Mich. Mirror State News

In Which More State Politics Are Discussed At Length

As the writer of a column that appears in nearly 200 Mich. newspapers each week and which seeks to interpret news of interest to Mich. people we are frequently humbled by the stark realization that the role of a contemporary historian offers many hazards.

First, limitations of the writer's mind serves as an unseen censor. The writer must gather facts, sift the facts and correlate the facts until he arrives at some judgement as to a collective trend. Success or failure of this undertaking will depend to a large degree upon how thoroughly he does these three things. Also, he must possess a willingness at all times to change his mind for the parade of people and events moves on, unendingly, and life does not stay still. The interpreter must move with it.

Second, limitations of the reader's mind serves as a second censor. Each person colors his judgement in the light of his knowledge or lack of it; his background of life which involves his environment; and his established prejudices which he often inherits from his ancestors.

All of this is preliminary to a brief inventory of the Michigan Mirror interpretations since Pearl Harbor.

We were honest in our interpretations. But were we right, Let's take a look at the record.

Three-Year war is planned

Jan. 7, '42 "Despite the encouraging headlines of Nazi defeats in Russia, the facts that Washington now plans for three year war production of arms growing as it has been totally inadequate to meet new needs. Unless the German nation collapses from weak morale or a lack of needed supplies, we must wait until 1942 and possibly 1944 before there are sufficient arms and trained men to justify a full-scale military offensive. Unless we strap for action quickly, we may be too late."

One Year Later: May 1943

Lieut. Gen. Benon Somerville, chief of the army services of supply, visited Michigan last summer. Recent visits Michigan last summer. He declared that the US army will not be completely equipped until late in 1944. Only in the field of ammunition is there a reserve. Rumors of over-production were called the work of fifth columnists.

July 23, 1943: "Instead of fighting one war, and with France, Italy and Japan among our Allies, we have two wars on our hands; our troops are yet to land in Europe, only four of our divisions saw action in Tunisia. We still have a long way to March into Berlin and Tokio."

MISSING PLANE FOUND

The CAP plane missing since last Monday when it left Benton Harbor was found in a woodlot on the farm of Mrs. Carrie Smith, 4 miles south of Dexter and one half mile north of U. S. 112. The pilot, Allen Dillon, 38, Benton Harbor, Richard Burke, 22, of Nile were all found. The plane evidently got lost in the rain and snow, struck a tree and landed 300 feet from where it struck. All three occupants were thrown clear Friday morning by three boys, Thomas Young, 15, Raymond Young, 13 and Robert McAllister who were riding horseback. Sheriff Osborn of Ann Arbor took charge of the bodies.

The men had purchased the plane a month ago to make trips to Detroit. A large sum of money they carried was found intact.

CURRENT COMMENT

By Ye Editor

Wendell Wilkie's withdrawal from the race for the Republican presidential nomination about assures Gov. Dewey of New York of the nomination despite his coyness and refusal to make an announcement of his candidacy. At this his continued assertion that he is not a candidate is probably giving him as much publicity and free advertising as his announcement would and besides he does not have to make a nation-wide speaking tour.

It is following the exact course of President Roosevelt in 1940. Wendell Wilkie's career was spectacular and there will probably never be another like it. In 1936 he was a delegate to the Democrat national convention and helped to nominate Roosevelt. Later he split with the President. In 1940 the 2 principal candidates for the Republican nomination were Gov. Dewey of New York and Sen. Taft of Ohio.

The industrialists in the east did not care for either. Taft was too strongly isolationist for them and Dewey was considered an untried person with unknown views on the liberal order. They picked Wendell Wilkie only a short time before the convention and most of his buildup consisted of writeups in prominent magazines.

The convention was made to order for them. Dewey and Taft cut each other's throats and Wilkie aided by organized workers and plenty of funds stepped in during the deadlock and got the nomination. He had only a short time to campaign in but nevertheless received the largest vote of any Republican candidate in history.

22,304,755 Hoovers vote when he was elected in 1928 was only 21,392,190. President Roosevelt, however got 27,243,366 to defeat Wilkie. In the election Wilkie went up against the unalterable fact some 5 million vote only when Franklin D. Roosevelt is a candidate. Wilkie's withdrawal is due to the fact that he staked his political fortunes on the presidential primary in isolationist Wisconsin which he lost. By his efforts he has made impossible the nomination of an isolationist conservative candidate by the Republicans.

Some time ago we believe a state law was passed banning high school fraternities and such societies. One has just been unearthed at Jackson and a number of students there face expulsion. This society was distinctly subversive, two of its methods of initiation being to have members wipe their feet on the US flag and plunge a knife through the Holy Bible. The society was not only atheistic but also revolutionary and its main idea was to promote a revolution and seize control of the government. There must have been many essential elements lacking in the home life of these students and the school cannot escape without a certain censure for it is their duty to teach reverence for the flag and the governmental institutions of this country.

The milk question always a trouble one in Michigan is again in the limelight. The whole thing seems to revolve around the fact that at certain times of the year there is not enough milk to go around but in the early summer there is too much. The OPA last year set a quota that the creameries could sell only 90 percent of their sales in June 1943, a high production period. At this time due to many milk cows and an increase in the herds the milk received is vastly over that amount. The dairies are supposed to process the surplus milk but as they only receive about \$1.75 per cwt for processed milk and are paying over \$3 for the milk they are dumping the surplus in the sewers. An appeal is now being made to have the 90 percent rule lifted. Later we hear they have been allowed to increase their milk sales. The increase to be deducted in periods when sales decrease.

Walter Lippman in the Detroit Free Press states that the next president elected may be a minority president and not receive a mandate from a majority of the people. This he bases on the assertion that very few of the soldiers serving overseas will vote and also many of the migratory war workers will be disenfranchised. The Gallup people have made an off record poll which shows that only about 37,000,000 will vote next November. In 1940 nearly 50 million voted. President Roosevelt's friends are said to have made the following tabulation: 1. If 40 million vote the president will lose, 2. If 45 million vote he might win, 3. If 50 million vote he is sure to win, 4. If 55 million vote he will carry congress.

"The GOOD-NEIGHBOR policy" applies to party line service, too!

Lots of us have found out lately that it's no hardship to share with others. Pulling together in friendly co-operation is one of the valuable lessons of the times. Today, as a war necessity, more and more people are being asked to share party line telephone service. By treating others on the line as they themselves would like to be treated, good party line neighbors help to improve everybody's service.

A GOOD-NEIGHBOR CREED
A good party line neighbor thinks of it this way: "Somebody else on my line may be waiting to make a call, so I won't talk any longer than I have to. When the line is in use and I'm waiting my turn, I won't interrupt. When I finish a call, I'll make sure I've hung up properly, because if one instrument is left 'off the hook' it puts all the telephones on the line out of service."

Thousands of women want
A "MECHANICAL PIG"
in their kitchens—

AFTER THE WAR

It doesn't really look like this—the handy gadget that grinds up bones and scraps and washes them down your sink drain. But think how convenient it will be—after the war—to simply scrape off the dishes after a meal and not bother trotting out with the garbage! "Mechanical pigs" aren't being made now. You'll probably want one when they are again manufactured. Meanwhile, put your money in War Bonds. Someday you will be able to own one of these handy waste-disposal units and a quick-freeze cabinet and a dishwasher and all the other aids to better living that electricity will make possible after Victory.

Continued from First Page THE MICHIGAN MIRROR

Can we win the peace? Sept. 24, 1943: As the casualty lists grow longer, splashing our silver stars with gold, what will we think and do? Will we return to nationalism and its renunciation of world responsibility for winning the peace?

Oct. 22, 1943: "Germany has 300 well trained and well equipped army divisions in Europe. Most of these are on the Russian front. The American army and navy at the end of 1944 will have about 7,500,000 men overseas and 3,750,000 still on duty in this country. Today, the reverse is true. Our overseas armies are not concentrated in France as they were 25 years ago, they are scattered around the globe. At the end of two years, we are just about ready to transport a big invasion army in Europe. Our big test is yet to come. Dec. 30, 1943. The big channel invasion is likely to take place between April and June. The time is here for frontal attack by the doughboy, supported by air and land artillery. Air power alone will not knock out Germany. We predict: Unconditional surrender of the Nazis by late autumn. A Glimpse into the Future.

Next week's Mirror will review objectively some facts about tomorrow, as we know them today, and then present some interpretations for you to think about. It isn't important that you should agree with what we say. Then this column will have served a useful purpose.

INTERNOS The saying "far pastures look greener" seems to be proving true in the case of Ed, Gerry, Dale and Bud who have been seen in Stockbridge of late. What's the matter boys? Are they better looking than the Pinckney girls?

The Easter rains put a damper on festivities but did not faze Ross. He took Pat out but he had to get his old faithful Dobbin to take her home in true horse and buggy style.

We hear Jean C. took her new boy friend to church Sun. There is nothing like getting off right Jean.

Once again the redoubtable Robert (Sq.) Carr is leading the life of a hermit. He says the more he niggles with the fair sex the less he knows about them. It is reported his next attempt will be to take piano lessons. He has practised trap drumming some but it does not get results and only makes the neighbors mad. Bailey is much interested in Gov. Kelly's juvenile delinquency program and is willing to devote considerable time to help steer the local juveniles in the righteous path. He is willing to devote a couple of nights a week to this noble duty.

We hear Gerry is so superstitious that he will not wear the number 13 on his athletic jerseys.

SPECIAL NOTICE A Missionary Meeting will be held at the Community Congregational Parsonage Friday afternoon at 2:30 for the purpose of organizing a Missionary Study Group. Everyone interested in Missionary work is urged to be present.

PHILATHEA NOTES On Sunday, our Easter lesson was brought to us by Mrs. Buzzard, and always the fact of the Resurrection brought comfort and joy to us all. However, our gladness was tempered by knowledge of sorrow that has come to a loved member of our group. Mrs. Mable Reynolds is passing on Sat. April 8, of her mother Mrs. VanKeuran at a hospital in Detroit. Our deepest sympathy goes to the family.

Therefore I will liken him unto the wise man, which built his house upon a rock: And the rain descended, and the floods came, and the winds blew, and beat upon the house, and it fell not: for it was founded upon a rock.
St. Matthew 7:24-25

The house of the MICHIGAN MILK PRODUCERS ASSOCIATION is founded upon a rock of confidence, efficiency and honest service to all.

Organized in 1916 for the common good of all, it has withstood the rains of criticism by detractors, floods of falsehoods by self-seekers, and the winds of destruction by "labor evangelists."

28 YEARS OF FAITHFUL OPERATION has builded a structure of capable and efficient management, well trained personnel a background of substance in capital and equipment, and an unimpeachable record which has stood against all assaults of skeptics and potential destroyers.
