### News and Letters from Our Boys Who Are Serving Their Country

Of the 32 men who were sent to the Detroit induction center last Wednesday for medical examination, 14 were accepted, 10 rejected, 6 held over for further examination and 2 enlisted previous to Wednesday.

Among those accepted were Gerald Clinton and Edmond (Friday) Haines of Pinckney. James Langly of Chubb's Corners was rejected and so was Robert Caskey of Gregory. Schnackenberg of Howell was also rejected. James Lucido of Chilson accepted. Of the six held over for further examination, one was Dorri Hartman, the big policeman at Brighton.

The draft call for July 31 is for about 40 men. In August this county is called upon to furnish 132 men for induction. Also 10 percent of the 1-B men will be called. As this county has 60 1-B men this means 6 will be inducted for non-military duties starting August 1st.

William B. Lamb took the examination for the United States Navy in Detroit recently. He enlisted in the navy last year and was discharged last January for physical disability. He passed his last exam and will be reenlisted in the navy providing the authorities at Washington will waive on his physical disability.

Ted Adish who has been spending a ten day furlough at the William Shehan home returned to Middle River, Maryland Friday. He says that the Pinckney Dispatch is a welcome visitor at the army camp there and is read by practically every man in the company. They were bothered to death at first by other boys getting it and trying to read it over their shoulders. Finally Doc Hendee who is with Adish instituted a rationing plan. So now no other soldier gets a look at it until they are finished. The entire company got a big kick out of Sammy LaFata's recent letter.

Dr. Neil A. Gates Jr. of Ann Arbor has enlisted in the Army Medical Corps and has been commissioned a first lieutenant. He has reported for duty at Selfridge Field. The doctor is married and has two children. He was born in Dexter.

Grant Ward of the armored Division U. S. Army, stationed at Pine Camp New York, was a caller at the Dispatch office Monday night. He went back to his regiment Tuesday. He will receive the Dispatch from now on.

Ty Tyson read Edsily Myer's letter recently published in the Dispatch, relating to his recovery of 10 bags of mail near Midway, over the radio Tues. noon.

Dear Paul,  
I made the navy. I am now an apprentice seaman. I am in "Boot Camp" that means that I wear boots for 6 weeks. They are a mess. They are awfully warm.

I have got my haircut and three shots in the arm. My arm is still sore I get my next shot next week. It is a double one next time.

I would like to make arrangements to get your paper. I would like to know what is going on.

Sincerely Yours,

Hi Paul:  
How are things in the old home town. Everthing is kinda quiet just now, nothing new here of which I could tell you, I have had many new experiences but am not allowed to write about them. I am still a machine gunner and still like it. I believe in getting the Japs on a big scale. I don't have a rifle any more only a 45 automatic in case they ever get in to close. Are there any boys left around there. Are there any of them in real combat yet? I hope it will end soon.

The army is O.K. except you can't get a suntan and you have to shave every day wherever you are.

As ever,  
Julius

P. S. Would like to get the "Guy" that wrote "I'll be back in a year little darling".

## Local Team Is in First Place

### MARRIAGE LICENSES

The following marriage licenses were issued at the office of the county clerk last week: Earl Witt, Howell, 49; Jesse Davenport, 36, Foverville, Jeanette Cummings, 17, Flint; Emil Eichman, 20, Detroit, Mary Spears, 23, Pinckney; Joseph Youakim, 28, Howell, Mae McCoy, 22, Knoxville, Tenn; Clifford Lee, 35, Flat Rock, Mildred Vreeland, 46, Lakeland.

### FINAL RUBBER DRIVE REPORT

The final report on the rubber drive shows Michigan went over the top with vengeance. The national quota was set at 3 lbs. per person but Michigan contributed 8 lbs. per person. The total collection from Michigan were over 20,000 tons. The drive will continue and if you have more old rubber you should bring it in to the oil station.

### BIG FAREWELL PARTY GIVEN

Pinckney gave a big farewell party for Gerald Clinton and Edmond (Friday) Haines who become members of the United States army on July 28. The lawn of C. J. Clinton was profusely lighted and card tables were set on the lawn where ice cream and cake were served. The town and community turned out and between 4 to 5 hundred people were present. Ed Parker, in behalf of the company presented the boys with a purse of \$70 to divide between them.

### PRE-NUPTIAL SHOWER

Monday evening Miss Mary Spears was unexpectedly but delightfully surprised at a red and white kitchen shower given by Miss Leota Reason. The evening began with a series of games which were won by Miss Joan Spears, Miss Mary Spears, Mrs. Eichman and Mrs. Reason. The highlight of the evening was a mock wedding staged by Ann Reason as the bride in lively finger tip veil and a dainty gown. Her maid of honor, Nancy Ney was dressed in a teal dotted swiss gown.

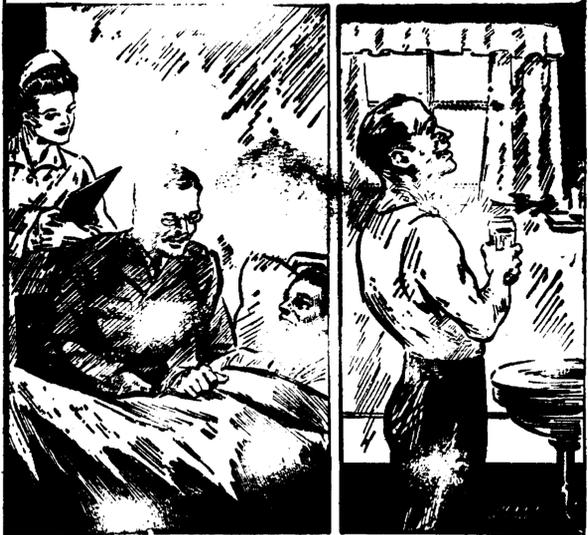

The groom, Richard Miller was attired in his military uniform, assisted by Phil Miller also in a military uniform. The wedding march was played by Fern Reason and the ceremony read by Mrs. Clara Miller in a black frock as the min'star. The refreshments were served at card tables set with pink baskets.

## Grace E. Young Passes Away

### Former Pinckney Resident Brought Here for Burial Saturday

Grace E. Young, 39, daughter of the late C. J. and Sarah Wheeler Young, was born in Pinckney Mar. 11, 1873, her father was postmaster here and after her mother's death was appointed to the office and served many years. About 44 years ago her family moved to Detroit which has since been her home. Her only brother, Betram, passed away 15 years ago.

In Detroit Miss Young was a buyer for military dept. of the Elliot, Taylor and Wolfenden store for a number of years and later in business for herself on Grand River just off Woodward Ave.

She joined the Christian Science church and after disposing of her business became a Christian Science practitioner which she followed until last October when she was seized with an illness which brought about her death. She is survived by a number of cousins, including the three Mann boys, Earl, Eugene, and Erwin and the Sigler girls, Mrs. Nora Reason, Mrs. Mame Carr, Mrs. Mable Powers and Mrs. Addie Pierce.

The funeral was held Saturday afternoon from the Swartout funeral home with the Christian Science reader of her church officiating. Burial was on the family lot in the Pinckney cemetery.

The following people from out of town attended the funeral of Miss Grace Young Saturday: Ervin and Earl Mann, Mrs. Nora Reason, Mrs. Addie Pierce, Mrs. Mable Powers, Dr. George Mann, Donald Sigler, Mrs. C. Mayer, Ernest Carr, Mr. and Mrs. Donald Carr, Mrs. Hurd, Mr. and Mrs. Woodley, Mrs. Ann McInnis Detroit, Mr. and Mrs. Roy Teeple of Brighton and Mrs. Grace Bennett of Lansing.

## Mich. Mirror State News

### The Nation Is In For More Bad News and Restrictions Before Victory Is Achieved

The ladies, bless 'em, may win the war yet. No kidding folks, we're serious about it.

Michigan is in a bad spot and Uncle Sam isn't doing so good either. Michigan has been given more war contracts than the average state. Why? Because the automotive industry, including automotive supplies, in scores of small towns has demonstrated an ability to produce goods quickly.

Michigan young men are being called to the armed service in an increasing number. Even husbands are going.

A serious labor shortage looms and at a high time we started to think about it.

We're not out of the woods.

The war is not won yet. Unless management and labor produce more and more airplanes and tanks and other urgently needed armaments for our Yanks and our hard pressed Allies who incidentally are doing most of the fighting for us until we are ready to hold our own.

Unless a serious shortage of workers in Michigan can be solved in the near future.

This conclusion is inescapable in view of facts which are already available.

Michigan's mass production industries have been given a leading responsibility in winning the war on the home front. Lieut. Gen. Somervell, chief of the army service of supply, and Lieut. Gen. Knudson, chief of production, did not visit Michigan this month to extol management and labor but he came to plead for more production.

As Gen. Somervell stressed in an interview, our present production as remarkable as it has been and is still is pitifully inadequate to meet today's very urgent needs. The output, as recorded on paper reports, is enough to justify pessimism at Washington. Yet the spirit of the men and management and labor alike is enough to justify the utmost optimism in Michigan.

No bombs have fallen on Michigan. We hear no sound of cannons. It is still hard for us to imagine what war is like even through we read about it in the newspapers, hear about it on the radio, and see it on the motion picture screen.

At Washington, said Gen. Somervell, the spirit of the men and management and labor alike is enough to justify the utmost optimism in Michigan.

We wish to thank all of our neighbors and friends for the magnificent reception given us at the C. J. Clinton home last Friday evening. Also for the handsome purse of money raised and presented to us.

### COMING SOFT BALL GAMES

Pinckney plays the Cooley Dairy of Howell here Tuesday night on Wednesday they play at Chelsea. Friday the Howell Sportsmen play here and Sunday the Northside Club of Ann Arbor. Next week Tuesday they play the Fowlerville Wildcats there and on the 31st Hamburg there. The last scheduled league game is on Aug. 4th when the Tomion Dairy of Fowlerville plays here. If Pinckney finishes one two she will be in the playoffs. Anyway the season will probably run until Sept. 1.

### DISCONTINUES BUSINESS

Louis Lang has discontinued business here and sold his stock to Roy Clark. Mr. Lang bought out Reason and Sons a year ago coming here from Lansing. He has no immediate plans for the future.

## CURRENT COMMENT

By Yo Editor

Although this year is election year, not a great deal of interest in it. The reason is that the war interest overshadows all other things and local and state issues which would command great attention in ordinary times appear insignificant and puny compared with it. All candidates, parties etc. are united in the thought that the main thing is to win the war as quickly as possible and restore normal times again. This does not necessarily mean the times previous to 1918. About the only real campaign there is in the congressional elections where seats are held by isolationist congressman Clare Hoffman of Allegan, one of the leading isolationists before Pearl Harbor is encountering tough opposition from State Senator Hammond of Benton Harbor, a Republican who will oppose him in the primaries.

Many people are expressing impatience with the progress of the war and desire for a swift decisive end to it. They will have to endure for some time to come for the fact is this country has not yet got down to brass tacks until they do the "all out effort" will be lacking. This country has been touched little by the war so far. True some 2000 were killed at Pearl Harbor but many were Hawaiians. Philippine losses were heavy but they were mostly native troops. In the battle of Midway only 236 were killed. These as compared to the admitted Russian losses of 4 million and a presumably equal loss for the Germans show the American losses to be trifling. Today there are many bottle necks. About 50 percent of those who register claim exemption and put up a battle to get it.

The result is that after nearly two years of effort the seven million army desired has only reached three million. Strikes still occur in war munition plants and the farm block, labor, landlords and other groups are fighting tooth and nail to be exempt from the provisions of a price freezing law. One American defeat with the losses running into high figures would smash all these bottle necks into smithereens.

It's a dull day when some city doesn't entertain some dethroned European nobility member who has lost his meal ticket to Hitler or Mussolini. Last week King Peter of Yugoslavia was given the keys to Detroit and entertained by Edsily Ford, Holland, Greece, Poland and most of the other disposed rulers have all come over here and established headquarters. We suppose their expectation is when the war is over this country will aid them in climbing back on their thrones again. Most of these countries were established after the first world war to act as buffer states against Germany and Russia from whom they were carved. They failed to function as such and fell into Hitler's lap like ripe apples.

We can't understand the continued bickering over the price freezing law. Of course the law was large in scope and probably some injustices were done which will have to be ironed out. But the fact that practically every group or organization for the regulation of which the law was drawn up, is trying to be exempted from regulation, does not make any sense. The people cry out against inflation but rebel at any measure put forward to prevent it.

Although it is claimed by the internal revenue dept. that 90 percent of the auto owners have bought the \$5 use car stamp, still a proposal being made to prohibit gasoline station operators from selling gas to cars whose owners do not have use stamps. Several states already have such laws on their books.

**URGENT**

**To all Telephone Users**

Today the telephone lines are crowded  
with traffic as never before, and some calls  
are certain to be delayed.

In the kind of war we are fighting now,  
telephone communication is a vital neces-  
sity. War calls must go through. Every time  
a military or war production call gets  
stalled in a traffic jam, the speed of our  
drive to Victory is slowed down.

The reserve capacity of our lines and  
equipment, built up for emergencies, is  
now fully used. And further substantial  
enlargement of the telephone system to  
take care of this wartime congestion is  
impossible because materials are even more  
urgently needed for tanks, planes and guns.

There is only one solution remaining—  
more careful and more efficient use of pres-  
ent telephone facilities by all of us.

In the past, easy, unhampered telephone  
service has been taken for granted, and  
properly so. Now there is a war to win, and  
each of us has a patriotic duty to see that  
our use of the telephone does not interfere  
with war calls. Though your own line may  
never be used for war messages, every call  
you make must pass through a central  
office switchboard. Many switchboards are  
crowded with military or industrial calls.  
You can help the cause of Victory by put-  
ting this list of reminders beside your tele-  
phone and making it your guide:

**Long Distance Calls**

1. Make only the most necessary calls during the business day.
2. Avoid the rush hours. When possible, call before 9 A.M.; between noon and 2 P.M.; between 5 and 7 P.M.; or after 9 P.M.
3. Plan what you want to say, so that the call will be brief.
4. Whenever possible, give the number of the telephone you are calling.
5. Don't call Washington, D.C., unless you must. Trunk lines to the nation's capital are already overloaded with war messages.

**Local Calls**

1. Try to make your conversations short, and avoid the rush hours.
2. Look up numbers in the telephone directory, so that you won't have to call information.
3. Plan your conversations ahead, and keep paper and pencil handy.
4. Show your children how they can help the war effort by keeping their calls brief.
5. If you share a party-line, be considerate of your neighbors.

Thoughtful use of telephone facilities in these days is a real contribution to the war effort—one that every citizen can make. The Telephone Company will continue to provide the best service possible under present conditions. But now, and for the duration, **WAR CALLS COME FIRST.**

The 75-millimeter gun is a divi-

as an anti-tank gun. It has been  
replaced to some extent by the more  
modern "105", known as the heav-  
iest of divisional weapons. The 75-  
mm gun costs \$12,000 and has been  
converted by our Ordnance into a  
"blaster" twice as efficient as in the  
first World War.

This gun gets maximum power for  
minimum weight and cost, and the  
American people are providing the

Let Everybody Know You're Investing 10 Percent of Your Income in War Bonds

The attractive red, white and blue window sticker, pictured above, is the new yardstick of patriotism in the War Bond drive throughout the nation. With the slogan, "Everybody every pay day, ten percent," sweeping the country, patriotic Americans on the home front are rallying to their Government's appeal for funds with which to help finance the war. The home which displays the "ten percent" sticker is doing its share toward Victory for America and the United Nations. The stickers are being distributed through local War Savings Chairmen.

U. S. Treasury Department

A MESSAGE FROM THE SECRETARY OF THE TREASURY

THE SECRETARY OF THE TREASURY WASHINGTON

July 1, 1942

TO THE PEOPLE OF MICHIGAN:

This week a new campaign for the sale of War Bonds and Savings Stamps is under way throughout the Nation. It is the War Bond Quota Campaign.

It is especially necessary that you double the rate at which you are now buying War Bonds and Stamps. This will mean the sale direct to individual Americans of War Bonds and Stamps to the amount of not less than one billion dollars every month.

One billion dollars a month is the national quota. It is equal to one-tenth the combined incomes of all Americans.

This money is needed to buy the tools of war for your fighting forces. It will not pay for all of them. Our expenditures now are at the rate of about FOUR BILLIONS a month, and they are growing daily. But a billion dollars a month direct from the people will make all-out production possible. Without it we cannot do our best; without it we cannot get forth our full efforts.

It is desperately needed for another reason. We can't fight a war and at the same time live and spend as usual. There are not enough goods to go around — the things we buy with money. If we go on spending at the 1941 scale, we'll be robbing the fighting men to add to our own comfort or pleasure. We'll be driving up the cost of living for all of us. We'll be imposing dire hardships on our neighbors.

What is asked of you is ten per cent of your earnings — a tithe for Liberty. It is not a tax; it is not even a contribution; it is a loan at interest, for your use and protection later.

Your Government asks you to cut down your expenditures, TO SAVE — your boys on the firing line and in the training camps, through your Government, ask you to save so that they may have what they need to win YOUR WAR for you — America asks you to save; to SAVE TO WIN THE WAR, to buy War Bonds and Stamps up to not less than ten per cent of your income.

To Liberty worth 10? To Democracy worth 10? To America worth 10? I think I know your answer.

Sincerely,  
A. Morganthau

The above letter was sent to this newspaper by Secretary Morgenthau in Washington. We publish it in the interest of the War Bond Quota Campaign and earnestly recommend that all our readers do their share in the tremendous job ahead of financing the War effort.

How to 'Enlarge' Michigan Farms for War Output

CHICAGO.—How Michigan farmers can "enlarge" their farms to meet increasing war-time demands without incurring the hazards of over-expansion was described in a statement made public here by the Middle West Soil Improvement Committee.

"The secret lies not in buying more land but in making the present acreage do a better production job," the statement declares. "This means following a soil management program that will raise the land's fertility level.

"Even in the most productive areas the average farm can usually be enlarged the equivalent of 10 per cent, and sometimes as much as 50 per cent, through intelligent soil treatment, including the use of fertilizer.

"In combination with other sound farming practices the use of fertilizer containing nitrogen, phosphorus and potash is essential in stepping up the soil's productive capacity. Such a practice not only has an immediate result in increasing the per acre yield of crops needed in the nation's war effort, but represents an important long range soil conservation measure. It like-

Only through sound soil management and the replacement of needed plant foods can bumper crops be assured.

wise means lower production costs and improved crop quality. The amount of fertilizer applied per acre and the formula selected will depend on the crop being grown and on the fertility deficiency of the soil itself. All things considered, fertilizer not only pays its own way, but frequently returns a three-to-one dividend in increased crop value."

PINCKNEY 6, KING-SEELEY 0

Pinckney took on the strong King-Seeley team of Ann Arbor under lights last Friday night and lost 6 to 6. This team had a record of 15 straight victories and their pitcher, Joe Dobransky, has pitched 5 one hit games. Pinckney was on nerves at the start and threw away several scoring chances by bad base running.

Stanley Dinkel, started pitching for Pinckney and held King-Seeley to a 2 to 1 score for 4 innings. Then he lost control, walked 3 men which with a hit and an error gave the Ann Arbor team 4 runs. Dinkel scored the first Pinckney run in the second when he walked stole second and scored when the throw to get him at 3rd hit him in the back.

Bob Singer relieved Dinkel in the 5th and Ann Arbor scored 3 runs on a double, single, walk and an error.

Spaulding relieved Dobransky in the 7th and Pinckney staged a big rally, 11 men batting and 5 runs scoring. Palmer walked, Roy Reason batted for Shirey and hit over third Bob Singer scored both with a two base knock. K. Ledwidge batted for Miller and scored Singer with a hit. Van, grounded out. Joe Lavey got his third hit, scoring Ledwidge, Hulce beat out a bunt, Reader walked, M. Lavey drove one to right, J. Lavey scoring. Shehan hit to short and Gus Ledwidge who had run for Hulce was out at the plate. Palmer ended the game grounding out, short to first.

Pinckney got 11 hits in this game and received 9 walks. Joe Lavey had a perfect day at bat with three hits and a walk.

PINCKNEY LOSES AT BRIGHTON

Pinckney couldn't hit and did not field the first two innings in the game at Brighton Tuesday night and

the result was Brighton scored 5 runs these first two innings and won the game 6 to 5. Pinckney only got 5 hits off Wilkinson who had good support. Bob Singer, pitching for Pinckney allowed six hits but his support was wobbly. Brighton got a run in the first inning and four in the second, and one in the third. Pinckney rallied in the 7th but fell a run short of tying the score.

As the Tomion Dairy of Fowlerville defeated the Cooley Dairy the Brighton defeat cost Pinckney a chance to tie Cooley for first place in the county league.

CONGRESSIONAL NEWS LETTER

Hon. W. W. Blackney

The World's Greatest Flying Boat

The world's greatest flying boat, Glenn L. Martin's Mars carries enough gasoline to fly to Europe and back non-stop. The Mars is as big as a 14 room house. It has a 200 ft. wing spread. It weighs 70 tons more than the ship in which Columbus discovered America.

Glenn Martin said yesterday he can turn out one such plane a week two years from now. The Navy Dept. likes the Mars tremendously, and no optimistic soul is around to proclaim that we won't need 70 ton flying boats in 1944 for war purposes, so the chances are that he will get an order to make all the flying boats can.

Do You Know That -

Expenditures for war activities for the fiscal year 1942 totalled \$25,953,065,994.59 as against \$6,301,043,91 for the fiscal year 1941. These 1942 expenditures already nearly approach the total cost of world war 1. All told congress has authorized or appropriated about 205 billion dollars on war production.

Banks are holding U. S. Government and Government guaranteed obligations in greater and greater quantity. The latest figures (as of June 30) show that member banks of the Federal Reserve system hold such obligations to the amount of \$17,361,000,000 as against \$14,304,000,000 a year ago.

This war has brought about a tremendous upsurge in tonnage carried by towboat and barge on the rivers of America. Thus traffic on the Ohio River according to preliminary 1941 figures reached 36,555,414 short tons or 24 per cent more than for the previous years. In the same period traffic on the Upper Mississippi showed a gain of 29 percent. It is interesting note that transportation of petroleum products accounts for a large part of this gain. Increase in such transportation was 89 percent on the Ohio and 21 on the lower Mississippi.

Automotive graveyards yielded more than 383,283 tons of scrap metal in May, this being 10 percent more than in April and 100 percent more than the monthly rate in 1941. War production in May is announced by the War Production Board being 33 percent greater than in April which was in turn was 23 percent greater than in March.

## EASY WAYS TO SAVE

# Electricity

## when you cook on your

# ELECTRIC RANGE

In these days when "waste nothing" is a household rule, you can save time, effort and electricity by using your range efficiently. The 5 suggestions listed below are not new: Perhaps you already follow them. If not, they will prove worthwhile.

- (1) Use LOW heat whenever possible.** You can keep your cooking cost down by finishing most of your surface cooking on low heat after foods have reached the steaming point. Once the steaming point is reached, you cannot speed up the cooking operation one bit by continued use of high heat. Reducing the heat will reduce your cooking costs, as well as conserving vitamins and minerals.
- (2) Plan more even meals.** Preparing a complete meal in the oven at one time is economical. The same amount of electricity can cook meat, potatoes, vegetables and a pudding in one operation. And by using your clock control, you can forget the dinner until it is ready to serve, and devote your time to other things.
- (3) Use little water in cooking.** Vegetables are far more delicious and healthful when "steam-cooked" in only a tea-cup of water. This conserves precious minerals and food values — and you don't waste electricity heating up a large quantity of water which is poured down the sink after the cooking is finished.
- (4) Make use of "stored" heat.** When the cooking operation is almost finished, the heat may be turned completely OFF. The heat that remains in the unit can be used to complete the cooking operation. Take advantage of this method and the extra saving in the use of electricity.
- (5) Use the thrift cooker often.** If your range has one, the thrift cooker is ideal for soups, stews, and for less tender cuts of meat. Its long, slow cooking gives excellent results, and its "deep well" construction and heavy insulation achieve economy of operation.

**THE DETROIT EDISON COMPANY**

The national labor force for April is reported as being 53,400,000 of which 40,773,000 are non agricultural. Farm employment as of June 1942 is estimated as 11,917,000.

**Trial of Captured Nazi Agents**

It may be interesting to note that the present trial of Nazi agents is following a governmental procedure which was established nearly 100 years ago. When the presidents military commission of 7 Army Generals decide on life of death of the 8 captured Nazi agents, their secret deliberations will be ruled by a procedure established nearly a century ago by General Scott.

**Victory Through Air Power**

For those who enjoy reading, I wish to call to your attention a book entitled "Victory Through Air Power", by Major Alexander P. de Seversky who was born in Russia and in 1921 he acted in an advisory capacity to the late Gen. W. E. Mitchell during the latter's demonstration of the ability of aircraft to sink ships. He is an authority on aviation and the book is well worth reading.

**Growth of The United States Army and Navy**

The air forces of the United States will number nearly one million by the end of 1942 and are heading for a goal of two million. Congress has provided nearly 50 billion for use in furnishing airplanes for the Army and Navy. Planes are being turned out at about 4000 monthly and this figure will pass 10 thousand monthly during 1943. A larger or major proportion of these planes will be offensive bombers. When they really begins to strike in force Hitler really worries will begin.

The Army of the United States is heading for a 1942 goal of 4,500,000. This is the announced figure. A figure of 7 million men has been mentioned officially as the 1943 army. This is

W. E. Stevenson of North Lake had the misfortune to run into a colt with his mowing machine and cut two legs. The animal had to be killed, off two legs. The animal had to be killed.

Our fighting men are taking their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

PHILATHEA NOTES

A profitable lesson was spent on Sunday covering the first two lessons of this quarter, "God, the Creator" and "Adam and Eve" "Temptation and Sin". After some discussion of Genesis 3:24 Mrs. Buzzard asked us to find if we could for next Sunday, a.1 about the "flaming sword", which turned every May to keep May the tree of life. What did this flaming sword testify?

Mrs. Nellie Frye and Mrs. Edith Peck very graciously entertained the class for the July meeting on last Wednesday afternoon. Mrs. Dora Swartout presided, opening the meeting by the singing of "What a Friend and we have in Jesus". Miss Clend Fish conducted the Devotionals read Psalm 108 and offering prayer.

Roll call, Secretaries report and Communications followed under the direction of Mrs. Henry. Some Missionary plans were discussed and laid on table until the next meeting. Mrs. Carrie Swartout presented the program, including a very interesting quiz made by Mrs. Dora Swartout. Mrs. Buzzard read an interesting Missionary story.

Mrs. Lola Rogers cordially invited the group for the next meeting Wed. Aug. 12 which will be our quarterly Missionary meeting with offering toward our quota.

Our class and the church in general regretfully heard of the passing a few days ago of Mrs. Jennie King-ley whose father, the late Rev. Pierce was a former pastor here. Our sympathy is extended to the family and to that of late Rev. Littlejohn, also a former Pinckney Pastor whose death recently occurred.

PRESENT: The Honorable Joseph H. Collins, Circuit Judge.

Mary Brayton having filed in this cause, a petition setting forth that Martin Holtzforth died on the 20th day of October 1939, leaving a last Will and Testament, by the terms and provisions of which, said petitioner was devised an estate for life in certain lands and premises situated and being in the Township of Genoa, County of Livingston, and state of Michigan, and described as follows to wit:

The west half of the northwest quarter of Section 21, the east half of the northeast quarter of Section 20; the east ten acres of the southwest quarter of the north east quarter of Section 20; and the southeast quarter of the north west quarter of Section 16, except the north 15 1/2 acres and the south ten acres thereof.

And it further appearing to the Court, that in her said petition, said petitioner prays for an order that said lands and premises above described may be sold by and under the direction of this Court, and that the proceeds from such sale stand in lieu of said premises above described and that this Court make such an order in relation to the investment of said proceeds as may be necessary.

On motion of Glenn C. Yelland, attorney for petitioner, it is ordered that a hearing on said petition be held at the circuit court room in the Court House in the City of Howell, Michigan, on the 28th day of September, 1942, at ten o'clock in the forenoon and that all persons interested in said above described lands appear before this Court on said day, time and place, to show cause if any exist, why the prayer of said petition should not be granted.

And it is further ordered, that a copy of this order be personally served on all persons who are or may be interested in said lands and premises, so far as the same is known to said petitioner, at least ten days before the return day herein set forth. And it is further ordered that this order be published once each week for three successive weeks preceding said return day, in the Pinckney Dispatch, a newspaper printed and circulated in the County of Livingston, State of Michigan.

Joseph H. Collins, Circuit Judge Examined and Countersigned and Entered by Me. John A. Hagman, Clerk Glenn C. Yelland, Attorney for Petitioner Business Address, Howell, Mich. A True Copy Louise M. Schultz, Deputy Clerk

STATE OF MICHIGAN

The Probate Court for the County of Livingston.

At a session of said Court, held at the Probate Office in the City of Howell in said County, on the 16th day of July, A. D. 1942.

Present, Hon. Willis L. Lyons, Judge of Probate.

In the matter of the Estate of Charles A. Baeder, Deceased.

It appearing to the Court that the time for presentation of claims against said estate should be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said Court:

at said Probate Office on or before the 28th day of September A.D. 1942 at ten o'clock in the forenoon, said time and place being hereby appointed by the Court.

It is further Ordered, That public notice thereof be given by publication of a copy of this order once each week for three successive weeks previous to said day of hearing in the Pinckney Dispatch, a newspaper printed and circulated in said County.

Willis L. Lyons, Judge of Probate A true copy. Celestia Parrshall, Register of Probate

KEPT HER DAUGHTERS CHAINED IN THE DARK

Dr. Donald A. Laird, writing in The American Weekly with this Sunday's (July 26) issue of The Detroit Sunday Times, discusses the strange case of a kindly woman who kept her daughters prisoners pointing out that there are probably 5,000 other "living skeletons" who are prisoners of mother love, revenge, jealousy or just plain selfishness. Be sure to get Sunday's Detroit Times.

### Adjustment, Not Shortage

RIGHT adjustment in human affairs does not involve shortage. When human thinking is kept in accord with the law of God, lack, limitation, and shortage must disappear. Proper adjustment in world conditions today can be made only through spiritual insight and an increased understanding of God's law of unfailing supply. Supply can be proved equal to demand, because in God's universe there is no shortage if good.

God's abundant supply never changes. It does not come and go with the tide of mortal thinking. God is abundantly pouring forth all good, and the real man is continually receiving this good. For proper human adjustment, thought must yield to the divine in every instance. Personal planning, ambitions, habits, and fixed rules of human conduct must accord with that which is best for the greatest number. An understanding of what constitutes reality will adjust any sense of shortage that would try to present itself. There is a right idea present and available to give us daily whatever to our limited sense of things seems essential or human use. In the thought which is tractable, spiritual, peaceable, these ideas will come to light.

Right adjustment, then, is spiritually mental adjustment to God's law. This adjustment relinquishes human will and selfishness and resigns all to the dear Father's tender, loving care. No shortage can occur from this adjustment, and many latent possibilities of increase will be brought into expression.

When our dear Master, Christ Jesus, discerned the human need of the multitude for food, after they had listened long to his preaching and he found that among them there were but five loaves and two fishes, he commanded that all be seated. "And when he had taken the five loaves and the two fishes, he looked up to heaven, and blessed, and brake the loaves. . . . And they did all eat, and were filled" (Mark 6:41, 42). To human sense, the visible supply seemed very inadequate, and there was much room for doubt as to the possibility of meeting the need. Nevertheless, the unfailing confidence of the Master and his recognition of infinite power put to silence any argument of limitation, and all accepted the increase without question.

Jesus did not entertain an argument of shortage. He did not question whether there was enough to go around. Neither did he consider what he would do when the supply was depleted. He knew that God was supplying the needs of all, and that this supply was at hand regardless of the testimony of mortal sense. "He looked up to heaven, and blessed, and brake the loaves." He looked to God, whose law was adequate to

### Continued from First Page MICHIGAN MIRROR

well, the situation is discouraging. "Until every American man is fully armed, every American division fully equipped American industry hasn't done the job," he said emphatically, using some colorful cue words to indicate that he meant it.

Already, war plants in Michigan have shut down for lack of scrap tie neck in the Middle West, just as iron. Raw materials is a serious bottleneck on the sea.

Re-tooling of Michigan war plants is still continuing.

Don't let anyone tell you otherwise. From the best figures we can obtain, Michigans available labor supply is wholly inadequate to meet the needs of our war industries between July and December. In Detroit alone approximately 135,000 more workers will be needed to fill the jobs of the men who will be called into the armed services and to meet the needs of additional machines and the three shifts per day production.

Here is the picture, and it is startling in its significance, concerning the need of women in war industries.

Unless women can be recruited voluntarily to man the additional war machines in Michigans war plants, one or more of the following things may happen:

1. War contracts will have to be taken from Michigan and given to other states.
2. Workers will have to be imported from other states.
3. Workers will have to be transferred from non-essential manufacturing employment to essential war work.

The alternative to the above three possibilities, as the war work planners see the situation, apparently rests with the ladies.

Any large scale in portation of labor to Michigan is in pointed out facilities, would overcrowd living would only overtax the existing housing conditions, would only reduce worker morale, and would also open the gate to a serious post war relief load.

Utilizing Michigan woman power for Michigan war jobs, so the official say would avoid putting new burdens on housing in industrial centers. Women workers would lessen the likelihood of heavy relief loads for imported workers, stranded here at the close of the war.

Well that's on way of looking at it.

It's not a pleasant outlook. It is another call for sacrifice. Michigan will not fail.

### What You Buy With WAR BONDS

Ships of the Destroyer type comprise the bulk of our fighting ships in the American Navy. Their average displacement is about 1800 tons, and they are fast, powerful, and hard hitting. They have been particularly effective in convoy duty and gave a good account of themselves in the Coral Sea engagement. They cost approximately \$3,600,000 each.

Every Navy shipyard is turning out Destroyers in record time. They are essential for our two-ocean Navy. Purchase of more and more War Bonds will assure all-out production of these vital units for the Navy. Buy every pay day. Invulnerable Armaments

A DICTIONARY defines "Invulnerable" as "incapable of being wounded or of receiving injury." Invulnerable armament, then, is armament that is incapable of being penetrated; and only spiritual armament is actually invulnerable. Everyone desires to feel secure and serene, to feel that there is an invulnerable protection shielding him at all times.

To know that every righteous thought and act has divine, hence invulnerable, protection and immunity from evil is a great joy and comfort to spiritually enlightened men and women. In the factory, office, home, on the highway, in the air—yes, even at the battle's front, if need be—he whose thought dwells in God has found the one invulnerable armament. No matter how sorely he is tried, how severely he is tempted, if his faith in God remains steadfast, if his allegiance to Truth, Life, and Love is firm, he will find true Mary Baker Eddy's words on page 277 of "Miscellaneous Writings," where she says: "No evidence before the material senses can close my eyes to the scientific proof that God, good, is supreme. Though clouds are round about Him, the divine justice and judgment are enthroned. Love is especially near in times of hate, and never so near as when one can be just amid lawlessness, and render good for evil."

The Psalmist proclaimed invulnerable the spiritual armament of the righteous, when he sang (Psalms 91: 1, 5, 7): "He that dwelleth in the secret place of the most High shall abide under the shadow of the Almighty. . . . Thou shalt not be afraid for the terror by night; nor for the arrow that flieth by day. . . . A thousand shall fall at thy side, and ten thousand at thy right hand; but it shall not come nigh thee."

Invulnerable spiritual armament is practical and concrete, available in human experience. . . . God, who is Life, Truth, and Love, is invulnerable.

Are you entitled to wear a "target" lapel button? You are if you are investing at least ten percent of your income in War Bonds every pay day. It's your badge of patriotism.

Dear Paul!

You probably don't remember what I look like but the name should be familiar. It has been a long time since I have set my eyes on the fair village of Pinckney. But I haven't forgotten all the happy days that I spent there. I shouldn't be recollecting the old memories but thinking of the day when I return.

I enjoy reading the Dispatch that you send me very much. For a long time I was wondering what was going on in dear old Pinckney and the surrounding communities. The paper has informed me of many things that had aroused my curiosity.

I see where many of the boys that I knew are in the armed services of the United States. I know that they feel the same way I do. If by any chance they should read this letter, I wish them the best if luck.

I never was much of a talker or writer so thanks for the paper until next time.

With best of luck, Joseph Lesiak.
