Firestone brought out for automobile use:
—The first straight side tire.
—The first rubber non-skid tread.
—The first commercial remountable rim.
—The first patented Gum-Dipped process.
—The first balloon tire.

PERFORMANCE

Firestone Gum-Dipped Tires:
—hold all world's records on road and track for safety, mileage, speed and endurance.
—for ten consecutive years have won the 500 mile Indianapolis Endurance Race.
—were on winning cars in Pike's Peak Race—where slip meant death.
—were on the Studebaker car which on a board track at Atlantic City in 1928 went 30,000 miles in 26,326 minutes.
—ran 71,351 miles on a Detroit taxicab, before the first tire was replaced.
—were on the G. M. C. truck carrying a two-ton load that hung up the Coast-to-Coast endurance record.
—for 10 years have been sold on a mileage cost basis to taxicab and bus lines in greater volume than any other tires, and now equip the world's largest taxicab fleet and the world's largest bus line.

SAYS '31 PLATES MUST BE "AS IS"

In answer to a suggestion that all Michigan 1931 license plates be recalled and new ones of a different color issued, Frank Fitzgerald, secretary of state, has called the step impossible. The suggestion was made by Rep. Frank F. Darin of River Rouge, who said the plates were too illegible for quick reading. Darin introduced a resolution in the house asking the state administrative board to recall the plates.

"We must admit that the color combination, red numbers on a black background, is hard to read, especially if there is dirt on the plates," Fitzgerald said. "But this is no time to change. For one thing, the factory manager at the Michigan state prison in Jackson, where the plates are made, says two months at the least would be required to make the new plates. For another thing, more than 400,000 plates already have been sold.

"The best we can do under the circumstances is to promise that in the future no such unsatisfactory colors will be used. The present plates were ordered and delivered long before my administration of this office began. The colors generally are chosen and the manufacture of the plates started early in the summer.

"This is a pretty late date to discover the plates to be unsatisfactory. The sale of them started nearly two months ago. We can sympathize with the idea behind Mr. Darin's proposal, but we must reject it as physically impossible and impracticable."

Moves Plant to Detroit

Manufacturing operations of the Step-N-Drive Truck Corporation, Buffalo, N. Y., have been moved to Detroit, announced John Nicol, president and general manager of the firm. Sales headquarters of both Divco and Step-N-Drive divisions are located on Merrick avenue, Detroit. The truck company sells its equipment to dairies, bakeries and laundries for house-to-house and frequent stop deliveries.

Grand Rapids from land to water planes.

Inauguration of the Grand Rapids to Detroit run by the Michigan Air Express last summer provided the connecting link for a complete transcontinental system of airplane express and passenger service. Under the new arrangement Kohler planes will connect at Detroit and Milwaukee with lines operating east and west, respectively, across the continent.

P. M. Adds Another Boat to Lake Run

Due to an increase in package freight through the Ludington terminals the Pans Marquette line steamers have been obliged to add their second steamer to the Ludington-Milwaukee run.

Steamer Virginia left Marquette winter quarters for Milwaukee to load a cargo of eastbound freight for Ludington. The Nevada, the company's year around passenger and break bulk boat, will alternate with the Virginia in monthly departures from Ludington and Milwaukee.

Andrew Celman of Ludington has been appointed skipper of the Virginia, succeeding Capt. J. E. Thorpe.

Sees End of Lake Passenger Service

At a meeting of the St. Clair River District Transportation club, held recently at the Chamber of Commerce, Captain Frank L. Meno predicted that no more lake passenger steamers will be built or needed in the future.

In discussing lake passenger traffic, Captain Meno said that automobiles and other forms of transportation more convenient and quicker are displacing all demand for the lake passenger service.

The meeting was held in Port Huron.

Plane Schedule Changed

The Detroit-Buffalo division of the Trans-American Airlines, Inc., Detroit's only air line to the east, has announced a revision in its schedule, providing better train connections. The eastbound ship now clears from Detroit at 9 a. m. and arrives in Buffalo at 11:30 a. m. The westbound ship leaves Buffalo at 1 p. m. and arrives at Detroit at 4 p. m.

The new schedule will permit persons going to Chicago to fly to Detroit from Buffalo in time to board the Michigan Central's Twilight Limited, which leaves Detroit at 4:30 p. m. and arrives in Chicago at 9:30 p. m. The air line from Detroit to Buffalo is operated by the Thompson Aeronautical Corporation.

Merger Trend Declines

The decrease in the number of mergers of manufacturers of national importance has been most marked this year in comparison with 1929, according to the Standard Statistics Company, which lists the number this year to Dec. 15, as 85, against 119 the year before.

SELFRIDGE PILOTS WILL GO TO "WAR"

Selfridge ships, roaring overhead, night and day, are preparing for a "war" attack on New York City and other large cities along the Atlantic seaboard.

Eighty-one planes from the field will take part in May in the greatest air armada ever assembled in the United States.

Mobilizing at Dayton, O., from May 17 to May 20, 672 army ships, from tiny pursuit ships to mammoth transports, will move eastward, "attacking" New York on May 21, and continuing their simulated warfare over various other cities over a period of 10 days.

The climax will come on Memorial Day over the city of Washington.

Besides giving the east a chance to see the air army as it is today, the maneuvers will be extremely valuable as a test of smooth operation of a giant air fleet over a widespread area.

Lt. Jack Griffith, post operations officer, announced that the eighty-one Selfridge ships in the event would be four squadrons of 18 pursuit planes each, three additional pursuit planes for headquarters officers and six transports. The transports, all now, will arrive during the month.

Major George Brest, Selfridge commandant, will be executive officer of the entire maneuvers. Major Gerald E. Brown will be in command of the Selfridge contingent.

Ionia Legal Paper Back After 20-Year Absence

A legal paper was returned to the office of County Clerk Dale K. Johnson recently after an absence of 20 years. The paper had been issued from Ionia circuit court as an execution against one of the members of the Citizens Mutual Insurance Co. of Jackson, which went into the hands of a receiver many years ago.

The case was started in 1906, and this particular execution was issued Aug. 8, 1909. It was returned unexecuted, and again was issued in 1930 and in 1931. The papers issued in 1911 have remained unaccounted for until recently, when, after an absence of 20 years, they were returned to Ionia from Wayne county. The party named in the execution never was found.

New-Trailer Company Organized in Lapeer

Sidney B. Winn, active head of the Lapeer Trailer corporation since its organization in 1917, has resigned as vice president and general manager, and will organize a new company for the manufacture of semi-trailers. The factory will be located in Lapeer. The new company, which will probably be known as the Winn Trailer company, will be in operation within three months, it is announced. Local capital will be furnished for the project.

Pontiac's \$4,000,000 Belt Line to Be Ready March 1

Pontiac's new \$4,000,000 industrial belt line railway will be opened for traffic by March 1, it is announced by the Grand Trunk railway, which sponsored the construction of the line. With the completion of this trackage, with its 10 grade separations, fully 75 per cent of Pontiac's local freight tonnage will be routed around the city instead of through it.

The belt line, which taps the Michigan Air Line railroad at the south and the P. O. & N. tracks on the north, has grade separations at South Boulevard, Square Lake road, Kennett road, Auburn avenue, Featherstone avenue, Mt. Clemens street, Perry road, Joslyn road and Oakland avenue, besides a separation being constructed over Reed road. Completion of the line has been delayed by several legal suits. The city is paying 25 per cent of the cost of the grade crossings, with the railway paying the remaining 75 per cent.

Grand Trunk has a pact with the city of Pontiac, completed in 1929, which calls for the construction of grade separations on its main line through the city. Future separations are to be built on West Huron street by December 31, 1932; South Saginaw street, Wilson avenue, Paddock street and South Boulevard, if the latter two are requested by the city, on or before December 31, 1935; Baldwin avenue before December 31, 1933, and Johnson avenue before December 31, 1933.

With the completion of the belt line the railway company has agreed to abandon its present crossing of the P. O. & N. on Oakland avenue and its Michigan Air Line route on South Saginaw street. The Air Line trains will be sent over the belt line tracks. These actions are to be taken, however, only on the approval of the Michigan Public Utilities Commission.

During 1930, 225,000 freight cars were moved within the Pontiac terminal. In the previous year 386,000 freight cars were moved within the terminal.

U. of M. Has Over 3,800 On Its Payroll

Persons in the teaching, clerical maintenance and other departments of the University of Michigan totaled 3,890 in October, 1930, and the number has increased slightly since.

IONIA PASSES PEAK OF BONDED DEBT

Ionia county has passed the peak of its bonded indebtedness, and it appears when 1931 is over the county's annual tax for the retirement of bond issues will have decreased materially.

With a total indebtedness of \$539,350, the county faces payments in the coming year of \$67,500, for which the budget has provided, and for which the tax will be spread the coming spring. There is a considerable list of county roads on which all payments have been made.

Last year the total indebtedness was reduced by \$25,000, and the peak of highway tax payments appears to be passed. In 1930 final payments were made on roads 19, 3, 4 and 5, and all bonds on these roads have been retired.

To be a Healthy Woman watch your Bowels!

What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

Dr. Caldwell's Syrup Pepsin is made from fresh laxative herbs, pure pepsin and other harmless ingredients. It doesn't sicken or weaken you. No restrictions of habit or diet are necessary while taking it. But its action is thorough. It carries off the sour bile and poisonous waste. It does everything you want it to do. It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow.

When you're a sick headache, can't eat, are bilious or sluggish; and at the times when you are most apt to be constipated, take a little of this famous prescription (all druggists keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women.

Make system alkaline to ... Stop Colds QUICK!

Get Rid of Colds Before They Weaken You, Make You Liable to More Serious Troubles.

Nowadays it's important to stop your cold quick before it weakens your resistance to more serious trouble.

Any of the older treatments will bring relief—after a time. But thousands say this new way is the quickest of any.

Begin when you feel a cold coming. Take a tablespoonful of Phillips Milk of Magnesia in a glass of water, morning, noon, and night, the first day. Do same the second day. Then only at night. Colds reduce the alkaline balance of your system. That makes you feel achy, feverish, weak. Phillips Milk of Magnesia relieves this, and restores the alkaline balance.

Doctors prescribe Phillips Milk of Magnesia; hospitals use it. Millions know how it relieves sour stomachs, gas, indigestion, constipation and other symptoms of too much acid. Get the genuine.

SORE THROATS serious now:

A sore spot no larger than a quarter can spread to the whole throat overnight. Gargle the very moment you feel the least soreness. Physicians recommend Bayer Aspirin for this purpose. It allays all inflammation immediately. It reduces the infection. Just crush three tablets in 1/3 tumblerful of water, and gargle well. It's a wise plan to take Bayer Aspirin after exposure to bad weather or whenever a cold threatens. If you ever have neuralgia, neuritis, or rheumatism, you should never be without this quick antidote for all such aches and pains. Genuine Bayer Aspirin is harmless. See that tablets bear the name, thus:
