

## Navy Drive Starts

Navy Campaign Starts this  
Week. Navy Day is October 27

The suggestion of Secretary  
Knox, P. W. Curlett of  
the Dispatch has been made Navy  
Day to help the Navy in giving  
local young men information  
about the opportunities the  
"Ocean" Navy offers them  
throughout the country and  
as they serve their country  
in emergency.

According to an announcement  
made in Washington, a limited  
number of additional men be-  
tween the ages of 17 and 50 will  
be given a chance, by enlistment in  
the Navy or Naval Reserve, to get  
to the top, with big pay, in jobs  
according to their aptitude and as a  
result of examination they show  
they are fitted, from among near-  
ly different trades and vocations  
to include such callings as avia-  
tion mechanic, dental technician,  
radio operator, diesel engineer, ra-  
dio technician, electrician, welder,  
keeper and baker. Enlisted men  
may also qualify for commis-  
sioned officers.

Beginning this week, the Navy  
will open a limited time to accept  
qualified men for training.  
Men will be sent to one of  
the Naval Training Stations and  
will have a chance to go to a Navy  
School even before assign-  
ment to the fleet. During this pe-  
riod they will be given regular  
pay and the Navy's free  
living is valued at hundreds of  
dollars.

Never in the history of the  
United States has there been great-  
er opportunity for loyal young  
men to serve their country  
and build their future than right  
now, said Secretary Knox.

Outlining the many advan-  
tages offered by enlistment in the  
United States Navy, the editor of  
the Dispatch said, "It is possible  
for a bright young man to increase  
his pay seven times during his first  
year and he can earn as much  
in 126 a month. This monthly fig-  
ure is actually worth much more  
than it is remembered that the  
Navy has few living expenses and is  
provided with the finest of medical  
and dental care.

You have all your food and  
clothing, and also your original out-  
fit of clothing provided by Uncle  
Sam free," Mr. Knox continued.  
In addition there are sports and  
entertainment - even to the  
Hollywood pictures. On top  
of this you get free travel and ad-  
vance in colorful places - a thing  
which civilians can afford.

When you consider the size of  
the country and the fact that the  
Navy will select only 15,000 appli-  
cants a month from many times  
the number throughout the United  
States, the quotation, "Many are  
chosen but few are chosen," will ap-  
ply to local young men interested.  
Navy men are a "hand-picked"  
group. Candidates must be men of  
above average intelligence and  
of fine moral character.  
They must have the written recom-  
mendation of at least two local  
citizens.

As the Navy Editor, we have  
received from Washington a  
copy of free illustrated booklets  
for all men interested and, in addi-  
tion, will welcome inquiries from  
young men who wish to look into  
new and greater opportunities  
the Navy now offers for training  
and future civilian careers as they  
serve their country now in its  
emergency.

In accordance with the wishes of  
the U. S. Navy Department, a local  
committee has been appointed  
with members Mr. Revs. Francis  
Morphy and John McLucas, Mayor  
H. Kennedy, Supervisor Frank  
Wyers, Supt. E. L. Hulce, Harry  
Morphy, postmaster, and M. E.  
Crow. They will serve in an hon-  
orary capacity.

### MRS. LELIA CLYMER

Mrs. Lelia Clymer, 52, who has  
been cared for at the home of Mrs.  
Ma Lewis for several months,  
died Sunday. She is survived by her  
husband, Walter Clymer and a son,  
Alvin Mecum, by a previous mar-  
riage. Mr. Clymer is also an inmate  
of the Lewis home. The funeral  
will be held at the McDonald Funeral  
home in Howell today.

### COMPLETES 40 YEARS WORK

Last Wednesday's Ann Arbor  
News carried a fine writeup of Dr.  
Theodore Lane, who has completed  
40 years practice as a veterinary  
surgeon in Ann Arbor. Dr. Lane  
is a native of Unadilla township  
and is well known in this section.  
His wife was formerly Kate Heffer-  
nan of Unadilla. She is now de-  
ceased, a daughter survives. Dr. Lane  
began practice in Ann Arbor in  
1901, incidentally taking over the  
practice of his brother-in-law, Dr.  
John Heffernan, rated as one  
of the best veterinarians ever to  
practice in this section. Dr. Heffer-  
nan enlisted in the army and went  
to the Philippines at that time.

The article states that when Dr.  
Lane came to Ann Arbor the liv-  
ery stables there owned 200 horses  
and all road work was done with  
horses. Now his work is mostly for  
treatment of cattle, swine and sad-  
dle horses. He claims to have per-  
formed the first Caesarian opera-  
tion on a cow in the county on the  
farm of John Hoey in Webster 20  
years ago. Dr. Lane now raises  
blooded horses, having 40 on his  
324 acre farm on Joy Road. Dr.  
Lane has two brothers, Dr. Chan-  
dler Lane, a veterinary of Chelsea  
and Herbert Lane, long a leading  
horse dealer in Howell, who has  
since transferred his activities to  
real estate.

### SELECTEES TO BE PRE-EXAMINED

From now all selectees will be  
pre-examined at Detroit by the  
army doctors previous to being  
inducted into the army. After Novem-  
ber 1, Livingston county will send  
16 Class 1A selectees to Detroit for  
pre-medical examination. If they  
pass they will be certified into the  
army in November.

## Catholic

Rev. Francis Murphy

Sunday, October 26 is the feast  
of Christ the King and the 21st  
Sunday after Pentecost. Masses  
Sunday are at 8 10:30 and 12 noon  
Communion Sunday for the boys of  
the parish. Catechism classes for  
children meet after the 8 o'clock  
Mass Sunday and Saturday at 10  
a.m. The Novena devotions are held  
each Friday at ten minutes to 12  
noon, and 8 p.m., followed by ben-  
ediction and preparation for Holy  
Communion.

Sunday, October 26, St. Mary's  
church will receive its neighbors,  
friends, parishioners and former  
residents at the rectory parlors for  
a six-course harvest dinner, offer-  
ing, including tax is 56c per plate.  
Service from 1 to 3 p.m. Proceeds  
are for the parish benefit.

### NEW BUSINESS BLOCK

John Eisele, who has conducted  
a body bumping and painting shop  
at the garage at the rear of his  
home on Pearl St. for several years  
has outgrown his present quarters  
and is expanding. He has purchased  
the three vacant lots on West Main  
St. west of the fire hall and will  
put up a 30 x 60 modern garage  
of cement block construction. Work  
was started Tuesday in clearing  
up the ground. Fred Server Jr. of  
Howell will do the construction  
work. Mr. Eisele is a fine workman  
and his business has rapidly ex-  
panded since he started here a few  
years ago. He learned his trade in  
New Jersey, where he was in busi-  
ness with his brother.

Gerald Darrow, who has been  
spending 15 days furlough at his  
home here, returned to the Great  
Lakes Naval Training Station near  
Chicago Sunday.

## Four United in Marriage

The Two Ledwidge Sisters, Raymon-  
da and Clare, Are Married in a  
Double Ceremony Saturday

The wedding of two well known  
young ladies of this parish, Misses  
Raymonda Angeline and Clare Ali-  
cia Ledwidge, daughters of Mrs.  
Eleanor and the late Max Led-  
widge and Mr. Joseph Patrick Mor-  
ris of Dexter and Mr. William How-  
ard McMacken of Howell, Michig-  
an, took place at St. Mary's church on  
Saturday at a nuptial high Mass at  
9:30 a.m. The contacting parties  
were witnesses for the ceremonies.  
It was the first time in the history  
of St. Mary's to witness a double  
marriage ceremony. A large con-  
gregation of relatives and friends  
of the wedding parties attended.  
Among the guests were relatives  
from Mt. Pleasant and Detroit and  
nearby communities of Livingston  
and Washtenaw counties. Mr. and  
Mrs. Joseph Morris (Raymonda  
Ledwidge) will reside in RFD Pinck-  
ney and Mr. and Mrs. McMacken  
will reside in Howell. The brides  
are graduates of Sienna Academy,  
Adrain. The grooms are employed  
at Dexter and Howell and have  
many friends in and about this  
section of Michigan who wish them  
and their brides a happy and long  
wedded life. They were the recipi-  
ents of many choice and useful  
gifts. The mother of the brides re-  
ceived the immediate wedded cou-  
ples and immediate relatives at a  
wedding breakfast following the  
ceremony. The church sanctuary  
was encircled in a bower of fall  
mums and foliage and potted ferns  
for the nuptial Mass, Tall, tapered  
wax candles and huge baskets of  
cut flowers were massed about the  
altar and lent much grace to the  
simple but solemn service. The or-  
ganist for the ceremony was Miss  
Nellie Gardner of Pinckney. The  
solo parts were rendered by John  
Hoey of Dexter, a friend of Mr.  
and Mrs. Morris. During the Com-  
munion of the Mass Mr. Hoey sang  
the First Communion Day Hymn to  
the Sacred Heart of Jesus.

### RETURN COUPLE FROM ARKANSAS

Sheriff Kennedy and wife re-  
turned from Pickett, Arkansas,  
Monday with Lawrence St. Albans,  
20, and Helen Simpson, 15, both of  
Brighton. These two young people  
eloped to Arkansas last Thursday.  
St. Albans is a southerner. He will  
be charged with contributing to  
the delinquency of a minor.

### THOMAS SHEHAN

Thomas E. Shehan, a former re-  
sident of this section died at his  
home in Detroit, October 15. He  
was the son of the late John and  
Mary McCabe Shehan of Hamburg  
township. He is survived by his  
wife, formerly Ellen Ledwidge of  
Dexter township. A sister, Mrs.  
Etta O'Brien, is also deceased. The  
funeral and burial were held Friday  
morning from St. Joseph's church,  
Dexter.

### THE MICHIGAN SOCIETY OF SCREWBALLS

The Michigan Society of Screw-  
balls met in Indiana last week and  
made honorary members of Mickey  
Owen, who dropped the third strike  
in the recent World Series; the  
man who dropped from an airplane  
on Devil's Tower and had to stay  
there five days, and all the mem-  
bers of the Michigan legislature  
who recessed for 90 days and then  
met, legalized bluegill fishing in  
the winter and adjourned. The last  
membership was given on motion  
of a member of the legislature who  
is also a member of the club.

### CHARLES CLINTON AND BROTHER-IN-LAW

Charles Clinton and brother-in-  
law, Arthur Thormalen were callers  
at the C. J. Clinton home Saturday.  
The latter has secured a position  
in Detroit and will move there from  
Hamilton, Ontario.

Michigan To Play Big Part in the  
All-Defence Production

Conflicting economic forces are  
now converging on non-metropoli-  
tan cities and towns of Michigan.

Their movement has been accel-  
erated by the deterioration of the  
Russian military front and a conse-  
quent realization of American lead-  
ers of the enormity of the produc-  
tion job facing the United States.

Like armies in head-on conflict,  
some of today's economic forces  
are positive, others are negative,  
in their ultimate effect.

An all-over picture of what is  
happening on Main Street today  
may be put together, jig-saw fash-  
ion, from the segments which are  
at hand. While the picture is not  
complete, the focus is clear enough  
to justify comment.

### Shortage of Supplies

One negative economic force that  
threatens the life of small towns is  
the growing shortage of raw mate-  
rials needed for manufacture of  
non-defense products.

This bottleneck is the inevitable  
result of an attempt by this coun-  
try to accomplish in a few years  
what Hitler did in seven years.  
That we have the capacity to do it  
is generally conceded; that we  
are falling down in attaining our  
maximum potentialities is also ad-  
mitted widely.

The lack of supplies for factories  
now engaged in non-defense pro-  
duction was recently recognized by  
Governor Murray D. Van Wagoner  
when he testified before a congress-  
ional committee in Detroit, as fol-  
lows:

"Unless this priorities starvation  
now facing our small industries is  
relieved, Michigan and the nation  
face economic chaos within three  
months which will bring about a  
welfare and economic problem far  
worse than the depth of the last  
depression."

### SOUGHT ESCAPED CONVICTS

Four guards from Jackson prison  
stopped here Thursday morning.  
One guard got out here and stayed  
all day while the others went on.  
They sought three convicts who es-  
caped from the Vandercook prison  
farm, Wednesday night. The con-  
victs were Clifford Cagle, 25, sen-  
tenced from Ingham county to five  
months to five years for larceny;  
Fred Valler, 25, Kalamazoo, sent  
up for 2 to 15 years for perjury,  
and Robert Spencer, 24, Genesee  
county, serving 3 to 15 years for  
breaking and entering.

Four escaped convicts have been  
captured in this section in recent  
years by local people who claimed  
the \$100 reward. The captors were  
John Dinkel, S. H. Carr, Boone  
Amburgey, and Murray Kennedy,  
Leonard Devereaux and Fred Read.  
The prison farm is located near the  
Grand Trunk track and the con-  
victs invariably follow the tracks  
in their getaway.

## CURRENT COMMENT

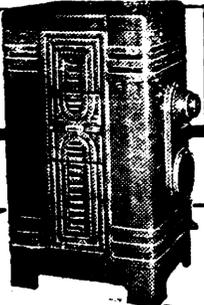

"By Ye Editor"

There are growing indications  
that the congressional opposition to  
the administration's foreign policy  
is rapidly going to pieces. Affairs  
have not narrowed down to such  
a point that you are either anti-  
Hitler or Pro-Hitler and the boggy  
ground of neutrality, to which the  
Republican and Democrat isolation-  
ists were trying to stand upon, has  
sunk out of sight. Consequently,  
there were many desertions from  
isolationist ranks when the repeal of  
the neutrality act was voted upon.  
The America First Committee is  
the foremost opponent of the ad-  
ministration's foreign policy and of  
late that body has been losing much  
of its influence. Lindbergh's anti-  
Semitic speech damaged them and  
also the fact that much alleged Pro-  
Hitler literature was being sent out  
under congressional frank from  
many places in the nation. There  
are three false charges made by  
administration opponents which the  
Ann Arbor News takes up in detail  
in a recent editorial and tears to  
pieces. One is that the government  
intends to suppress free speech.  
The fact is that these symbols of  
isolation are still voicing their  
views refutes this. Second is the  
statement that the majority of the  
people are against the adminis-  
tration's foreign policy. According to  
the polls taken, public opinion has  
supported successive phrases of our  
foreign policy. Third is that there  
will be no national election in 1942.  
Of course there will be and both  
parties are preparing for it at  
present. In their recent convention  
at Detroit the Young Republicans  
passed a resolution condemning the  
efforts to weld the Republican party  
with the America First Commit-  
tee. In a recent letter to Joseph  
Martin, chairman of the Republican  
state central committee, Gov. Willis  
of Vermont, demanded a caucus of  
the Republican representatives and  
senators in Washington to decide  
on a foreign policy. Such an infor-  
mal caucus is said to have been  
held previous to the vote on the 7  
billion dollar Lease-Lend bill in  
which Chairman Martin is said to  
have concurred support of the bill.  
Congressman Blackney of this dis-  
trict was one of the two Republi-  
cans in this state to vote for it,  
the other being Michener of the 2nd  
district. Mr. Blackney is a frequent  
administration foreign policy critic.

The press of the past week or so  
continues to comment on the great  
increase in traffic accidents and  
fatalities and the reason that all  
measures tending to reduce them  
have so far failed. The laws passed  
to reduce traffic fatalities will  
probably number up in the thou-  
sands, but all have failed for the  
reason that the proper enforcement  
of them is lacking. A case came up  
in Detroit last week in which a  
person having 42 traffic law viola-  
tions cited against him was still  
driving. The police and sheriffs  
have the power to cause drivers  
license revocations and in many  
cases they perform their duty to  
the utmost. However, in a remark-  
ably short time these persons suc-  
ceed in having their licenses restor-  
ed, in some cases by the means of  
posting bonds. Revoked licenses  
for traffic fatalities should be re-  
voked for life. We never could un-  
derstand the great amount of leni-  
ency shown in traffic accidents.

The blast against the Michigan  
football team by the Michigan  
State News, official publication of  
Michigan State college, is laughable  
and would have been more convinc-  
ing if Michigan State had won the  
game. Such blasts through the press  
were common some 30 years ago,  
but of late they have become more  
and more infrequent. In the old  
days a village or city would send  
an athletic team to a neighboring  
town, get licked and come home  
screaming robbery. The papers of  
the two villages would take up the  
fight and the result would usually  
be a deciding game played on a  
neutral field before a huge crowd  
who would go home disappointed by  
the tameness of the contest. As re-  
gards the charges of roughness  
made by the Michigan State paper,  
football is no panty-waist game and  
black eyes, bruised noses and kicked  
shins have always been regarded  
as natural consequences of partici-  
pating in the game.

**MICHIGAN STATE MIRROR NEWS**

**Priorities Muddle**

"Why this shortage of vitally needed supplies?" you ask.

In our present transition to an all-out defense basis, shortages are taking place for several reasons:

1. Actual shortage of raw material. Not enough copper, steel, aluminum or other urgently needed metals to meet needs of both defense and on-defense industries. Consequently, priorities favor defense and at the expense of non-defense.

2. Hoarding of materials induced by fear. C. E. Wilson, president of General Motors, recently declared before a congressional committee that "people are getting steel who will keep it in the mud for months"

3. Poor planning and maldistributions in priorities schedules.

The National Association of Purchasing Agents in its latest bulletin points out, "Undoubtedly there are hoarded supplies on hand in many places, and attempts will be made to smoke them out."

A steel trade review also revealed that "filing of priority claims is having the effect of wiping considerable duplicate tonnage off the books, and the existence of some large inventories is revealed."

**Choice of Small Industries**

If small industries cannot obtain needed supplies with which to continue production schedules, then the choice becomes a temporary and perhaps permanent shutdown with resultant unemployment of many workers or a transition over to production of defense goods.

Governor Van Wagoner believes that Michigan's industrial capacity has only been partially tapped by the government; that the state could produce 50 per cent more for defense if energies of small industries were utilized.

Threatened unemployment may be eased temporarily, he feels, by distributing work to all employees in hard-hit industries on a shorter work week basis, say 32 hours instead of 40, and so on, and also by the assistance of unemployment compensation for 18 weeks at \$16 a week.

He also pointed out that migration of workers into Michigan from other states will only accentuate the unemployment problem here.

**What to Do**

This pinching shortage of materials has inspired Washington to create another alphabetical clearing house, the Supplies Priorities and Allocations Board, known as SPAB with Donald M. Nelson (former Sears executive) as executive director and Floyd Odium as angel No. 1 to whom small business must look for relief.

Odium intends to do something about the situation whereby 56 large corporations, such as General Motors, Ford, Packard, Chrysler and Hudson have received 75 per cent of defense contracts.

In getting its tremendous armament program under way quickly, it was logical for the government to go first to big manufacturers. Thus the Ford Motor Co. is not only completing a plant to make Pratt & Whitney motors, now nearly ready for production, but is building a gigantic new plant near Ypsilanti for making of 75 bombers and 100 plane sub-assemblies each month. Packard is just getting into production for Rolls-Royce aircraft motors; Hudson is finishing a naval arsenal for ordnance production; Chrysler expects capacity tank production in its new plant by Jan 1, while General Motors is tooling up for \$1.2 billion of defense contracts, 70% of which are not normally made in GM plants.

But now the little manufacturer's turn has come. Odium hopes to open 200 field offices for handling of defense sub-contracts. In the meanwhile, small manufacturers are urged to write to the Division of Contract Distribution, Office of Production Management, Social Security Building at Washington D. C. for contract forms. Positive relief is possible for those who act promptly.

**Higher Farm Income**

Another positive counter-force to priorities pinching small businesses is the prospect of higher farm income in 1942. Assurances have been given to Michigan farmers that agriculture is to be put on an all-out production basis for the coming year.

Unless inflation neutralizes gains made by higher farm income Michigan farmers will have more money

The big problem is going to be shortages of labor and farm equipment, and a state conference is to be held soon at the call of the governor to draft plans for trying to overcome them.

In concluding an article on a United Dairy Farmers' meeting in that place recently, the South Lyon Herald remarks that maybe this agitation will prod the Michigan Milk Producers Association into action. This stresses the point of view that this association has never succeeded in performing the duty for which it was organized. To-wit: that of getting the dairymen a fair price for their milk. We never could see why they did not at least receive half the purchase price. Their big achievement seems to be that the people of Michigan pay less for milk than the majority of states. Milk delivered sells for 10c per quart in Pinckney. By the Chicago Herald-American we see that the price delivered there is 15 1/2 cents per quart. We doubt that the people would object to a slight increase in the milk price, providing said increase went to the farmer alone.

HAPPY DAYS ARE SAVING  
DAYS

We are now in a period where unemployment is at a minimum. Now is the time to save. If we want something strongly enough, we usually find the means of obtaining it. It takes some saving, some sacrifice to attain the goal. Once a Savings Account is started there is a fascination in watching it grow. A few dollars each week will create a sizeable reserve in a few years time without undue sacrifice on the saver's part. A current form of saving is through purchase of U. S. Savings Stamps and U. S. Defense Bonds. Herein lies an opportunity to help our country and ourselves too.

Conservation Week Specials

School children, sportsmen and members of garden clubs and service clubs are joining in the sale during Conservation Week of these stamps—showing Tahquamenon falls in winter, pheasants, a fawn, trout fishing, fall coloring and Michigan orchards—all in natural color, to finance local conservation projects. In his proclamation of October 5 to 11 as Conservation Week, Governor Murray D. VanWazer urged use of the stamps on letters to advertise Michigan's attractions.

Pinckney Loses First

Ann Arbor Reserve Team Swamps Them 38 to 6 By Force of Weight and Numbers.

Pinckney ended their winning streak at four games when they were defeated in a night game at Wines field, Ann Arbor, last Friday night by a score of 38 to 6. The Ann Arbor reserve team outweighed Pinckney by a big margin and had about 40 men in uniform, most of whom got into the game.

Against this aggregation the local team had a bad case of jitters, fumbled on numerous occasions and pulled many mental errors. At that if Ann Arbor had not had a Mr. Smith in the lineup, who pulled off one 55 yard run and another for 42, the game might have been even.

Mr. Smith did not play much of the 2nd half with the result that Pinckney had three scoring chances being twice on the 10 yard line and once on the 20. In each instance they lost the ball by fumbling.

Pinckney had fairly good luck with their passing game with Palmer throwing and Young on the receiving end. By means of these passes Pinckney made 7 first downs to Ann Arbor's 10, but were helpless when they got within the scoring zone.

Pinckney's lone touchdown came in the last quarter when Levi Ludtke intercepted an Ann Arbor pass and ran 40 yards for a touchdown. Clawson missed the extra point.

Kuhn went out with injuries early in the game and without him Pinckney had no running game, being obliged to depend almost entirely on passes.

Pinckney	A. A. Reserves
Young LE	Holloway
Burns LT	Birkle
Plummer LG	Hoelzer
Clawson C	Hume
Melnik RG	Schwern
Swart't RT	Kett
Palmer RE	Burns
Kuhn QB	Connors
Reynolds LH	Smith
Keid RH	Twining
Ludtke FB	Delhey

Touchdowns: Ludtke, Smith 3, Northrup 2, Stottlemire, Extra points, Twining 2. Substitutions - Pinckney, VanBlaircum, Gentile, Baughn, Lamb, Carver, Haines, Griffith, Doolittle, Meyer. Ann Arbor - Winans, Schneider, Stottlemire, Toneray, Barth, Baylor, Ball, Brooks, Newton, Northrup, Heath, Gunther. First downs: Pinckney 7, Ann Arbor 10. Penalties, Pinckney 2 for 10 yards, Ann Arbor 8 for 60 yards.

Referee: Riske. Umpire, Taylor

NOTES ON THE GAME

A large Pinckney delegation accompanied the team there and cheered the team to the last in spite of the hopelessness of it.

We never could figure out why Pinckney schedules this team. Ann Arbor is a class A team and always has it on the local team in weight and numbers to such an extent that they never have much chance. In the 10 years that Pinckney has played, this team they have won but few games and usually suffered many injuries. A victory over this team means nothing. In our opinion a class D school should be scheduled.

Paul Young played his best game of the year for Pinckney. Without the aid of the passes he caught Pinckney would have had few first downs.

Ann Arbor drew numerous penalties for roughing it, clipping, holding, etc. This usually happens when a team outweighs another one considerably.

Besides Kuhn, Swarthout and Clawson also went out with injuries but Swarthout was able to return in the last quarter. He is a strong point in the Pinckney line and one of the best tacklers on the team.

The answer to the game was that the Pinckney line could not hold against the heavier Ann Arbor line.

It was raining hard when the team left Pinckney. However, little rain fell in Ann Arbor and the field was in good shape.

Three games yet remain to be played. Stockbridge there Friday, Hartland here the following Friday and Dexter there Nov. 7 Pinckney intends to take all games. Stockbridge, after losing three games, beat Fowlerville, 20 to 0. Friday, however, they lost to Holt, 12 to 0. Holt has a strong team though and Stockbridge can be depended upon to give Pinckney a hard battle, especially on their own field.

ONE IN A MILLION

In most of Michigan's southern counties, where corn is raised in abundance, hogs produce an important share of agricultural income. There are nearly a million pigs fattening on Michigan farms, and they will bring farmers upwards of \$10,000,000 this year.

In the telephone, the successful hog raiser has an efficient, modern helper. He uses it regularly to help turn surplus grain into profitable pork, hams, bacon and lard. He orders feed and keeps informed as to the trend of livestock prices by telephone. The same swift communication system directs the movement of pork products from packing house to meat market to home refrigerator. A two-minute call to the store will bring you fresh country sausage or crisp bacon for tomorrow's breakfast!

SPEECH MEETING

At a meeting of the speech teachers, Mr. Hamilton of Swartz Creek discussed the practical value of speech work to the student. The values he listed included a knowledge of parliamentary law, and the ability to express clearly, pleasantly, convincingly and without embarrassment in school and out. The rest of the meeting was turned over to Mr. Secord of the University of Michigan, who led the group discussion on the problems of the debate coach.

6th and 7th GRADES

The 7th grade is making insect life history charts on man in for science.

The 6th grade answered the letter they received from Auburn Heights school.

Mrs. Frost gave us a poinsettia plant which will blossom at Christmas time and a large pot of snap dragons which are blossoming now.

We have two new pictures in our room which are painted on the back of the glass. Mr. Jeffreys made us the frames. They are 12 by 18 and make a colorful addition to our room. The 6th grade geography class is making a detailed study of Africa.

Kindergarten, 1st and 2nd grades made false faces and four real jack-o'-lanterns. Mrs. Earl, our music teacher, taught us a Halloween song.

We have a new girl in our room named Fern Poc from Alextee.

SOCIAL NEWS

Last Tuesday the Freshmen gave a roller-skating party at Howell. About 80 students went, including freshmen and invited guests. From what we hear, everyone had a good time, including the teachers.

Wednesday night of last week, the seniors put on their usual dance. But, it didn't seem to go off so well. We blamed this on too many other things happening last week. We are looking forward to a large turnout this Wednesday. Boys, do your hunting some other day besides

Wednesday, so you will feel like dancing Wednesday night.

The music class, under the direction of Mrs. Earle, will sponsor a festival near Christmas time. This promises to be very good.

LAST YEAR'S GRADS

Joe Avey is still with the Pinckney Dispatch and still a bachelor. Come on, Joe, give the girls a break.

Anna VanBlaircum is engaged in housework for people at Party Lake. You profit only by experience, Anna.

Donn Widmayer is working at Dexter nights. But that doesn't interfere with seeing certain people, does it Donn?

Bert Shirley is working for Mrs. Lamb until she makes up her mind what to do. Well, don't make it Miller.

Gerald Vedder is employed at King Seely's in Ann Arbor. Do you go to Howell as much as you used to?

Goldie and Megan are employed by the telephone company in Ann Arbor. How do you like your work, girls?

Kenneth LaMont is attending Michigan State College and we hear he likes it. We see you are one to stick by Pinckney or is that just because of some people living here.

Theona Bowman is employed at Howell Sanitarium and is getting along O. K. Stick to the good work.

Walter Barbour is working at a lumber camp at Argentine. Wait comes home every week end but no one knows he is home because he always visits Fowlerville as soon as he gets home.

Mary Jane Wittwer is attending the Normal at Ypsilanti. Going to be a teacher, eh, Jane?

Ruth Culver is employed in Howell at the Michigan Bell. Where have you been keeping yourself on week ends.

Correction: Earl Berquist is not employed for the State highway. As it seems he can't make up his mind so, when you do Earl, please let us know.

Every week . . . in The Detroit Sunday Times . . . starting with the coming Sunday's issue . . . you'll find a new song hit . . . with words and music . . . selected by a famous bandmaster. The first song, "Dear Arabella" has been chosen by Glenn Miller. A new song hit every week! Be sure to get The Detroit Sunday Times this week and every week.

Olin Marshall, son of George and Cora Watts Marshall, was born in 1889 on a farm in Uaadilla township, where he always lived until a

few years ago when he moved onto the farm of his parents known as the Marshall Homestead, where he passed away Saturday, Oct. 18th, aged 52, after an illness of several weeks.

He was married to Pearl Ludlow and to this union two children were born, Mrs. Robert Sweet of Plainfield and George of Stockbridge, and his widow and one sister, Mrs. Inez Hadley of Dexter, and three grandchildren and one niece.

Funeral services were Monday at 2 p. m. at the home with interment in the Plainfield cemetery.

Rev. Kendall officiated, assisted by Rev. Hoffman of Port Huron.

**Nature's Recipe for Bumper Crops**

**Plenty of Plant Food Helps Soil in Food Producing Job.**

CHICAGO.—Soils that grow sick crops will respond to the right treatment, once the ailment is diagnosed and the correct prescription selected, according to a statement of the Middle West Soil Improvement Committee.

"Nature, itself, provides most of the clues in making a diagnosis," says the statement. "Soil fertility is dependent on an adequate supply of nitrogen, phosphorus and potash. When any of these three is absent, tell-tale signs manifest themselves in the physical appearance of growing crops.

**Tell-Tale Signs.**

"A lack of nitrogen results in stunted growth. The young seedling will exhaust its food supply from the seed soon after germination. Then, having removed what little it can from the soil, it ceases to grow. Leaves become thick and brittle. A low yield of poor quality at harvest completes the story.

"Phosphorus deficiency shows itself in slow growth and lateness of maturity, in stunted plants, discolored leaves and poorly formed kernels or fruit.

"When potash—the balance wheel of plant foods—is missing, growing plants are an easy prey to disease parasites and extreme variations of temperature. A complete lack of potash may result in a 'blight' sweeping over an entire crop.

"Plant food deficiencies, in many cases, can be corrected during the growing season by side-dressing the plants with fertilizer. The most certain help, however, is to have soil tests made which will reveal what plant food elements are lacking. Then fertilizer analyses can be selected that will meet the exacting requirements of growing crops."

Deep freezer and storage cabinet on "Hook's Acres" farm, Livingston County

## OLD SMOKEHOUSE

becomes MODERN QUICK-FREEZE ROOM

Farmers like to freeze their own fruits, vegetables, and meats, and are finding the new deep freezer and storage cabinets convenient and profitable. Here is what Mr. Robert K. Herbst, Manager of "Hook's Acres," near Brighton, says about the installation pictured here:

"We converted a 75-year-old smokehouse into our own meat, fruit and vegetable market by installing a below-zero storage plant. Now we have our own fresh foods right at our back door all year long. We supply the table with our own beef, pork and lamb, and this winter we will enjoy fresh strawberries, raspberries, peas and beans. This solves many problems for the one who prepares the meals. In addition to the convenience, we find the cold storage box a real economy—in time, food, and money."

Deep freezer and storage cabinets are available in a wide variety of sizes and types. For further information, ask your Edison Farm Man or drop a postcard to The Detroit Edison Company, Farm Service Division.

### ANN ARBOR PRO SHOT

Two youths confessed to Ann Arbor police to the attempted hold up and shooting of Lewis Osborn, professional at the Ann Arbor municipal golf course there Friday night. About 7:30 p. m. three masked men entered the house on the golf course where the Osborns live, with drawn guns. Osborn resisted and was shot twice. Wounded and aided by his wife, he routed the robbers. Two of them, Leonard Jones, 18, and Jack Wright, 19, were recognized by the Osborns and picked up the Ann Arbor police. They confessed and implicated Calvin Poland, who was also arrested. The boys confessed they intended to rob the Osborns, steal their car and go to Tennessee. Poland and Jones were both on probation in Washtenaw county, Jones being placed there a week before for auto theft.

Jones lives with his parents in a house trailer in the Stinchfield forest, a University of Michigan forest reserve, about four miles south of here, beyond the Ed Carr farm. He spends most of his time in Ann Arbor. His father works in Ypsilanti. Jones, Wright and Poland were all given from 10 to 20 years in Jackson prison by Judge Sample in Ann Arbor Tuesday.

### HUNTING SEASON OPENS

The hunting season opened here last Wednesday with a bang, in fact, with a number of bangs. Pheasants are said to be much more numerous than in a number of years and most of the local hunters have secured one or more. Squirrel and rabbit are reported scarce. As far as we know there have been no accidents in this vicinity to amount to anything. Although most farms are posted against hunting, a number of farmers are selling hunting rights all the way from 50c to \$2.

There seems to be an increased number of women hunters this year Pinckney has a number. Among them are Mrs. Georg Wm. Meyer, Mrs. Martin Ritter Jr. and Mrs. Winston Baughn. They make a nifty appearance decked out in hunting outfits.

### RESCUE TRAINMEN

The following is taken from the Fort Brady News: Lt. Col. N. L. Soderholm, Fort Commander said, "All Fort Brady is proud of Privates Ted Adesh and John Belling for their display of rare presence of mind, courage, and good judgement. By making an immediate report to headquarters and then running more than 600 feet over slippery railroad ties to assist in the rescue of Trainmen Zellmer and Peller they demonstrated qualities of good soldiers."

Adesh has made his home with Mr. and Mrs. Will Shehan since he was a small boy and is a graduate of Pinckney high school.

## BUY FERTILIZER NOW TO BE CERTAIN OF SUPPLY, FARMERS TOLD

### Transportation Systems Face Highest Traffic Peak.

CHICAGO.—With rising defense demands confronting the railroads and truck lines with the heaviest traffic volume in years, farmers were urged to purchase their fertilizers earlier than usual this year to help ease the strain on the nation's transportation systems.

"By so doing," says a statement by the Middle West Soil Improvement Committee, "they can avoid the possibility of delays in delivery later on and assure themselves of adequate supplies of fertilizer at planting time."

**Car Construction Lags.**  
"The ability of the rail and truck lines to handle the constantly growing volume of freight depends as much on the cooperation of farmers as it does on industrial shippers. Every car and truck load moved now will help relieve the carriers of extra burdens when traffic reaches its peak a few weeks hence."

The transportation problem is complicated by the fact that new freight car construction is lagging behind schedule, according to the statement, which quotes from a recent address by Ralph Budd, transportation commissioner of the Council of National Defense.

Victory or defeat of America's defense program, the statement concludes, depends as much on transportation and farm production as it does on the output of guns and planes.

**Farmers Can Help.**  
"The transportation systems need all the help they can get in meeting their problems. Farmers can cooperate by placing orders for fertilizer and other supplies running into tonnage now instead of waiting until later on. They can reinforce their own food producing efforts as well."

"In the vital job of growing abundant crops for defense needs, the productivity of the soil is of No. 1 importance. By combining sound farming practices with the use of fertilizers containing nitrogen, phosphorus and potash, farmers can increase the per acre yield of their crops and improve the all-around fertility level of their soil."

## DEFENSE EFFORT TESTS METTLE OF RAILS AND TRUCKS

CHICAGO.—All-out defense efforts, plus more civilian jobs and fatter pay envelopes, resulted in a 17.3 per cent increase in freight car loadings handled by American railroads in the first six months of 1941, compared with the corresponding period of 1940.

With peak traffic periods still ahead, the increase for the entire year of 1941 over 1940 is expected by some authorities to total at least 3,000,000 carloads.

"Threats of a possible shortage of freight cars later on," says an agricultural bulletin, "make it advisable for farmers to place their orders as soon as possible for supplies such as fertilizers, machinery, etc., that run into tonnage. It should be emphasized that not only railroads, but trucks, as well, are being called on to carry an increasingly heavy traffic load."

"Agriculture is being called on to produce food in larger quantities as part of the defense program. Farmers can accomplish this effectively if their soil is given the benefit of fertility-building plant foods. By ordering such supplies now they can reduce the strain on the nation's transportation system and assure themselves of adequate quantities later on."

## Gun Handling, Right and Wrong

Simple little mistakes like those illustrated on the right above cause most hunting accidents. Correct habits of gun handling, shown on the left, are being demonstrated at sportsmen's shows and other meetings throughout the state in a conservation department campaign to keep hunters properly respectful of their firearms. Among elementary rules is one that guns should never be carried with the safety off, nor ever allowed to point at anything the hunter does not intend to shoot. Fence climbing should be attempted only after the guns have been handed to a partner, or pushed through and laid on the ground by the hunter who is alone. Last season 35 of Michigan's 718,282 licensed deer and small game hunters died from accidents in the field.

## PHILATHEA NOTES

On Sunday we had the third of several lessons with some great Christian teaching concerning the Trinity. These were, "God, Our Heavenly Father", "Christ, Our Savior" and "Holy Spirit, Our Helper". Many helpful points were brought out concerning "the abiding Guest in the soul", and it was made clear that we may accept a fact that we cannot understand. We cannot explain the Holy Spirit to one who has not accepted Him; and we cannot explain electricity, but we accept the latter as a fact.

For next Sunday the lesson topic is, "Civic Responsibility Regarding Beverage Alcohol. Deut. 5:22,33; 11:26-28; Isa. 28:1-6; Hab. 2:12. But since we are having a home coming program next Sunday, undoubtedly there will be no class session.

We are so very sorry to learn of Mrs. Hattie Decker's injury and she has the sympathy of the class and all of her friends.

Robert Weston of Detroit was a Sunday guest of Mr. and Mrs. Vincent Snooks.

COR J. TRUBEY,

Plaintiff,

vs

JOHN WRIGHT, MARGARET WRIGHT, and their unknown heirs, devisees, legatees and assigns, and MARGARET WRIGHT, Administratrix of the estate of John Wright, deceased, and her successors,

Defendants

Suit pending in the Circuit Court for the County of Livingston in Chancery at Howell, Michigan, on the 22nd day of September, 1941.

It appearing from the sworn bill of complaint as filed in said cause, that the plaintiff has not been able after diligent search and inquiry to ascertain whether the said defendants are alive or dead, or where they may reside if living, or if they have any personal representatives or heirs living, or where they or any of them may reside, or whether the title, interest, claim, lien or possible right, of these defendants have been assigned to any other person or persons or whether such title, interest, claim, lien or possible right has been disposed of by will by said defendants.

And it further appearing that the plaintiff does not know and has been unable after diligent search and inquiry to ascertain the names of the persons who are included as defendants without being named.

Upon motion therefore of Van Winkle & VanWinkle, attorneys for plaintiff, it is ordered that the above named defendants and their unknown heirs, devisees, legatees and assigns, cause their appearance to be entered herein within three months from the date hereof, and that in default thereof said bill be taken as confessed by said defendants and each and all of them.

It is further ordered that the plaintiff cause this order to be published within forty days in Pinckney Dispatch, a newspaper printed, published and circulating in said County, once in each week for at least six successive weeks.

## CONSERVATION NOTES

The one doe deer law as boiled down and simplified, reads that a party of deer hunters may shoot one doe deer for camp use only. It may not be taken home. The legislature also cut the rabbit limit from 5 to 3 in one day or 10 in a season. It also put opossum and woodchuck on the protected list the same as raccoons.

The Allegan deer herd which grew from a planting of 10 does and 5 bucks in 1932 to over 500 will be opened for hunting this year. Hunting here is for bow and arrow, Nov. 1 to 14. For guns, Dec. 1 to 15. Permits must be obtained.

Approach of the anniversary of the big wind storm on Nov. 11, 1940, finds private operators still salvaging windthrown timber. So far the state has received \$10,000 for this. It will take a year to finish the work.

Bluegills seem to be decreasing in many lakes. Creel records show that while they constituted 84 percent of the catch in 1933 they had fallen to 35 percent in 1940.

The legislature has killed the bill which would have stopped bluegill and sunfish fishing through the ice after December 31.

Examination of the crops of a number of pheasants showed grasshoppers to be the main diet with grain and black cherries in lesser amounts.

Fish frozen stiff can be revived but not when frozen solid.

The attendance at the Michigan state parks is near that of the peak hit in 1937. The last figures were 9,408,000.

Taxidermists report that there is little commercial demand for the deer and bear heads mounted. Must be mounted for hunters to adorn their dens with. The demand for bearskin robes and rugs is nil as is also the demand for buckskin jackets and gloves. There is a good demand for buck tails for fly tying however.

Mr. and Mrs. Vern Cory visited their daughter, Mrs. Jack Reason, and infant daughter at the Stockbridge hospital, last Friday. She returns home Sunday.

# FREE! TRAINING that is worth \$1500.00

**READ HOW YOU TOO CAN BECOME AN EXPERT IN AVIATION, RADIO OR ENGINEERING AND DRAW GOOD PAY WHILE YOU LEARN!**

**I**F YOU WANT to get ahead fast, to serve your country, to build yourself a good-paying future... here's the opportunity you've been waiting for.

The U. S. Navy may train you to become an expert in any one of nearly 50 skilled fields. Each month, over 5000 new men will be sent to a Navy Service School, where you can learn to be a Diesel engine operator, machinist, aviation mechanic, aerial photographer, radio operator, or whatever specialized work you're best fitted for. This first year's training which you get is worth at least \$1500.

The Navy foots the entire bill. You earn while you learn. In fact, it is possible for an enlisted man to earn up to \$126 per month—with keep.

You'll have plenty of opportunity for advancement in position and pay—and you'll have fun while you learn! You'll come out of the Navy fully prepared to take on a good job in private industry. And if you want to stay in the Service, you can go right to the top... and retire at the end of 20 years or 30 years with a liberal monthly income.

You can choose now between the regulars or the reserves. Both offer equal opportunities for advancement.

**NAVY DAY REVIEWING STAND**

This replica of a U. S. Navy destroyer will be the stand from which Secretary of the Navy Frank Knox, upper right, will review the Nation's outstanding Navy Day parade, at Detroit, Monday, October 21. As he mounts the stand, a 19-gun salute will be fired in front of the Detroit City Hall, where Knox will speak. Upper left, is the official flag of the Secretary of the Navy.

Colonel Frank Knox, Secretary of the Navy, will address the nation on Navy Day, next Monday, while standing on the quarterdeck of a destroyer. But the destroyer will be located on dry land—in front of the Detroit City Hall. This ship (in reality a 120-foot replica of a United States destroyer) will be recalled by the 600,000 Michigan citizens who visited the State Fair as the "No. 815", on display as a part

of the Navy Exhibit.

As the Secretary of the Navy mounts her gangway, he will be received with the same ceremony as if "No. 815" were at sea. The boatswain's shrill pipe will bring the sideboys to attention in accordance with Navy tradition, and a salute of 19 guns will be fired. The Secretary's own flag will be broken on the mast at the precise moment the Navy head steps aboard.

Passing in review before Secretary Knox Monday morning will be a colorful procession of bluejackets. The student body at the Detroit Naval Armory will be turned out 900 strong; young men-o'-warmsmen studying technical specialties at the Ford Naval Training School also will be in the column. This will give the people of Michigan an opportunity to see their happy healthy youth who are being trained as special technicians by Detroit Naval Training Schools.

A contrasting color note to the predominance of Navy Blue will be the uniforms worn by Naval veterans of the Spanish War and World War I—the latter represented by American Legion and V. F. W. Post members. Twelve hundred R.O.T.C. troops will be in column, as well as

the Michigan State Troops, and Detroit's detachment of Sea Scouts will act as a service unit.

Navy day is significant not only because it honors our heroes of the sea, but also because it serves as a constant reminder of the importance of our naval forces in times of peace as well as times of war. It is an annual ceremony bringing to the citizens of the nation the knowledge that the shores of America are free from invasion.

It is a fitting coincidence that Navy Day was started while Theodore Roosevelt, Jr., was the assistant Secretary of the Navy, and dated on the birthdate of his father.

It was Theodore Roosevelt who convinced the nation that its prosperity was in direct relation to the strength of its navy. Before his administration the United States had neglected its sea forces during the peaceful eras, and had built furiously during war periods. Foreign countries began to cut the U. S. out of commerce, snubbed our international traders.

Monday's parade is scheduled to form on Woodward Avenue just north of the downtown district at 11:00 a.m. The line of march will be southward down Woodward past

the reviewing stand and on to the City Hall for the observance ceremonies.

## ARE SENT TO REFORM SCHOOL

Jimmie Buhler, Marcian and Kenneth Danzalski, 12 and 14, all of Detroit, were arrested by Deputy Murray Kennedy at Cordley Lake one night last week. They had broken into some 23 cottages on the Bross subdivision there. The boys had stolen four guns, a number of articles from the fuelling store and other articles besides shooting holes through some of the cottages. Buhler was arrested at Cordley Lake last September for a similar crime but released. The boys were taken before Judge Willis Lyons and all sent to the Lansing reform school until they become of age.

## OLIN MARSHALL

Olin Marshall, 52, died at his home in Unadilla Saturday. Surviving are his wife, Pearl, a daughter, Mrs. Maxine Sweet, and a son, George; also a sister, Mrs. Inez Hadley of Dexter, and three grand children. The funeral was held from the home at 1:30 Monday afternoon

## THE BIRTHDAY OF THE U. S. NAVY

One hundred and sixty-six years ago a committee of three men, John Adams, Silas Dean, and John Langdon purchased the merchant ship Black Prince of Philadelphia. Renamed the Alfred, this vessel had the distinction of being the first ship in the United States Navy. These men were appointed by Congress, through the efforts of George Washington, as a Naval Committee responsible for the purchase of two vessels. An original appropriation of \$100,000 was increased several days later, making possible the purchase of four ships in all—the latter three named the Columbus, Cabot and Andrew Doria.

The date, October 27, on which Congress in 1775 acted to establish our Navy, is celebrated annually as Navy Day. The purposes of Navy Day are to pay a deserved tribute to the splendid service the men in the Navy have rendered in making and keeping us a nation and to better inform the American people of what our Navy is and does for them. When originally chosen, October 27 marked not only one of the most important dates in U. S. Naval history, but also the birth date of Theodore Roosevelt, whose life was devoted to furthering a sound naval policy for the United States.

In its early days, the history of our Navy was a turbulent one. During the revolutionary period 73 vessels of all descriptions were used, but through sale, capture and destruction only one was left in 1785 and during that year Congress abolished the Navy, leaving the burden of the protection of our country in the hands of an army of only 80 men. In 1794 our Navy was revived by a Congressional Act authorizing the construction of several frigates to deal with the Algerine pirates and the first U. S. Navy Department was established four years later. One of these new frigates purchased as a result of this act of 1794 was the Constitution—with the Constellation, United States, President, Congress and Chesapeake making up a Navy which, though successful encounters with French cruisers and privateers established an enviable reputation for itself. In 1801 a series of engagements with the Barbary states and the ensuing treaties rendered commerce in the Mediterranean safe from attack and ended the payment of tribute by Americans.

The outstanding performance of our Navy and privateers during the War of 1812 insured freedom of the seas for our commerce and further increased our national prestige abroad.

The effective work of the Navy during the World War is still fresh in the minds of most of us. The astonishing fact that no American soldier escorted by the U. S. Navy lost his life in transit across the Atlantic amazed even those in the highest positions of authority.

All American foreign relations, all American participation in the life of the community of nations must find its expression through traffic on the seas. Ships, both lost his life in transit across the means of giving effective outlet to America's right to participation in international trade and politics.

## SUIT REACHES SUPREME COURT

The supreme court allowed 20 days in which to file briefs and replies in the suit of the Huron-Clinton Metropolitan Authority against Wayne, Oakland, Washtenaw, Livingston and Macomb counties to force them to spread the tax of one-twentieth of a mill on a dollar of assessed valuation. Former Supreme Court Justice Louis E. Fead of Detroit is the attorney for the parkway commission.

The cause of this suit is the opinion rendered by Prosecutor William Dowling of Wayne county that the project was unconstitutional because it enabled these five counties to undertake a project which other counties were unable to carry out. In this opinion he was supported by Harry Merritt, corporation counsel for the city of Pontiac, who also attacked it on the ground that non-tax payers were allowed to vote upon it.

We understand that there is little opposition to the project in Livingston, Washtenaw and Macomb counties, whose supervisors are willing to spread the tax when the constitutionality of the act has been decided.

Mrs. Grace Rouston, Mrs. Ray Lenmon and Mrs. G. W. Goodson and children of Detroit spent Sunday with Mr. and Mrs. C. E. Rucher.
