NEW McPHERSON OIL STATION TO OPEN HERE SATURDAY

Saturday, May 11 is the date of the opening of the new McPherson Oil Station which will occupy the corner of Main and Howell Streets where the old Pinckney Hotel formerly stood. Since the hotel burned, the corner became an eye sore for it was owned by Ohio parties who had slight interest in it. Recently it was acquired by Edward Farnam who leased it to the McPherson family for ten years.

Now the corner has been filled in and will be landscape garden and an attractive modern oil station has been erected on it. The dimensions of this building are 25x60. Within it is a large waiting room, both a ladies and gents comfort station, a sales room for oil, auto accessories, tires etc., an inside crankcase drain pit and also a wash rack for automobiles. The approaches from both east and west have been paved and an automatic drinking fountain installed at the corner. The building has been decorated and presents a very attractive appearance.

W. H. Meyer, who has been in the garage business here for some years past will have charge of it and guarantees satisfactory service. He says he will keep open 24 hours a day if necessary. His assistant will be Albert Johnson, also well known here.

As an inducement on the opening day the Oil Company will give a free spraying service which consists of thoroughly lubricating the springs of autos with penetrating oil. A free tire tube repair kit will also be given away to the first 75 customers. The station also has an automatic greasing equipment for high pressure chassis lubrication.

The people of Pinckney are grateful to the McPherson Oil Co. for this addition to it. It has long felt the need of such a place with which to serve the traveling public. A continuous and steady patronage as a reward for their efforts is the wish of this community.

SENIOR CLASS RATING

The Senior Class ratings of the Pinckney High School were given out this week. Miss Helene Fielder, getting first place and the valedictory along with it, her standing excelling all others. Miss Wilhelmina Bourbonnais is awarded second place and the salutatory. Miss Louis Granger is Class historian. Miss Vivian Kingsley class prophet. Walter Graves, class orator. Miss Viola Burnett, giffatiorian and James Nash has the class will. The commencement exercises will be held at the Pinckney Community Hall Wednesday evening, June 19.

WAS UNQUALIFIED SUCCESS

The play "Bashful Mr. Bobs" put on by the Senior class of the Pinckney high school was one of the best ever staged here by local talent and many people claim it excelled all previous ones. It deals with the difficulties encountered by a bashful man who is mistaken for some one else, jailed as a burglar and is again forced to act the role of a burglar. This part was creditably taken by James Nash. Clyde Soper in the role of Obadiah Stump, a country youth gave a character impersonation that would have put Lon Chaney to shame while Reginald Hinchey taking the part of the villain rivaled Eric VonSonheim. Vivian Kingsley acted the part of a gold digging actress, and Wilhelmina Bourbonnais as leading lady. Evelyn Graves as landlady, Helen Fielder, Harlan Hall, Dorothy Carr, Viola Burnett, and Marie Shehar deserve special mentions.

The play was a huge success financially and there is talk of repeating it.

PINCKNEY P. T. A. MEET

The regular meeting of the Pinckney P. T. A. was held at the school house Monday evening, May 6. The program was very good and was as follows:

Business Session
Report of State P. T. A. Con. Mrs. Earl Baughn.
Suot. J. P. Doyle talked on the things on which a Parent-Teacher Assoc. ought to spend their time. Some of this talk will be discussed in the next meeting which will be the 3rd Piano Duet (March of Indian Phantoms) Mrs. E. Baughn and Miss Iseler.
Twilight High School Glee Club To a Wild Rose, Piano Solo. Mrs. E. Annie Laura B. F. Esic Hungarian Rhapsody Wilhelmina Bourbonnais.
The Singing Mother, Reading Mrs. M. E. Darrow.
Shubert's Serenade Iseler Sisters Sacred Music Cong'l. Choir
Folks Song Mrs. Florence Baughn
Star of Hope, Piano Solo. Norma Gardner.

This program was especially arranged for National Music Week.

CHURCH NOTES

Everyone is invited to bring flowers or plants in honor of their mother to the morning service of the Congregational Church May 12. Names attached to plants.

All mothers are invited to come to Christian Endeavor service at the Congregational church, May 12; 7:30 P. M.

DANCE SATURDAY EVE

Dance at Chalkers every Saturday evening. Good music, good floor good time promised.

MOTHER & DAUGHTER BANQUET

A Mother and Daughter Banquet, sponsored by the King's Daughters will be held at the Congregational church parlors, Friday evening, May 17th at 6:30 p. m. The following program will be presented:

Toastmistress Mrs. R. Shafter
Song Mrs. C. G. ...
Toast to Mothers Mrs. Clifford Vanhorn
Solo Mrs. Clifford Vanhorn
Toast to Daughters Mrs. M. A. ...
Solo Miss Nellie Gardner
Violin Solo Miss Charlotte Iseler
Address Mrs. S. M. ...
of the University Extension Dept.
Community Singing.
Tickets 50c each for admission to the Drug Store and telephone booth. Only a limited number will be available.

DEL PRETE TEAM PLAYS HERE SUNDAY

Pinckney-Michiganians will take on the Del Prete team of Ann Arbor at Pinckney next Sunday at 2:30 p. m. Their team represents the Del Prete clothing store of Ann Arbor and started their season by winning from Hamburg at Hamburg last Sunday by a score of 10 to 2 so they must have some class. Good crowd and fine weather hoped for. Admission 25c.

BAND GETTING UNDER WAY

Norman Miller, Andrew Campbell, and the Misses Isler were in Detroit last Wednesday buying arrangements for the Pinckney band. A number of horns and two drums were purchased and the boys are busy learning to handle them. In a month or so they expect to give their first concert on the public square.

BOULEVARD LIGHTS BEING INSTALLED

The gang of workmen arrived here Friday and started installing the boulevard lights in the Pinckney business section Saturday. The work will require about 12 days. The lights will be installed on Commercial West Corner of the lot between the residences of Dr. C. L. ... and Sigler and extending to ... and Farnam ... wires will be run and ...

AUCTION SALE OF FURNITURE

Having sold his home, ... Richardson will sell his household goods at a Public Auction on the premises at Unadilla ... May 11. Sale starts at 1:00 p. m. Man Reason, auctioneer.

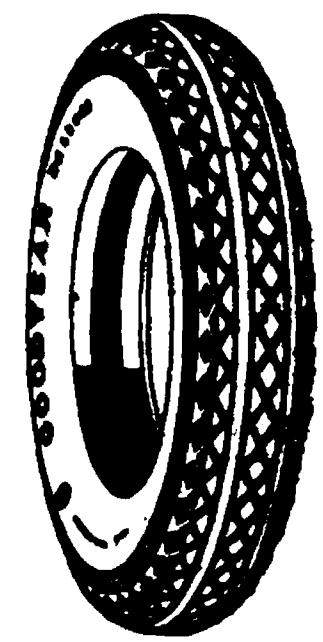

\$4,000,000 IN 21 CIGARETTES

Only twenty four ... wife and save \$4,000,000 ... perplexing problem facing the ... man in "Stray Cat" ... will be presented with ... on Saturday evening, May ... 8 o'clock, in St. Joseph's ... Dexter, Mich. A contest ... extended to the public ... amusing play.

Heres One Thing You Can Bank On

If Goodyear Tires were not the best tire-buy for you—we wouldn't be recommending them. We live in this town and expect to be here a long time.

Common sense tells us we can build our business only as we take good care of our customers. Selling a customer anything but the best is not taking care of him. We know that—so we recommend Goodyear Tires.

They're the best tires—proved by the fact that more people ride on them than on any other kind. That's why we handle them. That's why you should use them.

ANN ARBOR FESTIVAL WILL BE BEST EVER

A list of outstanding musical celebrities and a series of programs of extraordinary interest has been announced for the thirty-sixth annual May Festival to be held in Hill Auditorium, Ann Arbor, May 22, 23, 24 and 25. This event will mark the closing attraction in the fiftieth season of the existence of the University Musical Society, and those in charge have spared no pains in making the event worthy of the termination of this half century of activities in the organization's history.

Among the great musical stars who will participate will be Lawrence Tibbett, the baritone sensation of the Metropolitan Opera Company; Richard Crooks, one of America's outstanding tenors; Sophie Braslau, Marion Telva, both Metropolitan Opera Company contraltos; Edith Mason, leading soprano of the Chicago Civic Opera Company; Jeanette Vreeland, distinguished American oratorio singer; Paul Althouse, Metropolitan Opera tenor; Richard Bonelli and Parre Hill, baritones, both of the Chicago Civic Opera Company; William Gustafson, basso of the Metropolitan Opera Company; and two outstanding instrumentalists, Efram Zimbalist, Hungarian master violinist, and Josef Hofmann, world renowned pianist.

The Chicago Symphony Orchestra will participate in all six concerts, while the University Choral Union, under the direction of Earl V. Moore, musical director of the festival, will offer several important choral works. A special chorus of 500 school children, under Juva Higbee, will contribute numbers at one of the programs.

Plans Made for Bible Conference

Rev. Andrew W. Blackwood, professor of English Bible in Louisville Presbyterian seminary at Louisville, Ky., who delivered a series of four lectures at Western seminary this year, and Rev. George L. Robinson of McCormick seminary, Chicago, have been booked as speakers at the Pine Lodge Bible Conference the last week in August.

Three other annual conferences are listed, one for boys under the supervision of John Van Broek of Grand Rapids; one for girls, with Miss Hannah G. Hoekje of Holland, Mrs. J. A. Dykstra of Grand Rapids, Mrs. A. De Young of Kalamazoo and Miss Laura A. Boyd of Hope college as leaders, and the summer school of theology under the supervision of Rev. John E. Kaizenga, with Rev. S. C. Nettinga, Rev. Albertus Pieters and Rev. J. E. Kaizenga as lecturers.

Plans have been launched for an auditorium, 60x100 feet, with a seating capacity of 1,200. Fifty per cent of a proposed fund of \$10,000 has been pledged and the balance will be raised.

Alma Girl Awarded U. of M. Scholarship

Miss Lois Grierson, a member of this year's graduating class of Alma college and a resident of Alma, has been awarded the scholarship for graduate work in chemistry offered by the University of Michigan. A member of the highest standing group in her class, Miss Grierson has been in the field of chemistry and botany. She recently was elected to membership in the scholastic honorary society of the campus, Phi Sigma Pi, and became secretary of that organization. She also is an active member of the Chemistry Club and is an assistant in the chemistry department.

Mrs. Henry Ford Aids in Forming Farm Club

Mrs. Henry Ford of Dearborn, national president of the Women's National Farm and Garden Association, aided recently in the formation of a Jackson branch of the organization. She was assisted by Mrs. John McKinney of Ithaca, president of the Michigan branch, and Mrs. L. Ives of Dearborn. Mrs. R. H. Bisbee, Mrs. Herbert Wolcott, Mrs. W. R. L. McCurtie and Mrs. C. E. Markham are charter members of the Jackson club, and entertained the guests at a luncheon.

Poems That Live

SIMPLEX MUNDITIIS

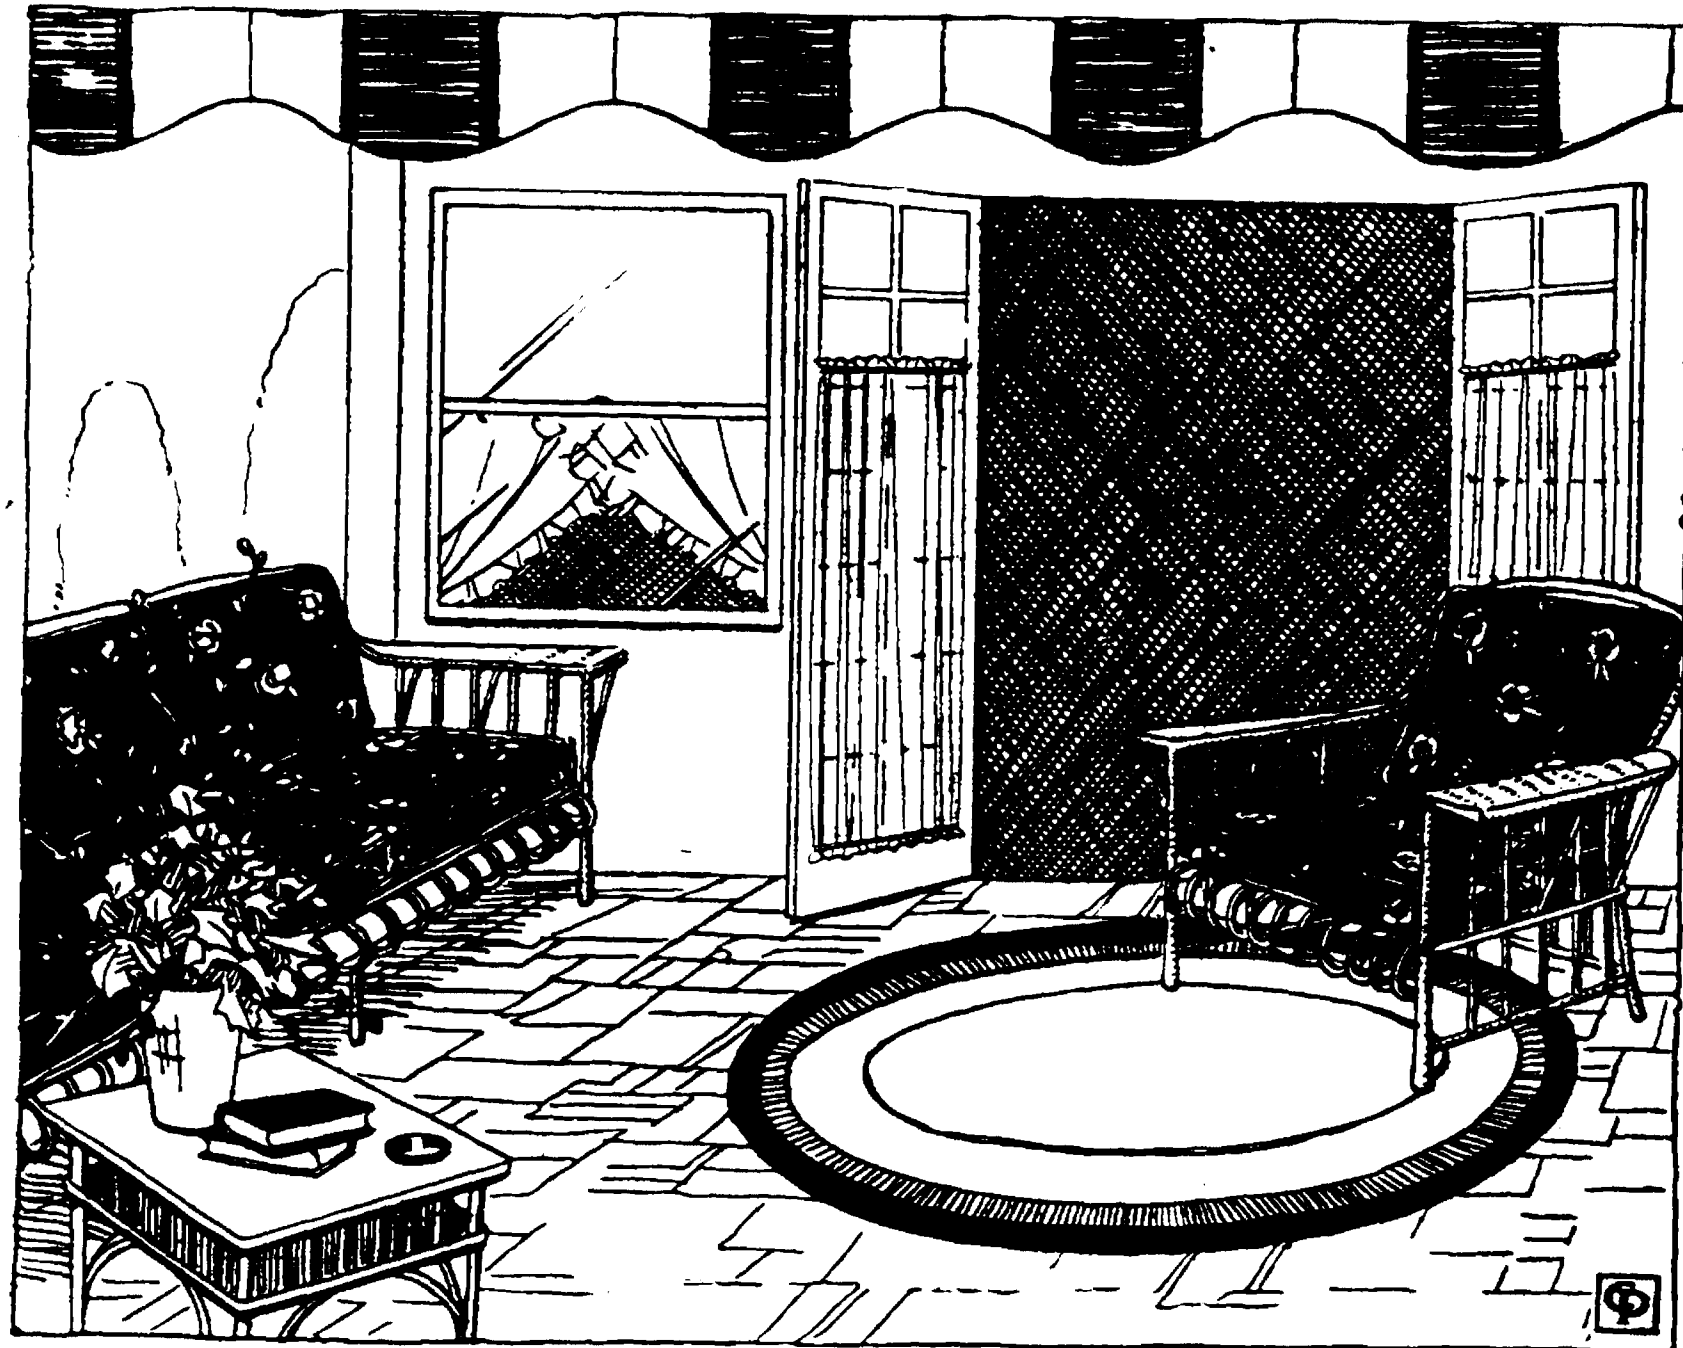

(From "Epicene")
Still to be neat, still to be dressed
As you were going to a feast;
Still to be powdered, still perfumed;
Lady, it is to be presumed,
Though art's hid causes are not found,
All is not sweet, all is not sound.

Give me a look, give me a face,
That makes simplicity a grace;
Robes loosely flowing, hair is free;
Such sweet neglect more taketh me
Than all the adulteries of art;
They strike mine eyes, but not my heart.

—Ben Johnson (1573-1637)

You Can Make Porch Cushions, Slip Covers

By Hilda Hunt

May, as usual! Time to think about getting the home into summer clothes—time to get the slip covers ready for summer. Chairs and sofas, and especially the porch upholstery, should be attractively covered for protection from summer dust and summer sun. That is, it should, if you are fortunate enough to possess a porch. You can make your own porch cushions if you like, but the making of the cushions for chairs and sofas or porch swings is not as easy as it is to make their covers.

However, you can manage it by following directions. Measure the seat of the chair. The cushion used for the chair in the sketch measured 20 by 19 inches, the exact measurement of the chair seat. It required six rolls of cotton batting for stuffing. The cotton was laid in sheets to a height of six inches, then quilted down, los-

ing a little over two inches in the process. It was found that even this proved bumpy under the muslin slip, so the batting was covered with one and a half yards of table padding 54 inches wide, passed round the cushion from end to end with sufficient width to overlap at the sides where it was fastened down firmly over the box cotton. A boxed muslin cover, made without cording, requires one-fourth of a yard of the very wide or sheeting width.

To make the outer box cover of gayly covered chintz, or whatever material might be chosen, two pieces 19½ by 20½ inches were cut. A strip four inches wide by eight inches long was cut for the box sides and ends. A yard was then cut into true bias strips, one and a half inches wide, for cording. This was folded in the middle and one-eighth of an inch cord run through a casing stitched in by hand close to the cord as the latter

was inserted. The cording was then joined to the top and bottom pieces of the cover slip. Next, the side box pieces were joined to these, leaving one end open for buttons and button holes or snappers.

A flap about two inches wide was seamed to the open box end, and faced down to hold the buttons or snappers, and a facing of the same width run under the top end of the cushion for the buttonholes or tops of the snappers.

Plain one-ton material, matching the predominating color in the design of the cushion, is effective for the cording. Covers for the swing or sofa are made after the same directions, according, of course, to the size. The sketch shows the sofa cushions in three sections, as they are easier to handle this way. The covers may be removed for the laundry as frequently as desired, and replaced without benefit of needle.

The World and All

By CHARLES B. DRISCOLL

DISCREDITING INDIA

Recently I met Mr. T. H. K. Rezmie, a very intelligent and liberal-minded journalist from India. We were talking about the innumerable American books that place India in an unfavorable light, and I suggested that the best move India could make would be the hiring of an expert American press agent, to put her case before the American people in a skillful and truthful manner. I believe Mr. Rezmie thought I was joking.

The Indians themselves are not gifted with a sense of publicity. They do not know how to put their case before Americans.

I submit a simple illustrative example.

Savel Zimand, author of "Living India," writing in the New York Evening Post, goes in for the usual Hindu refutation of Katherine Mayo's "Mother India." In order to prove that the United States is as bad as India in the matter of child marriage, this writer cites nine specific cases of child marriage.

He doesn't give a name, address or date in even one of the nine cases. Of course, no American will for one mo-

ment accept as true any of these citations.

"A judge reports the marriage of a child of 12 to a man of 39." This is one of the nine. What judge? What child? What man? I must assume that there is no such judge, no such child, no such man. Americans are accustomed to the use of names and dates and addresses when true news stories are being printed, or when a case is being proved.

Savel Zimand goes on to state that "the legal minimum marriageable age in the United States with parental consent is 12 years for girls in 12 of our states."

This is quite inaccurate. Zimand cites no authority, presumably because he is his own authority. I cite the World Almanac.

There are three states, Louisiana, Kentucky and Maryland, in which the legal age of marriage for girls, with parental consent, is 12 years. There are five states in which no minimum age is specifically fixed. Why didn't Zimand consult and cite an authority? You see my point. India should combat American prejudice intelligently and truthfully. Her case is strong enough to require no quick support.

How to Achieve Beauty

By MME. HELENA RUBINSTEIN

SIMPLE ARM EXERCISES BRING PLEASANT CONTOURS WHICH ARE FASHIONABLE

By Madame Rubinstein

I think there must be more fat than thin women throughout our prosperous American land by the number of requests I have had for various sorts of reducing treatments. Or else the thin women are more satisfied with their lot. Certainly the trend of the times is away from unhealthy superfluous flesh toward slimmness. But I hear from the fashion designers that curves are "coming in." And most people have long agreed that the pleasantest contours of all are the slimly rounded ones, whose lines are supple and strong; neither too heavy nor too delicate, and not in the least angular, nor "bunchy."

In the interest of the overweight women who are anxious to reduce to this ideal of perfection, I have arranged effective reduction measures. The arm exercises which follow are simple and, when faithfully followed, will bring excellent results. They are designed to reduce the upper arms and shoulders, especially, for this part is generally the heaviest. But they also act on the forearm, since all the arm muscles are brought into play.

Raise the arms to shoulder level, turning your palms outward. Now bend the arms at the elbow, so that they form a right angle. Keep the elbows at shoulder level and rotate the bent arm forward, so that the fingertips describe a semi-circle. Return the forearm to its right-angle position. Repeat the exercise briskly and rapidly a dozen times. You will feel an almost painful pull of the muscles at the end of this time, and if you do not, you will know that you have not yet mastered the exercise. But keep at it!

The next is a form of the windmill exercise. With the arms moving in

opposite directions, raise the left arm upward and forward and the right arm downward and backward. Now reverse the position of the two arms, with a forcible swing, moving the left arm downward and backward and the right arm forward and upward. Repeat this briskly a dozen times.

Here is another version of the effective windmill. Raise both arms sideward to shoulder level, turning the palms down. Keep the elbows stiff and make a complete circle with each arm alternately, swinging it down, across the body in front, up and back to its original position. Repeat the circling forcibly a dozen times for each arm.

Another simple arm exercise is like a game children play in school. To be effective as a general reducing measure, it may be combined with a jumping movement. But if you prefer just to exercise the arms, you may omit the jumping. Raise the arms sideward and upward, clapping your hands over your head, and jump to a stride position. Now swing the arms sideward and downward, jumping with feet together, and clap hands behind your back. Repeat this a dozen times in quick rhythm.

To hasten the reduction, you may add, if you like, another kind of reducing treatment, to the exercise. This consists of washing the arms with reducing soap. Purchase a reputable reducing soap, one whose manufacturer you can be sure of. Take the cake into your bath and rub it vigorously on your moistened arms and shoulders until a foamy lather covers them. Let this stay on for 15 or 20 minutes, carefully, but firmly, massaging during this time. Then wash off and dry in the usual manner. A reducing balsam jelly may be patted in after the bath to increase the fat-dissolving process.

ALMA AFTER FORENSIC SOCIETY

Through the efforts of Prof. Roy Hamilton and Prof. Herman Spencer, oratory and debate coaches respectively, Alma college expects to become a member of Tau Kappa Alpha, intercollegiate honorary oratorical and debating fraternity.

Application for membership has been made and in view of the record this college has made in these activities it is expected it will be accepted. The past year saw Alma's orator win the state contest and place third in the sectional meet at Tiffin, O.

In debate the varsity squad won victories over Western State Teachers' college, Olivet college and Hope. Albion was the only school to win over the local varsity men. Francis Angell, manager of debate and oratory, is endeavoring to obtain some post season debates with Olivet, Ypsilanti and Mt. Pleasant. The men who have debated this year and who will become charter members in the local chapter of Tau Kappa Alpha, if the charter is granted, are Homer Barlow of Crosswell, Francis Angell of Hastings, Ralph Harwood of East Tawas and Robert Buchanan of Detroit.

With all men but Barlow back next year chances for an even more successful debating year are bright. Coach Herman Spencer, since coming here three years ago, has made a record of losing no audience decisions and winning a majority of judge's decisions.

Michigan Camp Meeting Plans Announced

Early announcements have been issued for the forty-fourth annual Michigan State Holiness camp meeting to be held July 24 to Aug. 4 at the camp grounds at Eaton Rapids.

Rev. H. D. Skinner of Muskegon is president of the association. Rev. Fern C. Wheeler of Charlotte is secretary and Rev. D. E. Reed of Albion is the publicity man.

Included in the list of talent gathered for the program are Rev. Joseph H. Smith of California, Rev. Raymond Brown of North Carolina, Rev. D. Willa Caffray of Chicago and Col. S. L. Brengle of the Salvation Army, with Rev. Lloyd Nixon of Grand Rapids as song leader and Howard Skinner as pianist.

In Mourning
Little Elsie was inconsolable when her pet monkey died. Next day at school she declined a playmate's invitation to attend a party.

"Why can't you go, Elsie?" asked the teacher.

A little fist dug into a tear-stained eye as she sobbed:

"Cause you d-don't go to parties when s-some one of your folks is dead."

Reformed Church Raises \$5,501,458 During Year

The Reformed Church in America last year raised \$5,501,458. Of this amount \$525,060 went to foreign missions and the remainder was used for Christian work in America. The per capita rate on all receipts was 3.36 and 3.09 on contributions. Included in the figures are the amounts of \$130,482.18 through the woman's board for the regular budget of the year and \$14,294.78 for special objects designated by the donors.

General summary of the work in the orient shows: Stations occupied, 28; outstandings and preaching places, 377; missionaries, men, 63; missionaries, women, 115; native helpers, 1,231; churches, 118; communicants, 10,138; received on confession, 652; boarding schools, boys 18; scholars, 2,670; girls, 20; scholars, 1,982; Sunday school scholars, 12,697; day schools, 287; scholars, 13,375; hospitals and dispensaries, 20; patients treated, 85,462; native contributions, \$26,347.

HOUSEHOLD HINTS

MENU HINT
Crab Meat and Tuna Fish au Gratin
Parsley New Potatoes
Buttered Peas
Salad of Lettuce, Young Onions and Radishes
Strawberry Shortcake Coffee

Isn't this a springlike menu? It may be used for a luncheon or for a family dinner. It is not at all hard to prepare, so busy housewives and inexperienced brides may undertake it without qualms. The peas may be fresh or canned, as you choose. The tuna fish, crab meat recipe will serve three.

Today's Recipes
Crab Meat and Tuna au Gratin—Melt two tablespoons butter; when bubbling, stir in two tablespoons flour and add gradually one cup white stock or milk. Stir until smooth, add one egg, well beaten; one-half teaspoon paprika, one-fourth teaspoon salt and dash of cayenne, and cook until thickened. Take from fire, add one cup crab meat mixed with tuna fish, and three tablespoons chopped mushrooms; mix thoroughly, place in buttered shells or casserole, cover with crumbs moistened with melted butter and bake until brown.

SUGGESTIONS
A Few Sandwiches
One mother who has to pack several lunch boxes each morning has a list of about 60 sandwiches tacked inside a closet door in the pantry, to select from, for she knows variety is stimulating to the appetite. Here are a few:

Sliced bananas and chopped nut meats between white bread; a thin slice of bread, buttered and sprinkled with salt, then rolled up with the heart of a celery stalk in the center; cream cheese and chopped olives with mayonnaise between very thin slices of brown bread; equal quantities of cream cheese and chopped nuts and half the amount of orange marmalade between buttered bread; grated maple sugar, half as much of finely chopped peanuts, mixed with sufficient rich milk to make it creamy; spread between slices of graham bread.

Prepared Flour
Put one cup flour in a glass baking dish and place in a hot oven (450 degrees) for 15 minutes. Stir to insure even and thorough browning. Cool. Soft and put into a perforated dredge box. A dash or two into the pan in which the meat has been cooked, stir into a smooth paste, add a little water, season and pour over the meat.

The egg yolk is important in the diet because the protein is higher in the yolk than in the white. It is richer in mineral matter, and contains a higher percentage of fat which supplies energy.

Banker: "Where is that ham you said you would bring me?"
Farmer: "Well, sir, that hog finally got well."

In Country Style

To be strictly up-to-date you must have beach pajamas this season. Here is a colorful ensemble in the latest country style, big hat and all.

Gangster: "Throw up your hands."
Innocent Bystander: "I can't, they are fastened on my wrists."

Star Gazing

Did you know that:
Chester Morris, hit of "Alibi," turned down two good roles because he thought he was not the man for the parts?

Dolores Costello's mother was the original Gibson girl?
Warner brothers began their career as exhibitors in a small theater in Newcastle, Pa.?

Joan Crawford's next is a piece called "Jungle"?

Buster Keaton plays a jockey in a forthcoming film?

John Barrymore's sport is yachting?

Montagu Love will soon march altarward?

Snookums' real name is Lawrence McKean and that he was born Sept. 1, 1924?

Filming of "Anna Christie" is to be postponed until Greta Garbo finishes "The Single Standard"?

Eddie Nugent was once a shipping clerk in a men's furnishings store?

Screen rights to Ferenc Molnar's "Olympia" has been purchased?

Reed Howes used to pose for those niftik collar ads?

Mar West (you know, "Diamond Lil") is about to slap her sig on a movie contract?

Mrs. Roland West, wife of the director, is the former Jewel Carmen, movie queen?

Clive Brook is taking his wife and

The talkies have created increased demand for pretty girls with grace and pep. That explains how Blanche Fisher happens to be in Hollywood.

two children to England to visit old friends there?

Marie Prevost, Lily Damita and Olga Baclanova will be the tarse feminine leads in "The Cockeyed World"?

Mrs. Swinton Heads State Music Clubs

At a business meeting recently in Pontiac, Mrs. A. L. Swinton, Marquette, was elected president of the Michigan Federation of Music clubs at its thirteenth annual convention.

Mrs. Samuel C. Mumford, Detroit, was elected vice president; Mrs. George W. Langford, Ann Arbor, second vice president; Mrs. Bliss B. Wells, Pontiac, recording secretary; Mrs. Fred Hoar, Marquette, corresponding secretary; Mrs. S. Q. Keeler,

Detroit, treasurer, and Mrs. J. C. Kling, Flint, historian.

The annual banquet of the federation was given at the Masonic temple.

Fennville Chemistry Class Models Plant

One of the best exhibitions of practical chemistry ever completed in Fennville high school, a miniature water works filtration plant, has been completed. The plant at Grand Rapids was inspected by the class and the instructor, Paul W. Kingman, in the course of the construction of the miniature plant.

Trust Your Engine to **POLARINE** or **ISO-VIS**

Your engine will be safe with either of these two rich and sturdy motor oils.

Both Polarine and Iso-Vis will stand up under the trying conditions of country driving. They are sturdy!

Both Polarine and Iso-Vis will protect every bearing surface with cushioning films of oil. They are rich!

Polarine is an economical motor oil. Only because of the large volume produced is it possible to sell Polarine at anything like the low price you pay for it. And only because it gives such satisfactory service is such a large volume demanded.

Iso-Vis is the sensational motor oil that wears and wears! Motorists say they can't wear it out! It maintains a constant body and constant lubricating efficiency—many are able to drive for 1000 or 2000 miles without draining the crankcase.

Buy the special grade of Polarine or Iso-Vis made for your car.

Ask any agent of the

STANDARD OIL COMPANY
(Indiana)

calls for a general property tax of about \$23,000,000 for each of the years 1930 and 1931. The sole opponent of the state budget, in the senate was Sen. Albert J. Engel, Lake City, whose voice has been stridently raised against the measure since its introduction from the office of Gov. Green. The bitterness injected into his otherwise studious criticism of the theory of the state's financing methods seemed to bore the colleagues of Senator Engel who was alone in his negation when the vote was cast.

The cigarette tax measure, passed in both houses, and transmitted to the governor, provides for a tax of 2 cents on each package of 20 cigarettes sold in this state. The collection of the tax will not entail any great sum, for it will be a stamp tax, collected, it is believed, largely from the wholesalers.

Possibility that the low-salaried wage and salary earners of the state would be called upon to pay a state income tax, was eliminated only last week when the senate committee on taxation, headed by Sen. Peter B. Lennon, formally killed the measure introduced by Rep. Wilbur B. Snow of Constatk.

Another of the major problems of the legislature, major in the senate that many people would be affected by any action in that line is the relicted land problem. The question which has arisen is whether the land between the meander line and the actual water line of the great lakes shore lines of the state should be sold ceded or leased to the owners of contiguous property. The senate measure from Sen. Orville E. Atwood of Fremont, passed in the upper chamber but has never been reported out of a House committee. The House, on the other hand is trying to smooth over the conflict between this measure, and a conservation bill which provides for the leasing of this land. A compromise bill was framed for consideration in the lower house Friday morning, but the possibilities for clear-cut action in both houses seemed remote.

The Jahnke 15 round boxing bill, designed to permit title bouts in the state, was reported out of the senate committee Thursday afternoon, with reasonable chance of passage in that body.

Members of the house paid unusual tribute to Rep. George C. Watson, of St. Clair county, last week, when they adopted a resolution praising his services to the state in his capacity of chairman of the all-important judiciary committee.

As the excitement of the last week of the session was subsiding, watchful observers noted well the fact that Governor Green had not, late Thursday afternoon, signed the Cuthbertson liquor bill providing heavy penalties for bootleggers and non-municipal liquor law violators. Friday was the "deadline" for vote. The chief executive is reported to have referred the matter to Wilbur M. Brucker, attorney general, for some valid reason for a gubernatorial veto of the measure. The governor, satisfied with the Watson bill which cut liquor law violators from the life sentence phase of the criminal code, is believed unwilling to favor drives by imposing penalties for liquor law violators. Measures not signed or vetoed during the 10 day limit after passage by the legislature, become law automatically.

COUNTY SPELLING CONTEST

The district spelling contests in Livingston county sponsored by the county school commissioner, Miss E. Alma Sharpe, in co-operation with the Livingston County Fair association, for closed with a total of 19 pupils withstanding the word barrage propounded by the commissioner and who, as winners in their respective districts, will contest for the county championship and contender for the silver loving cups offered by the Press and fair association.

The contests thus far have been a source of much interest and keen competition, a total of 62 rural districts being represented in the semi-finals, which were held at Hartland, Pinckney, and Howell, with a total of 350 pupils standing in line.

The winners in the various group districts and who will compete in the county spell-down are: Howell, 30 rural schools, 109 contestants, five winners—Bernice Bergin, Osceola; Isabel Nicholson, Cohoctah No. 7; Henry Kimpiclewski, Cohoctah No. 3; Hazel Haire, Cohoctah No. 7; Elizabeth Richards of the same school. Brighton, 16 districts, 64 contestants one winner—Ray Seim. Hartland, 5 districts, 50 contestants, two winners—Mae Minnock, Michael Victor. Fowlerville, 16 schools, 10 contestants, 10 winners—Franklin Keeney, Handy No. 1; Adah Keeney, Handy No. 1; Mary Sober, Conway No. 13; Helen Lockwood, Conway No. 13; Bernice Raddatz, Cohoctah No. 2; Robert Lane, Cohoctah No. 2; R. C. Zwinnck, Iosco No. 2; Duane Winegar, Handy No. 3. Pinckney, 5 districts, 26 contestants, one winner—Dorothy Snively, Marion No. 16. The date for the county championship contest has not yet been announced by the commissioner.

LEGISLATIVE NEWS

Passage of the Lennon electric chair bill in the house, without the referendum by which the question would be submitted to the voters of the state and the suspicion that the senate finance committee might smother the

Hartman mill tax appropriation measure providing for the institutional building program, were the outstanding features of the last half of the 18th week of the legislature.

Both major actions were negative, and left in many minds a doubt as to final solution of two of the most important problems which faced the 55th legislature when it convened at the first of the year.

Action of the house in passing the death bill, after removing the referendum, means that the senate might refuse to concur with the lower house thus repeating 1927 capital punishment legislation history, according to the most trusted observers at ringside. The possibility that the house might, in order to save the measure, recede from its position, and place the referendum back into the bill, was not regarded as a bright possibility, despite the opinions to the contrary expressed in some quarters. That the death bill was doomed, for another session, was the interpretation placed on the action of the house, by the leading newspapers of the state Friday morning, following the action, Thursday, in the house. The measure was introduced by Sen. Peter B. Lennon, Genesee county, who is personally opposed to a referendum but who voted for the measure in the belief that it could not pass the senate without this provision.

In the meantime, final adjournment of the legislature has been set definitely for 4 o'clock, Central Standard time this week Wednesday, May 8.

There were those who observed that for two consecutive sessions, the senate passed a death bill, with a referendum, and the house passed the same bill, without the referendum, yet each house is composed of elected representatives of the same "people," the voters of the state of Michigan. That the makeup of each house is very similar for the two sessions, and that legislators are voting as they think, rather than as their constituents might like them to think, was one solution advanced to explain the anomaly of the difference in the interpretation of the wishes of the peo-

ple in a matter as vital as the electric chair for convicted and deliberate murders.

Danger to Gov. Fred W. Green's proposed state institutional building program was signalled in the senate when the committee on finance and appropriations failed, after several meetings, to come to any agreement on the provisions of the Hartman mill tax measure, designed to appropriate the \$28,000,000 needed in the next four years for the 10 year program sponsored by the administration at the opening of the present session.

The measure, as it passed the house provided for the imposition of a tax of eight-tenths of a mill on each dollar of assessed valuation. Arguments in senate finance committee were believed to have centered about the fixing of this at any particular level, as against merely limiting the tax rate, which latter device would allow the governor to scale down the provisions of the bill without killing the entire piece of financial legislation. There were also conflicting views on the general proposition of spreading a tax over a four year period, in view of the fact there may be another administration in the saddle during the last two years of this period. Committee members were reluctant to comment on their discussions, but Sen. Herbert J. Rushton, Escanaba, chairman of the finance committee, indicated almost insuperable difficulty in reaching a committee agreement on the matter. If the Hartman bill is not passed the general property tax will be at about the \$23,000,000 level; otherwise it will be more than \$30,000,000 annually.

While chaos reigned on the side of capital punishment and the institutional building program financing scheme, both houses achieved sufficient show of harmony to pass the administration's budget bill and the Lennon cigarette tax measure, which in conjunction with the Turner school tax relief measure, will solve a minor problem of state taxes.

The budget which cleared both houses and was sent to the governor

CLINIC SCHEDULE

Through the Livingston County Medical Association a schedule for a series of free clinics has been worked out, so that every child in Livingston County who will enter school for the first time in the fall, will have an opportunity for a thorough physical examination soon.

Besides the local physicians, the dentists and optometrists will take part in the clinics, and we hope with your co-operation, to make this project a great success. The object of the examination is to discover any existing defects, in order that corrections can be made during the summer, and the child sent to school in the best possible physical condition.

The hours for each clinic will be from 9 to 11:30 a.m. Parents will have the privilege of taking their children to the nearest clinic. In Howell arrangements for a place to hold the clinic, are still to be made, but will be announced in the newspapers in plenty of time. The schedule follows:

Monday, May 20 Hartland
Basement of Cremaire Library.
Tuesday, May 21 Brighton
School Gymnasium.
Wednesday, May 22 Pinckney
Church parlors.
Thursday, May 23 Gregory
Town Hall.
Friday, May 24 Fowlerville
School Gymnasium.
Monday, May 27 Cohoctah
Church.
Wednesday, June 5 Howell
Thursday, June 6 Howell

MAINDY ABOUT PEOPLE

MARION

Mr. and Mrs. Charles St. Louis visited in Eaton Rapids Wednesday. Howard Gentry and family spent Sunday at the home of Eugene Dunkel.

The Baptist Young peoples Society had a fine meeting Sunday night with Miss Ada Haselschwerdt as leader. Miss Madeline Leach is leader next Sunday evening.

Everybody is invited to attend the White Oak District Sunday School Conference and Rally Sunday afternoon and evening. A man from Detroit will be the speaker for Sunday evening.

MRS. JANET WEBB

Janet Marshall was born in Glasgow, Scotland, January 3, 1874, and departed this life at the home of her nephew, George Marshall, southeast of Gregory, May 3, 1929, age 95 years and 4 months.

She came from Scotland with her parents, one sister and three brothers at the age of 12 years and located near Montreal, Canada. After a stay of about two years, they moved to the states, locating in the village of Unadilla, Mich. where she lived until her marriage.

She lived a maiden life serving the public as a milliner until her fifties, when she was united in marriage with Richard Webb. His home was at North Lake, where they made their home till he was taken away by death, and she returned to the village of her maiden home, and there spent the remainder of her life, save the last year and a half, and the seasons of eight winters, when the infirmities of old age would not permit her to be alone. That time she spent in the home from which she has passed on.

Early in life she embraced the Christian religion, always favoring the church of her community with her presence and support. She has faithfully worshiped in both the Baptist, Methodist and the Presbyterian churches a goodly profession, with love for the cause of Christ at large.

Her going concludes the passing of four generations from the stage of time, into the great beyond from which none shall return until the General Roll is called, when all shall come forth and receive their reward according to the deeds done in the body.

Funeral services were held from the home of her going on Sunday afternoon, conducted by Rev. L. S. Slaybaugh of the Gregory Baptist Church. Interment at Unadilla cemetery.

HAPPY HELPERS MEET
The happy helpers circle of the Lakeland King's Daughters met last Saturday, May 4, at the home of Zata Yoemans.

The meeting was called to order by the president Isabelle Nash.

A contest for selling holders and making money was started. The captains of the two sides are Isabelle Nash and Lara Burnett. They are given points for: Good deeds, profit, new members, and attending Sunday School. Also points are taken away for default in duties.

The Junior circle of Lakeland King's Daughters will be represented in the annual county convention held at Howell May 14. A song will be sung and a reading given.

A LOVING THOUGHT for MOTHER

Back of the gift is the giver. It's the loving thought that mother craves, whether it be expressed in a diamond or a box of Chocolates. If you choose chocolates, select the same assortment you give the debutante —

Mother will appreciate your thought. The symbolism of the package expresses the beauty of Mother's Day. Starting with a quaint and quiet sentiment, Gilbert's Chocolates have acquired a particular and special niche in the regard of candy-lovers.

AUCTION

Having sold my house, I will sell at Public Auction at my home at the Corner of Unadilla and Park Sts. in the village of Pinckney the following household goods on

SALE STARTS AT 1:00 P. M. SHARP

SATURDAY, MAY 11th,

Bookcase, Couch, Tables and Stands, Chairs, Bed and Feather, Bed, Kitchen Cabinet, Carpet, Quick Meal Oilstove, Kerosene, Oil, and Barrel, Pictures, Dishes, Cooking Utensils, Crocks, Cans, Canned Fruit, Potatoes, Lawnmower, Hoes, Shovels and Rakes and many other articles too numerous to mention.

TERMS:— All sums of \$10.00 or under cash. All over that amount six months time will be given on good bankable notes with interest at seven percent.

Thomas Richardson, Prop.
NORMAN REASON, Auctioneer.

PINCKNEY LOSES OPENING GAME TO HOWELL

Notwithstanding the chilly weather, a large crowd turned out last Sunday to see the Pinckney-Michigan game open the season, their opponents being the Howell Independents.

All pitchers were hit freely but Howell bunched their hits to a better advantage than Pinckney. Connors started in the box for Pinckney and allowed seven hits and nine runs, only two of the latter were earned, five being the result of seven Pinckney misplays. Amburgey pitched the sixth and seventh and was not scored on. Cox went in the box in the eighth and Bill Cooper, first Howell batter up hit a home run. Two more runs resulted from three successive singles. Howell failed to score in the ninth.

Pinckney hit Jones, Howell pitcher freely but could not bunch them. Kennedy scored in the first on two Howell errors. Swarthout singled and scored on Reason's two base hit in the second and repeated the performance in the sixth. Cox was hit in the eighth and Bob Howard scored him with a double. In the ninth Pinckney staged a batting rally and threatened to tie the score. Norm Miller singled to right. H. Reason walked, Bowman hit safely, Miller scoring. Cox doubled to center, Kennedy, Bowman and Brown scoring. Swarthout fled out to Lewis and Cox attempting to score on it was out at home.

Pinckney plays the Del Prete team of Ann Arbor here next Sunday, May 12. The boys not withstanding their defeat played a good game for it must be considered that this contest was largely experimental to determine the capabilities of the different players. In order to have a winning team the support of the community is needed.

Pinckney

Home run—Cooper. Two base hits—Cox, Howard. G. Reason 2, Newman. Struck out by Connors 3, Amburgey 3, Cox 2, Jones 7. Base on balls, off Connors 2, Amburgey 3, Cox 1, Jones 2. Double play, Lewis to Hale. Left on bases—Pinckney 6, Howell 8. Errors Pinckney 7, Howell 2. Umpire—Eck and Cushing.

NOTES OF THE GAME

The new uniforms arrived Friday and the boys wore them Sunday. They are dark gray with a black stripe and black letters. The latter read Pinckney-Michigan on the front and Wolverine on the back. They are very becoming.

The attendance was better than expected. Howell, Ann Arbor and Dexter contributed largely to the crowd.

Nat McPherson who was slated to play first base for the locals failed to show up and Bob Howard, erstwhile member of Gus Eck's Dexter team took his place. He played an errorless game and hit a double in the 8th.

Gus Eck of Dexter officiated as umpire in chief and his assistant was Don Cushing, star athlete of Dexter high school.

Don Swarthout hit the ball hard and bunched it up. He got two hits and was on base when Venner threw him out after making a one hand stop of his line drive over second. In the ninth he hit a mighty wallop which headed straight for the pond. Ike Lewis after running around in circles under is just managed to get it.

Ed Brown made a great play in the 9th. He caught Myers line drive to left while on the dead run sideways.

Venner, the Howell shortstop played a great game. He robbed Harold Reason twice of hits by grabbing hard hit drives from the latter's bat. Ike Lewis gathered in two more from Reason in deep center.

Cox showed his versatility by playing three positions. He started in center field, went to second base and then pitched the last two innings.

Gerald Reason led the team in hitting with two doubles and a single. Both doubles scored Swarthout who had singled ahead of him each time.

Connors who pitched the first five innings only allowed two earned runs. All seven Pinckney errors were made behind him. Amburgey and Cox who pitched the last four innings got errorless support.

The Howell team gave a good exhibition of fielding. After the first inning they did not make a single error.

Early Landscape Gardening

The art of landscape gardening is known about the styles of the different peoples. In the early times of the Christian era, in the Thirteenth century, it was mostly practiced in the arrangement of walled gardens connected with castles or convents. Lenoire was a celebrated French landscape gardener of the Seventeenth century.

24,000 FARMERS IN SURVEY DECLARE FERTILIZER PRICES ONLY "AVERAGE"

Their Answers to Questions Show That Most Farmers Think Price Not High.

"As compared to other things, do you consider fertilizer low, average or high in price?"

This question was answered last summer by over 48,000 farmers in 35 states.

It was one of 50 asked by representatives of the National Fertilizer Association in an attempt to find out just what the farmer himself thinks about fertilizer, how he uses it to make money, and how the fertilizer companies may further improve their chemical plant food and their service so the farmer may make more money.

While it is only human nature for farmers or buyers of any product to feel that prices are high, nevertheless over half of the 48,004 farmers who answered this question said they think the price of fertilizer is only "average."

Seven per cent, or an average of 7 out of each 100 farmers who were interviewed, said the price is "low." Nearly 35 per cent, or 35 out of 100, said it is "high." The remaining 7 out of 100 did not express an opinion on this question.

Fertilizer Prices Low. The Association points out that, according to the U. S. Department of Agriculture, fertilizer actually is the cheapest important supply the farmer buys, with the exception of feeds, which are 1 per cent lower.

Prices of complete fertilizer are gathered from all over the country by the Association. An average of these shows that fertilizer is only slightly higher now than before the war. The Association finds that the price has been kept reasonable despite the phenomenal jump in wages of factory employees, which have doubled since pre-war, and an increase of 80 per cent in incoming and outgoing freight, which makes about one-fourth of the price of fertilizer. Notwithstanding these important increases in the manufacturer's cost, fertilizer prices at the factory average only 9 per cent above their pre-war level.

Though the prices of farm products have been low, the price of fertilizer is relatively still lower. For instance, according to the latest available figures of the U. S. Department of Agriculture, cotton and cottonseed are 49 per cent above pre-war; fruits

The names of 48,004 farmers and their answers to 2,400,000 questions are contained in this pile of questionnaire books, each of which contains replies of 50 farmers.

and vegetables are 11 per cent above; dairy products are 44 per cent above; poultry products are 58 per cent above; meat animals are 50 per cent above; and grains are 28 per cent above, and the average price of all farm products is 36 per cent above. In contrast, fertilizer prices at the factory average only 9 per cent above pre-war.

Reports of the U. S. Department of Agriculture also show that the farmer pays an average of 56 per cent more than before the war for all the commodities he buys. This is further proof that commercial fertilizer, being only 9 per cent above, is relatively inexpensive as compared to the cost of other things the farmer buys.

Helps Whole Community.

When it is remembered that fertilizer returns to the farmer an average of about \$3 for each dollar invested, and that high yields are necessary if the cost of production per pound of cotton or tobacco is to be reduced, then it seems logical that the farmer should use more and better fertilizer so he can make more money on his crops this year.

In addition, it is emphasized that the more fertilizer used in this community, the greater will be the return to the farmers, which gives more business to the local merchant, to the banker and to all who do business with the farmer, thus increasing the general prosperity of the community.

With a cigarette as good as Camels the simple truth is enough

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels are made of the choicest tobaccos grown—cured and blended with expert care.

Camels are mild and mellow.

The taste of Camels is smooth and satisfying.

Camels are cool and refreshing.

The fragrance of Camels is always pleasant, indoors or out.

They do not tire the taste nor leave any cigarette after-taste.

Announcing the Opening

OF

The McPherson Oil Co.

Super Service Station

AT

at Pinckney, Michigan

ON

SATURDAY, MAY 11

FREE SPRING SPRAY

On the opening day only, our spring spraying service, consisting of a thorough lubrication of the spring leaves with penetrating oil, will be free of charge to everyone.

FREE TUBE REPAIR KIT

An inner tube repair outfit will be given away free to the first 75 customers.

COME EARLY

Greasing Service

Automatic electric greasing equipment has been installed for high pressure chassis lubrication.

All equipment is the most modern and efficient. The products, manufactured and backed by the Pure Oil Company, are famous in 34 states for their uniform high quality. You will like our service.

WEATHER FORECAST TO AID FIRE FIGHTERS

Arrangements are perfected whereby the forest fire division of the department of conservation will receive fire weather forecasts in 1929 from the United States weather bureau at Chicago. The weather bureau and the state have established 10 substations located at various state fire towers, state forest headquarters, and also at two national headquarters in this state.

Employees at each station will take three sets of humidity readings each day. These will be telegraphed to the weather bureau in Chicago every morning at 8 o'clock. The weather bureau office will compare the Michigan reports with similar data received the same day from Minnesota and Wisconsin. Special fire weather forecasters will study the data on hand and decide if fire-hazard weather is pending. If they determine that conditions are right for fire-hazard weather, they at once wire each assistant warden in the state of this fact. This information will be received by the local men before 11 a. m. of the same day on which their initial report is made.

This arrangement gives the assistant district fire wardens a chance to mobilize their extra forces with greater efficiency for hazard periods.

Court Fight Brews Over Lake Highway

The Clare county board of supervisors have entered the controversy between sportsmen of that county and the Wild Life Reservation Association of Lake when it ordered the county road commission to push construction of a road to Cranberry lake and if an injunction should be granted to condemn the land and proceed with the work.

Residents of Garfield township, in which the lake is located, cut a trail to this lake last summer, when the Wild Life Reservation was incorporated. The trail was the continuance of an established road.

The company is preparing to fence the entire lake and across the trail to establish a fur farm. The case is expected to come into the courts for settlement to determine whether the trail is along a regular and established road and if the Wild Life Reservation Association has the right to fence the property and exclude the public from fishing and hunting.

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescriptive product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

PHILLIPS Milk of Magnesia

Gold Mine of Ideas for the HOME

Discoveries made by home owners, including dozens of devices that will be useful about every home. There are 329 of them and every one has been tested and is practical. Popular No. 1 should be in every home.

529 Discoveries—203 Illustrations EASY TO MAKE

You may know what you want, but do you know the best way to make it? This book tells how other folks have made the dozens of devices that make a home a good place to live. It tells how to make such things as follows:

SEND NO MONEY
Just write us what you want a copy of Home Mechanics Special: which we will send you absolutely free. This special is a complete book of ideas for making a home a good place to live. It tells how to make such things as follows:

GULLIVER

MT. CLEMENS PLEDGES \$250,000 FOR NEW PLANTS

That Mt. Clemens is going after new industries with a vengeance is shown in a statement by A. D. Brewer, secretary of the Board of Commerce, that existent local offers of cash aid to new industries total \$250,000.

Although declining to make any statement as to what concerns were being negotiated with for location here, Mr. Brewer did say that "we have 10 or 12 exceedingly good prospects and I hope to have one or more of them here in six months."

Because it hardly is within the realm of possibility, the Board of Commerce has no fear that all of its offers of cash aid will be accepted and it thus suddenly find itself in the position of being required to raise \$250,000.

The cash aid offers were made to several likely concerns with the hope that one of them would be accepted and on the theory that the more irons there are in the fire the more possibility there is of landing a new factory for the city.

She: "What is the difference between a wedding and a funeral?"
Him: "Well, at a wedding you smell of the flowers."

Cancer Clinic E. H. MORIARTY, M.D.

Japanese Giant Radish

This is the great Sakurajima Radish from Japan. The largest radish grown, often attaining the enormous weight of 15 pounds, and sometimes 20 or 30 pounds.

It is a real "novelty" to most Americans, and the taste will immediately convince anyone of the fact that it is not merely a curiosity but a radish of extraordinary quality and of most excellent flavor. It will grow and thrive in any soil or climate.

ity. The flesh is solid, firm and brittle, and of most excellent flavor. It will grow and thrive in any soil or climate. This is a radish that can be planted in the spring and eaten all summer long, and can also be kept through the winter if dug in the late fall and buried in a box of dry sand in the cellar. As a summer radish it is a wonder, and it will grow and thrive when it is so hot and dry that common radishes would be a failure. By all means try the Sakurajima Radish and you will be surprised at the real value of this monstrous variety. Send for package of the seed today before it is all gone. Package, 10c; package, 25c; by mail, postpaid. Address Novelty Garden Club, 55 Market St., Grand Rapids, Mich.

Ford Sells His Drill Outfits

Announcement has been made that the Ford Motor Co. has sold its diamond drill outfits to a Sudbury diamond drilling company. The sale included the drilling equipment and over a quarter of a million dollars worth of carbons. The drills are now on their way to Canada to be used in exploratory work in the Ontario mining districts.

It is also stated that the sale of the diamond drilling equipment means the permanent retirement of the Ford Motor Co. from the exploration field. Their experience has been very unsatisfactory from the start. The drills were first used to probe the Ford holdings in the vicinity of Michigan's gambo mountain, in Mansfield township, Iron county. They failed to show anything of value there and the machines were sent to the Marquette range, being employed there at the old Bessie and then moved to the vicinity of Republic, where they were operated for a long time.

They were next in operation on what is now the Blueberry mine, near the old Dexter, where they checked up the ore find made by drill operated by the Palm-Book interests. The Ford drills didn't find any ore but they did find the ore body which the Palm people found and as a result of their work the Ford interests took over the property.

At about the same time some of the drills were sent to the Neely property between Crystal Falls and Alpha and the deposit of iron ore on that and the adjoining property under lease to the Oliver Iron Mining Co. was checked.

About the time that the checking was completed the decision to change car models came on and the option which the Ford Motor Co. had on the property was not exercised.

Several of the drills were next sent to prove the Richards, a small deposit adjacent to the Dunn mine. It was while the drills were operating on this property that those in charge of the work quit and the probing there ended in the biggest fiasco of their operation.

St. Joseph Firm Merges

Announcement has been made by Fred S. Upton, vice president of the Upton Machine company of St. Joseph, of the merger of his company with the Nineteen Hundred Washer company of Binghamton, N. Y. The consolidation makes the Upton company an important unit in the world's second largest electric washing machine combine. Plants at both St. Joseph and Binghamton will be kept in operation. A Pacific coast plant is also being considered. T. W. Behan, president of the New York firm, will head the combined company.

June 10 Is Date Set as Ionia Achievement Day

Mrs. Ray Normington, county chairman of the Michigan State college extension work carried on in Ionia the past year, has set June 10 and the Baptist church parlors as the time and place for the achievement day program.

There are 12 groups in Ionia county, and the leaders of these will be hostesses of the day.

TO BUILD NEW BRIDGE ON US131

One of the largest highway construction projects in Mecosta in many years will start this summer when the state highway department constructs a \$200,000 bridge spanning Muskegon river on US131 near Rogers' dam, five miles south of Big Rapids.

This announcement was made recently by Grover C. Dillman, state highway commissioner, who advertised for bids. The bridge must be completed by Aug. 1, 1930. Sealed proposals are to be received at the Grand Rapids office of the state highway department until May 9.

Plans for the new bridge, now on file with the state highway department, call for a four-span structure. Each span is to be 70 feet in length and there is to be a 35-foot roadway. The new bridge will cross Muskegon river 200 feet west of the present bridge. There will be no necessity of a detour, for traffic will continue over the old bridge during construction.

Completion of the bridge and 1,000 feet of pavement at each end of the structure will leave only one short stretch of gravel road between Big Rapids and Grand Rapids. This unfinished road, a quarter mile, is between Morley and Starwood. At this point the state is to build a grade separation, either carrying the highway under or over the Pennsylvania tracks. Swampy land and quicksand postponed the viaduct construction last year.

37.6 Per Cent of World Gold in U. S.

Gold holdings in the United States at the end of 1928 were reported by the federal reserve board in its April issue of its bulletin to have been 37.6 per cent of the world's total, which amounted to \$9,981,000,000.

The total gold supply was compiled from reports transmitted to the board from 40 countries and shows that the increase in gold of \$466,000,000 in a year was greater than the amount of gold minted during the year by about \$61,000,000. The increase was made, the report said, even though about \$80,000,000 was absorbed by England and an unknown amount taken for industrial consumption.

The unusual growth in the gold supply for the year was accounted for, the board said, by the return of gold by the French public to the Bank of France and shipments of gold to England and Germany by Russia in excess of gold produced by mines of that country.

The supply of gold in the United States was reported to have decreased by about 4 per cent as compared with the end of 1927.

France was second with \$1,253,000,000; England, \$749,767,000; Germany, \$650,127,000, and other countries lesser amounts. Canada's gold supply was set at \$114,000,000.

Teacher: "Johnny, use 'arrears' in a sentence."
Johnny, after thinking awhile: "Helen has dirt behind arrears."

Engineers Pay High Tribute to Dean Cooley

Mortimer H. Cooley, dean emeritus of the colleges of engineering and architecture of the University of Michigan, was made a life member of the American Society of Mechanical Engineering, at a banquet given at the Michigan Union by Detroit and Ann Arbor members of the organization.

Dean Cooley was paid high tribute by various speakers, including President Clarence C. Little of the university, Dean Herbert C. Sadler of the engineering college.

Dean Cooley first came to the university faculty in 1881, advanced through the various faculty ranks to that of dean of the engineering college, a post given him in 1904, and was also made dean of the college of architecture in 1913. He was named dean emeritus by the board of regents a year ago.

Otsego Masons To Build Temple

Otsego lodge, F. & A. M., and O. E. S. chapter are to build a new temple at E. Allegan street and Fair street. The structure will be two stories with lodge and preparations rooms on the second floor and dining and club rooms below.

A holding association to own and construct the building has been formed with the following officers: President, C. C. Cushman; vice president, J. A. Collins; treasurer, Harry Johnson; secretary, J. H. Pardee.

Bay City Pay Rolls Grow

Pay rolls at various Bay City plants are expected to grow considerably during the next few months, according to recent reports from that city. Both the Chevrolet Motor Company and the Murray Corporation of America plants are working large crews in an attempt to keep up with production schedules. The former is now employing 2,250 and the latter 58, with a constant demand for certain classes of labor. Woodcrafts Corporation expects to have at least 300 men and 50 women on its pay roll by June 1, as compared with 40 men at the present time.

Seek Influx of Early Tourists

Greater business for the other resort sections in June, the off month of the summer season, is in sight through activities of the season extension committee of the Michigan Tourist and Resort Association, which is asking hotels and transportation companies to offer reduced rates during this period.

The extension committee, of which W. J. Hobbs of Traverse City is a member, is issuing a special folder for distribution at Chicago and Detroit outdoor shows. Later in the season special advertising will be done. All summer hotels are being asked to reply promptly to a questionnaire on whether they will give reduced rates in June and obtain a reduction of ground fees during June at nearby golf clubs.

"It is not expected there will be a great increase in the volume of business for June this year," said H. J. Gray, secretary-manager of the tourist association, of Grand Rapids, "but it is hoped in later years we may accomplish much."

Little Girl: "Oh, mamma, I saw the funniest looking man down the street when I was coming home from school."

Mamma: "What was there funny about him?"

Little Girl: "Why, he was sitting on the sidewalk and talking to a banana skin."

HUNTERS ON THE INCREASE IN STATE

The number of deer hunting licenses and small game licenses sold in Michigan has increased steadily during the past four years, figures compiled by the state conservation department reveal, although the small game hunting army has not grown as rapidly as is commonly believed.

The number of deer hunting licenses issued to resident and non-resident hunters since 1925 is as follows: 1925, 43,122; 1926, 48,102; 1927, 54,359; 1928, 58,073.

It was prophesied at the opening of the deer hunting season last November that the hunters invading the north woods would exceed the 60,000 mark. The conservation department's figure reveals that this mark was not reached by nearly 1,000. However, if the present rate of increase continues, next year's hunting army will number considerably more than 60,000 and the next three or four years will see 75,000 deer hunters abroad in Michigan.

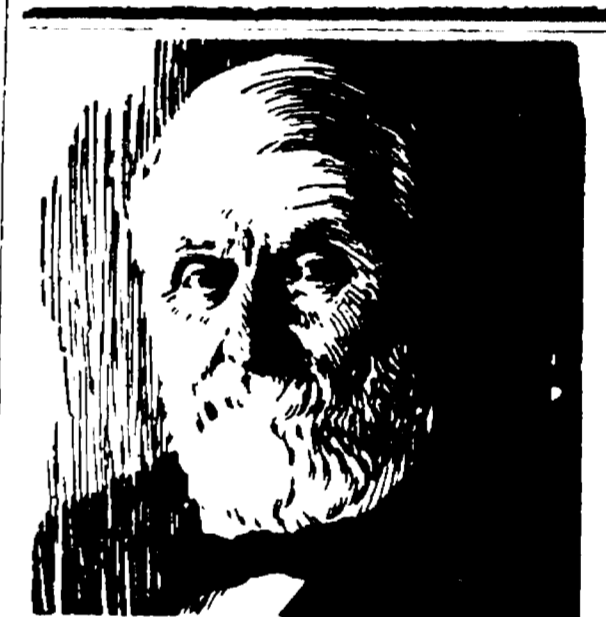

The small game hunters of the state commonly are estimated to number nearly a half million. That they fall nearly 200,000 short of that mark, however, is shown by the department's statistics.

Following is the number of small game licenses sold each year since 1925: 1925, 288,090; 1926, 293,084; 1927, 304,066; 1928, 306,200.

The resident trout fishing license, in force for the first time last season and applying to male anglers more than 21 years old, netted the state only \$56,706 at \$1 for each fisherman, the department states. This is considerably below the number of licenses it was estimated would be sold at the time the license law was enacted.

90-Acre Tract Sought As Addition to Park

Condemnation proceedings have been started in the Lenawee circuit court to obtain about 90 acres of land in Cambridge township for an addition to the Cedar Hills state park at Wampers lake. The land, owned by Herman O. Hane, lies between the present park site and U. S. Highway 112 and includes considerable lake frontage.

OLD FOLKS SAY DR. CALDWELL WAS RIGHT

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice.

He treated constipation, biliousness, headache, mental depression, indigestion, sour stomach and other indispositions entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

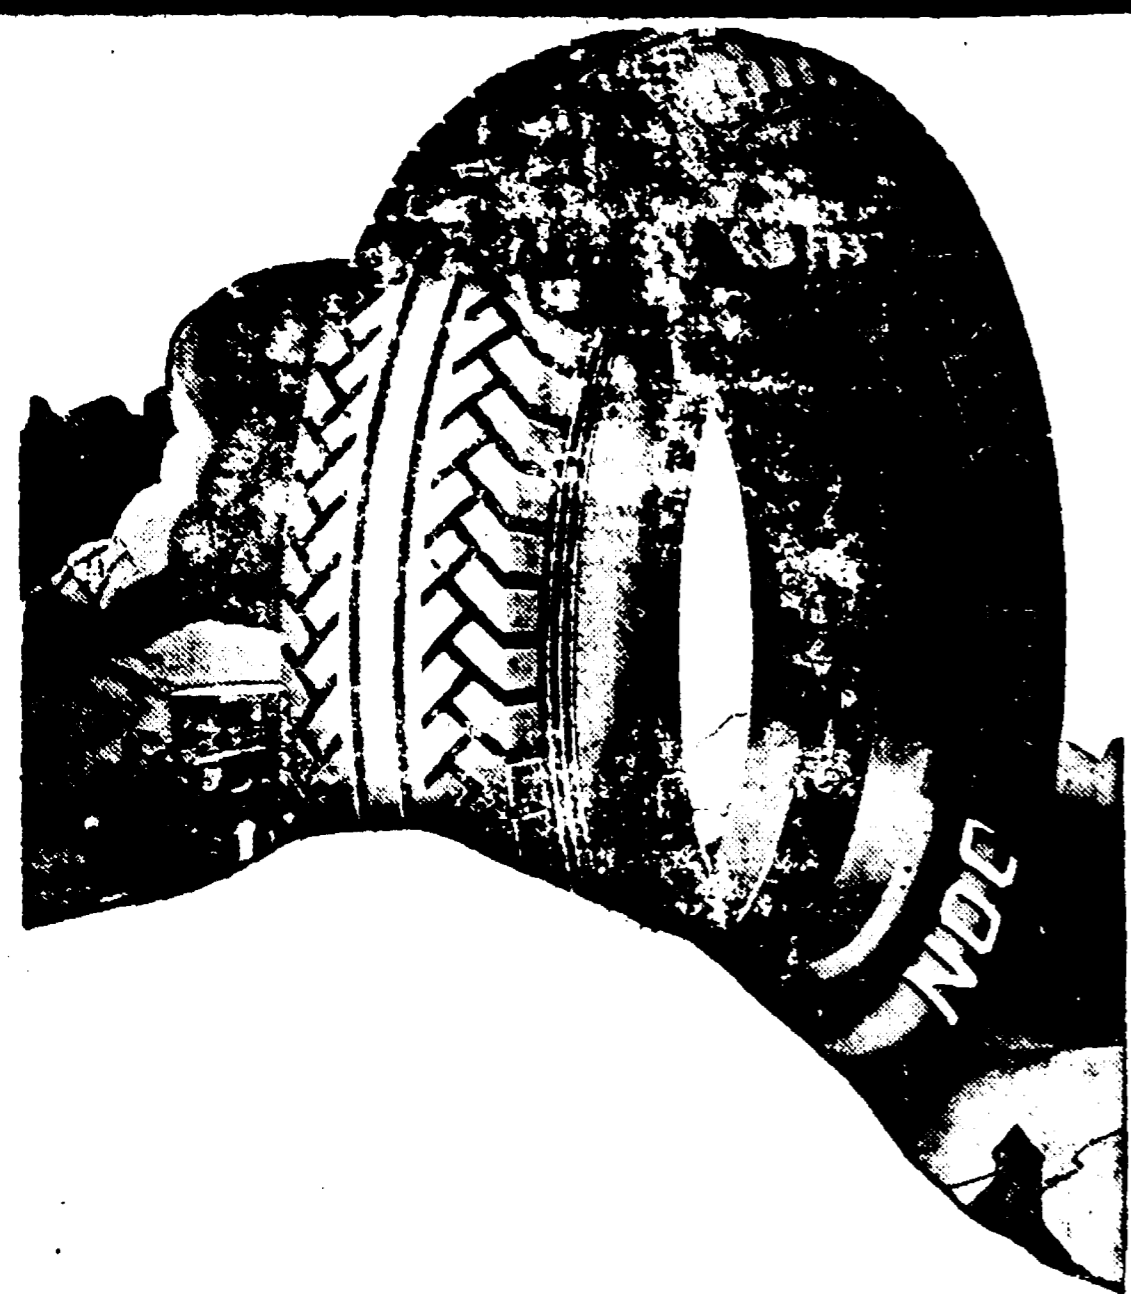

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal. All drug stores have the generous bottles, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

Northern Grown Peanuts

Just as good Peanuts can be grown in the Northern States as in the South provided you plant improved Early Spanish. Everyone should have at least a few for the children.

This is the earliest variety grown and very productive. The pods are small but remarkably solid and well filled with peanuts.

Boys here is a chance for you. Think of growing peanuts in your own garden and having plenty of them to eat. Shell nuts carefully so as not to break inside skin and plant as soon as ground becomes warm, about 2 inches deep in rows 3 feet apart, and from 8 to 10 inches apart in the row. Pkt. 10c. \$ for 25c; postpaid. Address Novelty Garden Club, 55 Market St., Grand Rapids, Michigan.

Kelley are Designed for Service

Kellys are built to give service—built from the inside right through to the outside to stand up under heavy loads and tough roads. If you have been unable to find a tire that will give you one hundred cents worth of mileage for every dollar you spend, try a Kelly. One Kelly will convince you that it's a good investment to have Kelly's on all around.

ESTABLISHES NEW RECORD

Exceeding by approximately 10,000 units its best previous monthly manufacturing record, the Chevrolet Motor Company in April established a new all-time monthly production record with an output of 157,137 cars and trucks. April was the second consecutive month during which Chevrolet set up a new all-time monthly production mark, March having been high with 147,273 units.

The sensational April achievement brings Chevrolet production in the last four months up to the record total of 511,837 units as compared with 477,967 for the corresponding period of 1928, a gain of more than 33,000 units over the best previous corresponding period in the company's history.

The most significant feature of Chevrolet's manufacturing performance during the first four months is the fact that during the limited period Chevrolet built more six cylinder cars than any other manufacturer has ever built in an entire year.

Coincident with the announcement of this latest Chevrolet achievement was the indication that in response to the greatest demand Chevrolet has ever known, May will see another all-time monthly record established. Tentative schedules arranged for the current month call for a May production of 160,000 cars and trucks.

Sixteen giant factories located at strategic points from coast to coast are now working with all the speed consistent with Chevrolet's precision manufacturing methods to accommodate the greatest business in the history of the company.

100 MILE SPEED CLASSIC

Wm. "Louie" Schneider, who drove Lou Moore's Miller eight into second place in the 500 mile Indianapolis race last Decoration Day, has entered his latest Special in the 100 mile Speed Classic at Ft. Miami mile track, Sunday, May 19th.

Schneider is probably one of the wildest drivers in the racing game. It will be remembered that three years ago the little Dutchman ran second over the local oval to the late famous Frank Lockhart, who led the fastest pace that has ever been driven on the Toledo track. Louie has improved since that time and doubtless he will put more snap into the coming century run than has been shown in any race of the past two years. For one reason he will have real competition. Wilbur Shaw, winner of fourth place in the 1927 Indianapolis classic and the favorite "Shorty" Cantlon have already entered and all race fans know they are real competition any driver.

The entries have just started to arrive in the mail and even at this early date the list begins to show more promise than any race here in several years. The fact that races are now run under the rules and with the sanction of the American Automobile Association contest boards has made the local sport cleaner and with practically dustless tracks it is pleasant for the fans.

COUNCIL PROCEEDINGS

Village Council convened May 1st, 1929 with following members present. Pres. Kennedy, Trustees Murphy, Leavey, Van Blaricum, Meyer and Read. Absent Reason.

Minutes of last meeting read and approved.

Following bills presented: I. H. Shults, Assessors Roll \$2.48 Haze Sisters, gravel \$17.00 Clayton and Son, gas, alcohol, and valve cores \$4.54 J.R. Kennedy, labor on street \$16.80 Geo. Meabon, repairing pumps, \$7.00 Mrs. Whalen, tramp lodging and meals \$2.50

Motion by Leavey supported by Murphy to allow bills and draw orders for same. Motion Carried.

Motion by Van Blaricum and supported by Murphy that a tax levy of 10 mills be made for 1929.

Motion by Van Blaricum, supported by Read to pay delinquent tax on Adair Smith property and if acquired on tax title, property to be used for village purposes. Motion Carried. Council adjourned. Nellie Gardner, Clerk.

CURRENT COMMENT

The question of the disposal of the Four Mile Lake cement plant now operated by the state with convict labor is still open. Gov. Green in a message to the legislature said it was a losing proposition and recommended that it be disposed of.

A hearing was held and strangely enough the only ones who spoke against the cement plant were 8 of the leading cement manufacturers of the state. They asked that the plant be not sold but junked. They denied that the plant was injuring their business in any way and said their only concern was for the small cement makers, none of whom by the way took the trouble to attend the hearing.

Rep. Deland of Detroit spoke in favor of the plant and stated that it had lowered the cost of cement to such an extent that if this were figured in it would show a profit instead of a loss. The cement makers denied this claiming that it had nothing to do with the decline in the price of cement. We remember that it was said several years ago at the time Henry Ford purchased the D. T. & I. Railroad, his purpose was to obtain better rates from other roads.

His subsequent request to lower the rates on his road was refused by the interstate commerce commission, so there may be more truth than poetry in Mr. Deland's contention.

The farmers of Livingston county can now do as they please about corn borers, breed 'em or kill 'em. Herbert F. Powell, commissioner of agriculture, is our authority for so stating. -Livingston Republican.

Less than a year ago, the entire country was at war with the ferocious man eating corn borer. All roads were guarded by armed men and huge armies were everywhere giving battle to the hardy borer with sword, fire and tractors. The cost being paid by the dear people. Now all is over, the worms having evidently won the victory. We were always of the opinion that these worm and insect scares which throw the country into a panic about once every ten years were more or less unbecome. About 10 years ago a like panic was caused by the army worm which was said to march along by the millions destroying every living thing. It was claimed that two of these voracious worms could devour ten acres of standing grain in a day. Now like the lively stable and the five cent shouper they are only a memory.

Wm. Scott and wife, Emma, were arrested last week for cruelty to child ren. It is alleged that they beat, starved and abused, their daughter, aged three and even compelled her to remain out doors insufficiently clothed in the rain. Her body was a mass of scars and bruises. She is now at the Ann Arbor hospital. Here is a chance for the missionary societies to get in a little home work in addition to their foreign activities. The Scotts live on Grand River Road, near Lake Chemung.

The capital punishment bill is still being buffeted about by the winds of fate. The senate surprised everybody including themselves by passing it without the referendum and sending it to the governor to sign. He promptly returned it to them along with an opinion by the Attorney General that it was unconstitutional and they will have to vote all over again on it. It is claimed that Gov. Green is opposed to the bill and will veto it.

ITEMS OF 25 YEARS AGO

From the Dispatch of May 5, 1904 Born to Wm. Clark and wife one day last week a 11 1/2 lb. girl.

G. W. Teeple has moved his family into the Vaughn house while his house is being remodeled.

George Burchell has opened the barber shop under Wright's grocery.

Henry Ruen was given first place on the affirmative side in the debate given by the Detroit College of law at the Central high school auditorium last night. The subject was resolved That the board of education of the City of Detroit be abolished and that a smaller one be created, the members of which shall be selected at large.

The Young Mens Club will hold an athletic carnival at the opera house May 7. The following is the program: Boxing, 3 rounds, 2 minutes each. Wrestling, catch as can. Bag punching. Acrobatic tumbling. Club swinging. Trapes performance.

Miss Kuhn gave a fine address at the Plainfield church Sunday evening. \$75 was raised for missionary work.

STATE OF MICHIGAN

The Probate Court for the County of Livingston

At session of said court, at the Probate Office in the City of Howell in said County, on the 18th day of April A. D. 1929.

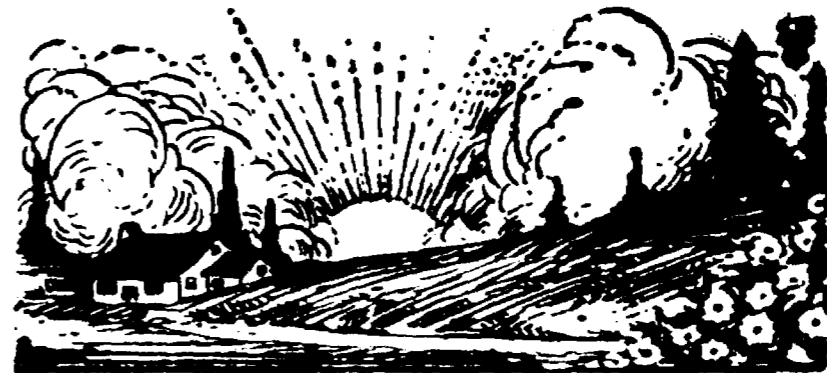

Present: Hon. Willis L. Lyons, Judge of Probate.

In the Matter of the Estate of James A. Wilcox, Deceased. Amelia F. Wilcox having filed in said court her petition, praying that the administration of said estate be granted to Anne W. Long or to some other suitable person.

It is Ordered, That the 26th day of May A. D. 1929 at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Pinckney Dispatch a newspaper printed and circulated in said county.

Willis L. Lyons, Judge of Probate. Celestia Parshall, Register of Probate.

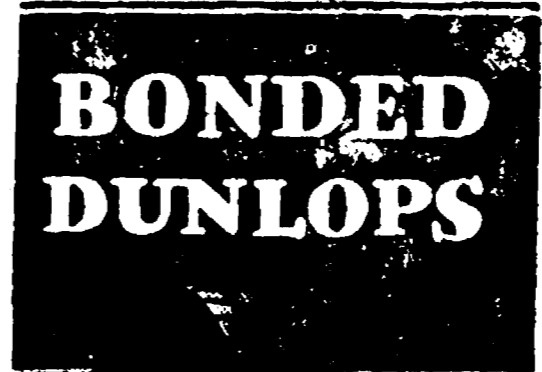

The dawn of a simpler yet more beautifully dignified Last Service has come with the advent of modern equipment and more professional knowledge.
