### COUNTY FAIR

The Boys' and Girls' Club work at the County Fair at Howell was a decided success in every way. It was a worth while addition to the fair, and the fair association used good judgement in making the extra arrangements to accommodate the work.

It was very interesting to note the good sportsmanship atmosphere that prevailed among the boys and girls, whether they won or not, which is the thing that really counts. The boy or girl with this spirit usually comes out in the front ranks the next year.

The winners in Holsteins were as follows:

Heifers—One to six months

1st Hope Carr, Fowlerville.

2nd James Nash, Pinckney.

3rd Zule Reed, Howell.

4th Mark Nash, Pinckney.

Heifers—Six months to one year

1st Ithodora Crandall, Howell.

2nd Cyril Rose, Howell.

3rd June Carr, Fowlerville.

4th Harry Gibson, Fowlerville.

Heifers—One year and over

1st William Gilges, Howell.

2nd Robert Borden, Howell.

3rd Lazory Reed, Howell.

Bull—Under six months

1st Francis Yelland, Howell.

Bull—Six months and over

1st Carlyle Hoover, Howell.

2nd Spencer Worthington, Howell.

Hogs—Duroc-Jersey Boars

1st Glenn Gibson, Fowlerville.

2nd Alden Stowe, Fowlerville.

Sows—

1st Wayne Gibson, Fowlerville.

2nd Lyle Jeffrey, Fowlerville.

Chester White Sows—

1st Marion McDonald, Pinckney.

2nd Clarence Blade, Pinckney.

Sheep—Ewe Lamb

1st Huber Sober, Fowlerville.

Buck—

2nd Glenn Armstrong, Fowlerville.

Sewing—Garments.

1st Agnes Watson, Gregory.

2nd Shirley Barton, Gregory.

3rd Esther Barnum, Gregory.

Sewing Bags—

1st Kathleen Carnes.

2nd Marion Cranna.

Canning—Total Exhibit

1st Martha Hosley.

2nd Dorothy Eisele, Fowlerville.

3rd Kath. rine Hosley, Howell.

The following girls won first prizes

on single jars of different vegetables

and fruits: Dorothy Eisele, Margaret

Watters, Martha Hosley, Katherine

Hosley, Agnes Webb, Helen Webb,

Gertrude Solomon and Irene Eisele.

Those who won second prizes are:

Gertrude Solomon, Helen Sager, Nor-

line Peterson, Louida Osborne, Kath-

erine Hosley, Martha Hosley, Gladys

Wilcox, Agnes Webb, Margaret Wat-

ters and Helen Webb.

The following girls demonstrated

from the Busy Bee Canning Club for

the trip to the State Fair: Dorothy

and Irene Eisele, Helen Sager and

Margaret Watters. The Silent Work-

ers Club was represented by Agnes

Webb, Martha Hosley, Gladys Wil-

cox and Gertrude Solomon. Helen Sager

and Margaret Watters won as a team

to represent the county by a very

small margin, and demonstrated at the

State Fair.

The general stock judging boys

judged at the State Fair Thursday and

the dairy teams Friday.

C. H. KENNEDY

The KITCHEN CABINET

Go to it! Even an electric button won't accomplish anything unless it is pushed.

VARIETY FOR YOUR TABLE

The greatest help in avoiding monotony in menus is the weekly planning ahead of the meals.

The kind of food we serve depends upon the kind of people we are to serve.

Fats in meats need acid fruits and tart flavors to cut them and make them both appetizing and digestible.

During the heated term the meat dishes should be cut down. Nitrogenous foods have a process of putrefaction which is peculiar to that food.

Fats in meats need acid fruits and tart flavors to cut them and make them both appetizing and digestible.

Forenoon and afternoon and night, forenoon and afternoon and night and what the empty song repeats itself no more; yea, that is life.

SOMETHING TO EAT

Tuna fish has been called the turkey of the sea.

California Chickens. Pie.—Take a large can of tuna, two carrots diced, two medium-sized potatoes diced, one medium-sized onion chopped, one cupful green peas, one tablespoonful of butter, two tablespoonfuls of flour, one cupful of milk, one teaspoonful of salt, one-fourth of a teaspoonful of pepper, and paprika.

Date Crumbles.—Beat two eggs, add one cupful of sugar, two teaspoonfuls of baking powder and one tablespoonful of flour.

Rhubarb de Luxe.—Take four cupfuls of rhubarb cut in small pieces, two cupfuls of granulated sugar, one-half teaspoonful of mace, one-fourth teaspoonful cinnamon, twelve whole cloves, one large orange.

Fruit Cream.—Beat one egg, one-half glass of jelly and two tablespoonfuls of sugar until it is stiff enough to stand.

Horseshoe Sauce.—Mix one-fourth of a cupful of grated horseradish with one-fourth of a teaspoonful of salt, moisten with vinegar and stir into the mixture one beaten egg.

Nellie Maxwell

Gaudy Sleeves in New Styles

One of the first notes from the Paris opening says: "No great change is shown, except that sleeves are more gorgeous than ever and more varied."

We have grown accustomed to petting and pampering our sleeves as though they were the favorite twins

Sleeve of Lace Cut in Circular Piece (Top), Having Turned-Back Cuff of White Moire. Below: White Puffed Chiffon, Fur Cuff and Cuff of Plaited Organdie, Black Velvet Wristband.

of the family. We know now that unless we pay special attention to that portion of our costume we are lost as far as style is concerned.

A trifle of experimentation will show that the design of one's sleeves can be carried into the line of the gown in such a way that the sleeves become and remain the actual center of attraction and style.

The style declaration that there is no trimming can be accepted and believed until we consider the sleeves of the day. For all the decoration that once was spread over a far broader surface has now been concentrated within the area of the sleeve.

Now there are certain questions about sleeves which might as well be settled at once. First, sleeves will be long. They will still be full, though not quite so extraordinarily so as they have been.

A study of some of the newer sleeves is a good approach to the fall costumes, for, as has been said, they will set the pace.

Among three interesting types of sleeves one is made of strips of beautifully broad ribbon. The design is Egyptian, and the colors are all those gorgeous dull ones that designate that period.

There are any number of ways of using ribbons in these newer and more elaborate sleeves. They fairly blossom forth in this particular, for all the intensely colored ribbons and all those with metal threads and brilliant designs can, in some way, be worked into the design of a gown so that this sort of trimming will look like some intricately executed placement of embroidery.

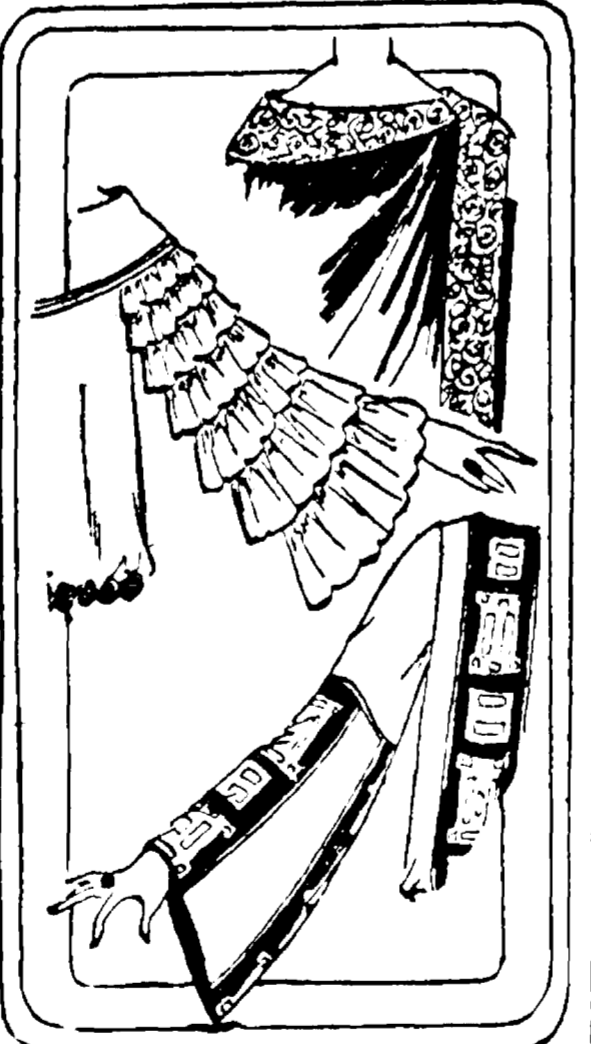

One designer has used many rows of that narrow-patterned grosgrain ribbon to form a band on the end of a full

and transparent sleeve. Another one has made a cap over the top of the arm, or, rather, the shoulder, and has used for this a two-inch woven ribbon placed in a series of strips.

Ruffles of Soft Chiffon. Another sleeve is made of a series of ruffles of soft chiffon. It is a youthful sleeve and one that, doubtless, will find great favor among the younger girls still wanting to look their fluffiest selves.

An interesting sleeve finish is suggested for a dinner dress. The dress itself is one of those draped affairs with the lines of the fabric made gracefully to follow those of the figure itself.

Among the Handsomer Gowns. White organdie and cream tulle, combined with lace, have suddenly become very popular among the handsomer gowns for late summer wear.

Showing Winsome Group of Sleeves That Are Prominent in Some of the Newer Frocks. These Sleeves Range From the Chiffon Ruffles to the Flat Strips of Brocade Material.

a black satin dress quite handsomely trimmed with some of this lingerie trimming that the season's thin and organdie dresses have made popular.

There is the frilled and plaited organdie cuff arranged in three stiff tiers and held snugly around the wrist with a black velvet ribbon band and cut steel buckle.

Indigestion and Dyspepsia Overcome

Victims of stomach trouble, indigestion, dyspepsia and their allied complaints find Tanlac an ever-ready source of relief and comfort.

"Tanlac helped me wonderfully," said Mrs. W. H. Hoeker, 84 Rose Ave., Clifton Forge, Va.

Tanlac helps the stomach digest the food properly and eliminate waste. Soon the whole system is built up, the blood is purified and the entire body takes on new tone, vitality and energy.

Tender-Hearted Creatures. Brown—You know my wife's so tender-hearted she can't whip the cream.

Important to Mothers. Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of Dr. J. C. Fletcher.

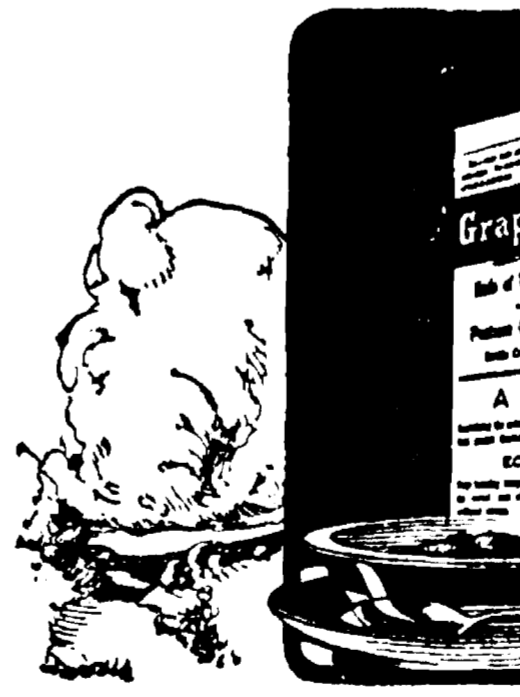

Can You Beat It? He—Why is a vacuum tube like a baby? She—I can't tell you. He—Because it howls.

Freshen a Heavy Skin. With the antiseptic, fascinating Cuticura Talcum Powder, an exquisitely scented, economical face, skin, baby and dusting powder and perfume.

ALL FEEL CHARM OF PARIS. Various Spots May Have Particular Application, but There is Variety for Every Visitor.

The fairy tale of Paris belongs to all of us, in whatever terms it may be told. For some it is Marie Antoinette and the Petit Trianon; and, curiously, by comparison with a rather worthless queen, the great war pales.

But Not Martha. Katharine and Martha, six and four, respectively, visited a neighbor woman who had no children.

10c Makes Old Waists Like New Putnam Fadeless Dyes—dyes or tints as you wish

It's toasted. This one extra process gives a delightful quality that can not be duplicated

### PLAINFIELD

The village school opened Tuesday with Miss Lefa Miller of Marion as teacher.

Miss Lillian Wasson commenced teaching in the Grant district near Fowlerville, last week.

E. L. Topping and Orla Jacobs were in Detroit part of last week.

Frank Lidgard has been on the sick list for a few days past.

The appearance of the school house has been greatly improved by a coat of paint, Mr. Fischer doing the work.

Mrs. Levi Jacobs is spending the week at the home of her sister Mrs. Langfit in Jackson.

Mrs. Rooms and son Rolland of Akron, O., have returned home after a week's visit at Frank Lidgard's.

Miss Ella Montague is at Fred Hoffmeyer's in Millville for a short time.

Mrs. W. J. Wright and little Richard of Ithaca, N. Y., arrived Thursday for a few days stay here and at Stockbridge.

Carl, Marion and Norman Topping and Emerson Kinsey spent Sunday in Detroit, guests of Mr. and Mrs. H. E. Alles.

Services were held in the Presbyterian church Sunday, Rev. Hughes from the council of churches occupying the pulpit.

### SOUTH IOSCO

Mr. and Mrs. Jesse Henry and sons of Pinckney, Mr. and Mrs. Charles Whitehead of Gregory, and Mr. and Mrs. Ernest Bullock of Tacoma spent Sunday at L. T. Lamborn's.

Mr. and Mrs. Martin Anderson and family spent Sunday at N. Burley's.

Mrs. John Rutman visited Mrs. Joe Roberts Monday.

Mrs. L. T. Lamborn and Mrs. Ernest Bullock visited Mrs. John Roberts Friday.

Mr. and Mrs. Will Tunard of Howell called at L. T. Lamborn's Sunday.

Miss Bertha Watters is attending school in Pinckney this year.

### BABY CONTEST AT COUNTY FAIR

Some time ago the County Fair Association asked the chairman of the County Red Cross chapter to conduct a baby contest at the Livingston fair, offering to give three prizes for the most perfect baby.

A meeting of the executive committee was called. Dr. E. B. Pierce superintendent of the State Tuberculosis Sanatorium, who is director of public health work in the county and Mrs. W. C. Huntington, chairman of the Christmas seal sale, were asked to attend. A decision was made to hold this contest, but it was decided that two prizes were sufficient.

A contest was held two afternoons during the fair. Doctors were present to give the physical examination with nurses to assist, lay members acting as clerks. Standard score cards issued by the American Medical Association were used.

Nineteen babies were entered. Highest score was 99.3 points, won by Catherine Virginia O'Leary, daughter of Mr. and Mrs. Dennis O'Leary, Howell. Second score 99, Frances Jean Hardy, daughter of Mr. and Mrs. Ralph Hardy, Oceola township.

Arrangements were also made for a nursery where babies would be cared for while mothers were attending the fair. This was under the supervision of the executive committee of the Red Cross with ladies from several churches assisting, thus providing a new committee for each day, and depriving no one from attending the fair.

**Spoiled Her "Makeup."**  
A few of my friends and I were playing in moving pictures as extras. We were very interested and elated over our "wonderful fame," and purchased every kind of makeup we had ever heard of. I had a new eyelash "beader" which I applied with a brush after wetting. I arrayed myself in splendor and went to fill a dinner engagement with one of my sharers of fame. A funny story was told and I laughed till the tears came. These tears wet the dashing black of my eyelashes and trickled down my cheeks, leaving a smoky trail on my woe-gone face.—Chicago Journal.

### BOYS' AND GIRLS' CLUB WORK BIG SUCCESS AT STATE FAIR

The Boys' and Girls' Club exhibits in no small way were a real part of the State Fair at Detroit. Four calves six pigs and five sheep constituted the county quota there. The following were the boys and girls who had their projects there and received the following prizes:

William Gilkes, Howell, Sr. yearling Holstein heifer, 1st prize, \$12.00.

Carlyle Hoover, Howell, Sr. bull calf, Holstein, 2nd prize, \$12.00.

Rhodora Crandall, Howell, Jr. calf, Holstein, 2nd prize, \$10.00.

Hope Carr, Fowlerville; Rhodora Crandall, Howell; William Gilkes and Carlyle Hoover, Howell, Club Exhibit, 2nd prize, \$15.00.

Glenn Gibson, Fowlerville, Jr. boar pig, Duroc Jersey, 2nd prize, \$8.00.

Wayne and Glenn Gibson, Fowlerville, Club Exhibit, three sows and one boar, 2nd prize, \$12.50.

Marion McDonald, Pinckney, Chester White Jr. Sow pig, special prize, \$5.00; 2nd prize, \$8.00.

Glenn Armstrong, Fowlerville, Shropshire Ewe, 1st and 2nd prize, \$14.00.

Willis Armstrong, Fowlerville, Ewe Lamb, 2nd prize, \$6.00.

Hubert Sober, Fowlerville, Ram Lamb, 2nd prize, \$6.00.

Club Exhibit of above boys, 1st prize, \$8.00.

The total money won by the exhibitors amounts to \$126.50, which surely speaks well for the first years efforts. Five first prize ribbons, seven seconds and one third prize were the ribbons won. In fact, every exhibitor drew some money. If this club work had been started in the spring so as to have given club members time to do more fitting, more animals could have been exhibited.

Oakland County has invited our boys and girls to exhibit at their fair this week at Milford, and County Agent C. L. Bolander is moving the same stock there. They are realizing the value of club work and are putting up almost as much money as the State Fair for premiums.

The big success of the club work in the County has been made possible to a great extent by the splendid cooperation of the following banks so far: First State and Savings Bank, Howell; McPherson State Bank, Howell; First National Bank, Howell; First State Bank, Brighton. Cooperation of this kind is what every community needs, and the value is two-fold, helping to give the boy and girl of today a start and making better citizens of tomorrow.

The general stock judging team were Ward Stowe, Fowlerville; Glenn Armstrong, Fowlerville; and Albert Holdforth, Fenton.

The dairy judging team were Harold Lawson, Robert Borden and Spencer Worthington, all of Howell. These boys all did remarkably well considering the short time they were coached.

Ward Andrews accompanied the dairy team and considerable credit is due him for the time he has spent with the boys in preparing them for the contest.

The girls' canning team, who represented Livingston County, were Ruth Watters and Helen Sager, accompanied by their club leader, Gladys Wilson, all of Parkers Corners. This team made a fine showing at the State Fair and much credit is due their leader.

The Dynamite demonstration to take place on the Puritan Farms on Thursday, September 21st, northeast of Brighton, is well under way and plans are nearly completed. The dynamite is on its way and County Agent C. L. Bolander is laying out the plots this week. As a ton of explosives will be available, a number of different uses of explosives will be demonstrated, the largest of which will be the ditch blast.

The program for the day will be as follows:

Ditch Blast.....11:30  
Dinner .....12:00  
Short Talks.....1:00  
Rock Blasting.....2:00  
Stump Blasting.....2:00  
Shooting Off Small Hill.....3:00  
Straightening Out Creek, 300 ft. 3:30  
Subsoil Blast of Cat-Hole.....4:00

### REPUBLICAN TICKET

First reports of returns from the Primary are to the effect that Governor Groesbeck and Senator Townsend have received the nominations and that Patrick Kelley ran a poor third in the senatorial race.

In the Sixth congressional district Grant M. Hudson, the out and out dry candidate won.

In the state senatorial district Henry M. Ross, the Livingston county candidate has apparently won after an exciting contest with Flint contestants.

Livingston county nominated Fred J. Teeple by nearly a thousand, for sheriff. Glenn C. Yelland for prosecuting attorney was successful. Mrs. Pearl M. Parker won the nomination for county treasurer and Charles Wrigglesworth was returned for Drain Commissioner. John A. Hagman for county clerk had no opponent.

In Putnam township the vote was as follows on the Republican ticket.

- Adaline L. Huntington.....45

Touring Devastated Areas.

Large numbers of tourists have been keenly disappointed during the last year by the ruins of the war. Several have gone so far as to say that they were persuaded to visit the French battlefields by fraudulent statements. Not only do they find the battlefields a mere few miles in width in spots, but they find grass and flowers growing all over them, so that in many places they seem quite cheery, instead of having the offensively desolate appearance that one is led to expect from reading war books. Some tourists have been so sadly disillusioned that they say they will never believe anything else they hear about the war; while others speak of the war with open contempt. Conservative students of the tourist problem agree that a new war ought to be staged for the special benefit of these people. Unfortunately they are of a type that is never seen on battlefields until wars are over, writes Kenneth E. Roberts in the Saturday Evening Post.

## Governor's Statement

To the People of the State of Michigan:

This is in answer to the misleading and inaccurate statements being made regarding the state's finances and expenditures during my term as Governor. Briefly, I am submitting for your consideration a short, concise statement, based on official data and figures, open to public inspection.

The very bad and wholly unnecessary condition of our State finances which existed prior to 1921 has been largely corrected. The deficit of six million dollars, which the present administration inherited, has been wiped out and at present we have a very substantial surplus in the treasury. Operating and administrative costs for departments and institutions were reduced during the fiscal year of 1921 by \$1,839,617.63 under what they were in 1920. Your State Tax for 1922 will be \$3,140,489.85 less than it was in 1921 and the lowest since 1918. These results have been brought about by the application of sound business methods to State affairs and the elimination of the old brand of political management. Many of your charitable, penal and correction institutions were found to be in a deplorable condition and these things have been remedied. We are meeting their every requirement and are rehabilitating them that they will function in the manner and for the purposes for which they were organized. The simplification of governmental machinery has made it possible to cut out waste and extravagance and place our state activities on the same plane of efficiency and usefulness as those of privately owned enterprises. Beyond all this and what is equally important, your government in all its branches has been kept free from graft and corruption; free from control by interests of any sort, political or otherwise; free from the domination of those who would exploit it for and in their own interests.

These things should mean much to us as citizens of a great Commonwealth.

ALEX. J. GROESBECK.

### HOW

POSTAGE METER MACHINE DOES AWAY WITH WASTE.

A postage meter machine, first of its kind authorized by the United States Postoffice department for metering and printing postage directly on mail, was recently put into effect in the mailing department of one of the great banks of New York city. The postage meter is licensed for use under special rules issued by the United States Postoffice department. Permit to use the meter must be secured from the third assistant postmaster general, division of classification, Washington, D. C. Application must be made through the local postmaster on postoffice form. The machines are leased to users by the manufacturers. The lessee purchases the amount of postage and the postoffice department marks the amount on the register of the machine. For example, should \$100 worth of postage be bought, the meter would be placed at 5,000, which would designate the amount in value of two-cent stamps. When these are used the meter is then taken back to the postoffice to be reset at the amount desired by the user.

The register door is locked and sealed by the postoffice after each setting. Each meter prints impressions corresponding to the denomination and color of the adhesive stamp for which it takes the place.

The inventor says that it is mechanically impossible to waste metered postage, as the register will not record unless an imprint is made on a piece of mail. A set of interchangeable steel type for the date and hour of mailing is furnished with each meter. With stamps many thousands of dollars are wasted annually.

### OF INTEREST TO MECHANICS

How Hardened-Steel Wheels of Glass Cutters May Be Sharpened With Little Trouble.

The hardened-steel wheels of glass cutters can be sharpened without removing from the handle, in the following manner: Hold the cutter against an emery wheel so that an angle face of the former is parallel with the grinding wheel. The handle will be ground away at the point far enough to bring the cutter into contact with the emery wheel, but this will not weaken it, as, when cutting glass, pressure is applied to it from the opposite direction. After rough-grinding the cutter it should be held in contact with a wet grindstone to insure a smooth, fine edge. Caution should be used in the rough-grinding operation. Dip the cutter in cold water frequently to prevent it from getting too hot and losing the temper. The cutter will revolve when it comes in contact with the grinding wheel and will be ground evenly.—Popular Mechanics Magazine.

Why Crow Is Called Original. The Agricultural department issued a biography of the crow in which it says:

"Its ability to commit such misdeeds as pulling corn and stealing eggs and fruit and to get away unscathed is little short of marvelous. Much of the crow's success in life is due to co-operation, and the social instinct of the species has its highest expression in the winter rooks, which are sometimes frequented by hundreds of thousands of crows. From these rooks daily flights of many miles are made in search of food.

The insect food of the crow includes wireworms, cutworms, white grubs and grasshoppers, and during outbreaks of these insects the crow renders good service. But, chiefly because of its destruction of beneficial wild birds and their eggs, the crow must be classed as an animal."

How Regions Get Names.

Ultima Thule (Uppermost Thule) was a name given in ancient times by the inhabitants of southern Europe to the remote regions of the unknown north. The Greek navigator Pythias made a voyage along the coast of Britain and wrote an account of what he learned about the Shetland islands and Orkney islands and possibly the north mainland, calling the region Thule. The name became vague in its application, especially under the form Ultima Thule.

Norway, Iceland, etc., bore the title in their turn, and many strange superstitions were current regarding the region.

How Japs Make Water Bags.

A government expert who has been investigating the wonderful papers of Japan reports that the Japanese make water bags of rice paper, which are held to be more durable as well as less expensive than similar articles made of rubber. Between the layers of paper, which is soft and flexible, resin is used, and the outside is covered with lacquer.—New York Herald

Why His Visits Were Frequent.

"Young man, before things go any further, I must ask you what you mean by spending every evening with my daughter. Are your intentions serious?"

"Well—er—to tell the truth, sir, it's so cold everywhere else, and you keep it so nice and warm here, that I simply can't resist the opportunity."—Judge.

### STATISTICAL NOTES

The earth is 400,000,000 years old, according to the estimates of the geologists.

The population of the globe is increasing at the rate of 14,000,000 annually.

Of the total number of 1,277 characters in Shakespeare's plays, 127 are females.

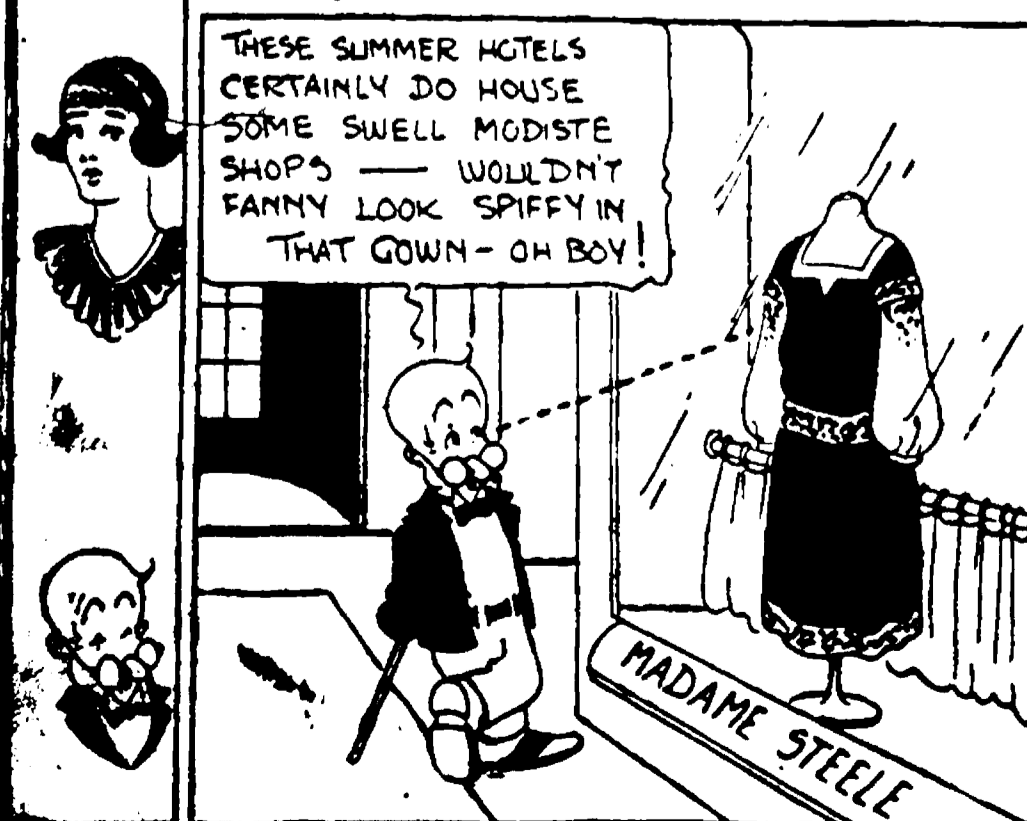

The population of the British empire exceeds one-quarter of the world's population.

New Zealand has 85,000 telephones in use, an average of one to every sixteen inhabitants.

Out of a population of 4,200,000,000 the world contains only 550,000,000 white inhabitants.

A geological survey has shown the probable area of Canadian oil fields as 800,000 square miles.
