News and Letters from Our Boys  
Who Are Serving Their Country

First Class Private William E. Moran of Detroit has arrived safely overseas at an unknown destination. He did his training at Parris Island N. C. and New River N. C. He is the son of the late Wm. and Florence Monks Moran, former Pinckney residents. His wife lives in Detroit.

Edward Howell, former Pinckney high school alumni is now studying for an officers commission at Fort Benning, Georgia.

The following from this section left for the Detroit induction center for their army medical examination Sunday night: John Stackable, John L. Conners, Lyle Cone, Casper Farrell and Edward Bennett.

On Thursday another consignment will leave Howell for Camp Custer. There is no word from Putnam in this bunch. James McBurn of Gregory is one of them also Jay Sweeney, former prosecuting attorney of this county.

The second draft call for this county this month is set for August 26. The total draft call for August was for 192 men but the board will not be able to fill this call, there not being enough men available.

Bert VanBlaricum Jr. served a term in the U. S. navy a number of years ago. Recently he has been trying to re-enlist in the navy but has been unable to get waiver of certain disabilities from the navy dept at Washington D. C. last Wednesday he went before the draft board and asked to be sent by said draft board to the Detroit induction center Aug. 26 with the next bunch of selectees from this county.

Bill Baughn, Charles Smith and Marcella Ledwidge went to Detroit Tuesday to enlist in the air corps, but all were rejected. Ledwidge on account of bad eyesight and Baughn and Smith because they did not pass the written examination. Ellsworth Kirtland who was recently accepted was one of the 9 out of 40 who took the examination to pass.

Gerald Clinton and Friday Haines were home from Fort Custer Sunday. Junior Lavey passed the air corp. written examination at Detroit but failed to pass the physical exam.

Billie Baughn and Charles Smith did not pass their air corp written examination at Detroit last week. They may try to enlist in the navy.

Dr. James Nash of Elsie has been called for army duty and will go to Chicago for induction on Aug. 19. He is a second lieutenant in the R. O. T. C.

Of the 44 who went to the Detroit induction center for examination Monday the greater percent were accepted. Among those accepted were Edward Bennett, John L. Conners, Lyle Cone from here. Casper Farrell was held over for further examination. Bennett went at once to Fort Custer, the others got a 2 weeks furlough.

There are quite a number of boys from this section whose whereabouts in the army we have just learned. Al Maschke, son of Gus Maschke is with the marines at San Diego Cal.

Wallace Bishop was in the navy at the Great Lakes training station. He is now in New York state. Don DeForest is in the coast artillery but at the present time is recovering from an appendicitis operation. He is a nephew of VanGorder, Sherman Lillywhite and Ambrose Kennedy are both in Alaska.

The following letter was received by Pat Jeffreys from Sam Lafata: Camp Kilmer, New Jersey

Dear Pat,  
How are you? I am fine. I like the army. We have a good time. The other night I went to a USO dance. There are a lot of them. There has been a girls army here. They are all right. The boys are nuts about them. We got up about 5 a. m. and march 2 hours then we drill 6 hours. All we do is march. The food is good. How is everyone coming? How is Friday? Is he in the army yet? I got no picture of myself but will send you one soon. I have not got time to write a long letter now I am going to be a corporal in two weeks. God bless you all. Tell them "Hello" from Sam. Well will close. I am a long way from home.  
Yours truly,  
Samuel Lafata.

## Big Salvage Drive on

Salvage of Junk Needed for The War Effort To Continue. All the Junk in This Township to be Listed and Picked up by Trucks During the Big Junk Week Rally.

The big junk collection is now on and anyone who has any old iron, steel, copper, brass, aluminum or rubber or junk of any kind which can be used in the war effort is asked to list it with the township committee or Phone No. 8, Pinckney. Then when the week of the big junk rally comes trucks will come to pick it up. If the object too big to be loaded by hand being something like an old boiler or some similar object this information should also be given and a truck with a special loading apparatus will be sent for it.

Each farm is a source of potential wealth in war material. If you have any obsolete machinery lying around on the farm which you never expect to use again you should list it with the committee. Just look around a little. We understand Putnam township has an old horse drawn road grader which will never be used again. Way back when the late James Smith was highway commissioner he made a huge roller to use on the roads, unfortunately it was too heavy to be pulled and has been gathering rust near the Marble school house for many years. The last we knew there was a huge steam engine boiler near the site of the old Pinckney flour mill which has lain there ever since the mill was wrecked.

A number of people have called up about waste paper, saying that the junk dealers were refusing to buy it. That is true. The reason is that the waste paper is used in making grades of paper for which the demand has fallen way off. As a result the paper mills have more on hand than they can use at the present time and are refusing to buy it.

This robs the junk dealers of a market as they have no place to store it except out doors and when it gets wet its value is decreased. They are compelled to refuse to buy it. We contacted the county salvage committee and their advice was to tell the people having waste paper to hold it for a while and the demand would come back. All communities do not have a surplus as now exists in Michigan. Also the committee told us if no storage place was available it is not considered unpatriotic to burn it.

### THE ORIGINAL UNCLE SAM

The last issue of the magazine "Scout" carried pictures of Lucius Wilson Sr. his son, Lt. Lucius Wilson Jr. and his brother, Samuel Wilson of Kansas as well as other descendants of Samuel Wilson of Troy, New York declared to be the original Uncle Sam, the symbol of our country. This Sam Wilson, during the war of 1812 sold vast quantities of beef and pork to the army it was stamped U S when asked what it meant this Sam Wilson is said to have claimed it meant Uncle Sam. This spread and eventually U S and Uncle Sam came to mean the same thing.

## Pinckney Has First Blackout

First Blackout in Pinckney and Livingston County To Be at 10:00 Tonight

Pinckney is ready for the first test says C. F. Hewitt, chief warden. At 9:57 the fire alarm will be sounded and continued at intervals every three minutes. It will give everyone time to turn out their lights and draw their cars to the side of the road and extinguish their lights.

While smoking will be permitted on the streets, no matches are to be lighted for any purpose. Lights will be all right if not visible to the outside. Ten wardens, each with a messenger will at once go to their posts and everyone should cooperate with them as it is for everyone's protection.

Three Fire Watchers will be at their posts, with messengers. We need 2 or 3 more wardens so as to completely cover every home, especially in the S. E. and S. W. parts of town. Also more fire watchers and messengers. The messengers are under the Scout Master, Mr. Reader. We hope the complete force of wardens, fire watchers, and messengers will have completed their training course and received their arm bands before the next blackout.

This paper will carry a report of the blackout next week which we trust will be 100 per cent with no violations. At 10:30 the all clear signal will be blown for two minutes.

### COMING BALL GAMES

Pinckney's soft ball team will play three games this week, all away from home. Wednesday (tonight) they meet King-Seely of Ann Arbor at Pinckney in a game starting at 6:45 p. m. Then on this Thursday night they play at Fowlerville and on Friday night at Dexter.

Sunday they will play a double-header at Pinckney with the North Side All Stars of Ann Arbor. The first game will start about 2:30.

### NOTICE

## Mich. Mirror State News

Lansing Whispers:

A grand jury investigation into state affairs is a possibility for early fall, according to rumors from Detroit. Gasoline rationing is still inevitable; probably after the election. Governor Van Wagener's campaign for re-election will be based publicly on retirement of the state's long standing \$27,000,000 deficit, a sound civil service commission and a consolidated revenue department, wiping out present waiting lists on old-age assistance and liberating the state's social programs, opening the state mental hospitals and adequate care for the crippled and afflicted.

### "Emotional Year"

The key to the 1942 primary election, will be the war. If the war goes as badly as it is today, watch out! If the tide turns, voters will be more cheerful, less in the mood to kick someone in the pants.

But generally speaking, the 1942 is already tagged an emotional year. That means that emotions rather than reason may dictate the outcome at the polls.

If this trend continues it will favor Gerald Smith as against Elton Eaton, and Judge Homer Ferguson for the Republican nomination to the U. S. Senate.

Harry F. Kelly, secretary of state, will wage a vigorous campaign after the September primary. For the first time in many moons there is no contest for the republican nomination to be governorship. But that isn't any sign of inactivity or disinterest.

Both Van Wagener and Kelly are shying away from a all out stand on the home rule and constitutional convention ballots. The governor's Detroit support centered around the courthouse organization which would be adversely affected by the proposed home rule. Farmers are opposing the constitutional convention while labor is favoring it.

### Mobilizing Manpower

It's one of those coming problems as the nation makes further adjustments to meet the demand of army and navy for the upwards of 9 million men by the end of 1943.

As Michigan employment planners see it, women will have to be recruited for war plant duty or men will have to be brought here from other relief load.

### Six Billions

Airplane awards to Michigan industry already total this staggering astronomical sum, while other ordnance contracts near the dizzy heights of nine billion dollars.

It's too much for wage-earners to comprehend.

It means a new race for unemployment in the state, a high level of prosperity for hundreds of thousands of families.

### BROGAN REUNION

The Brogan reunion was held at Lime Lake Aug 9th about 65 members from Detroit, Lansing, Brighton Pinckney and Whitmore Lake were present.

After a sumptuous pot-luck dinner an election of officers was held. It was voted to hold the reunion next year at the same place the last Sunday in July.

Swimming visiting and community singing helped spend a afternoon and evening long to be remembered by those present.

### KINSEY — COAKLEY

A quiet wedding was solemnized Thursday at 3 p.m. at the home of Mr. and Mrs. J. E. Kinsey for their daughter, Miss Phyllis Kinsey married to Mr. Ronald Coakley of Stockbridge, they were attended by the brides sister Miss Joyce Kinsey and Mr. Stephens of Stockbridge. Only the immediate relatives were present. Ice cream and cake were served by the brides parents after the service.

## CURRENT COMMENT

"By, Ye, Editor"

The big news of the past week was the sentencing of Max Stephan, the German tavern keeper, to be hanged on Nov. 13 at the Milan federal penitentiary for treason. Judge Arthur J. Tuttle of federal court pronounced the sentence. It is hard to see how he could have done otherwise. Any sentence other than death would have been regarded in the light of an acquittal. Stephan's record was also bad. He was convicted in Windsor of running a disorderly house, falsified his residence period in this country to obtain citizenship papers and falsified his application to the state liquor commission in order to get a license. After the sentence he remained defiant and said he would bet any amount that he would never hang. While we are against the infliction of the death penalty on general principles we think that Stephan got just what he had coming and we have yet to hear a single person say that his sentence was not justified.

Revenge after it is accomplished is rather a useless thing and very unsatisfying. Last week a fire broke out in the menagerie tent of the Ringling Bros. circus in Cleveland and destroyed over 40 animals. Two negro roustabouts discharged by the circus were picked up and pled guilty to setting the fire. They admitted tossing lighted cigarettes into the hay in the tent. They added they felt sorry for their deed after seeing all the dead animals lying around. Lem Ford, the Pittsburgh negro who confessed is only 16 years old.

More than 130 cheese factories in this country have gone out of business or changed over to making butter of powered milk in the past two months according to the dept. of agriculture. This is due to the glutted market and smaller government purchases. 175 of these plants started making cheese for the first time in 1941. Wisconsin is hit the hardest with 31 plants closing their doors, second with 22, Maine third with 16 and Iowa fourth with 14.

We think that the high pressure campaign to force this country and Great Britain to establish a second front is all wrong and that the congressman, newspapers, columnists, and editors who are lending their efforts to this second front campaign should mind their own business and let the army and navy heads run the war. All desire a speedy conclusion of the war and most are agreed that the establishment of a successful second front in Europe is the one thing which will bring this about. The difference of opinion is whether we are ready and sufficiently prepared to establish such a front. Only the military head, known the answer to this question. With the vast amount of war materials we are sending to Russia, Africa, Australia, England, and other fronts it is doubtful if we are sufficiently equipped and with American soldiers serving on some 33 different fronts, the man power is also lacking. We have at the present time less than 3 million men under arms and many of them are still raw recruits still in training in this country. To start this second front unprepared would only be to welcome a second Bull Run which prolonged the civil war it was conceded. At the outbreak of the civil war it was considered a frolic, so much so that Pres. Lincoln's first call for men was for 90 day recruits. This was considered ample time to win the war. The army had no sooner been mobilized than the people and press demanded swift action. Gen. McDowell, commanding officer, and Pres. Lincoln were forced to yield to the pressure of public opinion and against their judgement ordered an attack on the confederate army. The result was a smashing defeat, the untrained union troops, poorly equipped and organized, becoming demoralized and routed by their better trained opponents. Surely this country does not want a repetition of this disaster.

At the Primaries  
DEMOCRAT TICKET  
APPLICATION AND INSTRUCT-  
IONS, TO OBTAIN SUGAR FOR  
FALL CANNING

Persons who have registered in  
Livingston County and received war  
ration books need only fill in the  
special purpose application below and  
mail it, along with their war ration  
book and a self-addressed, stamped  
return envelope to:

207 E. Grand River,  
Howell Mich.  
Livingston Co. Rationing Board 47

The sugar purchase certificate  
and the war ration books will be re-  
turned in a few days. Failure to  
include the return envelope will result  
in needless delay in the procurement  
of a certificate by the applicant

Canning sugar will be rationed on  
the basis of one pound for every 4  
quarts of finished fruit or fruit juice  
to be canned. For jellies, jams, but-  
ters and pickles and the like, sugar  
may be issued on the basis of one  
pound per person per year.

There is no specific limit on how  
much canning sugar is to be issued  
to each applicant, provided it is for  
his own use or use in the family  
unit. In other words, the individual  
or family unit cannot obtain sugar  
to can fruits which are to be sold.

The applicant will be issued his or  
her sugar on the one to four ratio,  
but should remember that this sugar  
is for canning only. Apply for all  
needed for this purpose, but for no  
more than is needed.

Applicants must fill out the ques-  
tionnaire carefully so that there will  
be no delays in returning the sugar  
purchase certificate.

Special attention is called to ques-  
tionnaire No. 3 which requires that  
all members of the family unit be  
listed. All of the books for the fam-  
ily unit should be sent with the ap-  
plication.

Questions No. 5, 6 and 7 must be  
answered carefully and accurately. If  
no canning has been done the appli-  
cant should fill in these spaces by  
writing "none."

Question No. 9 is to be answered  
on the basis of one pound of sugar  
for each 4 quarts of fruit and fruit  
juice plus one pound per person in  
the listed family unit for jellies, jams  
and pickles. If the allotment has al-  
ready been obtained for the latter  
applicant is not entitled to an addi-  
tional quota for this purpose.

Question No. 11 does not pertain  
to those making application by mail  
because only those with war ration  
books may have the application hon-  
ored.

Those who do not have a war  
ration book for any reason must go  
in person to their local board to ob-  
tain a book, if their surplus has been  
depleted according to the regulations  
or if they wish to obtain a cancelled  
certificate to charge against their ex-  
cess sugar stock.

Persons making the application  
are required to sign the form, stat-

# Bomb 'em with JUNK

Let's blast Japan—and Germany—and Italy—with the chain  
lightning of destruction that can be built from the scrap in  
our cellars, attics and garages, on our farms and in our places  
of business.

Scrap iron and steel, other metals, rubber and waste  
materials. It will all be used to make tanks, ships, planes  
and the fighting weapons our boys must have. It is needed  
at once.

Sell it to a Junk dealer—give it to a charity or collection  
agency—take it yourself to the nearest collection point—or  
consult the Local Salvage Committee... If you live on a farm,  
and have found no means of disposing of your junk, get in  
touch with the County War Board or your farm implement  
dealer.

**MRS. MARGARET E. MELVIN**  
Another of Livingston's oldest so-  
nars, Mrs. Margaret Ellen Melvin,  
has passed on to her reward. The  
daughter of Bernard and Margaret  
Ball McCluskey, she was born in

1872, later going with her parents  
to Detroit, Mich. and still later to  
Jackson County, then coming to Ham-  
burg township, Livingston county,  
her parents purchasing the farm  
which was later occupied by their  
son, Bernard. She was married to Mar-  
tin Melvin on June 30, 1878 at Chel-  
sea, Michigan, and her home from  
then on was the farm near Cordly  
lake, where she passed away. Six  
children were born to this union,  
Mrs. Ella Staphish of Chelsea, Mrs.  
Goyle of Pinckney, John Melvin who  
passed away nine years ago, Mark  
Melvin, Miss Eva Melvin and Mrs.  
Rose Howard, of Pinckney, two grand  
children, Mary Verna Howard and  
Clarence Staphish, and two great  
grandchildren, Margaret and Helen  
Staphish.

Mr. Melvin passed away on June  
4, 1922 but with faith and courage  
that was characteristic of her. Mrs.  
Melvin was able to face the years  
ahead without the loved companion  
until on August 5, 1942, after months  
of failing health, when she was ten-  
derly cared for by her loved ones  
she went home to be with God, whom  
she had faithfully and prayerfully  
served during more than 89 years of  
life. A good neighbor, a true friend  
and a loyal member of her church,  
she will be greatly missed and her  
family has the sincere sympathy of  
all.

On Saturday, August 8, 1942, ser-  
vices were held at St. Mary's church  
with the officiating priests being  
Rev. Father Murphy, Rev. Father  
Coyle, and Rev. Father Harris, and  
she was laid to rest in St. Mary's  
cemetery, Pinckney Michigan.

A 32 pound lake trout was caught on Munising Lake recently.

## SHE'S 111... AND "TOO TOUGH TO DIE"

Hearty centenarian's education of why she's "young" interests scientists, even thought their curiosity about her rules of living don't interest her; it will be revealed in an extraordinary article by Dr. Leonard Keene Hirschberg, director-in-chief of Institute for medical Research, in The American Weekly with next Sunday's (August 16) issue of the Detroit Sunday Times.

## PINCKNEY WINS FROM DEXTER

The Pinckney soft ball team won an easy victory from Dexter here on Thursday night by a 14 to 2 score. Dexter put up a good game for 4 innings at the end of which time Pinckney was only ahead 2 to 1. In the 5th they began to hit the Dexter pitcher and scored 3 runs. They got 4 more in the 6th, giving them a 9 to 1 lead. At the end of the 7th Dexter wanted to play 2 more innings. This was done and Pinckney scored 5 more runs. Dexter only got 4 hits off Bob Singer in 7 inning. Merlin Lavey pitched the last inning. Beck who twirled for Dexter pitched for Dunne Dairy of Howell last year.

### REGISTRATION NOTICE For General PRIMARY ELECTION

TUESDAY, SEPTEMBER 15, 1942

To the Qualified Electors of the Township of Putnam (Prec. No. ....)  
County of Livingston, State of Michigan

Notice is hereby given that in conformity with the "Michigan Election Law", I, the undersigned Township Clerk, will upon any day, except of any regular or special election or primary election, receive for registration the name of a legal voter in said township not already registered who may Apply to Me Personally for such Registration. Provided, however, that I can receive no names for registration during the time intervening between the Twentieth Day before any regular, special, or official primary election and the day of such election.

Notice is hereby given that I will be at my home, Pinckney, Michigan, Wednesday, August 26, 1942

the twentieth day preceding and election, as provided by Sec. 2767, Michigan Election Laws, from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of REVIEWING the REGISTRATION and REGISTERING such of the qualified electors in said TOWNSHIP as SHALL PROPERLY apply therefor.

In any township in which the clerk does not maintain regular daily office hours, the township board of such township may require that the clerk of such township shall be at his office or other designated place for the purpose of receiving applications for registration, on such other days as it shall designate prior to the last day for registration, not exceeding five days in all.

The name of no person but an ACTUAL resident of the township at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

NOTICE: Absent Voter Must be. Although Sec. 2774, Laws Relating to Elections, Revision of 1939, still provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make, Act 63 of P. A. 1939 stipulates that in absent voter's application for ballots he must state that he is a "fully qualified and REGISTERED elector."

Opinion of the Attorney General is that Acts 66 and 63 "must be construed to repeal the inconsistent provision of Sec. 2774 permitting absentee registration AT THE TIME of making application for an absentee voter's ballot."

Thus the Absent Voter's application and affidavit for registration are useful only in cases where voter may mail these in, then make application for ballots later, after registry has been completed.

The portion of application shown herewith enclosed in brackets should be crossed out when applying for registration.

### CONGRESSIONAL NEWS LETTER Hon. W. W. Blackney Sales of War Bonds

The War Production Board gives war bond sales as totalling 643 million dollars in June, with cumulative sales from May 1941-June 1942 amounting to \$6,657,000,000.

#### Industrial Wages at A New Peak

According to the National Industrial Conference Board weekly earnings in manufactured industries in May were \$38.93 and hourly earnings were 90% cents. This is a new peak in hourly and weekly earnings and showed a 1 per cent gain over April with respect to the former and 0.6 percent gain for the latter. The gain over May 1941 for weekly earnings is 17.5 percent. The average work week in May was 42.7 hours.

#### The Island of Guam

Much discussion has arisen recently with reference to the apparent failure of Congress to fortify the Island of Guam. I wish to give you the true statement pertaining to this matter.

The Island of Guam was acquired in 1898 by the U. S. from Spain as a result of the Spanish-American war and was placed under the supervision of the navy dept. In 1919 the Joint Army and Navy board recommended fortification and development of Guam as an advanced naval base. No action, however was taken at that time. In 1929 a bill was introduced to authorize construction of some aviation facilities at Guam and for the development of the Harbor. At that time the administration was friendly with Japan and was apparently fearful that fortification of the island might result in bad feelings with Japan, Congress was reluctant to spend money on the harbor improvement for Guam unless the Island was properly fortified for the reason that a foreign foe in securing Guam would have the benefit of the harbor improvements.

Therefore no Guam improvement authorization - appropriation was enacted in 1940. However, on Feb. 12, 1941, a bill was introduced asking authorization of an appropriation for \$4,700,000 for improvement on Guam harbor. This was passed by Congress and became a law in March that year. The money was appropriated in the 4th Supplemental Defense Act of Mar 17, 1941.

Let me call your attention to this important fact, that no specific requests for the fortification of Guam were submitted to Congress by the Roosevelt Administration. This inaction prevailed despite forceful recommendations from some high ranking navy officials.

#### Submarine Sinkings

The submarine sinking situation showed some improvement during the preceding week. According to the AP unofficial tabulation, 15 United Nations merchant vessels were sunk in Western Atlantic waters as compared with 25 the previous week. The total submarine sinkings to date exceed 400. The navy is doing its best to check the submarine menace.

In order to safeguard our American soldiers in convoys to European and Asiatic waters, it has been necessary to use a great portion of our Atlantic fleet. I am proud to state, however, that in all our convoys, no loss of life has resulted. Patrol ships

### Some suggestions about

## THE BLACKOUT

The Detroit Edison Company will not turn off any lights except in its own properties.

Much publicity has been given the test blackout to be held soon, and we have been asked many questions on the best method of turning off lights, etc. Here are a few suggestions gained from experience in other localities:

- Do NOT pull your main electric switch in your home, store or office building.
- Turn off your lights at the regular wall switch in the room—the same as when you retire for the night. This is in accordance with local policy of the Office of Civilian Defense.
- Check each section of your building for lights left on accidentally, including attic and basement, lighted house-number, night-lights, etc.
- Go to your light-tight refuge room with radio.
- Listen for the All-Clear siren or the All-Clear signal on a radio broadcast.

Oil-burners, radios, water supply pumps, elevators and lights in the light-tight shelter room need continuous electric service even during the blackout. This is impossible if you pull your main switch. Also, it may be difficult or inconvenient to restart devices which need a continuous flow of electricity to operate their control mechanisms.

Serious trouble can be caused to certain equipment if the electricity supply is turned off. Clocks, heating systems, temperature controls, refrigerators, elevators, pumps and many other devices may require adjustment before restarting.

If you prefer to sit in the dark, have someone sit close to a light switch to avoid accident in locating switch when the All-Clear is sounded.

## THE DETROIT EDISON COMPANY

and submarine fighters are rapidly being installed on the Atlantic coast.

### War Production

I have repeatedly stated to you in my letters that production of defense implements have been progressing in an unusually fine efficient manner. Donald Nelson, chairman of the WPB recently stated that in the 7 months since Pearl Harbor munitions production has increased almost 3 times. Airplane production increased from 602 in June 1940, 1,47 in June 1941, 1,941 in Sept. 1941, to nearly 4,000 in May 1942. This production will steadily increase month by month.

About 3 and one half times as many anti aircraft guns were built in the first six months of 1942 as in all 1941. Artillery and anti-tank guns are being produced at the rate of more than 50,000 a month.

During the first six months of 1942 we built many more tanks, light and medium, than during all last year. In May more than 1,500 tanks were built.

The total authorized spending for the war program is now about \$223,000,000. contracts and other commitments for about \$118,000,000 have been made between June 1940 and the end of May 1942.

#### Increase in Passenger Traffic

Reports from 127 steam railways show that earnings for 4 months, beginning in April 1942 were \$220,000,000 as against \$141,000,000 in the same 4 months in 1941.

### PHILATHEA NOTES

This Wednesday afternoon is the time for our regular August meeting of our group, this time it being held with Mrs. Lola Rogers and Marilda. The session on Sunday was interesting and helpful as usual. Mrs. Buzzard guiding the class along the lines of the topic, "Abraham: Intercessory Prayer". For next Sunday, August 13 we study Gen. 26, 18, 31 "Isaac Practices Peace".

Last Sunday Rev. Pearce gave us a wonderfully helpful message on the text "You Must Be Born Again." He and Mrs. Pearce are fitting in splendidly into the program of the church during our pastor's absence. We are assured that Rev. assured that Rev. ressing finely at the clinic, Detroit we hope he will soon be back in our midst.

Our group extends most sincere sympathy to the family of Mrs. Margaret Melvin for whom funeral services were held at St. Mary's church on Saturday. She was an esteemed resident of this community for nearly 90 years.

#### Food For Freedom

Michigan farmers have been called upon to increase their output of certain foods needed for victory. It is being done on the voluntary, democratic system, not on the Nazi slave system.

The government has set a Michigan goal of 8 percent more milk production, 8 per cent more eggs, 9 per cent more and 99 per cent more soybeans for 1942 over 1941.

In Michigan, 127,826 farmers participated in the 1940 AAA conservation program to conserve soil fertility while increasing food production.

#### Second Front

When the casualty lists arrive and thousands of Michigan sons are listed among the dead or wounded, then an important test of the "Second Front" will come. Whether a front is established this year with Russia still in the fight, or next year with Russia possibly knocked out, the military action cannot be made without severe sacrifice of life. Will those who demand loudly for opening of a second front uphold the government when the American losses mount? Here is a neat problem in public morale.

A United front at home is essential if we are to have a successful front abroad. Schuyler L. Marshall, editor and publisher of the Clinton County Republican News and an ardent isolationist before Pearl Harbor, expressed this sentiment editorially two weeks ago.

"If we cannot win this war before China and Russia fall, we may see them at least passively allied with our enemies. Don't say it can't happen. It has happened in France, Norway, and a dozen other places in Europe.

Organized labor, with its jurisdictional squabbles, is speeding up the union of the CIO and the A.F.O.L. Hitler invited labor leaders to celebrate May Day, 1933, but on May 2 he abolished all labor unions. Mussolini's fascism was financed by industrialists of the north and the Junker land owners of the south. It outlawed labor unions. There is no collective bargaining, no strikes, no walk outs permitted in Italy.

Democracy's freedom can also become its weakness. A united labor front is imperatively needed for Victory.

#### Guardian of Liberty

One of the first acts of Hitler and Mussolini was suppression of the press. A few years ago Pres. Nicholas Butler observed:

"Nothing could possibly emphasize more strongly the vital importance of a free press than the absence of any free press today in a majority of the nations of the modern world. There are abuses of a free press, no doubt, but they are unimportant in comparison with the absence of a free press."

## OFFICIAL UNITED STATES TREASURY MICHIGAN WAR BOND QUOTAS FOR AUGUST

WASHINGTON, D. C., Aug. 10.—Henry Morgenthau, Jr., Secretary of the Treasury, today announced the August War Bond Quotas for the 3,070 counties in the nation totalling \$815,000,000.

The August quota for the State of Michigan is \$36,750,000. In arriving at the county quotas for August the Treasury Department took into consideration major factors affecting incomes which in turn cause significant variations in sales during the twelve-month period.

Hereafter actual Bond sales in the various states will be compared with quotas on a cumulative basis. The amount by which sales fall short of or exceed quotas in any month will be added to or subtracted from quotas for future months.

Quotas by counties are:

### AIR PLANE'S PART IN THE WAR

There is no longer any question about the importance of the Air Plane in the fighting of this war.

We are making them bigger and better than the Axis. We must keep them pouring from the assembly lines.

The Douglas A 20 A is regarded as the best all-around plane in the business. The British have used it for over twenty different jobs including bombing and day and night fighting. It is fast and powerful.

Your dollars buying U. S. War Bonds help to build these planes
