

Tuesday Sept. 10 Is Primary Election

Many Sharp Contests for State and County Offices is Expected to Bring Out a Good Sized Vote.

Next Tuesday, September 10th, is primary election day and a good vote is expected on account of the numerous candidates for state and county offices. For U. S. Senator, Vardenberg, the incumbent is opposed by a man named Gover who is little known and has made no campaign. On the Democrat side there are numerous candidates, mostly from Detroit. The best known one is Mike Hart of Bay City, former congressman.

For governor the situation is reversed. Murray VanWagoner, state highway commissioner is opposed by Alderman Van Antwerp of Detroit who has made no campaign and is not conceded much of a chance. On the other side the candidates are numerous. Gov. Dickinson has some 6 or 7 opponents, the most prominent of whom are Atty.-Gen. Thomas Read, State Treas. Miller Duncel, State Tax Commissioner McPherson and others long in the political game. The governor's dry supporters are expected to make him the winner, although Tom Read is said to have spurred of late owing to support from Frank McKay and the Wilkie clubs. O. L. Smith of Detroit is also a candidate on a straight Anti-McKay, Barnard-McKeighan platform.

Each ticket has a regiment of candidates for it. This position has had a substantial wage increase and also Governor Dickinson if elected might not live out his term.

For state senator Harry Hittle, the incumbent, is opposed by Joe Wise, a young Lansing attorney who recently toured the county under the guidance of Grant Hudson, former congressman. The Democrat candidate is John Leighton of Lansing.

For congress, William Blackney, incumbent, is opposed by Dave BeBride, of Lansing, head of the state Anti-Saloon League. He has not had a strong campaign, preferring to work through the churches. There are a number of Democrat aspirants, among whom are Charles Cummins, Lansing lawyer, Tip O'Neil, Detroit newspaper man and Charles Adair, Townsend Old Age Pension advocate.

TWO KILLED ON NORTHWEST TERRITORIAL ROAD

Two people were killed in an auto collision at about 3:15 a. m. last Thursday morning and four other people critically injured. The accident took place on Northwest Territorial Road, just west of Toma Rd., about 4 miles south of Pinckney. Just how the accident happened is not known as the victims were either too badly hurt to talk or else hazy about the affair.

The dead people are Eleanor Brier 20, daughter of John C. Brier of the engineering dept. of the University of Michigan and John Wenk, 30, of Freedom township, Washtenaw county. The injured are Patrick J. Maloney, 24, of Detroit, who was riding in the car with Miss Brier, Mrs. Marion Fischer, 29, Edwin Haab, 22, and Norman Gross, 22, all from Ann Arbor. The last three were in the car with Wenk. Both cars were on the same side of the road and had come together so hard that the front ends had telescoped. The injured people were found at 3:15 a. m. by a passing car from Stockbridge and were taken to St. Joseph's Hospital, Ann Arbor, but Miss Brier and Wenk were dead when taken from the wreck. The Briers have a cottage at North Lake and Miss Brier and Maloney were enroute there. The Wenk car was headed east on the North Territorial Road.

Portage Lake Land Owners Meet

Lake Resort Lot Owners Hold Meeting. Agree on Water Level and Elect Officers.

The Portage Lake Land Owners held their second meeting of summer at the Putnam town hall Saturday night. This association was organized some time ago to work for the interests of those who own land on Portage Lake. The meeting was presided over by Earl Baughn, president and a number of members made brief remarks. A year or so ago Wm. Maulbetch erected a dam across the outlet of Portage Lake to hold the water level. A man claiming to represent the state conservation commission tore it out and also threatened trouble if any more dams were built. The conservation commission later disclaimed responsibility for the man's actions and the dam was replaced. At the Saturday night meeting it was the universal opinion to hold the water level at its present state and place a mark on the bridge between Big and Little Portage marking this level. Letters were read from the conservation commission, the dept. of streams and bridges and the Ford Motor Co. The Ford letter was from the head of the dept. which has charge of their dams and factories in small towns. It stated that the company had plans ready to erect a dam on the Huron river below Portage Lake but it would not back the water up far enough to raise the level of Portage Lake. This was taken to indicate that the dam would be erected at Hudson Mills where the Ford Motor Co. has bought considerable property and flowage rights.

Lucius Wilson, sr., wished the association to include in its membership all the land owners in the Huron river valley and to make a survey and determine what dams would be necessary to hold the river and lakes at a specified level.

At the election of officers Marshall Guidot, Detroit lawyer, was elected president of the association and Royal Lanphere, secretary-treasurer and Wm. Maulbetch, vice president. There are also nine trustees.

BAD AUTO ACCIDENT

A. J. Bossineau of Hi-Land Lake suffered a broken pelvic bone in an auto accident which took place at the intersection of Toma and the Patterson Lake roads about 2:00 a. m. Monday morning. He was enroute to Hi-Land Lake in a car driven by Riph Sherwood in which he and Al Dewey were riding. They failed to make the turn at the picnic woods and went through the fence into a field on the farm of Mrs. Alma Harris, the car tipping over several times. Passing motorists brought the injured man to the Pinckney Sanitarium. Mr. Bossineau is 70 years old.

THE COST OF CRIME

It is very nearly impossible to calculate accurately the cost of crime, because so many of the factors are intangible and not subject to statistics. For instance how much damage does the criminal do? How much extra expense is required to protect society and property against him? How many useful enterprises are hindered or abandoned on account of the fear of the criminal, that effect does he have on the nervous system of the public in many different positions?

But there are certain expenses which are show in any audit of public enterprises. Here are a few figures given me by Prof. Carr, head of the Michigan Child Guidance Institute. Cost of Juvenile delinquency to Michigan each year is \$1,100,000; cost of jails \$1,000,000, cost of prisons, \$11,000,000; cost of Detroit police system, \$1,000,000, cost of other systems of the state, \$4,000,000. This is \$27,000,000, of which considerably more than half is chargeable against this area. How much would an adequate system of public recreation save from this bill. It is impossible of course to say just how much it would save; but it would seem to me very conservative to say that it would save as much as the system would cost.

CLEAR UP PETTY ROBBERIES

With the arrest of some ten boys and one woman Sheriff Irvin Kennedy has cleaned up some fifteen different thefts, most of them being of farm tools, left in a field or out of doors, although some chickens were taken. Most of the stolen articles were sold to a Howell junk yard. The woman involved in the case and all but one of the boys has been arrested. Most of the boys are under 15 years of age.

PATRIOTISM OR COMMUNISM WHICH?

You will answer this question by the way you observe the call to prayer, on Sunday, September 8th, as proclaimed by the President of these United States of America to help us keep out of war that is threatening us.

May God help you to answer. Read Isa. 2:15 and Rom. 16:1,10.

Pinckney School

Opened Tuesday

Local School Opens Tuesday With Greatly Increased Enrollment. This is Due to an Increased Number of Rural Pupils.

The Pinckney school opened Tuesday morning with a greatly increased enrollment due to the fact that many rural pupils came here. Among them are a contingent from Gregory composed of Bill Kuhn Eileen Kuhn, Paul Young, Levi Ludtke, Lois Lavey and others. Earl Baughn brought in 28 pupils by auto. 11 of these are from the Harris District No. 1, Putnam which has been closed for several years. 17 are from the Hudson Corners school on the Dexter road in Washtenaw county. Both these schools closed because districts could not modernize their school buildings as the state dept. of public instruction requested. There are also numerous pupils from other country districts and others who have recently made Pinckney their home.

Earl Baughn informs us that he had to make several trips to bring the children in but intends to get a regulation school bus at once so he can haul them all in one trip.

The enrollment is as follows: Primary 26; Intermediate 45; Grammar 22; 8th grade 18; 9th grade 26; 10th grade 21; 11th grade 16; Seniors 23. With this increased enrollment the prospects for good athletic teams should be good. Kuhn, Ludtke and Young all played on the N. Y. A. base ball team this summer and are star performers. So did Gerald Darrow who enrolled as a freshman. We also understand that Roy Clinton, son of Mr. and Mrs. Louis Clinton will enroll here. He is a Senior.

The boys will take in the Lion-Cub professional football game at U. of D. stadium, Detroit tonight and then football practice will start in earnest. A seven game schedule has already been worked out but one more game may be secured. The Gregory boys have never played football before but they are baseball and basketball players of ability.

M-36 BLACKTOPPING TO START AT ONCE

The Detroit Asphalt Co. has been awarded the contract to blacktop 23.5 miles of road on M-36 from the Ingham County line, north of Plainfield to U. S. 23 and is preparing to start at once. The work of processing the blacktop will be done on the Grand Trunk yards at Pinckney which is about midway in the section to be blacktopped. A well has been put down at the railroad track and an engine house built and a stationary engine installed. The blacktop and gravel will be shipped to Pinckney, mixed here and carried from the Pinckney railroad yards to the different sections on M-36. This work must be completed before cold weather and it will be necessary to rush the work. Oakland county and the Livingston County Road Commission are now completing the portion of M-36 from U. S. 23 to Novi which is not state road and when finished there will be a new hard surface road from Detroit to Lansing only two miles longer than the Grand River highway which will mean more traffic through this place.

Mrs. Mary Brandie of Detroit is spending the week with Mrs. Casper Volmer.

State News

Bi Defense Program Gets Underway. Michigan Expected to be One of the Leaders in Turning Out War Materials and Fifth Column Activity to be Guarded Against.

Because the United States is moving steadily toward a showdown in the policy of "aid England but keep out of war", Michigan is due for more "Fifth Column" troubles.

According to Lieut. Harold Mulbar, who heads the state's own "Scotland Yards" state police division for anti-subversive duty, Michigan has more activity of this kind than any other state with the single exception of New York.

Just because the idea seems a bit Hollywood-like and you would prefer to think that "it couldn't happen here", don't discount the possibilities that spies of foreign countries are busy at work right in your own home county. If we didn't have the solemn word of the deputy chief of state police detectives for it, we might be inclined to be skeptical too.

Where are these enemies of American freedom? How do they operate? What are they attempting to accomplish? History is in the writing. Here are some hand-writings today on your wall.

Propaganda

Effective use of propaganda is a leading weapon of the Fifth Columnist. Ever since Adolf Hitler wrote in "Mein Kampf" that Allied propaganda in the first World War caused the Fatherland to collapse, it has been certain that propaganda would be in integral part of the German war machine.

Dr. Goebbels became Hitler's right-hand man as minister of propaganda and public enlightenment. That was in 1933. The British waited until after World War II had begun until after Munich; the French war.

Foreign propaganda has three fronts: Maintaining morale at home, undermining morale of the enemy and its allies, and maintaining or winning friendship of neutral nations. Two of the propaganda fronts extend to Michigan, and it is those that we are concerned about.

Call to Arms

One subversive propagandist in the Fifth Column category is the person who seeks to overthrow the American form of government.

We quote Lieut. Mulbar. "Within the borders of our state there are men and women spreading propaganda against our government, persons trained in the art of espionage, riot and military tactics who are impatiently awaiting the call to bear arms against the United States in a bloody revolution."

In other words -- a communist or a fascist -- if you please.

It is common knowledge at state police headquarters that Communists played an important part in the 1937 sit-down strikes by organized labor.

Furthermore, these anti-American forces penetrate into recognized institutions such as colleges, churches and public schools to further a

CURRENT COMMENT

Some papers are strong for Rep Dies and his committee of Communists Hunters. We are not among this number for so far we have failed to see where he has gotten anywhere.

At the present time he is in California investigating the motion picture industry which it has repeatedly been hinted was rotten with Communism. Last week the papers carried big headlines to the effect that Franchot Tone, Francis Lederer, Louise Rainer and other noted motion start were Communists, this having been uncovered by the Dies Committee. Now Rep. Dies has cleared these stars of Communism by a sort of public apology through the press. Rep Dies, however, got his front page publicity and there is apparently no defense against these reckless and unsupported charges being made against prominent people by means of the Dies Committee.

Gus Hartman, Michigan budget director has announced that he will ask the next legislature for \$750,000 to equip the Ypsilanti, and Pontiac hospitals and Coldwater home with 2,000 beds to accommodate that number of patients who are on the waiting list. Additions were built to these institutions two years ago during the time of Gov. Frank Murphy but the last legislature developed an economy mania and did so at the expense of the mental and crippled cases in Michigan. The Michigan hospital program bore the economy cut and the officials claim that no suffering resulted from it. However, the Children's Fund and the Michigan Medical Society deny this and Hartman's action seems to back up the truth of their assertions.

The campaign for the presidency of Wendell Wilkie has not got off to a flying start and it will take some time to weld the conflicting organizations backing him together. The Wilkie Clubs, organized by Oren Root of New York, the Democrats For Wilkie and the Old Republican Organizations are not hitting it off very well. The first two are disposed to shove the Republican organization in the background and this the latter is resisting for in case Wilkie wins they don't want these new organizations to have the ringside seats at the pie counter. Then the Republican organization does not consider that Wilkie is playing good politics. The majority of Republicans in Congress were against the conscription and implored Wilkie to support them or to keep silent on the bill, instead he came out in favor of it and later on demanded quick passage of the bill which left Republican congressmen and senators sitting out on a limb. His support of the bill is said to have been the reason that it passed. Last week he blasted F. Coughlin and stated that he did not want his support. This was also a mistake according to the old Republican warhorses. Rev. Coughlin controls a large number of votes and if Wilkie had omitted to mention him the votes would have probably gone to him. Then he and Senator McNary, his running mate have so far failed to reconcile their divergence in views. Wilkie believes in the operation of public utilities by private enterprise, McNary would have the government operate them especially the large power projects. Wilkie is for reciprocal trade pacts, McNary is against them. Then Wilkie has come out in favor of practically every reform put into effect by Roosevelt. His theme is that the reforms are excellent but that he could carry them out much more efficiently than the president. This hardly makes a platform on which to conduct a campaign. In other words it is not the way the Republican organization conducted its campaign in the past and they doubt its effectiveness.

According to the press the appointment of the Duke and Duchess of Windsor, or the former to the governorship of the Bahama Islands was similar to Napoleon's sentence to St. Helena. He cannot leave the tiny sandy islands without permission of the English parliament. The duke was supposed to be an admirer of Hitler and his methods and his new job is to take him out of circulation.

For Coroners

As life-long Democrats, we wish to point out the importance of attending the Primary and voting for the following candidates for county office.

The County Committee is elected by the Democratic county candidates nominated at the Primary, September 10. If you desire to make a change in our county chairman, you can do your part by attending the Primary and voting the Democratic ballot, and voting for the following candidates who are pledged to make this change.

We have been pleased with the interest shown by Democrats throughout the county and urge you to attend the Primary on Tuesday, September 10.

- Guy Hosley for Representative
- Irvin J. Kennedy for Sheriff
- Francis E. Barron for Prosecuting Attorney
- Jay Barber for Register of Deeds
- Thos. Finlan for County Clerk
- Wm. Dilloway for Drain Commissioner
- Wilbur Johnson for Coroner
- Russell Woodruff for Coroner

If we are nominated, we will follow the leadership of Irvin J. Kennedy who has made such a fine success of the office of Sheriff.

Take this list with you to the Primary.

Low Cost Soil Building Plan for Michigan Farms

Soil Improvement Makes Possible Crops Like This

CHICAGO.—How Michigan farmers can greatly increase the value of farm manure and thus reap profits from a year-round, low-cost soil building program was explained in a statement by the Middle West Soil Improvement Committee.

"The secret lies in adding 20 percent superphosphate to the manure," the Committee points out. "Such an investment," it says, "will pay manifold dividends in increased soil fertility and crop production.

"There is no better source of plant food than manure," it says, "but by itself it has serious limitations. Because of the limited amount produced on the average farm, only a small percentage of the vitally important feeding elements—nitrogen, phosphoric acid and potash—removed annually by crops and livestock, is returned to the soil through the use of manure. Furthermore, manures are invariably quite low in phosphoric acid. Thus the necessity

of adding commercial fertilizers to insure a successful crop producing program is apparent.

"Practical tests have demonstrated how the value of manure can be increased by the addition of superphosphate. Soil scientists at Ohio State University applied untreated manure and phosphated manure to identical fields at the rate of eight tons per acre and compared the results. Both, as expected, increased the crop yields. But the phosphated manure produced 9.8 more bushels of corn per acre than the unphosphated; 6.2 more bushels of wheat; and 1,391 more pounds of clover.

How to Apply

"Methods of treating the manure with superphosphate may vary according to farm conditions, but the program should be carried on the year 'round—winter and summer. The superphosphate can be added to the manure in the spreader as it goes onto the field; or it can be added as the manure is stored. One of the simplest and most effective methods is to scatter one or two pounds of superphosphate per animal per day in the gutter or trough behind the animal where the manure is collected. This helps distribute the superphosphate more evenly through the mixture.

"One of the most important functions of superphosphate is not only to preserve much of the manure's valuable plant food elements that might otherwise be lost, but actually to reinforce the manure with the element in which it is originally most lacking—phosphoric acid.

"Superphosphate prevents the loss of nitrogen in manure by absorbing the liquid ammonia and halting its escape into the air as ammonia gas.

CONGRESSIONAL WEEKLY LETTER

By Congressman Blackney

After several weeks of discussion, the Senate finally passed the Burke-Wadsworth Conscription Bill, with some amendments, by a vote of 58 yeas to 31 nays. The major provisions of the bill as passed by the Senate are as follows:

Who Must Register and How

With few exceptions, all men who have passed their twenty-first birthday and have not reached their thirty-first birthday, must register. The fact that a person has dependents does not exempt him from registration. Election officials will conduct the registration, probably fourteen days after final enactment of the bill.

Industrial Conscription

The government is authorized to draft private industrial plants when such action is necessary to insure the production of defense materials.

Individual Exceptions

Specifically exempt from registration are active, reserve and cadet members of the Army, National Guard, Navy, Marine Corps and the Coast Guard; members of the Geodetic Survey and Public Health Service; officials, but not employees, of the Federal and State Governments.

Who Will be Drafted

The bill permits 900,000 men to be in training at any one time. About 400,000 probably will be drafted this Fall. The Army estimates that after deferments there will be about 4,500,000 able-bodied, single men men from whom to select. Each state and locality will have a quota.

Appeals

Boards will be set up to hear appeals from men who wish to contest their selection by the local draft boards.

Penalties

To evade the draft, and assist any one to do so, is punishable by up to five year's imprisonment and \$10,000 fine, or both.

Length of Service

One year. This could be extended indefinitely if the country become engaged in war or Congress declared the national interest was imperiled.

Conscientious Objectors

Exempted from military service, if they can prove to the Department of Justice that their objections are based on legitimate religious scruples.

Pay

For the first four months of their year's training draftees would receive \$21 a month. For the next eight, they would receive \$30 unless they won promotion.

Field of Service

Permitted only in the Western Hemisphere, the United States, its territories and possessions, including the Philippine Islands.

Cost of Program

Estimated by Army at \$1,000,000,000 annually.

Voluntary Enlistment

Any person between the ages of 18 and 35 may enlist voluntarily for one year.

The Burke-Wadsworth Conscription Bill now comes to the House for discussion. I feel about it now just as I have repeatedly told the readers of your paper. It is entirely too drastic. Even as amended it would affect more than 12 million men between the ages of 21 and 31, mobilizing part of them for military and part for industrial service.

Our time-honored voluntary enlistment system for Army and Navy has not failed as yet. More volunteers are enlisting in the Army now, than can be readily assimilated. The Military Department now admits that it has a peace-time army of more than 800,000 men. According to a release from the War Department recently, 200,000 men that have enlisted will have to be housed in tents during the coming winter, subjecting them to great hardships and consequent danger to their health.

Several camps are taxed to capacity and are using hundreds of pup tents to house the volunteers. Other words, we now have more men in the Army and Navy than can be taken care of. Then why draft 12 million more?

I can not help but feel that this conscription bill is being pushed as a part of the program of the propagandists who are telling us that we should get into this war to "save the world for civilization."

I have voted for every measure that in my judgment would best protect our national defense, in the Army, Navy and Air-Force, and will continue to do so, but, my judgment is bitterly against this un-American conscription bill.

I had hoped to be able to return to Michigan to meet my constituents before the Primary election on September 10th, but clearly my duty is to remain in Congress just as long as present conditions exist and as long as important bills affecting the welfare of millions of people are constantly brought before the House I will, therefore, have to depend upon the loyalty of my constituents.

MOTORIST! COOPERATE WITH SCHOOL CHILDREN

With the opening of school one million children are out on the street and highways on their way to and from school. The above scene is one which can be duplicated on every highway and byway in Michigan from now until June 1st. According to the Michigan State Wide Safety Committee 111 youngsters lost their lives in auto accidents last year. Every effort will be made in 1940-41 to avoid these accidents. Michigan schools are stressing American citizenship. This program includes not only children but adults as well. Motorists can become safe drivers by applying good citizenship to their driving. This will mean slowing down in school zones and in congested areas, also passing school busses cautiously and being constantly on the alert for children and other pedestrians on the highways. The members of the new State Wide Safety Committee are Superintendent of Public Instruction, Dr. Eugene B. Elliott; State Commissioner of Police, Oscar Olander; State Highway Commissioner, Murray D. Van Wagener and Secretary of State, Harry F. Kelly. The committee is at work to reduce motoring and highway accidents.

Charles R. Adair

OF FLINT, MICHIGAN

For Congress 6th. Dist.

is presented to the voters of the 6th Congressional District as a candidate for the nomination for Congress of the United States.

Mr. Adair is engaged in making abstracts of title, having his own plant in the City of Flint.

For many years, he has been a student of social and economic problems, having lectured for four years with the Chautauquas when they were in vogue.

When the crash came after the great expansion of debts in the banking system, Mr. Adair made an analysis of the Federal Reserve System that has been in use as text book in some of the colleges and is in practically all of the larger libraries of the nation as well as in the libraries of the Federal Reserve Board and most of the Federal Reserve Banks. It has been purchased by the libraries of Paris, London, Amsterdam and the Hague. Even Moscow has purchased a copy of the same. In 1931 and 1932, Mr. Adair predicted the final collapse of the banking structure in June of 1933. He missed it by three months since the bank holiday was declared in March of that year.

To the farmer, Mr. Adair states, that the farm problem is a price problem, always has been and always will be and the price problem from the dawn of exchange down to the present moment is a problem of money.

In the field of labor, Mr. Adair stands in approval of the recent labor legislation; the first that has really amounted to anything, and all any defects develop from its operation these must be corrected by legislation in labor's behalf.

The threat of Communism that hangs over not Europe alone, but our own country, is a phenomena of economic development and changes are inevitable.

He feels that a remedy has been offered to stay the growth of this idea in the gross income tax of the Townsend Plan.

The committee conducting Mr. Adair's campaign offers his candidacy as that of a scholar, a student, a man of integrity and who will be a worthy representative of the people of this district.

PINCKNEY WINS SHORT GAME

Pinckney defeated Dexter here last Thursday night in a game called by darkness in the 4th inning 15 to 1. Dexter did not have such stars as Devine, Crocker, and Lickly in her lineup and did not offer very strong opposition.

No more evening games will be played but a number of Sunday contests will be played starting next Sunday when the Howell Sportsmen champions of the Howell league will play here at 3:30 p. m.

CARRIER PIGEON FOUND

Saturday toward evening, M. J. Reason found a carrier pigeon on a stone pile at his farm, just south of town. It was apparently exhausted after a long flight and he brought it home where it was fed and rested overnight. It's leg carried two bands. Under the steel one was the code message DPF4394 and under the rubber band 73D8. A recent newspaper article stated that all carrier pigeons found should be reported to the sheriff as Fifth Columnists were understood to be using them to carry messages. Sheriff Kennedy was notified and he called the conservation dept. and gave them the message. They informed him to have the bird released and this was done on Sunday afternoon. The bird perched on a telephone wire for some time and then flew to the top of the community hall where it was last seen. There are many carrier pigeon club in the state who hold races at intervals. One such was held some time ago from San Francisco to Detroit. Of the 24 birds released only 4 got through to Detroit.

PIPLEY'S BELIEVE IT OR NOT

Pipley's "Believe it or Not" last Thursday carried a picture of a sheep with a horn growing out of its side. This sheep was owned by Tigh Davis of Uvalde, Texas. Years ago such a sheep existed in this section. It was born to an ewe belonging to the late Patrick Kelly, father of Robert and Michael Kelly. As the sheep grew the horn became more pronounced. Mr. Kelly's son, Philip, once took it to a Fourth of July celebration in Pinckney and exhibited it in a tent charging 5c to see it. Later it was sold to Lewis Yeager and associates of Dexter who had a carnival of freaks with which they made the fairs and other celebrations. Just what ever became of it is not known.

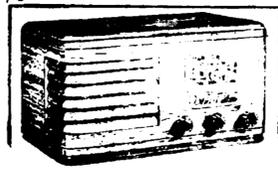

Mr. and Mrs. Dick Caldwell of the Caldwell Stock Co. were in town on Saturday afternoon.

Wallace Harris, 55, a colored man employed by H. L. Pitcher at Round Lake, Oakland county had his left hand cut off and his right leg broken by the propeller blade of a motor boat. He had started the motor and seized the blade to speed it up when it started at top speed.

We Ask Your Cooperation

Because of the tremendous number of checks used in the conduct of business there is a tendency to regard them as money. A check is merely an order for a bank to pay money and as such has no intrinsic worth. It must be converted into cash to be of use. Thus when a check drawn on another bank is deposited, we must send it to that bank to convert it into cash. The depositor therefore should not draw on a deposit of checks until we have had time to collect them.

If we pay a check drawn on uncollected funds, we actually make a loan without interest. This obviously is unfair to our other borrowers and depositors. We will be glad to tell you how long it takes to collect checks drawn on different points so you can know when you may draw on your deposited items.

gion at Brighton, Howell and Livingston in 1833-1837.

Evidently Dr. Quaife does not know his onions or history of Livingston county, either.

Settlement of Livingston county was not begun at Brighton and Howell in 1833-1837.

The first white settler in what is now Livingston county was Colonel Solomon Peterson in 1828 in what is now Putnam township next township to have white settlers was Green Oak in 1830; Hamburg was first settled in 1821; Hartland had its first white settler in 1832, as did also Brighton and Ocoila. Unadilla, the last in the southern tier of townships in the county to have a white settler had its first ones in 1833. Howell had its first in 1833; Cohoctah, Deerfield and Genoa in 1833; Hanoy, Marion and Tyrone in 1834; Iosco in 1835 and Conway in 1836.

Naturally the southern tier of townships was first settled, settlers coming from Washtenaw county which joins Livingston county on the south - and of which county the two southern tiers of townships of Livingston county were once a part.

The population of the county increased quite rapidly - as noted - whereas Hamburg had five families in 1831, the United States census of 1837 gives it a population of 490. The data recorded in this item can be verified at the Register of Deeds office at Howell.

"BUILDING?"
By all means use
DETROIT EDISON'S ELECTRIC PLANNING SERVICE for
new homes—

...it's a big help and IT COSTS YOU NOTHING!"

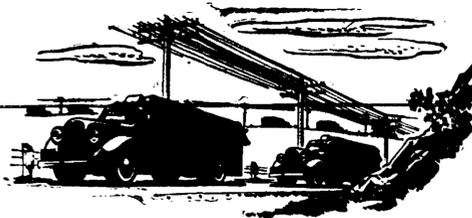

"Before getting bids on your new home, be sure you have an adequate wiring layout prepared for you by The Detroit Edison Company.

"Electricity is the heart and nerve-center of the modern home... essential for LIGHTING, for an ALL-ELECTRIC KITCHEN, for time-saving, ELECTRIC SERVANTS, for countless electrical conveniences and comforts. Can you imagine what a house would be like without it?"

"The time to think about it is before you sign your contract. Detroit Edison's Electric Planning Service is offered to you without charge. Submit your blue prints and let them make a careful study of your requirements. They will draw up a complete wiring and lighting layout for whatever type house you have in mind. Whether you plan to spend \$4,000 or \$10,000, they will give you the best possible layout for the amount of money you have available.

"So take advantage of this Electric Planning Service. It may save you many 'extra' expenditures later. And be sure to insist on an allowance of at least 1 1/2 per cent of the cost of your house for LIGHTING FIXTURES, and that this amount be written into your specifications. Remember that good lighting—skillfully used for decorative beauty and easy, comfortable seeing—can often work wonders in a home." (Note: This Electric Planning Service is offered to Detroit Edison customers only. Phone your Detroit Edison office, The Detroit Edison Company.)

TO THE VOTERS OF
LIVINGSTON COUNTY:

Two years ago, while still a student at the University of Michigan, I ran on the Democrat ticket for the office of Register of Deeds. Although unsuccessful I received a good complimentary vote. Since that time and especially while in charge of the Census for this county, I have made a number of new friends and acquaintances. For this reason, I again wish to be the candidate of the Democratic party for this office.

I will greatly appreciate your vote in the Primaries September 10th and any support you can give me.

Philathea Notes

The class had a short business meeting before the morning class hour on Sunday, with Mrs. Elliott, the president, presiding. Then followed Mrs. Peck's presentation of the lesson "Praising God for His Blessings". Psalm 103. The teacher of the Baraca class being absent those present joined with the Philatheas for the lesson period. Mrs. Peck called for a virtual thanksgiving "testimony meeting," each giving at least one cause for blessing the Lord. Among those mentioned were health, friends, the best country in the world, His never failing provision, church privileges, salvation. It was agreed that "all His Benefits" were too many for enumeration.

Our teacher echoed the thought of the group that one great cause for blessing the Lord was the Sunday morning message and scripture reading by Mrs. T. C. Hackenberg, of Uradilla, supplying for Rev. McLucas. This, with the inspiring number by the morning soloist, sent us out better fitted for the duties of the coming week.

A very fruitful topic is ours for next Sunday: "Inviting Others to Worship God". Study Psalm 96. "Go Tell!" Whence came the idea that it is bad form to "talk religion"? Not from the Bible!

We were glad to see old friends and new faces in our various services. Every one cordially welcome. Watch for announcement of our next business meeting.

"Again loved Christmas is here"

"AGAIN loved Christmas is here, full of divine benediction: and crowned with the nearest earthly advent and nativity of our Lord and Master. At this happy season the veil of time springs aside at the touch of Love. We count our blessings and see whence they came and whither they tend." So writes Mary Baker Eddy, the Discoverer and Founder of Christian Science, on page 256 of "The First Church of Christ, Scientist, and Miscellany."

This impressive season will never lose its attraction for humanity, whose innate desire is to express love. Human hearts are softened in commemoration of the blessed Bethlehem babe, whose birth dated the Christian era because his life set a new standard for human thought and action. Jesus' advent in the flesh marked the appearing of the Messiah, or Saviour of mankind, for whom prophets and godly men and women had longed with tender expectation, and which they greeted with praise and gratitude.

The devout New England preacher-poet, Phillips Brooks, caught the beautiful sentiment of Christmas, and indited a hymn which has since become beloved. The tenderly impressive first verse reads: "O little town of Bethlehem, How still we see thee lie; Above thy deep and dreamless sleep The silent stars go by; Yet in thy dark streets shineth The everlasting Light; The hopes and fears, all the years that met in thee tonight."

Yes, the hopes which had been entertained by consecrated Biblical characters, during the preceding centuries, met their fulfillment that night, when "the everlasting Light" shone over Bethlehem, and the precious promise of mankind's salvation began to be realized. And today it is beyond human ability to measure the beneficent results of the advent of Jesus nineteen centuries ago.

At Christmas time spiritual qualities are more clearly recognized and valued, and are expressed to a greater extent. It is not material gifts in themselves that count, but the thoughtfulness, the loving-kindness expressed in little tokens of love, the desire to surprise a loved one and to impart joy. Everyone values these signs of love, and seeks to reciprocate by tendering, in exchange, appreciation and gratitude. Thus is the spirit of the Christ expressed in loving deeds, even as the Apostle Paul urged upon the Romans: "Let love be without dissimulation. . . . Be kindly affectioned one to another with brotherly love" (Romans 12:9, 10). The true worth of Christmas lies not in material gift giving, but in the true sense of love between brethren, and in a broader answer to the question, "Who is my neighbor?"

Human life is enriched beyond calculation, because centuries ago there was born, in Bethlehem, the babe Jesus, who, in his later ministry, faithful to his trust, revealed and demonstrated the Christ, founded Christianity, and gave to all men the gospel of love. This, then, shows whence come our blessings, "and whither they tend."

It is the Christ-spirit, the tender influence of the Christ-power, that is making the world a better place in which to live. Gratefully may we acknowledge this sacred influence upon the lives of men, and seek to reflect divine Love, in spreading kindness, love, and cheer around us. Our true desire finds expression in Mrs. Eddy's Christmas message for 1900 (191d, p. 237): "To this auspicious Christmas tide, which hallow the close of the nineteenth century, our hearts are kneeling humbly. We own his grace, reviving and healing. At this immortal hour, all human hate, pride, greed, lust should bow and declare Christ's power, and then sign of truth and life divine should make man's being pure and blest."—The Christian Science Monitor.

spread of their ideologies. Quoting from "War Propaganda and the United States" by Harold Lavine and James Wechsler: "The propagandist has allies - the disgruntled, the discontented. In the democracies, they may be the Communists, the Left-wing Socialists, the pacifists, the defeatists."

These groups provide a fertile soil for the seeds of foreign espionage. **Crippling Defenses**
One way to hinder American military defense preparations is to spread the doctrine of pacifism.

Lieut. Mulbar charges that Communists, engaged in this activity, are utilizing churches and schools to further their objectives. He backs up his statement by displaying a number of pieces of literature which he says were distributed by Communists among school students in one Michigan city this year. Dr. Alexander Ruthven, president of the University of Michigan, became so disturbed over these disclosures and others that he declared Communists students should be denied admission at Ann Arbor this fall.

"Facts in Review", the official German propaganda organ in the United States, has a reported mailing list up into the hundreds of thousands. Hundreds of professional people including college faculty members are on the list in Michigan.

Following a pattern set in the last world war, all out-in-the-open propaganda is aimed at upper class America. In April, 1917, when Congress declared war upon Germany and assured the sending of American troops overseas to Europe, the masses were quite indifferent to the Allied cause. Official propagandists center attention on the public leaders, while their hidden agents spread rumors among the workers.

This combination is at work today in Michigan.

War Talk Rises
With the rise of war talk by interventionists who believe sincerely that the United States is headed for a head-on collision with Fascism, Michigan is bound to experience an intensification of fifth column activity.

The centering of huge armament contracts in this state will contribute much to make Michigan a battleground for espionage, in the judgment of state police officials.

Previous to the fall of France, Jay Franklin wrote in Washington: Irrespective of which party wins the election it is the view of American military experts that this country will enter the war within the year.

The United States News also observed: "Chance of United States' staying out of Europe's war is reduced. Nothing imminent; not this year, but Hitler is adding group after group in U. S. who will have a strong personal and sentimental stake in Allied victory. Result: every increase in prospect of British-French defeat adds to pressure for action."

This sentimental interest in the outcome of England's present do-or-die fight is increased in Michigan by our nearness to Canada and the residence here of many former Canadians. Counter to this pro-British wave are the Volkbunds which are numerous in our state and which hold frequent meetings - even rifle practice! - as their contribution to the Nazi cause.

Sabotage
Scores of Michigan plants have received important orders for armament supplies from British and American governments.

As long as the tempo of war action continues to mount, state police detectives are apprehensive that espionage agents will attempt sabotage of production.

"Thanks to the foresight of Commissioner Oscar P. Olander," noted Lieut. Mulbar, "the Michigan state police through the limited facilities of its 41 posts is keeping a watchful eye, as much as possible, on the activities of the fifth column throughout the state."

It is emphasized that the state police are co-operating with the Federal Bureau of Investigation, the G-Men unit.

They are ready for any emergency

NEXT TUESDAY IS PRIMARY ELECTION DAY

In the county there are also a number of contests, notably for state representative and sheriff. Charles Adams, fourth term candidate is opposed on the Republican ticket by Tracy Crandall, former representative and E. Reed Fletcher, Brighton attorney. The latter is a dark horse candidate and expects his two opponents to split the Howell vote sufficiently so that the precincts outside Howell will nominate him. William Miller, former Pinckney postmaster, who was sheriff in 1916-20 is again candidate for sheriff and his opponent is Gus Eismann, Howell plumber who at one time lived in Pinckney.

On the Democrat side of the fence there are candidates for all offices, except sheriff, prosecutor, treasurer and surveyor. Charles Runciman and Guy Hosley are competing for representative, McKinley Payne and Tom Finlan for county clerk, Robert Gates and Jay Barber for register of deeds, Wm. Fear and Wm. Dilloway for drain commissioner and Lorenzo Murphy, Charles Goucher, Wilbur Johnson and Russell Woodruff for coroners. The struggle here, however, is not for office but for control of the county committee. Murray VanWagoner is conceded a good chance to be elected governor and in that case the county committee would hand out the patronage.

It is everyone's duty to come out and vote at the primary election. This election is, in fact, more important than the November election for at this time you select the candidates for the fall election.

of Safe Banking

School

School begins on Wednesday, September 4th. To every family this presents problems of a financial nature. Clothing, books, and school supplies must be purchased. During the past year many new Savings Accounts have been opened. To those who have saved, the school opening problem is no problem. To those who have not planned ahead, the suggestion of a Savings plan starting now is offered. Saving with an aim is fun. Try it.

Three beautiful finishes—eight models

BUYS THE NEW
DUO-THERM
OIL-BURNING
CIRCULATING HEATER

1 **REGULATED HEAT!** All the heat you want on the coldest days—just enough to take the chill off on mild days. Just turn the handy dial!

2 **NO WORK—NO DIRT!** No coal, wood, ashes, soot, fumes or noise—just clean, silent, odorless heat. No fire-building—no fuss—and just the right amount of heat!

3 **MOST ECONOMICAL OIL HEATER MADE!** Patented dual-chamber burner has greater clean-fire range. Full, floating flame circulates more heat into home—gives more heat per gallon. "Waste-stopper" prevents heat rushing up chimney—saves oil.

Easy Payments!

MORE FEATURES IN THE DUO-THERM

- DUAL-CHAMBER BURNER**—Gives clean, smokeless heat at every fire range—from pilot light to top heat.
- HEAT GUIDES**—circulate the heat evenly—no cold spots.
- BIGGER FUEL TANK**—Holds more. Fewer refills.

SAFE—Listed as standard by Underwriters' Laboratories.
