High School Basket Ball Season Opens

Pinckney's Two Inexperienced Teams Take Two Beatings from Milford Saturday in Opening Games

Pinckney high school resumed basketball this year after three years absence from the game and dropped both games to Milford here Saturday night in the local gym. Milford had two teams of rangy experienced players while all of the Pinckney boys except Vincent Young were playing their first game. The local team played hard but did not know enough about the game to make much of a showing. The Pinckney boys are short and Milford had little difficulty in shooting over their heads. The second team lost 62 to 2 and the first team 64 to 9. Both teams should get some consolation out of this. The reserves held their opponents to a smaller score while the varsity got more points than the midsets. Don Wedemeyer got the lone goal for the kids while Bug VanBlaricum and Vin Young each got two field goals and Ed Myer a foul goal for the varsity. Pinckney Res. Milford Rts.

Derquist R. F. D. Harter

Wedemeyer L. F. Jamieson
Martin C. Madison
Amburgey R. G. Ide
E. Wedemeyer L. G.

Substitutions-Hannett for Amburgey, Cadwell for E. Wedemeyer. Pinckney
Myer R. F. Durham
VanBlaricum L. F. Tyler
Young C. Hackboldt
Carpenter R. G. Hawn
Ledwidge L. G. Baker

Substitutions-Read for Ledwidge, AtLee for Carpenter, Referee-Clinson U. of D.

Pinckney high school will play two games this week. Last night they played at Stockbridge and Thursday night they will play at Ann Arbor. Their next home game is Dec. 17 with Dexter.

It will probably take Pinckney a couple of years to develop a team. One difficulty is that the first team is about all seniors and will not be back next year. The team needs more length. The addition of Charlie Smith and Glen McClellan who are not out for the team would strengthen it. These two lads have height.

The gym is now equipped with an automatic scoreboard, the work of Tel Bourbonnais, Bob Martin and others.

The gym is now equipped with a long which head time keeper. Wise operates by yanking a rope for end of quarter, substitutions, time out etc.

"I Don't Take Mental Cases"

A thrilling new detective mystery novel by Ruth Burr Sanborn. Begin reading it in the American Weekly, the magazine distributed with NEXT SUNDAY'S CHICAGO HERALD AND EX-AMINER.

I believe in safety because the loss of my ability to work means suffering for those I love most. Without my help they are thrown to the mercy of a more or less indifferent world.

I believe in safety because it is my duty to do so. No community can afford to have accidents to its citizen.

I believe in safety because I want to live the full length of my life and enjoy it to the utmost.

I believe in safety because I do not want charity.

These are just a few of the reasons why we should all believe in safety. Please read them carefully.

Philathea Notes

This Wednesday is our regular time for Election of officers in the Class. It is to be hoped that the interest and attendance will equal the importance of this date in our class year.

The Ladies Aid are to be congratulated on their successful Bazaar of last Saturday and the dinner in connection. The girls' class also did a thriving business at their candy and pop corn booth.

CARD OF THANKS

Dear "Children"
Thank you so much for the lovely party. I enjoyed myself very much. I almost even laughed a couple of times. It was all just too-true.

HENRY FORD SECRETARY HERE

Ernest Liebold, personal secretary to Henry Ford, was here last week and personally supervised the acquiring of the property of the Hase estate.

Washington News Letter

Special Session
By Congressman Andrew J. Transue

Triple Objective
Congress concentrated on legislation involving farm relief, wages and hour regulation and stimulation of building construction last week. The legislative program that blocked the wage and hour bill in the House of representatives was broken via 218 signatures, including the names of every Democratic Representative of Michigan, were obtained to discharge the Rules Committee from a further consideration of the bill and bring the measure to the floor of the House for consideration on Dec. 13.

Nine Republicans from California, Idaho, Maine, New Hampshire, New Jersey and North Carolina joined in the 196 Democrats, 5 Pro.

and 5 Farmer-Laborites to discharge the wage and hour bill from the Rules Committee and provide protection for the workers of their states from encroachment sweat-shop wages and child labor. The wage and hour bill passed the Senate at the last session but failed to reach the floor of the house, when the Rules Committee a bit earlier refused to release the bill for consideration by the House. The House Committee had approved the bill and reported it favorably to the House. A motion to discharge the Rules Committee and permit a floor vote on the bill was defeated by the House. The House Committee had approved the bill and reported it favorably to the House. A motion to discharge the Rules Committee and permit a floor vote on the bill was defeated by the House.

Sectional Opposition

Decried to establish a national system of wages and hours in the United States and at the same time to prevent discrimination against labor. The bill was introduced in the House of Representatives last week. The bill was introduced in the House of Representatives last week. The bill was introduced in the House of Representatives last week.

President's proposal to stimulate home construction by insuring private investment into a country-wide housing program. In its tentative form the Housing bill would require only ten per cent from the home builder, who would be enabled to borrow the balance of the construction cost at an interest rate of about five per cent.

Expert Witness

Marriner Eccles, chairman of the Board of Governors of the Federal Reserve Board, was a witness before the House Banking and Currency Committee, of which your Congressman, Mr. Eccles is a member, the government plan outlined in a special message to Congress by President Roosevelt last week would of itself tend to reduce building costs because of the volume of demand. He pointed to the auto industry of Michigan as one illustration where costs to the consumer have decreased while the quality of the product has improved and wages of auto workers have increased as the demand increased. The head of the Federal Reserve declared that building costs in England for new homes in the last six years illustrates what may happen in the United States. He explained that the English building program has resulted in a lower cost of financing while material and labor costs remained about the same with a net result of a substantial savings to home builders. He termed the present financing methods for house construction in this country as "archaic." Mr. Eccles was scheduled to return to the House Committee Monday when consideration of the bill is resumed.

Stomy Sailing

In both the Senate and House of Representatives the farm Relief and crop control legislation ran into a stormy sailing during the prolonged debate.

(Continued on next page)

CURRENT Comment

For some time the press has been preaching economy and broadcasters have been appealing over the radio for a curtailment in the reckless expenditure of public funds. President Roosevelt has announced a contemplated cut in highway funds and now these same personages are howling to the high heavens. Evidently this is not the place to start the pruning. We wonder just where the start should be made. A cut in farm relief, rural electrification, public now these same personages are howling. In other words it is all right to preach economy but quite another matter to practise it.

The big news item of last week was the trading of Gre Walker to the Chicago White Sox by Mickey Cochrane. Walker is very popular with the Detroit fans and his transfer to the windy city caused a howl of anguish to go up. The fact that it was necessary to give him to Chicago in order to get Pitcher Vernon Kennedy of no hit fame was lost sight of. The failure of Detroit's pitching staff the last two years was responsible for their failure to stay in first place. Walker's presence in the lineup failed to offset the teams lack of pitching skill and he was used for the purpose of strengthening the team.

At last a Michigan football team has been invited to take part in a bowl game. Michigan State team will play at the Orange bowl in Miami, Florida on New Year's Day. The bowl game season after the bowl game season are getting contagious and more bowl games are being played each year. The Rose Bowl at Calif was the first and it became of nation wide interest as the meeting place each New Year's of the two best teams in the country. Only a few teams in the United States and at the same time Notre Dame, Pittsburg and Alabama to prevent discrimination against labor. The bill was introduced in the House of Representatives last week. The bill was introduced in the House of Representatives last week. The bill was introduced in the House of Representatives last week.

In the several All American football teams so far picked not a single member of Big Ten football teams has been selected. This is astonishing as in the past these teams won most of the places. Of late years the teams in the south and west and the Pacific coast have been coming to the front and get much of the football material which formerly went to the big ten teams. In fact they have offered such strong competition for material that some of the big ten teams are distinctly second rate teams. The big ten still regards itself as an amateur organization and has a lot of silly restrictions to which it is impossible to conform to and is successful at the same time.

Despite the reports to the contrary Mayor LaGuardia is still being considered by the Republican party for the presidential candidate in 1940. At the present time they are weighing his advantages and disadvantages, according to the National Observer in the Lansing State Journal. He probably has more strength with the labor organizations than any other man in the United States.

These organizations in the last 2 national elections have voted Democratic and to get them back in the GOP ranks would do much to rebuild the party. Unquestionably his labor strength in the cities would not prove such an asset in the rural community. As he is of Italian and Jewish descent there might be some racial prejudices to which these would not be fatal. The National Observer in the Lansing State Journal states he is an Episcopalian.

The Misses Nellie Gardner and Fanny Monks and Mr. and Mrs. Wills are Caulk were dinner guests of Mr. and Mrs. Charles Runckman of Unadilla Sunday, honoring Mrs. Runckman's birthday.

"WAR AND STRIFE"

War and strife, sickness and death, bear no evidence of Life, God. They are negative states of ignorance, indications of a lack of the understanding of God and of man's harmonious relationship to Him. Furthermore, an indifferent or merely neutral state of mind is not based upon understanding, and engenders a false sense of peace. Ignoring or condoning faults in individuals or in groups of people and nations, is not promotive of security and peace, which go hand in hand. Selfishness and intense nationalism are foes to the peace and progress of mankind. They arise from the false belief that man's existence is dependent upon matter. This belief is entirely at variance with Scriptural authority, which reveals man's spiritual origin and nature, and with divine law, which governs individuals and nations.

The words of Mrs. Eddy in Science and Health (p. 96) give a clear sense of man's scientific unity with God, and the consequent immunity from evil, disease, and inharmonious which may be realized by all. She says: "This material world is even now becoming the arena for conflicting forces. On one side there will be discord and dismay; on the other side there will be Science and peace." May we ever remember with gratitude the ever-presence of Spirit, where love, joy, and peace forever abide and abound.—The Christian Science Monitor.

The Cooking Clinic

QUESTION: Is it true that reversing the direction of stirring when mixing a cake will cause it to have uneven texture?

ANSWER: The direction in which a cake is stirred has nothing to do with the finished result. It is only the amount of stirring that affects texture. However, authorities say that a cake stirred across the bowl instead of with a circular motion is more likely to have tunnels or holes in it.

QUESTION: How can one keep bacon from curling up while broiling or frying it?

ANSWER: Making perforations in the slices of bacon with the points of a fork will help prevent curling. Of course you know about placing bacon in a cold frying pan or on a cold broiler rack. That also prevents curling.

QUESTION: How may I prevent my custard and pumpkin pie fillings from soaking through their crusts while they are baking and making them appear soggy?

ANSWER: Merely place the pastry in the oven about five minutes before the filling is poured in. Then you will have the crust already started to bake before the liquids have a chance to come through. Of course you know that custards and pies made with custard fillings should always be baked at a low temperature to assure an even textured and tender product. This low temperature is easily obtained and maintained by the oven of the Hotpoint electric range, for all one has to do is to turn the oven control to the desired temperature and the pie will bake in the desired length of time without any watching and worrying. Furthermore, with a Hotpoint range, you may start your pies in either a cold or preheated oven.

QUESTION: Is there any way to keep wax candles from bending when they are kept in a warm room?

ANSWER: Put a very thin coating of shellac on the candles to make them stand erect. This will not interfere with their burning evenly.

QUESTION: What causes some cakes to have a slightly browner, crisp, ruffy edge around their surfaces when they come out of the oven?

ANSWER: Too large a proportion of fat in the recipe, or a pan that has been greased too heavily, may cause a brown, ruffy edge on the surface of a cake.

IN THE WAKE OF FLOOD

This scene was enacted many times in refugee centers established by the Red Cross during the Ohio-Mississippi Valley flood. Inevitably floods bring the danger of disease as drinking sources become contaminated and large groups of people are thrown together. The medical-health service of the Red Cross serves thousands each year, and is maintained by membership funds contributed to the organization at the time of its annual Roll Call on Armistice Day to Thanksgiving.

CURRENT COMMENT

Glen Dunne of Muskegon, former right hand man of Ex-Governor Fitzgerald has apparently deserted him and gone over to the Harry Toy camp. Last week's papers announced that he would open Toy headquarters in Lansing at once. During the Fitzgerald regime he was right hand man to the Governor and was his spokesman at many important functions. We heard him speak at the Fowlerville centennial in Gov. Fitzgerald's place. In 1936 he was Fitzgerald's candidate for the state chairman but was defeated by the charge that he was also the candidate of Frank McKay and Edward Barnard, state bosses. Dunne still claims to be friendly to Fitzgerald but says he is backing Toy because he thinks the former Wayne county prosecutor is the stronger candidate. The Democrats have won recently on account of their great strength in Wayne county and the nomination of Toy, a Wayne county man, is for the purpose of cutting the Wayne Democratic vote. In the meantime Fitzgerald is busy lining up supporters. Many wonder if McKay and Barnard will not soon appear in the Toy camp. Undoubtedly the Toy supporters welcomed him because they believe he will bring part of the Fitzgerald organization with him.

Red Coral Always Prized

It is red coral that is and always has been prized, not solely for jewelry and buttons, but as a charm to bring safety, health and secrets not revealed to the ordinary person. As ancient Gauls rushed headlong into battle, they trusted their safety to their swords, strength and the "magic" coral imbedded in their shields or helmets. Many Italians and Indians regard coral as protection against the "evil eye." The world's red coral comes from the reefs off the Mediterranean coast of Africa, says the Washington Post, and is obtained chiefly by Italians.

An electric range is the gift of gifts . . . something every woman wants and hopes some day to own. An electric range is more than just another stove: It combines SIX GIFTS in one.

- 1 The gift of kitchen freedom. An electric range brings extra hours of leisure to do the things you enjoy most. You can put your whole meal in the electric oven and go out for the afternoon. A Timer Clock (available at small additional cost) turns the oven on and off at the proper time. When you come home your dinner is waiting, perfectly cooked—piping hot and ready for the table.
- 2 The gift of cleanliness. An electric range cooks with pure heat from a glowing wire—heat as clean as sunlight. You will enjoy the ease with which you can keep your kitchen bright and sparkling, with less frequent redecorating expense and practically no scouring of utensils.
- 3 The gift of better meals. Electric cooking has a delicious natural flavor. There is nothing else like it. Meats and vegetables cook to melting tenderness in their own juices. You'll be amazed at the difference electric cooking makes in ALL your recipes.
- 4 The gift of healthful cooking. The waterless cooking method is at its best

on an electric range. Precious minerals and important food values are sealed-in . . . not boiled away in excess water and poured down the sink.

5 The gift of comfortable cooking. In hot summer weather, an electric range does not raise the temperature of the kitchen, even one degree, by actual test.

6 The gift of modernness. Electric stoves installed ten years ago still look as good as the day they were installed. An electric range will often beautify the entire kitchen.

Electric cooking is the finest cooking that money can buy . . . and today, you don't need a great deal of money to buy it! Electric range prices are now so moderate that you can purchase an electric range for about the cost of an average stove of comparable size and features. This Christmas, choose the gift that will serve the entire family . . . surprise her with a new, modern, sparkling ELECTRIC RANGE! See the new electric ranges on display at department stores, electrical dealers and at all Detroit Edison offices.

Plaintiffs

vs.
Hannah Hay, and her unknown heirs, devisees, legatees and assigns,
Defendants

Said pending in the Circuit Court for the County of Livingston in chancery at Howell, Michigan on the 23rd day of October 1937.

It appearing from the sworn bill of complaint as filed in said cause, that the plaintiffs have not been able after diligent search and inquiry to ascertain whether the said defendants are alive or dead, or where they may reside if living or if they have any personal representatives or heirs living, or where they or any of them may reside, or whether the title, interest, claim lien or possible right of these defendants have been assigned to any other person or persons or whether such title, interest, claim lien or possible right has been disposed of by will by said defendant.

And it further appearing that the plaintiffs do not know and have been unable after diligent search and inquiry to ascertain the names of the persons who are included as defendants without being named.

Upon motion, therefore of Don W. VanWinkle, attorney for plaintiffs it is ordered that the above named defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered herein within three months from the date hereof, and that in default thereof said bill be taken as confessed by said defendants and each and all of them.

It is further ordered that the plaintiffs cause this order to be published within forty days in the Pinckney Dispatch, a newspaper printed, published and circulating in said County, once in each week for at least six successive weeks.

NOTES OF 25 YEARS AGO

But for the mistake of a clerk who sold rim fire shells for a center fire gun, there might have been a tragedy at Hamburg last Friday. Mrs. Arthur Rice, wife of the supt. of schools and Mrs. Fred Rice, wife of a cobbler, got into an argument at Watkins elevator where both of the women picked beans. Friday the professors wife purchased a revolver at one store and shells at another. Going to the bean room she pointed the gun at Mrs. Fred Rice and pulled the trigger three times. The gun failed to fire. Mrs. Rice was arrested and taken to the Howell jail but was later released.

Conservation Dept. Notes

All records were broken this year in attendance at Michigan's 55 state parks. 9,528,578 people visited them. Grand Haven Park with 1,744,235 had the most visitors.

The state general fund has been increased \$19,238 this year by the royalties paid on sand and gravel pumped from the floor of the Great Lakes. Special permits are also necessary to remove gravel from state lands. No royalties are collected for sand or gravel used for state highways but special permits must be procured.

A hit and run driver was arrested near Marquette because the injured woman remembered the deer hunting license number on his back.

Mink farming is becoming popular in Michigan. The other similar industries are declining. Muskrat, coon and beaver dropped down this year.

It cost E. W. Younger of Flint \$24.80 to shoot a fawn. He shot off the top of its head and said it had horns, but an X-ray showed that he had shot off the wrong part. More than 80 fawns will be banded and surveyed this winter to improve hunting conditions.

More than 40 pheasants to a square mile were killed in the Saginaw district in October. There were 617 pheasants and 71 rabbits killed in this 9,600 acre area.

A total of 618 arrests are reported in October. This is lower for game law violations than for many years. They paid \$8,677 in fines and \$1,262 in costs. 69 were arrested for carrying loaded guns in cars, 60 for carrying guns in hunting areas without a permit, 80 for hunting without licenses, 15 for making false statements to get licenses and 88 for the shooting of hen pheasants.

Four more films of conservation life are now available for loan.

The illegal shooting of ducks and fawns was 50 per cent less than last year.

The catch of fish this year in the Great Lakes totalled 300,000 pounds more this year than last year.

The Assurance of Peace

PEACE is the perfect gift of our heavenly Father to all His children. Prophecy and revelation unite in bringing to mankind, torn with tumult and strife, the blessed assurance of peace. The prophet Isaiah had a glorious vision of the reign of peace in the hearts of men as the enlightenment of Truth is received into human consciousness. In the thirty-second chapter of the book it is written, "And the work of righteousness shall be peace; and the effect of righteousness quietness and assurance for ever." "The work of righteousness" is not dependent on time. Truth is always present everywhere. We are persuaded, therefore, that peace is possible to everyone who lays hold upon righteousness. The earnest seeker for Truth is assured of peace, for it is the natural accompaniment of the right understanding of God.

Isaiah foretold the coming of the Messiah, "The Prince of Peace," and in conformity with this prophecy, the Bethlehem babe appeared. The heavenly host, accompanying the angel who came to the shepherds on this momentous occasion, sang this psalm of praise (Luke 2:14), "Glory to God in the highest, and on earth peace, good will toward men." This was revelation, indeed, bringing heaven to earth.

The salvation wrought by Christ Jesus in his healing ministry assuredly brought peace to troubled hearts bereft of loved ones, oppressed by disease and sin, under the tyranny of traditional laws, and bound by baseless creeds and cruel codes. Jesus' understanding of the omnipresence of God inverted the spoken word with power, and multitudes were restored to health and freedom. Great peace and joy followed, and God was glorified; and so it will ever be. Whenever the Father is understood, the Son is understood, and His commandments kept, peace attends.

Mortal strife is due wholly to ignorance of God and His creation. Material existence is a mistaken sense of life. God, and of life's idea, man and the universe. In Science, and in the Holy Key to the Scriptures, Mary Baker Eddy, the Discoverer and Founder of Christian Science, writes (p. 329), "If men understood their real spiritual source to be all blessedness, they would struggle for release to the spiritual and be at peace." The greater part of humanity is seeking peace. Multitudes are on the quest for that which will satisfy their highest concept of good. It is a lamentable fact, however, that many are seeking release from the material and the physical in material theories and practices. The sick are still searching for relief in ways and means devised by the human hand. Ignorant of the fact that false material beliefs have occasioned their recurring sickness, and not perceiving the futility of material methods to bring deliverance and peace.

But the Christ, Truth, is ever at hand, ready to enter human consciousness, when one is willing to turn toward the Father-Mother God. The message is always reassuring. After his glorious resurrection Christ Jesus, reappeared to the disciples, presenting the same body that he had before the crucifixion, thus proving life to be continuous. His loving words to them, "I came be unto you," brought the assurance of eternal life and Love, the primal and ultimate power of being. Life is evidenced in harmonious activity. Likewise, through spiritual peace we are assured of the continuance of life.

AFTERWARD

The significance of fine funeral directions are seldom appreciated at the time of need. It is after the need has passed and memories of loved ones

have become all that remains that the perfection of our services is fully appreciated. Investigation will disclose that the beauty and dignity of this service is within the reach of any family.

Christmas Shopping

Look-look! Look and look and more. The right gift for each person. What a headache!

As a bank we cannot offer the thrill that goes with a new necktie or scarf for men; handkerchiefs, lingerie, odds and ends for women; or toys for children. We can offer our customers some gifts which will supplement the rest of the shopping list. A new Home Savings Bank for a boy or girl goes towards his future independence by formulating the thrift habit. New Currency or New Silver Dollars never disappoint the giver.

All deposits up to \$5,000.00 insured by our membership in the Federal Deposit Insurance Corporation
