam and Large Kettles.

## BEST EQUIPMENT FOR GARDEN

No One Can Enjoy Work With Crude or Unsuitable Implements—Work is Made Easy.

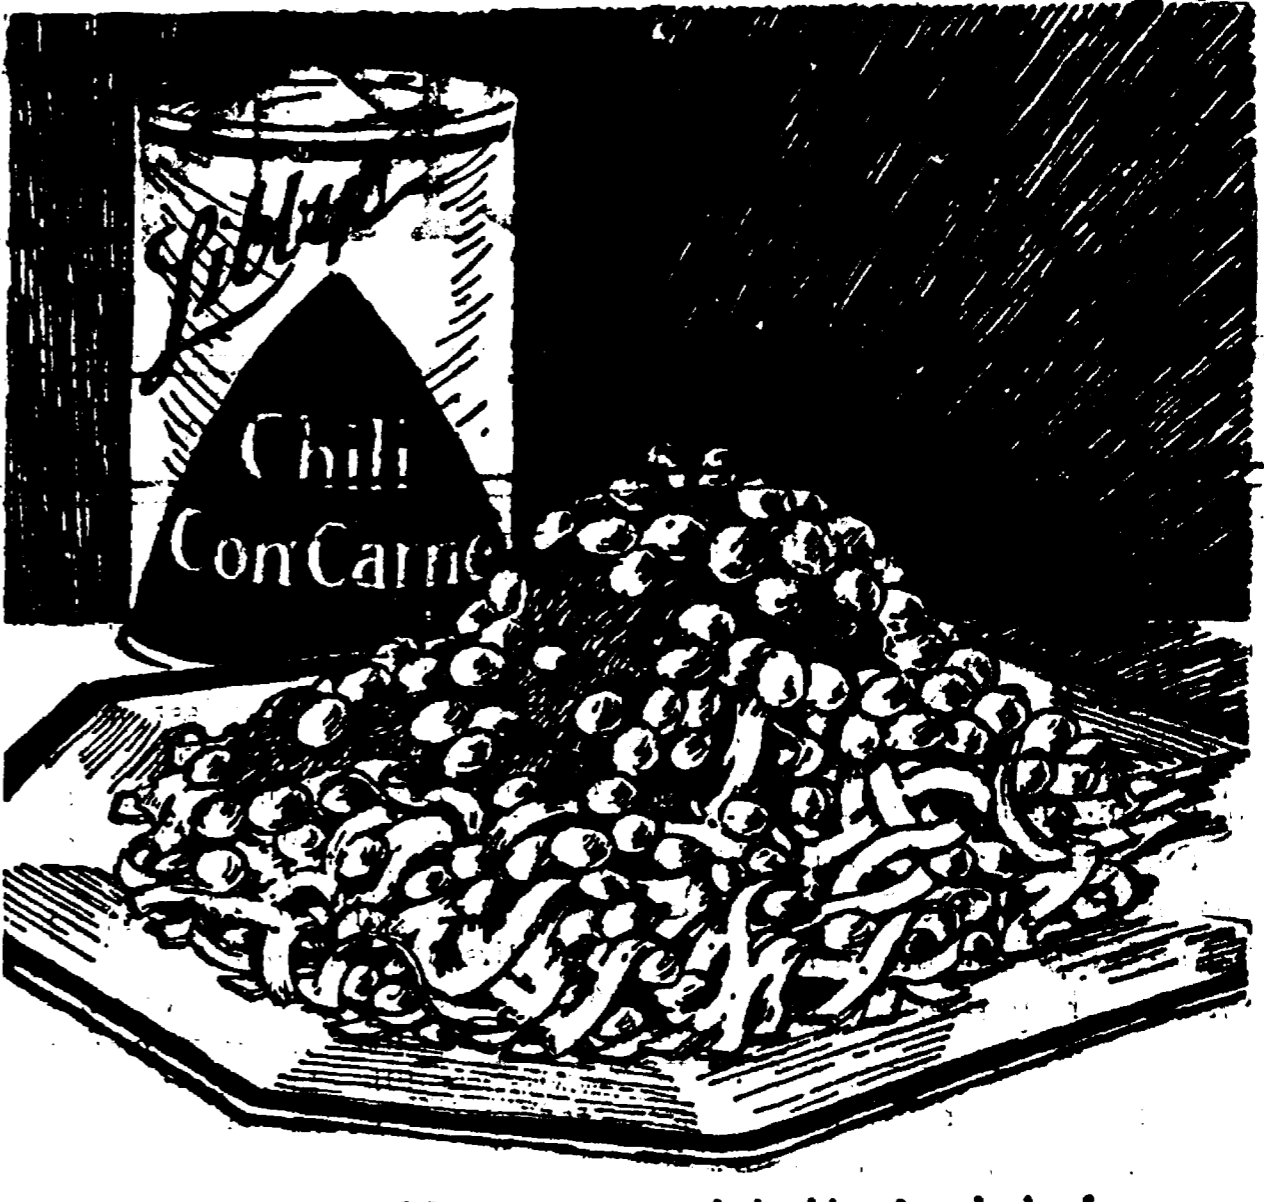

Garden equipment is essential for best results in making a garden. No one can enjoy work with crude or unsuitable implements. All realize how easy hard work may be with the right kind of facilities for doing it. This is true in garden work. Garden implements cost so little in comparison to their value that no one can afford to get along without them. The same may be said of farm implements and needed equipment in general.

### Too Flimsy for Potatoes.

## SMALL CHANCE TO GET AWAY

As It Happened, the Old Gentleman Was Placing the Blame Where It Didn't Belong.

"I don't know what the young men of today are coming to," said Mr. Smith. "In my young days there wasn't any need for all this courting. The girls then—"

"But he was cut short by the coat-scuttle which Mrs. Smith accidentally dropped on his toes.

"I was only going to say, my dear," he remarked, when he had recovered his composure, "that I wish the young fellow who is calling on Christabel would go away and let us get the house shut up. It's past midnight!"

It was one of the days near the end of June, and young Bill, having to sustain a reputation as one of San

"It isn't his fault, pa," said the heir of the Smiths. "He can't go; Christabel's sitting on him!"

### Couldn't Follow It.

"Can't you avoid quarreling?" demanded Judge White the other day of a man who appeared for the third time in his court for fighting.

"Yes, sir, I could," answered the culprit. "I have a recipe that was written by Bill Shakespeare or Kipling or someone, but I don't know but what I'd rather get into trouble once in a while, rather than follow it."

"What's the recipe?" demanded White, curiously, and the man answered: "Say nothing; do nothing; be nothing!"

It is better to say nothing than a lot of clever things you later on regret.

"Hello, Jack," Bill murmured, yawning. It appeared as if every syllable cost him untold effort. He sat down and rubbed his eyes with his fists. He bit his lips to keep from yawning again.

"Had breakfast?" Jack inquired. "No," the other replied. "Don't want any."

"Well," Jack insisted, "have a cup of coffee, anyway."

Bill yawned again in spite of himself.

"Don't want any coffee," he said. "It would keep me awake all day."—San Francisco Chronicle.

## WOMEN OF MIDDLE AGE

Need Help to Pass the Crisis Safely—Proof that Lydia E. Pinkham's Vegetable Compound Can be Relied Upon.

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms, I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to gain in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."  
—Mrs. FRANK HENSON, 1316 S. Orchard St., Urbana, Ill.

Women who suffer from nervousness, "heat flashes," backache, headaches and "the blues" should try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

## HEADACHE Often Caused by Acid-Stomach

Yes, indeed, more often than you think. Because ACID-STOMACH, starting with indigestion, heartburn, belching, food-repeating, bloating and gas, if not checked, will eventually affect every vital organ of the body. Severe, blinding, splitting headaches are, therefore, of frequent occurrence as a result of this upset condition. Take EATONIC. It quickly banishes acid-stomach with its sour flat pain and gas. It aids digestion—helps the stomach get

into the blood and distributed throughout the entire system. This often causes rheumatism, biliousness, cirrhosis of the liver, heart trouble, ulcers and even cancer of the stomach, it robs its victims of their health, undermines the strength of the most vigorous.

If you want to get back your physical and mental strength—be full of vim and vigor—enjoy life and be happy, you must get rid of your acid-stomach. In EATONIC you will find the very help you need and it's guaranteed. So get a big box from your druggist today. If it fails to please you, return it and he will refund your money.

## HAD TO GIVE UP

Was Almost Frantic With the Pain and Suffering of Kidney Complaint. Doan's Made Her Well.

Mrs. Lydia Shuster, 1838 Margaret St., Frankford, Pa., says: "A cold started my kidney trouble. My back began to ache and got sore and lame. My joints and ankles became swollen and painful and it felt as if needles were sticking into them. I finally had to give up and went from bad to worse. "My kidneys didn't act right and the secretions were scanty and distressing. I had awful dizzy spells when everything before me turned black; one time I couldn't see for twenty minutes. Awful pains in my head set me almost frantic and I was so nervous, I couldn't stand the least noise. How I suffered! Often I didn't care whether I lived or died. "I couldn't sleep on account of the terrible pains in my back and head. Nothing seemed to do me a bit of good until I began using Doan's Kidney Pills. I could soon see they were helping me; the backache stopped, my kidneys were regulated and I no longer had any dizzy spells or rheumatic pains. I still take Doan's occasionally and they keep my kidneys in good health."

## WILSON SAYS PEACE DELAY IS FOLLY

SAYS BOLSHEVISM IS RAPIDLY SPREADING WHILE SENATE DELAYS RATIFICATION.

### LABOR AND CAPITAL UNEASY

Crowds Welcome President—Capacity Audiences Greet Wilson in Air Cities Visited.

Des Moines, Iowa.—A possibility that bolshevism may spread in threatening proportions to the United States unless the peace treaty be ratified promptly was suggested by President Wilson in his address here Sept. 6. The whole world was waiting uneasily, he said, while the poison which had wrecked Russia was spreading among peoples who did not yet know what guarantees there were to be for liberty in the new world order. Labor and capital in the United States, he asserted, could not proceed intelligently with their settlements, nor could great problems like the railroad situation be solved while the suspense continued.

Mr. Wilson defended the Shantung provision of the treaty and said the league covenant section referring to the Monroe doctrine had been inserted to "give the Monroe doctrine right of way in the western hemisphere." He declared his conviction that it would do so.

### President Warmly Welcomed.

Washington.—President Wilson this week is well under way in his 10,000 mile tour of the country, made to crystallize sentiment in favor of the League of Nations covenant.

Accompanying the president in addition to Mrs. Wilson, are Joseph P. Tumulty, his secretary and Rear Admiral Gary T. Grayson, his physician.

and secret service men.

The trip, perhaps the most arduous ever undertaken by a president, will carry Mr. Wilson and his party as far west as the Pacific coast, almost to the Canadian border on the north and almost to Mexico, on the south.

The president's reception in all the cities he has thus far visited has been enthusiastic, packed audiences being present at all the meetings.

The gist of Mr. Wilson's speeches is that it is necessary that America accept the peace treaty without amendments and a plea for the adoption of the league pact. He stated although he did not believe the League of Nations would make all wars impossible, but that he expected it to make war "violently improbable."

The economic and arbitration sections of the covenant, he asserted, would "keep war on the outskirts" and make it only a "last resort."

The president said the American delegates had gone to Paris with a definite errand and had accomplished it. He made a plea for acceptance of the treaty because he said it gave a new platform for world affairs.

Opponents of the League of Nations, he said, had discussed only three out of 28 articles of the covenant.

war improbable had been overlooked. He then called on opponents of the league to present a "better program" for peace. President Wilson declared "it is a case of put up or shut up."

The president said his speaking trip was partly to point out how "absolutely ignorant" of the contents of the covenant some of those were who opposed the league.

"This league," he said, "is the only conceivable arrangement which will prevent our sending our men abroad again very soon."

The president expects to be back in Washington September 30.

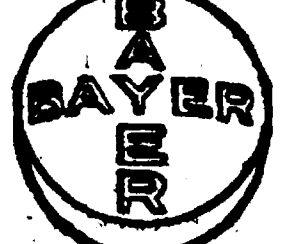

## HUGE CROWDS GREET PERSHING

Nation Honors Commander of Army On Return to U. S.

New York—Thousands of people from all walks of life, some of them from General Pershing's home town in Missouri, arrived in the city to join in the nation's welcome to the commander-in-chief of the A. E. F., who landed at Hoboken Monday.

When the man who led America's millions to victory in France arrived in New York harbor he was met by a fleet of navy destroyers, and welcoming craft. As soon as the Leviathan was sighted ships and forts guarding the bay boomed out a 17-gun salute, and a few minutes later official well-wishers and newspaper men boarded the transport at quarantine.

## Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

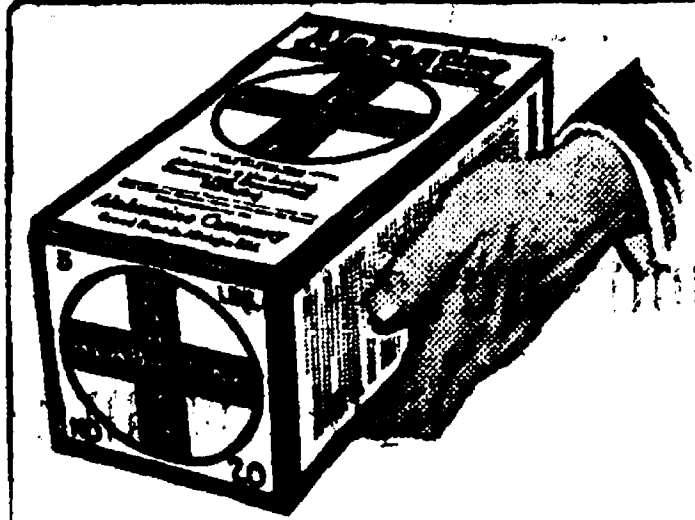

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

Alabastine can be applied to plastered walls, wallboard, over painted walls that have become soiled, or even over soiled wallpaper solid on the wall and not printed in aniline colors.

Alabastine is a dry powder, ready to mix with pure, cold water, full directions on each package. Alabastine is packed in white and beautiful tints. These, by combining and intermixing, enable you to carry out individual color plans in matching rugs and draperies. Alabastine is used in the finest residences and public buildings, but priced within the reach of all.

You will readily appreciate the economy of Alabastine over paint or wallpaper, and its results will be most gratifying.

New walls demand Alabastine, old walls appreciate Alabastine.

If your local dealer cannot or will not supply you, take no substitute but write for Alabastine designs and we will give you name of nearby dealer.

## At About the Price She Wants to Pay

We made the announcement last week that we were showing the largest line of ladies fall apparel ever shown in Stockbridge. We go one better this week, and offer the above statement as a simple truth, mainly because some people may be on the verge of a panic regarding the high cost of wearing apparel. Forgetting that ladies wearing apparel is a very elastic term, covering endless grades of fineness.

We have splendid, stylish, nicely made coats at \$15 and from this price up to \$22.50. Then we have garments made of material worth many dollars a yard, designed by people who are really artists in their trade, and tailored by some of the best tailors in the business. These are selling as high as \$75 and \$80.

And between these two extremes \$15 and \$80 are prices to please almost any woman. All of these made by easy steps.

So we say---  
"A Garment for Every Purse"

## EDWIN WINANS

Continued from last week.

That Winans was a strong and aggressive man accounts, in a measure, for his material success. That he was scrupulously honest and just and all of his dealings characterized by a generous and openhearted concern for the interests of others won him the high regard of his life-time neighbors. One has but to recall the name of Winans to the dwellers of the Livingston county countryside to elicit tokens of the esteem in which he was held by those who knew him best. He began the battle of life among them. The older men took the hard knocks of pioneer days with him shoulder to shoulder. Many of them he walked soundly in his school teaching days. But the force of character and directness of purpose that won for Winans wealth and position did not impair the frank intimacy of his relations with earlier friends and associates. He was always Ed Winans to the people of Livingston county.

### HELPED HIS NEIGHBORS

Remembering his own early trials Winans was always lending a helping hand to less fortunate farmers in his vicinity. Many had cause to be thankful for loans of money, time and credit at critical periods. Two brothers who had known Winans during his California days returned to Michigan and invested their savings in a tract of wild land near Winans' farm. They soon needed more money to prosecute the improvements upon their land. They applied to Winans for help.

"Now see here," said Winans, "two boys can get along. You have your own land and you are dependent upon me. It may be a little slow but you will make it all right. I'll like to help you boys, but I've got my hands full with large families who are in need of assistance. I've got to help them first."

At the close of 1917, the two brothers had secured the necessary funds to prosecute their improvements. They were able to pay back the loan to Winans and were able to continue their work.

Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. ## VIENNA SIGNS PACT, PROTESTING TERMS

VOTE IS 97 TO 23 TO APPROVE—  
SAY TEAMS IMPOSED BY  
ALLIES ARE TOO HARSH.

### ENTENTE GETS BLAME FOR WAR

Resolution of Protest Says Union of  
Germany and Austria Will  
Take Place Later.

Vienna.—The national assembly, by a vote of 97 to 23, on Sept. 7 decided to sign the peace treaty. The assembly, however, protested against "the violation of Austria's right of free disposal of herself."

The German nationalists voted against signature of the treaty while some members of the South Tyrolean party abstained from voting.

The vote was taken after adoption without dissent of the government's resolution of protest, presented by the Christian Socialist Hauser, declaring the territorial clauses of the treaty grossly violate the national claim to self-determination and the basis on which the armistice was concluded.

"We raise once more our voices against a peace founded on brute force," said the resolution.

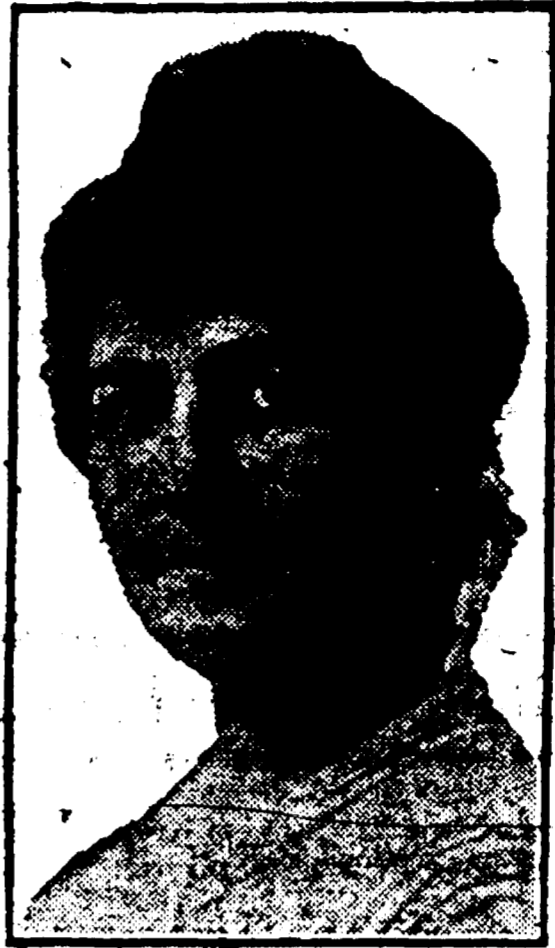

"As one man we decline the dividing up of our peoples into free and unfree, as is done by this peace."

"We further declare that the 4,000,000 Germans forced under foreign rule will for all time insist on self-determination as the only possible basis on which the modern state may be founded."

The resolution also declares that ultimate union with Germany is an absolute necessity and expresses the hope that when the hatred of the war dies down this union will be consummated.

It ends by placing responsibility for

### CENTRAL FIGURE AT PEACE CELEBRATION

MISS BINA M. WEST

The central figure of the grand Peace Jubilee to be held at Port Huron on September 16th, will be Miss Bina M. West, the founder and leader of the Woman's Benefit Association, under whose auspices the Jubilee is being held. Governor Sleeper will assist Miss West in receiving at least two thousand delegates and visitors. At this time too, the mammoth Service Flag of the Association will be demobilized with an impressive open air ceremony which will take place in front of the beautiful new Home Office of the Association in Port Huron.

Supreme Commander West is a daughter of Michigan who has brought honor to her home state as the leading woman fraternalist and executive of the continent. Twenty-seven years ago she launched her project of giving fraternal protection to women, and today over two hundred thousand women are enrolled in membership in her association.

### RADICALS ENDORSE SOVIET

Socialists Favor Russian Plan—Two  
New Parties Formed.

Chicago.—The National Socialist Party in a declaration of principles adopted last week unqualifiedly endorsed the Soviet republic of Russia and the International Socialist movement and condemned the League of Nations.

Another new party was organized and christened the Communist party. It is patterned after the Soviet republic of Russia and its membership will be limited to wage-earners. The platform, constitution and program adopted is even more radical than that of the Communist Labor party.

### ACTORS' STRIKE IS SETTLED

Striking Stage Hands Adjust Differences With Producers.

New York.—The actors' strike. The problem of being all dressed up and nowhere to go was solved for thousands of theatre-goers by the reopening of a number of houses which had been forced to close during the 30-day war between Theatricals and managers which ended September 6.

According to the claims of the parties to the war, it ended in a victory for everyone.

### YANK KILLED BY GERMANS

Shot in Neutral Zone While Hunting With Companion.

Coblentz.—Private Rease Madsen, Sacramento, Calif., was shot and instantly killed last Sunday by German soldiers in the neutral zone about a mile from the boundary of the Coblentz bridgehead.

Madsen and Private Bert Balsinger, of the eight infantry, who had been on outpost duty, were deer hunting when they encountered a German patrol of 13 soldiers.

### FOOD GOUGERS TO BE PUNISHED

U. S. Attorney Says Indictments Will Be Asked of Grand Jury.

Detroit.—John E. Kinnane, U. S. district attorney, announced he is in possession of evidence on which he will ask the federal grand jury convening September 25 to return indictments against a considerable number of alleged food profiteers in Detroit.

### Irish Leader Says President Failed to Get Hearing for Erin at Peace Table.

Washington.—The senate foreign relations committee last Saturday received a report of a spirited discussion of the Irish question at Paris last June between President Wilson and Frank P. Walsh and former Governor Dunne of Illinois, who sought to secure a hearing before the peace conference for the Irish nationalists.

The report was transmitted by the Irish National bureau, supplementing recent committee hearings. It said Mr. Wilson declined to use his influence to get a hearing for the Irish representatives, declaring that Messrs. Walsh and Dunne, by intemperate speeches in Ireland, had made it impossible.

Treaties in existence, the president also was represented as having declared, impeded his efforts to procure self-determination for subject peoples.

The Irish memorandum, described as notes on the conference between President Wilson and Messrs. Walsh and Dunne, made by the latter after the peace conference, and others of the same nature, were submitted to the committee on the Irish question.

### TREATY NOW UP TO SENATE

Committee Work Finished—Four Reservations Made to Covenant.

Washington.—The senate foreign relations committee after two months work on the peace treaty with Germany and the League of Nations covenant, has passed the documents to the senate.

Before reporting the pact and treaty to the senate, four reservations to the League of Nations covenant were adopted by the committee. Approximately two score amendments had previously been incorporated in the treaty.

### LABOR-CAPITAL MEET OCT. 6

Tentative Plans Made For Discussion of Wage Controversies.

Washington.—The big labor conference suggested by the president, in which capital and labor will be brought together at the White House, for a "tull and free conference," will convene October 6, according to the present plans.

Forty persons, probably women as well as men, will be asked to sit in. The president has written to the Farmers' organizations, to the American Federation of Labor, and to the Chamber of Commerce of the United States, asking these bodies to send delegates. Other delegates the president will probably invite on his own motion.

two famous Yukon creeks, on which the first discovery of gold more than 20 years ago drew thousands north, have run out of the precious metal and the dredges of the Yukon Gold Co., working two creeks for gold for years, have been shipped to Seattle.

### Sugar Shortage Apparently Real.

Washington.—Sugar shortages now experienced in many parts of the country cannot be relieved for some time to come, George A. Zabriskie, president of the United States Equalization board, said in a letter to Senator Hitchcock, Democrat, Nebraska. The demand is enormous and largely in excess of refiners' ability to supply it at this time," said Mr. Zabriskie.

### Germany Pays For Slain Frenchman.

Paris.—Germany has paid France an indemnity of \$200,000 for the murder of Sergeant Paul Mannheim, who was killed in the streets of Berlin by a German in July. Germany originally refused to pay the indemnity. The course of the negotiations over the case has not been traced in recent days.

### Reckless War Expenditure Shown.

Washington.—The house subcommittee investigating ordinance expenditures during the war has made public testimony taken in its hearing showing that the government shell loading plant at Fort Delaware, uncompleted when the armistice was signed, had cost the government to date \$14,000,000, although the estimated cost when the contract was let on the cost-plus basis was placed at from \$1,250,000 to \$1,500,000.

### Plane Carrying 18 Files Across Alps.

New York.—News of a successful European flight of a Caproni triplane equipped with Liberty motors was made public here by D. G. Conti, American representative of the Caproni Company. The telegram received by Signor Conti from Milan said that the triplane fitted with Liberty motors and capable of carrying 18 passengers flew from Milan across the Alps to Lyons, Paris, Brussels, Amsterdam, on its way to London.

### Workmen Run Arsenal Shops.

Washington.—Actual control of the production activities of Rock Island arsenal shops, including appointment of foremen and the determination of prices to be paid workmen, has been handed over to committees of the employees. The new plan, is characterized as "the first recognition of the principle of democracy as applied to the manufacturing industry." Official reports to Secretary Baker assert that greatly increased efficiency has resulted.

The honey crop of the United States for 1918 having been estimated by the department of agriculture at about 250,000,000 pounds, the American Botanist estimates that as the nectar of flowers does not become honey until worked over and partly evaporated, the bees must move as much as 150,000 tons of material to produce this crop, exclusive of the honey eaten by themselves. Of this product, about one-half is from the nectar of white clover, with two other leguminous plants—alfalfa and sweet clover—at the next important sources.
