A DESERVED TESTIMONIAL

Ceremonies and Reception Tendered Pinckney Priest by Parishioners and Many Friends.

Wednesday, April 21, was the twenty-fifth anniversary of the ordination of Rev. J. A. Crowe, pastor of St. Mary's Parish, and the occasion was fittingly celebrated by the many friends of the Pinckney priest.

A mass in commemoration of the day was held in the church in the morning, the following priests attending and assisting: Fr. Command of Grosse Isle, Fr. McDace of Howell, Fr. Griffith of Dexter, Fr. Cahalan of Ann Arbor, Fr. Goldrick of Northfield and Fr. Fallon of Williamston.

The church was well filled with parishioners and friends who listened to an eloquent address by Fr. Cahalan.

In the evening a public reception was given at the opera house. The seating capacity was inadequate; even the hallway was filled with belated admirers of the popular priest.

Fr. Cahalan acted as toastmaster, introducing Fr. Bourke and Attorney Burke of Ann Arbor, Rev. J. F. Cook and Prof. Doyle of Pinckney.

The speakers were unstinting in their praise of Fr. Crowe, whose ability,

One point emphasized by Attorney Burke, however, deserves more than passing notice. The fact that Rev. Cook and the members of the choir of the Pinckney Federated Church cheerfully assisted in making the affair a success, the kindly feeling existing between the two Pinckney pastors, and that the large audience present was composed to a large extent of non-Catholics was noticed by Mr. Burke to be evidence of the appreciation and esteem, regardless of creed, in which Fr. Crowe is held in his home town.

The musical numbers on the program consisted of selections by Whitire's Orchestra of Ypsilanti, vocal music by a mixed quartette composed of Mr. and Mrs. H. A. Fick, Mrs. C. P. Sykes and Percy Swarthout, and solos by Mr. John Hoey of Dexter, and Fr. Goldrick. Every number received an enthusiastic encore.

Prof. J. P. Doyle made a short presentation speech and handed Fr. Crowe an envelope containing \$150.00, a fine will offering from members of the parish. Belated donations will increase the amount to about \$200.00.

Fr. Crowe responded, happily voicing his appreciation of the great day and made an appeal to the audience of different creeds for a continuation of the religious liberality which now prevails in Pinckney, and which through his efforts is likely to increase.

An impromptu song by all on the stage closed an evening that will always be remembered by Rev. J. A. Crowe and his many admirers.

NEW HUDSON SCHOOL BURNED

Fire apparently starting in the furnace room of the New Hudson school Monday morning totally destroyed that building. Help was asked for and the South Lyon fire engine was run over, but owing to a lack of water was unable to be of any material aid in saving the structure and by 10 o'clock all that was left of that two-story brick building, erected over 52 years ago, was a heap of smoldering ruins.

The school was one of ten grades and employed two teachers. The fire starting before school was called, nearly all of the books of the pupils were saved. The property was insured for \$3,000 on building and contents.

The wind fortunately was from the north and the only place in any danger from embers was the milk station but the snow on the roof put out the embers as fast as they lit.—South Lyon Herald.

The sixth grade in reviewing North America is writing up reports on the different industries, crops, minerals, manufactured articles, etc.

Clara Eisle entered the fourth grade Monday.

Paul Flintoft has moved to Howell where he will attend school the remainder of the year.

In the primary room 25 pupils got 100 percent in attendance last week.

Emila Romberger wrote the best story from the poem, "The Blind Men and the Elephant".

James Cain was absent Friday because of sickness.

BUTLER-SIBLEY

The marriage of Clyde J. Sibley of the Signal office and Miss Marguerite Butler of Flint, occurred at noon Thursday, April 15, at the home of the bride's mother at Napoleon, Rev. Slaybaugh of Onsted officiating. The happy couple left for a short visit with friends in Detroit and will return to Springport next week.

Miss Butler will be remembered by Springport people as a teacher in our schools about eight years ago and since then has been teaching in Flint. She will return there after her spring vacation and finish this year's school.

They will begin house-keeping about July 1st in the house now occupied by W. M. Camly on East Main street.

Mr. and Mrs. H. J. Sibley attended the wedding.—Springport Signal.

Mr. Sibley will be remembered in Pinckney as the former editor of the Pinckney Dispatch. The young couple will receive the best wishes of the entire community as Clyde was very popular while living in Pinckney.

LITTLE CHANGE IN PHYSIQUE CLOSE STUDENTS OF NATURE

Report That Average Stature of American Men Was Affected by War Declared Untrue. Examination Papers Proved That Pupils Must Have Made Keen Observations of Their Subjects.

ing more garments, but the proportion of larger sizes is no greater now than it has been three years ago. In short, their size patterns have not changed. Yet changes would be necessary if the stature of American men had been affected in any appreciable way by the year and a half or two years of military training.

Manufacturers of ready-to-wear shirts and undergarments agree with the clothing manufacturers that there has been no change in their size patterns despite the reports of numerous individuals who take "size larger" today than they did before the war. As one manufacturer put it, the proportion of soldiers who need larger sizes in shirts or suits today than they did two years ago is so small that it has no effect on wholesalers. Salesmen naturally remember certain individual cases of increased chest development, but, taking the country by and large, there has been no appreciable change in the physique of the male portion of the population, at least as far as their clothing is concerned.

COAL DUST LODGED IN MINER'S LUNGS

Tells how his cough was conquered and health restored.

"In November, 1916, I was working in a coal mine and the doctors said the coal dust had settled in my lungs. I couldn't lie down on my right side, coughed so I couldn't sleep and had constant pain in my right lung and under my shoulder blades. I coughed so hard the blood would spurt out of my nose. Finally the doctors had me change climate and live outdoors, but didn't improve."

"Then I came home and started on Milk's Emulsion. Thank God I did, as it did me a lot of good right from the start, loosening up the coal dust in my right lung. In a few weeks my lungs were free. I could sleep like a baby, had an excellent appetite and my cough left me entirely. I gained back 80 pounds in weight and went back to work in the mines completely restored to health."

Suffered for Years

Miserable From Kidney Trouble Doan's Made Mr. Barnett Strong and Well.

"I suffered untold agony with my kidneys for years," says John Barnett, 30 Virginia Place, Buffalo, N. Y. "Sometimes I felt that I would burn up with fever, but every now and then would have a severe chill. Often my clothes were wringing wet with perspiration. The kidney secretions were unnatural in color and odor and burned terribly. At night my shoes were so tight on my feet that I could hardly get them off and my hands swelled so I couldn't hold a teacup. My back! Oh, how it ached! I walked with two canes and was all bent over like an aged man. When the terrible pains shot through my kidneys my knees would give way, and many times I had to be lifted to my feet by people on the street. I didn't care whether I lived or died I was so miserable. I finally used Doan's Kidney Pills and they cured me of all kidney trouble. Doan's made me strong and well."

Acid Stomach

Makes the Body Sour

Nine Out of Ten People Suffer From It

It sends its harmful acids and gases all over the body, instead of health and strength. Day and night this ceaseless damage goes on. No matter how strong, its victim cannot long withstand the health-destroying effects of an acid stomach.

Good news for millions of sufferers. Chemists have found a sure remedy—one that takes the acid up and carries it out of the body; of course, when the cause is removed, the sufferer gets well.

Bloating, indigestion, sour, acid, gassy stomach miseries all removed. This is proven by over half a million ailing folks who have taken EATONIC with wonderful benefits. It can be obtained from any druggist, who will cheerfully refund its trifling cost if not entirely satisfactory. Everyone should enjoy its benefits. Frequently the first tablet gives relief.

EAT LESS AND TAKE SALTS FOR KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive

trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

LADY LARKSPUR

By MEREDITH NICHOLSON

Copyright by Charles Scribner's Sons

GOOD NEWS—OR BAD.

Synopsis—Richard Scaries, successful American playwright, confides to his friend, Bob Singleton, the fact that, inspired by the genius of a young actress whom he had seen in London, he has written a play, "Lady Larkspur," solely with the thought that she should interpret the leading character. This girl, Violet Dewing, has disappeared and Scaries refuses to allow the play to be produced with anyone else in the part. Singleton has just returned (invalided) from France, where he had been serving in the aviation corps. His uncle, Raymond Bashford, a wealthy man, had contracted a marriage a short time before his death, while on a visit to Japan. He left Singleton a comparatively small amount of money and the privilege of residence in the "parage" of his summer home, Barton-on-the-Sound, Connecticut. Mrs. Bashford is believed to be traveling in the Orient. The household at Barton is made up of elderly employees of the Tyringham, a New York hotel, where Bashford made his home. By the terms of his will these people are to have a home at Barton for the rest of their lives. Singleton goes to Barton, taking with him the manuscript of "Lady Larkspur." There he finds the household strangely upset, some of its members being suspected by their comrades of pro-Germanism. Antoine, head of the household, is a Frenchman who

armies on the shores of Connecticut. There was a dozen of them, and the captain I recognized as Scotty, a hop who had long worn the Tyringham livery. I waved my hand to them and turned to find Antoine awaiting me at the door.

"It's the troops, sir," he explained. "It's to keep Dutch and Gretchen and Elsie—the wife of that Flynn—in proper order, sir."

"Troops" was a large term for the awkward squad of retired waiters and bell-hops, and it was with difficulty that I kept my face straight.

"It's most unfortunate, but we was forced to it. Dinner is served, sir."

From the dining table in the long dining-room I caught glimpses through the gathering dusk of Scotty's battalion at its evolutions.

"Antoine!" I said sharply, "what do you mean by these hints of trouble on the place? You're not silly enough to imagine that Dutch and a couple of women can do anything out here to aid America's enemies! And as for these inquiries about Mrs. Bashford, they couldn't possibly have anything to do with the war. Specifically, who are the persons who've asked for her?"

"There's the party I told you about, most persistent, who's motored here three times, and another person who seems to be looking for him, sir. It's most singular."

"It's singularly ridiculous; that's all. They're probably piano-tuners or rival agents for a rug house or something of that sort."

"They may be agents, but not that kind, sir." His lips quivered, either from fear or vexation at my refusal to take his story seriously.

"If anything tangible happens, Antoine," I said kindly, "anything we can really put our hands on, we'll certainly deal with it. But you mustn't get nervous or allow yourself to suspect everybody who turns up here of evil designs against the republic. I've come here for quiet, you know, and we can't have every passing stranger throwing the place into a panic."

I had no sooner reached the library, where he gave me coffee, than I heard a slow, measured tread on the broad brick terrace that ran along the house on the side toward the

ing helpless people, and it's bully that uncle Bash provided a home for them. There's nobody else to take the place."

His cigar had proved soothing, but my last remark caused him to sit up straight in his chair.

"By George! my hot lip almost made me forget what I came for. I have news for you, Singleton; good or bad, as you may take it; Mrs. Bashford is in America."

"Mrs. Bashford," I repeated faintly. "where do you get these pleasant tidings?"

"This," he answered, producing a telegram, "is all I know about it."

He seemed to sense my discomfiture. The message read:

"Pittsfield, Mass., Sept. 20.

"J. B. Torrence,

"Bainbridge Trust Co., New York.

"Landed at Seattle a week ago, and have been motoring east from Chicago to see the country. Will reach Barton in four or five days. Please wire me at the Washington Inn, Lenox, whether house is in order or occupancy."

"Alice Bashford."

"Well, what do you say to that?" he demanded.

"I say it's taking unfair advantage," I answered savagely. "I've got to clear out; that's the first thing."

"Not necessarily. Your right to the garage is settled; she couldn't oust you if she wanted to. You've got to stay here anyhow till she comes; there's no ducking that. There are many little courtesies she would naturally expect from you."

"I'm delighted that you see my duty so clearly! If you hadn't assured me that she was safe at the end of the world I wouldn't have set foot here."

"The house is in order, I judge," he remarked, glancing about the room.

"I've got to wire her that we're ready for her."

"You most certainly have! You might add that she's causing serious inconvenience to her late husband's only nephew."

"You really don't mean that?" he inquired anxiously.

"Oh, thunder, no!"

I had forgotten how trying Torrence could be. He now suggested that we summon Antoine and take a look at the house. Torrence is a conscientious

CHAPTER I—Continued.

As I went about my unpacking I was sorry that I had discouraged Antoine's confidences. That these old hotel servants, hung upon a farm with little to do, should fall to quarrelling was not surprising, but what he had said as to the inquiries for Mrs. Bashford had roused my curiosity. In spite of my legal right to live on the farm, I had no intention of remaining if my uncle's widow turned up. She could hardly fall to regard me as an intruding poor relation, no matter how strictly I kept to my own quarters.

I whistled myself into good humor as I dressed and started for the house along the driveway, which followed the shore, veering off for a look at the sunken garden, one of the few features of the place that had ever interested my uncle.

As I paused on the steps I caught sight of a man sitting dejectedly on a stone bench near a fountain whose jet tossed and caught a ball with languid iteration. I had identified him as an old Tyringham bell-hop, known familiarly as Dutch, before he heard my step and sprang to his feet, grabbing a pitchfork whose prongs presented threateningly.

"Oh, it's you, sir," he faltered, dropping the implement. "Excuse me, sir!"

"What's your trouble, Dutch? You're not expecting burglars, are you?"

"Well, no, sir, but things on the place ain't what they wuz. It's my name, which ain't my name, not regular, an' I'm campin' in the tool-house. An' me born right there in New York an' American clean through. My grandpap came across when he wuz a kid, but it ain't my fault he wuz Golman. Mr. Singleton, I don't know no Golman except pretzel, sauerkraut, wiener wurst, and them kinds o' wolds."

"Those belong to the universal language, Dutch," I answered consolingly. "What is your name, anyhow?"

"Augustus Schortemeler, and I say it ain't no worse'n Longfellow," he protested.

The point was delicate and not one that I felt myself qualified to discuss. I bade him cheer up and passed on.

As I reached the house I heard a sharp command in an authoritative voice and saw at a curve of the driveway a number of men in military formation performing evolutions in the most sprightly manner. They carried broomsticks, and at sight of me the commander brought his company to a very ragged "Present arms!" Their uniform was that of the Tyringham bell-hops and waiters, and it dawned upon me that this was an army of protest representing the Allied

toward me was that of one benevolently tolerant of stupidity. He meant to save me in spite of my obtuseness. "Tell the plectet to remove himself where I won't hear him, if you please, Antoine."

He disappeared through one of the French windows and in a moment I saw the guard patrolling a walk some distance from the house. I now made myself comfortable with a book and cigar, but I had hardly settled myself for a quiet hour before I heard a commotion from the direction of the gate, followed a few minutes later by a shout and a noisy colloquy, after which a roadster arrived in haste at the front door.

"Mr. Torrence, sir," announced Antoine. "I'm sorry, sir, but he ran by the guard at the gate, and our man below the house stopped him. It's a precaution we've been taking, sir."

Torrence's sense of humor was always a little feeble, and I hastened into the hall to reassure him as to his welcome.

"For God's sake, Singleton, what's happened here? A band of pirates jumped on my running-board, and after I'd knocked them off a road-agent stopped me right there in sight of the house and poked the muzzle of a shotgun in my face."

"Mighty sorry you were annoyed, but there have been some queer characters about, tramps and that sort of thing and the people on the place are merely a little anxious. Have a cigar?"

"All I can say is that you'd better send your friends the password! That fool out there with the gun is likely to kill somebody. Antoine"—he turned to the butler, who was drawing the curtains at the windows—"if the property's been threatened, you should have informed me immediately."

"Yes, sir; but it's only been quite recent, and, knowing Mr. Singleton was coming, we didn't like to bother you."

"We can only apologize, Torry," I interposed. "The employees have been alarmed, but we're bound to commend their zeal."

"Humph!" he ejaculated, the wounds to his dignity still rankling.

I forced a cigar upon him and talked of the weather to cover Antoine's retreat. I resolved not to tell him the real cause of the servant's apprehensions, knowing his disposition to magnify trifles and fearing he might send the police to investigate. He lived only five miles from Barton, a fact to which he now referred.

"Hadh't heard of any tramps over my way," he said frowning. "These old lunatics your uncle left here are simply blipped; that's all. It's a wonder you didn't think of upsetting his will on the ground of mental unsoundness."

"Oh, chuck it! They're well-mean-

ing. It was highly probable the old Tyringham servants that the house was thoroughly habitable.

As we were on our way down-stairs the old fellow detained me a moment.

"Have you told him about the parties?"

I shook my head in angry rejection of the idea that I should tell Torrence about "the parties," and dismissed him as soon as we reached the hall.

"I suggest," said Torrence, "that when she comes you have flowers in all the rooms; the conservatory will supply enough. And it occurs to me that the more inconspicuous you make this bunch of lazy dependents the more agreeable it will be for Mrs. Bashford."

"You don't expect much of me! It was never in the contract that I should become the patriarch of these venerable relics. But I'll warn them to conceal themselves as much as possible. I fully expect to leave the reservation for good just one hour after the day arrives."

"That's your affair, of course. As she's motoring, we can't just time her arrival, but when I get a wire that she's on the way I'll telephone you. And, of course, after she gets here I'll come at once to pay my respects."

"You can't come too soon!" I answered spitefully.

"Madame, the widow, has arrived, sir."

Construction of Coral Reefs. The greatest depth at which the reef-building corals can work is between twenty and thirty fathoms. Continued to water, the temperature of which in the coldest weather does not fall below 68 degrees F., coral reefs are abundant in the Pacific and Indian oceans and near the West Indies, and are most plentiful where volcanic upheavals are not looked upon as extraordinary. The foundation of the living coral, which extends in many reefs far below this depth, is no longer living the once elevated portion of the seabed, the peaks upon which the now dead foundations rest, having subsided, the upper surface of the coral reef being built up steadily to keep pace with the subsidence. Ceasing to build upward when the surface of the water is almost reached, the coral polyps build outward, thus increasing the breadth of the reef.

Benefit in Wearing Glasses. Wearing glasses does not weaken the eyes. This effect is apparent because the eye gives up straining and reveals the full necessity for glasses. Often eyes become so strengthened by the rest thus given that after a time the glasses are no longer needed.

AFTER MOTHERHOOD

Kalamazoo, Mich.—"After motherhood I was in very poor health, run down. I got very thin and my strength was all gone. I took Dr. Pierce's Favorite Prescription and it began to help me at once and three bottles was all I needed to put me in good condition. It is a splendid medicine."—MRS. LILLIE ALLAN, 1338 N. Edwards St.

THOUSANDS OF SUFFERING WOMEN

Kalamazoo, Mich.—"I cannot write enough to express my thanks for being able to recommend Dr. Pierce's Favorite Prescription. Motherhood left me in a very bad condition of which my doctor could not help me, but 'Favorite Prescription' has done wonders for me. I took two bottles of the 'Prescription' and was helped wonderfully, being able to do my own housework and other work besides. I feel like a new woman. I will do all in my power to help other sufferers. I wish I could speak to the thousands of suffering women who have tried so many other remedies and advise them to try Dr. Pierce's Favorite Prescription."—MRS. W. C. HINDS.

WOMAN'S TROUBLE

Saginaw, Mich.—"I have used Dr. Pierce's Favorite Prescription and Pleasant Pellets and they cured me of my ailment. A few years ago I was taken with a bad case of feminine trouble. I was sick about six months. I felt miserable. Could not eat, got very thin, and in fact, was in a very much run-down condition so I thought I would try Dr. Pierce's remedies and in less than six weeks I was completely cured."—MRS. MILO EVANS, Box 1.

WHOLE FAMILY CURED

Bay City, Mich.—"Dr. Pierce's medicines have been used in my family for over thirty years and I think everyone related to me has used them and was cured. My husband took Dr. Pierce's Golden Medical Discovery for his blood and for other complaints, so did my brother, and it alone did what was required of it. I have taken both the 'Golden Medical Discovery' and the 'Favorite Prescription' as well, whenever I was not feeling right. I never need a doctor. Dr. Pierce's medicines have been my 'family doctor' for years. I can recommend them to all. If directions are followed they will always do the work."—MRS. ELIZABETH DENISON, 1303 N. Johnson St.

"Doctor," said a holdout of a rural village, "can you tell me how it is that some folks be born dumb?" "Why—hen—why—certainly, madam," replied the doctor. "It is because they come into the world without the power of speech." "I hear me," remarked the old lady, "just to see what it is to have a physical education. I be right glad I axed you. Just Where and How Is the Money to be Spent?

A businesslike Answer to a businesslike Question

THIRTY denominations cooperating in the Inter-church World Movement have budgeted their needs. No business could have done it more scientifically.

They have united to prevent the possibility of duplication or waste. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

Each denomination has arranged its budget under six main heads:

1 FOR THE CHURCHES WORK AT HOME. A score of times since under this head. Consider only one. Five and a half million people in the United States cannot even read and write the English language. Who is to carry forward the vast work of Americanization if the church does not?

2 FOR HOSPITALS AND HOMES. Every year thousands of men and women seriously ill are turned away from Church hospitals because of lack of room. The children's homes are compelled to turn away more children than they can receive.

3 FOR YOUTH EDUCATION. By the thousands of children are turned away from institutions founded in

their own communities. The same is true of the young men and women in the same line. Their needs are just as pressing as the needs of larger schools, and you have only to read their list of needs and to compare it with the value of their contribution to America.

Each denomination has its own detailed budget, and will administer its own funds. Your pastor has copies of the budget; examine them for yourself. In the week of April 25th-May 2nd you will be given your opportunity to help. You can do it with the full satisfaction of knowing that every dollar of your gift has its post assigned to it in advance.

Every dollar for better America and a better world. When your church calls on you give—and give with your heart as well as your pocket-book.

PEP AN OPERATION

Taking Lydia E. Pinkham's Vegetable Compound. Many Such Cases.

Cairo, Ill.—"Sometime ago I got so bad with female trouble that I thought I would have to be operated on. I had a bad displacement. My right side would pain me and I was so nervous I could not hold a glass of water. Many times I would have to stop my work and sit down or I would fall on the floor in a faint. I consulted several doctors and every one told me the same but I kept waiting to keep from having the operation. I had read so many times of Lydia Pinkham's Vegetable Compound and helped my sister so I began taking it. I have never felt better than I have since then and I keep house and am able to do all my work. The Vegetable Compound is certainly one grand medicine."

—Mrs. J. R. MATTHEWS, 3311 Sycamore Street, Cairo, Ill.
Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letter, and many others like it, simply prove that many operations are recommended when medicine in many cases is all that is needed.

"But now you're going to see them, aren't you?"

"Yes," said Mr. Sun. "I will. They're a bit impatient, though, I think."

So Mr. Sun began to shine and the King of the Clouds took a rest after a long time of working.

"Oh, ah, the sun, the sun," everyone called. And oh, what smiles there were at Mr. Sun, what wonderful greetings everywhere.

He was so welcome, oh, so welcome. They hadn't had a sunny day for ever so long, and even the patient ones were tired of the rain.

But Mr. Sun called his Sunbeams to him and said: "Scatter among the people these little thoughts if you can. Tell them that the King of the Clouds and Nurse Fog and the Army of Raindrops and the Mist grandchildren were doing my work for me, and that they didn't grumble, though folks grumbled of them."

"Tell them I'm so glad they're glad to see me, and that I'm glad to see them all, deeply glad, for the Sun lives on the smiles of people, I do believe."

"But tell them their old friend was having a vacation and that he must have one once in a while."

"He was visiting all his grandchildren, the little Rays. And he was having a beautiful time, tell them, so that he hopes they'll forgive him, and he'll shine longer and harder than ever to make up for it."

So the Sunbeams took the Sun's messages about with them and scattered them everywhere, and the Sun smiled, and the people smiled, for everyone felt sunny and bright!

every speck that appeared in the sky. After one particularly active session its commander ran across an old friend, who asked him how the outfit was coming along.

"Oh, not so badly," answered the C. O. without elation. "We brought down five planes the other day."

"Five! Why, that's wonderful! Mighty few batteries have done that. Are you sure you got the figure straight?"

"Fact, no doubt about it," replied the captain, gloomily. "One Boche and four allied."—The Home Sector.

One writer of long ago sets Abyssinia as the kingdom of Prester John. Abyssinia used to be called "Middle India."

It is related that before the year 1241 a letter was addressed by Prester John to Manuel Comnenus, emperor of Constantinople, saying that in Prester John's country there is a "waterless sea," which none have ever crossed. It consists of tumbling billows of sand, never at rest, and contains fish of most excellent flavor.

Three days' journey from the coast of the sand sea is a mountain whence rolls down a "waterless river," consisting of small stones, which crumble into sand when they reach the sea.

Whoever Prester John may have been, if he invented that story, he certainly possessed a vivid imagination and considerable originality.

"Has my husband appeared to miss me during the month I have been away, Mary?"

Wednesday of this week a custom of the olden days was revived when our stock buyer, L. W. Lovewell, hired four men to drive a herd of 25 head of cattle from South Lyon to the stock yards in Detroit. Twenty-five years ago it was a common sight to see a herd of cattle being driven into the city, but since the advent of the auto, the traffic has become too congested to allow of the practice. The switchmen's strike made a return to this custom a necessity, for our city cousins must be fed. South Lyon Herald. Dexter also sent cattle to Detroit by the overland route.

East Lansing—'Unsprayed apple trees often fail to bear, and if they do produce a crop it is small in quantity and low in quality', says L. R. Taft, state inspector of orchards, Michigan Agricultural College. 'Michigan growers are getting from 11 to 50 bushels per tree from unsprayed orchards, and the apples are bringing from \$1.00 to \$3.50 a bushel. This chance for profits under the present high prices is lost to the man who does not spray his trees'. The difference in production is said to be due to the fact that spraying keeps the leaves healthy, enables the tree to form large fruit spurs, and prevents the attack of apple scab and other diseases.

 All the world used her ill, said this young person, and we may be pretty certain that persons whom all the world treats ill deserve the treatment they get. The world is a looking glass and gives back to every man the reflection of his own face. Frown at it, and it will in turn look sourly upon you; laugh at it and with it, and it is a jolly, kind companion; and so let all young persons take their choice.—Thackeray.

Your New Home

should be made artistic, sanitary and livable.

These walls should be Alabastined in the latest, up-to-the-minute nature color tints. Each room should reflect your own individuality and the treatment throughout be a complete perfect harmony in colors.

The walls of the old home, whether mansion or cottage, can be made just as attractive, just as sanitary, through the intelligent use of

Alabastine

Instead of kalsomine or wallpaper

How much better, when you have a new home, to start right than to have to correct errors afterward from former treatment with other materials, when you come to the use of Alabastine, as does nearly every one sooner or later.

Once your walls are Alabastined you can use any material over it should you desire, but having used Alabastine you will have no desire for any other treatment.

Alabastine is so easy to mix and apply — so lasting in its results — so absolutely sanitary — and so generally recognized as the proper decorative material in a class by itself that it is becoming difficult to manufacture fast enough to supply the demand.

Alabastine is a dry powder, put up in five-pound packages, white and beautiful tints, ready to mix and use by the addition of cold water, and with full directions on each package. Every package of genuine Alabastine has cross and circle printed in red.

Better write us for hand-made color designs and special suggestions. Give us your decorative problems and let us help you work them out.

MARTHA JANE A DIPLOMAT
Even Stern Mamma Couldn't Deny She Had Obedied the Strict

Indulged so much that her mother had issued the decree, "No more candy," and the remainder of the box had been relegated to the top shelf. A few days ago it was brought down and judiciously apportioned to Martha Jane, for whom a taste spelled more, and even a second taste did not satisfy. When her mother saw her about to take a third helping she remarked, emphatically:

"Now, don't let me see you take another piece."
Presently Mrs. S. was called from the room, and when she returned she found her four-year-old daughter in the farthest corner of the couch, hastily making way with a nice, plump chocolate cream.

"Martha Jane," said her mother, in her sternest tones, "didn't I tell you not to let me see you take another piece of candy?"
"I know you did, mother," said the little diplomat, "but I took this one while you were gone."

His Interpretation.
Mortland Jones, the five-year-old son of Rev. Rhys Price Jones, pastor of the First Presbyterian church in Franklin, refused to sing "America" with the rest of the members of the primary class in Sunday school. When questioned he gave as his reason the line of the song, "Land where my fathers died." "My father didn't die," he said, "and I won't sing it."—Indianapolis News.

Thousands of Women

Owe Their Health To

Lydia E. Pinkham's Vegetable Compound—overshadowing indeed is the success of this great medicine. Compared with it, all other medicines for women's ills seem to be experiments.

Why is it so successful? Simply because of its sterling worth. For over forty years it has had no equal. Women for two generations have depended upon it with confidence.

Thousands of Their Letters are on our files, which prove these statements to be facts, not mere boasting.

Here Are Two Sample Letters:

Mother and Daughter Helped.

Middleburg, Pa.—"I am glad to state that Lydia E. Pinkham's Vegetable Compound did me much good when I was 35 years old. I was run down with female trouble and was not able to do anything, could not walk for a year and could not work. I had treatment from a physician but did not gain. I read in the papers and books about Lydia E. Pinkham's Vegetable Compound and decided to try it. The first few bottles gave me relief and I kept on using it until I got better and was able to do my work. The Vegetable Compound also benefited my daughter."

Fall River, Mass.—"Three years ago I gave birth to a little girl and after she was born I did not pick up well. I doctored for two months and my condition remained the same. One day one of your little books was left at my door and my husband suggested that I try a bottle of Lydia E. Pinkham's Vegetable Compound. I started it immediately and I felt better and could eat better after the first bottle, and I continued taking it for some time. Last year I gave birth to a baby boy and had a much easier time as I took the Vegetable Compound for four months before the baby was born. I feel about as well as ever. — THOMAS WILKINSON, 363 Columbia Street, Fall River, Mass.

RAILROAD STRIKE LEADERS NABBED

DEPARTMENT OF JUSTICE SAYS I. W. W. AND BOLSHEVISTS INCITED WALKOUTS.

NEW RAIL LABOR BOARD MEETS

Pressure For Speedy Settlement of Strike Hurries Action—West Reports Conditions Improve.

Washington.—The arrest of John Grunau, president of the Chicago Switchmen's union, and other "outlaw" strike leaders, is but the beginning of a new round-up of radical Reds who have been plotting to wreck industry and overthrow the government by force ever since the failure of the steel strike according to government officials.

Department of justice agents are on the trail of others working under the direction of William Z. Foster, who engineered the steel strike, and additional arrests are reported in Toledo, Detroit, Cleveland and other cities.

Senator Pomerene, of Ohio, a member of the Senate interstate commerce committee, states that he has received information confirming charges that the present railroad strike is the work of paid agents of the I. W. W. and Communist party of America, "borling from within" the brotherhoods and other regular railroad unions. These charges were also made by the department of justice last week.

Plans for a general railroad strike were laid, Mr. Pomerene said, at a meeting held last December in Chicago. The meeting was called by I. W. W. leaders, and presided over by C. M. Ogden and A. E. Reese.

At this meeting it was proposed at first to organize the train crews into "one big union," but owing to the notoriety received by Foster during the steel strike it was decided to

At a subsequent meeting held in Chicago, Jan. 20, 1936, which had been made general secretary of the railroad union workers, intimated that if the railroad workers would strike financial support would not be lacking. Plans were then completed for organizing a strike.

Senator Pomerene is convinced by this information that the outlaw railroad strike was a deliberately and carefully planned as the steel strike, the sole purpose being the paralyzation of industry, "mass" action by the workers and destruction of all existing government.

Leaders of Strike Arrested.
Chicago. Speedy disintegration of unauthorized railroad strikes in the central and far west was forecast last Friday with the serious blow struck by the government at the insurgents' stronghold in Chicago by the arrest of 25 strike leaders.

The arrest of the Chicago leaders left the local insurgents virtually leaderless. Warnings were issued last Friday in the principal strike centers in the west that unless the men returned to work by Saturday their positions would be declared vacant and new men employed.

In Chicago \$50 switchmen employed on various roads returned to work, railroad executives announced, and a continued improvement was reported in traffic conditions. Steel mills at Gary, Ind., where 10,000 workers have been idle, resumed operations.

The situation in Michigan and Ohio, where several hundred thousand industrial workers have been forced out of employment, remained virtually unchanged.

Rail Labor Board Meets.
Washington.—Direct government intervention in the railroad strike situation took shape last Friday with the initial meeting of the railway labor board, created by the transportation act to deal with all railroad labor disputes.

The nine members of the board, called by the president, to meet and organize immediately, were confirmed by the senate after two days of discussion of Mr. Wilson's selections.

There was pressure for speedy completion of organization by the board, that quick action might be had in the strike situation. Virtually all strikers throughout the country who have voted to return to work, did so with the stipulation that their demands would be referred to the board.

Officials of the railway brotherhoods which have opposed the strike movement, government officers and members of congress, in urging the strikers to return to work, have held out to them assurances of prompt action through the board upon their specific complaints or demands.

USES OF ASPIRIN

Bayer Company, who introduced Aspirin 18 years ago, give advice.

Aspirin created a sensation when introduced by Bayer over eighteen years ago. Physicians at once proved its wonderful efficiency in the relief of pain. The genuine, world-famous Aspirin, in "Bayer Tablets of Aspirin" is safely taken by millions for Colds, Headache, Rheumatism, Neuralgia, Earache, Toothache, Aching Joints, Neuritis, and Pain generally.

Be sure the "Bayer Cross," which is the mark of true "Bayer Tablets of Aspirin," is on each genuine package and each genuine tablet.

Boxes of 12 tablets cost but a few cents and contain proper directions. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoacetic-acidester of Salicylicacid.—Adv.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from your druggist, and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than one ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove freckles.

A woman derives more satisfaction from the things she suspects than from what she is sure of.

WAIT! WHERE IS THAT SILVER?
POLISH I GOT AT THE DRUG.

AND YOU START ON THE JOB - SPILLING IT ALL OVER YOUR TROUSERS - MUSING UP THE KITCHEN TABLE AND FLOOR 'N EVERYTHING

AND BREAK YOUR BACK AND LOSE YOUR TEMPER RUBBING AND STILL IT REFUSES TO SHINE -

To the Housewife—Stop Polishing! Silver Plate—Nickel Plate

YOUR chest of silver, the plate in your dining room, the fittings in your bath room, certain kitchen utensils, and ever so many other articles about the house can all be either silver or nickel plated. Make them look like new—without polishing drudgery to you.

Energy is saved. More satisfactory results obtained when you silver or nickel plate instead of using the old time methods of polishing. The only reason that polishing is more in practice than plating is because you have not been educated to the advantages of plating.

Outside of the house there is the motor car—ever so many other things that can be plated.

Discard the can of polish—it only gives a temporary lustre despite hard work. Remember that every time you polish an article you are wearing down the polishing surface. In other words, you are making the article old, beyond recall.

We have handled thousands of articles for the household and we have yet to receive a complaint of unsatisfactory service.

We can silver, nickel, copper, or brass plate—no matter if the article is as small as a tack or as massive as a bath tub.

Look over the articles in your household or garage that need brightening up—write us about them. We will quote you prices if you will enumerate the articles—if it is an odd size, tell us approximately its dimensions.

We want you to experience that Grand and Glorious Feelin'. We know the satisfaction that we can give you will make your friends our customers.

IT SUDDENLY DAWNS ON YOU THAT YOU CAN'T POLISH SILVER THAT NEEDS PLATING—

SO YOU BOX UP THE OIL STUFF AND SHIP IT TO A CONCERN WHOSE BUSINESS IS TO MAKE OLD SILVER, NICKEL, COPPER AND BRASS NEW—

— AND IT COMES BACK FROM THE GARTLEY-WESTON CO. LOOKING SPICK AND SPAN—AIN'T IT A GRAND AN' GLORIOUS FEELIN'!

INSIST ON GENUINE FORD PARTS

The Late Leap

After the Dispatch announced that a man was hiding in the Big Cedar Swamp, it was rumored that several others hurried to the swamp in hopes of being caught by young ladies in search of partners.

A communication received here shows one is camping there yet, hoping perhaps in vain, that some one of Pinckney's fair sex will continue the pursuit. The lines below from the poor fellow will show whether or not his mentality is affected.

Swamp Echoes

From my den in the edge of the big cedar swamp, Where the shadows are long and the footing is damp, I looked out on the world and felt safe as could be, For I said, no live mortal will ever find me.

So I took down a book and then lighted my lamp, But had turned just one page when I heard a soft tramp. As I rushed to the door, rose a great

Year Party

cloud of dust From the fast fleeing Ed. of the "Pinckney Pie Crust". And I sat down in sorrow and said, "All is lost, Ard in vain, ah in vain, are the swales I have crossed." But too late, all too late was the news that he bore, For each lass had her mate and they say some had four.

Come and see me, dear Ed., since you've spotted my den, We'll dine well on crane's flesh and frog's legs and then, Beneath where the tall, leafy trees grow to lumber, Perhaps we can learn all the ballots to number.

As in comfort we loll there beneath the tall trees, We will carefully note all the twos and the threes, And when with the ballots and numbers we're through, Even Bold Sherlock Holmes will have nothing on you. (Signed)

"The Swamp Angel".
