News and Letters from Our Boys
Who Are Serving Their Country

Private Andy Kirtland has been transferred to Maxwell Field, Georgia. Private Patrick Harvey, son of Mr. and Mrs. Raymond Lavey of Gregory has been transferred from Kansas City to Portsmouth, New Jersey. Previous to this transfer he was united in marriage to Miss Pauline Beaver of Kansas City Mo. She will remain at Kansas City until he is permanently located.

Mrs. Hollis Holloway (Arduv Wright) of Gregory is visiting her husband at Fort Leonard Wood, Mo. A letter received by Earl Baughn from Norm Miller stated that he was in a hospital in Australia. Norman recently returned from the new Guinea Campaign.

Phillip Placeway has been made a first class private at Morris Field, Charlotte, S. C.

Douglas Plummer, Gerald and Robert Vedder, Ray Wilson and Louis Body have graduated at the naval training station at Great Lakes, Ill. and are home on a 10 days furlough before being assigned to another station.

Gerald Vedder and Douglas Plummer have passed their trade school examinations and will enter electrical and aviation ordinance schools respectively. The other three will go on a boat for three months training.

Bert VanBlaircum jr. is expected home on a 10 days furlough today from the army camp at Oklahoma City, Oklahoma.

Frank Smith writes that he has been transferred from Fort Riley, Kansas to Fort Bliss, Texas on the Mexican border.

Mr. and Mrs. Roy Dillingham received a Christmas greeting cablegram from Australia last week from Linford Teas who used to work for them. He is in the army.

Private Howard Perry of Stockbridge has been transferred to Kingman, Arizona. He is a son of Mrs. Helen Monks Berry.

Private Friday Hairies is now in new in charge of a kitchen at Camp Lewis, Wash., feeding 600 soldiers daily. We would like a picture of him all dolled up in his white cap and coat.

Private Sammie Lafata who is in North Africa, is an airplane steward. He cleans out the planes after they come back to the landing field.

Private Gene Soper now in Morocco says he certainly appreciates the Dispatch as all papers there are printed in the French language.

Corporal Paul Leuneberg, son of Gustave Leuneberg of Dexter is stationed at Greenville, N.C. His wife is the former Francis Messersmith of Pinckney.

Bernard Mulvaney of Fowlerville who played ball on the Pinckney team in the days of Jimmie Moran has been commissioned a Lt. at Fort Benning, Georgia.

Over 600 thronged the Detroit navy recruiting offices Monday when enlistments were reopened. Among those from here who were there were Merlin Lavey and Mar-Shirey. Both were rejected the first for asthma and the second for eye sight.

Parris Island, South Carolina, Jan. 4 Dear Paul, Just a little time before lights out so I think I will drop you a line.

I am leaving Parris Island Jan. 12 so I will send you a card then letting you know my address so that you can send me the Dispatch to me.

How is everyone in Pinckney? Please say Hello to all my friends there for me will you? Tell Joe I got his letter and will answer it very shortly.

The training here at Parris Island is quite good. Not quite as hard as I thought it would be. We learn quite a bit about the rifle, pistol, hand grenade, machine gun, bayoneting & most of all how to wash dishes, peel potatoes, clean out garbage cans, etc.

The PINCKNEY DISPATCH certainly comes in handy. I read every bit of it, including the advertisements. Well Paul, I'd better close now. I'll let you know as soon as possible where I am to be stationed.

Yours Truly, Roy Clinton.

Mr. and Mrs. Lenhardt Myers of Lansing were Sunday guests of Mr. and Mrs. Herbert Palmer.

Former Local Man Killed

Carl Hudkins, 28, Loses Life in
Auto Collision Friday

A tragedy took place early last Friday morning on the road leading from Dexter to Ann Arbor in which Carl Hudkins a former Pinckney resident lost his life. The details are somewhat confused but nevertheless Prosecutor Meader of Washtenaw county has authorized a warrant for Bernard Balch 20, a Dexter Rd. boy and he was arrested Sat. charged with negligent homicide.

The accident is supposed to have occurred about 12:30 a. m. Friday morning. A short time before that the Pratt and Stribley wrecker from Ann Arbor going out to investigate a wreck near Honey Creek pulled the Hudkins car out of the ditch into the road. At that time the Hudkins car was facing west. A short time after that a carload of sheriff's deputies from Ann Arbor going out to investigate the wreck near Honey Creek arrived there just after the Balch car had hit the Hudkins car and just after Balch was emerging from his overturned machine which was 280 feet from the Hudkins car which it had hit in the side. Hudkins is thought to have been standing by his car as the accident was reconstructed by Prosecutor Meader, either trying to push his car or flag another car as his gas tank was empty. Balch denied seeing Hudkins at all and the deputies thinking the car was abandoned or Hudkins had gone after gas did not look seriously for the body in the dark.

The body was not found until 9:45 a. m. when it was seen by Norman Loy, a truck driver from Dexter who notified the officers. Both of Hudkins legs were broken and he had a fractured skull. The body was hidden by brush along side the road. A headlight from the Balch car was found near it.

Hudkins when here lived with his sister, Mrs. Omer Cory in what is known as the Fisk house. He had a wife, Norma, and a year old baby.

Also surviving are his parents, Mr. and Mrs. John Hudkins, Dexter, three sisters, Mrs. Cory, Pinckney, Mrs. Robert Perry, Ann Arbor and Mrs. Phillip Daily, VanDyke and Cecil of Stockbridge and Kenneth and Donald serving in the army.

The funeral was held at the Miller Funeral home, Stockbridge, Mon. at 2:30 p. m. with burial there.

APPOINTED ADMINISTRATOR

Mrs. Russell D. Smith of 603 West Washington St. Howell, has been appointed General Administrator of the Women's Salvage Division under the county salvage committee headed by Robert M. Menzies.

Mrs. Smith is very well suited for the job, as she has one son in the service, First Lt. Robert Smith stationed at Fort McClellan, Anniston, Alabama. She is also the local Girl Scout commissioner.

Her job is collecting fats for explosives, silk stockings for power bags and nylons for parachutes.

She will appoint committees which will be announced later, along with her future plans.

A trustee meeting will be held at the close of the service Sunday morning June 17th. All trustees urged to be present.

All those who are not affiliated with other churches in the community are cordially urged to worship with us. You are only a stranger once when you worship with us. Corporate worship unites people into a unity against the evils which threaten us and our civilization. So many know that we are in a world wide conflict of war, suffering and death and yet few are doing anything to help bring in the new day of peace. There is no hope for the world of tomorrow if God is left out of man's program. This present conflict ought to drive every right thinking individual to prayer and worship. I was glad when they said unto me, let us go into the house of the Lord.

Win Close Cage Game

Pinckney Wins Thriller Game from
Chelsea 30 to 31

Pinckney won a tight basketball game from Chelsea here Tuesday night 30 to 31. The game was hard fought and bruises were many. 26 fouls were made with Chelsea making 18. Pinckney scored 11 points on foul goals. At the half Pinckney led 14 to 12. The game saw a back and forth with neither side enjoying more than a 2 point lead. It was especially hard the last few minutes. Chelsea led 30 to 28 with 2 minutes to go. Lamb made good or a foul shot and Singer sunk a field goal to give Pinckney a one point lead. In the last minute of play Pinckney did a good job of freezing the ball. Singer got 12 points, Lamb 10, Palmer 6, Ledwidge 2, Jones 1. Kusterer, Chelsea star got 10 points.

This is the first the Pinckney boys ever beat Chelsea at basketball.

Gov. Kelly's Program Expected to
Meet Opposition in His Own Party

Whether Harry F. Kelly is re-elected gov. of Michigan in 1944 thus breaking the one-term law at the past six years, will depend upon many things even down to cabbage and kings.

Among these is the test of his leadership with the State Legislature.

He starts out his leadership with a few handicaps and numerous blessings. Republican legislative leaders were practically unanimous last spring in demanding that Kelly run for governor in the Sept. primary. He did so unopposed. Four years of sec. of state has acquainted him well with sure ways to get things done at Lansing.

His legislative program, as announced last week, contained several interesting recommendations that give a clue to his philosophy of public services.

One group dealt with efficiency in government. Kelly proposed the streamlining of multi-dept. state structure by merging depts. and commissions.

In the efficiency class was a recommendation to abolish the office of budget director and to transfer it to the office of Auditor general. Kelly also suggested that inspection staffs now maintained independently by numerous depts., should be merged into one state dept.

Would all this result in economy? Perhaps. But it should make possible a better government by increasing its efficiency. In our opinion, Gov. Kelly is more interested in efficiency than economy.

The second class deals with the opposite of economy, the spending of more money for causes which the governor deems to be worthy.

During his campaign Gov. Kelly stressed higher old age assistance pensions; the present average is \$22 and he asks the legislature to increase this allowance.

He also suggested that the state set aside \$100,000 annually for hospital funds.

On the spending side also was a suggestion that a system of state pensions should be created for state employees.

Looking to the post-war era, Gov. Kelly advocates a rainy day policy of not less than \$15,000,000 from the present state surplus.

As for reduction of the state sales tax, Continued on Last Page

SOLDIER LETTER

Maxwell Field, Alabama, Jan. 3-4
Dear Paul: Just a few words to let you know I have moved again. Am now at Maxwell Field, Alabama, of the outskirts of Montgomery in pre-flight training school. Here we get our basis foundation for pilotage. Not till we finish here and go to a primary school will we get our hand on the stick of a plane. We have 4 classes, a day, an hour of code, an hour of maps, an hour of math, and an hour of lectures. In all we have a 9 months period of school. You start in pre-flight then primary, then basic and the advanced school. Our exercise each day except Sunday is a 6 mile run around the air field and you don't walk once. It's lots of fun and when you get back you are as wet as if you had been in a good rain.

We have strong military discipline here. If a person does not watch out and stay on the beam he will be walking tours all his spare time. A tour is a 50 minutes of walking at attention. Believe me I shall keep my pockets buttoned, shoes polished, belt buckle shining my eyes to a point at the table, my knife and fork and spoon in order and my bed well made etc. I thank you, Andy Kirtland

P.S. Do you ever see my brother? He don't write any more like he used to.

KING'S DAUGHTERS

The Pinckney King's daughters met with Mrs. Clare Palmer last Tuesday. Mrs. Elwin Hulse and Mrs. W. C. Atlee were co-hostesses.

CURRENT COMMENT

Don't Be Surprised that if in the
near future there are some attempts
to amend the present liquor law, such
as closing at 10:00 p. m. and keeping
closed on Sunday's and holidays, by
the appointment of the 7 man liquor
committee 4 outstanding dry men
were appointed or it. They were Sen-
ators DeFoe, Vanderwerp, Hittle and
Saur. Lt. Gov. Keyes is reported to
be in favor of the bill closing road
houses.

The question of turning back the clocks of Michigan an hour was postponed when Gov. Kelly evinced hostility to the idea. Instead two senators were sent to Ohio to confer with Gov. Bricker there who is said to have made an exhaustive study of the benefits and drawbacks to the new time. If such a survey goes far enough and makes an honest effort to find out the truth it should be possible to find a time satisfactory to the people of this state which will at the same time aid the war effort. There is no sense in having two different time in Michigan which would follow if the clocks are turned back.

Already the soldier bonus issue beginning to make its appearance although the end of the war may be a year or two away. Rep. Knox of Sault St. Marie, presented in the legislature a plan by which to start a bonus fund with the \$27,000,000 surplus that the state has at present. However this is only one plan and undoubtedly many others will be presented by legislators arguing for the soldiers vote. Then the congressman and senators will also present federal bonus plans and the end is far, far away. The end of the war will probably not mean the lowering of the tax rate for many years to come. There will undoubtedly be a big scramble to get in on the ground floor on the soldiers vote.

One part of Gov. Kelly's address secure for 100 per cent. That is the part where he asked that \$80 per cent be made the minimum for old age pensions. At the present time the average in Michigan is \$22 with 29 other states having a higher average. This allows 38c per day for food which is ridiculous in these days of mounting food costs. We never could understand the reason for Michigan's parsimony in the matter of the old age pension.

Some of Michigan's legislators can not see how they can remain consistent and grant Gov. Kelly the wartime powers he asked. During the past campaign, their platform was that granting Pres Roosevelt war powers was not in accordance with the theory of American government and made the legislative bodies a rubber stamp. Therefore they demanded that these powers be restored to congress. Now if they confer war time powers on Gov. Kelly the voters will conclude their talk was baloney. Such legislators don't know there is a war on and that such war time powers are necessary if we are to have one hundred percent war effort.

According to press dispatches another casualty of the near future is the lowly hot dog or frankfurter. Hot dogs are expensive to make must be delivered frequently to be kept fresh. With the meat supply cut 30 per cent the cheaper cut of meat used to make them are going into other things so they will stay fresh longer. So the Hot Dog long an American institution is soon slated to vanish for the duration.

Beginning Mon. Jan. 11 the boom on navy recruiting was partially lifted and men from 18-38 may now enlist if the man has a release from his draft board and has not received his induction notice. Whether this will be lifted long is uncertain. One account said only a limited number of men would be enlisted.

The war has caused cancellation of the presidents birthday ball which for the past 10 year has been held to provide funds for research and cure infantile paralysis. However money will be raised for this effort in other ways so it will not languish. Detroit theatres will put on three mid night shows and the march of disease campaign will still function.

THE OLD JUDGE SAYS...

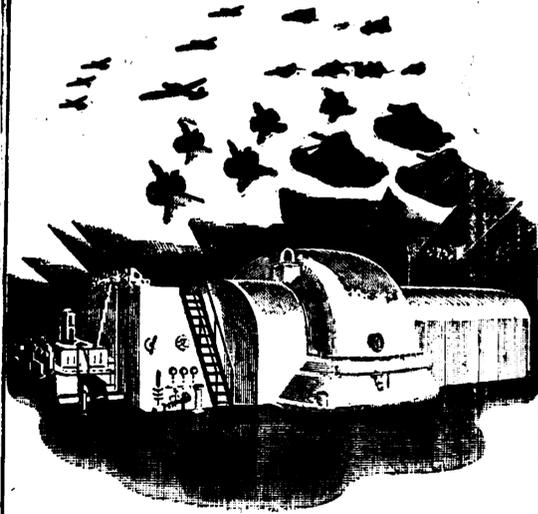

"Judge, would you mind tellin' Charlie here what you told me the other night walkin' home from lodge. I can't word it just the way you did."

"Sure thing, Tim. Here's what I told him, Charlie. There's no such thing as votin' a nation, a state, a county, or even a community dry. We had proof enough of that

during our 13 years of prohibition. What you really vote for is whether liquor is going to be sold legally or illegally... whether the community is going to get needed taxes for schools, hospitals, and the like, or whether this money is going to go to gangsters and bootleggers. That's the answer, boys... simple as A-B-C."

Horsepower is WAR POWER

producing for Victory!

Back of every tank and plane and gun produced in Michigan is the weapon that makes all the rest possible... horsepower. And as scientists have so aptly pointed out—horsepower is WAR POWER.

Our nation alone has more horsepower than the combined total of all our enemies. A single turbo-generator, like the one shown above, produces enough electricity to supply the normal needs of 250,000 average families. A new generator like this one will shortly be added to Detroit Edison lines, and most of its power will go to producing the weapons of war. And that generator represents less than 7 per cent of the entire Detroit Edison capacity.

Today The Detroit Edison Company's total generating capacity is 5 1/2 times as large as during World War I, and more than half of this enormous power is being used in war production. During 1942, power for war production totaled over TWO BILLION kilowatt-hours. In the most important weapon of all—POWER—we are well armed. Electricity must keep the war plants humming... and for that vital job we are prepared.

JAN. 31 DEADLINE FOR TIRE INSPECTION

If you wish to keep on driving your car and buy gas, you must have your tires inspected before Jan. 30 next. In Pinckney and vicinity, Edward Parker, Chas. Clark and James Shirey have been named inspectors. The best idea is to have your tires inspected at once and avoid the rush which is sure to materialize the last few days.

Clifford Haines of Detroit spent the week end with his parents, Mr. and Mrs. Ora Haines.

MICHIGAN MIRA'S

Continued from First Page

tax, the gov. cautioned that a slump in state revenues was inevitable during 1943 and all state revenues would be needed.

During the fiscal year ending June 30, 1942 the state distributed more than 51 per cent of its funds back to home governments.

Economy in state governments is not easy to achieve without stepping on the toes of people back home. You can't economize at Lansing without also economizing on Mair Street. The state government probably realizes it.

But greater efficiency in government is a reasonable possibility.

Gov. Kelly's chances in 1944 may rest on his ability to achieve better government. If he can do both the age of miracles will have arrived! But don't look for it.

"10,000 Stores to Close" Such is cast for Michigan retailing in 1943 by McForland Wayne, university professor and head of the Greater Detroit Consumers Council.

McForland regards the forthcoming casualties, however, as a partial blessing in disguise, a sign of healthier economy in the future.

The professor's conclusion's reminded us of something we read once in one of the imposing monographs issued by the Temporary National Economic Committee, created by Congress a few years ago. Albert Meyers senior economist of the U.S. dept of agriculture, reported the trend since 1900 has been towards more stores. For example: In 1900 there was one food store for 486 persons; in 1935 this ratio had grown to one store for 358 persons.

If these experts are right, Michigan's 1943 retail casualties may begin to stabilize business for other stores, thus benefit ultimately the consumer.

Lt. Col. Harold Furlong, has been called into active army service, and thus, Gov. Kelly will be presented with an immediate problem of selecting a successor of the Michigan Council of defence.

CONSERVATION NOTES

Owing to firm ice smelt fishermen are already establishing themselves, 2 weeks earlier than usual. Last year they operated 78 lb nets and 35 miles of gill nets, 2,125,849 lbs. smelt were taken by them last year. This does not include any smelt taken by dipping during the run. Smelt are now 9c per pound. More than half the clerks in the 21 field offices of this dept. are girls who have replaced men. It is expected that 60,000 additional acres of state lands will be thrown open to oil and gas exploration if the recommendation of this dept. is followed. This dept. has 300 reels of film that may be had on loan. Safe colors in hunting clothes vary. Washington uses burnt orange, 9 states favor black and white check & 5, Maine, Mass. New Hampshire, N. Jersey and Colorado red. Maryland favors white. Michigan is listed with the 14 states having no choice. Smoked fish contains more food value than fresh fish or fish prepared in any other way. Smoking removes the water content.

PHILATHEA NOTES

Over Sixty-Eight Years of Safe Banking
A GOOD NEW YEAR'S RESOLUTION

Put at least 10 cents of every dollar you earn into War Bonds and Stamps.

We cannot urge you too strongly to buy all the war bonds and stamps you can. This is for your good as well as to aid the war effort.

Just remember the securities are as good or better than the cash in hand or in the bank. They are good because they are secured by the entire resources of the United States. If they are not good, no other investment would be worth while.

They are better than cash in the hand because cash in hand does not earn anything while war bonds, if held until maturity, will earn from 2 1/2 to 2.9 per cent per annum. In addition, the actual cash is available should some emergency arise any time before maturity. The only condition being a sixty day wait from the time of the original purchase. If cashed before maturity, the maximum interest will not accrue, but you is still better off than holding cash.
