Safer DrivingAuto Manufacturers Start Campaign
To Eliminate Glaring Headlights

To minimize headlight glare in the eyes of 40,000,000 drivers and all pedestrians, the Auto Manufacturers Association announced here today that its member companies are undertaking a comprehensive program to encourage proper use and maintenance of headlights. This new program will supplement the extensive activities in the general field of highway safety which the industry is supporting through the Automotive Safety Foundation.

In announcing the program, Alvin Macauley, President of the Association and of the Packard Motor Car Co. revealed that the automobile companies are mobilizing the support and collaboration of the industry's thousands of dealers and service stations.

Commenting on the program, Mr. Macauley said: The high incidence of highway accidents at night is a source of grave concern to the auto manufacturer as to everyone interested in making motoring safer. While other reasons account for the night record, such as fatigue and alcoholism, lighting plainly is also important.

BURLINGTON-MARTIN

The marriage of Miss Hazel Burlington of Tarrytown, New York to Virgil Martin, son of James Martin of Pinckney is announced. It took place at Tarrytown on Sept. 4. The couple are now at Daytona Beach, Florida, on their wedding trip. Congratulations.

SOYBEAN ACERAGE

IS INCREASING

The soybean crop which has been increasing every year now is on a level with rye. Rye production this year is estimated at 52,000,000 bushels and many believe the soybean crop may exceed it. On account of its great demand by industry, especially the auto business, soybeans bring a good price.

WINE PROMOTION

Miss Josephine Culhane, principal of the Martin school, Flint, has been appointed supervisor of all kindergarten and primary grades of the Flint public schools. Miss Culhane is a former Pinckney resident and is a graduate of Pinckney high school.

JEFFREYS' REUNION

The descendants of the late John and Eliza Smith Jeffreys met at the home of Mr. and Mrs. Wm. Jeffreys the old Jeffreys homestead on Sunday Sept. 12 for a family reunion. The entire family were present with the exception of Mr. and Mrs. Steve Jeffreys and daughter of Detroit. Those present were, Mr. and Mrs. Ray Chandler, Miss Lucy Jeffreys, Mr. and Mrs. Ed. Peterson, Mr. and Mrs. Gene Chandler and daughter and Mr. Matt Chandler all of Kalamazoo, Mr. and Mrs. Matt Jeffreys and son Wm. of Lansing, Mr. and Mrs. Wm. Jeffreys and three sons. A pot-luck dinner was served at noon.

CONGREGATIONAL PICNIC

The annual Sunday School Picnic will be held on Friday of this week September 17th in the little grove on the west end of R. K. Elliott's farm. Turn in just west of Elliott's house and drive back to the grove. Everybody who has attended the Congregational Sunday School or who expects to is cordially invited. Meet at the church at 4:00 p. m. sharp. There will be ball games, wicker roasts, prize hunts, camp fires and various other games of interest to boys and girls. Each one bring a nickel if you can. Those who have no way to go, come to the church and transportation will be provided both ways. Everybody who likes to go to Sunday School is invited adults as well as children. This is our Fall Outing.

King's Daughters
Junior Circle MeetsJunior Circle Meets at Brighton Ten
from Pinckney Attend

The annual Fall Rally of Livingston County Kings Daughters was held Saturday Sept. 11, at the Ben Hur Club House, Brighton. About 75 were in attendance from Howell, Lakeland, Pinckney, Chilson and Brighton.

Under the direction of the County Junior Leader, Mrs. Cyril Sutton of Brighton, the Junior Pres., Miss Ruth Lennen of Howell presided over the business session.

Mrs. Geraldine Notley of Ann Arbor presented the school work of the children in the U. of M. Hospital. She explained the good the Kings Daughters have done in establishing this school which enables the child to graduate with his own class even though he has been confined to the hospital for weeks or months.

"A Day at Camp" was presented by Mrs. Mary Lou Chanter of Howell with the aid of six girls who attended Camp Missaukee this summer. Mrs. Chanter taught the girls some very clever songs learned at camp.

An invitation to hold the May convention at Brighton was accepted. The circles were asked by their leaders, Mrs. Sutton, to remember December 29, Mrs. Bottomes birthday with a membership drive and special program.

Each circle was asked to contribute 50c for a special gift for hospitals at the Oct. Senior convention at Jackson each circle was asked to display their work as they have done in the previous years.

Three girls were then given an initiation service by Mrs. Paul Kingsley Past Pres of Livingston Co. with the meeting being closed with a prayer by the leader.

A Treasure Hunt was enjoyed and games were played with prizes for all. Light refreshments were served and all returned home with new visions of what the Kings Daughters really means.

Out of town guests were, Mrs. J. Marr, Howell, Mrs. H. B. Godfrey, Ann Arbor, Mrs. E. W. Stabler, Ann Arbor and Mrs. Ford Lamb, Pinckney. Ten attended from Pinckney.

MICHAEL C. RUEN

Dr. Michael C. Ruen, son of the Michael and Elizabeth Murphy Ruen, Pinckney, died at Detroit on Sept. 9. He leaves three children, Jean, Tom and Barbara. His wife, Laura Dolan Ruen, passing away several years ago. The funeral was held Monday from St. Annunciation Church with burial in Holy Sepulcher cemetery.

The deceased was well known here where he spent the early part of his life. During the pastorate of Rev. Fr. Commerford at St. Mary's church he was prominent in affairs there, especially in the Columbian Dramatic Club an organization sponsored by Rev. Commerford which put on several plays each winter. Mr. Ruen usually took the part of leading man. For about 30 years since his graduation from the University of Michigan he has practiced dentistry in Detroit.

Tax Payments Reach
\$18,000,000 MarkDelinquent Tax Advertising Campaign
Brings Big Results

Reviewing the results of the "pay your taxes" campaign just completed by county and state officials, Auditor General George T. Gundry estimated today the payment of delinquent taxes in the state during the last few days of August amounted to more than \$15,000,000.00. As a result of payment either in full or on the moratorium payment plan approximately 500,000 parcels will be removed from the tax sale list, Mr. Gundry said.

Crediting the recent advertising campaign authorized by the administrative board with much of the success in collections, The Auditor General stated that payments this year were nearly 50 per cent greater than those of the corresponding period of last year.

Due to the avalanche of descriptions paid to county treasurers they will be unable to make their returns to the state in time to prevent posting on the tax sale rolls, Gundry said. He pointed out, however, at even though the original estimate of 1,500,000 descriptions are advertised for sale those that have been paid will be withheld from sale by the county treasurers.

GRANT CASS

Grant Cass 88 died Saturday morning after an illness of several months. He was born in Frontier, Mich. on the 4th of November, 1898 but had lived in this vicinity and at Anderson for the past seven or eight years. He was employed by Roy Placeway as milk truck driver.

Surviving are his widow, a son, Grant Jr., daughter, Joan, his father, Jesse Cass and his mother, Mrs. Roy Placeway, all of Pinckney two sisters, Mrs. Mildred Curtis of Jackson and Mrs. Everetta Baldwin of Belfair, Washington.

The funeral was held from the home Monday with Rev. Cruthers of the Gregory Baptist church officiating. Burial was at Frontier.

1,000 FILE CLAIMS
TO OLD-AGE BENEFITS

The Detroit regional office of the Federal Social Security Board has received approximately 1,000 old-age pension claims to date, and up to August 28, payment of 283 claims had been certified to the treasury Department, it was revealed.

The amounts claimed range from \$20 to \$105.

Practically all of the claims are death-benefit claims, virtually the only phase of the compulsory insurance financed by payroll taxes to be yet operative.

Monthly pensions for persons more than 65 years old will not become available until Jan. 1, 1937, after the individual has contributed for five years.

Upon death, however, settlement becomes due on the basis of 3 1/2 percent of the wages earned up to up to \$3,000 annually. The maximum payment that can be made this year, therefore, is \$105, but next year, the amount will be doubled.

Philathea Notes

The class was pleasantly entertained on last Wednesday at the home of Mrs. Hattie Swarthout for the Sept. meeting. Mrs. Nellie Elliott presided, the meeting being opened by singing, followed by Devotionals by the chaplain. Routine business followed, including Roll call using the letter E.

Mrs. Zuse was the honor contestant in the first interesting contest featuring a paper doll and several fabrics, and a list of Bible Questions.

These included a number from Rev. Zuse's radio hour, tested our knowledge of the Book of books.

A further most enjoyable feature of the afternoon program was a group of readings by Mrs. Zuse.

The usual pot-luck luncheon was a closing pleasure of another Philathea social and business meeting.

The Sunday assembling of the class is also a time of much profit, and with the coming of autumn month we hope for a good attendance. The next Sunday's topic is particularly a thought-provoking, "Chances and Consequences in a Nations' Life." A Golden Text, "Choose ye this day whom ye will serve." Study the 11th chapter of Deut., especially verses 8 to 12 and 26-32.

MAY BE OPERATED

It reported that one of the big oil companies has been looking over the partially completed Michigamme oil station on Main street with a view to operating it. Two of their representatives were here Thursday. The Michigamme Company has been tied up in court by legal difficulties for several years and never completed the station.

The Dionne Quints
and Their DadA Visitor to the Home at Callendar,
Ontario, Gives Interesting Details

The Dionne Quints of Callendar, Ontario have probably received more publicity in the last few years than any other group of persons. Much of it is bunk or imagination. Writers loved to dwell on the rude way their parents were treated, deprived of all control of the quintts, only allowed to see them through a glass window, obliged to live in comparative poverty while the quintts rolled in luxury etc. Undoubtedly many of the articles that the public swallowed so eagerly was inspired by racketeers who wished to exploit the quintts by exhibiting them on the stage or in the movies.

Roger Allen of the Grand Rapids Chronicle recently wrote the following on the famous quintts which is very illuminating in contrast to the usual line of bunk dished out.

Oliver Dionne, father of the quintts is doing pretty well for himself financially, you will be glad to hear. George VerWeys of the city clerk's office visited Callendar on his vacation and he says that Father Dionne's souvenir business is booming. It seems Mr. D. has a large establishment, looking much like a five and ten cent store, and conducted on the same business-like principles. There must be 30 or 35 employees working their selling tourists' fetters of the quintts, dolls pressed like the quintts, silver spoons bearing emblems of the quintts, and every other known variety of souvenirs.

Mr. Dionne himself occupies, in lonely grandeur, an apartment at the end of the store partitioned off with a velvet curtain. Before visitors are permitted to pass through the curtains and gaze upon the Five Star Daddy, each visitor is required to deposit 10 cents with the lady attendant. For the 10 cents Mr. Dionne presents the visitor with his autograph. He has become a very snappy dresser, George says, leaning to hunch-back suits and polka dot ties, and altogether his appearance is quite collegiate. His neck is, just as long however.

The day George was there, there were at least 100 women lined up to get up a line apiece and gaze on North America's No. 1 daddy. Some of the ladies seemed to be in a high state of excitement at the prospect of meeting the remarkable Mr. D. The remarkable Mr. D. wastes very little time on each customer it seems. As soon as he has given her his autograph he intimates that business is very rushing and will the lady move along? Most of the ladies start in confiding to Mr. D. that they have one child, or two children, or what ever number they possess, and they wish some advice about how to bring them up. How to bring them up to be the parents of quintuplets, no doubt. Mr. D. will then remark that if they wish to ask any questions they will have to go out and get in line again and pay another dime.

Mr. D. obviously has become all smarted up and no doubt will amass a million dollars in no time at all now. So all those people who have been weeping over his plight can dry up their tears. The pebble concession alone is making him wealthy. It seems there is a belief that if a woman visits Callendar and carries away with her a pebble from the Dionne farm she is sure to receive what Walter Winchell refers to as a "bundle from heaven" shortly thereafter. (Well not too shortly) Consequently there is a very brisk trade in buying pebbles that Mr. Dionnes have carefully collected off the farm.

George counted the quintuplets. There are five of them. Who said you couldn't believe anything read in the news papers.

GO TO CLEVELAND BY AIR

Last week Wednesday, Ruel Cadwell, his mother, Mrs. Elvira Cadwell, Bailey, his mother-in-law, Mrs. Lottie Houser, and Mrs. Davis of North Dakota, made a trip by airplane to Cleveland. They report an enjoyable trip.

Current
Comment

Rev. Fr. Coughlin seems to have a change of heart. According to the press in a speech made in England he congratulated that country on wading on its debt to U. S. In his broadcasts of a few years ago he was strong on rendering to Caesar that which was Caesar's and wanted this country to collect its war debts to the last penny.

The different communities and villages are having a great time over whether they shall allow hard liquor to be sold by the glass or not. The legislature set Sept. 19 as the deadline in which cities and townships may give permits for sale by the glass. After that it must be voted upon. In Flint the city commission defeated the sale by the glass by a 5 to 4 vote. In Alma a straw vote showed 362 against and only 92 for it. We doubt that the sentiment here favors the sale by the glass. Many people, and they could not be classed as prohibitionists, have told us that they are opposed to it.

The old days of 1916-17-18 when war brides were the vogue was recalled last week Wednesday when the price of wheat jumped 5c per bushel. This was caused by war rumors and by the fact that Russia was refusing to ship wheat to warring countries by way of the Mediterranean.

We think that the vote of the Detroit school board in barring the sale of candy from the Detroit schools was foolish. In the past it had been sold on the school lunch wagons. A fight was also made to bar pie. The outcome of this we do not know. The excuse is that candy is bad for children. Maybe it is in excess but nowadays it is made in sanitary government inspected factories, carefully wrapped and sold in good condition. Medical opinion says a certain amount of candy is healthy. Also the children will get it any way. This should boom the business of the stores near the Detroit schools.

This candy business goes way back past the horse and buggy days to the hoop skirt era and the time when everybody carried a chestnut in the pocket to ward off rheumatism.

Indications are that there will be a hot fight in the primaries next fall for the Republican nomination for a governor. Harry Toy of Detroit has already thrown his hat in the ring and Frank Fitzgerald, former governor, has been corresponding with friends throughout the state and is expected to announce his candidacy very soon. Undoubtedly a great effort will be made to get one of them to draw as a hard fought primary battle usually arouses ill feeling and bodies ill for party success in the election.

We read that a new motor fuel for autos and airplanes has been devised which is capable of sending an auto along at speed of 150 miles an hour. The new fuel is called Iso-Butane and is used now in airplanes by the army. The new fuel can be produced at a cost of 18c a gallon. It is a petroleum derivative. We think the motor car makers have stressed the increase of speed over much.

Every year efforts are made to do this. Other things equally important are neglected. The lights for instance. Uniformity in car lights would be desirable and alleviate the blinding lights now in use. Now to a person driving at night it seems that every car has a different kind of light.

President Roosevelt seems to be a regular boogie man for his opponents. Now they are engaged in blocking his third term boom. Also they do not want him to select his successor. This was caused by rumors that he aspires to succeed Charles Evans Hughes as chief justice of the supreme court. They also wish that Jim Farley who called the turn on how millions would vote last fall would calm their curiosity by announcing his own intentions. It is rumored that he will run for governor of New York in 1938. Quit politics and become a head sales manager for the Pierce Arrow Motor Car Co. All these reports Jim lets ride to the great displeasure of his opponents.

Washington Digest

National Topics Interpreted
by William Bruckart
National Press Building Washington, D. C.

Washington. — More and more newspapers throughout the country are demanding that the President invoke the terms of the American Neutrality act with respect to the war—undoubtedly though it is—that is raging on Chinese soil. These editorial expressions obviously will have considerable weight and will convince a very great number of American citizens that President Roosevelt ought to invoke the neutrality act and, by so doing, proclaim that Japan is the aggressor. That, in simple terms, is what a presidential announcement of application of the neutrality act would mean.

There probably has never been a brutality comparable to the unspeakable outrage which Japan is committing in China; certainly, never in modern times. It is a stain upon the name of the Japanese people and the smooth working of the Japanese military machine will never be able to offset the hostility which the subjects of the Rising Sun are creating by this display of brutality.

Although the Tokyo government has yet to say it is fighting a war, the Japanese aggression in China is just as much a war as though the United States and Canada had taken up arms against each other and had proclaimed to the world that they were belligerents. The very fact that there has been no declaration of war, however, complicates the situation as regards the United States and Great Britain. Unless these nations, along with some others which have interests in China, are willing to shoulder the responsibility that comes when an outside nation says publicly that two powers are at war, neither nation can afford to endanger its neutral position by saying to the world that Japan is trying to subjugate portions of China.

That is exactly what is happening. In spite of the declaration of the Japanese statesmen that their military machine is only protecting Japanese nationals, the whole affair may be treated as pure hypocrisy—as a movement by the Japanese to gain control of new resources, new land, over which the teeming millions from Japan may run as the hordes of Chinese are displaced. The whole thing shows how long we have been fooled by the persuasiveness of the Japanese statesmen.

You may ask: What can we do about it? The answer is exceedingly difficult. I have a fear that we can do nothing because of the international policies that the United States pursued during the administrations of Presidents Coolidge and Hoover and those that are continuing under President Roosevelt. Only once in all of those years did the American government speak out firmly concerning the apparent Japanese plans and on that occasion the assistance given the United States by Great Britain and France amounted to little more than a whisper.

So now the patience of a great many people is wearing rather thin. I think also, from what I hear in diplomatic circles, that the British lion has begun to bare his teeth and unsheath his claws. Again, to what purpose I do not know, because the United States and Great Britain thus far have discussed no plan for acting in unison. Certainly, without concerted action between them and including France, little can be accomplished. It does seem that they could get together because of the community of interests but either the United States lacks leadership in the circumstance, or there are some bugs under the British and French chips about which we do not know. I repeat that in the face of Japan's devastating actions and the ever-growing threat of her overlordship in the Far East, these three powers ought to work out an understanding by which they can trim the wings of the Japanese war birds.

As the fighting continues on Chinese soil and as one disturbing act after another is committed by the Japanese, I imagine many persons are going to inquire why the United States does not brave world diplomacy and invoke the neutrality act. In that eventuality, there ought to be a clear understanding of the various implications and results that would flow from such an American action. In the first instance, Japan is now virtually self-sufficient in the matter of munitions. If we declare an embargo against shipment of war materials to the fighting nations, I believe it is generally agreed the action would hurt China more than it would hurt Japan. It would result in cutting off supplies which the Chinese sorely need. Americans are wholly willing to sell supplies to them because, generally speaking, it is apparent that the sympathies of American individuals are with the Chinese even

though the government officially remains neutral. Further, if our President declared that war existed between Japan and China, doubtless Japan would be encouraged to declare war on China formally. In that event the Japanese immediately would establish a naval blockade of the Chinese coast.

In some quarters in Washington, one will hear arguments that the United States ought to continue to keep its hands off the Far East situation. That school of thought takes the position that the United States is not obligated either from a moral standpoint or from the necessity of protecting American interests, to use force in putting Japan back within its own borders.

The basic reason why these thinkers argue against a firm American attitude, however, is that China never has been subjugated. China has been attacked; it has been overrun from many quarters and it is now being overrun again; but it has never been conquered. That sounds like a broad statement but history proves its truth. The Chinese through all of their thousands of years of history have managed to survive and maintain their racial characteristics and traditions. They never have sought additional territory. They have been content to do things in their own way and to absorb Western civilization slowly. In other words, the Chinese have generally allowed human nature to change only as human nature does change through the years.

But what of other world powers? Later, the Chinese have entered into a treaty with Soviet Russia by which that nation promises not to participate in war against China. The treaty is simple enough and yet what is written there is only a shadow of what it all means. The Soviet, while apparently not desiring to engage Japan in hostilities, is unwilling to see Japan go too far in extending her frontier. It is only a short while since Japan set up the puppet state of Manchukuo. It borders on Russian territory and the feeling along that border has been none too harmonious. It seems quite logical then that the Soviet was desirous of showing to Japan the possibility of an attack from two sides if Japan forces her tentacles too far inland in continental Asia.

Also, it ought to be mentioned that the treaty between the Soviet and China may be influential in Europe. The general understanding is that Hitler has committed Germany to the aid of Japan if the Soviet moves against the island power. Besides this circumstance, the Soviet is unwilling, if one may judge circumstances of the last two years, to encourage the ill will of Great Britain. Dictator Stalin does not want to have Great Britain and France arrayed against him and he can see obviously that Great Britain and France, as well as the United States, must favor China.

Word comes by cable from Paris that the French government has nationalized all of the railroads within the borders of that nation. It may be that this news item will be passed over by many persons with the remark that the condition is several thousand miles across the Atlantic. It is, however, a most significant step because France, along with the United States and Great Britain, long has held to the idea that private initiative and private brains always are better than government initiative and government brains.

I call attention to this development for another reason. It happens that about three years ago members of President Roosevelt's so-called Brain Trust were planning exactly the same thing for the United States. Strangely, the terms by which the French government, which is now completely socialistic, took over the railroads of France are identical with those which were under consideration by the Roosevelt Brain Trust.

It may be news to many persons to learn that the bunch of theorists who infest our government once actually drafted a bill for action by congress to nationalize the American railroads. That bill would have taken over the rail lines for their bonded indebtedness and would have left nothing at all for the stockholders. The French radicals have done exactly that thing in nationalizing the French railroads.

It may be that "It can't happen here," but I must confess a very deep fear. It seems to me the time has arrived for those who believe in ownership of their own homes, possession of their own money—whether the sum be small or large—to awaken to the trend of world events.

Silks Are Most Sumptuous This Fall

By CHERIE NICHOLAS

THE fourth annual silk parade is on in country-wide pageantry and during this time your favorite stores will have an unusually wide selection of silk merchandise and the smartest new silk fabrics. Plan to do your shopping for your fall wardrobe at that time when the highlights of the season will be available.

For the important evening wrap, silk and metal brocades in quaintly beautiful colorings or exotic tones are in high favor. These are often elaborate in texture and include self and metal faconne as well as exquisitely colorful metal brocaded flowers. For a floating full-skirted frock, silk and metal marquisette that reminds of oriental sheers that veiled harem beauties, is new this season.

The queenly figure descending the stairs to the right in the picture is gowned in one of the opulent new silks. It is a black satin with self and metal faconne in a leaf pattern. Here is a perfect demonstration of the new trend toward styling the gown with that utmost simplicity that ignores any suggestion of trimming in order the more to play up the superbness of the fabric. It is interesting to note the gloves milady wears in that the cuffs are finished with bands of glittering sequins that match perfectly.

For evening there is nothing more breath taking than the colorful lacquer-printed silk satins. These feature flowers, geometrics, Indian and Persian designs, and they are very new and important. See to the left in the picture how dramatically printed satin of the glamorous type drapes to the figure.

Describing the swatches of handsome silks shown in the insets below, the one to the left is a multi-color stamp printed silk satin for evening. It will prove charming for a short-skirted young dance frock. It is also the type of silk that makes a fetching deep girdle for a black velvet dress—which is one thing about these more elegant silks: if your allowance does not permit buying yards and yards just a mere dash of them used in a trimming way on a monotone frock will give it an aristocratic air.

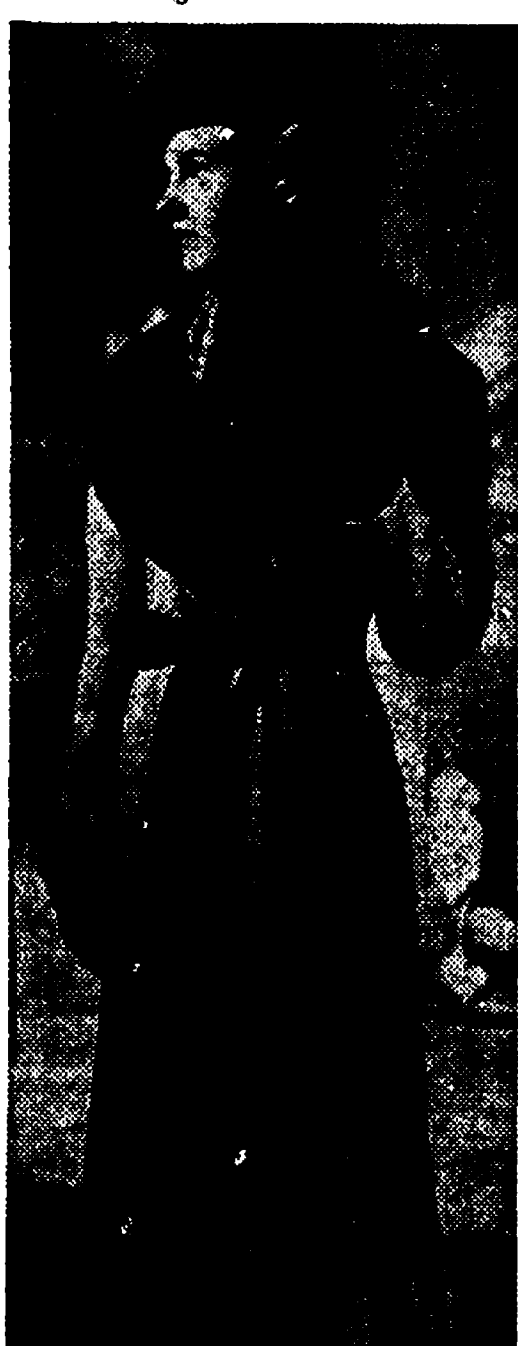

To the right is a black silk satin with self and metal faconne richly interwoven into a leaf pattern. It ranks high among silks that are done in a grand manner.

Centered in the trio of insets is a black faille with silver metal bandings, suitable for trimmings, blouses, dinner gown or evening jackets.

LEATHER TIE-BELT

By CHERIE NICHOLAS

This very good looking fall coat in bold herringbone patterned soft wool in natural beige has a notched collar of beaver and a wide crush belt of brown leather with fringed ends, each of which is a distinctive feature. The collar of cloth coats with handsome fur is one of fashion's most notable styling features this fall, while the use of leather in numberless trimming ways, especially for smart girdles, is one of the highest highlights of the mode this season. You can vision for yourself the swank that a leather tie-girdle as pictured will give to coats made of cloth. The broad shoulders are also good points in the styling of the coat pictured.

SMART FROCKS USE LAVISH EMBROIDERY

A craze for embroidery is on. Some of the smartest newest woollens for daytime frocks and for the stylish little separate jackets and boleros and for waistcoats and blouses are embroidered with an allover scattering of tiny motifs or perhaps with florals arranged in the popular striped effects.

Knitted fashions also reflect the flair for embroidery in that they carry flowers and designs done in bright yarns showing peasant influence.

The black dress that has a gorgeous bouquet embroidered like a corsage at either the waistline or shoulder is a winsome number. Any woman who can embroider could be the happy possessor of a fetching dress like this for to "embroider your own" requires but little effort.

Evening fashions fairly scintillate with dazzling embroideries. Short sleeves, allover sequin-embroidered, enrich black velvet dinner gowns. Embroidery is done on lace on tulle, on velvet ribbons that girdle the waist and so on and so on the story of embroidery is endless this season. Even the simplest linen, cotton or wool day dress is apt to yield to the present urge for hand stitchery of some fanciful sort.

Youthful Effect Stressed in New Wedding Clothes

The extremely youthful trend of this season's clothes has had its effect on wedding gowns. The most recent Paris brides have been dressed in demure creations of white mousseline or organdie which greatly resemble the frocks worn by French children for their first communion.

Instead of the halo head veils or the conventional wreaths of orange blossoms, lilies of the valley or carnations, the dressmakers are using little round caps of tulle with a long floating veil attached just in back.

Roomy Jackets

A gray velveteen jacket with fullness at the front is smart over a pencil-slim wool dress in matching gray.

AROUND the HOUSE

Items of Interest to the Housewife

A Mended Cloth.—If a small hole is burnt or worn in an otherwise good white tablecloth, it can be "mended" most effectively by stitching a motif in fine crochet over it and cutting away the spoiled fabric underneath. Add one or two more motifs so that the necessary one does not look odd. This is certainly more decorative than an obvious darn!

Devilled Cheese.—One dessert-spoon grated cheese, one teaspoon milk, one pinch celery salt, (optional), cayenne, one-half teaspoon made mustard. Mix all ingredients to smooth paste. Spread on any unsweetened biscuit (cream crackers). Place under a red-hot grill to brown. Serve immediately.

Dainty Shoulder Straps.—When making your undies try using narrow velvet ribbon for the shoulder straps. The velvet side next to the skin acts as a grip, while the satin on top looks dainty. You will find that ribbon-velvet straps will outlast any garment.

Raspberry Shrub.—To three quarts of red raspberries and one quart of sugar add one cup of vinegar. Cook slowly for half an hour and strain through cheese-cloth. Pour into sterilized bottles and seal. Serve over ice cubes diluted with water to taste.

A Combination Dish.—Two parts of tomatoes simmered with one part of celery makes a good combination dish.

Picnic Lemonade.—One cup sugar, one cup water, one cup strong tea infusion, six lemons, one cup crushed pineapple, three quarts water. Cook the sugar and water to a thin syrup; add the tea, lemon juice, pineapple, and water. Serve iced. Sixteen to eighteen servings. Excellent to quench thirst. Juices from canned

peaches, apricots, pears or cherries can be utilized for some of the water.

Save the Curtains.—A finger cut from an old glove and slipped over the end of a curtain rod enables it to be pushed through the curtain hems of the finest net without catching and tearing the fabric.

For Basting Roasts.—Leftover fruit juices, especially those from spiced fruits, make excellent basting liquid for roasts, chops and ham dishes.

In Preparing a Chicken Dinner.—A live chicken usually weighs a third more than a dressed chicken. Allow half a pound of dressed chicken per person.

Clouds Pass By

The clouds I feared and worried about, and concerning which I wanted so much precious strength, lost their frown and revealed themselves as my friends. Other clouds never arrived—they were purely imaginary, or they melted away before they reached my threshold.—J. H. Jowett.

Red Coral Always Prized

It is red coral that is and always has been prized, not solely for jewelry and buttons, but as a charm to bring safety, health and secrets not revealed to the ordinary person. As ancient Gauls rushed headlong into battle, they trusted their safety to their swords, strength and the "magic" coral imbedded in their shields or helmets. Many Italians and Indians regard coral as protection against the "evil eye." The world's red coral comes from the reefs off the Mediterranean coast of Africa, says the Washington Post, and is obtained chiefly by Italians.

HERE IS WHAT

Light Conditioning MEANS!

"Light Conditioning" is very simple. It means providing the right amount and the right kind of lighting for SEEING, COMFORT and BEAUTY . . . wherever eyes are used in work or play. Light Conditioning is scientific—there is no guesswork about it. But it is also flexible: If you wish, you may Light Condition a single table, a chair, a room. Or you may Light Condition your entire house.

The first step is to call in a Lighting Adviser—one of our Home Lighting Advisers will be glad to help you—to measure your present lighting and to advise you as to the types of lamps needed. "Light Conditioning" is not expensive: Very often, it is just a matter of rearranging reflector lamps and lighting fixtures.

Light Conditioning brings new beauty to your home . . . color and warmth to your furnishings . . . soft, diffused light to your rooms. But it also helps to provide restful, easy seeing, and helps to guard against eyestrain and fatigue caused by poor lighting conditions.

Why not Light Condition your home NOW? You can start with a single room if you like. But the important thing is to make a start. Telephone our Home Lighting Division for a survey of your home lighting. There is no charge for this service, and no obligation.

THE DETROIT EDISON COMPANY

GIVE YOUR HOME A LONGER LEASE ON LIFE!

After years of enforced neglect, surfaces which require the protection that good paint always gives—literally DEMAND attention NOW. If you could examine the neglected wood or brick under a microscope, you'd instantly see WHY this is a scientific FACT—because paint-retarded surfaces become porous and absorb moisture from the atmosphere, causing decay outside, falling plaster and peeling wall paper inside.

One house that needs painting will lower the dignity and "class" of an entire street. You owe it to yourself, your house and to your neighborhood, to have this work done now.

In any event, why not at least ask for an estimate.

EVEN ONIONS DECORATE

The once lowly onion has found dignity and a new use.

Along with cabbage, celery and Brussels sprouts, the onion is being used for table decoration. According to the Michigan State College division of home economics, more and more women see the real beauty in vegetables, and enjoy making their own table bouquets of inexpensive and common vegetables.

To make your own centerpiece, the Michigan State College home economics staff advises that it should be low and should not cover too much territory. The design should be ample.

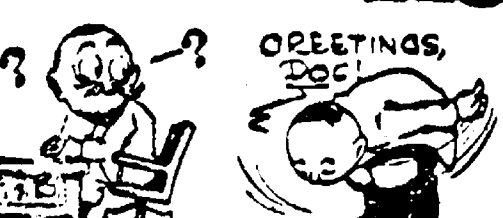

Plain containers—wooden bowls, glass casseroles, flat tin boxes, pie pans or heavy kitchen plates should be used.

Bright colors should be used together, with a neutral color for contrast.

Here are some suggested recipes.

1. A cabbage hollowed out and filled with carrots, peas in the pod and red peppers.
2. A small bunch of celery, with tomatoes, Brussels sprouts and cranberries.
3. A red cabbage, with white onions and yellow apples alternating around the base or with tomatoes and turnips around the base.
4. Eggplant with tomatoes and yellow apples.
5. A golden Hubbard squash, with two or three small acorn squash, red green and orange peppers and a turnip. This is a large arrangement and suggested only for a large table.

Notes

Representatives of the United States army have picked a new site for a CCC camp to be known as Lake Tahquamenon on the east end of Lake Superior near reserve in Chippewa.

Experiments with an electric fence as means of keeping deer out of garden plots and crops is being tried out at Cuisino game refuge. The fence is 15 miles long.

It is unlawful to have in possession an apparatus known as a silencer on any gun while hunting in this state.

As a feature of the 100th anniversary of the geological survey of Michigan 10000 copies of a geological map of the state will be given out at \$1.00 each.

All of the state marshes in Huron County will be affected by a new law which will close Huron County to a Sunday hunting.

The 4th annual conference for the Michigan women will be sponsored at Kalamazoo on Sept. 28-29 by the Federated Garden Clubs.

Due to not enough CCC help to do the work the deer food study at the Cuisino game refuge has been suspended.

Michigan will probably finish the year with one of the lowest forest fire losses on record. Up to Sept. 1st there had been 1038 fires and 14,052 acres burned over. Last year at this time there were 2,344 fires and 51,589 acres burned over.

The first data on the weight of a Michigan moose has been obtained. A moose brought from Isle Royal in 1936 now weighs 1100 lbs. having gained 400 lbs.

Four reels of motion picture in a sound will be available for lease after Oct. 1st by the conservation dept.

49,000,000 young trees are now growing in the nursery at Higgins Lake. They will be planted by the 14 CCC camps on 11 of the state forests.

A new minimum size of 8 1/2 inches in length has gone into effect for commercial fishermen on perch in the great lakes.

Another albino deer has been reported in the Ogemaw reserve. The Fife Lake and Molasses CCC will be abandoned on Oct. 1st.

PINCKNEY BEATS SALINE 6 TO 4

If the Tri-County league season lasted until Christmas Pinckney might win the pennant as they seem to be cold weather babies. By winning from Saline 6 to 4 Sunday, in a game played there, they made it 4 straight victories. This gives them a 500 mark in the last half of the season's play, having won four and lost four.

Lately the team has been hitting and this accounts for their improved showing. Sunday they took the lead in the second inning and stayed ahead. In this inning E. Ward singled, D. Crittenden dropped LaBelle's fly, Lamb walked and G. Ward drove to right scoring the first two batters. Another run came in the 8th when Haines was hit by a pitched ball, stole second and scored on Ferrell's hit to center. In the 6th they put on a field day and drove Hoeft from the box. G. Ward got his third hit of the day, Smith tripled, Haines doubled, Ferrell singled and E. Ward doubled, Crittenden relieved Hoeft, Ledwidge struck out, LaBelle was out third to first and Singer struck out.

Saline did not score until the 4th when a hit, a walk and a Pinckney error gave them a run. In the 7th McHenry doubled, Schmidt and Rock singled, one run scored but the next three batters were easy outs. In the 8th they got 2 runs on a triple, a single and a Pinckney error.

Grant Ward got 4 hits for Pinckney and Bob Smith starred in fielding, making two stops that were big league stuff.

Pinckney plays their last scheduled league game next Sunday when Dexter comes here. So far Dexter has won two games, during the season's play and Pinckney one. This will give Pinckney a chance to even the record. Dexter is now in first place.

In the other Tri-County League games Hamburg defeated Dexter 4 to 8 in 10 innings and Chelsea beat Ann Arbor 7 to 4.

even when it has to go AROUND!

At THREE O'CLOCK in the morning, near Flint, a gasoline truck and trailer caught fire by the roadside. The blast of flames, shooting upward, melted 75 feet of telephone cable—severing 250 important wires that linked Detroit to northern and central Michigan.

Immediately, quick-witted operators began routing Long Distance calls over substitute routes made available by the foresight of telephone engineers. And before it was possible to go near the white-hot mass of twisted wreckage, telephone plant men were on the scene, laying temporary circuits around the break.

This incident shows the spirit of the men and women who service your telephone... intelligent, responsible workers whose attitude toward the job can be summed up in these words:

At all times, at any cost, your message must go through!

THE JUDGE BLACK AGITATION

The Judge Black expose now being featured by the Anti-Roosevelt Press should be taken with a grain of salt until it is proven that those broadcasting the charges are inspired by patriotism and not a desire to smear Roosevelt. The new deal opponents are clutching at this issue like drowning men at straws. Especially Sen. Copeland the Anti-Roosevelt candidate for mayor of New York city to whom the Black charges are like manna from Heaven.

It is charged that Judge Black joined the Klan on account of its vote getting power. resigned in 1923 after election to the senate by their aid. It is claimed he was received back into the Klan. This sort of campaigning has a familiar touch. During this campaign last fall what was purported to be a membership card of Prosecutor D. McCrea in the Black Legion was printed but nevertheless he was re-elected. During the height of its power after the war many candidates sought Klan support in the elections and rode into office by this means. This was especially true in the 6th district as the Klan was strong in Ingham and Genesee counties. At the present time the Klan is as dead as the Black Legion.

According to the Detroit Free Press the only way to remove Judge Black is by impeachment and there is no more legal grounds for removing a member of the Klan than of the Masons, Knights of Columbus or any college fraternity.

NEW LANSING OFFICE FOR OLD AGE PENSION BUREAU

Formal opening of the new Lansing office of the Federal Old Age Benefits Bureau of the Social Security Board will take place on Wednesday Sept. 15th. This announcement was made by Mr. Crowell director of social security activities in Region V, which includes the states of Michigan, Ohio and Kentucky.

The new office will be in the post office building adjoin Capitol Square in Lansing. It will serve Ingham, Livingston and Eaton Counties. Prior to its official opening more than 30,000 Federal old-age benefits account numbers have been issued in the territory which it will serve.

R. W. Mayer will be manager of the new Lansing office.

Mr. and Mrs. O. L. Campbell and daughter, Leona, attended the state fair in Detroit one day last week.

CAR FEE 15 INCREASED

Because of the marked increase in volume of requests for details concerning motor vehicle registration, as it pertains to financing and car history, the Department of State officials at Lansing have increased the fee for furnishing this information.

Previously a charge of 5 cents a car description was made; this new price is 15 cents, made imperative if the Motor Vehicle Division is to be self-sustaining in this respect, Frank W. Carney, Director points out.

No charge is made for information sought by any branch of government anywhere, nor for information requested infrequently, and to a limited degree, by attorneys and others whose business would entail the necessity for such information. Business firms frequently submitting lengthy lists of car descriptions, however, when a charge account with the Department is opened.

The increase in motor vehicle registration and motor car sales is reflected in the daily requests, frequently by automobile finance firms checking such matters as liens and other details of automobiles passing through their hands.

School is again in session. This requires additional care in driving our autos and trucks.

Special attention should be paid at all times to all rules and regulations that the town, city, village, or Board of education has built or inaugurated around these school buildings. Let us pay attention to these signs.

You will expect this courtesy, care and consideration shown your children while on the way to school and consequently you are obliged to show the same consideration to other children.

Safety education is given children in the school regularly now with everybody co-operating these accidents should be eliminated.

OUR CHILD AND THE SCHOOL

By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New Jersey State Department of Public Instruction

Education to Carry On

Look to the school and you are seeing society's greatest effort to perpetuate itself. For whatever objectives you may establish for education, there is always one underlying purpose, the foundation stone as it were, and it is "to carry on."

You may think of reading, writing, and arithmetic as basic, but then you must return to the inevitable question "why?" They are tools of social intercourse. But our hope is always that the next generations will use them to better advantage than we have. One by one the adults of a community pass on. One by one the children of today step up to take our places.

Are they prepared? Not "what do they know" but are they good material for the new society? In his sense, children constitute the raw material of an ever-renewing state or society. The school is the mill we have invented for fashioning that raw material into understanding parents, good neighbors, honest citizens, and willing workers. Our job is to turn out a better product with each successive generation.

And when we come to examine the essentials and to ask "just what is important?" more and more we realize that at the top of the list we must place health—physical, mental, social, emotional health; fitness for work, play, and citizenship; a zest for complete, abundant living.

What about the "reducing craze" among girls? Dr. Ireland will describe it in his next article.

"SPEND TO SAVE"

How many times do we hear someone say, "If I only had a million." Most people like to spend money.

As a bank interested in seeing our fellow citizens get ahead financially, we offer an opportunity to spend your money with us. Spend it into a Savings Book You will get a thrill in observing it grow larger. Unlike most most spendings it is not "here today and gone tomorrow." It is an ever-present tangible property from which you derive an income in the form of interest, and at the same time is always available you need not find a buyer for this asset in order to convert it into cash.
