News and Letters from Our Boys  
Who Are Serving Their Country

Of the group of selectees sent to Detroit from this county on August 9, 27 out of 43 were accepted and will go to Fort Custer on Aug. 24. Among those accepted was Leon Robb, son of W. E. Robb of Howell. He was sent down in class 1B but was reclassified into class 1A for active duty. After several days examination Casper Farrell of Gregory was rejected. John L. Conners and Lyle Cone were accepted as was John Stackable.

The next draft call is set for the 26th of August and is large. Among those from this section called are Billie Baughn, Ernest Bokros, Lawrence Camburn and Bert VanBlaircum of Pinckney; Junior Lavey, Charles Thompson and Donald Fisher of Gregory; Walter Redies of Lakeland, Wilbur Emery of Hamburg, Willis Kluck of Brighton and Marshall Sneider and Clarence Hahn of Howell.

Lyle Euler has been transferred to Atlantic City from Jefferson Barracks, Mo. and Paul Singer to Cocoa, Florida, from Norfolk naval base Virginia. Friday Haines from Fort Custer to Fort Francis Warren, Wyoming.

Wayne (Gyp) Farrell of Gregory, recently inducted into the army is now in an army camp in Little Rock, Arkansas.

Russell Gardner has enlisted in the naval reserve and is now at the naval reserve station at Grosse Ile.

Charles Updike of Lansing has been commissioned a 2nd Lt. at the officers training school at Fort Sill, Oklahoma and is at home on a furlough before taking up his duties at Fort Leonard Wood, Missouri.

Ted Adeah is now a corporal and is now stationed at Pikesville, Maryland.

August 6, 1942  
Dear Paul: I got a little extra time this morning and decided I would drop you a line. We sleep here until 6:45 in the morning. This morning I got up a half hour before the whistle, got washed and cleaned up. Since you can go eat chow by yourself I went over to the mess hall to eat chow and on coming out one of the boys said "Hey Kirtland they have got you marked AWOL." Well you know I had forgotten all about roll call at seven, so on getting back I went to Sergeant Fuller and explained. My army record is still free of AWOL. I guess maybe I have not been here long enough to get the habit of things. Everybody else is at chow and Paul is getting a letter.

I came to Scott Field II, a week ago from Jefferson Barracks, Mo., the most beautiful army camp I have yet seen. There discipline was first. Here nothing much is first. Radio school is sure grand here. First you are on work detail and then on K. P. detail. K. P. lasts from 8:00 a. m. to 9:00 the next night. You sure sleep the night after you have K. P. I am yet to start radio school.

Last Sunday I saw 17 flying fortresses come roaring down the runway in front of me and take off. After going into formation they headed east. They had dropped in from the west the night before. All were painted olive drab and bristling with machine guns. They were said to be bombing firing command.

It is said here that it is now compulsory to take a course in aerial gunnery after you finish radio school, providing you are within the requirements. You can also apply for a course as flying cadet and if you meet the physical and mental requirements you can be one.

When I was at Jefferson Barracks I knew a Parrral Dahl who worked at Dutch Harbor until early this spring. The weather is terrible there. Wind a 100 miles an hour due to the currents of Arctic and Pacific oceans coming together and causing violent atmospheric conditions. The government sent old ships for the workers to live in there. Later the men wounded in the Jap bombing were brought back to the states in them. One Jap bomb smashed the old Northwestern, the old ship he used to live on.

I knew another boy whose brother is in the R R A F. He was forced down in English channel and floated around a day and a half before a coastal steamer picked him up.

There are lots of dogs here every company has a mascot.  
Yours truly  
Andrew Kirtland.

## Blackout Was a Success

Putnam Township Blackout Last  
Wednesday Night One Of The  
Most Successful In The  
County.

Putnam township along with other counties in Southern Michigan experienced her first blackout Wed. night with some 43 other counties and while it left much to be desired, it was undoubtedly one of the most successful in the county for the reason that there were no hospitals or railroad lights to nullify it. The village was patrolled by air raid wardens and Boy Scouts but the Auxiliary Police who had charge of the rural districts were too few to patrol all of outlying districts and lake resorts in this section so were forced to devote most of their time to highway patrol which is stressed in these blackouts as the most important.

The air raid wardens had a meeting previous to the blackout. Air Raid Warden C. Hewitt was in charge in the village and Deputy Sheriff Murray Kennedy of the rural districts. All special officers were equipped with arm bands and flashlights. Most of them went to their posts a half an hour before the blackout at 9:30 p. m. In addition Joseph Griffiths and son were stationed on the roof of the Masonic temple.

In the village probably about a half a dozen lights were found on and all these were extinguished when their owners were notified. Quite a number of these were in the basements of homes and their owners did not know it. One lady here turned out her electric lights and lit an oil lamp. This was immediately seen from the roof of the Masonic Temple.

The village fire siren sounded at 9:55. This had considerable carrying power and can be heard 5 and 6 miles away.

A light on the George Richmond farm could be seen from the Masonic temple roof. Mr. Richmond was called and promptly extinguished it. He did not know it was on.

Orville Smith and Don Hammer patrolled the Howell road and stopped one car. The lights in the house on the Samborski farm were on but were extinguished when the owner was contacted.

Petty Ellis and M. L. Linchey stopped 4 cars on M-36 near Anderson and in all cases the drivers pulled to the side of the road and put out the lights.

W. Meyer, L. Henry, Lynn Hendee, Henry Johnson had M-36 East of Pinckney. They stopped several cars all of whom complied with the blackout. 2 or 3 farmhouses who failed to blackout at 10: p. m. did so when requested. Murray Kennedy, Ben Tomlin and Claude Soper had the Portage Lake section. They stopped two cars and stopped at one farm house out in all cases their orders were complied with.

Harry Murphy and Lee Tiplady had Silver Lake and the Washtenaw Livingston town line road. They reported 100 per cent compliance with the blackout.

### MARRIED AT FLINT

At a quiet service held Aug. 12 at 3 o'clock in the chapel of the first Presbyterian church in Flint Miss Maxine Moran, the daughter of Mrs. Sadie Moran and granddaughter of Mr. and Mrs. S. E. Swarthout was united in marriage to Mr. Frederick Eugene Duesenberry.

The young couple are both residents of Flint and upon their return from a trip to northern Michigan and Wisconsin will make their home in Flint.

### RED HEN TAVERN RAIDED

Saturday night the Red Hen Tavern at Portage Lake was raided by sheriff's officers, 2 state police and men from the state liquor commission. 11 boys alleged to be minors were found there and picked up. The establishment is owned by Lawrence James but operates under the management of C. Rhodes. Mr. James being employed in Lansing as a chemical engineer.

Twice the Red Hen has been given a hearing before the state liquor commission before they obtained their license. They sell beer, hard liquor and operate a dance hall.

This morning the liquor control commission revoked the Red Hen license indefinitely.

A Review of the Past Year's War  
News Items

Sixty days ago a British ranking army official in Detroit said off the record that two out of every five Michigan citizens interviewed recently thought the war would be over in 1942.

A few days ago the Office of War Information issued a frank statement warning the people that we are losing the war and that industrial production was not sufficient to meet present needs.

It has been the endeavor of American newspapers to deal with the war realistically, shunning Pollyanna optimism that would delude the public and would weaken the home front. As a historian in the present tense we offer the following items, all taken from this column since Jan. 1, 1942:

### We May Be Too Late

Jan. 7—Despite the encouraging headlines of Nazi defeats in Russia the fact still remain that Washington now plans a three year war. Production of arms growing as it has been is totally inadequate to meet new needs. Unless the German nation collapses from a weak morale or a lack of needed supplies, we must wait until 1942 and possibly 1944 before there are sufficient arms and trained men to justify a full-fledged military offensive. Unless we strip for action quickly, we may be "too late!"

### Compacency About War

Feb. 13—"We Americans have never lost a war. To lose a war is almost an impossibility as any one who remembers his history books can tell you. It just can't happen—can it?"

### Public Demands War Efficiency

The American people are united in grim determination to win the war whatever the cost. But they do demand efficiency. If this requires scrapping a few public officials the latter will be retired overnight. Mad voters are apt to favor a change.

### Ten Million Men By 1944

March 12—in 95 days we learn that democracy must become dictatorial to save itself from dictatorship that we must deprive ourselves of freedoms so that we can save them, that a dozen expeditionary forces and our home units will require the upwards of ten million men by 1944, that tens of thousands of women must replace men in war plants everywhere. What a change!

## Celebrate 75th Anniversary

Bishop Albers to Take Part in Jubilee  
Mass and Luncheon

On Sunday Aug 23 this Parish of St. Mary's church will celebrate the Diamond Jubilee of the building of the church. At the 12:15 Mass the Right Rev. Bishop Joseph Albers D. of Lansing will preside and give the Benediction services following the mass. The Very Rev. Francis J. Harding pastor of the cathedral at Lansing will preach. The Very Rev. Father Raymond J. O'Connell of Kenrick Seminary will be the Celebrant of the Mass.

Following the Church services a public reception will be held on the church grounds during which time a Jubilee Luncheon will be served. A large tent has been placed to cover the church yard so as to provide ample space for all and for the location of games and amusements. Included on the Program are the Hon. Judge P. O'Brien of Detroit Mich. and some well known local, county officials and professional men. Seated at the table will be invited guests from among the senior members of the parish. Several of the former clergy of this parishes are among the invited guests, both of present and former years. All who may have lived in the parish are also invited to join in the days outing and reception. These minutes and notes will go into the Souvenir Book printed for the celebration and at the Masses Sunday all parishioners both present and past years may secure an issue. The annual outing of St. Mary's church has been a tradition, but this year the church services and reception will mark the first official Big Public reception in which the ordinary of the dioceses has been an invited guest. All may be assured of service for luncheon to be served on the church lawn. Tickets are \$5.00

## CURRENT COMMENT

While the practice blackout had in Southern Michigan last Wednesday night showed a high spirit of cooperation it still left much to be desired. There are altogether too many exemptions handed out in these blackouts. All war factories, railroads, hospitals, highway barricade lights, doctors and ministers are exempted from effect of the blackout. If an enemy plane were overhead the lights of these exempted institutions and persons would be clearly visible and they an excellent target for the bombers. It would matter little if all the other lights were extinguished. We wonder if the reason so many hospitals are bombed in the war area is that they are not forced to comply with blackout rules.

\*\*\*\*  
A battle between American and Jap troops is now taking place in the Solomon Islands in the South seas. The navy, air force, and marines are said to be engaged and it is probably only a small engagement and not to be compared to the Russia - German front where millions are locked in combat. For some reason the Allies permitted Japan to seize and fortify important points in the South Pacific until they constituted a serious threat to Allied shipping lines. Now they are making an attempt to dislodge them. As the Japs are entrenched in well fortified positions the effort will probably cost considerable losses in troops and equipment. Little information is being given out by the war dept. and there is no way of knowing how many men are engaged in the conflict but at last reports the Allies were holding their own.

\*\*\*\*  
The Retail Gasoline Dealers of Wayne, Macomb, Oakland, and Washtenaw counties who number between 3200 and 4400 will close their stations this week at 8:00 p. m. for a 3 day trial period. They will soon open at 7:00 o'clock. This is to conserve gas and also relieve the labor problem as the labor problem has seriously affected gas stations.

\*\*\*\*  
Probably many Americans who are liberty lovers sympathize with struggle for liberty waged by Mahatma Gandhi. However his theories are impractical and if he and his followers were given control of the country they would fall an easy prey to Japan. Gandhi's sect do not believe in warfare and on no account would wage battle. Their main doctrine is passive resistance. Exemplification of this theory against Japan who has been knocking at the doors of India and has seized Burma would only be an invitation to the Japs to help themselves in India. The same thing would happen in this country if the members of Jehovah's Witnesses were placed in control of the government. They also are against warfare even for purposes of defense. For Great Britain to place the Gandhi followers in control of the government would mean the same thing as surrendering India to Japan.

\*\*\*\*  
Although this country in making many sacrifices they are nothing as compared to the trials the people of England are forced to endure. There one in every five homes has been bombed or destroyed. 44,000 civilians have been killed and 50,000 injured. Clothing is rationed. Women are allowed 2 pair of stockings a month and one apron. Every able man between 18 and 41 years of age has been drafted into the service. The age limit has now been raised to 21. 350,000 women are now working in war industry plants. No one is making any profit. Excess incomes are taxed 100%. An income of \$2,000 pays a tax of \$295 a year. There are no strikes. Less than one hour per worker per year is lost in labor disputes.

HISTORY OF ST. MARY'S CHURCH

Until 1867 there was no Catholic church in Pinckney. This section was served by circuit riding priests who came through here as early as 1834 and 1840, baptizing, performing, marriages etc. at stated times.

Rev. Fr. VanGennup of Dexter succeeded Rev. Fr. Kelly. In addition to Dexter and Pinckney, he also had Bunker Hill and other parishes which he visited on horseback, there being no roads then to speak of and what were in existence being of a very poor quality.

Rev. Thomas Sattery was the first pastor of this church, serving from 1867 to 1878. Then for a time the church was served by a number of assistant priests. They were Rev. J.H. Herbert, 1875 to 1876, Rev. Thomas Sattery July 1878 to Sept. 1878, Rev. P. Duhig, July 1878 to 1880.

In 1896 Rev. M. J. Comerford was appointed pastor and served for 16 years. He was one of the best loved priests ever to have charge of the parish and in 1896 he built the present rectory.

Previous to this the church had rented a house for its pastors. In 1912 he was transferred to Flint. Rev. Fr. Morning served here from Jan., 1912 to June, 1912 when Rev. Joseph Coyle was appointed pastor. In 1917 he was succeeded by Rev. John Crowe and in 1924 Rev. Frank McQuilgan was named pastor. He served until July, 1929, when Rev. Leo Dorsey became pastor. He left in August of that year and Rev. Dan Forster was named administrator. He left in April 1930 and Rev. O'Brien was in charge until July 1932 when Rev. Lewis Dion was named to the pastorate. In 1936 Rev. James Carolan was appointed. He was ill much of the time and other priests were called in to assist him. The present pastor, Rev. Francis Murphy was named to have charge of it in 1940.

What You Buy With WAR BONDS

What You Buy With WAR BONDS

The mess kit is one of the most important items in the Soldier's equipment. It consists generally of a pan, a plastic canteen and cup, a fork, knife and spoon, all in a canvas pack cover. The total cost runs up to about \$2.00.

The 50-caliber Browning machine gun is one of the most efficient short range weapons used by U. S. Fighting forces. It is effective at ranges up to 2,000 yards and fires about 600 forty-five caliber bullets per minute.

Canteens and other items such as handles on knives and forks, formerly made of aluminum, are now plastic. Alloy has replaced stainless steel. You can buy many of these mess kits for our boys with your purchases of War Bonds and Stamps. Invest at least 10 percent of your income in War Bonds or Stamps every pay day and top the quota in your county.

One of these guns costs about \$1,500, while a thirty-caliber machine gun costs approximately \$800. Our fighting forces need thousands of these rapid-fire guns. Even a small town or community can buy many of them by uniting in the purchase of War Bonds. At least ten percent of your income in War Bonds every pay day will do the trick.

PINCKNEY LOSES A TOUGH ONE

Pinckney soft ballers lost a tough game to the King-Seeley team of Ann Arbor Wednesday night. This team has a record of 21 straight victories and no defeats this year. The visitors did not have their star pitcher Joe Dobransky with them but used Bob Spaulding, a slow ball artist. In a previous game in Ann Arbor Pinckney hit him all over the lot but this time they could not touch him 11 of them being retired via the high fly and popup method.

The game was scoreless until the 11th when the visitors got 4 runs when Bob Singer lost control and walked 3 men. Spaulding hit a double play ball which was fumbled, 2 runs scoring, Grob drove in the other two with a hit to third.

Reader singled in the third and scored on Miller's hit. In the 4th M. Lavey and Shehan walked and both scored on Palmer's hit. In the 7th Ann Arbor got another run on 2 hits and a walk.

Sequin batted for Van in the 7th and doubled, Palmer hit to third and Sequin was forced out. Reader was safe on an error but Singer and Miller both fled out.

In the second M Lavey led off with a triple, Shehan walked and stole 2nd M Lavey tried to score on the throw to 2nd but was out at the plate, 2nd baseman to catcher.

PINCKNEY WINS EASY ONE

Pinckney won an easy soft ball game from Dexter there Friday by a score of 15 to 2. Back started pitching for Dexter and Pinckney scored all 15 runs off him in 3 innings. They got 3 the first inning, 4 the second and 8 the third. Haimsworth relieved him and held Pinckney to no runs the last four innings. Keith Ledwidge got a home run and three singles for Pinckney and Lloyd VanBlaircum a double and 3 singles. Bob Singer held Dexter to 4 hits.

TEACHER SHORTAGE GROWS MORE SERIOUS

15 more teachers are needed for the rural schools of Livingston County and the supply of applicants is exhausted. This compares with 24 in Hillsdale, 14 in Jackson, 13 in Lenawee, 21 in Macomb, 17 in Oakland, 31 in Saginaw, 19 in Washtenaw, and 12 in Ingham county. These counties are in the defense area and are most seriously affected. These schools must depend upon trained teachers who have left the profession but are willing to return in order to contribute to the war effort. Special certificates will be granted to teachers holding expired state limited and County normal certificates according to the need. No effort has been made to consolidate smaller schools. This will probably become necessary as the emergency increases. A survey is being made of all possible candidates for teaching. Names addresses and qualifications are being compiled at the commissioner's office. Because of changing of names and addresses this is difficult. Your cooperation would be appreciated. School officers are willing to pay all they can afford to pay in every case in order to secure a teacher.

THANKS FOR WORK AND COOPERATION IN BLACKOUT

Sheriff Irvin Kennedy commander of the defense corps for Livingston county expresses appreciation for the splendid cooperation of the public, and for the thoroughness and tact of the members of the various defense units. Every part of the county and each person who worked in complete harmony and without confusion. This first practise blackout has added interest to the program of civilian defense and it is hoped that within a few weeks time it may be possible to complete enrollment of the watchers, messengers and other units and conduct classes of instruction. It is pointed out that in a surprise blackout the warning could be telephoned to the sector wardens and other key posts. All such defense corps workers should be certain that their up to date telephone number both at home and at work, are known by their commanders, and while away from home provision should be made so that a substitute will carry on their work or that the family will know their whereabouts.

HALLER'S GOES OUT OF BUSINESS

The Haller Hardware which operated stores in Howell and Pinckney has filed a petition of bankruptcy. We understand liabilities of \$24,000 are listed. The Pinckney store they operated was the former Teeple Hardware of Pinckney.

### REGISTRATION NOTICE For General PRIMARY ELECTION

TUESDAY, SEPTEMBER 15, 1942  
 To the Qualified Electors of the Township of Putnam (Prec. No. ....) County of Livingston, State of Michigan

Notice is hereby given that in conformity with the "Michigan Election Law", I, the undersigned Township Clerk, will upon any day, except day of any regular or special election or primary election, receive for registration the name of a legal voter in said township not already registered who may apply to me personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Twentieth Day before any regular, special, or official primary election and the day of such election.

Notice is hereby given that I will be at my home, Pinckney, Michigan, Wednesday, August 26, 1942

the twentieth day preceding and election, as provided by Sec. 2767, Michigan Election Laws, from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of RECEIVING the REGISTRATION and REGISTERING such of the qualified electors in said TOWNSHIP as SHALL PROPERLY apply therefor.

In any township in which the clerk does not maintain regular daily office hours, the township board of such township may require that the clerk of such township shall be at his office or other designated place for the purpose of receiving applications for registration, on such other days as it shall designate prior to the last day for registration, not exceeding five days in all.

The name of no person but an ACTUAL resident of the township at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

NOTICE: Absent Voter Must be Although Sec. 2774, Laws Relating to Elections, Revision of 1939, still provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make, Act 63 of P. A. 1939 stipulates that in absent voter's application for ballots he must state that he is a "duly qualified and REGISTERED elector."

Opinion of the Attorney General is that Acts 66 and 63 "must be construed to repeal the inconsistent provision of Sec. 2774 permitting absentee registration AT THE TIME of making application for an absentee voter's ballot."

Thus the Absent Voter's application and affidavit for registration are useful only in cases where voter may mail these in, then make application for ballots later, after registry has been completed.

The portion of application shown herewith enclosed in brackets should be crossed out when applying for registration.

#### FORM OF AFFIDAVIT STATE OF MICHIGAN

County of ..... being duly sworn depose and say I am a citizen and duly qualified elector of the ..... precinct of the township of ..... in the county of ..... and State of Michigan; that my postoffice address is No. .... street or R.F.D. #### CONGRESSIONAL NEWS LETTER

Hon. W. W. Blackney

#### Oldsmobile Army - Navy Production Award

It was my pleasure on August 10th to attend the presentation of the army navy Production Award given to the Oldsmobile Division of the General Motors Corporation at Lansing Michigan. I was greatly impressed with this occasion. It certainly shows how cooperatively and patriotically the men and the management have worked together in the interest of national defense. In the beginning of the present war, many people doubted the efficiency of factories being converted from peace time production to war time production. Those doubts are now completely vanished. The Oldsmobile Co. has done outstanding work. This is a compliment to both men and management. I was conducted through the Old's factories and was intensely pleased with the fine spirit of activity and patriotism displayed there. The men of the Olds Co should feel proud to know that they have been signally honored. I congratulate all of them upon their splendid loyalty and efficient production of national defense articles.

#### Lend - Lease

The office of War Information reported on July 29, that lend - lease transfers of all kinds of weapons to the United States to date are "some what" less than 12 per cent of this country's output. But in planes and tanks the proportion is much higher.

#### War Production

In some factories engaged in national defense production there has been a shortage of steel, copper, and other materials and the fact that the WPB was trying to see that above all else "essential" civilian needs would be met first. Arms factories have actually been short of steel export as well as many civilian uses while steel has been allocated for. Much criticism has arisen over this fact. The bona fide military demands should get first call. Nothing should be done to impede the program of manufacture because our 3,000,000 boys in the army and 550,000 boys in the navy are in urgent need of the implements and materials of war. All other demands temporarily, at least, held in obedience.

#### National Defense Expenditures

In the first 2 years of our defense and war program, July 1, 1940 to June 1 1942, about \$35,000,000,000 was spent for national defense and war. It is interesting to note that on July 1, 1942, the unexpended balances of appropriation for war totaled \$163,000,000,000

#### Federal Employees

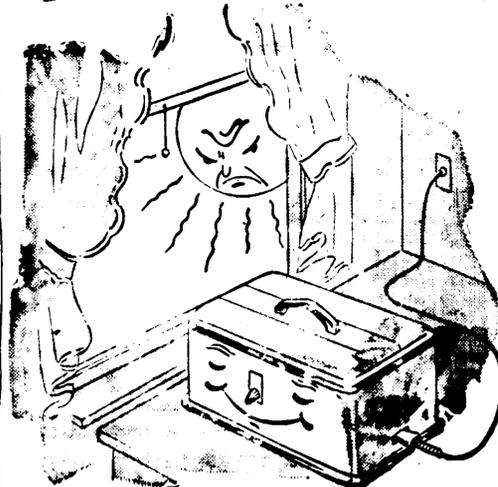

In 1930, there were 560,456 federal employees engaged in civilian government work. In 1940 this was increased to 1,011,066. At the present time more than 2,000,000 government employees are engaged in civilian work. This is a tremendous increase in the number of persons employed and a corresponding tremendous increase to the taxpayers of salaries and expenses.

#### Corporation Earnings Decline

A survey just completed by the National City Bank of New York indicates that the net earnings of 180 large manufacturing companies for first 6 months of 1942 were 37 per

ELECTRIC COOKERS are no longer being made. They won't be manufactured again until after the war. So it's only a wise precaution to take extra good care of the one you have. Here are a few simple rules to prolong its life and insure satisfactory operation:

- (1) Never dip the outer shell of the roaster in water when cleaning.
- (2) When cleaning the broiler unit, be sure to remove the heating element first. Never dip the element in water. Do not jab the element with a knife, fork, or sharp pointed tool. The fragile wire is easily bent or broken.
- (3) See that the removable cooking well is in place for all cooking. Place smaller utensils inside the cooking well (not in the bottom of the cooker itself).
- (4) Always disconnect the cooker before cleaning. Utensils and removable cooking well should be washed with warm soapy water, rest of cooker wiped with a damp cloth. The Detroit Edison Company.

cent less than for the same period in 1941. Net income for the 1942 period was about \$361,000,000. The decline is attributed largely to the increase in federal income and excess profits taxes.

#### Did You Know

That the expenditures during the fiscal year 1942 totaled more than \$32,000,000,000 and the excess of expenditures over receipts was more than \$19,000,000,000.

That the public debt increased during the fiscal year from \$55,000,000,000 to \$76 billion and it is rising to a point where it is over \$85 billion.  
 Savings Under Renegotiated Contract  
 According to information inserted in the Congressional Library on July 30, 1942 by Senator McKellar, savings to the government totaling \$3,312,269,450 are being made through the renegotiation of war contracts under authority provided in the 6th Supplemental National Defense act of 1942.

#### Fuel Oil

"To build up our reserve stocks for next winters needs" the WPB prohibited all fuel oil deliveries for heating and cooling equipment in the east coast gasoline rationing area between Aug. 3, and Sept. 15, with the exception of fuel oil used for agricultural or industrial purposes, for research operations requiring temperature controls and for hot water heaters. OPC said July 23, re-

ports showed 784 east coast states have voluntarily converted from heavy fuel oil, thereby saving 21,242,000 barrels of oil annually, and probably another 15,000,000 barrels of such oil could be saved each year through further conservation.

#### CONSERVATION DEPT.

Timber and pulpwood to the extent of \$5,000 worth per month is coming out of Michigan game areas. It is only cut where it will improve conditions for game. Poplar, spruce and balsam are the trees being cut. On 13 state game areas, 435 cutting permits were issued, covering 24,120 acres.

12 per cent more Michigan natural gas was used the first 6 months of 1942 than for the same period in 1941 and the use is still increasing. The trout limit may be cut from 15 to 10 next year as less than 5 per cent of the anglers catch more than 10 legal sized trout.

Men are dying for the Four Freedoms. The least we can do here at home is to buy War Bonds—10% for War Bonds, every pay day.

IN THE MATTER OF THE PETITION OF MARY BRAYTON FOR AN ORDER TO SEAL LANDS DEVISED BY WILL FOR LIFE.

At a session of said Court held at the Court House in the City of Howell in said county on the 13th day of July 1942.

PRESENT: The Honorable Joseph H. Collins, Circuit Judge.

Mary Brayton having filed in this cause, a petition setting forth that Martin Holtforth died on the 20th day of October 1939, leaving a last Will and Testament, by the terms and provisions of which, said petitioner was devised an estate for life in certain lands and premises situated and being in the Township of Genoa, County of Livingston, and state of Michigan, and described as follows to wit:

The west half of the northwest quarter of Section 21; the east half of the northeast quarter of Section 20; the east ten acres of the southwest quarter of the north east quarter of Section 20; and the southeast quarter of the north west quarter of Section 16, except the north 15 1/2 acres and the south ten acres thereof.

And it further appearing to the Court, that in her said petition, said petitioner prays for an order that said lands and premises above described may be sold by and under the direction of this Court, and that the proceeds from such sale stand in lieu of said premises above described and that this Court make such an order in relation to the investment of said proceeds as may be necessary.

On motion of Glenn C. Yelland,

attorney for petitioner, it is ordered that a hearing on said petition be held at the circuit court room in the Court House in the City of Howell, Michigan, on the 23rd day of September, 1942, at ten o'clock in the forenoon and that all persons interested in said above described lands appear before this Court on said day, time and place, to show cause if any exist, why the prayer of said petition should not be granted.

And it is further ordered, that a copy of this order be personally served on all persons who are or may be interested in said lands and premises so far as the same is known to said petitioner, at least ten days before the return day herein set forth. And it is further ordered that this order be published once each week for three successive weeks preceding said return day, in the Pinckney Dispatch, a newspaper printed and circulated in the County of Livingston, State of Michigan.

BLACKOUT A SUCCESS

Ye editor and Wayne Atlee were assigned to Hi-land and Patterson lakes and arrived there about a half hour before the blackout. Many cars were arriving at the lakes, their owners hurrying to get home before the blackout. All said they intended to cooperate with it. About 10:00 p. m. We took our posts on the highway where the road goes to the Reeve school. The Pinckney siren could be heard at this time. The brilliantly lighted cottages so far as could be seen all extinguished their lights. During blackout not a single car came along the highway. A radio could be heard in a distant cottage and occasionally a dog howled or a cow moored. The only blackout violator were the thousands of fireflies in the marshes and shrubbery whose lights could be seen everywhere. At this time we have no data on just how far these insects light can be seen from the air.

At 11:00 p. m. the siren sounded again for the all clear and the enforcing officer turned in their reports to their head officer.

During the blackout C Hewlett received messages at his home from the town and yards in the village.

Those on duty in the village were Gorman Kelly, Ona Cambell, Douglas Pundner, Wm Jefferies, Roy Renson, Fred Read, James Bell, Mrs. Lamb, Amanda DeBarr assisted by some 15 Boy Scouts.

Ora Haines and George Meabon Jr. controlled the Dexter road and junction south. They reported no violators.

Louis Body of Pinckney, charged with violating the Pinckney blackout was given a 5 day jail sentence by Justice Knapp of Howell Monday. He was turned in by a Pinckney air raid warden and is said to have been defiant before the justice.

of party, that lend-lease of arms will suffice without American men to arm them, that the war can be done by defense instead of offense.

**We Are Losing A War**  
**Our Vanishing Illusions**  
March 12 "Vanishing by degrees are illusions that we cannot lose the war that we are invulnerable against attack, that we will fight best when we are optimistic, that we can beat the axis on a 40 hour week, that we can win somehow without using best men in government regardless March 26 "We are losing a war, and we don't like it. But the idea of Americans being beaten isn't natural. Hence, we would like to kick someone in the pants, too sweet, and if an Nazi or a Jap isn't handy we'll take the next best thing at home.

**Greater Danger in Sabotage**  
April 2 "While enemy bombing raids by airplanes are expected to be made against Michigan's centers such as the Ford bomber plant and the Chrysler tank plant in Macomb county, a greater danger lurks in the possibility of disastrous sabotage being committed by a handful of enemy agents. Most of them would be emigrants or American born citizens. Quislings to the cause of the United Nations.

**If Germany Beats Russia**  
May 29 "If the Germans triumph in Russia, seize the Sudet or take over the French fleet, the Michigan transportation problem would be insignificant, wouldn't it? And so would everything else, for that matter. Never in history has the fate of free peoples hinged on so much on the outcome of events so world wide in their causality effect.

**Worst Beating in History**  
June 18 "The biggest problem on the Michigan home front, according to a high ranking army official in an off the record talk in Detroit last week, is a widespread over-optimism by the public that the war will end in six months. The truth is that in six months time we will have taken the worst beating in our nation's history. We're not ready yet to do any major fighting. Our war plants will not be in full production for many months to come. The public is being deluded if it expects anything but a long war with great sacrifice. We should face the facts: The situation is very serious.

**We Can Lose It**  
July 23 "The war isn't won yet. In fact, we can lose it on the home front—unless management and labor produce more and more airplanes and tanks and other supplies urgently needed arms for our Yanks and our hardpressed Allies, who incidentally are doing most of the fighting for us until we are ready to hold our own.

PHILATHEA NOTES

Our group was most pleasantly entertained on last Wed. afternoon by Mrs. Lola Rogers and Marilda. Mrs. Dora Swarthout, the president presided. The opening song was a special favorite of our group "What A Friend We Have In Jesus". The chaplain conducted the devotionals reading Psalm and offering prayer and prayer.

The usual routine business followed with the roll call secretaries report etc. Calling committee appointed for the Sept meeting consisted of Mrs. Mabel Dinkel, Mrs. Mary Teple and Miss Blanche Martin Program committee for next time, Mrs. Buzzard and Mrs. Peck Watch this column for next meeting. Our hostess on Wednesday presented an interesting program the numbers including an instructive history of the celebrated painting, "The Last Supper" by Leonard DeVince's illustrated by a beautiful copy of the painting.

Mrs. Meda Henry, gave a fine reading appropriate for this missionary meeting of our class.

Clella Fish read a letter from Charlotte Hoover, a missionary in Tanganyika, Africa.

The program was completed by a song contest, the lucky winner being Mrs. Elliot.

The cooperative outdoor including weiners as a special treat, was much enjoyed, and everybody voted it a very happy afternoon.

On Sunday our members and a few guests who by the way are cordially welcomed in our Philathea Class enjoyed the lesson concerning Isaac. Mrs. Pearce of North Lake taught the class and he has consented to do again next Sunday, when the lesson will be, "Jacob's Vision of God" covering Genesis 27 and 28. We have been very fortunate during the regrettable absence of our regular teacher, in having Mrs. Buzzard, Mrs. Peck and Mrs. Peck, to give us their best and our class hour is a enjoyable one. We were particularly grateful on Sunday for Mrs. Campbell's lovely solo.
