Legendary Potentate
Prester John was a semi-mythical potentate of the Middle Ages, believed to reign over a Christian kingdom in the Far East. It is, however, certain that no Christian potentate ruled in Asia in the twelfth century, though the legend must have had some basis in fact. Prester John has been variously identified with a certain Mongol chief and with the founder of the Khara Khital, who called himself "Gur Khan" or "Supreme Khan." The legend of Prester John's existence provided a continual stimulus to medieval exploration.

Double Guarantee—Every tire manufactured by Firestone bears the name "FIRESTONE" and carries Firestone's unlimited guarantee and ours. You are doubly protected.

*A "Special Brand" Tire is made by a manufacturer for distributors such as mail order houses, oil companies and others under a name that does not identify the tire manufacturer to the public, usually because he builds his "first line" tires under his own name. Firestone puts his name on every tire he makes.

Boy Scout News and Activities

Camp Newkirk, the Boy Scout camp at Dexter for boys of Livingston and Washtenaw counties, will open for the summer season on June 21. The camp will be operated for six weeks this season, and enrollment will be limited to 125 boys at any one time. Following the practice of last season, boys from 9 to 12 will be accepted at Camp Newkirk's cub camp, which will be run at the same time as the scout, but under separate direction.

Camp Newkirk has for several years been noted for the superior quality of leadership it affords. This season will prove no exception to the rule. Wallace F. Watt, Scout executive for Washtenaw and Livingston counties, will again act as camp director; Rev. John B. Shilling will have general charge of cubs and of the business administration of the camp; Russel H. "Rusty" Moore will again be in charge of swimming, life-saving, safety and the general health of the campers; Robert R. Shaw will supervise hikes, overnight camps, and the program of special activities; while a large corps of junior officers will assist in handling the details of the program.

Local scoutmasters have been invited to accompany their scouts while the latter are in camp. The scout camp plan is to have boys from individual troops camp with members of their own troop, under their own regular leaders, rather than placing them in charge of strangers who do not know their special needs. It is hoped that this year will see the largest number of scoutmasters present in the history of Camp Newkirk.

The food department always looms large in importance where growing hungry boys are involved, and camp officials are pleased to announce that Mr. and Mrs. Russell Howard will again be on hand to dispense the viands, for which they have become justly famed.

In contrast with previous years, the camp has had constant upkeep this year, with Lawrence Doyon as custodian. Practically all of the tents are erected, and much work is completed in preparation for the opening of the camp, which in past years has had to be done at the last minute. Over 1000 trees have been

planted this spring on the camp site and many other improvements have been made.

The cost of the camp will remain at \$8.00 per week, the same as last year. In order that the full amount of time may be given to distinctly scout activities, a special group of boys will be engaged to take care of washing dishes and peeling vegetables, rather than requiring all of the campers to assist in this work.

Scouts who are planning to attend the camp this season are requested to notify their scoutmaster, who will make reservations for them. Parents of boys of cub age may communicate directly with scout headquarters, 324 E. Huron St. Phone 7215, Ann Arbor.

FISHING SEASON

OPENS JUNE 25

A warning was issued by the Conservation department this week that the fishing season on black bass, rock bass, bluegills and other panfish except perch will not be open until June 25 this year.

Following an attempt in the legislature to set the inland lake fishing season ahead to June 15 a rumor has gained circulation about the state that this date will be effective this year.

No such law was passed, however, and the fishing seasons remain exactly as they were in 1930.

It also has been reported that the conservation commission would use the discretionary power act to open the bass season 10 days earlier, owing to the fact that the fish will be through spawning and off their beds earlier than usual as a result of warm weather.

This rumor also is without foundation, conservation officials say. The discretionary power to act empowers the conservation commission to shorten seasons on fish or game in the event of an emergency, but never to lengthen them. For this reason the commission could not open the bass season June 15 if it wished to do so.

"The law has not been changed and the situation is no different from that of 1930," Director George Hogarth states. "The taking of bass, bluegills, and other panfish before June 25 is illegal and will continue to be for at least two more years."

MOTOR BOAT LICENSE LAW

The ordinance says in part: "A description of the motor boat to be registered. . . . A fee of one dollar shall be paid to the county clerk at the time said application is filed. . . ."

Section 5. No motor boat traversing the navigable waters or lakes of the county of Livingston shall be driven or propelled at a rate exceeding twenty (20) miles per hour, nor closer than two hundred (200) feet to any bathing beach or place where people are in the water or within one hundred and fifty (150) feet of any anchored boat, the occupants of which are engaged in fishing, unless the speed of the boat shall be reduced to a speed of not to exceed five (5) miles per hour.

Section 4. All motor boats navigated upon the navigable waters and lakes of Livingston county shall be equipped with effective mufflers, under-water exhausts or some other suitable device to deaden the sound caused by the operation of any such engine, and no person operating or driving any motor boat mentioned in Section 1 of this ordinance shall cause or permit the muffler or under-water exhaust to be opened or disconnected while such engine is running or otherwise cause or permit any such engine to make an excessive or unnecessary noise.

Section 7. No motor boat shall be driven or operated upon the navigable waters and lakes of Livingston county between the hours of 10:00 p. m. and 6:00 a. m. of the succeeding day, except on Saturday nights, when boats may be operated two (2) hours later or 12:00 p. m. and no boat shall be operated on Sunday morning before 9:00 a. m.

Section 8. Any motor boat operated one hour after sun down, shall be equipped with a light on the bow which can be plainly distinguished at a distance of five hundred feet. . . .

Section 10. Any person who shall violate any of the provisions or requirements of this ordinance, shall by both such fine and imprisonment and upon conviction thereof, shall be punished by a fine not exceeding One Hundred (\$100.00) dollars together with costs of prosecution, or by imprisonment in the county jail, not exceeding ninety (90) days, or by both such fine and imprisonment in the discretion of the court, and by having the license of his or boat or motor, as the case may be, revoked or suspended for a period not exceeding six (6) months in the discretion of the court, or magistrate before whom the conviction may be had.
