### 36 YEARS LATE

The state press has made much of an item from St. Johns, Mich. the past week. It seems that in July, 1907 Glenn Tupper then employed by the late F. L. Andrews on the Pinckney Dispatch, went to St. Johns to spend his vacation with Mr. and Mrs. Will Black. While there he wrote Andrews asking for a week's longer vacation. Mr. Andrews sent him a card granting his request which he did not receive until last week. We have heard of such incidents before. Usually the card or letter falls behind a desk or partition and is not found. As the local postoffice has been moved 4 times in the past 36 years we doubt if the fault is here.

## Scrap Drive Nov. 12

Army Trucks and Soldiers to Aid Local Trucks in Pickup, School Children and Town People To Aid.

Friday Nov. 12 is the big scrap day pickup when some 72 soldiers and 20 army trucks will invade this country to help pickup scrap iron and steel which is so urgently needed in the war effort at the present time. The school children and towns people are expected to take the day off and help in the collection. The scrap will be piled in front of the old ball ground on M-36 west of town. We understand that Pinckney is the collection point for Unadilla township scrap and it will be hauled here. The only 5 collection points named in the county, Howell, Brighton, Fowlerville, Hartland and Pinckney.

At noon the truck drivers will be given a free chicken dinner at the school by the Kings Daughters who will also provide the food.

The collection is expected to end by dark. Collection slips have been distributed around to the homes and farms by the school children. You should fill these out and the children will pick them up. By means of these slips the trucks will be routed.

At night a free program will be put on at the school auditorium for the ones who worked in the collection. The high school girls' glee club will sing and two playlets will be put on. One by Mrs. Raymond Morises room and one by Mrs. Bennett's room.

Then there will be a panel discussion in order of the Detroit F. Press "In Our Opinion" program or the Chicago Round Table. The subject for discussion is "Should the U. S. enter into an International Organization to prevent future wars." The panel will consist of 4 women, Mrs. Alta Myer, Mrs. Don Swarthout, Mrs. Lulu Lamb, and Mrs. Mary Jane Tusch and four men, Rev. Francis Murphy, Michael Roche, C.H. McKone and Rev. McLucas.

Following this dancing will conclude the program. Refreshments will be served.

Let's all do our part and get out the scrap on this day. Remember our slogan is "Don't Let the Boys in the Service Down".

She was crossing M-36 in front of the Hicks school where she attends when she was struck by a car driven by Preston Bailey of Hamburg township who was bringing pupils to the Pinckney school. Bailey took the child to the Pinckney Sanitarium where Dr. Ray Duffy set the broken leg. Then she was taken to McPherson Hospital in Howell in the Swarthout ambulance.

### PINCKNEY LOSES TO DEXTER

Pinckney lost their football game to Dexter there Friday on a muddy field by the score of 19-0. The game was closer than the score indicates as two of Dexter's touchdowns resulted from bad passes, Dexter had a double reverse play which they gave perfect blocking and reached the ten yard line. Here they fumbled and Pinckney recovered. The quarter was scoreless. In the second period Dexter scored twice, mostly on the double reverse and Mast kicked the extra point. In the second half Pinckney finding it impossible to go through the Dexter line and lacking interference for end runs started passing & just missed two touchdowns. Gus Ledwidge caught one and ran 40 yds. being downed on the 8 yard line. Pinckney reached the five yard line where they lost the ball on downs. Fred Singer caught a pass and eluded all tacklers only to slip and fall in a mudhole. Pinckney was outclassed as Dexter had a good line which gave their ball carriers excellent interference.

In Which Last Weeks Off Year Election Results Are Discussed

LOCAL OPTION If the Barry county test of local option indicates anything, it is this: Four out of 7 voters were of the conviction that county prohibition is not the answer to the alcoholic beverage problem. Facts: 170 business and professional people seized control from profit minded tavern operators and beer dealers, discarded the wet's fancy advertising copy and literature prepared in Grand Rapids, and even stymied New York distillers who sought to spend high sums in flashy promotions. They united in one appeal. County prohibition isn't the solution! The county seat newspaper which declines to accept beer or liquor advertising, aided the local business committee in preparing grassroots advertising copy, all of which was paid for by Barry county citizens who had no selfish interest in the outcome. Drys are encouraged by revived interest in improving demerol enforcement in stricter control.

RAIDICAL ISSUE. Detroit's race riot last June was reflected in the reflected in the re-election of Mayor Edward J. Jeffries and the defeat of Frank FitzGerald who had been proclaimed by CIO and AFL to be the "union labor candidate". Actually, labor did not stand united behind FitzGerald. At the last minute the racial issue overshadowed the labor-capitalist issue which had been fostered fervently by FitzGerald followers. The Michigan Chronical, Newspaper in Detroit, announced the unanimous endorsement of FitzGerald by Negro organizations, while Jeffries advertising emphasized that he was opposed to mixed housing of Negroes and whites. In Hamtramck a suit had been filed by Negroes to force entry of Negro families in a government financed housing project. Side complication: Activity of the Franklin Douglas (Negro) Club of the Communist party, 3425 MacDouglas St. Detroit.

HATREDS. The racial issue in the Detroit campaign again has led observers to predict that unless Detroit acts to provide better housing park and playgrounds for Negroes Paradise Valley is apt to be the scene of a repetition of the disgraceful riots of last June. Counter to this remedy, which acknowledges the use of segregation, is an aggressive attitude of Negro leaders-encouraged by Communist propaganda, in part-to demand racial equality in housing parks schools and other facilities. In other words mixed occupancy and use a policy which Detroit's southern born whites will never approve. Hence the emotional clash of prejudices climaxed by the re-election of Jeffries.

## CURRENT COMMENT

By Ye Editor

The off year election last Tuesday in Barry county showed liquor prohibition at a very low ebb. This county was chosen by the drys as a test election for the reason it was under local option for years before prohibition and was the only county to vote against the repeal of prohibition. Much money was spent by both sides in the election yet the results showed that some 8000 people preferred liquor control as it is at present to a return to the prohibition days. Big business which helped put prohibition over in World War I days came out for legalized liquor and an appeal signed by 170 of the leading business men is credited with doing much to swing the election. One thing undoubtedly that contributed to the wet victory is the tax question. Under prohibition, the liquor business, would be illegal and consequently tax free and would shoulder none of the tax burdens of the country. Now liquor pays a high tax into the local and state treasuries to carry on the government. Barry is a rural county and if the prohibition sentiment is non-existent there it probably is also in the other counties. Back in the days when women suffrage was being debated and before its adoption one of the favorite arguments for those in favor of it was "Give the Women the Vote and They Will Put the Saloon Out of Business and Keep It Out." But there has been a big change in the feminine viewpoint since mother was a girl.

We see where Gov. Kelly and o. h. r organizations are appointing groups to study milk situation. There is but one thing to consider. That is to produce more milk. When there was an abundance of milk, more than could be used, or was used, a few years ago Mich. Milk Producer's base and surplus plan worked all right and most any other plan would have done the same. Put a good profit in the milk business for the farmer and there will be plenty of milk. The creamery gets 10c of the 15c per quart price paid for milk and the farmer 5c. Why not give the farmer the same as the creamery receives.

Gen. Simon Buckner, commander of Alaska, in a press interview, stated "Before Japan is Conquered, US soldiers will have to march into Japan and take over and the same thing holds true for Germany." If this had been done following the other World War there would have been no World War II added. In other words these hit and run air raids are not enough. While they contribute their part to the ultimate end only the complete loss of their country and government will convince a nation of its complete defeat. In the days of the Roman empire the Romans always made the people of a nation they had defeated nation pass under an ox yoke to signify their complete submission to the Roman conqueror.

The Moscow Pact recently promulgated there by representatives of Great Britain, China, Russia and the US reads more like a peace treaty than any other document so far offered although many important questions are omitted and will have to await the final peace table signing. It provides that any Nazi officers committing atrocities will be sent back to the district where they were committed for trial and punishment. Austria Italy and Poland etc. will be restored to their standings as independent nations under certain restriction. Nothing is said of the small synthetic nations carved out of Russia and Germany after World War I to act as buffer nations against Germany and Russia such as Latvia, Estonia and Lithuania. This idea did not work out as they were too weak to stand alone and were early casualties of the war. Of course this pact is only a mere outline but is something more definite than has yet been offered.

How to avoid  
Wasting Light

Today any waste of electricity is as  
serious as wasting rubber or gasoline or  
other critical war materials. When you  
save electricity, you save coal. Here are  
practical ways to save electricity in your  
home:

- (1) Turn off lights in rooms not occupied,  
and floor or table lamps not immediately  
in use.
- (2) Wipe lamp bulbs frequently,  
also reflector bowls and ceiling fixtures.  
Dust wastes as much as one-third of your  
light.
- (3) Flaring lamp shades do a better  
job of spreading light than straight-sided  
shades. The wider the opening at top and  
bottom, the more useful light is directed  
into the room.
- (4) Avoid dark-colored  
lamp shades (they soak up light), or try  
fitting them with white linings. Use good,  
white paper and fasten seam with Scotch  
tape. White linings will often increase the  
amount of light from the lamp by as much  
as 50 per cent.
- (5) Whenever possible,  
make floor and table lamps serve more  
than one person for reading or sewing.  
A single lamp on a table, for example,  
can provide light for chairs on both sides  
of it. The Detroit Edison Company.

"IT'S TOUGH  
NOT  
TO KNOW"

IN MICHIGAN, a thousand miles  
away, his young wife is in the hos-  
pital. Ever since he got exoused  
from drill he's been waiting by the  
public telephone—waiting to get a  
call through to the doctor—hoping  
to hear him say, "It's a boy, and  
they're both doing fine!"  
But the wires are crowded with

calls that move armies and speed  
war production, calls from service  
men to the folks back home—and  
many civilian social calls.  
So—patiently he waits. Waits and  
looks at his watch with a lump in  
his throat. And finally he'll have to  
go back to his barracks—to go to  
bed, but not to sleep.

If you want to do a good turn for soldiers and  
sailors, leave the long distance lines clear for their  
calls in the evening between 7 and 10. That is  
usually the only time they can telephone. And if  
you have a man of your own in the service, remem-  
ber it's better to let him call you. If you try to reach  
him by long distance, he's often difficult to locate.

THE OLD JUDGE SAYS...

"Yes, I'm afraid there's no denyin' it, Judge... Jeeps and trucks and other kinds of motorized equipment have taken the place of the good old horse in modern warfare."  
"It's true of lots of things in this war, Eben. Every day we hear of new tactics and requirements and new uses of products. For instance, take the alcohol that is used for war purposes. In World War 1, this vitally needed product was used mostly in making smokeless powder, chemical warfare materials and medical supplies. Today it must do far more... it must provide the base for such indispensable products as synthetic rubber, shatterproof glass, lacquers, plastics and many other of our requirements so essential to victory."  
"As a result hundreds of millions of gallons are required every year... half of which is being produced by the beverage distilling industry. Bet you didn't know that, Eben."  
"As a matter of fact, I didn't, Judge. That's a mighty important war contribution that had escaped me completely."

# Vitamins

WHY YOUR FAMILY NEEDS VITAMINS  
So important is an adequate Vitamin intake to the development and growth of children, and the maintenance of good health in the adult, that every precaution should be taken to guard against a deficiency. Thus it has long been the practise to administer Cod liver Oil to infants for Vitamins A and D and orange juice for the Vitamin C. Now many of the Vitamins are made synthetically in the chemical laboratory, or separated in high concentration from natural sources. Medical science has shown that it is desirable to supply these and many of the other Vitamins, in suitable form, either singly, or in combinations, to infants, older children, and adults as well.

RECONVERSION That Michigan's post-war reconversion period will bring the biggest unemployment headache in history is generally conceded. Industry has stripped its plants of peace time machinery. Restoring the plants to former productivity, plus the expense of renovating equipment and maintaining payrolls, will require plenty of cash. Cash can be provided out of war time profits out of pockets of stockholders. If you believe that stockholders should foot the bill, you walk right into government ownership and control. According to studies of the U.S. Treasury Dept., U.S. corporations will have a total of \$11,600,000,000 in net profits at the close of 3 war years-1941-42-43. In 1932, worst year of our depression, industrial deficits reached \$7,800,000,000. You'll probably hear more about war profits in 1944.

FOOD SUBSIDY. Opposition to government subsidy of food prices has been registered emphatically by Michigan farm groups-State Grange and the Farm Bureau. Washington observers forecast that the administration program of farm subsidies is likely to be rejected by Congress. In the meanwhile organized labor is driving for higher wages. The combined effects may be higher food prices with the worst pinch coming next spring. Example of the inflation spiral: War Labor Board granted lumberjacks an increase in wages. OPA then raised lumber prices. Consumer, paying a higher price for furniture, will complain of "cost of living" and ask adjustment in pay. And so around the circle. Another example. Miners wages.

ARE YOU INTERESTED IN BUYING A NEW AUTOMOBILE WHEN THE WAR IS OVER

Many people now own their cars for the first time in their lives. If you like that feeling of being out of debt here is a way to remain so.

While work is plentiful and wages good, save all you can by investing in United States War Bonds: the best investment in the world today. These bonds may be cashed as needed so do not hesitate to buy at every opportunity.

We believe it is a better policy for most individuals to borrow money to make more money, like a farmer buying stock to feed or merchants buying merchandise to sell; or a laboring man buying a home for his family. Buying luxuries "on time" leads to dissatisfaction and worry. Try to save and pay cash for whatever you buy.

WAR Neil Baughn

The US entered the war on Dec. 7, 1941. The Japanese played a sneak attack on Pearl Harbor. Radiar the wonderful invention detected planes coming but all supposed they were American. But supposing cost America 3000 lives at Pearl Harbor. On Dec. 8, 1941 Congress declared war on Japan. On Dec. 11, 1941, Germany and Italy challenged America to War. Congress acted quickly and accepted. The next months were gruesome for the US, with the Japs capturing many islands in the Pacific. The Russians were trying to recover from the German's summer drive. Germany was forging on in Africa. The British were being badly bombed. The Japs had captured Kiska in the Aleutian Islands. These are

days we want to forget.

At home we were beginning to realize that this is war. Work on the huge Bomber Plant began. Blackout, gas, food and shoe rationing; that made us realize this is war. The war at this time wasn't so good but it was going to change. Gen. MacArthur and his men invaded New Guinea, Port Moresbie was taken. Soon the great victory on Guadalcanal that every American remembers. Then the news began to get brighter.

In the Atlantic troops were being sent to England, Greenland and Iceland. In the spring of 1943 the Allies invaded Casablanca. Soon the Allies had pushed on through Algeria & Tunisia. Soon the Axis were all out of Africa. The Russians were starting to push the Germans back. Gen. MacArthur and his famed "Red Arrow" division had taken Buna. They were pushing up and over the Owen Stanley Mountains. The 5th and 7th American armies under Gen. Clark and the British 8th army under Gen. Montgomery now invaded Sicily. Sicily was captured in quite short order.

Gen. MacArthur had now captured Lae, the Jap abandoned Kiska, the Russians were pushing on toward the Dnieper River & Mussolini resigned. This put Italy in a turmoil. The king signed an unconditional surrender charter with the Allies on Sept. 3, 1943. The allies invaded the toe of Italy. The American troops landed at Salerno near Naples. The eighth Army pushed up and met the American army. They pushed on to Naples and captured it and now have Rommel on the run to Rome. The Allied line runs from approximately twenty miles north of Naples across to Ter mole.

The Russians captured Kieve across the Dnieper. American bombers are blasting Germany. General MacArthur has succeeded in capturing Finckhafr leaving a clear road to Rab

ual. At home the third war loan drive went over the top. We all know we are in the road to victory. So lets All. Back the boys that back the attack.

WHAT I THINK OF OF THE WAR

By David Aberdeen

I think as almost all other people do that this war is the worst and most terrible thing that ever has or ever could happen to civilization. But it is also something that has to be done. The tyrannical arrogant cruel almost barbaric Japs and Nazis must be squelched or the whole world will feel their cruelty. As it is many poor little European countries have felt it. Even now our own men and women are fighting the enemy on many battlefronts. On remote South Pacific Islands with names so long we can't pronounce them. But our Marines can pronounce them. Each man has embedded in his memory forever terrors he will never forget. He knows the feeling when his own buddy falls next to him with a bullet in his heart.

Yes he knows. The boy in the Italian battlefront knows too. He knows the roar of a Nazi transport plane laden with German paratroopers. He shoves the stick forward and starts his dive. ....A jap plane goes down flaming. "Here's for you Bill" says the pilot. Then whipping his plane down he downs another Zero. "And Here's for me." he says. The worst war ever. Fought with the strongest of weapons and the cunningest enemy. A terrible war that will be in the annals of history forever. Yes some day this war will be over. But many lives will be lost and many tears shed of a mad man's brain has been crushed. And when this feindish masterpiece shed we will say that all the sorrow has not been in vain. That this will be the end of this terrible torture called war.
