Pinckney, Livingston County, Michigan, Thursday, September 10, 1921

No. 35

## HAIRBREADTH ESCAPE

Engineer's Presence of Mind and Efficiency Prevents Loss of Life

James Shirley and family who own and live on the Joseph Placeway farm in Hamburg township owe their lives to the presence of mind and coolness of a Pere Marquette engineer whose name could not be ascertained.

Mr. Shirley and family were returning from the Howell fair in two autos. The first car was driven by Mr. Shirley and also contained his two sons and his father. He had reached the railroad crossing when suddenly the gates were lowered penning the car on the right-of-way, with a heavy train approaching from the east. The engineer saw the predicament the occupants of the car were in and put on the air-brakes, slowing up the speed of the train enough so that the Shirley party could tumble out of the auto which was partly on the track.

The car was struck by the engine and pushed off the track, sustaining considerable damage.

Mr. Shirley says he did not lose his presence of mind until after the affair was over but that the occupants of the other car which did not reach the crossing until the gates were closed, were fairly frantic over what seemed to be certain impending death to the loved ones.

The gate-tender whose negligence in not paying closer attention to his business, is entirely responsible for the accident, as there was no excuse for not lowering the gates before the Shirley car was on the right-of-way.

Mr. Shirley stated that the wheels of the oncoming engine were a mass of

## WHAT A CONSOLIDATED SCHOOL DOES

It gives an opportunity for a four year high school course for every child in the district.

It makes it possible for parents to have the direct care and supervision of their children who are pursuing high school work during the critical years of their life, when the formation of moral and social habits are so easily affected by environment.

It provides for fewer classes for each teacher so that each pupil may have the amount of attention that they should have in order to develop their intellectual abilities.

It makes it possible the securing of better trained and experienced teachers.

It insures a higher percentage of school attendance.

It provides educational conditions so that the children may grow up under the influence of the ideals of a farm home.

It provides for a course of study that includes agriculture, sewing, cooking, manual training, music, and drawing.

It furnishes a more stable basis for financing the school district.

It provides a place to foster and promote community ideals.

It becomes a meeting place for farmers' clubs, women's clubs, community clubs, literary societies, and lyceum courses.

It prevents needless expense due to duplication of school apparatus and equipment.

It usually provides for a longer term of school.

It insures a better working library.

It adds dignity, character and force to rural education.—Exchange.

## VILLAGE TAXES

30th, all taxes not paid on or before that date will be classified as delinquent taxes and treated as such.

Village Treasurer

## NEIGHBORING NEWS

**BRIGHTON**—Thomas Shaw of 5437 Stanton Ave., Detroit, who is occupying a cottage at Island Lake is reported to have broken all recent records for the lake when he landed a giant pickerel on Tuesday of last week. The fish measured 41½ inches and weighed 13½ pounds. So far as is known, this is the largest fish taken from this lake in a number of years and it proves conclusively that there are still good fish in Brighton lakes. Mr. Shaw landed a three pound green bass the same day. He is a brother to C. H. Shaw of the tire and battery firm of Shaw and Lee.—Argus.

**HARTLAND**—Hartland's fine new centralized school building is nearing completion but will not be ready to open school for a week or two yet. It is a substantial brick building, and equipped for the modern requirements in education. The old building has been remodelled for use for the lower grades. The pupils from the outlying territory will be transported in automobile trucks, over seven routes, the drivers being Will Wakeman, Bert Wakeman, Bert Holmes, Frank Verellius, Mr. Wilson, and Mr. Kirschman. New Hudson also has a new and modern little school building for its pupils this year, replacing the one destroyed by fire a year or so ago.—Milford Times.

**HOWELL**—Fred Abendroth was arrested at Island Lake, 14 miles from here, Saturday on a charge of violation of prohibition laws. He was arraigned in Howell and bound over to the circuit court. Bail was fixed at \$2,000 which he was unable to furnish. Authorities have believed for some

## THE COUNTY FAIR

The Livingston County Fair held at Howell last week was a great success for which credit should be given to R. D. Roche, secretary of the county fair association. During the period he has had the active management the County Fair has grown to be a really big thing. The facilities for handling stock was inadequate for the unusually large number of entries but no doubt this will be remedied next year.

Among the exhibitors from this section are:

Wirt C. Hendee showed several pens of Black Top Delaine sheep and the judges gave him seven firsts, two seconds and one third prize. Mr. Hendee is probably one of the best sheep breeders in Southern Michigan.

In the poultry department Ben White took four firsts and three seconds on Silver Campines.

J. H. Sider showed Anconas and came away with first and second cockerel and first and second pullet. These birds were spoken highly of by the poultry judge.

Willie Sider took three prizes in the Golden Seabright Bantam class—first cock, first cockerel and first hen—pretty good for a lad as young as he is.

DOLLARS

It would be well for all motorists going to Howell on the Pinckney road to be sure no train is coming—at least as long as the irresponsible gate-keeper holds his job.

30th, all taxes not paid on or before that date will be classified as delinquent taxes and treated as such.

D. W. Murta

Village Treasurer

day was carefully planned. Raiders found eight gallons of moonshine liquor about the Abendroth boarding house.

George Fitz, who was arrested on the Howell fair grounds Thursday for being drunk and disorderly, pleaded guilty to the charge when arraigned in justice court here Friday morning, and was given 20 days in the county jail. Fritz hails from Fowlerville, and said he had been employed on the Jay Redfield farm near that village.

Albert Friedman, arrested on the streets of Howell Wednesday for having 11 cases of beer in his car and turned over to the federal court for examination, was taken to Detroit by the state officers Friday. His car, an Essex coupe, was taken by state authorities at Lansing.

Hendri Feene, an Italian, was arrested by Sheriff Teeple on the fair grounds at Howell last Thursday afternoon when ten quarts of white nule was found in his Ford car parked back of the grandstand. Feene was discovered by the sheriff's wife whose suspicions were aroused and who notified her husband with the above results. Feene was arraigned in justice court here Friday morning and bound over to the circuit court for trial at the September term and is held in the county jail at Howell in default of \$2,000 bail. His Ford is in the custody of the sheriff.—State Journal.

**FOWLERVILLE**—Sunday morning as Alfred Gehringer and Miss Mary Flood were coming to church in a Ford auto, when about six miles north of Fowlerville they turned out to pass a wagon just as a large dog ran in front of their machine, one wheel striking and killing the dog, but the impact turned the auto completely around and threw it in the big ditch beside the road, with all four wheels in the air, pinning Mr. Gehringer under the machine, the top being down. He is a powerful man and was able to lift the car off himself. Dr. J. J. Hendron was telephoned for and brought Mr. Gehringer and Miss Flood to the home of his parents, Mr. and Mrs. Leonard Gehringer, where they were cared for and fortunately no bones were broken and neither was seriously injured, although it was a wonderful escape. This is the second auto accident through which Miss Flood has passed within the last few weeks and possibly she may think an aeroplane is a safer mode of travel. The car was badly damaged.—Review.

We also wish to remind all owing us on account that we must have a settlement either by cash or bankable note not later than Saturday September 24.

We trust you will give this matter your prompt attention.

C. H. KENNEDY

Michigan News Tensely Told

Crystal Falls—A third wage reduction made by the Steel corporation brings the wages of common labor in mines and mills down to a basic wage of \$3 a day.

Big Rapids—This city is to get a new armory. A proposition to bond for \$10,000 carried by the necessary two-thirds vote at a special election. The state will contribute \$35,000.

Ionia—Dr. William R. Cutter, 97 years old, the first dentist to practice in Ionia, is dead. Dr. Cutter was engaged in the drug business here for nearly 50 years. He retired five years ago.

Ludington—Rasmus Rasmussen, 65, former merchant, died in the baseball park grandstand of apoplexy when the Ludington team drove in seven runs in one inning and won the game against Grand Rapids.

Lansing—The state health department has been given complete authority over the health divisions of all state institutions. Dr. R. M. Olin, head of the state department of health, will act in a supervisory capacity over the institutional physicians.

Wheeling—Orbie Darling, a teamster working on the paving construction on the main street of this town killed a rattlesnake in the street. Years ago snakes were common about here in swampy places but this is the first rattler seen in this vicinity for several years.

Grand Rapids—Dr. C. W. Muger, superintendent of Columbia hospital, Milwaukee, Wis., has been appointed as successor to Dr. Merrill Wells, medical director and superintendent of Blodgett Memorial hospital since June 1919. Dr. Wells' resignation becomes effective October 1.

Ann Arbor—A total of 60,807 children and adults took part in activities at Ann Arbor's four municipal parks this summer, according to an announcement by Supervisor L. W. Olds. This is the largest number to receive the benefits of outdoor playgrounds in the city's history.

Allegan—Gene Marcellus, 73 years old, a farmer who lives alone in a shack six miles west of this city, is still in a serious condition as the result of mistreatment at the hands of robbers. When he told the robbers that all his money was in the bank, they clubbed him.

Albion—Grape-growers in this section have started harvesting their crop, two weeks ahead of the usual time.

Grand Rapids—Steps are being taken by the city administration to bar jitney buses from streets on which street cars operate, says Fred H. Locke, city manager.

Alma—What is believed to be a small snake dropped out of a watch case when A. E. Scattergood, an Alma jeweler, opened it. It has been sent to M. A. C. for examination.

Kalamazoo—A straight jail sentence of 30 days without alternative of fine, was given to Floyd Harger, of Augusta, after he pleaded guilty to driving his machine while intoxicated.

Ludington—William Medaco, 18 years old, an Indian, was rescued by Edgar Stuart when a barn burned on the farm of Kennedy Johnson in Custer Township after being struck by lightning. Medaco was sleeping in the barn.

Charlotte—A report filed with Daniel W. Knapp, village clerk, shows that the municipal electric light plant at Sunfield is earning about \$65 a month more than its expenses. The income from the plant is expected to retire bonds issued to construct it.

Allegan—Six of the eight survivors of Co. I, 4th Michigan Cavalry, elected S. F. Murphy, of this city, president, at the close of their twenty-sixth annual reunion. The company was in the regiment which captured Jefferson Davis at the close of the Civil War.

Kalamazoo—George Winslow, head of the Riverside Monument company, and Miss Sarah M. Howard, 47, a veteran Kalamazoo school teacher, eloped to Chicago, where they were just married. Winslow, who is 70 years old, has long been prominently identified with the politics of the city.

Lapeer—A romance that was born at the Michigan Home and Training school here developed into the marriage of Gertrude Hazel Hanahan, physical instructor, and Dr. Henry M. Delehanty, dentist. The ceremony was performed by Rev. Fr. Plamer at the Church of Immaculate Conception.

Pontiac—Neddy members of the Quick family are provided for in an unusual will filed here for the late John Quick, Sr., who left an estate of \$9,600. He created a trust fund, the income of which will be used for heirs in straightened circumstances. Friends and employees are given life use of a large farm.

Iron Mountain—John Rowe, of Norway, who shot and killed Leo Cant, 12 years old, also of Norway, when he caught him and some other boys in his vegetable garden, had his hear-

GUY U. HARDY

Representative Guy U. Hardy of Colorado is a member of a committee to investigate postage rates and costs. He is editor and publisher of the Canyon City Record and the Colorado Press.

FORD HAS \$54,844,538 CASH

Motor Company's Report Shows Total Assets of \$263,368,199.78.

Lansing—The Ford Motor company, according to a statement filed with the department of state last week, had at the close of business, June 30, \$54,844,538 cash on hand and in the bank.

Its plants including land, buildings and improvements were valued at \$46,926,010; machinery and equipment at \$21,133,990, and good will at \$20,517,985. Its total assets were listed at \$263,368,199.78. Property in Michigan was valued at \$133,025,079. Total capital and surplus were given as \$173,951,172 and the amount of capital and surplus allocable to Michigan \$87,861,284.

D. U. R. DIVIDEND IS REFUSED

Company's Statement Inconsistent, Declares Commission's Report.

Lansing—Permission to issue 2 1/2 per cent stock dividend has been denied the Detroit United railway by the Michigan state public utilities commission.

In the report on the application, written by William W. Potter, of the commission, it was declared that the

UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

Detroit Priest Made Monsignor, Rome.—The pope has appointed Rev. Father James Gregory Doherty, pastor of St. Vincent's parish, Detroit, Mich., a monsignor of the papal household.

Court Upholds Oil Claims. Mexico City.—Officials of the Mexico department of commerce and industry have been enjoined by the supreme court from denouncing rights to oil lands held by the Texas Co prior to May 1, 1917.

Looks After Negroes' Interests. Washington.—Appointment of Dr. J. R. A. Crossland, Negro, of St. Joseph, Missouri, as a "special expert" in the veterans' bureau to look after the interests of Negro soldiers and sailors entitled to benefits under the relief laws, was announced.

New Haven Gets Big Loan. Washington.—The interstate commerce commission approved a government loan of \$8,000,000 to the New York, New Haven & Hartford railroad. The money is to be used to meet maturing indebtedness and for improvements.

N. Y. Bonus Act Held Illegal. Albany, N. Y.—The court of appeals, by a vote of five to three, held the state soldier bonus act invalid on the ground that it violated Article VII, section 1, of the state constitution, which prohibits lending the credit of the state for the benefit of any individual, association or corporation.

13,416 Ships Used Panama Canal. Washington.—During the seven years of commercial operation of the Panama Canal ended Aug. 14 last, 13,416 commercial vessels made the transit through the isthmus, according to the Panama Canal Record. The aggregate tonnage of these vessels was 45,889,942 and their cargo totaled 51,578,920 tons of 2,240 pounds.

Charles' Stay is Extended. Berne.—Upon the request of the Spanish government the Swiss government has decided to extend its permission for former Emperor Charles of Austria to remain in Switzerland until October. Under the original permission of the Swiss government the

GRIEF IS CAUSE OF GIRL'S SUICIDE

UNABLE TO WED COUSIN, AND MOURNING LOSS OF MOTHER, FATAL SHOT FIRED.

HAPPINESS IS ENDED FOR HER

"There Was Nothing More for Which I Might Live," She Tells Sister After Shot.

Detroit.—Separated by fate from two whom she "loved more than any one else in the world"—her mother and her sweetheart—Miss Burr Roberts, 18 years old, of River Rouge, committed suicide by shooting herself above the heart.

Only a few hours before she had pressed the barrel of her brother-in-law's army revolver to her breast, she and Roy Fortner, her sweetheart, had agreed they must not love. They were first cousins.

Through the night Miss Roberts studied over this decision, and at 7:30 o'clock in the morning, as she sat in her nightclothing on her bed, she shot herself.

"There was nothing more for which I might live," she told her sister, Mrs. Jesse Baker, when the latter hurried to the room. Mrs. Baker had been in the basement of their home when she heard the shot. She believed she said, that intruders had fired.

The girl was conscious when they found her. Stretched across her bed, she begged to be allowed to die. "With mother and Roy taken from me, I cannot bear to live," she is quoted as saying.

She died in Delray Industrial hospital two hours later. Before her death she gave a statement to Walter Hancock, of the River Rouge police department.

She told how she had come here two years ago, from North Carolina, she and her mother, and of the happiness they had known in their little home in River Rouge. She sobbed heart-brokenly when she told of her mother's death.

Then she told of the romance shattered by the kinship of her sweetheart. For two years, she said, she had loved Roy Fortner, and he had loved her.

Then came a day when Fortner believed he must look facts squarely in the face. He told her they must not

MARKETS

Table with columns for various market items like Wheat, Corn, Cattle, and their respective prices.

Machine Co., was badly shocked and burned when, painting an electrical tower at the plant. He came into contact with the heavily charged wires there. He was taken to the city hospital, where physicians gave him medical attention.

Lansing—Sheriffs, chiefs of police and prosecuting attorneys of Michigan will meet here Sept. 20-22, when it is expected that some method will be worked out to provide for co-operation between parole officers and county officials to give information about paroled prisoners.

Alpena—The McLouth steamer Scanton, cement carrier, sank beside the dock at the Huron Cement company's plant, while preparing to leave the dock with 15,000 barrels of cement. Investigation revealed a hole in the hull of the ship, possibly caused by its striking a large stone in the dock.

Lansing—"The Crusade Lance" is the name of a new Michigan publication issued by the Detroit Tuberculosis Society. The "Lance" is devoted to the interests of the Modern Health Crusade in Detroit and Wayne County. There are already nearly 150,000 pupils enrolled in the modern health crusade in that county.

Alpena—Plans have been formulated by County Agricultural Agent O. O. T. Scheetz for the utilization of picric acid in land clearing operations in this county. The government recently has placed large supplies of this powerful war explosive on the market at low prices. Co-operative purchases are planned.

Dowagiac—A homing pigeon several days ago fell exhausted in the yard of Postmaster Frank Richey. Care restored it to flying strength and it was released, but returned to the Richey residence several hours later. The postmaster is anxious to learn its identity. A red rubber band on the left leg has the lettering "E-206."

Battle Creek—Dr. Edward Rawson, oldest local physician and longest in practice here, died at Nichols hospital, at the age of 84 years. Dr. Rawson was a prominent Chicago surgeon in his younger days, but his property and offices were wiped out by the great fire in 1871. This experience broke his spirit and he never quite "came back." Dr. Rawson never married and since the death of his sister, several years ago, had lived much like a hermit.

Flint—Suggestion that a new national highway to be known as the "Townsend" road, in recognition of good roads work by United States Senator Charles E. Townsend, be constructed from Mackinaw City to Mobile, Ala., was made by J. A. Roundtree, director general of the United States Good Roads association, before the Michigan Good Roads association in convention here. The proposal met with applause from delegates and it was said an effort would be made to adopt a resolution favoring the proposed highway.

only shot to trigger the boys' mine is an ex-service man and is 27 years old.

Pontiac—Chase Osborn's feat of killing a bear with an axe and his bare hands isn't so much, according to an Oakland county sportsman, just back from the north Wisconsin woods. Guy Folsome, Milwaukee, member of a party in which Ross Thompson, Oakland supervisor, was roughing it, chased and killed a black bear in an automobile, according to Thompson.

Mt. Clemens—Two masked robbers entered the Margolies Inn, notorious Lake shore roadhouse, gagged and handcuffed the porter and made away with \$9,000 in cash from the safe. The pair, well dressed and with handkerchiefs covering their faces, invaded the roadhouse shortly after the big Sunday crowd had left. They commanded Frank Bolivios, night porter, to throw up his hands and remain quiet.

Lansing—Lansing voters turned down a proposal to bond the city for \$200,000 to erect a soldiers' memorial building, but endorsed four other bond issues which will increase the indebtedness of the city by \$2,350,000. The issues which carried were: \$1,650,000 for a municipal power and electric light plant; \$100,000 for water works extension; \$200,000 for sewerage systems, and \$400,000 for paving. The vote was light.

Muskegon—Muskegon will issue \$50,000 in bonds to provide for the unemployed for the rest of the year. This decision was reached after Merlin Wiley, attorney-general, ruled that a business depression was as great an emergency as a flood or fire. Under the Home Rule Act a city has authority to issue bonds without a vote of the people. When the budget for 1921 was made, in August last year, the business depression had not developed.

Saginaw—The soldier bonus bill will be passed at the December session of congress, is the belief of Congressman Joseph W. Fordney, chairman of the ways and means committee and Republican leader in the lower house. "One of the reasons for this belief is that, deducting what foreign countries owe us, 60 per cent of our debt is due in the next 20 months," said he. "The passage of the bonus bill is the only honorable thing to do. The boys deserve it and shall receive it."

Monroe—The Monroe Paper Products company, has started operations in its mammoth mill, the building of which was begun on March 24, 1920. The new company is capitalized at \$1,000,000. Officers are: William R. Harris, president; W. M. Sawyer, vice-president; Thomas I. Ilgenfritz, second vice-president; Roy M. Sperry, secretary; G. A. Blum, treasurer; L. J. Mounier, superintendent. All are experienced men in the manufacture of paper. The average output per day of paper folding box board will be 75 tons, in sheets and rolls.

financially able to pay the dividend was inconsistent with their showing a short time ago when representatives of the company came before the commission asking to be allowed to issue bonds in the sum of \$5,000,000.

MAY NEED MORE BONUS FUNDS

Fuller Thinks \$30,000,000 May Be \$6,000,000 Under Sum Needed.

Lansing—A third special session of the Legislature and a special state election may be necessary before bonus payments to former service men and women can be completed.

At a meeting of the Administrative Board, O. B. Fuller, auditor general, declared that the \$30,000,000 authorized by constitutional amendment will be insufficient to pay all of the Michigan veterans. More than \$8,000,000 has already been expended, he said, and only about 40,000 of the estimated 175,000 veterans have been paid. He estimated that a total of probably \$36,000,000 will be required.

BOARD CLEARS PRISON WARDEN

Catlin Victim of "Spite Work" Governor Declares.

Lansing—Warden Catlin of Marquette prison, indicted in connection with the recent investigation of the institution, was exonerated by the state administrative board last week.

The board went on record as believing that the acts charged against Catlin were "acts of charity" rather than infractions of law. Among other counts he was said to have purchased goods at a store conducted by prison inmates.

Considerable "spite work" entered into the affair, Governor Groesbeck declared.

SILESIA'S FATE IN COMMITTEE

League of Nations Commission to Decide Country's Future.

Geneva.—The commission of four appointed last week by the council of the League of Nations to deal with the question of Silesia met immediately after the adjournment of the council and has begun its work.

Losses Citizenship by Marriage.

Cleveland.—Mayor William S. Fitzgerald, who recently made belated announcement of his marriage 30 months ago to Miss Margaret Chilton Tucker, may be compelled to renounce his ambition to succeed himself as a result, it was stated by legal authorities here. Lawyers pointed out that Ohio statutes provide that the residence of a married man "shall be that place where his wife resides." Mrs. Fitzgerald has never made her home here.

Police Nab Naked Woman.

Detroit.—Clad only in a sheet, Margaret Middleton was arrested in a garage at Gratiot avenue and Beaubien street. She fled from her room at a hotel with only the sheet about her and did not stop until she reached the sheltering walls of the garage. Margaret is held for investigation, police believing she is wanted in Toledo on the charge of peddling "dope."

No Wedding Bells for Dancers.

Chicago.—Art and matrimony will not mix for the Duncan sisters, musical comedy stars, for at least 10 years. The sisters have signed a new contract with Charles Dillingham, New York impresario, which contains a clause forbidding them to marry in the next 10 years. It's a matter of business with the twins. They declare marriage would interfere with their art.

Bergdoll Sub's Body Greeted.

Philadelphia, Pa.—The body of Russell Gross, who was drafted in place of Grover Bergdoll, the slacker, was brought here. Crowds at the railway terminal stood bareheaded as the flag draped coffin was borne away to be taken to his home. Gross was 25 years old, son of Mr. and Mrs. Henry C. Gross of this city. He was killed in action Oct. 26, 1918, after having been in nine battles.

Own Invention Traps Burglar.

Minneapolis.—Des Moines authorities identified the body of a man shot and killed by a patrolman in an attempted robbery as Henry "Hank" Hankins, notorious safe blower. Hankins was the inventor of an electric burglar alarm system that is installed in virtually all Iowa state offices, and manufactured the invention before he went "bad." It was one of his alarms that gave him away to local police.

Accident Mars Honeymoon Trip.

Cleveland, O.—The honeymoon trip of Mr. and Mrs. Edwin C. Simpson, each 22 years of age, of Cleveland, was ended abruptly when their automobile was demolished by a south-bound Cleveland southwestern interurban near Chippewa lake. Mrs. Simpson was killed instantly and her husband died a few minutes later. They were married August 2 and were touring the state on their honeymoon.

Bites Conductor After Argument.

Pittsburgh.—Miss Ines Hatch, 40, of Toledo, O., created much commotion on a cross town car. When the conductor refused to give her a transfer before she paid her fare she sank her teeth right into the conductor's arm. Loud guffaws from the men and giggles from the women passengers greeted Miss Hatch's action. The conductor locked the door until a patrol wagon came and took the woman to police headquarters where she is held on a technical charge.

SECOND WARRANT FOR HAAN

Lawmaker Fails to Return to Face Charges, As Agreed.

Grand Rapids.—For the second time in his difficulties here, the bond of State Representative William A. Haan has been forfeited and a bench warrant has been issued for his arrest. This action was taken Sept. 1 by Police Judge Frank A. Hess. Similar action was taken the week previous in justice court when Haan failed to appear for examination. Haan, who had been taken to Detroit to answer to charges of obtaining money under false pretenses, was to have returned here last week.

OBREGON HITS PACT WITH U. S.

Says Treaty Impossible, Unnecessary and is Not Wanted.

Mexico City.—The signing of a treaty with the United States is "neither possible, convenient nor necessary, and is contrary to Mexican constitutional precepts, in that it creates special privileges for Americans," according to that portion of President Obregon's message to congress dealing with foreign relations, which was read in the house.

\$520,000 DAILY SALVAGE SALE

Army Disposes of 60,000 Surplus Blankets at \$141,000.

Washington.—Army salvage sales have averaged \$520,000 per day since January 1, according to the director of sales. In a sale at New York recently \$141,000 was received for 60,000 surplus blankets. In all 300,000 surplus blankets are to be disposed of by the army.

Trolley Trouble in N. Y., Too.

New York.—Commissioner of Accounts Henschfeld denied that he immediately would begin an inquiry into the motives behind the two applications for a receiver for the Interborough Rapid Transit company. He said he had examined a witness who testified that the strike of Interborough employees in 1919 was ordered by officials of the company as a weapon to force Mayor Hylan to allow a fare above five cents on the subway, elevated and surface lines.

Cold Bitter Winter in Sight!

New York.—Women will wear sleeves on their lingerie and even night gowns are going to be longer and have sleeves in them according to a large manufacturer of women's apparel. It was said the style might be in anticipation of a cold winter.

Auto Accidents Cost \$4,500,000.

New York.—An estimate that \$4,500,000 was paid by life insurance companies in death claims from automobile fatalities during 1920 is published by the Insurance Press. Statistics quoted show that during the year the automobile caused 12,000 fatalities and 1,500,000 non-fatal injuries. Life insurance distributions for the year by companies operating in the United States and Canada aggregated \$1,092,044,434, including death claims of all sorts.

ERA OF WORLD PEACE FAR OFF

President Harding Outlines Policy of U. S. At Conference.

Washington.—President Harding has defined the policy which will guide the administration and its representatives on the disarmament question at the coming conference of the world powers.

With clarifying emphasis he dispelled Utopian illusions that the United States would enter the conference prepared to scrap its weapons and render itself defenseless.

Summed up the American attitude as stated by the president is this: The day of permanent world peace is far off. The end of armed conflict may never come. Civilized government may never be able to scrap their navies and disband their armies. Nevertheless it may be possible to diminish the burdens of armament.

TO CONNECT TWO PENINSULAS

Doelle Tells Road Meeting Span Across Straits Planned.

Flint.—Plans are under way for the construction of a bridge to connect the upper and lower peninsulas of Michigan, according to John A. Doelle, of Marquette, recently elected a member of the state board of agriculture, who spoke before the thirteenth annual convention of the Michigan Good Roads association, in session here.

Grand Rapids was chosen as the 1922 meeting place by the delegates in the closing session.

Mr. Doelle stated that the bridge would be constructed across the Straits of Mackinaw and that something definite would probably be done within a year, if financial condition warranted. He did not reveal who was behind the project.

# Secretarial School: First of Its Kind

W. D. SCOTT UNIVERSITY HALL AND HARRIS HALL

**N**ATIONAL School for Commercial Organization Secretaries, under the auspices of the Chamber of Commerce of the United States, the National Association of Commercial Organization Secretaries and Northwestern University!

Isn't there something new under the sun, in spite of the proverb? Anyway, that is the sort of school that has been going on at Evanston, Ill., right in the vacation days of summer.

Moreover, this National Secretarial school is believed to be a project of far-reaching importance in the business and civic life of the country. John Hilder, manager of the civic development department of the Chamber

JOSEPH H. DIERKES

secretaries. He says:

"The students at our summer school session for commercial secretaries are mature men of unusual ability and leaders in their communities. The effect of the summer school on these men will be to strengthen their faith in the modern, practical, scientific method of dealing with their problems and to strengthen them in their faith in the necessity of analyzing all local problems in terms of wider experience.

"I am particularly interested in this session of the summer school, not primarily for what those who attend will receive, but for the added service they will be able to render their communities upon their return. In this period of reconstruction and readjustment, our progress is dependent upon our application of science and our profiting by experience wherever available. I feel, therefore, that this school will be of inestimable value because of the increased value these secretaries will be able to render their communities."

This secretarial school is, in brief, an intensive course of two weeks in secretarial problems and methods. That there is need of this school is shown by the registration of the first year, which surprised even the officials of the three organizations back of it. This registration of 200 men was representative of every section of the United States, including Hawaii. Canada sent its quota and Cuba was represented. Several women attended.

While most of those in attendance were registered as secretaries of chambers of commerce, the list shows others in considerable variety.

The study was of two kinds, fundamental and technical. The instructors in the former were educators of national prominence and in the latter leading authorities in the secretarial ranks. Harris hall was used as a class room. Two hours a day was devoted to fundamentals and three and a half hours to technical subjects. Munson Havens, secretary of the Cleveland Chamber of Commerce, lectured on "The Secretary, His Relation to the Varied Forms of Service, What He Expected of Him and What He Should Expect of Himself."

The technical studies and the groups of secretaries who directed the study of them are:

Organization (What It Is), J. A. McKibben, general secretary, Boston Chamber of Commerce, assisted by John Wood, secretary, Roanoke (Va.) Chamber of Commerce, and Colvin B. Brown, chief organization service bureau, civic department, United States Chamber of Commerce.

Meetings (How It Is Done), John M. Guild, general secretary, Kansas City, (Mo.) Chamber of Commerce, assisted by J. S. Cady, secretary, Minneapolis Civic and Commerce association, and J. T. Daniels, secretary of the Columbus (O.) Chamber of Commerce.

Membership, C. F. Holland, secretary, Jackson (Mich.) Chamber of Commerce, assisted by Paul V. Bunn, general secretary, St. Louis Chamber of Commerce, and Roy S. Smith, secretary, Albany (N. Y.) Chamber of Commerce.

Finance, J. D. Larson, commissioner, Omaha Chamber of Commerce, assisted by Arthur J. Dodge, business manager, Denver Civic and Commercial association.

Publicity, Ralph H. Faxon, general secretary, Des Moines Chamber of Commerce, assisted by F. Roger Miller, secretary, Macon (Ga.) Chamber of Commerce, and Merle Thorpe, editor of The Nation's Business.

Office Organization, S. C. Mead, secretary, Merchants' association, New York, assisted by G. W. Lemon, secretary, Troy (N. Y.) Chamber of Commerce, and F. D. E. Babcock, general secretary, Worcester (Mass.) Chamber of Commerce.

Specific Departmental Activities: 1. Commercial, Lee H. Bierce, secretary, Grand Rapids (Mich.) Association of Commerce, assisted by John B. Reynolds, general secretary, Indianapolis Chamber of Commerce, and Warren R. Jackson, secretary, Harrisburg (Pa.) Chamber of Commerce.

2. Industrial, Walker Parker, general manager, New Orleans Association of Commerce, assisted by Emmett Hay Naylor, secretary, Writing Paper Manufacturers' association, New York, and W. S. Millner, secretary, Williamsport (Pa.) Board of Trade.

3. Civics, Roland B. Woodward, secretary, Rochester Chamber of Commerce, assisted by Harry Welch, Phoenix Chamber of Commerce, and John Hilder, manager, civic development department, United States Chamber of Commerce.

4. Research, John M. Redpath, manager research department, United States Chamber of Commerce, assisted by Don E. Mowry, secretary, Madison (Wis.) Chamber of Commerce, and Joseph E. Caine, secretary, Oakland (Cal.) Chamber of Commerce.

reference. His plans are already substantially approved by the European premiers. It is probable that his old friend, Secretary of State Hughes, will introduce him when the world capital plans are presented to the disarmament conference.

**See Start in Five Years.**

"I wouldn't be surprised if we see foundations laid for the world capital within the next five years. There will be no poverty, no slums, no illiteracy in this international metropolis. An educated public opinion will be the prophylactic that will keep things straight.

"Mr. Andersen's idea was so well received at the very beginning that plans were made not only for a building to house an international parliament, but a whole world community. All the great international bodies, medical, jurisprudence and so on, are interested and ready to subscribe. Ernest Hebard, architect of the French government, devoted a good part of nine years to drawing the city's plans. He had the assistance of some of the greatest engineers, sculptors and painters.

"Surveys were made at different available points—near Cairo, near Antwerp, near Paris, in Switzerland and in New Jersey. General opinion today favors Ostend, a compliment to Belgium, and, for practical considerations, a seaport.

"The possibilities and potentialities of the project are immeasurable. The world is ready for closer organization and greater centralization for the direction of mass efforts. Nothing would conduce more to real internationalism, ideal democracy, than the building of this city."

Mr. Fitzpatrick for years was a consulting architect with the government at Washington. He was one of the designers of the Chicago post office building, and several large business structures there. He has just recently moved to Chicago, where he will maintain the offices of the world capital society.

**Country Club for Congressmen.**

Members of congress who have taken the initiative toward organizing a country club for their use and the use of government officials are encouraged to believe that they will be able to "put over" the proposition. Several weeks ago a circular letter was sent out, signed by a committee consisting of Representatives Lühring, of Indiana, Cole of Ohio, Fish of New York and Bland of Indiana.

Representative Lühring states that more than 200 replies have been received, indicating a strong interest in the undertaking among congressmen, government officials and army officers. The site selected is the old Campbell farm, beyond Cabin John Bridge, out on the Conduit road. There is an eleven-room house with three baths, and plenty of land there for a cottage colony.

As soon as 500 members have joined the proposed club, Representative Lühring said, it is proposed to start work on the golf course and, possibly, on remodeling the house. He expects that the club will eventually have a permanent membership of 1,500.

## WORLD CAPITAL CITY-PLANNED

H. C. ANDERSEN'S SCHEME TO BE PRESENTED TO THE COMING DISARMAMENT MEET.

IDEA IS THIRTY YEARS OLD

Headquarters for All the Nations May Be Founded Within Next Five Years—Ostend Is at Present the Favored Site.

By EDWARD B. CLARK. Washington.—Efforts to interest delegates at President Harding's disarmament conference in the founding of a "world capital city" will be made by Hendrick Christian Andersen, Norwegian-American sculptor, author and scientist, who has spent \$125,000 fostering his international metropolis among European governments.

Announcement of the revival of the movement to establish a world capital, which was halted by the war, was made by F. W. Fitzpatrick, a consulting architect, who is the United States commissioner for the Andersen organization pushing the idea. It is proposed tentatively to establish the "dream city" at Ostend, the Belgian seaport. Advocates of the plan will petition the disarmament conference delegates to approve the creating of a model city which will be the headquarters of art, science, literature, trades, commerce and world peace.

Plan a Wonder City. "In Europe the League of Nations is always thought of in connection with a great peace city," said Mr. Fitzpatrick. "At present some of the best minds of the world are at work devising means of financing, building and governing this city. Ultimately it will be not only the official center of the world, the seat of the League of Nations, but it will develop vast art galleries, colleges as clearing houses for scientific information, an exchange for fixing world prices and a gathering place for the medical profession. An international weather bureau will flash wireless reports and warnings.

"Mr. Andersen, who has been hampered by the war, is now free to

The favorable replies received to the circular letter are being used as a basis for personal conferences with officials, many of whom, Representative Lühring said, are signing membership blanks. The membership fee is \$250, to be paid in monthly installments of \$50 each.

The congressional country club property will consist of 405 acres of rolling and partly wooded land, lying about ten miles northwest of the capitol. Situated on the high ground above the Potomac river, a wide view of the valley and of the Virginia hills beyond will be had from the clubhouse porch.

**Ideal for Golf Purposes.** The property is considered ideal for golf purposes and it is said a comparatively small amount of work and short length of time will develop a good course. Two springs of clear water join about the center of the property and Cabin John Creek flows across one end.

A country home now on the property will be used temporarily as a clubhouse, but later will be devoted to the exclusive use of lady visitors. A main clubhouse is to be erected on an elevation where it will be surrounded with trees and will overlook the golf course, with entrances from Massachusetts avenue extended and from Conduit road. A locker house, caddy house, garage and stables will be erected.

Another feature will be a swimming pool to be constructed within a short distance of the clubhouse, where the two brooks join.

Memberships, which are transferable, will be limited to members of congress, officers of the army and the navy, departmental heads, accredited members of the press and friends properly recommended.

The birds and squirrels at the grounds of the White House are to feel secure and safe from harm now that Mrs. Harding has enlisted in the cause for the protection and care of them. It was made known that the "first lady" from now on intends to take a leading part in protecting the birds and squirrels.

In line with her humane endeavors several birdhouses of the Twentieth century variety arrived at the White House and were erected in suitable places about the grounds. Two of these houses are for wrens, while others are for smaller birds. She has given instructions to the policemen and other attendants who frequent the grounds to be on the alert always to aid the birds and squirrels.

**Army Airmen to Bomb Alabama.** Air service officials are concerned

against naval craft in September, as a part of their program to educate congress and the people of the United States to the need of a large and efficient aerial force for the country's defense. The theoretical bombing of Washington and New York recently was a part of their program.

Using virtually every type of latest war inventions, including torpedo planes, mines, gas and missiles weighing as much as 4,000 pounds, the air service officers will attack the old battleship Alabama, in the hope of adding a new chapter to the inter-service controversy which resulted recently in the destruction from the air of a number of former German war vessels off the Virginia capes.

Selection of the Alabama as the target for the aviators was the result of a request of the army. Acting Secretary of the Navy Roosevelt announced that the navy department is dismantling the vessel, and it will be ready to turn over to the land and air warriors about September 1.

The event, it was said at air service headquarters, will be exclusively an army affair and efforts will be made to simulate actual battle conditions when the Alabama comes under fire. For that purpose the army asked that the ship be turned over in sea-going shape, absolutely water tight, bulkheads sound, steam in her boilers and ventilating and communicating systems in working order. A request also was made that her magazine be filled with loads of powder and that in all respects save her useful offensive armaments, which are being salvaged, she be ready for action.

**All Phases of Attacks.** It was said that definite reply from the navy as to the extent to which the Alabama would meet these conditions when turned over had not been received, nor were the army men hopeful that they could obtain radio control equipment for her similar to that successfully employed on the battleship Iowa during the recent bomb tests. It is hoped, however, to have the ship in motion, probably under tow, when the army airmen open their attack.

Army plans call for all phases of air attacks at sea. Everything from the 30-pound bombs, similar to those first rained on the German dreadnaught Ostfriesland, to missiles double the size of the 200-pounders which sent her down will be employed, it was said, and in addition new smoke and gas bombs will be hurled at her decks from above. Several new projects of the chemical warfare service are to be tested out against the Alabama, and penetrative qualities of the gases will be measured by means of the ventilation system on the ship.

**Both Couldn't Go.** "Honey," said the negro suitor, "when we gets married you ain't gwine to give up that good job you has workin' for de white folks, is you?" "But ain't we gwine to have no honeymoon an' take a trip on de train somewhere?" "One of us might go, honey. Dey ain't a thing holdin' me, but you's got sponalibilities."

## ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Advertisement.

Melted. "So you have made up with Glibbing?" "Yes," said Mr. Twobble. "I couldn't resist the spirit in which his apology was offered. When a man comes to me and says he's sorry and unwraps a package done up to look like a pair of shoes and says, 'What we need now is a corkscrew,' I'm not adamant, sir, and in such circumstances I hope I never will be."—Birmingham Age-Herald.

## WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions. Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a

**Delicacy Seemed to Please.** Tasting ice cream for the first time in their lives, Joe Jable and his three sons from the mountains near Uniontown, Md., disposed of 61 dishes of it at their first sitting. Fifteen each for the boys and sixteen for dad.

## CATARRHAL DEAFNESS

is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.—Advertisement.

All He Does. "He gets his money easily." "Very. All he has to do for it is to stick everlastingly to his job."

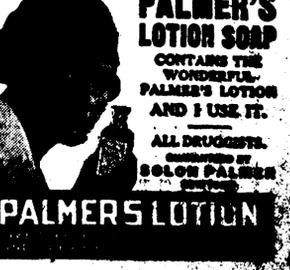

## GENUINE "BULL" DURHAM

tobacco makes 50 good cigarettes for 10c

We want you to have the best paper for "BULL." So now you can receive with each package a book of 24 leaves of BULL.—the very finest cigarette paper in the world.

Prepared by The American Tobacco Co.

## Ostracism.

At one period in the history of ancient Greece the people of Attica possessed the power of removing from the state, without making a definite charge, any leader of the people likely to overthrow the government. This was so abused that in time it became the right to drive into exile any person who had become unpopular without much regard to the cause of his loss of popularity. The decision was

arrived at by vote, each citizen writing his vote on an oyster shell. The Greek word for oyster shell, expressed in our alphabet, is ostrakon, and because the ostrakon was used as a ballot, the expelling of a person from the state by popular vote was called ostracism, which means blackballing or expelling.

**Nine Cents a Day Paid Matters.** The use of beaver in making hats commenced about 1200, for Chaucer mentions St. Florian's turned out the first. Hatters' guilds began to appear in England, and apprentices were taught the art of making felt hats and decorating them. Nine cents a day was then a hatter's wages. In the sixteenth century the first hat stores began to do business and hats, therefore as widely decorated as poetic fancy, began to be standardized. In other words—style began to rule. By 1600 styles were very much in evidence, but were very changeable. Shakespeare's plays speak of varied types of hats than worn.

# FAIR TIME IS HERE

Is your car in good repair  
To take you to the fair?  
Have you plenty of gasoline  
In the tank of your machine?  
Will you get there with that tire?  
If not, come see Meyer.  
He will fix you all up fine  
So you can enjoy your fair time.

### CHUBB'S CORNERS

Mrs. Ida Lewis of Lansing is visiting Albert Dinkel and wife this week.

Virginia Hoisel spent the past week in Jackson the guest of her grandparents.

Mr. and Mrs. Fred Hauck of Jackson spent the week end with M. J. Hoisel and wife.

A good many around here are enjoying the summer gripe at present.

J. Brigham and family were in Ann Arbor Sunday.

M. J. Hoisel and wife entertained company from Toledo, O., Sunday.

Miss Hazel Smith spent the past week at Redford and Detroit.

Maurice Thorne of Pontiac was at his home here over Labor Day.

### SOUTH IOSCO

The Watters Brothers entertained company from Ohio last week.

Mrs. Gladys Crauer spent the last of the week in Webberville with her grandparents.

Miss Beatrice Lamborn commenced her school in Gregory Monday.

Mrs. John Rutman visited Mrs. Joe Roberts Monday.

Mr. and Mrs. Joe Roberts called at L. T. Lamborn's Saturday evening.

Mrs. Milford Miller is entertaining her aunt this week.

**BRIGHTON**—The Huron river became virtually a river of canned milk when three freight cars, one loaded with Carnation milk, were wrecked off the Pere Marquette bridge Monday noon. Both afternoon passenger trains were delayed until about 5:30. No one was hurt, but the product from a good many cows was thrown helter skelter in every direction.—Argus

# "Oh Boy! Ain't this the life!!"

I LIKE my job.  
BUT DAYS do come.  
WHEN SKIES are blue.  
ABOVE THE city smoke.  
AND BREEZES stir.  
THE PAPERS on my desk.  
AND THEN I think.  
WHAT I would do.  
IF I were boss.  
I'D OPEN shop.  
AT TWELVE o'clock.  
AND CLOSE at one.  
WITH ONE hour off.  
FOR LUNCH, and I.  
WOULD GET old Sam.  
TO RUN me out.  
IN HIS big six.  
AND DROP me off.  
UNDER A greenwood tree.  
BESIDE A babbling brook.  
AND THERE I'd be.

AND EVERY one.  
IN A while.  
ROLL OVER.  
OR MAYBE sit and think.  
BUT MOST likely.  
JUST SIT.  
AND EVERY one.  
IN A while I'd light.  
ONE OF my Chesterfields.  
AND OH BOY.  
I GUESS that wouldn't.  
SATISFY!

**COMPANIONSHIP?** Say, there never was such a cigarette as Chesterfield for steady company! Just as mild and smooth as tobaccos can be—but with a mellow "body" that satisfies even cigar smokers. On lazy days or busy ones—all the time—you want this "satisfy-smoke."

Have you seen the new AIR-TIGHT time of 60?

**A SALE OF FALL SUITS**  
For Women and Misses at Old Time Prices  
**\$25.00 to \$35.00**

There are Suits with the graceful, long lines of this Fall, and the shorter box styles, loosely belted—every model splendidly tailored and richly lined with silk. Among them are beautiful garments embroidered in soft silk, braided models, strictly tailored styles and Suits trimmed with collars of fur.

**\$19.50 MIDDY SUITS \$19.50**  
For  
School Girls College Girls Business Girls

Nothing is more practical than a neat looking Middy Suit made of fine Men's Wear Serge. Special mention is made of the quality of material used, the neat trimmings of white braid and the pretty emblem on the sleeve. Plaited Skirts that may be worn with odd blouses give double service to these Suits.

last Sunday afternoon. Some snake, but it was small to the one Seward Fletcher saw some time ago making an aeroplane trip. It seems a hawk had espied his snakeship and snooping down caught it in his beak and made an upward flight. The bird wouldn't let go, and Seward says the racer, which was nine seven feet long wound its slimy length about the body of the hawk while in mid-air. The bird, however, didn't seem to mind that, for it apparently flew to its nest where a fight royal doubtless took place. It is a sight seldom seen and had some people we know told it, besides our friend Fletcher, we might have had our doubts.—Leader.

### FARMER OWES MUCH TO MULE

Animal is Hard and Rugged Worker and Almost Indispensable in Many Localities.

The mule, like everybody else, has his place. He is considered a bad actor. Fathers caution their sons about going near any animal with long ears and rosy tail. The sons know what the animal will do because they have been looking over the "funny paper" each Sunday and were delighted in seeing the mule fold up and let loose with a kick that sent a man through the side of a barn or over the fence. But in spite of this undesirable advertising the mule is with us today on more farms than ever before. He is a hard and rugged worker and is especially adapted to the more hilly farms of our agricultural sections. Even through the Middle West there are some counties that have more mules than horses. In 1867, the mules of the United States numbered 822,000, with an average value of \$66.94. In 1890 the number was 2,821,000, valued at \$78.25. By 1914 the number had increased to 4,123,000, with a value of \$119.84 per head. On January 1, 1920, the number was 4,985,000 and the value per head was \$147.

The mule has gained rapidly in popularity, in many localities taking the place of the horse, and has also prevented the introduction of the tractor in many places. There are not a few mule ranches over the United States, the owners finding it a paying kind of stock to raise. The demand is increasing and those having them for sale cannot supply the market.—Thrifty Magazine.

### Telephone Statistics.

Telephone wires in the United States have reached the enormous total length of 22,827,188 miles, the new government census reveals. There are 11,716,820 telephones, connected through 53,234 organized systems or lines. The total number of messages in 1917 was 21,845,722,336, or 211 per capita.

State of Michigan, the Probate Court for the County of Livingston.

At a session of said Court, held at the Probate Office in the City of Howell in said County, on the 19th day of August A. D. 1921.

Present: Hon. Willis L. Lyons, Judge of Probate.

### Literature of the Czechs.

Czech literature has voluminous and impressive accomplishments to show. Take, for example, Bohemia's three great writers of the nineteenth century, Dobrovsky, Jungmann and Palacky. Jungmann compiled a dictionary of the Czech language in five volumes. Palacky wrote a work of 20,000 pages on Czech history, and Dobrovsky wrote a grammar of Czechic. The most indefatigable writer, however, was Jaroslav Vrchlicky. He translated Dante's "Divine Comedy," Ariosto's "Orlando Furioso," Calderon, "Faust," Walt Whitman, as well as works from French, Hebrew, Yiddish and Chinese. No one knows how he found the time to do it. Among the leading Czech writers of the present, Frana Brana, Roman Kodicek, the Capek brothers and their rank high.—New York Evening Post.

## ELECTRICITY

### The Burden Bearer

Whether in the shop or in the house—ELECTRICITY awaits your bidding. No task too large—none too small—for this master servant.

ELECTRICITY has lightened tremendously the labor of the house.

ELECTRIC APPLIANCES easily operated have replaced the old time hand methods, bringing convenience to the home.

Costs nothing to see—costs little to buy, and little to operate.

### SHOWING VALUE OF "FRONT"

Impetuous Author Wise in Expendi-  
ture That Less Far-Sighted  
Friend Objected To.

There is a young author who has ar-  
rived, and therefore has only, when he  
wishes a new suit or a large steak or a  
set of automobile tires, to sit down at  
his typewriter and dash off a few care-  
less lines, and eager editors do the  
rest. Once upon a time, however—  
and, unlike the fairy stories, that  
doesn't mean long, long ago—this  
worthless young man's assets were so  
near the vanishing point that his nu-  
merous creditors became uneasy and  
threatened a total discontinuance of  
supplies. Something had to be done,  
and that quickly. The author did  
something—he took a famous financier  
with whom he happened to be ac-  
quainted to lunch at the most ex-  
pensive and conspicuous restaurant in  
town. When it was over he walked  
home for lack of another pickel.

"You are not as bright as you might  
be, my boy," he patiently explained to  
a protesting friend as he cheerfully  
borrowed a quarter. "Several of my  
largest creditors always lunch at that  
place, and I knew they would recog-  
nize the man I was with. Why, that  
lunch is good for at least 60 days' ex-  
tension on my accounts."

### Pinckney Dispatch

five cents per line.

### LOCAL AND GENERAL

Mr. and Mrs. Alvin Buck of Fenton  
spent several days last week with Mr.  
and Mrs. W. H. Clark.

Mr. and Mrs. J. Appleton of  
Brighton were Sunday visitors at the  
home of Mr. and Mrs. Fred Lake.

Mrs. R. R. Darwin is visiting Lan-  
sing relatives.

Made in your home town—Pinckney  
Bread—Its good.

Mr. and Mrs. Myron Dunning of  
Detroit were guests of Mrs. Nellie  
Dunning the first of the week.

J. C. Dinkel was in Detroit Mon-  
day.

Miss Genevieve Alley of Dexter  
spent Sunday with Miss Norma Cur-  
lett.

Mrs. Jennie Barton returned the  
last of the week from a visit with  
friends in Pontiac and Detroit.

Tanlac, the celebrated medicine, is  
now sold by F. E. Weeks.

Make your Ford look like \$1000 for  
\$12. Ask J. M. Bennett how to do it.  
Inquire at Meyer's Garage. 28-1f

Fred Read and family of Detroit

Mr. and Mrs. Fred Swarthout and  
daughter Barbara spent the week end  
at the home of S. E. Swarthout.

Paul Curlett of Detroit spent Sun-  
day at the home of Will Curlett.

Mrs. Louis Clinton was a Howell  
visitor Monday.

Duane Lavey and family of Lansing  
were week end visitors at the home of  
Mr. and Mrs. M. Lavey.

Mr. and Mrs. George Fay and  
daughter, Mr. and Mrs. Verne Fay and  
children of Flint, and H. H. Mitchell  
of Lansing were week end guests at  
the home of R. R. Darwin.

Mrs. Guy Teeple of Jackson was a  
Pinckney visitor Monday.

Made in your home town—Pinckney  
Bread—Its good.

The remains of Mrs. Karl Schlim-  
mer, a former resident of this locality,  
were brought from her home in the  
state of New York and interred in  
Hamburg cemetery last week. Her  
death was caused by being struck by a  
train. She is survived by her husband  
and one son by a former marriage.—  
Brighton Argus.

Mr. and Mrs. M. T. Lyon of Howell  
were Pinckney callers Tuesday.

Mrs. Melinda Hill of Highland Park  
was a Pinckney caller Sunday. She  
was the only daughter of Mr. and Mrs.  
Seth Smith, who moved to Detroit 65  
years ago Sept. 4 from the farm now  
owned by Nick Catuna just south of  
Pinckney. Mrs. Hill is the aunt of L.  
E. Smith and is a remarkably well pre-  
served woman and celebrated her 81st  
birthday last Saturday.

On their return from the Howell  
fair last Thursday evening Robert Ke-  
ly and family arrived somewhat late.  
While driving their car to the road-  
side to allow approaching autos to  
pass, their own car was driven over  
the embankment on the winding hill  
north of Pinckney, and it was not un-  
til about midnight that they were  
righted so that they could resume their  
homeward journey.

Holly papers both issue a warning as  
to roof walking salesmen who have  
worked that territory and found a lot  
of victims who have bought watches  
for nearly twice as much as local deal-  
ers were asking. The Advertiser says:  
An instance of this kind has been re-  
ported to us where the purchaser  
bought nearly double the number of

Make your Ford look like \$1000 for

Made in your home town—Pinckney  
Bread—Its good.

Made in your home town—Pinckney  
Bread—Its good.

Leo Monks of Bay City spent the  
week end and Labor Day visiting his  
mother Mrs. Alfred Monks.

Dr. and Mrs. W. B. Watts of Cleve-  
land and Mrs. Jeanette Watts of New  
York City visited at the home of Dr.  
and Mrs. H. F. Sigler one day last  
week.

Mr. and Mrs. Percy Swarthout and  
Mrs. M. J. Reason were in Ann Arbor  
Tuesday.

Mrs. Mary Reason and Morley Reason  
of Lansing visited at the home of  
Mr. and Mrs. Charles Teeple the first  
of the week.

Tanlac has the largest sale of any  
medicine in the world. Over Twenty  
Million bottles have been sold in six  
years. No other medicine has ever ap-  
proached it as a seller. F. E. Weeks.

Mr. and Mrs. Elmer Sweeney of  
South Dakota spent the first of the  
week at the home of Mr. and Mrs.  
Ed. Cook.

Mr. and Mrs. F. G. Jackson and  
Harry Jackson of Detroit visited  
friends here Labor Day.

Mr. and Mrs. Fred Catrell and Wal-  
ter Cook of Howell visited at the home  
of Mr. and Mrs. Ed. Cook Monday.

Miss Myrta Hall of Williamston was  
a Labor Day visitor at the home of  
Ed. Cook.

Mr. and Mrs. Oscar Helsing who have  
been visiting her parents Mr. and Mrs.  
F. N. Burgess the past six weeks have  
returned to New York City.

Henry Diehl went to Detroit this  
Thursday, taking six of the silver  
foxes from the Millford ranch for ex-  
hibition at the wild life department of  
the state fair.—Milford Times.

Tuition rates at Howell have been  
increased to \$40 in the first six grades,  
\$50 in the seventh and eighth and \$80  
in ninth to twelfth grades.

Mr. and Mrs. Eugene Dinkel of  
Chubb's Corners entertained the fol-  
lowing people for dinner Sunday: Geo.  
Reynolds of Colorado, Dwight Rey-  
nolds of Ann Arbor, Walter Dinkel

Dinkel of Pinckney, and J. C. Dun-  
bar and family of Jackson.

Mr. and Mrs. S. J. Beardsley, Mrs.  
H. Fellows and Lloyd Fellows of  
Jackson returned Monday from an  
auto tour to Hannibal, Oswego  
County, N. Y., where they visited Mr.  
Beardsley's sister. They returned  
through Canada, stopping at Niagara  
Falls.

Tanlac, that celebrated medicine,  
makes you eat better, feel better, and  
work better. Sold by F. E. Weeks.

Make your Ford look like \$1000 for  
\$12. Ask J. M. Bennett how to do it.  
Inquire at Meyer's Garage. 28-1f

Made in your home town—Pinckney  
Bread—Its good.

A. Riley Crittenden of Howell will  
occupy the pulpit at the Federated  
Church next Sunday morning and eve-  
ning. The subject in the evening will  
be "Inside Life in Michigan State  
Prison."

Glenn Hinchey and Orla O'Pinck-  
ney have received word from Secre-  
tary F. L. Houghton of Brattleboro,  
Vt. that they have been elected to  
membership in the Holstein-Friesian  
Association of America. This Associa-  
tion is the largest dairy cattle associa-  
tion in the world, having a mem-  
bership of over twenty thousand on its  
rolls, representing over five hundred  
thousand registered pure bred Hol-  
stein animals. Holstein cows have  
broken all records for milk and butter  
fat repeatedly. Official tests of this  
kind are conducted under the super-  
vision of the Agricultural Colleges.  
The last record of note is that of a  
cow owned by the Carnation Stock  
Farms of Seattle, Wash. Segis Pieter-  
Farms Prospect, a seven year old cow,  
produced in 865 days 37,381 lbs. of milk  
and 1158.95 lbs. of butterfat, equiva-  
lent to 1448.7 lbs. of butter, an aver-  
age yield of over 1 1/2 tons of milk  
every month.

Huge Stone in Roosevelt's Honor.  
The greatest block of stone ever  
quarried or transported in the United  
States or anywhere else on earth is  
going to be hewn and brought to  
Washington for the monumental Theo-  
dore Roosevelt national memorial. The  
memorial is to take the form of a  
block some 80 by 40 feet in dimensions,  
and it is to be carved by Carl Ethan  
Akeley out of a solid block of rock.

Where the stone is to come from ap-  
pears not yet to be determined. One  
authority suggests it may be neces-  
sary to build a special railroad and  
equipment to bring it to Washington.  
The memorial will be the biggest job  
in stone. It is said, since the sphinxes  
were set up on the plains of Egypt—  
Philadelphia Public Ledger.

### TO CLIMB MOUNT EVEREST

British Royal Geographical Society  
Said to Be Contemplating Am-  
bitious Expedition.

Enormous interest has been aroused  
by the announcement that the Royal  
Geographical society contemplates fit-  
ting out an expedition to attempt the  
ascent of Mount Everest, in the  
Himalayas. For not only is this the  
highest mountain on the globe; but it  
is also the world's mystery mountain.  
Although it was discovered 70 years  
ago, no European has yet succeeded  
in getting anywhere nearer than about  
fifty miles to it, much less setting foot  
on its slopes.

This is because it so happens that it  
is situated partly in Nepal and partly  
in Tibet, and the governments of both  
these countries object to the presence  
of European explorers.

Besides this the Nepal base of the  
giant mountain is in any case prac-  
tically unapproachable, owing to the  
dense jungle growth, extending for a  
width of 60 or 70 miles all round, and  
into whose depths no white man may  
venture and live.

The proposal now is to attempt the  
ascent from the Tibetan side. This is  
doubtless possible, but whether the  
summit can be reached or not is an-  
other matter.

Most experts say not, and point to  
the fact that the duke of Abruzzi's  
attempt to scale Mount Godwin-Aus-  
tin, Everest's mighty neighbor, and  
the second highest peak in the world,  
resulted in failure.

He ascended as far 24,600 feet, but  
was then obliged to turn back, owing  
to the difficulty of breathing, due to  
the extreme rarefaction of the air.  
Mount Everest is more than 29,000  
feet high.

### EGGS FROM GEESE IN WINTER

Good Plan to Arrange So That  
Goslings Will Be Hatched by Time  
There is Good Pasture.

Geese are fed a ration to produce  
eggs during the latter part of the win-  
ter, so that the goslings will be  
hatched by either hens or geese. Some  
breeders prefer to raise all the gos-  
lings under hens, as geese sometimes  
become difficult to manage when al-  
lowed to hatch and rear their young.  
The period of incubation of goose  
eggs varies from 28 to 30 days.

### WANTS FOR SALE ETC.

FOR SALE—All kinds of furniture.  
Inquire John Romberger on the  
Gilchrist farm.

SEED WHEAT—I have a good variety  
of seed wheat known as the Silver  
Chaff, has a 62 lb test, that I will

"YOUR OLD UNCLE."

Synopsis—Lonely and friendless, Tonibel Devon, living on a canal boat with a brutal father and a worn-out, discouraged mother, wanders into a Salvation army hall at Ithaca, N. Y. There she meets a young Salvation army captain, Philip MacCauley. Uriah Devon, Tony's father, announces he has arranged for Tony to marry Reginald Brown, a worthless companion. Mrs. Devon objects, and Uriah beats her. Their quarrel reveals that there is a secret between them in which Tony is the central figure. Tony refuses to marry Reginald and escapes a beating by jumping into the lake. She finds a baby's picture with offer of reward for its delivery to a Doctor Pendlehaven. With the Pendlehavens, a family of wealth, Mrs. Curtis, a cousin, her daughter, and son, Katherine Curtis and Reginald Brown. Katherine is in love with Philip MacCauley. Tonibel returns the picture to Doctor John, and learns it belongs to his brother, Dr. Paul Pendlehaven. It is a portrait of Doctor Paul's daughter, stolen in infancy. Doctor John goes with Tony to the canal boat. Mrs. Devon is deeply agitated and makes Tony swear she will never tell of Devon's brutality. The older Devons disappear, and Tony is taken into the Pendlehaven house as a companion to Doctor Paul. Philip saves Tony from Reginald, after a fight on the boat. Uriah appears, orders Philip off and locks Tony up. Philip again rescues her. They exchange love vows. The Curtises are furious over Tony's presence. Philip and Tony unexpectedly meet in the Pendlehaven home. Doctor Paul improves under Tony's care.

CHAPTER X—Continued.

That afternoon he met Captain MacCauley on State street. The sight of Reggie's slim swaggering figure brought Philip to a quick decision. He stopped directly in front of Brown, and as it was the first time they'd met...

CHAPTER XI.

"I Love You More'n the Whole World!" One late afternoon Philip MacCauley started for the Pendlehavens, desirous of seeing Tony Devon. Katherine saw him guiding his car up the roadway and ran to the door to meet him. Her smile was especially radiant, and she had begun to speak...

Dr. Pendlehaven's face gathered a dark look. "If she'll go with Phillip, Sarah," he said, "I wouldn't give a hang what the neighbors said. Come along up, Phil, and ask her."

"Cousin John!" cried Mrs. Curtis. "And, oh, Cousin John," gasped Katherine. But the doctor was too angry to pay any heed to them.

"You really want to take the child, my lad?" he asked, smiling at MacCauley.

"Yes, do let me," blurted the boy. "Let's go up now."

They had no more than closed the door when Katherine burst into tears and Mrs. Curtis plumped down into a chair in a spell of hysterics.

"The little trollop," she cried. "Oh, I'd like—"

"I'd like to kill her," burst forth Katherine. "Mother, if you don't do—"

THE TRIALS OF A HOUSEWIFE

How They Have Been Endured and How Overcome by Lydia E. Pinkham's Vegetable Compound

Experience of a Providence Woman

Providence, R. I.—"I took Lydia E. Pinkham's Vegetable Compound for a female trouble and backache. It began just after my baby was born, and I did the best I could about getting my work done, but I had awful bearing-down pains so I could not stand on my feet. I read in the papers about Lydia E. Pinkham's Vegetable Compound and the good it was doing other women, and I have got dandy results from it and will always recommend it. You can use these facts as a testimonial if you wish."—Mrs. HERBERT L. CASSEN, 18 Meni Court, Providence, R. I.

Ohio woman for three years could hardly keep about and do her housework she was so ill. Made well by Lydia E. Pinkham's Vegetable Compound. Fayette, O.—"For about three years I was very nervous and had backache, sideache, dragging-down pains, could not sleep at night, and had no appetite. At times I could hardly do my housework. I got medicine from the doctor but it did not help me. I saw Lydia E. Pinkham's Vegetable Compound advertised in a newspaper and took it with good results, and am now able to do my housework. I recommend your medicine to my friends and you may publish my testimonial."—Mrs. CHESTER A. BALL, R. 15, Fayette, Ohio.

An Illinois woman relates her experience: Bloomington, Ill.—"I was never very strong and female trouble kept me so weak I had no interest in my housework. I had such a backache I could not cook a meal or sweep a room without raging with pain. Rubbing my back with alcohol sometimes eased the pain for a few hours, but did not stop it. I heard of Lydia E. Pinkham's Vegetable Compound, and six bottles of it have made me as strong and healthy as any woman; and I give my thanks to it for my health."—Mrs. J. A. McQUITTY, 610 W. Walnut St., Bloomington, Ill.

The conditions described by Mrs. Cassen, Mrs. Ball, and Mrs. McQuitty will appeal to many women who struggle on with their daily tasks in just such conditions—in fact, it is said that the tragedy in the lives of some women is almost beyond belief. Day in and day out they slave in their homes for their families—and beside the daily routine of housework, often make clothes for themselves and for their children, or work in their gardens, all the while suffering from those awful bearing-down pains, backache, headaches, nervousness, the blues, and troubles which sap the very foundation of life until there comes a time when nature gives out and an operation seems inevitable. If such women would only profit by the experience of these three women, and remember that Lydia E. Pinkham's Vegetable Compound is the natural restorative for such conditions it may save them years of suffering and unhappiness.

There is hardly a neighborhood in any town or hamlet in the United States wherein some woman does not reside who has been restored to health by this famous medicine. Therefore ask your neighbor, and you will find in a great many cases that at some time or other she, too, has been benefited by taking it, and will recommend it to you. For more than forty years this old-fashioned root and herb medicine has been restoring suffering women to health and strength.

This book contains valuable information.

Prudent Mentality. "You appear rather proud of the fact that you are unable to understand the relativity theory." "I'm not exactly proud," replied Senator Sorghum, "but I am resigned. I put great faith in the wisdom of the plain people. So long as the plain people didn't get the idea I don't believe it would be to my advantage to assert any superior intelligence or exclusive information."

Interrupted Profit. "I understand there is all in the neighborhood of Crimmon Gulch." "There is," replied Cactus Joe. "But it was mismanaged. They insisted on tryin' to get it out in paying quantities instead of goin' on forever sellin' stock."

Not So Alluring. Critic Brander Mathews said at a Columbia tea: "Suggestion, rather than detail, makes the most vivid picture. Detail, indeed, may spoil a picture completely."

"A preacher was describing heaven to a widow whose husband had just died. He said that the separation of dear ones was not for long, and then with elaborate detail he pointed the happiness of those whom death reunited in Paradise.

"When the preacher stopped for breath the widow observed thoughtfully: "Well, I suppose his first wife has got him again, then."

The fit of a tailor-made suit often depends on the pockets.

The Spirit of "Color Disks" glazes at you from certain walls. Disease casts its baleful shadows from unsanitary walls. Cheerfulness, happiness, health, serene peacefulness is the beautiful "Spirit" of Alabastine walls.

Brighten Up Your Walls This Fall

Have the walls of your rooms cheerful and sanitary, to reflect cheerfulness instead of gloom. Have walls that will harmonize with rugs and furniture, colors that will enhance and not detract from your gowns and personal appearance.

Alabastine

for Your Walls—Instead of Kalsomine or Wallpaper

Alabastine will give you that soft, pastel effect in neutral colors that so many are enjoying in the most attractive homes and public buildings. Alabastine is artistic, sanitary, durable and economical. Alabastine has distinctive merits recognized throughout the world; ready to mix and use by adding cold water.

Our Decorative Service Department

Our decorative department has the ability to serve you, and the desire to do so. We have the experience of planning interior decorations for thousands of the best homes and that experience is yours for the asking. Remember, there is only one quality of Alabastine and at a very economical cost.

You purchase the same identical material that goes into the home of the millionaire. The Alabastine packages always have the cross and circle printed in red and are identical in quality. This being the case, the question of whether your walls are artistically decorated depends on the proper treatment of colors.

Write us a postal that you are interested and we will send you a Chart that may be used in connection with the information we will enable our crew to send to you intelligently and there will be no cost or obligation on your part. Our return? A properly decorated building is one of our best advertisements.

The Alabastine Company 1635 Grandville Avenue Grand Rapids, Michigan

A little drop of something for Dr. Paul.

Unclassified. "Yes," said the mobbish young lady, "I realize that it takes all kinds of people to make a world, and I am very glad I am not one of them."—American Legion Weekly

# Short Skirts-- Straight Lines

The styles of today are on their way to make room for the styles of tomorrow. At this season of the year we are in the painful process of transition, but the wise ones will watch the signs of the times to see how some fashions will survive and others be cast into the discard. Just now, says a New York fashion writer, we hear some hardened skeptics saying that women will never depart from adopting extreme fashions to make themselves conspicuous, or some such antique theory as that. But there are others who assert that the short-haired girl has come to stay, because that way of dressing her locks is more practical and that the corsetless figure, with its straightline clothes, is with us for life, for the same reason. Who knows? If we are women, we must needs conform to the changes in fashion, whatever our inclination. And most of us incline to conform. We get that peculiar feminine thrill out of a new frock which no other proceeding on earth can bring with it. Buying for Winter.

Western buyers are putting in their first stocks for winter. They are cleaving to short skirts and to straight lines. But this is always the way of this period of the season. They follow closely in the trail of present fashions, as any wild flights of fancy might lead them into untold paths of loss and unappreciation. The duty, and, yes, the desire, of the New York public is to go on beyond, creating new types of fashion which, in their turn, will be followed just as assiduously by others next season.

The success of the spring coat and the adaptability of the one-piece dress have joined hands, the two making their autumn bow as a coat dress. Of course, we have had coat dresses before this, but the predictions are that they will be more brilliant achievements this coming season. News from Paris indicates that we are following the lead right here, for many of the wholesalers have reported that sales in this particular direction are going strong.

A new slogan might be: "It is the belt that makes the gown," for in many instances all else is plain, and the winding around the waist becomes the center of the design of the whole frock. All sorts of fancy ribbons and brocades are brought into play for this form of decoration. Then there are cords, ropes and strings of beads and

Women are accustomed to regard their evening wraps as the most colorful of their adornments, and, by this new development of fashion, they will lose not a jot in regard to smart and becoming embellishment. In the mountains, on the golf course, in fact, when indulging in outdoor sport of any kind, one wonders why ladies do not wear "knickers." They look so free and much more modest than the short, tight skirts, which

Straight-Lined Serge Coat, With Trim Braiding and a Bit of Gray Fur, is a Fall Style.

## The KITCHEN CABINET

Be diligent and faithful, patient and hopeful, one and all of you; and may we all know, at all times that verify the Eternal rules above us, and that nothing finally wrong has happened or can happen.—Thomas Carlyle.

### WARM WEATHER DISHES.

Crisp vegetables, cool drinks and all kinds of ices and sherbets, together with the luscious fruits and melons that are so plentiful, will help to make the warm days of late summer more pleasant.

**Cucumber Salad.**—Slice three cucumbers, three hard-cooked eggs, one cupful of olives, chopped, three-fourths of a cupful of nutmeats; serve with mayonnaise in tomato cups or on crisp lettuce leaves.

**Combination Salad.**—Take two cupfuls of tender green peas, cooked until tender, one cupful of finely diced celery, one-half cupful of rolled peanuts, crisp and freshly roasted, one-half cupful of olives finely chopped, a tablespoonful of scraped onion, added to the salad dressing which should be highly seasoned. Line a salad bowl (after rubbing it well with a cut clove of garlic) with crisp heart leaves of lettuce and heap in the salad. Garnish with three hard-cooked eggs, or add two of the eggs to the salad and use the remaining one for a top garnish.

**Ginger Ice Cream.**—Take two cupfuls of scalded milk, one teaspoonful of flour, one cupful of sugar, one beaten egg, a dash of salt, one quart of thin cream, one tablespoonful of vanilla, one-half cupful of Canton ginger cut in small pieces, and three tablespoonfuls of the ginger syrup. Scald the flour and the milk, cool and add the other ingredients, then freeze as usual. Plain vanilla ice cream is delicious with a ginger sauce if one is fond of that flavor.

**Mint Julep.**—Boil one quart of water and two cupfuls of sugar together twenty minutes. Bruise twelve large sprigs of mint, let steep closely covered five minutes in one and one-half cupfuls of boiling water, strain, add the liquid to syrup. Add one cupful of orange juice, one cupful of strawberry juice and three-fourths of a cupful of lemon juice. Pour into a punch bowl, add a block of ice and two pints of charged wa-

**Muskmelon Cocktails.**—Use a small potato scoop and arrange the balls in chilled sherbet glasses. Pour over a syrup made of sugar water and orange and lemon juice, or canton ginger syrup, with some of the chopped ginger in the sauce, is especially delicious. Garnish with a sprig of mint. Serve ice cold.

I deal with water and not with wine. Give me my tankard then. —R. Jonson.  
Men really know not what good water's worth.—Don Juan.

### GOOD THINGS TO CHERISH.

The following recipes are worth putting into the family cook book for once tried they will be used again and again.

**Italian Tutti-Frutti Ice.**—The combination of fruit for this delicious dish may be made to conform to one's taste and the season. Oranges, plums, strawberries, raspberries, small balls of watermelon, apricots and other fruits in season. The pulp and grated rind of the oranges are used. The stones from plums and apricots are removed and the fruit is weighed, allowing an equal weight of sugar. Make layers of the fruit and sugar, having the sugar on top. Let stand over night and in the morning just bring to the boiling point to make sure that the sugar is dissolved. Do not boil, however; cool and when cold freeze as for any ice.

**Grape Juice Ice.**—Take one pint of sweetened grape juice, one quart of thin cream, one tablespoonful of lemon juice, taste and sweeten if necessary, then freeze. Serve in sherbet cups, top with whipped cream or a spoonful of vanilla ice cream.

**Old Southern Cake.**—Cream three-fourths of a pound of butter, add one and one-half pounds of sugar. When well mixed add the yolks of six eggs well beaten, then three-fourths pound of pastry flour, about three cupfuls sifted with one-half a grated nutmeg and one teaspoonful of ground cloves, added alternately with one pint of rich milk. Fold in the stiffly beaten whites and one pound of sultana raisins chopped and mixed with flour. Bake in a large pan, about three inches deep, the batter half filling the pan.

**Tomato With Macaroni.**—Mix two cupfuls of well cooked macaroni or spaghetti with one cupful of white sauce, sprinkle with one-half cupful of grated cheese. Spread this on a deep glass pie plate. Over the top place tomatoes cut in halves, cut side up. Sprinkle with salt and pepper, dot with bits of butter, and sprinkle with buttered crumbs. Bake in a hot oven until the tomatoes are soft but unbroken.

**Bloused Back Favored.** The bloused back seems to be coming a permanent fashion.

## Children Cry For

# Fletcher's CASTORIA

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

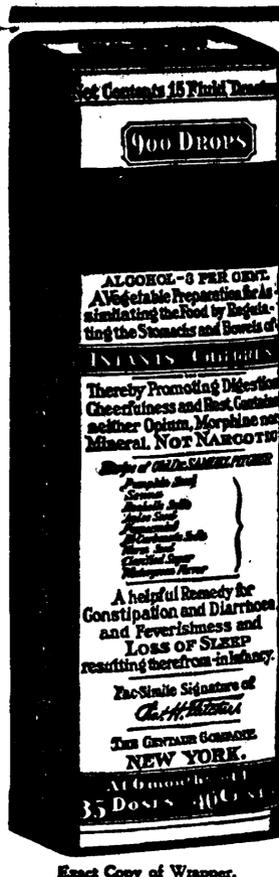

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

## CAR DRIVING HARD ON FEET

Use of Accelerator Causes "Short Circuit" of Pedal Nerves or "Motor Foot," It Is Said.

When car owners return from their summer vacation many of them return limping. A new summer epidemic is at large in the ranks of vacationists.

The new ailment has been given the popular name of "motor foot." In the language of surgical chiropody it is indexed and classified under the name of "metatarsal displacement."

Continuous motoring is the cause of the ailment. It is a right foot trouble caused by the continuous strain occasioned by long motor trips when the driver keeps his foot in the strained

## She's Suffering.

A Detroit mother with one child stated in court that she is not able to get along on \$31,000 a year. How much happier we all could be were it for not being compelled to read at times of the suffering of others.—Detroit News.

## Freshen a Heavy Skin

With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented convenient, economical face, skin, baby and dusting powder and perfume. Renders other perfumes superfluous. One of the Cuticura Toilet Trio (Soap, Ointment, Talcum).—Advertisement.

## WHY JOHN WAS NOT SMOKING

Wide of the Mark.

All the men at the club have been watching Johnnie Edwards, the inveterate smoker, for the last week, and there's been much surmising and conjecturing, but Johnnie wouldn't give himself away. It seems that Johnnie has held the prize for the champion smoker of the club for ten years.

In the last week Johnnie has been seen strolling around the room with a dejected, lost appearance and between his lips always the inevitable cigarette. But it was never lighted. Nobody liked to ask him questions and he didn't volunteer any explanation, so it wasn't explained until Jimmie Van-Veek overheard him say on the telephone:

"No, you have got to stick to your word now. I swore off if you would, and goodness knows I want one bad enough, but Doc says you've gotta leave 'em alone for a while. Now be a good little mother and remember your promise."—New York Sun.

High Praise.  
"What sort of a young fellow is he?" "The sort you'd like to have for a son-in-law."

This position causes a displacement of the metatarsal bones which in turn causes them, in motor language, to "short" the nerves of that part of the foot. This in turn is the answer for the pain that accompanies the distinction of possessing "motor foot."

"Motor foot" not only makes walking painful, but practically eliminates golf, tennis or any of the other popular forms of active recreation.

**Knew What He Was Doing.**  
Photoplay Writer—"But look here! This character is supposed to be a very homesy man, and you have cast for that part the handsomest man in your company." Director—"Oh, he'll be homesy enough when the camera man and the developer get through with him. You see, he's engaged to the star, and both of those boys are in love with her."—Film Fun.

**Not From His Viewpoint.**  
"This town is noted for its beautiful women."  
"Aw, g'wan! I'm the ice man!"

Life never rises any higher than the belief. The man who believes wrong will behave wrong.

## The Folly of Cheating Nature

Many people get the idea that they can keep their nerves on edge and their digestion upset year after year, and "get away with it." They sleep only half as much as they should—and never get properly and thoroughly rested.

If you tire out easily, if you are getting pale and anemic, if your food doesn't digest as it should, would it not be well to stop and consider whether coffee or tea is having its effect on you?

The caffeine and their found in coffee and tea are drugs, as any doctor can tell you. Is it any wonder that the steady use of these drugs sometimes causes serious damage?

If you really want to be fair with yourself, and

give yourself the opportunity you deserve in order to do your best work, make up your mind to quit coffee and tea for awhile—and drink delicious, appetizing Postum instead.

Postum permits sound, refreshing sleep which builds strength, energy and endurance.

Order Postum from your Grocer today. Drink this hot, refreshing beverage in place of tea or coffee for 10 days and see what a wonderful difference it will make in the way you feel.

Postum comes in two forms: Instant Postum (in tin) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

**Postum for Health**  
"There's a Reason"

by itself, and its association with the gown brings both into relief with a fascination one cannot fail to appreciate.

### Wool Shawls for Winter.

The desire for Spanish shawls is not, it seems, just an isolated flight, for we are to have shawls for the winter, too. They are to be of wool and embroidered, and, generally speaking, they are to retain much of the grace and charm possessed by the highly colored ones of this season. Women have found them too becoming

Straight Lines Are Conspicuous on the Fall Suit Models That Have Made Their Appearance.

ing to part with them lightly, and they are practical adjuncts to the wardrobe, to be sure, for they can be thrown across the shoulders carelessly, yet effectively, if keeping out frigid blasts happens to be a subject of any moment.

The Spanish influence, of which the shawl is but one reflection, is transferring itself to evening wraps in gay Paris. French ladies are taking the Spanish designs and the Oriental designs, and combining them to make some of the best-looking wraps that have been devised for many a long

tively participating in sports. They manage to get in one's way in the most miraculous manner, while "knickers" do nothing of the sort. They keep their place and harmonize with strenuous activity as though they understood their business perfectly. Knickerbocker suits are made from the most delightful sorts of materials—all those homespun and hand-woven tweeds which are the joy of the present season. They have about the sportiest look of any of the newer sport clothes, and one might venture to say they have come to stay.

Prices are dropping to something approaching normal. Materials are far less costly than they were, and consequently ready-to-wear garments are coming down in sympathy with necessities as well as luxuries.

In Paris the mannequins at the races have been wearing skirts that are very full and very long and hooped out around the bottom after the Spanish manner. As yet they say that the ladies on the Paris streets are not indulging in this fashion, but if the models are doing it, then we have reason to take notice that this may be accepted style for autumn.

**Radium Silk for Lingerie.**  
As one of the necessary attributes of lingerie just now is that it shall be nontransparent, the artists who are designing the newer models have taken radium silk into the scheme of their calculations, and with some very attractive results. It is presented in the lighter pastel shades and, when made on the simple, prescribed lines and trimmed with some bits of handmade lace and ribbons to add to its charm, it appears a real creation. Especially are the long chemises good in this material, as they are often called upon to do duty for petticoats as well. Handkerchief linen is used, too, for the smarter pieces of underwear. It scoffs at silk and holds itself in a quite superior class.

One of the events of Paris is the Bal de l'Opera, and this season, they say, the costumes and the colors and the designs were lovelier than ever they had been in the past. As for color, the fuchsia shades and royal purple, with royal red, were the favorites, being so brilliantly beautiful. It is believed they may set the color note for the smart ones of the season. There were numbers upon numbers of long, hooped skirts, and the costume designs were so exquisitely fashioned that they offered all sorts of suggestions for the capes, especially as to the calash hoods, which have already been handled sparingly. Laces were made up in every sort of guise, and an astonishing number of the hats were done in tricorn shape.

The new wrap is to make many of the sleeves long and straight and wide set into armholes that almost succeed in reaching the waistline.

Bloused Back Favored. The bloused back seems to be coming a permanent fashion.

## Correct English.

A Franklin mother had been teaching her three-year-old son correct English and told him he must never say "ain't."

One day, while eating his dinner, he stopped abruptly and said:

"Mother, you mustn't ever say 'ain't' for it's a naughty word."

"Yes," said mother, "you are right. Robert, but what shall I say?"

He looked puzzled and then his face lighted up and he replied:

"Why, mother, you must say 'excuse me,' meaning 'excuse me.'—Indianapolis News.

## Long Distance Investment.

"What was he arrested for?" "Selling canal stock." "That isn't a criminal offense, is it?" "The canal is on Mars."

Is backache keeping you miserable? Are you "all played out," without strength or vigor for your work? Then find what is causing the trouble and correct it. Likely, it's your kidneys! You have probably been working too hard and neglecting rest and exercise. Your kidneys have slowed up and poisons have accumulated. That, then, is the cause of the backache, headache, dizziness and bladder irregularities. Use Doan's Kidney Pills. Doan's have helped thousands and should help you. Ask your neighbor!

## A Michigan Case

G. W. Singer, farmer, Whitney St., Grand Lodge, Mich., says: "I had kidney weakness. My limbs were stiff and it was hard for me to stoop or lift anything. I could get no rest at night because of the cutting pains in my back and limbs. I also had headache and pains across my shoulders. Doan's Kidney Pills gave me fine relief from this trouble."

# ANNOUNCEMENT

M. Elmer S. Ford, President of the Ford Motor Company, makes the following announcement:

"We are making another reduction in the prices of Ford cars and the Ford truck, effective today. The new prices average \$70.00 under former prices, and are the lowest at which Ford cars and trucks have ever been sold. List prices, F. O. B. Detroit are now as follows:

Touring, Regular	\$382.64
Touring & Starter	\$456.53
Touring & Demountables	\$408.89
Touring & Starter & Demountables	\$481.56
Roadster	\$351.41
Roadster & Starter	\$424.29
Roadster and Demountables	\$377.44
Roadster & Starter & Demountables	\$450.33
Chassis, Regular	\$315.30
Chassis & Starter	\$387.03
Chassis and Demountables	\$340.92
Chassis & Starter & Demountables	\$412.65
Coupe	\$632.54
Sedan	\$700.23
Truck	\$469.01
Tractor	\$644.50

These prices include delivery, war tax, gas, and oil.

"This is the third price cut during the past twelve months. On September 22, 1920, the price of the Ford touring car was reduced from \$575 to \$440; June 7th to \$415, and now to \$355, making total reductions in this type of \$220, or 38 per cent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford Sedan was \$975; today it lists at \$660 with the same equipment.

"We are taking advantage of every known economy in the manufacture of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help the country into more prosperous times. People are interested in prices and are buying when prices are right.

"The production of Ford cars and trucks for August again broke all previous high records, with the total reaching 117,696. This is the fourth consecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,074, which has gone a long way in making possible the present reductions. June this year, with an output of 137,247 was the previous record month.

"One noteworthy feature of our sales is the increased demand for Ford trucks and cars for salesmen. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

none is contemplated.

Go over these new prices! See how little it costs to become the owner of a Ford car or a Ford truck. Can you really afford to do without one any longer?

Let us tell you more about it, and advise you regarding the delivery of the particular type of car in which you are interested.

# Teepie Hardware

### The Catch.

A man remarked that he came from a very large family.

"How many of you are there?" he was asked.

"Well," there were ten of us boys," he said, "and each of us had a sister."

"Good gracious!" exclaimed the other. "Then there were twenty of you?"

"No," said the boastful man, "eleven."

### His Honor's Guess.

In Ireland some years ago an Irish-American was brought up before Justice Barry on the charge of suspicious conduct. The officer who arrested him stated, among other things, that he was wearing a "Republican hat."

"Does your honor know what that is?" asked the counsel.

"It may be," responded the judge, "that it's a hat without a crown."

### That Would Be Enough.

A gentleman took his little daughter to a toy shop to buy her a doll. "Now, what sort of a doll would you like, my dear?" said he, as a large assortment was placed on the counter by the shopman. After some hesitation the little girl replied:

"I think I'd like to have twins, please."

### Most Likely.

"Well, at any rate," remarked the fat dweller, "I don't have to pay any garage bills."

"How much is your rent?"

"Three little rooms and a truck kitchen cost me \$100 a month."

"Don't flatter yourself. Some of that money helps to pay your landlord's garage bills."

### In Doubt.

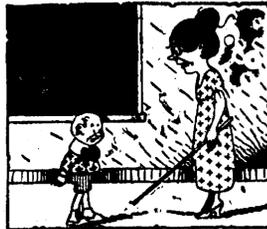

"Is this letter intended to convey gratitude or what?"

"What does he say?"

"Thanks me for passes to the race-track and says he lost \$40."

"The information that D'Annunzio was going into a monastery doesn't appear to be verified."

"That wasn't information," rejoined Miss Cayenne. "That was a hope."

### WILLING TO DIVIDE THE SPOILS

Teacher: Who drew that picture of me on the blackboard?

Bobbie: Please, teacher I did. Tommie bet me a penny you wouldn't recognize it, an I'll go 50-50 if you won't wallop me.

### Picture and Frame.

The optimist doth try to win Contentment for mankind. By making life a picture in A gilded frame of mind.

### Inviting Comparisons.

"How did the book reviewers handle your latest publication?"

"As usual," replied the patient author. "They showed how much better they could have done the work if they had happened to think of undertaking."

### With Malice Prepenes.

"Look left, eh?"

"Yes, she was too good. During the month she was with us my wife gained 20 pounds."

"Where is she now?"

"My wife managed to work her off a woman she detests."

### The Drawback.

"There is only one reason I know of why a woman doesn't have a say in everything going."

"What is that?"

"If she's dumb."

### Appearances Deceiving.

"What's the fare, driver?"

"Five dollars, sir."

"No, it isn't. Here are \$2. I am not such a fool as I look."

"No, sir. I wish you were, sir."

### Typical.

Mr. Henpeck—I'm a submarine.

Mr. Jolliboy—What do you mean?"

"Why, in the sea of matrimony I'm usually kept well under."

### How Some Americans Feel.

"So you want to go abroad?"

"Yes," said the disgruntled citizen.

"Any particular destination in mind?"

"Nope. What's the nearest place?"

### Something to Be Thankful For.

"Pa, somebody has stolen our auto!"

"Well, let's be thankful there wasn't more than a gallon of gasoline in it, anyhow."
