A Word of Encouragement

The following letter from one of Pinckney's business men takes up a question that seems of vital interest to Pinckney right now. Read and discuss the question and then let's get together and act. Now is the time.

To the Editor:

If I may I will take this method of expressing my satisfaction regarding an article which appeared in the Pinckney Dispatch last week under the caption "The Year in Pinckney". The resume of the past year is perhaps more interesting to one who recently came among you than to the average reader, who has been here and noticed these changes. To such a one it reveals certain possibilities which I fully believe can be worked out so that the coming year may be even more glittering than the past.

This as I see it can only be done by the complete co-operation of every business man, every professional man and also every resident of Pinckney. In the very immediate future I sincerely hope that a good working organization such as is suggested by your article will be completed. Personally, I wish to assure you and all others interested in this that I will lend whatever meagre assistance I can to further this organization. It is a fact that if any person or organization of persons wants anything bad enough and works hard

CHANGE IN BANK FORCE

E. G. Lambertson, who has been assistant cashier at the bank, has resigned and the position is now filled by Ambrose Murphy.

Mr. Lambertson has been an efficient assistant and by his courteous efficiency has made it pleasant for all clients who transacted business with him. He has had two positions offered him lately, one at Lansing and the other with the First State and Savings Bank at Howell. He has accepted the latter position and will move to Howell at once.

He was married while here and Mr. and Mrs. Lambertson have been active in church and Sunday school affairs, Mr. Lambertson having been superintendent of the Sunday school which has gained appreciably under his direction. This couple will be greatly missed at the Federated Church.

Ambrose Murphy, the present incumbent, is the oldest son of Postmaster Murphy. He has been taking a business course at the Detroit Business College and this is his first banking experience. Modest, unassuming and universally liked, he will without doubt acceptably fill the vacancy to the satisfaction of the bank's customers.

OBITUARY

to Michigan with her parents who settled in Marion township, at the age of twenty-one years she was united in marriage to Chas. F. LaRue, who preceded her in death thirty-two years ago. To this union were born two children, Mrs. Emma Moran of Pinckney and J. Frank LaRue of Howell. Mrs. LaRue joined the Congregational Church about forty years ago. She made her home with her daughter, where she passed peacefully away Jan. 8, 1920.

May I suggest that this idea of the association become a living and working fact at the very earliest moment.

With assurances of my sincere co-operation I remain,

Sincerely,
Floyd E. Weeks.

In the article referred to the statement is made that a new business concern will soon start here. We are now at liberty to state that W. G. Reeves of Stockbridge has rented the Reeves building on West Main street and will open up a Ford service station and we expect to be able to make another announcement of additional business to open here in the near future.

Everyone in this vicinity who knows about business affairs is about Mr. Reeves, who has had no agency for this territory from the start. He is a live wire, and his judgement in selecting Pinckney for a service station shows that he thinks of business prospects here.

Why not organize a booster club once and show some pep? Don't mind the knockers. They don't count in the great race except as obstacles that live ones must overcome.

Last spring, when looking for a new location for a bakery, Mr. L. J. Norton was advised by many to stay away from Pinckney as there was no chance for success here. He did not follow the brokers' advice, however, but started in business, which was a big success from the start.

His success only goes to show what may be accomplished by strict attention to business regardless of adverse opinions.

Pinckney is bound to forge to the front some day, in fact, it begins to look as if the town was already on the right road to success. Let us get together—put our shoulders to the wheel and

"It is hoped that all who are interested in reclamation of peat and muck lands will attend this conference", says Ezra Lovin, Secretary of the Michigan Muck Farmers Association and Specialist in Muck Farm Management at the Michigan College, under whose direction the coming meeting is being planned. "A particular effort will be made to take up individual problems and give advice concerning them."

Mr. Eli Kerriman, of Deckerville, is president of the Muck Farmers Association, while C. E. Downing, of Vermontville serves as vice-president. Detailed programs of the meeting will be mailed out by Mr. Levin on request.

Co-operative Laws

Favored

Three States, Louisiana, New York, and Pennsylvania, have passed laws dealing with cooperative organizations based upon the suggested cooperative law published by the Bureau of Markets, United States Department of Agriculture, while similar legislation has been under consideration in other States during recent sessions of their legislatures.

SUDDEN DEATH

Arthur Dunn, a member of the firm of Scully, Metz & Dunn, Howell clothiers, was struck by a street car at Michigan and Griswold street Thursday evening at 9 o'clock and was instantly killed.

Mr. Dunn had been the buyer of men's furnishings for F. L. Bird Co.

He was the only son of Mr. and Mrs. William Dunn, and was born in Howell about 35 years ago. He leaves his widow, one son, his parents and one sister, Mrs. Frank Zetz, Howell. His parents and one brother-in-law, Henry M. Spencer, left for Detroit at once by auto. The body was brought to Howell for burial.—State Journal.

MUCK FARMING

East Lansing—The reclamation and profitable use of Michigan's four million acres of muck and peat lands will be the chief consideration of the members of the Michigan Muck Farmers Association when they gather for their annual conference next month. The meeting will be held in connection with Farmers Week at the Michigan Agricultural College, Feb. 2 to 6.

Prof. F. J. Alway, Chief of the Department of Soils at Minnesota University, a practical muck farmer, and supervisor of three experiment stations in Minnesota, has been scheduled for two speeches during the meeting. Professor Alway will take up "The Development of Muck Land Farming in Europe", and "The Composition and Fertilizer Treatment of Muck Soils". There will also be short talks and a "question box", handled by muck farmers themselves.

THE MISERY OF BACKACHE

Removed by Lydia E. Pinkham's Vegetable Compound.

Muskegon, Mich.—"For six years I was so weak in my back at times that I could hardly walk. Lydia E. Pinkham's Vegetable Compound was recommended to me and it made me good and strong again so that I am able to do all my work. I highly recommend your medicine and tell everyone I meet what it did for me." —Mrs. G. Schoonfield, 240 Wood Ave., Muskegon, Mich.

Woman's Precious Gift

The one which she should most zealously guard is her health, but she often neglects to do so in season until some ailment peculiar to her sex has fastened itself upon her. When so affected women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

BELCHING
Caused by
Acid-Stomach

Let EATONIC, the wonderful modern stomach remedy, give you a quick relief from disgusting belching, food-repeating, indigestion, bloated, gassy stomach, dyspepsia, heartburn and other stomach miseries. They are all caused by Acid-Stomach from over 95% nine people out of ten suffer from it, or are troubled by it. One man wrote: "Before I used EATONIC, I could not eat a bite without belching it right up, sour and bitter. I have not had a bit of trouble since the first tablet."

Millions are victims of Acid-Stomach which know nothing. They are weak and listless, have poor digestion, bodies improperly nourished although they may eat hearty. Grave disorders are likely to follow if an acid-stomach is neglected. Cirrhosis of the liver, intestinal congestion, gastritis, ulcers of the stomach—these are only a few of the many ailments often caused by Acid-Stomach.

A sufferer from Cataract of the Stomach of 11 years standing writes: "I had cataract of the stomach for 11 long years and I never found anything to do me any good—just money spent—until I used EATONIC. It is a wonderful remedy and I do not want to be without it."

If you are not feeling quite right—lack energy and enthusiasm and don't know just where to locate the trouble—try EATONIC and see how much better you will feel in every way.

At all drug stores—a big box for 5¢ and your money back if you are not satisfied.

PREVOST CHARGED IN MURDER CASE

MT. CLEMENS INVESTIGATION
BRINGS NEW EVIDENCE
REGARDING CRIME.

BOYS MATERIAL WITNESSES

Declare They Furnished Gun Which Is Believed Caused Stanley Brown's Death.

Mt. Clemens.—Lloyd Prevost was formally arrested on a charge of having "deliberately and with careful pre-meditation," slain his bosom friend, J. Stanley Brown, on the night of Dec. 23. Prevost has been in jail for several days, held as a witness.

During the intervening days Mr. Groesbeck by questioning witnesses before William Swan, justice of the peace, has succeeded in gathering circumstantial evidence which the authorities believe makes a strong case against Prevost. Several persons with material evidence, who had not presented it to the local officials and who were impressed by the attorney-general's handling of the case, brought it forth.

Prevost and Brown left the Edison Hotel early on the evening of Dec. 23. They were together until about 9 p.m., then Brown went to the home of Arnold Marlan, which he left at 10:20, after telling Mrs. Marlan that he planned to meet Lloyd Prevost downtown and then go out the Utica road, where some whisky was buried.

Prevost says that he went back to his room at the Edison immediately after leaving Brown and remained there until morning. The witness

SPOOKS IN WELL

Petersburg, Ind.—The deep tones of a masculine voice from the bottom of a well on the property of Dode Smith, living just east of Petersburg, recently startled the whole neighborhood for a few minutes.

Smith's deep-drilled water well had suddenly gone dry and he had sent for assistance from the local water company. As the men were beginning work, a voice suddenly was carried up the well.

"What the blankety-blank are you doing up there," said a voice.

After regaining their composure, the men called down that they were trying to get water.

"There's plenty of it down here," declared the voice.

An investigation disclosed that minors were working under the well. In making a "room" they had undermined Smith's property and all the water had run into the mine.

The coal company has decided to drive a big wooden plug into the bottom of Smith's well so that it will run again.

PORKERS COUNTER IRRITANT

Porkers Used as "Counter-Irritant" to Scent of Whiskey Still.

Detroit.—Two town constables arrested Andrew Ladukowski, 46 years old, and four white pigs. Andrew is held on a charge of having operated a still in an isolated house. The snow-white swine are alleged to have aided and abetted him by setting up a counter-irritant, intended to deceive the rum-seeking noses of prowling sleuths—they were the "smell."

The constables were Leo Roman-

of-Edwards and John L. Johnson.

According to their report, the one occupied room contained a large still, five gallons of raisin whiskey, 150 gallons of raisin mash, a cot, Andrew and the four pigs.

The constables said the whiskey-making capacity of the still was two and one-half gallons an hour.

It was Ladukowski's statement following arrest that seriously implicated the pigs. He said they "fooled the police."

ALCOHOL PERCENT CUT IN BEER

New Decision of Supreme Court Blow to Hope of Many Brewers.

Washington.—The Prohibition Enforcement Act, defining as intoxicating any beverage containing one-half of one per cent or more of alcohol, was declared constitutional by the Supreme Court in an opinion on which the Court divided, 5 to 4.

Proceedings brought by Jacob Rupert, of New York, and New Orleans and Baltimore brewers to enjoin the government from prohibiting the sale of 2.76 per cent beer were dismissed.

Rupert's case was brought under the war-time act. He alleged that 2.75 per cent beer was non-intoxicating, but the Volstead Act, by limiting the alcoholic content, prohibited the sale of beer manufactured under regulations prescribed under the Lever Food Control Act by President Wilson.

ASPIRIN

Introduced by "Bayer" to Physicians in 1900

You want genuine Aspirin—the Aspirin prescribed by physicians for nineteen years. The name "Bayer" means the true, world-famous Aspirin, proved safe by millions of people.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 1/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.—Adv.

GOT BACK AT CARICATURIST

Laundry People Evidently Have Their Bump of Sensitiveness Quite Well Developed.

Herbert Johnson, the humorous illustrator, said at a dinner in New York:

"Laundry people are the most sensitive folks on earth. Other classes are good natured when I cartoon them, but anything against the laundry causes the whole trade to get its back up."

"I did a comic once about the way some laundries wreck a man's shirt.

track on me, the newspaper editor got

"Probably this artist never wore a shirt in his life."

"And then, apropos of a thumb-nail sketch about the way a laundry had wrecked a white dress tie, the paper added:

"If the artist knew anything about fashionable society he would understand that gentlemen do not tie their own ties, but buy them ready made."

The Stingiest Man.

It happened in our office the other day. It was around the end of the month and I was preparing the bills.

A client of ours came in, asked to see my employer, who was busy and he had to wait. Seeing the bills, he asked me if his was ready. I told him it was and went through them and found his. I gave it to him and remarked that it would save me the trouble of mailing it. Then he said, "I'll take the two cents."—Exchange.

The truth is all right, but so many people are ashamed to tell it.

Even a deaf man seldom overlooks an invitation to take something.

BOSCHEE'S SYRUP.

A cold is probably the most common of all disorders and when neglected is apt to be most dangerous. Statistics show that more than three times as many people died from influenza last year, as were killed in the greatest war the world has ever known. For the last fifty-three years Boschee's Syrup has been used for coughs, bronchitis, colds, throat irritation and especially lung troubles. It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning. Made in America and used in the homes of thousands of families all over the civilized world. Sold everywhere.—Adv.

What Could He Say?
A good story was related by a naval officer who was with Admiral Sims in English waters. It was a heavy, foggy night. Every vessel was fogbound. About midnight there came a wireless message to the admiral from a ship's captain reading:

Dry Agent On Trial.

Manassas, Va.—William G. Hall, state prohibition inspector, will go on trial here for the second time, charged with the killing of Lawrence D. Hudson and Raymond Shackleford, alleged whisky runners, last March at Fishers Hill, Va. At the September term of court the jury in the case failed to agree on a verdict.

Will Stand Alone.

London.—The ex-kaiser will be tried separately from the other German officials accused of war guilt, it was learned when a series of Franco-British conferences on the subject were opened here. Lines of procedure are being mapped out. It is understood that a blanket indictment will be composed, aimed at those whose extradition is sought.

STORING UP VITAL ENERGY

Without Process That Goes on During the Hours of Slumber Life Could Not Continue.

Following is from Practical Therapeutics by Henry Lindlahr, M. D.:

"During sleep the liberation of vital energy in the body continues as during the wakeful hours of active work, and none is expended. The body acts as a storage battery. A reserve of vital energy is thus accumulated for the work of the following day.

"The moment consciousness wakes and mental activity begin the expenditure of vital force commences.

"It is for these reasons that nothing can take the place of sleep as a restorer of vital energy. No amount of food and drink, no tonics or stimulants can make good for lost sleep."

I rented of an agent I had never seen and the man who came to collect the money had promised us a new furnace.

A little man in overalls came to the door and said he wanted to see the furnace.

"Now, look here," I said as I followed him downstairs, "when you bid on this furnace make it a big one. The owner of this place is an old tightwad, but he's got lots of money, so make him come across."

"I'm not bidding on any furnaces. I'm the owner of this house," he answered.—Exchange.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

'Tis funny in our schoolroom
 Why the teachers watch us so,
 We're as quiet as a rose in bloom,
 And never do things mean or low.
 When the clock rolls round to 3:25
 And we're anxious to get home,
 Miss Curlett walks up to the board
 And there, with letters unmistakably
 bold,
 She writes the names of those she's
 caught,

Passing notes by tricks of old.
 Now 15 minutes is rather short
 If you're having a delightful time,
 But when you're tired and out of sorts,
 Little alike are the words we speak
 And the ones we have in mind.
 We think it very hard, but in after

years
 When we look back at student life
 We'll wish to escape from our cares
 and fears
 And go back to the days so free from
 strife.

"The one best thing to set you right—When you start to cough at night."

FOLEY'S HONEY AND TAR

COUGHING during the day is bad enough. The racking and straining weakens and debilitates the system. When you add the loss of sleep, the nervous drain, the irritation and annoyance of wakeful nights, a cold quickly "wears out" the sufferer, and he or she is in no condition to ward off attacks of more serious sickness.

Prompt steps should be taken to check coughing at night—not only for the sake of the afflicted one, but for the comfort and health of the other members of the family.

How to Check Coughs and Colds

Foley's Honey and Tar Compound brings relief from day or night coughs, whether the result of cold or grippe, bronchial affection, spasmodic croup or whooping cough.

It is a boon to young and old—prompt, efficient, safe. Contains no opiates.

Foley's Honey and Tar clears the throat of phlegm and mucus, stops the tickling in the throat, eases the hoarseness, opens the air passages for easier breathing, and coats the raw, inflamed surfaces with a healing, soothing medicine. One or two doses in the early evening usually frees the sufferer from attacks of coughing and enables him to enjoy refreshing night's sleep. The genuine Foley's Honey and Tar Compound comes in three sizes.

Dodd's Kidney Pills Give Prompt Relief

Here's one of the many unsolicited testimonial which reach us from every corner of the United States. Thousands upon thousands have been relieved of their kidney complaints and that is the reason why Dodd's—standard for two generations—won't give you the same prompt benefit.

Mr. E. C. Birch of Fulda, Ind., writes: "In the year 1905, I was very low with a severe attack of kidney trouble and the local physicians had given me up expecting death at any moment, but death did not come and I lingered for several months until accidentally one day I found an old Dodd's Almanac in my house which described symptoms exactly as mine. I then procured a box of your pills and took a double dose and the second day actually felt relieved. After a week I felt so good that I was glad to be alive. I continued using them for a time and they cured me."

This was fourteen years ago and I can truthfully say I have never yet been laid up with the same disease. A severe attack of "flu" last winter affected my kidneys to a certain extent so I bought three boxes of your pills and used them for the family with the same good results."

If your dealer can't supply you, send me in stamps to the Dodd's Medicine Co., Buffalo, N. Y. Tell us the name of your druggist.

When you feel so "blue" that even the sky looks yellow, you need BEECHAM'S PILLS

There isn't a blotch on my head now and I couldn't help but thank Peterson, for the cure is great." Miss Mary Hill, 420 Third Avenue, Pittsburgh, Pa.

A vacant lot running through from the lower end of Washington street to West street has been sold for the site of an office building. It has been for some time the playground of children of the neighborhood. Before it is turned over to the builders some competent student should visit the site when it is thronged with children and determine if there is any language spoken east of Suez which is not used there by the youthful recreationists. We shall have to revise a strong impression if a single exception is noted.—New York Times.

A TONIC

"For the last twenty years I have used Dr. Pierce's Golden Tonic of Discovery at times as a general tonic, with excellent results. One bottle in the spring and one in the fall are usually sufficient. It has given me added strength and endurance and has greatly aided me in following the strenuous life of a freight handler. I have also found Dr. Pierce's Peasant Pellets very beneficial and mild in action."

COUGH CURED

Mayville, Mich.—"I feel it my duty to write this. Four months ago I was a very sick woman. I could not lie down in bed but had to sit up in my chair night and day, had an awful cough. I had two doctors and they said I must cough like that next spring. But I got some of Dr. Pierce's Golden Medical Discovery and began to take it and I then wrote Dr. Pierce for price, and, thank the Lord and Dr. Pierce's medicine, I am cured of the cough. In one week after I started to take the medicine I began to raise and the cough soon disappeared. I had gone down to about one hundred and thirty pounds. I now tip the scales at one hundred and sixty-six and one-half pounds. I don't feel the need of any more medicine but I shall always keep the 'Discovery' in the house."—MRS. C. B. GLAZIER.

Cured Inflammatory Rheumatism Jackson, Mich.—"I feel it my duty to take a testimonial in behalf of Dr. Pierce's Golden Medical Discovery, for the sake of saving humanity. A year ago this past summer I suffered with inflammatory rheumatism. I suffered about five months and then began the use of Dr. Pierce's Golden Medical Discovery. After taking two bottles of the above named medicine, was completely cured. I have not been troubled with rheumatism since."

WIFE SUSPECTED IN POISON CASE

SHERIFF SAYS TWO PEOPLE WILL BE UNDER ARREST SOON.

MARRIED HUSBAND'S BROTHER

Witnesses Bring Out Evidence Indicating Plain Case of Murder.

Mt. Pleasant—The arrest of two suspects in connection with the murder of Henry Donaldson, Blanchard farmer, whose body was exhumed December 31, and whose stomach was found to contain arsenic, were forecast by Sheriff J. E. Coon, of Isabella county.

After prolonged examination of three persons now detained in the Mt. Pleasant jail, Sheriff Coon said that important information had been obtained involving the two suspects to a serious degree and a third in important particulars.

The widow of the murdered man was taken from the jail where she had been in custody to the Blanchard undertaking establishment where she was confronted with the body of her former husband in an effort by the officers to gain additional information.

Swiftly the story of the killing by poison of Henry Donaldson is being told by the several witnesses that have come forward or are being located by investigators. The illness from which he died lasted but nine days, or even less than that, for there was a period between two severe attacks of the mysterious disease.

On New Year's day Mr. and Mrs. Benton B. Bradley celebrated their golden wedding and many friends called to offer their congratulations to the couple.

Ford
THE UNIVERSAL CAR

Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production. So, if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply or production. Get your order in now, and you will be one of those who is sure of a Ford car out of our allotment.

It's first come—first served. All orders filled in rotation. So, if you would be forebanded, if you would be certain of having a Ford car when you want it—then you will buy a Ford car now. A signed order with us is your protection. It is the result of the wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its owner for business or pleasure throughout the entire year. Ford owners have long since come to recognize the fact. It is no longer popular to "lay up" your car for the winter. Buy a Ford car now, and use it now.

Corn Stover Can Be Used to Best Advantage Early in Winter — Other Coarse Feeds May Be Given to

orous trees producing good-sized nuts in abundance. If squirrels and hogs are not troublesome, the nuts may be planted this fall, putting two nuts in a hole and covering with about 2 inches of soil well mixed. In some places the safest method is probably to keep the nuts over winter and plant them in the spring. For this purpose a pit, dug 8 to 12 inches deep in a well-drained, cool location, is a desirable storage place. A layer of nuts, dried, is covered with an inch

of sand to prevent excess moisture. Nuts mixed with sand will keep quite satisfactorily in a cool cellar. A bushel of walnuts contains from 1,100 to 1,400, depending upon the size of the nuts, or enough to plant an acre using two nuts in each hole spacing the latter 8 feet apart each way.

TO ERADICATE HOG CHOLERA

Present Object of Government and State Authorities Is to Gain Control of Disease.

(Prepared by the United States Department of Agriculture.)

The federal government and the state authorities aim at the ultimate eradication of hog cholera. At present the object is to bring it under strict control so as to reduce losses to the minimum. Prevention, however, is better than cure. Methods for prevention as well as cure may be found in "Hog Cholera: Prevention and Treatment" (Farmers' Bulletin 834).

Losses from tuberculosis may be serious also, and in order to be forewarned and forearmed, "Tuberculosis of Hogs" (Circular No. 100) should be studied.

KEEP WALNUTS FOR PLANTING

Pit in Well-Drained Location Is Desirable Storage Place—Mound Over to Shed Moisture.

(Prepared by the United States Department of Agriculture.)

Black walnut is one of the most profitable woodland and pasture trees. It is rapidly becoming scarce on account of the important part it has played in the war, and the strong demand for the wood for cabinet material, caskets, musical instruments, furniture, etc.

The nuts for planting should be selected, so far as possible, from vigorous
