Livingston Co. Flocks Win Many Awards

Exhibitors At Michigan State Fair Are Awarded Many Sheep Prizes

Although the sheep department was the only live-stock exhibit which represented Livingston County, the various exhibitors throughout the state were well aware of the fact that wool-growers, shepherds, sheep-shears, and prize-winning flocks can be grown and produced in this vicinity since the finale of the 1934 State Fair.

Five purebred flocks from this county showed at the State Fair, J. M. Eager of Howell furnished a show of Tunis, O. W. Sober of Fowlerville was represented by Shropshires, W. C. Hendee & Sons of Pinckney and L. O. Sober & Sons of Fowlerville with Black Top Delaines and Armstrong Bros. of Fowlerville with Oxford and Shropshires.

W. C. Hendee & Sons lacked two points of winning the premier trophy with their Black Tops and Armstrong Bros. missed the trophy by three points with their Shropshires. All five flocks were well in the money and five championship awards were brought back to this county on sheep alone.

A county wool show was a newly added feature to the fair this year, consisting of at least eight fleeces from four different flocks of the same county. This honor was also given to Livingston County for first place and many compliments given the exhibitors for the selection of fleeces.

Two other new features of the fair were the sheep-shearing contests and the shepherd's prizes. The sheep-shearing prizes consisted of \$100 in cash for winners in four preliminary contests and the four winners to compete in the finals on Friday. Glen Armstrong of Fowlerville now has the state championship with a score of 89.3. Cecil Hendee of Pinckney was second in the final contest with a score of 88.7. George McCumber of St. Johns, former state champion, was third with a score of 86.9. Frank Eganman of Lowell was fourth with 79.8 points. A special contest was also held, determined on the number of strokes and expertness in placing strokes. Livingston County also did very well here with O. W. Sober of Fowlerville first, George McCumber of St. Johns second, Glen Armstrong of Fowlerville third and Cecil Hendee of Pinckney fourth. Twenty-seven. Continued on Page Three

FALL SEED LOANS OBTAINED BY FARMERS

The Federal Emergency Loan Office is now making applications from farmers for advances for the seeding of wheat, corn, and other crops maturing in 1935. The maximum loan is \$2.00 per acre to be used for seed, fitting land, etc. The maturity is a crop mortgage maturing Aug. 31, 1935. Applications are received at the County Agricultural Agent's office and must be made before Sept. 15.

MORE ROBBERIES IN LIVINGSTON COUNTY

Two more robberies occurred in this county last Friday night. The VanWade Ford Sal. room in Brighton was entered, the door locked in the building each night was shot and the safe blown. A considerable sum of money was secured.

The Collins and Newman Shell Gas station at the intersection of the Howell-Pinckney and State Sanitarium roads was also entered. About \$4 in cash was taken and a number of cartons of cigarettes.

APPRECIATION

I wish to thank all the voters in Putnam township who honored me with their vote at the primaries Friday. Their kindness is much appreciated.

PRIMARY SCHOOL INTEREST FUND BEING ESTABLISHED

Approximately one-third of the \$10,500,000 in the Primary School Interest Fund has been distributed to local school districts. It is planned to distribute the entire amount before September 21.

Current Comment

The big news item of the past week was the return from Elba of former President Hoover to the first pages of the dailies. This was not by broadcasting but by the publication of a special article in the Saturday Evening Post, a conservative weekly, having nation-wide circulation. In this the former president rips the New Deal fore and aft and criticizes practically all of President Roosevelt's recovery measures. In the entire article, which is voluminous, a note of pessimism pervades, and even despair at times. There is also a lack of faith in any human efforts to overcome the depression. The depression he seems to regard as a disease which must run its course and be suffered by the people in silence. The article brings out sharply the difference in the temperaments of Herbert Hoover and Franklin Roosevelt. President Roosevelt radiates faith in his country and his countrymen by his voice, his face, his bearing and his approach to the problems besetting the nation. This is infectious and serves to still the fears of his listeners. On the other side Mr. Hoover seems to see only the dark side and for him the depression clouds have no bright lining.

In the days gone by coopering was one of the principal industries and every village and hamlet had its cooper shop. Sugar, apples, potatoes, salt, drugs and many other articles were sold in barrels, not to mention whiskey, beer syrups, molasses etc. Increased and faster transportation decreased the need of buying in large quantities and sacks and paper containers began to be more and more used. Finally prohibition came and barrels and kegs almost disappeared. When liquor came back again there was a demand for coopers to make liquor barrels. Apparently there were none. A Lansing brewery searched the city over and only one cooper in the entire city was found who was able to work at his trade. He is now engaged in assembling 27 huge cypress casks to be used for fermenting liquor. Coopering seems to be a lost art. There is not a single cooper in this section that we know of. Robert Culhane was the last one and he has been dead about ten years.

For some time past there has been considerable propaganda to the effect that President Roosevelt has lost much of his popularity. Facts do not bear this out. In the nation-wide Literary Digest straw vote Mr. Roosevelt carried every state in the union but one. Now another survey has been made by Samuel P. Hayes Jr. of Mt. Holyoke college. The work was done at Yale University. The voters included about 5,000 for Roosevelt, 3,000 for Hoover and 400 for the Socialist ticket. Voters in 35 different states were interviewed.

"In the light of the political attitudes of the majority of the nation's voters in the fall of 1932," Dr. Hayes wrote, "most of President Roosevelt's administrative acts have well represented the electorate. This was true of his stand on war debts, repeal, farm relief, the bonus and so forth."

The Jackson county fair board has denied permission to a promoter to put on a walkathon at the fair grounds. The question seems to be "Why a Walkathon?" In this the contestants walk until they become exhausted, the survivor being the winner. They are fed and allowed brief rest periods. Some contests last for months.

BLIND, DEAF, AND CRIPPLED CHILDREN NUMBER 3172 IN 1933-34

The 1933-34 report of the Division of Special Education shows 1831 crippled, 746 blind or partially sighted, and 595 deaf or hard of hearing children were enrolled in Special Classes in 26 Michigan cities last year. During the last four years the Special Class enrollments have steadily increased. Only one Special Class has been discontinued while new Classes have been organized at Benton Harbor, Kalamazoo, and Marquette. A copy of the 1933-34 Annual Report upon the education of handicapped children can be obtained from the Division of Special Education Department of Public Instruction.

Don't forget the Pinckney Board of Commerce Dance at the Pinckney Community Hall Saturday night.

Washington.—Recent developments in the Nation's Capital tend to indicate.

Campaign Issues

In the opinion of long time observers, that the issues of the coming election campaign and for the next session of congress are being sharply drawn. It is recognized here that the line of cleavage will be whether the Roosevelt administration shall go further to the radical side or whether it shall be forced to a more conservative belief.

There has been so much confusion in administration affairs that the issue is being forced. Each time heretofore that conservatives have fought against proposals by the Roosevelt administration or have criticized acts performed under the discretionary authority granted the President by congress, the conservative element has been badly defeated. It should be said that the conservatives have lacked any particular punch, nor have they had leaders worthwile. Consequently their attacks have lacked virility and have amounted to the same thing as an attempt to kill a bear with bird-shot.

Now, however, there seems to be a stiffening of backbone on the part of the conservatives, both Democratic and Republican, as is evidenced by the formation of the American Liberty League. This group, headed by such men as Jett Shouse, former Democratic national committee head, former United States Senator James M. Wadsworth, a New York Republican, and Alfred E. Smith, one time Democratic candidate for President, has announced its purpose to fight in defense of the Constitution. It also is prepared to make war on radicalism. Mr. Shouse, who will be the league's president, declared it was not anti-Roosevelt, or anti-administration but that it admittedly will be against some features of the New Deal.

Thus, for the first time since Mr. Roosevelt became President, he is confronted with frank outright opposition of a serious kind on those parts of his program which the league and other conservatives believe go beyond traditions of American history. My information is that the league is well supplied with funds and that it will be able to disseminate its views in extensive fashion. The purpose, it is said, is to make sure that the rank and file of voters hear all sides to the various questions.

The non-partisan character of the work to be done is being emphasized. The names of the men who head the organization are advanced as proof of the statement that it will not dabble in partisan politics. It remains, nevertheless, that this group naturally must oppose a good many of the New Deal plans and in some quarters it is believed the New Dealers will attempt to catalogue it purely as an anti-administration propaganda machine. It is to be seen that Mr. Shouse and his associates have a battle on their hands in addition to defense of the Constitution. But those factors do not change the belief of many here that in the American Liberty League we actually are seeing the birth of a new political party. It is this manner that parties are born.

The lack of co-ordination in governmental agencies is giving the President fresh concern and a new program is being considered in order to fend off partisan attacks.

Richberg's Job
Donald Richberg, Chicago lawyer and former general counsel for the NRA, has the job in charge. He will attempt, where his predecessor Frank Walker failed, to straighten out the tangled skein that has resulted in many of the agencies of the New Deal running counter to each other.

Mr. Roosevelt wants "balanced control" among these agencies. That is, he wants to see that the various units whose functions may overlap are not working at cross purposes and he wants to see the recovery machine settled down so that there may be harmony among the officials of the administration.

For an example of what I mean, take the case of NRA and AAA. It has been recognized for some months that the purpose behind these two groups and upon which they have been attempting to expand government supervision of agriculture on the one hand and industry on the other have led officials in different directions. It has resulted in an undercurrent of dissatisfaction each with the other. Mr. Richberg thinks that some way must be found for this to be eliminated.

Then we have the Public Works Administration, the Reconstruction Finance Corporation, and the Home Owners Loan Corporation and now the Federal Housing Administration. It is easy to see how many times any one of these may cross up the plans of the others. The result obviously has been difficulties and embarrassments that ought never occur and would have been avoided had the machinery been geared together when the programs were worked out.

Mr. Richberg's job, therefore, plainly is one fraught with great difficulties and one that is fraught with potential fireworks if his program steps on toes. If he does not succeed in revamping and reorganizing the various set up,

observers here think they foresee a more serious disagreement among administration leaders than has yet taken place.

If he succeeds in accomplishing the purpose assigned to him by the President, Mr. Richberg will face the opposition of the newly formed American Liberty League and the conservative element throughout the country with a well oiled machine to carry out his policies.

The critics of Gen. Hugh S. Johnson, national recovery administrator, have had their turn to laugh. The general, who has become famous for his frequent threats to "crack down" where industry failed to live up to the codes which the administration laid down, has run afoul of one of his own agencies, the national labor relations board.

Some months ago the general fired John L. Donovan, a labor board advisor apparently because Mr. Donovan had been active in organizing a union among employees of the NRA of whom there were some 2,000. Mr. Donovan was dismissed officially for being "inefficient" and for "insubordination," but few observers ever accepted that as the explanation.

Now, General Johnson has been directed by the labor board to re-employ Mr. Donovan, and told that if he did not reinstate the dismissed worker he would be violating one of the provisions of his own law and one which he had used many times in his threats to crack down.

The incident has a further significance, however, as observers here see it. There is much discussion around Washington to the effect that General Johnson in the Donovan case was reaping the crop which he had sown in his many promises to organized labor. In other words, it is made to appear in the opinion of many persons that the general promised too much and when he found the vulnerable spots in his own program he sought to get away from his oft repeated preachments only to be confronted with the ruling made by his own labor board after that body had made an investigation of the merits of the case.

No one can tell at this time how far-reaching the Donovan case decision may prove to be. Some observers figure that a way will be found to eliminate Mr. Donovan from the NRA organization later but if that takes place it seems assured that organized labor itself will rise up and there will be not one group but many to tell General Johnson of their interpretation of the labor provisions in the recovery act. Suggestions have been heard likewise to the effect that if an employer, private or public, is not permitted to discharge a worker for inefficiency or insubordination, employers of labor through the country, subservient to the national recovery act and the codes, are faced with a situation the scope of which cannot now even be hinted.

It has been anticipated generally that the administration will have greater difficulty in the house of representatives next winter with the new crop of members than obtained during the last session of congress when the house was quite subservient to the White House orders.

House May Make Trouble
Advance notice of the difficulties already has appeared in the shape of a four-cornered race for the speakership made vacant by the death of Henry T. Rainey of Illinois. It is said now that the White House is prepared to stay out of the fight because, traditionally, the Chief Executive has not meddled with the choice of house leaders. It is a fact nevertheless that the present list of entries for the speakership assure a battle between the friends of the brain trust and the more conservative, practical politicians in the house membership.

To date Joseph W. Byrns, the present floor leader and long time representative from Tennessee, appears to have the jump on the other candidates. It cannot be overlooked, nevertheless, that Representative Sam Rayburn of Texas, chairman of the powerful committee on interstate commerce, and Representative William Bankhead, of Alabama, are very much in the race. Representative John Rankin, of Mississippi, must be considered also because Mr. Rankin has been active in assisting the Democratic organization in the house in the last two sessions and he has many friends.

No one can tell, of course, what kind of a jam will result and what trading will be initiated between the various candidates in order to get the most political advantage out of the situation. Trading always features selection of the speakership and in this instance, as in all previous speakership fights, it is safe to say that there will be trading done which will allow one of the number to be speaker and his choice to be floor leader.

It is considered that Mr. Byrns has the best chance at this time because ordinarily the floor leader of the party in power has been elevated to the speakership in event of a vacancy in the high office in the house.

Rich Fabric's the Thing for Fall

By CHERIE NICHOLAS

ADVANCE fall fashions cause one to think in terms of handsome materials, for it is fine fabrics, we're telling you, which will be making fine costumes this season.

The scheme of things for the new style program runs about like this—a strikingly simple silhouette, with emphasis on the elegance and unusualness of the material which fashions it, relying on breathtaking neckwear sets, buttons, buckles and countless other unique gadgets to dramatize the whole.

The big buttons which adorn the newly arrived frocks and wraps so spectacularly are of eye-filling proportions, some of them being simply enormous. It is such bizarre details as these huge buttons which add unlimited swank and distinction to the otherwise modestly styled fall modes.

It does not take long after catching a glimpse of the midseason and early fall styles to realize how strong buttons are going, in the new showings. For example, consider the very good-looking town and country dress to the left in the picture. Buttons all over it! The shirtwaist dress of which this model is a striking exponent, that is styled like a coat with buttons from neckline to hemline down the front and on the pockets, likewise the cuffs, is regarded as one of the most important numbers on the fall fashion program.

It is self-evident that this spectacular use of big buttons does a lot to distinguish this dress, but when it comes to keying enthusiasm to even a higher note, it is the intriguing material which fashions this dress which

does just that. This fabric is an entirely new bemberg and wool weave in a radiant brown which is enlivened with a delicate interweaving of glossy yellow-and-gold threads. For daytime and sports you are going to find this bemberg and wool weave the very sort you are looking for.

That big news in regard to the ensemble pictured to the right is its color. The smart checked woolen of which it is made is in tones of green, and green this autumn is scheduled to make a front-stage play. That the dress which is topped with a stunning matched coat, like its companion in the illustration, should show a shirtwaist tendency is not a mere happenstance but rather a natural sequence of events for the shirtwaist idea which prevailed so conspicuously all summer is carrying over into fall with a high and mighty gesture. A brown fabric bag and brown felt slouch hat, go well with this two-tone green check.

There is nothing smarter for immediate wear than a shirtwaist dress of some one or other of the newer lightweight woolens. If the material reflects the glint and gleam of gold and silver, so much the better, for it is the metal-shot fabrics which are getting most of the notice for fall and winter. One way of interpreting the metal note is to see to it that your scarf or your neckpiece and other decorative accessories be fashioned of a metal-touched weave.

We would like to tell you in conclusion that there is a new canton crepe in the market. It works up very happily into practical street costumes.

TRIMMINGS FEATURE FALL SHOE STYLES

There are frills and thrills for the feet—if seeing is believing.

Afternoon dresses of marvelously colored prints are all astrule with frills and ruchings, large and small. Some are of the frock itself, while others stand out in crisp white contrast around both the neckline and the cuffs.

And the new shoes are not to be outdone. They, too, repeat this ruffled theme. The just-out blue and brown kidskin shoes have little butterfly bows, odd trimmings lined with white and knotted coils of stitched and pleated kidskin tabs.

Leather flowers are doing their smart duty several places, too—on plain kidskin pumps, either at the side or in front, and trimming leather and fabric purses, belts, hats and the gauntlet cuffs of gloves.

Some leather bracelets and clips are trimmed with metal and some are even set with stones while others are content to ornament themselves with knots of leather or bits of bead, glass, or straw.

Black Hose to Return to Fashion for Autumn Wear

The latest cry of the fashion prophets is black stockings; not gum-metal ones or bluish-black ones, but plain, ordinary, old-fashioned black stockings.

It's a wild gamble, betting on black stockings, when one remembers how often and how uselessly the very same fashion prophets have heralded the return of curves and long hair.

Black stockings have at least one worthwhile virtue. They make plump ankles and fat legs look slimmer. But it must be admitted they have a strong tendency to make skinny legs look like soda straws.

Picture Hats

The first velvet picture hats have made their appearance at Chantilly, France. Some of them have crowns of sheer tulle or lace.

Cool Shoes

White buckskin shoes with diamond perforations are chic and cool for summer wear.

COLORFUL VELVET

By CHERIE NICHOLAS

The new velvets are conveying a message of color as gay and exotic as ever a rainbow reflected. As the season progresses your eye will be gladdened with such glorified hues as fuchsia, nasturtium, lime green and the new inkberry which is a rich plum tone. Feminine and flattering in color and styling is the wrap of powder blue transparent velvet here pictured. The scarf collar ties in a knot and the elbow sleeves are voluminously full.

Pleated Skirts Popular for All Ages for Fall

Pleated skirts will be important in early fall fashions, according to a stylist, who returned recently from Paris. This also speaks with enthusiasm of velvet bows that are used to trim both daytime and evening dresses, explaining that bows in different colors are substituted to give a change in appearance to the frock.

A Little Bit Humorous

JUST LIKE US

Garage Owner to Water Boy—Get your bucket, Tuck; here comes more work for you.

Tuck—Gee, that guy wearin' the swell clothes and ridin' the fine car? **Owner**—Go easy, boy; he's an I. W. W.

Tuck—What's that—one of them guys that make trouble at the shops? Here, you better take the bucket.

Owner—No, Tuck; you got it all wrong. He is one of them guys that always comes for Information, Wind, and Water—and nothin' else.

Summer Study

"Is your boy Josh studying during the summer?" asked Si Simlin.

"I think so," answered Farmer Corntassel.

"What's he studyin'?"
"I don't know whether it's commerce or music. I see him with a book he got out of the college library entitled 'Trader Horn'."

Quite a Difference

Mother (lecturing Billy after the company had gone)—Don't you know the difference between "sufficient" and "enough"?

"Sure, mother," answered the boy. "Sufficient" is when a fellow's mother thinks it's time for him to stop eating dessert. "Enough" is when he thinks it is."

These Modern Times

Green—You must be keen on the talkies, old boy, to go twice a week.
Howarth—It's not that exactly. You see, if I don't go regularly I can't understand what my children are saying.

Not Quite the Same

"It must have made George feel good when Peggy told him he was one in a million."

"Quite the reverse. What she really said was that he was only one in a million."

His Depth

"Do you think there is any depth to that man?"

"Not much," answered Senator Sorghum. "I never knew him to dig any deeper than \$2,000 in a campaign in all my life."

WHEN THERE'S A WILL

"You aren't going away this summer?"

"No, I've discovered that one may become engaged on her own front porch just as easily if she sets out to do it."

Identification

Russell and Jean were looking at pictures. "What is that picture of?" asked Jean.

"That's the Statue of Liberty," Russell replied. "You can always tell her, 'cause she's got an ice cream cone in her hand."

Laborious Inspection

"It is only natural for taxpayers to want to see just where their money has gone."

"Yes," answered Senator Sorghum regretfully. "But we can't all find time to go to Europe."—Washington Star.

Beats All

Tall Boy—Woggles is an egotistical chap. See him posing on the street corner.

Little Dub—Yes, he has the idea that visitors haven't seen the town until they've seen him.—Brooklyn Eagle.

Dealing Gently

Cadger—Blinks has been telling lies about me again.

Badger—He might do worse. He might tell the truth about you.—Brooklyn Eagle.

NO EXCUSE NOW FOR DOWDINESS

PATTERN 1625

It seems as though life were demanding more and more of women. It used to be that if a woman looked neat and fresh about the house, it was all that anyone could ask of her—but that is not so today. She has to be smart and pretty every moment of her life. After all, though—to be quite fair—why shouldn't she, when a pattern like this costs so little—can be run up in next to no time—and the counters of the cotton goods departments are piled high with ravishing fabrics crying to be taken home for a song? Pattern 1625 is available in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42

and 44. Size 16 requires 3 1/4 yards 38-inch fabric. Illustrated step-by-step sewing instructions included.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address all orders to Sewing Circle Pattern Department, 243 West Seventeenth street, New York City.

A B C

"If you were a diplomat abroad would you learn the language of the country to which you were assigned?"

"No," answered Senator Sorghum. "There is a danger in trying to be a linguist. It's liable to tempt a man to spend the best years of his life learning his A-B-C's over and over again."—Washington Star.

Those Amateur Glaziers

Smith assured his wife he could repair the broken window. He took the measurements and went to buy the glass.

"Quite a simple job," the shopkeeper told him. "You simply pull out the old glass, fit in the new, fill in the putty, and there you are."

In a short time Smith returned to the shop.

"Same size again, I suppose?" was the shopkeeper's greeting.

REAL OLD-TIMER

"Is he old-fashioned?"
"Sure thing. He still waits for his teeth to ache before going to the dentist."

Always Hope Remained

"I shall never," exclaimed the artist in dramatic tones as he displays his last painting, "do anything finer than that!"

"Cheer up," said his friend, "don't lose heart, old man!"—Stray Stories.

EXPENSES FILED WITH COUNTY CLERKS

All campaign expense accounts, under the law, are filed with county clerks. Candidates file their personal accounts with the clerks in the counties in which they reside. County campaign committees for candidates seeking state or national offices file in their own counties while state campaign committees file their accounts in the home county of the candidate.

The law requires that all expense accounts be filed within 10 days after a primary election.

Harold Dillaway visited friends and relatives in Detroit several days last week.

Neighboring Notes

The first old age pensions were received in Jackson county last week.

The State Sanitarium team won the title in the Howell soft ball league this year. Gerald Kennedy, former Pinckney player, was their star pitcher, winning 3 and losing 4.

According to the Mason News an attempt is being made to complete the blacktop road from Macon to Howell. The road is 20 1/2 miles long. Seven miles of the Ingham county end of it are now being completed.

There are 30 more county fairs operating in this state than there were last year.

An Eleanor Roosevelt Club has been formed at Howell. The officers are: Chairman, Mrs. Mae Barren; Vice-Chairman, Mrs. Ruth Pfau; Sec., Miss Winifred Brown; Treas., Mrs. Kern Gannon.

Clarence Culver of Pinckney and Ernest Bertotte of Lansing were the principals in an auto accident on Grand River, east of Howell Sunday morning. Neither was hurt but both cars were smashed.

John B. Barreux, who recently died at Howell, had six sons in the service. One was in the Spanish war and five in the world war. One of the latter lost his life in battle.

The total enrollment of the Ann Arbor city schools this year is 5,855. This is a decrease of 2 over last year.

Fester Waite of Dexter has a ball which he prizes very highly. It was one used by Schoolboy Rowe when he won his 16th straight victory at Washington. It was fouled into the stands and Mr. Waite was fortunate enough to catch it.

Paul Bradbury, Dexter, one of the winners in the Golden Gloves contest, had his leg broken in an auto accident last Wednesday.

Fenton High School reports 27 men out for football. Of this number but 4 were regulars last year. Football is out after the Genesee county association championship this year.

St. Joseph's parochial school at Dexter will not open this year.

The Government has purchased the John Patterson site in Plympton for a post office. It is on Peninsula St. and 110 feet wide. \$10,000 was paid.

Robert Eck of Dexter has purchased the Patrick Gallagher farm in Webster township.

The Manchester school reports enrollment of 306. Milford has enrolled in the high school alone.

Fake eye doctors are again operating in this section and defrauding the people. \$175 was secured from them from a woman near Oxford, Michigan.

RURAL AGRICULTURAL STATE
SAID TOTALS \$229,563

Eighty-eight Rural Agricultural School districts and seven township school districts will receive \$229,563 this week from the State of Michigan. This aid is used for maintenance and transportation costs.

The 95 school districts participating are located in 47 counties, of which 13 schools are in the upper peninsula and 34 in the lower peninsula. The combined area of the districts participating in this fund, is more than one-tenth of the area of the state. Within this area 15,000 children are transported daily to school in 487 buses. The average length of each bus route is 7.6 miles.

CROP ESTIMATES INCREASE IN MICHIGAN

The agricultural department states that the recent rainfalls have done a considerable good to the crops of Michigan.

The sugar beet crop will exceed expectations with an expected yield of 938,000 tons as compared to 500,000 tons average in 1927-31.

Michigan's potato crop is estimated at 22,950,000 against an average of 21,511,000.

The apple crop will be short with an estimated yield of 5,521,000 bushels as compared to an average of 6,261,000.

Hay is still forecast as about one-fourth less than the smallest crop in the last 15 years but rain and the cutting of plants formerly regarded as weeds promise 56,014,000 tons or a 4.4 per cent increase since Aug. 1.

However it is also stated that a shortage of feed grain and roughage is unavoidable.

ENTERTAIN FOR MR. AND MRS. E. N. BRALEY

September 7th, 1934, Mr. and Mrs. E. N. Braley were entertained at the home of Floyd Lillywhite and Irvin Wood Lillywhite, with Dorra and Dorothy assisting. The present hour is one where Mrs. Braley spent her girlhood days. Other guests were Melvin R. Wood and wife, with little Janet Aron from Vernon.

When all assembled the "Memory Box" was opened wide. Old family relics—treasures from early Michigan days were discussed. The deed signed by Martin Van Buren is still with the Lillywhites. The compass used by the Wood Brothers of Lake Superior's early days is in possession of Melvin Wood. Finally the fifty year old marriage certificate and pictures of the bride and groom were in evidence.

Mrs. Lillywhite served ice cream, rad cake and a late hour found the Braleys at home and the 50th anniversary of their marriage was a pleasant memory.

Each time and effort have been expended in trying to ascertain what is the trouble. One who accepts the fact that "conspicuous" can never believe in depression as real. Having gained the true idea of activity, one can refuse to accept the belief that any mental supposition has influenced, or ever can interfere, with any physical activity.

Overcoming Discouragement

LACK of courage! How many worthy enterprises have failed of achievement because men have listened to this subtle argument! What a destructive influence it seeks to exert over the affairs of mankind; yet it is really nonexistent—a negative condition. Can there possibly be insufficient courage for him who refuses to give up his right to this ever available, unlimited spiritual gift of courage? During times of financial stress it is often necessary to draw deeply upon it, if one would prove invalid the mortal claims of lack that appear on every hand.

A lesson in courage was gained by observing a young vine that had been carelessly planted in a rocky crevice against a brick wall. It had very little earth around its roots, and because of overhanging eaves, was deprived of rainfall. Yet, in spite of this, it had established itself. At first, progress aboveground was very much retarded, but at length a single stalk had climbed about two feet up the wall, when it was pulled down and broken off by a little child. One who had been observing the vine's persistence felt quite regretful to see its growth apparently thwarted, but a further lesson was learned when, within a short time, there grew from the broken end two branches where only one had been before.

For this little vine the business of turning out stems and leaves had to be taken care of. Instead of withering in the dry and stony ground, it thrust long roots down below the stones in search of moisture. From these deep roots the plant was well sustained, even through hot, dry summers. So the apparently unfavorable conditions proved unable

Mrs. Rose Parker of Howell spent last week with Mr. and Mrs. Edward Parker.

THE HIGH SCHOOL FOOTBALL TEAM

The big inquiry in this section at the present time is what kind of a football team is Pinckney High School going to have this year. For years Pinckney has turned out high class teams, having won two class "D" championships and a majority of their games in other years despite the fact that they usually had to go out of their class to get games.

The prospects for a good team this year appear to be especially bright as but six regulars were lost by graduation last year. The squad this year numbers some thirty students. With the first game scheduled for this week Friday at Hartland the lineup is not yet settled but the following have been working out on the first team: Backfield—Jack Dilloway, Bob Read, Billy Meyers, Jimmie Lamb; Ends—John Wylie, Arnold Berquist; Center—Lawrence Gorton; Tackles and Guards—Desmond Ledwidge, Fritz Gardner, Gordon Lamb and Nelson Shehan. This will probably be the starting lineup although there may be some changes.

There is a wealth of reserve material and many of them will undoubtedly see action in the first game. They include: Jack Reason, Charles Clinton, Lloyd Hendee, Harold Campbell, Alger Lee, Marcian Ledwidge, Bennie Van Blaricum, Tom Younes, Pat Dillon, Stanley Smaka, Robert Richardson, Edsil Meyers, Eugene Soper.

Tuesday night the election of a captain resulted in a victory for Arnold Berquist.

TRIAL PLAN
tell you

ALL YOU WANT TO KNOW about ELECTRIC COOKING!

ARE there some things you wonder about when you read advertisements regarding electric cooking or other kinds of cooking in the newspapers? The subject of COOLNESS, for instance... whether or not an electric range really heats up the kitchen in warm weather? Or the subject of CLEANLINESS... whether or not pots and pans really stay bright and shiny on an electric range? Or the subject of FLAVOR... whether or not foods do taste better and are more healthful, cooked electrically?

You can decide all these questions for yourself in your own kitchen, without making a penny's investment—and you need take no one's judgment but your own. We want you to discover the facts about electric cooking, and we offer you this easy way to do it:

We will install an electric range in your kitchen without initial charge, and let you use it for six months, removing it without charge if you do not like it. During this trial period,

you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense. Since this trial plan was begun a short time ago, nearly four thousand of our customers have taken advantage of this offer. Send us your application for a trial range today!

Some time ago the poplar trees on the school grounds were cut down as their roots were plugging up the sewers and septic tanks. For the past several weeks William Jeffreys, janitor, has busied himself in getting out the stumps. Fred Read, secretary of the school board, conceived the idea of using dynamite for the job and set some off himself under the stumps last Friday. The stumps are all out now but the dynamite would have worked better if the ground around the stumps had been clay instead of sand.

DEPARTMENT GETS

STRANGE REQUESTS

The Department of State is a "clearing house" for information relative to state government.

Despite the manifold duties intrusted to the department by law, every mail brings strange requests for information. These requests every week ask for information concerning the proper procedure in cases where workers fail to receive PWA checks, or where the worker feels that there is some irregularity concerning the work. In each case, the request is referred to the proper department.

Other recent requests ask for information concerning the height of high tension wires; if notaries public can perform marriage ceremonies; if the state issues peddler's licenses. One of the strangest requests received in recent week called for information concerning Congressional districts in Alaska.

AMERICAN LEGION ANNOUNCES PLANS FOR CONSTITUTION DAY

Extensive plans for celebration of Constitution Day, September 17, have been announced by national headquarters of the American Legion. Legion authorities hope for a nation wide patriotic demonstration on this occasion "to stimulate a greater appreciation of our Constitution and the rights, benefits and privileges guaranteed thereby. All patriotic groups, civic clubs, and members of the teaching profession will be asked to cooperate in this important movement."

Details of the plan call for mass meetings to be held on the evening of September 17. All Legion Posts are called upon to furnish speakers on the subject of the Constitution to talk before grade and high schools, colleges and universities and civic and luncheon clubs. There will be distributed to schools throughout the country a reprint of an article on "To Uphold and Defend the Constitution," written by Edward A. Hayes, National Commander of the American Legion. Newspapers throughout the nation will be asked to cooperate and devote space in editorial papers to the subject.

READING FUN IN STORE

FOR BOYS

Here's important news for the boys of America. THE AMERICAN BOY—YOUTH'S COMPANION, the nation's quality magazine for boys, has been reduced from \$2.00 a year to \$1.00. The three-year rate, formerly \$3.50, has been reduced to \$2.00.

"For a long time we have been seeking a way to reduce the cost of THE AMERICAN BOY to readers," states Griffith Ogden Ellis, editor. "Recently we have effected savings that make the cut possible, and we think the boys will agree that the new price is big news on the reading front. We hope boys will help us to spread the good news by telling their friends."

Along with the cut in cost, the magazine's publishers are planning a magazine that will continue to set the pace in fiction, articles, and departments. The favorite characters of millions of boys will parade through THE AMERICAN BOY in new stories. Douglas Renfrow of the Royal Canadian Mounted, Hide-rack, the red-and-gold collie, Bone-head Jim Tierney, the detective, will give the reader many exciting hours in the months to come.

William Heyliger, whose true-to-life, gripping vocational stories have won him wide acclaim from parents and librarians, as well as the hearty approval of boys, is working on new stories. Staff writers are interviewing famous coaches and athletes and world renowned explorers, to bring boys the color and fun of sports and travel.

In short, THE AMERICAN BOY, under its new price, will continue to give boys a magazine that measures up to the best standards set by adult magazines. Send your subscription to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan. Enclose your name and address and the proper amount of money, and THE AMERICAN BOY will soon be headed your way, loaded with reading thrills.

GASOLINE TAX SHOWS

INCREASE

The automobile gasoline tax for the fiscal year ending June 30, 1934 was \$1,600,000 more than was collected for the fiscal year ending June 30, 1933. Records of the Department of State show that for the twelve months ending June 30, 1934 a total of \$15,741,210 was paid into the state coffers from this source.

Lee Hoey of Dexter called on Pinckney friends Monday night. Rev. E. J. Berquist of Highland spent the first of the week in Pinckney.

Drought Relief

One leading economist says "Remember that nature has a way of curing which is often as swift as the illness is unexpected." Therefore, while short-range consequences of the drought are admittedly serious, long-range effects may be favorable.

From late reports farm income will probably be 10 percent above a year ago on the present price of farm produce. I produce brings higher prices later on then the income will be even more.
