**TRAIN-AUTO CRASH FATAL**

Dorothy June Bowman, daughter of Mr. and Mrs. John Bowman of Marion township was instantly killed about 2 p.m. last Sat. when the car in which she was riding, driven by her father, John K. Bowman was struck by a fast Pere-Marquette freight train crossing on the Pinckney road just north of the Senaut greenhouses. How the accident happened is uncertain. The gates at the crossing have been replaced by flasher signal and bells and these were operating when Mr. Bowman started to cross. A freight was on siding near the depot, east of the crossing and it is supposed Mr. Bowman saw this but did not see the train approaching from the west. The car was demolished. Mr. Bowman received a fractured skull and injuries and Mrs. Bowman internal injuries. A son, Edward, 16 received cuts and bruises. The injured were taken to McPherson hospital, Howell. Edward was able to return home that night but the rest are still there. Mr. Bowman in a critical condition, being unconscious most of the time.

The funeral of Dorothy Bowman will be held from the West Marion church Thurs afternoon, Rev. Leach officiating. Burial will be in the Greer cemetery.

**NOTICE**  
A meeting will be held at the home of Jacob Bauman, 740 Pinckney road at 8:00 p.m. on March 26 for the purpose of organizing a 4-H club.

## AMERICAN HEROES BY LEFF

It cost her six weeks in the hospital, but plucky Pvt. Margaret Maloney, Rochester, N. Y., wasn't stopping for that when she saved the life of a soldier who fell into a pool of blazing gasoline. The first woman to receive the Soldier's Medal, she was a proud W.A.C. at the regimental review in Algiers when the Medal was awarded. Buy More War Bonds—Keep in practice to beat the Axis.

## Local C.A.P. Doing Well

Pinckney Organization Now Has An Membership of 75. Is Progressing Nicely.

The Pinckney CAP which now numbers about 75 was inspected by Major Ross of Lansing, commander of this district Thursday night who complimented their proficiency in their drill practice. The instructors are Lt. Schwartz, Lt. Flannigan, and two other veterans who have been discharged for disability. So far this course of training has been mostly cadets to give the members composed equally of boys and girls a military bearing. Occasionally the squad is split and an instructor takes part of them to a class room where they are instructed in army tactics, such as general orders, the meaning of the different military insignias etc.

The drills are held at the school each Thursday night. When warmer weather comes they will be held in the ball park west of town. On March 26 it is expected that an airplane will be here to take those who have shown the most proficiency up for rides.

It is planned to put on some form of entertainment in the near future to raise money to buy uniforms for the patrol. This summer they will take part in a district inspection.

This is the first such group in the county, and is the largest in this district. Howell has a small one made up of mostly civilian airplane owners. Recently the boy scouts there have formed a patrol with 17 members.

## GOLDEN WEDDING

A very delightful affair took place as Dr. and Mrs. McGregor entertained at their spacious home in Brighton Sun. March 19th honoring Mrs. McGregor's parents, Mr. and Mrs. Wm. Mercer of Pinckney. The occasion commemorated their 50th wedding anniversary. At two p.m. the guests assembled in the recreation room where they were served to a sumptuous and beautifully decorated with roses, snapdragons and daffodils in color appropriate for the occasion. The bride wore a corsage of orchids presented to her from her children. Each lady received a corsage of yellow roses tied with gold ribbon as a gift from the bride and groom. As Mrs. Michaels sang "I Love you Truly" little Jimmie and Janie appeared at the head of the stairs depicting the bride and groom. They marched slowly down to the tune of Lorengins wedding march. They advanced to the head table to congratulate the bride and groom of 50 years after which they were seated to a small table in front of the fire place. Moving pictures were then taken. After refreshments old dobbie hitch ch to a shay, laden with gifts for the honored couple which were many and beautiful.

About 45 friends attended, six of which attended the wedding 50 years ago.

They were Mark Allison, Norman Reason Pinckney, George VanHorn, Howell, Charles Holmes, Mrs. Graie Bennett and Mrs. Florence VanWinkel, Lansing.

## Mich. Mirror State New

In Which More State Politics Are Discussed At Length

How a home-town friend of Gov. Murray VanWagoner happened to become the press secretary for Gov. Harry F. Kelly is one of those stories that indicate the changed attitude of Michigan state officials at Lansing.

Maybe the civil service amendment to the state constitution had something to do with this newly arrived recognition of merit.

Michigan state government has traveled far. Such non political appointments would have been the height of heresy 20 years ago. As we view the capital parade the modern trend is all to the good.

Ted Haynow was the best city editor the Pontiac Daily Press ever had.

He was a quiet chap who had a way of getting things done with a minimum of noise and fuss. He never waved his arms, shouted instructions to reporters, or lost his temper. His mind, always cool and collected, handled the days "grind" with ease and efficiency.

One spring day after serving 15 years as city editor, Haynow glanced up at the blue sky and decided it was time to quit. His youngsters were growing up. He wanted more time to enjoy his home, his farm and also that bass-stocked lake.

Harold Fitzgerald, publisher, and Conrad Church, managing editor, received the unexpected decision like a thunderbolt on a cloudless day. No. Ted wasn't dissatisfied. He just wanted to be his own boss, free of any newspaper desk with its exacting possibilities, yes, but was it?

Life on the farm led to another adventure—running an old-fashioned country store at Davisburg. His miniature Wannamaker emporium contained everything to automobile hub caps, with coal business and lumber yard thrown in for good measure. The gross one year was close to \$80,000.

Somehow in the rush of doing unimportant things at Lansing, he forgot to track Ted until we read the news. Late in 1932, that he had been named assistant sec. of the state safety commission. We read between the lines, "Lucky, the governor's press secretary was still remembering his friends. It turned out that Haynow had injured a foot while cutting hay; thought a desk job would be fine if he didn't have to "play" politics.

Your prayers are solicited for the spiritual and temporal welfare of Paul Perry wounded in the Southwest Pacific. His father, Edwin lives at Anderson and he has a brother Robert who is also in the service.

Among the intentions in the Holy Mass this week are Sun. for the late James Gibney, requested by Mrs. Teresa McCleer and son, Joseph. Mon. for the late George W. Clark requested by Mrs. G. W. Clark, Tues. for late Frank and Mary Bodley, Wed. for late Elizabeth Bodley, both requested by devoted daughter. Thurs. for late Stephen O'Brien requested by Mrs. Willis Canek. Fri. for the late Josephine O'Connell. Sat. for late Mr. and Mrs. Frank Bowers requested by Mrs. G. W. Clark, with commemoration for members of the purgatorial society and boys in the U. S. service.

Saturday in the feast of the B. V. Mary and the First Joyful Mystery of the Rosary. On Sat. the altar and all appointments are draped in purple in memory of the 100th Life of Our Blessed Lord and his Sacred Passion, which is observed from Passion Sunday until the Gloria of Easter Mass.

Lenten Devotions Wed and Friday nights 8 and 7:45 p.m. followed by the sacrament of penance in Preparation for Holy Communion.

We wish to thank all the members of the Committee and friends and neighbors who assisted and attended to make the St. Patrick's Social and Party a success on Friday p.m. in the local high school hall.

We extend our sincere condolence and Spiritual Blessings, and prayers, to the bereaved family of Mr. and Mrs. Bowman in their hour of sorrow.

## CURRENT COMMENT

By Y. Editor

The neutrality of Ireland was a hot issue the past week and caused considerable discussion of that country's stand in the present World Conflict. In the present incident the question is "Who are they neutral against?" and the answer is Great Britain. This is not that Ireland has any love for Hitler. They have not, for every single one of its principles is directly opposed to every ideal of Irish freedom. During the past 100 years during which Great Britain by force and otherwise tried to absorb Ireland and failed she implanted the Anti British antipathy in the Irish people that endures to this day.

In explaining the wholesale drafting of pre-Pearl Harbor ratters, Col. Francis Keessing Jr. before a congressional committee last week laid the blame to the factories now engaged in war work. He stated that they were given permission to exempt young men who hold essential or key positions until they had time to break in other men on these jobs. Why they failed to do this the married men had to be taken in order to keep the army quotas up and not disrupt war production schedules. In any event married fathers would have to be taken sooner or later as the unmarried exempt war workers induction would have only momentarily halted the fathers induction.

Those who prophesied the end of the war in 1943 are not quite so sure it will end in 1944. The German's with their back to the wall are resisting fiercely and the going is proving hard in Italy following the surprise landing at the Anzio beachhead, our troops have been unable to make any progress. The capture of Rome halted them as only 48 hours away is still as far away as ever as our troops have not been able to advance. The Russians are still advancing but the fighting is still on Russian territory and the Germans are apparently only falling back to new positions. The conflict against Japan is in our favor but our conquests are still confined to small south sea islands and Java, Shanghai, Hong Kong, Borneo and the Philippines are still held by the Japs. The brightest spot on our horizon is our practically unopposed bombings of Germany. Apparently our only hope for an end to the conflict this year is the opening of a new second front when our forces will be so great and powerful that we can sweep through the occupied nations into Germany in short order.

The announcement of the cut in value of a card gas coupons from 3 to 2 gallons should do much to revive the once popular art of walking made famous by such experts as Ed Raymond Weston and Dan O'Leary. The only bad thing about it is that it penalizes the law abiding persons with those who flout the gas rationing law. This drastic action was caused by a flood of counterfeit gas rationing stamps which threatened to swamp the nations gas supply in short order. We have been told by war workers that they could buy all the gas coupons they wanted if they would pay the price but we had no idea that the gas bootleg racket had reached such tremendous proportions. We understand that C coupons were the ones generally counterfeited and were sold mostly to war workers. The percentage in use in the different cities are said to be as follows: Detroit 30 percent, Baltimore 45 percent, Newark, 40, Philadelphia 35, Youngtown 45, New York 30, Columbus 40, Atlanta 25, Richmond Va. 50, Chicago 35, Milwaukee 50. San Francisco 15. Racketeers and criminals of all classes were getting into the racket. The profits were tremendous. A cigar box full of fake coupons sells for \$10,000. In the last two months the FBI has arrested 245 persons for selling counterfeit gas coupons and 101 in the last 11 days. Once again Hitler is served by a greedy bunch of racketeers who place their own profits above their country's welfare.

**MRS. DOROTHY LOLL**

**"BETTER CARE-LESS REPAIR"**

because repairmen and materials HAVE GONE TO WAR!

What are your electric appliances made of? Copper, steel, brass, zinc, aluminum, nickel, rubber... materials vital to war production. Needed to make weapons for our fighting men. These materials have gone to war. That's why repair parts for many home appliances are not now available.

The man who used to fix your washer or refrigerator may now be repairing tanks on the battlefield. The man who serviced your radio may be repairing a "walkie-talkie" under fire. Your neighborhood "handyman" may be working on airplane engines in Britain or the South Seas.

Take good care of your household electric appliances. They must last until Victory. You may not be able to get them repaired. Today your ELECTRIC servants are often the only kind available. Treat them considerately!

## What You Buy With WAR BONDS

4 for 1

U. S. destroyers and other anti-submarine vessels of the Navy are equipped with quadruple tubes, meaning they are capable of firing four torpedoes simultaneously, making it more difficult for the target to escape.

Modern warfare is the most expensive destruction the world has ever experienced both for the destroyer and the destroyer. There is no point where we can stop in this war this side of peace so all of us will be required to buy an extra \$100 Bond in the 3rd War Loan.

## THE OLD JUDGE SAYS...

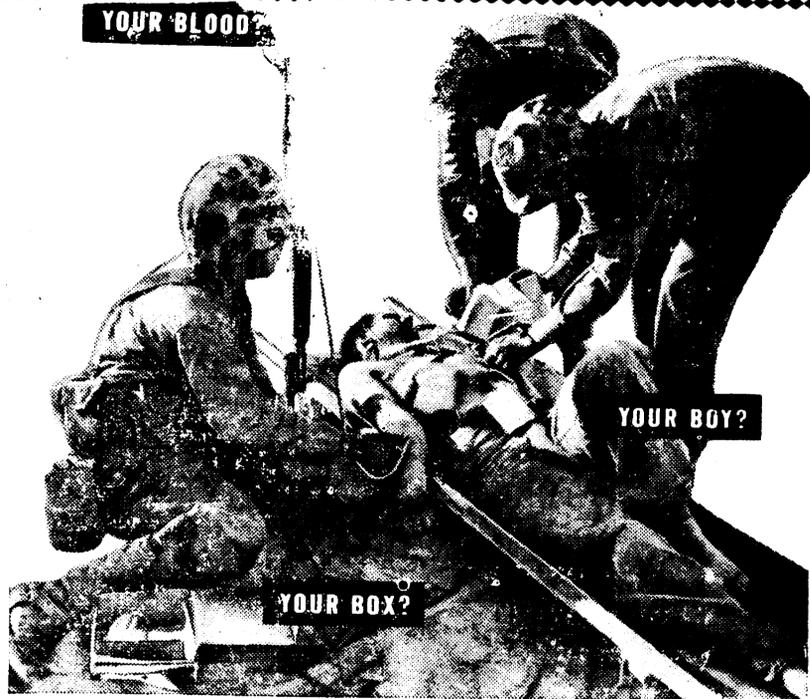

"That's really a great editorial you just read to us, Judge. Where did you say it appeared?"  
"In 'The Stars and Stripes'... the newspaper of the U.S. Armed Forces in Europe. Kind of... us folks back home something to think about, doesn't it, Bill?"  
"It certainly does, Judge. Particularly the last paragraph. Would you mind reading that again?"  
"Glad to, Bill. It says, 'We can remember

the days of prohibition, when moonshine whiskey made quick fortunes for bootleggers, crooked politicians and dishonest police officials. As a result, we claim we know what we want in the way of liquor legislation and feel those at home should wait until we return before initiating further legislation on liquor control.'"  
"Out of fairness to our boys over there fighting, Judge, how could we disobey such a wish?"

### WASTE PAPER needed for Plasma Containers!

Waste paper is such an ordinary thing . . . yet it may help to save the life of someone dear to you! For paper is playing a vital role in the war today. It makes containers for blood plasma, and food rations; even parachutes to float supplies down to hard-pressed troops in hot corners.

With wood pulp scarce, the paper industry has had to turn to waste paper for raw material. *Waste paper is now our No. 1 war material shortage!*

Save it, bundle it, turn it in. You'll save lives and shorten the war!

## THE MICHIGAN MIRROR

Continued from First Page

When the genial VanWagoner turned over the executive offices to H. F. Kelly, the newsmen at the press room wondered what "Luk" was going to do. He had been accepted as being an efficient newspaperman and a loyal Democrat. Gov. Kelly gave no inkling of any disposition to replace him, and finally Lucas resigned on his own free will and re-joined the highway staff. His new title, as we remember it was "Director of War Activities" but every one knew the duties were the same—getting information to the public.

When the governor's office got around to settle the vacancy, after Pete Miller of Plymouth had done some pinch-hitting, the announcement was made that Ted Hayhow was to get the assignment, a \$500 per month position with increasing compensation under the civil service tenure. It was a long jump from country farmer and proprietor of the Davisburg general store.

Ted took over, cool as ever, never batting an eye.  
Well, figure it out for yourself. Not because Ted was a Republican or a Democrat. The governor never asked Ted about and Conrad Church, Ted's boss at the Pontiac Daily Press, doesn't know either. As a matter of fact as Church puts, "I never thought to ask him. Which probably goes too far for Gov. Kelly."

INTERNOS C.E.S.  
The sophomore girls except their red-headed; classmate wished to be called "The Classical Girls" because of the fact that all see with the aid of glasses. A collection is now being taken up to secure a pair of sun glasses for Virginia so that she can be included in new group.

T.H. has obtained R.K.'s ring at last even if it took a square dance to get it for him. We ask the question: Does she really want him to have it? How does Bill figure into the picture? Maybe the future will reveal the answers to these questions. Only time will tell.

The Deacon who has claimed to be a woman hater has at last been captured by the aluring Vida. Although Deacon's friend Squirt escorted her to the dance, it was Deacon that stole her heart; at least for the evening.

The Junior girls basket ball team won the school championship by the score of 6-30. They played the other grades combined. Jean Craft came through with 26 points while Bernice LaMont made 4.

The Junior boys are also school champions, defeating an all star team picked from the other grades.

Fred Singer was the guest of honor at a birthday party given him by his mother. The last hour Friday afternoon was devoted to this gay time. The entire Junior class was

### PHILATHEA NOTES

On Sunday Mrs. Kellenbeiger led our Philathea Class in a careful study of Mark's account of the most vital subject to the world, "Jesus Crucified". All the ages of the past had looked forward to the fulfillment of the promise, and because of the absolute fulfillment of prophecy, we know that those who believe in the fulfillment of other Bible prophecies are not necessarily insane as some imagine.

Our heartfelt sympathy goes out to those who have recently been bereaved and where tragedy has suddenly come to the home. We pray that he who "was acquainted with grief" may give them comfort they sorely need in this hour.

## When the War Is Over

That much yearned for, almost legendary, day will mark a new era for transportation, as it will for everything else.

And our railroads will be ready.

We have plans for that day—plans that are realistic, forward looking, surprisingly progressive.

Michigan's railroads will join in the great change ahead.

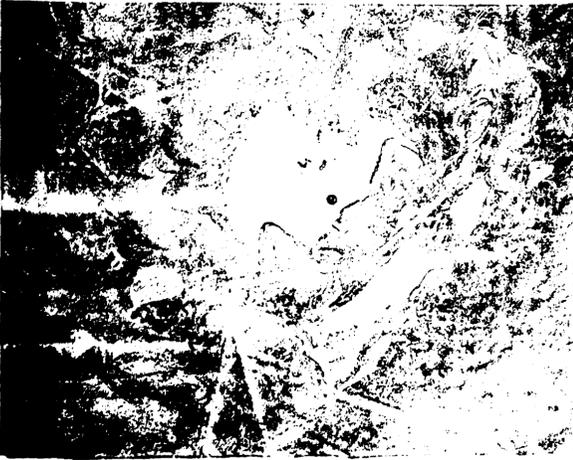

They are picturing a future of improved plants, changed equipment, faster schedules, more efficient operation of both freight and passenger services.

The railroads have learned many things during this war period. America will benefit from this new "know how" in the days to come.

"When the war is over" America will move at an increased tempo. But no matter how much faster life will be, or how much greater will be the demands upon transportation, the railroads will be in the forefront, carrying the bulk of America's increased and accelerated passenger and freight traffic, and doing it with smoothness and efficiency.
