

Pinckney Wins the Opening Game

Defeats New Hudson 7 to 6 in a Hotly Fought Game Here Friday. Team Shows Improved Form

For the first time in five years Pinckney high school defeated New Hudson at football Friday in a game played at Pinckney 7 to 6. The Pinckney team showed better form this year than the boys have in some time. They had the old fighting spirit and charged, blocked and tackled in good shape. Their only weakness was their failure to break up forward passes by means of which New Hudson made 10 first downs to Pinckney's 6.

Pinckney kicked off to New Hudson and Pinckney took the ball on downs. Clawson made 20 yards around end for Pinckney but Pinckney eventually lost the ball on downs. New Hudson made a first down but had to kick. The punt was short and Pinckney recovered at midfield. With Kuhn and Clawson carrying the ball they reached the 10 yard line and Kuhn went through for a touchdown. Kuhn booted the extra point. Score at the half Pinckney 7, New Hudson 0.

In the second half Pinckney continued to gain but had bad luck. Three times they lost the ball on fumbles and they also drew 6 penalties to one for New Hudson. This slowed up their offense and most of the second half was played in Pinckney territory. Three times New Hudson got inside the Pinckney 10 yard line and three times they were unable to penetrate the Pinckney line.

Late in the last quarter with the game rapidly drawing to a close New Hudson filled the air with passes. Bidwell, the New Hudson quarterback, is a good passer but was handicapped by poor receivers. However, he completed enough to get to the 20 yard line and finally managed to throw one over the goal line to Powelson, a rangy end. The attempt to kick the extra point failed. New Hudson started another touchdown drive but Pinckney finally got the ball and punted deep into New Hudson territory and the game ended with the ball at midfield.

Next Friday Pinckney plays Hartland there. This is the one team which Pinckney has been able to beat in recent years. Last year they tied them 0 to 0 and won from them 13 to 6. At Fowlerville last Friday Hartland lost 20 to 0.

MARRIAGE LICENSE ISSUED

A marriage license was issued in Washtenaw county last week to John Webber, Dexter merchant, and Miss Victoria Kulbicki, daughter of Mr. and Mrs. Fred Kulbicki of this place. She graduated from Pinckney high school in 1939, where she was the star of the girls basketball team. Since then she has been working in Ann Arbor. Congratulations. The wedding will take place Sunday, September 28.

ANNOUNCE MARRIAGE

The marriage of Miss June Amburgey, daughter of Mr. and Mrs. Virgil Amburgey of this place to Robert G. Kelley, son of Mr. and Mrs. Maurice Kelley of Lynn, Mass., is announced. It took place in Ohio on Sept. 7. The bride graduated from Pinckney high school in 1939 and has since worked for Hoover Ball in Ann Arbor. Congratulations.

Mrs. Clyde Bucher is entertaining the 500 card club Wednesday. Mr. and Mrs. W. J. Tiplady of Ann Arbor, Charles Dillin and wife were Sunday guests at the Tiplady home.

Pretty Fall Wedding Takes Place

Wright-Richardson Wedding Takes Place at the Bride's Home Near Howell Saturday Evening.

Mr. Robert Richardson, son of Jesse Richardson of Pinckney, and Miss Helen Wright, daughter of Mrs. Arthur Wright of Howell, R.F.D., were united in marriage Saturday afternoon, September 20th, at the home of the bride's mother, Rev. J. M. McClucas, pastor of the Community Congregational church, officiating.

The young couple were attended by Miss Ernestine Taylor of Detroit and Mr. Irving Richardson of Howell, brother of the groom. The bride approached the improvised altar, which was banked with beautiful flowers, on the arm of her brother, Clarence, who gave her away, to the strains of Lohengrin's wedding march played by Miss Virginia Lison, a niece of the bride's.

The bride wore a white satin dress with train and veil, and carried a bouquet of roses. The bride's maid was dressed in powder blue crepe and carried a bouquet of baby mums.

Fifty guests were present from Detroit, Howell, Lansing, Lakeland, Byron and Pinckney. After the wedding ceremony a delicious lunch was served. Mr. and Mrs. Richardson will be home in Pinckney, where they will reside, after a short honeymoon trip to northern Michigan.

MRS. HENRY GEHRINGER

Mrs. Stackable Gehringer, 55 died at home in Adrian Monday after a long illness. She was the daughter of the late Robert Stackable of Hamburg township. Surviving are her husband, a sister, Mrs. Albert Smith of Howell and three brothers, Dr. Wm. Stackable of Chicago and Joseph and Clarence of Pinckney.

The funeral was held from St. Patrick's church, Brighton Wednesday morning, Rev. Fr. Kissane officiating. Burial was at Brighton.

ANNOUNCES REFUNDS

Jerome E. Johnson, manager for the Michigan Bell Telephone Company, announced today that refunds totaling \$128 have been made to long distance customers in Pinckney in connection with the April rate reduction which brought intrastate toll charges down to interstate levels.

Johnson said the refunds have been made to 143 customers in this exchange. A recent check by the company showed that 45 per cent of its customers are entitled to refunds.

Except for "final accounts" involving discontinuance of service, change of numbers, etc., and possibly further pay-station claims, refunds have been completed in this exchange. Claim slips were provided customers making pay station calls to identify the calling party and many of them have been presented for refunds.

On all other calls, the company has complete records. In fact, the job of refunding involves the checking of approximately 85,000,000 records of individual calls. The company estimates that a total of \$1,500,000 will be refunded Michigan users.

The refunds apply to calls between certain Michigan points during the period, August 1, 1938 to April 25, 1941, inclusive.

Refunds made since last July 1 bear interest at the rate of 1/2 of 1 per cent a month. Besides the refund, the company estimates the April rate reduction is resulting in savings of about \$700,000 a year to Michigan users, based upon current usage of the long distance service.

MARRIAGE LICENSES

The following marriage licenses were issued from the office of the county clerk last week: Alvah Chase, 62, Brighton, Catherine Tranham, 47, Brighton; Robert Bates, 43, Howell, Viola Christine Schultz, 32, Howell; Warren Harding Anderson, 20, Marion, Sarah Elizabeth Crane, 17, Fenton; Earl Keener, 28, Portlan, Ind.; Ardis Tamlyn, 21, Fenton; William Clapper, 21, Howell, Mary Jane Keyes, 18, Howell.

Gets the Pinckney Postmastership

Harry Murphy Is Re-appointed Postmaster at Pinckney for an Indefinite Term

We have received the following letter from Senator Prentiss Brown of Michigan: Washington D. C. September 20, 1941

The nomination of Harry E. Murphy as postmaster at Pinckney, Livingston county, has been confirmed by the senate. His name was sent to the senate by the President on the recommendation of Senator Prentiss M. Brown of Michigan.

Mr. Murphy has been postmaster here for the past five years. He was appointed acting postmaster in October, 1936, and the appointment was made permanent the following February. His father, the late W. E. Murphy, was postmaster here for eight years during the administration of President Woodrow Wilson.

The History of College Education Traced from Its Beginning in Michigan

Unknown to many citizens and forgotten by others:

That the first state university in the nation was the University of Michigan whose original charter, under the name of Catholepistemiad, was issued in 1817.

That the first state-wide public school system in the nation was established in Michigan in 1833.

That the first state agricultural college in the nation was Michigan State College, opened in 1857 at East Lansing under the name of Michigan State College of Agriculture.

Michigan's eminence in education is a matter of pride to all citizens. At this time when thousands of young people are going to colleges throughout the state, when a host of boys and girls are finishing their first month of class study in public and parochial schools, take a backward glance at education and get a new inspiration for its future.

Cadillac's Landing

Two days after Cadillac founded Detroit in 1701, Ste. Anne's church was established there. The parish is the second oldest continuously maintained parish of the Roman Catholic church in the United States.

In 1798, after the American flag had been raised over Detroit, Father Gabriel Richard arrived as assistant pastor and soon took over parish responsibilities. He was the first to advocate a state university.

In 1817, twenty years before Michigan was admitted to the Union a charter was issued by the governor and judges of the Territory of Michigan for an institution of higher learning then known as the Catholepistemiad. The formal name, University of Michigan, was adopted in 1821, exactly 16 years before Michigan became a recognized state by act of Congress.

In 1837 the legislature created a board of regents of the university with twenty members. Plans were laid for a new institution. Because the Ann Arbor Land company granted a site of 40 cleared land, Ann Arbor was chosen for its location. Continued on Last Page

LOCAL FOOTBALL SCORES

In the opening games played by the high school teams of this section last week Dexter high school surprised everybody, including themselves, by defeating Chelsea 7 to 2. This was Dexter's first game in 20 years absence from the gridiron and Chelsea, always a strong contender in the Huron Valley League, had a veteran team. However, they were unable to do anything against the light Dexter line or stop Bill Bates the Dexter backfield man who was the star of the game. The two Chelsea points resulted when Bates fumbled while punting behind his own goal line and fell on it himself, giving Chelsea two points.

The results of other games ran true to form. Howell defeated Fenton, 8 to 0, Fowlerville beat Hartland 20 to 0, Leslie took Stockbridge 13 to 7, Ann Arbor beat Ypsilani 42 to 6, Saline took Clinton 19 to 6. Brighton lost to St. Clair Shores.

The American Legion convention at Milwaukee last week reversed completely its previous years' stand and endorsed President Roosevelt's foreign policy 100 per cent, including to his aid to Russia. Most of the resolutions adopted by a voice vote. The resolution declaring for aid to Russia was adopted 876 to 604 or in other words that was the vote by which the motion to table it was defeated. The convention also adopted a resolution favoring use of American troops wherever needed to keep war away from American shores.

The reverberation from the Lindbergh speech at Des Moines, blaming the Jews for the war are still reverberating. At Butte, Montana, his home state, last week, Senator Wheeler was rotten-egged when he mentioned Lindbergh in a speech there. The head of the American First committee under whose auspices both Lindbergh and Wheeler speak, has announced that the committee will issue a statement soon in regard to the Lindbergh speech. This is believed to be an effort to counteract its bad effect.

CURRENT COMMENT

By Y. Editor

It is announced that Tom Harmon ex-Michigan football player, will assist Harry Wismer in broadcasting football games this fall. That is, he will not call play by play but comment between periods when the team is not paying. Harmon came to Michigan following a big blaze of publicity, hailed as a superman. We have often wondered about this. During the three years he played on the Michigan team, Michigan failed to win a single Big Ten championship. Also they lost all three years to Minnesota in games in which Harmon did not distinguish himself. Following his college career he was starred by Hollywood in a football picture. During the filming of it he was reported engaged to some noted film actress about every day. This undoubtedly was part of the buildup. Now he is at odds with his draft board in Indiana over his classification. They have placed him in class 1-A subject to immediate call for service. Unlike Hank Greenberg, another famous athlete, he claims exemption on account of the support he gives his parents, which claim the board disallowed. In the announcement of his broadcasting debut the publicity sheet says he will probably find it hard while broadcasting games to keep from running onto the gridiron and grabbing the ball. We wonder. The urge wasn't so great but that he refused a contract to play professional football with the Chicago Bears.

It seems to be anything for a headline. For years back it has been the custom of department heads in the state government at Lansing to hire their own attorneys. At the present time there are some 35 attorneys in the employ of the state. Most of them are Democrats. Attorney General Rushton gave an opinion in which he stated that their employment was illegal, that his department according to law should furnish all legal aid to the departments of the government. Auditor General Vern Brown saw a chance to gain the front page and announced that these 35 lawyers pay would be held up. Then ensued a series of contradicting statements issued by the ones involved. Finally, Mr. Rushton issued a statement that he would wait until one of the attorneys went into court to determine the legality of their employment. Auditor Brown then ordered their pay checks released and the matter is back just where it was at the beginning as no court test has been started.

The name of the Anti-Saloon League has been changed to the Michigan Temperance Foundation Inc. This is as it should be for there have been no so-called saloons in existence since 1918. This organization's great achievement was putting over national prohibition at that time. This was accomplished by getting huge sums from industrialists and big businessmen on the plea that abolishment of the sale of liquor would increase production and efficiency. Maybe it would. No one knows as it was found impossible to get adequate enforcement of the law. Illicit liquor vendors waxed fat during this period and were tax exempt. Finally the people, disgusted with the enforcement and the ability of the bootleggers to avoid paying taxes, abolished it and legalized large taxes against the dealers. The prohibition theory was all right but absolutely unworkable under the present two party system.

Attorney General Rushton has ruled that osteopathic physicians may issue a certificate of pre-nuptial physical examination required by law before a marriage license can be issued by a county clerk. This pre-nuptial certificate is issued as a result of a laboratory finding that the prospective bride or groom is free from syphilis. Heretofore, only regular M. D. physicians have been allowed to conduct these examinations.

GAINS RECOGNITION

At a state meeting of the Michigan State Medical Society, held at Grand Rapids last week, Dr. Liam P. Ledwidge of Birmingham, was elected speaker of the house. This association has 4,527 members among the doctors of the state. Dr. Edward Cummings of the University of Michigan was elected president of the society for the coming year.

In a Minority

A well-known British dramatic agent, George Bright, who died recently, handled Shaw's plays among others. But on their first encounter Bright was in the gallery on a Shaw first night. It seems he was the only member of the audience who didn't like the play. Anyway, when Shaw came forward to take the "author" call, Bright greeted him with a full-lunged "Boo!" "Quite my dear sir," said Shaw. "But what are you and I among so many?"

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—In the newspapers and on the street there is more and more talk of Donald M. Nelson for the one-man head of the national defense effort. A Washington friend informs this writer that powerful New Dealers, as well as important members of the opposition are working to the above end.

Miracle-Man Sans Sleight-of-Hand, Is Don M. Nelson

There has been much favorable comment on his showing in a recent radio debate on prices. Processed through several alphabetical scrambles at Washington during the last year, he has been appointed executive director of the President's new Supply, Priorities and Allocations board. There seems to be a growing belief that if anybody can perform a miracle, he can.

Mr. Nelson probably would concede no more than a deprecatory wave of the hand to this miracle business. Tall, bulky, bespectacled, slow-moving, and deliberate in speech, he would resolve the bewildering complications of plane and tank production in orderly and methodical processes instead of sleight-of-hand. The former and never the latter is his unflinching procedure.

Mr. Nelson's business career of 29 years has been given entirely to Sears Roebuck & Co., of which firm he became chairman of the executive committee in 1939. He became a defense aide at Washington a year ago. He joined Sears Roebuck as a chemical engineer, for which he had been trained at the University of Missouri. His friends have noted that thus he would bring a technical equipment to the job, as well as long experience in organization and co-ordination, if he should be assigned a one-man seat in the defense wheel-house.

He's slightly red-headed but isn't that way temperamentally. In this connection, he is an inveterate pipe-smoker, the same being the classical deterrent to going off half-cocked. He was shoved around considerably in the more or less broken field of the earlier defense drive, but has shown a capacity to get on with his workmates and is credited with ability to clear log-jams and get things done. He is 53 years old, a native of Hannibal, Mo.

THE life of Artemus L. Gates has been one continuous anti-climax. From the day of his 90-yard run in the Yale-Harvard game of 1917, he

A. L. Gates Long has been steadily in the World 'Down-and-Down' war the best he could do was to become Yale's most decorated war hero. He didn't even become a bank president until he was 33 and was probably near 30 before he gathered his first million.

And now he has dragged along to 46 before being named by the President as assistant secretary of the navy for air. His final slump from that golden November afternoon of 24 years ago probably will be when they make him president of the new League of Nations, after the war.

He entered Yale from Cedar Rapids, Iowa, his home town, guessed right on our entering the World war, joined an apprentice flying group and was ready when the call came, volunteering in the naval air service. He was a tackle in the air, as he had been on the ground, dropping many German planes. The British awarded him the Distinguished Flying Cross, the French the Croix de Guerre, and his own country the Navy Congressional Medal of Honor. His most sensational exploit was the rescue of two British fliers whose bomber had been downed in the channel.

All this got passing mention in the public prints, as did his appointment to the presidency of the Liberty National bank, in New York, in 1929, at the age of 33, but it was just a whisper compared to the uproar touched off by that 90-yard run.

At this writing Mr. Gates is president of the New York Trust company.

Others engaged in Wall Street activities who are on the up-and-up at Washington include Robert Lovett, (he not so long ago served as one of Mr. Gates' directors) who now has a war department post corresponding with Mr. Gates' new navy secretarial job; James C. Forrestal, who is deep in production-management, and then there is Averill Harriman, who is swing-man diplomat in England and Russia.

President's Farmer Tenant Has Trouble All His Own

Newsman Quoted Mose Smith, Who Works 140-Acre Hyde Park Farm, and He Doesn't Like It at All.

By BAUKHAGE

National Farm and Home Hour Commentator.

WNU Service, 1343 H Street, N.W., Washington, D. C.

I suppose the landlord-loving tenant is as much a piece of news as the dog-biting man. So when a famous landlord made the following remark about a certain farmer, I decided the matter ought to be looked into.

"I don't know whether I like being called a landlord," said the landlord. "I say this, though, that if I have to be a landlord, and if he has to be a tenant, I would rather have Moses (Smith) as a tenant than any man I know. . . he has not cut down the trees; he has not burned up the house; and the fields are in better condition than the day he came. And, incidentally, from my point of view, all the time that Moses has been here, he has never given me a headache."

That is what President Roosevelt said about Moses Smith.

So I dropped in and had a talk with Mr. Smith when I was up at Hyde Park recently.

This is what Mr. Smith said to me:

"The President is the best landlord in the United States. I've rented from him for 22 years and he has yet to find fault. Whenever he gets a chance he comes over here to say 'hello' and 'good-by,' but he doesn't find fault. And I've made mistakes, too. Nobody is perfect."

And Smith sounded sincere. There is nothing self-conscious about his relationship with the President—to Smith, Franklin Roosevelt seems simply the son of a landlord who has grown up to inherit the func-

Meeting of the Home club at home of Moses Smith recently.

tions of his mother and who, purely incidentally, has become President.

When I got out of the car in the driveway beside the neat little white farmhouse with its pillared porch, Smith walked out to meet me. He is a typical up-state New York farmer. He was dressed in two-piece overalls—he told me he had just "dressed three fowls" and I knew that morning he had been spreading fertilizer. Bright brown eyes looked out under the wide brim of his straw hat—the kind "Ding's" farmers wear. He took it off and I saw that his hair was not gray as I judged his years would indicate, but weathered a bit, like good lumber that has been exposed to sun and wind and rain.

House Expands Backward.

We did not walk over the 140 acres which make up the place. They are typical of that part of the country, some pretty hilly, some flat—soil that is spread not too deeply over the hard rock, of the sort that makes the Palisades. Flat field stone has provided the stone walls and material for the buildings.

Smith asked me in out of the sun which was filtering through the great trees in the yard. We went in the back door which was handiest.

"It's a long way," he said, "from the parlor to the kitchen." It was. The house had expanded backward evidently instead of spreading out. Convenient in winter though, not so long a path to have to shovel to the barn.

We sat down in the parlor and the conversation started on the landlord-tenant subject. Smith had reached the point where he was telling his side of the story:

"Now the President drove over here a little while back, Smith went on, "with the Princess Juliana. He

told her about this house being over a hundred years old and I told him about the well-water. It had gone bad. So he said to go ahead and dig a new well."

Smith showed me the new well. It is 140 feet deep, drilled through the rock. Smith was proud of it. Up Dutchess County way they have a pride in old things that are good. "It will last a hundred years," Smith said with obvious satisfaction.

Two Things Worry Him.

Smith does general farming—raises wheat, oats, corn, potatoes and vegetables and keeps 14 cows. He has a good home market close by and he raises enough vegetables for himself.

There were two things which were worrying Smith when I talked to him. One which every farmer worries about these days—getting help. And another which is the particular worry of a tenant of a President.

Every year the Home club meets on the Smith lawn, a group of some four or five hundred Hyde Parkers (incidentally I understand these people are really the ones the President likes the most). This year something happened that worried Smith.

As host he made an introductory speech. He told me that he looked around and saw there weren't any microphones and concluded that as long as this was a home gathering he could say what he pleased without being quoted in the papers.

He got a little excited, he told me, and said something about wishing the interventionists would go up on a mountain and talk themselves to death. Next day he was shocked to see his words in print. And he got a lot of letters protesting.

He explained to me very earnestly that he didn't mean to say that anybody could not say what they wanted to under the Constitution.

"I suppose it's all right that they should," he said, "but it just seemed to me that when these people talk that way and show dissent in the country they just encourage those people in Europe to prolong the war."

"That's all I meant to say," he concluded, "I never had any idea a reporter would go and put it in the paper."

Smith does not think they should have put it in the paper at all—even if he is the tenant of the landlord that he is.

Rusting Rail Look Quite Attractive Now

Since Uncle Sam has turned junkman and is crying for scrap iron, attention of the defense agencies is turning toward some of those rusty rails which used to be bright and shiny before the flivver and the truck took away their business.

A quarter of all the iron scrap which goes into the manufacture of steel normally comes from the railroads and scrap makes up 50 per cent of the basic raw material of steel. According to recent reports, 98 per cent of all traffic is carried on 70 per cent of the mileage of the railroads of the country. The roads would be glad enough to get rid of the rusty rails which carry little or no traffic and the government would be glad to tap this source for tanks and ships and guns if it were available. However, when formal steps are taken to abandon a branch line there is usually a strong protest from the citizens of a community through which it passes.

Recently a representative of the Interstate Commerce commission was holding a hearing at a town distant from Washington. Many persons from the community were present as witnesses protesting the abandonment of a branch road which went through it.

There was a dispute as to how much the road was used by the community so the ICC representative asked all those who had come to protest against the abandonment of the line who had come to the meeting by auto, truck or bus to raise their hands. All the hands went up. None had used the railroad.

With the call for more steel for national defense, Washington is looking with hungry eyes at the rusting rails.

BRIEFS . . . by Baukhage

A large part of the WPA program is being reslanted toward defense needs under the direction of Mrs. Florence Kerr, assistant WPA administrator. The new slogan for the effort will be "the good neighbor policy at home." Instead of emphasizing what the government can do to help the individual, as was the need during the economic emerg-

ency, the emphasis is now to be on what the individual can do for the government.

For the first time since the war began on September 11 not a single item of war news appeared on the front page of Hitler's newspaper, the Voelkischer Beobachter. Just what this signified none could say.

Watch Your Kidneys! Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes, feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

The employees of the Vagabond Coach Company at New Hudson have filed a notice to strike.

Arthur Cook, superintendent of Rochester schools for the past ten years, died last Tuesday in a Pontiac hospital.

Clyde Bliss of Brighton, charged with felonious assault when it was alleged that he stabbed James Cain with a knife in a fight in the Dutch Grocery on U.S. 16, pled guilty when the charge was reduced to assault and battery and was fined \$25 by Justice Francis Barron at Howell Friday.

Suit has been started for \$5000 damages against Edward Dolan of Dexter township administrator of the estates of the late Edward and Jennie McGuiness by Miss Susan DeMareo of Ann Arbor. She alleges that on June 15 last a car she was driving to bed with one driven by Miss McGuiness at Fleming and Portage, broke roads. Edward McGuiness was killed and Miss McGuiness died six days later. It is further alleged that Miss McGuiness was to blame as she made a left turn before learning if it was right to do so.

WHEAT MARKETING REGULATIONS SAME

The new national food program recently announced by Secretary of Agriculture Wickard which sets up production goals and aims at the largest agricultural production in the history of the country, does not affect the wheat problem, according to Earl Grubb, chairman of the Livingston county AAA Committee.

He pointed out that wheat acreage allotments will still be in effect for the 1942 crop and that another wheat marketing quota referendum will be held sometime next spring.

"Farmers who are getting ready to put in their 1942 wheat should, for their own protection and for the general welfare of wheat farmers everywhere plant within their wheat allotments," he said.

The regulations regarding marketing quotas have not changed from the regulations now in effect. If marketing quotas are voted in next spring, farmers with excess wheat will again be faced with the problem of disposing of their excess.

The exact amount of the penalty for excess wheat in 1942 will not be set until next spring because the law requires that the penalty be 50 per cent of the national average wheat loan rate and the loan rate for 1942 will not be determined until next spring.

Farmers who had excess wheat this year may free this excess by underplanting their allotment this fall to equal the amount of their 1941 excess. Full information on this point may be obtained at the county AAA office.

MRS. SARAH CARR

Sarah Ann Johnson was born in Ann Arbor August 24th, 1849 and departed this life September 17th 1941, having attained the age of 92 years and 24 days.

She was united in marriage to Warren A. Carr July 6th, 1874, who preceded her from this life February 14, 1918. To this union were born four children, Ernest A. and Francis D. of Detroit, Roger J. of Pinckney and Mrs. James A. Greene of Lansing, all of whom survive as well as ten grandchildren and four great grandchildren.

At the age of four years she was left an orphan and came to make her home with an aunt and uncle, Mr. and Mrs. Hugh Clark Sr., pioneers of Putnam township, who resided on a farm south of Pinckney which had been chartered from the government. Since her marriage she has always resided in this village.

Mrs. Carr was well known in the community and enjoyed the love and respect of all who knew her and her memory will always be an inspiration to charity, tolerance and sympathetic understanding.

She was a life long member of the Community Congregational church Ladies' Aid Society and also of the Order of Eastern Star. She leaves a host of friends and relatives to mourn her loss.

Her funeral was held from the family home Friday, September 19, 1941, and was attended by a host of friends and relatives from many sections of the state, including Lansing, Battle Creek, Detroit, Ann Arbor, Dexter, Howell and St. Louis.

COR J. TRUBEY,
Plaintiff,

vs
JOHN WRIGHT, MARGARET WRIGHT, and their unknown heirs, devisees, legatees and assigns, and MARGARET WRIGHT, Administratrix of the estate of John Wright, deceased, and her successors,
Defendants

Suit pending in the Circuit Court for the County of Livingston in Chancery at Howell, Michigan, on the 22nd day of September, 1941.

It appearing from the sworn bill of complaint as filed in said cause, that the plaintiff has not been able after diligent search and inquiry to ascertain whether the said defendants are alive or dead, or where they may reside if living, or if they have any personal representatives or heirs living, or where they or any of them may reside, or whether the title, interest, claim, lien or possible right, of these defendants have been assigned to any other person or persons or whether such title, interest, claim, lien or possible right has been disposed of by will by said defendants.

And it further appearing that the plaintiff does not know and has been unable after diligent search and inquiry to ascertain the names of the persons who are included as defendants without being named.

Upon motion therefore of Van Winkle & VanWinkle, attorneys for plaintiff, it is ordered that the above named defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered herein within three months from the date hereof, and that in default thereof said bill be taken as confessed by said defendants and each and all of them.

It is further ordered that the plaintiff cause this order to be published within forty days in Pinckney Dispatch, a newspaper printed, published and circulating in said County, once in each week for at least six successive weeks.

St. Mary's Church

It is interesting to note among the works of God are the great redwood trees of the west. Trees die, but the redwood lives to be as old as four thousand years. The tallest is 364 feet. A few good trees will build a house, but a redwood has been known to make 600,000 board feet of lumber, enough to build a village of 36 houses. A redwood has branches capable of making good lumber. This is the year for giants, or those who want to be great. Advertisers are wont to study the works of your Creator to attract their audiences to buy their merchandise. Do you do as much in your humility to adore the God who made you, and the only reason you are created by God is to humbly adore, love and serve Him as Almighty God detests and denounces the soul destroying vice of pride, so, in a corresponding degree does He love and favor its opposite, the truly beautiful virtue of humility. It is the humble of heart whom he selects in order that he may make them the special depositories of his supernatural favors and graces and blessings, according to the assurance of the Apostle (1, Peter V 5) "God resisteth the proud, but to the humble He giveth grace" God know that to grant special privileges or powers to such as are already puffed up, and who are wont proudly to attribute to themselves what they receive from God, would be but to pour oil on the flames, to increase their conceit and vanity and greatly to aggravate the weight of their responsibility, therefore in His mercy He reserves His best gifts for the humble, that is, for those who may be trusted to attribute nothing to themselves, but to refer everything they have to its true source.

Prayers were offered Sunday for the late Father W. J. Doyle, who died last week in New Mexico, and whose funeral was held from his former home in Jackson, Mich., last Thursday and for the late Father Peter J. Widlak, former chaplain of St. Joseph's Orphanage at Jackson whose funeral will be held from St. Stephen's church, Central and St. John avenues in Detroit, Wednesday, Sept 24, at 10 a. m. and for the late Mrs. Henry Gehring of Adrian, formerly Mae Stackable of this parish, whose funeral will be held Wednesday in Adrian and burial at the church cemetery at

Brighton, Congratulations to Mr. who arrived in Pinckney during the and Mrs. Roy Clark, due to the arrival of their charming daughter,

HIGH SCHOOL NOTES

SENIOR CLASS

The seniors are now holding their annual magazine sale. The girls team with Lois Lavey as captain and the boys' team with Lawrence Baughn as captain. The girls have a total of \$152.85 and the boys have a total of \$124.50, making a total of \$277 and a net profit so far of about \$112.15.

We are continuing our sales until Monday, the 29th, and by then we hope to have a net profit of \$150.00 which will be used for our senior trip to Washington.

SHOP COURSE OPEN

A machine shop training course is now open to all boys between the ages of 17 years 9 months and 24 years. Boys in or out of school are eligible but they must be citizens and must attend 75 percent of all sessions. All interested must apply on Tuesday, September, 30, between the hours of 9 a. m. and 12 p. m. at the council room at the city hall in Howell. Wages of \$25 per month will be paid. This is a M.S.E.S. project under the NYA and will be in the County Highway Garage.

Pinckney opened her season with a 7 to 6 win over New Hudson last Friday. The team suffered numerous penalties and lost several scoring chances by fumbling. They tired in the last half and had to fight hard to hold their 7 to 6 lead. Although the coaches were glad to win the game, they are working hard to correct Pinckney's weakness which were pass defense, blocking on punts and tackling.

FRESHMAN NEWS

The first meeting of the Freshman class for this year was held Sept. 5. Its purpose was to elect officers: They are: president, George Carver; vice-president, Ross Lamb; secre-

tary and treasurer, Muriel Read. Class sponsor is Mr. Reader. Class dues are 20 cents a month. There are twenty-six members in the class.

JUNIOR NEWS

The Juniors made a profit of \$2 last Friday by selling candy at the football game. At every home game they are going to sell candy so please them out and buy your candy from them.

SOPHOMORE NEWS

Had three class meetings. Elected officers at first meeting: President George Aschenbrenner Vice-president Pat Young Secretary-treasurer Katherine Swarthout Class dues are five cents a week. Second class meeting wanted all high party but was voted down. Decided on roller skating party. Sent flowers to class president, who was in hospital with appendicitis. Third class meeting decided to go to Howell skating on October 1st. Committee appointed to take care of it.

SOCIAL NEWS

Dancing For the past week, the high school students have had the opportunity of taking dancing lessons. About 50 students have taken advantage of this by attending regularly every noon. **Recreation** Every Tuesday evening, the gym has been open to the school girls for recreation. One of the main interests seems to be basketball, with ping-pong on the side. With all of the interest shown in basketball, we girls are looking forward to a very promising season.

NOTES OF THE GAME

The yell mistresses Pauline McLucas, Gloria and Jean Craft, made a nice appearance all decked out in black sweaters with black velvet skirts.

A number of Pinckney players played their first game so to speak and stood up well under fire. Among them were the two guards, Melnik and Reid. The former played all the game and the latter all but the last minute of play. Jimmie Burns, Merlin Darrow and Phil Gentile also played their first game.

New Hudson has been champion of the Owl league for the past two years and Pinckney should be given credit for defeating them, Rickard, the New Hudson star was lost by graduation last year.

Clawson, playing the backfield for Pinckney is a newcomer. His folks live on the John Carr farm. He has had some experience and showed ability as a good ball carrier.

Pinckney was penalized 35 yards in all while New Hudson drew but one five yard penalty. Clipping, illegal use of the hands, offside, etc., were some of the things committed by Pinckney when they became over eager.

Coach Reader should be congratulated on his good work. Taking a squad with little experience he formed a good line out of almost green material. Palmer, Plummer and Hollis Swarthout were the only veterans in it. Reid and Melnik are new men. VanBlaricum did not play last year and Youngs only a few games. In the backfield, Reynolds only played a couple of games, Ludtke played in the line and Clawson was not in school here.

There is room for more players on the reserve bench. The only ones there Friday were Darrow, Gentile, Burns, Baughn, Griffith and Carver. Where are the rest of the 25 who turned out for the first week of practice?

This victory should put plenty of pep in the boys and encourage them to play harder in future contests. It looks as if athletics were on the upgrade in Pinckney high school.

PHILATHEA NOTES

The Sunday morning lesson was wonderfully fine, dealing with the subject "Overcoming the Adversary" and with Mrs. Buzzard in charge. We are having several lessons from the Revelations, covering prophetic subjects of special interest at this time. That for September 28 will be "The Fulfillment of History: The New Jerusalem" Study chapters 21 and 22 of Revelations and note especially the Golden Text, Rev. 21:7. The Ladies Aid plan to serve

their annual Chicken Dinner on Saturday evening of this week, Sept. 27, 1941.

Again we have lost one of the oldest members of the Ladies Aid Society in the passing of Mrs. Sarah Carr last week. To the family we extend our sincere sympathy.

Our August-September "model" of the "Michigan Mercury", published for Michigan Baraca and Philathea Bible classes, announces the Harbor Lights Convention at Muskegon, on Oct. 17, 18, 19, 1941.

Those who enjoy our S.S. lessons throughout the year are getting help from the prophetic studies, will be interested to know that WIBM, Jackson, beginning Sept. 30 will present Rev. Hinkle of the Michigan Radio Revival, not only at 6:40 to 7 every week day and 7 to 8 a. m. on Sundays, but from Tuesdays to Fridays inclusive at 8:30 to 8:45 a. m.

In a look ahead to the 4th quarter, we notice that we will then study "Some Great Christian Teachings". The lesson for October 5 will be "God our Heavenly Father". Genesis 1:26-28; Matt. 6:24-33. These lessons will give much needed instruction in the fundamentals of the Christian Life, especially to those who imagine that joining the church and the Ladies Aid settles it all.

Rev. McLucas announced that the Church Maintenance Fund, sixteen cents per member, is now due. This was not placed upon the budget as directed at last annual meeting, so again has to be met individually or the church is discredited.

VILLAGE TAX NOTICE

The taxes for the village of Pinckney are now due and payable at my home in the village. Blanche Martin, Village Treasurer

CONSERVATION NOTES

The recent legislative recess has left the game laws rather up in the air as the game law changes are not scheduled to go into effect until 90 days after the legislature adjourns. On account of this, the game laws will be printed in red and black in the book issued with every hunting license. Hunters are instructed to be guided by the laws printed in red as the laws printed in black will not go into effect until 90 days after menthe

Enrollment in the CCC has been liberalized and now any young man between the ages of 18 and 23 may enroll by reporting to county selection headquarters or a CCC camp.

Six days remain for the placing of permanent duck blinds. These blinds are licensed at \$5 each.

A conservation school for 4-H girls will be held Sept. 26-28 at Higgins Lake.

For express charges and \$60 or less communities may get live buffalo, elk or mule deer for zoos or one killed and dressed for a banquet from the Federal Fish and Wildlife service which is reducing herd surpluses in the western ranges.

The mysterious malady which killed some 3000 wild ducks along the Monroe and Erie marshes was caused by the birds eating decayed vegetation according to Dr. S. C. Whitlock and Herbert Miller of the conservation department.

A two-way counting weir has been installed near the mouth of the Platte river in Benzie county and it is expected the question of whether rainbow trout move up or down the river will be settled by the count. Trappers in Chippewa county led all others in taking predators during August with a take of 5 wolves 28 coyotes and 1 bobcat.

A new deer-proof fence consisting of 5 electrified wires only 3 feet high is being tried out near Manton.

A mother bear with four cubs is reported seen near the Cisco chain of lakes.

First move in the fall campaign against gun accidents which took 35 lives last hunting season is the placing of 5,000 colored posters warning sportsmen to use care with firearms.

With a wind of 8 miles an hour 85 per cent of the cigarette butts thrown into a grass pad last week started a fire in five minutes. On Douglas fir duff in 20 tests with cigarette butts 19 fires were started.

GOOD LIGHTING HELPS THE FARMER AND HIS WIFE

IMAGINE the convenience and comfort good farmyard and barn lighting can bring you: As you step into the darkness to do the chores, you flip a switch and floodlight the yard. No more stumbling in the dark.

In the barns, in the workshop, in every building on the modern farm, plenty of light speeds up work, protects against thieves and accidents. Lights in the poultry house increase egg production at the season when egg prices are high.

In the home, good lighting is essential to good living. It makes household chores easier to do, saves time and strength, protects against dangerous eyestrain.

Go to your dealer or electric service company. You'll find that it's easy to have good farm and home lighting at low cost.

Dusty Hot Air Heat
QUESTION: I have installed a new hot air furnace with four vents to rooms for heat. Everything is working well except for the fact that the air, being taken from the cellar, is laden with dust. This dust comes into the rooms through the registers. We seem to be living in a sort of western dust storm most of the time. Is there some way we can filter the dust out of the air before it reaches the living rooms?

Answer: Your best move will be to install a filter unit, which comes equipped with a fan to force the air through the filters. Your local heating contractor can give you information. It would also help to make a dust catcher for the registers. This is a simple job, consisting of putting one or two thicknesses of dark muslin mosquito netting inside the register. Take off the grille, and cover the end of the pipe with the netting, which will be held in place when the grille is put back in position. When the netting becomes clogged, replace it with new, or else clean the soiled netting. The material is inexpensive.

Cold Bathroom
Question: My warm air furnace does not heat my second story bathroom, although other rooms on the second floor get plenty of heat. Pipes to the bathroom and one of the other rooms are close together in the wall, but while plenty of heat comes up one of the pipes, there is very little in the other. The heating contractor cannot locate the trouble. What do you think it might be?

Answer: If there is no difference in the connection of the pipes to the jacket of the furnace, one possible explanation is an obstruction in the pipe. During installation the pipe may have been plugged with newspapers or otherwise to keep out dirt, and the plugging forgotten. You can check on this by dropping a weight on a string through the pipe opening in the bathroom to note whether it strikes an obstruction.

Noisy Motor
Question: The motor of a large oil burner makes a terrific noise. What is the remedy?

Answer: An electric motor that is in good condition should run almost without noise; noise is due to worn bearings or to some other part that needs replacement or repair. With an oil burner, noise is more likely to be due to a blower or pump, and is usually from wear or misadjustment. A machine that is naturally noisy can usually be quieted by setting it on blocks of cork or rubber to absorb the vibration. Any piece of machinery that develops noise should be looked over by a competent service man to locate the cause and to remedy it.

Cold Floor
Question: A concrete floor laid on the ground is covered with a wood floor and surfaced with linoleum. It is miserably cold during the winter months. Can this be corrected?

Answer: Concrete laid on the ground picks up dampness and is cold. Wood laid over it is likely to rot, and the condition of this wood floor should be investigated. To protect the floor against coldness as well as dampness, the wood floor should be taken up, the concrete covered with a layer of waterproofing, and then with a layer of insulation, such as corkboard or something similar. The linoleum can be laid on top.

Draft Adjuster
Question: One oil burner engineer tells me that an automatic draft adjuster would effect a saving in oil, and another engineer tells me that the amount of oil saved would not pay for the installation of the unit. What is your opinion?

Answer: The saving in fuel will depend on the improved efficiency of the heating unit. If the unit is working well the way it is, there would be no particular advantage in putting in a draft adjuster. But if the boiler was originally designed for burning coal, and then was converted into an oil burning unit, the draft adjuster would be of help in improving the heating efficiency.

Pounding Radiator
Question: My radiator pounds and makes a loud noise as steam gets up. What remedy would you suggest to eliminate this noise?

Answer: This condition can usually be corrected by raising the radiator. Place blocks of wood, one-quarter inch thick, under each leg of the radiator. An additional quarter-inch thick block may be needed. Be sure the radiator is standing level and not tilted either way. See that the radiator valve is either fully closed or wide open.

Made Most of Opportunity To Illustrate His Point

MISCELLANEOUS cutout designs are here to tempt hammer and saw into use. At top, left, is a very practical item—the "Leave a Note" bungalow. Inch wood makes this, and it is to be placed beside the front door. Pad and pencil inside the hinged door invites friends to leave word if they call when you are away. Practical, too, are the doorknockers—the red-headed woodpecker and the horse. And kitchen or dining room will welcome this clever cottage flower holder and the matching shade pulls.

Jig, coping or keyhole saw may be used in cutting these articles from wood—bright

The prisoner charged with assault had been severely cross-examined by the prosecuting attorney, but still maintained he had just pushed his victim "a little bit."
 "Now," said the prosecutor, "for the benefit of the jury, will you please step down here and, with me as a subject, illustrate just what you mean by 'a little bit?'"
 The prisoner descended and the spectators were astonished to see him slap the lawyer in the face, seize him bodily, lift him from the floor and hurl him prostrate across a table.
 Turning to the jury, he explained mildly, "Gentlemen, about one-tenth that hard."

MICHIGAN STATE MIRROR NEWS
100-Year-Old Hall

When you visit the north wing of University hall at Ann Arbor, you will find the original Mason Hall, built in 184-1 to serve not only as the classroom of the new institution but also the students' dormitories and the scientific collections of the school.

Seven students comprised the first class that met in 1841. Their two professors were the Rev. Joseph Whiting, professor of languages, and the Rev. George P. Williams, who taught mathematics. Thus mathematics, Greek and Latin made up the first curriculum, a modest start for this great state institution.

The department of literature, science and arts later became the college of literature, science and the arts - mother of the present college of engineering, graduate school, schools of education, pharmacy, business administration, music, forestry and conservation. The college will celebrate the centennial of its opening with a full day's program on October 15, featuring an address by Dr. James Rowland Angell, president emeritus of Yale university, an alumnus of Michigan, and son of James B. Angell, illustrious president of Michigan from 1871 to 1909.

First in Teaching
Michigan's progressiveness in education is also shown by the fact, also little known, that the first chair of the science and art of teaching in the United States was established at the state university in 1879.

Co-education was introduced in 1870 and again the university pioneered in a custom that is observed nation-wide.

As early as 1837, when the state of Michigan came into official being, Michigan has led the nation in the establishment of free schools operated at public expense including grade or elementary schools, the academy or high school and the university. This plan was drafted in Marshall by the Rev. John D. Pierce in collaboration with General Isaac Crary, first attorney of Calhoun county and representative to Congress from 1835 to 1840.

Interestingly enough, the plan was nearly wrecked by a controversy over whether or not the Bible should be used in public schools. It was finally decided that a teacher might open sessions by reading the Bible, but could not comment upon the text.

From this small beginning education in Michigan has grown until today there are eighteen colleges and universities, six teachers' colleges, eleven junior colleges, eight professional schools, twelve private schools, about 1,600 high schools, 6,800 public school districts for elementary classes and 465 parochial schools.

Well Known for Writers
Challenging the literary reputation of its sister state, Indiana, Michigan can boast of a large number of literary men and women whose writings are nationally famous.

Rex Beach and James Oliver Curwood, both native Michiganders, wrote tales early Michigan lumbering history. Stewart Edward White, now living in California, described life in Michigan lumber camps in "The Riverman" and "The Blazed Trail."

Harold Titus, member of the state conservation commission, lives at Traverse City. James B. Hendryx (born in Minnesota), adventure and fiction writer, lives near Sutton's Bay, and Carl Detzer, another prolific writer has a summer home near Leland. At Detroit are Edgar A. Guest and Anne Campbell, bards of the press. Arthur Pound, native of Michigan, wrote many books dealing with the state's growth. Paul de Kruif, born at Zeeland, is the author of numerous books. Other Michigan-born writers - and this fact is probably little known to our readers - include Ring Lardner, Edna Ferber, Helen Topping Miller, and Webb Miller, Carl Sandburg, Chicago poet lives near Benton Harbor, while Ernest Hemingway spent most of his boyhood in our state. William Lyon Phelps spends his summers in the Thumb.

THE HOME TEAM

This week our High School football team plays its first home game under lights. We will see boys play their hearts out at the game they love. At the same time they are getting a valuable lesson in living.

The game of life requires the same concentration, the same perseverance, the same will to win.

One of the cardinal contributions one can make to his own life is to play the THRIFT GAME the same hard way the boys play football. Hit the line every pay day with a Savings Deposit.

SALE OF DEFENSE STAMPS INCREASES

A United States Treasury bulletin shows a big increase in the sale of defense stamps during the month of August. The total sales for that month were \$4,453,748, compared to \$3,288,382 in July and \$2,802,345 in June. In May, the first month, the sales totalled \$3,475,076. The twenty-five cent is the most popular. Of the 15,000,000 stamps sold, 10,000,000 were of that variety. October is expected to show another big increase since many merchants are now giving the stamps out in place of change.
