SHOE RATIONING

There are a few facts about shoe rationing to be cleared up. 1. Only 2 pair per year, per person are possible as of the 480,000,000 pair made a year, the army gets 180,000,000 of them. On account of this only the best shoes obtainable should be bought. 2. Shoes for infants below size 4 are unrationed. 3. Stores must not honor shoe stamps detached from books. 4. Stamps are interchangeable among members of the family. 5. Special stamps will be denied habitual purchasers of inferior shoes.

State News

In Which State Politics Are Discussed and War Issues Touched on

1944 CAMPAIGN. Lansing political gossip is that Gov. Kelly, as a Republican nominee for re-election will be opposed by either former Gov. Murray D. VanWagoner of former state Treasurer Phil Fry as the Democratic nominee. Dr. Eugene Keyes is expected to be Kelly's running mate, unless some unforeseen upset occurs in the primary. The governor's advisors are concerned about 1944, feeling that Republicans must be strongly united to overcome any presidential election one against "switching horses in mid-stream".

NO SPECIAL SESSION. Auditor Gen. Vernon Brown by some judicious thinking, came to the rescue of the state administration and extricated it from the dilemma of summoning the state legislature now into special session. Several state departments incurring deficits due to wage increases granted by the state civil service commission. Attorney Gen. Eric Rushton had ruled that the "old legislature" lacked statutory authority to make appropriations from the funds for deficit purposes. Brown's solution: The law required him to notify department heads when deficits were impending. In turn the department heads to require civil service to abolish certain positions or reduce wages. That responsibility rests with the department head the governor. It is Brown's belief that adherence to these mandates will reduce the deficiency to around \$150,000 by Jan. 1.

ECONOMIES. Gov. Kelly is determined to balance the state's budget. Accordingly, he appointed a special committee consisting of Sen. Don VanderWerf, chairman of the senate finance committee; Rep. John E. Egan, chairman, house ways and means committee; Robert S. Ford of the governor's office; Budget Director Fred Sniffler and Thomas Wilson, the civil service director. The committee has two duties: "To find out for me what action is going to be taken by the various appointing authorities to live within their appropriations" and "to make whatever recommendations they think might be helpful in the situation." First sessions were held last Thurs. and Friday.

JUST A FAD

It was bound to come. World War I had its silk shirt fad. The only way to break into society being to wear a silk shirt. Now it is hand painted neckties, selling for as much as \$100 each. So at the present time the chief aim of the prosperous warworker is to own a hand painted necktie. Like silk shirts its existence will be most brief.

CURRENT COMMENT

By Ye Editor

The big surprise of last week was the big overwhelming victory in the Detroit primaries of Frank Fitzgerald over Mayor Jeffries. The Jeffries family has been in politics in Detroit for the past 60 years and the present mayor made a his career. On the other hand Fitzgerald became a member of the class of name candidates, held minor political positions mostly all of his life and has never been in the line light to any great extent except when he won the Democrat senatorial nomination in 1942. Taking all things into the consideration the result is in the nature of a pre-emptive strike. The people did not vote for Fitzgerald they voted against Jeffries. Many of them were convinced that his handling of the negro race riots last summer was dilatory and ineffectual and prompt action by Jeffries and Gov. Kelly would have saved many of the lives that were lost. This reflected by the vote in the wards where the mayor was snowed out.

There has been a great change in many things during the passing years. We remember in our youth that a certain church used to demand a pledge of its members that they would abstain from dancing and playing cards. Cigarette smoking was also one of the unpardonable sins and anti-cigarette societies were in existence in many places. Now we hear little of any movement to curb these so called evils. Cigarettes are probably the most numerous of gifts sent to the boys in the service and the Detroit Free Press has just put over a successful drive to send 10,000 pack playing cards to the service men. Dancing is also a common form of entertainment at the army service clubs. As time passes people seem to grow more and more liberal on their outlook on life.

Juvenile delinquency used to be like the weather. Everybody talked about it, but no one done anything about it. Labor shortage with the employment of parents in war factories increased this delinquency to such an extent that some kind of action was imperative. Many communities inaugurated curfew laws. Ann Arbor has just adopted one in which parents whose children are found on the street after 11 p.m. on Friday and Saturday and 10 p.m. on other nights are liable to a fine of \$100 or 90 days in jail. This is as it should be. Juvenile delinquency was always a menace. The correct name is adult delinquency. There are a number of children in Pinckney who can be regularly seen on the streets each night after 11 p.m. How would their parents like it to have this village adopt an ordinance similar to the Ann Arbor one?

The press last week carried the story of the beheading of a captured American aviator by the Japs. The story may be true or it may not. Its source is a letter taken from the body of a dead Jap soldier. Beheading by the sword has been the favorite form of execution in both Japan and China for centuries where minor crimes are punishable by execution. Such an execution could be possible. However we should bear in mind World War I in which many similar outrages by the Huns (Germans) were proved to be mere propaganda. We should have more details on this subject, such as the aviator's name, before we accept it as truth.

In Cong. Blackney's news letter recently he mentions the proposal to lower the draft age to 17 1/2 years and wonders what the people think about it. We can see little merit in it. Boy 17 years old can already enlist in the navy and air reserve with their parents consent. This is only another obstacle thrown in path of drafting fathers and would accomplish little and might well be the means of crippling the military branch of the government.

Earl Gallup and family have moved from the George Sigler house to the Adam Brown farm. Robert Ackley and family who are living in the Tessmer parlments will move in the Sigler house about Nov. 1.

Miss Dorothy Meabon and Mrs. Frisinger of Ann Arbor left Tuesday to visit the latter's son in the army camp at Augusta, Georgia.

A REPORT TO OUR CUSTOMERS

The wartime philosophy of "making things do" has even taken the wave out of the checkered flags on Detroit Edison repair trucks! These are the flags you see posted in the middle of a street to warn traffic, where men are engaged in construction or repair work. Formerly they were made of hunting, but hunting is a war casualty. Now the flags are stiff canvas—but still doing a job.

Do you know that—
550,000 pounds of scrap copper
190,000 pounds of lead
53,000 pounds of scrap brass

were recovered in 12 months (to August, 1943) and put back into use by the Salvage Division of The Detroit Edison Company? In addition, 98,000 feet of cable and 560,000 pounds of weatherproof wire were reclaimed by splicing, and over 10,000 pounds of scrap rubber were recovered from old air and water-hose. More than 96,000 appliance cords were reconditioned "as good as new," and nearly 5,000 old wood poles were reclaimed by shaving off the decayed exterior and treating the pole with a fungus-destroying chemical.

United States War Savings Bonds—Series E: gives you back \$4 for every \$3 when the bond matures. Interest: 2.9% a year, compounded semiannually, if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1,000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

2 1/2% Treasury Bonds of 1964-1969: readily marketable, acceptable as bank collateral, redeemable at par and accrued interest

for the purpose of satisfying Federal estate taxes. Dated September 15, 1943; due December 15, 1969. Denominations: \$500, \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Price: par and accrued interest.

Other Securities: Series "C" Savings Notes; 7% Certificates of Indebtedness; 2% Treasury Bonds of 1951-1953; United States Savings Bonds Series "F"; United States Savings Bonds Series "G."

The Third War Loan is your loan. The securities on sale fit your purse. Check the one which is applicable to you and buy it. It is not a personal temporary sacrifice. Always keep in mind your sacrifice is only temporary because you do not give your money away when you "buy" War Bonds; you lend your money at interest. Your money is not even in jeopardy. In the event of an emergency—and the record shows that Americans are not redeeming their Bonds except in the event of true emergencies—your Bonds are redeemable.

The United States Government has never in its history repudiated a Government Bond. As further evidence of the strength of this country to guarantee repayment of your money, United States potential wealth amounts to \$89,000 per capita. Even with the heavy current war expenses, our national debt is only \$100 per capita.

Only a country like ours could make such a deal with its citizens: repay you with interest for a loan of your money to protect you and your family against enemies which would murder, rob, or enslave you.

The number one "buy" for you is the familiar Series E War Bond. Twenty-seven million American workers are buying Series E Bonds at the rate of \$120,000,000 a month. Your Third War Loan duty is to buy at least one extra \$100 Series E Bond above your regular buying. Buy more if you can.

Keep the facts in mind about the Series E Bonds: They come in \$25, \$50, \$100, \$500 and \$1,000 denominations. They sell for 75 per cent of their maturity value. They pay you \$4 for every \$3 invested if held to maturity, which is 10 years from issue date. You may redeem them at any time 60 days after issue without notice at stated redemption values. Every Bond carries this redemption table.

A freshman girl had cause to wonder about which "Tom" she was going with at the sophomore hay ride last Friday evening.

The sophomore president had a car door slammed none too politely in his face as he attempted to escort his lady fair to her door. Is he slipping as a woman charmer?

H.J.D. has received a new set of initials D.T. (dynamic tension).

G.K. of the sophomore class was gently shoved off the hay rack when one of his superiors decided that he needed more room.

Sam Lamb, opened a taxi service last Sunday with his horse and buggy and tractor when he chauffeured our charming minister's daughter and her blonde girl friend over the hills of the Lamb estate. A previous phone call to his lady love proved that he was not wolfing.

With hayrides were in style last week the senior class was not to be overlooked. The next morning their chaperone sent out for a box of soda mint tablets and a roll of tums. She claims she had indigestion, but is that the real reason.

Miss Carr is said to be the model pupil this year. It is reported that he takes his English teacher a big red apple every day.

Gas Ledwidge is one of our most industrious practitioners of the light fantastic. A certain freshman girl seems to be the answer.

Mrs. Earl of Howell started her music classes at the school this week.

The speech class will put on a play next month: Bob Carr seems to be a universal choice for the lead providing he can take enough time off from his recently added sanitary engineering course. A screen test may be necessary to select the leading lady.

SPORTS

Pinckney took a bad beating at Dansville last Friday bowing to that team 27 to 0. Pinckney put up a poor game, their line failing to hold and their blocking and tackling being very poor. Fred Singer only played about 2 minutes on account of an injured leg. Meyer who was injured played but did little gaining and Jones has left school. Without these three Pinckney only had one offensive player in Lewandowski and he put up a good game but got little support. Pinckney got to the 30 yard line twice but lost the ball when their forward passes were intercepted by Dansville. Dansville has a fine well balanced team, probably the best in their high school league except Fowlerville.

The Pinckney lineup was: Left End, Jack Reid; Left Tackle, Bobon; Left Guard, Clark; Center, Griffith; Right Guard, Aschenbrenner; Right Tackle, Meyer; Right End, Ledwidge; Quarter Back, Lamb; Right Half, Jim Reid; Left Half, Lewandowski; Full Back, Craig.

Subs: Nichols, T. Clark, Dick Young, Don Burns, Jack Reid, Bob Lathers.

This week Friday Pinckney played her only scheduled home game when she meets the Ypsi high school reserves here. Pinckney won from them in the opening game 38 to 0 but we have to show better form than she displayed at Dansville last week to win.

Mrs. Marvin Shirey and daughter and Miss Dorothy Vixel are visiting relatives in Ohio.

Born to Mr. and Mrs. Arthur Hassenchal on Oct. 4, a son.

Mrs. Clare McMacken was in Detroit part of last week.

Miss Jessie Green and Mrs. Weltha Veil spent the first of the week here. Miss Betty Daughn spent the week end with Miss Eleanor Latimer.

Alex. Chanyi sr. is making extensive repairs on the George Hassenchal farm he recently purchased.

Russell Read with the Westinghouse Electric, in Pittsburg, Penn., is spending some time in Detroit on business for the company.

THE MICHIGAN MIRROR

LIQUOR WOES. Gov. Kelly's quest for a \$15, 000-a-year business executive to fill the \$7,500 post of chairman of the state liquor control commission has been consuming his attention almost daily. The appointment is due soon, and perhaps has already been announced by now. Illustrating the governor's dilemma, a Detroit labor newspaper charged recently that the average tavern had hardly "more than one third" of the legal liquor supply necessary to conduct its business. The editor arrived by mental gymnastics at the conclusion that it was either in cahoots with bootleggers or was catering to the Anti-Saloon League!

Confusion. - Schuyler L. Marshall newspaper editor at St. Johns reports that farmers in Clinton county are confused by federal regulatory action coming out of Washington. AAA subsidies, offered first for growing less food and offered now for growing more food, have been followed by drastic government controls on beef and pepperment oil. "For quite a spell an owner of a farm was told that he could not eat meat on his farm unless he actually lived and worked on it. Just as the people are confused by Washington's economic regimentation, so they are confused about the various schemes to win World War II through "winning the peace". "In short, we do not know what to think-we just hope...and pray". He is the father of two sons in the army.

SOLDIER'S MORALE. Cheery letters from home plus a copy of the hometown newspapers make an effective combination, so the OWI states for good morale of soldiers and sailors. As recognition of the value of sending hometown newspapers to boys overseas, the post office department recently rules that Xmas gift subscriptions may be made without a specific request being obtained from the soldier. The deadline is this Friday (Oct. 15).
