News and Letters from Our Boys
Who Are Serving Their Country

Private Clare Gilmore of Alaska has been transferred to the South Pacific.

A letter received here by friends of Ralph Graham, a junior in Pinckney high school last term, states he has enlisted in the U. S. air corp.

Sergeant Leo Bettes of Camp Shelby, Miss spent several days here last week.

Among those ordered to report to the Detroit army induction center October 9 are Keith Ledwidge, Anthony Battle, Robert Benedict, Louis Crandall, William Sprague and Thos. McNamara. The call is about for the usual number. Of the above list Anthony Battle is a volunteer.

The next October call is for the 23rd at which time a number of Putnam boys are on the list.

There have been a number of changes on the county draft board. Sam Platt, chairman and former mayor of Howell, has resigned and Guy Butler of the Detroit Edison Co. has been appointed. Frank Durfee is now board chairman. Lyle Pettibone, the board clerk, has also resigned and leaves on Oct. 15. Robert Graham of Brighton is the other board member.

Lt. James Nash reported for duty at Fort Brady, Mich. last week as food inspector. He was commissioned a lieutenant in the ROTC at Mich. State college in 1935.

Private Lloyd VanBlaircum was home over Sunday. He is now in the air corp and stationed at the the airport near Romulus.

Roy Clinton, son of Mr. and Mrs. Louis Clinton of St. Catherine, Ontario has enlisted in the coast guard at Niagara Falls where he has been employed.

Charles Smith of the coast guard at Curtis Bay, Maryland spent the week end with his parents, Mr. and Mrs. Orville Smith.

Hub Lee Jr. has been reclassified into Class I-A by the Wayne county draft board.

The following letter was received by Mr. and Mrs. John Gerycz from their son, Steve who is in the U. S. Marines:

Guadalcanal, Solomon Islands
August 7, 1942

Dear Folks—Still fine. Did not get any mail since I left the states until this week and then got three June Pinckney Dispatches. They were sure welcome. Hell broke loose here last week. Saw more dead Japs than I ever expected to see. Also a U. S. bomber make a direct hit on a Jap cruiser. We sure gave them Hell. Where I was there was no danger. We have not seen the Japs since. They don't seem to want a return engagement. I am sick of coconuts. The coconut groves run 5 miles back from the beach as far as you can see with high mountains in the background. The jungles are so thick you have to cut your way through them. This is supposed to be winter here but it is still very hot. We all have a months growth of beard. So far we have not lost a single man from the squad which came here from New River.

Everything the Japs have is cheap imitation of the goods in U. S. stores. The boys all are smoking cigarettes we took from the Japs also plenty of beer which is not bad. We got a lot of Jap clothes and everything else. They left the stuff behind when we blasted them.

Don't worry about me for I am O. K. Will write again soon.
Steve Gerycz

OLD LANDMARK GONE

The Stevens House at Whitmore Lake, a 90 year old structure burned down Thursday despite the efforts of Ann Arbor, Howell, Brighton and the South Lyon fire departments. This hotel has been owned by the Stevens family since 1862 and was famous as an entertainment center. Of late years it has been rented out in housekeeping units. The Clifton house, another Whitmore Lake Hotel burned down a number of years ago.

Miss Rosemary Read was home from Cleary Business college over the week end and had as her guest Elinor Latimore of Hartland.

Pinckney Wins Second Game

Gets Breaks in Contest at New Hudson Friday and Takes Close Contest 7 to 12

Pinckney high school took a contest from New Hudson by the skin of their teeth Friday winning 12 to 7. In this they were aided by a number of lucky breaks. The game was eventless in the first half up to the final moment of play when Palmer intercepted a New Hudson pass and ran 25 yards for a touchdown. Singer failed to kick the extra point.

In the third period Lewandowski and Reid carried the ball to the three yard line where Palmer went over for the touchdown. Gus Ledwidge missed a drop kick for the extra point. With a 12 to 0 lead the Pinckney second team went in. South Lyon proceeded to run wild and scored a touchdown on an end run. They also ran around end for the extra point.

They started another drive and reached the 30 yard line where the Pinckney first team went back in and stopped the threat.

Pinckney's passing game which worked so well in the South Lyon game failed to click. Of 5 attempts they failed to complete any.

The Pinckney line despite the fact that a number of replacements were necessary again played a star game and remains the bulwark of the team.

Hippolito who was in the Pinckney team last year was in the New Hudson lineup.

BLACK OUT

Pinckney should get ready for the next blackout. If anyone in Pinckney has not been called on by the warden in their district to fill out information card, please phone 93 or contact your Warden at once.

We hope that everyone has their sand on hand just in case. We urge you to get it now rather than wait to contact your warden at once.

We need more women to take Warden courses for day time duty. Please phone this week that you will act. C. F. Hewlett, Chief Warden.

COUNTY COMMITTEES NAMED

The Republicans of this county have named following county committee: Chairman, Charles P. Adams; Vice Chairman, Mrs. John Strick; Secretary, John McDonald; Treas., Cleve Copeland.

The Democrats gave Don VanWinkle 5 votes for chairman and R. E. Barron 5 votes. The tie has not yet been broken. Mrs. Lulu Darrow was named vice chairman; Lyle Redinger, secretary and William Cullen, treasurer.

HOME EXTENSION CLUB

The Home Extension club met with Mrs. Thomas Howe of Portage Lake last Thursday. The following officers were elected: Chairman, Mrs. Hugh Doolittle; Sec.-Treas., Mrs. Thomas Howe; Project Leader, Mrs. F. Aberdeen; Recreation Leader, Mrs. Pardon; Home Front Leader, Mrs. E. Baughn. Mesdames Aberdeen and Doolittle will attend an extension meeting at Ann Arbor on Oct. 13 and report back to the local group.

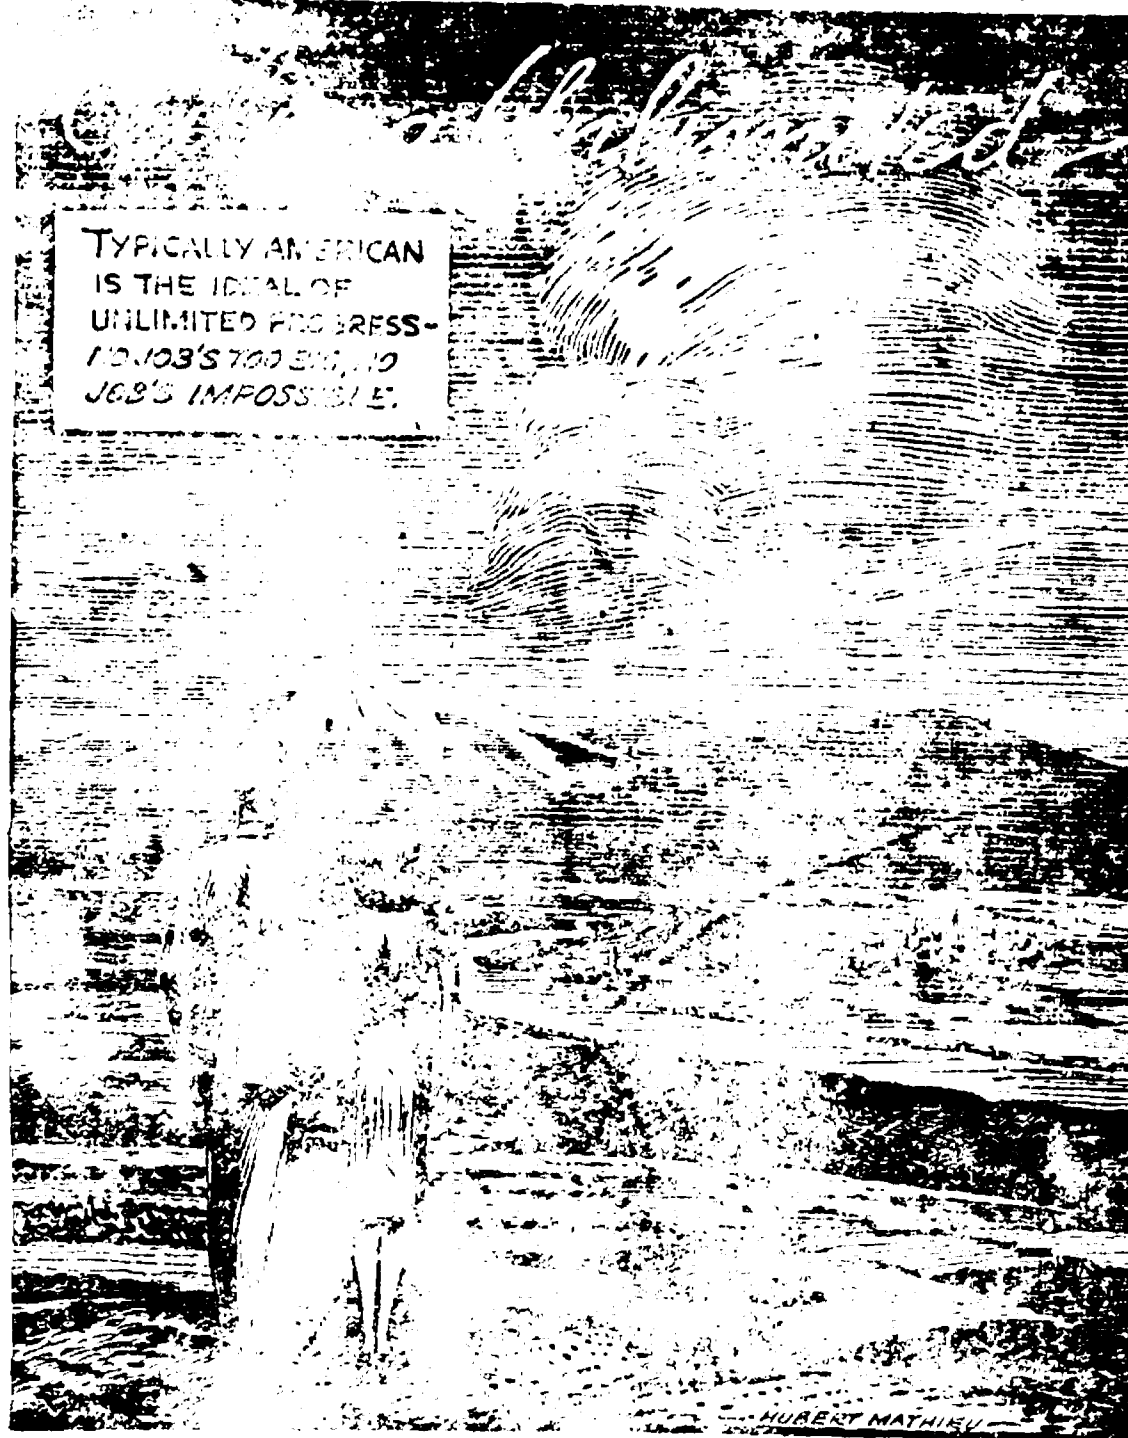

MARRIAGE LICENSES

The following marriage licenses were issued in this county last week: Charles Close, 58, Hazel Park, Mrs. Pearl Rogers, 69, Fowlerville; Roland Myer, 19, Brighton, Audrey Burns, 18, Brighton.

Charles and Edgar Clinton of Detroit called at the C.J. Clinton home Sunday.

School Handles Scrap Drive

Pinckney School To Handle Scrap Drive Here. Will Contact All

In response to the Government request that all schools in the nation participate in the drive for scrap during the period of the Pinckney school has voted on the following program. During the week, letters will be sent to the school children to every home in the village and surrounding neighborhood asking them to check their attic, cellar, garage, lawn, etc. for scrap materials such as all forms of metal, rubber and rags. They will fill out a blank estimating the number of pounds of scrap. The blanks will be picked up by the school children next Monday and the students will begin a collection later in the week. It has been estimated by government officials that every home should have approximately 50 lbs of scrap.

The scrap will be sold by the school and the proceeds used for the kitchen fund.

I am urged that everyone cooperate 100 percent in this drive. Surrounding localities have achieved great success, Dexter and South Lyon being notable examples and it is believed that Pinckney can attain just as high a record.

Remember your scrap may save a life.

A LITTLE EXCITEMENT

There was a little excitement at the Brown-McCluren factory at Hamburg Tuesday. A man came out from Detroit with an order authorizing his employment. He was drunk and proceeded to make a nuisance of himself. The factory police ejected him whereupon he got in his car, locked the doors and tried to run them down. He subsided when Officer Frank Brenningstall Jr. shot 2 tires off his car.

NOTICE

St. Francis Murphy

Sun. Oct. 11, 1942, is the 20th Sunday after Pentecost, and the Feast of the Maternity of The Blessed Virgin Mary. Sunday services are at 8 and 11 a.m. It is communion Sunday for the men of the parish and the holy name society. Children's instructions and Confirmation classes meet after the 8 o'clock Mass, and Sat. at 10 a.m.

Novena devotions Friday at 12:15 noon and 7:45 p.m. followed by confessions and adult instructions for Confirmation. The general intention for the Novena is for peace and the intention of our boys in service.

October is the month of the Holy Rosary. Many added favors and blessings are attached to our daily devotion of the Holy Rosary.

Confirmation will be at St. Mary's Sun. Oct. 18th at 7:30.

Among the intentions in the Mass this week are for the late Lawrence McClear and Sat. for the men in service with a special Commemoration for those from this parish.

Any adults whose working hours do not permit them assisting at the appointed hours for instructions in preparation for the Sacrament of Confirmation are asked to report for earlier hours in the a.m. or p.m.

In the devotions of the Rosary, we read references and scriptural quotations are found in the book of Judith XIII-25. "Thy praise shall not depart out of the mouth of Men" The effects of the Rosary are not confined or limited to this world; many of them arise even unto heaven, unto the very throne of the Mother of God, to honor and glorify her as is her due.

Advantages accrue both to the church and the individual who make use of them. Neglect of prayer, levity of mind, giving ourselves over entirely to the things of the world and the sad causes of so much evil in ones soul.

Michigan Scrap Drive Collection Delays Are Explained

Why couldn't the government be something about it?

There is an answer. Take it from Bentley Marshall, weekly newspaper at St. Johns, a community in Clinton County that has never been over enthusiastic in recent years about the way Washington does things. Clinton County regularly voted Republican, but there is no politics in this story.

Spare a minute or two if you have a question about the scrap drive. Listen to this country editor as he talks in his editorial column to his readers.

A tall, tired looking man stood at the end of a hotel room. There were about 20 newspaper publishers there. The tall man, his face lined, turned his eyes toward sharp tongue editor. "Why don't you make the scrap we have piled up for you?" the editor demanded. "We've done our part. The people have done their part. Government fellows are the ones who are falling down. So wonder the people are fed up."

The newspaper man quit talking and glared.

Patiently, as if he had told it a thousand times, the government man began speaking quietly.

You are right and you are wrong. You have done your job. The people have done their job. I want you to believe that we are doing our job just as fast and well as we can. But there's a lot of things you don't know. I'll tell about them if you will be patient and listen.

You have done a good job but you are going to do a better job.

We need more scrap. We need it right now, before snow flies. If we can't get it now, we will not get it this winter. We are 5 million tons short of our needs, and that is counting what you have already piled up. We will get that amount we may lose this war.

Stop and think a minute. Thousands of tons of scrap is piled up all in a week or two in a thousand or more widely separated points. Women wire fencing coming from

CIRCUIT COURT NEWS

Judge Collins held a one day court session last week Monday and disposed of a number of routine cases involving those who had pled guilty. Most were ordered to report on Oct. 19 for sentence. Among those were Jack Green, leaving scene of accident; Jno. Fellows, drunk driving; Arthur Atchinson and Harold Jeffrey, driving away an auto; Herbert Barnham and Edward Bobbie, breaking and entering.

The cases against L. Erdman, larceny and Milton Croach, contributing to the delinquency of a minor were dismissed. Betty Smith was granted a divorce from Kenneth Smith.

The jury is called in on Oct. 19 at which time some criminal cases will be disposed of. The case of Oscar Reid vs the Livingston County Mutual Fire Insurance Co. is also set for trial.

During the next two weeks the budget committee will call on all the members and friends of the church for the coming year.

The pastor and church officials appreciate the fine response in the past and urge the people of the parish to continue the support of the Christian church. You need the church and the church needs you.

Next Sunday afternoon the Young People's Society will attend a Young Peoples Rally at the first Congregational church of Chelsea. All young people are invited. Cars will leave the church at 2:30 p.m.

CURRENT COMMENT

By Ye Editor

An example of successful censorship was exemplified last week when 2 weeks after President Roosevelt had toured the defense plants of the nation the papers carried the story and pictures of the tour. In Mich he went through the Willow Run bomber plant and the Chrysler tank factory. Of course keeping such a tour an absolute secret was impossible.

The boys and girls from Pinckney who work at the bomber plant knew all about it and Bob Singer of this place was within three feet of him when he passed through his dept. By VanWagoner and other notables from Lansing accompanied him so the fact that he was going to make the tour was known before he arrived. However the complete silence of the press and radio on the subject caused many people to be skeptical that he was even in Michigan and probably not over 50 per cent of the people knew about his visit. This censorship and lack of details prevented the tremendous crowds from gathering along the route among whom might have been some 5th columnists with murderous designs.

The 35 mile per hour speed limit went into effect Oct. 1 and according to the press it is being pretty much observed. In Detroit 15 arrests were made the first day and 4 persons were fined \$75 or the option of a 15 day jail term. One person lost his driver's license. Jackson and Ingham county officers also assert they intend to enforce it despite a ruling by Attorney Gen. Rushton that a special act of the legislature is necessary to enforce it. Attorney Ballard, adviser to Gov. VanWagoner differs with him and claims under an act of 1937 that the state government is vested with power to enforce it. Law or no law public opinion will assure its enforcement as from now on it will be considered unparliamentary to go beyond 35 miles per hour.

Wendell Wilkie in Russia last week voiced an appeal for a second front to aid the hard-pressed Russians who are fighting for dear life to hold their principal city. He accused certain Generals of blocking the effort. Maybe they did and perhaps they were justified. Premier Churchill of Great Britain has just revealed that in the recent attack on Dieppe the Allies lost one half of their forces. In an invasion the defenders fighting from strongly fortified positions have all the advantages. Of course, the Allies were unable to hold the Philippines and Java but in each instance the Japs were able to cut off their supply lines and starve them into submission. Some criticism has been caused by a fact that the Allies allowed the Japs to seize the Aleutian islands and also Bona and get a foothold on New Guinea. According to a Jackson boy who gave an interview to the Jackson paper the Japs weren't equipped to stand a siege. Their planes were all old obsolete models and so was their equipment and consequently no match for Jap fighting tools. Now however things seem to be changing in favor of the Allies. They are getting more and more modern equipment and while they are still fighting on defense before long they will be carrying the fight to the enemy.

While coffee is scarce in Mich. the shortage is said to be much worse in other places. A traveler in Ohio last week tells of seeing lines several blocks long in front of stores to get coffee. There are many stores which only have coffee one day a week and then in limited lots. Merchants and coffee roasters who had their supply reduced 45 per cent blame the shortage on hoarding by housewives. The chain stores seem to be hardest hit. One chain store who was supposed to get 100 lbs. per day gets that in a week. This is exhausted in a day or so. According to salesman experiments are being made with different coffee substitutes and eventually some of them will find their way to market. The Japs sure were in a position to make it unpleasant for the American people. First they cut off their rubber supply and then cut off sugar coffee and tea.

SCHOOL NEWS

SENIOR NEWS

So far in the history of the school the magazine sales has never reached as high a total as it has this year. The senior class of 43 is a very proud class, and they have something to be proud about. Someone said it could not be done, but this senior class has sold \$669.69 worth of magazines in two weeks. There are only 16 in the class and they made a profit of \$263.45 for themselves. That profit will be put in the class savings and at the end of the year it will go towards the senior trip. Almost every family in Pinckney has helped to make this campaign a success and these people the seniors want to express their sincerest appreciation.

GIRLS RECREATION

Wed. night marks the beginning of the recreation night for the girls in the high school. This recreation night has been scheduled in later years, to give those girls who want it a good 2 hours exercising by playing basket ball or ping pong. The gym has been taken over by the girls on this night and what they use it for is up to them and their supervisor, Mrs. Wilson. It will be open at 7:30.

WAR STAMPS

War stamps are being sold again in the school every Wed. It is one way the pupils can help win the war so every pupil is urged to contribute his money for war stamps. The grade children bought more stamps per month than the high school last year but the high school will try not to let it happen again. The school is putting on a scrap drive. Health Club called School Good Food Patrol We get badges. We have ordered movies to be shown the children in the near future.

... when you ask for a telephone

If you move, you may not be able to get a telephone, or the kind of service you want, in your new location. Therefore, we suggest that you check with the Telephone Company before making definite plans.

Copper, steel, rubber and other materials are more vitally needed for existing equipment than for new telephones. To conserve such materials, the War Production Board has placed restrictions on telephone installations.

1. Telephone service cannot be provided at some locations.
2. Party-line service, only, can be furnished in many cases.
3. Extension telephones cannot be installed in residences.
4. Additional apparatus may be installed only on a limited basis.

In so far as material and war restrictions permit, we shall continue to provide the best service possible. And we look forward to the day when we again

can give the kind of service wanted, "when and where wanted." But now, and for the duration, war needs come first.

Turn in your scrap — Uncle Sam needs it now!

PREJUDICE

The prejudices of ignorance are more easily removed than the prejudices of interest; the first are all adopted the second will be preferred.

There is nothing respecting which a man may be so long unconscious as to the extent and strength of his prejudices.

None are too wise to be mistaken, but few are so wisely just as to acknowledge and correct their mistakes, and especially the mistakes of prejudiced.

The public sentiment is helpful or dangerous only in proportion to its right or its wrong concept, and the forward footsteps it impels or the prejudice it instills.

The great obstacle to progress is prejudice.

Fortunately for serious minds, a bias recognized is a bias sterilized.

CONSERVATION DEPT.

The half million small game and deer hunters are asked to save their shotgun and rifle shell casings for the war salvage effort.

What You Buy With WAR BONDS

An Army motor trailer looks much like any other automobile trailer which may be seen on the highways or in the tourist's camps. The Army's trailers are used as traveling hospitals, dental clinics and testing laboratories.

These mobile surgical or dental units are hauled to their destination and the trucks released for other purposes. They cost from \$1,200 to \$3,000 and weigh from 1 1/2 to 8 1/2 tons. You can help pay for them help keep our Army fit. Invest as little as ten percent of your income in War Bonds every payday. You can join the Ten Percent Club through the Payroll Savings Plan, or buy Bonds regularly through the nearest bank or postoffice.

MAIL SOLDIERS' XMAS GIFTS BEFORE NOVEMBER 1.

READ THE RULES—The following rules, issued by the Postoffice Department in cooperation with the Army Postal Service of the War Department, apply to the mailing of Christmas parcels for members of our Armed Forces serving outside the continental limits of the United States.

TIME OF MAILING—Christmas parcels and greeting cards should be mailed during the period beginning October 1 and ending November 1, 1942, the earlier the better. Each package should be endorsed "Christmas Parcel." Special effort will be made for delivery in time for Christmas.

SIZE AND WEIGHT—Christmas parcels shall not exceed 11 pounds in weight, or 18 inches in length or 42 inches in length and girth combined. However, the public has been urged to cooperate by voluntarily restricting parcels to the size of an ordinary shoe box and the weight to six pounds.

USE CARE IN PREPARATION—Remembering the great distance this mail will be transported and the necessary storage and frequent handling, it is absolutely necessary that articles be packed in substantial boxes or containers and be covered with wrappings of sufficient strength to resist pressure of other mail. Each parcel is subject to censorship and delay may be minimized by securing covering to permit ready inspection of contents.

PROHIBITED MATTER—Intoxicants, inflammable liquids, poisons or compositions likely to damage mail are not permissible. No perishable matter should be included in parcels.

HOW TO ADDRESS PARCELS—Addresses must be legible. Parcels addressed to overseas Army personnel should show in addition to the full name and address of the sender, the name rank, Army serial number, branch of service, organization, A.P.O. number of the addressee and the postoffice through which parcels are to be routed. Units located within the continental United States may be addressed direct, using name, rank, organization and location.

POSTAGE MUST BE FULLY PREPAID—The rate on parcels of fourth-class matter (exceeding eight ounces) being the zone rate applicable from the postoffice where mailed to the postoffice in the care of which parcels are addressed.

GREETING MESSAGES PERMISSIBLE—Inscriptions such as "Merry Christmas", "Don't open until Christmas" and the like may be placed on the covering of the parcel if it does not interfere with the address. Cards may be enclosed and books may bear a simple dedicatory inscription.

INSURANCE AND REGISTRY—Gifts of value should be insured. Articles of small size and considerable value should be sealed and sent as first-class registered mail.

MONEY ORDERS—The Army Postal Service recommends use of postal money orders to transmit gifts of money to members of Armed Forces outside the United States. These are cashed at A.P.O. in local foreign currency at rate of exchange on date of presentation.

CONGRESSIONAL NEWS LETTER

Hon. W. W. Blackney
Tank Production

On Sept. 9th Under Secretary of War, Patterson stated that both the M3 and M4 tanks are superior to the best German tanks, and that the 75 millimeter gun in our medium tank outranged all German tank guns in the Egyptian Desert. According to Patterson, our tank production has reached, an impressive figure and will be doubled by December.

Airplanes

At a press conference held in Beirut, Syria, on Sept. 11, Wendell Wilkie said that U. S. aircraft production is 5,000 planes monthly, 60 per cent of which are fighting planes. He said that our production is now higher than all the Axis countries combined. Under Sec. of War Patterson had also stated on Sept. 9th that our production exceeds that of the countries.

Sending Mail to The Men in Service

Cont'd from Sept. 28 letter.

6. When should Xmas packages be mailed? Between Oct. 1 and Nov. 2. Any package mailed after Nov. 1 may not be delivered to men stationed outside the U.S.
7. Is there a limit to the number of packages that can be sent one man? The only limit is that not more than one Xmas package may be mailed by the same sender in any one week.
8. Are special labels necessary? A Xmas package should be labeled "Xmas parcel". Inscriptions such as "Merry Xmas" and "Do Not Open Until Xmas" are permissible so long as they do not interfere with addresses.
9. What types of gifts are banned? Certain regulations specifically prohibit the sending of intoxicants, inflammable materials, including matches of all kinds, and lighter fluids and poisons or compositions which may kill or injure.
10. What is the best type of gift for men in the service? The Army and Navy recommend articles that are easily portable and useful in any climate such as toilet kits, watches, notebooks, pipes, wall-cets, pens or pencils, photographs, etc. Food, including cakes and fruits should be avoided.
11. What postage rates will be charged? For men outside the country, the rate will be that charged to send mail to the post office at New York or San Francisco, otherwise to the post camp or station inside the U.S.
12. How about sending money? Money orders should be used. At many places abroad, there are local prohibitions against importation of U. S. currency.

Selected Statistics

The National Income for 1942 will be about \$112,000,000,000 as against \$95,000,000,000 in 1941, according to the Federal Reserve Board estimate.

Total employment for July, including members of the armed forces reached an all time high of 57,200,000 or 3,600,000 more than in July 1941, and 10 million more than in July, 1940.

War expenditures for August reached a total of \$5,182,000,000, which was 8.1 per cent more than was spent in July.

Treasury borrowings will have to reach at least \$4,000,000,000 a month for the rest of the war or 50 billion per year.

U.S. exports (exclusive of shipments to the armed forces) totaled about \$4,025,000 during the first seven months of the year—a gain of 64 per cent over 1941.

Food

The Government has earmarked about 6 billion pounds of meat and about 60 per cent of the total cheese production for the use of the armed forces and for lease-lend purposes during the next 10 months.

WARTIME HINTS

for a lady who wants to

save

electricity and appliances!

SAVING ELECTRICITY A cardinal rule today is this: "Use as much electricity as you need, but don't waste it." There are many practical ways of saving electricity in your home—in your cooking, lighting, the use of appliances. And not one of them involves any sacrifices in the use of your helpful electrical servants. It simply means knowing the most economical way to use them, with greatest efficiency. A few of these suggestions are listed below.

SMALL APPLIANCES Don't jerk cord from socket when finished using. Disconnect by grasping plug. Don't clean wire of heating element (toaster, grill, etc.) with fork or sharp tool. Never dip appliances in water. Let appliances cool before storing away. Always clean iron on waffle iron after using. Don't let electric iron overheat.

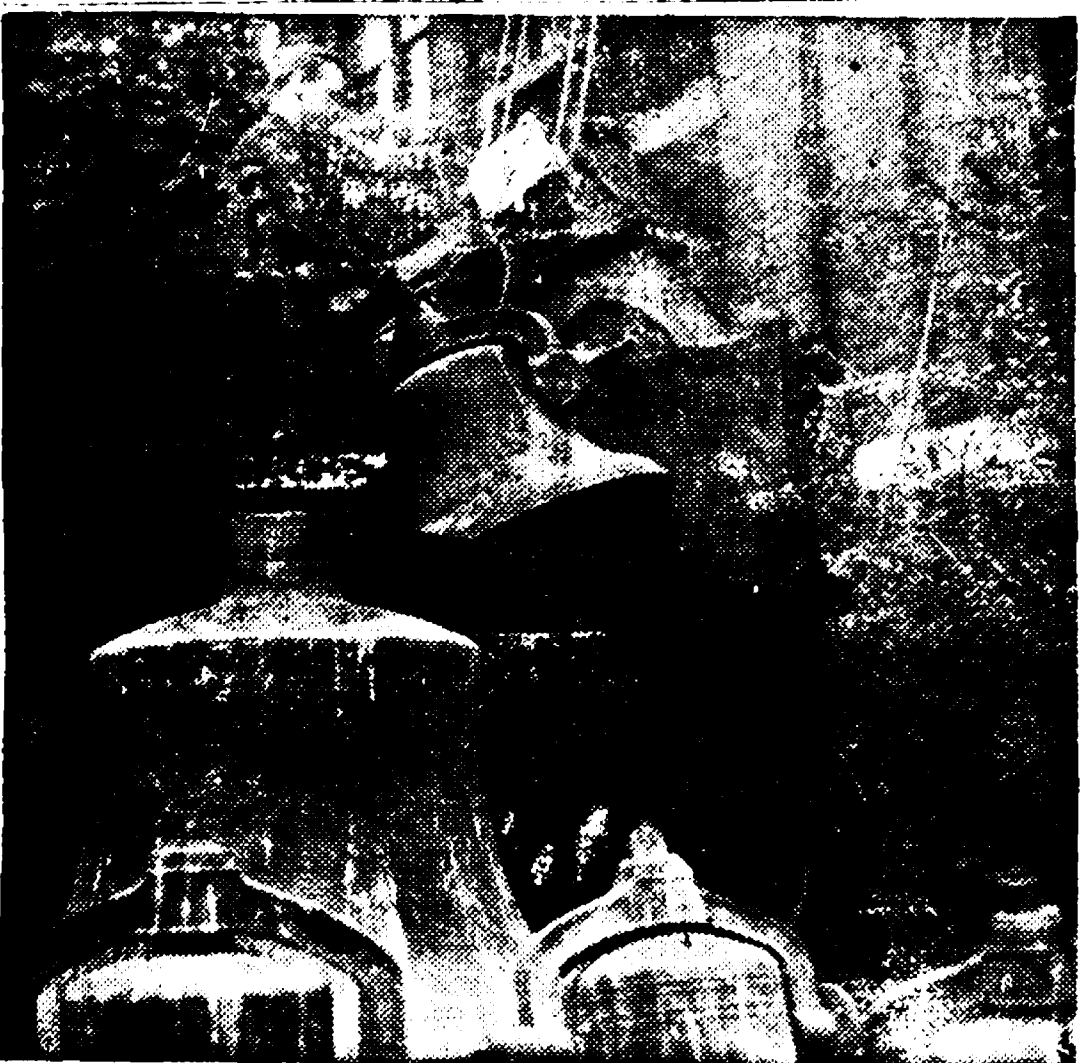

YOUR HOME LIGHTING Dust steals light—robbing you of as much as one-fourth the light you pay for. This is pure waste. Keep lamps and fixtures clean. Wipe bulbs and reflector bowls frequently. Dust shades inside and out. Use the right-size bulbs in your lamps and fixtures, and select the best white lining.

YOUR REFRIGERATOR Don't overfill your refrigerator. Unless the motor is hermetically sealed, have it oiled and inspected regularly. Be sure there is adequate air circulation all around the refrigerator. Defrost regularly. (Never use a knife or sharp tool for defrosting. Clean inside of refrigerator with lukewarm water and mild soap.)

ELECTRIC COOKING Use the thrift cooker of your electric range often. Plan complete meals that can be cooked in the oven at one time. Finish surface cooking on "low" or stored heat whenever possible. Use flat-bottomed utensils just big enough to cover heating unit. Cook with little water, and cover utensils with a tight lid.

YOUR ELECTRIC WASHER. Drain washer and rinse tub thoroughly after each washing. Remove agitator or suction cups and rinse. Wipe dry with a soft cloth. Don't force thick, bulky objects through your wringer—hard objects like belt buckles, etc. Release pressure on rolls when not in use, and dry wringer thoroughly. Don't overload your washer.

THE DETROIT EDISON COMPANY

TO RING OUT AXIS FUNERAL DIRGE

Melted down for scrap, the University of Michigan's famous old Library Chimes are going to war along side the bands of Michigan students and alumni now serving in the U. S. armed forces. The five bells, containing more than 2 tons of valuable bronze and tin, were removed from the tower of the University engineering shop building last week and donated to the Washtenaw County salvage committee. The old bells

were given to the University in 1883 hanging first in the library tower and later in the shop tower. For more than 50 years they rang out the Westminster Peal every quarter hour and established for themselves a traditional place in the hearts of many generations of Michigan students. They have been silent since 1936 when their place was taken by the tremendous 53-bell Carillon.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten per cent every pay day.

Ten per cent of your income in War Bonds will help to build the planes and tanks that will insure defeat of Hitler, and his Axis partners.

ROUND up your scrap metal — it's needed to make steel. Steel for armor plate to protect him from bombs and bullets. Steel for weapons to help him do the job that must be done before he can come home again.

You don't want production figures. It's enough to know that 50% of all new steel is made of scrap — that our steel mills now have only enough scrap in sight to last another 30 days

at the most!
 What happens after that depends on all of us. If production falls and you've not done your part, will you rest easy?
 Next week we're starting a collection drive — to build the biggest stockpile of scrap metal you've ever seen. When the mills need it, we'll have it — because you came through... for his sake!

BANKS and The WAR
INFLATION
 INFLATION is a great destroyer of savings, a wrecker of values, an anesthetic to initiative and enterprise. America must beat inflation; the price of failure is too grim to contemplate. This bank urges action, not words. Government should enforce rigid wage and price controls everywhere. Citizens should spend less, save heroically, buy War Bonds, pay taxes as never before. The price of preserving our liberty will be high, but no price could be too high.

farms must be baled before it can be shipped or used. The old auto metal bodies have to be cut before it can be shipped or used. We are short of cutting equipment and metal balers. We cannot do that all at once in a thousand different spots in 83 counties in Michigan.

Scrap metal does not walk to the mills. It has to be shipped. That takes freight cars. It takes trucks. It takes manpower. You know that our railroads are already being rushed. You know about truck tires. You know about men...how many there are in the service.

Be patient mister. I have been working 20 hours a day...hard work without much sleep and eating where and when I can. Have you been doing as much, I'm asking you and all to take our word for it when we say the people everywhere in every place we need more scrap metal.

Yes, I know. There have been mistakes. I've made them. Maybe you have made them. I know you are wrong when you think no effort is being made to move the scrap. It is moving right now but we can not move it all at once. We will move it all of it, in the next three or four months. It is now being dumped in huge quantities at the mills. We want to keep those mills going full blast...100 per cent capacity...all winter.

Yes, I'm tired. I've been dammed up hill and down. I don't blame people who do not understand, that's why I am here talking to you fellows today. I want you to help me. I want you to help your own boy in service. I want you to help lick Hitler and the Japs.

I you don't....."

The tall, tired looking government man's voice trailed away and he just stood looking into the eyes of about 20 newspaper men who had become very quiet.

They believed him. Don't you?

Mr. and Mrs. E. Dusenbery and Mrs. F. E. Moran of Flint and Mr. and Mrs. S. Swarthout of Jackson spent the week end with Mr. and Mrs. S. E. Swarthout.

REGISTRATION NOTICE FOR GENERAL ELECTION MONDAY, NOVEMBER 2, 1942

To the Qualified Electors of the Township of Putnam (Prec. No.....) County of Livingston, State of Michigan

Notice is hereby given that in conformity with the "Michigan Election Law", I, the undersigned Township Clerk, will upon any day, except of any regular or special election or primary election, receive for registration the name of any legal voter in said township not already registered who may Apply to Me Personally for such Registration. Provided, however, that I can receive no names for registration during the time intervening between the Twentieth Day before any regular, special, or official primary election and the day of such election.

Notice is hereby given that I will be at my home, Pinckney, Michigan, Wednesday, October 14th, 1942 the twentieth day preceding such election, as provided by Sec. 276, Michigan Election Laws, from 8 o'clock a. m. until 8 o'clock p. m. on each said day for the purpose of REVIEWING the REGISTRATION and REGISTERING such of the qualified electors in said TOWNSHIP as SHALL PROPERLY apply therefor.

Although Sec. 2774, Laws Relating to Elections, Revision of 1939, still provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make, Act 63 of P. A. 1939 stipulates that in absent voter's application for ballots he must state that he is a "Fully qualified and REGISTERED elector."

Opinion of the Attorney General is that Acts 66 and 63 "must be construed to repeal the inconsistent provision of Sec. 2774 permitting absentee registration AT THE TIME of making application for an absentee voter's ballot."

Thus the Absent Voter's application and affidavit for registration are useful only in cases where voter may mail these in, then make application for ballots later, after registry has been completed.

The portion of application shown herewith enclosed in brackets should be crossed out when applying for registration.

In any township in which the clerk does not maintain regular daily office hours, the township board of such township may require that the clerk of such township shall be at his office or other designated place for the purpose of receiving applications for registration, on such other days as it shall designate prior to the last day for registration, not exceeding five days in all.

The name of no person but an ACTUAL resident of the township at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration book.

NOTICE: Absent Voter Must be Qualified Elector.

REGISTRATION OF ABSENTEE BY OATH

If any person whose name is registered shall enter and be entitled to vote at any election or primary election, and shall, under OATH state that he or she is a resident of such precinct and is entitled in the TOWNSHIP TWENTY DAYS next preceding such election or primary election, designating particularly the place of his or her residence and that he or she possesses the other qualifications of an elector under the constitution; and that owing to the sickness or bodily infirmity of himself or herself or some member of his or her family, or owing to his or her absence from the TOWNSHIP on public business or his or her own business and without intent to avoid or delay his or her registration, he or she was unable to make application for registration on the last two days provided by law for the registering of electors preceding such election or primary election, then the name of such person shall be registered, and he or she shall then be permitted to vote at such election or primary election. If such application shall in said matter, wilfully make any false statement, he shall be deemed guilty of perjury.

HELP PROTECT PRESENT VALUES OF YOUR EARNINGS AND SAVINGS

We cannot urge you too strongly to put your excess earnings into war stamps and bonds. This is not asked because it is the popular thing to do but because about how many stamps or bonds you have bought but because you are doing yourself a favor. Putting your earnings into Government securities will help beat inflation which is now knocking at the door and which if allowed to run rampant, will kill the value of all your efforts.

This is how it works. If everyone put all of his earnings outside of reasonable living costs into Government securities than that money would not be available to buy consumer goods of which there is a limited quantity. The Government Price Fixing and Rationing program is intended to help along this line too.

In addition to this advantage you will be building a fund to tide you over the reconstruction period which will come after the war when adjustments will have to be made.
