Russians Educated to Read Soviet Journals

Russia today has three times as many newspapers as under the czar, and ten times as many newspaper readers. Pravda, the Moscow organ of the Communist party, tops all other dailies with a circulation of 2,200,000. Izvestia, the official daily of the Soviet government, comes second with 2,000,000 circulation. There are 2,230 central regional and district newspapers, daily and others, with a total circulation of 33,000,000. With a total population according to the latest census of 154,000,000 and an average of literacy of 567 per 1,000, the total number able to read is about 88,200,000.

Pravda and Izvestia send matrices of their pages to many other cities where they are used the same day in producing local editions. Izvestia is sent from Moscow to Leningrad by a system of facsimile wire transmission and reprinted from photographs.

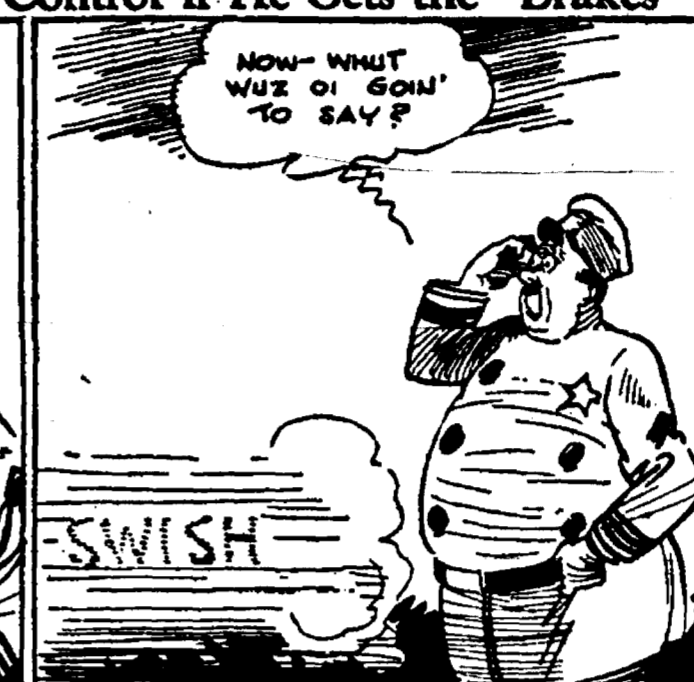

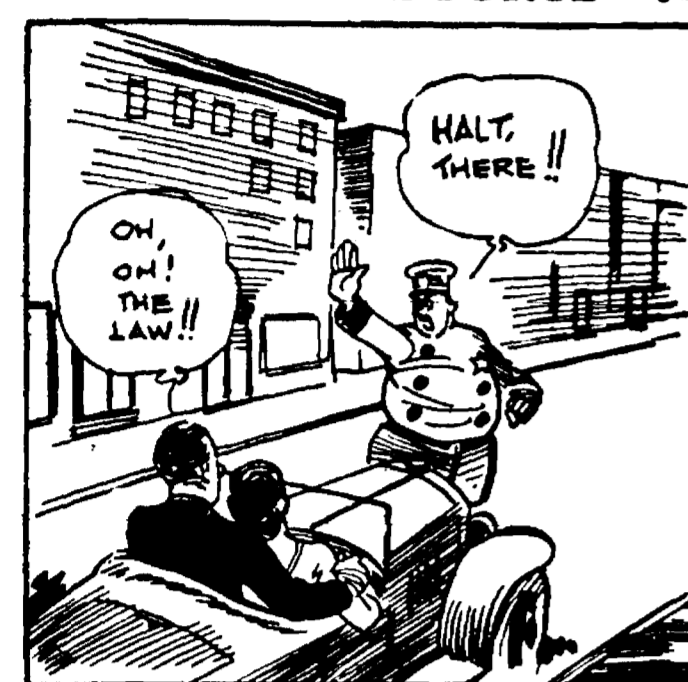

The Peasant's Gazette, issued in Moscow every three days, has a circulation of 3,000,000, and in addition to the Moscow issue, prints fifteen regional editions.

About thirty papers in all are printed in Moscow, including organs of the various government commissions and trade union publications. Letters from workers and peasants are among their chief features, and the government estimates 2,000,000 volunteer correspondents are contributing, telling of conditions on the farms, in the factories, in all parts of the Soviet union.

Sixty languages are used in publishing 600 newspapers which serve minor nationalities throughout European and Asiatic Russia. In Central Asia, which was practically without a press in pre-war days, forty-nine papers are published in the Uzbek, Tadzhik, Kirghiz, Turkoman and other tribal languages.

Even greasy pots and pans come clean in a jiffy

I've always known how wonderful Rinso is on washday—how it gets clothes 4 or 5 shades whiter without scrubbing or boiling. But I never dreamed it made dishwashing so much easier, too! Why, with Rinso, dishwashing seems almost no work at all. Grease floats right off. Even greasy pots and pans come bright as new. This way is so easy on my hands.

Why don't you change to Rinso and easier dishwashing! You'll like Rinso's gentle, creamy suds. Cup for cup, Rinso gives twice as much suds as lightweight, puffed-up soaps—even in hardest water. Get the BIG package—use it for the wash, dishes, for all cleaning.

THE DETROIT EDISON COMPANY

GENERAL OFFICES
2000 SECOND AVENUE

DETROIT, MICHIGAN
April 24, 1933

TO THE CUSTOMERS OF THE DETROIT EDISON COMPANY
in 29 cities, 58 villages, and 130 townships

This is the fourth of a series of letters to you about your electric service:

It costs too much to do business in the Big City. Years ago it was the other way around. Then it cost more to serve the sparsely settled country districts. In those days we charged higher prices to our out of town customers. When this out of town business began building up and we found it was costing us less to do business in the smaller places, we made all the rates the same.

Nowadays every time the city decides to widen a street we must spend thousands of dollars to push our poles back out of the way, or move our conduit manholes. The Big City often asks us to pull down pole lines and put the wires underground--and that costs plenty! Taxes in the city compared with the country districts are a scandal. And we have never dodged taxes--not even the personal property tax. Don't forget for a minute that YOU pay the taxes--we are only collecting them for the tax authorities. There is no place to get tax money except out of our business, and that means you.

Regarding our service: Last year we answered half a million calls, about half of them to replace blown fuses. We exchanged 5 million new lamps for burned-out and blackened lamps, and gave out 288,000 new iron cords in place of worn ones. Our repair men were ready night and day to serve you in any emergency. We have never claimed credit for free service. By handling calls in large volume, we provide these services to our customers at lowest unit cost. This cost is included in the rate you pay for current. When you have occasion for a service man, you know there is precious little waiting until an Edison man is at your door.

The average household uses about 8 cents worth of electricity a day. This lights the home, washes clothes, irons them, makes ice, furnishes entertainment through the radio set, ventilates the kitchen, makes the morning toast and coffee, curls the hair, heats the bathroom or nursery, sweeps rugs, operates clocks accurately to the split second, whips the cream or batter, and does many other jobs for which small appliances are built. And this is only part of the story. For a few cents more a day you can cook with electricity, wash the dishes, run the oil burner, cool the house on the hottest days, and do most of the toilsome jobs in the home. Few items in the daily household budget cost so little for such a variety of useful work or pleasure.

PHILATHEA NOTES

The Philatheas should be interested to know that the Missionary Society is meeting this Wednesday afternoon for its study on Africa, Mrs. Hattie Decker being the hostess.

Our last Sunday School lesson stressed the "Sin of Selfishness." Mrs. Euler brought out several topics for discussion, one being the importance of our work for Christ's "little ones." The leaders in this work are unselfishly giving their best; are we content to let these few bear all the responsibility of the training of these little ones in reverent spiritual attitudes of life? Another point brought out by the lesson was that true greatness meant unselfish service.

For next Sunday the subject is "Jesus Sets New Standard of Living" or "All for Christ." Mark 10:13-27. Our teacher asks that we consider especially the second topic for discussion. "What is there about Jesus Christ that claims our unlimited admiration; and about the young ruler's worship that displeased Jesus?" We hear much pro and con about the gold standard; are we as interested in Christ's standard? Can the Golden Rule fit in with the principles of a country whose standard is beer?

HAMBURG

Hamburg Hive, No. 892, Lady Maccabees held their regular meeting in I. O. O. F. hall Tuesday afternoon with the commander, Mrs. Emma Hayner, presiding. Gardening Needs

With seeding and gardening time right at hand a new set of garden tools with which to do the work will make it much easier and pleasanter.

A new lawn mower will trim that grass down to a smooth even size when it is mowed. The kind we sell run easy and smooth and will please the most particular person. Get a wheel barrow to use as a "handy wagon" around the place; it will pay for itself in a season in back breaking carrying by hand.

A full line of high grade garden tools awaits your selection. We sell nothing but the best.

PLANET'S TRAVELS
Mars revolves about the sun in an orbit just beyond that of the earth. (The earth is 93,000,000 miles from the sun; Mars is 141,000,000 miles.) The two planets move with different speeds and so an opposition occurs once every two years and two months.

WOMEN: watch your BOWELS

What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow. Dr. Caldwell's Syrup Pepsin is made from fresh laxative herbs, pure pepsin and other harmless ingredients.

When you've a sick headache, can't eat, are bilious or sluggish; and at the times when you are most apt to be constipated, take a little of this famous prescription (all drug stores keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women!

A Body Builder

Build up after colds, grip, bad blood. This is the time of year to put "your house in order." If you're run down with grip, colds, catarrh, it's time to take Dr. Pierce's Golden Medical Discovery. Raymond D. Huff of 4 Page St., Battle Creek, said: "I was nervous and very sick, my appetite failed, I couldn't sleep and felt all played out. My bronchitis were in a weakened condition. I caught cold easily. Two bottles of Dr. Pierce's Golden Medical Discovery corrected all this and my health was normal."

Dr. Pierce's Golden Medical Discovery is sold by druggists everywhere.

Salt Rheum Formed Water Blisters on Baby

Healed by Cuticura

"My sixteen months old baby was bothered with salt rheum. It started with a rash and then formed a water blister, and the more he scratched the more it itched until the blister was broken. Then it would break out in another place. As soon as I put his night clothes on he kept up a steady whine and could not sleep. It affected his whole body and he was a sight."

"My druggist told me about Cuticura Soap and Ointment. I purchased some and after using them a month or two my baby was healed." (Signed) Mrs. Doris Hardy, 13 High St., Bowdoin, N. H., August 11, 1932.

"42nd STREET" COMING TO HOWELL THEATRE 5-DAYS

Continued from first page. She was appearing in "Show Girl" shortly before she was engaged to work in the present picture.

Guy Kibbee, Ned Sparks and Allen Jenkins all appeared before the footlights before they took up their screen careers, while Ginger Rogers was noted as a musical comedy star. Dick Powell, while recently an orchestra leader and master of ceremonies, had also toured the country on the stage.

Henry B. Walthall points back to a thorough stage training. Edward J. Nugent, Clarence Nordstrom, Robert McWade and George E. Stone are all well known stage players who have taken up screen work.

Al Dubin and Harry Warren, who wrote the song hits for "42nd Street," have been connected with the stage for years, writing lyrics and music. As song writers they play the part which they actually are in real life in "42nd Street," as also does Harry Akst, the noted pianist and composer in the picture.

Director Lloyd Bacon is an old stage player, having started his career by following in the footsteps of his father, the famous Frank Bacon of "Lightnin'," before taking up directional work.

Busby Berkeley, who created and staged the dance numbers and ensembles, is one of the best known directors of musical comedy on the Broadway stage, and probably had directed more musical shows than any contemporary.

Bradford Ropes, from whose novel the screen play is taken, knows theatrical life from actual experience as a hooper and has done considerable writing for the stage. Rian James and James Seymour were both New York newspaper men who drifted into playwriting before they began writing for the screen.

The great chorus that appears in the various scenes of the musical show within the show were all selected from the New York and Los Angeles stages, from the night clubs and gardens and cafes, and all known life as represented by the characters in the play. The entire production is, in fact, the nearest to one hundred per cent theatrical of any piece prepared for the screen.

SCHOOL NOTES

The annual High School play will be staged Friday evening, May 12. The Juniors and Seniors are working hard to make it a success. Mrs. Doyle, who has had charge of this work for years, will direct the play. Part of the proceeds will be used to defray the expenses of the Junior and Senior classes and the remainder will go to support athletics in the school.

BOY SCOUT COURT OF HONOR

The Livingston district Boy Scout Court of Honor for the month of May will be held next Monday evening at Pinckney, beginning at 7:45. Parents and friends are invited to attend since an interesting program has been arranged.

The Pinckney Scouts are very proud of their new hall and headquarters and are anxious to show it to the boys from the other towns of Livingston county. They are also hard at work on their scout test requirements to make a good showing in advancement when the court comes to their home town.

John S. Page, superintendent of Howell public schools has been honored with a promotion in his capacity as chairman of the Court of Honor, and he is now general chairman of that department for the entire area of Livingston and Washtenaw counties. He has appointed W. P. Kellam of Howell to assist him and to be in charge of that work in Livingston.

Already the rate of scout advancement for this year is well in advance of that during a similar period last year. "Credit for this excellent record," says Scout Executive Wallace F. Watt, "is due to the work of our local scoutmasters, their assistants and troop committeemen, who give untold time and energy in the interests of the boys, without one cent of pay in money. Their only pay is in the sense of having done their duty towards the youths who need their guidance so much."

Girl Scout groups may be given the use of Camp Newkirk, the Boy Scout camp near Dexter, for certain periods this summer, according to present plans announced today by Wallace F. Watt, scout executive of Washtenaw-Livingston council.

BALL PLAYERS ATTENTION

The Pinckney Independents hard ball team will practise at the ball grounds at 7:00 P. M. on Thursday evening of this week. All members of the team are requested to show up.

FACTS ON FINANCE

Amounts received from local property taxes for school expenditures have decreased approximately 28 per cent during the past three years (from 1929-30 to 1932-33). Questionnaire reports to State Department of Public Instruction from 206 villages and cities in Michigan (exclusive of Detroit) show an average reduction of 17 per cent in tax rates during these years (1929-30 to 1932-33). In these same cities and villages more than 15 per cent of the taxable property has been removed from the tax rolls and 40 to 50 per cent of the assessed taxes remain uncollected. The amount of tax levied for schools in these cities has been reduced by 26 per cent.

The second major source of public school revenue, the Primary School Fund, has decreased approximately 16 per cent. This means that the per capita distribution was reduced from \$17.82 per child in 1930 to \$15.14 per child in 1932.

Anticipated receipts for 1933-34 from the two major sources of revenue are:

(1) Primary School Fund:	\$18,000,000
(2) Property tax (provided 5 mills is allocated to public schools, less a 16 2/3 per cent tax delinquency	25,000,000
Total	\$43,000,000

Operating costs (not including debt service) during the year 1922-23 were \$54,120,083, which gave a per pupil cost of \$68.18. During 1930-31 these operating costs were \$87,070,000, with a per pupil cost of \$89. In 1933-34 there will be at least 1,018,980 children in the public schools of Michigan; and at the low level of per pupil costs of 1922-23, the sum of \$69,475,000 will be required to keep these children in school for the entire school year. This still means a shortage of at least \$26,475,000 to operate the public schools of Michigan on the basis noted above—that is, a reduction to the per capita costs of 1922-23. Without additional revenue, therefore, the public schools can provide its present services in 1933-34 for only a little over half of the year—Chelsea Standard.
