

# TELEPHONE SERVICE MAKES A NEIGHBORHOOD OF MICHIGAN

The Michigan Bell Telephone Company is constantly improving the scope, speed and accuracy of its service, and it may continue to furnish "the most telephone service, and the best, at the least cost to the public."

THROUGH slim wires, etched against the sky... through cables carrying thousands of lines... hundreds of thousands of Michigan people keep in touch with each other... talking from house to house... city to city... peninsula to peninsula... distances that require much time for ordinary travel, but over which your voice is carried to its destination in a fraction of a second.

Over his telephone, a retailer in one city keeps in touch with wholesalers in another. A housewife calls friends who live nearby. A son at school in Ann Arbor enjoys weekly telephone visits with his parents. A state legislator in Lansing transacts business by telephone with an associate in the upper peninsula. No matter what the distance, Michigan's great telephone system will carry your voice to almost anyone, anywhere, at any time you may choose.

Today, most Long Distance telephone calls are completed while you hold the line! Today, your telephone will connect you instantly with more than 800,000 other telephones in Michigan alone. Yet, telephone service is available to anyone at remarkably low cost.

The Michigan Bell Telephone Company is constantly improving the scope, speed and accuracy of its service. Its work of contributing to the welfare and prosperity of the commonwealth goes on with increasing purpose and pace.

down, \$6 per month.

"Such a flood of instant heat! There isn't a bit of smoke or flame—nothing but pure heat. I never dreamed cooking could be so clean until I got my ELECTROCHEF. Pots and pans stay bright and shiny with little attention, and soot is unheard-of. My kitchen walls and curtains are never soiled as they used to be when I cooked with burning fuels. I think that my ELECTROCHEF electric range is just splendid! Here is a stove any woman will actually enjoy cooking with."

\*A study of 500 homes showed that the cooking cost with the ELECTROCHEF averages 64¢ a person per month.
