Defeats Ypsilanti Team Here Friday by Big Score

Pinckney had an easy time with the Ypsi high school reserves here last Friday, winning by the identical score they defeated them by in the first game with them, 38 to 0.

The Pinckney first team played 3 quarters and ran up the 38 points. The Pinckney second team played the whole fourth quarter and held Ypsi scoreless. They also made a number of first downs and scored a touchdown only to have the ball called back for clipping. The second team had lots of fight and played like veterans.

The first team used mostly straight football with Garth Myer hitting the line. Lewandowski made some nice gains by end runs and Gus Ledwidge was on the receiving end of a double pass good for 50 yards and a touchdown. The Pinckney line held well and Ypsi only made 5 first downs.

This was the first game played on the new gridiron laid out on the soft ball field near the school.

Next Friday Pinckney plays the Brighton team there. Brighton has a good team, having won from Dexter and lost Ann Arbor reserves by a close score. Pinckney will have to step on it to win. Fred Singer who has been out with a Charley horse will be back and he should strengthen the team.

CONSERVATION NOTES

The dept's name of persons who cannot buy deer hunting licenses on account of game law violations contains 376 names, those prohibited on account of responsibility in hunting accidents contains 235 names. Deer law violation suspensions last 3 years and for accident responsibility 5.

A huge bull moose recently went through Brimly on the St. Mary's river, wrecking fences and everything else in its path.

Deer hunters are urged to turn in all hides of deer killed this year into commercial channels for manufacture of military equipment such as gloves and mukluks (Arctic Shoes). Of the 62,000 deer killed in Michigan last year only 20,000 hides were turned in. Permit to sell or ship deer hides may be obtained from any conservator on officer.

Fishermen's nets, confiscated by this dept. are used in camouflage training.

The number of farmer-hunter cooperative hunting clubs has dropped one third this year.

Charles Burnett Passes Away

Former Well Known Local Resident Passes Away Sunday

Charles Rex Burnett, 63, died at the Masonic Home at Alma, Mich. Sunday. He was the son of Charles and Harriet Noble Burnett and was born in Hamburg township Dec. 25 1879. On Feb. 1, 1905 he was united in marriage to Miss Marion Bergin of Lakeland. To this union three children were born, Charles Newton, who died in infancy and two daughters, Mrs. Viola DeVoss and Mrs. Lora Danek, both living in Ann Arbor. The deceased lived in Ann Arbor until 1918 during which time he was motorman on the street car line and also a member of the fire and police departments.

In 1918 he purchased the David VanHorn farm, east of Pinckney and resided there until a few years ago. During this time he was deputy sheriff of Livingston county. Several years ago his health failed and he was a patient at an Ann Arbor hospital for over a year. On May 18, 1942 he went to the Masonic Home at Alma to live and this place has since been his home. About six weeks ago, he underwent a serious operation there from which he failed to rally.

He became a member of Livingston Lodge No. 76 F&AM of Pinckney in 1926 and served as one of the officers for several years. In 1934, he was a candidate for sheriff in this county on the Republican ticket in the primaries.

Besides his two daughters, he leaves a sister, Mrs. Howard Ball of Whitmore Lake and an uncle, Frank Burnett, of Flint.

The funeral was held at the Swarthout Funeral Home, Pinckney, Wednesday at 2:00 p.m., Rev. J. McLucas officiating, burial in Hamburg cemetery. Livingston Lodge No. 76, F&A. M. attended in a body and exemplified the Masonic burial service at the grave.

The five US senators who recently returned from a trip around the world where they visited the war fronts stopping a few hours here and a few minutes there remind us of the blind men who were taken to an elephant. One touched its leg and said it was like a tree. Another its trunk and said it was like a rope, another its back and said it was like a wall, and the last one its tusk and said it was like a spear. Like the five senators they were all wrong. If you want a medicine you go to a doctor, if law you visit a lawyer so when desiring military information why not call on a military man, educated at West Point or Annapolis who has spent his life acquiring knowledge on things military.

In Which Mostly Things Pertaining to the War Are Discussed

"I was at Pearl Harbor on Dec. 8, 1941."

Joe James Custer, war correspondent of the United Press, was speaking. His audience was Michigan newspaper editors, assembled at Ann Arbor.

"We had been told Pearl Harbor could not be successfully attacked. It was impossible to do so. I was a sports editor of an American newspaper for many years, and on Sat., Dec. 6, I attended a football game at Honolulu. There was a radio broadcast during the game, and little did we know that the Japs were listening to the broadcast, knowing that any interruption might indicate an awareness by the military of their sneak approach.

"Why did they strike Dec. 7? It was the morning after a college football game and an evening celebration. The Jap knew that Sunday morning would catch us at our lowest point of vigilance. The time was selected with this in mind."

Norman Lodge, Associated Press war correspondent, has seen war in the raw.

"There are no rules of sportsmanship, no Geneva convention, out in the Solomons. It is kill or be killed. The Japs take no prisoners and neither do we. We don't need a live Jap for information, because every Jap carries a diary with him. Jap prisoners at Guadalcanal attacked doctors in our American hospitals. These are facts because I was there to see them. I don't know why our government forbids war correspondents to tell the truth about the unpleasant along with the pleasant things of war."

Andy in a uniform and Martha in a Sloppy Joe Sweater go to the Rakkham building for an hour's recorded concert. The scene is Michigan's great state university at Ann Arbor, a peace time place for higher learning now converted in a war training center. Here, too, there is a reality of the coming sacrifice of awareness of the rendezvous with death or life on some far-off foreign land.

Ten days later. Andy and Martha spend two hours at a USO dance at the League. On Sunday they go for a brief stroll. During the week they see each other perhaps three or four times for 5 minutes between classes. That's the social life for one month of an army student and his girl friend at Ann Arbor.

He and she are just a sample of the new seriousness which typifies the 1500 Navy, 2600 Army and most of the civilian students at Ann Arbor now. Fraternities are closing down. Traditional extra-curricular activities are cut to the bone.

Andy and Martha are learning to fight.

Five young Navy students, graduate of Annapolis, hang their jackets on door knobs and planer handles, pick up a ten foot wooden model of a landing barge, weigh it, lower it into the 300 ft. Naval Tank. "She needs 3522 pounds", says one.

Lead blocks are piled in, the last few shifted a quarter of an inch at a time to get a trim tested with delicate machinist's levels. Then the five take over the big tank trolley, haul the model back and forth, watch gauges, check results.

They are students in art school of Naval Architecture transferred to Ann Arbor from Annapolis, preparing

BIG SALVAGE DRIVE NOV. 17

There will be a big state-wide salvage drive on Nov. 17. The quota for Livingston county is 350 tons. On this date schools and business places will close all day in order to help get in the scrap. For this purpose 72 army men and army trucks will spend the day in the county and visit the different junk collection centers. At a rally held at the Masonic dining room Monday night army officers were present and outlined the plans. Chairman Menzies of this county presided. About 200 were present and a banquet was served. Those present from Pinckney were Supt. Reader and Mrs. Clara Palmer of the school board. At the meeting it was stated that scrap piles in this county were sufficient at the present time and most of the scrap collected will be sent outside the state. Waste paper will be later.

CURRENT COMMENT

By Ye Editor

In 1936 a measure was introduced to grant to the schools of the nation \$300,000,000 a year for school purposes. It lay in a pigeon hole in committee until last week when it was revived and brought out for discussion. According to some observers, it may pass. The reason is the present school system is obsolete and if it is not reorganized or revamped will not be able to function without federal appropriations. War conditions and high wages paid to war workers have caused many of the teachers to flock there causing a great teacher scarcity. Many attempts have been made to reorganize the school system, most of which have failed because district school units refused to give up local control. If a consolidation system is not adopted soon, increasing federal appropriations is the only answer.

The small game season opened last week and found plenty of hunters in the fields and sufficient pheasants but a great scarcity of ammunition. The wise hunters however could see the latter coming a year ago and stocked up with enough ammunition to carry them through. Those who did not were out of luck. The promised release of ammunition for Oct. failed to materialize and many dealers had none at all. The report that a Howell dealer had a stock on hand caused a rush there but on arriving the ammunition seekers were limited to six shells per person. A report that ammunition could be had in Jackson resulted in a very similar setup. There were reports that if you were willing to pay the price, plenty was obtainable on the black market. This we don't know but the hunters who came out from the city seemed to have plenty of ammunition. To have plenty of ammunition, 30-30 shells are said to be bringing \$20 reach the dealers until Nov. 1.

There used to be an old salt water superstition of sailors that rats would always leave a sinking ship and in the days of sailing vessels sailors would never sign to sail on a ship from which the rats had left. Last week we read that Portugal might shortly declare war on Germany and had given the Allies permission to use the Azore Islands as air bases. Also that Spain had withdrawn her divisions from the Russian front where they have been helping Germany fight Russia. These two countries were strong axis sympathizers at the beginning of the war but have since seen the handwriting on the wall and want to get on the band wagon with the winner.

We read much in the papers of meetings called to consider re-employment of the returning soldiers after the war. Gov. Kelly of Michigan has appointed such a committee we believe. The assumption seems to be that through cooperation with industry a plan can be worked out whereby returning soldiers can be placed in jobs almost as soon as they return to this country. We think those who are pushing this program fail to take many things into consideration in the first place there will be no pell mell demobilization such as occurred after World War I. There will be armies of occupation placed in Germany, Italy, Africa, China, Japan & all the other countries to be conquered and will remain for some years after the war. Third: it will take the factories a year or more to convert their factories back to the production of domestic articles, such as autos, electric washers etc. In the meantime the only way to take up the slack would be a system of public works such as roads, new schools, sewers, etc. and that would call for federal appropriations. Industry alone has never been able to relieve employment in slack times and there is no reason to believe they can now.

Save and Serve

—help boost the armed might of America!

"Conservation of fuel, manpower, equipment and materials is a 'must' for the United States if we are to achieve the maximum war production every American wants.

"Every pound of coal, every gallon of oil, every cubic foot of gas that can be saved means that our national energy pool is strengthened just that much. Every manhour saved in the production of these basic fuels, in the production of electricity, in transportation and in communications is a manhour that can be used for something else. Every pound of tungsten that is saved in the production of electric lamps is a pound that can be used in the production of radar equipment.

"We have, therefore, called upon the coal, petroleum, electric, natural and manufactured gas, water, communications and transportation indus-tries to join with us in a broad conservation campaign to accomplish these results. The campaign will be voluntary. Cooperation of these industries in asking the public to use their services only as absolutely necessary represents a real sacrifice by them. We ask the American public to appreciate that sacrifice and to give them and the war effort enthusiastic and unstinting cooperation as this campaign develops."

PINCKNEY DISPATCH STILL \$1.25 a YEAR

THE OLD JUDGE SAYS...

"You were absolutely correct in making the statement you did, George...not a drop of whiskey has been distilled in this country in over a year."
"That's what I told the boys down at the lodge, Judge, but they were so surprised I thought maybe I was wrong."
"No you weren't, George. The truth of the matter is that a year before Pearl Harbor, the beverage distilling industry voluntarily offered its facilities to the government. Many companies started to produce alcohol for war

purposes almost immediately. And just as soon as the government's requirements increased, the distilling facilities of the entire industry were converted 100% to the production of war alcohol and nothing else. As a matter of fact, the beverage distilling industry is producing about half of the government's needs for this vital war material. And that's a 24 hour a day, 7 day a week job, George."
"I'm glad I told you about my talk with Sam, Judge. You've given me a lot more facts on that subject."

OUR SCIENCE TRIP

Last week our class went to the woods to see how many things we could find for our science table. Gilbert Bailey went with us and took charge of the boys. Here are some of the things we brought back: Bird's nests, old bones, leaves, toadstools, twigs of trees, vines, stones, nuts, berries, some moss.

We had a contest to see who could find the most, the boys or the girls and we think it was about even. Nan Ledwidge & Pat Rebman, Rep.

A church. A Filipino, wearing the national stiff-shouldered waist, a long trailing veil walks down the aisle. Beside her, to give her away, walks President Alexander Grant Butven.

She is Miss Rafaelita Hilario. Her father was department of state advisor to President Quezon before the Japs struck at Pearl Harbor and then Manila.

Since those fateful days, she has not heard from her folks. Her husband is a young Filipino doctor at Battle Creek. After the ceremony, asked what they were planning, Mrs. Soriano said:

"We're going to be good Americans. My husband has to go to New York and Washington. We're going to stop at Niagara Falls.

Lodge, the AP war correspondent, continued: "The news we are allowed to tell you is always predicated on safar. Bad news is held up months for good news. Political powers at Washington think we are a panty-waisted nation.

"When you have seen our young American kids fight in jungles, often days without food and under worst conditions than anything I even saw in France, going into battle with a smile and never a grumble, you would think twice before you at home complain about gasoline and beef roasts and other petty sacrifices.

Don't worry about us Mr. Lodge, Michigan can take it, the bad with the good. Any sacrifice we make here, little as it is, will be repaid a million-fold if war is kept from our shores and our land if the boys come back home. We're going to back these kids of ours, pray for their safe return, and then when the United Nations win this war, together we're going to fight to keep the peace.

INTERNOES

The Junior English class under the direction of Miss Eckert has organized an English Club. Jim Reid-pres., Bob Carr, vice pres., Ross Lamb, sec., and Gilbert (Deacon) Bailey, treas. Before the meeting was over the president appointed Muriel Read, Shirley Rockwell, Ruth Ann Young, and Alice Ware as an entertainment committee. The class decided upon dues of 5 cents per week. New officers and committees will be elected each month. The club will meet every Friday.

Two of the popular sophomore males made three attempts to secure partners for the dance Saturday. As their car headed toward the home of two freshmen girls they became aware of a car that was following them. It was loaded with some of their rivals. They drove around 'til they lost their rivals and again started on their merry way. The gas tank began to fall so the boys decided to go back to the dance. There one of their friends came to their rescue and started to take them. By the time they were on their way the old clock warned them it was too late to go calling for them. Broken hearted they returned to the dance where they took up their place on the sidelines.

B.B. of the Freshmen class had some misunderstanding about their date for Friday evening. Instead of enjoying a movie June -helped her mother hang curtains and Bill went home. Maybe this means that the date for Tuesday night dance is also off.

After stopping for Deacon Saturday our women charmer, "Flirt" Carr took the well famed road to Chilson. On arriving at the home of a junior girl he jumped from his automobile to escort the lady from her door but found to his horror his glove had fallen from his hand when he had rolled down the window and stuck it out to signal for a corner to a pursuing car. He grabbed a flash light and started down the road in a rain to search for his lost glove. Seeing his chance Deacon leaped from the car onto the porch and with a broad smile reached for the arm of the girl. The tearful Squirt returned minus a glove. He was so disturbed he was unable to drive on so Deacon again took over. As the faeble "Flirt" was dragged up to the dance hall he found the glove had missed the window and landed in his pocket. Even though the lady fair wouldn't let him escort her home he now had his faithful glove.

Judging by the lovestruck look on the faces of H.J.D. (DT) and his ladylove as they intermittently visited the gym Tuesday night D.T. can now be labeled double dynamic.

Mason, William Griswold, Emery Allen, Laura Smith, Sarah Smith, Minnie Smith, Harry Smith, Hattie Smith, Frankie Smith, Laurence Smith, and their unknown heirs, devisees, legatees and assigns, Defendants.

Suit pending in the Circuit Court for the County of Livingston in Chancery, at Howell, Michigan, on this 18th day of October, 1943.

It appearing from the sworn bill of complaint as filed in said cause, that the plaintiffs have not been able after diligent search and inquiry to ascertain whether the said defendants are alive or dead or where they may reside if living, or if they have any personal representatives or heirs living, or where they or any of them may reside, or whether the title, interest, claim, lien or possible right has been disposed of by will by the said defendants.

And it further appearing that the plaintiffs do not know and have been unable after diligent search and inquiry to ascertain the names of the persons who are included as defendants without being named.

Upon motion therefore of VanWinkle & VanWinkle, attorneys for plaintiffs, it is ordered that the above named defendants or their unknown heirs, devisees, legatees and assigns cause their appearance to be entered herein within three months from the date hereof, and that in default thereof said bill be taken as confessed by said defendants and each and all of them.

It is further ordered that the plaintiffs cause this order to be published within forty days in the Pinckney Dispatch, a newspaper printed, published and circulated in said County once each week for at least six successive weeks.
