Former Pinckney Boy Cleans Up the Detroit Police Dept. the First Week He Takes Over

Frank Eaman, former Pinckneyite just appointed superintendent of the Detroit police by Mayor Jeffreys became famous overnight when he fired Supt. of Police Fred Frahm, Chief of Detectives Hoffman and all the three precinct heads of the Detroit police dept. The blowup came over the trial of four men charged with the robbery of Dr. Robinson in Detroit last July. This case has long been a stench in the nostrils of Detroit as for some reason the police could get nowhere in it. This was one of the causes of Judge Ferguson's grand jury investigation of the Detroit police dept. Dr. Robinson was robbed by four youths who were arrested as they were making their getaway with the money and four guns. Dr. Robinson was purported to be linked with the policy gambling game in Detroit. He first identified the four suspects then later repudiated the identification. Delay after delay was encountered and the case just came to trial this month. Last week the detectives who were the principal witnesses against the four bandits disappeared and also part of the money held as evidence. Eaman called the police heads on the carpet and when he could get only evasive replies and fishy alibies he fired them. In this he was backed up 100 per cent by Mayor Jeffreys. The policy game was first popular with the negroes in Detroit but is now patronized equal extensively by white people. Tickets are sold containing numbers and a combination of numbers in the race results published in the Detroit Free Press is the winning number. Policy game operators are said to be getting wealthy.

FLYER KILLED

Howell, formerly of Pinckney, was killed Friday when his plane crashed in a cornfield, 30 miles west of Terra Haute, Ind. Four passengers plunged with him to their death. Maycock had been an aviator for many years and was owner of the Maycock Flyers, oldest flying service in Detroit. He leaves his wife, formerly Jessie Bain of Howell and a daughter, Dolores, 7.

SUPERVISORS BEAT COUNTY OFFICERS

A team of county supervisors took on a bunch from the county court house at the bowling alley last Friday and beat them three straight games. The supervisors team was composed of Fred Berry, Henry Ross Lyle Redinger, Ralph Glenn and Ross Robb. The office holders of Joe Gates, John Hagman, Frank Bush, Willis Lyons and Floyd English. The contest took place in the Crosswell bowling alleys.

NOTICE

A meeting of the Ladies Aid Society will be held at the home of Mrs. Carrie Swarthout Thursday p. m. on January 18th. Each member will be expected to pay 25c as this meeting takes the place of the regular monthly dinner. A program is being prepared by committee. Everyone bring a box lunch.

LUCIUS WILSON COTTAGE ROBBED

The Lucius Wilson cottage at Portage Lake was entered by thieves Friday night and thoroughly ransacked, silverware being scattered around. The only thing missing however, were two small Indian Head rugs brought back from the southwest several years ago by the Wilson family. The rugs are unusual and on that account will be hard to dispose of.

WILL CELEBRATE GOLDEN WEDDING

Mr. and Mrs. George Devine of Dexter will celebrate their 50th wedding anniversary at their home in Dexter on Monday, January 22. Open house will be held from 8:00 to 6:00 p. m. Friends may call. Mrs. Devine was formerly Florence Monks of Pinckney. An account of the wedding is contained in the notes of 50 Years Ago in this issue.

Local Industries of the Part

The Pinckney Race Track Flourished Here for Several Years But is Now all But Forgotten. Was Located on Alfred Monks Farm.

Only the middle aged or older inhabitants know that Pinckney once boasted a race track on which some sensational races were pulled off. This race track was located on the Alfred Monks farm, now operated by John Barber and was in the field to the right as you go up the hill at the edge of town.

Looking through the files of our old Dispatches in the issue of March 20, 1897, we find a notice to the effect that a meeting was held that day at the town hall in Pinckney to form a Pinckney Driving Club. In the following issue learn that the following officers were elected: President - John J. Teeple Vice Pres. - Henry B. Gardner Secretary - M. E. Fohey Treas. - H. H. Swarthout Committee - James Harris, Alfred Monks, S. G. Teeple, James Durkee, Frank Reason.

The field on the Alfred Monks farms was rented and a half mile track laid out. Stables for race horses were built at the top of the hill on the north end of the field. On May 20 a bee was held to get the track in shape.

The race track was financed by forming an association. All members of the association paid so much money into it. Entrance fees were charged for the horses and an admittance of 15c for spectators.

The grand opening was on Saturday, July 3 in the form of a gala day.

There were two base ball games. Pinckney beat Hamburg 15 to 7 and Srookbridge beat Chelsea 9 to 6. In the boys race Frank Erwin was first and S. T. Grimes second. About 1500 people were estimated to have been at the races.

The races were as follows:

1:21 1-2	Owner
Horse	1st, Dr. Wheeler Geo. Frazier
2nd Gypsy M	F. Beeman
3 Min.	John Spears
Eva S.	Geo. White
Maude W.	John Tuomey
Wagoner Boy	

Running Race Robert Kelly Edward Spears

The following committees handled this affair: Sports, E. R. Brown, E. M. Fohey, James Durkee. Horses, H. B. Gardner, Dan Murta, W. H. Placeway. Grounds, H. H. Swarthout, S. G. Teeple, Alfred Monks.

On September 4 another racing event was held and gala day. In the ball game Pinckney beat Chelsea 34 to 4. The race results were as follows:

1:31 Race	Stowe Placeway
White Sprout	
3 Min.	Harris White
Echo Line	Wheeler Gallagher
Maude W. E. Feather	
Jim Bailey	
2:40	Staffan Wilson Harris
Judge Hatch	
Steven W. Echo Dell

Running Race Spears Monks Russell Burden

On July 4, 1898 another big gala day was held. This time the Jackson Cornet Band played. The race results were as follows:

3 Min.	Jim Bailey, Max W.
Free For All	Mills Rhea, Mason Nutwood, Lady Huron.

On June 15, 1899 a match race between Green Wilson and Harry H. was announced. We cannot find the results so do not know whether it ever came off or not. Green Wilson was owned by James L. Roche of Pinckney.

On June 27, 1900, the final racing card as far as we can find by our files came off. Wm. Dunlavey's Continued on Page 6

Winter Fishing!

Colder weather lures thousands of ice fishermen to Michigan's inland lakes. Above scene is small area on Houghton lake where special regulation limits the daily catch of perch to 15. Twenty-five fish and certain other fish, all of one kind or combined catch, is the daily limit on other inland lakes. 50 perch is daily limit on Great Lakes and connecting waters and certain other lakes on west side of state. Non-residents may not fish through ice on lakes of Berrien, Branch, Cass, St. Joseph and Van Buren counties from January 1 to opening of trout season. Bluegills and sunfish cannot legally be taken through the ice between hours of 6 P. M. and 6 A. M. Resident persons over 17 must have 1940 fishing licenses. The fee is one dollar and includes the wife.

A hearty welcome is extended to all who worship with us. Come and we will do thee good. Some people think that only those who are members of the Christian Church in the community are obligated to support the church. However all residents of a community receive the blessings the Church affords them. Property is more valuable and life more safe, society better protected where the church is active in the community, so every one in our community is obligated to the Christian Church directly or indirectly. If you are not supporting some branch of the Christian Church in the community, you are not doing your duty in appreciation of what the church means to the community as a whole. Let us begin the year 1940 with a determination to do our duty and contribute to the moral, spiritual and financial welfare of the institution which makes Pinckney a desirable place to live and to transact business. The church assists those who are in sorrow and rejoices with those that rejoice and is a servant to the community. So let us support the church by our presence and money that she may do a greater service in the future.

THEY FOLLOW THE HOUNDS

With the hunting season closed to most game, foxes are about all that can be hunted in this section now and the Pinckney hunters are out about every day when possible, following the hounds. One week they got three foxes. The hounds are owned by Friday Haines, Gerald Reason and Erdley VanSyckel. The hunters are: C. H. Kennedy, Nelson Bizzard, Ora and Friday Haines, Gerald Reason, Robert Richardson, Leon and Marshall Meabon, Erdley VanSyckel and Clare and L. J. Swarthout. The foxes usually lead them a merry chase. They followed one recently from the Edna Spears farm to a point the other side of Lakeland

Friday Nite
Mid-Season Feature Play and Local Amateurs.

This week marks the seventeenth visit of Caldwell's Comedians to Pinckney and they promise to present one of the best plays ever written in conjunction with their amateur night. Every member of the cast, including Rouleau, the new leading man have excellent parts. Greg proved a valuable addition to the cast, and held his own with our old favorites and made a big hit with the local theatre goers. He is one of his unusual talents. Cash prizes will be given to the winning amateurs and the audience is to be the judge. Be sure to be there to applaud for your favorite and help them win. Several contestants are entered and a big time is expected by all.

WILL NOT WRESTLE FORMER WORLD CHAMP

Quite a lot of talking has been done in Pinckney the past month that Julius Aschenbrenner who turned professional a month ago had issued a challenge to wrestle Steve Graf the former world lightweight champion. Graf at present is promoting wrestling shows at Fairview Gardens in Detroit.

Aschenbrenner was notified by Graf last Monday that the bout will not fall through, because he has been sick for sometime now. However when he recovers, and plans a comeback, Aschenbrenner's name will be on the list as a contender. Out side of this the Pinckney wrestler will appear on several shows this winter. Up-to-date next promoters have to put him on a show. They claim he wants to make his rise too sudden without experience besides this the local boy refuses to do any training.

FRED HEMMINGWAY

Fred Hemmingway, a former resident of Pinckney died at the home of a relatives near Mason last Tuesday. The funeral was held from the Jewett Funeral Home in Mason last Thursday. Burial was at Williamsville cemetery. Mrs. Hemmingway died a number of years ago.

SHOTS DEER OUT OF SEASON

There are several herds of wild deer in the northern part of the county. Occasionally they are seen around here. Last week Raymond Frazee, 19, of Byron shot and killed one. This is a closed county and the deer season closed last December. The game warden arrested him and he pled guilty. He was fined \$75 and \$25 costs by Justice Barrett or 75 days in jail. He paid. We understand another man from Genesee county who was with him is sought.

Corn Is Leading Michigan Crop. Michigan Press T Feature Mich. Products At Their Banquet on January 25th

As the newspapers' salute to the Michigan food and tourist industries, whose 1939 cash incomes totaled nearly a half billion dollars, an "All American" dinner extraordinary will be given Thursday evening, Jan. 25 at Michigan State College in East Lansing.

Queens of the 1939 Cherry and Blossom festivals at Traverse City and Benton Harbor, respectively, will be present. Assisted by their court attendants, they will help serve the choice Michigan fruit juices and foodstuffs.

It is to be an unusual demonstration, arranged by the Michigan Press association, of how self-sustaining Michigan is in the way of producing quality foods. The entire menu, with the exception of pepper, will consist of select meats, vegetables, and fruits. More than twenty state organizations are co-operating with the newspaper publishers' group and state department of agriculture in the preparations.

The \$300,000,000 tourist industry will be represented by managers of the four tourist associations. Spokesman for this growing "cash crop" will be J. Lee Barrett of Detroit. Honored guests will include Hugh Gray of Grand Rapids, Tom Mars ton of Bay City and George Bishop of Marquette each one known statewide for his contribution to the development of the year-round vacation and recreation business.

From Governor Luren D. Dickinson, former state executive, will come a sample of Michigan's famed maple syrup. Dickinson is a connoisseur of this delicacy, producing it each spring on his Eaton county farm near Charlotte.

According to the Federal Crops Reporting service, maintained in Lansing in cooperation with the state department of agriculture, the Michigan maple syrup industry produced 213,000 gallons in 1939, an increase of 2,000 gallons over 1938. The maple yield also produced 5,000 lbs. of maple sugar for use principally in candies.

Michigan agriculture enjoyed a good year in 1939, having a total cash income of \$131,749,000 compared with \$119,746 for the previous year.

While the state is not generally regarded as being in the corn belt, yet the corn crop headed the entire food list in 1939 with a total value of \$31,449,000. Winter wheat was worth \$11,340,000, while oats brought in \$18,668,000.

The growing importance of Michigan fruit juices as an outlet for huge surpluses is to be emphasized by the use of three fruit juices and two vegetable juices on the "All Michigan" menu. The juices which offer a wide variety of vitamins with different appeals to the taste include apple, carrot, cherry, grape. Continued on Last Page

CURRENT COMMENT

The Patterson murder case, although the prosecuting attorney, announces that the investigation is still going on, seems to have entered the unsolved list of murders, as Herbert Patterson the only suspect so far, has been released from custody and an charge against him quashed. All counties have unsolved murders on their record. The Monroe murder here was never solved, in the Eaton murder a man was tried and acquitted in the Tyrone triple murder two years ago no one was convicted for the reason that the only suspect was never caught. In Jackson the county never solved the Crouse murders of some 50 years ago although numerous arrests were made and two persons tried. The Loomis murder is still marked unsolved in the Detroit police records. Of course these are all exceptional cases and were not solved for the reason that there was no direct evidence to convict anyone and ordinary police methods failed. In some of these, notably the Patterson murder, the authorities seemed to have bungled the affair by lack of co-operation.

Editor Elton Eaton will pull off another big Republican banquet on February 12 this year. However it will not be a mush and milk or a salt pork affair nor either will it feature Gus Hartman's starvation menu. Instead barbecued buffalo will head the table viands, the buffalo being furnished from the Schrader herd near Plymouth. We suppose the profits will go to charity. Editor Eaton gets a lot of publicity out of these affairs. In fact much more of this than charity gets in dollars and cents.

The annual anti-lynching bill has again made its appearance in congress and passed the house overwhelmingly but is expected to be smothered in the senate. This bill is entirely political and was introduced by a New York congressman for the sole purpose of getting negro votes. There were but three lynchings in 1939, and there are sufficient laws on the books now to deal with lynchings. A surprise was the speech made against the bill by the only negro congressman from Michigan who labeled the bill a fake.

The president still continues to hold the upper hand of the political situation by his refusal to say whether he is a candidate for a third term or not this year. Thousands tuned in on his address last week in the expectation he would touch on this but he failed to do so. It seems to be getting on some people's nerves. The Republicans desire to know in order to shape up their campaign. It is useless for them to conduct a smear Roosevelt campaign if he is the not Democrat candidate this year. In the meantime his action has served to reunite the Democrat party to a greater extent than it has been for years. This is probably why Mr. Roosevelt practices this delay in making his announcement. With the exception of Vice President Garner there are no Democrat candidates in the field as yet. On the Republican side the woods are full of them. Besides Tom Dewey and Senators Vandenberg and Taft, Frank Gannett, New York publisher, has announced his candidacy and Wm. R. Hearst has dug up another dark horse.

There is one society that one hears little of but that accomplishes much good. This is the Gideon Society. This society was organized by Christian commercial men in 1906 and has for its purpose the free distribution of Bibles usually by placing them in hotel rooms. Since 1906 they have distributed 1,600,219 Bibles and have ordered 250,000 more for this year. These cost \$250,000 and it costs about a dollar to place each one. All the money received by the Gideons comes from free will offerings. The Bible, all reports to the contrary is still the most widely read book in the world.

Roosevelt's Latest Budget Has Congress Pretty Badly Muddled

Arguments, 'Ifs,' Suggestions and Suppositions Leave Solons in Daze; Leaders in Congress to Seek Facts for Themselves.

By WILLIAM BRUCKART

WNU Service, National Press Bldg., Washington, D. C.

WASHINGTON.—Congress is pretty badly muddled up over the latest Roosevelt budget of estimated expenditures and receipts for the government's next fiscal year. And well it may be. There were thousands of greater and lesser items of government cost dumped into its legislative lap at once the other day, but these were not alone. There were arguments and "ifs" and suggestions and suppositions and an official defense of the policy that for 11 years has seen government income fall far behind the expenses—11 years of deficits. And, along with these things came a proposal by the President to add a special tax, or a tax for a special purpose—national defense.

In view of the fact that few persons have been able to arrive at an absolute conclusion on the financial problem submitted by Mr. Roosevelt, some of the more influential leaders of congress have taken the lead in a plan to find out for themselves. Men like Senator Pat Harrison, the old Mississippi w r-horse, who has been chairman of the senate committee on finance for years and who once missed being Democratic leader of the senate because President Roosevelt wrote a letter to "Dear Alben" Barkley of Kentucky. Senator Harrison has support in the move and I am told that he is determined to get affirmative action.

The Harrison plan calls for something new in congressional policy. He would have a joint committee of 12 senators and 12 representatives, divided equally among two senate and two house committees, to do some budget work on the new budget—the budget for the year beginning next July 1. It is a thing never attempted before and may or may not be a wise course since it smacks of utilizing a great new power by congress. But this much can be said: for the first time, if the Harrison plan eventually is adopted, congress will get some information through its own channels instead of accepting the unsupported statements, the wishful thinking and the planned extension of power by the bureaucrats intent upon preserving their agencies.

Annual Federal Budget Once Comparatively Simple Thing

In years gone by, the annual federal budget was a comparatively simple thing, or as simple as messes of figures could be made. Its proposed items of expense were set down and totaled. The anticipated revenue was calculated. But such is not the case with the current budget, nor any in the last few years since operations of the federal government have become as general as flies around the barn in midsummer.

Times have changed, indeed. Here is a budget that covers the astounding total of \$3,424,191,570. It is smaller by \$670,000,000 than the last one and that reduction was described by Mr. Roosevelt as a first step toward gradual accomplishment of a balanced budget.

But the total of proposed expenditures shown was circumscribed with a handful of "ifs." The amount of \$3,424,191,570 will remain that way if cuts are made (from last year's totals) in public works, in federal jobs, in CCC camps, in relief and farm benefits and if there are no other increases voted except for a vast program of expansion in the army and navy.

On the basis of the budget calculation, the government's income will be \$5,547,960,000 in the next fiscal year if congress will lay a special tax for paying the cost of a part of the cost of expanding the army and navy. The President said this tax should be made to yield \$480,000,000.

Thus, on the basis of the budget, the government will be in the red next year, if all things remain as planned to this point, by a total of \$2,416,231,000. The President intends, however, to cut that "way down" by using up some odds and ends of money lying around among the government-owned corporations. By executive order, the President can restore to the federal treasury funds loaned by it to the various corporations. He said there was something like \$700,000,000 in this pot of gold and that will be used to reduce the deficit further.

Budgets These Days Merit Earnest Consideration

And there you have it. If all of the things go through as planned and if there is not another request from any office or agency of government and if there is as much tax collected next year as calculated

and if the proposed "national defense tax" is passed and collected, the government deficit for the fiscal year that ends June 30, 1941, will be \$1,716,231,000.

Senator Harrison may be wrong or he may be right in his proposal to have congress do something about understanding this and subsequent budgets; but it must be said there is something about the condition of budgets these days that merits earnest consideration. These latter day budgets somehow remind me of the broomstick horse that I used to ride when I was a kid. That broomstick had at least 20 different names, but it was always the same broomstick, and my imagination was never successful in transforming it.

There was merited applause from congress for Mr. Roosevelt's declaration that he was prepared to curtail spending. He tossed some cold water on that enthusiasm, however, by a statement of policy that he did not favor too much curtailment at one time. Rather, "government support" for the many functions now a part of the federal structure ought "to be tapered off." There was not too much pleasure about that among the real supporters of an economy policy, and there was considerably less when attempts were made to analyze the true results.

I have a hunch that more disappointment is due. The budget that was sent to congress the other day, in my opinion, is not going to be nearly all that will be needed in the way of money.

It is just a guess that I here make: the totals for relief and for agricultural benefits and public works, etc., are not nearly large enough for 12 months if an election

BRUCKART ON THE BUDGET

Finds congress badly muddled over the latest estimates.

Harrison plans for congress to get information about the budget through its own channels. Something new.

Present estimates will leave the government in the red \$2,416,231,000.

Condition of budgets these days merits earnest consideration.

Possibilities cause wonder as to the future.

falls within that year. So, the forecast I offer is that requests will be in the hands of congress, in January, 1941, for deficiency appropriations to cover expenditures that have run short.

Present National Debt Runs Right Close to Line

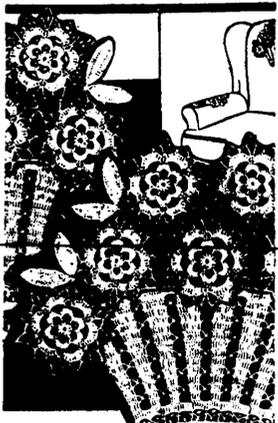

There is, however, still another "if" to be considered. Mr. Roosevelt advised congress that if all conditions materialized as he expected, the national debt on June 30, 1941, would be \$44,938,577,822. That is right close to the line, for the present law limits the national debt to \$45,000,000,000. It was suggested that the administration was able to stay under the limit only by taking away some of the funds from the in-laws and stepchildren, known as government corporations. That probably is proper, for the government gave each of them money with which to set up housekeeping. It was more important to the administration, however, since it thereby became necessary to ask congress to raise the limit of the national debt—a request that was sure to raise a row.

One cannot survey the budget and all of its possibilities and probabilities without wondering what lies in the future.

Whether this is the reason behind the action of the conservatives in congress who seek to end this spending spree of seven long years or whether the conservatives are worried about future burdens of taxes, the fact remains there should be some tangible policy laid down. And that policy must come from congress. The present administration will not do it. Each year, there have been statements about a balanced budget—in the future.

Take a look at this general division of where the federal money is being spent, and I think you will agree there is a critical need for a general revamping of the functions of the government at Washington:
National Defense, \$1,800,000,000.
Work Relief Programs, \$1,300,000,000.
Agricultural Programs, \$900,000,000.
Public Works and Investments, \$1,100,000,000.
Interest on the Public Debt, \$1,100,000,000.
Pensions, Retirements and Assistance, \$1,200,000,000.
Regular Operating Expenses, \$1,000,000,000.

Those Ancient Giants

The Book of Genesis records that before the flood "there were giants in the land."

Science thinks it has found some of them in Palestine. If science is right, then modern man is more gigantic, a more splendid physical specimen.

Sir Arthur Keith sketches the scientific story, in the British journal, Nature. He refers to the bones of men and women who lived 50,000 to 100,000 years ago in Palestine. He quotes Genesis on giants and says:

"The fossil people we are now dealing with are almost worthy of such a name. The men were tall; four of them range in height from 5 feet 8 inches to 5 feet 11."

American studies of college men and women indicate that height and size are a matter of food. With the diets available long ago, these old Palestinians might truly rate as giants.

One way to treat constipation is to endure it first and "cure" it afterward. The other way is to avoid having it by getting at its cause. So why not save yourself those dull headache days, plus the inevitable trips to the medicine chest, if you can do it by a simple common-sense "ounce of prevention"?

NEW YORK.—If death is taking only a brief holiday on the west coast, the opposition is making the most of it. The life brigades press forward in medicine, research science, philanthropy, social inquiries and studies, and all that has to do with the two healing virtues of compassion and understanding.

Science, Unlike Death, Pauses Not for Holiday

Never before has this courier seen a year wind up with less arthritis and more punch, in the field of science.

Young blood is helping a lot. Dr. Albert B. Sabin, of the University of Cincinnati college of medicine, who scores against infantile paralysis and viruses attacking the nervous system, is 33 years old. His paper, read before the annual meeting of the American Association for the Advancement of Science at Ohio university, reveals unsuspected tissue defenses against the entrance of the viruses into the nervous system. It is regarded as an epochal advance toward understanding of the disease and later conquest.

Dr. Sabin was born in Poland, and acquired his academic and medical education at New York university, from 1923 to 1931, later studying at Lister institute, London. In 1932, he became associate research scientist at Rockefeller institute, New York city. During his tenure with this institution he discovered a new disease, caused by an agent which he calls the B virus.

His new discovery of the anti-virus goalkeepers in human tissue was announced in connection with his receipt of the Theobald Smith award in medical sciences.

DR. ALEXANDER LESSER of Brooklyn college finds there isn't any such thing as social evolution—at least not in the old sense.

"In the form given it by the 'classical evolutionists,' it is dead as a door-nail," says Dr. Lesser. But, tossing aside "subjective judgment," he finds ample hope of new understanding as he assails the old rationalization of haunch, paunch and jowl darwinism, as rationalizations of force.

Dr. Wesley C. Mitchell, as above, sees our ultimate hope in "understanding human behavior," and urges the scientists to keep on swinging. Dr. Mitchell, it will be recalled, is the widely known Columbia university economist who headed President Hoover's research committee on social trends.

MATTHEW W. STIRLING, anthropologist of the Smithsonian institution, who delves into exciting origins and inducements of what is loosely called civilization, is off for the Maya country of Mexico, leading an expedition which will hunt new clues to early Indian cultures. It is a renewal of Mr. Stirling's explorations of last January, in which he found a stone bearing the earliest recorded date of the Americas—equivalent to November 4, 291 B. C.

A Princeton scientist traced the honey highball back 5,000 years and thereby gained knowledge of great historic Indo-European shifts in population. Mr. Stirling also has found man's early day elbow-bending a light source. He discovered that the drinking of primitive man was premeditated and indulged in to induce visions. At Ostia, Mr. Stirling found a bar, several thousands of years old, lacking only the brass rail and the free lunch to match ours.

In British Guiana, in 1927, he found pygmies who, for full dress, wore artificial tails; whose babies in arms smoked big cigars and whose dogs were barkless. In Florida, he found the lost Calooshaas, the earliest Americans. In the Jivaro, he was clubby with head-hunters and learned much, not only of their recipe for shrinking heads, but of their visions, legends and customs.

He was reared in the Salinas cow country of California and attended the University of California. His explorations have been in North, Central and South America, Europe and the East Indies. He is 43 years old, and, as usual, having the time of his life. (Consolidated Features—WNU Service.)

Where There's a Will Things Usually Get Done!

The teacher was examining the pupils in arithmetic. "Now," he said, "I'll give you one more sum. If a cat falls down a bottomless well, and for every two feet it climbs up it falls down three, how long will it take to get out?"

One boy took a slate, and after filling both sides with a mass of figures, asked for another.

"Good gracious!" snapped the teacher, "haven't you the sense to see the cat will never get out?"

"Don't be in a hurry, sir," replied the boy. "There's plenty of time and heaps more slates. If you wait long enough, I'll bring the little beggar out in Australia."

INDUSTRIES OF THE PAST

horse won first, John Gallagher's second and B. Markey's third.

Not all the owners drove their own horses. However, the Wilson shown here is none other than Dr. Norman Wilson of Jackson, a mighty jockey in his day. At the present time he is probably slightly overweight. In the nineties James Roche won 11 first money prizes with Huron Boy. This probably stimulated racing in Pinckney and all the horsemen took to raising race horses. Lady Huron was owned by John Teeple. Her mother was Jennie G., a racehorse sent here from Chicago by Theron Doty and driven by S. G. Teeple at the county fairs. Jas. Harris was the father of Rev. Morgan Harris.

After this although numerous attempts were made to revive interest in it racing died out here and Mr. Monks took the barns and judges stand after several years for his rent. He kept the judges stand for some time and used it to put hay in. During the period the track stood idle the kids of Pinckney used to borrow their fathers horses and pull off races of their own. In one of these impromptu races Dale Darow was thrown from his fathers horses and slightly injured. Others in this uncarded race as he related it to us were Ellery Durfee, Gayle Johnson, Gene Reason, Cecil Sigler.

"Corn King" Wins With Hybrid

CHICAGO.—Hybrid corn came into its own as a supreme quality product at the recent International Stock Show here, when the entry shown by Chester E. Troyer, of La-Fontaine, Indiana, won him the crown of "Corn King" of North America.

It was the first time in the history of the exposition that hybrid corn had carried off championship honors in such competition.

Troyer's Record

Winning championships with corn is an old story with Mr. Troyer. His triumph at Chicago marked the fourth time he has been crowned "Corn King." He won the title before in 1920, 1927 and 1932 with samples of open-pollinated corn. His exhibit of Hybrid U. S. 12 at the 1939 show was adjudged one of the finest ever seen from the standpoint of quality, firmness of ears, plump, flinty kernels and all-around superiority.

Mr. Troyer had 350 acres in corn this year down in Wabash County, Indiana. The soil on which his prize winning hybrid was grown is a highly productive, alluvial land enriched each year by an overflow of the Wabash River.

Watches Soil Fertility

Like all good farmers, Mr. Troyer believes in watching carefully the fertility level of his soil.

"I pay particular attention to maintaining the nitrogen content of my soil," he said. "A regular rotation in which sweet clover alternates with corn helps keep the nitrogen level up. I have had soil tests

Chester E. Troyer

made by Purdue University which indicate that my land is naturally high in phosphorus and other plant food elements."

Not all farmers can grow corn like Mr. Troyer's, and probably few have soils so well adapted, but every producer who grows hybrid can take out insurance for a good crop by making certain that the demands of this high producing variety are taken care of through adequate fertilization of the soil.

Tests can be made before planting time to determine whether the soil is deficient in nitrogen, phosphorus or potash, which will serve as a guide in selecting the proper fertilizer analysis. Agronomists at the colleges or county agents are prepared to cooperate by providing informative material.

Conservation Dept. Notes

January 31 marks the end of the Michigan trapping season on skunk and badger. Last year only 503 badger were taken but 34,485 skunk pelts were sold.

The 1940 inspection of Michigan's iron and copper mines begins this week.

Ray Ross and Boyd Kennedy of Oscoda struck and mortally injured a bobcat with their car night recently. It weighed 31 lbs. This is only the second bobcat on record to be struck by a car.

With thick ice forming Michigan's lakes are beginning to be dotted with fishing shanties. Winter fishing is subject to the same fishing rules that govern summer fishing. Carp, suckers, mullet, redhorse, sheepshead, lake trout, smelt, northern pike, muskellunge, whitefish, pilotfish, catfish, bull heads, dog fish and pike may be speared through the ice.

Mussels may be taken from Michigan waters only in the month of July.

Winter fishermen are reporting finding many dead fish frozen in the ice. They fear that many will be killed by winter suffocation.

70 sharp-tailed grouse were recently planted in Gladwin and kalkaska counties.

The second raven taken in Michigan since 1880 was shot near Allegan recently for a crow. These birds once numerous are now found only in the north in small numbers. They are protected by law.

Michigan has a state park fund in which gifts and bequests for the parks are placed.

Henry Shirey is attending the John Deere farm implement school in Lansing this week. He will have charge of the service dept. of the John Deere farm tools at the Lavey Hardware here.

PLYMOUTH (MP) - Mrs. W. A. Martin boiled some eggs for a salad cut one open, and found inside it another small egg, complete with yolk and white. The little egg, inside the larger egg, was complete in every way, except for the shell. The big egg was fully developed, too.

Hamburg

Mrs. Thomas W. Featherly was hostess at the opening meeting for 1940 of the Lakeland circle of Kings Daughters at her home at Hamburg village Tuesday afternoon with about 20 in attendance.

A pot luck dinner was served at one o'clock followed by the business meeting with Mrs. Harry A. Lee, the president in charge. The following committees were appointed for the ensuing year: Junior Leader, Mrs. Ben Tomlin; Work Committee, Mrs. Smith Martin, Mrs. Willard A. Hambaun and Mrs. Charles Thomas; emergency, Miss Viola Pettys, Mrs. Bert Hooker and Mrs. Mary Downing; quilt, Mrs. Charles Wehner, Mrs. Jennie Ferman and Mrs. Werner and Mrs. Warner Todt; camp, Mrs. Mildred Whitlock, Mrs. Clyde Dunning, and Mrs. Wheeler Martin; flower, Mrs. Ben Tomlin and publicity, Miss Jule Adele Ball.

The next meeting will be held at the home of Mrs. Glen Borton in Hamburg township Tuesday afternoon, February 13, with a bunko party at one o'clock.

The meeting opened with singing a hymn and devotionals by Mrs. J. Lukesek. Official reports were given by Mrs. Glen Borton, Mrs. Edward Houghton and Mrs. Ben Tomlin who also reported for the Junior Circle. Many communications were read among them thanks for Christmas gifts to University Hospital, Ann Arbor and the State Sanitarium at Howell. It was voted to renew subscriptions to the Silver Cross magazine. For entertainment, Mrs. Willard Hambaun and Mrs. Charles A. Thomas conducted a "can" guessing contest, the prize winner being Mrs. Charles Wehner. The gift box was won by Mrs. Harry A. Lee. Mrs. Stephen Prusha was appointed to act as chaplain at the next meeting.

Funeral services for the late Ed J. Sheridan held at the residence on Wednesday afternoon with Reverend Randall of Detroit officiating were largely attended by relatives and friends from Detroit, Ann Arbor, Howell, Brighton, Pinckney and also Hamburg and other places. Pall bearers were: Arthur Shehan, Wray Hinkley, Charles DeWolf, Lester Sharp, Oscar Schoenhals, and John D. Moore. Burial was in the Hamburg cemetery. Among those from away were Mr. and Mrs. Howard DeHart of Vicksburg, Mrs. Roland Benton and Miss Julia Lou of Muir, Mr. and Mrs. Bert Hause of Ann Arbor and Arlain Taylor of Detroit.

Word was received here of the death of Mrs. Charles Knight at the home of her son, Myron Knight of Eden, Ohio Sunday night after being in failing health for some time. Miss Anna L. Tutill was born in Green Oak Township August 12, 1870, and where she lived for many years. When a young woman she was married to Mr. Knight also of Green Oak, who died a few years ago. She is survived by two sons, Myron and Howard Knight of Eden, Ohio and two brothers, William and Oscar L. Tutill of Green Oak. Funeral services were held at Eden Wednesday morning, the brothers acting as the pall bearers.

Mr. and Mrs. Henry Queal spent last week at Fairhope, Ala; having rooms at the home of William Whitaker, a former Howell resident. They called on Mr. and Mrs. Manly R. Bennett, former Hamburg residents. They report freezing weather at night.

A week end guest of Mr. and Mrs. Emil J. Kuchar was Mr. Kuchar's brother-in-law, Emil Sindelar of St. Louis Missouri.

Sunday guests of Mr. and Mrs. Smith Martin of North Hamburg were: Mr. and Mrs. Harry Griffin and family of Flint and Mr. and Mrs. Clifford Smith and Mr. and Mrs. B. A. Gallino of Detroit.

The annual meeting of the Hamburg Cemetery Association will be held at Jury's Hardware Store, in Hamburg village Saturday afternoon at two o'clock.

NOTICE

The annual meeting of Livingston County Chapter, American Red Cross will be held Saturday afternoon, on January 20, at 2:30 in the council room, Howell. All members of the Red Cross are urged to attend. The annual reports will be given and members of the Board of Directors are to be elected. Those whose term of office expires are:

Safetygrams
BY FRED W. BRAUN
The Safety Man

Nowhere can we find accurate comprehensive countrywide figures on the relationship of alcohol to traffic accidents. The reasons for that are:

1. One state reports that 18.4 per cent of drivers involved in fatal accidents "had been drinking".
2. Several courts state that their studied opinion shows that liquor was involved in a certain per cent of all traffic accidents.
3. Some courts, in the same states state that liquor was involved in even a higher per cent of accidents.

Therefore, police estimates, legal definitions, and court interpretations of the terms "intoxication" and "under the influence," are so variable that it is impossible to obtain definite figures.

All of us agree, however, that a man who has had two or three strong drinks certainly cannot have the accuracy and the alert judgement that he would have under normal conditions. We hope the time will soon come when driving after drinking will be placed in the same category as carrying concealed weapons, robbing, and similar infractions of law.

PORTLAND (MPA) - For a time WPA workers here were wondering what was happening to red danger flags that disappeared from projects. One morning a big fox squirrel took four flags by ripping them off and rolled each into a ball easy to carry in its mouth.

HIGH SCHOOL NOTES

I WIN, 2 LOSSES
In a thrill packed evening last Friday night the boys' second team was the only squad to emerge with a victory. They defeated the Linden second team 11 to 6 thereby snapping a 17 game winning streak of the Linden seconds. Although all the boys played good ball the "stand-outs" were Baughn and Hannett on defense and Palmer on offense. The reserves are now boasting of a two game winning streak and of a defense that has held their last two opponents to a total of 11 points.

In the other games the girls lost by the score of 22 to 17 and the varsity by a score of 21 to 12. Linden grabbed an early lead in the girls' game and Pinckney found it impossible to catch up. As in the Brighton game the girls missed a great many easy shots which would have turned the "tide".

The varsity game provided the fans with a lot of fireworks as the boys jumped to a 6 point lead at the start, and it seemed that Linden's 6 year winning streak was certain to be broken. However as in the other games this year the boys "wilted" in the last half and allowed the opposition to break away repeatedly for "dog shots".

Pinckney high school won its final debate of the season from Ypsilant Roosevelt last Thursday evening. The members of the winning team who upheld the negative side of the question were Jack Hannett, Marilyn Glen and Agnes Hamparian.

The basketball squads journey to Fowlerville this Friday night where both the girls' and the boys' varsity will see action. We rate the game a "toss up".

In the past two home games some Pinckney fans have expressed displeasure with the officiating. While admitting that the "refs" have made mistakes, "they call them as they see them" which is all anyone can do. We appreciate the interest and loyalty of these fans but we still consider that such practices come under the head of poor sportsmanship.

Mrs. Lola Lobdell has been confined to her home by illness the early part of this week.

Monday morning the teachers were greeted by practically a full house. In the high school only four were absent as contrasted to an average of 12 the week previous. We hope the fever scare has abated.

The records show that the varsity has been ahead at the end of the first quarter in every game and also ahead at the end of the first half in all but one, yet they still have to win a game. We wonder what the reason is—

On next Wednesday, Thursday, and Friday semester examinations will be held.

On Tuesday night the second team and varsity will meet Saline here. The second team will try to extend its winning streak to three games and the varsity hopes to be able to spring an upset.

At the recent Boy Scout Court of Honor held at Howell Jackie Haines and James Doolittle were given tenderfoot awards and Herbert Palmer a second class scout badge and also one for reading.

Philathea Notes
The January meeting of the Philathea Class of the Pinckney Congregational Church was held on Wednesday last at the home of Mrs. Nelson Buzzard.

Mrs. R. K. Elliott presided, giving over the Devotional to the chaplain Mrs. H. H. Swarthout, who read the beloved passage John 14:1-15:27, and offered prayer. Mrs. Jesse Henry read the secretary's report for the December meeting, and presented bills and communications. The roll call found a representative number present for the important meet together with several welcome guests.

No special program was presented because of our Annual Election of Officers, the results of which showed all the last year's officers retained for 1940. The list follows: Teacher and President, Mrs. Millie Elliott, V. Pres., and Reporter, Clella Fish, Secretary, Mrs. Meda Henry, Treasurer, Mrs. Flossie Chambers, Chaplain, Mrs. Hattie Swarthout.

The offering was taken and the usual co-operative supper ended a pleasant afternoon. We anticipate another helpful year under the continued leadership of Mrs. Elliott, and we hope for a splendid attendance, both in our Sunday sessions and monthly gatherings.

Continuing in our studies in the Gospel of Matthew, our topic for next week is, "A New Standard of Greatness." Matthew 20:17-28, with the Golden Text "while we were yet sinners, Christ died for us."

MANTON (MPA) - Otis Bridson, therein described as land in the local business, bagged a freak when he filled his deer license this past season. The buck he killed had only three legs. One hind leg had apparently been shot off a year ago. The wound had healed perfectly.

TECUMSEH (MPA) - A black silver raccoon was the trophy secured by E. W. Fish during the '39 hunting season. Considered rare in Michigan, the animal weighed 18 pounds. Its jet black fur was very dense, and it had slight silver markings over the eyes and tail.

STAMBAUGH (MPA) - Because silk stockings cost too much, Girl Reserves in the local high school have turned to wearing cotton hosiery. Part of their platform is that stockings are inexpensive, warmer, and don't get snags and runs, thus making them last longer.

COUNCIL PROCEEDINGS

Dec. 20, 1939
Council convened with the following members present: Pres. Kennedy Trustees Dilloway, S. Dinkel, Read and Lavey. Absent G. Dinkel and Van Blaricum.

On request of Stanton H. Carr, the following resolution was read and a motion was made by William Dilloway and supported by Ross T. Read that the same be adopted:

"Be it resolved for \$1.00 (one dollar) and other considerations by the common council of the village of Pinckney, that we hereby deem it as a necessity advisable to vacate and discontinue Pond Street from Trunk line 36 running South to the Ford Property and Main St., from Trunk line 36 running west. Also to vacate and discontinue Coleman St., from Trunk line 36 South to Ford property also to give Stanton H. Carr the right to vacate Block Four (4) Range 1 (one) and that part of Block 2 (two), Range one (1), lying South of Trunk line 36.

Also that Stanton H. Carr is to replat Block Four (4) Range one (1) and that part of Block five (5) Range one (1) and also parcel of land deeded to him by village council and land bought from John Teeple into a satisfactory plat and okayed by the Village Council. This is done to straighten out unsatisfactory descriptions and at no cost to Village. Motion by Dilloway supported by Read that a notice of this resolution be published in the Pinckney Dispatch for four consecutive weeks for the purpose of any objections to same. Objections to be filed in person with Village Clerk, on January nineteen (19) 1940, at eight o'clock P. M. at Council Chambers, before the village council.

Motion carried.
Nellie E. Gardner, Clerk.

STATE OF MICHIGAN

The Probate Court for the County of Livingston.
At a session of said Court, held at the Probate Office in the City of Howell in the said County, on the 3rd day of January A. D., 1940.

Present, Hon. Willis L. Lyons, the Judge of Probate.
In the matter of the estate of Fred Worden, deceased.
It appearing to the court that the time for presentation of claims against said estate should be limited, and that a time and place be appointed to receive, examine and adjust all claims and demands against the said deceased by and before said court:

Our Old-Time Couch Is Made Streamline

By RUTH WYETH SPEARS
WAS there a couch like the picture at the top of this sketch, in the family "sitting room" when you were a child? Let's get it down from the attic, for just see what can be done with it! Properly streamlined it will look like the middle picture.

First paint the front of frame; then cover well up onto the head

portion with cotton batting; next use bright cotton upholstery material. Remove stuffing at high end. Now, make box-like end tables like those illustrated. The dotted lines indicate how the couch fits under these box tables and how a partition and shelves are put in the one at the lower end. Paint tables to harmonize with fabric. The final touch is the back and end cushions covered with the upholstery material.

NOTE: Full directions for changing an old iron bed into the latest style, are given in Mrs. Spears' Book No. 3; also step-by-step directions for making "The Rug That Grew Up With the Family." SERVE THESE LIVER CROQUETTES WITH POTATO BALLS AND TOMATO SAUCE

Just Good Food

In her own town and in her time, Aunt Edith was considered a good cook. When prizes were awarded for the best cakes at church fairs, Aunt Edith won her share of them. But she had her bad days, too, when this pie crust was soggy or that cake fell flat. Aunt Edith used to say, "Well, I had good luck with my baking today," and sometimes she said, "I don't know why, but my sponge cake isn't near as nice as usual, this time." Luck played quite a part in the success or failure of one's cooking and baking, in those days! There isn't any mystery about cooking and baking today; this "four-point plan" eliminates the element of chance, and insures uniform results, day after day: 1, tested recipes; 2, accurate measurements; 3, proper methods of mixing; 4, correct temperature for cooking and baking.

Reliable recipes and good ingredients are available by the score. When you've found the ones you like, stick to them! Marked measuring cups and spoons have done away with the old time "pinch" of this, and "smidgin" of that, and directions for mixing are a part of every tested recipe. Thermometers of every kind insure the proper temperature for cooking and baking; thermometers for deep fat frying eliminate grease-soaked doughnuts or croquettes; there'll be no sticky, runny frostings or candy that won't "set," when the cooking is done with candy thermometers; meat thermometers mean roasts that are cooked to just the right degree of "doneness"; and oven thermometers are practically indispensable for the countless baking jobs involved in feeding a family. You'll find the recipes below meet the requirements of the four-point plan. You'll want to add them to your file of tested recipes for "Just Good Food."

Silver Cake.

(Makes 2 9-inch layers)

2 1/2 cups cake flour
 4 teaspoons baking powder
 1/2 teaspoon salt
 1/2 cup butter
 1 1/2 cups sugar
 1 cup milk
 1/2 teaspoon almond extract
 4 egg whites (stiffly beaten)

Sift together the flour, baking powder, and salt. Cream the butter, and add 1 cup of the sugar gradually, beating until smooth and fluffy. Add the dry ingredients to the creamed mixture, alternately with the milk. Add flavoring. Beat the egg whites until stiff but not dry, and gradually beat in the remaining 1/2 cup of sugar. Fold into the cake batter. Bake in 2 greased 9-inch layer cake pans in a moderately hot oven (375 degrees) for 25 to 30 minutes.

Bolled Icing.

2 1/2 cups granulated sugar
 1/2 cup light corn syrup
 1/4 teaspoon salt
 1/2 cup water
 2 egg whites
 1 teaspoon almond extract

Cook sugar, corn syrup, salt and water together to the firm ball stage (250 degrees). Pour the hot syrup slowly into the well-beaten egg whites, beating constantly. Add almond extract and continue beating until the frosting will hold its shape when tossed over the back of a spoon. Should icing become too stiff to manipulate easily, a small amount of hot water may be added.

Lemon Apple Cake Filling.

Pare and grate one large, tart apple. (There should be 1 cup of grated pulp.) Add 2 tablespoons of lemon rind grated, 1 cup sugar, 1 egg, beaten, and 1 tablespoon of quick-cooking tapioca. Cook over

hot water until thick and clear—about 15 minutes. Cool, and spread generously between the layers of a cake. The filling is especially good in white cake.

Liver Croquettes.

(Makes 10-12 croquettes)

3/4 pound beef liver
 1 teaspoon baking powder
 Boiling water
 2 tablespoons onion (grated)
 1 cup fine bread crumbs (moistened with 2 tablespoons water)
 1/2 cup thick white sauce
 2 eggs (well beaten)
 1 teaspoon salt
 1/4 teaspoon pepper

Cover liver with boiling water to which baking powder has been added. Cook a few minutes until liver begins to get tender. Remove from water, cut off tough skin or connective tissue, then grind. Mix with bread crumbs, white sauce, and eggs well beaten. Season to taste and cool. Shape into small ball croquettes. Fry in deep fat (375 degrees) until golden brown. Drain on unglazed paper. Serve at once with hot tomato sauce. If desired, croquettes may be dipped in crumbs, egg, then crumbs again before deep frying.

Lemon Meringue Pie.

1 cup sugar
 1/4 cup cornstarch
 1/4 teaspoon salt
 1/2 cup cold water
 1/2 cup boiling water
 3 egg yolks
 1 tablespoon butter
 1/4 cup lemon juice
 1 teaspoon lemon rind (grated)

Combine sugar, cornstarch and salt. Add cold water; stir until smooth. Add boiling water and cook, stirring constantly, until mixture is clear and thick. Cook 3 minutes longer. Beat egg yolks; stir cooked mixture into them. Add remaining ingredients, return to flame and cook 1 minute. Pour immediately into baked pie shell. Top with meringue.

Meringue.

3 egg whites
 6 tablespoons sugar
 1/4 teaspoon salt

Beat egg whites partially; then add sugar slowly, beating until mixture is stiff. Bake in slow oven (300 degrees) for 18 minutes.

Apple Sauce Doughnuts.

2 tablespoons shortening
 1 1/2 cups brown sugar
 2 eggs (beaten)
 1 cup apple sauce
 1/2 teaspoon salt
 1/2 teaspoon soda
 1/2 teaspoon cinnamon
 1/2 teaspoon nutmeg
 3/4 cups bread flour
 4 teaspoons baking powder

Cream shortening and add sugar; blend thoroughly. Add the eggs. Combine apple sauce, salt, soda, and spices, and add to first mixture. Sift together the flour and baking powder, and add. Roll out to 1/4-inch thickness on well-floured board. Cut in circles and fry in deep fat (365 degrees) until brown. Drain and roll in confectioners' sugar.

Justice Jest

By THAYER WALDO
 (McClure Syndicate—WNU Service.)

THE lady speared a pickled onion and nibbled it appraisingly.

"Delightful!" she pronounced. "I compliment your taste, Burton, dear. They do go well with sherry."

The large man at her left nodded somewhat curtly.

"Yes, yes, Prunella, quite so. But that's a trifle irrelevant just now. Mortimer and I have weighty matters to discuss. Haven't we, old boy?"

Across the table from him the party's third member seemed almost to start.

"Eh?" he jerked; then: "Oh, absolutely! I should say—a great many."

Huffily the hostess inquired: "Well, am I to take that as a hint to retire?"

"Not at all, my dove," said Burton; "on the contrary. I was merely about to suggest that you listen with attentive silence to our talk."

"As the producer of this play of yours, I wish to go over some of the details with you."

"You—ah—you mean there are some things in the script you want to change?"

"Most emphatically not!" The bulky gentleman flicked one thick hand in a gesture of reproof.

"I see. Yes; of course. Were there—did you have any particular scenes in mind?"

"Glad you asked that!" Burton boomed heartily. "Just the point I was coming to. Yes, there's one bit I particularly feel we would do well to examine. I refer to the sequence in which Sir Cholmondeley Twerp-Gerald is given the poisoned wine by Horatio Steele."

"In that," the other went on imperturbably, "I will insist that you achieve a masterpiece. It has suspense, dramatic force, and, above all, justice triumphant."

He looked at each of them with eyes enthusiastically aglow, then resumed:

"Think of it—at last we are to have in the theater an enactment of civilized yet perfect revenge. It has remained for Mortimer Frentrop, the outstanding playwright of this age, to deal with the problem in a wholly satisfactory manner. I am more than proud to be instrumental in offering this magnificent example of right conduct to husbands everywhere."

He paused, glanced at the wine glasses of the other two, and said solicitously:

"Come—I didn't realize we were running dry. Prunella, ring for Quint and have him bring more sherry."

Mortimer's mouth opened twice before words came.

"Not—not for me," he managed finally.

"Nonsense!" Burton scoffed. "We mustn't neglect conviviality. Ring, my dear."

After a quick glance to her right, Prunella obeyed. The butler appeared almost at once, carrying a tray which held two Spanish-labeled bottles.

"Fill the glasses," Burton directed; "the same as before."

It was performed and the man went out.

"A toast!" said Burton, "to the success of a fine and noble work, in which we all believe most sincerely!"

All joined, in varying degrees of exuberance. After that the host placed elbows upon the table and renewed his monologue.

"Somehow, I just can't put aside that incident. It has become, beyond all comparable passages in literature, a living, vital thing to me. Suppose for instance—just to illustrate my point, of course—that we three were involved in the situation your play presents, Mortimer. Imagine my satisfaction as the outraged one in hitting upon that scheme of vengeance. Really, I want you to enter into the spirit of the thing, to conceive for the moment of yourselves as the characters. Mortimer, picture if you can, my supreme delight if I were sitting here possessed of the knowledge that the wine you just took contained a deadly poison!"

One hoarse and barely articulate cry came from the man opposite; then he swayed and toppled to the floor, inert. Instantly Burton sprang up.

"There!" he bellowed, facing the aghast Prunella. "I knew it could be done!"

Greedy he drained the glass. An expression coupling surprise with pain overspread his countenance. Very graciously he collapsed, stretching well across beside Prunella's chair and said:

"Pardon me, ma'am, but there is no cause for alarm. Some months ago a violent passion for you was born in my breast. Since then I have observed your favor divided equally between these two gentlemen, so I thought some way to dispose of them both. Fortunately your husband left a copy of the other gentleman's play on the library table. I read it and gained my inspiration. Poison was in both their drinks tonight."

The producer chuckled and rose.

"Okay, boys," he agreed; "the skit suits me. You can put it in the picture, right after Bong Crossbow's number where he sings 'You Horrid Women.'"

Patterns SEWING CIRCLE

THIS is really a "must" fashion for this season when your figure should by all means have the delicately rounded, small-waisted look that distinguished the gracious ladies of the eighties. Gathers on the shoulders and at the waistline, gathers on each side of the front skirt panel which flattens your diaphragm beautifully—that's all the detailing there is to 8567, so that anybody can make it without any trouble at all.

Make it of wool broadcloth, faille, flat crepe or sheer velvet,

and revel in the satisfaction of having an ultra-smart dress that looks expensive and costs really very little.

Pattern No. 8567 is designed for sizes 12, 14, 16, 18, 20 and 40. Size 14 requires 4 1/4 yards of 39-inch fabric with three-quarter length sleeves; 4 1/4 yards with short sleeves.

For a pattern of this attractive model send 15 cents in coin, your name, address, style, number and size to The Sewing Circle, Pattern Dept., Room 1324, 211 W. Wacker Dr., Chicago, Ill.

and tomato.
The total value of Michigan fruit crops in 1939 - apple, peach, pear, plum, cherries and grape - was \$9,978,000, a substantial increase over the previous year.

Because Michigan is a leading fruit state, it is fitting that the importance of fruit to the state economy would be personalized by appearance of 1939 Cherry and Peach festival queens.

Poultry and Meat
Michigan's all important poultry and meat industries will also pay a leading role in the publisher's enterprise.

Choice Michigan turkeys, supplied by the Michigan Turkey Producers Association, will be supplemented by a variety of select cold meats furnished by the nation's only farmers' co-operative packing company.

Apple, cherry and pumpkin pies will be made the old-fashioned way with lard from Michigan's corn-hog belt, recognized as such by the federal government.

Field crops are to be in prominence with the famed, lowly bean, sugar beet, potato and peas providing satisfaction to meet the most discriminating gourmet's fancy. Composite supplies of these delicacies, furnished by growers' associations, come from more than 53 counties. Also of interest is the fact that the other 30 counties are to be represented on the unique menu.

Upper Peninsula
From the Upper Peninsula will come manufactured dairy products.

They will be in recognition of the growth of the dairy industry in this section above the straits. Production of all cheese in the Upper Peninsula since 1921 has increased from 597,000 pounds to more than 9,000,000 pounds in 1939. Michigan now ranks third in the production of Italian cheese with more than 1,800,000 pounds, the manufacture of this cheese being entirely confined to the Upper Peninsula. During the past decade processing of condensed milk has been increased from 4,500,000 pounds to 13,260,000 pounds.

Last year, for the first time in history, Michigan jumped into first place in the production of honey. Through the state department of agriculture, drip canisters containing choice Michigan-produced honey will also tempt the appetite.

Approximately 25 different fruit and vegetable condiments, along with rolls and coffee, will go to complete this "All-Michigan" tribute to the food industry. It will be a novel and news-worthy recognition of the part which Michigan agriculture plays in the state's economy.

CONGRESSIONAL LETTER

Dear Editor:
Since my last letter to your paper the House has considered H. R. 801 known as the Anti-lynching bill. This bill is founded upon the 14th Amendment to the Constitution which guarantees to every one, regardless of race and color, equal protection and due process of law. The bill aims to check the crime of lynching which has been a blot upon our public life for many years and imposes severe penalties for its violation.

It is a highly controversial bill, many of the southern congressmen being opposed to its passage. However, after six hours of discussion the bill passed the House by 252 yeas and 141 nays.

This bill will now go to the Senate where it will be debated at greater length. The Senate on a previous occasion defeated a similar anti-lynching bill.

The bill now before the House is H. R. 7805 which is known as the Emergency Supplemental Appropriation Bill. This bill carries an appropriation of \$267,198,908.00 and becomes necessary because of the deficiency in previous appropriations.

Under this bill the War Department will get an additional \$116,000,000.00; the Navy Department, \$145,000,000; the Federal Bureau of Investigation, \$1,475,000; and the Coast Guard and Light House Service an additional \$4,400,000, making the total of some \$267,000,000.

I realize that the appropriation for the Army and Navy during the last two years have been exceedingly high but, as far as I am personally concerned, I would rather vote additional money for our own national defense than to vote any money to be used in a foreign war, because I am bitterly opposed to American participation in European Wars.

Many interesting bills are now being considered by their proper committees and will soon be reported to the House for consideration.

With kindest, personal regards, I remain

Very sincerely yours,
Wm. W. Blackney, M. C.

**PARK AND PARKWAY STUDY
IN THE HIGH SCHOOLS**

A high school essay contest designed to acquaint the people of southeastern Michigan with the issues involved in the proposed Detroit-Huron-Clinton Parkway plan was announced today by the committee of citizens sponsoring the project.

Legislative authorization for the establishment of a five county parkway authority was granted in an act passed at the last session of the Legislature. A referendum provision in the act makes the creation of the inter-county parkway board dependent upon the approval of the voters in any two contiguous counties at the November elections.

Local and county-wide interests will be held in each of the five counties covered by the proposed plan - Wayne, Macomb, Oakland, Washtenaw and Livingston. Winners of the local contests will compete in the county contest and county winners will compete for the grand prizes offered for the best essays in the entire area.

It is said that there will be more than 100,000 high school students in the area eligible to enter the contest.

Local newspapers throughout the area are offering prizes up to \$10 for the winners in the community contests. Prizes up to \$50 for the best county papers are being offered by newspapers and the county committees. The two best papers in the entire area will bring prizes of \$100 and \$50 offered by the parkway committee.

Prize winning essays in several of the local contests will be published by the sponsoring newspaper under the name of the winner.

"The contest was conceived by the committee as an excellent way of familiarizing people in the area with all phases of the project," said Dr. Curtis, Secretary of the Association, "so they may cast their ballots next November with full knowledge of the matter. It is part of our educational campaign to bring to the voters a realization of the need for a co-ordinated recreational plan for the 2,000,000 people living in the district."

The general plan of the parkway committee contemplates a series of parks, parkways, bathing beaches, wild life refuges and picnic grounds along the valleys of the Detroit, the Huron and Clinton Rivers, made easily accessible to the people of the area by radiating limited-access highways.

The parkway authority, if established by the voters would be an independent governmental unit for the planning, creation and maintenance of Parks and Parkways.
