St. Mary's Annual Picnic Held Sunday

Downpour of Rain Shortens Dinner Period But in Spite of This the Function is a Financial Success.

St. Mary's annual picnic was held Sunday and in spite of the rain that fell at intermittent spells all day was a financial success. It rained most of the morning but cleared up around noon. The tables were set out doors on the square and the tables had been set twice and the third set of diners had just been seated when the heavy downpour of rain arrived. Most of them ran for shelter and many of them finished their dinner inside the town hall where tables were set up.

The rain continued intermittently and the speaking program had to be cancelled. The booths and concessions were moved into the community hall and the festivities continued there.

On account of the rain, however many who came from a distance left early. A dance was held in the community hall in the evening which was well attended considering the weather.

Among those who were present were many former Pinckney residents, politicians and office seekers and a number of prominent men. Among these were James Kain, right of way man for the state highway department and Raymond Foley, head of the F. H. A. They were obliged to leave early to attend a state highway convention at Escanaba.

Rev. Francis Murphy and the members of the parish wish to thank all those who by their patronage made the picnic a success and hope to have next year's event even more successful.

It is estimated that over 1000 people drove here Sunday for the picnic, from Detroit, Lansing, Ann Arbor, Jackson, nearby communities. Among the notables were Mr. and Mrs. Raymond Foley, Mrs. Foley, mother of Raymond Foley of Detroit Attorney and Mrs. Nicholas Whalen of Lansing, Attorney James Kain of the highway dept. Attorney Lavan of Brighton, Prof. Fitzgerald and wife of Detroit, T. J. Hansen and family of Minneapolis, Minn., Rev. Fr. Lowery of Texas, Rev. James J. Murphy of Canada, Attorney Hughes and his mother, Mrs. Hughes of Racine, Wis. Mrs. M. Barbara and M. Owen of Kenosha, Wis., T. J. Fitzgerald and family, formerly of New York, now of Detroit, several hundred relatives, friends and neighbors of many Pinckneyites, the Revs., Kissane, of Brighton, McCormick of Williamston, Fedawa and Cook of Howell, Cassidy of Durand and Duffy of Bunker Hill and hundreds of friends and parishioners.

M-36 PAVING CONTRACT LET

The contract to pave 23.9 miles of M-36 with blacktop has been let by the state highway dept. to the Detroit Asphalt Co. for \$65,883. This also includes sections on M-92, M-47 and U. S. 12. The work will be started about Labor day and rushed to completion.

Osborne, Ethel June McNaamara and Bernice Herbert in canning judging; and the demonstration team in canning will consist of Elsie DeWolf and Jean Bennett.

BOY SCOUTS LEAVE FOR WORLD'S FAIR

Scout Master Charles Schmitt, Wm. Meyer, jr., and nine Pinckney Boy Scouts left at 4:00 a. m. Friday morning for a nine day trip to the New York World's Fair and points east. They will stay at Boy Scout camps enroute and at the Y. M. C. A. in New York. On their way back they will be guests of Congressman Blackney at Washington D. C. for two days and see the sights of the Capitol.

The boys earned their money to go by doing odd jobs although most of them were given extra money by their folks. The boys are: James Doolittle, Ross Lamb, Junior Doyle, Jackie Haines, Robert Aschenbrenner, Charles Clark, Pat Jeffreys, Don and Kenneth Thorpe.

ST MARY'S CHURCH NEWS

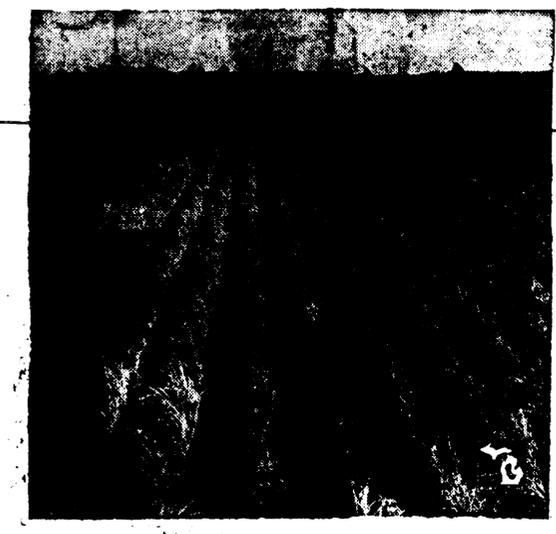

On Sunday, September 1st, from 4:00 p. m. to 10:00 p. m. a continuous social buffet luncheon will be served from 6 to 7 p. m. Lunch 25c. Sandwiches, coffee salad. Games 10c 15c, 25c. Prizes awarded. All welcome. Tables will be served on lawn, porch and rectory. Due to our misfortune of the Pinckney weather conditions, the farmers are blessed with abundance of good crops, gardens, and cattle. We are grateful that the weather conditions are more favorable for many who suffered from the heat and sickness, due to colds, infections from the hot dusty conditions. Now everybody will feel better and turn out for the social and afternoon party on Sunday, September 1st. We have fine prizes to offer. Noted guests who traveled at great inconvenience on last Sunday have offered to return and meet you and talk to you. The house, the yard and the porch are sufficient to handle a good crowd. If it rains you can be sheltered within the house or church.

The Rt. Rev. R. E. Lowery, C. S. P. Ph. B., professor of St. Thomas College, Houston, Texas, and also hockey coach of the school assisted at the 8 o'clock mass last Tuesday. He is a brother of one of the professors at the state university of Michigan. His relatives are camping at a nearby lake. The Rev. James J. Murphy, C. S. B., Sandwich, Ont., assisted at the 10 and 12 o'clock masses Sunday.

The Rt. Rev. Joseph Hurley, D.D., one of the church councillors to the father in Rome, Italy, and a former Cleveland pastor has been appointed bishop at St. Augustine, Florida, to succeed the late Bishop Barry, D. D. who died last week in Florida.

The pastor wishes to thank all the good kind people of the community who co-operated and attended, all the guest who came, and all who were so patient and showed so much good sportsmanship during the ordeal of the rain. One man said he had not had such a good time since he returned from the army.

Mrs. Roy Henry of Battle Creek spent last week with Mr. and Mrs. Roy Hannett.

PINCKNEY WINS N. Y. A. CHAMPIONSHIP

The Pinckney team won the cobnity N. Y. A. baseball championship last week when Brighton who was tied with them for first place lost to Webberville 4 to 1. Pinckney won nine out of ten contests in the league composed of Pinckney, Brighton, 2 Howell teams, Fowlerville and Webberville. Hartlands entered a team but withdrew.

Tuesday they played East Lansing the Ingham county champion at the state tournament at Michigan State College but lost 17 to 0.

Miss Denise Ledwidge is visiting friends in Lansing.

Michigan Mirror State News

The Relation of the School to the State is Defined and the Need for a Proper System of Financial Support.

To Dictators Hitler, Mussolini and Stalin who dream of world control, the answer of Michigan public school system is this:

"Defend democracy through education."
While news headlines stress America's feverish race against time for armaments, Michigan educators actively push plans for a long range defense of democracy through an intensive program of citizenship training in every Michigan community. And as history goes, they are probably justified in assuming that books are more powerful than bullets. It just depends on the way you look at things.

The little red schoolhouse of "The Country Schoolmaster" literary lore has been replaced in some parts of the state by the modern consolidated school. Yet as a symbol of free education it remains the American bulwark against the new flood of European ideologies.

It is a startling realization of how far reaching Mr. Hitler's march of events has extended. Here is the reasoning behind the Michigan school movement.

Can Democracy Survive?
On March 14, 1936, the German Fuehrer declared: "I do not believe there can be peace among the nations until they all have the same law and system of law. That is why I hope that national socialism will someday extend over the world. That is no fantastic dream, but an achievable object."

To the American people the prospect of national socialism, another phase for totalitarian government by dictatorship, has not been inviting.

Since the adoption of our constitution, we have enjoyed for a longer period than any other nation on earth the benefits of democracy—officially a representative government under a republic in which the citizens permit themselves to be ruled through chosen representatives.

OBITUARY

Charles J. Teeple, eldest son of the late John J. and Helen Coleman Teeple, was born on October 11, 1868 and departed this life August 12, 1940, aged 71 years and ten months. He attended the Pinckney schools and later Cleary Business College. At an early age he united with the Congregational Church and in early manhood became a member of the Masonic lodge, having been a life member at the time of his death.

On October 22, 1896 he was united in marriage to Mary Padley of Marion township and to this union were born two daughters, Norma and Lois. Norma departing this life in 1903 at the age of six years, and Lois in 1917 aged 12 years. Sustained by an unflinching trust the bereaved parents faced the future with a calm submission to the Divine Will. He was a long and honorable career as a business man of this community, being associated with Mann Power, Walla Barnard, Teeple and Caldwell and finally establishing the Teeple Hardware.

Hospitable in his home and store, strictly honest in his business transactions, liberal in his donations to his community activities, and always a gentleman, Pinckney feels keenly the loss of its Senior Business Man. An ardent follower of base ball and an expert fisherman, his recreation in later years was his favorite books and magazines.

From him came no word of criticism of his fellowman, meeting the trials and difficulties of each day with Christian Fortitude.

He leaves to mourn his loss his bereaved wife and community, two brothers, Percy G. of Marquette, Michigan, and Roy H. of Brighton. A younger brother, Guy, having preceded him in death.

Let us emulate his great virtues of honesty and charity.

He has gone to his eternal reward to meet the welcome from the Divine Master, "well done, thou Good and Faithful Servant".

Funeral was held Thursday at 2:00 p. m. from the home, with Rev. J. M. McLucas officiating. Burial was at the Pinckney cemetery with Livingston Lodge No. 76 F. & A. M. exemplifying the Masonic the Masonic burial service.

CURRENT COMMENT

The Blitzkreig is on and about every day England is being bombed by about a thousand Nazi airplanes. The Germans do not expect to conquer England by air alone, but this means is being used to soften them up, destroy their morale and communications and line of supplies.

England is now facing the darkest hour of her history. She is entirely on the defensive and can make no offensive moves but must await the attack of the invaders. Military experts give her no chance to win but she may confound them and yet emerge victor. Her sole chance seems to be to exhaust the German army and supplies but many doubt that this can be done with the Germans in control of France, Belgium, Holland and all of Europe. Time will tell.

Those Congressmen who oppose war preparedness and by splitting party endeavor to delay this necessary work remind one of Nero fiddling while Rome burned or those who belittled Noah when he was building the Ark. Their ravings must be a great comfort to Hitler. On conscription the Ann Arbor News remarks as follows:

"Much of the opposition to the proposed conscription bill is sincere and reasoned. Some of it is hypocritical and irrational. Some of it is courageous. Some of it is cowardly. But of all types of opposition, that which deserves least consideration is the argument that nothing should be done until an emergency arises. If this were the only argument against the conscription bill, the measures would be passed by unanimous vote in both houses. No way was of the opinion that nothing should be done until an emergency occurred. So were Belgium and the Netherlands. This was also the philosophy practiced by French and British politicians".

The argument of Senator Vandenberg that enough soldiers can be obtained by volunteer enlistments is scouted by many writers. Conscription was necessary in both the civil and world wars. W. K. Kellogg in the Detroit News says there was never a voluntary enlistment. He refers back to the last world war when ancient fire eaters exempt on account of age and often under the influence of liquor harranged the boys to enlist and called them slackers. Committees of patriotic young women singled out likely looking young men and pinned white feathers on them to get them to enlist. One recruiting booth on Woodward Ave. in Detroit near the city hall got so unsavory a reputation it was ordered closed. The draft is the only fair way as then all will be treated equally.

Jehovah's Witnesses continue to draw publicity toward their sect by their attitude towards the American flag. At Springfield, Ill., Jennings Carter, a member of the sect was jailed for spitting on the flag and wiping his nose on it. Just what this sect expects to gain by their irrational attitude is hard to say.

The charge was freely made awhile ago that Wendell Wilkie, Republican candidate for president was of German descent. Also, Kintner in the Hearst press gave history of him quoting Frank Wilkie, an uncle of the presidential nominee as his authority. He lives at Elwood, Ind., according to him, the founder of the Wilkie family here was William Joseph Wilkie, a German Catholic who came to Indiana in the middle of the last century. His sons, Herman and Paul, also born in Germany changed their names when they entered college in Indiana. Herman, the father of the Republican nominee married a Methodist woman and changed to that faith. Wendell Wilkie of course has been gone from Elwood for years living in Kansas, Akron, Ohio, and New York City.

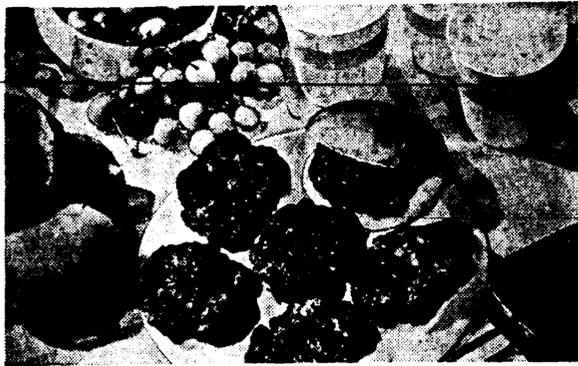

BOWMAN — BACHUS

Rev. R. E. Bachus, pastor of the Methodist church at Columbiaville and Mrs. Millie Bowman of Pinckney were united in marriage Sunday evening, in the Community Congregational Parsonage. Rev. J. M. McLucas officiated.

After a ten day wedding trip in Canada Rev. and Mrs. Bachus will reside in Columbiaville.

WHEN YOU PLAN A PICNIC FOR A CROWD
(Recipes Below.)

Community picnics are fun! They offer an opportunity for a carefree day under the open sky—carefree for even the chairman in charge of affairs, if she's planned her program well and chosen her helpers wisely.

If the crowd to be served is a really large one, it's a good idea to have one committee member responsible for each main dish such as meat, potatoes, salad, dessert, and beverage, and one responsible for extras such as buns, butter, relishes, etc. There'll be a serving committee and a clean-up committee, as well.

Picnics for four or five families are usually co-operative affairs. Each family may supply its own lunch, but more often each one provides one item in large enough quantities to serve the crowd. One family might provide the salad, one the meat, and still another family the dessert, which might be watermelon, a luscious chocolate cake, or a freezer full of old fashioned ice cream. With a little planning, the cost can be fairly equally distributed.

When an outing is in the offing and it's up to you to plan the menu for a crowd, you'll find these picnic pointers helpful.

1. If lunch is being prepared at home, choose foods that permit beforehand preparation, and that are not too difficult to carry or to serve.
 2. Provide a fairly simple meal, with plenty of everything but not so much variety that it will cause confusion and lots of extra work.
 3. Unless you are sure of a good water supply, it's better to carry the water from home.
 4. Carry fruit juices, tomato juice or milk in thermos bottles.
 5. The main dish for the picnic—which might be chili, baked beans, or escalloped potatoes, can be cooked the day before, then in the morning brought to the boiling point, and the dutch oven or casserole wrapped in several thicknesses of newspaper to retain the heat.
 6. Don't overlook the possibilities in frozen foods for picnic use. Quick-frozen meats can be carried, without ice, even on a warm day. They thaw out on the way to the picnic ground and will be ready to use.
- You'll find other picnic pointers in my cook book, "Easy Entertaining." There are menus and tested recipes for beach parties, hikes and a "Colorado beefsteak fry."

When you write to me, won't you tell me something about the "community meals" your group has served? Do you serve dinners for the church, for business men's organizations or for the farm bureau, perhaps? How many people do you serve at meals like this, and what are your favorite menus? I'll be waiting to hear from you!

Eleanor Howe is going to give you, next week, some of her favorite recipes for cool, refreshing summer beverages, and dainty cookies to serve with them. Watch for this column next week.

Grandmother's Ginger Cookies.

- (Makes about 6 dozen)
- 1 1/4 cups shortening
 - 2 1/4 cups sugar
 - 3 eggs (separated)
 - 1 1/4 cups molasses
 - 1 teaspoon cinnamon
 - 1 teaspoon ginger
 - 1 teaspoon nutmeg
 - 1 teaspoon cloves
 - 1 teaspoon salt
 - 3 teaspoons soda
 - 3/4 cup cold water
 - 9 cups flour

Cream shortening and add sugar gradually, creaming until smooth. Beat egg yolks until light, and add to the creamed mixture, with the molasses, and spices, and salt. Dissolve soda in cold water, and add to the first mixture; blend well. Beat egg whites until stiff, and fold into batter. Add flour, and mix until smooth. Roll out to 1/4-inch thickness on a lightly floured board. Cut

There's something very social and heartwarming about entertaining friends in your own home. And entertaining needn't be expensive, nor does it necessarily mean a lot of work!

Eleanor Howe's cook book, "Easy Entertaining," will give you the secrets of doing just that—entertaining without fuss and bother, and to fit your budget.

You'll find in "Easy Entertaining" plans for almost every kind of party. Send 10 cents in coin to "Easy Entertaining," care of Eleanor Howe, 919 North Michigan Avenue, Chicago, Illinois.

with 3 1/2-inch cookie cutter, and press a raisin into the center of each. Sprinkle with sugar. Bake on a greased cookie sheet in a moderately hot oven (400 degrees) for about 10 minutes.

Barbecue Sandwiches.

- (Filling for 3 1/2 to 4 dozen buns)
- 2 pounds beef
 - 2 pounds pork
 - 1 tablespoon chili powder
 - 1 teaspoon white pepper
 - 1/4 teaspoon red pepper
 - 1 teaspoon dry mustard
 - 1 1/2 tablespoons salt
 - 1/4 cup flour
 - 1 1/2 cups tomato puree or condensed tomato soup
 - 1 1/2 quarts meat stock
 - 3 large onions (sliced)
- Cook the meat until tender in enough water to cover. Drain, and grind coarsely. Combine seasonings and flour. Add tomato puree and the meat stock, and cook for 5 minutes. Brown the onions lightly in butter or bacon fat, and add to the sauce with the coarsely ground meat. Serve hot on large, round buns.

Chocolate Fudge Cake.

- (Serves 25)
- 1 cup shortening
 - 3 cups light brown sugar
 - 3 eggs (slightly beaten)
 - 3 1/2 cups cake flour
 - 2 teaspoons baking powder
 - 1/2 teaspoon salt
 - 1 1/4 teaspoons soda
 - 3/4 cup sour milk
 - 1/2 cup cocoa
 - 1 cup boiling water
 - 1 teaspoon vanilla

Cream shortening and add sugar gradually, blending well after each addition. Add slightly beaten eggs and mix well. Sift together the flour, baking powder, salt, and soda. Add to the creamed mixture alternately with the milk. Blend cocoa and boiling water. Add to the cake batter with the vanilla, and mix just until the batter is smooth. Pour into 3 8-inch square pans, which have been greased and lined with wax paper. Bake in a moderate oven (350 degrees) for about 30 minutes.

Meat Loaf.

- (Serves 25)
- 4 1/2 pounds beef (ground)
 - 1 1/2 pounds pork (ground)
 - 3/4 cup quick cooking tapioca
 - 3 eggs (beaten)
 - 1/2 cup onion (minced)
 - 2 tablespoons salt
 - 3/4 teaspoon pepper
 - 3/4 teaspoon sage or poultry seasoning
 - 1 No. 2 1/2 can tomatoes

Combine ingredients in the order given, reserving about half of the tomatoes. Pack into 2 long, narrow loaf pans and bake in a moderate oven (350 degrees) for about 1 1/2 hours. At the end of the first 45 minutes, pour the tomatoes which were reserved for this over the top of the meat loaf, and continue baking.

Tomato French Dressing.

- (Makes 1 quart)
- 1 can condensed tomato soup
 - 3/4 cup vinegar
 - 1/4 cup oil
 - 1/4 cup sugar
 - 3 tablespoons lemon juice
 - 1 teaspoon Worcestershire sauce
 - 1 1/2 teaspoons salt
 - 2 teaspoons dry mustard
 - 1 teaspoon paprika

Place all of the ingredients in a mixing bowl and beat until blended. Store in refrigerator in a quart jar. (Released by Western Newspaper Union.)

Suede Fashions Due for Big Vogue This Fall and Winter

By CHERIE NICHOLAS

IF YOU have not already been converted into a suede way of thinking, you will when you see the fascinating things designers are doing with handsome suede for the coming fall and winter. In a wide range of colors, never so beautiful, never so exquisitely supple and never before so versatile for all purposes, suede has reached the point where it is regarded as a staple medium for the making of smart apparel.

No matter from what fashion angle the approach is made, suede qualifies as the perfect answer. There's nothing smarter on the boards for fall than a coat or a jacket, a suit or a one-piece dress made of suede. As to accessories of suede the rich colors of suede and its delectable yield to deft handling is revealed throughout a whole list of bags and hats, belts, gloves and footwear that add the swank touch to good-looking costumes.

Women of keen fashion-sense like suede because it not only has proved to be dependably wearable and practical, but when it comes to color suede is positively glamorous and stands in a class all its own when it comes to interpreting a new high in fashion.

Destined to be adored is the little-boy jacket done in suede as shown to the left in the illustration. It is collarless with slightly padded shoulders. It boasts of three large patch pockets. Helen Wood, glamour girl of 1940 in filmland, chooses this jacket in a gold nugget hue to wear over a moss green suede dress.

Any school-faring girl will do well to include in her wardrobe a suede ensemble after the manner of the model shown to the right. Here you see Rosemary De Camp, dramatic cinema actress, in a one-piece dress made of porcelain blue suede. Softness is achieved by a fulness gathered

under the slash pockets on the waist. The only trimming detail is a thong lacing outlining the neckline and the invisible slide fastener down the front. You will love this dress in any of the new colors.

Part of the glory and romance of the new suede costumes is that hats to match are ever available. You can get a sort of college girl mortar-board type such as crowns the pretty head of the figure standing, or if you like the cunning matching hat inspired by a bellhop cap as you see pictured in the inset below, shops and departments carry both types.

Society has taken to vacationing in the far West where picturesque "dude" ranches offer fascinating sport and diversion. Part of the fun is "when you are in Rome do as Romans do," which is to say in this connection, adopt cowboy costumes. At least this is what fashion is doing, playing on the theme in a way to dazzle the eye with the novelty and chic of slacks and even dresses, and blouses and jackets made of suede or other fanciful leather. And here's where suede comes into its own in all its glory, in just such attractive outfits as the white leather Western riding habit centered in the picture. The fringed skirt is accented by studs of silver. The boots and fringed bolero are similarly treated. (Released by Western Newspaper Union.)

Red Corduroy

It's time to give thought to the inevitable easy-to-slip-on jacket that is indispensable when cool breezes announce that autumn days are here. The pick of them all, in the estimation of fashion-wise college girls and their younger school-faring sisters is the jacket that is made of bright red corduroy. A grand two-piece for early fall days on the campus or for general wear when the tang of autumn calls for comfortable wraps is a jacket of stoplight red corduroy such as is pictured here, topped with a matching hat of the identical corduroy.

Pompadour Styles Fix Hat Fashions

The revival of the pompadour comes to some of us as a surprise, but here it is and no mistake, smuggled in under the guise of a group of flattering curls or some other softly arranged coiffure that is really very flattering. If there is one thing more than another that we are learning this season it is that the new hat fashions have to a certain extent been greatly influenced by the return of the pompadour.

Toque and Turban Fashions Arriving

Coming in are a series of toque and turban fashions that suggest the quaint bonnets worn in the sixties. You wear them back of the pompadour and the inspiring note about these little chapeaux are they are becoming to youth and to the not so young, as well. In fact for the matronly type these turbans and toques solve the pompadour hat problem perfectly. An older woman who could under no circumstances venture to wear a wide brim posed back on the head such as the teen age delights in, finds that the little draped toques are a triumphant solution.

Also there is comfort in the thought that milliners are designing smart hats that are intended to dip over the brow, that tune to the new style demands every whit as smartly as do the excitingly new pompadour effects.

Gold Jewelry Will Be Worn This Fall

In spite of the fact that gold jewelry has been somewhat out of the picture for a brief spell comes reports to the effect that it has again come to the fore in the style picture. However, the new gold jewelry that will enliven smart black jersey dresses and those of sheer wools, is not of the garish spectacular type. There is exquisite refinement expressed in subtle detail and workmanship in the incoming necklaces, bracelets, pins, clips and lapel ornaments.

Fringe and Lacing Decorative Trims

Soft fringe and lacing are two decorative trims used together on a pretty pair of white linen shoes shown by a New York designer. The shoe is a very high-heeled pump laced up the toe and down the back of the ankle. The throat of the pump is edged with a rim of narrow fringe repeated in a straight band below each crossed lacing on the toe.

Patterns SEWING CIRCLE

Carry out the nautical idea by making it up in blue chambray with white braid, white linen with navy braid, or beige with scarlet. Pattern No. 8738 is designed for sizes 11, 13, 15, 17 and 19. Size 13 requires 4 1/2 yards of 35-inch material without nap; 8 1/2 yards braid. Send order to:

HOUSEHOLD QUESTIONS

Delicate colors in washing materials will not fade if before being washed they are soaked in tepid water to which a few drops of turpentine have been added.

Grass stains can easily be removed from linens, cottons or white stockings by rubbing the stains with molasses before washing.

Make cuts in marshmallows, insert bits of butter and jelly. Arrange on crackers and broil or bake until the marshmallows are puffy and brown.

Mustard and baking powder settle in cans and should be stirred lightly before using.

The backs of pictures should be inspected from time to time. If there are any holes in the paper, fresh pieces should be pasted over them, or dust will get in.

When stewing fruit, add the sugar just before taking the fruit off the stove. In this way far less sugar is needed than if it is put in at the beginning.

Clean paint brushes used for enameling with turpentine. When used to shellac, clean with denatured alcohol.

All vegetables should be put on to cook in boiling water. This holds the major portion of the mineral matter and starch within.

A BIG HELP TO HEALTH!

See how you're helped by delicious oranges!

Hardly one family in two now gets enough vitamins and minerals to permit radiant good health. So enjoy oranges liberally—daily! Eat them for healthful refreshment. Or keep ready a big pitcher of fresh orangeade.

An 8-ounce glass of fresh orange juice gives you all the vitamins C you normally need each day—and one-third of the vitamin B. It also supplies vitamins A and G, and the minerals calcium, phosphorus and iron.

PINCKNEY EVENS AFFAIRS

WITH DUNNE DAIRY

Pinckney lost a game to the Dunne Dairy of Howell 8 to 5 some time ago. Sunday they evened affairs by beating this team in a tight game 4 to 3. Both pitchers were right. Pinckney got but 4 hits and the Howell boys 5. Pinckney got a two run lead in the second when R. Reason and Ward walked and Singer singled over second. They scored another in the 5th on hits by Hendee and Van and the last one in the 6th on a walk to R. Reason, an error by Ellsworth and a passed ball.

The Dairy scored 2 runs in the 1st on a walk, an error by Singer who slipped on the wet grass and dropped Raymer's fly and a hit by Knapp. From then on Dinkel shut them out until the 7th when he eased up a little. Benjamin singled, Ladocour and Sherman flied out, Wiley singled and so did Dinkoff, scoring Benjamin. Horton ended the game flying out to Hendee.

THE WILKIE SPEECH

The acceptance speech of Wendell Wilkie, candidate for president, made Saturday ran true to form and was filled with generalities except in a few instances. As a press commentator states he gave everyone a stick of candy. He endorsed every reform carried out and put into effect by President Roosevelt, including social security, labor relations, welfare relief, old age pensions, unemployment relief, rural electrification, farm relief, etc and heightened the speech by declaring that he was still a liberal Democrat. Then he classed the Roosevelt administration as a failure and the president incompetent because he spent too much money. How he hopes to accomplish all the Roosevelt reforms he endorsed without spending he failed to state.

As Blair Mooly, the famous commentator remarked he did not say how. In two instances he came out in the open when he endorsed conscription and went on record in favor of aiding Great Britain by all means short of war even to selling them 50 battleships. He brought up his German ancestry and said he was proud of the fact that his father was born in Germany and came to this coun-

try to escape religious and political persecution.

PINCKNEY SOFT BALL GAMES

Pinckney won three soft ball games last week. Tuesday they defeated Hartland here 12 to 5. Hartland was minus several of their regulars and failed to offer much opposition. This game was called in the 6th on account of darkness.

Batteries for Pinckney: Dinkel and Burg; Hartland, Stevens and Wycoff. Wednesday, Pinckney took the Toledo boys from Camp Robinson into camp by the score of 18 to 5. Pinckney only got 4 hits but the Toledo pitchers issued 14 bases on balls. P. Singer hit a home run for Pinckney and Kostor of the visitors hit 2.

Batteries for Pinckney: Singer and Burg; Camp Robinson, Boj., Illman, Kostor and Whiz.

Thursday night they played Dexter here in the third game of a 3 game series in which each team had a victory. The game was tight from start to finish but Pinckney hit off-ener and farther and won 7 to 5 although Dexter threw a scare into them by filling the bases in the 7th. Dinkel tightened up then and only one man scored. Pinckney's clouters had a good day. J. Lamb hit two home runs and Lefty Reason one. Lamb's first clout came in the first, scoring Ledwidge ahead of him. Reason hit his in the second and Lamb got another in the 3rd pushing in Ledwidge and Miller ahead of him. Pinckney's last run was scored in the 6th when Shirey doubled and scored on Doc Hendee's hit. However Doc got tangled up in a double play and Reason fouled out. Going into the 7th leading 5 to 4 Dinkel walked Stacy and Rencheler, Lickly was safe on an error. Kolander flied to Hendee, Hennes struck out and Miller threw out Kern.

Does a Banker Grant a Favor When He Makes a Loan?

NO. Profits are essential to sound banking, and a bank's profits come through having its loanable funds employed. Credit is part of a bank's stock in trade, and so the banker is as eager to extend credit through making sound loans as a merchant is to sell goods.

The prospective borrower should no more hesitate to request a loan for sound purposes than he would hesitate to purchase a suit of clothes. By borrowing from the bank he becomes a purchaser of credit and the bank becomes a seller of credit.

The chief difference between the banker and the merchant is that the banker does not sell the funds outright, but merely sells their use. Consequently he must use care in granting a loan because the money he lends belongs to the bank's depositors.

HONEST QUALIFIED DESERVING

HAY FEVER SUFFERERS

enjoy cool, filtered air for a few cents a night!

Hay fever is more uncomfortable than dangerous, say physicians—but that is small consolation to the victim who must undergo the torment of streaming eyes and running nose, of raw nostrils, sneezing days and sleepless nights.

"If I could only get a good night's rest," moans the sufferer, "I could stand the next day!" But tossing and turning in a hot bedroom leaves little chance for sleep... and morning finds the patient tired and worn, irritable and with nerves on edge, facing the ordeal of another day.

Fortunately, a large measure of relief is now available for those who cannot flee north with the advent of the hay-fever season. Thanks to a compact window unit you can install in your bedroom for cooling, dehumidifying and filtering the air, pollen and dust are removed in such quantities as to afford almost complete relief to many sufferers from hay fever and asthma. Also adaptable to a small office, this window unit does a complete job of air conditioning in one room—and it sells at prices around \$130 and up.

Any air conditioning dealer will be glad to tell you about it—and to install one in your home or office today. Telephone him without delay. The Detroit Edison Company. (We do not sell or install this equipment.)

No child can be sure to escape BOWEL WORMS

Maybe you don't realize how easy it is to become infected with round worms: Your child may "catch" the infection from other children, from a dog, from uncooked vegetables, from infested water. So, watch out for these warning signals: Unsteady stomach, fidgeting and squirming, itchy nose and other parts, flabby appetite, rising nails. And if you even suspect that your child has round worms, start using JAYNE'S VERMIFUGE at once! JAYNE'S VERMIFUGE is the best known worm-killer in America. It has been used by millions for over a century. JAYNE'S VERMIFUGE has the ability to drive out large round worms, yet it tastes good and acts gently. It does not contain santonin. If there are no worms it works merely as a mild laxative. Ask for JAYNE'S VERMIFUGE at any drug store. FREE: Valuable medical book, "Worms Living Inside You." Write to Dept. M-4, Dr. D. Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor.

Washington Digest

Congressional Expenditures Pass Twenty-One Billion Dollar Mark

This money Could Buy Entire Railway System of U. S. Or House One-Fourth of Families in Nation, According to Survey by A. F. I.

William Bruckart, for many years Washington correspondent whose letters appeared in this newspaper, died suddenly Sunday, August 4. Temporarily the Washington letter will be written by Carter Field and others.

(Released by Western Newspaper Union.)

By G. F. WASHINGTON.—For the first time in American history one session of congress has authorized federal expenditures in excess of \$20,000,000,000. The nation was astonished and indignant in 1913 when two sessions of congress appropriated \$1,000,000,000. It was our first "billion dollar congress."

In 1934, we had our first \$10,000,000,000 session. Six years later, between January 3 and August 15, 1940, the third session of the Seventy-sixth congress authorized spending to the extent of \$21,439,678,000.

How much is \$21,000,000,000. It would buy outright the entire railroad system of the United States—every mile of track, every bridge, terminal and yard, every piece of rolling stock and locomotive equipment, every mile of telephone and telegraph equipment, plus every station and siding.

The official reports of the Interstate Commerce commission place the current value of American railroads at roundly \$20,000,000,000. The nation built up this railroad system over a period of 115 years.

It is difficult for the mind to grasp such spending. But we may reduce the authorizations of the present session to familiar terms. Let us assume that the whole amount authorized since January had been devoted to building houses at \$3,000 each. That would be a substantial house—better than the average American home today. Federal appropriations for these eight months would build 7,000,000 such houses, or one for every fourth family in the United States.

Translated into bushels of wheat at current market prices, the expenditures approved for the program since January this year tell a more impressive story.

Assuming a farm price of 70 cents a bushel and an average yield of 30 bushels per acre, we arrive at a gross production of \$21 per acre.

This means that it will take a billion acres of wheat to pay for the federal spending authorized in eight months—assuming the government took every ounce of the national farm production.

But, of course, we could not raise a billion acres of anything in a single year. The combined harvested area of all American farms and all crops is only 300,000,000 acres. This means it would take the full crop of three successive harvests, plus one-third of the fourth harvest, to pay the federal spending bill as approved in the year 1940 to date.

Stated another way, every American farm would have to produce its normal crop and turn everything over to the government for more than three years to pay for this first \$20,000,000,000 congress.

This would mean nothing left on the farms for feed, seed, or family food supplies. It would leave nothing for routine operating expenses.

Our federal government is the fastest growing "industry" in the United States.

Recent official figures show public employment in 1939 as 125.3 per cent of 1929—despite a small decrease in the combined state and local payrolls over the decade.

Only one major sector of American industry employed more persons last year, as compared with 1929—the electric utilities, with employment at 102.4 per cent.

But total factory employment for 1939 was but 80.4 per cent of 1929.

Employment in retail trade was 75.6 per cent; and railroad employment, 84.7 per cent.

The U. S. civil service commission's July report shows a few more than 1,000,000 civil employees on the federal payroll—against 564,487 on March 4, 1933.

American industry in 1939 paid taxes aggregating \$811 for every person on the payroll. This is the figure reported by the American Federation of Investors, on the basis of detailed reports from 183 leading corporations.

RECORD EXPENDITURE

For the first time in history, the United States congress appropriated a sum exceeding \$21,000,000,000. Congressional expenditure passed the \$1,000,000,000 mark for the first time in 1913, according to a recent study released by the American Federation of Investors. The study reveals that this sum equals the entire gross income from American farms for more than three years.

All taxes were 54 per cent of combined net before taxes. Seven corporations earned a profit but landed in the red after paying taxes.

Taxes were \$3.05 per common share outstanding, against dividends of \$1.82 per common share paid for the year.

These corporations maintained average employment of 3,378,255 persons.

Conclusion of the study: "Ever-mounting tax burdens are not only a handicap to the national welfare, but also raise added problems for every manufacturer and business man. They directly affect every employee and stockholder. They increase the cost of doing business, and reduce or wipe out profits."

They Call It POLITICS

By CARTER FIELD

WASHINGTON.—Aid to Britain has slipped into second place, with our own preparedness now first. This is not because President Roosevelt wants it that way. The President believes that aid to Britain is the best possible policy for the United States—that every day Britain holds off the Nazis gives the U. S. that additional day to prepare, that every weakening of Germany under the British defensive blows will make the eventual task of the United States that much easier. Put a little stronger, he believes that when we give the British soldiers and sailors something to fight with, we save the lives of American boys later on.

There is a very strong following for this theory throughout the country, entirely distinct from the group which sentimentally favors Britain either as a country or as a form of government, in contrast with the dictatorship. Actually it is believed here that the Republican high command feels the same way, with the exception of the vice presidential nominee, Charles L. McNary.

Yet it is politics which has caused the President to turn cagy on new steps to aid Britain. He has to be SURE that he is not endangering his own re-election. Not because the high command of the Republicans would attack such an action, but because the isolationists are making such a determined effort to convince the public that Roosevelt is leading us down the path to war.

For instance, take the matter of these 50 destroyers. Ambassador Lord Lothian said in a radio interview a few weeks back that the greatest aid this country could give Britain IMMEDIATELY would be 50 of those World War destroyers. These are the destroyers which up until the present war broke out everyone thought would eventually be broken up for scrap. They had been packed in grease, with no thought of their ever being put in commission until last fall, when President Roosevelt ordered them put in shape for use. At that time there was much talk about the "neutrality patrol."

But later there came the torpedo-boat episode. It developed that the United States had built some of these little ships with 18-inch torpedo tubes, the size used by the British. We have no 18-inch torpedoes; our navy does not like them, preferring the 21-inch type.

Congress discovered by accident that these torpedo boats were to be turned over to the British and there was a terrific outcry from the isolationists. They protested despite the obvious absurdity of our keeping a type of boat which fires a different size torpedo from the one we use when the British were eager to pay for them, and we could use that money to build the type we do want.

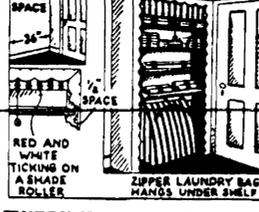

So eager is the President to aid the British that there is no doubt he would have forced the issue, and have forced the issue more recently on the 50 old destroyers, if he were not alarmed by the strength shown by Wendell Willkie in the polls. As it is, he is afraid of alienating the followers of the isolationists—just a few of them voting against him in November might decide whether or not there is to be four more years of the New Deal.

But he is working on public sentiment. The fact that Secretary of State Cordell Hull virtually summoned photographers to picture him congratulating Gen. John J. Pershing, after Pershing's radio appeal to let Britain have the destroyers, speaks volumes.

President Roosevelt is not going through the campaign without a little stumping in addition to the "fire-side chats." There are two reasons for this. One is that regardless of what other talents he may have, Roosevelt's new running mate, Henry A. Wallace, has never been accused of being a rabble rouser. Roosevelt's fond dream of the vice presidential candidate carrying the stumping load doesn't fit in with his practical political views. Other reason is that the early polls indicate some definite Willkie trends.

HOW TO SEW

by Ruth Wyeth Spears

EVERY Homemaker knows how many steps could be saved if table linens could have a special closet in the kitchen or pantry. In one home that we know of space for such a closet was going to waste all because cupboard doors or drawers would conflict with the door shown here in the small sketch. At the right you see how that space became an efficient linen closet after all—complete even to a smart laundry bag for soiled napkins and table covers.

The high compartment has a door of plywood. Below this are shelves with a curtain on a shade roller. The curtain runs up and down between the shelves and the scalloped board that frames the closet, as shown at the left. This board is 1/2 inch thick and four inches wide. The scallops were

marked by drawing around a teacup and were cut out with a jig saw.

NOTE: As a service to our readers Mrs. Spears has prepared a series of homemaking booklets. No. 5, just published, contains 32 pages of clever ideas fully illustrated and a description of the other numbers. To get your copy send order to:

The Automobile was insured... But... the barn, greenhouses and tool shed weren't! For \$9.00 a year, the cost of a \$6,000.00 policy with the State Mutual Cyclone Insurance Company, the buildings pictured above, wrecked by a Michigan windstorm last year, would have been amply protected! The State Mutual Cyclone Insurance Company's claim payments annually, for 43 years, prove conclusively that windstorms will destroy property in Michigan in 1940 as surely as they did in 1939. You can't afford to gamble against windstorms... when you can buy \$1,000.00 worth of windstorm protection for \$1.50 a year from the reliable State Mutual Cyclone Insurance Company. Don't wait 'til it's too late! Insure now!

THE MICHIGAN MIRROR

Continued from first page

Against the national socialism formula for collective security, democracy stands out in sharp conflict. Concerned over the outcome of this clash of democracy with dictatorship, a congress on Education for Democracy was held in August 1939, at Teacher College of Columbia University, New York City. The pressing question was this: What is the responsibility of education for the defense and advance of democracy? The answer came in a consensus of educators that the ideals of democracy can be realized only as democracy is seen and proved to be a way of living.

The educator believes with utmost sincerity that the survival of democracy itself depends on education for citizenship -- making work and then defending it.

"First Lines of Defense"
At a citizenship program held recently at Michigan State College, Dr. Elliott called for cooperation between the community and the local schools.

"In America we are going to fight for our idealism through the classroom and community, or both, and whatever the future may be, we must be ready for it."

This involves not only an appreciation of the benefits of democracy -- individual freedom of press, speech, religion and individual opportunity for economic and political action -- but a willingness to participate actively as a citizen in the affairs of government.

The ugly head of politics rears up inevitably, of course, but the fact remains that democratic government functions only to the degree that an intelligent citizenry votes wisely at the ballot-box of the primary and general elections.

It was Theodore Roosevelt who said: "The majority of the plain people of the United States will, day in and day out, make fewer mistakes in governing themselves than any smaller group of men will make in trying to govern themselves."

Frank Kent, political analyst, observed that good government begins at the primary election when nominees of parties are chosen. Likewise, no modern government is so strong as when the primary and general elections are powerful and a sufficient explanation why so many voters vote in public office. It can all be summed up in a single statement: "The voters will not take part in the primaries."

Western Civilization
Willard Earl Givens, executive secretary, National Education association, expressed the need of education for democracy in the following statement at the 1940 convention in Milwaukee:

"It becomes increasingly clear in the United States that the crisis throughout the world today goes to the very roots of our system of values and that it involves those personal rights, political liberties and representative institutions which we associate with the ideal of democracy. It is up to the schools to awaken the aspirations and finer impulses of the individuals who make up our democracy."

How To Save

In order to save everyone is forced to make some sacrifice. It may be in the form of putting off the purchase of some highly desired article; it may be denying oneself some pleasure. The combined effect of such saving is found in the enjoyment of watching a bank account grow.

A few dollars per week will surprise the saver. \$5.00, \$10.00, \$15.00, \$20.00, \$25.00, so it goes. Five weeks \$25.00. Fifty weeks \$250.00. One Year \$1,000.00.

With all the talk of conscription that is going on we might suggest it be applied to a savings program. Let a Savings Account conscript a few dollars per week from the pay envelope.

CANDIDATE FOR

LIEUTENANT GOVERNOR

Arthur E. Wood, of Detroit, is a successful business man who has 18 years experience in the Michigan Legislature and who is now asking a one-step promotion to Lieutenant Governor, to fill the vacancy which now exists.

Senator Wood must have a better than ordinary reputation for honesty activity and ability to have the people from the largest tax-paying zone in Michigan re-elect him nine different times to the legislature.

Senator Wood knows Michigan and its needs, and fights to see that the tax-payer gets value for every tax dollar, and most important: he is against machine and boss rule, and is free to represent the people's interests.

It is indeed wholesome to have men with these qualities as candidates.
