Corn Champs Give Success Recipe

CHICAGO.—"You've got to feed the soil if you expect the soil to feed you!"

That's what Ed Doubet and Floyd Hiner will tell you. And they'll prove to you that soil improvement not only helped them produce bumper crops but put them in the front rank of farm folks in the United States.

For Doubet and Hiner are the Corn Kings of North America. They won that honor jointly at the recent International Grain and Hay Show in Chicago—the first time the championship had ever been split. Their 10-car exhibits of hybrid corn were so nearly perfect, the judges broke the deadlock only by awarding a co-crown.

Doubet, who farms 340 acres near Hanna City, Ill., keeps up his soil's productivity by being eternally vigilant about its fertility level. He puts back into the land plant food elements removed by crops. He limes regularly and uses a generous application of 0-20-20's fertilizer every year. He follows a regular rotation of soybeans, oats and corn. Manure from livestock provides an additional soil builder.

The corn that won him national honors is a yellow dent hybrid Doubet developed himself. The plot on which it was grown produced an average of 105 bushels to the acre.

Over near Lewisville, in Rush County, Floyd Hiner farms 160 acres with his father. His prize-winning corn was an Indiana hybrid 244-D developed by Purdue University agronomists.

The key to Hiner's success is soil conservation. He and his father are firm believers in crop rotation, the use of legumes, lime and fertilizers to build up and maintain the soil's fertility. They believe, likewise, in livestock, feed 250 hogs and numerous cattle and return the manure to the land.

An essential feature of the Hiners' program is the use of fertilizer. On all the corn land a heavy application of a fertilizer containing nitrogen, phosphorus and potash is made.

Dr. and Mrs. A. B. Green, of Jackson, spent Sunday with Miss Jessie Green and Mrs. Weltha Vail. Hans Jensen, of Ypsilanti, called at the Andrew Nesbitt home Sunday. Mr. and Mrs. Fred Read were in Jackson one day last week.

CARD OF THANKS

We wish to thank our neighbors and friends, also the fire department for their quick response when our house was on fire last Sunday. Also to the Burns boys who gave us the alarm and worked so hard till the fire was put out. May you always be as fortunate as we were.

Sincerely,
John and Beulah Martin

Does Your Bank Still Make Loans to Individuals?

We do. Men and women continue to need money from time to time for emergencies, doctor and dentist bills and many other sound purposes. Loans made for such purposes not only do not conflict with the war effort but actually contribute to it. They make for better health, happiness and peace of mind. We will continue to make loans to individuals whenever we possibly can and invite you to come in and tell us about your own particular needs.

'PADLOCK' DEFENSE CROPS IN MICHIGAN WITH SOIL CARE

CHICAGO.—Soil conservation as a "padlock" to safeguard Michigan farm fertility for the production of bumper crops for Uncle Sam's war effort was recommended in a statement issued here by the Middle West Soil Improvement Committee.

"The matter of preventing fertility 'leaks' is becoming increasingly important," says the statement, "in view of growing demands for emergency crops for the Food for Freedom program."

Like everyone else we are "MAKING THINGS DO"

to conserve materials for the war effort!

Hot materials for paint brushes (largely imported from China) . . . tungsten (most of our supply comes over the Burma Road) . . . rope (Manila hemp) and burlap: These are just a few of the hard-to-get items that are now on the restricted list of materials needed for the war effort.

Here in the Edison Company, we are pursuing a policy of "making things do" . . . and of using substitutes wherever possible. We formerly built our farm lines of aluminum. When the shortage in aluminum developed over a year ago, we switched to copper. Now that copper is scarce, line extensions can be made only on government priority orders. So it goes all along the list.

We are using malleable iron castings instead of bronze, steel rods instead of brass on circuit breaker repair work. In our meter boxes, the "sleeving" on test leads is made of varnished cambric instead of rubber. Even in major plant additions, we are making numerous design changes necessitated by shortage of critical materials. These are a few of the ways we are cooperating with the nation's war effort.

St. Mary's Notes

All are urged to attend week day Mass and Sunday and Lenten devotion, as well as the Novena. Also to frequent the Holy Sacraments for the intention of peace. Please say the rosary each day in your homes. Wednesday and Friday during Lent are fast and abstinence days.

Week day Masses at 7:30 a.m. and Friday is April 3 and Easter Sunday April 5. Do not forget your Easter duties. This is a time of extraordinary grace.

Some common mistakes: Sienna for Siena. Loretto for Loreta. Middle aisle for nave. As though for as if. Would for should. Commence for begin. On behalf of for in behalf of. Dana for shucks!

Rev. Francis C. Kelly (formerly of Michigan, now of the West), announced one of the greatest of our time. Recently I was one of his visit to an important city where he asked his friend, the Episcopal bishop of the town. "The Episcopal bishop," said his escort "is away for a rest. He is having quite a bit of financial trouble in his diocese." Bishop Kelly looked up in pleasant surprise. "Isn't it amazing?" he exclaimed. "They get more like us all the time."

There are the intellectual equipment of the aborigines of South Queensland, Australia, the Pallotine monks translated prayers into pidgin English. Here are the ten commandments, as the pagans learn them:

- 1. Man have um God one fellow no have um 'nother fellow God.
2. Man no swear.
3. Man keep Sunday very good, day no long Big Master.
4. Man very good long father and mother belong him.
5. Fon no kill.
6. Man no take "Mary" belong to 'nother fellow man.
7. Man no steal.

There are only a certain number of hours in the school day. Many more hours are spent at home. Some hours were formerly passed under the supervision of the church. But, you say, the family and the church are losing their grip. If we want done the things they used to do they must be done in school; school is compulsory. I venture to suggest that if we wish to restore the family and the church to their pristine vigor, we shall not do it by depriving them of their functions. One reason why they have developed some tendency to anemia may be that we think the school can do what they have done. The school can't. The school's attempt to perform the duties of the family and the church simply means that it will fail in its own proper task and in theirs too. The way to promote the health of our various social institutions, and agencies is to define their responsibilities and hold to them. But now the educational system is responsible for everything. More than 300 colleges and universities offer courses in marriage. The N. Y. Times reports that some of them cover the subject completely from courtship to divorce. The public schools of Denver have met the challenge of the modern world by such typical courses as these: Orientation to the new school, boy and girl relationship, how to drive a car, how to buy critically, what it means to live in a democracy, making friends knowing oneself, vocations, and preparation for marriage. The teachers of Colorado may feel better about conditions there when they learn that the Board of Education of Traverse City, Mich. has announced a course in tourist information, which endeavors to instruct hotel managers, tourist camp operators, gasoline station attendants, as to the location of good lakes, golf courses, picnic spots, boats for hire.

Quoted from Harpers Fagazzi: One of the greatest singers in the Metropolitan Opera, whose richly modulated voice that has won dictation awards and medals is Milton Cross. He received his early training as a member of the Paulist's Fathers Choristers, under the famous Father Finn, who directs music on the Catholic Hour each Sunday evening at 6 p.m. Mr. Cross may frequently be heard over N.B.C. Opera is now a part of the nation's radio diet.

INSTALLATIONS AFFECTED

War needs of the country have affected the manufacture of telephone equipment to such an extent that, for the duration at least, some persons who want telephones installed may not get them at all, it has been revealed by George M. Welch, president of the Michigan Bell telephone Company.

Also, under specific limitations placed in effect last week by the War Production Board, extension telephone installations in residences are restricted. Many of the persons who will be able to get telephones will be required to take party-line service, largely because copper and lead are scarce. Old type telephones now in use will remain in use.

That condition is due not only to the rapidly increasing scarcity of materials needed for armament, but also to the need for manufacturing capacity for war purposes. Western Electric, which supplies the Bell System with telephone apparatus, now is being called upon to produce great quantities of equipment especially for military services, Welch said.

"For more than a year Michigan Bell has met an unprecedented service demand and generally has installed telephones when and where they were wanted," Welch said. "Material shortages now make it impossible to meet some requests for telephone service. Expansion to care for past service requests was accomplished, despite a greatly curtailed supply of vital materials, though emergency engineering methods and the use of alternate materials. Now the War Production Board has issued an order that expands those practices and places further restrictions."

Some of the more important effects of the War Production Board order itself were cited by Welch as follows:

- 1. In many cases where service can be installed at all, party-line service, only, will be available.
2. Extension telephones cannot be installed in residences except where needed by persons responsible for public health, wealth or security.
3. Wall or upright desk telephones now in use cannot be changed for the hand-set or cradle type.
4. Manual telephone switchboards

may not be changed to dial service, excepting where the work is well advanced.

WILLIS E. TUPPER

Willis E. Tupper, 73, passed away at his home in Flint Thursday morning, March 19, 1942, following a stroke which he suffered two weeks earlier. He was a former resident of this community, moving to Flint 25 years ago.

Mr. Tupper was born in Montcalm county, June 23, 1868. On Dec. 16, 1891, he was united in marriage to Miss Dida Webb, of Pinckney. To this union were born five children: Glenn, Earl, Florence, Blanche and Roy.

Mr. and Mrs. Tupper celebrated their golden wedding anniversary on Dec. 16, 1941.

He was a member of the Oak Park Methodist church in Flint and had been a member of the choir of that church for the past 20 years.

Mr. Tupper leaves to mourn his passing, his wife, Dida E., two sons Glenn A., of St. Johns and Earl A. of Flint; one daughter, Florence, at home, one grandson, Stuart Tupper, of Keesler Field, Miss., three sisters Mrs. Alma White, of Howell, Mrs. Jennie Hansor, of Ann Arbor, and Mrs. Grace Ranney, of Greenville, and many other relatives and friends. Funeral services were conducted Saturday, March 21, at the Algae-Gundry Funeral Home in Flint, with burial in the family lot in the Pinckney cemetery.

CARD OF THANKS

I wish to thank all my friends for the beautiful flowers and cards, also for the fruit sent me while I was sick.

WANT PLACE ON BOARD COMMUNICATION

The different farm organizations are said to be getting behind a pressure move to get the farmers representation on county draft boards. Their claim is that, with very few exceptions the draft boards are made up almost entirely of city and village men, usually chosen from the citizens of the county seat. The contention is that agriculture not being represented on the draft boards, the farmers are being discriminated against and a shortage of farm labor will result. Unfortunately, a survey has shown that the draft boards are not representative for the farm labor shortage. 80% of the shortage is caused by men leaving the farm to go to the city on account of high wages paid in the munitions factories. As it is impossible for the farmers to meet these high wages the labor shortage will continue in spite of all efforts.

SO WELL MAKE OUR WARTIME SUGAR GROW ON TREES

If the rationing of sweets becomes too soon, there's a remedy! An article in The American Weekly with this Sunday's, March 29, issue of The Detroit Sunday Times, tells how scientists promise to replace all the sugar crop we lost in the Philippines by producing only 19,000 acres of wood land. Be sure to get the Detroit Sunday Times this week and every week.

The war production board has recommended that bakers discontinue the slicing of bread in order to conserve electricity and labor and also to avoid raising the price of bread. President Roosevelt has recommended a \$250,000 grant to construct a new hospital at Ypsilanti to care for the expected 80,000 workers at the Ford bomber plant. In order to get this grant Ypsilanti must approve a bond issue of \$134,000 towards the \$390,000 total cost.

What this Husky Plow
to work on your farm

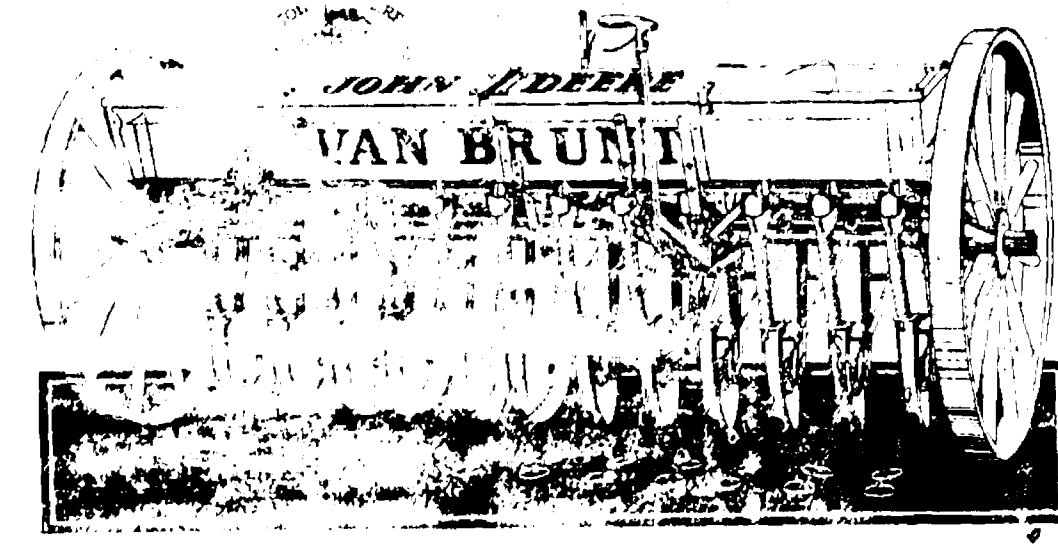

JOHN DEERE
No. 101
Two-Way Tractor Plow

Wherever two-way plows are used in any plowing condition, the John Deere No. 101 Two-Way Tractor Plow will meet your every requirement. It's the heavy-duty plow that's made up of individual right- and left-hand units—each with a built-in power lift. When lowered, the working bottom automatically aligns itself behind the tractor.

You can set it to plow from 2 to 11 inches deep.

Come in today—see the heavy, heat-treated beams and axles... cushion-spring-release hitch... genuine John Deere bottoms... and many other outstanding features of the No. 101. You want to put this husky plow to work on your farm this year.

possible military sacrifice, and that brings the war home closer than ever.

Our income taxes are higher too, but that is alright, out it makes us think a bit more.

Governor Frank Murphy, friendly to labor during the sit-down strike, was caught in a protest wave at the following November election.

Politicians will tell you that the late Frank Fitzgerald wasn't elected by an uprising of citizens who went to the polls to vote for Fitzgerald. He won because a lot of folks were mad. They expressed their anger in sit-downs by voting against Murphy and in doing so they had to vote for his opponent.

We are not saying that Governor Murray D. Van Wagener faces the same fate. The situation is not parallel.

But a lot of people are restless today. And voters usually do irrational things when they are in a mood to kick someone in the pants—whether the fault lies at Washington or at home. By November they may feel differently about it.

That Harry F. Kelly is going to toss his hat into the ring is conceded at Lansing.

The question is: What ring? Will he run for governor or for United States senator?

The secretary of state would like to go to Washington. His inclinations are reported to be more in the direction of national service chiefly because of the war. And yet, Harry is a good soldier, and he will abide by the party's decision.

An announcement is expected in the very near future.

Another factor in today's unrest is the grim realization that Michigan's part in World War (with its army of less than four million men) will be greatly eclipsed by today's military demands for war manpower.

Washington is talking today in terms of 8,000,000 to 10,000,000-man army, while another million will be needed for our navy.

To get that many men the government is lifting selective service restrictions. Col. E. M. Rosecrans, director for Michigan, announces that Uncle Sam will furnish eye glasses and even teeth.

An army of eight or ten millions will take many men with family dependents. (Sixty-four per cent of all registered men have been deferred to date because of their dependents.)

More taxes and more bonds are inevitable, too. War spending is now around \$2,300,000,000 a month and is due to reach \$4,500,000,000 by the end of 1942. By next year this outpour of dollars will reach \$7,500,000,000—a month! Inflation is already here; standards of living are going down; regimentation is certain.

The United Automobile Workers (C.I.O.) demand from General Motors Corp. \$1 day pay increase, 30-minute paid lunch period, double time Sunday and holidays, 10 per cent premium for work between 3:30 p.m. and midnight; 15 per cent premium for work between midnight and 8 a.m.; 60 day's pay if a worker enters the military service instead of two weeks; \$100 bond in lieu of two weeks' vacation.

Right or wrong, justly or unjustly the public is going to hold labor to blame for acts of everyone attached to the labor movement. If war production is stopped by strikes, labor will be responsible—in the public's mind. The public also favors limita-

MRS. GERTRUDE CARPENTER

Gertrude A. Carpenter was the only daughter of the late John Wellington and Jane Woosley, pioneers of Lenawee County, Michigan, and was born on the Woosley homestead in West Madison township, Lenawee county, on Feb. 9, 1863. She died on Wednesday, March 18, at the home of her daughter in Detroit.

During her early life she attended the Rafsin Valley Seminary for young women, in connection with the Friends church near Tecumseh. Later she spent two years at Adrian College, majoring in music and English. On November 22nd, 1884, she was united in marriage to Elwyn William Carpenter, of Tecumseh, and they later located on a farm in Madison township near Sand Creek, Michigan. To this union were born four daughters, all living: Mrs. Louise C. Glenn, of Putnam township; Mrs. Letha G. Beach, of Detroit; Miss Helen J. Carpenter, of San Luis Obispo, California, and Mrs. Bernice A. Ridley, of Victor, New York. Also surviving are six grand children and one great grand child and a brother, Frank Woosley of Adrian, Michigan.

Mrs. Carpenter at one time was an active member of the Madison Grange, the Eastern Star lodge at Fairfield, Michigan, the Rebecca lodge at Adrian and throughout her entire life was an earnest Christian and was united with the Baptist church at Sand Creek and later the Baptist church in Adrian.

Funeral services were held from the R. G. and G. H. Harris Funeral Home on Harper Ave., at Lakepointe, Detroit, Friday evening, March 20th, 1942, and from the Everiss Funeral Home at Adrian, Saturday at 2 p.m. March 21st was Saturday at 2 p.m., March 21st, 1942. Rev. H. C. Brubaker, of Blissfield officiated. Interment was at Oakwood cemetery, Adrian.

SAFETY

Most folks spend their lives in quest of safety from the hard realities of everyday life. They save to make their later years comfortable and without worry. For many years this constant seeking of bodily and spiritual security has been the primary aim of all us Americans. The extent of the success of our endeavor has made the United States the envy of the world.

Our right to continue along the lines we have followed is now challenged by those same envious ones. Our Saving must now concern itself with the added responsibility of making safe our way and philosophy.

By directing that part of our savings which we can each afford into United States Savings Bonds, we can best serve our country and ourselves.

We have Bonds and Stamps available at our offices.
