News of the State Legislature

More Bills Continue to Pour Into the Legislative Hopper. Lt. Governor and Speaker of the House Added to State Administrative Board.

More bills continue to be introduced in the legislature. There is a halt now as the number of bills has reached 200 and the person introducing the 200th bill must banquet the legislators.

The Brake bill adding the Lt. governor and speaker to the administrative board passed the house 70 to 20. It had previously passed the senate but the speaker was included in it after it reached the house.

A bill to prevent childless women from receiving alimony while able to work was introduced.

A bill making it a felony to refuse to give aid to the injured in an automobile accident has been reported out.

The Walsh-Buckley bill would designate Wayne County as the site for a new mental hospital.

The Murphy-Douville bill would increase standards for barbers. In it a barber would have to have a degree from an accredited barber college.

The appropriation bills for the University of Michigan, Michigan State College and state hospitals have been reported out. In this the university would get instead of 73 of a million a dollar, they would get 83 of a million a dollar. The Mich State College appropriation would be increased from .443 of a million to .47, the hospitals would get \$5,297,108 and \$5,397,162 for the next two years.

Rep. Stout of Ionia would abolish the office of coroner and in its place would have a medical examiner with co-ordinate county medical examiners in each county.

The Little occupational disease bill was passed by the senate. It was amended to include a schedule of 27 diseases. \$150,000 was appropriated to advertise Michigan for the next two years as a tourist center.

The Brown-Berka bill designed to place 1933-34-35 delinquent taxes under the Moore-Holbeck moratorium was adopted by the house 76 to 13. Rep. Vern Brown bitterly scored the Michigan Municipal League and the school districts who opposed the bill. He asserted the head of the league was drawing a salary from the University of Michigan and another from the league for his work.

Jury service exemption for teachers, ministers, doctors, railroad employees, dentists and members of the national guard would be curbed by a bill introduced by Rep. Pangborn of Grand Rapids. Rep. Pangborn would eliminate roadside zoos and it would be made a law violation to carry loaded guns or rifles in an auto.

Hitch-hiking becomes a misdemeanor, punishable by a \$10 fine under a bill introduced by Rep. Nagel.

The house passed by a 92 to 0 vote the Espie bill to regulate commercial feed.

Thursday Speaker Schroeder called Mrs. Elizabeth Belen, Democrat lady representative from Ingham county to preside. This is the first time in the history of the state a woman has ever acted as presiding officer in the house of representatives.

FEDERAL SEED LOAN

The federal seed loan program has been announced. This loan is available to farmers for the purchase of seed and fertilizers. In order to qualify for the loan the applicant must not have a loan from the resettlement administration and not be able to qualify for a loan through the Production Credit Association. The county office writes applications for persons qualified for loan. The district office is located at Flint. Mr. Wade Morrow is the District Supervisor.

THREE ARRESTS IN THREE WEEKS

According to the Lansing papers Miss Jennie Jacobs, 29, was arrested three times in three weeks for obtaining goods under false pretenses and a fourth time for being an accomplice in several robbery armed cases. She was arrested at both Vermonthville and Kalamazoo for obtaining groceries under false pretenses and at Charlotte for obtaining gasoline. In two instances she got off on payment of a fine and costs. At Charlotte she served 10 days. At the expiration of this sentence she was taken to the Barry county jail at Hastings on a warrant charging her with being an accomplice in a robbery armed case. While there she was interviewed by representatives from the office of Sheriff Kennedy and is said to have cleared up several Livingston county cases. Miss Jacobs formerly lived at Howell and last summer lived on the Sigler farm east of Pinckney with Mr. and Mrs. A. Haywood.

Fine Easter Pageant Is Staged Here

Easter Pageant Given By the Pupils of the Grades of the Pinckney School Put On In Efficient Manner and Gives Satisfaction.

The Easter pageant, "The Pageant of the Resurrection" was put on at the high school auditorium last Wednesday night by the pupils of the grades under the direction of Mrs. J. W. Meyers, musical director. All parts were well taken and the result of long practice sessions. The costumes were many and varied and set the cast off in a nice manner reminiscent of the days of the man of Galilee.

The scene takes place outside the walls of Jerusalem at the time of the crucifixion of Christ. A band of Christians who have been led by the power of Christ would their way there, where they are told of his trial and death on the cross. As they prepare to return home they hear of his resurrection. In this act appear the 12 disciples, Lazarus, Nicodemus, the Roman governor, Pontius Pilate, the Roman soldiers, and the leader of the pilgrims to Jerusalem, Bobbie Martin who carried the Roman soldier who cleared the way for Pilate. Gerald Porttrey, in a costume of burlap, portrayed the part of the maker of nails, who joined in the faith of the Christians.

There are many choruses and numbers in the program and numbers were also rendered. Miss Virginia Mutter of Howell rendered several violin selections and the children of the primary put on an Indian dance and a folk dance.

On account of the inclement weather the attendance was not large but those who stayed away missed a real treat.

HOWELL PAST MASTERS NIGHT

The annual Past Masters Night Banquet of Howell lodge No. 38 will be held on April 16 instead of April 2. The past masters will confer a third degree with the following past masters in the chairs:

S. W. Eric Remor
J. W. Bert Woodhams
S. D. C. Passmore
J. D. Harold Chubb, Elton Bragg
Sts. W. E. Beach
Tyler Earl Adams

Next week we will publish the complete program for that night.

GEORGE A. SIGLER

George A. Sigler, 82, son of the late Jacob and Sarah Sigler, died at his home here Tuesday night after an illness of several weeks of a heart ailment. He was a life-long resident of this section and followed the occupations of farmer, merchant and travelling salesman. During Gov. Comstock's administration he was appointed to the capital police at Lansing state capitol and served in this capacity for two years, retiring in 1935. The deceased was the oldest member of Livingston Lodge No. 76 F. & A. M., having been a member for 57 years. He was the sole surviving son of the late Jacob and Sarah Sigler, his two brothers, Dr. H. F. Sigler and Frank Sigler, having both passed to the great beyond. Surviving are his widow, Laura Darrow Sigler, two sons, Dr. R. G. Sigler and Dr. C. M. Sigler of Detroit and three grandchildren, Mrs. Francis Shipper and Don and Marjorie of Detroit, also two sisters, Mrs. Nettie Vaughn of Pinckney and Mrs. Ella Haywood of Detroit.

The funeral will be held at the home on Friday, April 2, at 2:00 P. M. with burial in the Pinckney cemetery, Livingston Lodge No. 76 F. & A. M. will have charge of the services.

MRS. MARY FITZSIMMONS
Mrs. Mary Fitzsimmons, 78, died at the Pontiac Hospital, Sunday. The funeral and burial were held at Howell Tuesday, with Rev. Freda officiating. The deceased was the widow of the late Peter Fitzsimmons and is survived by two sons and a daughter.

8th Annual Past Masters Banquet

A Good Attendance Is Present At Annual Masonic Function. Some 40 Visiting Lodges Represented.

The snow storm and icy roads cut down the attendance at the annual banquet given by Livingston Lodge last Thursday night. Never-the-less some 150 persons enjoyed the repast served by the ladies of the O. E. S. The visitors started arriving early and a hour or more was spent in visiting. To the strains of a march played by the Howell orchestra the Masons marched into the dining room with the grand lodge officers and past masters leading the way.

Following the banquet, Percy Ellis, master of Livingston Lodge, extended the welcome of the lodge to those assembled there and told them that they would always find the latch string of the lodge open for them. He then introduced Dr. Lambie of Midland, the toastmaster. Dr. in his broad Scotch dialect accepted the assignment with zeal and called upon Past Master Livermore who responded to the welcome in behalf of the past masters. Bert Parks of Stockbridge then sang a Scotch song and responded to an encore. Dewey Hesse junior deacon of the grand lodge of Saginaw, then gave an address in which he touched on the program of the grand master for the relief and aid of Masonic orphans.

The Maple City Four, of Stockbridge, rendered two selections. This quartette is composed of Bert Parks, Sumner Hall, Henry Sharp and Wilbur Ostander, the last two being past masters of Stockbridge lodge.

Paul S. a checker of Grand Rapids was next. He was formerly chairman of the grand lodge finance committee and put the lodge on a budget system. This year he is a candidate for grand marshal. Paying his respects to the grand lodge officers he said he drove all the way from Grand Rapids to attend this function, it being his second trip here. Paul is a brother of Mrs. Esther Campbell of Pinckney and a Grand Rapids attorney.

Charles Fey of Royal Oak was next. He is also a candidate for grand marshal. Mr. Fey is the author of several books on Masonry and an authority. He spoke briefly.

Bill Hodge, Howell poet, recited several of his poems. Previous to this he had led the assembly in community singing and did a little tap dancing.

Judge Neil Reid, grand master delivered the address. He spoke on the "Masonic Youth Movement" and mentioned the different ways in which Masons could aid the youth and abate juvenile delinquency. The judge has visited Pinckney many times and his address was attentively listened to.

Bud Kenner of Howell gave several impersonations of Hollywood movie stars, including Roy Atwell, Step-and-Fetchit and others.

Arthur Fox, grand lecturer, was unable to be present as he is in Port Huron hospital for treatment. Hugh McPherson, of Pontiac, sent a telegram saying he was afraid to risk the icy roads and Charles Sherman of Lansing was absent.

Following this a number of visiting masters and past masters were introduced. They were: Fred Woodworth, past master of Cass City lodge, Hazen Siegrist, master of Grass Lake Lodge, Peter Klont of Mason; Elton Lesser of Dexter; Ernest Phillips of Howell; J. G. Rankin, Utica; Harold Koch, Golden Rule, Ann Arbor; G. W. Royce, Fraternity, Ann Arbor; Wilbur Ostrander, Stockbridge; Henry Bidwell and Robert Phillips, Brighton; William Hahn, Utica; T. J. McFarland, Jesse Sharpe and J. H. Pittenger, Milford; W. E. Beach, Bill Cansfield, Wm. Reader, Howell; Roy Harris, George Atkinson, Don Dancer and Jay Weinberg, Chelsea; Gene McLachlan, Glen Alt, Wm. Schultz, C. M. Shankland, H. Morton, Fred Bowen, Golden Rule, Ann Arbor; Wm. Pidd, Ira Ott, Henry Jewell, Herb. Shoup, Ellis Green and Harlan Savery, Dexter.

Following this, lodge was opened and retiring master, Herman Vedder was presented with his past masters apron by Past Master Curlett.

The following lodges were represented: Howell, Brighton, Fowler, Webberville, Dexter, Stockbridge, Chelsea, Grass Lake, Golden Rule, Fraternity and Ann Arbor of Ann Arbor, Bax Axe, Paul Revere, Detroit, Royal Oak, Saginaw, Center, Mt. Clemens, Milford, Valley City, Grand Rapids, Caseville, Utica, Ashlar, Detroit; Redford, Pontiac.

WINS BASKET BALL GAME

Saturday night the Pinckney Independents won from Whitmore Lake 55 to 43. The game was a free scoring affair neither side paying much attention to defense. Swarthout scored 22 points for Pinckney and W. Wall 17 for Whitmore.

Current Comment

At this Easter time the trial, crucifixion and rising of Christ is always discussed, commented upon and is the theme uppermost in our minds. The reasons it was brought about and it was allowed to be carried out are explained and dilated upon at length. The reason for his death was undoubtedly the hatred of the Jews. This body composed of 71 members had jurisdiction over all religious matters, civil and criminal cases but could not inflict the death penalty. Christ was regarded by the Jews in the same way a communist or anarchist is in the present day for he threatened the existing order. So the organization loosed a flood of propaganda against him and around the nub over whom they had great influence. At their instigation he was arrested and brought first before them and later before Pilate, the Roman governor. The case against Christ fell to pieces for the Sanhedrin could not prove that he had ever urged the people to violence. The Jewish organization refused to accept his acquittal and after fruitless argument Pilate yielded to them and ordered his death. Life was cheap in those days, there were no costly prisons and the death penalty was inflicted for nearly any crime at the pleasure of the judge. Of Pontius Pilate not much is known. He was the governor of Jerusalem by political appointment as this was a conquered Roman province. His duty undoubtedly was to maintain order and collect tribute for Rome. The Jews were a restless people, usually in revolt and the prey of every conquering nation. Pilate saw no reason why he should provoke a revolt and necessitate the sending of an army from Rome when he could maintain peace by giving up to the people a Jewish agitator. Of Pilate little further is known. He is said to have lost his governorship and committed suicide by leaping from the Alps. However this is not certain.

How quickly the horrors of the day are forgotten. Only a short time ago the Ohio flood was the chief topic of discussion and pictures of it filled the papers. Now this is forgotten and the Texas school tragedy is the high point of interest. This will also be speedily forgotten when another catastrophe crowds it from the front page. The interest of the people is aroused each time but not sufficiently to get them to take safeguards to prevent a repetition of such horrors.

Presence of unchaperoned women in fraternities and mens rooming houses and the use of intoxicating liquors in student's quarters while not expressly forbidden are "disapproved" by University of Michigan authorities. Dean Joseph Bursley announced last week. How time and moral standards change. It seems only a few short years ago that a co-ed was expelled from the Ypsi Normal College for smoking cigarettes after a long legal court battle in Washtenaw County.

Editor Bill Cansfield of Howell recently visited Detroit and interviewed a number of persons on the sit-down strikes. This he presented nicely in his paper last week in his editorials. The only criticism found with it is that the interviews are all with industrialists or their sympathizers. Now Bill should interview a number of union members so he can present their side of the argument. Of course those interviewed berate Gov. Murphy for not turning the guns of the militia on the strikers at Flint. The Chrysler strike seems to have also been settled by him in the same way as the Flint dispute. The papers last week carried pictures of John Lewis, union head, and Walter Chrysler shaking hands to bind the pact. Is not this solution better than open warfare between the unions and the industrialists.

No important issue ever comes up but that the papers which print public letter columns are filled with letters dealing on these subjects. In nearly all cases, the signature is merely "Taxpayer," "True American" or something of like order. We used to wonder why the writers were afraid to sign their names and usually the letters are well written. Then one day while coming from Detroit on a train some years ago we got into conversation with a man we happened to sit with. He told us he was employed on a Detroit paper in fact was editor of the "Voice of the People" page. Also he wrote and answered most of the letters published there himself. Such a page is undoubtedly a powerful propaganda weapon.

Has the supreme court seen the light and turned New Deal? The recent decisions handed down would seem to point that way. Never before has that body so completely reversed itself by declaring constitutional laws it had previously declared unconstitutional. Where is that great weight of public opinion which was behind the "9 old men" to the last ditch and would back them to the bitter end. Can it be that the newspapers and periodicals, controlled in most cases by the men of wealth, opposed the propaganda campaign which they did not want?

IMPROVING MICHIGAN ROADSIDES

VI. AN AID TO THE FUTURE

Every state which undertakes a roadside improvement program is soon confronted by the fact that lack of roadside control can and usually does destroy 80 per cent of the beauty attained by design, preservation and planting.

The solution of the problem need work hardship on no one. It is not conceivable that any commercial interest in Michigan nor any interest for that matter should wish to want to destroy or mar. Naturally no business wants to be encroached upon in a detrimental manner.

Zoning is the answer, the creation of scenic zone highways and scenic zones within commercial routes. Such a system will leave ample centers for advertising purposes where advertising will be most effective and it will afford stretches where people can drive and escape from those things they seek to escape and find relaxation. But zoning cannot be accomplished without legislation and legislation is not possible without a fair approach to the problem. Understanding and consideration therefore becomes of paramount necessity.

Legislation Imperative

Roadside control legislation is imperative in Michigan as elsewhere. Otherwise complete or near complete obliteration of the states birthright will be accomplished at least so far as the roadsides are concerned and these roadsides are the first step in selling the state and making it a more enjoyable place in which to live.

Cities zone and it is not a far removed step to feel that rural highways can be zoned with fairness and without stepping on the figurative province of business.

Then legislation must provide ample time to make necessary changes without working hardships. Legislation must also invest authority to enforce the law in the proper state department and certainly the highway department is where the enforcement belongs because it is obvious that group is already familiar with the problem, is close to it all

the time and can administer with the most efficiency and understanding of the viewpoint of all concerned.

Then financing must be provided to keep in operation a permanent, year round organization in the field. This brings into necessity fees which must be small so as not to work hardships and licenses in order to keep the spread of roadside advertising within proper bounds.

Billboard and other sign advertising within cities should not enter into legislation, the subject being confined to rural highways outside cities.

Commission Necessary

An advisory commission keeping informed on the subject, requiring reports and continuously studying conditions, retaining interest and seeing that the law is enforced is necessary. This advisory commission should be impartial, unbiased and composed of outstanding citizens and taxpayers of the state.

Ample time should be allotted in which to make the necessary changes and advertising must be kept within discreet distances of the right-of-way, highway and highway and rail intersections and dangerous curves.

Authority to remove unused and abandoned signs of which there are countless numbers must be provided. As matters now stand anyone can place a sign and proceed to forget it forever, leaving an eye sore to remain indefinitely.

Penalties for non-conformance are a most important part of needed legislation. There will have to be some necessary exemptions which would be within the province of the advisory commission. And income from license fees will have to be appropriated for use of the department exclusively. In such manner and only in this way can Michigan proceed to the necessary cleaning up of roadsides.

EDITORS NOTE: This is the concluding installment of a series of articles prepared by the Federated Garden Clubs of Michigan.

WILL REPRESENT LIVINGSTON COUNTY

John S. Page, Supt. of Howell will represent teachers of the Livingston County District of the Michigan Education Association at the annual meeting of the Association's delegates in Lansing, April 9 and 10. The meeting is known as the Representative Association's 82,000 members. It will be attended by one hundred and sixty-eight spring delegates from the

Association's one hundred districts and by twenty-nine ex officio delegates. The Assembly will elect M. E. A. state officers and adopt a program of work for the coming year as well as act upon important matters in this year's program. Among the chief items for immediate consideration are the M. E. A.'s appeal for more adequate state aid for schools, for a revision of the present teachers retirement fund law, and for a state tenure law to protect teachers from unjust dismissal.

Here* are

actual figures:

Electric Cooking is not expensive!

*These latest figures on the cost of operating an electric range show an average of about ONE-HALF A CENT a meal a person. Actual meter tests were made in homes using electric ranges. The cost figure is obtained under everyday working conditions in ordinary kitchens... the ranges are used by women cooking meals daily for families of three, four and five people, or larger. In the survey, 5 well-known makes and 9 different models of electric ranges were included. These tests prove conclusively that electric cooking is not expensive. 10,000 of your neighbors chose electric cooking during the year 1936. SEE THE NEW ELECTRIC RANGES ON DISPLAY AT DEPARTMENT STORES, ELECTRICAL DEALERS, AND THE DETROIT EDISON COMPANY.

MONEY MAKERS

EVERY one is not a money maker. And strange to say that very few of those who are only money makers ever accumulate a fortune. "Easy come—easy go" is one of those world-old proverbs that epitomize BUT EVERY one can accumulate money. It requires no genius. It does take time. It does mean self-denial, it always, ever means that the outgo must be less than the income, with the difference left in the bank.

said day of election.

Lulu Darrow,
Township Clerk

Keep your head and your temper.
The driver who is easily upset by
small things or who allows himself to
become distracted so that he cannot
give proper attention to driving is not
safe behind the wheel of a car.

It is true that "hurry" results
in many accidents. But it is also true
that "worrying" is responsible for
many mishaps on the road. It is just
about as bad to take your mind off
your driving as it is to take your
hand off the steering wheel.

If you have a load on your mind,
get rid of it somehow before you get
into the driver's seat. Driving down-

days, especially city driving, demands
constant alertness. You cannot be a
part-time safe driver.

QUICK AUTO RECORD CHECK NOW OFFERED

In order to cooperate fully with all
police officers seeking hit and run
drivers, bandits, kidnappers, or crim-
inals of any kind, Leon D. Case, Sec-
retary of State, has instituted 24
hour service during which records of
this department will be available.

Complete state files of all license
numbers, operator's licenses, motor
and serial numbers, reports of cars
stolen or abandoned, will be available
to police officials and others con-
cerned, at any hour of the day or
night, as the result of the extended
service. All police officials, including
sheriff's offices, state police and all
peace officers, will have ready an
immediate emergency access to these
records, by telephone from any part
of the state.

Two years ago this service was
available, at the request of the Mich-
igan State Police, until 1 o'clock
each morning. Results have been so
satisfactory and worthwhile, that the
complete "around the clock" service
has been decided upon by Case.

MEALTIME TONIC GOOD SPRING DIET

A new hat may appear to be spring
tonic for a woman, but for the whole
family the advice of the nutritionist
is to get your pep and vim through
tomatoes, citrus fruit or raw salads.

The simplest of arithmetic will
help the homemaker to balance each
day's meals with exactness. The vita-
min C which should be kept away
from heat except in the faithful to-
mato, is found in most raw foods and
is very plentiful in all citrus fruits.
Since all foods do not contain the
same amount the problem of arith-
metic comes in handy.

One-half cup of orange juice
equals one cup of tomato juice, in
quantity of vitamin C it supplies.
Three or four large servings of raw
cabbage supply the amount of this
important vitamin.

Balance each day's meals by in-
cluding some raw foods as salad for
dinner, orange or grapefruit for
breakfast and tomatoes in some form
for the third meal is the advice of
Roberta Hershey, extension nutri-
tionist at Michigan State College.

Some tasty raw salad combinations
suggested by Miss Hershey include
raw carrot strips; the flowerets of
cauliflower may be thinly sliced if
liked; grated raw carrots; raw spin-
ach as the green under the salad;
celery curls on sticks; apple cubes or
sliced alone with other fruit such as
grapefruit or oranges.

Mystery of the killer of Kingsbury

fect murders, a true detective mys-
tery story in THE AMERICAN
WEEKLY, the magazine distributed

the Democrat county committee in
Howell Saturday night.

CONSERVATION NOTES

The state wide photographic con-
test for high school boys and girls,
sponsored by this department closes
on April 1. Between 8,000 and 10,000
photos have been received. Four win-
ners will be picked on May 1.

140 conservation violators were
arrested during the month of Febru-
ary. 91 for illegal fishing and 31 for
illegal hunting. 139 were convicted.

On April 16, the state of Michigan
will sell at auction oil and gas leases
on 12,000 acres of land. This land
is in St. Clair, Arenac, Gladwin, Mis-
saukee, Midland, Isabella and Che-
boygan counties.

The estimate of the legal kill of
deer in this state last year is set at
51,000. In 1935 it was 37,000.

18 moose have been live-trapped
in 1936. Royal this winter.

The largest lamprey in Michigan
waters was recently taken from a 10
lb. trout off St. Joseph. This fish by
its disc like mouth sucks their blood.
Fishermen are asked to destroy all
such fish.

Hourly rates for the 1400 men who
fight forest fires have been increased
to 35c per hour. The old rate was 25c
per hour.

The conservation department has
received a gift of 2,341 acres of land
at the mouth of the Tahquamenon
river in Chippewa county from a per-
son who wishes his name withheld.

The largest single land purchase
made by the state from the 1936
deer licenses consists of 30,640 acres
in the Escanaba river district. It will
be used for deer yarding and hunt-
ing.

The state fish hatchery for wall-
eyed pike opens in Saginaw Bay and
Lake Huron on April 11. Last year
205,000,000 wall-eyed pike fry were
planted.

Netting of pike-perch or wall-eyed
pike may be resumed on April 11, in
Lake Huron. In other waters it is
forbidden until May 1.

Beaver to date have successfully
resisted all attempts by fur farmers
to breed them for large-scale produc-

IMPROVING MICHIGAN ROADSIDES

V. QUEER CONDITIONS

Abandoned, ram shackle buildings; matted gravel pits; automobile graveyards, various dumps; and an endless array of all sorts of roadside advertising in every sort of color and shape are some of the things which greet the traveler in Michigan and give peculiar impressions. The state created the highway and had no control over the scars that mar its pathway through as scenic a country as can be found. It is an incongruous situation yet exists because no one has devoted sufficient effort to date to correct the condition.

Florida endured the "tombstones" of its real estate boom until the Junior Chamber of Commerce finally took it upon itself, several years afterwards, to remove the decrepit buildings during a statewide campaign.

Of all factors marring Michigan roadsides practically all of them can be corrected by local effort excepting roadside advertising and that being so broad and general in nature can only be brought to improvement by authority of the state. The idea is not to abolish roadside advertising. But regulating roadside advertising, which is increasing by leaps and bounds becomes more of an evident daily necessity.

Michigan Lacks Regulation

It is not only the fact that property values are affected and scenery barred from view but these thousands of signs are attention detractors, are a menace to safe driving if allowed to continue without any regulation whatsoever.

Michigan has no state regulation of signboards except one law which forbids advertising signs "within 500 feet from any highway intersection or railway crossing." This law has been applied in a limited manner only. In the meantime we wait for a better law. It is not fair to keep tourists guessing what is back of roadside advertising boards. We should show them how really beautiful Michigan is.

Yet Michigan can control the public utilities and has strict control in the matter of placing poles. The poles are granted a place on the right of way within five feet of the property line if this can be done without sacrifice to the trees. If not the poles go back on private property. The company must secure a permit for the line and for all tree trimming and cutting. A separate permit is required for each tree to be cut. Skilled men must then be used for the work.

It is inconceivable that Michigan does not find a way to protect the beauty which the state is both saving and creating. The beautiful Dunes highway was scarcely open before it had 11 filling stations, seven food stands, and 25 signs on its 22 miles. The beautiful highway from Saginaw to Bay City which the state highway department by landscaping and planting is making a river parkway already is broken up with advertising signs.

Future Unfavorable

Ten years from now not much of the present beauty of these roads will remain if misuse continues at the present rapid rate.

Queer happenings, spending several hundred thousand dollars a year of motorist money to provide the things they paid for with pennies from gasoline taxes and motor license fees and then permitting much of that acquired to be immediately discounted at heavy rates. This is a task for the people.

When the people demand roadside control, it can be had. And fortunately for Michigan she has the most compelling argument of all to use in the fight for necessary legislation, the argument of dollars and cents. In Michigan it can be proven to the most materialistic mind that beauty pays.

In the concluding chapter will be found a fair solution.

EDITORS NOTE: This is the fifth installment of a series of articles prepared by the Federated Garden Clubs of Michigan.

AUDITOR GENERAL DISPERSES OIL AND GAS SEVERANCE TAX REFUNDS

Distribution of the oil and gas severance tax refunds to the county and township treasurers of the state was made today by Auditor General George T. Gundry. The returns being made at this time are from the tax on the last half of 1936 production. Portor Township in Midland County received the greatest share, the treasurer of that county receiving a check for \$22,312.56; the treasurer of Midland County received the largest county check, its return amounting to \$17,659.43. Mr. Gundry explained that the tax is distributed on a 40-40-20 basis in which the state receives 40 per cent, the township 40 per cent and the county 20 per cent of the total tax collected on the products taken from each county and township. The Auditor General disclosed that fourteen counties in the state received a total of \$30,930.91 and that forty-five townships and cities received a total of \$61,862.23. Mr. Gundry said that he believed this to be one of the largest distributions of severance tax money ever made in the state as the tax amounts to only 2 per cent of the total value of the products taken.

AUDITOR GENERAL GUNDY CRACKS DOWN ON TREASURERS

In a statement issued today, Auditor General George T. Gundry pledged his complete cooperation to the county treasurers of the state to protect tax delinquent lands from trespass. Commenting on the fact that wood, sand and gravel are being taken from lands on which the taxes are delinquent. Mr. Gundry said, "Under no circumstances should trespass in the form of cutting and removing of forest products be permitted on lands on which only installments of taxes have been paid. Even though all installments have been paid as they have become due, cutting and removing of wood or the removal of sand and gravel still constitutes trespass." The Auditor General emphasized the fact that his department holds joint responsibility with the county treasurers in the protection of delinquent property. Mr. Gundry quoted Section 9 of Act 126 of the Public Acts of 1933 as follows: "Any person cutting or removing timber from any such lands without written consent from the auditor general and county treasurer shall be guilty of the felony and shall be punished by imprisonment or by a fine in the discretion of the court."

"Go forward"

THE divine command voiced by the prophet Moses when the children of Israel were halted by the seemingly impassable waters of the Red Sea, on their way out of the land of bondage, still has power to compel obedience and to put to flight doubt, hesitation, and indecision. The command was, "Speak unto the children of Israel, that they go forward." To go backward meant slavery and subjugation to hard taskmasters; to go forward demanded courage and faith in a power unknown to the material senses. Speaking of Moses as a leader, Mary Baker Eddy writes (Science and Health with Key to the Scriptures, p. 208), "Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by immortal Mind."

Along the journey of individual spiritual progress, the encouraging command to go forward can still be heard by those who may be trembling in the valley of decision. To speak from the presence of MOUNTAIN GODS

The attendants of these roadside units who qualify as first aiders volunteer their services through the Red Cross and may under no circumstances accept pay for caring for the injured.

To complement the highway first aid stations, the Red Cross has announced formation of mobile units. Several thousand trucks which regularly ply the highway in the course of routine work will be equipped with first aid kits. Drivers and crews will take courses in both standard and advanced first aid, and each truck will be identified as a Red Cross mobile unit. More than a hundred trucks are already operating. "The highway police of eight states who have finished first aid training will join this army mobilized to cut accident fatalities and prevent complication of minor injuries through mishandling at the scene of accident," Mr. Fleiser said.

"We receive reports from our first aid stations daily, telling of essential care given to traffic casualties on the spot and of lives actually saved."

This and many other Red Cross programs of equal value are supported by the people of America during the annual Roll Call for members. This year the Roll Call will be held from November 11 to 26.

WASHINGTON NEWSLETTER

by Congressman Andrew J. Transue Sixth District, Michigan.

More Appropriations

In the short session week that preceded March Congress continued general consideration of appropriations while House and Senate committees resumed hearings that will influence future legislation. A drive to force action on anti-lynching laws was attracting additional supporters and another Congressional group was considering Government ownership of the twelve Federal Reserve Banks when Congress adjourned for the week on Thursday afternoon.

The House of Representatives approved an appropriation of \$120,000,000 for the Departments of State, Justice, Labor and Commerce. The appropriation was \$500,000 more than the recommendation of the Appropriations Committee. The largest item in the increase was \$500,000 for canal work on the Rio Grande river. The Committee had eliminated this project pending further proof of its necessity. The total appropriation is almost \$4,500,000 more than the current budget. While the State and Justice Departments took budget cuts the Departments of Labor and Commerce were given more money for the ensuing year. The Labor Department needed \$1,805,000 to enable the Children's Bureau to pay state grants under the Social Security Law. The Commerce Department required an extra \$2,328,000 to construct air safety devices. The departmental allowance under the bill that was sent to the Senate include, State, \$18,000,000; Justice, \$39,500,000; Commerce, \$40,500,000; Labor, \$23,750,000.

In the Senate the Navy appropriation was approved and sent to conference. The Senate appropriation is \$3,707,000 less than the House allotment. Differences in the two appropriations will be ironed out in a joint conference of the Senate and House.

Chief Justice Objects

The Senate Judiciary Committee hearing on the judicial reform plan of President Roosevelt held first place in public interest among Committee hearings. During the week Senator Wheeler of Montana, first of the plan opponents to testify before the Committee, read a letter from Chief Justice Hughes. The Chief Justice indicated that he did not favor the President's plan that would increase the Court membership.

Success Near

Approximately 200 Representatives, including your Congressman, have signed a petition to force a vote on anti-lynching legislation. The petition, which needs 218 names to be effective, would discharge the Judiciary Committee from further consideration of the Gavan bill, one of 59 anti-lynching bills introduced in this session of Congress. The Judiciary Committee plans hearings this week on the anti-lynching bills, most of which are identical. An anti-lynching bill introduced in the House in April 1921 was approved by a vote of 236 to 119 in January 1922, but died in the Senate in November 1922 after two days debate without a final vote.

Federal Reserve Ownership

A steering Committee will be selected this week by 51 Representatives, including your Congressman and the Hon. John Luecke of Escanaba, Michigan, who have indicated tentative approval of legislation to provide Government ownership of the dozen Federal Reserve Banks. The entire group will be listed as co-authors of the bill.

FHA Expires

Lacking Committee approval of any of the extension bills introduced in Congress the Federal Housing Act that enabled the Government to insure bank loans for house repairs and home renovation, expires on April 1. A slum clearance bill is scheduled for a hearing in the Senate Committee on Education and Labor this week. The bill provides \$1,000,000,000 for Government loans to local subdivisions over a four year period with the Government getting back about 45 percent of its investment. The bill provides a U. S. Housing Authority to supervise six existing Federal agencies.

Frozen Cherry Blossoms

To protect the famed Cherry Blossoms from freezing hundreds of smudge pots were used in Potomac Park last week. Encouraged by the calendar arrival of spring the Cherry Blossoms began to bloom. When the temperature dropped below freezing Washington had to use smudge pots for the first time to save its outstanding seasonal and natural attraction. The smudge pots are 50 gallon drums open at the top with holes punched in the bottom for draft. Green wood is burned to provide a heavy smoke

Here is a tested recipe for PEACH ICE: Boil ¾ cup of sugar and 1 cup of water 5 minutes. Cool to room temperature and add ½ cup of corn syrup and ¼ cup of lemon juice. Force 2 cups canned (not drained) peaches through a sieve and add to syrup mixture. Pour into still ice cream freezer and cover. Fill ice chamber with a mixture of chipped ice and salt (3 parts ice to 1 part salt by volume). Cover freezer and place in ice refrigerator. Freeze about one hour, stirring at 15 minute intervals. Serves 6 to 8.

Try this way of boxing fudge so that it does not crumble or get stale before reaching the recipient. Simply pour the fudge while warm into a tin pan lined with several thicknesses of wax paper. Leave sufficient paper to cover the top, wrap and seal in the pan. When opened the candy can be lifted out of the box by lifting the paper.

To arrange a bouquet attractively in a low wide dish, take a piece of paraffin large enough to fit the bottom of the dish and soften it by heating just enough so it can be molded to fit. While still warm, press it into the dish and with a toothpick make holes for the flower stems.

Bird cages are among the most difficult things to clean, particularly the perches and swings. But they can be made smooth and shining in just a jiffy by scraping them with steel wool—no mess, no trouble, no time wasted.

Cream soups are easily and economically made by putting left-over vegetables through a strainer and then adding milk and butter. When the left-over vegetables are kept in a modern air-conditioned ice refrigerator one need have no fear that they will dry out before they are used.

To store cornmeal mush so that it is easy to slice for frying, take a No. 1 can from which the top has been removed—smoothly, and pour the hot mush into it to cool. Then when the mush is to be fried, it can be slipped out of the can into a smooth, round cylinder and sliced into firm patties.

Here's a recipe for an excellent JIFFY CAKE MIX: Cream ¼ cup shortening, add 1½ cups of sugar slowly and beat well. Mix and sift together 3 cups of cake flour, 1½ teaspoon of salt, and 1 tablespoon of baking powder; blend into the creamed mixture. Then place the mix in a modern air-conditioned ice refrigerator and it will be ready for immediate use when wanted. The moist, clean-washed air of the modern ice refrigerator will protect the mix against drying out and against absorbing the odors of other foods. On removing from the refrigerator, break up the mixture with a fork. Separate 3 eggs, and beat yolks until light and lemon colored. Combine with 1 cup of milk and 1 teaspoon of vanilla extract and add to the cake mix. Blend thoroughly; beat egg whites until stiff and fold into mixture. Then pour into 2 well-greased layer cake pans. Bake in moderate oven (375°) for about 30 minutes.

CURRENT COMMENT

We see that Auditor General Gundry has made the front page by getting pinched for speeding. It's funny how such an incident is regarded as front page news. Brighton got considerable notoriety some years ago and was branded as a speed trap. Among those arrested for traffic violations were Ex-Governor Wilbur Brucker and Gov. Green's chauffeur. Gov. Green was extremely wroth and had Justice Collett, who fined his driver, removed from office although the people of Brighton re-elected him again. Webberville also got in wrong with the administration last year by arresting some of Gov. Fitzgerald's official family for traffic violations.

The Golden Rule

THE Golden Rule, so often quoted as a guide to right conduct, is stated in Matthew's account of Jesus' Sermon on the Mount in these words (7:12): "Therefore all things whatsoever ye would that men should do to you, do ye even so to them: for this is the law and the prophets." Jesus' reference to "the law and the prophets" shows clearly that he recognized the origin of this rule as a part of the Mosaic law and the teachings of the prophets.

In the twenty-second chapter of Matthew's Gospel is given the account of a lawyer who tried to entrap Jesus with the question, "Master, which is the great commandment in the law?" Quoting from the ancient writings with which he was so familiar, Jesus said, "Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind." Following this with the declaration: "This is the first and great commandment. And the second is like unto it, Thou shalt love thy neighbor as thyself."

Mary Baker Eddy, the Discoverer and Founder of Christian Science, frequently refers to the Golden Rule, and sums up the right attitude in these words from "Science and Health with Key to the Scriptures" (p. 818): "The rich in spirit help the poor in one grand brotherhood, all having the same Principle, or Father; and blessed is that man who seeketh his brother's need and supplieth it seeking his own in another's good."

Not always does it seem easy to obey the Golden Rule, for mortal mind may argue that it is useless for one to go out of his way to serve his neighbor. Yielding to selfishness, or the false sense of self, one may argue thus: "I have not the time to do this or that for my neighbor, or, 'I cannot afford to do it,' or, 'It is none of my business, anyway.' Whatever the false argument put forth, it should be met by a prompt denial, knowing that one can do whatsoever love leads one to do for others.

"But I have no opportunities to serve my neighbor," says one whose environment seems cramped and limited. Let such a one look about him with a seeing eye and he will find many helpful things he can do. Beginning early in the day he can give a cheerful greeting to those who pre-

pare the morning meal; and a kindly word of encouragement to members of the family before he leaves in the morning will help wonderfully to make their days brighter. It is perhaps a small thing, but it is a thing that every man should do. Then again, a little assistance may show a new employee how to do his work more easily and skillfully. And so on throughout the day there will be found many opportunities to serve his neighbor.

The happy results of applying the Golden Rule in everyday affairs is illustrated in the following incident recently related to the writer. Circumstances had made it impossible for a family to keep up their payment for the purchase of a small dwelling. It was therefore arranged that they should remain in the place for a time, with the understanding that they were to cause no extra legal expenses when the time came to vacate the property. The family were to leave the place in mid-summer; so it seemed almost useless for them to put in a garden, or to plant flowers and shrubs. . . . Discussing the matter among themselves, they reached the decision not only to put in a garden, but to plant flowers and shrubs to make the place as attractive and beautiful as they could, thus helping the owner to dispose of the property. Much real joy was expressed by the members of the family in the beauty and order which prevailed as a result of their decision.

PHROPHECY

A certain "on the fence" Senator (there are about 35) recently returned home to discuss FDR's supreme court program. He was inclined to oppose it, but decided that he would abide by sentiment as expressed at the "vox populi" meeting he was scheduled to address.

He had expected to speak before 2,000 people (a packed hall), but only 200 appeared. He quickly acquiesced, through his political advisers, that 90 percent of those on hand to applaud had voted against him (and for Alf Landon) in the 1936 campaign.

The statesman, who privately detests FDR's solution of the judicial stalemate, will string along with the President when the roll is called. That's how the most important governmental reform since the adoption of the bill of rights will be decided. Which means, note the Georgia referendum, that the President will win easily. —Lansing State Journal.

APRIL FOOLS DAY

When April 1st rolls around, we think little of being fooled. Rather we concentrate on fooling someone else. We rarely associate the usual practical joking of April Fools Day to business, but it has a place.

Most of us have a desire to build up an estate large enough to handle our needs when we can no longer be as active as we are at present. We are inclined to put off the day when we will start such a program. In the course of years of experience we have seen procrastination in this matter spoil many peoples chances to provide for the future.
