## Local Interest War News

News Of Our Boys in the Service Three Draft Calls Slated For This Month.

The following boys from this section left Howell Saturday morning for the Detroit induction center: Edward Spears, Jr. Sam Lafata, Steve Aschenbrenner, Arthur Eikhoff, Orla Watters, Harvey Craft, Stanley Meyer, Frank Barnum. The total number to go was 49.

Friday, June 12, another consignment of about 120 will leave Howell for the Detroit induction center. A large number of Pinckney boys are on the list. They are: Harry Murphy, John Eisele, Glen Kingsley, Andrew Kirtland, Marcin Ledwidge, John Rozek, Hollis Rozek, Merlin Amburgey, Marion Shirey, Lyle Euler, Jack McFadden. Others in the induction who are well known here are James Noecker, James Hoff, Russell Whitehead, Wm. Shieks, Forbes Placeway, Almon Brewer, Harry Young, Wm. Pyper, Ralph Holmes, Harold Farley.

On Tuesday, June 23, the county will send a third group of boys to Detroit for induction. This time the county will be unable to fill their quota as the first draft list is about exhausted. Among those from here who may be available are William Brown, Patrick Devins and Clifford Miller, Gerald Clinton and Friday Haines may also be called but at the present time they are not yet ready, the draft board having not definitely established their status.

Postmaster Harry Murphy, due for induction June 12, has been given a 30-day vacation with pay by the postoffice department. If he does not pass the army examination he will probably take his job here back again. In the meantime his assistant, Miss Nellie Gardner, has been appointed acting postmaster.

Don Lang, of the United States army proving ground at Aberdeen, Maryland, is spending a 10-day furlough with his parents, Mr. and Mrs. Louis Lang.

Of the Pinckney boys sent to the Detroit induction center Saturday, Edward Spears, Sam Lafata and Arthur Eikhoff were accepted. Steve Aschenbrenner was rejected because of a pelvic bone broken some years ago and not properly set. William Fike, of Brighton, a nephew of Mrs. Cass Clinton, was called back Monday for further examination.

Starting July 1, a new system of inducted men into the army will be started. The boys will be sent to the Detroit induction center, examined, issued uniforms and then given two week furlough. Then the local draft boards must send them to the induction center or army camp.

We understand that four doctors will be drafted from this county for military service. The doctors here within draft limits are Cameron, Le Beau, Hill, Hayner, Stevens, Sigler. William Gillen, of Lansing, will be inducted into the army on June 15, next. His wife was formerly Evelyn Darrow, of Pinckney.

### GIVEN FAREWELL PARTY

Last Friday night a farewell party was given at the home of Henry Shirey in this village for his cousin, Marion Shirey, who joins the army on June 12. Over 100 people attended. Community singing, led by Sam Lafata, was indulged in and games were played. A beautiful pot-luck supper was served at midnight. A large number of employees from the Dexter Machine Shop where Marion has been employed for several years were present. Marion was presented with a handsome wrist watch by them. A sum of money had been collected which was divided equally between Marion, Edward Spears and Sammy Lafata. The last two were inducted into the army on June 6. Henry Shirey made the presentation. Marion's mother, Mrs. Dell Shirey, and brother, Junior, of Columbus, Ohio, were present.

### NEW WAR RULING

The War Department has issued a new ruling to the effect that all high school and college students who enlist in the army or navy reserves will be exempted from military duty until the completion of their terms.

Secure Government Release of Lumber and Building Materials Needed in This Area

True to its traditions, the American Red Cross is working through the officers of the Livingston county chapter to help the residents of Livingston county and this area of Michigan visited by the tornado on May 29th.

John S. Page, Chairman of the Board of Directors of the Livingston County Chapter American Red Cross, phoned a report of the damage caused by the storm to Midwest Headquarters in St. Louis, Missouri. Headquarters sent its field representative, Mr. M. A. L. Gardner, to Howell at once. Mr. Gardner and Mr. Page made a survey of the damaged buildings over a portion of the county and as a result of the brief survey in which 67 barns and buildings were found to be damaged or destroyed, "Red Cross made the arrangements to secure the release of some two million feet of lumber and at least two carloads of nails to be used in rebuilding and repair work. Residents of the area can now secure through the lumber dealers of the area the materials needed to replace damaged property.

Friday evening, Harry R. Studer, worker sent in by Red Cross headquarters, arrived to take charge of interviewing those who have suffered property loss in building and livestock and to help make necessary plans and adjustments looking toward rehabilitation of farms and property in the area.

Mr. Studer has been provided office space in Red Cross headquarters in the Reichhoff building at 106 N. State Street, Howell, and is anxious to meet and talk with all who have storm losses. Mr. Studer will be at Howell Red Cross Headquarters for the period required to make the necessary arrangements to care for the needs in the county. Storm sufferers are asked to contact Mr. Studer. In case he is out in the county when you call, you can arrange for a meeting with him by calling Superintendent Page at 482 or Joseph Brady at phone 275.

The sixteen township supervisors have been asked to send a list of all persons in their township who lost buildings or livestock to the chairman of the Howell chapter. The lists will be turned over to Mr. Studer for investigation and adjustments. The Livingston County Chapter Red Cross will appreciate anyone knowing of damaged buildings, etc., sending such information to the chapter chairman. Such help will enable us to arrange for interviews and to get the necessary help for the rehabilitation work needed.

In each case of loss, Mr. Studer will make a careful investigation and adjustments and plans for rebuilding will be made strictly on the basis of need. American Red Cross is anxious to serve to the utmost in alleviating the need in this disaster that has befallen our county. Mr. S. B. Thomas, county agent, and Mr. Earl Grubb of the Soil Conservation Department, have given valuable information and assistance in the effort to help in this crisis.

John S. Page, Chairman Livingston County Chapter American Red Cross

\*The entire county would include at least one hundred.

### 5th CYCLONE VICTIM DIES

The death of Daniel R. Reiner, 13, son of Mr. and Mrs. Eric Reiner of Howell, Friday, of lockjaw, ran the list of dead of the Memorial cyclone in this county to 5. Eric Reiner operates a turkey and chicken farm on West Grand River in Howell. When the storm came up, Daniel and his mother, Mrs. Helen Reiner, were trapped in a brooder house. This blew down, Mrs. Reiner suffering a broken pelvic bone and Daniel, a cut in his leg below the knee from the tin roof of the brooder. It took a number of stitches to close the wound. His father is cashier of the McPherson State Bank and mayor of Howell.

The marriage of Miss Ruth Gardner, daughter of Mr. and Mrs. W. H. Gardner, to Elmer Ivankovich, of Fowlerville, will take place Saturday, June 13.

## The Senior Lake Trip

Interesting Account of the Senior Class Trip by One of the Class By Peggy Burns

Last September, when we first entered school as seniors, our minds and hearts were set on making a trip to our nation's capitol but due to the shortage of transportation and the conditions in Washington, our class voted to spend four days on a lake cruise. Last Thursday June 4th, at 8:00 we left Detroit on the S. S. South American. The boat was filled to capacity with seniors and teachers from various parts of the state. We cruised along Detroit River, past Belle Isle and into Lake St. Clair where many beautiful homes line the American shore. At 6:45 we had dinner; each person had his choice of the menu. One choice consisted of turkey, dressing, cranberries, peas, snowflake potatoes, melon cocktail, hot rolls, strawberry and iced tea. Before cruising out into the lake, we stopped at Port Huron long enough to pick up more seniors and to refuel the ship. We left at 8:53 and entered Lake Huron to begin the trip to the Soo, and our evening program began with a gala party with dancing to the ship's orchestra and entertainment by a host of amateurs and professionals.

Friday morning found us far out in Lake Huron, plowing steadily toward the St. Mary's River. We entered the famous Soo locks at 5:00 after an afternoon of fun cruising up the beautiful St. Mary's River. We had to wait in turn for other ships to go through the locks. Continued on Last Page

Dow Rubber Discovery Made Not Mean Immediate Relief

"Mining" rubber tires in Michigan! Thanks to ingenuity of Dow Chemical company scientists at Midland, this accomplishment may be a partial solution to today's war transportation problem.

An "unofficial" news story, published by the Midland Daily News from sources said to be very reliable, resulted in a hurried visit to Midland by Akron rubber company officials. Winard Dow, president of the big chemical works, was called to Washington. The exclusive news break held promise of being one of the big newspaper stories of 1942, for public interest has been at fever pitch over the prospect of nationwide rationing and a gradual withdrawal of millions of motor vehicles from roads as rubber tires wore out.

A combination of petroleum, sulphur and salt brine — all obtained from the ground — is employed by the Midland chemists to make a synthetic rubber product known to the trade as "thiokol". Using a patented process developed by the Thiokol Corporation, the Michigan chemists collaborated in experiments for application of the "thiokol" rubber for tire retreading purposes. Tires were retreaded with the new synthetic rubber, and after 5,000 miles of highway travel they showed little evidence of wear. Furthermore, the new rubber can be applied in a simplified method that reduces cost and time.

Petroleum and salt brine are both produced in Michigan. Sulphur comes chiefly from the southwest. By utilizing the industrial equipment already available, together with additional facilities, the Dow

## SPECIAL ANNOUNCEMENT

The Community Cong'l church, under the direction of Rev. Melvin Shelver, Rural Bible Missionary, will conduct a Daily Vacation Bible School in the church from June 29 to July 5, inclusive.

The teaching staff is very highly trained. This school will be conducted on an undenominational basis in which creed, dogma or doctrine will not be taught. Only the practical application of Christian conduct and practice as taught in the Holy Bible will be taught.

Therefore, we invite all children from grade one to grade eight inclusive. A large school bus owned and operated by the Rural Bible Mission, will furnish transportation for all children living outside the village of Pinckney. The children of Pinckney are cordially invited to participate with the rural children. Supervised recreation will be a part of the curriculum. A community church with a community program for all denominations who worship with us. Parents who believe in a community program and believe in the value of religious education are urged to send their children. Children with no church or Sunday school affiliation are invited. Keep the dates in mind. June 29 to July 5, inclusive. The names of the teachers and grades will appear at a later date.

## TO SUPPORT PRENTISS BROWN

Eleven Michigan publishers, most of them Republican, have signed a petition asking the re-election of Senator Prentiss Brown. Their argument is that he has seniority, is chairman of many important committees and has made an excellent senator. The Democrats will maintain a majority for the next two years and to replace Brown with a Republican at this time would avail nothing. Signers of the statement are: George E. Averill, Birmingham Eccentric; Floyd Miller, Royal Oak Tribune; Frank Moses, Marshall Evening Chronicle; George A. Osborn, Sault, Ste. Marie Evening News; Paul L. Mixer, South Haven Daily Tribune; Austin C. Batdorff, Traverse City Record-Eagle; J. Emmett Richards, Alpena News; Roger M. Andrews, Menominee Herald Leader; Frank Januszewski, Polish Daily News, Detroit; E. T. Chattle, St. Ignace Republican News; and F. J. ...

## CURRENT COMMENT

By Y. Editor

Cheering news for autoists comes from the Dow Chemical Company, Midland, Michigan, which states it has developed an excellent substitute for rubber in "thiokol" which is composed of caustic soda, chlorine ethylene, alcohol and sulphur. This rubber substitute has been used for retreading tires and seems to have all the quantity and endurance of camelback. Some tires retreaded with it have run up to 10,000 miles. Dr. Dow, of the company, says this rubber can be produced at a low cost and will probably mean the end of crude rubber as a source of auto tires. It has been known for years that there were numerous rubber substitutes available but on account of the cheap labor of the East Indies and other rubber producing centers, its production was discouraged by the big rubber companies who owned extensive plantations. These companies also desired the crude rubber trade as a medium of exchange with the Far East. Dr. Dow, in his press interview, was not conclusive and failed to state how much of this rubber substitute could be produced this year.

The "It can't happen here" slogan has again been refuted and this time by the Japs who carried out a successful bombing of Dutch Harbor, Alaska, last Thursday. The raid seems to have been an unqualified success as we hear of no Jap planes shot down or no American planes taking to the air to engage them. Dutch Harbor is the most outlying post in Alaska. It has a naval station and a number of oil refineries and storage stations. Outside of the army, its population is about 300. It is 600 miles from there to Kodiak, the nearest fortified base. As only 25 Jap planes were in the raid and they dropped no bombs on the second flight over the city, this first raid was more in the nature of an experiment and undoubtedly some of the large centers on the Pacific coast will be future objects of such attacks. The only news the army issued on the raid was that the damage was slight only a few warehouses being destroyed. No loss of life was mentioned.

The gay rationing plan has been postponed in Michigan and it is evident that many wrinkles in it will have to be ironed out before it will work smoothly. Nowhere in the U. S. is the auto used more as a means of getting people to work as in Michigan. The Brookings Institute recently made a survey in Michigan and found that 75 per cent of the workers in 749 plants in Michigan go to their jobs by auto. In some plants 100 per cent do so. In Michigan the problem has been further complicated by the fact that one of the largest war industries has been located in a section which has no adequate transportation. In Michigan the rationing board is not only faced with enforcing the tire conservation but it must also see that the defense plant workers get to work.

We note that former governor Alex Groesbeck has just rendered a bill to Macomb county for legal services totaling \$125,000. He represented that county in litigation concerning drain bonds from 1933 to 1941. The county sold \$5,000,000 worth of drain bonds which the supreme court outlawed. The firms who bought these bonds sued the county for reimbursement. Mr. Groesbeck has since scaled his fee down to \$90,000 but even then is not enough money in the county treasury to pay him. He is a native of Macomb county, which should be proud that they have a person capable of commanding such fees even though they are unable to pay them.

## TRY TO PERSUADE GEHRINGER TO RUN

According to Detroit papers, efforts are being made to persuade Charlie Gehringer, Detroit baseball player, to run for the Democratic nomination for sec'y of state. He is a Democrat but never has been in politics. It is thought he would repeat the success of Billy Rose, Gus Dorais, who was both to the Detroit city council.

Mrs. Mary Jane Tash and infant daughter have returned home from Millis hospital, Brighton.

#### MRS. MARY WENDELL

Mrs. Mary Johnson Wendell, 46, died at her home in Grand Rapids on June 8. She was the daughter of Mr. and Mrs. Frank Johnson, of Pinckney. Surviving are her husband, Clayton Wendell, a son, Roland Cook; her parents, two sisters, Mrs. Fannie Titmus, of Flint, and Mrs. Bessie Hartwell, of Tucson, Arizona and four brothers, Albert of Howell, Herbert of Battle Creek, Lawrence of Brighton, and Henry of Pinckney. The funeral was held from this Swarthout Funeral Home, Pinckney, this afternoon, Rev. McLucas officiating. Burial was in the Pinckney cemetery.

#### EXCAVATE MAMMOTH BONES

Messrs Earl Baughn and W. C. Miller have a large marl pit on the east side of Big Portage Lake near the Bluffs. While Cliff Miller and Bill Baughn were taking out marl there the other day, they uncovered some very large bones. Prof. Norman Wood, M.A., formerly of the U. of M. was called to view them and pronounced them to be mammoth bones, probably 12,000 years old. This animal was also known as a mastodon. Quite a few such bones have been found in southern Michigan but these are the first found in Livingston county. The boys say they carried away a number of other bones on loads of marl before they knew what they were.

A fine mastodon skull was found near Ypsilanti with tusks and teeth. A number of bones were also found in Lodi township and a head with tusks 8 feet-10 inches long in west Michigan five years ago. Anyone knowing of the whereabouts of any such bones should notify Prof. Wood. The mammoth and mastodon are very similar. The mammoth has four large teeth, two in each jaw, while the mastodon has six teeth.

Prof. Wood is 85 years old and retired some years now. In 1923 the University of Michigan sent him to Nanking, China, to start a museum and to teach ornithology. He was one of the pioneer lake resorters here. He came to Portage 65 years ago and built a cottage in Cobb's orchard. This he later replaced with a log cabin. After returning from China, he sold it and bought the Dr. Moore cottage at the Bluffs, where he spends most of his time.

#### JUNK DEALERS STRIKE

There is a strike on in Detroit where the junk yards are being picketed by the junk pickers, mostly negroes. They charge the dealers with cutting prices to such an extent that they cannot make any money, and also charge them with increasing the prices of horse rental 75 per cent. In Detroit the dealers rent out the horses and wagons to the junk pickers who drive along the alleys. The dealers claim so much junk has been collected that it has glutted the market and made a cut in price necessary.

#### SUGAR FOR CANNING USE

For the convenience of persons wishing to register for sugar for purposes, registration boards have been established at the following places:

Fowlerville high school  
Brighton high school  
Pinckney high school  
Gregory school

These boards will be in session on Monday and Tuesday, June 15 and 16, from 8 a.m. to 4 p.m. each day. After these dates and prior thereto you can register at the county clerk's office. When applying for registration, be sure to have all the sugar ration cards in your family unit with you. Also know the number of quarts of fruit canned last year and number of quarts on hand at time of registration.

### St. Mary's Notes

In the history of noted men and women for the great feast of next Friday, that of the Sacred Heart.

The following prayer of St. Francis of Assisi is universally adopted to promote peace: "Lord, make me an instrument of your peace. Where there is hatred, let me sow love; where there is injury, pardon; where there is doubt, faith; where there is despair, hope; where there is darkness, light; and where there is sickness, joy. O divine Master, grant that I may not so much seek to be consoled as to console; to be understood as to understand, to be loved as to love; for it is in giving that we receive; it is in pardoning that we are pardoned; and it is in dying that we are born to eternal life."

On many a Jesuit table stands a coffee cup of the type that might well be used as a projectile. Father Blakely said that after drinking out of such unbreakable cups for several youthful years, he went out to dinner in a house offering ordinary china, and bit through the cup. Recently the buyer for one of the Jesuit homes went to a china wholesaler and, not mentioning where the cups were to be used, described what he wanted. "You'll have to wait until we order those," the dealer said. "We don't carry them in stock. They are only used at jails, the insane asylum, and by the Jesuits."

### BANKS AND THE WAR

"...a vital force for victory"

A newspaper editorial recently stated: "In this war banks are doing more than provide financial services - they are a vital force for victory." The nations banks are doing much to help win the war. They aid in financing, in war production, in keeping the economic machine running and other ways. Banks ask no praise or special credit. We are proud to be of help, and anxious to be still more helpful in the future.

We have ample funds available for sound loans.

**CIRCUIT COURT NEWS**

Judge Collins held court in Howell last week Monday Tuesday and Wednesday. In the contested divorce suit of George Gitre vs. Anna Belle Gitre the plaintiff was given a decree. Tuesday the divorce suit of Lucy Fern Newberry vs. William Newberry was set for trial but was dismissed when the contesting parties decided to live together again. Wednesday, suit of Alex vs. Irene Yarady was tried. A default decree granted previously was set aside and the defendant was allowed to file a cross bill.

In the auto damage suit tried last week the Stabler Oil Co. of Ann Arbor was given a judgement of \$320.95 against Lawrence Gherkin of Howell. Dale Kettler and Marshall Campbell, convicted of setting fire to a cottage belonging to the former at Patterson Lake, were taken to Jackson prison last week to serve a 3 to 15 year sentence. Their appeal to the supreme court failed.

Verahal Harvey pled guilty to taking a mortgaged car to Tennessee and will be sentenced later.

Irving Shelters pled guilty to selling liquor to minors and was fined \$50 and \$25 costs.

This ends the cases for the May term but the judge may come back for a day or two, providing any new cases are ready for trial.

**MASONIC SUNDAY, JUNE 14**

On Sunday, June 14, Rev. McLucas will preach a sermon for the Masons at the Pinckney Congregational church. Livingstone lodge will open at 10 a.m. and the members will attend church in a body. Visiting Masons and members of other lodges living in this section are cordially invited to join with them. 70 members of the Masonic fraternity attended a similar service last year. We expect a still larger turnout for this year.

**RED CROSS FIRST AID**

Dr. Ray Duffy has about 60 enrolled in his Red Cross First Aid class which meets at the Pinckney school every Thursday night. The members have learned to bandage wounds, put on splints, apply tourniquets, improvise a stretcher from a blanket and two poles, etc.

**FIRST DROWNING VICTIM**

Donald Wright, 19, son of Mr. and Mrs. Milton Wright, of Detroit, is the first drowning victim in this county this year. He was swimming with companions at Island Lake near Brighton at 5:30 Sunday afternoon when he sank 75 feet from shore. The body was recovered by sheriff's officers.

**TELEPHONE PIONEERS OF AMERICA**

Earl M. Gladden of Pleasant Ridge, general commercial manager for the Michigan Bell Telephone Company, is the newly-elected president of Wolverine Chapter No. 10 (Michigan), Telephone Pioneers of America.

Gladden, who was unopposed, succeeds Howard W. Benedict, Detroit. Division vice presidents chosen in the state-wide mail election are: Detroit, Arthur E. Schneider; Central (northern portion of Lower Peninsula), J. G. Rice, Saginaw; Southern (southern portion of the Lower Peninsula), Fred Shotts, Benton Harbor; Northern division (Upper Peninsula), Herbert A. Cain, Ironwood.

Lowell Johnson and Arthur C. Kuhn, of Detroit, were re-elected secretary and treasurer respectively.

The Telephone Pioneers of America Organization, is comprised of men and women with 21 or more years of service in Bell or independent telephone companies. There are more than 62,000 members in the national organization including almost 1,600 in the Michigan chapter.

**STATE OF MICHIGAN**

The Probate Court for the County of Livingston.

At a session of said Court, held at the Probate Office in the City of Howell in said County, on the 29th day of May, A. D. 1942.

Present, Hon. Willis L. Lyons, Judge of Probate.

In the Matter of the Estate of Bernard Lavey, Deceased.

Joe Brady having filed in said Court his petition, praying for license to sell the interest of said estate in certain real estate therein described,

It is Ordered, that the 22nd day of June, A. D. 1942, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for hearing said petition, and that all persons in said estate appear before said Court at said time and place, to show cause why a license to sell the interest of said estate in said real estate should not be granted;

It is Further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing in the Pinckney Dispatch, a newspaper printed and circulated in said County.

**SUMMER RESORT SERVICE**

While the Michigan Bell Telephone Company expects to be able to meet most requests for service at its summer resort exchanges this year, many persons still will be unable to get service because of war restrictions, officials of the company stated today.

Company officials also pointed out that new residential extension telephones will not be available at any point except when essential to the "public health, wealth and security."

Telephone installations may be curtailed, officials said, if they involve considerable line construction. Only party-line service can be provided in some localities. Service also will be difficult to obtain if traffic over telephone lines at an exchange already is approaching switchboard capacity. That will mean that, at some points at least, some summer homes that have had service in past years may be unable to get it this year.

Every application for service, the company said, will be decided on its individual merits and the available facilities, including lines and central office apparatus and capacity. In some of the cases field investigation will be required to determine whether service can be made available.

Restrictions to date affect mostly those exchanges where service demands are greatly increased as a result of military or industrial activities arising from the war effort. Officials said the situation may become more severe should the War Production Board find it necessary to expand its restrictions in order to save even more materials than under the present restrictions for the war effort.

**TRANSFER OF PRIESTS**

Bishop Mooney, of the Detroit diocese, has announced the transfer of a number of priests in this section. Rev. Vincent Hanker, formerly of Pleasant Lake, has been named pastor of St. Benedict's church of Highland Park. Rev. Edward Hoey, of Dexter, has been assistant pastor there for several years. Rev. Lawrence Doerr, of Chelsea, goes to Wayne, and Rev. Lee Laige, of North Branch to Chelsea. Msgr. Allen Babcock, of the student's chapel in Ann Arbor, becomes pastor of Blessed Sacrament Cathedral, of Detroit.

Mrs. Lulu Lamb, son, Ross, and daughter, Mrs. June Popp, and mother, Mrs. Bert Smith, of Perry, left Friday for El Paso, Texas, to visit Lt. James Lamb and wife. Mrs. Popp will remain at Abilene, Texas, where her husband, James, is stationed in the army.

**PINCKNEY SOFTBALL LEAGUE**

In the Pinckney softball league last week Shehan won into first place by defeating Miller 17 to 13. The Lamb team, which has lost all six games played, broke into the win column by virtue of a 12 to 7 victory over Gallup.

**WIN TWO AND LOSE ONE**

Pinckney played three outside teams last week, winning 2 and losing 1. Tuesday they won an easy victory from the South Lyon Marlin team 18 to 9. Bob Singer started to pitch for Pinckney and retired in the 4th with a 15 to 1 lead. Hulce pitched two innings and Gus Ledwidge pitched the 7th. Gus retired two men and then had 7 runs scored on him.

Batteries: Pinckney, Singer, Hulce Ledwidge and Reader; South Lyon, Shear, Bennett and Pollock.

On Thursday Pinckney dropped a close game to Hamburg, 6 to 5. Several regulars were missing and the Pinckney team presented a patched-up lineup. Hamburg scored all their runs in the first three innings, mostly on errors. Pinckney got only 4 hits but the Hamburg pitcher issued 7 bases on balls. They nearly proved fatal. In the 7th, trailing 6 to 2, for Pinckney, Palmer and Bob Singer walked. Shirey batted for F. Singer and grounded out, Palmer scoring, Van Blaircum singled, R. Singer doubled to center, scoring B. Singer. He stole third, only to find it occupied. In the mix-up that followed, Van Blaircum scored but Singer was run down. Baughn batted for Miller and struck out.

Friday night, Pinckney won a tight game from the Cooley Dairy of Howell, 10-9. Bob Singer pitched his 4th complete game of the week and except for a wild streak in the 5th, was in good form. Pinckney led 8 to 3 up to the 5th when Singer lost control and walked the first two batters, 3 singles scored five runs for Howell, tying the score. Pinckney failed to score in the 5th or 6th and Howell got a run in the 6th, giving them a 1 run lead. Singer held Howell scoreless in the 7th. In Pinckney's half Reader walked, M. Lavey hit to center, Reason popped. Zera singled to center, scoring both men and ending the game. The Lavey brothers and Zera each got 3 hits in this game.

**Saving**  
**1,000 DRIVING-MILES PER DAY--**

**... Detroit Edison customers are aiding the War Effort**

A short time ago, we asked your patience in the matter of Detroit Edison delivery and service calls, explaining that it might take a little longer for an Edison serviceman to arrive, and that deliveries might not be quite so prompt. We did this in an effort to save cars, tires, man-hours, gasoline... yet still provide reasonably good service for our customers.

You have cooperated generously in this program, and thanks to your patience, we can report worthwhile results. By ROUTING customer calls—that is, by grouping all the calls in a certain area so that a man can handle more in a single trip—we are saving 1,000 miles of driving per day. Our customers have not been inconvenienced too greatly: The latest figures show that 84 PER CENT of all customer calls are answered within an hour.

Meanwhile, material shortages grow more critical. We are making further studies on how to achieve even greater savings in rubber, gasoline, and man-hours, and still maintain good service. We know that if we are obliged to adopt a new plan along this line, you will cooperate with us as wholeheartedly as you have done in the past. Patience can be patriotic, too.

• This is a war of resources. And the housewife who saves tin and paper, uses up leftovers and remodels old clothes is helping make America's resources go as far as possible. So is her husband when he gets extra shaves out of a razor blade, saves old nails and hardware, and walks to work.

Like other folks, Michigan Bell employees are pulling together to win the war. By getting along with what they have they are helping conserve vital war materials. The girls in our offices keep extra vigilant watch over all supplies and equipment, to make them last.

Telephone men are finding new ways to keep old equipment in service. They take extra care of the tools with which they work. They are careful with cars and tires. And they even pick up small scraps of wire after a job is finished—not because it's economical in money, but because the material itself is the thing that's important now.

**PHILATHEA NOTES**

This is the Thursday when our group is meeting with Mrs. Mae Daller for our June meeting.

We have heard a number of comments concerning the Editor's "Current Comment" of June 8, in regard to ex-governor Luren Dickinson. Many agree with his prediction that Mr. Dickinson's dry vote should make him an easy winner, but most of our Philathea Christians took exception to the flippant comment concerning Mr. Dickinson's habit of reliance upon his Heavenly Father.

Next Sunday being "Children's Day" the regular lesson for June 14, "Sunday: The Elean Christ and His Disciples", Luke 24:1-46, will not be taken up.

**Gasoline Rationing for Michigan**  
Recently the Republican members of Congress from Michigan communicated with Leon Henderson, Director, Office of Price Administration, protesting against the rationing of gasoline for Michigan. We realize fully the great loss to Michigan should this curtailment of gasoline be accomplished.

In a recent report on a bill considered by the Rivers and Harbors Committee the following statement was made: "There is no shortage of oil or gasoline in this country. All storage facilities of the Southwest are filled to capacity, while the wells and refineries are being closed down. People there are suffering great financial losses because the surplus stocks cannot be moved to market. In the East, gasoline is being rationed because of the inability to secure transportation under the existing conditions. As winter approaches the need for fuel oil to relieve actual suffering may become very acute."

Following our conference with Mr. Henderson, a committee representing 16 states in the Midwest area of the country, appointed by Hon. H. L. Ickes, Petroleum Coordinator for War, issued the following statement: "It is our studied opinion that before gas rationing is extended to the Middle West, governmental agencies should devote their energies to the continued encouragement of the proper use of tires instead of denying the use of gasoline in areas where that product is abundant."

Because of the fact that Michigan is so highly engaged in the manufacture of national defense equipment and for the further fact that our state derives great revenue from her tourist trade, it is hoped that no rationing of gasoline for Michigan will be made until such a time as the same may be absolutely necessary. Our Michigan people will then gladly cooperate in the interest

of national defense. Probably a decision will be rendered on this matter pro or con within the next week.

**Truck Barriers to be Eliminated**  
Secretary of Commerce, Jesse Jones, recently announced an improvement of first rank importance on the home front with reference to eliminating truck barriers. State border obstacles to interstate truck transportation of goods has been, until now, apparently insurmountable. I am glad to announce that the governments of the 48 states have now agreed to uniform standards and reciprocal license arrangements. Hereafter the various states have agreed as to the size of the load and regulations pertaining to transportation. The removal of these limitations by agreement with the states will be a great aid in the transportation of goods in the interest of national defense.

**Demand for Jobs**  
By June 1st it is estimated by the Civil Service Commission that one and a half million job placements will have been made in the Federal service during the 1942 fiscal year. Of that figure 64% will be to fill vacancies and 46% will be new positions. That's a lot of placements, but when one takes into consideration that the government on July 1st will have approximately 2,100,000 civilian employees, and that only 560,000 placements were made in 1941, you can understand how big and how fast things are moving in government nowadays.

**Car Dealers Ask Why**  
Washington auto dealers, through the National Automobile Dealers Association, are asking Uncle Sam to take over 4500 cars and release the other 1500 for sale from the 6000 in number now deteriorating in open storage or garages. The dealers have these cars parked fender to bumper, in any vacant field they can find since there is little, if any storage space in the District. The dealers point out that such outside storage deteriorates the cars quickly paint peels, tires rot and the depreciation runs as high as forty per cent a year. Of the six thousand cars on hand January 1st, only 800 have been disposed of in three months under the ration system.

**Job War Industries Offer Air Targets**  
It is reported that the flyers of this country are becoming more and more impressed by the extreme concentration of Japan's war industries. Apparently, so it is said, the concentrated plants offer unusual air targets.

**Declaration of War**  
The House last week, by unanimous consent, declared war against Bulgaria, Roumania and Hungary. Including the previous declarations of war passed by Congress last December, the United States has now declared war against Germany, Japan, Rumania, Bulgaria and Hungary.

**Ship Construction on the Great Lakes**  
The Naval Affairs Committee, of which I am a member, recently reported a bill for the construction of 500,000 tons of auxiliary ships to be used in the Navy. This bill passed the House by unanimous vote. Under the terms of this bill, many of these ships will be constructed on the Great Lakes in various ship yards located thereupon. The type of ships to be constructed are such that the Great Lakes Ship Yards can build them and transport them under their own power from these yards to wherever they are needed.

Mr. and Mrs. Ona Campbell and daughter, Leona, and Rita Kennedy called on Mr. and Mrs. Wilbur Eisele and Mr. and Mrs. Gorham in Detroit Sunday.

**MICHIGAN MIRROR NEWS**

company believes it would be possible to produce enough of the synthetic rubber by the end of 1942 to retread 1,000,000 automobile tires each month.

It sounds almost too good to be true. Farm chemistry, the science of utilizing farm products in industry, has had a national exponent in Dr. William Hale, Dow scientist at Midland.

Dr. Hale has foreseen the day when over-production of the farm will be a historical reference to the pre-World War II era. A few weeks ago Vice President Wallace made a speech in which he spoke of "the people's revolution" in this reversal of traditional thinking.

Alcohol, distilled from grain, can be utilized for production of butadiene. Petroleum can also be used to make butadiene. And butadiene is the important base for manufacture of the synthetic rubber known as Buna S and Buna N.

Converting grain or petroleum into rubber tires is verily a "revolution" in an economic sense. Impressed with the potentialities, the RFC has expanded the official production program of synthetic rubber to an even 1,000,000 tons. But here is the catch to what would be otherwise a very rosy and optimistic tale. First, it will take 18 months to put the program into operation. Second, all of the 1,000,000 tons of artificial rubber are needed for military and lend-lease requirements, leaving NONE for civilian use such as buses, trucks and automobiles.

That is why the Dow retreading process may help to keep defense workers' automobiles on the roads and otherwise assist in averting a serious transportation paralysis by 1943 and 1944.

The senate committee investigating the national defense program, headed by Senator Truman, Democrat of Missouri, recently filed a lengthy report at Washington about the national rubber shortage.

While we stew over the proposed inconvenience of greatly reduced rations for gasoline and fret about what may happen to our 1942 tourist business in Michigan, we read the following from the Truman committee report with no great satisfaction.

"The fact that today -- two years after the fall of France -- not one of those (synthetic rubber) plants is in operation is inescapable evidence not only of the admittedly difficult technical problems but also of the failure on the part of the officials in government to provide in time for one of the most fundamental needs of this country."

If private industry, such as the Dow company, comes to the rescue of the American people in a situation where government itself has failed miserably to get results, another bright page will be recorded in the war history of the Michigan home front.

General Motors, Ford, Chrysler and Hudson are other Michigan concerns which are performing the "impossible" in production of bombers, tanks, guns and shells.

It is evidence that Yankee ingenuity still exists ... of the will of the American people to defeat the axis at whatever cost.

Luren Dickinson, 84-year-old ex-governor, has had another "call" to public service, so his friends intimate.

Announcement of his candidacy for the office of lieutenant governor is expected to be made very soon. Dickinson, of course, never runs for office. He is just elected to office.

So far his candidacy has been sponsored chiefly by Dickinson. Because of his advanced age and the war, he has not been encouraged to run by Republican party leaders but it is a 10 to 1 bet that his hat will be in the ring once again. Dickinson has a habit of deciding matters for himself, and it is likely that his mind was made up and set months ago. One Dickinson trait, familiar to his friends, is a stubbornness that used to be called "grit" and sometimes is glorified as "will-power". Whether it would require more will power now to run than to run at the age of 84 is another matter. We'll know his decision soon.

**SPECIAL ANNOUNCEMENT**  
The Young People's Society of the Community Cong'l church will have a picnic lunch at Portage Lake Friday, June 12, at 7 p.m. Group will meet at the church at 6:30 p.m. and those with cars will provide the transportation for others. This will conclude the Young People's activities for the summer. The group will resume their Sunday evening study hour September 1st.

### Continued from First Page **THE SENIOR TRIP**

nally we saw our ship lifted to the level of Lake Superior. We left the locks at 6:15 and headed out into Lake-Superior but had to turn back as the freighters have preference over passenger ships and we would have had to wait, so we spent the night on Lake Huron and the Straits of Mackinac. By that time the evening's program began with dancing and a very good floor show.

Saturday morning it was cloudy. Later in the day it rained. At 9:00 we arrived at Mackinac Island. This historic Isle offered such attractions as Old Fort Mackinac, Fort Holmes, Arch Rock, Lookout Point, Cannon Range, Skull Cave and Grand Hotel the largest summer hotel in the world. We left Mackinac Island at 12:00 to begin another long sail through the Straits of Mackinac and down the length of Lake Huron. There were more parties, another big entertainment program and a day and night of fun with new friends we had made.

During the night it rained and the following morning, Sunday, we stopped at 8:00 on account of fog for two hours. The river got a little rough and we could feel the ship rocking. Both Catholic and Protestant services were held aboard ship during the morning. We docked at Port Huron at 12:15 for some of the passengers to get off.

We saw many different types of ships that sail the Lakes. Our meals aboard ship were grand. We arrived in Detroit at 4:30 where cars were waiting to take us home.

We all had a very enjoyable trip, and would advise this to another class if they couldn't go to Washington.
