

Michigan Deer Hunters Have Gone North

Pinckney Natty Bumpus Head Northward Over the Week end. Deer are said to be very plentiful and the hunting conditions are excellent. Under conservation the deer herds have increased.

Over the week end the annual trek north for deer started and it is estimated that 150,000 hunters will be in the north woods this year hunting deer. Not all are successful. Last year only 40,000 deer were shot so only about one man in four gets a deer. We know of hunters who have gone regularly for the last ten years and failed to bring back a deer. And this continued lack of success does not seem to make them downhearted in the least. The novelty of camp life, the brisk refreshing air of the north woods and the getting away from all business and every day worries for a short time seem to amply repay them for their journey whether they return empty handed or not.

We will try to give the names of as many local hunters as we know of and where they hunt from.

W. C. Miller and sons, Russell Livermore, Friday Haines, John R. Croupe and other will hunt from their camp at Douglas Lake.

A. H. Flintoft and a party from Whitmore Lake have a camp at Drummond Island. The Swarthout and Harris boys go to Lovell, Lynn Hendee, son, Lloyd and Orville A. Smith will probably hunt from near Mio. The Brenningstalls hunt near Germfask. Louis Wagoner, son, Wayne and Glen Kingsley also went north. W. H. Meyer and son, Billy, went north of Boyne City.

Roy Reason and Am Eichman will hunt near Beaverton and S. Dinkel expects to go to Lovell this week and George Meabon, jr., is at Hillman.

Harlo Haines and Ernest Shieks are hunting near Sterling.

There are many others still not decided but undoubtedly before the week is up they will have joined the army in the north woods.

NOTICE TO NOVICE HUNTERS

If novice hunters who are planning to make their first deer hunting trip this season, will take the advice of veteran hunters, they will avoid the wearing of heavy clothing.

One of the most common errors on the part of green hunters noted by conservation officers on their patrol of hunting camps during the deer season, is that of supposing in order to keep warm one must be weighted down like a freighter. The weight is not necessarily a guarantee as warmth can be had with comparatively light clothing if it is the right kind, the conservation officers point out.

Another frequent mistake of the green hunters, is to wear clothing which binds, which further reduces what little energy they have left after carting around an excessive poundage in clothes. Still another is the wearing of boots which offer no support for the arches. The city bred person, accustomed to the support of ordinary shoes, quickly finds that flat boots develop an acute aching in the backs of his legs.

A memorandum for new hunters might include:

Clothing that is warm, but light and loose.

Boots that support the arches, or supporters that can be placed in the boots that don't, and by all means, boots that are not tight.

A cap that has no ear flaps that go up over the top of the head. The flaps and laces are constantly getting caught in trees and bushes.

A good friend who is an experienced hunter, from whom advice can be sought on what to buy or borrow in the way of hunting clothes.

HARD-WORKING THIEVES

Caro: Recently a theft was reported here which must have been committed by strong backed and a hardworking burglars for seven tons of cheese were stolen from the warehouse of a local factory. This included 185 cheese, each weighing 75 to 100 pounds each.

WE HAVE A NEW PRESS

Last week the Dispatch installed a large Babcock press for newspaper printing. We hope with the aid of this to give you a better looking paper. It took most of two days to set it here and set it up. For the assistance of W. H. Meyer & Son, Floyd Arthur Haines and Leon Menden in this work we are very grateful.

Livingston Calif. Picnics Held

Annual Livingston County Picnic is Held at Echo Park, Los Angeles California. Next One is Decoration Day

Echo Park, Los Angeles was the meeting place on Saturday October 29th, for the semi annual picnic of the Livingston County picnic Assoc. which was held at noon. The weather was ideal, a clear day neither too warm nor too cold.

About sixty attended the meeting. The tables were in place and were decorated in the Halloween colors by Mrs. Buns of Pasadena, Mrs. Thomas of Laguna Beach, Mrs. Luella Clark and several boy scouts who were doing their good turn.

At 12:30 all gathered at the table and after the Blessing of Our Heavenly Father was asked by Mrs. Ray Jewell a very bounteous and enjoyable meal satisfied the appetite of each and every one. To make it even more enjoyable Wallace Clark played several numbers on his accordion during the period.

As soon as the ladies got their dishes picked up Pres. Wallace C. Clark called them to order for short business meeting. The report of the secretary was read by her of the previous meeting and as there were no corrections or omissions the report was accepted. The Treasurer's report showed a balance from last meeting of \$8.49. Expenses for this meeting were \$3.21. The collection made by the V. Pres. A. Patten was \$3.49, making a balance in the book of \$8.77.

The only sickness reported was that of Mrs. J. E. Ogden of Chula Vista who is confined to her bed in the hospital with a fractured hip. The secretary was requested to send her a card.

Several were present who had not attended for several meetings. We were glad to see them out again and enjoyed a few remarks from them. John M. Stoddard of LaFeria, Texas was a visitor and gave us greetings from his parents, Mr. and Mrs. Will Stoddard of Texas.

Mrs. Hattie Haze Decker of Pinckney who is spending the winter with Belle Kennedy in Huntington Park brought us greetings from that place.

The president closed the meeting by reading a poem by Fred Carver. Some time was spent in visiting after the meeting before we parted to meet again on next Decoration day.

Mrs. Luella Clark, Secretary

WEEK END AUTO ACCIDENTS

Friday night a car owned and driven by Harry Frost hit a tree just the other side of the Sigler farm. Frost was uninjured and so was George Holben. John Holben suffered a deep cut from his mouth to his neck and was taken to St. Joseph's hospital, Ann Arbor.

Sunday night Jack Caldwell, on his way to Howell, overturned near the Wright school. He and the occupants of the car escaped injury except his daughter, Jane, who had her arm broken.

KING'S DAUGHTERS

The Kings Daughters met at the picturesque home of Mrs. Glenn at "Glennbrook", November 3rd.

A very interesting meeting was enjoyed by the playing of two games. The next meeting will be held at the home of Mrs. Lulu Lamb December 1st. Business was the next issue at 2 p. m. and a social in the evening "Everybody comes".

Big Feather Party given by St. Mary's Church of Pinckney at the Community Hall on Tuesday night November 22nd. Turkeys, geese, and chickens.

Can't Something Be Done About This?

Pinckney Loses 12 to 0

Ann Arbor High School Reserves Defeat Pinckney in Last Game of the Season Played at Wines Field, Ann Arbor, Friday Night.

Pinckney high school football team lost their first night football game to Ann Arbor high school reserves at Wines Field, Ann Arbor, last week Friday night, 12 to 0. According to the boys they don't think the night contests are so hot. An ordinary football was used and it was hard to see.

Ann Arbor scored all their points the first quarter, the first on a line plunge and the second on a sweep from the ten yard line. After this the Pinckney defense tightened up and there was no more scoring. Pinckney made a few gains but failed to get closer to the goal line than the 25 yard line.

Wednesday, Pinckney will play a game of 8 man football with New Hudson which has played this game the present season with much success.

J. P. DOYLE FUND

All those who have contributed to the J. P. Doyle Portrait Fund need pay no attention to the letters they are receiving. Letters were addressed and sent to all members of the Pinckney Alumni Association. The Chairman is keeping an account of all contributions the list of which will be published for correction before being placed on the scroll beside the portrait.

Alta Meyer, Chr.

NOTICE

The Ladies Aid of the Cong'l church will hold their annual bazaar at the church parlors December 3rd. There will be all kinds of fancy work and aprons, suitable for a Christmas gift. Home baked goods, candy, pop corn, and vegetables. Also a fish pond for the children. Each member is requested to furnish an apron, an article for fancy work, and something for the fish pond.

All donations will be gratefully appreciated. The Bazaar will be open to the public at 11.00 a. m.

Dinner will be served at noon by Committee No 1 with Lydia Carr and Rose Hendee in charge.

The bazaar committees are as follows:

Aprons: Mildred Elliott, Margaret Swarthout.

Fancy work: Carrie Swarthout, and Hattie Swarthout.

Baked Goods and vegetables: Mrs. VanSlambrook, Ciella Fish.

Fish Pond: Gladys Lee, Lucille A. Tomlin.

Everybody Welcome
Sunday evening November 20th will conclude our preaching mission. A hearty welcome is extended to all who worship with us.

Philathea Notes

An extremely interesting and an instructive afternoon was spent by the class on last Wednesday afternoon, when our hostess was Mrs. P. H. Swarthout. Mrs. R. K. Elliott presided, and Mrs. Wm. Peck had prepared the program for this, our last quarterly missionary program, of the year. Miss Ciella Fish read the first five verses of Isaiah 60, and offered prayer, "Where he leads, I'll follow" was the appropriate song selected by our organist, Mrs. S. E. Swarthout. A unique Missionary quiz was conducted by Mrs. Peck, putting us in the real spirit of missions. Then Paul's three missionary journeys were reviewed by Mrs. Peck, Mrs. Hattie Swarthout, and Mrs. Carrie Swarthout, each of whom had given careful study, and so made their theme interesting. The Philathea offering at this time for Benevolence was \$3.47.

The usual business session was held, and the cooperation lunch was the close of a most pleasant afternoon. The sacredness of Human Life was the basis on Sunday morning of a profitable and spirited discussion among the dozen or more members gathered in our Philathea Room. We make no pretence of settling these questions, but they do make us think for ourselves.

Still another of the Ten Commandments is considered next Sunday in the subject, "The sacredness of the home" Also on November 20th, we are asked to join in prayer for the Jews, who are passing through such a trial of persecution and sorrow.

Perhaps those who enjoy Reverend M. B. Hinkle's broadcast over WIBM in the morning will be interested in the new broadcast at 4:30 to 5:00 on Sunday afternoon.

CARD OF THANKS

I appreciate most sincerely the splendid vote given me by my friends of Putnam township in the general election.
Eleanor Ledwidge.

Doings and Happenings of the Pinckney School

Doings and Happenings of the Pinckney School. A Musical and Speaking Program Will Be Put on There on Monday Evening Nov. 21. All Invited to Attend

A spelling bee was held Friday between the Sophomores and the freshmen. The losers which were the freshmen, must give a party to the winners. There were four prizes of 50c, 25c, 15c, and 10c taken respectively by Rosemary Read, Francis Messersmith, Helen Reason, and Donn Widmayer.

The ball game played under the floodlights at Ann Arbor was a 12 to 0 loss. The boys did a very good job of defending their goal. The next game is with New Hudson, at Pinckney, on Wednesday, Nov. 16. It will be the first time Pinckney has played other than 11 man football.

Girls basketball practice has begun. The first game will be with Stockbridge here, December 9th.

PINCKNEY HIGH SCHOOL TO HOLD PROGRAM

On Monday evening at 8:00 p. m. the students of Pinckney High School will present the first in a series of bi monthly programs. The numbers appearing on the program will represent the best numbers which have appeared in previous assemblies. The public is cordially invited to be present and witness these acts.

There will be a general admission charge of ten cents.

The program follows:

1. Music Maestro Please... 8th grade
2. Song (Letter Trimmed in Black) Victoria Kulbicki.
3. Skit comic, "The Newly Weds" Cyrus AtLee, Keith Ledwidge
4. Song (Mother Nature's Lullaby) Virginia Baughn.
5. Piano Solo (Indian Love Call), Lucia Soper
6. Play (Keeping Kitty's Dates), 10th grade.
7. (When Irish Eyes are Smiling), Muriel McEachren
8. Song (Gold Mine in the Sky) The Three "J's".
9. Song (I'm Going to Lock my Heart), 11th grade boys' quartette.
10. Music Recognition... Audience
11. Western Number... 6th, 7th grade boys.
12. Song... Isabelle Head, Eloise Gardner, Dorrine Bunting.
13. Song, Ten Pretty Girls... by 8th grade.

PLAYGROUND PROJECT DONE

The Pinckney school playground project was completed Tuesday. This was a PWA job and some ten men were employed on for a total of 1000 hours. Acreage was purchased of the Haze estate and the street running through it, separating the land from the school grounds, closed. The tennis court, closed by a high fence is laid out on this street. The athletic field was levelled with tractors and the low point on the north filled up. Black dirt was drawn for the surface and to make seeding easy. The athletic field will include a base ball diamond and football gridiron.

Gus Rissman installed the shower baths this week. There will be both boys and girls showers. The boys in the high school assisted by digging the cess pool etc and 24 high school girls did the janitor work so Mr. Jeffreys could put his time on the showers. The showers are in the south part of the basement.

MILK COMMISSION MEETING

Michael Roche attended a meeting of Gov. Murphy's Milk Study Commission of which he is a member, held at Lansing Tuesday. The advice suggestions for legislation re purpose of the commission is to regulate the industry.

G. Mennen Williams, assistant attorney general, proposed a program of advertising to increase the consumption of milk. He asked the commission to decide whether the program should be financed by industry or legislative appropriation.

Williams represented the attorney generals office in a joint investigation in which federal agencies participated which led to the governor's proposal for regulatory legislation.

WILL TRADE!

Will trade International 1/2 ton Pickup in good condition for Chevrolet Plymouth or Ford 2 or 4 door sedan or will sell for cash.
R. E. Barren, Howell

CURRENT COMMENT

"By Ye Editor"

Now that the election is over the commentators have analyzed the results and their meaning. Their views are conflicting. The Republican made gains but are still a minority party. Now they hold 18 of the 48 governorships, 23 of the 96 senatorships and 170 house seats compared to 261 held by the Democrats. There were many angles to the election. Although Governor Murphy bore the brunt of the Republican assault he polled 200,000 more votes than any other Democrat candidate in an off year. Even in Wayne county he ran ahead of Lt. Governor Nowicki who was expected to lead him. Also Frank Fitzgerald although elected polled 11,000 less votes than in 1936 when he was defeated Governor Murphy polled 150,000 less votes than in 1936. Just how these 161,000 would have voted is not known but if Governor Murphy could have got their votes he would have been successful. As it is they did not go to the polls.

In California although the two Democrat candidates favoring the \$30 a week pension plan won just the same its sponsors state the fight will go on.

Governor Olson promised that if elected he would pardon Tom Moon ey, California famous Dreyfuss. He was imprisoned 20 years ago for the bombing of a preparedness parade. The case against him was not strong nevertheless he has been unable to get paroled or pardoned, all previous governors turning down his request.

In New York State Elnathan A. Meade, of Battle Creek voted after he died. He mailed his absentee ballot in Monday and died later in the day. Meade was 93 years old. According to authorities his vote was legal. Some years ago a similar case happened here. Mrs. Edward Farnum voted by absentee ballot and died before election. On advice of the Attorney Don VanWinkle, the board Putnam township counted the ballot.

The woods are beginning to fill with deer hunters and soon the nimrods will be returning with bucks or alibies as to why they failed to get any. The fact that there are any deer to hunt at the present time is due mostly to the conservation dept. In the early days they were slaughtered the same as the passenger pigeons and by 1870 the deer in the lower peninsula were almost gone, game laws were then put into effect and a closed season on deer was established. The result was that the deer herds staged a comeback and the probabilities are that there will always be plenty of deer to hunt in Michigan.

For sheer grit we take off our hat to John Corcoran, a player on the Beloit high school football team. Recently he broke his left arm and went to the game between Beloit and Janesville with the broken member in a cast. When his team neared the goal line he was called on to place kick and did so, scoring a point for his team. This is the kind of spirit that wins games.

Governor Murphy while in office inaugurated many far reaching reforms which had been agitated for a long time by preceding governors but never put into force. It is hoped that his predecessor will not allow them to be junked.

The prize election day carried a story to the effect that a racehorse named (New Deal) had also been beaten. However they failed to add that the horse which beat him was called (Fool'em).

The O. E. S. will give a dance at their hall on Friday night, Nov. 18th, with door prizes. Admission 35c.

Lovely Squares Easy to Knit

Pattern 1820

A hand-knit spread—a priceless gem! Here's one of squares, so easy, anyone can knit it. Done on 2 large needles with 2 strands of string, there's no increasing or decreasing. You'll be pleased with it! Pattern 1820 contains directions for making the square; il-

lustrations of it and of stitches; materials required; photograph of square.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle, Needlecraft Dept., 82 Eighth Ave., New York, N. Y.

Please write your name, address and pattern number plainly.

Ample Precaution—Hence Little Concern

Adeline Genes, famous dancer, now retired, tells this story: Two young ladies—nongolfers—who wandered over a golf course and, finding a nice smooth bit of turf with a little flag in the center, sat down to rest. A couple of men in the distance shouted "fore" and madly waved their arms, but not having been introduced, the ladies took no notice.

Soon one of the men came striding up. "Don't you think it's very dangerous to sit here?" he asked gravely.

"Oh, no," replied one of the ladies, with a smile. "You see, we're sitting on a mackintosh."—Kansas City Star.

Speed of Baseball

Ken says: According to Dr. Coleman R. Griffith of the University of Illinois, some pitchers are able to throw a baseball at an initial speed of 120 feet a second. An average fast ball travels about 88 feet a second, making the time from the pitcher's hand to the batter approximately a half second. Most out-curves are slow balls that travel not more than 60 feet a second.

CHECK YOURSELF FOR THESE COMMON SIGNS OF ACID INDIGESTION

• If You Have Any of These Symptoms—and Suspect Acid Indigestion as the Cause—"Alkalize" the Quick, Easy "Phillips" Way. If the Trouble Persists—See your Doctor.

Now there is a way to relieve "acid indigestion"—with almost incredible speed. You simply take 2 teaspoonfuls of Phillips' Milk of Magnesia 30 minutes after meals. OR—take 2 Phillips' Milk of Magnesia Tablets, the exact equivalent.

Results are amazing. Often you get relief in a few minutes. Nausea and upset distress disappear. It produces no gas to embarrass you and offend others.

Try it—Get liquid Phillips' Milk of Magnesia for home use and a box of Phillips' Milk of Magnesia Tablets to carry with you.

WHAT to EAT and WHY

C. Houston Goudiss Describes Correct Diet for Cool Weather; Explains How to Keep Warm and Well

By C. HOUSTON GOUDISS

MANY people look upon fall weather with foreboding. They cannot observe leaves on the ground without a feeling of vague uneasiness—and the sight of brown and barren fields fills them with desolation.

This, I think, is a throwback to an earlier day when the advent of cool weather foretold long months of bitterly cold days in draughty, inadequately heated houses. And the lack of adequate heat was only one of many difficulties. The principal reason for fearing cold weather is another heritage from the past.

Limited Diet of an Earlier Day

There was a time within memory of many of us when the terms "cold-weather diet" and "warm-weather diet" had real meaning. Winter food differed a great deal from summer food, particularly in the absence of fresh fruits and vegetables, and in the restricted use of milk, and milk products.

The limited diet of winter was enforced by conditions of that period. Methods of production, transportation, refrigeration and storage of foods, which are commonplace today, were then unknown.

Fruits and vegetables were consumed when and where they were grown, and when cold weather prevented their growth, they were not available. The canning industry was young and the grocery store in cold weather presented a far different appearance from the modern food store in which the shelves are lined, row upon row, with shining cans of the finest fruits and vegetables to be found anywhere in the world, plus an amazing assortment of prepared milks.

It was an accepted fact that fruits, vegetables, and the generous use of milk belonged to the summer months, while in winter everyone ate an unbalanced diet. As a result of lacking these essential protective foods, health went down rapidly from late fall to early spring.

The winter diet was deficient in minerals and vitamins, which science has proven to be the protectors of health, barriers against disease, sustainers of life. But in those days, vitamins were unknown and very little had been learned about minerals. Therefore, when people became ill during cold weather, the natural conclusion was that sickness was inevitable during the winter season.

Cold Weather Really a Tonic
Times have changed. Scientific knowledge has increased. The genius of man has asserted itself in mechanical advancement. The expressions, "cold-weather diet" and "warm-weather diet," have lost their former meaning.

Almost without exception, the protective foods are available throughout the year, no matter where we live.

It is therefore possible to protect the health by a balanced diet all the year 'round, and to benefit by the tonic effect of cold weather. For, contrary to popular belief, "cold weather is beneficial, and not harmful, to healthy people."

Cold speeds up all the activities of the body. The circulation is improved, muscle tone is increased, and digestion, absorption and elimination are stimulated. Even prolonged cold is thus a tonic to health, provided we do not weaken our bodies by an unbalanced diet.

It is partly because so many people continue to eat improperly, in spite of our newer knowledge of nutrition, that we still find an increasing amount of sickness in the fall, which mounts steadily until it reaches its peak in the months of January, February and March.

Dangers of an Improper Diet
Yet winter need have no terrors for the fit. Only the weak, the unfit, surrender and become its victims. That the number of vic-

tims is large each winter merely indicates how many people neglect their health through careless living, and especially through careless eating.

Measures to protect one's self against the attack of winter should be taken during the summer and early fall. A sturdy resistance against the ill of winter should be built up by means of a balanced diet which assures an abundant supply of the minerals and vitamins.

When a person is undernourished or improperly nourished, he is denied of every defense. He is chilled by the slightest drop in temperature. He offers fertile soil for every kind of disease germs. He can neither resist their invasion, nor fight them off after they have attacked.

Thus, the first rule for keeping warm and well in winter is to live and eat in a manner that helps to maintain health and strength. The correct winter diet differs in one important respect—and one only—from the correct diet at other seasons.

More Fuel Foods Required

As a rule, people are more energetic in cold weather and it is therefore necessary to increase the amount of energy-producing foods. Nearly all children, and adults who spend much of their

time out doors, should consume more high caloric foods which may be provided in the form of easily digested carbohydrates, such as rice, macaroni, spaghetti, noodles, potatoes, cereals and breadstuffs.

In the case of adults, the amount of fats may also be increased and in some circumstances, more sweets may likewise be taken.

To summarize, the cold weather diet should include a quart of milk daily for every child, a pint for each adult; two fruits daily, or one fruit and one fruit juice—and while one serving may be a dried fruit, such as prunes, apricots or figs, there should be one serving of a citrus fruit, or tomatoes, to provide vitamin C; two vegetables besides potatoes, one of which should be of the green, leafy variety, either fresh or canned; an egg daily, or at least three or four weekly; one daily serving of meat, fish or chicken, and a second protein food such as cheese, dried peas or beans or nuts; and enough of the fuel foods including whole grain cereals, to keep the body warm and comfortable.

If you eat correctly and dress sensibly so that you are neither too warmly clad indoors nor too thinly clad out of doors, you can enjoy cold weather and benefit by it to the extent of increased health and happiness.

Questions Answered

Mrs. F. L. B.—Egg white is a solution of pure protein. The egg yolk contains minerals, vitamins and fats, in addition to protein.

Miss C. M. B.—In general, whole raw fruits, especially those with skins and seeds, provide a slightly harsher residue than that of cooked fruits, or the pulp of raw fruits with skin and seeds removed.

—WNU—C. Houston Goudiss—1933—34.

Your Health May Depend on Your Teeth

An Editorial by C. Houston Goudiss

The reason why some men and women in their middle years look and feel younger today than their parents did at the same age, is because they have learned something of the importance of caring properly for their teeth. In recent years, dentists have discovered that sound teeth are in truth a passport to good health, and that there is as close a relationship between healthy teeth and healthy bodies as between decayed teeth and sickly bodies.

Unfortunately, however, only a small percentage of our population is yet aware of the far-reaching effects of teeth upon health, and a distinguished scientist is so disturbed over our national ignorance in this respect that he has said that unless this trend is reversed, the course of human evolution will lead downward to extinction. That statement is no exaggeration. For it would be difficult to over-estimate the influence of the teeth on human health and happiness.

For many years I have endeavored to explain that a neglected tooth—which soon becomes a decayed tooth—is a poison factory, distributing its noxious products to every part of the body, and that it may lead indirectly to neuritis, rheumatic ailments, dyspepsia, and other obscure complaints.

In many of the "WHAT TO EAT AND WHY" articles, which have appeared in this newspaper over my signature, I have endeavored to point out the close relationship between diet and dental disease; between frequent and thorough brushing of the teeth with an efficient dentifrice so as to remove all food particles, and strong, beautiful teeth.

As a result of these articles, I have received many letters, showing that homemakers are eager for sound, authoritative advice on the proper care of the teeth. To help these and other readers how to properly care for their teeth, I have prepared a booklet on—"BUILDING AND PLANNING HEALTH" which I am offering FREE, because I feel so strongly that this information should be in every home, knowing as I do, that the salvation of the human race may lie in saving their teeth.

Address, C. Houston Goudiss, 218 S. Desplaines St., Chicago, Ill.

EASE PAIN

of Rheumatism, Neuritis, Neuralgia Quickly

SIMPLY GET BAYER ASPIRIN—FOLLOW EASY DIRECTIONS BELOW

1. Take 2 Bayer Aspirin Tablets with a full glass of water pain is usually relieved in 15 minutes. 2. You should feel relief very quickly. If a full glass of water pain is usually relieved in 15 minutes. 3. If you feel better, repeat another 2 tablets or 4 tablets, according to directions.

To relieve pain of rheumatism or neuritis quickly, try the Bayer Aspirin way—shown above.

People everywhere say results are remarkable. Yet Bayer Aspirin costs only about one cent a tablet, which makes the use of expensive "pain remedies" unnecessary.

If this way fails, see your doctor. He will find the cause and correct it. While there, ask him about taking Bayer Aspirin to relieve these pains. We believe he will tell you there is no more effective, more dependable way normal persons may use.

When you buy, always make sure you get genuine BAYER Aspirin.

Hanging Shelves You
Can Make of Spools

By RUTH WYETH SPEARS

WHEN a number of persons have the same idea at the same time there is a reason. Recently I helped a friend make hanging book shelves of spools she had been saving. Today there comes a letter from a reader who says, "I have found so many helpful things in your book 1-SEWING for the Home Decorator. I wonder if you have any ideas on fixing up spools? I have in mind the spool book shelves and corner

shelves they used long ago." It's probably the general revival of Victorian ideas in decoration that has started everyone thinking of spool shelves.

We seemed to remember that the shelves we had seen years ago in old parlors were put together with colored cords. We tried this, but the shelves were not rigid as the cords stretched. So we used wire and the result has been a substantial set of shelves strong enough to hold reasonably heavy articles.

A little less than 12 1/2 feet of wire was used for the shelves shown here. Two sizes of spools were used. Shelves, spools, wires and all were finally painted to match the brightest tone in the room color scheme—in our case it was peacock blue. There are picture directions like these on every page of Book No. 1-SEWING for the Home Decorator. If your house is your hobby, it will be full of thrills for you. Don't go through the holidays with shabby curtains or slipcovers. This book illustrates every step in making new ones. Book 2: Novelties and Embroidery shows how to make dozens of Christmas gifts from odds and ends of material. Books are 25 cents each. If you order both books an interesting quilt leaflet included free. Address Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

This is the time of year when town and rural folk are getting ready for Winter. Your car is as important then as now. Give it a thought. Be forehanded. Stop at your favorite dealer and let him drain the Summer-worn oil and put in Acid-Free Quaker State Winter Oil. You'll be thankful the first cold morning—Adv.

Awake at Day

Success consists not so much in sitting up at night as being wide awake during the day.

NERVOUS?

Do you feel so nervous you want to scream? Are you cross and irritable? Do you need a good general system tonic, try Lydia E. Pinkham's Vegetable Compound, made especially for women.

For over 60 years one woman has told another how to go "smiling thru" with reliable Pinkham's Compound. It helps nature build up more physical resistance and thus helps calm quivering nerves and lessen discomforts from annoying symptoms which often accompany female functional disorders. Why not give it a chance to help YOU? Over one million women have written in reporting wonderful benefits from Pinkham's Compound.

Dies Committee Bares Activities
Of Radical, Communist Groups

Unseen and Malignant Growths Are Being Bred Into Our National Life by Agitators Who Seek to Destroy Our Government; Spread Poison in Ranks of Labor.

By WILLIAM BRUCKART

WNU Service, National Press Bldg., Washington, D. C.

WASHINGTON.—"Unless something is done to curb radicalism in my section, there is going to be an awful clash and a lot of people are going to get hurt."

So spoke Fred W. Frahm, superintendent of police of the city of Detroit, Mich. And his statement was under oath, for he was giving testimony before a committee of the house of representatives, a committee charged with exposing to view the un-American activities of certain groups in this country. It was the statement of a man who is serving a city in an official capacity and who has gone through 246 sit-down strikes which he asserted were the direct result of agitation by the radicals to which he referred. He looks for more in the near future and added, by way of emphasis, that "these communists and radicals do not want to seek adjustment of differences between labor and management; they want to make trouble all of the time."

Through a number of weeks, the house committee before which Mr. Frahm testified, has been taking testimony, gathering evidence, digging here and there in its effort to uncover the activities of subversive groups and expose them to public view.

It has been the contention of the chairman, Representative Dies of Texas and some other members of the committee, that most of us are not aware of the unseen and malignant growths that are being bred into our national life. They are out to destroy our government, to bring to us the type of thing that has made Russia famous.

Mr. Dies is a sincere and honest legislator, and he is trying to do the job assigned him, even when several of his committee members have sought to balk his efforts. But there is much more to be done in the direction of exposing radicalism and the chiseling, cheating, cowardly efforts the agitators put forth.

Charge Communists Active
In Government Offices

What I am wondering is why Mr. Dies has not sent his investigators into the very offices of the federal government, itself. Or, if he has done that, as it is gossiped about, then why shield anybody? Why not turn the spotlight of publicity on the individuals who want to destroy the American system, the American form of government, American tradition, the American profit system of doing business? There has been much talk in the last several years about the operations of communists within the very walls of the government, men and women who are boring from within as termites destroy lumber, and we ought to know the truth. If they are within the government, they ought to be exposed and chased out of the western hemisphere; if they are not operating as is gossiped around, then their names ought to be cleared. In any event, I hope the Dies committee goes on and shows the cancerous nature of groups that do not believe in our system, whether they be Russians, or Germans, or Italians, or British or what have you.

It has been the favorite device of the radicals and their henchmen to characterize any official who attacks them as being a subject for the insane hospitals. Their game has been to laugh people out of court whenever an effort was made to tell of some of the things the agitators were doing. Many will recall an investigation by a house committee several years ago where the witnesses were laughed down and a courageous superintendent of schools from Gary, Ind., was made to look foolish because of the charges he made. Well, if my opinion be worth anything, the folks who were the suckers in that play were the supposedly intelligent members of congress who made up the committee. It was they who fell for a trick of propaganda. Either that was the case, or the members of that committee were just plain dumb.

Lewis Cannot Break Grip
Of Communists on C. I. O.

Concerning the sit-down strikes about which Mr. Frahm testified, I want to boast that I wrote of communist participation in those sit-down strikes when they were happening. I had several letters thereafter, calling me a red-baiter. Mr. Frahm now has put into official records the facts that must be obvious to any real American, and he further has expressed the opinion that John L. Lewis, head of the C. I. O., cannot break the grip that the communists have on his organization. That may be the reason why Mr. Lewis has been so silent the last several months. Maybe he sees that the labor group of which he was so proud has become a gargantuan monster

that is slowly swallowing him, physically large as he is.

There is, of course, the danger that a lot of people will make foolish and unsupported statements about red activities, thus throwing doubt on the really serious phases. That always seems to happen. Unwittingly, that type of person which shouts and shouts and has no proof creates the impression that all cries of "wolf, wolf," are meaningless. But when a congressional committee has the courage—rather, when its chairman over objections of some of its members—has the courage to bring the stuff out for public examination, there must, indeed, be a basis for it.

The tragedy of the thing is that the labor movement as a whole will suffer a severe setback. The fact that the radicals have grabbed control of the automobile workers' union means that they have "cells" in other groups also, and that these cells slowly but surely will be spreading poison and trouble. The agitators seize upon the unthinking, the foreign-born who are not steeped in our customs or love of country, or upon elements that have been badly treated and they will use these innocent victims to carry out their destructive plans.

C. I. O. Being Used as Tool
For Destructive Purposes

There will be much more labor trouble. You can count on that. The Communist party representatives will never allow the slightest chance for creating trouble to escape them. They are determined to convince labor that it cannot trust the managements; they are encouraging the breaking of agreements between labor and management to the end that employers will have no faith in the leaders of labor, and they are using the national labor relations board wherever that can be done to give official voice to labor troubles. That fact is chiefly responsible for the position which the C. I. O. group has taken in opposition to proposals for revision of the labor relations act. William Green and the American Federation of Labor are urging revision of the law, but C. I. O., having its tentacles in the labor board, obviously does not want its grip broken.

It has been known for a long time that the C. I. O. was being used as a tool for destructive purposes, but the agitators and emissaries were sly and careful. They covered their tracks. Such information as leaked out was promptly discredited by the very reds who had done the job—and they discredited any individual who repeated the story by laughing at his gullibility.

However, there is one instance which cannot be denied. The clerks in the rural electrification administration organized a union and affiliated with C. I. O. It was to have social as well as fraternal aspects. There was a dance scheduled. Negro workers attended and insisted on inter-racial participation in everything that was done. They said they were told to do so by representatives of C. I. O. After the dance was concluded, so participants have reported, a phonograph record was procured and the following notes of "The Internationale," communistic anthem, blared forth.

Dies Committee Exposes
Methods Used by Radicals

The Dies committee record is full of testimony about methods employed by the communists in their devious borings and destructive tactics. The record tells, too, of how many innocent appearing organizations, created for an allegedly useful purpose, are captured by communists and used by them to obtain money contributions—for which no accounting ever is made. And tragic, also, are the stories of how the real leaders laughed at the suckers who gave hard-earned money, laughed in the secret recesses of their hideouts about the soft and easy minds of Americans.

But another session of congress is coming. The Dies committee will make a report and probably will ask an appropriation to enable it to go on. We will see who opposes that appropriation. There probably will be opposition from two or three members of the committee itself, and we will see who they are. If they are outspoken in their opposition, I suspect most people will know why.

I think this condition has reached the point where attention should be paid to it by the federal government. It is now hot on the trail of some alleged German spies who were seeking American military secrets. So why not make a thorough job of it and lift up the lid that hides various other kinds of spies whose work, to my mind, is much more dangerous to American national life?

WHAT to EAT and WHY

C. Houston Goudiss Describes Food Value
and Versatility of Gelatin; Outlines
Its Many Uses in the Diet

By C. HOUSTON GOUDISS

WHEN we try to appraise the nutritional values of any one food in comparison with others, as a rule we have a difficult task. Most foodstuffs are composed of so many different substances that what is lacking in one will be supplied by another, and making comparisons may therefore be misleading as well as futile. But there is one food which is outstanding, not only because it is far less complex than most others, but because it is no exaggeration to say that without it, some of us might not be alive, and those of us who are alive would obtain far less enjoyment from our daily existence.

That food is gelatin!

What Is Gelatin?

Gelatin is a protein food which has no equal as a carrier, binder and "extender" of a wide variety of other nutritive materials. Chemically, it is classed as a colloid, which means that in solution, it can be removed from its solvent by filtration. It is because of this that it is so useful in producing smooth, delicious ice creams and other dainties.

Gelatin is an almost pure protein—a kind of protein known as an albuminoid. It is not a complete protein, because it is deficient in three of the amino acids that are necessary both to support growth and repair body tissues. In this it differs from meat, cheese, fish, eggs and milk, which are known as complete proteins.

It cannot be used as the sole source of protein in the diet, because those three missing amino acids are necessary for the formation of new body tissue. But it is especially rich in lysine, one of the protein building stones that is particularly important in the diet of children. Experiments indicate that no other amino acid can take the place of lysine and that it must be furnished by the food if adequate nutrition is to be maintained.

That coupled with the fact that it is non-irritating and easily digestible accounts for the large part it plays in the diet of infants and young children.

How It Is Made

Contrary to old wives' tales, gelatin is not made from hoofs and horns. In fact, there is no gelatin in hoofs or horns. It is extracted from connective tissue in the skins and from the bones of food animals.

Every homemaker who has made soup by simmering a knuckle bone for hours, and has found the soup "jellied" after standing overnight in the refrigerator, has prepared gelatin on a small scale. The same principles are followed by the gelatin manufacturer, only he operates in a much larger food kitchen, and each step of the preparation is scientifically controlled so as to

Pillow and Chair Set
Of Crocheted Lace

Pattern 6168

Spend spare moments profitably with your crochet hook and some string and add charm to your home with crocheted accessories that match! Interesting to make and inexpensive, too, you could make either chair set or pillow alone or make a pillow with matching scarf ends. Can't you see what attention they'd attract at a bazaar? Pattern 6168 contains charts and instructions for making the set; illustrations of it and stitches used; materials needed.

To obtain this pattern, send 15 cents in stamps or coins (coins preferred) to The Sewing Circle, Household Arts Dept., 259 W. 14th St., New York, N. Y.

Please write your name, address and pattern number plainly.

insure a uniform finished product.

Gelatin is sold in two forms: the unflavored, granulated product which requires the addition of flavoring, and when used for dessert purposes, sweetening; and the gelatin dessert powders which contain added sugar, color, flavor and fruit acid. So popular are these convenient gelatin desserts, that about 10,000,000 pounds of gelatin are used annually for this purpose.

From Infancy to Old Age

Nutritionists recognize gelatin as a food possessing many unique advantages in the daily diet, and it is prescribed by physicians for a variety of special diets. New-born babies, for example, are sometimes given a gelatin-sugar-salt solution which provides readily available protein to raise the protein level of the blood. When an infant cannot readily digest milk, owing to the formation of hard curds, the doctor may recommend the addition of 1 per cent of gelatin dissolved in the milk. This usually causes it to be assimilated easily and satisfactorily.

When it comes time to change a baby's food from liquids to solids, gelatin also proves useful. For its soft, semi-solid texture makes an excellent transitional food. With toddlers and school children, gelatin—the carrier and "extender"—provides a splendid method for offering foods that are disliked. Vegetables that draw forth protests when presented in the usual fashion are eaten with relish when molded into a sparkling time- or lemon-flavored salad. The coarse texture of certain raw vegetables, such as carrots and cabbage, or the tart flavor of some fruits, may likewise be modified by serving them in a gelatin base.

And it doesn't require statistics from nursery schools to tell mothers how readily children eat gelatin desserts when they are brilliant with color and flavored with orange, raspberry, cherry, straw-

Building, Maintaining
Healthy Teeth

By C. HOUSTON GOUDISS

It is an alarming fact that almost every adult in this great land of ours is affected by some form of oral disease, and that more than 90 per cent of our school children have decayed teeth. A prominent medical authority made the statement that if dental decay became rare, instead of almost universal, more than half of all sickness would be eliminated.

Remarkable and widely heralded advances have been made in our knowledge of how to control and prevent many dangerous and debilitating diseases. A decayed tooth is a poison factory, distributing its noxious product to every part of the body. In the body, that poison attacks and centers in the weakest spot. It may lead to neuritis, rheumatic ailments, dyspepsia, or duodenal ulcers. It may even be a contributing cause of heart disease.

Only a small percentage of our population is yet aware of the far-reaching effects of teeth upon health. There is a close relationship between healthy teeth and healthy bodies, and between decayed teeth and sickly bodies.

By learning something of the importance of caring properly for the teeth, some men and women of middle age look and feel younger than their parents did at the same age.

I have endeavored in many of the WHAT TO EAT AND WHY articles, which have appeared in this newspaper over my signature, to point out the close relationship between diet and dental disease; between frequent and thorough brushing of the teeth with an efficient dentifrice so as to remove all food particles, and strong, beautiful teeth.

I have received many letters from readers of these articles, showing that homemakers are eager for sound, authoritative advice on the proper care of the teeth. To help these and other readers to know how to properly care for their teeth, I have prepared a booklet on BUILDING AND MAINTAINING HEALTHY TEETH which I am offering FREE, because I feel so strongly that this information should be in every home, knowing as I do, that the salvation of the human race may lie in saving their teeth. Address, C. Houston Goudiss, 210 S. Desplaines St., Chicago, Ill.

berry or other well liked flavors. Every mother knows this from her own experience—and I rather suspect that many mothers describe these attractive molded desserts as the prize to be won in return for cleaning the plate of the main course!

In the Reducing Diet

Both men and women who are counting their calories, in an effort to avoid overweight, or to reduce, can profit by taking gelatin salads and desserts, which satisfy hunger without providing unwanted fuel value.

In cases of digestive disturbance, gelatin is frequently recommended because of its bland taste, and because it leaves no residue in the lower intestinal tract.

This same splendid food is also advised by doctors when a high protein diet is desired to speed growth, or during convalescence from an illness. Gelatin may be added to broths, milk, fruit and vegetables, and these, in turn, may be incorporated in solidified gelatin.

Indeed, this many-sided foodstuff has come to play such a wide and varied role in nutrition, not only by itself but by enhancing the value of other foods, that it must be numbered among the products that help to increase national health and vigor.

Over Sixty-Eight Years of Safe Banking

The Reign of Law

The Common Law of England has come down to us through the years. It is not definite written law such as you find in the statutes of Michigan or of the United States of America. It is a long line of decisions by courts over the conduct of men toward each other. Over the course of years these decisions have come to be regarded as law and any infringements are accompanied by a penalty paid by the offending party to the injured.

As in the law, past procedure decisions govern so in banking it is our duty to point out a path to a certain degree of financial independence for later years. We have seen persons, who save regularly from not too large earnings, build substantial estates. We have also seen others who spent freely, reach the latter part of life with only small comforts to look forward to.

Plainfield

The WMS met last Wednesday at the home of Mrs. N. Hoffmeyer. Mr. and Mrs. J. Kinsey and two daughters were Sunday guests of Mr. and Mrs. H. E. Ellis of Detroit. Mr. and Mrs. B. W. Roberts and Paul were Sunday guests of Mrs. Florence Dutton. Nov. 23 the WMS Ladies will serve sandwiches, cake and coffee at the church. Rev. F. R. Stephenson of Baltimore will speak, special music and a free will offering will be taken. Dev. 7th, the Ladies Guild will give a fish supper. Aprons, towels and candy will be sold. Every body welcome. Mr. and Mrs. Ed Bissonett of Detroit were Sunday callers of Mr. James Walker. Mr. and Mrs. Norman Topping and family called Sunday on Mr. and Mrs. Carl Topping and family.

Reverend and Mrs. D. W. Ryan attended ministerial meetings last Monday at Barryville.

Wind blew down telephone poles here Sunday, crippling service. Mr. and Mrs. Clare Holmes of Lansing spent some time with his parents, Mr. and Mrs. A. J. Holmes last week.

Mr. and Mrs. F. E. Gauss entertained the friendly Bible Class last Friday night. Refreshments were served, with 14 members present. Officers were elected for next year.

The Misses Fay Leach and Kaya Roberts were Sunday guests of Mrs. Jack Butler.

Mr. and Mrs. Roy Gladstone were Sunday guests of Mr. and Mrs. L. Miller of Holt.

Gregory

Devoy Breniser and family are attending the week with Delbert Harvey and family and Carmen A. Wheeler and family of Onaway. Mr. Breniser is deer hunting during their stay.

Charles Burden, Thomas Howlett, Howard May, Eber Sawtell, Mr. Roberts, Mr. and Mrs. Herman W. and Mrs. Arlo Worden, John Simons, Lloyd Hicks, Clifton F. Osborne, sons, Lee and Kenneth, Wayne Bradshaw, James Livermore, Russell and John Livermore of Dexter and Mr. and Mrs. Cleve A. Pool are among the deer hunters in northern Michigan.

Mrs. Flora Gallup was quite badly injured last Thursday when she fell off the porch.

Harold Hartsuff and family of Haslett were Sunday callers at the H. E. Munsell home.

Mrs. Lawrence Owens spent last Tuesday in Flint with her sister.

Mr. Wagoner spent the week end with his family here.

Dorr Lillywhite is working in the factories in Detroit.

Dan Howlett and Dan Denton arrived home from Florida the last of the week.

Mr. and Mrs. Freeman Carr are settled in their home they recently purchased of the M. E. Kuhn estate.

Hamburg

Hamburg lodge IOOF will serve a fish supper at their hall Saturday night, from 6 to 9 p. m. Price 40c. Hamburg township polled 380 votes at the election Tuesday, one of the largest in its history.

The result of the election was as follows: Governor, Fitzgerald, 254; Murphy 123; Lt. Governor, Dickinson, 229; Nowicki, 136; for Secretary of State, Kelly, 220; for Cash, 144; Attorney General, for Read, 228; Starr, 136; Treasurer, Dunckel, 228; Frye, 137; Auditor General, Brown, 223; Gundry, 138; Congressman, Blackney, 227; for Treasurer, 123; State Senator, for Hittle, 128; Thompson, 131; State Legislator, Adams, 235; Runciman 127.

Prosecuting attorney, Gates, 226; Lavan, 147; Sheriff, Fawcett, 98.

Kennedy, 275; Clerk, Hagman, 234; Payn, 128; Treasurer, Eastman, 204; Ledwidge, 164; Register of Deeds, Bush, 226; Gates, 144; Circuit Court Com., Munsell, 229, no opposition; Drain Com., Munsell, 215; Dinkers, 124; Coroners, Guy Grieve, 223; Gentry, 136; Wines 217; Singer, 144; Surveyor, Clay Gordon, 225, no opposition; Sup. of poor, Eager, 225; Fear, 129, for Itself, 226; Golden, 128; Wilson, 219; Meinke, 136.

Mrs. Smith Martin of North Hamburg was hostess at the month end meeting of the Lakeland circle of Kings Daughters Wednesday on November 9th. 34 were in attendance. Mrs. Jay Marr county pres. and Miss Mary Austin of Howell, Mrs. Wm. Merritt of Northville, Mrs. Retta Griffin of Waterford and Mrs. Isaac Shipley were guests.

The losers in the fund contest served a most delectable one o'clock dinner table favors being miniature electric table lamps. The business session which followed was in the charge of the president, Mrs. Elmer Stoffler.

Mrs. Ben Borton and Mrs. Joe Basydo were admitted as new members the admission service was given by Mrs. Marr.

The emergency committee was requested to visit Mrs. Coon and ascertain what is needed for her infant child.

Mrs. Marr gave a talk on the health program and other features of the work and a report of the state convention.

The meeting opened with singing Scripture reading and repetition of the Lord's prayer. Official reports were given by Mrs. Thomas W. Featherly, Miss Julie Adele Ball, and Mrs. Harry Lee and other routine business transacted.

The next meeting will be held at the home of Mrs. Clifford Van Horn Tuesday December 13 with pot luck dinner. Each one is requested to bring a 25c gift. Many bed jackets and other garments for the U. of M. Hospital were brought in.

Mrs. Ben Tomlin received the gift box. In the clothes pin contest Mrs. Clifford Robinson received the first prize on a tie with Mrs. Jane Herman. Consolation was received by Mrs. Joe Basydo.

Mr. and Mrs. Wray Hinckley and Mr. and Mrs. Clifford Van Horn attended a family reunion of the William Parker family at the home of Mrs. Hinckley's brother and her sister in law, Mr. and Mrs. George Parker at Geddes with 35 in the attendance, from Ann Arbor Ypsi Hamburg and Geddes.

Mrs. Hinckley's parents, Mr. and Mrs. Wm. Parker sailed from England on their wedding journey November 28 1860 arriving at Ann Arbor New Year's night 1861 and settled in Geddes where they made their home for the remainder of their lifetime the place now being owned by the son George Parker.

Edwin Shannon Jr. an a party of friends from Whiting left for north Saturday on a hunting trip.

Lakeland

Mr. and Mrs. Harry Lee entertained Sunday in honor of their son, Algen's birthday. Guests were Mr. and Mrs. Mylo Kettler and their family of Eaton Rapids, Miss Dot Carr and Jack Roberts of Detroit, Mr. and Mrs. Robert Ackley of Howell, Chet Kennedy of Michigan State and Miss Julie Stackable of Pinckney.

Mr. and Mrs. Bruce Euler are holding a dance hall to their store.

Mrs. Carrie Abraham who has been here for the summer has gone to spend a few days with her son John Menner in Detroit before she moves to Toledo for the winter.

Ray Dunning and son Robert have gone north deer hunting.

Mr. and Mrs. William Dillaway of Pinckney were dinner guests of Mr. and Mrs. Harry Lee Friday evening last.

Miss Viola Pettys and Mrs. W. J. Van Kluck were Howell callers this week.

Telephone Bourbans, James Noecker and Victor Bourbans are in the north hunting deer.

Red Coral Always Prized
It is red coral that is and always has been prized, not solely for jewelry and buttons, but as a charm to bring safety, health and secrets not revealed to the ordinary person. As ancient Gauls rushed headlong into battle, they trusted their safety to their swords' strength and the "magic" coral imbedded in their shields or helmets. Many Italians and Indians regard coral as protection against the "evil eye." The world's red coral comes from the reefs off the Mediterranean coast of Africa, says the Washington Post, and is obtained chiefly by Italians.

TEEPLE HARDWARE

Cook your Thanksgiving turkey electrically!

DUTCH SUSAN

\$9.50 and up

Electric Cooker

If you want this year's Thanksgiving meal to be a special treat, surprise your family by cooking the holiday turkey electrically. Women are enthusiastic about this appliance. They say—"Everything tastes better"..."Wonderful the way it cooks"..."Perfect in every respect." There's a reason for such comments. Electric cooking has a wholly different flavor—a natural flavor unequalled by any other cooking method. Roasts are done to perfection, with little or no water. Meats and vegetables cook to melting tenderness in their own juices, with all their natural goodness sealed in.

Dutch Susan cookers plug into any electric outlet, and their cost of operation is about 2c an hour. They are available in several styles and sizes, one to fit your needs exactly, up to 18-quart capacity.

See these electric cookers on display at hardware stores, furniture and department stores, electric appliance dealers and at all Detroit Edison offices.

THE DETROIT EDISON COMPANY

We are cooperating

Remembering Good

WE are to go forward, fitted for the work before us, should we not be properly prepared? Instead of indulging the human tendency to look back sorrowfully or to think regretfully of the past, we must learn to think scientifically, keeping our consciousness ever true to God, good.

Meditation upon what in the past was good, reminds us that we should render an account of our present stewardship. Should we not recognize the many blessings we all too often take for granted? Since, as Whittier has said,

"That all of good the past hath had
Remains to make our own time glad,"

let us gladden each day by taking stock of "all of good the past hath had."

Allowing only the good to remain in our thought is a happy service, a grateful prayer of praise. Keeping in our hearts thoughts of the unchanging goodness and omnipotence of God quiets fear and brings new courage, joy, and peace into daily experience.

All thoughts that would keep out of our hearts love for God and man must be recognized as enemies to health, happiness, and holiness. Isaiah termed such insidious errors "other lords." Remembering good, remembering that God is with us, brings proof in our day also that those "other lords" are deceased; they shall not rise; therefore hast thou visited and destroyed them, and made all their memory to perish" (Isaiah 26:13, 14). How happily we go forward when "all their memory" has perished!

What is it, after all, that makes our days seem unhappy, with spiritual happiness always within our reach? Is it not that God has been left out of our thoughts, and that love has been crowded out of our hearts? The need of the hour is not that great happiness be brought into our day, but rather that the happiness which is spiritual be recognized, claimed, and shared. Someone has said that there are some in this world who have the gift of finding joy everywhere, and of leaving it behind them when they go. This is the touchstone of real happiness.

Knowing the allness of God, good, brings peace, and peace brings joy, and joy proves the presence of good. Remembering God's gift to mankind in the revelation of the Christ, and remembering the message of "on earth peace, good will toward men" brings about a purification of heart!

Mary Baker Eddy gleaned something of good from every one of her experiences. Out of her rich triumphs came her admonition (The First Church of Christ, Scientist, and Miscellaneous, pp. 149, 156). "Remember, thou cannot be brought into no condition, be it ever so severe, where Love has not been before thee and where its tender lesson is not awaiting thee." The way to turn from sad scenes in memory's lane need not be learned through hard lessons. Only when we cling to grief through self-pity do we miss Love's "tender lesson." Challenging every condition with the question, "What is Love's 'tender lesson'?" will turn our struggling into the giving of thanks to God.

The measure of our progress should be estimated, not by how much we know of Truth, but by how well we live and love it day by day, and by how much we express the spirit of good will toward others. A constant rule for constant good.

Refuse sensibly! Loss up to 7 lbs. weekly.
Safe and inexpensive. Chart and information
free. Write Dr. Wendt, Canton, S. D.How to Make Your
Hooked Rug Designs

By RUTH WYETH SPEARS

ANOTHER letter today from a reader who says she has made many things from the books she has read, but she has always worn them out, but would like more information about rug designs. So here is the answer to her question about making flower designs.

Use a wax crayon or soft pencil to mark the pattern on a 51 by 33-

inch piece of burlap. Then divide the rest into 9-inch squares. Now, mark every other one of these big squares into small squares to be hooked in mixed stripes.

We are now ready for the flowers; here are ten posies of the type that grandmother drew. No. 1: just two circles. No. 2: A spiral outline with a circle around it makes a rose. No. 3: a spiral with four petals. Sometimes more petals were used. Nos. 4 and 5: a circle or an oval with five petals becomes a wild rose. Nos. 6 and 7: one oval inside another with a triangle added becomes the morning glory type of flower. Nos. 8 and 9: draw a big U and add petals at the top. No. 10: another kind of trumpet flower drawn with straight lines.

Tan is a good background color for the flower squares. Rags or rug yarn may be used. A rug hook, which is like a big steel crochet hook with a wooden handle, may be purchased in fancy work departments. Just pull loops of the yarn or rag strips through to the right side of the burlap with this hook.

With the help of Mrs. Spears' Book 1—SEWING, for the Home Decorator—you can make many of the things you have been wanting for your house. Book 2—Embroidery and Gifts—is full of ideas for ways to use your spare time in making things for yourself and to sell. Books are 25 cents each. If you order both books quilt leaflet illustrating 36 authentic stitches is included free. Address: Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

BILIOUS?

Here is Amazing Relief for Conditions Due to Stagnant Bowels. **ANTONIC** is a powerful laxative, it cleanses the bowels, it is safe, it is pleasant, it is effective. It is the only laxative that does not irritate the bowels. It is the only laxative that does not cause cramps. It is the only laxative that does not cause dizziness. It is the only laxative that does not cause weakness. It is the only laxative that does not cause loss of appetite. It is the only laxative that does not cause loss of sleep. It is the only laxative that does not cause loss of energy. It is the only laxative that does not cause loss of health. It is the only laxative that does not cause loss of life.

Dark Ignorance
Ignorance is the night of the mind, but a night without moon or star.—Confucius.

How Women
in Their 40's
Can Attract Men

Here's good advice for a woman during her change (usually from 35 to 45), who feels that her appeal to men, who were once so hot, has cooled. It is not the fault of the man, it is the fault of the woman. It is the fault of the woman who has not kept her figure, who has not kept her face, who has not kept her hair, who has not kept her voice, who has not kept her spirit. It is the fault of the woman who has not kept her mind, who has not kept her heart, who has not kept her soul. It is the fault of the woman who has not kept her life.

SYNOPSIS

Barbara Sentry, seeking to sober up her son, Johnnie Boyd, on the way home from a party, slaps him, and attracts the attention of a policeman, whom the boy knocks down. As he arrests him, Professor Brace of Harvard comes to the rescue and drives Barbara home. On the way they see Barbara's father driving from the direction of his office at 11:45, but when he gets home he tells his wife it is 11:15 and that he's been playing bridge at the club. Next day Sentry reports his office has been robbed and a Miss Wines, former temporary employee, killed. The evening papers luridly confirm the story, and Sentry takes it hard. Mary, elder daughter, in love with Neil Ray, young interne at the hospital where she works, goes off to dinner at Gus Loran's. Sentry's partner, with Mrs. Loran's brother, Jimmy Endie, Mr. and Mrs. Sentry call on old Mrs. Sentry, and Barbara, alone, receives Dan Fisher, reporter, who advises her not to talk. Phil Sentry, son at Yale, is disturbed at the possible implications and suspicion of Miss Wines' absence from her room for three days during August. He goes home to help. Sentry is arrested and booked for murder. Dan Fisher explains the evidence against him—that the robbery was a fake, the safe opened by one who knew the combination, changed since Miss Wines' employment there—that a back door key, a duplicate of Sentry's, was found in the girl's purse, and that Sentry, too, had been away those three days in August. Bruce calls, and backs up Barbara in her denial that Sentry could have done it, because of the discrepancy of time between the slaying and their seeing Sentry on the road. Phil, showing the police over the house, finds his strong box forced open and his gun, which only his father knew of, gone. Meanwhile, the police find the stolen money burned in the furnace. Mrs. Sentry sees her husband, who swears his innocence, and tells her he had known of the robbery and murder the night before, but failed to call the police, and came home at 12:30. Phil and his mother are doubtful of Sentry's innocence, but keep silent.

CHAPTER V
—II—

While they were at lunch, a little later, Dean Hare telephoned to say that Inspector Irons had decided to postpone his interrogations, so for the afternoon they were free. Mary was to see Neil Ray when he went off duty; and as they finished lunch, Linda came to propose that Phil go for a drive with her.

"I have to go out to those mills in Norwood to get some homespun," she explained, "and I hate to go alone."

Phil looked to his mother for consent. "Go along," she said. "Barbara and grandmother will be here." So Phil went, and found a measure of peace and forgetfulness in being thus with Linda. But when she brought him home, in late afternoon, he was reluctant to face them all; instead of going directly indoors, he walked around the house. He heard voices by the muddy stream beyond the pergola and went to look down over the bank. Policemen were there in boats with things like hinged rakes, dragging up debris from the bottom of the stream. One of them saw him and spoke quietly to the others, and they all looked up, silently. Phil went back toward the house, trembling.

He found his mother alone. "Mary's dining with Neil," she explained, "and I sent Barbara in to stay overnight with grandmother. Professor Brace called, drove them in." She smiled reassuringly. "So we'll have dinner together, you and I."

"Professor Brace?" he echoed. He remembered warily that the District Attorney had questioned Professor Brace, but he did not say so. "Funny for him to—hang around."

"I suppose he's naturally interested. The scientific mind, you know." Her tone was edged. "We're under his microscope, like insects."

"He introduced himself to the reporters," Phil recalled. "Almost as if he—wanted publicity."

"I see you don't like him either."

"Oh—I like him all right."

Dinner was served and they went in; and since they might here be overheard they spoke of other things. Phil talked at random, steadily, fighting down his thoughts: that his father had taken his gun, that his father had tried to burn money in the furnace, that his father was a murderer! He must not let his mother guess his dreadful certainty.

And she, as intent to hide her thoughts from Phil as he was to conceal his from her, helped him keep talk alive; but when they left the table and went into the living-room and were alone, silence crushed them; and Phil noisily lighted a fire, and Mrs. Sentry telephoned old Mrs. Sentry's apartment to say good night to Barbara. She reported to Phil, when she left the phone, that Professor Brace had stayed to dinner with them.

"I suppose he's taking notes," she reflected. "Like that German tutor at the foot of the table in 'War and Peace.' Remember? There's just a paragraph about him, but he's perfectly clear cut, a complete character in your mind afterward."

Phil did not remember. "But speaking of Russians," he suggested, "how about some Russian Bank?" So they played till Mrs. Sentry said at last that they might as well go to bed. The house seemed very big and empty when they went upstairs, and parted for the night.

Later, Mrs. Sentry, still awake, heard Mary come in; but the girl did not come upstairs, so her mother went down, a dressing gown over her night garments. She found Mary

in the living-room, standing by the hearth, her lips bitten red, her hands twisting.

And Mrs. Sentry tried in an awkward way—they were not a demonstrative family—to take the girl in her arms, but Mary said, "Don't, please!"

So Mrs. Sentry sat down. "Shall we talk for a while?" she suggested. "Or are you sleepy?"

"Sleepy!" The word was fierce with scorn.

"How is Neil?"

"Very sensible!"

Mrs. Sentry said, "I knew he would—help you."

"Oh—help? Of course!"

"He didn't, then?"

Mary said: "Don't worry about Neil! We were practically engaged, but I told him tonight we must forget that. That after all this, I was hopelessly disqualified to be a missionary's wife, even in China!"

Mrs. Sentry waited. Mary said in a flat voice, passionless as ashes, "He agreed with me."

After a while her mother spoke.

"Good Night! I'm Going to Bed."

tentatively. "I wish I could—hold you in my lap, dear, as I did when you were little and were hurt."

"No, thanks. I'm not little any more." The girl stood before the hearth, rigid and still, her eyes fixed, her hands clasped behind her. Mrs. Sentry thought of a martyr at the stake surrounded by flames, burned without being consumed. She began to talk, of casual, healing things.

"Some people called this afternoon," she said. "Mrs. Harry Murr, bulging with questions she wanted to ask and didn't quite dare. And Mrs. Furness brought Miss Glen. You could see her memorizing every stick of furniture, every picture on the walls, to use in her next novel."

The girl cried: "Mother, don't! How can you stand it?"

"And that young professor, Mr. Brace, dropped in," Mrs. Sentry persisted. "He took mother and Barbara to town."

"You're driving me crazy!"

Mrs. Sentry sighed wearily, surrendering. "I'm sorry about Neil, Mary. Yet—if he couldn't—stand the gaff, isn't it a good thing to know?"

"No it isn't!" Mary cried. "What does that matter, if you love a man? What does it matter if he's weak, a sniveling coward, a drunkard, a thief?" Her eyes widened. "Even a murderer," she whispered. "You go on loving him just the same."

And she cried: "Oh, why is love so deep a part of women, mother? Why can't we be reasonable, sensible?" She spat the word. "Like men!"

And suddenly, seeing the older woman's face, she stopped, said then curiously: "Good night! I'm going to bed." The still room ached when she was gone.

When Mrs. Sentry came downstairs in the morning, Mary had departed, leaving no message; and the older woman felt a deep concern that was hard to despair.

But she hid it from Phil. They stayed at home, together and yet each one alone. Phil wondered whether his mother knew that the Grand Jury might act today; he thought of a group of strange men, in a secret room somewhere, hearing evidence against his father, and trembled as though he were ill. He thought his mother might suggest that they go again to see his father, and knew that he himself had no strength to face the older man and to pretend he did not know what he did know. But his mother did not make the suggestion; and after lunch they drove in to see old Mrs. Sentry, and heard newsboys shouting the name of Sentry, and Mrs. Sentry shivered at last and said with a weary smile: "I think we'd better stay at home hereafter, Phil."

On the homeward way—Barbara returned with them—they heard newsboys calling late editions, and one bawling youngster jumped on the running-board when they stopped for a traffic light to thrust a paper before their eyes. A headline, inches high, "Sentry Indicted," Mrs. Sentry closed her eyes, and the light changed, and the car leaped ahead.

At home a knot of people scattered from the entrance to the drive, gaped at them as they drove in. Phil saw that one woman had broken off a branch of rhododendron, and he thought bitterly: For a souvenir!

Indoors, Barbara asked in a shaken whisper, "Mother, what does 'indicted' mean?"

Mrs. Sentry said, "Hush, darling!" And she asked, "Do you know where Mary is, whether she'll be home to dinner?" She felt cold as iron. Barbara shook her head.

"I think Mary's rotten!" Phil said angrily. "We've got to—stick together!"

"She's pretty unhappy, Phil."

She tried to tell herself: He did not do it! Of course, he had lied to her about the time, that night, knowing she was too sleepy to recognize his lie; but naturally he would lie, after that dreadful moment at the office when he found the dead girl. Found her dead! Mrs. Sentry clung to that thought stubbornly, insisting to herself that Arthur did find the girl dead as he had told her, refusing to remember the panic in his eyes, refusing to remember his tone when he reiterated his assertion that Miss Wines was dead before he found her. Found her dead, he said; and was afraid, and left her and came skulking home.

And Mrs. Sentry hoped suddenly that he would not tell the District Attorney that story of chance discovery and craven flight. Anything was better than that shame. She thought that if he did not speak they might find some woman—any woman—to swear that he had been with her during the hours when the murder occurred. That crime at least would be robust, masculine; not weakly cowardly.

But of course anything, any story true or false that could be made credible, was better than to see him convicted of murder. If that happened, she could never lift her head again. The pride she lived by was worth fighting for. Even with lies!

Linda came in as they finished dinner, and Mrs. Sentry welcomed her, and proposed a rubber of bridge. She clung to Linda's friendly loyalty. Linda agreed; but Barbara would not.

"I'm sorry," she said, trying to smile. "I'm afraid this is my evening for—letting go." Her tones were tremulously brave. "If you don't mind, I think I'll slip off by myself and cry for a while."

She darted away. Phil would have followed her, but Linda said softly: "No, Phil. Let her go!"

They heard Barbara's door close, upstairs. Mrs. Sentry rose and they went into the living-room, and talk ran somehow, and a little after nine, a car grated on the drive.

It was Mary. She came in without laying aside her hat. Mrs. Sentry realized that the car had not gone away, and she was cold with fear of what Mary would say. The girl was flushed. Mrs. Sentry saw, incredulously, that she had been drinking. When Mary spoke, her tones were louder than usual, harsh, defiant.

She said to Linda, curiously. "This is a family council, Linda." She added carelessly, "Oh, stay if you like, of course."

Phil protested: "Hey, Mary, don't talk like that! What's the matter with you?" He exclaimed, "You're drunk!"

She laughed derisively. "If I'm not it's not for lack of trying." And she asked Linda: "Going? All ashore that's going ashore? The ship's sinking!"

Linda said quietly: "No, Mary. I'll stay."

Mrs. Sentry felt desperately that she must speak, must do something. Her heart was full of a great compassion; but old habit of repression bound her tongue. "Mary, you're not yourself!" she said sternly.

"Myself?" Mary laughed in a shrill way. "Myself? Who am I? Who are you? Who are any of us?" And she said furiously: "Oh, I thought I knew! I thought we were so secure, and settled, and decent, and good." Her laughter rang madly. "Decent? Good? No decent, good people will ever speak to us now."

"Mary!"

(TO BE CONTINUED)

Sensitive Springs Spun From Quartz;
Tiny Threads Give Precise Measurement

Quartz, which looks like glass and is a sort of glass, is the last material most of us would use to make a spring. But the scientists in the General Research laboratories find nothing but quartz will do for springs in making precise measurements, says a writer in the New York Times.

Steel springs rust; quartz springs don't. Steel springs are affected by changes in humidity; quartz springs are not. Steel springs begin to lose their temper at about 250 degrees Centigrade (482 degrees Fahrenheit); quartz springs never lose their temper except at temperatures not attained in ordinary practice.

A quartz spring has a sensitivity of one milligram. In other words, it can detect a difference of weight as little as one 23,350th of an ounce. And it always snaps back, after stretching, to exactly the original point of rest.

Suppose it becomes necessary to measure the amount of moisture absorbed by cotton or cellulose. The cotton is suspended at one end of the spring and the weight of the sample determined by the stretch of the spring. By introducing more and more water at varying pressures it becomes possible to deter-

mine just how much moisture cotton can absorb.

Making a quartz thread is something of a fine art. The first step is to spin a fine thread no more than six one-thousandths of an inch in diameter. This is done by heating a fused quartz rod to more than 3,000 degrees Fahrenheit and pulling threads from the rod. The threads are measured by calipers. All within a quarter of a mill of the desired six-mil size are saved. (A mil is a unit used to measure the diameter of a wire. It is equivalent to a thousandth of an inch.)

The final step is to place the thread in a long brass trough which leads to a mandrel (technical term for a drum of the right diameter). As it passes over the mandrel the thread is heated to 1,800 degrees Fahrenheit. The mandrel makes two revolutions a minute. After cooling, the coils are ready for use.

Castle of Merry Old Soul
At the old Roman town of Colchester, in Essex, England, tradition places the castle of "Old King Cole" of the nursery rhyme. Many visit the Eleventh century castle because it has the largest keep of any castle in England.

Pretty Clothes That
You Can Work In

SHOWN here is a house dress designed for large women. Every line of this simple dress is made for comfort and good looks. Ample armholes, a waist that looks slim but is thoroughly unconfined, a skirt wide enough to climb and to hurry in—all assure you complete freedom for working. The front fastening makes it easy to iron as well as to put on. The v-neck adds to the slenderizing effect of the long, plain lines. Contrasting cuffs with a touch of braid brighten it up, effectively.

A diagram design, to be finished in a few hours. Make it of gingham, percale or calico.

Jumper Dress for School Girls.

This is an unusually good version of the always-smart jumper. It has such a nice, tiny waist, the skirt flares—bee-yu-tifully, and the straps are so fixed that they won't fall off at the shoulders. Make several versions of the sweet little blouse, with its round collar and high-shouldered sleeves, in dimity, linen, organdy or flowered challis. One jumper, many blouses, make it easy to have a fresh outfit always ready for school. For the skirt, choose challis, jersey or flannel.

The Patterns.

No. 1623 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 5½ yards of 35-inch material; ½ yard contrasting for cuffs and pocket; 1¼ yards of braid.

No. 1520 is designed for sizes 6, 8, 10, 12 and 14 years. Size 8 requires 1¾ yards of 35-inch material for the blouse; 1¼ yards of 54-inch material for the jumper.

Fall and Winter Fashion Book.

The new 32-page Fall and Winter Pattern Book which shows photographs of the dresses being worn is now out. (One pattern and the Fall and Winter Pattern Book—25 cents.) You can order the book separately for 15 cents.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

© Bell Syndicate.—WNU Service.

Still Coughing?

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

JUST A LITTLE BUMP

Dearborn: Two stories up is quite a distance for any person to fall from, but that's what happened to 10-year old Doris Stassenburg. The outcome was more pleasant than is usual in such cases, for when she was taken to the hospital for observation, doctors could find nothing more serious than a bump on her head.

SHADES OF THE PAST

Bad Axe: Although wildcats may be rather common in some sections of the country, they are a rarity here, most of them having disappeared along with the tall timber. Thus it is to be expected that a wildcat shot by Roy Hicks while he was hunting near here recently will be stuffed and placed on exhibition.

M. S. C. SERVES

AS HOTEL LAD

One thousand meals a day! Home was never like that, but graduates of the institution management course division of Home Economics at the Michigan State College, are not fazed by such an order.

Training center and glorified laboratory for the students of institution management is the Union Cafeteria, ultra modern food service unit which daily sends food for more than one thousand meals from its kitchen. The cafeteria, housed in the Union Building, campus rendezvous for nearly six thousand Michigan State College students, includes not only the public dining room, patronized by Lansing and East Lansing residents as well as students and faculty members of the college, but a women's dormitory and five private dining rooms on the upper floors.

From catering study, with actual planning and service of parties carried out by classes, to practice in serving behind the cafeteria counter, including quantity cooking, equipment study, menu planning, and food cost studies, the Union serves as a general proving ground for the theories of large scale housekeeping taught in other classes.

Employees in responsible position at the Union, from chef to operator of the potato peeling machine, must know their jobs thoroughly. They teach the budding restaurant and hotel managers under their care at class time at the Union Cafeteria. And they may well be proud, if, like the pastry cook, they can say sometime, I taught the manager of Detroit's best known restaurant how to make that famous pie crust.

3,000 NEW LICENSE PLATES SOLD DAILY

The sale of Motor Vehicle license plates for 1939 is progressing at the rate of approximately 3,000 pairs a day, Department of State figures show.

These figures include plates for all classes of Motor vehicles, including passenger cars, dealers cars, and motorcycles.

Plates for 1939 were placed on sale October 27th, so ordered by Leon D. Case, Secretary to State, as an aid to automobile manufacturers who bring out new models in the fall of the year.

About two thirds of these license plates go on new cars; the other one third on earlier model's. Motorists who own earlier model cars, and desire to have new 1939 license plate on their cars, may have them by surrendering their 1938 plates when they purchase the new ones.

WANTED—Raw furs, hides and pelts. Telephone No. 4222 Pinckney. Lucius Doyle.

A new serial, by a famous author Be sure to read For Richer or Poorer by Thelma Strabel which will appear in The American Weekly, the Magazine distributed with the Sunday Chicago Herald and Examiner.

FROM OUR EXCHANGES

Mrs. Frank VanAtta Sr., died at Plymouth Thursday from injuries received in an auto wreck Sept. 1st, in which her husband was killed. Mr. VanAtta was a South Lyon butcher and drover.

The election held last week was the 102nd one in Livingston, the 1st one having been held in 1836.

Due to an outbreak of small pox at St. Johns, the school children it is announced are all immunized.

Clifford Cook of Howell and Miss Anna Lucile Hess of Hillsdale were married at Angola, Indiana, on the 5th of November.

The Brighton Argus carried an article on the history of telephones in Livingston county. The late Dr. C. L. Sigler of Pinckney is referred to as the father and prime organizer of the present Livingston county telephone system.

Shuffle board is all the rage at Stockbridge where 12 teams have been organized.

One of two machines have already been placed in operation in the new Milford Ford factory and the plant is soon expected to go in production.

Brighton High School football team which got away with a flying start has been having its troubles. It has lost to both Holly and also to Farmington.

AMENDMENT NO. 3 ADOPTED

State Highway Commissioner Murray D. Von Wagoner expressed his gratification this week over the adoption by the voters of a constitutional amendment guaranteeing the use of motorists taxes for roads and streets.

The amendment, which was the No. 3 proposal on the November 8 election ballot was adopted by a majority approximating 190,000. It was the only amendment submitted to the people which was adopted.

The amendment becomes a part of the constitution December 8, or 30 days after the general election.

"This amendment is the greatest protection ever accorded Michigan motorists," the commissioner said.

"Although the amendment was not sponsored by either myself or the state highway department, I am very gratified over the result."

"One can hardly estimate the value of this amendment in future highway planning. The voters have guaranteed their road and street system a stable income. Highway authorities should gladly accept the responsibility that the amendment carries with it—the responsibility of using this income in an intelligent progressive manner."

The Amendment was sponsored by the Michigan Good Roads Federation with Gar Wood as general chairman and Chase S. Osborn vice chairman of the Campaign committee. Carl Bowen, engineer of the Ottawa County Road Commission, is president of the Federation.

HOT POTATOES AT BELDING

Belding: Some potato vines got hot and started an unusual fire here a short time ago. While a rural mail carrier was driving over a field some potato vines wound around the drive shaft of his car. He was back in town again before the vines became hot enough, from the friction, to burst into flames and set the car on fire.

PIOUS BEE AT EVART

Evart: Bees which made honey in the cornices of the Baptist church here must have been pious insects. Recently workmen removed 400 pounds of fine quality honey from the cornices, the result of several years' effort by the bees.

CURIOSITY BURIED

EARLY MICHIGAN MAP
Buchanan: Both valuable and interesting was the 106 year old map of Michigan found here by W. Squier. It was published in Philadelphia in 1832. Population for the entire state at that time was listed on the map as 81,262.

LAST WORD IN SERVICE

OLD WAY STILL WORKS
Three Oaks: Using equipment that belonged to his grandfather, John Keefe is making more of his widely known sorghum molasses. A horse at the end of a long pole, which goes around in a circle, grinds the sap from the cane.

NOTICE OF MORTGAGE SALE

Default having been made in the conditions of that certain mortgage dated the 1st day of March, 1934, executed by George E. Hunt and Dorothy I. Hunt, husband and wife, and Isabella D. Walker, as mortgagors, to the Land Bank Commissioner, acting pursuant to the provisions of Part 3 of the Act of Congress known as the Emergency Farm Mortgage Act of 1933, as amended (U. S. C. Title 12, Sections 1016-1019), as mortgagee, filed for record in the office of the Register of Deeds of Livingston County, Michigan, on the 2nd day of April, 1934, recorded in Liber 140 of Mortgages on Page 436 thereof, and which mortgage was thereafter and on the 18th day of May, 1938, by an instrument in writing, duly assigned to the Federal Farm Mortgage Corporation, a corporation, of Washington, D. C., and which assignment of mortgage was filed for record in said office of the Register of Deeds of the County of Livingston, Michigan, on the 27th day of May, 1938, recorded in Liber 143 of Deeds on Page 375.

NOTICE IS HEREBY GIVEN That said mortgage will be foreclosed, pursuant to power of sale, and the premises therein described as:

The Southeast Quarter of Section number Twenty-six, in Township Four North of Range Five East, excepting and reserving therefrom a parcel of land described as follows: Beginning at the Southeast corner of said Section thence west Forty-one rods; thence north Fifteen rods and Four feet; thence east Forty-one rods; thence south Fifteen rods and Four feet to the place of beginning, lying within said County and State will be sold at public auction to the highest bidder for cash by the sheriff of Livingston County at the front door of the Court House in the City of Howell in said County and State, on Tuesday January 24, 1939, at two o'clock P. M. There is due and payable at the date of this notice upon the debt secured by said mortgage, the sum of \$3400.86.

Dated October 22, 1938

FEDERAL FARM MORTGAGE CORPORATION, a corporation, of Washington, D. C., Assignee of Mortgage
DON VAN WINKLE, Attorney for Assignee of Mortgage,
HOWELL, MICHIGAN
PS-1678

MORTGAGE SALE—Default having been made in the terms and conditions of a certain mortgage made

by GEORGE A. YENSON and MARTHA L. YENSON, his wife, of the township of Green Oak, county of Livingston, and state of Michigan, Mortgagor to FRED RASMUSON, of the city of Detroit, county of Wayne and state of Michigan, Mortgagee, dated the 7th day of November, A. D. 1929 and recorded in the office of the Register of Deeds for Livingston County, Michigan on the 9th day of November, A. D. 1936, in Liber 131 of Mortgages on Page 156, on which there is claimed to be due, at the date of this notice, for principal, interest, tax and title search, taxes and insurance, the sum of Three thousand four hundred seven and 26/100 (\$3,407.26) Dollars; and,

No suit or proceeding at law or in equity having been instituted to recover the debt secured by said mortgage, or any part thereof;

NOW THEREFORE, NOTICE is hereby given that by virtue of the power of sale in said mortgage contained and pursuant to the statutes of the State of Michigan in such case made and provided, the undersigned will sell at public auction to the highest bidder on Tuesday, the 30th day of November, A. D. 1938 at twelve o'clock noon, Eastern Standard Time, at the main entrance of the Livingston County Building at the city of Howell, Livingston County, Michigan (that being the building where the Circuit Court for the County of Livingston is held), the premises described in said mortgage or sufficient thereof to satisfy said indebtedness with interest thereon six percent (6%) per annum in accordance with the terms of said mortgage, and all legal costs allowed by law and provided for in said mortgage, including the attorney fees, and also any sum or sums which may be paid by the undersigned to protect its interest in the premises;

Which said premises are described as follows: That certain piece or parcel of land situated in the township of Green Oak, county of Livingston, and state of Michigan and described as follows, to-wit:

All the southwest quarter of the southwest quarter of section 13, town 1 north, range 6 east, Michigan containing forty (40) acres more or less;

together with the hereditments and appurtenances thereof.

Dated at Detroit, Michigan this 14th day of August A. D. 1938.

Fred Rasmuson, Mortgagee.
JOHN MORTH, Attorney for Mortgagee, 484 Penobscot Bldg. Detroit, Michigan.

out work of this kind
in double-quick time.

NOTES OF 50 YEARS AGO

Rev. Marshall came here from
Bell Branch to officiate at the
funeral of John Jackson Wednesday.

Albert Reason's corn husker is a
success and he is kept busy.

Nelson Reason is moving to Jack
son where he has a position with
the T. B. Taylor mills.

G. L. Markey is teaching school in
Shepherd, Isabella county.

Moran Bros. have completed the
brick work on R. Clintons' new shop.

30 couple enjoyed the dance at
the James Tiplady home Thursday.

with Cobb Eros. furnishing music.

Dan Baker went to Lake county
Monday to hunt deer.

Frank Hecox and Bert Bailey
have gone to Chicago to purchase a
pure bred stallion.

The members of the Cong'l church
choir gave Rev. Thurston a surprise
Friday night. They presented him
with a collar and cuff box.

Henry Plummer, Wm. Pearson and
Frank Bay have gone to Roscommon
to hunt deer.

John Jackson died suddenly at his
home in this village Sunday. The
burial was at Plainfield.

Laura Dolan is editor of school
notes.

Ella Reason and Amelia Goodspeed
have enrolled in the high school.

Michael Lavey's Aurelian, defeated
L. C. Holden's Rob Roy at Union
Park, Saginaw Wednesday for a \$50
purse.

Daniel Quish and Miss Anna Dolan
were married at Dexter yesterday.

Michael Hoey and Miss Marion
Gallagher were married at Dexter
Wednesday.

The Grand Trunk now charges \$1
for a ride to Jackson.

The entire wooden business block
at Brighton known as the Appleton
block burned down Friday.

NOTES OF 25 YEARS AGO

50 guests were entertained at the
home of Mrs. Guy Teeple Wednesday
night in honor of Miss Norma A.
Vaughn who is soon to be the bride
of Roy Merrill of Webster.

The M. E. church will give a fish
pond social at the home of Fred
Hemmingway Friday evening.

The proceeds of the box social
held by St. Mary's church at the
Alfred Monks home Thursday night
were \$28.

Mrs. Lawrence Queal of Webster
caring for her sister, Mrs. William
Doyle.

Howell will vote on the question
of incorporating into a city.

Mrs. Laurence Queal of Webster
gave a shower last week in honor of
Miss Norma Vaughn.

Jake Mack and family have moved
to Dexter.

Dr. A. H. Pearson has been sued
for \$2000 by the Grand Trunk rail
road for damage done to their right
of way at Hamburg by a dam he
built there.

Myron Dunning, Joseph Doyle,
Adrian Lavey, Leo Monks, Fred A.
Swarthout, Walter Reason took in
the Michigan Pennsylvania game at
Ann Arbor Saturday.

Hoff Brothers have bought the
old Rupert house at Howell and will
remodel it.

James Bell has rented the Frank
Gay house on Mill Street.

John Rutman had his arm broken
in two places Friday when he caught
it in a belt while threshing beans.

A family reunion was held at the
Joe Stackable home Tuesday in
honor of R. C. Stackable of Honolulu.

Born to Olin Marshall and wife
November 10, a 9 lb. boy.

The marriage of Miss Norma A.
Vaughn of this place to Roy Merrill
of Webster took place at the home
of her mother, Mrs. Nettie Vaughn
November 19, Rev. Gates officiating.

The couple were attended by Sadie
Swarthout and Dr. Morley Vaughn.
Virgiline Teeple acted as ring bearer.

Conservation Dept.

Notes

Many deer hunters went north
the week before the season opened.
A total of 160,000 hunters are
expected in the north woods this
year. 40,000 deer were killed last
year. Michigan deer herds are
estimated to number more than a
million.

The states fire loss this year was
nearly 14,000 acres at the end of
October.

Weasels destroy many mice and
small rodents.

White cedar is the most staple
diet of deer in Michigan.

During the last two years CCC
boys have collected 2,600 bushels of
pine cones for use in reforestation.

Wild ducks eat large quantities of
acorns.

Moose and deer are the main
attractions at the Casino game
refuge 3,200 people visited them
this year.

There is only one species of lizard
naïve to Michigan.

In 1870 the passenger pigeon was
considered a pest by Michigan men
and shot indiscriminately. The last
one was shot in 1898 and the last
known one died in the Cincinnati
zoo in 1914.

More than 2000 deer were shot in
Pennsylvania this year to prevent
farm damage. About 30 were killed
in Michigan.

He had not heard the call of
music, he might have become a
lawyer or a rancher, as his father
was successful at both; but his
mother's love of music predomi-
nated, and at the age of eight he
was giving piano recitals and the
ranch at Ballinger, Texas, lost what
might have been a fine cowboy
Even today he is as much at home
in the saddle as before the key-
board of a piano.
As a child the songs of the cow-
boys and the spirituals he heard
in the church of his negro mammy
impressed themselves on his brain,
and the more he studied music the
more these songs in him cried out:
to be written down. In 1919 he
wrote the first published arrange-
ment of an American cowboy song,
"The Bold Vaquero."
He is of French Huguenot stock.
His grandfather was Governor of
Mississippi. Besides the symphonic
arrangement of "Turkey in the
Straw" and numerous cowboy and
negro songs, he has created more
than one hundred compositions,
and at least two of his songs are
favorites of the President. He is a
distinguished member of the
American Society of Composers,
Authors and Publishers.
His name is
"GUS" M. PIAGG
(Music Features & Photo Syndicates)

Deer hunting season will soon be
open. Here are a few things to be
sure and remember when you go on
that hunting trip:
Be careful when you climb under
or over fences. Pulling a loaded gun
through a fence by taking hold of
the barrel is a dangerous stunt.
Never leave a loaded gun leaning
against a tree, rock or lying on the
ground or bottom of a boat.
Do not clean a gun until you
have made positive inspection of the
chamber and barrel. Never point a
gun at anybody. It's a foolish and
senseless action.

OUR POLICIES ARE OUR

"Sailing Orders"

The captain of a sailing vessel leaves port
with certain "sailing orders" dealing with
his course, the ports of call, the handling
of passengers, cargo, etc.

The policies of this bank are its "sailing
orders." They deal with our faith in this
community, our determination to bring
financial benefits and protection to others.

We have been conservatively progres-
sive—pressing forward along a fixed course
of safety and service for our depositors.

AFTER ELECTION THOUGHTS

Now that the election is over the
victors are rejoicing and the losers
are trying to figure it all out.
Although the vote cast was a record
for an off year election it fell way
below the vote cast in 1936. Frank
Fitzgerald although elected received
11,000 less votes than in 1936 when
he was defeated. Governor Murphy
held Fitzgerald to low majorities in
the more populous counties. He only
lost Genesee by 1500 Kent by 2000
and Ingham by about 1500, so the
governor still has the strength in
counties where the factory workers
are numerous. The only factory
county to give Fitzgerald a heavy
majority was Jackson.

The sit down strikes are blamed
by most critics for the Democrats
defeat but we doubt that they played
much part in it, especially in the
rural districts. We asked a number of
people how they intended to vote
and many farmers told us they voted
against Murphy on account of the
low farm produce prices. Several
factory and other city workers said
they voted against him because they
had been out of work since last
spring. Undoubtedly had the price of
farm products had kept up and the
factories had continued to run to
full capacity all the present year,
the sit down strikes would have been
ignored. If an administration could
continue to keep the country very

OWL BECOMES A MOUSETRAP

Lovely Squares Easy to Knit

Pattern 1820

A hand-knit spread—a priceless gem! Here's one of squares, so easy, anyone can knit it. Done on 2 large needles with 2 strands of string, there's no increasing or decreasing. You'll be pleased with it! Pattern 1820 contains directions for making the square; il-

ustrations of it and of stitches; materials required; photograph of square.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle, Needlecraft Dept., 82 Eighth Ave., New York, N. Y.

Please write your name, address and pattern number plainly.

Ample Precaution—Hence Little Concern

Adeline Genes, famous dancer, now retired, tells this story: Two young ladies—nongolfers—who wandered over a golf course and, finding a nice smooth bit of turf with a little flag in the center, sat down to rest. A couple of men in the distance shouted "fore" and madly waved their arms, but not having been introduced, the ladies took no notice.

Soon one of the men came striding up. "Don't you think it's very dangerous to sit here?" he asked gravely.

"Oh, no," replied one of the ladies, with a smile. "You see, we're sitting on a mackintosh."—Kansas City Star.

Speed of Baseball

Ken says: According to Dr. Coleman R. Griffith of the University of Illinois, some pitchers are able to throw a baseball at an initial speed of 120 feet a second. An average fast ball travels about 88 feet a second, making the time from the pitcher's hand to the batter approximately a half second. Most out-curves are slow balls that travel not more than 60 feet a second.

OF COURSE!

"Many doctors advise building up alkaline reserve when you have a cold. Luden's help to do this."

DOBA STRINBERG, Teacher, Baltimore

LUDEEN'S
MENTHOL COUGH DROPS 5¢

CHECK YOURSELF FOR THESE COMMON SIGNS OF ACID INDIGESTION

• If You Have Any of These Symptoms — and Suspect Acid Indigestion as the Cause — "Alkalize" the Quick, Easy "Phillips" Way. If the Trouble Persists — See your Doctor.

Now there is a way to relieve "acid indigestion" — with almost incredible speed. You simply take 2 teaspoonfuls of Phillips' Milk of Magnesia 30 minutes after meals. OR — take 2 Phillips' Milk of Magnesia Tablets, the exact equivalent.

Results are amazing. Often you get relief in a few minutes. Nausea and upset distress disappear. It produces no gas to embarrass you and offend others.

Try it — Get liquid Phillips' Milk of Magnesia for home use and a box of Phillips' Milk of Magnesia Tablets to carry with you.

PHILLIPS' MILK OF MAGNESIA
* IN LIQUID OR TABLET FORM

WHAT to EAT and WHY

C. Houston Goudiss Describes Correct Diet for Cool Weather; Explains How to Keep Warm and Well

By C. HOUSTON GOUDISS

MANY people look upon fall weather with foreboding. They cannot observe leaves on the ground without a feeling of vague uneasiness—and the sight of brown and barren fields fills them with desolation.

This, I think, is a throwback to an earlier day when the advent of cool weather foretold long months of bitterly cold days in draughty, inadequately heated houses. And the lack of adequate heat was only one of many difficulties. The principal reason for fearing cold weather is another heritage from the past.

Limited Diet of an Earlier Day

There was a time when memory of many of us when the terms "cold-weather diet" and "warm-weather diet" had real meaning. Winter food differed a great deal from summer food, particularly in the absence of fresh fruits and vegetables, and in the restricted use of milk, and milk products.

The limited diet of winter was enforced by conditions of that period. Methods of production, transportation, refrigeration and storage of foods, which are commonplace today, were then unknown.

Fruits and vegetables were consumed when and where they were grown, and when cold weather prevented their growth, they were not available. The canning industry was young and the grocery store in cold weather presented a far different appearance from the modern food store in which the shelves are lined, row upon row, with shining cans of the finest fruits and vegetables to be found anywhere in the world, plus an amazing assortment of prepared milks.

It was an accepted fact that fruits, vegetables, and the generous use of milk belonged to the summer months, while in winter everyone ate an unbalanced diet. As a result of lacking these essential protective foods, health went down rapidly from late fall to early spring.

The winter diet was deficient in minerals and vitamins, which science has proven to be the protectors of health, barriers against disease, sustainers of life. But in those days, vitamins were unknown and very little had been learned about minerals. Therefore, when people became ill during cold weather, the natural conclusion was that sickness was inevitable during the winter season.

Cold Weather Really a Tonic

Times have changed. Scientific knowledge has increased. The genius of man has asserted itself in mechanical advancement. The expressions, "cold-weather diet" and "warm-weather diet," have lost their former meaning.

Almost without exception, the protective foods are available throughout the year, no matter where we live.

It is therefore possible to protect the health by a balanced diet all the year 'round, and to benefit by the tonic effect of cold weather. For, contrary to popular belief, cold weather is beneficial, and not harmful, to healthy people.

Cold speeds up all the activities of the body. The circulation is improved, muscle tone is increased, and digestion, absorption and elimination are stimulated. Even prolonged cold is thus a tonic to health, provided we do not weaken our bodies by an unbalanced diet.

It is partly because so many people continue to eat improperly, in spite of our newer knowledge of nutrition, that we still find an increasing amount of sickness in the fall, which mounts steadily until it reaches its peak in the months of January, February and March.

Dangers of an Improper Diet Yet winter need have no terrors for the fit. Only the weak, the unfit, surrender and become its victims. That the number of vic-

tims is large each winter merely indicates how many people neglect their health through careless living, and especially through careless eating.

Measures to protect one's self against the attack of winter should be taken during the summer and early fall. A sturdy resistance against the ills of winter should be built up by means of a balanced diet which assures an abundant supply of the minerals and vitamins.

When a person is undernourished or improperly nourished, he is denied of every defense. He is chilled by the slightest drop in temperature. He offers fertile soil for every kind of disease germs. He can neither resist their invasion, nor fight them off after they have attacked.

Thus, the first rule for keeping warm and well in winter is to live and eat in a manner that helps to maintain health and strength. The correct winter diet differs in one important respect—and one only—from the correct diet at other seasons.

More Fuel Foods Required

As a rule, people are more energetic in cold weather and it is therefore necessary to increase the amount of energy-producing foods. Nearly all children, and adults who spend much of their

time out doors, should consume more high caloric foods which may be provided in the form of easily digested carbohydrates, such as rice, macaroni, spaghetti, noodles, potatoes, cereals and breadstuffs.

In the case of adults, the amount of fats may also be increased and in some circumstances, more sweets may likewise be taken.

To summarize, the cold weather diet should include a quart of milk daily for every child, a pint for each adult; two fruits daily, or one fruit and one fruit juice—and while one serving may be a dried fruit, such as prunes, apricots or figs, there should be one serving of a citrus fruit, or tomatoes, to provide vitamin C; two vegetables besides potatoes, one of which should be of the green, leafy variety, either fresh or canned; an egg daily, or at least three or four weekly; one daily serving of meat, fish or chicken, and a second protein food such as cheese, dried peas or beans or nuts; and enough of the fuel foods including whole grain cereals, to keep the body warm and comfortable.

If you eat correctly and dress sensibly so that you are neither too warmly clad indoors nor too thinly clad out of doors, you can enjoy cold weather and benefit by it to the extent of increased health and happiness.

Questions Answered

Mrs. F. L. B.—Egg white is a solution of pure protein. The egg yolk contains minerals, vitamins and fats, in addition to protein.

Miss C. M. R.—In general, whole raw fruits, especially those with skins and seeds, provide a slightly harsher residue than that of cooked fruits, or the pulp of raw fruits with skin and seeds removed.

Your Health May Depend on Your Teeth

An Editorial by C. Houston Goudiss

The reason why some men and women in their middle years look and feel younger today than their parents did at the same age, is because they have learned something of the importance of caring properly for their teeth. In recent years, dentists have discovered that sound teeth are in truth a passport to good health, and that there is as close a relationship between healthy teeth and healthy bodies as between decayed teeth and sickly bodies.

Unfortunately, however, only a small percentage of our population is yet aware of the far-reaching effects of teeth upon health, and a distinguished scientist is so disturbed over our national ignorance in this respect that he has said that unless this trend is reversed, the course of human evolution will lead downward to extinction. That statement is no exaggeration. For it would be difficult to over-estimate the influence of the teeth on human health and happiness.

For many years I have endeavored to explain that a neglected tooth—which soon becomes a decayed tooth—is a poison factory, distributing its noxious products to every part of the body, and that it may lead indirectly to neuritis, rheumatic ailments, dyspepsia, and other obscure complaints.

In many of the "WHAT TO EAT AND WHY" articles, which have appeared in this newspaper over my signature, I have endeavored to point out the close relationship between diet and dental disease; between frequent and thorough brushing of the teeth with an efficient dentifrice so as to remove all food particles, and strong, beautiful teeth.

As a result of these articles, I have received many letters, showing that homemakers are eager for sound, authoritative advice on the proper care of the teeth. To help these and other readers how to properly care for their teeth, I have prepared a booklet on—"BUILDING AND PLANNING HEALTH" which I am offering FREE, because I feel so strongly that this information should be in every home, knowing as I do, that the salvation of the human race may lie in saving their teeth.

Address, C. Houston Goudiss, 210 S. Desplaines St., Chicago, Ill.

EASE PAIN

of Rheumatism, Neuritis, Neuralgia Quickly

SIMPLY GET BAYER ASPIRIN—FOLLOW EASY DIRECTIONS BELOW

1. Take 1 Bayer Aspirin Tablet with water, if a full glass of water pain is usually relieved. 2. You should feel Aspirin Tablets with relief very quickly. If the moment you feel severe, repeat another rheumatic or neuritic pain coming on.

To relieve pain of rheumatism or neuritis quickly, try the Bayer Aspirin way—shown above.

People everywhere say results are remarkable. Yet Bayer Aspirin costs only about one cent a tablet, which makes the use of expensive "pain remedies" unnecessary.

If this way fails, see your doctor. He will find the cause and correct it. While there, ask him about taking Bayer Aspirin to relieve these pains. We believe he will tell you there is no more effective, more dependable way normal persons may use.

When you buy, always make sure you get genuine BAYER Aspirin.

NOTICE OF MORTGAGE SALE
 PAUL L. LACEY, having been made in the terms and conditions of a certain mortgage made by THOMAS S. LEITH and EL M. LEITH, his wife, of the City of Brighton, Michigan, mortgagee, to CORDELLA E. PORTE, mortgagee, dated August 28th, 1938, and recorded in the office of the Register of Deeds for Livingston County, Michigan, on August 30th, 1938, in Liber 139 of Mortgages, Page 216, on which said mortgage there is claimed to be due and unpaid at the date of this notice for principal and interest the sum of Four Thousand Six Hundred Seventy-eight (\$4,678.00) Dollars, and no suit or proceedings at law or in equity having been instituted to recover the debt secured by said mortgage or any part thereof, I, the undersigned, as mortgagee, do hereby give notice that on Wednesday, NOVEMBER 26th, 1938, at 1 o'clock in the forenoon, I will sell at public auction, to the highest bidder, at the Court House in the City of Brighton, Michigan, that being the building in which the Great Court for the County of Livingston is held, the premises described in said mortgage or so much thereof as may be necessary to pay the amount due on said mortgage as aforesaid, with interest, taxes, and all legal costs, charges and expenses, including the attorney fee allowed by law, and any sum of money which may be paid by the undersigned, at or before said sale, for interest, taxes or insurance, on said premises, which premises are described as follows: The following described land and premises situated in the City of Brighton, County of Livingston, and State of Michigan, according to the recorded plat thereof: August 28th, 1938.
 CORDILLA E. PORTE, Mortgagee.
 LACEY & SCROOGIE, Attorneys for Mortgagee, 104 Dime Bank Building, Detroit, Michigan.

Red Cross Volunteers Assist War Veterans
 Red Cross workers in chapters, in hospitals and on posts of the Army, Navy, Coast Guard, and Marine Corps, assisted 122,355 active service men or veterans or their families during the past 12 months.
 Red Cross service to these men included such personal help as letter-writing, shopping and recreational leadership, but it also included financial assistance to their dependents, help in locating missing members of their families, and assistance in filing necessary applications for pensions, disability pay, hospitalization, or for discharge from active service because of home needs.
 The average number of men assisted by Red Cross workers each month was 13,790, according to a recent report.

Mr. and Mrs. L. J. Henry were in Howell Saturday.
 Mr. and Mrs. Jesse Henry were in Fowlerville Monday.
 Mr. and Mrs. Kenneth Reason were in Webster Sunday.
 A. M. Roche of Lansing visited his mother the first of the week.
 Leo Smreina of Plymouth was here last week setting up the new printing press in the Dispatch office.
 Mrs. Pat Dillon of Howell spent Thursday with Mr. and Mrs. John C. Dinkel.
 Miss Lucy Jeffrey returned to Kalamazoo Monday after a three-weeks visit with relatives here.
 Mr. and Mrs. Charles Soules and daughter of Howell were Sunday guests of Mr. and Mrs. Phillip Sprout.
 Mrs. L. T. Lamborn and daughter of Gregory were Sunday dinner guests of Mr. and Mrs. Jesse Henry.
 The Misses Norma and Francis Caldwell of Howell spent the week end with their father Jack Caldwell.
 Mr. and Mrs. Vincent Shields and daughter of Ann Arbor were the Sunday guests of Mr. and Mrs. Let Lavey.
 The Contract Bridge Club were guests of Mrs. L. G. Devereaux of Brighton at a one o'clock luncheon Tuesday.
 Royal Baker has purchased the cottage and land owned by Fred Lake, east of Portage Lake, and Seward's Cove.

Favorite Recipe
of the Week

CHILLY fall days and cranberry relish go together. Tart relishes do so much to perk up the meat roast. Raw cranberries and fruits put through the food chopper are simple to prepare and inexpensive. No cooking and can be put up for future use in sterilized glasses covered with paraffin.

Cranberry Orange Relish

(No cooking)

The aristocrat of relishes. Particularly good with all meats, hot or cold.

1 pound (4 cups) cranberries
2 cups sugar
Put cranberries through food chopper. Slice oranges, remove seeds and put rind and oranges through chopper. Mix with berries and sugar. Let stand for a few hours before serving. This easy, popular uncooked relish can be put up for future use in sterilized glasses covered with paraffin.

Cranberry Horseradish Relish

Mix chopped raw cranberries with grated fresh horseradish in proportions of 3/4 cranberries to 1/4 horseradish. Serve with meats.

Wait, Mother—
Ask Your
Doctor First

Never give your children unknown "Bargain" remedies to take unless you ask your doctor.

A mother may save a few pennies giving her children unknown preparations. But a child's life is precious beyond pennies. So—ask your doctor before you give any remedy you don't know all about.

And when giving the common children's remedy, milk of magnesia, always ask for "Phillips' Milk of Magnesia."

Because for three generations Phillips' has been favored by many physicians as a standard, reliable and proved preparation—marvelously gentle for youngsters.

Many children like Phillips' in the newer form—tiny peppermint-flavored tablets that chew like candy. Each tablet contains the equivalent of one teaspoonful of the liquid Phillips'. 25¢ for a big box.

A bottle of Phillips' liquid Milk of Magnesia costs but 25¢. So—anyone can afford the genuine. Careful mothers ask for it by its full name "Phillips' Milk of Magnesia."

PHILLIPS' MILK OF MAGNESIA
*IN LIQUID OR TABLET FORM

Taking Pains

When we are young we should take pains to be agreeable; when we are old we must take pains not to be disagreeable.

CHILDREN'S
COUGHS

(due to colds)

Don't let distress of chest colds or spasmodic croupy coughs due to colds go untreated! Rub Children's Mucosol on child's throat, chest and back at once. This milder form of regular Mucosol penetrates the surface skin, warms and stimulates local circulation. Floods the bronchial tubes with its soothing, relieving vapors. Mucosol brings such speedy relief because it's MORE than "just a salve." Recommended by many doctors and nurses. Three strengths: Regular, Children's (mild) and Extra Strong, 40¢. Approved by Good Housekeeping Bureau. All druggists.

WNU-O 44-38

THE CHEERFUL CHERUB

Let it rain and snow and sleet; It can't hurt me anyhow. When it pours it makes me glad—live a new umbrella now. RICHARD

CRUCIBLE

By BEN AMES WILLIAMS

SYNOPSIS

Barbara Sentry, seeking to sober up her escort, Johnnie Boyd, on the way home from a party, slips him, and attracts the attention of a policeman, whom the boy knocks down. As he arrests him, Professor Brace of Harvard comes to the rescue and drives Barbara home. On the way they see Barbara's father driving from the direction of his office at 12:45, but when he gets home he tells his wife it is 11:15 and that he's been playing bridge at the club. Next day Sentry reports his office has been robbed and a Miss Winslow, a former temporary employee, killed. The evening papers luridly confirm the story, and Sentry takes it hard. Mary, elder daughter, in love with Neil Ray, young inmate at the hospital where she works, goes off to dinner at Gus Loran's, Sentry's partner, with Mrs. Loran's brother, Jimmy Endie. Mr. and Mrs. Sentry call on old Mrs. Sentry, and Barbara alone, receives Dan Fisher, reporter, who advises her not to talk. Phil Sentry, son at Yale, is disturbed at the possible implications and suspicion of Miss Winslow's absence from her rooms for three days during August. He goes home to help. Sentry is arrested and booked for murder. Dan Fisher explains the evidence against him—that the robbery was a fake, the safe opened by one who knew the combination, changed since Miss Winslow's employment there—that a back door key, a duplicate of Sentry's, was found in the safe, and that Sentry, too, had been away those three days in August. Brace calls, and backs up Barbara in her denial that Sentry could have done it, because of the discrepancy of time between the slaying and their seeing Sentry on the road. Phil, showing the police over the house, finds his strong box open and his gun, which only his father knew of, gone. Meanwhile, the police find the stolen money burned in the furnace. Mrs. Sentry sees her husband, who swears his innocence, and tells her he had known of the robbery and murder the night before, but failed to call the police, and came home at 12:30. Mary quarrels with Neil Ray.

CHAPTER V—Continued

"So we might as well make friends with the other kind. Marry them!" Mary repeated defiantly. "Yes, marry them!" Mrs. Sentry stood up quickly; but Mary cried: "Don't! Don't say anything! I thought you might wish me luck, but you only stare!"

Linda urged, "But Mary, your real friends—"

Mary laughed, almost tolerantly. "You're so young, Linda. Maybe you love Phil. And maybe you don't feel as Neil did. Oh, I don't blame him! He couldn't marry a murderer's daughter—"

Mrs. Sentry whispered something, but Mary said in reckless cruelty: "Oh, he did it, mother! You'll know, sooner or later. Coming back from Southampton last August, I met Isabel Hedges in New York. You don't know her, but she knew father by sight, and she told me she had seen you and him at a hotel in New Jersey; just exclaiming about how young you looked! Trying to get a rise out of me, but I—"

Mrs. Sentry's ears were ringing as though from a physical blow, so that for a moment she heard nothing. Then Mary's words penetrated her consciousness again. "Maybe he'll wriggle out of it! The police may not find out about that. But I won't be made to testify about it. I'm going away!"

Mrs. Sentry did not protest. She only murmured, "Where?"

"Yachting in the Caribbean!" Mary added contemptuously, "They can't serve a summons on me there!"

"Yachting?"

"Jimmy Endie's taking me."

"Mr. Endie?"

Mary laughed. "Don't be a parrot! And don't sound so shocked, mother! It's perfectly respectable. We're sailing at midnight. Jimmy's waiting for me outside; and his captain will marry us as soon as we're at sea."

No one spoke. She added, in shaken tones suddenly pitiful, "But—I wanted you to know where I'd gone."

Mrs. Sentry, at last, spoke steadily enough. "You're a grown woman, Mary," she said. "You must do as you decide." She rose. "Try to be happy, dear," she said, and kissed her daughter. "Now may I help you pack?" she asked.

"I'm not taking anything, just going as I am," the girl said. She added, almost appealingly, "Jimmy's outside, mother."

"I'm sorry, Mary. I—can't see him."

Mary nodded in curt defiance. "All right. Then that's all! Good-by!" She went out into the hall. They heard the front door close. Tires rolled away.

When Mary was gone, Mrs. Sentry looked at Phil with bleak eyes, and at Linda; she turned then, without speaking, to face the hearth where logs were blazing. Phil started toward her, but Linda touched his arm, caught his eye, shook her head. Then they heard someone come softly down the stairs; Barbara, a woolly bathrobe warm and soft over her night garments. She stood in the doorway, her eyes clouded as though she had been asleep; and after a moment she asked:

"Who was that? I thought it was Mary? Where is she?"

Phil saw his mother's shoulders move in a long shudder, as a cold dog shivers to keep warm; she hesitated, spoke then to her son.

"Good night, Phil," she said.

"Linda—Good night!" She turned to her daughter. "Barbara, come upstairs. I'll tell you."

Barbara's eyes were wide with shapeless fears; but she did not speak. Only she put her arm around her mother's waist, half-supported her as they moved away.

Phil and Linda were left alone. After a moment he asked hoarsely, "Want to go home?"

She shook her head, her eyes deep. "Not yet. Come, Phil, sit down."

He obeyed her, sat leaning forward, his elbows on his knees, staring at the fire. After a while he said bitterly, "Well, Mary's gone off the deep end!" Linda did not speak. "Maybe she's the sensible one," he reflected, half despairing. "Maybe she's right. But—I didn't think she was a quitter!"

"You mustn't blame her," Linda urged. "Mary has always—taken things hard, Phil. She loved Neil, had a right to count on him; so when he failed her—"

"He—had to, Linda. What else could he do? He couldn't afford to be mixed up in a mess like this. It would have followed him everywhere."

"The things we're afraid of are

I broke it open myself. You know how you do lie, when you're scared."

"Of course."

He went on: "Then they found some ashes in the furnace, where some money had been burned. They could tell it was money. They think father brought it home that night, to make the thing at the office look like burglars, and burned it." He looked at her miserably. "And now—this thing Mary hinted. That was August, and Miss Winslow was away in August! He did it, Linda!"

"Phil, you're giving up too easily!"

"Gosh," he protested miserably, "how can I help it? He took her to New Jersey; and he had a key to the office made and gave it to this girl. Probably he used to meet her there—"

She urged: "But Phil, Mary may be wrong! Or the girl who told her may be wrong! And as for the rest of it? Well, suppose someone else planned to kill her and wanted to make it look as though your father did it. They could have stolen the gun, and burned some money in the

never so bad when they really happen," she said. "He's dodging shadows."

"He was sensible!"

"I don't call it that."

Phil said gently: "I know. A woman wouldn't look at it the way a man does. Women lose their heads."

"And their hearts, Phil."

"You can't argue about it, I suppose."

She smiled a little. "Women can always find reasons to justify doing what they really want to do. But I don't think reasons matter so much as wanting."

Phil looked at her, curiously. "You're pretty grown up in some ways, Linda. Lots older than I am, in the way you look at things."

"Women are always older than men."

He pounced flat into palm with a slow vehemence, curiously eloquent; he muttered, "Gosh, Linda, what are we going to do?"

"Just—live. Just go on living."

He whispered pitifully: "Poor Mary. Marrying Jimmy Endie. He's rotten, isn't he? And he must be forty. Gosh, why did she do it?" Linda did not answer. He said miserably: "I thought father was pretty grand, Linda. Of course he and I never saw very much of each other." He grinned ruefully. "But I've grown up thinking of us, of our family, of myself, as settled and secure. I felt as though I could play around for a while all right, because when I was ready I could always step into a place that was—waiting for me." He looked at Linda, hopelessly.

She shivered, folded her arms across her bosom as though she were cold. "It just tears me in two, Phil, to see you so hurt!"

He said: "It doesn't really hurt, I suppose. I wonder if I ever will. It sort of seems as though we were all dreaming or something."

And he said, as though to speak were somehow comforting: "Mary's right. Father—did it, you know. I've known that since the day they came here to search the house. Inspector Irons went up to my room, and he found this lock box under my couch. A fellow out West gave me an old revolver once, a sort of relic. It hadn't any cartridges in it, but I kept it hidden in that box, locked away, because mother hates guns. But someone had broken the box open and the gun was gone; and father was the only one who knew where it was. That scared me, so I told the Inspector that I kept reels and things in the box, told him

job on your hands. Your mother has always been so proud. This is terrible for her, even when she's sure that he's innocent! If she ever thought he wasn't—well, you can see, you have to take care of her. And of Barbara too, Phil. Barbara's an awfully sweet girl. You mustn't ever let her believe he did it. Phil, it would just kill her."

"I see what you mean. I guess it's up to me, all right."

"You'll have to be awfully good to your mother, Phil." And she said: "The thing you'll all have to do is not think about yourselves very much. Think about each other. You see, Mary just thought about herself, and how unhappy she was, and how her life was wrecked; and she didn't stop to think about the rest of you, and that you needed her."

He nodded soberly, and Linda went on: "At least, that's the way it looks to me, Phil. You've all got to have something to hold on to, and the best thing for you to do is to just set your teeth into the job of taking care of your mother and Barbara." She suggested: "Maybe you can make your mother think you

need her terribly, and make her see that Barbara does too. That will help her."

Phil said, "Barbara's been great, all along, making jokes and being funny and trying to make us laugh, sort of like a puppy putting on an act, trying to get his master to play." He asked: "But what's going to happen now, Linda? What can we do to help father?"

"I don't exactly know," Linda confessed. "Except of course you'll get a lawyer for him, and do whatever the lawyer says."

His eyes widened with sudden panic. "Linda, can they make me be a witness against him, about the gun, things like that?"

"I suppose they can."

"I won't do it!" he cried passionately. "None of us will."

"I feel so darned ignorant," she said helplessly. "I wish I knew more about it. Mr. Loran and Mr. Hare will help you, though."

He looked at her squarely. "Honest, cross your heart, don't you think father did it?"

She tried to speak, said then honestly: "I suppose I do, Phil. I suppose I was just trying to find some way to—comfort you. But Phil, it isn't for us to decide, anyway."

She urged: "And we can't give up. You see, Phil, we're pretty young. You know the way babies are. The least little thing just looks awfully black to them, and they scream as if they were heart-broken. We're sort of like that, probably. Things will straighten out somehow."

"Gosh, I don't see how!"

"And besides, Phil, you've got a

South Is Treasury for U. S. Chemists;
Raw Material Wealth Cited in Survey

Physical frontiers are gone, but chemical frontiers remain to challenge the United States, Dr. Frank C. Whitmore, dean of the school of chemistry and physics at the Pennsylvania State college, believes, writes a State College (Pa.) United Press correspondent.

"The South will be the chemical frontier of the country for the next quarter century, at least," he said after a tour through the southern states to visit sections of the American Chemical society.

"Its chemical raw materials, especially the new ones such as cellulose, starch and vegetable oils, have hardly been touched. They are ready for the chemical pioneers who are going south and the additional ones trained in southern institutions."

Considering the United States as a whole, Dr. Whitmore believes it has limitless supplies of cellulose in cotton, the purest form, in the slightly less pure form of cotton linters and in the rapid-growing pine. He said pine made an ideal chemical crop because it utilizes sunlight, water and air without taking more than

traces of nitrogen, phosphorus and potash from the soil.

"Starch also exists in limitless quantities from fast-growing crops such as sweet potatoes," Dr. Whitmore continued. "The Department of Agriculture has already placed this preparation of starch on a semi-commercial basis."

"Great varieties of vegetable oils, such as cottonseed oil, peanut oil and tung oil, exist in limitless supplies. The tung groves are reaching the bearing stage in many parts of the South. A nation which is growing must constantly have new frontiers. Physical frontiers are gone, but chemical frontiers remain to challenge the United States."

Strength of Hair

Dark hair is much stronger than light hair. Experiments show that a single dark hair could support a weight of four ounces. Fair hair will give way at weights varying according to the tint. Golden hair will support nothing more than two ounces, brown hair will hold up three, and dark brown hair an extra half-ounce.

Charming, Practical
All-Day Dresses

THESE two designs are so good looking and slim-lined that you'll enjoy wearing them for shopping and runabout as well as at home. Make in percale and calico, and in challis, jersey or crepe. Both are easy to make as bodied dressing. Each pattern includes a detailed sew chart.

Buttoned Down the Front.

This softened version of the classic shirtwaist has fullness over the bust and a slight blouse at the waistline, which makes it easy to wear as well as to work in. The skirt has a nice flare to it. Shrugged shoulder sleeves and white cuffs and collar add to the

crisp, smart look, and make it more becoming. You'll find the capacious patch pockets handy!

For Large Figures.

Here's one of the most becoming and comfortable work dresses you ever had on, if you're in the 36 to 52 size range. Every detail is designed to give you freedom of movement, and to make you look thin. The armholes are ample. The darted waistline looks slim without being tight, and it blouses just a bit for greater ease. The scalloped front, braid-trimmed edges and white collar (with long lines, becoming to full faces) trim it up just enough.

The Patterns.

1618 is designed for sizes 14, 16, 18, 20, 40 and 42. With long sleeves, size 16 requires 4 1/2 yards of 39-inch material; 1/2 yard for contrasting collar and cuffs; 2 yards of braid. With short sleeves 4 1/4 yards.

1624 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 4 1/2 yards of 39-inch material; 1/2 yard for contrasting collar; 3 yards braid for trimming.

Fall and Winter Fashion Book.

The new 32-page Fall and Winter Pattern Book which shows photographs of the dresses being worn is now out. (One pattern and the Fall and Winter Pattern Book—25 cents.) You can order the book separately for 15 cents.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Beware Coughs
from common colds
That Hang On

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

BOY SCOUTS OF LIVINGSTON
At a meeting of the Livingston District Executive Committee of the Washtenaw Livingston Boy Scout Council held Monday night at the Howell School, Wm Canfield of Howell was elected the District Chairman and Warren Cushing of Fowlerville was chosen V. Chr.

Plans were made for the next District wide court of Honor which will be held on Monday evening, December 12th at the Brighton gym. There are now 12 Scout groups in Livingston County with a membership of approximately 250 boys. Additional troops and packs are being formed from time to time.

"Be strong and of a good courage"

THROUGH the progress of human invention, modes of living have become increasingly luxurious, and today the average person enjoys many comforts that were unheard of a few generations ago. While being grateful for every progressive step that lessens drudgery and reduces hardship, we need to watch lest the enjoyment of material comforts renders us unfit to face difficulties. One need only look around him at the state of human affairs in many countries, to realize that humanity has a great need for moral courage today.

There is a vast difference between genuine courage and a stoical submission without complaint to wrong conditions which are believed to be unavoidable.

True courage or fearlessness belongs by right of spiritual inheritance to all the children of God. Divine Love is an inexhaustible fountain of good, from which one can draw an endless supply of courage, patience, endurance, tolerance, and tenderness, whenever it is necessary to use these qualities. The spiritual strength supplied by omnipotent Love can be realized and proved in our daily experience.

In encouraging Joshua and the children of Israel, who were soon to pass over Jordan to take possession of the land of promise, their great leader, Moses, said (Deuteronomy 31:6), "Be strong and of a good courage, fear not, nor be afraid . . . for the Lord thy God, he it is that doth go with thee; he will not fail thee, nor forsake thee." How often we need to be reminded of this spiritual fact, when approaching some new and untried experience, or when fear and discouragement try to rob us of the fruit of our labors! It is our certainty of divine Love's ever-present ability to protect and guide which endows us with courage and spiritual endurance.

"But how can such certainty be gained," asks one, "when on every side there seem to be danger and discord?" In "Science and Health with Key to the Scriptures" Mary Baker Eddy says (p. 228): "There is no power apart from God. Omnipotence has all-power, and to acknowledge any other power is to dishonor God." This spiritual fact, when understood and applied, enables us to face any difficulty, and teaches us how to solve our problems.

Discouragement is a mental state produced by believing that there is a power opposed to God, and that this power, named devil or evil, can frustrate God, good. Perhaps we may be listening to arguments of evil which seem to whisper, "You are sick; you are poor, lonely, miserable, unwanted." And the more we listen, the louder these arguments seem to talk, until we become mesmerized by them and self-pity clouds our mental horizon. Even a glimpse of spiritual reality will add in breaking such mesmerism. How often a thought of gratitude destroys the gloom of discouragement, for gratitude is an acknowledgment of the reality of good. If we continue to be grateful, we shall find that other spiritual restoratives will come to our aid, and we shall regain our courage; for it is not a personal characteristic, but a spiritual quality to be claimed and utilized by each and all.

Mrs. Eddy also writes (ibid., p. 514): "Moral courage is the lion of the tribe of Juda, the king of the mental realm. Free and fearless it roams in the forest. Undisturbed it lies in the open field, or rests in 'green pastures,' . . . beside the still waters." Moral courage is free and fearless because it is inspired by the understanding of spiritual reality. It is undisturbed, whether in the forest, in the open field, or "beside the still waters" of peace and contentment. This spiritual courage proceeds from trust in the infinite ability of God to guide and guard His children, and from a deeper understanding of the obedience which acknowledges His will as supreme.

The scientific revelation of creation, as given in the first chapter of Genesis, declares God to be the only creator, and proclaims the inspired truth regarding man, the image and likeness of God, divine Mind, namely, that he is endowed with dominion "over all the earth" (Genesis 1:26). Our demonstration of these spiritual truths depends on the measure of our obedience to the First Commandment (Exodus 20:3), "Thou shalt have no other gods before me," which is the basis of moral and spiritual law. The understanding and demonstration of this spiritual requirement overcomes fear, discouragement, and impatience, and brings us into our heritage of spiritual dominion.—The Christian Science Monitor.

Giant Among Flowers

The amorphophallus, which produces the largest flowers in the world, is so big that a man standing upright can barely reach the top with the tips of his fingers and can only reach half way round its circumference.
