CRUMBAUGH HEARING HELD

The hearing of James Crumbaugh of Lakeland on charges of violating the prohibition law and felonious assault was held before Justice Yelland of Howell Saturday. It is claimed that Crumbaugh drew a gun on Deputy Sheriff Slidell of Fowlerville when he was raided early in the month and a quantity of booze seized. Crumbaugh's attorneys are Louis McCleer of Detroit and Hiram Smith of Howell. At the time of a previous raid Crumbaugh signed a waiver giving the sheriff the right to search his place at any time without a warrant. His lawyers now contend that this is invalid. Judge Yelland took the matter under advisement for ten days. He reduced Crumbaugh's bail to \$2,000 on the prohibition violation and to \$3,000 on the assault charge. We understand that this was furnished and Crumbaugh is now at liberty.

Crumbaugh took over the Keystone Club at Lakeland about a year ago. He was raided last fall but was released on account of a faulty search warrant. Last winter he was again raided and is now awaiting trial at the present term of court. The last raid was about a month ago.

CITY OF STRAITS LODGE CONFERS THIRD DEGREE

Livingston Lodge No. 76 F. & A. M. was host to the City of the Straits Lodge Detroit Saturday evening. The Detroiters arrived early in the afternoon and enjoyed a ball game on the public square. At 7:00 p. m., a banquet was served in the hall by one of the Eastern Star committees. At this banquet besides the Detroit brothers about thirty visitors were present coming from Stockbridge, Dexter, South Lyon and Highland Park. At the conclusion of the feast, R. T. Read acting as toastmaster called upon some of the Masons for toasts. Those who responded were John Crane, Master of City of Straits, John Rickerbacker, past master, Mark Aikin, Ralph Perkins, Peter Davidson, A. Kessler, Ed Long, all of Detroit, Messrs. Sharp and Whitney of Stockbridge, David Stepto, of Dexter, Past Master Carpenter of Pinckney welcomed the visiting brothers. At the conclusion of this lodge was opened after which the City of Straits Officers assumed charge and conferred a third degree, long form. Great praise is due them for the excellent manner in which they put on the work.

At the conclusion of this John Crane on behalf of the Detroit brothers announced that the City of the Straits were conferring a third degree on Saturday, October 5th at the Detroit Masonic Temple. This occasion, he stated will be known as Pinckney night and he extended a cordial invitation to the members of Livingston Lodge as well as those of Stockbridge, Dexter and South Lyon to attend. The invitation was accepted. Lodge was then closed and the visiting brothers departed, some for the home, and others for the nearby lakes where many of them have summer homes.

PLAY TWO GAMES THIS WEEK

The Pinckney-Michagamme team will play two games this week. On Thursday, Memorial Day, they will play Gus Eck's Dexter team at Dexter. Gus opened his season last Sunday by losing to a Detroit team. He has a strong line-up. Ernie Vick, former St. Louis Cardinal is doing his catching and Hart, Tomlin and Lickly are also in the line-up. Gus rather beat Pinckney than eat and it is a certainty that the locals will have to go at top speed all the way to win.

On Sunday, June 2, the Ideal Lawnmower team of Lansing comes here to play Pinckney. This is a class AAA team and another hard contest is expected. This game will be started at 3:00 p. m. Come out and help support the team.

VOTE TO SELL STOCK

At a meeting of the stockholders of the Livingston Mutual Telephone Co. held at Howell Tuesday it was voted to sell out to C. A. Brillhart & Co. of South Bend, Ind. who offered \$120 per share. The Bell Co. only offered \$60. There are 408 shares of stock and only two votes were cast against selling out. This will mean a nice profit for the shareholders as most of the stock was purchased for about \$50 a share. Just what the plans of the new company are is not known.

DANCING AT PATTERSON LAKE

There will be a dance at Met Chalkers Dance Hall, Patterson Lake, every Saturday night. Good music and good time promised. Dances for both old and young. Refreshments. Bill \$1.00

REGULAR COMMUNICATION

The Regular Communication of Livingston Lodge No. 76 F. & A. M. will be held at the Hall Tuesday evening, June 4, at this time the E. A. Degree will be exemplified. Good attendance requested. Entertainment Refreshments.

Kenneth Reason, Sec'y.

HAS BEEN APPOINTED DEALER

Charles J. Hoff of Howell who has been appointed Oldsmobile dealer for this county has a half page ad on page 3. Mr. Hoff is an old Pinckney boy and will be pleased to greet his old friends at his new place of business.

Mr. and Mrs. Jesse Henry and sons were dinner guests of Mr. and Mrs. L. T. Lamborn of Gregory Sunday.

PEARSON TRIAL STARTS

The second trial of Dr. A. H. Pearson of Ann Arbor and George Goodrich, his caretaker on charge of setting fire to the barn on the Pearson farm in Hamburg township started at Howell before Judge Collins Monday. Pearson and Goodrich are represented by Carl Lehman, George Burke and Victor VanAmeringen of Ann Arbor and Don VanWinkle of Howell. Prosecuting Attorney Sweeney of Howell and Assistant Attorney General Waples of Lansing are handling the case for the people. The panel of 26 jurymen was exhausted and 12 special veniremen had to be summoned. 24 more are also to be drawn. Eleven jurors were tentatively accepted but it was a certainty that many of these would be excused when the defense exercised their challenges. The fact that the defense lawyers are objecting to all jurors who are members of the Livingston County Mutual which insured the burned barn, is making the selection of a jury difficult.

Tuesday the entire panel of 64 veniremen was exhausted without a complete jury being drawn. The case was then adjourned until July 8th at which time a new panel of jurymen will be available. N. O. Frye of Putnam was accepted on the jury but both Eugene Campbell and L. G. Devore were excused, the first for poor hearing and the latter for business reasons.

COLLEGE GRADUATE

Invitations have been received here for the Solemn Mass and Baccalaureate Sermon of the graduating class of Assumption College, Sandwich, Ontario, to be held in Assumption church Thursday, May 30. It will be delivered by Rev. H. S. Bellisle, C. S. B. M. A. B, vice president of St. Michael's College, Toronto, Ontario.

Morgan Harris of Pinckney is a member of the class.

HOMER REASON

Homer Reason, son of the late Charles and Etie Reason, was born in Putnam township, Livingston County, on March 10, 1876 and departed this life on May 23, 1929 at the age of 53 years, 2 months and 13 days.

His whole life, with the exception of several years spent in Detroit was passed in Pinckney and vicinity. He leaves to mourn his loss one sister, Mrs. Grace Matthews of Detroit, one brother, Claude, of Pinckney, cousin and a host of friends. His son, Ora died in Detroit several years ago.

The funeral was held from the home of his brother, Claude, Sunday at 2:00 p. m. B. F. Esic officiating. Burial was in the Pinckney cemetery.

Why grieve you so?
For you must know that
That I have only passed on
Waiting for you in the Great Beyond.

GOODYEAR

A recent inquiry among car owners, conducted nationwide, reveals that Goodyear Tires are now preferred 2 to 1 over the next most popular make and from 3 to 1 up to 30 to 1 over other brands.

The old opinion that "all the leading tires are about alike" is rapidly submerging under the ever-growing proof of Goodyear superiority.

The loyalty to Goodyear tires on the part of car owners is a matter of cold dollars and cents. Most people buy those products which give them the most for their money.

Experience proves that Goodyear Tires offer the greatest value—by a wide and substantial margin. Therefore!—Goodyears far out sell any other make.

DRY CLEANING AND LAUNDRY GOES MONDAY, WEDNESDAY AND FRIDAY

W. W. BARNARD

WEEK OF JUNE 2

Around the first two or three days of this month we are expecting some rather severe electrical and wind storms in many parts of Michigan.

The temperatures will range considerably above the seasonal normal throughout the most part of the week.

During Wednesday and Thursday many counties of the state will be visited by local rain storms as well as some strong winds.

Following these last storms at the very end of this week temperatures will take a rather noticeable drop.

Best Time This Week For Planting—June 8, 1 to 3 p. m. This is an unusually good time to plant beans, late cabbage, cauliflower, sweet corn, cucumbers, watermelons, early peas and squash.

"I am satisfied on one thing at last: I found where my husband spends his evenings," remarked Mrs. Gadabout.

"And so you are an ex-slave," said the traveler in the south. "How interesting. But when the war was ended you got your freedom!"

JACK and JILL

By CLIFFORD WEBB

(Copyright, 1925, The Central Press Association, Inc.)

CHAPTER XLV But Nita Ravelle made no move toward complying with the suggestion he had offered.

"We seem to be located in a sort of pocket in the hills," he observed, laconically. She offered no comment, and after a moment he added: "But the question is: Where is it?"

A full minute passed, and still she made no response to his tentative question. Then her gaze came slowly around again, and once more met his.

And that was that. Noon came. Luncheon was brought them by a lanky, morose negro, the direct antithesis of George Washington.

It was the old darkey, George Washington, but he carried no tray. "Boss 'Enry he don' telefoned an' he tole me foh t'ells yuh'uns this away," was the greeting he brought them.

Both Jack and Nita shook hands with George Washington and the garulous old fellow. He observed immediately that the car they occupied was the one he had rented from the garage the day before.

"I'll drive you to within a block or so of your apartments," he told his companion, without thought of the possible consequences. She offered no comment, either in favor or against the suggestion.

Having fixed on his plan of procedure, he drove to the garage, explained briefly that his extended absence had been unavoidable, and started for his home, little dreaming of the diabolical mess awaiting him there.

stant later Jill's and Mike Sweeney's voices, both talking at once. It was the startling information contained in Mike's words that riveted Jack's attention and chained him, momentarily, to the spot.

"When we left the cabaret to go into the Casino Nita and Jack sat at the table." "It was the names 'Nita and Jack' that brought him up short and sent the blood leaping to his head.

And so he told it, the story he had fixed upon, the story with "the woman in the case" left out. And then, when he had told it, the crazy, impossible holdup that wasn't a holdup, but a kidnaping, and the incarceration in "the house somewhere over a hill," the writing of the note to Jill asking for a thousand dollars to ransom him.

"But there has been no one to see me with a note from you, Jack," was the sickening answer she made to that part of his tale.

ing the time we were in there she almost broke the roulette bank, winning something over a thousand dollars.

But he must face the issue. He couldn't turn and sneak out like a cur dog. He waited an instant longer. Then he took the plunge.

And it was this—and more—that she sobbed out, she clung to him and kissed and nuzzled and kissed him again, totally unmindful of first of the others present. Then she remembered. Slowly, filled suddenly with a terrible dread, she disengaged herself from his arms and stood back.

CHAPTER XLVI Was man ever faced, asked Jack Stuart of himself, in an agony of desperation, by a situation so diabolically arranged as this? What could he do? What turn could he make? He couldn't and he wouldn't if he could—lie himself out of it.

me his faith on the strength of his trust in my honor. And so I cannot accept it, as I cannot hide behind the inference he has taken that I said I was alone last night."

"Why, Jack?" wailed Jill, as she saw the props of her father's faith knocked endways by this admission, and realized that she, too, had begun to take heart again.

"I admit nothing—nothing of the kind, Jill!" denied Jack, fairly at his wits' end to find some loophole, some manner of escape from the net that enmeshed him.

"I am going to ask that every one present consider it as such, and to hold inviolate anything that has been said here tonight. The happiness of a family probably depends upon tonight's issue, Jack, just as he says, is in honor bound not to reveal the name of his companion.

He looked at her and the look was laden with anxiety. What position—what stand was she going to take? Would she insist upon him telling her everything?

Not just then, he very soon learned. Instead, she told him something that made him curse himself for a fool—Nita Ravelle so close to her apartments—and to curse, inwardly, the busy-mindedness of Mike Sweeney!

She had found Father Pat and Peter Justin with Jill, but had taken the latter aside and told her of having just seen Jack, realizing, as she did, the wife's anxiety.

"Where is your mother, Johnny?" "Playing golf." "And your aunt?" "She's out learning how to drive our new car."

me his faith on the strength of his trust in my honor. And so I cannot accept it, as I cannot hide behind the inference he has taken that I said I was alone last night."

"Where is your mother, Johnny?" "Playing golf." "And your aunt?" "She's out learning how to drive our new car."

"Then, I'll see your father, please." "He can't come down, now." He is upstairs giving the baby a bath.

"It's a rotten shame, Nita," said Jack.

PINCKNEY-MICHAGAMME DEFEATS DEL PRETE TEAM

With the score standing 2 to 0 in favor of Del Prete, the Pinckney-Michagamma team batted in five runs in the 8th inning and one more in the 9th to defeat their opponents by a score of 6 to 2. In this inning Brown led off with a hit, Cox tripled, Mulvaney, Newton and Moran singled and Miller was safe on an error, five runs scoring. Brown scored again in the 9th on Mulvaney's hit. The game up to the 8th had been a pitcher's battle between Amburgey and Moran for Pinckney and Gale of Del Prete. Pinckney outhit Del Prete 11 to 6, but were unable to score as brilliant work by the Ann Arbor outfield killed their scoring chances. In the 6th Swarthout led off with a two base hit and Brown and Cox were both safe on errors. Gale struck out Mulvaney and Ball made a marvelous one hand catch of Gerald Reason's drive and doubled Brown at second, retiring the side. Del Prete scored a run in the second on an error and two hits and another in the third on two errors and a stolen base. Moran pitched the last five innings for Pinckney allowed but two men to reach first.

PINCKNEY WINS AT DEXTER

Pinckney high school base ball team managed to win a close game from Dexter played there Friday by a score of 8 to 7. Dexter started Toth a left hander in the box and he lacked control. Pinckney hit him hard in the second scoring 4 runs and he was relieved by Don Cushing who kept the Pinckney boys away from the plate until the 7th when Graves was safe on an error and scored on Hall's two base hit. In the meantime Dexter scored three runs mostly on Pinckney errors. In the 7th the Pinckney infield blew up and made 5 misplays by means of which Dexter scored 4 runs and led 7 to 6. However Pinckney forged ahead in the 8th when Smaka singled, Basydlo walked and Graves scored both with a double. Pinckney led this lead until the end of the game.

STATE OF MICHIGAN

The Probate Court for the County of Livingston

At session of said Court, held at the Probate Office in the City of Howell in said County, on the 14th day of May A. D. 1929.

Present: Hon. Willis L. Lyons, Judge of Probate.

In the Matter of the Estate of John Dunne, Deceased.

A. H. Murphy having filed in said court his petition, praying for license to sell the interest of said estate in certain real estate therein described.

It is Ordered, That the 10th day of June A. D. 1929, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why license to sell the interest of said estate in said real estate should not be granted.

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing in the Pinckney Dispatch a newspaper printed and circulated in said county.

Willis L. Lyons, Judge of Probate.

A true copy: Celestia Parshall, Register of Probate.

STATE LEVY IS CUT BY GOVERNOR GREEN

After slicing \$1,404,686 from institutional and departmental appropriations Governor Fred W. Green Wednesday signed the state budget bill. Of the \$548,073,553 included taxes to be raised in the next two years only \$15,804,278.64 the first year and \$15,117,676.89, the second year is to be raised by taxation. The difference will be made up as usual, it is anticipated, in special fees and licenses.

With the budget bill disposed of, the governor turned to the bill appropriating for rehabilitation of the state institutions, and if it is approved in substantially the same form that it was Thursday, the amount of state taxes to be raised in the next two years will be the greatest in history.

The building bill provides for the raising of approximately \$6,000,000 in each of the next two years, the total of the mill tax for the University of Michigan and Michigan State College approximately \$7,000,000. The Turner bill to aid poorer school districts will require the raising of \$2,000,000 annually, and there will be approximately \$300,000 required for miscellaneous purposes, including \$1,000,000 annually for advertising of the state's natural resources.

The total of these items with the \$15,000,000 that must be raised annually for institutional and departmental maintenance purposes approximates \$31,000,000. As a partial offset to this figure, there are prospective revenues of \$2,000,000 from operation of the new special state taxes, those on cigarettes and on malt.

A total levy of \$27,000,000 is now in sight is unprecedented. Two years ago, the total levy was \$24,500,000, a record figure then. A year ago the levy was \$20,500,000.

Extraordinary conditions have entered into the compilation of the taxes two years ago and for next year, however. Two years ago there was a deficiency of more than \$4,000,000 that the legislature appropriated to meet. This year there has been the deplorable condition of the state hospitals, to remedy which first an income tax and then a bond issue, was proposed. The legislature finally made direct appropriations.

POOLING DATES AND PLACES

Pooling of wool in Michigan this year has begun with indications that considerably more medium wool will be pooled by the growers than in previous seasons, the State Farm Bureau announced this week.

Several cars of fleeces of this season's clip have been shipped to the Ohio Wool Growers Association where the Michigan growers have pooled with growers of several other states each year for about 10 years.

Because of the apparent reluctance on the part of the local wool buyers to bid wool up this spring, the Farm Bureau foresees the probability of there being an unusually large pool in this state this year with the pool working to the advantage of the producer.

A schedule of pooling dates and places announced by the bureau this week names Charlotte on June 5 as the first pooling place with the other places as follows: Richland, June 6; Dowagiac, June 7; Climax, June 8; Milan, June 10; Jackson, June 11; Dexter, June 12; Brooklyn, June 13; Hillsdale, June 15; Union City, June 17; Quincy, June 18; Coldwater, June 19; Marcellus, June 20; Cassopolis, June 21; Hastings, June 22; Oxford, June 24; Inlay City, Davison and Mount Pleasant dates have not been set.

While the State Farm Bureau sponsors the pooling of wool in Michigan, it does not handle any wool except as an accommodation for farmers living within a radius of a few miles of Lansing. Wool for the pool will be handled at Farm Bureau headquarters in that city only during the week of June 2 to 8, officials of the organization say.

Mrs. M. T. Graves, son, Walter, and daughter, Evelyn were in Jackson Monday.

Mrs. George Butters was in Ann Arbor Tuesday.

Announcing the Appointment of Charles J. Hoff as Oldsmobile - Viking Dealer

With much pleasure Olds Motor Works announces the appointment of this new member of the Oldsmobile-Viking dealer organization. This new association has been brought about through a close similarity of business ideals. It joins America's oldest manufacturer of automobiles with a firm which is thoroughly competent to properly represent the Oldsmobile Six and its companion car, the Viking V-type Eight, in this territory.

Olds Motor Works, have been installed. An adequate stock of genuine Oldsmobile and Viking parts is carried, and only thoroughly skilled mechanics are employed.

In the display room you will find a representative showing of Oldsmobile Sixes and Viking Eights. Whether or not you are now an Oldsmobile or Viking owner, a warm welcome awaits you here. You are invited to come and inspect these cars in every detail. Drive them. Compare them, point for point, with the other cars in their fields. In both of them you will find unexcelled beauty, luxury, comfort, and performance. And you'll find that both Oldsmobile and Viking are unmatched for value in their respective price classes.

The sales and service facilities of this new dealer are in keeping with the high standards maintained by Olds Motor Works. Service quarters contain ample space for giving prompt and efficient service to Oldsmobile and Viking owners. Service equipment and time-saving tools of the most modern type, as specified by

These valuable emblems identify Oldsmobile Sixes and Viking Eights.

HAPPY HELPERS MEET

The Happy Helpers Circle of the Lakeland King's Daughters met Saturday May 25 with Mrs. C. Ford as hostess. Mrs. Vanhorn and Lore were net entertaining.

The points were counted for the contest, the Ford side having the most points. Games were played and refreshments were served.

The circle will give a base ball game June 29 at the home of Mrs. Harry Lee at Lakeland. All donations will be appreciated and every one is invited. Also the regular business meeting will be held there.

MEMORIAL DAY

Once a year we are privileged to set aside a day in memory of those who offered their lives to their country. They bled forward when no one else would.

They were the common men of humanity, and their sacrifice to us is a boon of peace, security and happiness. We cannot honor too highly those who died on the field of battle, rendering life that lived over again. In the presence of their graves we can only bow in pride and sorrow. The fallen ranks of the army and navy of the Republic are moving toward their goal. Back of them are the shadows of those heroes who established American independence. Before them are the veterans of Spanish American and World Wars ready to step into the vacuum.

This day should also be dedicated to the memory of all of our heroes who have gone before.

By virtue of the authority vested in me as Governor, I hereby declare Thursday, May 30, 1929, as Memorial Day and urge that wide observance be given and every hand be united in the observance of this day.

Given under my hand and the Great Seal of the State this 29th day of May, 1929.

By the Governor,
John S. Haggerty
Secretary of State

Electric
Cookery
is
Healthful

RETENTION of vital elements is necessary to the health of children and grown-ups. Medical science has developed this principle and has described the food values that the human organism requires—and the electric art has made possible the preparation of food to meet those requirements. Electrically cooked foods not only taste better but they hold the original nutriment intact.

You can enjoy electric cookery in YOI's kitchen NOW. Convenient time payments and a liberal allowance for your present cooking equipment make it unusually easy for you to install a MODERN electric range. Come in and inspect the new models.

Mr. and Mrs. S. H. Carr, Mrs. Robert Carr and daughter, Roberta, Mr. and Mrs. Arthur Shehan and wife, Ann, of Howell Tuesday.
Mr. and Mrs. Milo Kettner and daughter, Yvonne, motored to Ann Arbor Sunday to spend the day with Mr. and Mrs. J. V. Coyl of Whitmore Lake.

SAFETY that is satisfaction every hour of the day . . .

IN EVERY kind of weather, under every driving condition, Firestone owners drive without the ever-present, mind-disturbing fear of tire failure experienced by so many users of less sturdy tires.

Firestone owners know that their tires were built to stand terrific speed—know that the efficiency of tread design and overall strength will safely back up their four-wheel brakes, no matter how sudden the stop.

We are proud of Firestones and equally proud of the reputation they have helped us maintain in this community.

Consider us as your tire specialists—we serve you better and save you money.

PINCKNEY DISPATCH \$1.25 a year

STATE FAIR TO HONOR HIGHEST EIGHTH GRADER

The Michigan State Fair Boys' school will be conducted along lines similar to those of past years.

The school will be composed of one boy from each county in the state who will be entitled to this honor by having won the Michigan State Fair Boy's school contest in his county.

Any boy under eighteen years of age who writes on the eight grade examination in May is qualified to enter the contest. The only entrance requirement is that he signifies his interest in agriculture by answering on a separate sheet or blank the special list of State Fair Boys' school contest questions in agriculture which will be furnished with the eight grade examination.

The winner in each county will be selected by a committee of which the county school commissioner is chairman, and will be the boy receiving the highest average standing on the regular eight grade examination and on the special agriculture examination. The winner will be asked to pass a proper physical examination and will be entitled to attend the Michigan State Fair Boys' school at the expense of the Michigan State fair. A return trip ticket to and from Detroit together with full instructions will be forwarded to the winner in each county.

The boys while in Detroit will be quartered at the state fair grounds under proper supervision and will be the guests of the Michigan State Fair during the entire four days they are at the fair grounds. They will be given an opportunity to see everything of interest at the fair, hear lectures and talks on many educational topics, receive a full course in physical education and will be in charge of competent leaders at all times. Every effort will be made to make the entire trip interesting, entertaining and instructive.

Farm Boys Close Meeting at M. S. C.

Louis Drake, a junior in the high school at Marcellona, is the winner of the annual speaking contest conducted recently at Michigan State College by Alpha Zeta, honorary agricultural fraternity at the college.

The contest was held for agricultural students attending the annual junior farmers' week.

Second prize went to Edward Greenleaf of Cass City. Raymond Tackaberry, Three Rivers, won third place.

Allegan Senior Class List Will Exceed 60

The senior class of Allegan High school will number 60 or more this year. Rev. A. Freeman, Traverse, rector of the Episcopal church, will deliver the baccalaureate sermon in the Federated church Sunday, June 2. The commencement address will be given by President Edwin C. Elliott of Purdue University in the school auditorium Thursday evening, June 6. Class day exercises will be held in the auditorium Wednesday evening, June 5.

Junior Co-Ed to Lead Normal's Big Sisters

Miss Grace E. Rawson of Manchester, a junior co-ed at the State Normal College at Ypsilanti, has been chosen chairman of the Big Sister movement. The older students will greet all freshman girls and entertain them for the first few days of the college life, Sept. 1-5.

Miss Rawson has been appointed assistant to Miss Mary A. Gouillard, professor of botany, and will assume her duties at the beginning of summer school in June.

Assistant Named For State School

Dr. Harry A. Schneider of Boston, Mass., has accepted a position as assistant superintendent to Dr. William J. Kay, of the Michigan Home and Training school. He will also be chief of the medical staff. Dr. Schneider has been executive officer of the Boston Psychopathic hospital for the past five years. Mrs. Schneider and a nine-year old daughter will join him in Lapeer, June 1.

Poems That Live

TO HELEN

If wandering in a wizard's car
Through yon blue ether, I were able
To fashion of a little star
A taper for my Helen's table:

"When then?" she asks me with a laugh—
Why, then, with all heaven's luster glowing,
It would not guild her path with half
The light her love o'er mine is throwing!

—Winthrop M. Praed (1802-1889)

Chaplin Boys in First Photo

This is the first photograph of Charles, Jr., and Sydney Earl Chaplin, children of Charles Chaplin and Lita Grey, his divorced wife. No pictures other than baby pictures have been secured previously of the youngsters, who are being cared for by their grandmother, Mrs. Lillian Spicer. The occasion of the picture was the children's visit to probate court with their grandmother in connection with the probating of her father's (the late William Curry) will.

Cosmopolitan Night Theme of M. S. C. Water Carnival

Cosmopolitan night will be the theme of the 1929 water carnival at Michigan State June 13 and 14, according to an announcement by Warren Shook, Grand Rapids senior, who is chairman of the carnival committee. Everett Pesonen, Lake City junior, and A. E. Nussdorfer, Lansing senior, are the originators of the theme chosen and will receive the loving cup offered to the winner.

The chosen theme calls for a pageant of floats representing the various nations of the world and appropriate music for each representation will be played by a specially formed orchestra.

As in previous years the traditional water carnival will be held on Red Cedar river, which runs through the campus. Bleachers will be erected for the spectators on one side and stage will be built on a raft on the river. Canoe tilting contests and canoe races, special feature numbers, etc., will complete the program of events.

People Are Eating And Drinking More Products of Dairy

Statistics compiled by the United States bureau of agricultural economics show people in the United States now are drinking more milk, eating more butter, cheese and ice cream, and using more condensed and evaporated milk than ever before. In addition to this per capita increase in consumption there are today nearly 15,000,000 more mouths to feed in the United States than a decade ago.

Each person is now consuming approximately 13 gallons more milk per year than in 1919; 3 pounds more butter; 1 pound more cheese; 2 pounds more condensed and evaporated milk, and half a gallon more ice cream.

Skyscraper Dress

Lillian Mackenzie is pictured wearing a "skyscraper" dress, which represents the building trend in frocks. It was designed by a student of Pratt Institute, New York, and won a prize.

Fremont Pastor Has Pension Plan

The nationwide movement to establish an earned pension system for Church of Christ ministers has been presented to prominent members of the Christian churches by Clyde E. Pickett, pastor of the Fremont Christian church. In Michigan the pension movement would be in charge of committees representing each congregation of Churches of Christ. In addition there would be a state committee and several district committees. A. H. Martin of Grand Rapids is chairman of the state pension fund committee for Michigan. Members of the local committees will be announced soon.

The pension plan sponsored by the Churches of Christ is based on sound actuarial principles and calls for an initial reserve fund of at least \$8,000,000. Mr. Pickett has told states, "Several large religious bodies in the United States now have successful pension systems and in each case the initial fund necessary to start the system has been oversubscribed."

"Our pension system is based on self-perpetuating principles. There is no magic wand to be waved, nor can proper annuities be paid without first raising a sum of money to provide for the accrued liabilities assumed by a pension plan when it first becomes effective. Once this initial reserve fund is raised the system is maintained by small payments made monthly by ministers and churches. "There is no charity anywhere in the plan. Each minister who qualifies will pay the equivalent of 2 1/2 per cent of his annual salary and a church will pay 8 per cent. Contributions for ministerial relief, carried on by Churches of Christ for nearly 40 years, will be superseded by the pension plan."

Mr. Pickett stated that solicitations for the initial reserve fund are scheduled in Michigan early in the fall.

Many Fremont Scouts To Attend Camp

Many Fremont Boy Scouts are planning to attend one section of the camp at Blue lake, operated by the Muskegon area council.

R. J. Healey principal of Fremont High school and in charge of the scout organization here, plans on almost 50 boys from this city attending the camp this year. There will be four sections, starting July 2 to July 14; July 15 to 24; July 25 to Aug. 3 and Aug. 4 to 15. The charge for the period is \$8.

Scout Executive E. H. Tryon of Muskegon will be in charge of each section of the camp, and will be assisted by trained leaders in scoutcraft. Twelve boys from the White Cloud troop also have enrolled.

Michigan Daily Editor Heads Sigma Delta Chi

Charles S. Monroe, of South Haven, night editor of the Michigan Daily during the past year, has been named president of the local chapter of Sigma Delta Chi, national journalistic fraternity. William Gentry, of Kansas City, Mo., is vice-president; S. Cadwell Swanson, Highland Park, secretary, and Pierce Rosenberg, Milwaukee, treasurer.

Charlevoix Church Given Pipe Organ

A new pipe organ has been installed in the Episcopal church, at Charlevoix. It is the gift of Mr. and Mrs. Earl Babst and Mrs. George B. Douglas, members of the Chicago club at Charlevoix.

78 GRADUATES AT HILLSDALE

The seventy-ninth annual commencement at Hillsdale College will be held June 1. The program for the week has been completed.

On June 7, a new board of women commissioners will be elected. Commissioners whose term expires are Mrs. Margaret Latimer Arnold, of Chicago; Mrs. Dulcia Craig Richards, of Toledo; Mrs. Edith Lockwood Barrett, of Detroit; Mrs. Martha Chester, of Hillsdale; Mrs. Hattie Fleming Cummins, of Chicago; Mrs. Hazel Fenton Schermerhorn, of Reading Mich.; and Mrs. Dora Stamats Smith, of Hillsdale.

New trustees will be elected to succeed C. S. Hayes, of Hillsdale; Henry W. Magee, of Chicago; F. J. Barrett, of Detroit; Mrs. Nellie Hart Crandall, of Chicago; F. W. Padelford, of New York City, and O. C. Kimball, Hillsdale.

The annual concert, under direction of the department of music, will be given on June 8.

The baccalaureate sermon will be preached in the College Baptist church by President William Gear Spencer, of Hillsdale College, on June 9.

Mrs. Mabel Walker Wilebrandt, assistant Attorney General of the United States, will be the commencement speaker.

Among the members of the class are: Marion Ensign, Scott Ensign and Elizabeth Flynn, of Battle Creek.

HOUSEHOLD HINTS

MENU HINT

Codfish a la Mode
Buttered Cabbage
Cabbage and Apple Salad
Rhubarb Tarts
Coffee
This makes a nice luncheon salad. Tuna fish could be used in place of codfish if you prefer. To make tarts simply fill unbaked individual pie shells with raw rhubarb, sweetened and with a bit of butter for flavoring. When the pastry is done the rhubarb will be.

Today's Recipes

Codfish a la Mode—Separate a cup of salt codfish in very small pieces and leave in cold water for three hours, changing the water three times. Mix with two cups mashed potatoes, two cups milk or cream, two well beaten eggs, one-fourth cup butter, and a few grains of pepper. Bake in an earthen dish 20 to 25 minutes.

Suggestions

Well Stocked Bathroom Cabinet. A druggist suggests that the well stocked bathroom medicine cabinet should contain these articles: Boric acid to make an eye wash; mercuriochrome or iodine for disinfecting; peroxide to bathe and disinfect penicils or wounds; witch hazel, for astringent purposes and rubdowns; rubbing alcohol for rubbing; zinc ointment for its healing qualities, especially in chafing, and a good zinc dusting powder.

CHOCOLATE SOUFFLE

Five eggs, two tablespoons flour, two tablespoons butter, three-fourths cup milk, one and one-half squares unsweetened chocolate, one-half cup fine dry bread crumbs, one-half cup sugar, one teaspoon vanilla, one-fourth teaspoon salt. Melt butter, blend flour with it, add milk and cook until thickened, stirring constantly. Melt chocolate over steam, add white sauce, bread crumbs and sugar. Add hot mixture to the well beaten egg yolks and beat thoroughly. Add vanilla. Fold hot mixture into stiffly beaten egg white containing salt. Bake in buttered dish in a very moderate oven (300 degrees Fahrenheit) one and one-fourth hours or until mixture is well set in center. Serve hot with hard sauce.

No Competition

Students at Thiel college, Greenville, Pa., have decided not to go to the trouble of holding a beauty contest because they say it is a foregone conclusion that Miss Dorothy Winters of Greenville would be the winner. She won the title last year.

Flat necklaces made of modernistic links that are larger at the front than the back continue to be popular with Parisians.

Opals are being revived in the latest jewelry. They are now considered lucky, instead of bringing misfortune to their owners.

The World and All

By CHARLES B. DRISCOLL

There is an American-born boy, four years old, on Washington Heights, who is unable to talk to his American father.

The father runs a hair-dressing establishment catering to the women of Washington Heights. He married a French girl a few years ago, but has never had time to learn her language. She speaks English brokenly, but speaks French by preference.

The father is a very hard worker. He has many evening appointments. He goes to his business early. He has only a little while each day in which he can see his little son.

The boy has learned French from his mother. He has nobody from whom he can learn English. The father doesn't see him long enough at a time to impress his language upon the youngster.

Picture the tired father of this four-year-old, coming home to dinner and listening to the charming French prattle he can't translate!

There are many New York fathers who see and hear very little of their children. Those who commute from a considerable distance are off on a train that leaves before youngsters are out of bed. They're turn in the evening when the children are ready to retire, and in many cases the house is already quiet and the children

asleep by the time the breadwinner comes in from his train.

Of course there are Sundays, and sometimes there are other holidays. But many heads of families spend such holidays washing the car, fixing the radio, or going far afield for recreation.

I know a professional man who requires that the two little daughters be put to bed before he returns from the city each evening. He and his wife spend their week-ends on long hikes, or at a camp up in the mountains. The children generally are left at home in charge of nurse maids. This father knows little or nothing about the real character of his children.

Well, there may be many pleasures to be had in hiking up and down the sides of mountains. There may be much life at summer and winter camps that I miss. But somehow, I pity the man who doesn't enjoy the company of his own children.

Also, I am vain enough to believe that there is something pathetic about the life of a child who has none of its father's companionship and comradeship.

Mountains and lakes are all very well in their way, and for once in a fully. But for steady association I prefer my wife and two small daughters.

How to Achieve Beauty

By MME. HELENA RUBINSTEIN

CHOOSING PROPER ROUGE

TASK AS SUMMER COMES

By Madame Rubinstein

Summer tanned girls and women must use special rouge and lipstick—yes, and eye make-up—with their new brown skins. Delicate rose tints deep enough for light winter skins are scarcely suitable for the summer tanned complexions.

Gypsies and American Indian maids do not enhance their copper color with crushed roses or raspberry tones. Their taste in colors quite properly runs along brighter lines.

For the summer tanned skin—whether its color is a natural or an artificial brown—needs bright rouge and a very definite make-up to emphasize its charms.

The lady who chooses this complexion must be prepared to do it justice—by wearing rouge with an orange tint in it, either vivid coral or the more scarlet geranium shade. All types, medium and brunette, wear either of these rouges to great advantage with a gypsy tan.

You may select either a cream rouge or the dry compact kind. The cream is a little more difficult to apply smoothly—it must be blended in evenly over the foundation cream or liquid—but is most attractive when skillfully used. The powder rouge goes

on easily, and for this reason many prefer it.

Whichever rouge you choose, be sure to dust over it with the final fluff of powder that completes your make-up—either in the gypsy tan or the warmer French ochre. In this way, the natural look is kept—and a naturalistic effect should be the keynote of this make-up.

Your lipstick of course, will match your rouge, geranium to go with geranium, or cardinal red to go with the coral tone.

And now for the eyes. Too much stress cannot be laid on the importance of eye make-up with the dark tanned skin tones. It is absolutely necessary, to give life and animation to the face, to wear eye-shadow—and unless your eyelashes are dark—mascara.

Light brown eyelashes against a copper skin look curiously unharmonious and unattractive. They must be brushed and touched up lightly with a faint application of dark brown or black mascara, to give the eyes character and expression.

The eye shadow is worn on the eyelid in a creamy blend. It should match or harmonize with the eyes in color. Blondes usually look best in blue—although they may wear green. Mediums wear either gray or dark brown. This faint shiny touch of eye-shadow acts as the last delightful accent mark to the summer tan ensemble.

With the Women of Today

By LILLIAN CAMPBELL

Mrs. Lily C. Stone, residing near Bethesda, Md., is said to be the only woman quarrier in the United States. She operates several stone quarries, which are supplying building material for many of the new structures of the capital city.

Descendant of Washington. Mrs. Elinor Washington Howard was the last living person born in Mount Vernon, Virginia. George Washington's old home. She is past 70 years of age, but goes to club meetings and sometimes presides. She is a direct descendant of the father of George Washington.

"Father did not believe in emphasizing that we were related to the first president of the country," says Mrs. Howard.

"It was impressed upon us that simplicity was a true trait of the Washington family and that if we wanted to be like George Washington we never must be vain or arrogant."

Honored

In honor of Miss Emma Maud Perkins, who is a direct descendant of Mary Chilton, the first woman who stepped on American soil when she arrived on the Mayflower, an oak tree was planted on the campus of the College of Women, Cleveland, by the Charter Oak chapter of the Daughters of the American Colonists.

Girl Botanist Honored

Outstanding work in the study of lower forms of plant life has won for Ruth Patrick of Kansas City, a junior in Coker college at Hartsville, S. C., active membership in the American Botanical society.

Miss Patrick, whose election to the society came as recognition of her

studies of algae, also holds membership in the South Carolina Academy of Science, American Association for the Advancement of Science and the Torrey Botanical club.

She is now studying various species of oak trees in South Carolina and their ecological relations with the mosses growing on them.

Ionia Academy Prepares For Graduation in June

The Academy of St. Peter and Paul will graduate a class of 12 girls and 4 boys in June.

Mary Brakora, class president, will give the valedictory; Charlotte Ab-falter is salutatorian; Julia Jackson, Virginia Schafer and Arthur Clark will write the prophecy; Mathilda Krellwitz is poet; Earl Jackson, Julia

Lahman, Martha Lehman and Adelaide Miller will write the history; Francis Frost, class will; Isabel Krieger and Frederick Gierman, class song; Mary Helen Slowinski, flower; Margaret Costello, motto; Louise Slowinski, class colors.

Smart shops in New York are showing widely pleated skirts that, on examination, are found to be divided. They are for hiking and other active sports.

Mrs. Lily C. Stone

PLAN REFUGE ON DETROIT RIVER

A migratory bird refuge where thousands of ducks and geese can find sanctuary on the spring and fall flight each year is to be established on the Detroit river through the efforts of the Detroit News.

The sanctuary will be located on Scotts Middle ground, a shallow tract in the river lying between Belle Isle and the mainland on the Detroit side. The area covers about 125 acres and averages 2 to 6 feet in depth.

Numbers of ducks and other wild fowl already halt there each spring and fall but remain only a short time owing to a lack of natural food.

The plan of the Detroit News calls for the establishment of the sanctuary by the city of Detroit. The News then will furnish all feed necessary for the waterfowl that visit the area. This feed will consist chiefly of shelled corn and wheat and some wild celery will be planted to attract the diving ducks.

It is believed the refuge will attract mallards, teal, pintails, whistlers, canvasbacks, bluebills, redheads and finally wild geese, brant and even swan. No effort will be spared to make this one of the most important wild fowl refuges in North America, according to Albert Stoll, Jr., conservation editor of the paper, which is sponsoring the project.

The refuge plan has received the warm approval of the United States war department, which is interested in navigation of the river; of the United States biological survey, and the Michigan conservation department. It also has been approved by the Detroit city council and plans for the establishment of the sanctuary now will go forward at once.

Waterfowl in the refuge will be in plain sight from the shore at Detroit or Belle Isle and also from the Belle Isle bridge, and it is believed the birds will afford a highly interesting and educational spectacle.

THE GREAT TRUNK MYSTERY

STATE STOPS TAKING BERRIEN LAKE SHORE SAND

The relative value to the state of conflicting natural resources was the factor which governed the conservation commission's decision that no more sand shall be removed from that portion of Lake Michigan off the Berrien county lake shore. This ruling was made after a lengthy hearing of both sides of the question.

The hearing before the commission came as the climax of a controversy between Berrien county lake shore property owners and the Great Lakes Sand Company. The former contended that the removal of 200,000 yards of sand off shore had caused corrosion of the beaches and had endangered bathing facilities, resulting in a depreciation of land values in this resort and recreational area. The claim of the Great Lakes Sand Company was that the damage done to the beaches in this district was due to changing lake levels and other natural causes.

The commission's action in stopping further removal of sand was based on the realization that, regardless of the rights or wrongs of the contentions of the parties involved, the unquestionable increase in property valuation in the Berrien lake shore district, which has come about because of the resort and recreational demands, outweighed the benefits derived by the state from the commercial exploitation of the sands, and should be given the fullest protection within the power of the conservation commission.

Post Office Receipts Are Advanced

Postal receipts at both the 50 selected cities and 50 industrial cities throughout the country for April, 1929, showed an increase over those for the same month in 1928, according to figures just made public by Postmaster General Brown, in a statement, the full text of which follows:

Total receipts of the 50 selected cities for April, 1929, amounted to \$32,351,906.46, as against \$30,758,408.12 for the same month in 1928, an increase of \$1,593,498.34 or 5.18 per cent. Jersey City led in percentage of increase, with a gain of 17.88 per cent. Minneapolis was next with an increase of 15.99 per cent. Then followed Syracuse with an increase of 11.29 per cent, Providence with 10.79 per cent, and Boston with 10.09 per cent.

Total receipts at the 50 industrial cities amounted to \$3,453,918.40 as against \$3,348,327.72 for April, 1928, an increase of \$105,590.68 or 3.15 per cent. Waterbury, Conn., stood first with an increase of 23.26 per cent; Phoenix, Ariz., was second with an increase of 19.14 per cent. Next came Springfield, O., with an increase of 19.12 per cent; Spokane, Wash., 16.13 per cent, and Jackson, Miss., 12 per cent.

Motion Pictures in Colors Are Made by New Process

A new British three-color motion picture process has been demonstrated to that country's cinematographic trade and received with approbation by some of its representatives, the American trade commissioner at Paris, George R. Canty, has reported to the Department of Commerce. The full text of the department's statement, issued May 2, follows:

In the new process the positive film is projected on an ordinary projector without any attachment. The colored films are made by taking four separate negative impressions on one film. One of these is full-sized; the three others are each a quarter of the size of the frames. The smaller pictures are taken through color screens.

In making the positives the full-size pictures are first printed, and then the smaller images—enlarged—are super-imposed, the film being re-sensitized for each printing and stained with the appropriate color. The final image appears to suffer from the indefiniteness resultant from four superimposed printings, it is stated, and the color balance is too much in favor of red—a preference which, it is believed, could be easily remedied. The cost of the positive is supposed to be slightly over twice that of ordinary black and white.

Four Fight Gar Fish In Lake Near Adrian

Harold Barrows, county conservation officer, assisted by Harold Cole, John Smith, Fay Smith and Leslie Smith of Adrian, operating in deep water off a sand bar in Round lake, near Manitowish beach, recently speared a total of 106 gar fish, ranging in weight from one to 12 pounds. A school of about 500 gar fish were located in the north end of the lake in the afternoon, the fish being near the surface, the four Adrian men making the find. It was estimated that the fish killed would eat more grown fish and minnows than would be caught from the lake all summer.

PRISON INMATE LIST INCREASES

An increase of 400 in the state's prison population occurred during 1928, according to the biennial report of Arthur D. Wood, commissioner of pardon and paroles. At the close of the year, Jackson had 3,835 inmates, the Michigan Reformatory, 1,989, Marquette 866 and the Detroit House of Correction 373 state prisoners, of whom 227 were women, making a total of 7,063.

"This is the largest number of offenders within Michigan prisons in the history of the state," says the report. "The increase in population has been gradual since 1917 when the total was 2,090. All prisons have been badly congested, notwithstanding the erection of new cell blocks during the 10-year period and the partially completed new prison at Jackson. Marquette has presented the most serious condition with a population of 50 per cent above its cell capacity. Ionia has been seriously overcrowded. The same has been true with Jackson until recently. This has been due in large measure to the fact that Jackson has absorbed the overflow from the prison at Marquette, transfers approximating 250 having been made. With the completion of the fifth new cell block this fall, the situation has been relieved. Based on the gradual growth of prison population during the last 10 years, I would respectfully recommend that the construction program at Jackson continue."

A slight increase in the number of committals is noted, only 3,758 having been sentenced to prison in 1928, as against 3,862 in 1927. Liquor violations form the chief cause of committal. In the two-year period, covered by the report, 1,512 liquor law violators went to prison, an increase of 174 or 13 percent over the preceding biennium. Larceny is second with 1,109 committals, breaking and entering third with 837, unlawfully driving away automobiles fourth with 558, robbery armed fifth with 447, and forgery sixth, with 312.

Life sentences were imposed on 138 persons during the biennium, of whom 83 had committed first degree murder, five second degree murder, 14 statutory offenses, 18 robbery armed, two assault with intent to kill, five assault with intent to rob, while armed, and one bank robbery. Fifteen got life sentences as habitual criminals under the Criminal Code. The lifers now in prison in Michigan number 483, of whom 14 are women. "It is interesting to note," says the report, "that of the 7,063 serving in Michigan penal institutions, 4,062 are serving minimum sentences of three years and less. Of this number 788 are serving six months and less, 1,221 from six months to one year minimums, 1,077 from one to two-year minimums and 940 from two to three-year minimums. These figures portray the large prison turnover brought about by minor crime."

During 1928 paroles numbered 2,588—a parole rate of 36.6 per cent on the basis of prison population.

Aunt Clarissa: "So this is the new baby, eh? I used to look just like her at that age. Now, what's she crying about?" Little Niece: "Oh, Aunt Clarissa, she heard what you said." Patsy-finder.

Detroit Has One Car For Every 3.5 Persons

Two million people living in New York City, Chicago, Philadelphia and Boston do not own automobiles because there are not enough good roads and streets. Based on the car ownership ratio that prevails in Detroit, New York City should own more than one and one-half million passenger cars instead of 560,000. By the same reckoning Chicago should have an additional 535,000 cars; Philadelphia 360,000 and Boston, 115,000.

In Detroit there is one car for every 3.5 persons. The reason for this high rate of car ownership is found in the first class pavement mileage that makes it possible for Detroit motorists to get out into the country comfortably and quickly. Wayne county, in which Detroit is located, has the equivalent of about 400 miles of smooth pavements of a 40-foot width.

Los Angeles, possessed of a network of smooth pavements both within and near the city, has the astounding ratio of one car for every 2.25 persons. Bad pavements, great mileages of which are found in most cities, constitute the greatest obstacle to car buying. Along with narrow streets, "bottle-necks" and the absence of high speed arteries, bad pavements account for the low car ratio of one vehicle to every seven persons in Boston, and of one passenger car for every nine in Philadelphia and Chicago.

May Buy Real Estate Exchange Building

Detroit school inspectors have decided to use \$1,140,000 of the \$6,000,000 which the city has obligated itself to raise for the school building program this year, for a part of the purchase price of the Real Estate Exchange building, located on Cadillac Square, which would hereafter be used as an administration building for all public school officials in Detroit. The building is 20 stories high and a price of \$1,750,000 for it has been asked by the Book Estate, owners of the structure. The school board would use the above \$1,140,000 and would trade in its present administration building, valued at \$690,000, to complete the deal. Twenty-two new buildings or additions are included in the school building program of the Detroit board this year.

Holland Will Hold Fair August 19 to 23

The Holland Community Fair association has announced its next fair will be held Aug. 19 to 23. The board of directors is planning no extensive improvements this year, but will concentrate its efforts in liquidating part of the \$20,000 debt. Only necessary improvements will be made.

Secretary M. J. Vand-Bunt said Tuesday the fair will be maintained on the high level of previous years. New features are being planned to attract attention. Prizes offered will include eight \$25 awards, an automobile and a Shetland pony.

Free attractions are being booked. The evening show will be featured by fireworks and band music. The speed card and pony show will be staged in other years.

Teacher (to scholar): "Harry, what does 'detour' mean?" Harry: "I think my brother takes that when he washes his ears."

DRILL 25 WELLS IN SOUTHERN MICHIGAN

That twenty-five test wells will be drilled on lands in southwestern Michigan leased for oil and gas exploration during the summer is the prediction made at Decatur recently by President Rhodohamel of the Wolverine Oil and Exploration Syndicate now operating near Decatur.

The Wolverine company is said to have arranged for the financing of an extensive drilling campaign for southern Van Buren county and northern Cass county and expects to have a number of wells started this summer and Mr. Rhodohamel predicts that 25 wells will be started in the Van Buren-Cass territory within the next 90 days.

This drilling campaign should definitely outline the oil pool and determine the subsurface conditions with reasonable accuracy before the year is out, he says.

Mr. Rhodohamel has been in conference with representatives of several of the major companies and has arranged with them to carry out the leasing program in which the major companies will participate, and the locations for the test wells will be made on a scientific basis so that the field will have a thorough test.

Representatives of practically all of the large companies have been in Decatur recently, says the Decatur Republican, and have expressed their confidence in the field and prophesy that there is a very promising outlook.

Merwine Shine, chief scout for the Wolverine company, who has been operating out of the Muskegon office of the General Petroleum and Engineering Corporation and his crew of five men, have been leasing in the vicinity of Decatur and Paw Paw. They succeeded in obtaining over 7,000 acres and were successful in getting the blocks almost solid.

DR. CALDWELL'S THREE RULES

Dr. Caldwell watched the results of constipation for 47 years, and believed that no matter how careful people are of their health, diet and exercise, constipation will occur from time to time. Of next importance, then, is how to treat it when it comes. Dr. Caldwell always was in favor of getting as close to nature as possible, hence his remedy for constipation is a mild vegetable compound. It can not harm the most delicate system and is not habit forming.

The Doctor never did approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, no appetite, headaches, and to break up fevers and colds. Get a bottle today, at any drugstore and observe these three rules of health: Keep the head cool, the feet warm, the bowels open. For a free trial bottle, just write "Syrup Pepsin," Dept. BB, Monticello, Illinois.

Japanese Giant Radish

This is the great Sakurajima Radish from Japan. It is the largest radish grown, often attaining the enormous weight of 15 pounds and sometimes 20 or 30 pounds.

It is a real "novelty" to most Americans, and the taste will immediately convince anyone of the fact that it is not merely a curiosity but a radish of extraordinary quality. The flesh is solid, firm and brittle, and of most excellent flavor. It will grow and thrive in any soil or climate. This is a radish that can be planted in the spring and eaten all summer long, and can also be kept through the winter if dug in the late fall and buried in a box of dry sand in the cellar. As a summer radish it is a wonder, and it will grow and thrive when it is so hot and dry that common radishes would be a failure. By all means try the Sakurajima Radish and you will be surprised at the real value of this monstrous variety. Send for package of the seed today before it is all gone. Package, 10c; 3 packages, 25c; by mail, postpaid. Address Novelty Garden Club, 58 Market St., Grand Rapids, Mich.

FOOT SPECIALISTS SAY FOR BAD CORNS OR CALLOUS ON FEET O-JOY CORN WAFERS 10c AT DRUG STORES THIN AS PAPER—STICK WAFER ON AWAY GOES PAIN—OUT COMES CORN

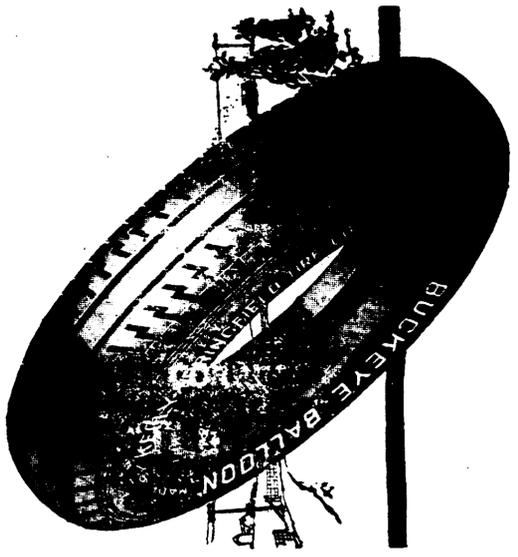

Northern Grown Peanuts

Just as good Peanuts can be grown in the Northern States as in the South provided you plant improved Early Spanish. Everyone should plant at least a few for the children. This is the earliest variety grown and very productive. The pods are small but remarkably solid and well filled with nuts of the very finest quality. Boys, here is a chance for you. Think of growing peanuts in your own garden and having plenty of them to eat. Shell nuts carefully so as not to break inside skin and plant as soon as ground becomes warm, about 2 inches deep, in rows 3 feet apart, and from 3 to 10 inches apart in the row. Pkt. 10c; 3 for 25c; postpaid. Address Novelty Garden Club, 58 Market St., Grand Rapids, Michigan.

INSTALLATION OF OFFICERS

The Pinckney Parent-Teacher Assoc. will hold their installation of officers at the Pinckney school on Monday evening, June 3. A representative from the office of the state president at Lansing will be present and conduct the work.

The following is the report of the health clinic held at the Pinckney school last week:

- Total number examined . . . 16
- No. needing dental work . . . 10
- No. needing tonials removed . . . 10
- No. needing glasses . . . 4
- No. 7 olo underweight . . . 4

Drs. C. L. Sigler, C. F. Culver, G. Gordanier and Louis Reichhoff, optometrist conducted the examinations.

WEEK END PARTY

Miss Dorothy Carr entertained the Misses Nellie and Berdella Euler and Marian Derkis at the Carr cottage at Portage Lake over the week end. A delightful time was had. The Misses Erna Sisson and Francis O'Brien of the Pinckney school faculty acted as chaperons.

10th GRADE PARTY

The pupils of the 10th grade of the Pinckney high school were entertained at a house party Friday night by Miss Viola Harris at the home of Mr. and Mrs. C. A. Weddige. The evening was pleasantly spent in playing games, refreshments were served and a delightful time was enjoyed by all.

ANNUAL SCHOOL MEETINGS

SECOND MONDAY IN JULY

Section 2 of Senate Bill No. 320, recently passed by the legislature, reads as follows:

"The annual meeting of school districts, except as otherwise provided in this act, shall be held on the second Monday of July and the school year of all districts shall commence on the first day of July: Provided, That the school board of any district by resolution may provide for the holding of the annual school meeting of such district thenceforth upon the second Monday of June. The board may in like manner rescind such action. No such resolution shall be effective to change the day of holding the next succeeding meeting unless it is adopted at least three months prior to said second Monday in June."

This law was given immediate effect and will, therefore, require the annual school meeting in primary, graded, township unit, and rural agriculture school districts to be held the second Monday of July this year, 1929.—Dexter Leader.

BOARD OF REVIEW MEETING

The annual meeting of the Board of Review of Putnam township will be held at the Putnam township hall June 4 for the purpose of reviewing the tax roll and also to act on any other matters that may legally come before it.

1930 CENSUS

The census takers of the 1930 census are expected to be named soon. Michigan will be divided into 21 districts according to William S. Stewart, director of census. The headquarters for the district of which Livingston county forms a part will be Pontiac. Census supervisors will receive a salary of from \$15,000 to \$25,000, office room one assistant and special help. Enumerators will get from \$5 to \$8 per day. The time for commencing the census has not yet been set.

CURRENT COMMENT

A big sportsman broken out in the big time at the University has been expected to bring athletic funds to help start students through college. Iowa has shown considerable prowess of late and has evidently been made a goat. It was ever thus. Michigan was made the goat a decade or so ago by a similar expose and left the Big Ten for a time. Iowa was expelled at a secret session and the charges were not made public. We wonder if the colleges who voted for the Iowa expulsion have clean hands. Star athletes do not attend distant colleges voluntarily. It is quite natural for the alumnus who know an athletic star to urge him to attend his alma mater and ever to assist him financially and the editor for one can see no harm in it. Great football, baseball and track teams are made and not selected haphazard.

Thursday will mark the formal opening of the season at the nearby lakes. These summer residents are a source of income to this section and should be encouraged. There has been a tendency to try to get them to shoulder more than their share of the burdens. We must remember that they are only with us three months a year. Of late years there has been a change in this attitude and many improved roads are now being built to the new resorts. Let the good work continue.

The various changes in the school law in regard to the time of the annual school meeting keeps the average person puzzled. For no apparent reason the legislature changed it from the second Monday in July to the second Monday in June last year. The legislature has set it back to the second Monday in July. School boards, however may be holding a meeting three months previous to the date of the second Monday in June.

PINCKNEY LOSES to HARTLAND

Pinckney high school lost her last ball game to Hartland here Tuesday by a score of 12 to 10. Pinckney led by a score of 8 to 4 up to the fifth inning when the Pinckney team blew up and Hartland put across seven runs on a block of errors by the Pinckney team. Hartland also made plenty of hits but had no such a disastrous inning as Pinckney. This finishes the games in the county league. Howell was first place having won all six games. Fowlerville gets second with two victories and third with one victory and four defeats. Pinckney made last with one victory and four losses. Fowlerville will meet Howell for the title at the county field meet at Howell Friday, May 31. This year's season was a Pinckney one and first place two years ago. The boys are forced to build an entirely new field of grass this year and were unable to get one that worked properly.

First George Seen as Disgrace to Royalty

When the devil was asked how many monarchs he had in his kingdom, the legend has it he replied, "All that ever reigned." It is certain that during the reign of George I there were many Englishmen who heartily consigned their monarch to the nether regions but even at his death it is unlikely he obliged them because he had never really reigned. His court, however, was one of the worst that ever afflicted Great Britain. The German courts whence he came had taken their tone from the profumery of Versailles and George Louis was too heavy handed to be an exception. All was coarse and vulgar around his throne and the attendants and mistresses he brought along with him sought to make their fortune out of the nation upon which he had been foisted. George could not even speak English, nor could his ministers speak German. So the king absented himself from cabinet meetings and let the nation run it off while he pursued his own pleasures. One of his amusements between times was to sit on the floor and cut out paper dolls.

If the king liked anybody, man or woman, they could have anything they wanted. Women were given appointments that belonged only to men; men utterly unfitted were given positions of great responsibility. Certain infants at birth were made coronets or ensigns in the army and received pay up to a marriageable age. He died in 1727.—Detroit News.

Sheep First Used for Transfusion of Blood

The first transfusion of blood to a human being took place November 27, 1907, at a meeting of the Royal Society in London. A silver tube was used to connect the vein of a sheep with a vein in the subject's arm. Samuel Pepys, famous diarist, was among those present and he describes the patient as "a poor and debauched man that the college had hired for 20 shillings to have some of the blood of a sheep let into his body . . . their purpose to let in about 12 ounces, which they compute is what will be let in in a minute's time by the watch."

Dr. John A. Kolmer, in Hygeia Magazine, quotes the transactions of the society for December 9, a week later, which reported that "the man, after this operation as well as in it, found himself very well and hath given his own narrative under his own hand enlarging more upon the benefit he thinks he hath received by it than we can do to own as yet."

THE science of yesterday leaves but a picturesque relic for our appreciation. As our profession progresses in attainment we plan further refinements for our Ideal Service.
