## Five People Drown Sat.

### Ann Arbor People Are Drowning Victims Near Here Sat. a.m.

A tragic drowning took place at Big Portage Lake 5 miles southeast of here early Sat. morning in which five people were drowned and 5 children, the oldest 15 years old, were left orphans.

The victims were all employees of the International Industries of Ann Arbor and were members of a party of 6 men and eight women from factory who rented the Stein cottage on the east side of Portage Lake, near the store and came out for a week end party. As some of them worked until 10:00 p.m., they did not arrive at the lake until 11 p.m. Mr. and Mrs. Jacob Shelton, aged 38 and 36, Diane Warner, 20, John Shannahan 31, and Miss Alice Burmister 19, decided to take a boat ride and got into a small row boat equipped with an outboard motor, and went out into the lake. That was the last seen of them a.k.v.

After a couple of hours when they failed to return Mrs. Lillian Lane of 522 Elm St., Ann Arbor and other members of the party started to look for them. Wm. Maulbatch who owns and sells motor boats was awakened and search was made for them, not only on Portage Lake but also at Base lake. Soon after dawn the overturned boat was found across the lake on the west side near the Ernest Feiner cottage. The oars were found in a different place.

Officers from the Washtenaw county sheriff's office came out and, assisted by lake residents started to search for the bodies. The bodies of the women were found after 7:00 a.m. after the searchers had noticed oil drippings on the water leading from the northeast point of the lake to the southeast tip. First an oar was found, then a cushion and then Miss Burmister's body which had risen to the top, about 200 yards further down. About 9:00 the body of Mrs. Shelters was found. There was said to be little water in the bodies of the two women which led to the belief they might have hung onto the overturned boat until exhaustion and died of heart failure.

Search continued the rest of the day and all night for the bodies of the three men. The Detroit Edison Co. sent out powerful searchlights to assist with the night search. Shelters was a former employee of the Co.

Death of the Shelters leaves five children orphans, the oldest being a boy, 15, who was left in charge of the children while his parents went on the picnic. Miss Burn's sister was the daughter of Mr. and Mrs. Edward Burmeister of Bridgewater, where the funeral and burial will be held Tuesday.

Bodies of Jacob Shelter and Diane Warner were found Mon. afternoon by two boats manned by Paul Buckles, Ernest Kuebler and Ernest Warner of Ann Arbor who were dragging. Recovery was made near the place the women's bodies were found.

## DROWNS AT WHITMORE LAKE

John Frost of Detroit was drowned at Whitmore Lake Sunday when his motor boat collided with one driven by Joseph Adams of Detroit. Monday his body had not yet been recovered.

## JOHN HENRY ENGEL

John Henry Engel, 29, son of August and Honora Fohey Engel of Webster died at his home Mon. Funeral was held today at St. Patrick's church Northfield with burial at St. Thomas cemetery, Ann Arbor.

## New School Lunch Program

### Hot Lunch Program for Schools to Operate Again This Year

The "School Hot Lunch" program which operated for the past two years under the surplus commodities comm. which was cancelled due to congressional reactionaries will be revived this year according to Gene Elliot, supt. of public instruction.

Mr. Elliot in a press interview said Mich. had been granted \$1,800,000 by the Federal Dept. of Agriculture to take the place of the former program sponsored by the Surplus Commodities Corp. and the WPA. He also added that 3400 schools in Michigan participated in this hot lunch program last year.

Details of the new program covering plans for state supervision will be worked out by the dept. of education in a conference at Lansing Monday.

Pinckney school enjoyed the hot lunch program the past two years. Food was furnished by the Surplus Commodities Corp. and the WPA paid the woman who prepared it. Over 100 school children were fed daily.

### In Which Another Story of Northern Michigan is Told

Every town has a Charley Bell. But only Crystal Falls, once a prosperous iron mining center, has Charley Bell, one armed, ex-lumberjack, town photographer, fluent raconteur and aristocrat of the outdoors.

We mention Charley because the blueberries are abundant on the plain from Ironwood to Sault Ste. Marie because millions of quarts of the luscious berries are awaiting in vain for pickers this summer; and because my thrifty helpmate, mindful of war needs for food decided suddenly to can blueberries on an outdoor oven at Runkle park by a small lake at Crystal Falls where we stayed a few days.

"Charley Bell is your man," said Tom Collin, editor of the Diamond Drill. And so we engaged him for the job.

"How many quarts of blueberries do you want?" asked Charley.

We surmised, "About 20 quarts, thinking of his one arm."

"Hardly worth my while," replied Charley with dignity. He is a good six feet tall with an Englishman's chin and nose. "I can pick easily 35 quarts. My good wife and I have 250 quarts of berries in our basement now."

I gulped, first in amazement, then in doubt and finally nodded acceptance to his bid.

"I was just planning to do some fishing," added Charley, as he glanced at the ground beneath the tomato vines in his small victory garden.

Charley stood in pride before his garden triumph. Even prospective 12-foot tomato vines merit a visitor's admiration.

We inquired about the delicate matter of using a ladder to pick the tomatoes, but Charley never stimulated a smile. So we changed the subject to fish bait.

"Ah, yes, the piscatorial art," quoth Charley. "I have been catching a mess of the finny denizens almost daily. Rely exclusively on the lure of the brown and red bucktail, although the daredevil has its good merits and the june bug is preferred by other, if you know what I mean."

We fathomed clumsily the Charley had been fishing, and as let it go.

The next evening we went to Charley's home, "Ran into hard luck," started Charley. "I was getting fine until my hound dog got thirsty and I took him to a spring for water. There we encountered a cloud of mosquitoes. I waved my hat to chase 'em away, and a fish hook caught on my left ear. Had to leave early—'twas at least 3:00 p.m. Doc broke two

## PINCKNEY RURAL SCHOOLS

On Sept. 7, next 93 rural schools in Livingston county will open and 19 will be closed. The greater percent will be taught by married teachers most of whom will come out of retirement to teach. Following teachers from this section will teach in other townships: Mrs. Katherine Buckley of Gregory in Isoco No. 3, Miss Ida Collier, Hamburg in Green Oak No. 1, Miss Dede Hinchey in Marion No. 4, Mrs. C.H. McRorie in Marion No. 6, Mrs. Maxine Sweet in Unadilla No. 3, Mrs. Jennie Follenberger in Unadilla No. 11.

In Gregory Mrs. Evelyn Boushelle and Miss Esther Jorgenson will teach and the 9th and 10th grades will be dropped for this year.

## SAVES CROP

With the aid of 600 soldiers from Camp Dix, the Campbell Soup Co. saved the tomato crop at Camden, N.J. The line of loaded trucks was 7 miles long at one time.

## CURRENT COMMENT

### Editor

Although housewives are urged to can everything obtainable in the canning line, they are experiencing great difficulty in finding much to can and for what they do find they have to pay exorbitant prices. Strawberries, cherries and huckleberries were all scarce and high priced and with peaches, the main canning crop now selling from \$6 to \$7 a bushel and the supply is small. Apparently there is no reason for this as the crop, according to Don Hootman Michigan State College specialist, will be 4,000,000 bushel in Michigan, the same as last year, yet the price is double that asked in 1942. The reason for this is puzzling. There must be a nigger in the woodpile somewhere.

We see by an exchange that a Bad Axe farmer was fined \$35 in justice court there last week for watering several cans of milk he sent to a Bad Axe dairy. In the old days before inspection and sanitation was heard of in the dairy business a pump was part of the dairyman's stock in trade. Milk was then sold from a milk can. The milk man rang his bell. You went out with your picher and he dipped up the milk with a long handled dipper. Some milk peddlers who could not afford a pump were even accused of stopping at the river to water their milk and customers told of finding frogs, lizards, etc. in their milk. Those old days however, are gone forever, and there has been a great change for the better in the milk situation since the board of health took over and insisted on sanitary standards.

James Munn, 50, of Kamloops, S.C. has just donated his 50th blood gift to the Red Cross. The doctors like to see him coming for he has the richest blood available and though past 50, can go on indefinitely donating three fourths a pint of blood. Munn started donating blood 37 years ago.

Another grand jury investigation is in the offing, at this time the legislature is to be investigated. It is alleged that money was used in two cases there recently, the Anti-Chain Banking bill and the Milk Control bill. The first was killed by a referendum, the other vetoed. The story is told over the bribery attempts to pass the banking bill. A northern representative says he was offered either \$250 or \$350 for his vote, he does not remember which. He took the money to Speaker Nugent who told him to return it to the giver. Later the briber stuffed \$1000 in his coat which he also returned. He had seen the briber a number of times he claims but did not know his name and even after the \$1000 he did not attempt to find out. Apparently both he and Speaker Nugent decided to forget all about it. You can believe this strange story if you care to but it smells fishy.

Again there is talk of getting the ballot to all the men and women serving in the armed forces for the general election next year. We wonder if it is realized just what a stupendous task this will be. With some 12,000,000 boys and girls scattered all over the world, with the 48 states having 48 different sets of election laws and holding primaries from March to Sept. what a job it would be to send out the present blanket ballots to all of the people in the armed forces. It would be impossible. It is suggested that a photographed ballot be sent out on postcards instead. However the chances for fraud would be great in this and with the constant changing of addresses and moving about, it is probable that very few soldiers and sailors will vote in the 1944 elections.

**THE OLD JUDGE SAYS...**

"Anything new, Bert, on that black market trial up at the county seat?"  
"The jury came in 'bout an hour ago. Judge. The verdict was 'guilty.' I understand the sentence is going to be a mighty stiff one."  
"Can't be too stiff to suit me. Anything those law-flouting racketeers get will be too good for them. How they thrive every time there's an opportunity to sell something illegally instead of legally in this country. Just like the bootleggers did during the 14 years when liquor was sold illegally instead of legally."  
"Unless this black market in meat and other commodities is stamped out and stamped out quickly, Bert, we're in for another dose of the crime, corruption and lawlessness we had following the last World War."

**YOU BURN COAL**

If you had to put a shovelful of coal in the furnace every time you turned on a light or used an electric appliance, you would realize more clearly why electricity is a war material. Actually, that is what happens when you turn on an electric switch: Coal is burned to produce your electricity.

Thousands of tons a day are consumed in the large Detroit Edison power plants—and this coal is brought in by rail and boat. Every carload and every boatload that can be saved means that much more transportation space to carry war materials for our fighting men. And it means precious manhours, as well as coal, oil, and other critical items.

So remember—when you turn on your lights or your radio or your range—that electricity should not be wasted. Today more than ever, its careful, reasonable use is a patriotic contribution toward winning the war. The Detroit Edison Company.

## Continued from First Page THE MICHIGAN MIRROR

pliers before he extracted the tooth. We knew what the ending was going to be, and looked at the carton filled with blueberries. Charlie read our minds.

"I regret exceedingly my inability to get 35 quarts, but you'll find 20 quarts or more there. If you don't find that many blueberries there in the box, come and get your money back" he pronounced officially, like a judge from the bench.

When we made reference to the handicap of one arm, Charley reminiscenced. "It was a bitter cold night, 54 years ago, when I was lumber jacking out at camp twelve near Iron River. The temperature went down so fast my ears were frost bitten by the time I reached the shack. Before going to bed later that night I happened to remember about a jug I had left at the doorstep outside. I opened the door and stuck my left arm out to get the jug and it was frozen off.

Back in camp we told the missus of Charley Bell. We also related the yarn he told us.

Upper peninsula is a big region, and bigness is one of its natural virtues. Maybe the climate is responsible. Or perhaps the native hospitality of providing entertainment for innocent travelers is to blame.

Still skeptical, we surveyed Charley's box of blueberries. My wife started to count the quarts—curious to see whether Charley had been absent-minded also in the matter of the sale.

And then you think of Charley Bell with his proclivity of exaggeration, and wonder if Charley is to blame amid this wonderland of God's land.

When my wife had finished measuring the blueberries which Charley had packed, we found not 20 quarts as he promised, but 21 quarts—a full quart over measure.

Sure every Michigan town has a Charley Bell.

He is a sort of American home-town pride. He is a living reincarnation of Paul Bunyan whose yarns of the north still remind us of the greatness of Michigan.

### PLAY TIE GAME AT ANN ARBOR

With Bob Singer, home from the U. S. navy on a furlough pitching, Pinckney went 9 innings at Sportman's Park, Ann Arbor, Sunday night the game ending in a 1 to 1 tie. The game was a pitchers battle between Singer and Loukutta of the Ann Arbor Beagles. Singer allowed 6 hit and Loukutta 4. Only fast fielding by Pinckney prevented Ann Arbor from winning the contest.

The game was scoreless until the 6th when Ann Arbor bunched three hits in a row to score their only run. Pinckney did not score until the 7th when Gus Ledwidge walked, stole second and scored on Paul Singer's hit. In 8th Elwin Hulce walked for the Beagles and reached second on an out at first, Hatto hit to right the drive hitting Dinkel in the chest. Hulce tried to score from second but was thrown out at the plate by Perry Swarouth who retrieved the ball.

In the 9th with two out, Loukutta was safe on an error. E. Rayment drove to center but Swarouth made a shoestring catch retiring the side and ending the game.

### LOSE LAST LEAGUE GAME

The Livingston County Soft Ball League closed last week and for the second time the Pinckney team was the champion. This was made possible Monday night when Fowlerville defeated the Cooley Dairy team of 10 runs to 1. The latter team being Pinckney's only rival for the title.

Perhaps in gratitude (this appears to be the only plausible explanation) Pinckney dropped their final league game to Fowlerville Wednesday night 5 to 8. Pinckney started out strong, Jerry Ledwidge, Shehan and K. Ledwidge, all singling in a row in the first inning but no one scored. In their half Fowlerville scored twice on 2 Pinckney errors and 1 hit and added another in the 3rd on a walk and single. Pinckney scored twice in the fourth inning when Perry Swarouth hit a home run to tie the scoreboard, Reason walked and Shirey singled him home. Fowlerville got 2 more in the 4th on two hits and an error. In the 6th Paul Singer hit a home run and Perry Swarouth doubled but the latter was out at the plate trying to score on Reason's hit. This ended the scoring.
